A Common Paper for Common People

SOME FIVE HUNDRED REGISTER AT PIONEER PICNIC FRIDAY

BILL ROWELL OF HALL COUNTY REGISTERED AS OLDEST RECORD

Observing the 10th anniversary of the Donley County Old Settlers' Association, more than 1,000 persons gathered at Tate Grove, near Hedley, Friday for the yearly old-fashioned picnic.

Meeting unpretentiously in the grove-covered secluded spot, four miles from the nearest town, founders of the Panhandle came from many points over the United States to renew their once dependent friendship and to recount by-gone days.

At the business meeting, Tom Tate was retained as president, Homer Mulkey, pioneer Clarendon photographer and theatre man, was named vice-president, and Mrs. Joe Crawford was held over as secretary-treasurer for the tenth consecutive year.

Although hundreds attending the picnic were of the younger generation, approximately 500 old timers signed the register during the day. Oldest from the standpoint of residence was E. H. Dodson of Dodsosville, 57 years; Buster Culwell, 55 years and Mitch Bell and J. C. Estlack, 57 years, Bill Rowell, 66 years.

Mrs. W. I. Rains of Hedley, the founder of the organization, and the last charter members, Mr. and Mrs. Milt Mosley, Mrs. E. W. Bromley, Mr. and Mrs. S. G. Adamson, Oscar Caldwell, Mrs. E. H. Watt, Mrs. Ruby Glass and Mrs. Clyde Bridges, all of Hedley and J. C. Estlack, were honored by the association.

Addresses by congressional candidates, Gene Worley of Shamrock and Deskins Wells of Wellington, highlighted the day's program which included music by the Clarendon High School band, the McLean string band, singing, quartet numbers and an old fiddler's contest.

Winners in the fiddling competition were Alva Wood of Wellington, first; Pete Chandler, Wellington, second and Tom Stotts, Giles, third.

Cash prizes for quartet singing went to the Moss singers of Hedley first, the McKnight girls second, and the Sunnyview quartet third.

E. H. Watt, native of Prince Edward Island, Canada, and who came to the United States in 1875 and the Panhandle in 1890, gave the welcoming address. Response was made by J. Claude Wells, copublisher of the Memphis Democrat.

Mrs. Clyde Bridges recounted the history of the picnic and the song, "Beautiful Texas" was dedicated to Mrs. W. I. Rains.

STOCKINGS SPENDING TWO WEEKS IN MOUNTAINS

Mr. and Mrs. Jerome D. Stocking are touring the mountains and collecting specimens for his excellent museum collection. A recent card locates them at Red River, N. M. on the Lewis ranch. On a similar trip last summer, Mr. Stocking secured a number of curios and relics of civil war days.

GONE TO CALIFORNIA

Mrs. A. L. Chase and son Arthur left today to spend some three weeks with relatives in California. They will go by way of Wicket where her daughter, Mrs. Keith Stegall and family will join them on the trip.

Grant Family Holds Reunion

ALL CHILDREN AT HOME SATURDAY, THE FIRST TIME IN 5 YEARS

All of the children of Mr. and Mrs. G. R. Grant were here Saturday for the golden wedding anniversary. They were married at Forestburg, Montague county, on August 17, 1890, and have lived in Donley county since 1916.

The children of this esteemed couple present were V. W. Grant, Kansas City, Kansas; W. A. Grant, his wife and daughter, Majorie of Longview, Texas; Mr. and Mrs. Clyde Hudson of Logan, N. Mex.; Mr. and Mrs. Warren Bray and children, Wendell and Billie of Ft. Worth.

Your Vote Counts Saturday

You paid \$1.75 for the privilege to vote. Use that privilege next Saturday. Your state needs better men in office. You have long heard that the state senate did nothing. You have a chance now to select a senator from your district who will do something. How you vote is your private business, but vote. Get your neighbors to vote. The disgusting state of political machinery at Austin has been getting worse every year. Won't you help your state to help you next Saturday?

RANGELAND CONFAB SET IN AMARILLO

Representatives from five states will attend a two-day conference on grassland agriculture in Amarillo September 5 and 6.

The conference, which is sponsored by the Southern Great Plains Agricultural Council, will bring together farm leaders, ranchers, and representatives of the land-grant colleges, the experiment stations, and various agencies of the United States Department of Agriculture.

Long years ago, W. Y. Howze was a Moore county ranchman. For the past several years he has resided in California after trying Albuquerque and El Paso for some years. DESKINS WELLS

EUGENE WORLEY

WELLS AND WORLEY'S RACE TO SUCCEED MARVIN JONES

Voters of the 18th Congressional District will go to the polls next Saturday to select a successor to Marvin Jones, who will retire and accept a federal appointment of President Roosevelt. Ten men were eliminated in the first primary, leaving Worley and Wells in the race. Below are given facts in the brief biographical background of each of the contenders for the benefit of the voters.

DESKINS WELLS

Deskins Wells is a native of Collingsworth county where he was born 38 years ago, his parents being Mr. and Mrs. Henry Wells, a pioneering banking family of Wellington until the death of Mr. Henry Wells in 1918. Deskins Wells is married and has a daughter. His wife is a niece of Senator Clint C. Small, who has had supervision of the Wells Amarillo headquarters during the two primary campaigns.

Wells has been a country editor most of his life. He started work in a newspaper office before he finished high school and after attending West Texas State College at Canyon and the University of Texas he became a full-time newspaperman. While in the University Wells was one of the editors of the Daily Texan, newspaper published by the students. He has owned and published the Wellington Leader since 1924. The Leader has won many state and national prizes for excellence.

In 1932 the Leader won a coveted prize. The Texas Press Association judged it as having published the best special edition among weekly newspapers in Texas. In 1933, Wells' personal column was judged by the National Editorial Association to be the best published in any weekly in the nation or in Canada.

The Leader publisher took an active part in the newspaper fraternity. He has been active in the Texas Press Association for years and served one term as president of the organization.

In 1933 the people of his home town elected Wells mayor of Wellington. He served two terms and refused to be a candidate for a third term.

Wells worked on a farm as a youngster and has kept his agricultural contacts through the years. He is an officer of the Collingsworth County Agricultural Association and an honorary member of the Future Farmers of America at Wellington.

For years Wells had mentioned as a possible candidate for Congress in case of the retirement of Marvin Jones. He announced soon after Jones indicated his retirement. In his campaign Wells has emphasized his business experience and his work with the farmers and ranchers. During the first primary his friends in Collingsworth County ran many big auto caravans in the interest of his candidacy. Wells received a big majority of the votes in his home county and led the ticket. He has staged an active campaign in the run-off primary.

He said the activity reminded him of work on a basketball team. Wells was on the varsity team at West Texas State in 1921.

A persimmon limb eight inches in length bore thirteen persimmons among the fruit specimens brought to the Leader office Tuesday by F. E. Caraway. The persimmons are not ripe by any means, but show a healthy growth.

Two varieties of ripe grapes and specimens of everbearing strawberries were included in the showing, each of excellent flavor, grown in his back yard.

Mr. Caraway is perfecting an underground system of irrigation that he expects to announce to the public when final tests are completed.

TEMPLE OF TRUTH
By The Apostle
CAN AND DID TAKE IT.

Panhandlers "did" take the hot, dry weather. They staid right in there and pitched right on through. At the worst portion of the drouth, a number were planting like heck. Now that rains have covered the Panhandle, smiles take the place of a look of grim determination and we go merrily on. As Pink Rodgers used to say, "she always rains about the time the last dog is hung." That dog was strung up just 15 minutes

before the rain came, too.
SAM JONES SAID IT.

It's peculiar how the little things that come into our childhood days stay with us. More than forty years ago I sat on a front bench at a big arbor and heard the Rev. Sam Jones through a series of sermons. One thing that stands out clearest in my mind to this day was spoken by Sam Jones at that time when he said: "Sin is the siren singing to deceive, smiling to lure and kissing to kill." Sam Jones was a great man and a great preacher. He was far ahead of Billy Sunday.

UNCROWNED QUEEN.
Many are they among our good

women who are little known. Down at Henderson, Texas lives Mrs. Lily Pearl Chamberlain who writes beautiful, touching poems that carry a beautiful theme. I think the one below is the most truthful and beautiful poem that she ever wrote.

Little Boy Blue's Mother
My Little Boy Blue, it was long ago,
Though it seems but yesterday,
That you closed your eyes in dreamless sleep,
And I put your toys away.

My other children all have left,
And builded them homes of their own,
While in the house where they used to play
I have lived for years alone.

No, not alone, for I feel you there,
With your smile of winsome joy;
The others have grown and gone,
But you are the same little laughing boy.

How strange it is that I've come to know
(So bitterly then I wept)
That the child I lost, and mourned as dead
Is the only one I've kept.

POEM WANTED.
While we are on the subject, I will give a year's subscription to the Leader to any one who will bring or send me the poem entitled, "Little New Angel." It appeared in Good Housekeeping about seven years ago. Only those of us who have passed through the valley of the shadow of death with a loved one, and returned

with empty arms, can appreciate these poems that bring solace and sympathy. There will live with us through the years a sweet memory of the vanished face and of a voice that is stilled, and how lovely are the thoughts that we get from poems of the heart throbbing type that help to bear that burden whom no one fully understands except He who tenderly cares for that rosebud garden in Eternity.

CRIES OF MULTITUDE.

All along you have heard about the poor material we send to our lawmaking centers, Austin and Washington. Next Saturday, August 24th, this district is to select a member of the state senate, and a congressman. Both are extremely important. The old Apostle never has told any one how to vote yet. He never will. You know how important the matter is of selecting two men out of the four now in the races for the two offices. Directly and indirectly, every inhabitant of this district has a lot at stake. Be sure to vote next Saturday. You have been talking about getting the state out of the hands of the old line do nothing politicians a long time. Now get to the polls and help do just that Saturday.

MINISTERIAL SERVICE.

The union church services here have done more to weld a common brotherhood than anything ever before attempted. It is a source of satisfaction to the laymen to see the ministers of the various churches work together for a common cause, and to the

great benefit of the great number who attend these services.

BY THEIR WORKS—

Just recently, the Episcopal minister and his wife called on the Baptist minister and his wife. Then the four of them attended a Methodist revival being conducted in the rural district by the local Methodist minister. Can any other community match that one? That's evidence of christianity and common sense.

That's all for this week except to invite you to hear Claude C. Smith preach at the union services next Sunday night. He is pastor of the local Church of Christ and a very fine young man. Come out to hear him. He will give you plenty to think about after you leave.

THE UNITED STATES ARMY BUILDS MEN

Nowhere in the world can a man get better physical training than in the Army. Medical men lay great stress on the benefits of Army physical training. Some of them go so far as to say that on account of the physical training received one enlistment in the Army may add from three to five years to the life of the average young man. This unqualified and unsolicited indorsement of the Medical Profession lends strong support to the idea behind the Army's slogan, "The United States Army Builds Men." This consideration alone, even if there were not numerous other advantages, should make a strong appeal to any young man of enlistment age.

The Army trains men mentally, morally, and physically, so that they will be better soldiers, and better and stronger citizens when returned to civil life.

Medical and dental care, including hospital treatment under competent physicians and nurses, are furnished all Soldiers whenever necessary. This service is, of course, provided without cost to the soldier.

The following vacancies exist at the Pampa, Recruiting Station, Cavalry, Medical Department, Quartermaster, Field Artillery, and Veterinary Department. For information regarding any of the above mentioned, see Corporal Harvey M. Gist, in the basement of the Postoffice Building at Pampa, Texas.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

"The Rains Came"—you have perhaps seen the picture. Well, the added color and growth to shrubs, trees, plants, and grass since the rain readily demonstrate that the handiwork of the Creator far surpasses any efforts of man in obtaining results.

The Garden Glancer opened back yard gates, and was fully repaid for the intrusion. The Homer Mulkey back yard has the most luxuriant and perfectly trained rose bushes and shrubs I have ever seen. Each is perfectly pruned and placed where it will grow in an effective manner. Mrs. Bill Greene's back yard features vari-colored annuals and vines. The Misses Harned have an interesting yard that denotes love and care of each growing plant.

Among the small front lawns one of the most noticeable is that of the Gilmer Ayers home with those gorgeous red cannas, red trumpet vine and various dark green shrubs set in rich velvety turf. There are so many small lawns that attract the glancers that it is difficult to specify any special one, but the Jays, Hayes, and Flem Caraways each deserve mention. Among the business districts the Clarendon Motor Company is in gala attire with colorful annuals. Both work and water are necessary for these results where the sun shines against the pavement as in this place.

"He who enters the Garden's gate is never afraid or desolate. On little paths that wind and wind He shall unwearied pleasures find. He shall learn beauty's last secret. And he shall forget, he shall forget."

—Louise Driscoll

GRADY HAZLEWOOD SAYS:
PENSIONS: "Four long years is too long for a 'do-nothing' legislature to operate. I will help the governor, and we will pay the pensions during my term or I WILL RESIGN."
FARM PROGRAM: "I am operating a farm now, and WE farmers too well know our problems."
LEGISLATIVE POLICY: "I see no substitute for the Golden Rule in all legislative matters. You can't expect more of me than that."
RECORD: "I have a 'do-something' record and not a 'do-nothing' one."
I'll not be 'HAMSTRUNG' by political obligations, if elected."

GENE WORLEY

Let's promote this clean-cut young Wheeler county resident who has faithfully represented the common people in the State Legislature for the past 6 years. Not a one of his 11 opponents in the first primary raised a voice against his record. Ask any of the 10 eliminated congressional candidates who they are going to vote for on August 24th. Who could better judge a man than an opponent in a political race?

WHAT HOPS DO FOR BEER AND ALE

Hops are for flavor. They give to good beer and ale their lively, appetizing flavor, their pleasant, aromatic tang.

Brewers select and blend their hops with extreme care. In fact, every step in making beer and ale is conducted with masterly skill—to give you better-tasting, more wholesome beverages.

Now the brewing industry wants to do one thing more. It wants to protect your right to drink good beer

and ale—by keeping the places where beer and ale are sold wholesome, too.

We want undesirable, anti-social establishments "cleaned-up or closed-up." A plan of action has already been put into effect in a number of states. This plan is being extended. We'd like you to know about it. Send for interesting free booklet.

Darryl Zanuck's Technicolor Film, 'Maryland,' Has Outstanding Cast

PRODUCTION USES TALENTS OF SEVERAL WHO WON ACADEMY HONORS

One of the finest combinations of talent ever assembled for one picture makes Darryl F. Zanuck's Technicolor production of "Maryland" an entertainment event to which all movie-goers are looking forward. The 20th Century-Fox picture comes to the Pastime The-

atre on Wednesday and Thursday. To Henry King, director of some of the screen's greatest hits, went the important task of megaphoning "Maryland." Under his watchful eye went the talents of three leading members of the cast who have won "Oscars." In addition, five members of the production staff were honored and so it is not surprising that advance reports have hailed the pic-

ture as being even greater than "Kentucky."

Brennan Heads Cast
Walter Brennan, that fire-eating, horse-lovin' old codger, who was "Kentucky's" Academy Award-winning star, heads the impressive cast of "Maryland." Always a fine interpreter of character parts, he scores even more solidly in his newest role.

Fay Bainter, who won an "Oscar" for her brilliant work in "Jezebel," has a role which should bring her new honors. Brenda Joyce and John Payne, two of the screen's newest shining lights, share the romantic honors.

Charlie Ruggles and Marjorie Weaver are two other bright personalities in the cast. Hattie McDaniel, who won an Academy Award as the lovable "Mammy" of "Gone With The Wind," has a similar role in "Maryland."

Nine-Day Sale Of Tires Aid To Safe Roads

Local Goodyear Dealer Says Plan Should Help Reduce Accidents

Announced this week nationally by Goodyear dealers in every city and town is an unusual tire merchandising event, centering around the product of a large manufacturer, in the opinion of Mr. McElvany, local dealer, who says that for nine days, starting August 22, Goodyear G-3 All Weather Tread tires are being offered at new, low prices in an out-of-the-ordinary type plan.

"Few people need an introduction to the tire, which for years has been used by thousands, appeared as original equipment on many cars and has wide acceptance among car owners, who for years have been familiar with its tractive qualities and long wearing abilities," Mr. McElvany said. "That's why this opportunity is all the more interesting to motorists."

Asked about the price on a 6.00-16, the size tire which 70 per cent of the cars in service now use, Mr. McElvany said this would be \$9.99 for the nine days of the sale, adding that it would be the only time this year the tire would be sold at that figure.

Pressed for a reason as to why the tires were being offered at the price, Mr. McElvany said:

"All of the G-3 All-Weather tires are affected during the sale, with prices varying from \$9.99, but at considerable saving. Reason for this sale is to contribute to the safety of highways, to give motorists a break in buying tires with treads that will really stop a car."

"Wet weather is just ahead, you know, and slippery roads demand tires that will stop, for safety's sake. Skids are the first cause of a majority of accidents."

"We are interested in putting good tires on cars now, when they can be seasoned well, so in cool weather they will provide up to 20 per cent more mileage than if they had been applied during the extremely hot weather."

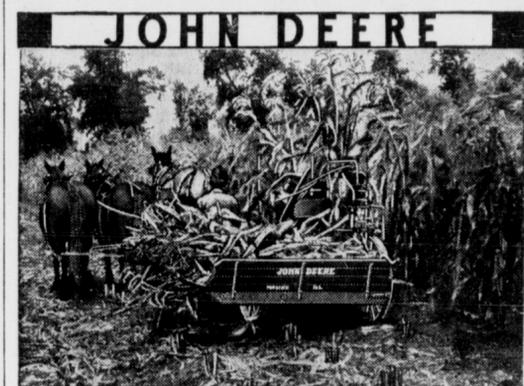

"We are ready and willing to make inspections of anyone's tires to be sure they are highway safe. And there is no obligation involved. America's motoring death toll can be cut drastically by adoption of safety measures and good tire

equipment is a logical place at which to start."

Dr. Geo. S. Slover was here Sunday.

"Tarzan" Warren visited Miss Peggy Webb in Lelia Lake Saturday night.

W. C. Payne, Hedley school superintendent, was here on school business Monday.

Why MAX BOYER Should Be Elected State Senator

BECAUSE—Max Boyer has served for the past four years as a member of the Texas House of Representatives and has gained much experience which qualifies him for promotion to the State Senate.

BECAUSE—Max Boyer received 79% of all votes in the ten counties which he served.

BECAUSE—Max Boyer has co-operated with two governors of this state and has voted at all times for measures to pay old age pensions, aid for the blind, the dependent children, and for teachers retirement.

BECAUSE—Max Boyer received a letter from the Governor commending him and thanking him for his co-operation and help in assisting the old people and others included in the Social Security program, which letter was written on May 30, 1939.

BECAUSE—Max Boyer, when he saw that no program would be passed by the Legislature, after the Senate had killed all measures passed by the House, and he had voted for S J R 12, he then voted

to adjourn the legislature which was costing the taxpayers of this State over \$5,000.00 per day.

BECAUSE—Max Boyer has always fought for the rights of the average citizens.

Max Boyer In Last Appeal To Donley Voters

Amarillo Political Machine Comes In For Condemnation

Max Boyer, the leading candidate for State Senator, who received 42% of the total votes cast in the first Primary, enters the final days of the run-off campaign with the assurance of his friends from the rural section that he will have the opportunity to serve the average citizens for four years, when the final count is made August 24th.

In accounting to the public for the service he has rendered the average citizen during the past four years, Max Boyer stated, "I believe the statement made by Governor O'Daniel in the daily newspapers following his election July 28, is the best recommendation I can give the people at this time."

Governor O'Daniel said, "The record of the 46th Legislature reflects the fact that you had 94 House members who did everything they could to aid in solving the Social Security problem. I urge that you take the record and from the record decide which candidates will most likely make the most efficient public servant."

"It is a well established fact that I have co-operated with both Governors in trying to solve the social security problem of this state. The general public has agreed with Governor O'Daniel in recognizing the fact that this vital social security problem could not be solved until the state officials who co-operated were re-elected and those who blocked this legislation were replaced by efficient officers who would co-operate with Governor O'Daniel. This fact was recognized by many of the legislators during the last term of the 45th Legislature. These legislators voted to adjourn the state legislature in order to save taxpayers more than five thousand dollars (\$5,000.00) per day when it became well established that there was no hopes of solving this social security problem so long as the minority group was determined to block this worth-while legislation.

"I believe a third recommendation to the average voters has been earned by your leading candidate for State Senator, because he has received the persecution of the Amarillo Political Machine, that has dominated the Panhandle for the last 12 years. It is amusing to note the extent to which this efficient political machine will go in order to cloud the vital issues in this run-off race.

Men Wanted In Army Air Corps

LUBBOCK, Aug. 16.—The United States Army is training many young men at government expense to hold high salary positions in Army and Commercial aviation and paying them \$75.00 a month while they learn.

United States citizens between 20 and 27 years of age who have at least two years college work are eligible to receive this training as Flying Cadets. Those who do not have credit for two years work may pass an examination covering the work and become eligible.

The response to the call for Flying Cadets has been gratifying to government officials but they are anxious to receive applications from more young men who are interested in aviation. Flying Cadets are trained for three months in leading civilian flying school from where they go to Randolph Field for three months work. They take their final three months instruction at Kelly Field.

On completion of the nine-months course, they are given Reserve commissions in the United States Army Air Corps. While appropriations are available, they will be given active duty as Second Lieutenants in the Regular Army Air Corps.

While on active duty with the Air Corps they will be given further instruction in specialized branches of Army flying so that by the time they go back to civilian life they will be qualified either for positions as commercial airline pilots or for administrative or executive positions in the industry.

Full information and preliminary physical examinations will be given eligible young men at any Army Recruiting Station.

Many choice vacancies still are available in the Regular Army for young men between 18 and 35 years of age without dependents. They should apply at the nearest Army Recruiting Station.
