LOCAL TALENT GIVES MUSIC PROGRAM AT ASSOCIATION BANQUET

Cotton John Smith was asked by the Hereford Breeders Association to invite, from the talent that had appeared on his Farm and Home Program in 1959, a person to give the entertainment for the Tuesday night Banquet in Amarillo. Mr. Smith extended the invitation to Miss Wanda Ryan of this city.

Wanda then invited Miss Connie Williams to accompany her on the piano and together they worked up a program.

These girls were well received and were given generous applause for their numbers. They did first "Red Roses for a Blue Lady" and from South Pacific, "Some Enchanted Evening." Their encore number was their own humorous arrangement of the song, "I'm an Ole Cow Hand."

The featured speaker of the evening was Paul Swaffler, executive secretary of the American Hereford Association, Kansas City, Mo.

Thatcher has been watching the development of the Clarendon area for several years in anticipation of opening a business here.

The boys game was a hard fought game also with the Broncs building up an impressive 18 point lead which was cut to 9 just before the half. The second half ran the same with the Broncs' 18 point lead cut to 7 at the end of the regulation period with the final score, 64-57. Kenneth Housden hit 23 for high point man, followed by W. N. Residents Urged To Pay Poll Tax Before Deadline Saturday

Bulldogs Meet Jayhawks Here Sat.

Clarendon's Bulldogs will encounter perhaps their roughest opponent of the season here Saturday night when they meet the powerful Howard County Junior College Jayhawks. The Jayhawks, under former Bulldog Coach Buddy Travis, had a 13-2 record at the end of last week and are favored to take the West Zone Conference crown this year. They defeated the Bulldogs 68 to 62 at Big Spring recently in a hard fought, foul-infested game in which two Clarendon boys and one Howard County boy was banished from the game for fighting.

Coach Roy Young's Bulldog squad suffered a severe blow early this week when Bobby Lesley, a smooth high scoring guard from Hedley, dropped out of school. Lesley, who is married, gave financial troubles as his reason for leaving. He has been a regular since the beginning of the season and was considered one of the most valuable members of the team. Coach Young is undecided at this time as to who will replace Lesley in the starting line-up but said that it probably would be either Johnny Hudson, a sophomore from Benjamin, or John Alexander, freshman from Samnorwood. Other starters will be Alva Carter, H. D. Yarbrough, Felix Johnson and Oscar Bronniman. Others who will probably see action include Marvin Young, Dee Blewins, Jimmy Humphreys and John Morrow.

The next home game for the Bulldogs following Saturday night's game will be next Wednesday night against the Amarillo Badgers.

Services Held Saturday For W. E. Griffin

Funeral services were held Saturday morning at the Hedley First Baptist Church for William E. Griffin with Rev. J. S. Tipton and Rev. S. A. Wolf officiating.

Mr. Griffin, 81, was a former resident of Hedley and died in a fire in Odessa Wednesday. He had lived in Odessa about a year. He was a resident of Hedley and Donley County about 30 years.

Survivors are a son, Edward Griffin of Odessa; two sisters, Mrs. Allie Mason of Bruce, Miss., and Mrs. Cynthia Petree of Crowder, Miss., and a brother, George, of Greenbriar, Ark.

Pallbearers were Henry Dye, Moberl Moffitt, Nneil Weatherly, Doyle Messer, Cotton Darnell and Roy McKee.

Burial was in Rowe Cemetery Hedley with the Murphy Funeral Home in charge of arrangements.

EPISCOPALIANS TO HOLD HOLY COMMUNION

BAND PARENTS CHILI SUPPER THURS. NIGHT

The Band Parents organization will have a chili supper Thursday night, January 28, at 7:30 in the Homemaking department. This supper was previously scheduled but cancelled due to bad weather. All members are urged to attend.

Prospective voters in Donley County are being urged to pay their poll tax before the deadline Saturday, January 30th.

The actual deadline falls on Sunday, January 31st, and since it does come on Sunday, Tax Assessor-Collector Bill Cornell has announced that the Tax Office will remain open Saturday afternoon until 5 o'clock to take care of the last minute receipts.

At the last count Wednesday morning, the tax office reported only 1,064 poll tax receipts issued which is several hundred below the normal figure on a general election year.

Don't put this little task off any longer or fail to pay your poll tax at all for this will be the biggest election year until another four years roll around. Candidates will be chosen to fill offices from the City-School level to the Presidency and your vote may be the deciding vote. At least you can say you will have the opportunity to use this personal right in whatever election that might come up during the entire year if you have paid your poll tax or received your exemption receipt, if the latter be the case.

February First Is Candidate Filing Deadline

With the new election laws in effect, all prospective candidates for county, district or state offices, are reminded that Monday, February 1st, is the deadline for filing with the County Democratic Chariman for a place on the First Primary Ballot.

Mike McCully is the County Chairman and all candidates should contact him no later than Monday, February 1st, or wait another two or four years before pitching their hat in the political pot.

No new candidates for county offices have announced with the Leader this week but Rep. Will Ehrle has announced for re-election to his office as State Representative.

MEMBERS OF

Texas & Panhandle Press Associations

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

THE LAST SOLDIER

All of us have observed with reverence the recent passing of General Walter Williams, the last surviving member of the armed forces who fought on either side in the War Between the States - almost 100 years ago. As flags were lowered to half-mast all over the United States, many persons respectfully paused to reflect on many events. Among many other recollections, it brought to mind my college days when I worked at the Confederate Pension Office in Austin while attending the University of Texas Law School. While I was working there in 1932, General Williams' Confederate pension was granted. None of us could forecast at that time, of course, that he would be the last of that noble group to survive. Confederate pensions were paid by the states and not by the Federal government.

served as Secretary of War in President Pierce's Cabinet from 1853-1857. Of the original 26 members of the Confederate Senate, 14 were former U.S. Congressmen.

General George McClellan, "Stonewall" Jackson and General George Pickett were graduated from the same class at West Point. Pickett received his appointment to the Academy through John Todd Stuart, Lincoln's law partner.

Three of Henry Clay's grandsons were in the Union Army, while 4 joined the Confederate Army. The estimated cost of the War was \$6,190,000,000 to the Union and \$3,000,000,000 to the Confederacy. The value of the Confederate dollar in gold dropped from 90c in 1861 to 6c in 1864. Most Confederate dollar bills are worth more today than they were in 1865.

If you want to cash in, pass on a bill and draw a draft on Satan.

In an earlier newsletter I noted the preparations for commemorative observance of the Civil War Centennial. The 85th Congress established a National Civil War Centennial Commission to prepare for the observance during the years 1961-1965. This period of great strife should invoke in all of us reflections of our heritage, and it is hoped that in the Centennial observance every corner of America will focus attention on the principles laid down a century ago and, having done so, look to the future with democratic ideals more profoundly avowed than ever before.

The Civil War Centennial Commission has recently published some facts about the War which, although they are matters of record, are not generally known and which I thought you might find interesting.

This was the FIRST war in which:

Railroads were extensively used for the rapid movement of military supplies and of large bodies of troops from one theatre of operation to another.

Aerial reconnaissance was first effectively used from anchored balloons in military operations.

A multi-manned submarine sank a surface vessel.

Medical care of the wounded was systematically organized.

Participants, sites and equipment were photographed on a large scale.

A practical machine gun was developed.

Voting by soldiers and sailors in service was provided for by national laws.

Large-scale coverage was carried on by recognized news correspondents at the front.

The repeating rifle was used by large troop units. The Medal of Honor was awarded.

According to the U. S. Census, the population of the United States in 1860 was 31,443,321 persons. Of these, approximately 23,000,000 were in the 22 Northern states and 9,000,000 in the 11 Southern states. Of the latter total, 3,500,000 were slaves. The total war dead from both armies was about 500,000. The chance of surviving a wound in Civil War days was 7 to 1 as compared to 50 to 1 in the Korean War. About 15% of the wounded died in the Civil War; about 8% in World War I; about 4% in World War II; and about 2% in the Korean War.

President Lincoln had 4 brothers-in-law who served in the Confederate Army. Jefferson Davis graduated 23rd in his class at West Point. He served in the U.S. House of Representatives and the U.S. Senate, was a colonel in the Mexican War and

Donley County Soil

Conservation District News

W. P. Doherty, T. C. D'Spain, C. B. Morris, Roy Jewell, Frank Hommel

A good many cooperators of the Donley County Soil Conservation District have decided to rebuild or construct new terraces. Some of those building new terraces are D. S. Thomason, Rhode and Gould, and Hulen J. Rogers. Now is a good time to build terraces for two reasons. One is the good moisture supply and the other is the lull in farming activities.

Terraces serve several purposes in this section of the Panhandle. The main purpose of terraces is to intercept the flow of water across cultivated land and either hold it or divert it to a safe outlet thus preventing erosion. With the erosion stopped the soil is kept on the fields where it can be of benefit to future generations as well as the present. Once the soil is washed down the creek it is of no value to anyone.

Mr. D. C. Thomason, who farms his brother's land south of Clarendon said, "I don't like to farm terraces but I know that if we don't I won't have anything left to farm."

A second, but equally important purpose of terraces in this area is to hold the runoff water on the land until it is absorbed. This additional moisture can greatly benefit the present crop. A good terrace system is hard

to beat but a faulty or poorly laid out system is worse than no terraces at all. Be sure and contact the Donley County Soil Conservation District or the local Soil Conservation Service office for assistance in installing a correct terrace system.

LOCAL GIRLS COMPETE IN CONTEST

The "Make - It - Yourself - With - Wool" Contest which is sponsored by the Women's Auxiliary of the Texas Sheep and Goat Raisers' Association continues to attract attention in Clarendon as well as in other towns of the Panhandle area. Recently three Clarendon High School girls entered garments in district competition when the Homemaking Dept. of Texas Tech was host to the district finals. They were Andra Pinkerton, a brush wool suit; Judy Thompson, a wool sheath dress with matching tweed jacket; and Fredda Bourland, a special occasion dress. Andra Pinkerton was selected in the top ten to enter state competition in San Antonio, Jan. 15. Andra is a sophomore in high school and the daughter of Supt. and Mrs. W. W. Pinkerton. She was accompanied to the state meeting by her parents and Mrs. F. W. Bourland, Homemaking teacher.

Joskes of San Antonio was host for the state finals. Dorothy Huntress, special events director

of Joskes was the narrator, and Ken Fisher of Joskes piano Salon furnished the background music. Judges of construction and fashions were on hand to see the 60 garments modeled. Although we did not place in this competition we are eager to hear results of the national meeting which is being held this week in San Antonio also.

Miss Marcheta Wood of O'Donnel placed first in the junior division and Paula Obrecht of Claude placed first in the senior division. They received an all expense paid 5-day trip to San Antonio. Runners-up in each division won "Featherweight" portable Singer Sewing Machines. Three and one-half yard dress lengths of 100% wool were awarded the next six contestants.

Winners in the national contest will receive a total of \$45,000 worth of prizes. First prize is a trip to Paris, London, and Rome. It is good to know that girls coming from our "cotton" section of that state were so outstanding in the competition. The contestants range in age from 15-22 years. Texas expects to participate in this event next year and plans are already being made by local high school girls to compete. Any out of school girls or women who are interested in competing may contact Mrs. Bourland in the Homemaking Dept. We can send three girls from our county to district competition. It is an interesting and worthwhile contest. - Rep.

Silverspring, Md., Record: Many Americans have preferred more leisure to more goods. That is perhaps the main reason why economic growth in this country has slowed down."

IRRIGATION SUBJECT OF NEW BULLETIN

College Station - Water is one of the most important factors controlling crop yields in Texas, according to Morris E. Bloodworth, associate professor, Department of Agronomy, Texas Agricultural Experiment Station.

Even though the present irrigated acreage is estimated to be near seven million, the water supplies have been taxed to the limit in some of the irrigated areas and nearly exhausted in other parts of the state. Although more available acreage is well adapted to this type of intensive agriculture, the expansion of irrigation will depend largely on water resources as yet undeveloped, Bloodworth pointed out.

"Some Principles and Practices in the Irrigation of Texas Soils," is a new Texas Agricultural Experiment Station bulletin written by Bloodworth designed to present some basic principles and practices of irrigation that will be helpful to farmers. It should serve as a guide and will require revision as dictated by experience and as additional field data becomes available.

Among the many topics discussed in the bulletin are: importance of the soil structure; salinity; furrow, border and sprinkler irrigation; and frequency of irrigation. Subjects from planning your irrigation system to applying the water are adequately covered.

Another interesting topic is a discussion on the different methods of conveying water to the crop. Unlined ditches, concrete lined ditches and the use of concrete pipe and aluminum pipe are discussed with the relative

merits and faults of each given.

Copies can be obtained by writing the Agricultural Information Office, College Station. Ask for B-937.

GABIE BETTS BURTON LIBRARY NOTES

EDITH BARNES

Mark Twain's "Autobiography" has been given to the library in memory of Mr. C. H. Ellis, father of Mrs. Alvin Landers.

"The Joy of Music" by Leonard Bernstein and three memorial funds for books to be bought for our younger readers have been given to the library dedicated to the memory of Mr. Jim McMurtry.

Good friends have extended Christmas for us. One has given us eleven books, another twenty, another nineteen paper backs and still another several new books for the children.

Some one has said that naturally "Exodus" is going to present the Jewish people in a favorable light as Leon Uris, its author, is a Jew. Be that as it may because even if you divide their good qualities by two and multiply their faults by the same number you are going to have to work at it not to admire them. The author spent a lot of time and traveled over 12,000 miles gathering material for this book. He

takes you to a lot of places and introduces you to a lot of people yet the book is so well written that even the minor events and characters stay with you.

Within the last few weeks we have had anti-Semitism showing its ugly head not only in Germany and England but worst of all right here in the United States and they are using that hated symbol of Hitlerism, the swastika. Inez Robb in "The Fort Worth Press" says that it is time to let young people have a good look at Hitlerism. She further states, that for those who want the facts, on "Hitler's baleful policy of extermination and the nightmare bestiality of his concentration camps and gas chambers," have had to depend not on history but fiction. "Their real initiation into the terrors of Nazism with its concomitant anti-Semitism had come through such novels as John Hersey's "The Wall" and Leon Uris's "Exodus," and through the shat-

tering autobiography, stage play and movie, "The Diary of Anne Frank."

There is an article in the February "Coronet" about this subject "Has Germany Forgotten Anne Frank?" by her father, Otto Frank. From the news stories coming out of Germany they have not and what is more important they are doing something about it.

It takes just as much energy to wish as it does to plan.

There's nothing like a new car—and no new car like a Chevrolet. This is the Impala Sport Coupe!

GO '60 GO CHEVY!

NOW—THE CAR THAT STARTS THE SIXTIES WITH SO MUCH THAT'S NEW, SO MUCH THAT'S DIFFERENT...AND SETS THE PACE WITH LOWER PRICES!

Chevrolet speaks of the Sixties like no other car—with a broad accent on spaciousness, stirring new concepts in styling and strong emphasis on spirit and thrift.
Step inside this superlative '60 and look at the worlds of room around you: head room, hip room, shoulder-squaring room. Note how Chevrolet's engineers have further flattened and narrowed the transmission tunnel to give the middle man more foot room. Chevrolet's greater roominess is inside where you want it—not outside in useless body overhang.
You'll find economy teamed with performance in a new standard V8, engineered to deliver up to 10% more miles for every gallon, or the strapping Hi-Thrift 6.
And riding comfort in the new one is a never-ending treat, thanks to Full Coil spring suspension. There are also thicker, newly designed body mounts that filter noise and vibration to the vanishing point, more rigid frame and many other engineering advances.
But you'll have to drive the Sixty sizzler yourself—that's the clincher.

BLOWIN' Out the CORNERS

Our Home Town, or our Neighborhood is a pretty important part of our life, and it does each of us good once in awhile to sort of take invoice of its benefits. We read the following in the little publication called Nuggets and it tells the story in a wonderful way.

"My town is where my home is found, where I make my living, and where my vote is cast. It is where my children are educated, where my neighbors dwell, and where my life is chiefly lived. It is the home spot for me. My town has the right to my civic loyalty. It supports me and I should stand behind it. My town wants my citizenship, not my partisanship; my sympathy and not my criticism; my intelligence, not my indifference.

"My town supplies me with protection, friends, education, schools, churches and the right to a free moral citizenship. It supplies me with neighbors in

time of need, and comfort in time of calamity.

"My town has some things that are better than others; the best things I should try to make better; the worst things I should try to make better too, rather than just fuss and talk about it. "Yes, take it all in all, it's My Home Town that is entitled to the very best that is in me."

Each of us could add something to the above list. Something for which we could appreciate our neighbors, our community, or our home town. Each new year we have to take inventory of our real property for taxation, it might be good to also take inventory of the real values of life and pay a special tribute of thanks for all our many blessings at the same time.

Is it possible to buy real friendship?

We have poured billions of American dollars into the political rat-holes around the world. If the reports which come back to us are true, few of these people love us for any longer length of time than our remittances keep coming.

Thousands of our fighting men have died on battlefronts the world over and yet it so often seems that those we have helped turn upon us. We have to feed those we fight and whip, and by the same token we usually wind up enemies to those we try to help.

Friendship which anyone can buy.

Is seldom ever worth the try. We need to find a better way to make friends than by the use of money. We need to spend more time building up confidence in our way of life among the people of the world. If we know of a people in serious need we should find some way to give to them in a way which would seem to come from the individual hearts of one people to another.

If, in receiving our help they have the feeling that we are a superior people they would likely resent it.

If our gifts seem to have strings attached then they would surely pull back.

But, if our help though small, in times of great need could carry with it a spirit of genuine love and friendship, then we might not so many times lose both the gift and the receiver.

The Phoney Salesman is something that we need always to be on the lookout for. He or she can take on many forms from the ridiculous to the dead serious. We are thankful for the help we all get from the modern day police, press, radio, TV, and better business bureaus in the heading off of the thieving of the phoney salesman.

There has always been a funny story connected with the slick salesman from the city. Serious as it must have been in those days of short bank accounts we have to laugh every time we remember it.

We lived far out in the country

GEORGE'S WIFE

By "Sarah"

Had we waited one more day to write last week's column, we would have found in Sunday's editorial page all the directions we needed, in at least how to

and my father would go into town once every week or so to get supplies. On one of these trips he came home with a new razor and a story that made a big impression on our young mind.

On a street corner the salesman was barking out to the crowd to gather around for the biggest bargain of their life. My father being a conservative buyer stopped far out on the edge of the circle of suckers.

First he sold a couple of pencils for a nickel to as many as would buy them. Asked if they were happy with the purchase and then proceeded to refund their money allowing them to keep the pencils. Then, he sold articles for a dime, a quarter, and even a dollar; each time refunding; the money and letting them keep the article free.

Then he sold the razors for two dollars and a half; my father could stand it no longer, so he bought one along with many others. The salesman asked, as usual, if they were satisfied. When they said yes, he thanked them, kept the money and faded away. The razor wouldn't shave.

recognize a leader, if one should rise up among us.

The editorial headed "Somebody We Must Produce the Man Who Can Unseat the Four Horsemen," has some mighty good reading in it. Says we must do this, not as the bureaucrats would have it done — by forcing a way of life upon other people, by buying power with dollars and food surpluses, by arrogance and disdain. This one we must buy with humility, faith, the courage of the commonplace, and hard work. It goes on to say, they intend to toss out of all three of their papers, the miscellaneous, the trivial and entertaining columnist, who send their works to be published.

Instead they started "Our Rugged Constitution" written by Bruce and Esther Findlay. We intend to save each issue of this, because it goes into what you give, and what you get, in this two way form of Government, we in America enjoy.

First, it says we must save ourselves, and being saved present the example that can be followed by men and nations fully desirous of a good world. Also they will gather into focus, for us, the best of the past and present, and in some fashion define the future span of our century. In this way we can form an independent judgment, and with strengthened minds we can appraise the issues for ourselves.

To bad, we have to be reminded in this way of our rights and what to do about them, or in saving ourselves. We have had voices crying in the wilderness, from beginning of time on saving ourselves, and good men set up our Constitution years ago, for the good of all people. One Book and one document, studied and lived by, will cure most all

our ills. We need reminding though, and are thankful for these reminders.

GUIDE POSTS

Shortly before the end of the year, Senator Byrd of Virginia made a speech in Chicago in which he urged a number of essential steps this country must take. He pledged his support to them to the fullest extent of his "capacity and energy."

Three of this distinguished Senator's "musts" are: "1. Stopping expenditures in excess of our income by eliminating non-essential spending.

"2. Reducing the federal debt; this would be a great deterrent to inflation for the present and lift some of the burden we are loading on generations of the future.

"3. Curbing the excesses indulged in by labor leaders, without destroying the right of collective bargaining."

In this, Senator Byrd has

clearly laid out guide posts for the future which must be followed if we are to remain a strong, solvent and stable country — and if free and representative government is to be perpetuated in the United States.

Success is not so much a matter of talent as of concentration and perseverance.

Some people may be sitting on top of the world, but most of them arrived there standing up.

The serving table was laid with white linen and centered with a lovely arrangement of pink roses in a beautiful cut-glass bowl and pink candles in crystal holders. Quartet tables were laid with white linen and centered with potted pink African violets, pink napkins and place cards.

During the luncheon, served by the Lelia Lake Methodist Ladies' Sunday School Class, Mrs. J. H. Howze and Mrs. Heckle Stark sang three old, familiar songs: "Moonlight and Roses," "I Love You Truly," and "A Perfect Day" by Carrie Jacobs Bond. At the close of the luncheon Mrs. C. T. McMurtry gave three poems, the first her own original, the other two by Julien C. Hyer.

Our president, Mrs. George Benson presided over the business session. Discussion was conducted on the club's project. We adjourned by standing and singing the chorus of "Hail, Federation" by Mrs. Berenice House, former president of Texas Federation of Women's Clubs.

Present for the luncheon were one guest, Mrs. Betty Walker Morris of Dallas, and members Mesdames George Benson, Carl Allmond, C. E. Bairfield, Fred Buntin, S. W. Lowe, Forest Sawyer, Dick Shelton, Stina Cain,

CENSUS DISTRICT OFFICE OPENED

Establishment of a district office for the 1960 Census of Population and Housing at 616-19 North Polk Street, Amarillo, was announced today by Director James W. Stroud of the Census Bureau's regional office at Dallas, Texas.

Mr. Clyde Cook will be supervisor of the district office. He will direct a force of 24 crew leaders and 346 census takers in the following counties: Armstrong, Briscoe, Carson, Castro, Childress, Collingsworth, Cottle, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hemphill, Hutchinson, Lipscomb, Motley, Moore, Ochiltree, Oldham, Pammel, Potter, Randall, Roberts,

Sherman, Swisher, and Wheeler. Taking the 1960 Census nationally will require the services of 160,000 enumerators, 10,000 crew leaders, and 400 district supervisors, all temporary workers. The district supervisors, working under the general direction of the permanent regional field directors, are responsible for all phases of the census in their districts. Duties of the district supervisor include the recruiting of the crew leaders, obtaining space for crew leader training, recruiting and training a small office staff, reviewing the completed questionnaires, and direct supervision of the field canvass which begins on April 1.

Prior to the start of the census, all households will receive in the mail an Advance Census Report Form, a new census-taking device which is designed to speed up the field canvass and provide more accurate statistics. Distribution of this form, which contains the basic population and housing questions, gives the family a chance to assemble information about each member in advance of the census taker's visit.

A REAL MENACE

We hear a lot of hogwash about big business killing little business. As a matter of fact it is "big government" with its confiscatory taxes, that takes the heart out of both big business and little business.

Taxes have retarded or prevented investments in industry, with resulting lost employment. Government owned business projects put both big business and little business out of business and destroy savings.

Federally socialized industry is today's menace to individual opportunity, employment and representative government.

GRASSROOTS OPINION

West Point, Miss., Leader: "The vast majority of advertisers — large and small — continue to rely on the power of the printed word to move merchandise. It's there when you want it — to read, then to re-read, or put aside for future reading. The newspaper you hold in hand is

truly an 'invited guest' into thousands of local and area homes. We don't claim a 'captive audience,' but an appreciative and responsive audience."

CARDS OF THANKS

Your kind expressions of sympathy are gratefully acknowledged and deeply appreciated. May God bless each one of you. The Carl T. Morgan Family

May we take this method of thanking our neighbors and friends for their kind expressions of sympathy in our bereavement. These expressions have been deeply appreciated. The Family of John C. Bible

We wish to thank all our good friends for the kindness shown us during my stay in the Adair Hospital and also the good care that I received from the doctors and nurses and all the hospital staff. During a time like this we realize how much our friends really mean to us. Please accept our grateful thanks for all deeds of kindness and be assured that there is a memory of these things in our hearts that time will never erase. Lena Baird

We wish to express our thanks and gratitude to each and every one for their deeds of kindness and words of sympathy during the time of our sorrow. The Bullock Family

Old plainmen often placed a silk neckerchief on hard ground and listened by putting their ear on the neckerchief. Sounds otherwise inaudible were somehow magnified by the procedure.
Color printing was used as early as 1457 in Germany.

AUSTIN — Nothing that has come out of state government in recent months has caused as big a ruckus as the merit plan auto insurance rates.
It is possible to take either side of the question and start a lively argument on almost any street corner.

Critics have mounted a two-pronged attack: (1) to get the Board of Insurance, which authored the plan, to change it and (2) to get the courts to declare it unconstitutional.

Board hearing to review the plan was called at the request of Sen. Grady Hazlewood of Amarillo, one of the most vocal objectors to the plan. Just before the hearing, a group of attorneys from the Harris County chapter of the Texas Association of Plaintiffs' Attorneys filed suit in an Austin district court seeking a permanent injunction against use of the plan.

Chairman Penn J. Jackson declared the Board would listen to all protests with an open mind. Most insurance rates, he said, are subject to frequent changes. However, Jackson emphasized that the Board is directed by law to consider safety incentives and driving records, past and prospective, in its rate making.

Under the merit plan, drivers with no accidents or moving traffic convictions on their records for the past three years would get lower rates. Compensating for this would be a sliding scale of higher rates to be paid by others according to the number and seriousness of the marks against them.

Loudest gripes are about the

retroactive feature of the plan and the fact that any moving traffic violation, no matter how minor, counts against the motorist.

Because it does go back three years in effect, the plan is being labeled an "ex post facto law" (law against something that happened in the past) which is unconstitutional.

Some motorists complain that in the past they have paid fines on tickets when they were not actually at fault — just to avoid the trouble of going to court.

Sen. Hazlewood derided the idea of putting all violators in the same class — "those that go 23 miles an hour in a 20-mile zone and those that go 100 miles an hour." He charged, too, that much ticket giving is merely a money-raising proposition. Residents of cities where traffic is strictly policed and all accidents and violations faithfully reported to the Department of Public Safety will get it in the neck, said the senator. Small towns are generally less diligent in policing or reporting violators to DPS.

Hazlewood said he was and still is in favor of a "realistic" merit rating plan.

Defenders of the present plan say that if law enforcement is at fault, this, not the insurance plan, should be worked on.

With all the fussing and fuming, say proponents, it must be admitted that motorists are now giving more thought to careful driving than ever before. A traffic ticket costing \$60 is a sobering thought.

TEACHER SESSION URGED — Texas teachers still hope to get a salary raise in a special session of the Legislature this year.

Leaders of public school teachers' organization say they believe Gov. Price Daniel will call a session after Feb. 1.

Teachers want to see the matter come up at a special session rather than at the next regular session in 1961. In a regular session, they would face again the same obstacles they faced in 1959, the necessity of taking care of regular money needs probably including a deficit, before any new appropriations will be considered.

FACULTY RAISES PROPOSED — Commission on Higher Education recommends the Legislature raise salaries for state college professors by 12 per cent for 1962 and 18 per cent for 1963.

Commission said colleges need to pay this much more to be able to keep up with other colleges in competing for the available supply of teachers.

During its last session the Legislature cut the Commission's requested college budget by 7 per cent.

Commission has agreed to hear the University of Houston's request for inclusion in the state college system at its April meeting.

BANKING AUTHORITY SPELLED OUT — Savings and loan associations may not open branches without approval of the State Banking Commission.

State Supreme Court issued this opinion in an 8-to-1 decision on a case in which a Houston savings and loan association had challenged the commission's right to pass on a proposed branch. Savings and loan associations, like banks, are chartered by the Banking Commission.

Court said this regulation was necessary to prevent "excessively zealous competition through control of building and loan associations in an area."

Dissenting judge said there is nothing in the law to give the commission this power.

RESERVOIR PLANS ASSAILED — City of Fort Worth has joined the San Jacinto River Authority in protesting plans to build a Trinity River dam near Houston.

An engineer representing Fort Worth told the State Water Board he felt Fort Worth's future water rights would be impaired if Houston and the Trinity River Authority build a reservoir near Livingston and take out 1,200,000 gallons a day, as requested. To protect needs of Upper Trinity Basin users, it was suggested the Livingston project be cut in half.

A spokesman for the San Jacinto River Authority said he felt the Trinity should not be developed for Houston use because it is polluted with Dallas and Fort Worth sewage.

cause it is polluted with Dallas and Fort Worth sewage.

SHORT SNORTS — Sen. Culp Krueger of El Campo has been named chairman of the Radiation Study Committee created by the Legislature to consider state regulations and safety measures for the peacetime use of atomic energy . . . Public school administrators meeting in Austin discussed the prospect of requiring 20 credits for high school graduation rather than the present 16.

Some superintendents reported their schools are already requiring more than 16, not including the "easier" subjects such as music, health, physical education . . . Gov. Price Daniel has appointed Jack Woodward of Dallas to the Commission on Higher Education for a term ending in March, 1965. Other executive appointments: V. P. Ringer of Houston and William J. Elliott of El Paso to the Texas Real Estate Commission and Dr. Louis T. Bogy of San Antonio and Dr. A. V. Johnson of Midland to the State Board of Chiroprody Examiners . . . State Hospital Board has voted to sell 306 acres from the Kerrville State Hospital grounds and 80 to 90 acres from the San Antonio State Hospital.

Preliminary plans were approved for buildings and improvements at the Denton State School, Austin State Hospital, Rusk State Hospital, Mexia State School and Wichita Falls State Hospital.

Ignorance Can't Be Tolerated

Your body is a machine with complicated parts. A physician has to devote years of study to learn how to keep it functioning properly. It is important that medicines be safely potent. That is the reason why pharmacists are now required to attend a college of pharmacy for 5 years before being licensed to practice pharmacy.

To obtain medicines from people ignorant of this necessary knowledge can lead to misfortune. You are safer when you consult a physician for guidance and secure all medicines and health aids from a pharmacy.

When you need medicine bring us your doctor's prescriptions. They'll be accurately filled and the price will be right.

FARM NEWS

From the County ASC Committee

Reminder of Important Dates

April 1, 1960, has been set by the Donley ASC Committee as the final date the producer may ask for premeasurement of cotton.

February 15, 1960, is the final date on which farm owners or farm operators may file applica-

tion for Group II (new growers) farm allotments for upland cotton for 1960 with County Com.

April 5, 1960, is the final date for request for additional acreage from the released cotton acreage.

April 22, 1960, is the final date for filing MQ-29 — Release of Farm Allotments — for this district.

May 5, 1960, is the final date for reapportionment of released allotments.

Planted Wheat Without An Allotment

Any producer who has planted wheat without an allotment must report to this office in order that we may measure the wheat, so the producer may be eligible for a marketing card. 15.0 acres or less may be planted on a farm penalty free but will not be eligible for price support.

May 10, 1960, is the final date that all excess wheat must be destroyed.

Conservation Reserve—Soil Bank

This is a reminder, in case you have forgotten the importance of controlling noxious weeds on your Soil Bank land. Keep the acreage free of cockleburrs, Russian thistles, and sunflowers or control the growth of these weeds to the extent that they will not become a source of spreading noxious weeds.

Mr. and Mrs. Tommie Saye and Mrs. Carl Saye left Sunday for Dallas to attend the ladies and men's spring market. They returned home Wednesday.

HERBERT O. WILLBORN SEEKS SCHOOL POST

HERBERT O. WILLBORN

Election to the State Board of Education is being sought by Herbert O. Willborn of Amarillo, long time leader in regional and state educational affairs.

Willborn was appointed on January 1, 1959, to fill the vacancy created by the death of A. R. (Dick) Bivins, who was elected to the post in 1956 to represent the 18th Congressional District on this board.

By state law, appointed members may serve only until the next general election. Willborn's term, however, will be for only two years, since Bivins' term covered the years of 1956-62.

Willborn served on the Amarillo School Board from 1949 until he resigned to take the state board position. He also served on the Amarillo College Board of Regents for the same period.

Long before his service at the state level, however, Willborn had influenced school legislation. It was principally through his research and planning that Senate Bill No. 116, which allows school districts to have a more fluid financing program, while controlling the total of taxation for construction purposes, was passed. The bill provided a much wider market for school bonds, by providing a secure base related to valuations of the district.

Willborn has also served on a special committee appointed by

the governor and with membership from the Texas State Teachers Association to study pay schedules for all teachers in Texas. As the result of this committee report, a pay raise of \$405. was granted.

He also served on the State Junior College Study Commission to study relationship of the junior college movement to the state educational system, and to recommend legislation. He is now serving on the special committee on junior colleges established by the State Board of Education. This committee will form a special study commission to formulate criteria under which new junior college districts can be formed. Lay members will serve on this commission.

SCHOOL CENSUS NOW BEING TAKEN

Principal K. D. Vaughan is asking for full cooperation of parents in completing the annual school census which must be completed before February 1, 1960.

Parents are requested to report all children in this school district that will be six on or before September 1, 1960. You may contact either Mr. Vaughan or Stina Cain at the Jr. High School.

It is very important that parents of youngsters that will be entering school for the first time to make this census report as the basis for state money to operate the schools is based on students listed in the census report.

Those to visit Mrs. D. C. Williams and Jimmy Sunday was her son, Billy, and grandson, Johnny, of Andrews, Tex., Mr. and Mrs. H. L. Williams of Dallas, Mr. and Mrs. H. R. Fricks, city, Ben, June and B. J. Garrett of Borger, Bruce Fricks and Willa Rumpy of Clarendon.

Miss Jackie Lemons of Amarillo came Friday to visit Mr. and Mrs. Herman Cross and Annette. They returned her home on Sunday and visited Mrs. Cross' brother, Mr. and Mrs. M. H. Lemons and family. Miss Shirley Mann accompanied them on Sunday.

WILL EHRLER ANNOUNCES FOR RE-ELECTION

State Representative Will Ehrler Childress, announced today that he would be a candidate for re-election to that post for District 88. Ehrler, who has served in the Legislature for the past four years filed his application for this race in the Democratic Primary.

In making his announcement Ehrler said, "I shall continue working for the best interests of this district. We still have much to be done on our water program, our road program, our Texas Public School System, and our Public Welfare programs."

Ehrler stated that he had attended the hearings on the new automobile insurance rates, and that he thought that some changes should be made, but that the merit ratings sounded like a constructive step.

Ehrler added, "I am certainly for improving our public school system in Texas. We also need more money for our higher education program in the state." As to a possible special session to: school teacher pay raises and other Hale-Aiken proposals, Ehrler said, "I am for the programs, but it is the Governor's constitutional duty to make the decision as to a special session."

"If re-elected," Ehrler stated, "I will continue to work hard for the citizens of Donley, Motley, Hall and Childress counties, and will do my best to serve them well."

Mr. and Mrs. Joe W. Dilli of Farmington, N. M., announce the arrival of a son, David Lynn, weight 7 lbs., 3 oz., Wednesday, January 20. The young man is the grandson of Mr. and Mrs. L. N. Cox of Clarendon and Mrs. Myrtle Dilli of Amarillo.

S-Sgt. and Mrs. Sidney Harp and children spent the week end with his parents, Mr. and Mrs. S. M. Harp. Mrs. Harp and the children remained with the Harps here while S-Sgt. Harp returned to San Antonio where he will finish a training school with the Air Force.

EXPLAINS CARD FORM 1040A

"Treasury records show that one out of every four taxpayers use the simplified income tax Form 1040A," says Hubert B. Hamill, Administrative Office of Internal Revenue Service, Amarillo.

Revenue's midget (size of an average bank check) tax form may be used by individuals with total income of less than \$10,000, consisting of wages reported on Form W-2 and not more than \$200 in dividends, interest, and wages not subject to withholding.

Husband and wife may file a joint 1040A return for '59, if their combined income doesn't exceed the stated limits.

"Taxpayers using Form 1040A automatically claim the standard 10 per cent deduction allowed for such personal expenses as contributions, interest payments, medical expenses, and such. Taxpayers with allowable deductions for these items in excess of 10 per cent of their income for '59 must use the standard Form 1040, if they wish to claim them," Mr. Hamill explained.

Taxpayers with incomes under \$5,000 may figure their own tax, or have Revenue do the chore. Taxpayers with incomes of \$5,000 or more must figure their own tax.

Form 1040A must not be used when taxpayers claim "head of household" or "surviving spouse" status; dividends received credit or retirement income credit, "sick pay" exclusion; deducts for travel, transportation, or "outside salesman" expense; or estimated tax payment credit, the IRS representative said.
