Mauldin Opens Service Station

SERVES CONOCO PRODUCTS AT ALSEA CAMP EAST EDGE OF TOWN

Though a resident of the Panhandle for some 28 years, L. B. Mauldin and family moved from Wellington to Clarendon recently. He operated a grocery store there for some time and has been engaged in various lines of business similar to that he has here.

The new station is serving the public with a full line of the well known Conoco products of gasoline, oils and greases. In addition to the service station, Mr. and Mrs. Mauldin have a grocery store and a cafe.

They have two children, L. B. Jr., aged 14 and Elizabeth Ann, aged 12, each of whom are in the 8th grade in the Clarendon school.

The Mauldin family is active in church work, they having united by letter Sunday with the First Baptist church. "We certainly have met with a welcome in your town, and like the people very much," Mrs. Mauldin stated.

Being newcomers, they will more than ever appreciate a share of your business, and the opportunity to broaden the acquaintance of our folks where they have chosen to make their home.

This is preliminary to the conducting of a Religious Census of the City on the afternoon of Sunday, October 8th. This Census is in no sense a denominational effort but is sponsored by all religious bodies in order that the spiritual life of the community may be stimulated.

The Ministerial Alliance urges that the workers be met cheerfully and the questions, none of which are personal, be fully and promptly answered. Some fifty workers from all Churches will take part in the Census.

Claude Mustangs To Engage Bronchos Here Friday Nite

The Claude Mustangs, with a creditable start this season, will be at College Field Friday night determined for their number one football win over the Bronchos.

Losing only by a 7 to 6 count to the powerful Panhandle Panthers and taking it easy to smash the Esteline Bear Cubs 46 to 0, the Mustangs are set to club the 1940 Bronchos off their pinnacle of successive wins over the Armstrong county club.

Even during the disastrous year of 1937 when the Ponies were getting smacked by all clubs by counts that looked like old age applications, the Bronchos held the far better Claude team to a 14 to 14 tie.

True the Mustangs paid the locals a later visit in a practice scrimmage and ran over the doublestripes until they were tired, but that one didn't count in the record book.

Featuring the elusive running of George Doshier, a hefty hip shifting four-year man, the Mustangs are the favorite in this setto but they had a better club than the Clarendon school's last year and dropped the game, 13 to 0.

Misfortune fell heavily again on Clarendon this week and the right side of the line was considerably weakened by the loss of Leslie Wardlow, 209 pound tackle, who received a broken arm last Friday night.

Wardlow's loss doesn't necessarily mean the loss of the game, but the Bronchos showed several weak spots in the Lefors tilt that will have to be patched up before victory rests on the Ponies shoulders.

The game is set for 8 o'clock Friday night with admission prices at 25 and 50 cents.

SNOOKS ANDIS IS BESET WITH PLAGUES

Last week it became necessary to remove the appendix from Snooks Andis in a Pampa hospital. Just about the time he recovered from that, carbuncles came to add further misery. A large one on his neck and one under his nose. The one on the neck gave him most trouble. At present he is said to be slowly recovering from miserizing for several days.

Scenes that will be shown include Indian ceremonials in which seven thousand Red Skins participated, Boulder Dam, Zuni Pueblo, the largest Indian pueblo on the Globe, Santa Fe, Grand Canyon, Lake Mead, Mt. Lassen Volcano National Park wherein is located the only volcano in the United States, Lake Tahoe, our only large lake, on the backbone of the Sierras, in California. Oregon's lumber industry, Crater Lake National Park, Yosemite Park, Golden Gate International Exposition and Treasure Island, International Garden Show and hundreds of other interesting sights, all shown in vivid technicolor movies.

Two hours and twenty-five minutes will be required to show the film that required sixty-two days in the making and has been adjudged by critics as amateurly perfect.

Don't forget the time and place. At the College Auditorium next Monday night, at 7:30. This is a film showing that you will never forget. Both educational and interesting throughout.

NEWSPRINT PRICES DUE TO ADVANCE SOON

We wish to call the attention of our readers to the fact that with advancing prices on newsprint on which your Donley County Leader is printed, the price of subscription will have to be advanced in proportion.

We do not know yet when that advance will come. Those who wish to take advantage of the present rate of \$1.50 a year, should renew at once. We are expecting the price of newsprint to double during the next few months, as it always does when the manufacturers have a war excuse for doing so.

There is no doubt but what you can save quite a bit by renewing within the next thirty days.

Beautiful Pageant Monday Pictures Our Cosmopolitan Population

MONSTER CROWD PRESENT FOR McDOWELL CLUB PRESENTATION

An appreciative audience saw and heard the Pageant "The Unfinished Battles of America" portrayed in a most finished manner. The pageant was sponsored by the McDowell Music Club and directed by Mrs. U. J. Boston and Mrs. J. L. McMurtry, members of the Club.

The setting of the native rock steps leading down to the bowl of the natural stage made an impressive and remembered picture as the characters enacted their roles.

First Miss America, portrayed by stately Anna Moores, came down the steps and to her high throne on the stage with her torch held high wearing a graceful white satin Grecian style costume and she was the reader for the action of the Pageant. Her beautiful enunciation and pleasing voice made her microphone technique perfect.

America called to her support Patriotism and Service. Portrayed by two graceful, charming matrons, Mrs. Nathan Cox wearing a flowing blue satin costume por-

Longan Rites Held Wednesday

DONLEY RESIDENT OVER 35 YEARS DIES MONDAY NIGHT AT HIS HOME

Funeral services for P. H. (Pat) Longan were held at the First Baptist church here Wednesday afternoon at 2:30. The service was conducted by the pastor, Rev. J. Perry King, assisted by Claude C. Smith, pastor of the Church of Christ.

Attending the casket were A. J. Garland, Bob Williams, Slayton Mahaffey, W. D. Higgins, John Goldston, Lloyd Moreland. Mrs. Fred Buntin had charge of the flowers.

Mr. Longan came to Donley county from Loveland, Colorado about thirty-five years ago. He was almost 67 years of age at his death which followed a long illness. He is survived by his widow and six children. The sons are Charles, Harley, Harold and J. C. Longan, all of Clarendon. The daughters are Mrs. Bill Gaither of Breckenridge, Texas and Miss Rachel Longan of Clarendon.

Few men had more friends or was held in higher esteem than Mr. Longan. He was of a very strong sympathetic disposition, ever ready to lend a helping hand to those in need. He was a kind husband and devoted father and one whose influence in his community was greatly appreciated by his neighbors. His chief religious characteristic was exemplified in doing something for others, even to the extent of denying himself. His good deeds will ever be a monument to his memory.

Funeral arrangements were in charge of the Buntin mortuary.

Oil Strike May Bring Riches To Local Couple

PATCHING MAY FIND END OF RAINBOW AFTER HIS WAIT OF 52 YEARS

It would appear almost impossible to shake the faith of a man after waiting 52 years for "something to show up." Such is the case with our fellow townsman, Fred G. Patching.

When Mr. and Mrs. Patching left the Leona community west of Bowie down in Montague county in 1898, they were not sure, perhaps, that they would like the west, and might want to return to Montague. Consequently they kept 320 acres seven and a half miles northwest of Bowie, and still own it after 52 years.

A few days ago, a fine oil well was tapped at 6,010 feet just a mile northeast of the old Patching home. The land had already been leased to Hulst and Owens and a fancy figure as leases go in that section.

Mr. and Mrs. Patching celebrated their 50th wedding anniversary here January 14th. Except for the 12 years spent on their ranch property near Tulia, the family has resided in Clarendon the 42 years since leaving Montague.

Will they see the rainbow's end and the pot of gold after 52 years? Very likely. Perseverance and good luck appear to be combining to that end.

Spencer Tracy and Claudette Colbert as they appear on the Pastime screen in "Boom Town," spectacular oil drama. Clark Gable and Hedy Lamarr and other members of the all-star cast.

Presenting one of the greatest all-star casts in the history of motion pictures, and utilizing this billion-dollar talent in a story that

is built for fast action and thrills, "Boom Town" opens next Wednesday at the Pastime Theatre for an engagement of three days as one of the most thrilling and spectacular productions to come out of Hollywood in some time.

With Clark Gable, Spencer Tracy, Claudette Colbert and Hedy Lamarr in stellar roles, "Boom Town" surpasses in star names even that former "greatest of thrill pictures," the air epic "Test Pilot" which had Gable, Tracy, Myrna Loy and Lionel Barrymore at the head of the cast.

The supporting cast of the picture is as distinguished as its stars, including such well-known names as Frank Morgan, Lionel Atwill, Chill Wills, Marion Martin, and Minna Gombell, with lesser roles played by Joe Yule, Horace Murphy, Roy Gordon, Richard Lane, Casey Johnson, Baby Quintanilla of "Forty Little Mothers" fame, George Lessey, Sara Haden, Frank Orth, Frank McGlynn, Sr., and Curt Bois.

Thrill-Packed Action
 These players join hands in presenting a thrill-packed human-interest story which shows Gable and Tracy in a total of five fights, one of which is a terrific battle between themselves, the frantic fight to blast out a roaring oil well fire, gushers tearing upward with mighty roars, a spouting water geyser, Gable on a bucking mule, a dive into a sea of mud by Gable and Tracy to escape the bullets of two gun fighters, a fight between two dance hall girls, a dramatic hold-up of a load of oil equipment, in addition to comedy by Morgan, Wills and Miss Gombell and even the songs of the men who spud in for oil.

Through a heart-tugging story of two men who are friends through all the heartaches and victories of oilmen runs a cavalcade of the oil business, with a brief history of its intense thrills. In the picture, Gable and Tracy form a partnership which exists even after Gable marries Miss Colbert, Tracy's sweetheart. It breaks dramatically and is reunited just as dynamically when Tracy evolved a startling plan to break up Gable's affair with lovely Hedy Lamarr and send him back to Miss Colbert.

The picture, which was three months in the making and took filming units to more than thirty location sites, was directed by Jack Conway, maker of such thrill pictures as "Too Hot to Handle," "Libeled Lady" and "Viva Villa!"

Announcing the big NEW FORD 1941 FORD

In some years, some cars take a big jump ahead. *The Ford does that for 1941.*

It has jumped ahead in size. It's the biggest Ford we've ever built, inside and out. It's wider. It has a longer wheelbase. Its seating room is wider by as much as 7 inches. It has new wide doors and semi-concealed running boards.

You'll notice also a new beauty, achieved by a skilful blending of mass with longer flowing lines. Larger windshield and windows give better vision all around.

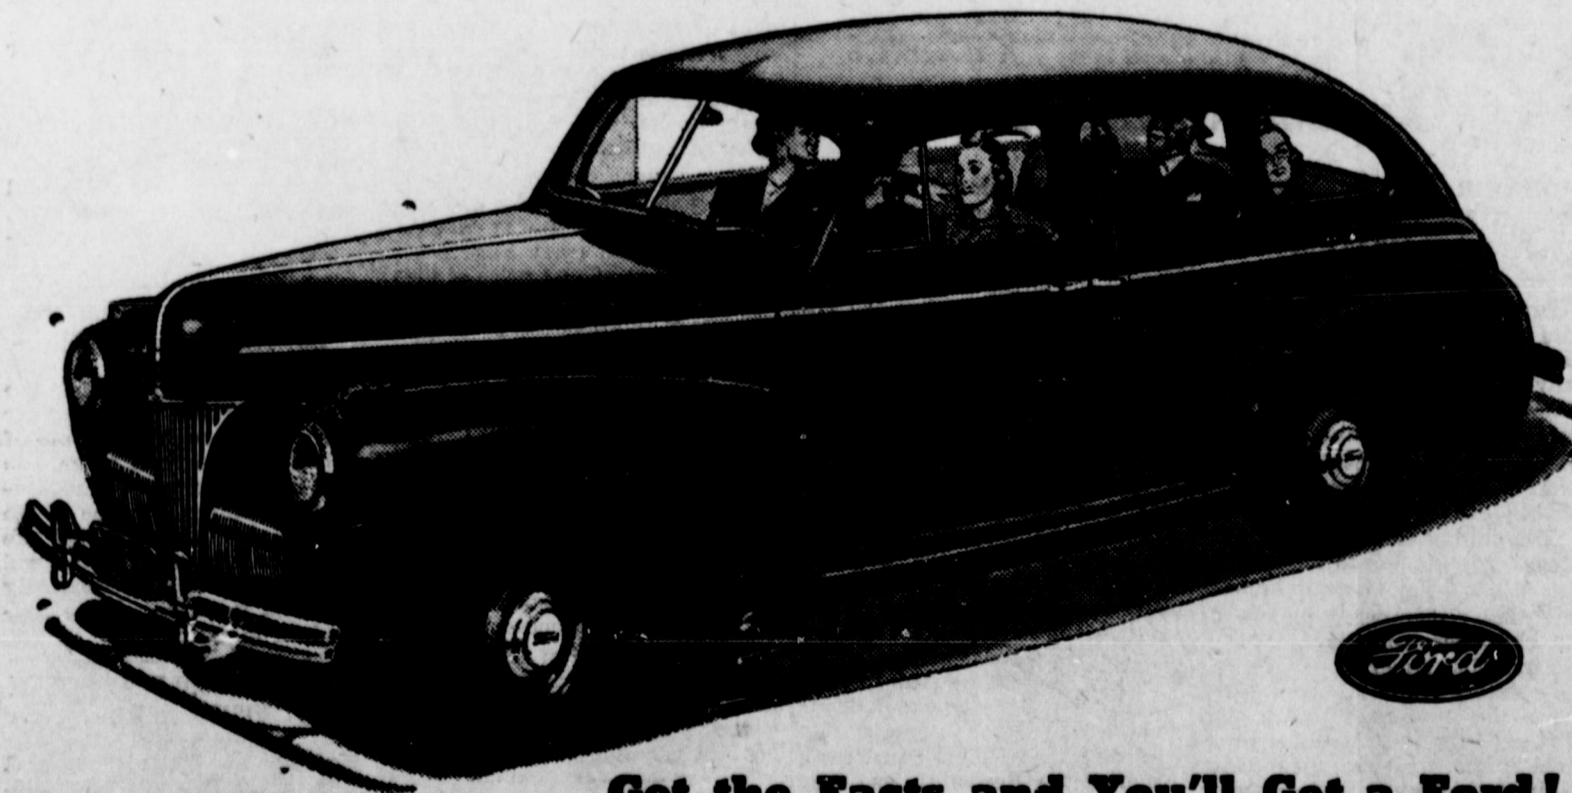

One of its biggest advantages is the new soft ride.

New, slower-action springs give a slow, gentle, gliding movement. A newly designed stabilizer helps absorb road shocks, and maintains balance on sharp curves and in cross winds.

More rapid acceleration to match its familiar speed and power makes this new Ford an even livelier car to drive.

These are only a few of this new car's outstanding features. It represents all the rich experience gained in building more than 28 million motor cars.

Any Ford dealer can give you many good reasons for making this your 1941 car.

LOCAL STUFF.
It is being told around here that a cute girl magician at the Fair last week made a monkey out of an old goat. (P.S. And he dared me to tell it on him.)

ALSO AT THE FAIR.
When a young lady asked Indian Tahan at the Old Settlers meeting where she could get some beads like his, the old man smiled and said: "I got mine from a Chicago mail order house!"

BRAVE EXAMPLE!
"I'll show 'em I've got guts," said the grasshopper as he dived into the windshield.

WARNING.
Some men imagine they are a whole political machine simply because they have wheels in the head.

SA PHYSICS AGAIN.
The efforts on the part of the English to win the average German away from his government by dropping "bulletins and bombs," recalls incidents that created a stir at the close of the

Phillipine war in 1898. The first American boats going over were prepared with cargoes and missionaries to 'civilize' the poor, ignorant Phillipies, as they were called. The boats were loaded with "Booze and Bibles," believe it or not. One crowd sought to christianize the 'heathen' and the other to commercialize him. The alleged heathen just couldn't savor why such a mixed cargo. It got around to where the better element in America raised such a protest that the quantity of booze was cut down approximately half.

TOO EARLY, PARSON.
Out in Holbrook, Arizona, Rev. B. V. Farris, minister of the community church, announced that he would preach on, "Are We Going Crazy," if the Parson will rig up beside any highway and set the hour at 11:30 instead of 7:30, he can prove his subject instead of merely discussing it.

FEMINE REJECTIONS.
Milady who dotes upon adorning herself with latest fashion whims, is up in revolt in numbers against the fall dress designs of "one-sided drapes" attached to the skirts with "wropped" waistlines and "bandaged" hiplines. Of course a lady may wear any color that is most becoming to her, but to ask a modern-day woman to drag around an attachment re-

sembling the riding skirt of side saddle days, is simply asking too much of her. Another bunch of fashion pirates have brought out a 'patriotic' appeal. Milady must surrender herself to such colors as patriot red, Khaki green, soldier blue, and yankee doodle. Costume jewelry is being paraded by another bunch of high-jackers. They display flag pins, liberty bells, British emblems, "God Bless America" bracelets, vanities in red, white and blue, patriotic kerchiefs and belts. The bathing suits for the coming season are already designed, our scientific snooper of woman's fashion for this department announces. The bathing suit for 1941 will be abbreviated to the extent that it will only cover that portion of the anatomy preventing a tan where she ought to be tanned.

ENERGETIC EDITORS.
Contrary to general opinion, "some" editors are not only brilliant, but energetic. John McCarty on the Amarillo News is yelping for people to bring in brick to build addition museum room at Canyon. Up at Dalhart, Editor Ed Bishop of the Texan is yelping for patriotic citizens to bring containers of water to fill their "second biggest Panhandle dam" lakeless emporium on Sierra Blanco. As Ed tells it, "it is a dam by a lake site, but not a lake by a dam site!"

HOODOOED.
An editor of a Pennsylvania exchange writes this column to inquire: "You fellows are raising a lot less beef or we are raising a lot more profiteers." He complains

that good steak costs them 35-cents a pound. Good gosh! Suppose he lived where the beef is produced!

Adios Amigo, Au Revoir—or what have you?

THE STATE OF TEXAS

D. 1940, in a suit, numbered on the docket of said Court as No. 2095, wherein Annie Reeves Gardener is Plaintiff, and Edward B. Gardener is Defendant, said petition alleging the nature of plaintiff's suit is for a divorce upon the ground of cruelty, to-wit: that plaintiff was seriously ill as a result of defendant's cruelty; that defendant was an habitual drunkard; that defendant told her he did not wish to live with her longer and for her to leave and he would give her their equity in a Ford tudor, and fur-

ther alleging that there is no issue of such marriage and that their marriage was lawful and still undissolved and that there was no community property and praying that her maiden name, Annie Reeves, be restored to her as well as for an absolute divorce, and title to said automobile.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.
GIVEN UNDER MY HAND and the Seal of said Court, at office in Clarendon, Texas, this 3rd day of September A. D. 1940.

THE NEW LEGISLATORS

Texas' next legislature will have about 90 new house members, 10 new state senators, according to a compilation of primary returns. In a year that saw other incumbent officials re-elected nearly everywhere, the voters have shown a desire for change in legislative offices. With about 60 per cent of new members in the house, there is impressive evidence of the public's dissatisfaction with the legislature. It does not follow, of course, that the turnover in membership will improve conditions. It takes most of one session for a new member to get his bearings and to develop into usefulness.

We would like to believe that the large number of new legislators means a freshness of viewpoint, a spirit of antagonism to the many ills that beset government in Texas.

Mr. and Mrs. M. W. Lemmon of Plainview spent the week end here with her parents, Mr. and Mrs. S. B. Kutch.

I SWAN

The trumpeter swan faced extinction in the United States in the early part of this century. Early destruction of the species resulted primarily from the heavy trading in the bird's plumage, used in ladies' hats, etc. There are now at least 199 in the United States—an increase of 51 since August, 1938. There were only 74 adult birds in these United States in 1936 as far as could be determined. Ever hear of a cygnet? It's the young of the trumpeter swan.

FURRY FINGERPRINTS

The hair of no two species of animal is alike. If you take your fur to experts, they will give a laboratory test and tell you the animal it came from, no matter how skillfully it has been dyed and treated.

Hairs that look alike to the human eye, even under a magnifying glass, are utter different when cut through and a section fixed under the searching eye of the microscope. When this is done, the protective coverings given by nature to enable animals to endure heat or cold are revealed. In this way the expert differentiates even between animals closely related.

Original Blow-Back

It is a common belief that a skunk, like a mule, is more dangerous from the breech end than the muzzle, but don't say we didn't tell you it was loaded, for a skunk doesn't have to turn its back to turn on the gas. It can fire its "pizen" fore or aft with uncanny aim while looking the enemy straight in the eye.

Everglades May Conceal Remnant Of Savage Tribe

St. Augustine, Fla.—Deep in the marshy fastnesses of the Florida Everglades the remnants of some savage and forgotten Indian tribe still dwell in primitive savagery, Seminole chieftains have told Dr. Vernon Laemme, archeologist, who is excavating Timucuan mounds near here.

They are not Seminoles, and are regarded as taboo by that nation. No Seminole will go within a quarter of a mile of the two hummocks where the strange tribe dwells, Chief Josie Jumper told Laemme.

Josie, whose great-grandfather, Chief Johnny Jumper, was imprisoned by federal troops when he came to Fort Marion under a flag of truce 100 years ago—one of the incidents that led the Seminoles to retreat into the impenetrable Glades and refuse to sign a peace treaty with the whites—is assisting Laemme with the excavations.

Primitive Weapons Found
It was after seeing skeletons, pottery and primitive weapons of the fierce Timucuan that Josie revealed the presence of the mysterious tribe, and advanced the theory that they might be Timucuan.

It was the warlike Timucuan hordes that repulsed Ponce de Leon when he attempted to land at Charlotte harbor on the lower west Florida coast in 1513. There a Timucuan arrow struck down the gallant Ponce and later caused his death.

Again in 1528, when the red-bearded, one-eyed conquistadore, Pamphilio de Narvaez, landed a small army near Tampa bay and attempted a northward march through mid-Florida, the Timucuan warriors so harried his ranks that he was forced to retreat to the seacoast. On the coast his men built small boats and put to sea to escape the Timucuan wrath. But the wrath of the sea was mightier still, and only four men

POPULAR FALLACIES

That when a rattler is shot at it sees the bullet coming and strikes at it. It doesn't.

That if a skunk is lifted up off the ground by its tail it cannot do its stuff. It can.

That a moccasin's bite isn't poisonous under water. It is.

That beavers use their tails for a trowel in building dams. They don't.

That a she-wolf kills any of her cubs that laps water like a dog. Just a yarn.

That a lady possum lays eggs and hatches 'em out in her pouch. Baloney!

They're All Nuts About Nuts

There are 120 species of squirrels in North America. The Southern rusty fox squirrel is the largest of all the squirrel tribe.

For once, Donley county is said to have plenty of cotton gathers, out of the entire army lived to see Spain again.

Yielded Before De Soto

Twelve years later, the Timucuan braves again attempted to drive out a Spanish invader, but the steel-clad troops of Hernando de Soto were too much for them. De Soto marched through their lands and to his death on the banks of the Mississippi three years later.

But the white man's guns and the white man's diseases brought doom to the once mighty Indian nation. A few survivors were rounded up in the early 1800s and sold as slaves to Cuban planters.

That's what history says. But Josie Jumper says, "Me don't think so. Maybe all gone, but bad men still in two hummocks in Everglades. They not Seminole—no wear clothes." (Seminoles are inordinately proud of their voluminous and vari-colored robes, and never appear without them.) "Seminoles see their fires, but no go near. Bad men. White man never see."

Only the old men of the Seminole nation have ever actually seen the mystery Indians close up.

HAROLD BUGBEE COMPLETES MURAL FOR CANYON MUSEUM

A new ranch mural, painted by Harold D. Bugbee, Clarendon artist, for the Plains-Historical museum at Canyon has just been completed at the Bugbee studio here.

The canvas six and one-half feet by ten feet was done under an assignment of the U. S. Coronado Exposition Commission who asked Bugbee for a canvas of "action and picturization."

The large wall canvas is the second done by Mr. Bugbee for the Panhandle institution and will be hung as a companion piece to his first museum panel painted 8 years ago entitled: "Goodnight Driving Longhorns into the Palo Duro."

The current picture presents in accurate technique and color the traditional round-up crew working with a complete cow outfit and ready to move onto the range. Before the famous R. O. Ranch headquarters is a chuck wagon piled high with bed rolls and

range equipment. The historic ranch house with its wide circular veranda affords adequate background for "Heading for the Roundup."

As decorative balance the artist has utilized in drawing the huge cottonwood trees which have shaded the ranch for 50 years and has added to the equation by painting into the foreground on either side clumps of blooming Yucca or Spanish Daggers known in the Southwest as Bear Grass.

A chuck wagon driver and five mounted cowboys are ready to ride. The fifth cowboy appears about to be unseated as his bronco "breaks in two," but the rider stays with a rope "hackamore" and whips the wild horse in the flank with a "latigo" which adds the proper action to the painting.

The assortment and perfection of cowboy types portrayed in the picture is impressive. Chosen from life the men are easily rec-

ognizable and include W. J. Lewis, Jr., R. O. Ranch manager, Jake Chamberlain, Shoe Bar division, Al Word, Mill Iron division, Bill Moore, Romie Derrick and Major Beckman, veteran range man.

Painted in primary colors the artist has provided a variety of cool shades to harmonize in an effective symphony.

"Technically perfect," was the comment of J. Frank Dobie of the University of Texas who viewed the mural recently.

Mr. Worley Goes To Washington

The planned visit this coming week to Donley county by Gene Worley was called off after a phone talk with Cong. Marvin Jones. Mr. Worley will leave for Washington next Monday.

In a letter to the editor of the Leader, Mr. Worley states that he feels that he should be in Washington at present to get all the coaching possible from Cong. Jones. Especially does he think this most advisable in view of the problems developing daily with reference to world conditions in which this nation will likely play an important part in an effort to protect the interests of our citizens.

While Donley county folks would appreciate seeing Mr. and Mrs. Worley, they will likely agree that business should come before pleasure, and that Washington is the place for Gene Worley right now.

Skunks Fish Conservationists

Upon finding a turtle nest, a skunk promptly digs it up and eats the eggs. Turtles destroy countless tons of game-fish and spawn, so the skunk is actually a fish conservationist.

There are yet vacancies in the infantry, field artillery, coast artillery, signal and air corps, quartermaster and medical departments.

Enlistments may be made at Lubbock, Pampa, Amarillo, Childress or Plainview. Until such quotas are filled, those enlisting get their choice of where they are to serve.

TAX RATES SHOULD BE AT A MINIMUM

Tax rates in Texas counties vary widely, due to the lack of uniformity in fixing taxable assessments as well as to the varying revenue needs of the counties and the volume of delinquencies carried. It is interesting to note, however, that a great many counties have tax rates of less than a dollar, and that some of these are lowering their rates this year. For instance:

Dawson County has reduced its rate from 83 cents to 76 cents. Floyd County has reduced its rate from 69 cents to 64 cents.

Gillespie County has reduced its rate from 66 cents to 62 cents.

Hale County has reduced its rate from 65 cents to 53 cents.

Every county should be interested in getting its tax rate to the lowest possible minimum, rather than floating along with an "average" rate. The rate of Brown County should be lower than it is, in spite of the many factors that must be considered in fixing it. Other counties have been able to keep their rates down, and what other counties have done this county can do.—Brownwood Banner.

Dry Hole or Gusher . . .

. . . He Always Profits

● In the business of drilling for Natural Gas there is a maxim which runs, "You never know what's down there until the hole is drilled." Maybe it's Gas, maybe not. In spite of this chance, thousands of dollars must be spent before drilling is ever begun.

● The exploration costs, lease rentals, and royalty payments of this Company and associated Companies over the past ten years have amounted to millions of dollars. Most of this money is paid in leases and royalties to people living in the Gulf South. Clarendon With Wheeler, Memphis Share 3-A Lead

By DICK COOKE

The Clarendon Bronchos and the Wheeler Mustangs climbed up beside Memphis on the top rung of the district 3-A ladder when they turned in conference wins over Lefors and Lakeview, respectively, Friday.

Clarendon got the jump on Lefors and scored in the first quarter but had to fight furiously the rest of the game to maintain the 6-point margin of victory.

The Wheeler Mustangs, on the slow, sandy Lakeview field, rolled over three touchdowns for their season's opener triumph of 19 to 0, and promised trouble ahead for other league clubs. The Mustangs have plenty of power but were slow on handling the ball, a fault that will probably be corrected as the season advances.

District 3-A lost three and won one of the non-conference games during the week-end. The Memphis Cyclones, set for a breather with the class B Mobeetic Hornets barely managed a 6-0 victory to uphold the slipping prestige of the loop. McLean's Tigers lost a heart breaker to Phillips, 12 to 13. Saturday night while the Panhandle Panthers ripped Wellington 33 to 0. Shamrock, defending district champion, fell before the class AA Berger Bulldogs, 37 to 6.

Wheeler journeys to Wellington for the only conference game in 3-A this week.

Next week's schedule—Claude at Clarendon; Lakeview at Flo-mot; Paducah at Memphis; Pan-handle at McLean; Perryton at Shamrock; Wheeler at Wellington.

Modern Electric Service Is CHEAP in West Texas

WE CAN THANK OUR LUCKY STARS

...and stripes

SCHOOL BELLS are ringing for American boys and girls.

In many other lands today youngsters aren't so lucky.

Sirens are screaming in their ears, sending them scurrying into underground shelters.

We can thank our lucky stars and stripes for escape from such terrors. Our flag is a symbol of freedom in a country despised by oppressors who think Americans are far too rich.

We are rich. Gloriously rich. Not in money but in a wealth of the kind of things we can use and enjoy. For instance, with only 7% of the world's population, we have half of the world's railroads; half of the world's coffee is served on our tables; we consume two-thirds of the world's oil. We own more automobiles, radios, telephones than all the rest of the world put together. And, more important, we have the freedom to enjoy these things as we please.

Electric service is another good example. Electric service brings us light, music, refrigeration, easy washing, cool ironing, good coffee . . . for only a few cents a day.

Not only does electric service give us more of the good things of life but it brings them to us at a steadily lowered cost. Because of your increased demand for electricity, and our economical operation, electric rates during the past twelve or fifteen years have been cut about in half. And you can automatically reduce the average rate you pay still further; the more electricity you use each month, the lower your average rate will be.

The employees of your electric company are proud to be members of an industry that has always been among the leaders in giving the public more and better service for its money. And we are grateful to you for your help in making our efforts succeed.

SUNDAY WAS "CHILTON" DAY AT McCLELLAN

Many of those gathering for observance of "Chilton Day" at Lake McClelland Sunday, did so for their first time. All of the children of the elders were present except a daughter who lives in California.

A plentiful supply of food was spread on the tables beneath the large cotton-woods below the dam at the noon hour. It was great, according to Jimmie Chilton here, who manages to get in on all such affairs.

Attending from McLean were Mr. and Mrs. W. J. Chilton, Sr.; Mr. and Mrs. W. J. Chilton, Jr.; Mr. and Mrs. Porter Chilton and Mr. and Mrs. Pete Chilton and children. Mr. and Mrs. Jimmie Chilton, Jr. of Vernon; Mr. and Mrs. Bennie and Chubby Chilton of Amarillo; Mr. and Mrs. Joe Eastham and children of Hollis; Mr. and Mrs. J. B. Keys and son of Hedley; Mr. and Mrs. Jimmie Chilton, Sr. and son Billie of Clarendon.

REV. AND MRS. HENSHAW RETURN HOME SUNDAY

One of the most interesting trips of the summer was that of Rev. and Mrs. E. W. Henshaw, the minister being pastor of the local Episcopal church. Their first stop after leaving here was at the home of Mrs. Henshaw's father in Denver.

The father, Sheldon R. Purdy, aged 81, became a party on the trip from that point. In fact he enjoyed the trip, over high mountain passes, through canyons and plains scenery to the extent that he came to Clarendon with his relatives.

Wolf Creek pass and other high points proved interesting. Cities visited were Leadville, then to Albuquerque, Salome, Quartzite and Globe Arizona with a trip through Showlow canyon.

Mr. Purdy delighted in north-west New Mexico, a section he had never before seen. Thirty-five hundred miles were traveled since leaving here until the return Sunday evening.

Beautiful-

Wilson, Mary Batts, and Alberta Gardner.

Next came the Mexican group in the bright colorful costumes of their country and the beautiful girls and handsome men and brunette children and the Todd brothers sang "South of the Border" during this episode. Next came a group of strong swarthy Indian braves portrayed by Maurice Lane, Barcus Antrobus, Basil Smith followed by squaws and children and Mrs. Johnson sang "Indian Love Call." Next came a group of twenty children and these represented America's Unfinished Battle, making them grow into strong healthy adults physically, mentally and morally. Miss America called for Volunteers in this battle and was answered by the doctors, nurses from the hospitals, teachers from the public schools and preachers. Mrs. Howze and the McDowell Club Choir sang "God Bless America" and the band played this popular song as the closing music.

The cast and directors of this pageant are to be congratulated on the success of this excellent Patriot Pageant and the City Park was a perfect setting for the colorful program. The colorful flowers gaily flashed color back as the flood lights spread them with light, and seemed even brighter because of the dull native rock walls which held them in place.

The Park Board and the caretaker are to be congratulated on the beauty of the park in such a short period of time. The band and their director Mr. Robbins gave up a mighty fine performance, their music is quite professional.

STEWART FAMILY HOLDS REUNION SUNDAY

The H. M. Stewart home near Goldston was the gathering place for the Stewart Klan Sunday, and their near relatives. Going to the place of meeting after services at the Presbyterian church, more than thirty partook of a 'cafeteria' dinner which the ladies had brought with them.

Rev. M. M. Miller and family, the J. A. and H. M. Stewart families and the 'inlaws' with the visiting minister and brother, Rev. J. C. Stewart of Belzonia, Miss., largely made up this happy occasion.

Mr. and Mrs. H. M. Lane spent the week end at Lefors with Mr. and Mrs. Rex Reeves.

GROCER SALESMAN FOUND SHOT TO DEATH

R. A. "King" Cole of Memphis, manager of the Wooten wholesale grocery company, and a frequent visitor in Clarendon among grocers, was found dead in his car at his home in Memphis Wednesday afternoon.

Cole was sitting on the front seat with a .22 bullet hole in his left temple. A .22 rifle was lying on the back seat. Coroner Joe Merrick returned a verdict of death by accidental shooting, on the assumption that Cole had removed the rifle to the back seat of the car, causing an accidental discharge of the gun.

He is survived by his widow and two daughters, and had resided in Memphis 10 years.

ANNOUNCEMENT

He Didn't Try It Again!

The newly rich hunter from the big city was trying to make an impression: "I clean my \$1,000 shotgun and my \$500 rifle with an imported solvent that costs \$5 an ounce."

"I don't clean mine," replied the hard-boiled old Southern sportsman. "When they get dirty, I just throw 'em away!"

Bronchos Defeat Lefors Pirates

FIRST QUARTER TOUCHDOWN PROVES 6-0 VICTORY

Playing their first game of the season the Clarendon Bronchos defeated the Lefors Pirates last Friday night 6-0, on their rival's home ground, after a quick thrust in the first quarter of the game proved the decisive margin of victory. Johnson's try for the extra point failed to go over the uprights.

Striking with lightning fury the Clarendon boys took the ball early in the first quarter on the fifty yard line, and drove down the field to pay dirt before the highly surprised Pirates could reorganize their ranks to stop the on rushing blitzkrieg.

Featuring little dynamic Hartzog the Bronchos executed exactly five plays to cross over the coveted line. Bud Hermesmeier was instrumental in smashing through the line for a 7 yard gain, the remaining yardage being reeled off by Hartzog.

Although the Pirates displayed a fine offensive game, the breaks of the game just didn't fall their way. Several times they threatened the goal line, but bogged down before they could reach pay dirt. A Pirate heave to the goal line might have spelled disaster for the Bronchos had it not been for Goodman, the Broncho center, who reached up and snared the pass and thus ended the serious aerial attack. With the ball on the three yard line, Clarendon was in a dangerous position. With a cool calmness that brought admiration from the grandstands, Gordon punted out of danger with a 52 yard punt.

Fumbles and penalties at crucial stages of the game proved costly to the Bronchos. At one time Hartzog dashed almost to the goal line only to have the play called back.

All of the boys played a good game, considering it their first encounter of the season. Jimmy Lumpkin was in there fighting hard, and came through smiling with a skinned nose. Wardlow's broken wrist was a severe blow to the Broncho forward wall. He will be out for several games.

Lefors gained a slight edge on the Bronchos as far as first downs were concerned, having reeled off seven to six. Clarendon gained the most yardage on running plays, but the aerial display was all in favor of the Pirates.

Clarendon boys who started the game were:

Kirkland, re; Wardlow, rt; Bulls, rg; Goodman, c; Peabody, lg; Lumpkin, lt; McCrary, le. Backs were Hermesmeier, Hartzog, Smith, Johnson. Substitutes: Gordon, Spencer, Summers, Rattan.

Mr. and Mrs. F. G. Patching were in Amarillo Tuesday.
