CLARENDON, DONLEY COUNTY TEXAS. WEDNESDAY OCTOBER 10, 1906

No 80.

Asks Bailey to Release Voters From Primary Election.

Hon. Cullen F. Thomas, who was County Attorney during the litigation in which the Waters-Pierce Oil Company was sued in the District Court of McLennan county for penalties, and who afterward became a candidate for Congress, has issued an open letter to Senator J. W. Bailey, in which he reviews the readmission of that company to Texas and the part taken by Senator Bailey. Mr. Thomas closes with the challenge to Senator Bailey to submit the issues to the people, to "throw down the bars, release members of the Legislature from their instructions, hand back the nomination to the democratic party, join in an appeal to the county and state democratic parties, give us an open field and a fair fight, then let the race be for the swift and the battle for the strong."

Criminals as Cotton Pickers.

A man appeared at police headquarters Monday in Fort Worth and asked how many prisoners were in the city jail. He immediately figured up what the fines of the twenty prisoners would be, paid same—\$160—and carried them off to be loaded on the train. They were taken to the territory to pick cotton.

An Atrocious Amarillo Murder.

One of the lowest, most atrocious murders ever to take place in the Panhandle was committed in Amarillo Thursday. A youth some 18 or 20 years old was found near the Choctaw Y, without a thread of clothing and with his face and head hacked and beat in a terrible manner, not quite dead but unconscious. He died two days later without regaining consciousness. His clothes were found afterwards in a tank car of water, but they contained no papers or other articles by which to identify him.

The agriculture of this country must become more intensive! Our farmers need fewer acres and more hoes. We must nurse our soil and see that it produces more than it did last year. This condition is bound to be brought along in course of time, but the man who takes time by the forelock will be the better off for it. In the future we hope to never again see farmers raise crops ten times larger than they can possibly gather, or a ranch with a thousand cows, where people actually starve for milk and butter. The tale of such conditions will sound funny a few years from now, but as long as they are real, we fail to see any humor about them.—Quanah Tribune.

The Federal government is said to be preparing to make a big fight on the Standard Oil Company, but when we remember the Federal government's big fight on the beef trust and the accompanying result, we can but smile and opine that much of the Federal government's efforts against the trusts are for effect and not for lasting results.—Ft. Worth Telegram.

Work of Love.

Love makes our heads go round, and we sometimes imagine it's the world.

Insure Against Hurricanes.

Planters in Jamaica are now able to take out insurance policies against hurricanes.

Imitated By His Denouncers.

The nomination of W. R. Hearst for governor of New York has certainly stirred up the monkeys, if one may judge from the antics of some of the men and papers who oppose him.

The recent indorsement by the independent league of the state, and then at Rochester carrying the regular convention by storm, even bringing the state Democracy and Tammy both into his camp, shows that there is something out of the common or ordinary about the man.

I remember that a few years ago when he established a great daily paper in New York City, with a colored Sunday supplement, it was denounced by almost every great republican and mugwump concern on the continent as a "yaller journal," but nearly every one of these pharisaical concerns have since and are now doing all they can to copy.

Cannot Serve Free.

A nominee on the Grayson county republic offered, if elected, to serve without pay. The matter was referred to the attorney general's department. Assistant Attorney General Pollard holds that compensation must be accepted, and that a candidate making such an offer could not hold office, even, as in this case, he agreed to give his salary to charity.

Dr. H. A. Thomas at Handley was fined \$1000 at Fort Worth for aggravated assault on C. F. Foster, whom he stabbed in a row.

J. S. Kendall, president of the state normal school at Denton, died of consumption Monday. He was formerly state superintendent of public instruction.

It may be that after awhile that many of those who think him a terrible "yaller politician," and are denouncing him with a vim, will be trying to get into his little band wagon and ride with him to glory. There is no telling just what is going to happen these days, for indeed politics sometimes make strange bed fellows, and Hearst is reputed to have a pretty good brain as well as full "barrel."—Bridgeport Index.

An Ancient Dog Story.

A delightful dog story has been expunged from the misty past and is now preserved in the records of an old court at Southampton, England. It dates from 1587 and must be told in the quaint terminology of the period: "Item we present yt at the tyme of our sytting ther hath ben complaint made of another dogge, betwene a mastie & a mungrell, of Peter Quoyte's which hath strong qualtyties by himselfe, which goyng lose abrode doth many times offend the neighbors & wyll fetch out of ther howses whole peeces of meate, as loynes of mutton & veal & such lyke & a pasty of venison or a whole pownde of candells at a tyme, & wyll not spoyle yt by the way but carry yt whole to his masters howse, which being a profytable dogg for his master, yet because he is offensyffe to many yt is not sufferable, wherfor his master hath forfeyt for every tyme 3 shillings 4 pence [83 cents]. And be yt comaunded to kepe him tyed or to putt him away upon payn to forfeyte for every tyme he shal be found in the streets 3 shillings 4 pence."

Where to Live Long.

A German statistician has made a careful investigation to discover in which countries the greatest age is attained. The German Empire, with 55,000,000 population, has but seventy-eight subjects who are more than 100 years old. France, with fewer than 40,000,000, has 213 persons who have passed their hundredth birthday. England has 146, Scotland 46, Denmark 2, Belgium 5, Sweden 10, and Norway, with 2,000,000 inhabitants, 23. Switzerland does not boast a single centenarian, but Spain, with about 18,000,000 population, has 410. The most amazing figures come from that troublesome and turbulent region known as the Balkan Peninsula. Serbia has 573 persons who are more than 100 years old, Roumania 1,084 and Bulgaria 3,883. In other words, Bulgaria has a centenarian to every 1,000 inhabitants, and thus holds the international record for old people. In 1892 alone there died in Bulgaria 350 persons who had exceeded the century.—London Tit-Bits.

Types of Portland Cement.

In a brief discussion of the advance made during 1905 in the technology of cement, Mr. Edwin C. Eckel of the United States Geological Survey, has grouped Portland cement into four different types according to the raw materials used in its manufacture.

The first type includes cement produced from a mixture of argillaceous limestone ("cement rock") and pure limestone. This is the combination of materials used in all the cement plants of the Lehigh district of Pennsylvania and New Jersey, and also at several western plants.

The second type includes cement manufactured from a mixture of marl and clay. This type of mixture is used only in the states of Michigan, Ohio, Indiana, and New York.

The third type includes cement manufactured from a mixture of ordinary hard limestone and clay or shale. This mixture is employed at many plants all over the United States. In order to prevent the publication of statistics concerning individual enterprises, the Portland cement made from slag and limestone is included in this group. At present the only Portland cement plants using a slag-limestone mixture are those of the Illinois Steel Company at Chicago, Ill., and Buffington, Ind.

The statistics of the American cement industry show very clearly the direction in which it is trending. Over half the total product is still made from a mixture of "cement rock" and limestone, but this percentage is slowly decreasing. The marl-clay mixture shows a similar decrease. The proportion of the product made from a mixture of hard limestone and clay or shale is, on the other hand, increasing rapidly.

Mr. Eckel's paper on the cement industry in 1905 is published as an extract from the annual volume entitled "Mineral Resources of the United States, 1905," and may be obtained on application to the Director of the United States Geological Survey.

A runaway was caused at Trenton Saturday by a bale of cotton falling on the wagon doubletree, throwing the driver Roy Moreland, under the team. Dallas is Wealthiest County in Texas.

Dallas county again forged to the front as the wealthiest county in Texas with Harris county close second. For the past several years there has been considerable rivalry between these two counties as to which is the wealthiest in assessed valuations. While the tax rolls of these two counties for 1906 have not been received as yet by the comptroller's department, it is learned that Dallas has gained in wealth nearly \$1,000,000 more than Harris county for 1906.

Silk Made from Pine Trees.

Prof. Duncan of the industrial chemical department of Kansas University has an interesting paper in this month's Harper's on "The Wonders of Cellulose." He points out the possibilities of the pine tree as a silk-producing tree, and says that about five tons of artificial silk are now spun from the pine tree cellulose daily in Europe, and the demand far exceeds the supply. After a while the little white silk worm will find its occupation gone.

CLARENDON, TEX., OCT. 10 1906.

Governor Lanham received an invitation to open the Dallas fair Oct. 13. He accepted the invitation and will deliver the principle address.

The Standard Oil trust and the attorneys of various trusts are very bitter in their opposition to Wm. R. Hearst. This is something in Mr. Hearst's favor in the eyes of honest people, to say the least.

The comptroller's department is advised that some tax collectors are permitting circuses to appear in their respective counties by paying only an exhibition fee of \$10. This is in violation of the law, which fixes circus tax at from \$100 to \$250 for each performance.

There are, according to a French authority, 250,000,000 people in the world who wear no clothing whatever, and 750,000,000 more who only go partly clothed. The cotton raiser's association might make it profitable to send missionaries over among them to make dress fashionable.

Alcohol from corn on the cob, corn stalks and other green corn stuff when it comes in the roasting ear stage from the field is an industry undertaken with assured commercial success by the Agricultural Department, according to the authorities of that branch of the Government.

Mr. Bailey receives from the government a check every month for \$416.66, besides what he gets in mileage and perquisites. The Texas Farmer would like to know if Mr. Bailey ever received that much as a steady salary before he became senator. The Farmer might have asked if he ever received any big corporation fees before he became senator.

Mr. Hearst and the Independence league stand for the dethroning of political bosses and the breaking up of the old political machinery through which the corporations have controlled the government, and stifled the voice of the people. If Mr. Hearst is successful in his race and succeeds as governor in smashing the old party machines in New York, he will do what no other governor of that state ever did.

The New York World nominates Grover Cleveland for the United States Senate, saying that he was never known to shirk a public duty. It remains only to be seen whether Mr. Cleveland regards the Senate as a duty.—Dallas News.

He might catch his cue from Texas history and regard it as a leader to fat corporation fees.

The Confederate pension appropriation for the ensuing twelve months is \$500,000 against \$400,000 for the preceding year, making the new apportionment \$16.50 instead of \$14 per quarter as heretofore.

A new corporation in Amarillo is the Western Bank and Trust Company; capital stock \$100,000. Incorporators are B. T. Ware, W. M. Lay, Frank B. Salter, Charles T. Ware and J. E. Moore.

H. L. Spain, aged 65 years, cut his throat Friday night in Austin. He had been in ill health and dependent for some time. He was at one time chief clerk in the secretary of state's department under the administration of Governor Ross and was well known throughout the state. He was also a Confederate veteran.

Pertinent Question.

Supposing, dear reader, you had in your employ a brilliant lawyer, whom you pay annually \$5,000, and supposing this same clever man should accept the services of your mortal enemy in business, who would hand him fees, compared to your little retainer, looked insignificant, would you have much faith left in your man, or would you expect him to throw all the powers of his astute mind to your rival?—Quanah Tribune.

Packers Justified.

We were handed the following Saturday without comment:

"If believers would read Deut. XIV:21 they would have less room to complain of some of the things the meat packers are accused of."

Turning to the passage quoted, we found it read thus:

"Ye shall not eat of anything that dieth of itself; thou shalt give it unto the stranger that is in thy gates, that he may eat it, or thou mayest sell it unto an alien; for thou art a holy people unto the Lord thy God."

Now, any of our readers who want to give a good, clear solution to the subject, we will grant them reasonable space.

The Miami Chief says Mobeetie has been having some railroad mass-meetings of late, and it is said a representative of a road proposed to run from Port Arthur, on the coast of Texas, to Denver, Colorado, visited Mobeetie and asked for a bonus of \$50,000 and a right-of-way through Wheeler, the road projected to strike Erick, Ok., Mobeetie and Miami. It is said Mobeetie people subscribed the amount asked, but the Chief regards the matter as a promoter's scheme to get a road chartered, bonuses promised and then sell out to some capitalists, with whom it will depend whether the road goes through.

Miss Nellie Carter, after a visit of several weeks with friends at Llano and Claude, left this morning for Clarendon, where she will spend several days with friends before returning to her home at Portales, N. M.—Claude News.

MRS. WILSON C. ROGERS.

Dr. Brannon, of Hamilton county, is here prospecting this week.

Quite a sensation has been created by Moses P. Jacobson, of the Hebrew congregation at Shreveport, who advised his congregation to observe the fast days, but to go home and eat square meals. In his opinion fast days were born of ignorance and superstition.

False Logic.

Attorney General Moody, discussing a legal point, said: "That is striking but false logic. It reminds me of a conversation I once heard at the seashore. A man in a striped bathing suit was running on thin, pale legs over the hot white beach toward the cool water when a friend, seizing him by the arm, said: 'What! Are you going in to bathe just after a heavy lunch? Why, you will be drowned.' 'Oh, no; not at all,' replied the other. 'I ate nothing but fish.'"

Obsolete Warships Bring little.

Some 30 obsolete British warships have been sold at Portsmouth for just over \$400,000—less than the cost of the smallest of them. The prices were regarded as good.

The People Will Not Worry.

The brimstone trust will not worry people who reflect that something of that kind is needed to remind the other trusts that there is a hereafter.

Purity of Bread.

It cannot be too often repeated that of all food that comes to table there is nothing so pure as bread.—London Bakers' Times.

Fort Worth to Dallas.

During the meeting of the Texas State Fair at Dallas, commencing October 13th and closing October 28th the Northern Texas Traction Company will operate cars between Fort Worth and Dallas every thirty minutes. The first car leaving both cities at 6 o'clock a. m. and the last car from Fort Worth at 11 o'clock p. m. and from Dallas 12 o'clock mid-night.

The rate will be \$1.00 for the round trip, tickets limited to date of sale; or \$1.25 unlimited.

All cars pass the Union Depot in Fort Worth so that passengers from distant points should buy through tickets to Fort Worth and there take the Electric Line to Dallas.

All Interurban cars make immediate connection at Dallas station with street cars for the fair grounds.

While attending the State Fair, you should not fail to take a trip to the great "Packing House Center," Fort Worth, and there see in operation two of the largest packing houses in the United States. 2t

Religion in the College.

Men learn that religion is not a system of philosophy or a secret society, but an impulse and an endeavor to make this present world a better place to live in. That, so far as I can learn, is the heart of the religious life of the American college. It beats true and in time with the heart of the Christian gospel.—Outlook.

Monument to Kenton.

A monument to the memory of Simon Kenton, pioneer Indian fighter, was unveiled at Old Town, 12 miles west of Springfield, O., in the presence of a large crowd. The monument is built of huge boulders suitably engraved and marks the spot where Kenton ran the famous Indian gantlet.

Popularized Billiards.

Billiards were brought into fashion by Louis XIV. of France in the seventeenth century, because his doctor ordered him to take exercise after his meals.

Good Name for an Automobile.

"We call our motor car 'Balzac,'" said Mrs. C. N. Williamson once, "because to use Henry Jones' phrase about the great writer, its genius is 'violent and complicated.'"

Great Picture Won by King.

Sir Lawrence Alma-Tadema's first great picture was exhibited at Antwerp, and was offered as one of the prizes in a lottery. The lucky winner was the king of the Belgians.

The Harvest of Happiness.

There is no duty we so much under-rate as the duty of being happy. By being happy we sow anonymous benefits upon the world, which remain unknown even to ourselves, and when they are disclosed surprise nobody so much as the benefactor.—Robert Louis Stevenson.

Far-Seeing Government.

Bluejackets from the ships of the Australian squadrons are permitted to travel free on the New Zealand railways, as the government considers that their talk of the country when they return home will attract immigrants.

A few words left out of the sketch of Mrs. Wilson C. Rogers in Saturday's paper, referring to her fitting herself for a successful teacher, made part of the article rather meaningless. Such things occur, even in the largest papers, but no one regrets them more than the publisher.

New Lumber Yards.

Two new lumber yards have been launched this week and buyers for both are now in east Texas after stock. One will be run by Mr. J. L. Scarborough, of Sulphur Springs and R. S. Kimberlin, of Clarendon. They have already bought the Lee & Willis coal business and the house and lot they use for an office and have secured the lots east of the electric light plant for the yard.

The other yard will be owned by J. A. Barnett and J. W. Morrison, and they have bought the lots between the school building and Mr. Stanton's.

These parties all have ample capital to run a good business and no doubt it will help those who want to do considerable improving.

To My Customers,

Please give your orders as early in the week as possible and avoid the Saturday rush. Last Saturday five could not wait on the trade, much less make up orders. I certainly appreciate the generous trade given to me, which I attribute altogether to right goods and right prices. If more customers would come in the forenoon I could devote much more time to them, and make it much more satisfactory to both of us.

Explained.
An exchange asks: What becomes of all the pins? Why, they fall to the earth and become terrapins.—Atlanta Journal.

Practical Sense.
It's all right to dream of the great things you are going to do, but don't forget to wake up in time to begin work.

Meaning of "Balkan."
"Balkan" is a Turkish generic term, referring to a range or mass of wooded hills with pasturage and meadow land on their slopes.

His Calling Card.
A thief who had gone to his lawyer's house to thank him for getting him acquitted, finding him not there, took an overcoat which he found in the hall. "There," he said, "at any rate my lawyer will know I have been here."

Overdoing It.
"Baw Jove!" said Algy, "there's such a thing, deah boy, as being too skillful. The other morning I went downtown with my necktie done in so absolutely perfect a style that everybody thought it was a beastly ready-made tie, don't you know!"

How Can a Horse Laugh?
High-toned horses are like high-toned people; they are robbed of pleasures poorer folks enjoy. An Arabian snow-white horse is never allowed the great privilege of lying down and rolling over. To prevent them from rolling they are kept in narrow stalls.—Acheson Globe.

Disappearing Wild Flowers.
What shall we do when there are no more wild flowers in our land to love and learn from? Ruthless is the destruction of them that is going on. If nothing can be done, and soon, to stem the flood of devastation, all of them, except the very rankest weeds, will disappear.—London Garden.

Thoughtless of Us.
"This is a sad and bitter world," remarked a gentleman of Irish extraction. "We never strew flowers on a man's grave until after he is dead."

A Daily Thought.
We judge ourselves by what we feel capable of doing, while others judge us by what we have already done.—Longfellow.

Worst Accident in History.
The most awesome accident in history was the fall of a Roman amphitheater in the time of Tiberius. Fifty thousand people were crushed.

Must Answer for Our Deeds.
One of the brightest jewels in the crown of the teachings of the great moralists in all ages is unquestionably the doctrine that sins are of three kinds, in thought, in word, and in deed. But of the three the deed is that for which we are most fully responsible.

Punishment Too Severe.
"A boy assassin hanged," read Mrs. Bascom from the newspaper. "Well," she remarked, "a sassin' boy is a great trial, but I don't think he ought to be hanged for it."

His Money's Worth.
The man who was fined five dollars for punching the head of a chap who annoyed his wife probably thinks he got the worth of his money in advance.

SPECIAL CLUBBING OFFER.
Every man should subscribe to his local paper, because from it he secures a class of news and useful information that he can get nowhere else. He should, however, also subscribe to a first-class general newspaper. Such a newspaper is The Dallas Semi-Weekly News. Thousands of its readers proclaim it the best general newspaper in the world. Its secret of success is that it gives the farmer and his family just what they want in the way of a family newspaper. It furnishes all the news of the world twice a week. It has a splendid page where the farmers write on practical experience. It is like attending an immense farmers' institute. It has pages especially gotten up for the wife, for the boys and for the girls. It gives the latest market reports. In short, it gives a combination of news and instructive reading matter that can be secured in no other way.
For \$1.75 cash in advance, we will send you semi-weekly News and The Chronicle at "break" price. Each for one year. This means you will get a total of 208 copies. It's a combination which can't be beat, and you will secure your money worth many times over.

Attitude Toward Dress.
What is the precise attitude that men would have women take up with regard to dress? They are perpetually rating the sex for alleged extravagance in this direction, they are continually grumbling at fashion, and yet it is not always the best dressed women who attract and command the attention of men, says one of the fair sex.

Danger of an Explosion.
When we see so many young men with their hair parted in the middle and hanging down their foreheads so as to obscure every trace of intellect, and so many young women with their hair all frizzly-frowsily and flopping around their faces in 50 different directions, we just want to have a say.—Clinton (N. C.) Democrat.

Empress Eugenie's Dresses.
Some recently published figures as to extravagance of American women in dress give interest to the statement of the Empress Eugenie to a friend in this country that but three times in her life did she wear a dress that cost as much as \$200. Once it was for her wedding, once for the baptism of the prince imperial.

Know Little of Anatomy.
Most Chinamen know little of anatomy. They have an idea that the heart and stomach are connected and that the epigastrium is the seat of thought. They also imagine that the gall bladder is the seat of boldness and that all schemes requiring that quality originate in it.

Fully Insured.
A worthy town guide got married recently and with admirable foresight he at once took out a life insurance policy. The couple had only lived a few weeks in wedded bliss when the breadwinner fell ill and died suddenly. Notifying her friends of his death the widow wrote: "Andreas passed away yesterday. Loss fully covered by insurance."—La Caricaturista.

Look in Life.
Some people are always present in a railway smashes, others in fires, others again in boats that upset; while a special providence watches over children, old people, sleep-walkers and drunkards. Life is not the same for all—far be it; and Napoleon was right when he said he preferred the lucky general to a clever one.—London Graphic.

Man's Inevitable Goal.
A good day's work at what you can best do is the hard-pan to which all must come.

Peculiarity of Eucalyptus.
The eucalyptus sheds its bark instead of its leaves.
