Bronchos Journey To McLean Friday Night For Last Game Of Season

The Bronchos take to the road Friday night for their last game of the regular season with the McLean Tigers. Game time will be 7:30 p.m.

Local fans are hoping that the Bronchos will be extending the spirit and efforts that was in evidence earlier in the season so they can bring home one conference win out of four tries.

McLean has been considered one of the weaker teams in the district but they appear to be getting stronger each week. The Bronchos and the coaching staff will have to come up with heads-up football in order to hold their own with the Tigers and prevent another defeat.

Two Broncho regulars, Neel Carter and Ronnie Tyra will definitely see no action this week due to injuries but the remainder of the squad is reported in good shape for the game. Carter received a kidney injury in the Canadian game and Tyra received further injury to a knee in the Memphis game.

The tentative starting lineup for the Bronchos Friday night is as follows beginning with left end: Bill Hermesmeier, Charles Stout, Jerry Gray, Leon Gibbs, center, Frank Harnesmeier, Don McAnear and Phillip Abel. In the backfield will be Dwight McAnear as quarter, Gary Campbell at left half, Eddie Tipton at right half and Jim Robinson at full.

A 'B' game with White Deer has been scheduled for next Thursday night, November 10th, but whether it will be played here or there has not been decided yet. This is expected to be a good game as some of the A squad boys who have not played ten games will be eligible to play with the B squad. Time and place will be announced next week by Coach Mack Choate.

Mrs. W. J. Lewis of Dallas spent the week end with her son, Mr. and Mrs. W. J. Lewis, Jr.

85 Bulls Listed For Annual Bull Sale December 18th

The sales catalog for the 1960 Rolling Plains Registered Bull Sale to be held in Clarendon on the eighth of December, will go to press this week says County Agent H. M. Breedlove, Secretary of the Association.

W. H. Cooke, III, President of the Association, says that eighty five bulls are now entered in the sale and from all reports this will be the best sale held by the association. There are forty-five Hereford bulls, twenty-five Angus bulls and fifteen Galloway bulls.

Preparation of the sale ring and getting things in order for the coming sale will start the first of next week at the show barn in Clarendon. Committees will start to work and get everything ready well in advance of the sale.

This year there will be 4-H Club and FFA bulls in the sale as well as adult exhibitors and sale bulls. The classifying of the bulls for sale will be held on the seventh of December with the sale at noon on the eighth.

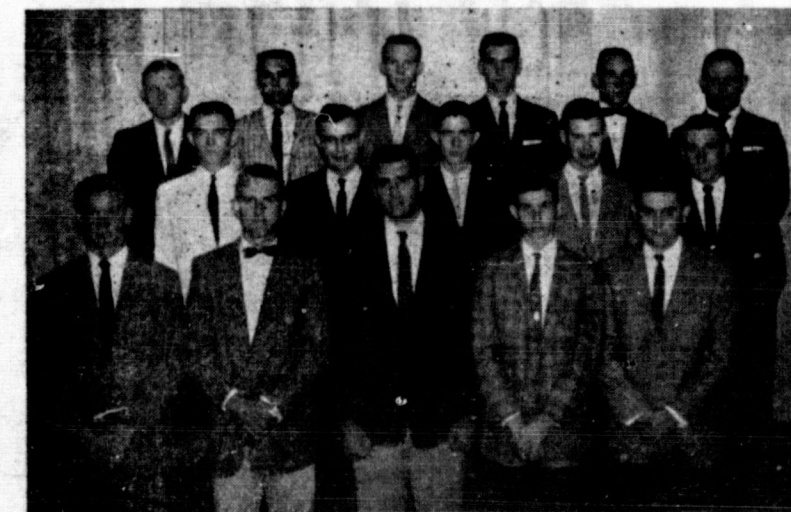

Walter Britten, auctioneer from College Station, Texas, will sell the bulls. Breedlove says that advertising has been done in four of the leading livestock magazines of the Southwest and that news releases will be sent to all the newspapers in Texas and to all radio stations. This sale will feature top blood lines, some herd bull prospects, and good range bulls the way a rancher likes to buy them. They will not be too fat but in shape for you to start using at once. Most bulls are of service age at sale time.

New Clarendon Junior College Dept Students

These sixteen youths are enrolled in the Agriculture Department of Clarendon Junior College. This is the second year for this department at the college. Each of the youths plan to major in agriculture in their college work, and by completing two years work in Clarendon Junior College, they can transfer to any agricultural college in the South and finish any standard agricultural major in two years of college enrollment.

The courses in the department are taught by J. R. Gillham, who has taught Voc.-Ag. at Clarendon for many years. Gillham is well known in the state as a livestock breeder and judge of livestock shows. The agricultural department of the college has grown into the largest independent department in the college at the start of its second year.

In the back row from right to left are Darrell Leffew, freshman from Clarendon and Sgt. at Arms of the Aggie Club; Pat Roberson, sophomore from Clarendon; William H. Clark, sophomore from Miami and Vice President of the club; James Harrison, freshman from Alanreed; Alfred McNabb, freshman from Clarendon; John Alf Thomas, sophomore from Wellington and Secretary-Treasurer of the club; second row, right to left: O. K. Lee, freshman from McLean; Milton Mann, sophomore from Clarendon and President of the club; Jerry Dorsey, freshman from Groom; Jerry Goldston, freshman from McLean; Jimmy Burgin, freshman from Groom; front row, right to left: Lynvel Black, freshman from Dodson; Harold Lindley, sophomore from Clarendon; Joe Young, freshman from Winters; Sammy Wells, sophomore from Clarendon; and Conrad Mullin, freshman from Turkey.

FOOTBALL QUEEN

Miss Andra Pinkerton, daughter of Mr. and Mrs. W. W. Pinkerton, was crowned Broncho Football Queen in half-time ceremonies last Friday night.

Volunteer Contributions Needed For Street Marker Project

A Chamber of Commerce street marker report committee meeting was held Tuesday night and up to date only \$439.50 has been contributed toward the project.

The help and cooperation of every citizen is needed to put this project over and all who have not been contacted are asked to leave their money at either bank or contact Frank Phelan, Jr., J. B. Melton or J. G. McAnear.

The cost of each street marker is \$15 and it will take quite a number of them to mark each intersection in town. They will be constructed according to state and city specifications. This project of marking the streets will be a stepping stone toward house to house mail delivery.

CROP Drive Is Successful

The Donley County Ministerial Alliance commends the youth of Clarendon for their part in the CROP Drive. The young folks collected \$221.75 Halloween night.

The CROP program is primarily to provide surplus food for the needy. Each dollar that is donated will provide \$20.00 worth of basic food such as milk, flour, and sugar.

CROP is sponsored by the Church World Service and those participating from the Clarendon area were the First Baptist, Methodist, Presbyterian, Episcopal and First Christian Churches.

GIRL SCOUT CALENDAR SALE NOW IN PROGRESS

Final plans for the Girl Scout calendar sale, which started Tuesday, Nov. 1, were made at the monthly Neighborhood Association Meeting held in the home of Mrs. Charles Dyhle Tuesday, Oct. 25.

Mrs. Ray Palmer, calendar sale chairman, said that the calendar would sell for 35c and the troops could keep 31c for themselves and the rest would go to the Council. Girl Scouts and Brownies will be in your neighborhood to sell this week.

Mrs. T. M. Caldwell, Jr., neighborhood chairman, announced that Mrs. Richard Gilkey had been elected district chairman of District Three, which includes Memphis, Clarendon, Wheeler, McLean and Shamrock.

Community projects for November were discussed. A patrol system workshop will be held Nov. 5 at Fellowship Hall in the Methodist Church for District Three.

Present were Mesdames Ruby Hutton, Glenn Wallace, Lawrence Neece, T. M. Caldwell, Stina Cain, Ray Palmer, Richard Gilkey, Gordon Simpson, Don Thornberry, Wm. J. Lowe, and the hostess, Mrs. Deyhle.

Homecoming Draws Big Attendance; Termed 'Best Ever'

The first successful Homecoming for students of Clarendon High School was held Friday, October 28. Approximately 200 ex-students registered at the school throughout the day and at the football game that night. The oldest ex-student registering was Riley Allen of Clarendon. He represented the class of 1923. The ex-student traveling the farthest distance was Montye Smith of Hobbs, N.M. Each of these exes was presented a gift. The Student Council of C.H.S. served coffee and doughnuts throughout the day.

Exes enjoyed reminiscing, looking at old pictures, annuals, papers and visiting until time for the Pep Rally at 2:40 p.m. Mrs. Barrett of Barrett's Studio found a number of negatives from school pictures taken in by-gone years and was kind enough to run re-prints for the gathering. These created a great deal of interest and the association appreciated using these prints for display.

A business meeting for exes was held in the auditorium following the rally with Morris Ledger, High School Principal, acting as chairman until a president was elected. The following officers were elected to serve the coming year: President, Jeannie Matthews; Vice-President, Bill Porter; Treasurer, R. E. Drennan; Program Directors, Junior Spier, Genella Eads and Bill Bradshaw; Entertainment Directors, Tookie Thornberry and Doris Louise Hays. Plans were made to make Homecoming an annual event. A secretary was elected from each class represented at the meeting. Approximately 100 exes attended the business session.

Homecoming celebration was highlighted by the traditional Clarendon - Memphis football game and the crowning of this year's football queen, Miss Andra Pinkerton, daughter of Mr. and Mrs. W. W. Pinkerton.

Following the game 230 exes and students enjoyed a dance at the Legion Hall. Charles Grimes and his combo from Amarillo furnished the music.

Saturday morning, the Executive Board of the Ex-student Association met in the High School Gym with Jeannie Matthews presiding. R. E. Drennan reported that the association had cleared \$263 from registration and the dance. This money will go toward financing next year's Homecoming. Frances McCully was appointed General Secretary of the organization. Plans were started to make next year's gathering better than ever and tentative dates have been set up for October 6 and October 7.

The ex-student Association would like to express their sincere appreciation to Mr. Morris Ledger for his part in helping to organize the group. They would also like to thank the Student Council for furnishing and serving the refreshments throughout the day.

City Receives \$17,500 In Relief Aid

Mayor H. T. Burton was in Austin last week and signed papers accepting a \$17,500 disaster relief grant to repair and rebuild the retention dams south of Clarendon that were washed out and damaged by heavy spring and summer rains.

This allocation was not as much as we had requested but we will be able to do a pretty fair rebuilding job with this amount, Mayor Burton stated.

We are drawing up new plans and specifications at the present time in order to receive bids on the project and actual work should get underway before too long, he added.

Voting Expected To Be Heavy In General Election Tuesday

Cong. Rogers Speaker At Democratic Rally Here Tonight

Congressman Walter Rogers will be the guest speaker at a Democratic Rally Thursday evening, November 3, 1960, at 8:00 p.m. in the high school auditorium. Everyone is cordially invited to attend, who is interested in looking at the record with a man who has been outstanding in representing his district, stated Mike McCully, County Democratic Chairman.

Due to his tight schedule between now and election time, we have been exceptionally lucky in obtaining his services to help us clear up a lot of this political haze. Regardless of your party affiliation, you are welcome to attend. Coffee and doughnuts will be served, added McCully.

Cyclones Defeat Broncs 14-0

A high spirited Memphis Cyclone team invaded Broncho Stadium last Friday night and added another conference defeat to the Bronchos record and also put the damper on a homecoming crowd that was home and pulling for a Broncho victory.

On two occasions the Bronchos were close to the Memphis goal line but a pass interception removed the scoring threat each time. The Broncs went into the game without the services of Neel Carter who sustained a kidney injury in the Canadian game.

Quarterback Dwight McAnear was injured toward the end of the first half leaving the Bronchos without a regular quarterback to run the squad. Jim Robinson who had been on the injured list, took over the position and did a fine job considering the fact that he had never played the position before. Eddie Tipton was on the sick list and saw very little action and Jerry Elmore received a cut above his eye that required 5 stitches to close but re-entered the game before it came to an end.

Aside from the injuries, the Broncs were purely outplayed throughout the game and were unable to stop the Cyclones when they began their scoring drives.

The Bronc B squad was defeated last Thursday night by Lefors 38 to 6. Lefors passed for five of their touchdowns.

TRADE DAY WINNERS

Winners in the trade day event here Saturday were \$25-Ben Burrow; \$10-Freida Siddle; \$5-D. D. Garmon. No participating merchants were listed on the tickets.

BROTHER OF LOCAL LADY DIES IN AMARILLO

Funeral services were held in Amarillo Tuesday for L. E. Morrison, brother of Mrs. Owen Pyeatt of this city. Mr. Morrison died Saturday afternoon after suffering a heart attack in his automobile.

He was a former Hall County farmer and had been a resident of Amarillo since 1953.

HOSPITAL NOTES

Patients as of Wed., Nov. 2: Mrs. C. E. Killough, Mrs. Ralph Keys, Mrs. R. E. Baird, Kevin Boyett, W. W. Wise, Mrs. Eva Rhode, and Donna Estlack.

Dismissals: F. E. Banister, James Childers, Mrs. Georgia Calloway and baby boy, Mary Dozier, Mrs. Margaret Dishman, Dora Getsey, Mrs. H. R. Hensley, Mrs. A. B. Johnson, Price Morris, L. H. Smith, Ronnie Tyra.

History Class Enjoys Experience of Voting

Mrs. Van Kennedy's eighth grade American history classes really enjoyed their classes the past week while studying the process of voting and holding elections in the United States. An election was carried out in a manner as nearly as possible to that of our pending National election.

Poll tax receipts were issued class members and sample ballots used with the corner tear out. Mrs. Kennedy stressed that balloting was secret. Election judges were on hand to conduct the balloting. Voting was held Wednesday and whether the voting represented the trend in the election to come remains to be seen. At any rate Vice-President Richard Nixon received 36 votes to Jack Kennedy's 23.

Much interest was shown by these eighth grade students and Mrs. Kennedy's sixth grade history classes insisted that they be allowed to vote also. They were permitted to write the name of the candidate of their choice on a slip of paper. The voting indicated a change in pattern with 22 for Kennedy and 12 for Nixon among the younger set.

Services Held Sat. For Bart Russell

Funeral services were held Saturday morning at the Murphy Memorial Chapel for Bart Russell with Rev. W. R. Lawrence officiating.

Mr. Russell, 87, died Wednesday afternoon in Adair Hospital here. He had been a resident of Donley County 36 years and was a retired farmer.

He is survived by four sons, Jim F. of Amarillo, H. F. of White Deer, Houston Russell and Henry Russell, both of Clarendon; four daughters, Mrs. J. A. Fisher of Texas City, Mrs. Frank Collins of French Town, Mont., Mrs. Alice Shumaker of San Bernardino, Cal., and Miss Bobby Russell of Clarendon; twelve grandchildren, two great grandchildren and one great-great-grandchild.

Pallbearers were Clarence Reynolds, Raymond Waldrop, J. W. Sullivan, Pete Land, J. Tolbert and George Bulman.

Burial was in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

ATTENDANCE TAIL WINNERS

Cub Scout Den No. 1 was winner of the Attendance Tail for the 3rd time last week. They are, top row: Everett Monroe, Larry King and Lewis Foxhall. Bottom row: Frankie Ellis, Steve Land and Joel Greene.

Voters of Donley County along with voters on a national basis will go to the polls next Tuesday, November 8th, to elect a new president and other officials on down the line to the local level.

One of the largest turn-out of voters is expected with mounting interest being taken hourly in the presidential race. Voters are talking more freely for the candidates of their choice and campaigning on a national basis is getting hotter and more furious as election time draws nearer. There will be one certain outcome... we will all have a new president and vice president whichever the choice might be.

Up to Wednesday of this week 64 absentee ballots had been cast in Donley County which is a very good indication of a big turnout of voters. More absentee ballots are out and will probably be received prior to the deadline.

Here on the local level, indications point to Nixon and Lodge carrying Donley County along with the State of Texas and the southern group of states. John Tower of Wichita Falls is giving Lyndon Johnson a battle for his Senate seat and numerous voters who are supporting Nixon-Lodge say they are supporting Tower also.

Voters are reminded that Texans are voting on four amendments to the constitution at this election and should study these issues over carefully and give them as much thought or more than party politics. There has been considerable opposition to Amendment No. 3 dealing with Legislators salaries and voters are being urged to vote for Amendment No. 4 which will eliminate loan sharks.

The important thing to do is to be sure to vote if you are a qualified voter. It will be your vote along with the multitude of others that will elect men to head our government. Vote your own convictions and hope we have the right men to guide our future way of life.

MRS. GUY WRIGHT'S FATHER DIES

Perry Alden, father of Mrs. Guy Wright of Memphis, passed away October 29th at Bentonville, Arkansas. Funeral services were held there October 31st with Mr. and Mrs. Wright attending.

Mr. Alden visited Clarendon on numerous occasions and had a wide acquaintance here.

Quick thinking on the part of a Memphis cotton mill labor foreman in August of 1959 saved the lives of two laborers and earned a Carnegie Bronze Medal Award for bravery for the rescue. Charles C. (Blackie) Johnson, 23, of 113 N. 14th St., Memphis, a tall slender ex-basketball player and rodeo contestant was awarded the bronze medal for his actions on Sat., Aug. 8th, 1959, when he saved the lives of two men trapped in a cave in of cottonseed hulls at a Memphis gin.

Johnson and two negro men, Bob Scott and William Morris, were working in a shed containing cottonseed hulls at the gin on the fateful Saturday. The men were scooping cottonseed hulls onto a conveyor belt. As the belt moved a wall of cottonseed hulls was piled up behind the working men. Morris and Scott were working near the belt while Johnson was standing a few feet away. Suddenly the wall of cottonseed hulls collapsed. Johnson saw what was happening and yelled a warning, but Morris and Scott were unable to get away. Fifteen feet of cottonseed hulls covered the two men. Johnson was buried to the waist in the shifting hulls. Johnson freed himself and called for help. No other employees were nearby.

The labor foreman entered a tunnel under the conveyor belt, made his way below the two men and started digging upward toward them. Six minutes later he

had freed both men. One of the pair was unconscious, but neither suffered any ill effects from near suffocation.

A week after the incident Clifford Farmer submitted Johnson's name to the Carnegie Foundation sending newspaper clippings describing the incident. In June of this year the Carnegie Institute sent an investigator to Memphis. The first knowledge Johnson had of the award was when he heard an announcement in a news broadcast Friday night, Oct. 28, 1960.

"I'm a little bit embarrassed but thrilled," the black haired Johnson said. "It surprised me. I was just trying to get those guys out."

Johnson was born at Hedley and graduated from Hedley High School in 1956. "Blackie" played basketball in high school and now is a consistent winner in bareback bull riding in amateur rodeos throughout the area.

He is the son of Mr. and Mrs. Walter Johnson of Giles. Johnson is married and he and his wife, Shirley are the parents of a son, Tommy, age one. Johnson has been an employee of Western Cotton Oil Co. for four years.

Congratulations, "Blackie," your Hedley friends are proud of you.

Mr. and Mrs. G. C. Brinson spent Saturday in Amarillo with their daughter, Mrs. Dorothy Tate and David.

Mrs. Elna Davis spent the week end in Amarillo.

EXPERIENCE COUNTS!

RICHARD NIXON

Eight years' experience in the President's Cabinet . . . in The National Security Council . . . in the United States Senate

No other man in our history has been as well prepared for the Presidency as Richard Nixon. Working closely with President Eisenhower, he has learned first-hand the intricate duties of the Nation's highest office. As the most active Vice President ever, he has proven time after time, at home and abroad, that he has the skill and the courage to solve any challenge that may arise.

Richard Nixon does not have to grow up to the job. He has lived with it for eight years. And because experience counts, Richard Nixon is America's chief hope in the critical years ahead.

HENRY CABOT LODGE

Seven years' experience as United States Ambassador to the United Nations . . . "America's Voice to the World"

There is hardly a man alive with a better working knowledge of Communism and its threats than Henry Cabot Lodge. As America's highly respected spokesman at the U. N. for the past seven years, the Communist challenge has been his primary concern. And time after time, in his forceful and articulate manner he has thwarted Communist attempts at world domination.

There can be no more important issue than world peace. And once again, because experience counts, Henry Cabot Lodge is Richard Nixon's perfect partner for peace.

Vote for NIXON and LODGE: they understand what peace demands

Addison, N.Y. Advertiser: "What probably grieves most Americans most is the fact the Russians capture one of our men spying over the Soviet Union, and they make a world spectacle out of his trial. We capture scores of Soviet agents operating in the U.S.A., and most of them are simply sent back to Russia without fanfare. Certainly we cannot afford to lose the propaganda value of letting the rest of the world know America has been preyed upon by a whole swarm of spies for many years."

Will Control Of Advertising Re-channel Nation's Wealth?

by W. R. "Beau" Beaumier, Lufkin Daily News

Professor Arthur M. Schlesinger Jr. of Harvard is one of the top leaders of the ADA, the ultra left-wing Americans for Democratic Action.

Professor Schlesinger is also one of Jack Kennedy's top economic advisors.

He recently wrote a privately-circulated, red-bordered booklet, entitled, "The Big Decision: Private Indulgence or National Power."

The main theme of this booklet was:

Taxation, control and even censorship of advertising as a means of re-channeling the nation's wealth.

In his booklet, Professor Schlesinger says:

"There is no reason to suppose that our living standards or tax rates are sacred. There are unexplored possibilities in taxation — not only plugging loop holes, such as percentage depletion of oil, but taxing things to help people, such as, for example, a tax on advertising."

Professor Schlesinger sets forth his opinions on the weaknesses of the free enterprise system and cites the accomplishments of the Soviet Union in controlling advertising in this way:

"The answer to the Soviet success is as plain as day. It lies in the power of the Soviet Union to focus its national energies. It allocates its talent and resources according to an intelligent system of priorities. The Soviet Union spends two to three times as large a share of its annual gross national product on defense and on education as we do in the United States. Our country

spends a much larger share on such things as automobiles, cosmetics and smoking tobacco. "We are in trouble because we have committed ourselves — or rather because we have permitted our leaders to commit us — to the fatuous thesis that private spending is always more 'intelligent' and more 'useful' than public spending."

"... We can change this situation any day we want to. It is not obligatory, for example, to spend three times as much each year on advertising as on higher education. It is a man-made condition, and man can alter it."

"... The moving force behind the administration is the alliance between the big producers and the big advertisers."

"... We have had epochs of national purpose in our past when we were able to direct our energies to national ends. We did precisely that, of course, during the two great world wars."

"... We possess the machinery for setting national priorities. "We possess it in the leadership of the President and in the congressional powers of taxation, authorization and appropriation."

In other words, it is the opinion of Professor Schlesinger that money being spent in local stores as a result of advertising in your newspaper is hindering national progress.

He would cure this by taxing, controlling and censoring advertising.

Winnemucca, Nev. Star: "Government surveys indicate that less than 1% of the nation's school districts have used up their own local financial resources, or reached their legal borrowing limits. Whereas, from 1950 to 1959 pupil enrollments increased by 10.2 million, enough school rooms were built to take care of 16.8 million."

HEDLEY NEWS

Mabel Bridges

Quick thinking on the part of a Memphis cotton mill labor foreman in August of 1959 saved the lives of two lagorers and earned a Carnegie Bronze Medal Award for bravery for the rescue. Charles C. (Blackie) Johnson, 23, of 118 N. 14th St., Memphis, a tall slender ex-basketball player and rodeo contestant was awarded the bronze medal for his actions on Sat., Aug. 8th, 1959, when he saved the lives of two men trapped in a cave in of cottonseed hulls at a Memphis gin.

had freed both men. One of the pair was unconscious, but neither suffered any ill effects from near suffocation.

A week after the incident Clifford Farmer submitted Johnson's name to the Carnegie Foundation sending newspaper clippings describing the incident. In June of this year the Carnegie Institute sent an investigator to Memphis. The first knowledge Johnson had of the award was when he heard an announcement in a news broadcast Friday night, Oct. 28, 1960.

"I'm a little bit embarrassed but thrilled," the black haired Johnson said. "It surprised me. I was just trying to get those guys out."

Johnson was born at Hedley and graduated from Hedley High School in 1956. "Blackie" played basketball in high school and now is a consistent winner in bareback bull riding in amateur rodeos throughout the area.

He is the son of Mr. and Mrs. Walter Johnson of Giles. Johnson is married and he and his wife, Shirley are the parents of a son, Tommy, age one. Johnson has been an employee of Western Cotton Oil Co. for four years.

Congratulations, "Blackie," your Hedley friends are proud of you.

Mr. and Mrs. G. C. Brinson spent Saturday in Amarillo with their daughter, Mrs. Dorothy Tate and David.

Mrs. Elna Davis spent the week end in Amarillo.

Mesdames Dorothy Hopson and Smith of Dimmitt were here Wednesday. Dorothy gave the program for 1919 Study Club.

Mr. and Mrs. James Potts are the parents of a fine little son

born Oct. 28, weighing 5 1/2 lbs. Congratulations. Mr. and Mrs. R. M. Bradley and daughter attended a family reunion in Tulia Sunday. Sorry to report Lee Everett is not doing so well in a Memphis hospital.

Mr. and Mrs. Winifred Doherty are in Corpus attending a farm meeting.

Mr. and Mrs. Paul Dishman and children of Dallas spent a few days with the Roy Jewell's last week.

Mr. and Mrs. Harrison Hall are on a fishing trip at Aransas Pass for a few days.

Mrs. C. L. Johnson is visiting the Billie Johnson family in Corpus Christi.

Mr. and Mrs. Roy Jewell have returned from Whitesboro where they were called due to the serious illness of Frank Jewell. Sorry to report him not doing so well.

Mr. and Mrs. Herman Kirkpatrick left Saturday for Corpus to visit his sister, Mr. and Mrs. Duck Moore.

Mr. and Mrs. Clarence Bradley of Shamrock spent Saturday with his brother, the R. M. Bradley's.

Recent visitors in the W. H. Hill home were their daughter

and family, Mr. and Mrs. T. H. Wiggins and children of East Point, Ga.

Mr. and Mrs. Walter Crain of Goodnight saw the parade and paid Hedley high compliments. In fact they said it was one of the best parades they have seen. Thanks.

EXPERIENCE COUNTS!

RICHARD NIXON

Eight years' experience in the President's Cabinet... in The National Security Council... in the United States Senate

No other man in our history has been as well prepared for the Presidency as Richard Nixon. Working closely with President Eisenhower, he has learned first-hand the intricate duties of the Nation's highest office.

Richard Nixon does not have to grow up to the job. He has lived with it for eight years. And because experience counts, Richard Nixon is America's chief hope in the critical years ahead.

HENRY CABOT LODGE

Seven years' experience as United States Ambassador to the United Nations... "America's Voice to the World"

There is hardly a man alive with a better working knowledge of Communism and its threats than Henry Cabot Lodge. As America's highly respected spokesman at the U. N. for the past seven years, the Communist challenge has been his primary concern.

There can be no more important issue than world peace. And once again, because experience counts, Henry Cabot Lodge is Richard Nixon's perfect partner for peace.

Vote for NIXON and LODGE: they understand what peace demands

ASHTOLA COMMUNITY MEETS AT CENTER

In an all day meeting at the Center Monday a demonstration was given on the making of plastic flowers. Mrs. Alene Partain demonstrated, and each present worked with her own kit making flowers. One centerpiece was finished and another one started and they are to be left at the Center to be used when the need arises.

Everyone brought her sack lunch for the noon meal. Present were Mesdames Laura and Veda Mahaffey, Alene Partain, Marybelle DeBord, Elizabeth Graham, Vena Hudson, Ruby Jewel Hardin, Lillie Knox and Ronda Rattan.

WEDDING ANNIVERSARY OBSERVED BY COUPLE

A surprise reception was held Sunday afternoon for the 26th Wedding Anniversary of a Donley County couple who have lived here since 1937. Mr. and Mrs. J. F. Rumpy of Naylor Route were married Oct. 30, 1934 at Abilene, Texas. They spent their early married life near Abilene where Mr. Rumpy was engaged in farming. At present he is fence foreman for the RO Ranch and he also has farming interests in the Naylor Community.

Two of their eight children were unable to attend. They are Troy Rumpy of Cupertino, Calif., and Aubrey Rumpy of Pavilion, New York. Other children are Mrs. Jim Warner, Mrs. Claude Thomas and Don Rumpy, all of Amarillo; Lynn, Willo and Janette, still at home. They have ten grandchildren.

Out-of-town guests attending the reception were Mr. and Mrs. Jim Warner and children, Mr. and Mrs. Claude Thomas and sons, Don Rumpy and Ernest Johnston, of Amarillo; Mr. and Mrs. O. B. Rumpy of Leslie; Mr. and Mrs. Orlie Hartman, Marion and Sue Tidwell of Quail; Beatrice Hook of Memphis; and Ronnie Overcast of Canadian.

Fifty-four guests registered throughout the afternoon and several unable to attend sent gifts and remembrances.

Hostesses for the occasion were Vera Hook, Ruth Hutson and Ipez Johnston. —Rep.

SIMS P-T.A. HOLDS REGULAR MEETING

On Tuesday, October 25th, at 7:30 p.m. Sims P-T.A. held its regular monthly meeting in the junior high auditorium. The meeting was opened with a prayer by Rev. Baldwin J. Stribling, Pastor of the First Presbyterian Church.

A motion was made and seconded to amend the by-laws, changing the regular meeting date from the third Thursday afternoon of each month to the fourth Tuesday night of each month.

The attendance contest was won in grade school by Mrs. Cuy's home room with 14 present and in junior high by Miss Blankenship's home room with 14 present.

The audience was entertained as members of the eighth grade, acting as Mrs. Moss and Mr. Knorpp, introduced the teachers and Mr. Cain, also played by members of the class. Then a typical faculty meeting was held by the students.

An audience participation program was conducted by Mrs. Moss, program chairman. As parents entered the auditorium they were handed articles from newspapers and magazines. Those receiving these articles were given a short period to read them.

The following questions were then asked. How do we achieve togetherness? Do we give our children a proper spiritual background? Do parents understand their children? Are we pushing our children into situations before they are ready? Do we push our children into sports banquets and other school activities? What are the signals that should alert us to trouble in our children? These questions were discussed by members of the audience. Through these discussion type programs your P-T.A. is attempting to bring a closer relationship between home and school.

Mr. Hutton closed the meeting by reading the P-T.A. prayer.

The executive committee will meet Thursday, November 3rd, at 9:30 a.m. in the home of Mrs. Cecil Heckman. —Rep.

PRESBYTERIAN WOMEN CIRCLE 2

Circle 2, Presbyterian Women met Wednesday afternoon, October 26. Meeting was opened with the hymn "For the Beauty of the Earth." Mrs. D. E. Stevenson led the Bible lesson. "Psalms of Praise and Thanksgiving." Meeting was closed with "The Lord's Prayer." Eight members were present. —Rep.

Mr. and Mrs. W. B. Ayers visited Mrs. Ayers' sister and husband, Mr. and Mrs. O. E. Brooks in Lawton, Okla., last week.

ENTRIES IN WOOL CONTEST TO BE JUDGED

The County elimination in the "Sew It Yourself With Wool" contest will be held at 7:30 p.m. in the Clarendon High School Auditorium on Nov. 28. This elimination determines the four entries to be entered in the district contest on Dec. 10 at Texas Tech.

Efforts are being made to secure qualified judges to choose the four best garments entered from the county. The garments are to be judged for workmanship and judged on the models. The models must be the person who made the garment.

This contest is sponsored annually by the Women's Auxiliary to the National Wool Growers' Association and the American Wool Council. Girls 13 through 22 are eligible to enter. Some states allow adult contestants. It is the only sewing contest which has been on the approved list of the National Association of Secondary School Principals for five years.

Among the many wonderful prizes offered the winners in this contest are, trips in the U.S. and abroad, scholarships ranging from \$300 to \$1,000, sewing equipment, wool fabrics, and U.S. Savings Bonds.

You may enter this contest if you are between 13 and 22 years of age and will make and model a garment of 100% American milled wool. A girl is not required to be enrolled in a sewing class. For further information contact Mrs. Velma Bourland, homemaking teacher, Clarendon High School or Mrs. Sue Shields, homemaking teacher, Hedley High School.

Mr. and Mrs. Arlie Wood and family, accompanied by their daughter, Carole, who is a student at Baylor University at Waco, spent the week end in Galveston. They were in the big rain that hit that coastal area and Mr. Wood said there was almost as much water on land as in the Gulf.

FARM NEWS

from the County ASC Committee

Cotton Growers to Vote December 13th

Cotton growers will vote December 13th in their annual referendum to determine whether to use a system of marketing quotas for the upcoming crop of upland cotton.

If approved in the referendum, the system of quotas would apply to the 1961 cotton crop. This would be the eighth successive year in which quotas have been in effect for upland cotton.

Upland cotton quotas have been proclaimed by the Secretary of Agriculture on the basis of an official determination that the estimated total supply of cotton for 1960-61 will amount to approximately 21.7 million running bales, or about 3 million bales above normal. The law requires the proclamation of quotas by Oct. 15 in any year when the total supply exceeds normal. Quotas do not take effect, however unless approved by at least two-thirds of the growers voting in the referendum.

In announcing the upland cotton program for 1961, that only one allotment-price support program will be available to growers for their 1961 cotton crop. Legislation provided the so-called Choice (A) and (B) programs only for 1959 and 1960.

The national cotton allotment for 1961 has been determined at 18,398,424 acres, compared with 16 million acres in 1960. This 1961 national allotment, plus individual farm allotments will be made available to producers before the referendum. The 1961 farm allotments as compared to 1960 may vary considerably in the extent to which they reflect the national increase.

If marketing quotas are approved in the December 13 referendum, price support will be available to growers who comply with their farm allotments at a level within the range of 70 to 90 per cent of parity. As in other years, the exact level of price support will be determined later. Growers who exceed their farm acreage allotments will be subject to penalties of 50 per cent of the June 15, 1961, parity price on the farm's excess production of the crop. In addition, none of the upland cotton produced on the farm will be eligible for price support.

If marketing quotas are disapproved for 1961, acreage allotments will remain in effect and price support will be available to cooperators at 50 per cent of parity, as provided by law.

Report ACP Practices Promptly
As soon as possible after completing an ACP practice, please make your report to the ASC office. If you have an approval for a practice and do not intend to complete the work, please call by and cancel the obligation. By so doing, you will release funds so that others may carry out a practice.

Pfe. Loyd C. "Jackie" Phillips is visiting his folks, Mr. and Mrs. Virgil Siddle. Jackie has spent the past two years at Verdun, France, where he has served with the 42nd Field Hospital. He is here on a delay in route and will be stationed at Fort Knox, Kentucky.

Visitors this past week in the home of Mr. and Mrs. Gar Gibson and daughters, Tommie Jean and Dana were Mr. and Mrs. Grady Gibson of Greenville and Mrs. Burly Gibson and Mrs. Lon Gibson of Commerce, Texas.

Clarendon Colts Defeat Lefors 22-14

Thursday night in Broncho Stadium the Clarendon Jr. High Colts defeated the Lefors Jr. High team by a score of 22-14.

Lefors scored first on a pass play, but failed to make the extra points. Lefors kicked to the Colts and on the first play from scrimmage John Grady ran 60 yards for the Colts first score. Douglas Bradshaw ran over for the extra points and the Colts went in front 8-6. The teams played on equal terms the remainder of the first half and the score at halftime was 8-6.

In the third quarter John Grady ran over the goal line to make the score, Colts 14, Lefors 6. The extra point try failed. In the fourth quarter Douglas Bradshaw scored on a three yard run and Cecil carried over for the two points.

In the fourth quarter Lefors scored on a pass play to make the final score 22-14.

The boys starting the game for the Colts were John Grady, Douglas Bradshaw, David Moorings, and Ray Pinkerton in the backfield. The line was made up of Kenneth Price, Barry Hudson, San Thompson, Mike Horton, Bernie Green, Freddie McAnear, and Bobby Cain.

Other boys taking part in the game were Cecil Jones, Lloyd McCord, Phil Hart, Mike Slavin, Jack Robinson, Richard Thornberry, Henry Hermesmeier, and Tilden Kirkpatrick.

This completes the football season for the Colts. All boys interested in basketball will report for practice Monday, October 31.

FORMER RESIDENT WINS A.S.C. CONTEST

Notably efficient functioning of a government agency has brought honors to L. D. Aten, Jr., a former employee of the local ASC office and now manager of the Lamb County Agricultural Stabilization and Conservation Service at Littlefield. He, along with his entire office, was selected the ASC county officer most outstanding in effective and efficient operation of agricultural stabilization and conservation programs in a 16-county group covering a wide area of the South Plains and West Texas.

The Lamb County office was nominated for the award by Dale Carter, District Head, and approval of the suggestion came through G. F. Osborn, state administrative officer with headquarters at College Station.

Carter presented the certificates to the office as a unit, to the committee members and to Aten. Certificates to all employees were presented by Aten at a dinner last week. There was a check attached to each employees certificate as an expression of special appreciation.

Donley County folks are proud of L. D.'s accomplishments. He is a son of Mr. and Mrs. Lamar D. Aten, Sr., of Lelia Lake.

Visitors in the home of Mr. and Mrs. W. C. Scott Sunday were Mr. and Mrs. Garland Givens of Lubbock, Mr. and Mrs. Billy Scott and Cheryl, Mr. and Mrs. Chester Scott, Glenda, Connie, and Dale Ramsey, all of Amarillo.

Allen Homer Estlack spent the week end with his parents, Mr. and Mrs. Homer Estlack, returning to Texas Tech Sunday afternoon.

Mr. and Mrs. Allen Calhoun and baby of Amarillo spent the week end with her grandparents, Mr. and Mrs. R. O. Thomas.

Jones and sons, Walker, Luke and Carlton of Lampasas, Vera Latham of Cal., and Mrs. Claude Lewis of Dumas, their son, Mr. and Mrs. R. V. Hatley of Amarillo. Mr. and Mrs. Hatley expressed their appreciation to friends and neighbors who prepared the delicious meal.

Guests in the home of Mr. and Mrs. H. R. Hensley through the week end were Mr. and Mrs. B. J. Hickey and son, Horace Lee of Quanah, Mr. and Mrs. B. J. Thompson, Randy and Ronnie of Memphis, Mr. and Mrs. Henry Wallace of Cohoma, Mrs. Jack Hewitt, Rickey and Brenda of Midland, Mr. and Mrs. Leon Hensley and children of Amarillo, and Mrs. David Bennett.

Mr. and Mrs. Virgil Siddle and family visited Sunday with the Nelson Jones family in Dumas.

Donald Pitts, a student at Texas Tech, spent the week end with his parents, Mr. and Mrs. C. A. Pitts, and attended Homecoming activities here. (40-p)

Mr. and Mrs. O. C. Watson returned home Thursday after visiting relatives at Ft. Worth, McKinney, Denton, Sanger, and Oklahoma City and Hobart, Okla.

Mr. and Mrs. J. D. Pool and daughters from Dumas spent the week end with her parents, Mr. and Mrs. C. N. Brewer.

Mr. and Mrs. C. M. Peden from Dalhart spent Sunday with Mr. and Mrs. C. N. Brewer.

Pocomoke City, Md., Democrat: "Where do government benefits come from? An African eager to learn about democracy was having difficulty with the idea of taxation of the people for the benefit of the people. Suddenly the light dawned. 'I see!' he cried. 'It means that if I want to give my dog a nice piece of fresh meat, I just take a knife and chop off part of his tail!'"

HOW TO GET RICH

The Charleston, South Carolina, Post, tells of "An Easy Way to Make a Profit."

This particular way is found in a proposal that comes from a top official of the National Rural Electric Cooperative Association. He would take the \$200 million or so that the Association has in savings and investment accounts and place the money in high-grade bonds, industrial and governmental. The bonds would yield four, five and more per cent.

The Post observes: "Under present conditions, the co-ops could hardly lose. They borrow money from the federal treasury for two per cent. In the past they have borrowed some \$4 billion, and are still borrowing at an annual rate of \$200 million. The borrowed money is used to build new plants and expand REA lines into suburbs and towns, since nearly all the farms in the country now have electricity."

This get-rich-quick scheme, of course, would be paid for by all the taxpayers. The two per cent REA loans are financed through government bond offerings that carry an interest rate of four per cent or more.

Well, it's an interesting and novel idea. But why not carry it further? Let the government lend money to all the rest of us at a two per cent rate — and then we too can invest it to bring in a return of double that rate. We'll all get rich without effort, work or worry!

Canton, N.C. Enterprise: "If a person, firm or any group has anything to sell or give away, it generally pays to let the public know what is being offered. How else can the public know that something is for sale or is being given away? . . .

"This is the reason why the merchant who just opens his door and waits for customers to enter — without doing some form of advertising, is likely to do a minimum of business. At the same time, the merchant who sees to it that the public knows what he has to offer is going to be much better for the town."

Cub Scout News

The Clarendon Cub Scout Halloween Party in the basement of the First Christian Church was a big success with 175 present. Games such as pin the tail on the black cat, ring toss, toss the ring on the bottle, bob for apples, apple on a string, spook room, fortune teller, and fishing pond.

In the drawings, Cheryl Hardin won the puppy, Denney Choate and Byrd Adkins won white rabbits, Jim Risley, Troy Chamberlain and Eddie Carmichael all won jack-o-lanterns.

Den No. 1 won the attendance tail with 54 people signing up for their den. This is their third straight win, so they get to keep the tail pole.

The big event of the evening was going through the vacant house across the street. It was haunted for the night by several Cub dads and Assistant Cubmasters, who did a bang-up job.

The finale of the Halloween party was the breaking of the Black Cat Pinata. After many tries by the boys, Jim Risley gave the blow that broke the pinata and spilled out the candies.

The Cub Scouts, Boy Scouts and Explorer Scouts all met in front of the City Hall Saturday morning in a mass campaign, going over the town putting "vote" tags on the doorknobs.

For citizens of Clarendon that they might have missed in the house-to-house campaign we would like to urge you to Beat

GOOD SENSE

According to the Chamber of Commerce of the United States, the United States national debt, which now totals \$290 billion, exceeds the combined debts of all other nations in the world by \$47 billion. It observes: "When you owe a lot of money, it makes good sense to pay some back. This rule is as good for governments as it is for people."

The debt can gradually be paid back in only one way — by rejecting unnecessary spending.

DEFENSE WITHOUT PENALTY

Common sense and common justice dictate that defending its right to stay in business is a legitimate expense for any enterprise. But the Internal Revenue Service has ruled that the cost of institutional advertising which might influence legislation is not deductible as operating expense.

Legislative measures have been introduced in Congress which would correct this situation, and would allow as deductible expense, money spent supporting or opposing legislation which would affect the business of an individual or company.

During its recent annual convention the Montana Press Association adopted a resolution to "... inform the congressmen and senators of Montana we would appreciate their support of the Boggs Bill which deals with the Internal Revenue's mistaken views, which the Resolutions Committee feels constitutes censorship by taxation, thus hindering business from expressing its views on proposed legislation."

Although the ruling applies to all businesses, investor-owned private electric utilities, which have been the main target of socialization advocates find themselves in an especially vulnerable position. Government-owned power projects can beat the drums for socialism with no penalty attached because they are exempt from Federal income taxes. Private power companies, on the other hand, are penalized by taxation for every dollar they spend in combating efforts which would ultimately put them out of business, and in the process, take a long step toward destroying the free economic system on which the opportunity and freedom of every last one of us depends.

It's time to even the odds and the Montana Press Association and others taking such action should be congratulated. Let's give back to private citizens the right to defend without tax penalty, the foundation under our house of freedom.

BLOWIN' Out the CORNERS

by Uncle Zeb

Shreveport, La.—All along the highways both in deep East Texas and in the old hometown of Captain Shreve the foliage is beautiful this October. From the bright red of the sumac and the water oak to the varying shades of both yellow and green.

The rivers are exciting to a West Texan, the creeks seem bursting with fish, the colored people seem as happy as can be and the white folks are little concerned over the presidential election. We asked several along the way and received about an equal of the following answers:

"We tried those Republicans once and we are not about to do that again."

"The War is over and done with. We have quit voting like grandpa did. Now, we are picking the man we like best."

"Since they tell us we can't vote directly for the man, we

figure it don't make much difference, so we may just go fishing."

"Most of the churches ain't taking much stock in the religious angle, but that little church down the street has been kicking up quite a fuss."

With all the mixed up answers we decided they were as confused on what they should do as we were so we headed north into Arkansas with its mountains of beautiful scenery.

Often wonderful little experiences come to us just by talking with strangers along the road. From a kind sweet little old lady who operates an antique shop just off the main road, we received the following little gem about Thoughts.

"Thoughts have no boundaries. They can easily reach into tomorrow and the future or backward to yesterday and the past. They can travel to your companion beside you or into far away Africa in the same instant."

Mena, Arkansas—Funny thing about the mountains, hereabouts, beautiful as they are, is the fact that after one has climbed or driven to the top we are no higher above sea level than when riding across our Panhandle

wheat fields. Such is the case with Mount Mena scenic spot in this area which towers to only some 3000 feet.

This colorful mountain located in the Ouachita range (pronounced Wash-i-taw) was the site of a once fabulous hotel named the Hotel Wilhelmina. This area, now a state park, is rich in many legends of the past. The building, mostly wasted away, is being reconstructed in somewhat the same fashion as a stop for a scenic railroad tour. This part of the range is called Rich Mountain.

Rich Mountain was homesteaded in the 80's. Robert Ripley once gave a prize for the square mile with the largest variety of growth. This mountain won with a total of 47 different trees, 27 varieties of wild fruit, 17 kinds of medicinal plants, and over 100 flowers, ferns, and mosses. It is said to be the coldest place south of Minnesota with the temperature never going above 95. An average of 65.

In 1896 the railroad came to this area and because of the many legends already centered around Mount Mena the promoters decided the hotel should be on this spot with the hopes of attracting many foreign visitors. Because of a lot of Dutch money was used it was named after the Queen and a room was kept in her honor.

Being a mountain did not keep the soil from being rich and farming developed in the area. It is said that during the Civil War a slave owner from Texas brought 100 of his slaves to Rich Mountain in hopes that they would not be freed.

Rumor has it that a wife of one of the owners refused to make her dog eat out of a basin like the other local dogs. The manager

THE MORE WE KNOW

The New York Stock Exchange reports that arrangements have been made for some 72 courses on securities and investing, all open to the public, in adult education centers in the New York area this fall. And this kind of

of Arkansas says the next 18 miles are steep and crooked they mean just that. Of course there are super highways through the state but we chose one not so well traveled in the hopes of better scenery. Our rewards were well worth the bumps.

Near Booneville we saw some of the most wonderful grazing country. Much of the range was once old wornout fields or land with brush or poor grass. Science in agriculture has found better grasses and with fertilizer added to the shallow soil we see wonderful results.

The farm population seems to be a changing one. Many farms are for sale. In these changing times there were those who looked at the beauty and bought, hoped for too much from too little. They became discouraged and want to sell. Amid these failures stand many homes and barns that have every marking of success.

education is not limited to New Yorkers. The courses are part of a national program, now in its sixth year, conducted by the Exchange and its member firms in cooperation with sponsoring schools and organizations. All in all, the program is annually reaching close to a million persons the country over, apart from those reached through radio-television panel programs.

The courses, it should be emphasized, do not provide "hot tips" on the market, suggest get-rich-quick schemes, recommend particular stocks, nor urge anyone to invest. The topics discussed include types of securities, how to read the financial page of a newspaper, how to interpret corporation financial reports, how economic indicators are useful to investors, and so on down a lengthy list. The whole idea is to help interested people to become knowledgeable investors, able to make their selections on the basis of facts and reasoned analysis — not tips and rumors.

In this day and age, with some 13 million people owning stocks and the number growing substantially each year, such educational efforts are enormously valuable. In investment, as in anything else, the more we know the better off we are likely to be.

quit in a rage, and the hotel folded up.

Go West, young man, go West—The foliage is said to be best; But there's also a feast; If you take a trip East, In the fall when the trees take their rest.

Ozark, Arkansas — Travelling north through the western part of Arkansas we were thrilled beyond words by the splendor of the Boston Mountains. As we approach the main Ozarks the col-

ors become richer and with a broader contrast.

As we turn each bend we find a new riot of color that words fail to describe. So many different kinds of trees each with a different October dress would make any artist want to paint. With our talents we can only wish to take a picture when many times the roads will not permit a stop.

One thing we learned for certain today was that when the highway department of the state

GROCERY and MARKET

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN — Though the legislators are still home, shots already are whizzing in the battle over how to raise more state revenue in 1961.

When the lawmakers arrive in January, they will have a hard time finding a road to new money that hasn't been land-mined and strewn with barbed wire by some group that opposes that course.

Advance studies indicate the need for as much as \$100,000,000 a year in new taxes.

Business groups, who have been holding meetings over the state, have come out flatly for a retail sales tax. They contend that to meet its needs, present and future, Texas must have a broad-based, spread-thin tax that will grow with the economy.

Representatives of organized labor, strongly opposed to a sales tax, fired back. Labor has endorsed the idea of a broad-based "growth" tax, but insists it should be an income tax, on corporations and individuals.

Governor Daniel has voiced opposition to both sales and income taxes. Many legislators were elected on platforms opposing both.

Only other likely courses would be to raise taxes that already exist, or vote taxes previously rejected. But these roads also are blocked by groups ready to defend to the last.

On such a battlefield, lawmakers might be tempted to retreat — except that this course is cut off too by supporters of better colleges, teacher raises, medical payments for the aged — all of which require more money.

U. of Houston Aid Approved — Commission on Higher Education recommended that the Uni-

versity of Houston be added to the state college system if it wouldn't cut into funds needed by the 19 already existing state colleges.

Final decision can be made only by the Legislature. A Commission study indicated the University of Houston would cost the state approximately \$4,000,000 a year more from the general revenue fund. It has a 22-acre campus and a plant valued at \$22,000,000. Enrollment for this year is 11,500, second only to the University of Texas with 19,000.

Commission emphasized that adding the Houston school should be conditioned on providing adequate financial support to existing state schools. Commission is tentatively recommending an appropriation of \$69,350,000 for higher education in 1962. University of Houston's needs would be in addition to this, meaning more money-raising problems for the Legislature.

Auto Insurance Plan Revised — State Board of Insurance has removed certain driving violations, mostly minor, from the list of those incurring penalties under the state's merit rating plan for auto accident insurance.

Board members disagreed among themselves over whether to retain the present plan or abolish it and let companies set up merit rating on an individual basis. Board Chairman Penn J. Jackson favored the individual plan but was voted down by members Robert W. Strain and Ned Price.

Removed from the list of driving offenses which cause the driver to have to pay higher accident insurance rates were such offenses as fraudulent use of drivers license, mental incompetence, physical incapability, driving on the wrong side of the street, going the wrong way on a one-way street, blocking traffic, illegal backing, improper signals, etc.

Points will still be assessed against the driver for such violations as speeding, running red lights or stop signs, illegal turns, negligent collision, illegal passing, failure to have drivers license, whether involved in an accident or not.

Changes go into effect Jan. 1.

Bowing Tax Opinion — A big bowling alley costs less than a tiny one, state tax-wise.

Atty. Gen. Will Wilson ruled that the operator of a regular bowling alley should pay only the \$10 occupational tax, but that owners of coin-operated miniatures gowling machines must buy a \$60 license for each machine.

Two machines joined together cannot get by on the same license, said Wilson in the same opinion, given at the request of State Comptroller Robert S. Calvert.

Only service machines are tax exempt, said Wilson.

Tourist Booklet Due — Texas Highway Department expects to have a new 32-page booklet designed to attract tourists to Texas ready for distribution by the end of this month.

It will be the first booklet of its type paid for with state funds. It will have 76 color pictures to show people why they should spend some time — and money — in Texas.

Texas' tourist industry, an important source of revenue to the economy and the state treasury, has been slipping in the past few years. Competition of other states is blamed for the drop from 10,300,000 visitors spending

\$531,000,000 in 1957 to 9,600,000 spending only \$431,000,000 last year.

First printing of the new brochure is 400,000. It will give the Highway Department something to send to the some 200,000 potential tourists who write in each year — plus extras with which to prod new interests.

Tidelands Leasing Announced — School Land Board will start offering oil and gas leases in the Texas tidelands at its sale Dec. 6.

Atty. Gen. Will Wilson announced that the U.S. Supreme Court decision recognizing state ownership of the tidelands for three leagues (approximately 10 miles) had been made final.

This clears the way for the state to begin realizing revenue from them, said Wilson.

Shelter Possibilities Explored — Core tests reveal that the area underneath the state Capitol building is almost solid rock for 80 feet down.

This indicates a favorable place to construct an underground fallout shelter for essential government services in wartime, says Rep. Charles Sandahl of Austin.

Sandahl has proposed building such an underground shelter to be used for parking space in peacetime. State Building Com-

mission ordered the soil test to get an idea of whether such a project could be done and to arrive at a cost estimate.

The Nomenclature Of Administration

(From Religion and Health)

A Program: Any assignment that can't be completed by one telephone call.

To Expedite: To confound confusion with commotion.

Channels: The trail left by inter-office memos.

Co-ordinator: The guy who has a desk between two expeditors.

Consultant: Any ordinary guy more than 50 miles from home.

To Activate: To make carbons and add more names to the memo.

To Implement a Program: Hire more people and expand the office.

Under consideration: Never heard

of it. Under active consideration: We're looking in the files for it.

A Meeting: A mass milling by master minds.

A Conference: A place where conversation is substituted for the dreariness of labor and the loneliness of thought.

Will Advise in Due Course: If we figure it out, we'll let you know.

Reorientation: Getting used to working again.

Reliable Source: The guy you just met.

Informed Source: The guy who told the guy you just met.

Unimpeachable Source: The guy who originally started the rumor.

A Clarification: To fill the background with so many details that the foreground goes underground.

We are making a survey: We need more time to think of an answer.

Note and Initial: Let's spread the responsibility for this. See Me, or let's discuss: Come down to my office; I'm lonesome.

Let's get together on this: I'm assuming that you're as confused as I am.

Give us the benefit of your present thinking: We'll listen to what you say as long as it doesn't interfere with what we've already decided to do.

To give someone the picture: A long, confused and inaccurate statement to a newcomer.

To negotiate: To seek a meeting of minds without a knocking together of heads.

Point up the issue: To expand one page to fifteen pages.

Solve the gift problem—Give the Leader.

HORSEPOWER THAT MAKES SENSE FOUR CYLINDERS TO SAVE GAS! THE NEW SWEET RUNNING TROPHY 4 ENGINE FROM PONTIAC PERFORMANCE SPECIALISTS!

The new Trophy 4 engine puts real performance in the Tempest and cuts gasoline bills to boot. This new baby is *eager to move out* for safe passing. Holds the going pace on any expressway. Breezes up steep hills in high gear. This new 195 cubic inch displacement, 45° inclined, short stroke, 4 cylinder engine has a wide range of h.p. ratings. With single-barrel carburetor and stick shift: 110 h.p. (regular gas) or 120 h.p. (premium gas). With the same carburetor and extra cost automatic shift: 130 h.p. (regular gas) or 140 h.p. (premium gas). Want still more? Order the 4-barrel carburetor with the automatic and jump the output to 155 h.p. (Or buy the 155 h.p. aluminum V-8 option.)

Rear axle drive and transmission are combined (a trans-axle). Flexible shaft from front engine delivers smooth, quiet power. Perfect 50-50 balance gives a flat, level ride that no other new-size car can touch. *Rides like the big ones!* An equal load on every wheel. Steering is light and easy! Better braking and improved traction in snow, sand or mud! *Independent suspension at all wheels.* Swing axles keep Tempest on an even keel over bumps, ruts, dips and holes! *112" wheelbase.* Long enough for a cradled ride—short enough to handle like a sports car. *Big 15" wheels.* Good road clearance. Long tire life. (13" compact tires turn at least 4900 more times to go 100 miles.) *Seats six men.* The big transmission hump is gone. The middle man can stretch out size 12 brogans! *Wide-Track, too!* The track is up to 3 inches wider than most compacts. Less lean. Less sway. Better cornering. *Pontiac dealers have it—and they have it now!* A four-door sedan... a station wagon... a full line-up of accessories. Try the Tempest out for an hour—you'll want in for keeps! It's priced with the compacts!

LIBRARY NOTES
EDITH BARNES

A memoria gift has been given to the library in memory of Mrs. Myra Melinda Cauthen. A children's book has been

given to be dedicated to the memory of little Brenda Tyler, daughter of Mr. and Mrs. Frank Tyler.

Perer Gilman's "Diamond Head," is ready made for those of us only go for history when it is woven into an interesting story.

It is quiet a trick to take one family and through them give you an unforgettable picture of Hawaii, both past and present, but author Gilman does it.

Quoting from a review: "Big in conception, sweeping in events unforgettable in characterization, 'Diamond Head' mag-

nificantly captures the dynamic atmosphere of today's Hawaii, with the tensions of its sharply stratified, heterogeneous society, the rich background of its history and tradition, its awesome natural beauty, the courage and fierce pride of its passionate people."

Peter Gilman knows his subject well as he worked there on the Honolulu "Star Bulletin" and was a correspondent for the Associated Press.

Vance Packard's "The Waste Makers" is barely off the press and is already number one on the "Best Sellers List."

He bemoans our waste of every thing but especially our irreplaceable natural resources. We come in for our share of the blame of wanton waste of our most precious resource, water. When it is dry drive around town and see how much water is running down the gutters then go on out into the country and look where some of the water is going when fields are being irrigated.

Waste in the field of clothes for another instance. He says that we have been so conditioned by stylists, manufacturers and advertising agencies that when they crack the whip we buy and wear anything as long as they tell us it is high style. One example is the ugly, uncomfortable, corn forming tooth pick toe shoes.

Another exampe of waste is junk mail. Do you know that \$190,000,000 comes out of the taxpayers pocket every year to pay the post office deficit caused by handling this mail that no one wants and few even read.

Mr. Packard thinks it is about time we stop making wastefulness a virtue.

STUBBLE MULCHING

To farmers in the Donley County S.C.D. stubble mulching means a shield for their soils against the erosive force of wind, rain, and melting snow.

Stubble mulching means keeping as much plant residue as possible on the soil's surface for protection against wind and water erosion. And each tilling, planting, cultivating, and harvesting operation is performed with this objective in mind.

Surface residues to protect the soil in many ways. A surface residue established by stubble mulching serves as a water-spreading device, intercepts and disperses part of the force of falling raindrops. It also reduces the surface velocity of wind and to a

lesser degree holds snow on the surface against the force of wind.

Keeping a residue on the surface presents some problems not encountered when the stubble is burned or plowed under. One complaint of stubble-mulch farming has been that heavy plant residue makes working the field difficult. This was true several years ago when farmers first tried stubble mulching with "standard" implements. Now implements are available that are designed to do the job of stubble mulching. Such implements include heavy-duty carriers, center-hain drive rod weeders, and ruggedly constructed mulch-hoe drills.

Today's modern farmer can practice stubble-mulch farming easily and economically and in doing so he can protect his soil from erosion by wind and rain.

If interested further in stubble-mulch farming contact any Soil Conservation Service technician assisting the Donley County S.C.D.

GEORGE'S WIFE
By "Sarah"

We either read or heard somewhere recently of a school teacher in California teaching the art of living without making mistakes. We couldn't help but wish this method had been taught about four decades earlier. At least in the extra talented child. However that wouldn't do every time, because it will be the people who make the mistake in the first place, if we don't guess right this time those children being taught about mistakes now, will have a dilly to look back on and condemn or extol us for what we are about to do.

One hears so much about the undecided holding the key to the outcome of this race. There are a few advantages in being among this un-popular group, for instance; the only requirements to belong, is to furnish your own side-saddle. Also once again it probably will be said of them; never before was so much entrusted to so few.

All of these people are not undecided simply to dodge responsibility, or because they like attention. Most of us are in this state because we feel such a burden of responsibility at this time. There is so much rumor and facts to be sifted, and whether you jump the fence or stay where you were, it takes an awful lot of thinking.

On the other hand, there is not much demand for the slow thinker in this jet age. One could never be President, or fly these planes, you can just barely stay out of the way on the ground.

A confused thinker this week said; I don't know whether to attribute the run on gold in England to Mr. K. or Papa K.

Another one said; I'm even afraid to think pink and win a mink. But George says, he will be glad when all America loves each other again.

KEEP THE VOICE OF TEXAS STRONG

Texas' dominant position in the Democratic Party has been a major factor in the amazing growth and prosperity of our State during the past 50 years.

Count our blessings that have come because TEXANS were in the RIGHT party at the RIGHT time.

Count the jobs . . . educational opportunities . . . military installations . . . defense projects . . . water and soil projects . . . rural electricity and telephone systems. Count our ultimate potentials for development.

Now the Democratic Party has selected a TEXAN for one of the two top offices our Nation has to offer. As Vice President, Lyndon B. Johnson will be in a position to render the greatest service any Texan has ever been able to give his State, his Party, his Nation.

Our Nation needs the dynamic leadership of John F. Kennedy and Lyndon B. Johnson. And Texas needs to be counted in the Democratic column November 8 to keep its voice STRONG in the party that has honored its sons and nurtured its growth. Texas has no such stake in any other party or any other candidate.

Texas' future — and America's — lies in your response November 8.

The one '61 car built to back up a long-term warranty

Ford led the way with the one car beautifully built to take care of itself... and you

On September 29, Ford Dealers set an industry trend—were first to extend their 1961 car warranty from the conventional 4,000 miles or 3 months to 12,000 miles or one full year, whichever comes first.

Why? Because Ford built the one car to support such confidence. Ford for 1961 is the one car beautifully built to take care of itself!

The '61 Ford was designed and built to the more exacting standards necessary to offer an extended warranty. Ask to see this warranty at your dealer's.

It is significant that Ford has so many take-care-of-itself features not found in other cars, regardless of price. These new Ford features are a triumph of exhaustive research, fine engineering, and quality construction that give you the most reliable Ford ever built. Drive a '61 Ford soon.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

Lubricates itself—You'll normally go 30,000 miles between chassis lubrications. Then a quick, inexpensive Ford Dealer lube job (which costs about \$4.00*) will get you set for another 30,000 miles.

Cleans its own oil—You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

Adjusts its own brakes—New Truck Size brakes adjust themselves automatically for the life of the lining.

Guards its own muffler—Ford mufflers are double-wrapped and aluminumized—normally will last three times as long as ordinary mufflers.

Protects its own body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.

Takes care of its own finish—New Diamond Lustré Finish never needs wax.
