Your Congressman Says . . .

I think everyone is interested in the daily lives and welfare of our forces overseas. I had a chance to see how they lived behind the lines and also in the forward areas. We were in Germany shortly behind Patton's Third Army. And by the way, the Nazis never did know where Patton and his amazing Army would strike next.

Taken by and large, I am firmly convinced the American forces were better fed, better clothed, had better weapons and equipment and better spirits and mo-

rale than any others of the Allied forces. In the more active areas of course there was hardly time for anyone to carry field kitchens and serve three hot meals a day. In those cases packaged, waterproofed rations were provided. Each package contained all of the vitamins and other forms of nutrition it is possible to pack into them. I cannot say that I would have enjoyed them as a steady diet for months—and neither would anyone else—and certainly they don't compare to a good steak or country fried chicken with all the trimmings, but they were good and they were healthful.

You know morale is a series of little things. The Army tried to provide everything such as cigarettes, cokes, reading material, and a thousand and one other things in the various post exchanges

which the boys could buy at very low prices. In addition, the Red Cross worked valiantly to provide recreation and entertainment. The camp shows provided by the United States Organization in which various famous movie stars appeared seemed to be a great boost to the morale of the boys. However, the thing they enjoyed most was—and you guessed it—mail from home. And the next best thing was the home town newspaper from which they could secure all the news of everything going on back home.

I talked with G. I.'s from Frankfurt, Germany to Casablanca, and no troops anywhere ever showed finer spirit than the American soldiers. They had some rugged going from D-Day until the Nazis finally gave up the fight. And it took the finest courage, skill, and bravery to beat the Nazi Army. The American doughboy had more ingenuity and initiative than any of the enemy. If he were thrown suddenly on his own he had the knack of taking full advantage of any possibilities provided—which wasn't true of the German Army because it had been regimented so thoroughly and so long they no longer possessed the initiative and versatility the American G. I. had in abundance.

I saw a sign somewhere over in Germany which read as follows: "Buy Bonds and Help Texas Win the War." Perhaps it sounds strange, but no matter where I was, somewhere in the neighborhood was anywhere from one to a dozen or more Texans. I honestly don't see how anybody is still left back in the Lone Star State. And I say in all candor the Texans rated Number One as fighting men.

All of us are acquainted with the dangerous but heroic actions of the 36th Division, both in the last war and this war. They fought all the way from North Africa through to the heart of Germany and every step was a tough and bloody one. No division stands higher in the respect of fighting men than does the 36th.

I landed at an airfield outside Frankfurt Germany and the first thing I saw was a Lone Star flag flying over the field. I immediately inquired from a G. I. driving a crash wagon where those Texans were. He quickly responded: "I'm one." He took me off to one side and said, "We've got a few dam yankees here but we're trying to convert them." I learned later from the Commanding Officer, a Texan and a Colonel at the ripe old age of 27, that the Lone Star flag had been made out of a blackout curtain representing the blue; a bleached mattress cover for the white, and a red Russian flag had been used to fashion a mighty pretty Lone Star

flag, which looked awfully good when you're so far away from home. These boys who flew P-47 fighter planes (Thunderbolts) had flown this flag all over Germany.

All of the boys quite naturally were interested in Texas and what had happened since they left. I filled several notebooks with messages from the boys to deliver when I got back to the States, and which I gladly did.

To give you an idea how much the Texas influence has spread, I was present when some military government officials were talking to some German civilians. I asked one German girl in the group if she spoke English. In broken but intelligible English, she replied, "No, I speak Texan."

LIBRARY NOTES

By Mrs. C. A. Burton

Light reading for hot days—as we echo the thought "O, for a book and a shady nook." The latter may not be procurable, but the former is—proof of which is the following list of new books:

For our small readers, "Mickey, the Horse That Volunteered," by Carl Click; "Little Johnathan," Miriam E. Mason; "Timothy Has Ideas," Miriam E. Mason; "Arrow Fly Home," Katherine Gibson; "The Singing Cave," Margaret Leighton; "Baby Bears," E. Charleishin; "Big Boy," Robertson; two Bobbsey Twins which are replacements—"The Bobbsey Twins Wonderful Secret," and "The Bobbsey Twins on a Houseboat." Some other replacements of the Bobbseys are on the way. Besides these there are two of those lovely little Golden Books, "This Little Piggy," and "Bedtime Stories."

For the girls and boys there are: "The Secret Pact" by Mildred A. Wirt; "Game Legs," a horse story by Arthur C. Bartlett; "Red Randell in the Aleutians," R. Sidney Bowen; "A Sea Between," Lavinia R. Dare; "Cherry Ames, Student Nurse," Helen Ware; "Granite Harbor," Dorothy M. Bird and the following from the Hardy Boys stories: "The Short Wave Mystery," "Share Road Mystery," "The Sinister Signpost," "The Melted Coins," "The Mystery of the Evening Ex-

press;" "General Jim," Arthur C. Bartlett; "Sea Bee," Henry B. Lent; "Rebecca of Sunnybrook Farm," by Kate Douglas Wiggin, a replacement of this popular story; "Tongues of Flame," Ernest L. Thurston.

And then for the grown-ups there are: "Cresceto Carnival," Frances Parkington Keyes; When Johnny Comes Marching Home by Dixon Wecker; "Unmarried Couple," Maisie Creig; "The Dragon's Teeth," Elery Queen; "Skyscraper," Faith Baldwin; "Tumbling River Range," W. C. Tuttle; "5 Postmaster," Cpl. Thomas R. St. George; "Ship to Share," William McFee; "Happy Sand," MacKinlay Kantor; "In What Torn Ship," Evelyn Eaton.

Besides these there are the following Zane Grey replacements, because my Zane Grey's have been read to pieces: "To the Last Man," "Arizona Ames," "Raiders of the Spanish Peaks," "Thunder Mountain," "Robber's Roost," "Light of the Western Stars," and "Stairs of Sand."

RED CROSS VOLUNTEER SERVICE

HOME SERVICE By Mrs. C. A. Burton

Many changes along all lines are becoming necessary as the result of war changes. One is which many of our people are interested is the annex to McCloskey General Hospital at Temple which is known as Waco Annex, situated at Waco, and still a part of McCloskey. It is a reconditioning center.

ment Camps in the Far East, telling of the Red Cross supplies sent through the years, reports of conditions at the camps, and the continued efforts which have been made and are continuing to be made for the imprisoned. It has not been possible to know much of conditions.

There is still being a good deal of confusion and speculation about the point system for discharge. After the soldiers have filled out their adjusted service rating cards, this report is sent to the Adjutant General's Office in Washington. It will take about six weeks to complete the calculations and determine necessary conditions.

The carrying out of this program will not affect the continued release of enlisted men over 42 years of age which was started recently. Discharge of these men, upon application, will continue without regard to other factors. Holders of the Medal of honor will also be eligible for release on their own request.

A very helpful step toward the war program for Donley County is the establishment of the Veterans Service Organization under Glenn Allen, who will help veterans in their plans for retraining and readjustment.

The motto of the State of Texas is "Friendship."

MOOS OF THE MOMENT
BY UNCLE BOB
of the Kraft Dairy Farm Service

Sing a song of dairymen
With pastures full of rye.
Lots and lots of green feed
Sowed in July.
When the rye is pastured,
The milk begins—and how!
Now isn't that a paying fare
To set before a cow?

An increasing number of dairymen each year include rye in their grazing program, for several very good reasons. Every spring, I get an urge to get out and get into the open. Cows get a hankering for green forage.

Rye is the answer, since it gives about the first possible good forage in early spring. Rye should be seeded in late summer, so I bring it up now to remind you to include rye as you make your late planting plans.

Rye works in perfectly in a rotation grazing program. It gives forage in the fall, when your native pasture rests. After the spring grazing, the plot can be seeded to Sudan grass, for mid-summer grazing. In Indiana, they figure this system is worth \$100 per acre—which tempts me to add "and that ain't hay."

Check with your county agent on the best rye variety for your county. Balbo is the most popular kind in many sections, but some other may be preferred in your area. There are some fine new varieties available which are proving much better than the older strains.

quicker. Maybe it is because the program was called "faster milking" at one time.

The folks who worked out this better way of milking did not intend to speed up the actual rate of operation. Massaging and washing udders with warm water starts the milk flowing. This means you'll get the same amount of milk in less time but at the same milker speed.

If you speed up the milker you may injure a teat. Such injury can lead to mastitis and create a lot of trouble. Your county agent probably has a leaflet giving complete instructions on the steps to follow in the "correct milking" process.

"Mowing" your hair may not produce better brainwork, but clipping your pastures will surely bring more dollars in milk.

The Mississippi Experiment Station has just reported on a test which showed conclusively that a pasture which is mowed will produce more food per acre than pastures in which weeds are permitted to grow without check. Weeds do their best to get the food out of the ground before grass can get it.

Mississippi mowed only part of a pasture and then checked the amount of forage grazed. The cattle took 88% of the forage from the mowed area, but only 58% from the unmowed part.

The test showed cows got 1,000 lbs. more forage per acre from the clipped area than from the unclipped. Naturally enough, the greater amount of food produced more milk.

The time to mow your pasture is about the same as the time to get a haircut—when it is needed. When weeds begin to get some height, and particularly before they start to go to seed, then is the time to get the mower into the pasture. You'll get dividends in more milk.

using the clear type of syrup and doing a good job. The wild plums of this section contain plenty of acid and are said to make the best jellies and preserves of any type of fruit. Wild grapes will be on within a short time.

That's all until the 4th of July. Don't miss the Clarendon show on the three days of celebration on July 2-3-4th. It will be worth any one's time to see the thrills and new features. There will be no dancing on the street at night. The old folks are to play ball all day and will be too tired. The young folks don't know how to enjoy themselves in this manner so that bars the street dance. The old-time 'fiddlin' will be on the 4th in which the bow draggers will compete for prizes. SOCIAL SECURITY INFORMATION

The danger involved in "swapping," "lending," or "borrowing" social security account numbers, reported to the Board occasionally, was given today by James L. Farmer, manager of the Amarillo, Texas office as follows:

1. It requires an employer to make a corrected report to the Government when the error is discovered.

2. It makes it necessary for him to correct his own records.

3. It makes it necessary for him to get the correct account number from the employee.

4. It causes loss of wage credits to the man working under the wrong number, and as a consequence may influence the amount of any later benefits.

5. It causes loss of time to the Government in making the necessary bookkeeping adjustments.

6. It causes loss of money to the Government in making investigations.

7. It causes inconvenience to everyone concerned.

If workers wish to avoid all this, they should use only their own account number and not permit anyone else to use it.

ALVERSON-HEARN

Miss Patricia Alverson and Charlie Claude Hearn were united in marriage here last Saturday evening at the First Baptist church with Rev. Hal Upchurch performing the ceremony.

The bride wore an aqua blue dress with white accessories and carried a white Bible. Her corsage was of pink gladioli. Mr. and Mrs. George Wayne Estlack attended the couple. Also present were relatives and close friends.

The bride is the daughter of Mr. and Mrs. Burr Alverson of Eureka, Montana, and the groom is the son of Mr. and Mrs. C. C. Hearn of this city. Both the bride and groom are graduates of Clarendon Jr. College.

After the ceremony, the couple went to the home of the groom's parents for dinner. Dr. K. S. Lowell and family were dinner guests also.

ASHTOLA NEEDLE CLUB

The Ashtola Needle Club met at the Club Room Thursday, June 21st. Mmes. Swinburn and Mary Myers were hostesses.

Plans were made to start piecing quilt tops. After the quilts are finished, they will be donated to various institutions such as orphans' homes and Boy's Ranch. A short business meeting was followed by the revealing of polly

annas. Everyone drew new names for the next six months.

Delicious refreshments were served, after which everyone enjoyed an hour of visiting.

One new member, Mrs. Morgan, and the following members were present: Mmes. Charlotte Word, Laura Mahaffey, Ochilee Lee, Mary Bell DeBord, Frankie McAnear, Vena Hudson, Jane Bownds, Sue Rhoades, Johnnie Poovey, Elizabeth Graham, Hazel Brandon, Julia Springer, Pearl Moore, Marie Smith, Dora Brandon, Viola Graham, Leona Henson, Lillie Knox, Mary Swinburn, and Mary Myers. Two visitors, Mrs. L. O. Morris and Mrs. Christopher were also present.

ATTENDS WEDDING IN ARIZONA

Mrs. Ruth Christie of this city returned home Friday after spending three days in Tucson, Arizona where she attended the wedding of her brother, Cpl. Roy T. Green on June 18. She was bridesmaid to Mrs. Green, the former Marie Sundler whose parents are Mr. and Mrs. Fred Sundler of Hayden Lake, Idaho.

The bride was dressed in a street dress of aqua blue with black accessories and Mrs. Christie wore a white dress with black accessories also. Each wore corsages of red carnations. The groom, the son of W. J. Green of Grossmont, Calif., and a member of the 489th Bomb Group, 844th Squadron, of Davis Monthon Field of Tucson, was returned to

the States on Dec. 12 of last year from the European Theatre of war where he was on active duty. Cpl. Green was attended by his buddy, Pvt. James Summerford, also of Davis Monthon Field.

FRIENDSHIP CLUB

The club met with Mrs. L. Ballew Tuesday afternoon at her home with eleven present, nine members and 2 guests. The president, Mrs. Lindsey, opened the meeting with the Lord's prayer in unison. Mrs. Van Eaton read the scripture lesson. Mrs. Allison gave several readings. The club decided not to meet until Sept. 11, at which time Mrs. C. E. Lindsey will be hostess for a covered dish luncheon.

The ladies enjoyed visiting and pleasant conversation until a lovely refreshment plate was served to guests. Mrs. Judson Cook and Mrs. J. H. Headrick, Club members were Mesdames Pool, J. L. Allison, J. D. Stocking, C. E. Lindsey, Van Eaton, R. O. Thomas, J. W. Morrison, and hostesses L. Ballew and Teal from Amarillo.

LIFE'S Little TROUBLES

-CAN'T SLEEP-
No need to lie in bed—toss and fret because CONSTIPATION or GAS PRES-SURE won't let you sleep. Be sensible—get up—take a dash of ADLER-I-KA
to relieve the pressure of large intestines on nerves and organs of the digestive tract. Adlerika assists old food wastes and gas through a comfortable bowel movement so that bowels return to normal size and the discomforts of pressure stop. Before you know it, you are asleep. Morning finds you feeling clean—refreshed and ready for a good day's work or fun. Caution, use only as directed. Get Adlerika from your druggist today.

FRESH FISH

Donley County Agent, Charles O. Reed, requests all owners or operators that have year round supply of water to turn in application for free government fish. This office must submit all requests to hatchery by July 15 for delivery of fish this fall.

For each surface acre the Hatchery recommends the following number and species of fish for fertilized ponds:

100 minnows, 25 Bass, 50 Crappie, and 500 Blue gill, or if only channel cat are preferred, 200 to acre are recommended.

It has been definitely proved that fertilized ponds will produce more fish of frying size stocked with correct number and species. Over population means lots of small fish.

Fertilizing ponds provides more green food and plant life for fish to eat. Ponds may be fertilized with 400 lbs. cottonseed meal to

TSCB-2 STATE SOIL CONSERVATION BOARD OF TEXAS

Notice of hearing upon organization of proposed Donley County Soil Conservation District, embracing land lying in Donley County, Texas.

WHEREAS, on the 9 day of June, 1945 there was duly filed in the office of the State Soil Conservation Board, at Temple, Texas, a petition signed by fifty or a majority of land owners pursuant to the provisions of the State Soil Conservation Law, as enacted by the 47th Legislature, known as House Bill No. 444, requesting the establishment of Donley County Soil Conservation District; and

WHEREAS, the lands described by said petition, and other lands which will be considered for inclusion in said district, are located in Donley County, described substantially as follows:

All the lands lying in Donley County, Texas.

Now, therefore, notice is hereby given that a public hearing will be held pursuant to the said

petition, on the question of the desirability and necessity of the creation of such district; on the question of boundaries to be assigned to such district; upon the propriety of the petition, and of proceedings taken under the said Act. The said public hearing will be held by the State Soil Conservation Board on the 30th day of June, 1945, beginning at 3 o'clock p. m. at Clarendon in the county of Donley, and on the 30th day of June beginning at 8:30 p. m. at Hedley, Donley County, Texas.

All interested parties are invited to attend and will be given opportunity to be heard at the time and place hereinbefore specified. State Soil Conservation Board

By V. C. Marshall, Administrative Officer

Dated this 9th day of June, 1945.

THE STATE OF TEXAS

To George G. Dubbs Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Donley County at the Court House, thereof, in Clarendon, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 23rd day of July A. D. 1945, then and there to answer Plaintiff's Petition filed in said Court, on the 5th day of June A. D. 1945, in this cause, numbered 2281 on the docket of said court and styled Ima Joe Dubbs Plaintiff, vs. George G. Dubbs Defendant.

A brief statement of the nature of this suit is as follows, to wit: Suit for divorce and custody of minor child as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the

same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Clarendon, Texas this 5th day of June A. D. 1945.

Why Phillips is Today One of the Country's Greatest Producers of Butadiene for Synthetic Rubber

The fast-rolling truck pictured above is one of the famous "Red Ball Express" that kept the supplies rolling across France in the wake of the victorious Yanks.

That American industry has been able to meet this terrific demand for all-important truck tires is due, to a great extent, to companies like Phillips.

But that truck also represents one of the biggest headaches tire men—and oil men—have had to face in this war!

For long before Pearl Harbor, Phillips scientists foresaw the possibilities of butadiene in producing synthetic rubber. As a result, when the blow fell at Pearl Harbor, Phillips great research and production facilities were ready to step into the breach.

You see, our synthetic rubber program has had to overcome more than the lack of raw rubber from the Jap-held East Indies. It has had to cope with a fantastic demand for tires for Army trucks and other vehicles.

Today, the Phillips 66 Shield stands for one of America's leading producers of butadiene for synthetic rubber... as well as a great producer of 100 Octane Aviation Fuel, and an almost endless list of newer and better products from petroleum gases and petroleum.

Why is that demand fantastic? Just imagine speeding along roads pitted by shellfire and sprinkled with shrapnel... hub-deep in mud, or rutted in frozen ridges. Under those terrible conditions, tires have become frayed and useless at an appalling rate.

Giant OWI Radios Warn Jap Enemy Doom Is At Hand

The thunder of six giant radio voices, beamed from the Pacific Coast, has been added by the Office of War Information to the guns of MacArthur and Halsey, backing up the United Nations fighting forces with an incessant outpouring of psychological warfare against the Japanese enemy. Beamed from two new high frequency stations, at Delano and Dixon, California, programs designed not only to boost the

morale of our far-flung forces, but to convince the Nipponese that the day of reckoning is at hand, soon are to issue in steady streams over the whole area from Manchukuo to the southernmost war fronts. The new transmitters, more powerful and far-reaching than any ever built by the enemy, have been rushed to completion by engineers of the OWI, two major broadcasting systems and the Federal Telephone and Radio Corporation, affiliate of International Telephone and Telegraph Corporation. The Delano station, its power raised from 50 kilowatts to 200 kilowatts, is expected to start broadcasting at an early date, unaltered present schedules. Inaugura-

Camp Shows. For that reason, this war fund agency now plans to enlarge its activity both in Europe and in the Pacific, where our forces are growing daily. At home, USO is setting up centers at all hospitals, to serve our constantly-increasing list of wounded heroes. The USO Hospital Circuit, which sends entertainers into hospital wards to play before battle veterans, also is being expanded. War Prisoners Aid is now working to alleviate suffering of our men in Japanese prisoner-of-war camps. Other war fund agencies are serving our own fighting men and our allies throughout the Pacific area. The National War Fund also is meeting the great demand for aid to children, aged persons and other war victims in liberated areas; China Relief is doing a great job among the brave people of China,

who have fought the Japs for so many bitter years; Philippine Relief is doing much to make life a little better for the people of those friendly isles, and many other agencies are bringing American aid to millions throughout the world. And to keep that aid going forward until the end of the war, another fund-raising campaign is now being planned for this fall. Once more, as in previous years, the people of the Lone Star state will be asked to "Give a Texan's Share" for our own, our allies and suffering humanity. It is a call that cannot be ignored. Mrs. Jean Smith is visiting her father-in-law, Mr. J. Fred Smith at Ft. Worth.

tion of 200 kw broadcasts from the twin station at Dixon will begin almost immediately. In the meantime, the 50 kw equipment already operating in both stations is carrying on the psychological warfare against Japan. Both stations have been on the air at 50 kw since early last winter. While there are but two stations, the one at Delano being operated by the Columbia Broadcasting System and that at Dixon by National Broadcasting Company, both for the OWI, each actually houses three high frequency transmitters. Each consists of a

200 kw and two 50 kw units. All are capable of delivering programs with great effectiveness. In each station the two 50 kw transmitters will be programmed together so that they operate as two voices carrying the same program while the 200 kw transmitter carries still another program with its vastly greater power. It is possible to send out the same program simultaneously on all three transmitters of each station, at their different frequencies to forestall jamming by the enemy. No other broadcast stations in the world will have high frequency transmitters so powerful as the West Coast pair, with the single exception of the 200 kw Bethany Transmitter, operated by the Crosley Company for OWI, whose vacuum tubes also were built by Federal Telephone.

Now that the war is over in Europe, many Texans are wondering what will happen to the many services given our men abroad through their donations to the National War Fund. The answer is that they will not only be continued, but expanded. Hundreds of thousands of our troops must remain in Europe to enforce the peace. Freed of the excitement of war, they will need, more than ever, the morale-building services of USO and USO-Dr. J. Gordon Stewart

GOLDSTON COMMUNITY FIRST TO REPORT OVER QUOTA

Cleo Woods, captain of the Goldston community in the Seventh War Loan Drive, announced this week that that community went over their quota of \$10,400. The box supper and bond rally out there last Friday night netted over \$14,000 which was a nice sum over the quota and there have been several bonds bought before the rally. The Goldston community has a fine record in all bond drives up to date, and have raised their quota first most of the time in every drive. Everyone attending the rally out there Friday night reported a very enjoyable occasion.

WAR BOND SHOW FRIDAY NIGHT VERY SUCCESSFUL

Lee Bell, manager of the Pastime Theatre, announced the first of the week that the War Bond Premiere last Friday night netted over \$3,300 in Series E War Bond sales. This is a very good record for individual bond sales as practically all of the amount sold was in individual \$25 bonds. The picture shown for the Premiere was "National Velvet", and all those seeing the picture praised it highly and had a very enjoyable evening in addition to their purchase of a War Bond which in itself is a joy to the purchaser as he knows that it will go

a long ways toward helping our fighting men on the battle front.
