Wheat Growers Will Vote On Quota

With the announcement in Washington of tentative plans for holding a national wheat marketing quota referendum May 31, Agricultural Adjustment Administration officials in Texas this week started laying the ground

work for the voting in Texas. Marketing quotas will be proclaimed only if the crop estimates on May 15 indicate a 1941-42 supply in excess of the marketing quota level, Charlie L. Thomas, state AAA committeeman and wheat grower from Pampa pointed out.

"As one of the great wheat-producing states in the nation, Texas has a big stake in the outcome of the referendum if it is held," the committeeman declared. "We wheat growers have felt in the past the disastrous effects of big surpluses, and we know what we could expect in the future if the present surplus should be increased. We will welcome the chance to vote on quotas for this year's crop."

The quota will become effective when announced and will continue during the 1941-42 marketing year unless opposed by more than one-third of the farmers voting in the referendum. Under the quota, a cooperating wheat farmer, one who plants within his wheat acreage allotment, is free to market all he produces plus his carry-over wheat. Wheat in excess of the quota on an over-planted farm is subject to a penalty unless it is stored under seal. If a quota is proclaimed and dis-

approved, the law specifies that no government loans can be made on the crop.

Under the marketing quota provisions of the Agricultural Adjustment Act, a marketing quota proclamation is mandatory whenever it appears, by May 15, that the total supply of wheat for the next marketing year will exceed a normal year's domestic consumption and exports by more than 35 percent.

The 1941 winter wheat crop was estimated in the December crop report at 633,000,000 bushels. The current estimate for the July 1st carryover is 385,000,000 bushels. If these estimates materialize and if the spring wheat crop is of average size, the 1941-42 supply of wheat would total about 1,200,000,000 bushels. The 1940 marketing quota level was 1,023,000,000 bushels.

No marketing quota has previously been proclaimed for wheat, cotton, rice, and tobacco farmers, however, have voted in a total of 17 marketing quota referendums under the Agricultural Adjustment Act of 1938. One quota was proclaimed for rice in 1938 but was voted down. Twelve quota referendums have been held for various types of tobacco since 1938, and all but three have

been approved. In the 1940 tobacco referendums three-year quotas were approved. Cotton farmers have approved quotas for all crops since 1938.

DEFENSE SAVINGS PLAN WILL START ON MAY 1

WASHINGTON, March 12.—Secretary Morgenthau said Thursday that the Treasury would begin the public sale of defense savings stamps, certificates and bonds on May 1.

He indicated the campaign probably would start with the purchase of the first bond by President Roosevelt.

The Treasury Secretary gave no details, but tentative decisions have indicated that the new securities will range from 10-cent stamps for children to \$1,000 bonds for bankers.

PLANTING WHITE BASS

While the season on bass and crappie fishing is now closed and the Texas Game Department will be unable to start stocking streams with fish from its ten hatcheries for several months; the Department is now stocking a number of lakes with white bass, the most prolific sport fish which grows in waters of the Lone Star State.

PUBLICITY STUFF.
Those who strongly desire newspaper publicity without apparent reason, are said to accomplish their heinous purpose in two ways. First, the individual may act with a great air of mystery. Nothing drives a reporter to distraction quicker than to surround him or her with an air of mystery. Second, when a party "dares" the newspaper man to print a bit of news, it just breaks into print automatically, though the editor and one or more assistants may leave town just as the press begins to reel off that bit of slush.

INFORMATION.
Bachelor Bill says that all men are born free and equal until they get married.

NAZI-ATED.
When a man is down, his enemies quit kicking him, and his friends begin.

UNCOMMON SENSE.
You know, we are a funny people. We took this country away from a people who scalped us, and turned it over to politicians who skin us.

ENCYCLOPEDIA AMERICANA.
A happy marriage is one in which the husband makes an allowance for his wife, and the wife makes allowances for the husband.

Income tax is the candy the husband brings home after he has "income" late after a night out with the "boys."
High cost of living is derived from the luxuries of yesterday that became the necessities of today.

National debt—a sort of a "double" feature applied to the U. S. Treasury.

1941 Model—that auto which makes your car look like a wreck when your next door neighbor buys one.

Loyal Opposition—parking meters installed by a Republican city administration, that won't take Jefferson nickels.

Sandstorm—A thing that only God Almighty knows a reason for its existence, and only Uncle Sam ever tried to stop.

OUR WEAKLY POME.

Pretty soon we'll all forget Old winter's sleet and snow; The crow will miss his bet Here where corn cannot grow. And the farmers stern voice No longer emits Gee and Whoa; He has gone tractor wise— The team became too slow. And the towheads wont be wadin' In the branches with bare feet,

They'll be in the family jalopy Gailvantin' on the street.
(P. S. Spring pomes modernized on short notice. This is a sample.)

That's all for this week except the money question. You will have to get that from Thos. T. Waggoner's Claude News. He makes a specialty of the question—not the money.

TAXPAYERS GET HELP IN DWYER BILL

Taxpayers will have until Nov. 1st this year in which to pay their taxes without incurring interest or penalties if the Senate finally approves a bill passed last fortnight by the House.

The House approved overwhelmingly a bill by Rep. Pat Dwyer of San Antonio remitting interest and penalties of all state and county ad valorem taxes which were or may be delinquent on Nov. 1, 1941. Sponsors of the bill claimed many did not pay delinquent taxes because the interest and penalties had accumulated to the point where they were greater than the original taxes.

Cities would have the option of adopting the provisions of the bill.

Sandra Jo Bownds of Amarillo visited with Patricia Ann and Barbara Faye Estlack Sunday. Mr. and Mrs. Haskell Kemp and daughter of Amarillo spent Sunday with relatives and friends in Clarendon.

Chiropractic Correction

Faulty posture due to subluxations which produce muscle imbalance are in the every day scope of the Chiropractor in these cases. Correcting the subluxations may be sufficient to correct the posture. Faulty posture due to trauma other than subluxations may require special measures such as lifts on the shoe if a leg has been shortened due to fracture. Faulty posture due to poor habits requires proper analysis by the doctor as well as corrective advice and proper exercise prescribed. Occupational causes are more difficult to combat as one cannot change occupations at will. Such individuals should also be advised as to recreational and exercising methods to offset the postural imbalance of their working hours. In correcting the deformities of disease such as Acute Anterior Poliomyelitis, Chiropractic has been very successful.

PANHANDLE'S FIRST SETTLERS WERE OF FARMING TYPE

Secrets of people which established a distinctive Panhandle culture six hundred years ago and mysteriously abandoned this section will continue to be in jeopardy.

An archaeological project of the Works Progress Administration launched three years ago under the sponsorship of West Texas State College has been continued through a federal grant. The government and the sponsor will spend \$31,000 on the new work in somewhat more than a year. Floyd V. Studer of Amarillo, curator of the Panhandle-Plains Historical Society is sponsor's representative and Ele Baker, a graduate of the University of New Mexico, is the project supervisor.

The project this year will include a museum unit of four or five men which will prepare

specimens for study and display and will index the thousands of finds already made. Displays must await furnishing of cases in most instances. About 25 men will excavate a site about 25 miles northwest of Amarillo north of the Canadian river.

The new site is exciting workmen because it is the first across the river and it promises a change of findings. About thirty ruins have been dimly traced on the surface. Pictographs are found on nearby cliffs. It is expected that artifacts will show the differences compared with the Antelope Creek and Alibates sites already worked.

Excavations already made have given up large quantities of pottery which have dated the ruins as being between 1250 and 1350 A. D. Evidence of trade with

New Mexico and coastal peoples has been found, but the architecture of Panhandle ruins differs sharply from that of the contemporary Pueblos of the time. Evidently a more northern tribe of migratory habits took up permanent abode when the Canadian river area was reached. The culture, insofar as is now known, is confined to the Panhandle plains portion of the Canadian river valley.

Finds have included excellent skeletons, bone and stone awls, arrows, hide fleshers, corn, knives, stone pipes, weaving tools, pottery, jewelry, and remarkably preserved evidences of how the aboriginals lived. One of the prizes of the project is the skeleton of an 18-year-old girl who was wearing a string of shell beads six feet long and a conch shell pendant.

A replica of one of the ruins, done to scale and faithful in every detail, is one of the best museum exhibits.

Henderson Calls Halt On Machine Tool Chislers

Striking directly at profiteering in second-hand machine tools, Leon Henderson, head of the Division of Price Stabilization, National Defense Advisory Commission, February 17 issued the first of a series of price schedules.

Mr. Henderson explained that his action initiates a program which will be extended where necessary to assert the full force of the Federal Government, including the power of commandeering and requisitioning, to protect the public interest against those seeking to profit exorbitantly on defense requirements. It will also serve, he said, to expose their activities to the Congress and to the public in general.

Maximum Prices
Mr. Henderson emphasized that the prices set forth in the directive are "ceiling" or maximum prices; that they are not only reasonable but liberal, and that sales may and should be made below the ceiling.

"The underlying purposes of this schedule," Mr. Henderson said, "is to establish fair price standards which will enable the great bulk of industry to cooperate with the Government in maintaining price stability, and to single out those who wish to grow rich on the defense program."

Twice the Cost
Cases have been brought to the attention of the Price Stabilization Division where machine tools are being priced at twice the original cost when purchased 30 or more years ago.

In many instances the price asked for second-hand tools exceeds current prices for new ones, thus threatening the entire machine tool price structure, stimulating disastrous inflation, placing undue burdens upon Government, and consequently weakening the defense efforts, too.

"Clip the Profiteer"
"People indulging in these practices," Mr. Henderson said, "are of the stripe described by President Roosevelt as individuals who would clip the American eagle's wings to feather their own nests. We propose to maintain the eagle's full power of flight and clip the profiteer where it hurts him most."

The price schedules will become effective on March 1, 1941.

Mrs. Lalar Wilkerson was in Amarillo this week where she is taking lessons on the pipe organ under John Josie.

Mr. and Mrs. Alexander of Wellington are visiting their daughter and husband, Mr. and Mrs. Chas. Bairfield.

On sick call report statement was made that Sid Endsley was in a serious condition, but was improving, also that Clifford Decker was back from the Veterans Hospital, and that Chas. Bogard was still in the hospital.

Did the ex-service register in Texas? Well approximately 70,000 registered for the National registration of World War Veterans. We still need about ten memberships to reach our goal for 1941, will you try and get a member this month so we can get that out of our way to do other things. Texas Defense Guard Act of 1941 now in force, units for home defense during absence of National Guard Authorized. (Approved Feb. 14, 1941.)

You Get Paid In Planting Trees Now

Take it from a landscape specialist—every farmer in Texas should be familiar with the Triple-A's 1941 provisions for a payment of \$15 to each farm for the planting and maintaining of trees. This payment can be earned over and above the regular soil building allowance.

Sadie Hatfield, specialist in landscape gardening for the A&M College Extension Service, points out that in every section of Texas trees are needed for shade for the home, the livestock and poultry, and for windbreaks. In some of the wooded sections of Texas this natural protection is used and appreciated, she says, but on the coastal plains and on the plains of West Texas the need is still strongly felt.

On the western plains and in the Panhandle of Texas, hardwood deciduous trees are used in combination with pines and other evergreen trees. AAA payments for hardwood trees are made at the rate of \$6 per acre. Among the trees well adapted to the semi-arid portions of the state are desert willow, salt cedar, elms, ash, honey locust, Russian olive, juniper, and red cedar, as well as

western yellow pine and Austrian pine.

Thus, under the AAA provisions, planting of 2 1/2 acres of hardwood trees or 3 1/3 acres of pine trees would earn the maximum of \$15 which is available in addition to the soil-building allowance for the farm. Additional tree planting could earn additional payments under the soil-building allowance. For the cultivation of forest trees planted between July 1, 1937 and January 1, 1941, the AAA will pay \$1.50 per acre as part of the soil-building allowance for the farm.

COTTON STAMP PROGRAM REDUCES SURPLUS

Donley County farmers will be glad to know, those who have not already heard about it, of the Cotton Stamp Program, sponsored by the Surplus Commodities Administration, and administered by the County AAA.

The purpose of the Cotton Stamp Plan is to do away with

part of the enormous surplus of cotton on hand and at the same time benefit the farmers in cotton goods purchasing power, the business man in increased trade, and to stimulate trade in general by creating a new trade channel for cotton goods products.

Here is how the Stamp Plan works:

The farmers must reduce their cotton acreage from whichever is the smaller of, the 1941 Cotton Acreage Allotment, or the 1940 planted acreage of cotton.

For this reduction the farmers get paid at the rate of 10c per pound times the normal yield adjusted for the farm in 1941, times the acres reduced from the 1940 crop, not to exceed \$25.00 per farm, per tenant, and not in any case to exceed \$50.00 for either tenant operating more than one farm or \$50.00 for a landlord owning more than one farm. The landlord will receive his pro rata share of cotton stamps exactly as the cotton crop will be divided. This program will be explained

at length in educational meetings held by the Extension Service and the AAA in cooperation at an early date.

... a **FIRST** requirement in Defense Production

SPEED is a **FIRST** requirement in this nation's defense production.

Today the Gulf South is meeting its obligations for stepped-up industrial production. Many plants have been expanded and converted to manufacture of defense materials. The vast natural resources of the area are being utilized.

Natural Gas . . . the **PERFECT INDUSTRIAL FUEL** . . . is playing a major role in stepped-up industrial production. This Company and associ-

ated Companies provide industry with an adequate, dependable supply of this modern, flexible fuel, adaptable to the high-speed, highly specialized production methods of our present-day industrial system.

As suppliers of this ideal fuel, our organization, with more than 3,000 men and women, is now taking an important part, and is prepared to take even a greater part, in our National Defense program. We are ready, eager, and fully prepared to meet the increased fuel demands of industry.

Farmers Will Share About \$16,000,000

Texas merchants are eyeing with anticipation the \$16,000,000 worth of cotton stamps the 640,000 cotton farmers in Texas could put into circulation this year—if 100 percent participation in the supplementary cotton program were achieved.

The stamps, which will be paid to cotton farmers who voluntarily reduce their cotton acreage in

1941, will be exchangeable in retail stores for any merchandise made entirely of cotton grown and manufactured in the United States, Donald L. Cothron, state AAA committeeman and Lamar County cotton grower, declared.

Cotton piece goods, women's dresses and housecoats, men's shirts and pants, children's and infants' clothes, sheets, cotton blankets, and other household goods, work gloves, and stockings are but a few of the articles cotton farmers can buy with the stamps, the committeeman pointed out.

"More cotton goods in use by farm families instead of more raw

cotton in warehouses already bulging with stored cotton will result from successful operation of the new supplementary cotton program," he said.

"With many export markets for cotton closed, and with government stores of cotton approaching 12,000,000 bales, the Department of Agriculture has developed this plan designed to increase the domestic use of cotton and at the same time maintain conservation and parity benefits under the AAA."

Under the supplementary program, a farmer who voluntarily reduces his acreage below the 1941 allotment or the 1940 measured acreage, whichever is smaller, will receive cotton stamps at the rate of 10 cents a pound times the normal yield of his underplanted acreage. Sharecroppers, tenants, or owner-operators may receive up to \$25 worth of stamps for cooperating in the program, while producers on more than one farm, or operators of a farm with two or more tenants, may qualify for a maximum of \$50 worth of stamps. Any acreage reduction made to comply with the program will not in itself affect cotton allotments in 1942 or any subsequent year.

The supplementary program will be carried out in Texas jointly by the AAA, the Surplus Marketing Administration, and the Texas A&M College Extension Service.

"Andy Hardy's Private Secretary"

Passing one of the most important milestones in his life, young Andrew Hardy graduates from high school in "Andy Hardy's Private Secretary," latest of the Hardy Family series, which opens Saturday night Prevue at the Pastime Theatre for an engagement of 3 days.

Considered as one of the outstanding of the series, this new film deals with the many amusing problems facing high school seniors, problems as true to life today as they were a decade ago. The story, in brief, centers about Andy who, as chairman of numerous senior committees, loses sight of his studies in his effort to make the class graduation a success. In addition, he makes the acquaintance of two youngsters from the wrong side of Carvel's tracks, Kathryn and Harry Land. The Judge becomes interested in the family and attempts to help them, but Andy in an over-enthusiastic moment spoils the deal. How the two youngsters help him out of his difficulties when he flunks his English examination,

proves a highlight of the film.

The Hardy Family is again assembled for the story. Mickey Rooney gives one of his sincerest interpretations of Andy. Lewis Stone appears once again as the Judge, with Fay Holden as Ma Hardy, Sara Haden resumes her role as Aunt Milly and Ann Rutherford portrays Polly Benedict.

The film serves to introduce two newcomers to the screen. Kathryn Grayson makes her debut in the role of Andy's secretary. The possessor of a rare coloratura voice, she sings three numbers. Todd Karns, son of the popular comedian, Roscoe Karns, appears in the role of Miss Gray-

son's brother, and proves to be one of the juvenile "finds" of the year. Ian Hunter and Gene Reynolds round out the cast of players.

THE ADVENTURES OF REDDY KILOWATT

Foiled by a Light Globe

Dear Friends:
I didn't know what to do, the day those toughies laid their plans to steal Mr. Brown's car. But the idea came to me...

I went to the tool box and got wires and insulators and a hammer and some screws. It doesn't take much to run a line to the garage...

Then I got one of the outdoor flood lamps and hooked it up. I smiled as I finished the job because...

That night those thugs were foiled!
I thought, "Why doesn't everyone depend on good light to protect their home and property?" It's the cheapest insurance you can buy.
Yours for better light—safer living,
REDDY KILOWATT.

PROTECTED at Play

How About Your Home?

WHAT'S THAT NOISE?

You awaken with a startled sense of some disturbance outside. Then is when you want the protection afforded by light... light that floods the premises... light that offers safety from prowlers.

Outdoor flood lighting gives the protection you want—and need. Lights on the porch gives protection against surprise and alarm when the door is opened and also protects against possible injury in stumbling on the steps. Light in hallways and closets prevents fumbling and bodily injuries.

Let our lighting advisers help with your lighting problems. Their service is FREE. Good light is CHEAP. So don't take chances with the safety of your family.

Mahaffey Dies In Ft. Worth

Funeral services were conducted for F. J. Mahaffey in the Turner Memorial Baptist church in Ft. Worth March 13, Thursday, he having passed away the day preceding. Rev. Wade D. Smith conducted the service with interment in Park Lawn cemetery.

He had been in failing health for several months, though his death is said to have been due to a severe stroke on Monday of last week.

The deceased resided here for a number of years, going to California in 1920. He returned here in 1929 and remained three years, moving to Ft. Worth. For the past five years, he had conducted a grocery business in Ft. Worth.

He is survived by a son, H. S. Mahaffey of near Ashtola, another son and four daughters, one of whom resides in Honolulu.

Lee Bell had business in Dallas the first of the week arranging for another good picture schedule for the Pastime.

BANQUET LAST FRIDAY NIGHT TICKET SALE

The Young People of the First Presbyterian and Christian churches were served a banquet last Friday night at the former church by the ladies of both churches.

This marked the opening of the ticket sale for the religious film, "Jesus of Nazareth" to be shown on Good Friday, April 11 in the Cozy Theatre. The young people are working hard already on their tickets and the people of Clarendon are advised to secure them early. All the proceeds will go to help the Y.P. attend their Summer Conference at Ceta Glen in June.

Tickets are only 25 cents for adults and 10 cents for under 12 years. At the matinee showing all school students (except college) will be admitted for 10 cents.

Buy your tickets early from any member of the two groups and avoid the last minute rush and possible disappointment.

Mr. and Mrs. John Denton of Groom spent the week end here with her grandparents, Mr. and Mrs. W. H. Buchanan.

NATURAL GAS HAS PLACE IN NATIONAL DEFENSE

Vital cog in the country's national defense machinery, the natural gas industry, an infant in the war days of 1917-18, is meeting increasingly large demands for gas fuel daily and already is furnishing billions of cubic feet over normal consumption to plants, factories, army cantonments and naval bases.

United Gas Pipe Line Company, one of the largest natural gas transmission companies in the world, recently began regular deliveries to a large army camp in the vicinity of Alexandria, La., where gas requirements are approximately the same as those of a city of 30,000 population. At the same time the government and United conferred on gas requirements at other projected camps.

Unusually large demands have not been limited to the army and navy in the case of the United Gas system, although it serves natural gas to naval bases, army and navy air fields and army camps in the Gulf South area which comprises parts of Texas, Louisiana, Mississippi, Alabama and Florida. Many industries engaged in the production of materials and supplies vital to the defense program have been calling for more natural gas.

ZIEGLER RITES HELD AT WICHITA FALLS

Funeral services for R. S. Ziegler, brother of Mrs. Mary Dozier and Hubert Zeigler here were conducted by the pastor, Rev. C. B. James, in the auditorium of the First Christian church in Wichita Falls.

Mr. Zeigler, besides his relatives, was attended by friends from Frederick, Okla. in his last illness. He had held banking positions in Grandfield and Davidson, Okla. and served Tillman county as county clerk. He was engaged in the insurance business at the time of his death in that section where he had made his home since 1906.

Edith Shelton and Ethlyn Drennan of the Canyon school spent the week end with home folks.

Shamrock Has Biggest Day

A number of Clarendon people and the High school band attended the St. Patrick Day celebration in Shamrock Monday. The event was officially opened with the beginning of the special address of Senator Josh Lee of Oklahoma there Sunday night.

Thirty-six towns of Texas and Oklahoma sent bands, some of them both bands and bugle corps. The attendance was estimated at 25,000. A 2-mile parade was a big feature with symphony of color with the Irish green intermingled with the glorious red, white and blue.

The afternoon activities was opened with the crowning of Miss Marcellina Fritz of Perryton as "Irish Rose," by state school supt. L. A. Woods. Mass band concerts and maneuvers on Denver field were most spectacular.

Among those to see the show from here included Mr. and Mrs. C. J. Douglas, Mr. and Mrs. Carl Bennett, Prof. James, John Gillham. The ladies going over were Mrs. H. T. Burton, Craft, C. E. Bairfield, Don Grady, Ralph Grady. Mrs. Ruth Kennedy and Mrs. C. T. McMurtry.

CAR TAX DEADLINE IS DRAWING NEAR

With approximately 450 having paid a car or truck tax here, the tax office estimates that around nine hundred are yet to pay.

Midnight of March 31st is the deadline. Payments after that date draws a penalty under our state law.

The quickest way out, and to avoid extra charges, is to pay that car or truck tax now—today. Driving a car or truck after April 1st entails a fine that would pay for several tax tags. Do it now. Get your tag today.
