WEATHER IS BIG FACTOR IN GRAIN - COTTON HARVEST

The weather is still playing a big roll in the gathering of the current grain and cotton crop which is good since part of the crop is late again this year.

The frost holding off has helped considerably in the maturing of late cotton and the over all turn-out is expected to be much better than usual. To date, only 709 bales of cotton have been ginned at the Paymaster Gins here, Lelia Lake nad Ashtola. Ginning is expected to be slow until after a good frost when the majority of cotton will be stripped. When the stripping starts, the gins will probably roll around the clock.

The grain harvest is estimated at about half complete at this time with the overall crop being quite a bit under last year since more cotton acreage made it through without extensive damage and the government grain program in effect. Grain is bringing around 30 cents more per hundred under the government loan.

Between eighty and ninety carloads of grain has been handled locally so far and the majority of the grain has had a high moisture content. Numerous fields probably will not be harvested until after a good killing frost.

Services at Groom for Mrs. Mary Poyner

Funeral services will be held this afternoon at 2 p.m. in the First Baptist Church at Groom for Mrs. Mary Julia Poyner with Rev. J. Walter Davis, pastor, and Rev. Jack Mackey of Amarillo officiating.

Mrs. Poyner, 63, died Tuesday evening in an Amarillo hospital. She was a resident of Clarendon prior to moving to Groom a year ago. She was a member of the Groom First Baptist Church.

Survivors include her husband, Emmett D. Poyner of Groom, two daughters, Mrs. Constance Stephenson of Amarillo, Mrs. Patricia Ashford of Groom and one son Emmitt D. Poyner Jr. of Amarillo; one sister, Mrs. O. W. Phipps of Amarillo; two brothers, W. F. Durham of Borger and A. N. Durham of Cleburne also eleven grandchildren.

Burial will be in Fairview Cemetery, Memphis, Texas, with funeral arrangements under the direction of Murphy Funeral Home.

Mr. and Mrs. Jarrett Wilson of Abilene visited Monday with his sister, Mrs. John Goldston.

Sheriff Issues Annual Halloween Warning

Sheriff Truett Behrens issued his annual Halloween warning this week by asking for full cooperation of all pranksters in observing this annual event by limiting all operations to minor pranks and fun instead of destruction of property.

He stated that most pranksters were very considerate last year and he had hopes that the same type of observance will be the case this year. Just in case some youngsters have other ideas, our full force will be on duty as usual, he added.

RED CROSS STILL NEEDS CARLA CONTRIBUTIONS

Contributions are still needed by the Red Cross for aid to victims of hurricane Carla, according to Emmett Simmons, treasurer of the local Red Cross Chapter.

Mr. Simmons said that, as always, the people of Donley County had been generous to meet the needs of the less fortunate, but the local chapter still is about \$200.00 short of its quota.

Contributions may be left at either of the banks in Clarendon or mailed to: The Donley County Chapter, American Red Cross, c/o Emmett O. Simmons, Clarendon, Tex.

LOCAL TEACHER ATTENDS CONFERENCE OF COLLEGE HISTORY TEACHERS

Mrs. Lucile Naylor, teacher of history in Clarendon Junior College, attended the Conference of College History Teachers which was held on the campus of West Texas State College last Saturday.

Mrs. Naylor reports a very good meeting with many outstanding historians and history teachers of the Panhandle and Eastern New Mexico areas present.

The group voted to make the conference an annual affair and also voted to have the 1962 conference at Wayland Baptist College, Plainview, Texas.

LOCALS TO VACATION IN HAWAII

Mr. and Mrs. George Benson and Mrs. J. L. McMurtry of Clarendon, also Mrs. Jack Montgomery of Shamrock will leave Saturday for a trip to Hawaii. They will fly to San Francisco where they will board the ship "Matsonia."

Boy Scout Fund Drive To Begin Friday

The Kick-Off Breakfast for the General Solicitations Division of the Boy Scout Fund Campaign will be held at the Lions Club Hall at 6:30 a.m. Friday, October 27, according to Bill Todd, campaign chairman.

Mr. Todd says he has a good crew to work on this project. These are: Clyde Slavin, Chairman for Prospects and Chairman for Special Gifts; Arvis Davis, Chairman for General Solicitations and Joe Lovell, Audit Chairman. The Special Gifts Division under Mr. Slavin began its campaign earlier this week with Mr. Davis' division to begin Friday.

Mr. Davis released the names of the following as Majors and Captains of his division. Majors—the Rev. Charles Carman and George Thompson. Captains—Shelby Bell, A. R. Henson, C. B. Hudson, Ralph Hill, Chauncey Hommel, Allen Homer Estlack, Rev. J. V. Patterson, Billy Goodman, Billy Mack Hicks and Judge R. E. Drennan. All of the workers in this campaign will be adults.

Mr. Todd states that he hopes the campaign will raise at least \$1400.00.

OPENING TRAP SHOOT AT COUNTRY CLUB SUN.

The Clarendon County Club will hold its opening trap shoot of the season at the club trap range Sunday afternoon, October 30 at 1:30 p.m.

The shoot is open to anyone who desires to enter and shooting brackets will be arranged to fit entries in all shooting categories which will include adults and youngsters alike. Ammunition will be available at the range for those who want it.

Prizes for the shoot will include hams, bacon, coffee and other merchandise.

SCOUTER'S BANQUET TO BE HELD NOV. 13, AT 7:30 P.M. IN WELLINGTON, TEXAS

The Annual District Scouter's Banquet for the Comanche District will be held Monday, Nov. 13, at 7:30 p.m., at the Community Building in Wellington, Texas. The installation of new officers for the district for the coming year and recognition of outstanding scouters for the year will be part of the program.

This meeting should be attended by all Adult Registered Scouters, Den Mothers, Scout Leaders, District Committee members, and Institutional Representatives.

Tickets for the banquet may be purchased from Lawrence Neece in Clarendon. (2-4)

College Bulldogs Hard At Work

New Clarendon Junior College basketball coach, Don Dorman, has had his 1961-62 squad hard at work for the past three weeks in preparation for their opening game, which is scheduled for Nov. 27 against Draughan's Business College of Amarillo.

A squad of 13 boys, including four returning lettermen from last year's team, make up the present squad of players.

Returning lettermen include Ray DeBord of Sunray, Grady (Buddy) Jones of Hedley, Kenneth Martindale of Samnorwood and Billy Wiggins of Hedley. DeBord and Jones each stand 6-2, Wiggins is 5-9, and Martindale, 5-7.

Newcomers to this year's squad include Dee Blevins, 6-5 of Spearman, Thomas Phelps, 5-8 of Quitaque, Bill Bentley, 6-1 of Samnorwood, R. E. Butler, 5-11 of Hedley, Max Courtney, 6-8 of Wellington, Eddie Hunt, 5-10 of Dodson, Joe Lennon, 5-10 of Dodson, Alvin Scott, 6-2 of Quanah and Jimmy Zaring, 6-5 of Adrian.

Blevins started the year here last year but left school to go to the Service and therefore, will not be eligible until the second semester. Both Courtney and Zaring were in school last spring semester but did not play in order to have two full years of eligibility remaining. Scott is two years out of high school but has not played college basketball anywhere. All the other new boys are just out of high school.

Coach Dorman reports that workouts are coming along fine, but because of the lack of height in the returning lettermen and the lack of experience in the new boys, it looks like it may be a long season. However, the boys may make up for some height and experience by their spirited play and hustle.

The conference as a whole appears to be much stronger this year than ever before. One new team has been added to the conference, San Angelo, and the Rams are consistently one of the most powerful junior college basketball teams in the nation. They have gone to the National Tournament four times in the past five years and won the national crown in 1958. Also, Howard County Junior College, Frank Phillips College, Amarillo College and Lubbock Christian College are reported to be improved over last year's teams.

The conference this year, known as the Western Junior College Athletic Conference, is composed of nine teams, which means that each team will play 16 conference games. Other members of the conference, besides Clarendon, are: San Angelo College, Frank Phillips College, Amarillo College, Lubbock Christian College, South Plains College, Howard County College of Big Spring, Odessa College and New Mexico Military Institute of Roswell, New Mexico.

A complete schedule for the Bulldogs will be released within the next two weeks.

McELROY JOINS HEATH FURNITURE STAFF

Wayne McElroy, who was an employee of Heath Furniture Co. here for about eight years prior to 1953, rejoined the firm as an employee this past week and plans to move his family here from Amarillo just as soon as housing facilities become available.

Frank Thomas stated that he was happy to have Wayne back with the firm as he believes his knowledge of the furniture business and interior decorating will be a great asset to home owners in this area.

Mr. and Mrs. Frank Thomas left Tuesday morning for Oklahoma City where Mrs. Thomas was scheduled to undergo major surgery Wednesday morning.

Former Resident Dies At Borger

Funeral services for Elmer Darnell, 48, were held Tuesday afternoon at the Fellowship Baptist Church in Borger with the Rev. W. A. Frerking, pastor, officiating.

Mr. Darnell died at his home in Borger Sunday evening. He was an automobile salesman and had been a long time resident of Borger. He was a former resident of Hedley and Donley County.

Survivors include his wife, Bennie, of Borger; two sons, Benjamin F. of Perryton and Robert C. Darnell of Borger; a daughter, Mrs. Tommie Gower of Borger; his mother, Mrs. C. T. Darnell of Hedley; two brothers, C. P. of Clarendon and Eldon of Hedley and six grandchildren.

GIRL SCOUTS HERE TO BEGIN ANNUAL CALENDAR SALE MONDAY, OCTOBER 30

Girl Scouts of the Quivira Council will begin their annual sale of Girl Scout calendars, Monday, Oct. 30, according to Mrs. T. M. Caldwell, chairman for the Clarendon neighborhood.

Cost of the calendars will be 35c each. All of the profits from the sale of calendars goes toward individual troop activities and project, Mrs. Caldwell explained. None of the money goes to the Council.

The 1962 Girl Scout calendars feature pictures of Girl Scout activities and allow ample space for important memoranda, she pointed out.

D'SPAIN RE-ELECTED AS SCD SUPERVISOR

T. C. D'Spain of Alanreed was re-elected as SCD supervisor from Sub-division 3 of the Donley County SCD. Election was held at the home of J. R. Grogan on Oct. 3.

D'Spain has served as supervisor from this subdivision since the SCD was organized in 1948. He is a firm believer in the conservation of all our natural resources, and practices soil, water, plant, and wildlife conservation on his own ranch. His term will run for five years.

HOSPITAL NOTES

Patients as of Wed., Oct. 25—Mrs. T. L. May, W. L. Sickles, Guy Mills, and Mrs. A. F. Thornton.

Dismissals — Mrs. Guy Mills, Freddie McAnear, Bess Ozier, Mrs. M. L. Rattan, Lois Reese, Fannie Reynolds, and Sammy Thompson.

Bronchos Meet Memphis Cyclones In Grudge Battle This Week

"CROP" To Sponsor Halloween Solicitation

A special "Trick or Treat" solicitation will take place Halloween Night sponsored locally by the Clarendon Ministerial Alliance under the direction of Rev. Charles Carman.

The young people of local churches will meet at the First Methodist Church and will solicit donations for the Christian Rural Overseas Program from 6 to 7 p.m. They will all be identified by special arm bands. All citizens of Clarendon are urged to contribute to this worthwhile organization.

After the solicitation, the youth participating in the collection will return to the Methodist church where they will enjoy a Halloween party.

See What Your CROP Gifts Will Do—

Five Cents will give 8 hungry children a cup of milk each day for a month. Twenty-five cents will give 19 children bread and milk every day for a month. One dollar will give 15 children a cup of milk every day for a year.

Contributors to CROP made possible the distribution of 54,792,457 pounds of surplus food valued at \$3,351,453 in 1960. This was distributed by Church World Service among hungry destitute people in 29 countries.

CLARENDON CITIZEN CALLED TO DUTY

Billy D. Davis, Airman, USNR, of this city has orders to active duty with U. S. Naval Air Reserve Patrol Squadron 872 in the present limited emergency. He will report aboard the Dallas Naval Air Station on or before October 31st for staging and transportation to the U. S. Naval Air Station, Alameda, California (near San Francisco).

Davis and his wife reside in Clarendon, where he is employed by the U. S. Department of Agriculture in the Soil Conservation Service. His parents are Mr. and Mrs. W. C. Davis, Box 575, Winters, Texas. He is a college graduate and has a BS degree in Range Management.

Davis has had six months of special training at the Naval Air Technical Training Center, Memphis, Tennessee, and is a qualified aviation electrician.

Donley County Leader \$3.06 Yr. in County.

The Clarendon High School Bronchos will travel to Memphis this Friday night for their annual do-or-die grudge battle with the tough Memphis Cyclones. Game time is 7:30.

Although past records never mean much in this game, the Cyclones will be heavy favorites. They have fashioned a 5-2 record so far this season and their two defeats came at the hands of a good Class AA team, Tulia, by a score of 28 to 14, and last week in a 13 to 12 squeaker. They have won rather easily over Turkey, Estelline, Wellington, Paducah and Hollis, Okla. The Cyclones have a number of big boys this year and will out-weight the Bronchos from 25 to 30 pounds per man on the average.

Coach Jinks was pleased with the defensive showing of his boys last week but was rather disappointed that they could not generate any kind of an offense against the weaker-than-usual Canadian Wildcats.

The team should be in top physical strength for the Cyclones which means that halfback Gary Campbell will be back in shape after missing last week's game due to illness.

The Bronchos' season record is one win and one defeat. They have only one more game after this week, that with the strong McLean Tigers here November 3rd.

BETSY CHAMBERLAIN TO EDIT CENTURIAN

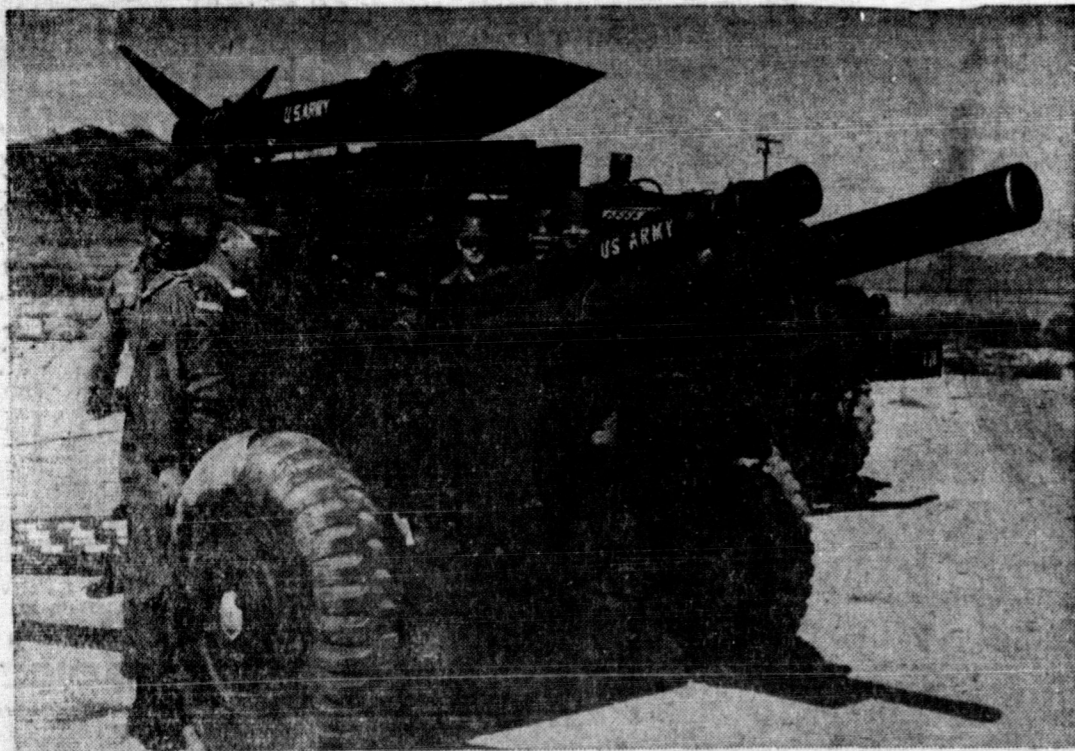

The Clarendon Junior College annual staff has selected Miss Betsy Chamberlain of Clarendon to be the editor of the college yearbook, The Centurian, this year.

Co-editors for the book will be Miss Jo Ann Wood of Clarendon and Mrs. Sharon Hall of Pampa. Business managers are Joe Young of Winters and Joe Bob Browning of Memphis. Staff photographers are Philip Abel and Alfred McNabb, both of Clarendon.

Class pictures have been made by Barrett's Portrait Salon of Clarendon.

Faculty sponsors of the annual are Mrs. Lucile Naylor and Mr. Weldon Day.

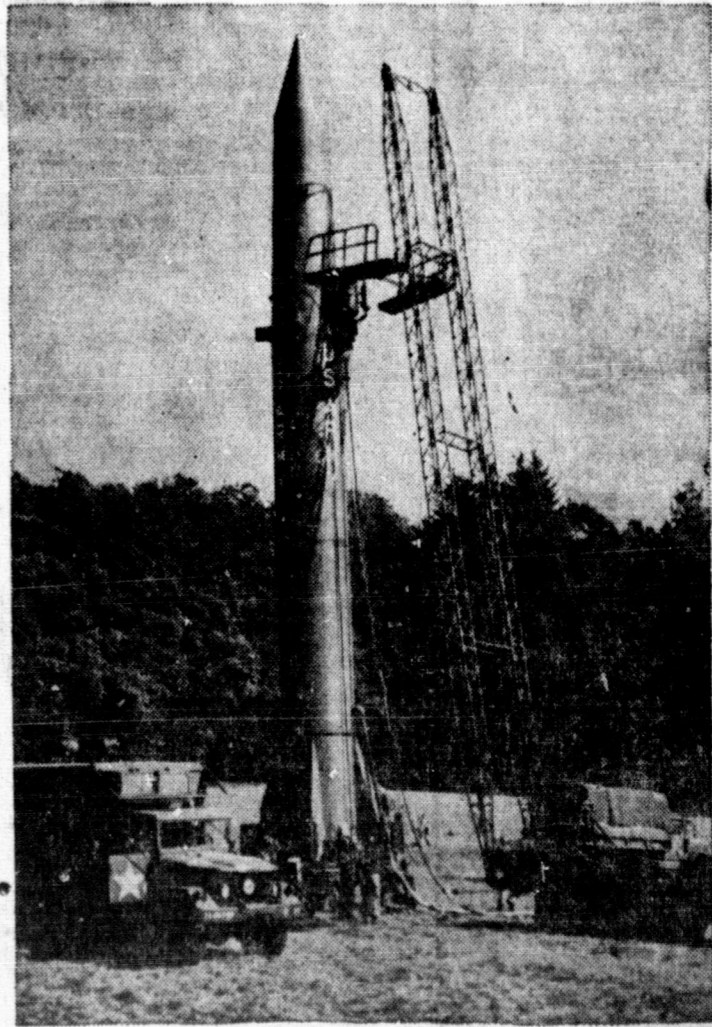

J. Claude Wells, co-publisher of the Memphis Democrat and Mrs. Wells were visitors in the Leader office Tuesday afternoon.

ARMY POWER—The U. S. Army's HONEST JOHN rocket and 105mm howitzer are the subject of attention as men of A Btry, 2nd Msl Bn, 32nd Arty, 57th Arty Gp, Ft. Carson, Colo., take refresher courses. They are preparing to give advanced individual training in artillery as part of Ft. Carson's latest training mission. Left to right are: Sp5 Precopio B. Castillo (San Rafael Valencio, N. M.); S/Sgt W. H. Gillespie (Lavonia, Ga.); Sp5 John S. Richardson (Everett, Mass.); Sfc Armon D. Baker (Red Wing, Minn.) and Sp4 Marcos H. Zuniga (Robstown, Tex.).

SIMULATED FIRING—"On site" during Exercise Checkmate the U. S. Army's REDSTONE surface-to-surface missile is erected and readied for a simulated firing (left) by members of Btry B, 46th Arty Gp, Seventh Army, in Germany. Above, Sp4 Kent Miller (Marion, O.) operates the relay box, the connecting link between the missile and programming test station. REDSTONE, operational with Army units in Europe since 1958, was developed by the Army Ballistic Missile Agency (ABMA) at Redstone Arsenal, Ala. Chrysler Corp. was prime contractor.

ASHTOLA NEWS

Mrs. Doyce Graham

Mr. and Mrs. W. L. Jordan and Mr. and Mrs. Lamar Aten visited Mr. and Mrs. J. B. Lane Monday night.

Terry and Teresa Moore spent Thursday night with their grandparents, Mr. and Mrs. Van Knox.

Mr. and Mrs. Bill Reid and family of Lamesa spent the week end in the home of Mr. and Mrs. Lloyd Reid. Mrs. J. F. White and children of Phillips also visited them Sunday.

Mr. and Mrs. Dick Roehr and family of Plainview spent the week end visiting their parents, Mr. and Mrs. J. B. Lane and Mr. and Mrs. Chet Roehr. Other guests in the J. B. Lane home were Mr. and Mrs. Lowell Hall and family and Mr. and Mrs. David Lane of Umbarger.

Mr. and Mrs. L. P. Moore and children and Mr. and Mrs. Glen Wallace and Toni visited in the Van Knox home Sunday.

Mr. Gene White of Amarillo visited Mr. and Mrs. John White Monday.

Mr. George Gresham was able to come home from the hospital Friday. Mrs. M. L. Rattan came home from the hospital Monday. She was in Adair Hospital several days.

Mrs. Burk Debord is in Twin Falls, Idaho visiting her mother, Mrs. Lilly, and other relatives.

Mr. and Mrs. Paul White are the proud parents of a son, Gary Keith, who weighed 6 lbs. and 15 ozs. and was born at Stewart

Clinic. Proud grandparents are Mr. and Mrs. H. A. Graham and Mr. and Mrs. Jess White of Waka, Texas. Mrs. Graham has spent this week in the home of Mr. and Mrs. Paul White, caring for them, and mother and baby are doing fine.

Mr. and Mrs. Albert M. Formway have moved to the North Bagby Farm and we welcome them to the community, and hope they will take part in our Community Center activities. They came here from Washburn.

Mr. and Mrs. Nuford Dill had relatives visiting them last week.

Visiting Mr. and Mrs. Billy Lewis Sunday was her grandmother, Mrs. U. Thomas of Childress.

Mrs. John Hill's mother has been staying with them caring for the new arrival.

Being blessed with sunshiny, calm, dry days in this perfect autumn weather finds us picking off peanuts, rowbinding and shocking the sorghums, combining the milo and other grain sorghums, gathering green tomatoes and peppers and canning chowchow and other relishes, building trailers in preparation for the

cotton harvest and seems to have kept all of us Ashtola citizens so busy we have had little time for visitations this week. Telephone me at 2134 and give me your news items.

The rainiest place in the United States is the island of Kauai, Hawaii, where 472 inches fall annually.

Leader—Local rate, \$3.00 a year

HEDLEY NEWS

Mabel Bridges

Hedley Community is quite busy harvesting the crops—combines are harvesting the grain, and binders are cutting bundle feed.

Cotton is coming into the gins hourly. Up to Monday noon, Oct. 23—368 bales had been ginned.

A large portion of the cotton was in the hauled-out area making it late and is not ready for harvest. Farmers say if frost and freezing weather does not come this month the late cotton promises a fair crop.

Mrs. Tunnell of Dallas spent the week end with her daughter, the Winfield Mosley family.

J. B. Yates underwent surgery in Groom Hospital last week. Glad to report he is able to be home and doing fine.

Mrs. John Thomas is improving in an Amarillo hospital where she has been quite ill.

Mr. and Mrs. Bill Huffman went home with their son, Carter, to Burkburnett while Mrs. Huffman is convalescing from a broken leg.

Mrs. R. E. Mann has not been feeling so well last week. She is feeling much better at this writing.

Ike Rains made a business trip to Hollis Saturday.

Rev. Cox went to Austin last week. His grandson, Don Cox, who is attending Texas University came home with him for the week end with Dr. D. H. Cox and family.

Mr. and Mrs. Don Owens, Larry and Karen of Amarillo spent the week end with the lady's parents, Mr. and Mrs. Tode Hill.

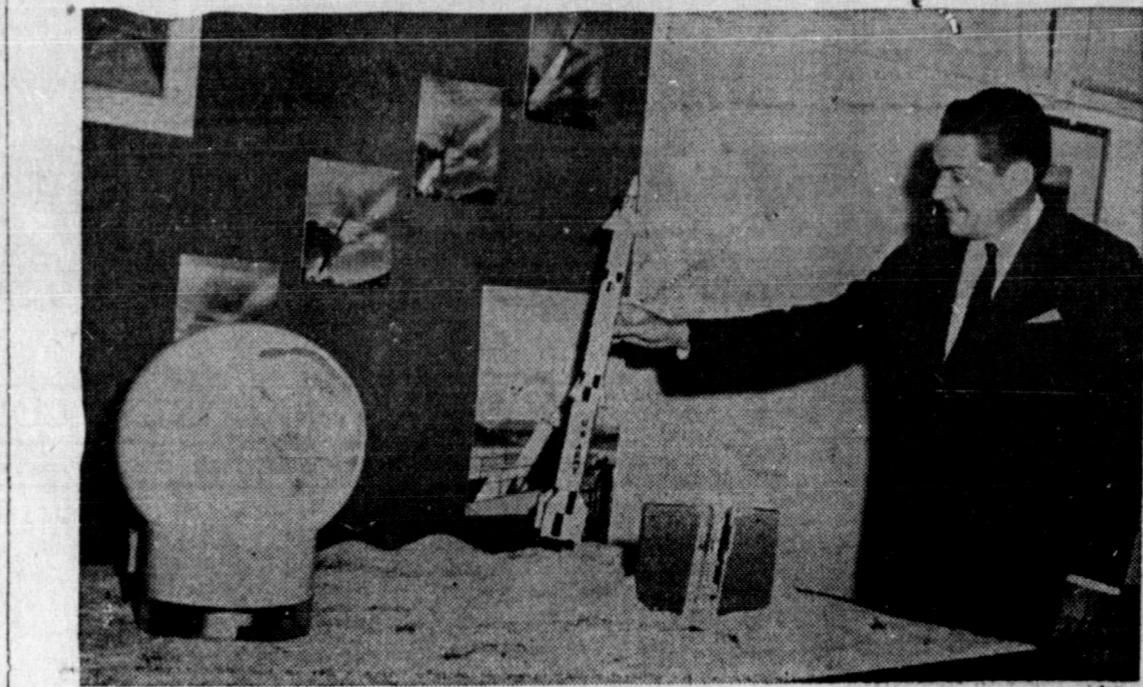

Mr. and Mrs. James Reed and children of Amarillo spent the week end with their parents and grandparents, the Carl Reeds.

Mr. and Mrs. E. M. Glass visited in Perryton Sunday with Mrs. Curt Williams.

Bob Rowland visited in Hedley Saturday.

Mrs. Lucile Franklin spent the week end in Wellington with Mr. and Mrs. John Nash.

Mr. and Mrs. Roscoe Land of

SECRETARY OF THE ARMY Elvis J. Stahr, Jr., examines a model of the NIKE ZEUS anti-missile missile on a display board, during his recent visit to White Sands Missile Range, N. M. He received high-level briefings on NIKE ZEUS, the most advanced weapon this country has under development to meet the threat of attack by enemy intercontinental ballistic missiles. Major General John G. Shinkle, commanding general of White Sands, is Mr. Stahr's host during his visit to the nation's only overland missile testing center.

USE OF FIREPROOF MATERIALS URGED

Today too many Texas farm families are living in houses that were built to burn, says the Texas Farm and Ranch Safety Council. The blame can be placed on some of the modern building materials that look smart but burn fast, such as certain fiberboards, acoustical ceiling material and highly combustible plastic tiles.

Also at fault are houses with hollow walls or false ceilings that are inadequately firestopped, thus presenting an area through which a flash fire can race unimpeded, creating its own draft.

What can be done about this situation? The Council says anyone building or remodeling should insist on fireproof materials. "Your best bet is still an Underwriters' Laboratory label," says the Council.

An interior finish of wallboard made of gypsum, cement, asbestos or plaster offers considerable resistance to fire and will not contribute to flame spread. For the roof, asphalt shingles, slate,

asbestos or metal make a good fire-resistant covering. It is also wise to use fire retarding paint when you redecorate.

Wood floors under stoves and heaters should be protected by metal, brickwork, concrete or ventilated air space, the Council continues. Also desirable are impregnated-wood fire doors in critical locations such as basement stairs, house entrances and the bedrooms. These doors will withstand temperatures of 1,800 degrees for 90 minutes, yet they retain the esthetic qualities of wood.

At least one window in each bedroom should have a low sill. High, small windows are often too small for escape, and no window is adequate unless the smallest dimension is at least 18 inches.

"Also remember that no building is any more fireproof than its contents," the Council says. "Furnishings, trim and decorations can be the real fire threat in the home."

Fossil Collection of Amateur to Be Displayed By Smithsonian Institute

The plant fossil collection of Thomas J. Bones of Vancouver, said to be the only one of its kind in the world, is now on display in the Smithsonian Institute in Washington, D.C. Mr. Bones lives at 2713 Rossiter Lane in Vancouver and began some 20 years ago what is one of the most unusual collections of mineralized nuts and seeds in existence from the Clarno Range which is located in Oregon and is the most unusual paleobotanical strata known to the world.

To the non-scientific buffs, Bones' collection discloses that at one time Oregon was tropical. Seeds of palm trees, coconuts, and of walnuts that now grow only in dense tropical rain forests were found. But even in those days, possibly before man existed, there were hackberries, roses, citrus, plums, almonds, members of the peach family, water lilies,

even pistachios.

All in all more than 700 genera of flora have been found, and each genera includes several species. A difficulty in identifying the finds exists because many of the mineralized seeds come from plants and trees that are extinct.

Collection Greatly Detailed

Bones is a retired photographer and photo finisher. He became interested in rock hunting in 1935 and serious to the point of limiting his collecting to the Clarno area only in 1942. His collection is so detailed that all of it cannot be seen with the naked eye. The pollen, for instance, and small seeds must be magnified several times for identification. Obtaining the petrified seeds is "simply hard work" according to Mr. Bones, who said, "It is like hard rock mining. I use a heavy pick, chisels and hammers." The Clarno area is leased by the Oregon Museum of Science and Industry for \$1.00 a year and is therefore open to public collecting; but Mr. Bones, so far, is the only person to have made such an exhaustive study.

Contrary to the average conception of fossils, it doesn't take a million years to make them. Mr. Bones relates that some fossils can be produced by nature in a matter of a very few years, four or five perhaps, or up to 100 or more years, depending upon circumstances. Conditions were just right at Clarno back before the time of man, when apparently it was a river delta, or a vast batch of mud.

Seeds, pollen nuts, fruit and alike found their way to the mud, which then was covered by tons of volcanic ash. From the volcanic ash mineral sifted through the mud and replaced the living matter in the seeds, resulting in exact duplicates in mineral of what had been living matter. Much of the mineral substance is simply rock, but much is agate and agate-like, forming unusual patterns set first by vegetable matter.

Identification of Work

Identification of Bones' collection began in recent years by Dr. Richard A. Scott of the Paleontology division of the U. S. Geological Survey in Oregon. Dr. Scott is continuing identification of Mr. Bones' finds and is preparing a book on the collection. "It was

he," Bones relates, "who pointed out the importance of the fossils and interested the Smithsonian Institute in them." Turning the collection over to the national museum won't signal the end of the scientist's work at Clarno. It will, in fact, herald another beginning since the Smithsonian has awarded him a cash grant to continue his Clarno digging.

Recognition of the work of Bones, who has been called the most serious amateur paleontologist in the country, is a real feather in the cap of a man who has labored countless hours in what, for most, would be an incredibly tedious search. Seed or fossil-bearing rocks from the Clarno site have been prospected out in what amounts to a hard-rock mining operation. Since he began his collection, he has carted home about 16 tons of rock from the Clarno Range. Poured into a pack sack, about 50 pounds to the load, Bones has had to carry the rock a mile to his car. After gathering about 800 pounds per trip, he has brought the diggings the 180 miles back to Vancouver. There he has broken much of it with a small hammer to coarse sand and gravel. This was sifted, spoonful by spoonful, and examined with a microscope of hand lens.

From all this sedimentary mass, the seeds which have been recovered would probably weigh only a few pounds. The rest of the rock Bones has used to cover his long driveway, making it several inches thick.

Mr. Bones is a brother of Homer Bones and Mrs. Blanche Gray. He and his wife stopped in Clarendon last week as they were returning from Washington, D.C., where they had taken the collection to be placed in the Smithsonian Institute. While here, he showed some of the colorful pictures of this collection at Lions Club.

MOSIAC COMMON FALL DISEASE OF BEANS

Bean mosaics are a group of diseases growers often overlook. These virus diseases, according to Harlan Smith, extension plant pathologist, are common on fall beans in all areas of the state. Losses from the disease may range from slight to severe.

Damage from the common bean mosaic results in the stunting of the plant, explains Smith. Irregular light and dark green areas occur on the leaves which may be crinkled and puckered. Sometimes leaves are longer and narrower than normal and display a downward cupping. Pods may be rough and shiny and seriously deformed, he adds. The final result is reduced yields, quality and selling price.

Aphids carry the viruses that cause mosaic diseases and are largely responsible for their spread. Sweetclover, crimson and red clovers and gladiolus are hosts for some of the bean viruses. Normal looking bean seed may also carry the viruses and a few of the less common may be spread in the fields by cultivation, roguing or picking, Smith says.

The specialist offers these suggestions for combatting the viruses: plant mosaic-resistant varieties; elimination of host plants; not planting beans near clovers or gladiolus and by planting good, disease-free bean seed purchased from a reputable source.

W.S.C.S. ENTERTAINED IN COX HOME

Circles 1 and 2 of the Women's Society of Christian Service of the First Methodist Church were entertained in the home of Mrs. L. N. Cox Wednesday afternoon, October 18. Miss Emma Sheffield was co-hostess.

Mrs. J. L. McMurtry called the meeting to order and Mrs. C. B. Morris led the group in prayer. Mrs. John Bass brought a beautiful lesson from the sixth chapter of John titled "The Living Bread."

After the business and program had been dispensed with a White Elephant Sale was held. Mrs. C. B. Morris was auctioneer and in her clever manner the sale proved to be both enjoyable and profitable.

Refreshments of pumpkin pie and coffee were served by the hostesses. Rep.

SR. H.D. CLUB HOLDS FRIDAY MEETING

Mrs. William Payne entertained members of the Senior Home Demonstration Club in her home Friday afternoon, October 20. Ten members were present.

Meeting was opened with Mrs. W. L. Jordan reading Club Collect. The secretary, Mrs. Darden, gave her report and called roll. Mrs. Clyde Butler, president, presided over a short business session.

After the Penny Parade a short program was presented by Mrs. O. C. Watson. Everyone enjoyed the pictures, folders, and pamphlets which she had collected while traveling through Colorado, Utah, Arizona and California this past summer.

Refreshments of cheese crackers, pumpkin pie, tea and coffee were served by Mrs. Payne to Mesdames O. C. Watson, Virgil Poole, Will Kennedy, Bertha Benson, W. L. Jordan, Bennie Crabtree, Clyde Butler, Claude Darden, and J. H. Helton.

Mrs. W. L. Jordan will be hostess for the next meeting. Rep.

MOTHERS STUDY CLUB BUFFET SUPPER HELD

Members of Mothers Study Club entertained their husbands with a buffet supper and party at Patching Club House Monday evening, October 23. Hostesses were Janie Hill, Theola Leeper, Cherrye Shadle, and Barbara Edens.

Following the meal games were played. Attending were Mr. and Mrs. Hubert Kidd, Mr. and Mrs. Delbert Robertson, Mr. and Mrs. Ronnie Hill, Mr. and Mrs. Ralph Hill, Mr. and Mrs. Bill Ridenour, Mr. and Mrs. Tommy Messer, Mr. and Mrs. Raymond King, Mr. and Mrs. Lloyd Leeper, Mr. and Mrs. Leon Shields, Mr. and Mrs. Dee Holliman, Mr. and Mrs. Bob Kidd, Mr. and Mrs. Joe Shadle, Mr. and Mrs. Grayton Johnson, Mr. and Mrs. Darrell Harper, Jacquita Owens, Barbara Edens, and Rava McKinney. Rep.

ASHTOLA NEEDLE CLUB MEETS OCTOBER 19

The Ashtola Needle Club met Thursday Oct. 19 with Laura Mahaffey as hostess. Meeting opened with prayer by Bell Jones. Mrs. Johnny Poovey presided during the business session.

Refreshments for the afternoon were sweet bread, tea or coffee served to Anna Porter, Johnny Poovey, Bell Jones, Jo Harp, Veda Mahaffey, Vera Hudson and hostess, Laurie Mahaffey. Winners in the contest are: Vera Hudson, 1st place with Date Nut Bread, Anna Porter won 2nd place with California Breakfast Pastry, Veda Mahaffey won 3rd place with Peanut Butter Muffins. Rep.

CHAMBERLAIN COMMUNITY CENTER NEWS

Chamberlain Community Center will meet again Saturday, Nov. 4, at 7:00 p.m. for their second monthly meeting. A program is being planned for this meeting. The hostess for this occasion will be Mrs. Mark Allen and Mrs. Roy Blackman. Everyone is invited to attend. The members will bring sandwiches and cookies. Rep.

MIDWAY CLUB HAS CHILI SUPPER

The Midway Club entertained their husbands and guests at Lelia Lake Community Center Friday evening Oct. 20 with a chili supper and 42.

Those present to enjoy the evening were guests: Mr. and Mrs. Roscoe Land, Mr. H. R. King, Glen Myers, Wayne and Larry Ayers. Members present were: Mr. and Mrs. Ed Dishman, Mr. and Mrs. G. D. Hillis, Mr. and Mrs. Loyd Moreland, Mr. and Mrs. Earl Myers, Mr. and Mrs. E. V. Quattlebaum, Mr. and Mrs. W. C. Scott, Mr. and Mrs. Glen Williams, Mr. and Mrs. C. C. Ayers, Mr. and Mrs. Albert Sanders and Mrs. Quinn Aten. Rep.

ASHTOLA COMMUNITY CENTER NEWS

There will be a forty-two party Friday, October 27. Everyone bring a pie and your dominoes. The hostesses will be Mrs. Frank Mahaffey and Mrs. C. E. Jackson. Rep.

FRESHMAN CLASS MEETS

The Freshman class of 1961 had their third meeting of the year on October 18th. The Class elected Regina Borden and Jack Robinson as class favorites. Rep.

CHAMBERLAIN COMMUNITY CENTER NEWS

Chamberlain Community Center Bingo Party was a success Thursday night, Oct. 10 with \$220.00 being added to the new building fund.

Sandwiches, coffee, cookies and tea were served to a large crowd. Everyone enjoyed playing Bingo with all the nice prizes donated by our business friends of Clarendon, Lelia Lake and Hedley. Chamberlain Community wishes to thank each and every one who so graciously donated. Also, we want to thank those who came out and played Bingo with us. Rep.

CHAMBERLAIN CLUB MEETS

The Chamberlain Club held its last meeting at the Community Center with Mrs. Donald Ballew as hostess. The afternoon was spent in visiting and tacking one quilt. Clara Mae Carter received a pollyanna gift.

Refreshments were served to nine members by the hostess.

The next club meeting will be October 26 with Clara Mae Carter as hostess. We will tack quilts. Rep.

Mr. and Mrs. Walker Jones of Lampasas and Mr. and Mrs. Mode Hatley visited in the home of Mr. and Mrs. J. D. Jones, Sr. Monday.

MARTIN QUILTING CLUB

The Martin Quilting Club met Thursday, October 19th for an all day quilting in the club room with Robbie Hill as hostess. There were eight members and two visitors present. One quilt was finished.

Those enjoying the covered dish luncheon were, Elsie Sibley, Hazel Edens, Blanche Higgins, Eunice Land, Margaret Waldrop, Robbie Hill and Jonnie Stout. Also our visitors, Mrs. Paul Moore and Mrs. I. J. Moore. Those coming in the afternoon were, Dortha Reynolds and children.

The next meeting will be December 7th in the club room for a Christmas party at 2:00 o'clock in the afternoon.

Mrs. Allene Gilbert of Memphis visited Tuesday with Mrs. John Goldston.

Chester Scott of Amarillo visited his parents, Mr. and Mrs. W. C. Scott last week.

Mr. and Mrs. Gene Green of Amarillo announce the arrival of twin sons. The youngsters have been named Joe and Jerry and are the grandsons of Mr. and Mrs. Walter Green of Clarendon and Mrs. Winnie Wester of Canyon.

Donley County Leader, \$3 a year in county

NOVEMBER GRATITUDE FOR PLENTIFUL FOODS

Grateful hearts have just reason to give thanks for the abundance of American agriculture this November, as throughout the year, suggests the Texas Agricultural Extension Service.

Two traditional Thanksgiving foods — turkeys and cranberries — head the list of November plentifuls, in Texas. Turkey marketings this month will be about 25 percent more than a year ago, and the 1961 cranberry crop is estimated at 15 percent above average.

Eight other highly mailable foods also will be plentiful all month. They are apples, potatoes, cabbage, pecans, almonds, pork, vegetable fats and oils, and dry beans, the Service advised.

Careful menu planners can take advantage of this abundance by serving these items often. Producers and the food industry often conduct special promotion activities on plentiful foods, in efforts to give consumers the advantage in price and quality, the Service said.

A cord of wood is a stack of eight feet long, four feet wide and four feet high.

MILK PURIFICATION PROCESS DEVELOPED

Agricultural researchers have developed a milk purification process they hope they will never have to use. This process would be used to remove the strontium 90 that would contaminate milk following a nuclear attack. The process was worked out jointly by the Agricultural Research Service, Atomic Energy Commission and U. S. Public Health Service. It is now being tested on a pilot-plant basis at USDA's Beltsville Research Center, reports A. M. Meekma, extension dairy husbandman.

The pilot plant studies are based on laboratory studies, which showed that ion-exchange resins are effective in removing radioactive strontium from milk containing an increased amount of acid. In these basic studies, scientists charged a resin with calcium, sodium, potassium and magnesium — the major metals in milk.

Milk which had been experimentally contaminated with radioactive strontium was passed through columns containing this resin. Free strontium moved from the milk and displaced the ionized metals on the resin. This ion exchange occurs because the resin attracts strontium more strongly than it attracts other metals, explains Meekma.

Because only about 60 percent of strontium in milk occurs in free form, citric acid was added to the milk to ionize the rest of the radioactive element. This enabled the resin to attract and remove 98 percent of the strontium from the milk. After the strontium is removed, the milk is treated with dilute potassium hydroxide to neutralize the acid, then pasteurized and homogenized.

These treatments do not noticeably alter flavor. Pure milk run through the experimental pilot plant to standardize the procedure proved as palatable as commercial market milk.

These studies are slated to continue until a process is developed that can be operated continuously and economically in milk plants, the specialist concludes.

PLAN NOW FOR 1962 WATERMELON CROP

Texas is a leading watermelon state with more than 100,000 acres planted for commercial production each year. These watermelons move to many markets throughout the nation, and many growers profit handsomely. Others, however, make little more than expenses. What is responsible for this difference? Profit from watermelon production is directly related to time of harvest and tonnage produced. Those that harvest a large tonnage early in the season show a nice profit — others don't do so well.

How can a farmer get these early, large yields? The Texas Agricultural Extension Service has recently released a publication that contains an informative discussion of the factors related to these problems. As this publication points out, a good, even stand of healthy plants is essential to early and high yields. Essential to getting a good stand of plants is the use of the best quality seed available.

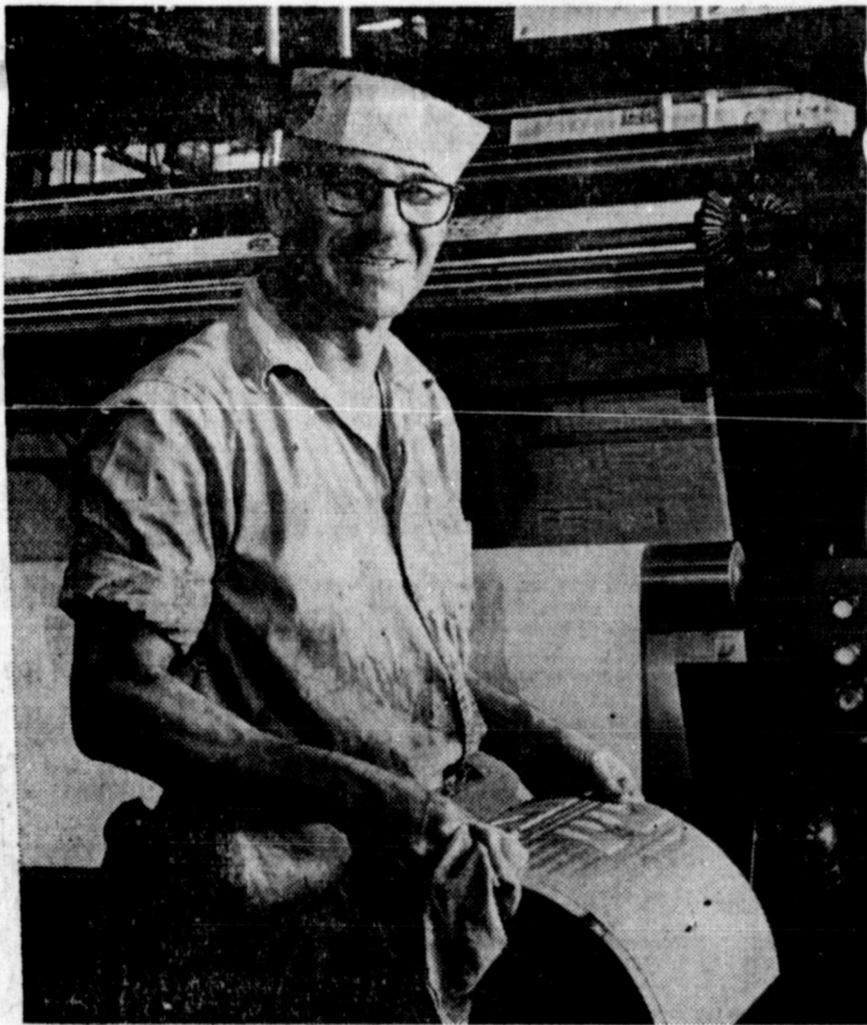

Choice of the proper variety is also important to the grower. He must choose one that produces hardy resistant plants and uniform fruit. Once the variety is selected, the grower must then select a good soil to put into production. A deep sandy loam is preferred to light sand because of less moisture stress during dry periods and less leaching of plant nutrients during wet weather.

Proper cultural practices must also be used if the producer is to realize the maximum profits from his crop. He must also have the help of certain insects. The male and female flowers are borne separately on the watermelon plant, and the female flowers must be pollinated for fruit set. Honey bees are the principle insects that pollinate watermelons. Except where watermelon fields are located near wooded areas where the wild honey bee population is high, adding bee hives to the fields at the rate of 1 hive to every 1 to 3 acres of watermelons is profitable.

For a discussion of these and other problems of profitable watermelon production, obtain a copy of MP-521, "Growing Watermelons" from the local county agent.

Thank you, Texas Newspapers!

For 20 years, Texas newspapers have been giving the government free space in which to advertise U. S. Savings Bonds.

You've seen the ads: you save more than money with U. S. Savings Bonds. Those ads have sold an impressive number of bonds in Texas, bonds that have helped, and are helping, your government defend freedom at a precarious moment in history, when freedom is in desperate need of defending.

When you buy these bonds you serve well the cause of liberty. You enable your country to build up her own defenses without doing damage to her economy. You insure the future for this and succeeding generations.

The space occupied by the ads that sold those bonds was donated to your government — and that means to you — by the newspapers of Texas.

We thought you'd like to know.

"The public-spirited newspapers of Texas have made an important contribution to the well-being of this country,"

says Ed Gossett, Co-Chairman of the Texas State Savings Bond Committee.

"We are happy to salute the generous newspapers of this State. They have done their part, and more, in giving the public an understanding of the importance of Savings Bonds — to individual buyers, and to the cause of freedom. And they have certainly made this Committee's job easier."

Supervisors of Donley County SCD met on Oct. 19, to discuss and make recommendations to the ASC county committee concerning the formulation of the 1962 ACP program.

Rotational Deferred Grazing Systems on native rangeland are increasing beef yields about 25 per cent, according to experiment stations that are carrying on this type of work. Contact the SCS office for help in planning a system of this kind.

To get maximum conservation benefit from maize stubble, leave

it on the surface of the soil till about April 1 of next year. Use chisels or sweeps and leave residues on top. In this way you get erosion control benefits throughout the winter and still get the benefit of plowing the stubble under after the blow season is over.

Cotton burs are available source of organic matter and this year it seems there will be lots of burs. The application of 3 or 4 tons of burs per acre will increase yields for several years in the control of wind and water erosion.

It has been said that the application of cotton burs will increase boll weevil infestation, but entomologists say this is not true.

The local ASC office will cost-share the application of burs at \$1.00 per ton, not to exceed \$5.00 per acre.

Mr. and Mrs. Wayne Tiller and children of Amarillo visited Sunday in the home of her parents, Mr. and Mrs. J. A. Warren.

Mr. and Mrs. Charlie Young visited relatives in Andrews, Texas, last week.

SCHOOL CAFETERIA MENU

Week of Oct. 30-Nov. 3

Monday — Hamburgers, lettuce, tomatoes, pickles, onions, potato chips, cherry pie, milk.
 Tues. — Fried chicken, corn, tossed salad, peach half, hot rolls and butter, milk.

Friday — Chili beans, tomato sauce with rice, carrot sticks, apple crunch, cornbread, butter, milk.

Mrs. John Gerner of Amarillo visited with Mrs. E. H. Gerner Saturday.

In both England and the U. S. the term "convict" refers only to a person found guilty by a jury.

In the winter of 1955-1956, Mt. Rainier, Washington, recorded just over a thousand inches of snowfall.

CONTROL LEAF SPOT FOR QUALITY GREENS

Leaf spot disease is a problem in all mustard green-producing areas, says Harlan Smith, extension plant pathologist. Disease damaged greens are of low quality, and buyers and housewives discriminate against them.

The fungal leaf spot occurs on leaves as round, gray spots with tan margins, explains Smith. The spots may be up to an inch across, and light comes through the spots if the leaf is held between the eyes and the sky. Severely affected leaves may curl and dry out.

Higher than average rainfall or sprinkler irrigation provides conditions highly favorable to the disease, but cool, dry weather usually helps hold the disease in check.

Leaf spot is caused by a fungus, and there are indications that the fungus may be carried on the seed. The disease also occurs on turnips, says Smith.

Home gardeners can reduce the disease by not planting turnips or mustard greens in the same spot each year. Susceptible crops should be grown only one year in three on the same soil, and old,

diseased trash should be buried deep when plowing so it will not be brought to the surface during cultivation.

On commercial plantings the disease may build up after the first cutting of greens, says Smith. To prevent this, a spray made up of 3 pounds of copper sulfate, 3 pounds of hydrated lime and 50 gallons of water should be applied immediately after the first cutting. If further protection is needed, a ferbam spray can be applied ten days after the bordeaux spray is used.

LELIA LAKE LIONS CLUB NEWS

The Lelia Lake Lions Club met Oct. 16, at the Lions Den in Lelia Lake. Nineteen members were present.

Two guests, Jerry Swarts of Clarendon, and Shorty Floyd of Lelia Lake were present. Both accepted invitations and joined club at the meeting.

Lions Clubs in the area are helping to get an eye bank started in this area. The Lelia Lake Club voted to send \$20.00 to help share the expense of organization. The Club also voted to send \$25.00 to the Texas Crippled Child-

Canal Zone To Issue New Air Mail Stamp Featuring Army School

FORT GULICK, C. Z. (ANS)—The Canal Zone Postal Service has announced that it will issue a 15¢ airmail stamp November 21 featuring the crest of the U.S. Army Caribbean School located at Fort Gulick, C. Z.

The crest, on the left center, is blue with a white Spanish garrison in the center and the motto, "UNO PARA TODOS Y TODOS PARA UNO — USACARIB in white around the outer edge.

The stamp will be 0.84 by 1.44 inches, arranged horizontally and issued in panes of 50. It will be blue, red and white, printed by the Bureau of Engraving and Printing at Washington, D. C. with an initial printing of 500,000.

Leader—Local rate, \$3.00 a year

Next meeting date is Nov. 6.

Too Late To Classify

Man or Woman to service and collect from cigarette, ice, and other coin operated dispensers in this area, this is a very good position that can be worked full or part time. Person we select must have good serviceable car and 10 or more spare hours a week and \$500.00 to \$2500.00 cash capital. Write giving name, address and phone No., and all details to P. O. Box 601, Arkadelphia, Arkansas. (39-p)

NO DOWN PAYMENT HOMES (Town or Country) You choose them—we build them, complete or semi-complete. If you own a lot, have good credit rating, call Richey Real Estate, Phone 874-3420 or write box 391, Clarendon, Texas. (39-tfc)

I have one nice 5 room house, well located, to rent. Also one nicely furnished apartment to rent in Latson building. See me at my office or call 2218 or 3374 at night. J. P. Pool. (39-p)

Mr. and Mrs. Earl Fox visited Mr. and Mrs. Carrol Stepp and

Melanie Carrol of Lazbuddie Tuesday.

Mr. and Mrs. Leroy Fox and son of Wichita Falls spent the weekend with his parents, Mr. and Mrs. Earl Fox.

Year-round colleges, less work for the Attorney General and more realistic election laws could result from studies being undertaken by the Texas Legislative Council.

The Council, the Legislature's research arm, agreed to undertake eleven studies during the coming year. A total of 25 were proposed. List was trimmed down because there just isn't enough time or money to study them all.

Subjects selected for study include:

- Election Code Revision.
- Space Utilization by Institutions of Higher Education.
- Coordination of Health and Welfare Services of the State.
- Non-constitutional Duties of the Attorney General.
- Opinion Authority of the Attorney General.
- Laws Based on Population Classification.
- State Hospitals and Special Schools.
- Texas Utility Regulations.
- Discrimination in Employment

Because of Age.

Mentally Ill Children. Health, Accident and Hospitalization Insurance Claims.

Findings will go to the 1963 session of the Legislature for the lawmakers' consideration.

Water Pollution

Governor Daniel will soon name the members of the new State Water Pollution Control Board. This new agency will operate to some extent as a branch of the State Health Department, in that its executive secretary and only full-time official will be the Health Department's director of water pollution control.

Many areas of Texas are having water pollution problems, and those who sought help in Austin went to four or five offices without finding much response.

So legislators set up a new agency, but did not give it any operation money. It authorized Governor Daniel and the Health Department to allocate part of their appropriations, if they can spare it, to the new agency.

Daniel will ask this winter's special session of the Legislature to make some improvements in the law and to provide some cash for the agency to begin a real attack on water pollution.

After November 7, no one can discharge any kind of waste into the waters of Texas without a permit from this board.

Sales Tax Time

Merchants who have been collecting the new state sales tax will make their first payments to the state October 31, covering collections for September.

Payments will then go on a quarterly basis. Collecting stores get to keep one per cent. If they make estimates and pay in advance for each quarter, they can take a three per cent discount. Advance payments on the fourth quarter of 1961 will be due by November 15.

Comptroller Bob Calvert issued some more interpretations of the new law. If you pay the sales tax to the state on credit sales, and then charge them off as bad debts, you can deduct the tax on the tax return for the quarter in which you gave up on collecting. Unless seller keeps books to show clearly what part of a cred-

it sale is for the item, and what part is for interest, carrying charges and insurance, he must collect the tax on the whole price of the sale.

Shirt boards and clothing bags are exempt from the sales tax when bought by a clothing store for selling new goods. But laundries buying the same items would have to pay the sales tax on them.

A bottler would pay the sales tax on soda pop bottles when he buys them from the factory. But when you put up a deposit on returnable bottles at the corner store, there's no sales tax on the bottles.

Paperbacks

Students in 110 classrooms in Texas will be using some paperback school books in January.

Legislators, looking for ways to save money, told the State Board of Education to test out paperback school books and report back by 1963 on whether tax money can be saved.

The board will adopt new books at its meeting November 13. It will vote on 27 books recommended by a teachers textbook committee. Protests have been made by Rancher-Writer J. Evetts Haley of Canyon, speaking for the Texans for American organization.

Fourth Term

Political newsmaker-of-the-week was Atty. Gen. Will Wilson. He walked into the State Democratic Executive Committee meeting to charge that Governor Daniel had made a deal with Sec. of Navy John Connally of Fort Worth by which Daniel would support Connally for governor and would himself run for lieutenant governor.

Wilson challenged Daniel to

run for a fourth term (against Wilson), rather than to support Connally for the place "when he has barely got his seat warm in Washington."

Connally, in Texas making a speech, said he had no comment, that he had "quit reading fairy tales a long time ago."

Daniel said any fair-minded person "who reads the entire statement is bound to know it is false and a concoction of his imagination."

Candidacy Announced

Texas got the first announced candidate for the Democratic primary next May 5. He is a young West Texan who has set out to be a giant-killer.

Keith Wheatley, 28, of Stamford, announced as a candidate against Railroad Commissioner Ben Ramsey for the remaining two years of the late Commissioner Olin Culberson's term.

Wheatley, an independent oil operator and son of State Rep. J. C. Wheatley of Haskell, said the little men in the Texas oil business are being starved out by the Railroad Commission's proration policies.

Coral reefs are skeleton-like masses formed by the secretion from animals called "coral polys."

BRONCHOS BEAT CANADIAN IN 8 TO 0 DEFENSIVE GAME

Quarterback Dwight McNear passed to Leon Gibbs on a play that covered 68 yards and the only touchdown of the game last Friday night as the Clarendon Bronchos defeated the Canadian Wildcats, 8 to 0. The scoring play came early in the third quarter and was the only threat either team made toward the other's goal in a tight defensive game. Jim Robinson made the extra points.

The win was the first conference win of the season for the Bronchos and left the Wildcats

winless in conference play. Clarendon had a wide edge on statistics. The Bronchos made five first downs to four for the Wildcats, but rolled up 181 yards rushing to Canadian's 87 and completed two of five passing attempts for 78 yards while the Wildcats could not complete a pass in five attempts.

All the Bronchos pretty well stood out on defense, especially Bill and Frank Hermesmeier, Robinson, Gibbs, Charles Stout and Billy Hearn.

FARM NEWS

from County ASCS Committee

TAASCOE SCRAPBOOK AWARD

Donley County won the Scrapbook award at the first annual Texas Association of ASCS County Office Employees State Convention held on October 14, at Mineral Wells, Texas.

This Scrapbook is on the counter in our office. Come in and look through it. It is compiled to show something in the way of News Articles, Newsletters, pictures or other information on each program handled in our office.

An engraved plaque—in the shape of Texas—will be on display in our office soon.

ADVANCE PAYMENTS FOR DIVERTING WHEAT ACREAGE

Wheat farmers who divert acreage from production of wheat under the 1962 wheat stabilization program may earn payments by putting that land into approved conservation uses.

Fifty per cent of the payment to producers may be made in advance of determination of performance. This provision is designed to provide income to farmers ahead of harvest time.

When a farmer signs up to participate in the 1962 wheat program, he must indicate the acreage he intends to divert to a conservation use if he desires payment. The law requires him to divert a minimum of 10 per cent of what his wheat allotment would have been without new program or 10 per cent of his highest acreage if such acreage has not exceeded 15 acres in the past 3 years. This minimum diversion is reflected in the 1962 farm wheat allotment sent to farmers before the referendum.

The ASCS office will issue the producer a sight draft. If he wants cash, he merely endorses the draft and cashes it at his local bank or the sight draft may be used to purchase wheat at the market price as determined by the Commodity Credit Corporation. Only the original payee may endorse the draft for cash only.

We were informed that diverted acres under the 1962 Wheat Stabilization program may be grazed until May 1, 1962.

Other details of the program, including the producer's high and low option on diversion and a complete list of approved conservation uses are available at the ASCS office.

1962 BARLEY SEED GRAIN PROGRAM

Barley producers may sign an "Intention to Participate" through Dec. 1, 1961. The barley feed grain program for 1962 is basically the same as the 1962 Feed Grain Program, however, only barley acreage harvested in 1959 and 1960 as grain or silage was used in establishing the farm base. Producers may divert a minimum of 20 per cent of the farm base or up to a maximum of 40 per cent of the base. On smaller farms diversion may be made of 20 acres plus 20 per cent of the base. The provision of the program is similar to those set forth for wheat.

SHELTER

It takes 1 acre of healthy forest 20 years to grow the lumber for a 5-room frame house. Farmers and other small woodland owners control 54 percent of the Nation's commercial forest; 3 out of 4 forest owners are farmers.

Mr. and Mrs. Harold Gerner and boys, and Mrs. E. H. Gerner visited Wednesday night in Amarillo with Mr. and Mrs. S. M. Barclay and Dave.

FORMER RESIDENT NAMED CITY MANAGER AT SAN ANTONIO

Jack Shelley, a former Clarendon resident, was named City Manager in San Antonio last week. He has served as assistant city manager in that city since 1958, previously following that work in Lubbock, Snyder, and Garland.

Shelley, age 35, is married and the father of four children. He was born in Fayetteville, Ark. At the age of 2 his parents moved to the Panhandle. He attended grade and high school in Clarendon, and Texas Tech in Lubbock.

Shelley's parents, the G. D. Shelleys, were with the Telephone Company while in Clarendon and are now with the Telephone Company in Lubbock.

SARDIS MISSIONARY BAPTIST CHURCH

Elder John W. Reynolds, pastor of the Sardis Missionary Baptist Church, will start a series of services at 7:30 p.m. Friday of this week (Oct. 27) to run through Sunday evening. The Saturday and Sunday morning services will begin at 10:30; Friday, Saturday, and Sunday evening services will begin at 7:30. The public is cordially invited.

Those visiting Mr. and Mrs. C. F. Moss and Shirley Sunday were Mr. and Mrs. Milton Dunn, who moved back here from Couperville, Wash. last week, Mr. and Mrs. A. M. Moss, Mr. and Mrs. Don Moss and baby, and Mr. and Mrs. Harold Gerner, Rick and Johnny.

Jim McKee and son, Craig, of Dallas visited the week end with his parents, Mr. and Mrs. George McKee.

RAY WARREN INJURED IN FALL FROM LADDER

Word received this week from the home of D. Ery Warren, advises that he was severely injured in a fall from a ladder while doing work on his home in Las Vegas, Nevada. Both legs were broken and an ankle crushed, as well as other bruises. He has been hospitalized for several weeks, and has shown some improvement.

ment. Ray was reared in Donley County, and has many friends and acquaintances here and in Amarillo. He is a brother of J. A. Warren of Clarendon.

Mrs. C. J. Talley is at the home of her son, Aubrey Talley, near Plainview, where she went for medical attention. She has not been getting along very well of late.

CHAMBERLAIN NEWS

Mrs. A. O. Hott

Mr. and Mrs. A. O. Hott visited Mrs. Elmer Chenault at Groom Memorial Hospital Friday afternoon. At that time she was feeling better. They visited Mr. Jewel W. Sickle at Adair Hospital. He was a very sick man at that time, but on Sunday he had improved some. They visited Mr. Lee Muse,

who was injured in a two-car wreck at Amarillo Thursday afternoon. He was able to be up but was a mighty sore man.

Mr. Nelson Riley reported that his wife is at Northwest Texas Hospital in Amarillo. He said she was improving. The Rileys are friends of the Hotts.

Mr. and Mrs. A. C. Carter and Neal spent Sunday at Dumas visiting their son, Mr. and Mrs. Garth Carter and boys.

Mr. and Mrs. Jiggs Mann and children visited his mother, Mr. and Mrs. Richard Dingler Wednesday night.

Mr. and Mrs. Chester Mann of Amarillo spent Friday with his parents, Mr. and Mrs. C. L. Mann.

Mr. and Mrs. Bob Williams spent Sunday at Canyon visiting their daughter, Mrs. Jeanie Merchant and boys.

Mr. and Mrs. A. B. Ivey and Janie visited Mr. and Mrs. A. O. Hott Saturday.

Mr. and Mrs. Clyde Gilbreth visited Mr. and Mrs. Clyde Gilbert Sunday afternoon. Mr. Gilbert is not feeling too well.

Mr. and Mrs. Roy Blackman visited Mr. and Mrs. Clyde Wilson Sunday night.

Mr. and Mrs. Glenn Arnold and three boys of Pampa visited her aunt, Mr. and Mrs. A. B. Ivey Sunday and ate supper Sunday night.

Mrs. Gurvis Kennard of Memphis spent Saturday night with her parents, Mr. and Mrs. Henry Mann.

Mr. and Mrs. A. B. Ivey visited Mr. and Mrs. A. O. Hott Monday morning.

Mr. and Mrs. Leonard Putman ate supper Sunday night with Mr. and Mrs. Harvey Shaw.

Mr. and Mrs. Richard Dingler took dinner Sunday with Mr. and

Mrs. D. G. Ballew and they went on the Aspen tour to Canadian in the afternoon.

Mr. and Mrs. Bill Hall and boys of Memphis visited her sister; Mr. and Mrs. C. A. Wright and children Sunday.

Melton Mann, who is in college at Lubbock spent the week end with his parents, Mr. and Mrs. C. L. Mann.

Mr. and Mrs. Jimmy Carter of Canyon spent Thursday night with their parents, Mr. and Mrs. A. C. Carter and they went on to Elk City, Okla. for the week end.

Mr. and Mrs. Sidney Muse and children of Amarillo visited his parents, Mr. and Mrs. Lee Muse Friday. His wife heard the news of his father's accident and they came as soon as he got the message.

Mrs. J. C. Heathington has her grandchildren with her while their parents, Mr. and Mrs. Theron Holland of Amarillo are on a business trip.

Judy Pittman and Sue McCord ate lunch Sunday with Janie Ivey.

Mrs. Jesse Foust and son, Ricky, spent the week with her folks, Mr. and Mrs. Troy Broome. They returned her to her home in Amarillo and ate supper with Mrs. Broome's sons, Mr. and Mrs. Jesse Foust and son and Mr. and Mrs. Tommy Foust and family. Mr. Troy Broome and Mr. Willard Edgett attended the football game at Canyon.

Mr. and Mrs. A. C. Carter and Neal visited Mr. and Mrs. Neford Dill Sunday evening.

Mr. and Mrs. Raymond Coty

and children of Amarillo ate lunch Sunday with her grandmother, Mrs. R. M. Webb.

Mary Mann visited Laura Ivey Thursday morning.

Mrs. Vance Gray and children visited Mr. and Mrs. W. H. Gray Saturday afternoon. Mr. and Mrs. John Stotts of Lelia Lake were Sunday afternoon visitors and their grandson, Jerry Gray ate lunch Sunday with them.

Mike and Karen Jones spent Saturday with their grandparents, Mr. and Mrs. J. D. Jones Sr. at Clarendon.

Mr. and Mrs. Ellis Butler of Hedley ate lunch Friday with her grandmother, Mrs. R. M. Webb.

Mrs. Troy Broome and her brother, Pat Gregory visited their mother, Mrs. P. B. Neel at Mangum, Okla. last week end.

Mrs. A. O. Hott received a card from Mrs. Frank Hardin who is in Truth or Consequences, New Mexico for her health. She reports she feels much better and will be home soon.

Copperheads are the most widely distributed and in many places the most abundant of poisonous snakes in the eastern U. S.

GEOLOGIST POSITION ANNOUNCED BY U. S. CIVIL SERVICE COMMISSION

A new examination for Geologist has been announced by the U. S. Civil Service Commission for filling positions paying \$5,335 and \$6,345 a year, mainly in the Geological Survey of the Department of the Interior throughout the United States. Positions in the Bureau of Land Management may also be filled.

To qualify, applicants must pass a written test and have completed pertinent college study or a combination of such study and professional experience. Details on the requirements to be met are given in civil service announcement No. 266 B.

Applications will be accepted until December 1, 1961, and must be filed with the Executive Secretary, Board of United States

Civil Service Examiners, Geological Survey, Department of the Interior, Washington 25, D. C.

Civil service examination announcements and application forms may be obtained from Post Office, Clarendon, Texas, or from the U. S. Civil Service Commission, Washington 25, D. C.

Donley County Leader, \$3 a year in county.

PALMER MOTOR COMPANY
CLARENDON, TEXAS

Here is the most exciting new toy of the year!

The ENCO Energy Rocket
Only \$2.95* with coupon from your neighbor in a HUMBLE uniform

This Humble exclusive is a fascinating toy. So safe and easy to use, a small fry of six can run it. So much fun, even Dads will monopolize it.

Its principal parts are of Esccon,® Humble's tough new plastic. It's battery powered, easy to assemble, (and the car is securely held together by screws). Simply start it, place on track and after a turn or two, throw the switch. The car zips down the side-track into a plastic bumper and wh-o-o-o-sh! The rocket zooms toward the ceiling (but doesn't hit it).

Ask for a coupon at the Humble sign in your neighborhood today. Mail with \$2.95* (cash, money order or check) to address on coupon.

* (plus State tax where applicable)

Without coupon—You can buy the ENCO Energy Rocket without a coupon for \$5.95.* Mail cash, money order or check with name and address to Rocket, Humble Oil & Refining Company, P. O. Box 1244, Houston 1, Texas.

Give your car an energy boost—fill up with Enco Extra gasoline

BLOWIN' Out the CORNERS

Breaking The Speed Limit is likely the law broken the most often by the average citizen. We are probably the least justified in doing so. If we are caught the fine can be pretty expensive. The penalty on our insurance goes up by leaps and bounds. Then, if we fail to get caught by the cops we still have to reckon with the odds of our number coming up for an accident. All these reasons besides the fact that disregard for

one law leads to feeling careless about rules of common good in general. The time saved just couldn't be worth the risk.

In the magazine Highway Highlights, Paul Akerman, engineering vice president of Chrysler Corporation tells us, "Of all the skills practiced by mankind, there is none that is used more—and improved less—than that of driving an automobile." A look at the front page of our daily paper will convince us that this statement is true.

Mrs. J. J. Justis handed us the following selections to sing as we drive along the highway.

At 45 miles per hour sing, "Highways are happy ways."
At 55 sing, "I'm but a stranger here, Heaven is my home."
At 65 miles per hour sing, "Nearer My God to Thee."

At 75 sing, "When the roll is called up yonder, I'll be there."
At 85 miles per hour sing, "Lord, I'm coming home."

Through the mail we received a bundle of information on the statewide program to teach driving in our schools. Even before they have received a driver's license our students can be taught the right way to drive. This ought to be "Putting the horse in front of the cart."

QUIETNESS is an unusual thing in this modern day merry-go-round of hurrying to and fro. The telephone wakes us in the middle of the night may be only for the wrong number. The alarm clocks rouses folks from their sleep to get a hurried cup of coffee, while the weatherman tells them to take it easy. It is then that they take off through the stop signs, speed zones and honking cars, trying like it was a matter of life and death to get to the office for an hour of work before the first coffee break.

The day is filled with the pushing and shoving of other folks all wound up into like fizzes. The machines whir and the typewriters click, set to music by the distant sound of a croaking radio or a television set. All this fuss and bother is aggravated by the impatience and cussed rushedness of all the customers. Home again to the shoot-em-ups of western programs and the tempest in a teacup effect of the different members of the family getting ready for an over-crowded evening.

This is all contrary to the way it should be and conducive to a crop of ulcers, nervous breakdowns, family break-ups to say nothing of the everyday habit of blowing one's stack. We predict that if each of us could have an hour or so of quiet time worked into our day that the doctors could have their quiet time too, once in awhile.

The Bible tells us to Be Still, To Wait, To Listen, and see what

great things will come to pass. We believe in work. But we also believe in rest. What better way to rest than to just be quiet. Perhaps even take a walk all by ourselves.

Courage is the key, success is the lock, and work is the power that brings the two together.

Though we work hard to earn our salt, we will never know a perfect day, until we do something worthwhile for someone who can never repay us.

There is no job as useless as that of building up self pity. No one will even let us give our supply away.

We should work to earn all that we can. We should save all that we can. Then, we should give all that we can.

A lot of folks want overtime for their work, when they collect for the wages of sin.

Working together is important. Even a banana soon gets skinned when it leaves the bunch.

Sometimes it is easier to work at the job than it is to convince folks that we have a good excuse for loafing. Once when a boy was given a bucket of peanuts and told to replant a washed out spot. After awhile we became tired so we dug a deep hole and put the balance of the seed in it. Later when my father plowed the field the whole earth was lifted up by the pile of seed. It would have been easier in many ways to have done the job right.

Some folks seem to work at the job of making a fool of themselves. This is one time when success comes easy and most everyone is ready to help you.

There is one kind of work that the doctor never advises against—that of reaching down to help a fellow man along the way of life. This kind of exercise is always good for the heart.

NURSERIES DEVELOP NEW LIGHTING TECHNIQUE

A new variation in the use of artificial lighting can save nurserymen up to 95 percent of their lighting costs, according to a recent report of the U. S. Department of Agriculture. Cyclic lighting, as the new method is called, uses artificial light in patterns of short, regularly occurring intervals for three to five hours in the middle of the night. For some plants, a total of only twelve minutes of light per night is required.

In contrast, most commercial greenhouse operators now use four hours of continuous light each night to get the same amount of plant growth control. The cost of this method limits its use to plants with high unit value. Since cyclic lighting may require as little as one-twentieth as much light, it may be used for plants of lower unit value.

Artificial light has been used since the early 1930's to control flowering of chrysanthemums. When the method was first adopted, eight hours of continuous light were applied at the beginning or end of each day. About 10 years later, scientists found that four hours of continuous light applied during the night were just as effective as the eight hours previously used. Now scientists find that 12 minutes of light, properly applied, can give the same results.

Development and use of cyclic lighting for control of plant responses is possible because of the action in darkness of phytochrome, the dual-form light-sensitive pigment that governs development of all plants. Each form is associated with certain growth responses, and in darkness phytochrome slowly changes from one form to the other.

The USDA scientists found the pigment changes enough in one hour of darkness to cause changes in plant responses. They then regulated light intervals in the cycles so that intervening dark periods never exceeded one hour. Phytochrome began its reversion, but the darkness was repeatedly interrupted with light before the pigment changed enough to affect the plant responses.

Although indications are that cyclic lighting will allow control of more plants than are now commonly controlled by artificial light, the scientists caution that

research on cyclic lighting must be completed before definite recommendations can be made. Factors to be considered by greenhouse operators and nurserymen are types of existing lighting installations, plant species to be controlled, and purposes for which light is to be applied.

TELLING AMERICA ABOUT THE BUSINESS AND INDUSTRIAL ADVANTAGES OF THE ...

"Center of the Southwest"

We call our service area the CENTER OF THE SOUTHWEST, because that is a literal description of it.

In a two-gun campaign, our industrial development program capitalizes on this fact.

We tell expanding industry by mail and in our national advertising that the fast-growing Southwestern market can best be served from the heart of the region.

In addition, our area development representatives tell the same story in personal contacts with business executives in large industrial centers.

West Texas Utilities Company believes in the business and industrial advantages of the CENTER OF THE SOUTHWEST.

And, we are telling America about them.

West Texas Utilities Company
an investor owned company

LIBRARY NOTES

EDITH BARNES

Are we a nation of sheep? William J. Lederer seems to think so and in his book, "A Nation of Sheep," he presents some pretty convincing evidence that we are.

Foreign aid and the way it is handled or rather mis-handled is one of his pet hates.

Since all these billions of dollars for aid to other countries comes out of our pocket it might be well if we took his advice and made it our business to become better informed about just how our money is being spent.

The money that has been wasted through graft and corruption, not only by the officials of the foreign country supposedly being helped but by our own civil servants, is not the most important by any means. If author Lederer knows what he is writing about, our ignorance of the actual conditions in Laos some weeks ago almost triggered a war.

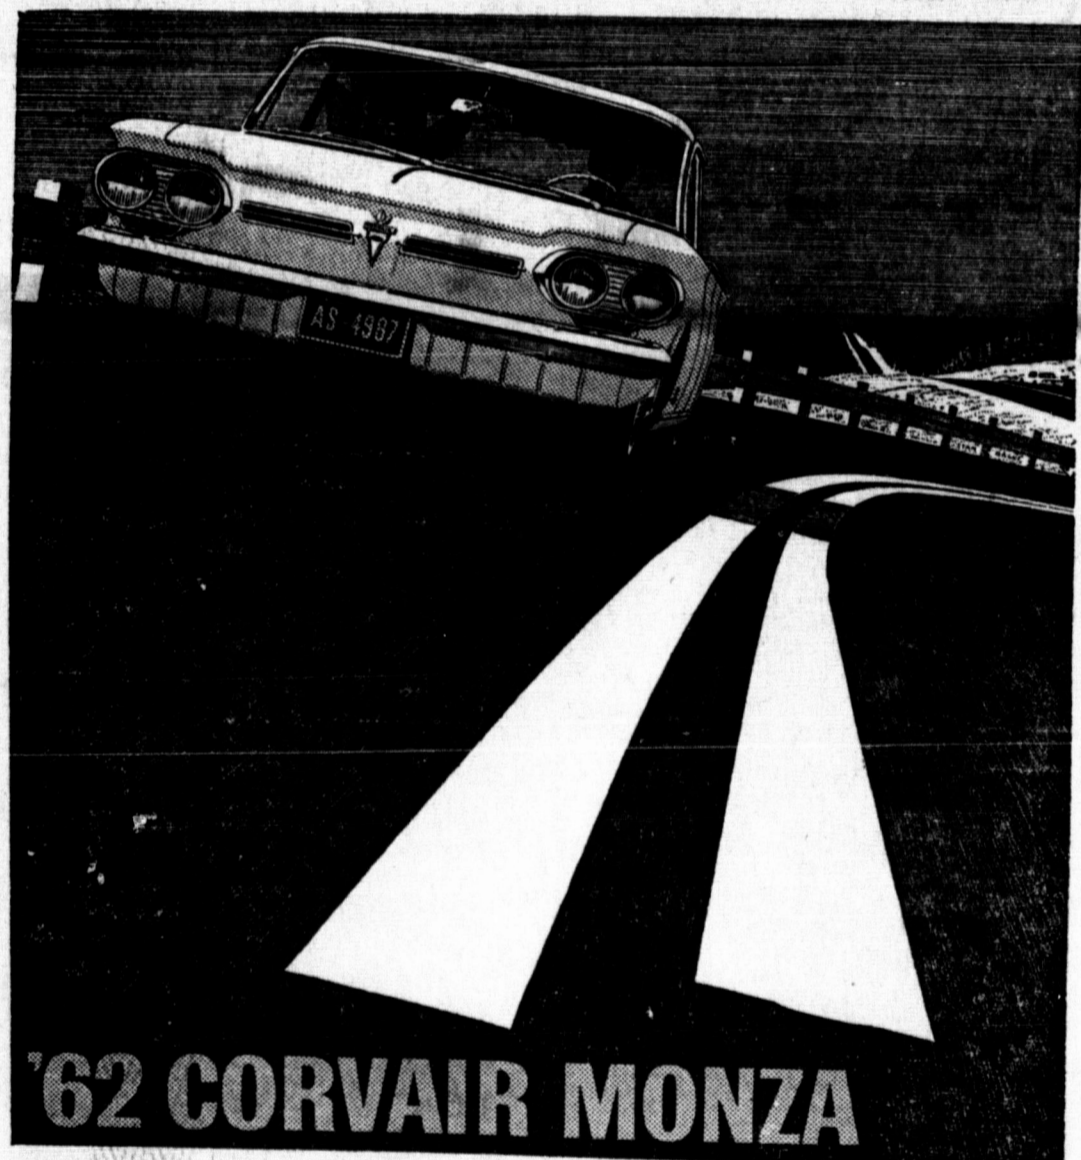

Here is a quote from his book: "The entire affair was a fraud. No military invasion of Laos had taken place. Yet for weeks, neither our government nor our press bothered to investigate at first hand. As a result, we came close to triggering war, on false information not of our own gathering. We did in fact make fools of ourselves in the eyes of our friends and 'imperialist warmongers' of ourselves in the words of our enemies and in the opinion of neutrals."

In the spring of 1958 there was an election held in Laos which was told by our Assistant Secretary of State Parsons that the Communists had won only two out of 15 seats in the government.

Contrary to the State Department's optimism based on sources said to be official, THE COMMUNISTS HAD WON A SENSATIONAL VICTORY. So sensational, in fact, that the pro-Red leader of the rebels had to be installed in the Royal Cabinet as the minister who controlled U.S. Foreign Aid funds to Laos. A further irony, two battalions of pro-Communist troops from now on would be supported by U. S. funds. We now would be buying guns, food, and bullets for the soldiers who had been fighting the government we supported.

What can each of us do about such conditions? Author Lederer gives us a blueprint to go by and there is nothing hard about it. We might try it and if we don't, we don't deserve freedom we enjoy and take so for granted.

During the last 25 years, hurricanes have killed about 2,500 victims and caused three billion dollars' worth of damage in the U. S. alone.

'62 CORVAIR MONZA NEW FACE, SAME SPORTING HEART

We might as well tell you straight off: Corvair's the car for the driving enthusiast. Think that lets you out? Maybe. Maybe not.

Until you've driven one, you really can't say for sure, because Corvair's kind of driving is like no other in the land. The air-cooled rear engine sees to that. You swing around curves flat as you please. You whip through the sticky spots other cars should keep out of in the first place. (Especially this year, now that you can get Positraction as an extra-cost option.) You stop smoothly, levelly with Corvair's beautifully balanced, bigger brakes.

Corvair's found other new ways to please you this year. A forced-air heater and defroster are standard equipment on all coupes, sedans and both Monza and 700 Station Wagons. So are dual sunshades and front-door armrests and some other goodies. You'll note some new styling, inside and out. Nice. And safety-belt installation is easier, too, and cheaper.

So you can see we haven't really done much to Corvair this year. Why on earth should we? If this car, just as she is, can't make a driving enthusiast out of you, better take a cab.

A New World of Worth

And here's America's only thoroughbred sports car, the '62 CORVETTE. We warn you: If you drive a Corvette after your first sampling of a Corvair, you may well end up a two-car man. And who could blame you?

See the '62 Corvair and Corvette at your local authorized Chevrolet dealer's

ALDERSON CHEVROLET
