Iowa Farmer To Exhibit Little Farm At Amarillo Fair

Attractions Expected to Be One of Big Drawing Cards at the Fair All Hand Made

One of the biggest attractions at the Tri-State Fair in Amarillo is expected to be the Little Farm, exhibited by Mr. A. Gifford, of Boone, Iowa. Mr. Gifford's exhibit, with its threshing machines, horses, cows, dogs, pigs, chickens, geese and human figures all moving, is really an interesting sight and has been drawing large crowds wherever exhibited.

A knife and a piece of wood turned Mr. Gifford into the show business. He always liked to whittle, and when he had made four or five of the little figures everybody raved about them so he made a whole farm and took it on the road.

Mr. Gifford says, "People came from miles around to see it. So I gave up farming and took the little show out on the road. So true to life is the little farm, no one but a real dirt farmer could have constructed it. The way the little pigs bob their heads as they suckle. The way the old sow flicks her ear contentedly. The feathered fury of the rooster fight. The assurance of the old gander that rushes to break it up. The nervous wobble of the chickens as they inch their way across the barn road. In these minute details of keenness of Mr. Gifford's observation, and the skill of his fingers are demonstrated most eloquently. Other figures, however, are more imposing. The threshing machine, into which the bundles are pitched, and from which the straw is blown; the windmill, the horses and cows drinking at the tank. Only one of the horses was among the original group of figures, made twenty years ago. In his fifteen years on the road, all the others have been replaced. I get better expression

on each new face I carve, said Mr. Gifford. Soon I am going to begin on a new show for myself. It should be completed by 1945.

SAM DYER IS SHOWING 1941 MODEL HUDSON

Distributor here for several years for the Hudson cars, Sam Dyer is this week showing the 1941 model of the Hudson motor company products. The reader will find the company's advertisement in this issue of the Leader, together with information of value to the prospective car purchaser.

Pontiac Launches Torpedo Fleet

Spurred on by the remarkable success of its new and original Torpedo models in 1940 and with its factory and dealer organization geared up to surpass its most successful year, Pontiac Motor Division today is announcing an entire Torpedo Fleet for 1941.

There will be three complete lines of cars styled in the Torpedo manner, longer in wheelbase, more graceful, roomier, more powerful, a low-priced DeLuxe Torpedo of 119 inch wheelbase; a daring new Streamliner Torpedo of 122 inch wheelbase and an ultra-smart Custom Torpedo of the same wheelbase. They will replace the shorter wheelbased Special Six, DeLuxe Six, DeLuxe Eight and Torpedo Eight of 1940.

Unusual skill and finesse has been shown by Pontiac engineers in providing all 1941 models with either a six cylinder or an eight cylinder engine.

Thus with many combinations of colors, bodies, equipment, chassis and engines available in the new Torpedo Fleet, motorists will have a wide range from which to choose in selecting a new Pontiac. And at the low prices announced, a high level of values is certain to continue as it has in recent years.

The DeLuxe Torpedo (119" w.b., six or eight) will be available in six models; four-door sedan, two door sedan, sedan-coupe, business coupe, convertible sedan-coupe with power operated top and taxicab (six cylinder only). Overall length is 201 1/2 inches.

Mr. L. L. Wallace, well known local business man will be distributor for the Pontiac, under the name of the Wallace Pontiac Co.

Mrs. Bill Sercomb had a major operation at Adair hospital Sun.

Men Here Before the Pioneers To Be Honored By the Old Settlers

Men who were here before the pioneers arrived will be guest speakers at the Old Settlers' reunion which will be held Wednesday, Sept. 18, at the Tri-State Fair.

Floyd V. Studer, president of the Panhandle Old Settlers' Association, now in its 26th year, announced yesterday the principal speakers would be Chief Tahan and Chief Lean Elk, who will tell of earlier days in the Panhandle.

"This year's program will be dedicated to the red and white Americans," explained Mr. Studer, who for many, many years served as secretary of the unique association which meets annually—Wednesday of Tri-State Fair week.

The Panhandle Old Settlers' Association was organized in 1914 through the efforts of Thomas F. Turner, a pioneer.

Men and women must have liv-

ed in the Panhandle at least 25 years to be eligible to membership. There is only one payment of dues—\$1 for a life membership. When membership dues are paid the association presents an elaborate badge, designed by the late Horace Russell.

These badges are honored at the sites of the exposition grounds. Annual programs of the association are considered so important from an historical standpoint, minutes of the meetings are filed in the Panhandle-Plains Museum at Canyon.

Chief Lean Elk, sometimes known as John Otterby, was at the Battle of Adobe Walls. He was only 10 years old and was with Billy Dixon.

Chief Tahan, sometimes known as Joseph K. Griffis, who will deliver the chief address, was captured by Kiowas when he was a babe in arms on the Texas frontier.

TEMPLE OF TRUTH

By The Apostle

SYNONYMS (?) MAYBE.
It may be "school days" for the younger set, but it is school "daze" for their elders.

SCHOOL DRIVE SLOWLY

There is a wealth of meaning in those three words. To observe them means to recognize the rights of every pupil, and to regard the happiness of countless parents. For the sake of your own happiness, as well as others, please help save the lives of innocent children.

OVERLOADED.

Real poetry has time, tune, melody, rhythm, meter and a lot of things that cannot be described in mere words. Real poetry is wonderful. Then there are rhymes, some of them with long lines and some with short lines. That depends on how much trouble the rhyme writer is having in making the lines end in words of similar sound. Whatever that may be, we are overstocked. Please wait with "home spun" manufacture until we catch up. We can only use a very limited amount of the best

because few people like poetry. We have to manage to give the thousands of readers of the Leader a "balanced ration."

GIVE GRASS A CHANCE.

More than '30 years ago, this was one of the best "grassed" sections in West Texas. There were seven types of gramma, buffalo and two kinds of mesquite. Today the varieties are limited to three main varieties. Late years we have wild rye. Some claim this was brought in during the dust bowl era. Other deny this, saying that wild rye has always been here. At this time in my yard is crow-foot gramma heading out. It was late due to dry weather, but this variety always makes seed unless over-grazed. It was common in this section some 30 years ago. Now it is only found on the sub-irrigated sections of the canyons. When the time comes that our stockmen import grass seed and spread it over the ranges, there will be good grass again. Dry weather got it.

POCKET KNIFE DAYS.

There was a time when men sat around on the town sweater benches and whittled pine for want of energy to do something worth while. Often the benches were attacked with the brother and his faithful knife. In an old

J. Lynn & Co. catalog I find 104 types of knives listed. That was in 1904. Today few are sold. But here is the story: A man will have a complete farm on exhibit with animals and fowls, at the Tri-State Fair, all whittled out of pine. If you are interested, read the story in this issue and see it when you get to the Fair. Maybe this man never did stop whittling. At any rate, he turned it into profit.

QUOTE:

"Ole Culberson, a candidate for railroad commissioner in Texas, advertises that he is "The Gas Consumers' Friend." Every resident of this country who listens to a political speech is a gas consumer, so Ole should have a lot of friends."—Sabula Gazette.

UNQUOTE:

Ole must have had the friends. He was elected by a big majority. This isn't much of a column this week. But you must admit it is different.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

I have learned that if you have a garden you will work from daylight until dark.

That your garden is never what you think it is going to be.

That flowers never bloom just when you have planned, and it usually rains at planting time.

That it doesn't matter how tired you are or how many things come up to keep your garden from being a success, you are never discouraged, but keep right on working, believing that next year—your garden will be just as you have dreamed that it will be.

ANOTHER DRY HOLE?

In the constant search for new oil reserves in Texas, even the dry holes benefit the communities in which they are drilled.

They mean employment and wages for Texas labor, lease money for Texas farmers and ranchers and many other expenditures which benefit all lines of business.

2,300 dry holes were drilled in Texas last year at a cost of nearly 60 million dollars.

Since oil was discovered in Texas, 52,000 dry holes have been drilled in all sections of the State at an expense of more than one billion dollars.

This billion dollar research has already resulted in the discovery in Texas of over half of all the known petroleum reserves of the Nation. The creation of this wealth will benefit Texas citizens for generations to come.

Whether the oil man wins or loses, the community always gains.

William Powell and Myrna Loy Are In New Film, "I Love You Again"

Coming to Pastime Screen In Howling Comedy of Man Who "Forgets" He's Married

Designed expressly to make the world forget its troubles, "I Love You Again," co-starring William Powell and Myrna Loy, is scheduled to open at the Pastime Theatre at the Saturday night Prevue for an engagement of three days. The film is the first in some time to present the popular Powell-

Loy "husband-and-wife" team minus the "Thin Man" tag, and is one of the most hilarious of their careers together.

The story, which makes for one comedy situation coming fast on the heels of another, deals with the amusing plight of a man who, through an accidental blow on the head, recovers from an eight-year attack of amnesia. When he regains consciousness the world in which he is living seems strange. He has acquired a new personality, a charming wife who is about to divorce him, a bank account, the manager's berth in a large pottery factory and, more than that, the reputation for being a model citizen and civic leader in a small town called Habersville.

Ex-Confidence Man

The fact that in his pre-amnesia days he was a high class confi-

dence man adds humor to the already side-splitting series of events. How he plots to return to Habersville and perpetrate a gigantic oil swindle, how he checks up on his past eight-year record, and the laughable conclusion to a series of mad events, makes for the top entertainment of the current year.

The role of Larry Wilson, alias George Carey, is a happy choice for the actor, allowing him to depart momentarily from the slick, sophisticated detective roles of recent films. Myrna Loy is also permitted, to depart from her "perfect wife" characterization long enough to cause Powell some anxious moments as well as to crack him over the head with a platter filled with scrambled eggs.

The supporting cast includes the always funny Frank McHugh as Powell's buddy, "Doc" Ryan, Edmund Lowe as a slick oil promoter, Donald Douglas as Miss Loy's boy friend, Herbert, and Nella Walker as her mother.

Two Transfers Not Eligible On Broncho Squad

The District 3-A pennant hopes of the Clarendon High School Broncho eleven was just a remote dream Sunday following Superintendent H. T. Burton's announcement Saturday that two transfer students would be ineligible for this Fall's grid season.

The two, both registered from Ashtola, an outlying Clarendon community, were Bill Adams, a triple threat back and Otis Spier, center and versatile line backer.

The announcement was the second blow the club has received since the completion of the 1939 season when they were hailed as favorites for the 1940 crown. The first was the eight-semester ruling that tore apart the well balanced unit and threw into discard three backs and several linemen.

Washington, Sept. 5.—Naval officials said yesterday a precedent for the United States' trading of 50 destroyers to Great Britain was to be found in this Country's purchase of three light cruisers from England and Brazil at the time of the Spanish-American War.

On March 16, 1898, just prior to the declaration of war against Spain on April 21, the United States bought two cruisers which Britain was building for Brazil.

On July 11, the United States took a third cruiser from Brazil. The three vessels were named the Buffalo, which cost \$375,000; the New Orleans, \$1,429,215; and the Albany, \$1,205,000.
