### Amazing Curtailment of Meat Exports.

Packtown firms are chafing under the meat inspection law, and whether true or untrue, are sending out press reports of how export trade is being ruined. They say the result of the agitation which brought about the law is shown in a bulletin just issued by the department of commerce and labor giving the figures of exportation for July. It shows an abnormal falling off, which cost the beef trust and cattle growers several million loss in thirty-one days.

In July of last year there were exported 5,232,764 pounds canned and tinned meats at a total value of \$542,187. For the month just ended the total number of pounds sent abroad was only 1,039,852, and the value \$104,710. For the seven months ending in July there were exported in 1905 over 43,500,000 pounds, at a value of over \$4,000,000, as against nearly 29,000,000 pounds in the same period of this year, at a value of much less than \$3,000,000.

There was also a falling off in the export of cattle during July. A year ago the number sent abroad exceeded 49,000, at a valuation of almost \$3,000,000. This year there was a decrease of over 15,000 head and a shrinkage in value of almost \$400,000.

In fresh beef there were exported in July, 1905, 21,074,326 pounds at a value of \$1,963,012, as against the present year of 16,467,150, valued at \$1,546,191.

The exports in salted and pickled beef, tallow, hog products, oleomargarine and dairy products also showed a marked decrease.

### A Two-Party Predicament.

Secretary of State Shannon is in a predicament. He does not know which is the official republican party of Texas, the Lyon or the Green faction. The Terrell law provides he shall certify to county clerks the names of candidates for state officers for official ballot. Mandamus proceedings may have to be resorted to in the matter to determine the question.

### South American Earthquake.

Valparaiso, Chile, and surrounding towns suffered heavily last week from earth quakes and fire. Sixty per cent of Valparaiso has been completely destroyed. The death toll is very heavy. There were eighty two shocks Thursday night and there have been 300 more since then. One hundred thousand people are homeless and destitute. Water is giving out. Surrounding towns have been destroyed and the railroad has been cut.

Mr. Walter Wellman, the chief of the Chicago Record-Herald Arctic expedition, has abandoned the enterprise, which shows that he is inclined to consider longevity, believing that he has satisfied all the demands of publicity.—Kansas City Star.

Dowie and the other zion leaders are said to have come to terms of peace and that Dowie is to drop his suits and support Voliva.

United States Senator Culberson has appointed Robert P. McClellan, son of Hon. John J. McClellan, of Corsicana, to be a midshipman at the United States Naval academy. The examination for admission is to take place in June, 1907.

Last Friday Charles Marshall, aged 40 was instantly killed by lightning at Blue, I. T., while sitting at the table eating breakfast. His daughter was badly shocked and may die.

A 12-year-old negro boy at New Iberia, La., has the yellow fever and a quarantine has been established.

In making dates don't forget that Huston Franklin show, Monday night Aug. 24th.

### Hearst Independent in Politics.

William R. Hearst addressed a large audience on "independence in politics" at the Salem Chautauqua near Petersburg Ill., Friday. He said in part:

"I maintain that blind party allegiance is responsible for most of the political rules under which we suffer today. I maintain that these evils will never be remedied until the people vote carefully and discriminately for good men and good measures, irrespective of prejudice or political bias of any kind."

Speaking of trust domination, he said:

"There are trust Republicans and Lincoln Republicans, trust Democrats and Jefferson Democrats. No longer does the word Democrat define any definite doctrine, or the word Republican express any particular principle. Let the people unite in their own interest. Let the people vote independently and for the public good irrespective of party."

### Campbell's Glorious Greeting.

Colonel and Mrs. T. M. Campbell, their daughters and Judge Means, campaign manager, stopped over at Longview Saturday en route from Dallas. It was here Colonel Campbell began life as a sawmill hand, where he was married and where he lived for many years. After shaking hands with hundreds the nominee and party were driven to the residence of Mrs. Campbell's mother. Twenty young girls sang "The Campbells Are Coming" as he went up the lawn to the porch. His women kinsfolk kissed him, and "Tom's" right hand was grasped by many men. Col. R. B. Levy, the late Governor Hogg's private secretary, now blind, who was Colonel Campbell's first benefactor at Longview, put his arm upon the candidate's shoulder and said: "God bless you, Tom. I knew you would get it." Colonel Campbell made a speech during which he said: "We are returning to the old time religion in Texas."

At Troupe he stood on the Sleeper platform and made a brief speech.

When Palestine was reached it seemed that the entire population, 12,000, was at the depot. Bells were rung and whistles shrieked. Mounting a stand near the depot the nominee expressed his appreciation at the high honor conferred upon him and said he hoped to discharge the duties of governor as they should be.

An exchange asks this pertinent question: "The finest flour in the world is made from wheat grown on the American Desert, and the overproduction of wheat, of which we heard so much in the early 90's, continues. Still wheat is worth twice as much as it was then and not any of it is left in the field to rot because there is too much much. What's the matter of that doctrine of 'overproduction' of which the socialists and republicans used to talk so much."

A branch preparatory school of Tuskegee institute will be established at Taft, I. T., a negro town. A 100-acre tract of land has been given without cost.

### Canyon City Reunion.

The Denver road will give a rate of one fare plus 10 per cent for the round trip to Canyon City on Aug. 26 on account of the occasion of the reunion of Confederates, West Texas Cowboys' Association and Randall County Fine Stock Show to be held Aug. 28-30.

Cotton pickers all over Texas will be in great demand and the price will be high.

Some folks say, a show cannot come back unless it is good. The Huston Franklin show returns for one night Aug. 24th.

### To Cross Cattle With Zebu.

A Cattleman of Texas proposes to import 100 zebu from India for the purpose of crossing them with our cattle. All of our cattle are susceptible to Texas fever. No immune race or breed has been developed. The zebu, or the humped cattle—the sacred cattle of India—are quite immune to this Southern plague, however, and readily cross with our domestic cattle. The crosses are perfectly fertile with either of the parent breeds, and animals carrying one-eight, or even a mere trace of zebu blood, are free from Texas fever. Hybrids of this sort all produce a good quality of beef and milk, as shown by experiments in Algeria. Their size is far below that of our improved beef breeds however, and the quantity of milk is much less than the yield of the modern dairy cows.

The zebu, upon arrival, will have to be held in quarantine long enough to make sure that they are free from rinderpest and other contagious diseases. The result of this experiment will be looked forward to with considerable interest. It may well be that in some localities what is lost in size and milk yield by the introduction of zebu blood will be more than compensated by the immunity of Texas fever.—Ex.

### The Panhandle Baptist Encampment.

This meeting was conceived in the minds of the "young peoples meeting" at Amarillo last year. A committee was appointed to arrange for the first meeting, which has now been in progress the past ten days. As an experiment it has been a success. One hundred and sixty acres of land has been bought lying along Amarillo creek and runing up to Probst Switch. The grounds can be converted into a beautiful park at no great cost.

Permanent organization was entered into so that if it becomes necessary, a charter can be obtained from the state. Here will be a great annual gathering of Baptists from the Panhandle and other parts of the state.

In the organization, Wilson C. Rogers was chosen president; J. N. Marshall of Guymon Ok., and O. W. Dean of Hereford, vice presidents; J. F. McDonald, of Canadian recording secretary; E. P. Aldredge, of Amarillo, corresponding secretary, and W. H. Fuqua, of Amarillo, Treasurer.

Executive committee: W. B. Slaughter, Dalhart, J. L. Fuqua, Amarillo, B. T. Ware, Channing, Robert Woody, and Bennett Hatcher, Amarillo, Mrs. Horace Gooch, and L. T. Lester, Canyon City. Mrs. J. L. Smith Amarillo, Dr. J. M. Ballew, Memphis, and Mrs. R. N. Mounts.

For Trustees: E. C. Oakes, Amarillo, Hon. J. W. Veal, Amarillo, and Arthur Lila Stratford.

Steps will be taken at once looking to the improvement of the grounds and arranging for the next annual meeting.

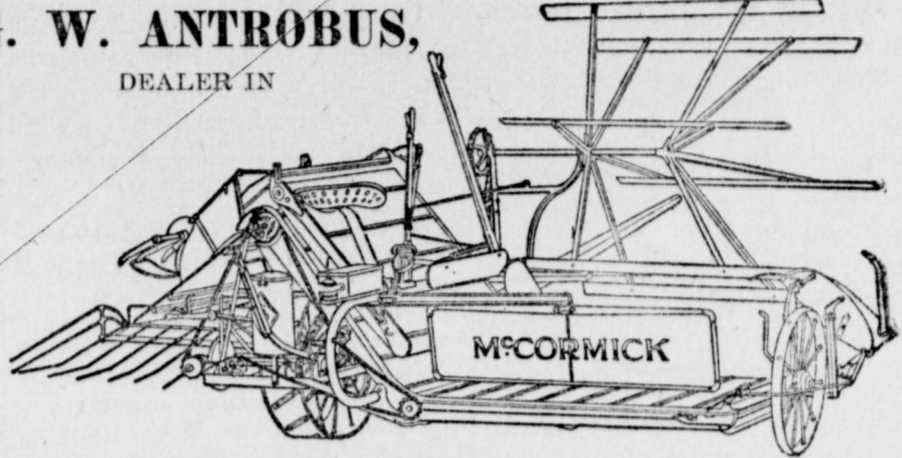

After a crucial test extending over thirty days the Lackawanna has abandoned the heavy train plan. They ran some of their trains, sixty cars to the train, with three engines hauling them, over some of the steeper grades of the road, only one train crew to the train other than the engine crews. After an exhaustive test it was found that it did not pay, and the road went back to the twenty-car trains, with one engine. This is a severe blow at the "double header" for the Lackawanna is one of the progressive roads of the country.

The democratic party of Texas is worse at sea than ever on a satisfactory election plan.

Missouri's apple crop this year is estimated at 9,000,000 barrels, each worth \$1. She ought to keep in apple-dumpling order all winter.

Fort Worth could not ring her Bell loud enough to keep Texas from swallowing a Campbell and the Panhandle would not Deck(er) ballots, but was hungry for Veal, and wants her decisions brought to a Browning.

One of the funny things the Dallas convention did was to unanimously endorse the present state administration and at the same convention snub the chief executive by howling him down when trying to speak in its defense. He was sat upon with a thud that was sickening. We are no apologist for Latham, but he has shown far better judgment and statesmanship than the law-making department under him. If it had not been for Latham's veto in knocking out appropriations that were largely graft, the state would have been three million dollars in the hole instead of one.

A glass factory is the latest for Fort worth, but the product will not be utilized in the building of any of our political houses.—Ft. Worth Telegram.

It is well enough to not put them to such use as long as the dailies there continue the throwing act.

One reason the "divorce evil" seems so bad is that we always hear of it. The great number of married people who are happy and satisfied with each other are not continually breaking into the newspaper to tell us about it.—Dallas News.

All of which is likely true. But it is equally true that there are homes with "skeltons in the closet" that are not dragged out for public gaze.

Where'll He Find It?  
"What the saving depositor needs is a bank that is run as a bank and not as a feed box for a sty full of hoggish speculators.—Chicago News.

The acting attorney general, Charles H. Robb, has rendered an opinion to the effect that Mexican laborers could not be imported into Texas under contract for work on railroads in this state and other public construction work and that the men heretofore so admitted must be returned to Mexico.

It only takes a dollar and costs to have fisticuffs on the streets of Childress, and two occurred in one day last week.

Suicide is increasing at an alarming rate in Greater New York, and from the beginning made the numbers of those who kill themselves in 1906 will be much greater than in 1905. In the seven months just ended there have been in the greater city 433 suicides, an average of sixty two a month. If this average is maintained for the ensuing five months the total of suicides for the year will be 743, an increase of eighty-three over 1905. The proportion of men who commit suicide to woman is three to one.

F. O. Butt, state senator, was convicted at Perryville, Ark., last week on a charge of offering a bribe to another state senator. He was sentenced to two years in the penitentiary and to pay a fine of \$200

To most men there comes times when the charm of living lies in the past.

To be perfectly just is an attribute of our divine nature; to be so to the utmost of our abilities is the glory of man.—Addison.

## A State of Small Farms.

Ohio is a state of small farms. The statistics of the twelfth census show that in 1900 there were 276,719 farms in the state, the average size of which was 88½ acres. Only 164 farms contained 1,000 acres or over, and three-fourths of these were located in the more level counties of the state. The chief source of revenue on these larger farms was live stock.

The Panhandle is more fertile on an average than Ohio, yet the delusion prevails that a man must have from several hundred to several thousand acres on which to make a living. The truth is that a vast population can be sustained in the Panhandle on an average of 40 acres, or less.

One of the delegates to the County and District Clerks' Association, in his address to that organization, said that under the Terrel Election Law the Democratic party would be kept in power till Gabriel blew his horn. There is some indication to the effect that if the people are worried with this statue as it stands for a few more elections, there will be no Democratic organization in control of the offices of this state. The Texas people will not stand for a machine or for implements by which machines are created.—Dallas News.

The Santa Fe management has bought 8,956 acres of land north of San Diego, Cal., for \$100,000, to be used to raise eucalyptus trees for ties for the future use of the road. It is proposed to plant about six hundred acres each year, and as the trees are quick growers, it is figured that in twenty years the road will be able to harvest six to eight ties to a tree and keep up the harvest thereafter continually.

M. F. Lee left yesterday for Elida, N. M., to again take charge of his well machine and to see after his homestead claim.

Lew White left Sunday night for Los Angeles, Cal., where his mother, brothers and sisters live. He has been offered a lucrative position there.

Miss May Varnell, of Belton, spent several days here raising money for dependent girls who work their way through Belton Female college.

The City aldermen held a meeting this week and passed on several matters. Some needed culverts were ordered placed and the cold storage management were given ten days longer in which to abate the nuisance of slaughtering animals in the lot adjoining and also to stop the drainage from running down the street, making a mud-hole a block or two in length. Mayor Carhart also tendered his resignation, but the council has not yet accepted.

By jumping into a cistern after having been seriously burned while starting a fire with coal oil, Mrs. Mollie Lyle of Coolidge, Tex., saved her life.

At Cleburne Thursday night the ten room boarding house of R. Simmons, occupied by Mrs. C. E. Hall, was destroyed by fire. No one was at home when the fire started. Many boarders lost heavily. Mrs. Hall was also a heavy loser, with small insurance.

The Cannon Ball of the Texas & Pacific, was derailed fifteen miles east of Dallas Thursday. Eight persons were injured. J. C. Licareie, of San Antonio; injured about the spine; condition serious. James Strange, Alba, Tex.; injured about neck and head. H. S. Cowell, brakeman badly bruised. On the wrecked train were several insane women who were being taken to the State Asylum.

Robert F. Horne, son of Mr. and Mrs. J. Horne of Canute, Ok., died Thursday at Alanreed. On Saturday night before, going to town from the home of his brother-in-law, Sam Heffner, in company with a friend, both riding horseback in a gallop, he ran into a wire gate. Both rider and horse were thrown violently to the ground, rendering young Horne unconscious, in which state he remained until his death.

J. H. Stanberry, editor and proprietor of the Mansfield Sun, killed himself at Mansfield Thursday. No cause is assigned for the act and deceased left no note or anything that would indicate why he took his life. He has been suffering from nervousness for several days, but his condition was not considered of such a nature as to cause him to resort to self-destruction. He is survived by a wife and two sons. Laten and W. M. Stanberry of the Arlington Journal are brothers of deceased.

Another suicide took place in Chicago Monday attributed to loss of money in the wrecked bank there.
