### A Special Concession to Christian Endeavorers.

Through the co-operation of other Colorado Lines and for the benefit of those who will visit Denver upon the occasion of the 21st Annual Convention of The Young People's Society of Christian Endeavor, to be held July 9th to 15th, for which a rate of about one fare plus \$2 for the round trip has been announced. "The Denver Road" has arranged that the final limits of tickets sold from Texas points shall be August 31st—instead of July 23rd as previously announced. Under this arrangement visitors will have ample time for a really beneficial vacation as well as unusual opportunities for sight seeing, which should, and doubtless will be much appreciated.

The state democratic convention of Iowa refused to reaffirm the platform of 1900. D. B. Sullivan was nominated for governor and D. B. Butler for lieutenant-governor.

The antis of Milam county went into Sabine swamp to hunt up Judge Watts, who was fishing, in search of an injunction against the prohibition law to be disappointed by a refusal.

A ship sailed from Galveston Monday for Delagoa Bay with 1,000 head of cattle, purchased in Texas by the British Government to stock the depleted farms of the Boers in South Africa.

J. S. Scott, one of the most prosperous farmers of St. Clair county, Mo., was killed by lightning while on his way to church last Sunday.

The music of a piano sounds well enough when one is not hungry. When hungry, the music of the frying pan beat the "pie-anner." A girl who is an expert on both is one you may need in your business.—Ex.

### Men Who Deserve the Public Patronage.

The advertising columns of an up-to-date local newspaper are invariably a true reflect of the business men of the town in which it is published. If the business men are progressive, thoroughgoing hustlers, the advertisements in the paper will show it; but if, on the other hand, they of the slow, sleepy, drag-easy kind, the lack of advertisements will show it. This assertion is based on the supposition that the paper is a creditable publication and really merits the patronage of the citizens of the town in which it lives. If a paper of this kind is worth anything to a town and country, (and nearly all agree that it is) then the business men who patronize it most liberally are certainly most deserving of the patronage of the public.—St. Jo. Tribune.

The general tendency of the people of the Panhandle seems to convert their country into a stock farming county. The past few years having been very seasonable has demonstrated the fact that farming in connection with the live stock business pays big profits to the man that engages in it. It has been but a short time that real farming has been engaged in to any extent in this country. The stock raisers formerly depended on the native grasses for both summer and winter pasture, but immigration with the rapid advancement of the country demands that we raise our own feed stuff and fatten our own stock.—Higgins News.

A good housekeeper always has a bottle of bed-bug-beater.

### Thos. Goggan Dead.

Thomas Goggan, senior member of the firm of Thomas Goggan & Brothers, and well known throughout Texas, died at his former home in Cork, Ireland, early Monday. He was sixty-two years old, and leaves a widow and six children, all of whom were with him at the time of his death except one son and his oldest daughter, who is Mrs. L. Sherwood Sabin of Dallas. Mr. Goggan had been ill for five years and during the last two years had been too sick to attend to any business. He and his brother, John Goggan of Galveston, established big music houses in Dallas, Galveston and other Texas cities and built up a large business.

Monday, November 9, is the date tentatively set by the President for the assembling of Congress in extra session for action by the House on the Cuban treaty and the discussion of such other matters as may be submitted. This will give Congress nearly a month to work in before the date for the regular session of that body. The first Monday in December, the time fixed by law for regular session to begin, falls on December 7 this year. By beginning on November 9th, it is believed to be plenty of time to dispose of the Cuban tariff matter.

W. R. Brierly, formerly of Fort Worth, who lives at Amarillo with his family, attempted suicide twice by taking morphine which was pumped out, and by cutting his throat. He is in a critical condition and can hardly recover.

### Howe's Great London Shows.

This enormous aggregation is advertised to exhibit in Clarendon on July 8, giving two of their inimitable performances at 2 and 8 o'clock p. m. Don't miss seeing the beautiful and rare animals and beautiful ponies and positively the greatest trained animal exhibition in the world.

A heavy storm around Dallas and Fort Worth Wednesday night did great damage. The telegraph, telephone, electric light and power companies will have to spend upwards of \$20,000 in repairs. The damage to the Texas corn and wheat crops is estimated to be close to \$1,000,000. Six farm houses were blown down in New Hope community of Dallas county, also two large farm barns. No one is reported hurt.

The Federal Grand Jury investigating the post-office scandal returned indictments against Mr. and Mrs. Lorenz Machen and the Groff brothers. The former Toledo Postmaster and his wife are accused of acting as go-betweens for Machen and the Groff brothers in the conspiracy to defraud the Government.

In Bastrop county Wednesday Wade Hodges was killed by a Katy train near Sayers. He was sleeping on the track and it seems he was aroused by the train and ran forward, thinking it to be his train, but it was not. This was the verdict at the inquest.

Dave Hugely, in jail at Crockett, charged with the killing of his wife about ten days ago, committed suicide Wednesday by eating the sulphur from matches.

PUBLISHED BY

W. P. BLAKE, EDITOR AND PROPRIETOR.

Subscription price, \$1 per annum in advance.

Entered February 19, 1903, at Clarendon, Tex., as second class matter, under Act of Congress March 3, 1879.

Clarendon, Texas, June 27, 1903.

WHETHER in Illinois, Delaware or Indiana, the atrocious crimes of black brutes on women result in a lynching. In the matter of obedience to the law and good morals it does not seem that the negro is improving much.

SINCE Mr. Roosevelt has been president and campaigning for another term he has made 353 speeches. The papers that used to talk so freely of their disgust of Bryan's wonderful flow of chin music are not so noisy in protesting now.

A CONSIDERABLE stir has been kicked up in Alabama over the "peonage" case, in which negroes are detained as slaves. A number of arrests have been made, among them being J. W. Pace, a prominent planter of Tallapoosa county, who was arraigned in the U. S. court at Montgomery Wednesday for trial on eleven indictments charging him with peonage. Demurrers were filed in all these cases, which were overruled, and he then pleaded guilty in all of these eleven cases and appealed to the Circuit Court of Appeals at New Orleans, making bond in the sum of \$5,000. The sentence of the court for Mr. Pace was five years in each case, to be served concurrently.

It is now Third Assistant Madden, of the postal department who is to be investigated for crookedness, he who has been so discriminating in allowing and refusing newspapers second-class rates. It is something in regard to a carbon paper contract, which he denies, and says, "My sole interest and connection with the subject is limited to an approval of the particular carbon paper in question." He also says, "The statements as printed were given the Free Press correspondent from the office of the first and fourth assistant. They misrepresent the facts, and are calculated to put me in a bad light with the people that I have lived among for upward of forty years." He has not been regarded by newspaper men in a very good light for several years.

The delegates of the Baptist churches present here to decide the location of a Baptist college in a Panhandle town, have adjourned without coming to a decision. They will meet again this fall to take final action. Most prominent among the aspiring towns is Memphis that offered a bonus of \$20,000 with an additional \$10,000, if necessary.

The above was sent from Clarendon to the Quana Tribune, presumably, by some Memphis man. In the first place, it was but a committee that met here and it had no authority to locate the college, but only to receive the propositions to lay them before the Association when it meets. In the next place, this matter will be decided in less than a month by the Association to meet here July 23, unless that body should defer the matter. While no one has the right to dispute what Memphis, or any other place, may claim she will raise by that time, she made no definite statement as to what was already subscribed or guaranteed.

The insertion of a "5" instead of a "2" made the paper say \$50,000 Wednesday when \$20,000 was intended as the cost of the building required by the college committee from the town securing it. It is presumed that the other buildings

and property that would be added to it in a few years would run the total valuation up to \$50,000, or more.

## Hanna Not Ater Second Place.

Word comes from Cleveland, O., that Senator Hanna does not take kindly to the suggestion of Representative Corliss of Michigan, that he go upon the republican national ticket next year with President Roosevelt. He said Sunday: "I do not want the position and I would not take the nomination if it were offered to me, and my ambition does not lie in that direction. They would force me to take the nomination, would they? That is a joke, isn't it? Well, I wouldn't accept it, and that is all there is to it."

Although Milam county went pro by 210 majority, the antis have filed a contest.

The third Illustrated Edition of the Mineral Wells Index is one of the neatest Texas papers to come to this office. The half tone work is the best we have seen.

President Rogers of the N. W. T. Press Association tendered to the editor of this paper the office of delegate to the National Editorial Association to meet at Omaha July 6, for which a lengthy and interesting program has been prepared for the most important body of newspaper men in the U. S. We regret our inability to attend, but we have contracted work that will keep us very busy until July 10. We wish the rest of the boys a joyful time, however.

Tucumcari, New Mexico, is to have a \$20,000 court house and a \$5,000 jail.

## Normal Notes.

By Towne Young.

Several additional students have entered the Normal since our last writing as follows: Misses Ola Jones, Boydston; Eliza Jones, Wichita Falls; Daisy Morrow, Kaufman, and Nellie Baker of our town. Also, J. W. Darden, of Olympus.

A vote was taken Tuesday as to what hours the Normal would keep. A majority favored morning sessions only, so we will be found on duty from 8 a. m. to 12:30 p. m.

Miss Annie Hibbets, of Washburn, is attending the Normal, not with the intention of securing a certificate, however, but for review work only.

In point of good looks, the young ladies of our Normal show up very well indeed. Positively, they are, every one, just as pretty as it is safe for them to be. Not too pretty, I say, but just pretty enough. On the other hand I am afraid I cannot say as much for our young men. In fact, if we are any judge of good looks, Mr. George Harding and your correspondent are really the only good looking young men in attendance, with the exception, of course, of our efficient force of instructors.

Mr. James Barret, a former Clarendon boy, but now of Amarillo, is among us again attending the normal.

Miss Hallie Ray, also of Amarillo, has her name enrolled. Although, Mr. Barrett and Miss Ray have been living in the same town, we will state for the benefit of those who do not know, they are not even acquainted.

We consider it some one's duty to apologize to the young ladies attending the normal for the scarcity of young men in attendance. The aforesaid young ladies complain that they are now in excess to the tune of about 4 to 1, which, "on the dead square," is really tough. Now, in my opinion, it is up to those young men who are so few

and far between, to spread themselves just about as numerous as possible, making up in this way for their fewness in number.

An invitation was read before the Normal students Wednesday morning from Messrs. Posey & Patman, our popular confectioners, inviting all in attendance down to their ice cream parlor where ice cream would be served. The invitation was accepted gladly and almost the entire body took advantage of the treat that evening and feasted on cream at the expense of the establishment. Could Messrs. Posey and Patman hear the many kind words and compliments given them they would feel well repaid for their liberality.

Miss Nellie Baker, one of Clarendon's knowing young ladies, is in attendance and has taken up both first and second grade work. The taking up of so many studies would be considered a difficult task for an ordinary young lady to undertake, but this, as is universally known, Miss Baker is not, so it is safe to assume that she will easily pass the examination with an average of approximately between 50 and 110 per cent.

## STATE NEWS.

A \$6,000 residence of R. H. Logan's was burned at Abilene Tuesday morning.

The depot and three buildings at Leon Junction were burned by lightning Tuesday night.

At El Paso Tuesday Martin Nolan, an aged carpenter, backed his buggy off the Rio Grand levee by accident and horse, buggy and driver were swept away.

J. N. Alexander and a Mr. Floyd were badly scalded by the explosion of a thresher engine near Moody Wednesday.

Bob Marker, chief clerk of the House of Representatives, has already bobbed up as a candidate for State Controller, nearly a year and a half before time for the election.

A Dr. J. W. Rhudy, from Carrollton, Ga., suicided at Waco Wednesday. Out of money and no practice is assigned as the cause.

Near Bonham during a rain storm Wednesday the residence of J. H. Thomas was completely demolished. Mr. and Mrs. Thomas and one child were seriously injured. Two other members of the family escaped unhurt.

Fires started by lightning Sunday night burned several straw stacks for A. Putty in Cooke county, a fine barn of Mr. Hart's east of Denton, the loss amounting to \$5,500, and a barn and contents of Joe Webb in Hunt county.

During the past week lightning has done an unusual amount of damage in Texas. Wednesday the barns of W. P. Merrick near Greenville and R. P. Coke at Atlanta were struck and burned. The former lost three horses, a buggy and a lot of feed.

At Iowa Park Sunday night during the storm Miss Lillian White, age 14, had her right side paralyzed from the shoulders down. She may, however recover. J. Waldron lost one cow and three yearlings; Mr. Car, two horses; A. Bacher one jennet, all by lightning.

In Brewster county 63 sections of public school land have come on the market since June 12, by reason of the expiration of leases, 83 of which Land Commissioner Terrill has received applications. In Edwards county every school section has been filed on, and the commissioners received 54 applications in one package from Martin county. All these tracts, the commissioner says have been sold at the advanced prices.

**Texas Stockmen Asked to Help Fight The Beef Trust.**

Cattlemen of West Texas are being importuned to take stock in an independant packing plant that has been established at Pueblo Colo., under the backing of the National Livestock Association, for the purpose of fighting the so called beef trust. The new organization is to be operated under the name of the United States Packing Company. The following is a verbatim copy of a letter received from John Dickey, general manager of the new concern, by a leading capitalist and stockman of this city:

"I take pleasure in addressing you by request of one of our directors, who is desirous of seeing you become a stockholder in this company. Sixty per cent of the entire stock of this company was set aside and is being sold to the most prominent and influential stock growers and farmers in order to insure at all times the control of the company by them. As a protection to your own interests, it is the duty of every stock grower and farmer to become a stock holder and have control of this independant packing house, where he can not only market his own product at a fair price, but reap the immense profits that now go to the beef trust. This is the only salvation of the stockmen of the United States to-day. Notwithstanding any statement to the contrary, the beef trust merger has been fully consummated, and only awaits the decision of the Supreme Court of the United States to ascertain just what form is best to force the beef trust upon the public.

"This octopus beef trust is becoming more exact each day; they own and control the majority of the packing houses and stock yards, and with impunity dictate the prices to be paid for your products. From the trust headquarters in Chicago they wire all points what prices to pay next day for your cattle, hogs, sheep, poultry and eggs, and you know from experience that after one packer has bid for your stock no other packer will raise the price or bid against him; therefore you are compelled to take such price as is offered and be satisfied. How can you help yourself? Your only relief is to own your own independant packing house, where you will be paid an honest price for your stock, according to the actual market demand and by such competition only can you hope to force the beef trust to pay a fair market price.

"Within the last three years the beef trust has built quite a number of new packing houses and stockyards of their own, and all in this Western country; and last fall, just before the beef merger was effected, the beef trust interests bought seven large independant packing plants that cost \$15,000,000. What better proof can be offered than the above to demonstrate the profits the beef trust has made off the stockmen? And at no time has the trust allowed you to get your share of the profits you are justly entitled to as the producer of this stock. You take all the risk and the beef trust all the profits. If you will read our prospectus carefully you will learn something of the beef trust and its immense profits that will astonish you.

"It is essential that every stockman and ranchman become interested in this proposition, as it means a better market for his product, and if he is not in a position to become interested as a large stockholder, he should come in as a small one. We would rather have fifty small stockholders than ten large ones for twice the amount that the fifty would subscribe. If you are in favor of open markets and a better price for your stock you will become one of our subscribers. You are either for us or the beef trust.

The Colorado, Texas, correspon-

dent of the Dallas News says local cattlemen indorse this movement as a proper one in view of the stupendous combinations that have recently been effected by the great packing interests of the county, and say it is the only avenue of protection left open to the producer.

The International League of Press Clubs in session at Atlantic City Tuesday denounced the Pennsylvania libel law in strong terms and passed resolutions in favor of free press and a free people,

At Kansas City the striking freight handlers have been blacklisted, and the strike will not be arbitrated by the railroads. The State Board of Arbitration invited the railroads last week to have the differences submitted to the board. This invitation the railroad officials have now refused to accept. Nearly all the places of the strikers have been filled.

**Texas World's Fair Fund.**

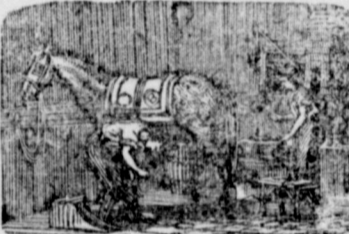

As the Legislature could not make an appropriation for the purpose, if Texas is to be represented at the World's Fair the fund necessary for the erection of a building must be subscribed by her citizens, and in order to achieve satisfactory results, the funds must be subscribed and paid in at an early date.

The Texas World's Fair Commission at a recent meeting adopted a resolution declaring that unless \$100,000 shall be subscribed by July 1, the project will be dropped and all subscriptions which have been paid in will be returned. The Commission also asked the newspapers of the State to take up the matter and receive subscriptions, and feeling that Texas will miss a great opportunity if not represented at the great Fair, we willingly open our columns for this purpose, and will in this column acknowledge all receipts for this laudable purpose and see that it reaches the Commission's treasurer.

**THE FORD'S BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE**

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. The Ford's Black-Draught never fails to benefit diseased liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by The Ford's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than The Ford's Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

Mullins, S. C., March 10, 1901.  
 I have used The Ford's Black-Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other complaints. Rev. A. G. LEWIS.
