Sen. Tobey's TV Tears Cause "Joke" Resolution

CONCORD, N. H. — Rep. Charles W. Tobey, Jr., with his brother Russell, both bearing placards, hit at "joke" resolution introduced in N. H. House of Rep. to allow funds for red bandanna to send their dad, Sen. Charles W. Tobey, Sr., for the tears visible in his eyes during television transcription of the Senate crime hearing in N. Y. Rep. Tobey is shown above with placard before Rep. John E. Horne, Milford, N. H., who introduced the resolution.

Band Parents Start Fund Raising Campaign

At a meeting of the Band Parents organization Thursday night it was decided that an Amateur program would be presented Thursday night, April 19. Some extra nice prizes will be awarded—\$25 first place, \$15 second place, and \$10 third place, making it well worth your time and consideration to enter.

There are no age limits, the only restriction being that you have never entertained professionally. Entries are now being accepted and anyone wishing to take part in the show is asked to contact Mrs. J. G. McAnear, phone 259-R; Mrs. Dick Vallance, phone 131-R, or Mrs. Harold Longan, phone 235-R. All entries must be made by Monday, April 16.

A new Servel Refrigerator will be given away the night of the show and every one will be given an opportunity to participate.

For several years the Band Parents organization has had no assistance, financially, from any source except the Hot Dog stand at football games, cake walks, and rummage sales. This year the Hot Dog stand has been the only source of income.

On the other hand there are several obligations to be met each month. The organization pays a part of the band master's salary EACH month, uniforms are to be kept up, music to be bought and transportation paid for when the group is taken by bus for any performance.

You are invited to take part in the show or be on hand for an evening of full entertainment. Help keep your Band one to be proud of!

NEW YORK, N. Y.—Frank Costello leaves the witness chair for the second time in as many days, and walks out of the Kefauver Senate Crime Investigating Committee. His attorney, George Wolf, is shown at right.

New Well To Be Drilled Near Goldston

Actual drilling is expected to start within the next 10 days on a new wildcat well one-half mile east of Goldston on the Dick Eichelberger farm. The slush pit was dug the first of the week and it was understood that the rig had been moved in Wednesday. The drilling contractor is said to be Doswell and Associated, the same parties that drilled the well on the C. T. McMurtry ranch. This well will be an offset to the old AT well that was supposed to have had a gas showing a number of years ago. It is believed that the purpose of the new well is to try and hit this same gas formation.

Services Held Sunday For E. L. Lewis

Funeral services were held Sunday afternoon at the First Baptist Church for Earnest Luther Lewis with Rev. H. M. Vardeman and Rev. L. A. Sartain officiating.

Mr. Lewis, age 71 years, passed away last Friday in an Amarillo hospital following a quite lengthy illness. He had been a resident of Clarendon the past six years and had been a resident of Donley County for 44 years. He was a member of the First Baptist Church, the Masonic Lodge here and the Shrine at Ft. Worth.

Among survivors are his wife, Mrs. Maggie Lewis; a son, Carroll Lewis of Clarendon; and six daughters Mrs. W. I. Batson and Mrs. Charlie Robertson, Amarillo; Mrs. Rex Reeves, Canyon; Mrs. McHenry Lane, Pampa, and Mrs. Lon Howard, Anton.

Also surviving are two brothers, W. B. Lewis, Dallas, and John F. Lewis, Denver; four sisters, Mrs. J. F. Toler and Mrs. F. I. Toler, Dublin, Texas; Mrs. Owen Lester, Weatherford, and Mrs. Lydia Warren, Roaring Springs; and 14 grandchildren, and 11 great-grandchildren.

Funeral services were held at the Citizens Cemetery with the Murphy-Spicer Funeral Home in charge of arrangements.

BAND PARENTS TO MEET

Parents of children participating in either the band or orchestra or both are asked to meet Tuesday night at 8 o'clock in the Band Hall. You are urged to be present as there are a number of business matters to be discussed at that time that should be of interest to you.

Remember the time—8 o'clock Tuesday night!

STILL MORE COMMENT NEEDED ON UNCLE ZEB

We have received a number of requests for the continuance of the column headed "Plowin' Out The Corners" by Uncle Zeb, but at the present time the number is still short to justify continuance of the column unless more readers drop us a card and let us know what you think. Sit down right now and drop us a card if you want it to continue.

BAKE SALE FOR SATURDAY

The Mothers Club is sponsoring a Bake Sale to be held at the Household Supply Co., Saturday, March 24, beginning at 10 a. m. You are invited to come by and shop with them for your Easter pastries. Prices will be reasonable.

If you have a preference for a particular kind of pie or cake, call Mrs. T. G. Wiley, Phone 425, and arrangements will be made to have that kind ready for you.

Mrs. Lucille Jenkins and daughter, Mrs. Jack Babcock and Billy Jack of Groom visited the week end in the home of Mrs. Jenkins' brother, Mr. and Mrs. Geo. McKee.

Cal Farley, founder and president of Boys' Ranch, explains the Ranch's proposed expansion plans. He holds a model of the type of units to be built, housing 24 to 30 boys. The chart in the background shows the future building area. The long-range program calls for several of these units and a vocational school.

CITY CAFE UNDER NEW MANAGEMENT

Mr. and Mrs. Kenneth Reed are announcing in this issue of the Leader their purchase of the interest of Mr. Roy Maberry in the City Cafe. Mr. and Mrs. Reed are old hands at the business and announce that Aunt Iva Davis will be in charge of the cooking. The City Cafe is located first door north of the Farmers State Bank.

PRESBYTERIAN CHURCH SERVICES SUNDAY

Dr. Cecil H. Lang, Executive Secretary of the Dallas Presbytery, will be present at the Presbyterian Church Sunday morning to deliver the Easter Sermon at the 11 o'clock hour. Sunday school will be held at the usual time.

Sunday night at 7:30 the children of the church will present an Easter program. They have been working on this program for some time and it is expected to be of special interest. You are invited to attend these services.

Services Today For Mrs. Ann Roberson

Funeral services have been set for 2:30 this afternoon for Mrs. Magnolia Ann Roberson at the Church of Christ with Robert Copeland, local minister, officiating.

Mrs. Roberson, age 84 years, passed away at her home 2½ miles northeast of Clarendon Tuesday night after a quite lengthy illness. She had been a resident of Donley County 48 years. Her husband M. F. Roberson preceded her in death 19 years ago.

Survivors include three sons, Tom Roberson of Amarillo, Frank Roberson, of Colorado Springs, Charles Norrid, Mador; two step-sons, Walter Roberson, Dodson and Roy Roberson, Clarendon; two daughters, Mrs. Mary Carroll, Amarillo and Mrs. Etta Graham, Durango, Colo., and one step-daughter, Miss Minnie Roberson, Clarendon; one sister Mrs. Callie Roberts, Burk Burnett; one brother, Tom Flowers, Frederick, Okla., 17 grandchildren, 16 great grandchildren, and one great great grandchild.

Funeral services will be held at the Citizens Cemetery with the Murphy-Spicer Funeral Home in charge of arrangements.

Burial will be in Citizens Cemetery with the Murphy-Spicer Funeral Home in charge of arrangements.

Mrs. Bernice Moreland and baby of Plainview arrived Thursday for a visit with her parents, Mr. and Mrs. Murrell Rattan.

NUMBER OF SCHOOL TRUSTEE CANDIDATES INCREASES

There are now seven men in the school trustee race. Two of this number will be elected to fill the two positions on the board election day April 7th. The name of G. W. Bradshaw was filed by petition this week. The other candidates in the race are Bud Hermesmeier, Roy Ferris, Homer Estlack, Claude Moore, Clyde I. Price and J. L. Black (colored). Mr. Price is a candidate for re-election. Walter Clifford is the other retiring member of the board.

Chas. T. Lux, RMA Executive Speaks To Local Businessmen

Stimulation of trade through extension of credit to sound risks was described last Thursday night as the primary function of the Retail Merchants Association at the City Hall by Charles T. Lux, executive vice-president of the Retail Merchants Association of Texas.

Lux spoke to a number of Clarendon businessmen. His address was sponsored by the Retail Merchants Committee of the Chamber of Commerce, and he was introduced by Frank Phelan Jr., president of the local organization.

Lux outlined the three main branches of the RMA—the credit bureau, the collection department and the local units.

He said the credit bureau is the primary function of the organization and listed six services performed by it as: (1) rendering of reports on credit applicants; (2) operation of a security system to guard against hot checks and other fraudulent schemes; (3) checking on changes of address; (4) publication of a monthly bulletin; (5) service as a public relations center; and (6) operation of a pre-collection service.

Further meetings in this regard will be held within the near future just as soon as material is received from the state office in Austin.

ALLEN BUYS INTEREST IN MAGNOLIA STATION

Announcement is being made in this issue of the Leader that Bill Allen has purchased the interests of B. D. Buckley in the Magnolia Service Station and will be associated with Joe Bowns, the present partner, in the operation of the business. Mr. Allen has been employed by Frank Hommel, local Magnolia dealer for several years. Mr. and Mrs. Buckley are moving back to their former home in Childress.

Clarendon To Have 4th July Celebration

\$1200.00 Needed To Reach Donley County Red Cross Quota

The people of Clarendon are showing their awareness of their responsibility for mobilizing for defense by their response to the Donley County Red Cross Chapter's \$1600.00 fund campaign, according to Carl Allmond, campaign chairman.

"Those who have made their contributions to help in the terrible job of mobilization facing our nation have given \$400.00," reported today. "The task we now face, in order to bring the campaign quickly to a successful end, is that of giving more people the opportunity to give their support. Volunteer solicitors have done a good job, but much remains to be done. Concentrated effort must be made to call upon all those persons not yet given the opportunity to contribute, for the Red Cross is all of the people."

"The American Red Cross has been given a large share in the responsibilities of organizing the civil defense of our country," Allmond pointed out. The government has asked that the Red Cross provide first aid training for millions of persons and train hundreds of thousands in home care of the sick and injured. Another big training task is providing sufficient Red Cross volunteer nurses' aides to assure hospitals of the help their regular staffs would need in the event of widespread, enemy attack.

"The armed forces have asked the Red Cross to use its resources to collect blood to save the lives of battle-wounded servicemen. This is in addition to providing blood to hospitals and clinics in areas served by Red Cross regional blood centers here at home. Red Cross Disaster Service is assisting state and federal authorities in their civil defense planning for mass feeding and shelter, a field in which the Red Cross has no equal.

"In view of the task ahead, a task performed for the benefit of every citizen of Donley County, we must complete our campaign quickly and successfully. A great responsibility rests upon the solicitors and the people of the community."

Mr. and Mrs. Chuck Parmer of Bakersfield announce the arrival of a little daughter, Karen Lavon, Saturday, March 17. Mrs. Parmer will be remembered here as Zada Anderson, daughter of Mr. and Mrs. Will Anderson.

At a meeting of the members of the Roping Club and other interested individuals at the County Court room Tuesday night it was definitely decided to have a Rodeo and Celebration here July 4th. This happens to be Clarendon's 75th birthday and an extra large celebration should be in store for the people of the Panhandle area.

New plans in regard to the rodeo ground were presented and it was the decision of the group to enlarge the present roping grounds and facilitate the grounds to handle a large crowd and take care of any side issues that might be incorporated such as free barbecues, etc. The rodeo pens at the football field will be moved to the roping grounds this coming week.

The group figured it was time for Clarendon to come to life and get their celebration plans in shape now for this year, or forget the idea of ever having anything worthwhile again.

Committees were named in preparation for the celebration. President of the organization is Eldred James and the Secretary-Treasurer is Pud Bain.

Finance Committee: Eldred James, Pud Bain, Pat Slavin, Skeet Brown, Fontayne Elmore, Cleo Woods, Joe McMurry, Lloyd Shelton, W. J. Lewis Jr., Carroll Lewis, Alfred McMurry, Bill Cushing, Jack Brooks, Rolle Brumley, Frank Phelan Jr., Bud Knorpp and Pete Kunz. Brumley is chairman and Slavin is assistant chairman.

Rodeo Committee: Bob Head, Fontayne Elmore, Reagan Bain, Lee Shaller and Pat Slavin. Pat is chairman of this committee.

Grounds Committee: G. W. Bradshaw, chairman; Lu McClellan and R. E. Drennan.

These committees listed above are expecting cooperation from the entire town and county and it will take everyone to put a good celebration over. No one is figuring on making a lot of money, but it is the desire to revive the old celebration attitude and have a grand July Fourth get-together here in Clarendon. For many, many years Clarendon has been known as the celebration spot for the Fourth and this group of men voiced their opinions to continue it that way.

Here's official proof of Studebaker gasoline economy!
In the 1951 Mobilgas Economy Run...
three Studebakers finished 1st, 2nd and 3rd in actual miles per gallon among 26 cars entered in standard classes
IN the 1951 Mobilgas Economy Run, three Studebaker 4-door sedans—Champion, Commander V-8 and Land Cruiser V-8—successfully defended their reputation for stand-out gasoline mileage. The cars competed over a tortuous 840-mile course from Los Angeles, via Death Valley and Las Vegas, to the Grand Canyon, at speeds averaging more than 40 miles per hour. The Studebakers, piloted by experienced drivers under A. A. A. Contest Board rules, made operating history with averages of 28.6, 28 and 27.6 actual miles per gallon. Each Studebaker had overdrive, optional at extra cost—and used regular, not premium, gas! Come in and see cars just like these record-making thrift stars on our showroom floor.

Adobe Walls Area Council Scouters To Mineral Wells

A large delegation of Scout Leaders from this section of Texas will be on their way to the Region 9 Annual Boy Scout Meeting to be held in Mineral Wells, Texas, on April 8th and 9th, according to R. J. Rust, Promotion Chairman for the event.

Mr. A. W. Paris, Adobe Walls Area Council President, will lead the contingent as they go to Mineral Wells in large planes furnished through the courtesy of the Phillips Petroleum Company and the Cabot Company. It is expected that upwards of 40 Scouters from this area will attend.

Region 9, Boy Scouts of America consists of Oklahoma, Texas, New Mexico, and portions of Arkansas, Arizona, and Utah. The Annual Meeting is always a highlight looked forward to by all active Scouters. This year at Mineral Wells, Dr. Arthur A. Schuck, Chief Scout Executive of the United States, is to be the principal speaker at the banquet

on April 9th. Also conducting some portions of the program will be another National figure in Scouting, Mr. R. Urner Goodman, Director of Program Division.

Presidents of all the Councils in Region 9 are to be honored by a dinner at 6:30 P. M. on Sunday evening, April 8th with Dr. Schuck as the guest of honor. On Monday morning a number of special breakfasts have been arranged; one honoring the Silver Beaver Award Holders, another for the National Jamboree Reunion, and still another for Wood Badge Men.

The general program will consist of various training groups led by forceful men in Scouting from all parts of the country. Special emphasis will be placed on Membership, Program, Finance and Civil Defense.

The Adobe Walls Area Council, 13 Panhandle of Texas counties, and 3 Oklahoma Panhandle counties, are fortunate in that the leaders in the Council, under the direction of Paul Beisenherz, Council Scout Executive, are among the most active Scout Leaders to be found in all Scouting. They are the business leaders, industrialists, public office holders, and ever ready to drop some time from their busy schedule to give Scouting a helping hand. This fact is evidenced by the fact that Scouting in this Council has shown a tremendous gain over the past few years, and the motto just established for the Council is "5200 Boys in Scouting by '52".

All Scouters who have not made reservations for the Annual Meeting should see their District Chairman, and plan to be with this group on April 8-9, at Mineral Wells.

Mrs. John N. Plaster and little daughter Cynthia of Pampa spent Wednesday and Thursday in the home of her parents, Mr. and Mrs. Clyde Gilbert.

Mr. and Mrs. W. M. Cross and children visited her parents, Mr. and Mrs. D. T. Smallwood at Brice Sunday.

Blevins-Carrecek

White Carnations, blue iris and white stock featured the decorative setting for the marriage of Euba Fae Blevins, daughter of Mr. and Mrs. George Hillis of the Midway community, to E. M. Carrecek, son of Mr. and Mrs. Carrecek of Childress.

Rev. O. C. Evans, pastor of the Lakeview Methodist Church, read the single ring service, Saturday evening, March 17, in the home of the bride's parents.

Attending her sister-in-law as matron of honor was Mrs. Tommy Hillis of Lubbock. She wore a beige dress with matching accessories and a corsage of blue cornflowers and pink rose buds. Mr. Carrecek, brother of the groom was best man.

Given in marriage by her father, the bride was attired in a dress of navy blue with matching accessories. She carried a nosegay of pink rose buds.

An informal reception honored the bridal couple after the ceremony. The table was laid with a lace cloth, centered with an arrangement of white carnations and blue iris. The three tiered wedding cake was decorated in blue and white.

Mrs. Carrecek is a graduate of West Texas State College. She also attended a Denton College. At the present time she is teaching at Wheeler.

Mr. Carrecek served 5 years in the Armed Forces after attending school in Childress. He is now employed by the Phillips Oil Company.

After a short wedding trip, the couple will be at home in Borger.

Mayor Emphasizes Importance of Local Red Cross Drive

"The American way of life is possible because our people are willing to accept the responsibilities that make democratic ideals workable," Mayor Major B. Hudson said today in urging support of the Clarendon Red Cross Chapter's "Mobilize For Defense" fund campaign.

"You and your neighbor share your Red Cross chapter's civil defense responsibilities, accepted at the request of our government, for you and your neighbor are the Red Cross," Mayor Hudson stressed. "Your responsibilities here in Clarendon, added to the responsibilities of the people all over the nation, constitute a vital factor in preserving our American way of life."

Mayor Hudson called attention to the fact that our armed forces are rapidly increasing, creating more demand for Red Cross services at naval and military installations and hospitals.

"Family and personal problems are created by these men entering service, and emergencies arise back home, thousands of miles from where men are stationed," the mayor explained. "Your Red Cross chapter right here in Clarendon is able to get in contact with your serviceman, no matter where he is stationed, more quickly than you can personally. The Red Cross worker at his post, or overseas location, is able to take the proper steps to help meet the emergency or solve the problem, for he is officially recognized by military authorities and so is the information your chapter here provides.

"To just meet these responsibilities arising from the world situation would be a giant task," Mayor Hudson declared. "To meet this need so vital to you, and at the same time carry on its regular, peacetime-need services, the Red Cross is making one of the greatest efforts of its history. This effort depends upon the support of not just part of the people, but all of the people."

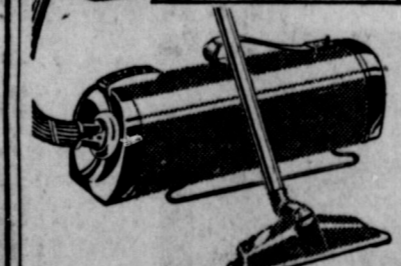

Mr. and Mrs. J. C. Longan and daughter Peggy of Pampa spent the week end with his mother, Mrs. Edith Longan and other relatives of this section.

Texas Farm Bureau To Support New Rural Road Bill

Representative Jim Sewell of Navarro county has introduced a rural road Bill, (H. B. No. 669) that will have the full support of the Texas Farm Bureau Federation, J. Walter Hammond, president of the organization, announced today. The bill embodies the federation's philosophy for a rural road program that will meet the needs in Texas, Hammond said. Sewell's bill has five co-authors, namely: Representatives D. B. Hardeman, Grayson and Collin counties; Bert Hall, Johnson county; Henry Lehman, Milam, Burleson and Lee counties; Douglas Crouch, Denton county; Cloyd Young, Cass county.

The Sewell bill proposes to raise approximately \$30,000,000 a year by placing a "Gathering Tax" of one cent per 1000 cubic feet on natural gas. The money will be divided 1/4 to public schools, 1/2 to the counties for the building and improvement of rural roads, and 1/4 will be distributed among every incorporated city, town and village on the basis of population according to the most recent federal census.

Signers of the bill specified the tax levy as a "gathering tax" patterned from the one cent per thousand cubic feet "gathering tax" which Louisiana has levied in recent years. The bill, Hammond said, will accomplish three primary aims:

(1) It will allow the continuation of the direly needed farm-to-market and rural road program. One-half of the estimated \$30,000,000 which provisions of the bill will provide, will be sent to the counties for the building and improvement of rural roads, starting with school bus and rural mail routes. County judges and commissioners will authorize the

spending of the money, with specifications to have the approval of a licensed engineer or the Texas Highway Department. (2) One-fourth, or about \$7,500,000 will go to some 700 incorporated cities, towns, and villages that are facing serious financial difficulties. They will be allowed to use the money for the building and maintenance of streets.

(3) It will insure that the people of Texas, living both in town and on the farm, will get more benefits out of our vast resources of natural gas which are rapidly being expended.

Strong opposition to the Sewell bill may be expected from the powerful natural resources lobby, Hammond predicted. He called on county Farm Bureaus throughout the state, county judges and commissioners, and the folks in the cities to lend support to the measure.

Those visiting in the home of Mr. and Mrs. R. C. Bingham Thursday afternoon were Mrs. Bingham's brother, Mr. and Mrs. J. R. Rudd of Borger, a nephew, Mr. and Mrs. C. L. Rudd and daughter Janet Kay, also Mrs. Rudd's mother, Mrs. Chapman, all of Madison, Wisconsin.

TITANIUM IS SUBJECT OF SPOT WELDING

AUSTIN — Titanium—a metal slated for an important role in future jet aircraft and guided missiles—is the subject of spot welding experiments by University of Texas scientists.

They are developing techniques for welding titanium and its alloys to stainless steel and other alloys.

"Titanium is heavier than aluminum but as strong as some heavier steel alloys and has a higher resistance to heat and corrosion than either aluminum or steel," M. L. Begeman, mechanical engineering professor and project director, said.

Boys' Ranch Of The Future

Visions of a Boys Ranch for 1,000 to 1,500 youngsters with a fighting chance to grow into worthwhile American citizens has been put into words by Cal Farley, founder and president of the famous Boys' Ranch near Amarillo, Texas.

"We must expand", Cal said. "It is forced upon us by torn homes. Every day requests come to our office asking us to take boys."

A recent case cited by Farley was that of a woman who came to him, pleading for the Ranch to take her 14-year-old son. The father was gone, the older children married, and the youngster was "beginning to get into trouble." The mother had been told she had cancer and had six months to live. She wanted her son cared for.

"What can you do?" Farley asked. "We have five boys sleeping in the gymnasium now, but can you tell a woman like that there isn't a place for her son? The only answer was to make a place for him."

The future plans call for permanent "24-boy" homes of the unit type, situated in the area just east of the present buildings. Long-range planning includes 20 of such units. Each of the buildings, furnished, will cost approximately \$30,000, but the Ranch founder pointed out that they probably could be built for less because of donations of labor and materials, such as have been given in the past.

Under the new program, the expansion area would be dedicated to the use of the older boys, and would house the high school and vocational school, leaving the present area for handling the smaller boys.

Right now, it is necessary that one unit be started as soon as possible in order to ease the crowded conditions. Later on, another unit and part of the vocational school building will be built.

Plans and sketches have already been received from the

Fifty Year Architectural Class of Texas A&M. The class has made the planning of the future Ranch buildings a term project and the boys are donating their services. It is hoped that ground for the first new unit will be broken within the next 30 to 60 days.

Unfolding the story of the costs of maintaining the present establishment that now cares for 137 boys, Farley said that the ultimate expansion was limited only by the funds and facilities which are made available to the Ranch through donations from fine folks who want to help the boys for whom there is no program.

Mr. and Mrs. A. H. Moore went to Paris, Texas Sunday afternoon, where they visited her mother and other relatives. Monday night they heard the evangelist, Billy Graham, preach at Ft. Worth, returning home Tuesday.

Mr. and Mrs. Elmer Kennedy, Mr. and Mrs. Alvin Mace and little son, and Mr. and Mrs. Buddy Jones, all of Farwell, and Mrs. Ileta McBryant and son, of California, visited in the W. M. Mace home at Lelia Lake, Sunday. Mrs. McBryant remained over for a few days visit.

Bertie Leathers was here from Lelia Lake, Tuesday, attending business matters.

"I got the story on 50,000 Miles-No Wear and changed to New Conoco Super Motor Oil"

says Bill Smith, Photographer, San Antonio, Texas.

"WHEN A MAN BUYS A USED CAR from us, we want him to get his money's worth in performance and operating cost. That's why we put new Conoco Super Motor Oil in all our cars and tell the buyer to use nothing else," says H. C. Wheeler, Wheeler Motor Company, Denver, Colorado.

"I RECENTLY CHECKED A CAR that had gone 39,000 miles on Conoco Super Motor Oil," reports Joe Prestidge, Chief Garage Mechanic, St. Paul, Minnesota. "I found the connecting-rod journals were within five thousandths of an inch of the original factory specifications. I've never seen so little wear!"

"50,000 MILES-NO WEAR!"—PROVED HERE:

After a punishing 50,000-mile road test, with proper crankcase drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence... in fact, an average of less than one one-thousandth inch on cylinders and crankshafts.

AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000! This test proved that new Conoco Super, with OIL-PLATING, can make your car last longer, perform better, use less gasoline and oil.

Gabie Betts Burton Library Notes

By May L. Prewitt

We have a few new books of interest. "River of the Sun" by Ullman is a superb novel "which blends excitement and adventure with intellectual stimulation." The setting is in the Amazon Valley. The reviews are quite generous in their praise of this novel. It is an impressive succession to "White Towers" which we have had for some time. Then too, most of you perhaps saw the show here recently.

"The Art of Peal Happiness" by Dr. Norman Vincent Peal was recently dedicated in memory of Dr. Stuart Condon. It is an asset to our shelves and the type of book that Dr. Condon would have enjoyed. Our memorial gifts are selected for their usefulness to the Living, and consideration for what those who have passed on would have desired for the readers.

I read that some one had just reviewed Esther Warner's "New Song In a Strange Land." The setting is in Africa, and this was a book club edition in 1948. It is an adventure of the spirit in an ancient country, an adventure that will live in the readers' memory as his own. Two reviews were on this program which used Africa as the theme.

A Library friend mailed us a donation this week that will make it possible to purchase some "dreamed of" books that

appeal to some of our patrons who enjoy non-fiction. These readers are frequently neglected when we make our orders, as the others are greatly in the majority. He also gave us "American Express, a Century of Progress" by Alden Hatch. It is the story of a great international service organization from 1850 to 1950. Our Library is gradually building up in service preparation for your usefulness, and pleasure.

FARM NEWS

From the County PMA Committee

CROP ROTATION AIDS DEFENSE

More feed per acre, particularly proteins, can be produced in cereal crops if the crops are rotated and the legume in the rotation is given the lime and phosphate it needs. Rotation produces the added protein by increasing the percentage in the grain as well as the total amount of grain.

Protein is usually the most expensive part of the feed for animals and therefore the part which is usually short in balancing livestock rations. Not enough is produced in this country to satisfy the nutritional needs of each kind of livestock. Any method that will increase the amount of protein will be particularly welcome, in view of the need for larger farm production to meet defense needs.

How much rotation will increase the amount of protein in oats and corn is indicated by the yields on the Morrow plots of the Illinois Experiment Station. These experiments have been carried out for a longer time than any place else in this country. Over a series of years, when

corn and oats were rotated, the yield of oats was 30 bushels to the acre, of which 116 pounds was protein. When clover was included in the rotation, the yield went up to 53 bushels to the acre, and 226 pounds of protein. When lime, manure, and phosphate were put on the land, the oats yield went up to 72 bushels to the acre and 334 pounds of protein. Liming and fertilizing the clover increased the yield of protein in the oats nearly three times.

Much the same results were obtained with corn. When corn and oats made up the rotation, the corn yield was 30 bushels to the acre, of which 146 pounds was protein. Adding clover to the rotation increased the corn yield to 54 bushels and the protein in production to 280 pounds. Putting lime, manure, and phosphate on the land before the clover jumped the corn yield to 96 bushels to the acre and to 570 pounds of protein. Liming and fertilizing the clover increased the yield of protein in the corn nearly four times.

These are some of the reasons that we are suggesting to farmers that they continue their rotations. No one knows how long high defense production may be needed, and the rotation of crops will help get that production. Of course there are many other

points in favor of rotation, such as the prevention of erosion in which everyone is interested.

USDA URGES CONSERVATION OF BURLAP AND COTTON BAGS

Conservation and maximum reuse of burlap and cotton bags and other products made from these materials, to help offset an expected tight supply situation, was urged today by the U. S. Department of Agriculture.

"Maintaining adequate supplies of materials needed in the production and handling of agricultural commodities is one of our most important jobs in the defense effort," said Secretary of Agriculture Charles F. Brannan. "A great deal depends upon the success of our efforts to insure continuing abundance of food and fibre.

"Bagging and related materials are high on the list of essentials. Serious short ages of bags would place obstacles in the way of the all-out production program, just as in the case of other strategic materials.

"It is therefore extremely important that farmers and other handlers of agricultural commodities take all practical steps in conserving and re-using essential burlap and cotton products. Every bag destroyed or not used is an economic waste which

we cannot now afford."

Main street is but the business end of a country road.

Only 18 percent of the people of the Nation are engaged in farming. The other 82 percent are country ladies and gentlemen living in town.

Man is just beginning to use science to help him study the effect of soil and its products on the human body, on industry, on national and international relations.

FORMER RESIDENT MOVES TO BROWNFIELD

Mr. and Mrs. Bob Land and girls of Memphis, formerly of Clarendon, will move within the near future to Brownfield. Mr. Land is with the Farm Security Administration and was transferred a few weeks ago. He has followed this line of work for a number of years.

Mrs. Land and the girls will join him at Brownfield as soon as suitable living quarters are available.

Vol. 2 No. 24 LELIA LAKE SCHOOL NEWS March 22, 1951

PRESS CLUB MEMBERS ATTEND ANNUAL MEETING

The Lelia Lake High School Press Club attended the annual press club convention, Saturday, March 17. The meeting for Pan-handle Press Club members was held at West Texas State College in Canyon.

Several students who were planning to attend the convention were unable to do so because of the mumps epidemic that is going through the Lelia Lake School.

There were seventeen students

who made the trip. They heard many lectures that they feel will help them in their coming years of newspaper work. They went through the college and visited the museum.

It was a very educational trip and the students think they have learned many new things that will help their newspaper to be better.

EIGHT MUMPS CASES REPORTED IN SCHOOL

Students of the Lelia Lake School are suffering a small epidemic of the mumps. There have

been eight known cases reported. These are Bobbie Nell Seago, Janiece Christal, Beckie Shields, Patty Shields, Jane Ruth Hill, Othelia Bowling, Norma Murphy, and Terry Monk.

The students are recovering nicely, but most of them have been quite sick.

INTRAMURALS POSTPONED BECAUSE OF MUMPS

The Intramural Round Robin Tournament that the volleyball teams of Lelia Lake had planned, has been delayed by a mumps epidemic.

As soon as the students recover, the tournament will continue as planned.

MUSICAL DELAYED BY SICKNESS OF SINGER

The Musical has been delayed because some of the singers are absent with the mumps.

THE DONLEY COUNTY LEADER

Bobbie Seago, Terry Monk, and Janiece Christal have been sick and Marilyn Butler was absent Friday.

The date for the musical has not been set but it will appear in this column.

BOYS' INTRAMURALS DIVIDED IN THREE GROUPS

The Lelia Lake boys have been divided up into three groups to play each other in a tournament. The freshmen in one group, the juniors in one group, and the seniors and sophomores in the other. The team winning the most games will be awarded a trophy.

Those playing on the freshmen team are: A. K. King, Troy Guy, Benny Hill, Cavin Webb, Jimmy McDaniel, and Eddie Floyd. The junior team consists of Wilcey White, Harold Gerner, Woodie Vardeman, Clarence Armstrong, Arthur Shields, Mac

Stavenhagen, and Terry Monk. The senior and sophomores are made up of Keith Reed, J. L. Williams, Benny Darnell, Kenneth Wilkinson, Robert Murphy, Ralph Ayers, and Billy Scott.

SKIRTS FINISHED BY HOME ECONOMICS GIRLS

The Lelia Lake Home Ec. I girls are finishing their first projects which were skirts. Several of the girls wore their skirts to the Press Conference in Canyon Saturday.

The next project to be made in class by the students will be a tailored blouse with set in sleeves and a convertible collar. Cotton materials such as poplin, chambray, and broadcloth will be used.

BOOK REPORTS ASSIGNED TO ENGLISH STUDENTS

Mrs. William J. Lowe, the English teacher of Lelia Lake, has made assignments to the High School students concerning the type of books on which to report.

The freshmen will make reports on five short stories, the sophomores on novels, the juniors on three act plays, and the seniors will also report on novels.

RALPH AYERS RECEIVES EYE INJURY FROM CANDY

A very unfortunate event took place during the boys' gym period Wednesday. There was a hard, round piece of candy and the boys were throwing it.

One of the boys accidentally hit Ralph Ayers in the eye. Everyone thought possibly it was put out, but it wasn't. He is having to wear a patch over it and put ointment on it every two hours.

ELECTRICAL TIPS FOR THE HOME

If You Expect to Spend Most of the Summer at Home . . .

DON'T think you have to swelter indoors simply because there are no facilities on the porch or terrace for ironing, cooking, sewing, night-time recreation and entertaining.

DO transform the porch or lawn into an outdoor living area by installing handy outlets and circuits for convenient use of iron, roaster, table appliances, lamps, radio, sewing machine, etc.

Take a look at the only trucks with Fluid Drive!
NEW DODGE
"Job-Rated" TRUCKS

The trucks that do the most for you!

Makes driving extra easy!

You get smooth-as-silk performance with gyrol Fluid Drive—a Dodge exclusive available on 1/2, 3/4, and 1-ton models. This proved fluid coupling between engine and clutch eliminates jerky starts, helps prevent stalling. Loaf along in high, slow down in traffic, speed up again—all without touching the gearshift or clutch!

More convenience on hills!

Fluid Drive lets you stop on an upgrade and hold your Dodge "Job-Rated" truck in gear, simply by slightly speeding up the engine. And on a downgrade, Fluid Drive gives you effective engine braking. Under all driving conditions, Fluid Drive is easier on both driver and truck.

New safety on slippery roads!

With Fluid Drive, there's less wheel-spinning, less tendency to skid on wet or icy pavements. You can start in higher gear, apply power gradually and get away smoothly and safely. Traction is applied more efficiently. With less wheel-spinning, tires last longer, too—another money-saving advantage of Fluid Drive!

Lengthens truck life!

The "cushioned" power of Fluid Drive saves wear and tear on over 60 vital parts—including clutch, transmission, rear axle. This insures longer truck life—lowers your upkeep costs. And trade-in value stays high! Ask us for interesting booklet on gyrol Fluid Drive.

Better load protection!

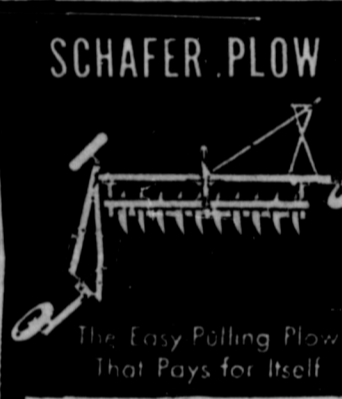

Fluid Drive assures extra-smooth starts . . . protects your load. There's less chance for cargo to shift—less chance of breakage or other damage.

WHAT "JOB-RATED" MEANS TO YOU
A Dodge "Job-Rated" truck is engineered at the factory to fit a particular job . . . save you money . . . last longer.

Every unit from engine to rear axle is "Job-Rated"—factory-engineered to haul a specific load over the roads you travel and at the speeds you require.

Every unit that **SUPPORTS** the load—frame, axles, springs, wheels, tires and body—is engineered right to provide the strength and capacity needed.

Every unit that **MOVES** the load—engine, clutch, transmission, propeller shaft and rear axle—is engineered right to meet a particular operating condition.

HADACOL Is Requested By Nurses

HADACOL Helps Folks Suffering Deficiencies of Vitamins B₁, B₂, Niacin and Iron.

Registered nurses, in increasing numbers, are showing a keen interest in HADACOL and in the results that are being secured with this great modern formula. Requests have been received from many of these nurses for professional samples of HADACOL, and many of them indicated that they recommend the HADACOL formula to patients who are deficient in Vitamins B₁, B₂, Iron and Niacin.

Mrs. L. D. Lovett, a registered nurse who lives at 2205 Walnut St., Philadelphia 3, Pennsylvania, says this about HADACOL:

"I was down in Florida for the past month. I had no energy so several members of my family told me to try a bottle of HADACOL. My sister, who is a nurse, was taking a bottle so I tried a bottle. I feel fine since taking HADACOL. I do private duty here. I am 50 years old."

HADACOL can help you if you suffer such deficiencies. Ask your druggist for HADACOL today. Only HADACOL gives you that "Wonderful HADACOL feeling."

Put the finishing touch on your Spring cleaning

LIGHT UP WITH RIGHT SIZE AND TYPE OF ELECTRIC LAMP BULBS!

Why slave to get your house spic and span for spring if it is not going to look its best when you are through? Empty light sockets, undersized bulbs, and outmoded lamps can leave your rooms still looking dingy and unattractive after all of your work. Make your house sparkle and shine as it has never done before! For only a few pennies a day you can light your whole house with the newest and most efficient light bulbs—beautify it at a minimum cost with modern, efficiently engineered lamps.

* A representative of our Home Lighting Service will be glad to assist without cost or obligation to you in solving your home lighting problems. Just contact our nearest office.

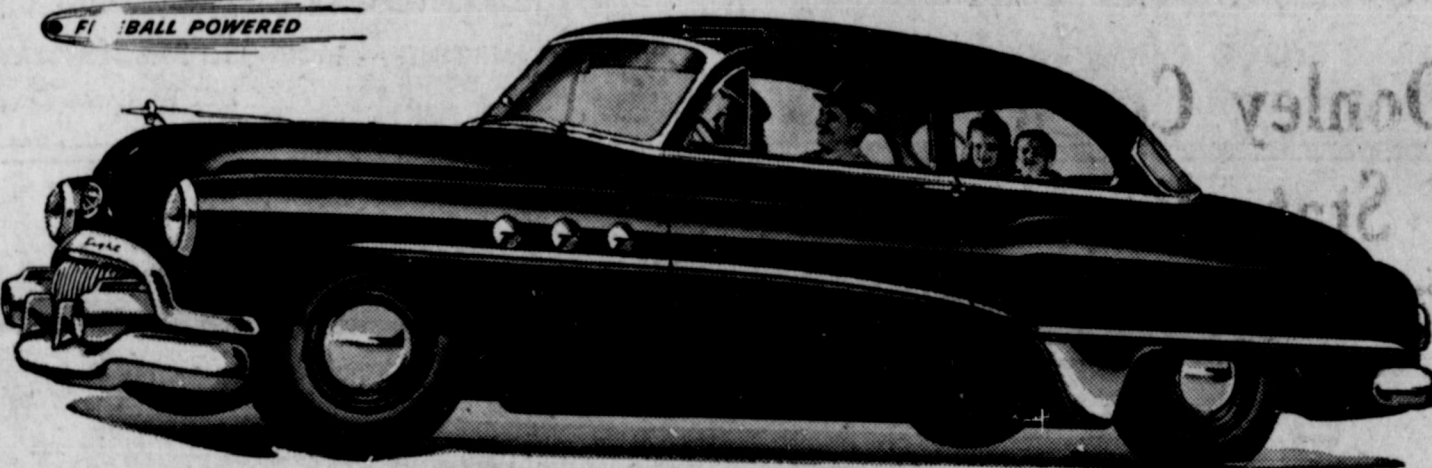

Beautify Your Home with Modern Lamps and Enjoy Better Sight with Better Light!

CLEAN UP... TO GET ALL THE LIGHT YOU PAY FOR!

It is not only our job to supply low-cost electric service, but to also help you make the most of that service. Dust and dirt on lamp bulbs or reflectors can cut light 50%. With a damp cloth you can wipe them clean in seconds. (Of course, you never touch a hot globe with a damp cloth.) Grimy lamp shades steal light too—they should be kept dusted or dry cleaned if necessary.

And here's a tip: when you are buying new shades, make sure they have light colored linings. Light colors reflect light, dark ones absorb it. Visit your local electric lamp dealer or our office, and see how modern lamps not only beautify your home, but help you enjoy better sight with better light.

Overloaded Truck Arrests Pass 17,800 Mark During 1950

AUSTIN — More than 17,800 truck arrests were made on Texas Highways for overloading and other violations for the year ending August 31, 1950, according to a recent report released by Kent Odom, Chief of the License and weights Division of the Department of Public Safety.

8,447 cases were filed in Justice Courts throughout the State, charging the operation of vehicles with loads in excess of the 48,000 pound gross load limit and over 18,000 pounds of weight on each truck axle; 3,801 cases charging operation in excess of registered gross weight of the truck and 5,582 cases were filed for miscellaneous offenses, such

as overlength, overwidth, driving while intoxicated and operating without permits.

According to the report, nine trucking companies were arrested more than 100 times last year. One Dallas firm with 265 arrests, was fined over \$5,000 for hauling more than a million pounds excessive weight.

The License and Weights Division of the Department of Public Safety is composed of only 33 inspectors, who must work in pairs patrolling the 36,840 miles of the Texas Highway System. During the period covered by Chief Odom's report, these guardians of the State roads checked more than 72,000 trucks and found one out of every four violating the law.

The January monthly report just released by the Public Safety Department indicates an in-

The Bramble Kingdom

In the days of yore, the trees decided to select themselves a king.

They first offered the crown to the olive tree. The olive felt that bearing its fruit was more worthy than bearing the cares of statecraft. He declined.

The fig tree was the next one asked. He refused on the grounds that producing sweet figs was better than serving as king.

Then the vine turned down the throne. His reason was that out of his grapes came new wine. That was more important to him.

But the thorny bramble had no such conceit of his worth. He accepted "If in truth ye anoint me king over you," he said, "then come and take refuge in my shade; and if not, let fire come out of the bramble, and devour the cedars of Lebanon."

The parable, which is recounted in the Book of Judges,

does not tell us whether the tall trees knuckled down to the bramble. Yet the presumption is that they did.

For in ordinary life, whenever able or talented people refuse to accept their governmental responsibility because for some reason or another they cannot "afford" to, somewhere along the line there is waiting a bramble, ready and willing. Once in power, he can crack the thorny whip over the talented and able people who scorned the job he accepted. And they deserve no better.

Let us keep this parable in mind in the dark days ahead. Let us particularly keep it in mind if any of us are offered opportunities in war-mobilization commissions, agencies, or boards. Thousands of responsible people will be needed, so the news stories say. If we really believe in American democracy, we cannot afford to let the Federal agencies become the kingdom of the brambles. — William W. Boddie, Texas Manufacturers Association.

crease in highway truck law violations. It shows a total of 2,051 arrests.

Many states have found the only effective way to prevent these constant violations of overloading trucks on State and County roads, is by requiring the overloading trucks to reduce the

excessive weight to the legal limits before proceeding over the roads.

Texas has no such unloading on the spot law. A bill is now pending in the Senate, known as H. B. 11, designed to stop the practice of overloaded trucks continuing on their way after

paying a small Justice Court fine. The proposal leaves the authority to make arrests in the Department of Public Safety, the County Sheriff and his deputy.

FORD WINS AGAIN!

V-8 TAKES FIRST PLACE IN CLASS "A" 1951 MOBILGAS ECONOMY RUN

Both Ford V-8 and SIX Deliver more than 25.9 miles per gallon

Grueling 840-mile test proves Ford Economy

Again this year... it's high honors for Ford! In the most important economy trial for American stock model cars... the famous annual Mobilgas Economy Run... A Ford 100-h.p. V-8 equipped with Overdrive took first place competing against all cars in its price class, making 54.587 ton-miles per gallon and 25.994 miles per gallon. And its companion in quality, the new Ford SIX with Overdrive, was right up there with the winner. In fact, both cars averaged better than 25.9 miles per gallon.

Traditional Ford economy, for the second straight year, has been proved in open competition. Proved on the tough 840-mile grind from Los Angeles to the Grand Canyon... a course that included city traffic, below-sea-level desert heat and 7,000-foot mountain passes. Ford's Automatic Mileage Maker, standard equipment on all Ford V-8's and SIXES, contributed to this great achievement by squeezing the last mile out of every drop of gasoline.

Why not "Test Drive" the new Ford at your neighborhood Ford Dealer's? There's no better way to be convinced that "You can pay more but you can't buy better!"

*The AAA Contest Board determines the winner by a "ton-miles per gallon" formula to insure equal chance for all cars in each class regardless of size and weight. Ton-miles per gallon equals the car weight (including passenger) in tons, multiplied by number of miles travelled, divided by number of gallons of gasoline consumed.

BLOWIN' Out the CORNERS

by Uncle Zeb

According to an item in the news letter put out by Congressman Walter Rogers; "28.6% of all crimes are directly chargeable to liquor." Probably that additional amount could be charged indirectly to this cause. Also, from this same news letter; "Most every one is represented in

Washington by a lobbyist except John Q. Public." According to Mr. Rogers there is no one lobbying for John Q. I guess he is the forgotten man.

The other day a friend and myself were talking about things in general and how that everything was all mixed up these days. Even the weather; it was cold most of the time in the spring and as hot as blazes in January. It rained all the time when we were trying to harvest our crops and when the crops were trying to grow it was as dry as a whistle. Even the people were all mixed up; people that were slim wanted to put on weight and fat folks wanted to be slim. People

who were rich had indigestion and poor folks couldn't afford to eat. About the time people get ready to live; they lay down and die. A lot of folks who seem prepared to die don't, and others die before they are ready, it seems. We spend most of our money trying to support the government and the government goes in the red trying to support us. Man works himself to death trying to save enough money so that he can slow down and live longer. Nations cry Peace, Peace and with all their might prepare for war. Anyway, one man is going to make it rain and when he does there will be folks who won't like it, so I guess we are "in a pickle." Wonder where it will all lead.

I heard this story about a good natured farmer in a nearby community who mortgaged all that he had to the banker. When it came due he couldn't pay and the banker took it all including his farm. But the farmer was in a good humor about it, so after all the foreclosures were signed the banker took him out to lunch. The banker ordered a slim vegetable plate and the farmer ordered "The Works" smothered in gravy. "I wish I had your appetite" said the banker. "That's pretty good," said the farmer.

"you have my farm and now you want my appetite."

The following is a theme written by a student of West Texas State for Abner and Zeke from The Prairie.

Once upon a time, there was 2 mountain hillbillies. One was named Abener and t'other was Zekeial, but the mountain folks called him Zeke for short. Now these hyar two hillbillies kepa feudin and a feudin and a feudin till the Eunitid States government decided to draft them and put them into the Army. So they sent there hole detachment into the Missouri hills and yanked them two boys out and slapped them into khaki uniforms. They put them out on opposite ends of and told them to shoot at them thar krauts. They went clear thru France together a never got not one single skratsh, and kept on a gitten ribbon after ribbon, mainly because they started gittin gray headed and lookin dignified. They still wished they could a ben back in Missouri a fightin amongst themselves and a livin' amongst the hogs and a readin superman funnybooks.

Anyway after the war they were brung back to the good ole Eunitid States and were declared great herows. They rode down Broadway among the hails of the crowds, and were soon acclaimed all over as grate men, the equals of George Washington.

But since they couldn't keep such hillbillish names, they had to have them changed, so they did—to Harry and Alben—and they rose to pretty high positions in our government. But they are still wishing they were back thar among the hogs, and a fightin among themselves, and from the looks of things they may soon

be back thar—and the whole nation along with them.

From The Peoples Journal: a Scotch magazine sent to me by Uncle Bob comes this little verse and also a lesson in Scotch economy.

MacGreger sent it to MacDuff, who sent it to MacPhee. MacPhee then sent it to MacLeod who sent it on to me. I rubbed it up and scrubbed it up and made it good as new. So here it is - Wi' best regar-reds an happy days to you.

"If you are on the level; you are not likely to go downhill."

Sunrise Easter Service To Be Held In Palo Duro Park

CANYON — A Sunrise Easter Service will be held in Palo Duro State Park March 25th.

The Amarillo High School Bel Canto Chorale will be presented in special songs and then Alvis M. Autrey, leader of the choir, will conduct a massed choir in Easter hymns. Any organized song group interested are invited to contact Mr. Autrey for details on the program.

Special busses will carry the singers to the Canyon. A loud speaker system will make it possible for thousands to hear the service.

Rev. Leon Hill, famous evangelist and noted speaker, will deliver the Easter Sermon. He has originated several great Easter outdoor observances, and took the lead last year in reviving the Easter Sunrise Service at Palo Duro State Park.
