Table with columns: SPACE, 1 w., 2 w., 1 m., 3 m., 6 m., 1 y.

One inch in space constitutes a square. Business Cards, five lines or less, \$5 a year. All bills for advertising are collected quarterly.

THE NEW PATENT DUST-PROOF Stom Winding Open Face Case, MANUFACTURED BY THE American Watch Co. Waltham, Mass.

This case is formed in one solid piece without joint or seam, opening in front only, thus avoiding the usual Cap, and securing greater strength and durability.

These Watches are all open face. The bezel, into which an extra strong crystal is fitted with an especially prepared water-proof cement, is attached to the case by screwing it thereon, and thus forms an air-tight junction with the body of the case, which is proof against dust and moisture.

To railroad men, travelers, miners, lumbermen and others who are almost constantly exposed and who have to make frequent reference to the watch, these qualities are of the utmost importance.

The following letters tell their own story

VALDOSTA, GEORGIA, July 20, 1882. I sold one of your Patent Dust Proof Cases about ten months ago, and the other day it came back to me with the request to make it wind easier. On examination I found that the stem was rusty, and I inquired the cause of it. The gentleman stated to me that he was starting some saw-logs that had lodged in the bend of the river, when his chain caught in a bush and threw his watch into about twelve feet of water, and he was about two hours finding it. When he got it out it was running and he thought all right. In about three months he found that the stem was hard to turn and sent it to me.

I can say that the watch is all that company claims for it and recommend it to all railroad and mill men.

B. W. Bently.

Clinton, Iowa, April 29, 1881. I wish you would send me a spring for the Win. Ellery Watch. The way this Ellery is a watch I sold in your Screw Winding Case to a farmer last fall. The first of January he lost the watch in the woods, and found it again this week in about one foot of water. It had lain three months and over in snow and water, with but slight injury to the watch—only a hair-spring.

C. S. Raymond. The above were very severe tests, and demonstrate beyond a doubt, that for any reasonable length of time during which a watch might be under water it would receive no injury whatever.

We make these cases in both gold and silver, and as a Perfectly Dust-Proof Stem Winding Watch Case. Challenge the World to Produce its Equal. For Sale by all First-Class Jewelers

Uncle Sam's Nerve and Bone Liment is most efficient in Rheumatism, Bruises, Scratches and many other ills incident to man and beast.

Buttons!

Everything thinkable in the button line, from the House of W. H. Lyon, New York. Buttons in bone and glass and metal and silk, all colors and styles. Buttons for dresses and buttons for coats, for men and for women, for girls and for boys, low prices! GEORGIANS, FLORIDIANS AND CAROLINIANS! IN TEXAS.

Wishing to read about "HOME, SWEET HOME," should subscribe for the SAVANNAH WEEKLY NEWS. It is a mammoth paper, and contains one page of Georgia, Florida and South Carolina items, besides the current news of the day, original stories, and an agricultural department. Price \$2.00 a year.

J. H. ESTILL, Savannah Ga.

PATENTS PROCURED WITHOUT FEE. Also Trade Marks, etc. Send model and sketch, will examine and report if patentable. Every year, save time. Pamphlet free. E. H. GELSTON & CO., Attorneys, Washington, D. C.

Ideas are like beard—men never have any until they grow up, and wome none at all.—[Voltaire.

A beautiful woman is the hell of the soul, the purgatory of the purse and the paradise of the eyes.—[Fontenelle.

The state Sunday school convention assembled at Fort Worth on the twenty-second of this month.

A City of Mexico letter says Americans are swarming to Mexico in great numbers, either for business or pleasure.

It now leaks out that McLellan's visit to the Panhandle was with a view to extending the Fort Worth road 100 miles.—[Statesman.

The status of the doctors remains unchanged, the American Medical Association having emphasised the old code of ethics.

The treasury department, at Washington, has graduated one hundred brides in the last four months. It is one of the greatest marriage insurance concerns ever established.

An English paper states that Mr. Langtry is living quietly in a little Welsh town, and receives a weekly remittance of £3 3s. from his wife.

An electric light about the size of a small bean has been constructed and used successfully in illuminating interior portions of the human body.

Bishop Peck, of the Methodist Church, has given all his property to Syracuse University, having "an ambition to die without anything."

A philosopher said that "fortune knocks once at every man's door. She must have had padded mittens or boxing-gloves on when she tackled our house! But we live a long ways from the depot.

A type-setting machine is claimed to have been made that will do the work of five compositors, and that it is now on exhibition in the Goodwin block in Hartford, Conn.

French silk manufacturers are reported to be very hopeful as to the capabilities of a big spider lately discovered in Africa, which weaves a yellow web of great strength and elasticity.

In the little village of Montague, Mass., within the limits of half a mile, there are living at the present time forty widows, twenty old maids and eighteen younger maids of marriageable age, while there are only nineteen single gentlemen.

The new postal law now makes the taking of a newspaper and the refusal to pay for the same, theft, and any person guilty of such an action is liable to criminal proceedings, the same as if he had stolen goods to the amount of his subscription.

Rev. Mr. Talmage says the eye winks thirty thousand times a day. When the owner of the eye enters a drug store, the clerk behind the soda fountain can pick the right wink out of a hundred the first time. Mr. Talmage fails to explain this wonderful mind-reading power on the part of the clerk.—[Jamestown (N. Y.) Leader.

Pleuro-pneumonia was assigned as the cause of the death of some cows at Washington lately, but the veterinarian of the Agricultural Department, Dr. Salmon, avers, after an autopsy, that there was no internal evidence of contagious pleuro-pneumonia.

A company has been formed in

New York, with \$100,000 capital, to send out meals to bachelors, families, parties or weddings. They will be sent in lately-invented wagons provided with steam heat, and having a refrigerator attached to keep butter, salads and ice cream. Each family will be furnished with a willow basket in which to keep sugar, bread, cold pastry, and such things as are not returned.

Mr. W. H. Vanderbilt recently received a letter from an inventor, asking him for a gift of \$500,000, to enable him to perfect a perpetual motion machine. As incredible as it may appear, the request was not complied with. We fear Mr. Vanderbilt has very little sympathy with struggling genius, and if the inventor becomes discouraged and commits suicide, he will be another victim of monopoly.

According to the Milling World, sackcloth or canvas can be made as impervious to moisture as leather, by steeping it in a decoction of one pound of oak bark with fourteen pounds of boiling water. This quantity is sufficient for eight yards of stuff. The cloth has to soak twenty-four hours, when it is taken out, passed through running water, and hung up to dry. The flax and hemp fibers, in absorbing the tannin, are at the same time better fitted to resist wear.

The reports of the asylums for the relief of persons deprived of their reason give many interesting particulars worthy of general note. To no form of life or disease does the old prejudice of ignorance cling with more tenacity than in connection with the insane. All are liable to mental disease. In over one half the cases recorded in one asylum in Philadelphia, the insanity lasted less than one year. A very large portion of the patients speedily recover and return to their friends. If the friends of the insane and they themselves did not so generally accept the belief that such disorders are incurable, they would recover much more readily.—[Illustrated World.

An Associated Press dispatch says there has been a sudden falling off in Peter's pence, and that the head of the church has called the attention of the faithful to that particular fact. It is said that the Pope's expenses for food is only fifty cents a day, and that his income in seasons of ordinary prosperity amounts to \$1,800,000, the difference going to keep up the fences that enclose the fold. It takes money as well as a Bible to run Christianity. However, the Pope is only returning to first principles. We believe it was Peter who said: "Silver and gold I have none," etc. If anybody had offered Peter money for his blessing, he would have fumbled under his coat tail for a pistol, or reached for that big sword which his successors have never laid aside altogether, it is not paraded quite as ostentatiously as it was during the middle ages.

A College President Shot Down by a Minister.

Special to the Gazette. Mansfield, La., June 16.—Rev. J. Lane Borden, president of the Mansfield Female College for the last two years, was shot and killed this morning at ten minutes past 11 o'clock, by Rev. Ben F. Jenkins, Jr. About 10 o'clock Mr. Jenkins went to his father's store, when Mr. Borden approached the store, speaking to Jenkins as "Brother Ned." The testimony taken for the coroner's inquest is to the effect that Jenkins came out the front door of his father's store, directing his pistol at Borden's left breast, and fired, hitting him near the left nipple. A watch worn by Borden protected him from the effects other than a great bruise. Borden then ran down to Wil-

Jiams and Ledger's store, two doors below, passing through to the back door, when he was fired on again by Jenkins, who followed in pursuit, but without effect. Just outside the door Jenkins shot him again, taking effect in the leg, from which he fell. Jenkins then advanced on Borden and fired again, the ball taking effect in his forehead and shooting out his brains.

Matthew Arbuckle, the cornet player and orchestral leader, who died in New York recently of pneumonia, aged fifty-four, was born in Scotland, and joined the Twenty-sixth Cameronians as a boy. He served in India and China with the regiment, and came to this country about thirty years ago. He conducted a band at Troy, New York, and at Worcester, Massachusetts, and soon after joined P. S. Gilmore's band. He went to the war with the Twenty-fourth Massachusetts Regiment, and subsequently gave concerts about the country. He moved to New York city about ten years ago. For the last few years he has been bandmaster of the Ninth Regiment. At one time he led the congregational Tabernacle, and for several seasons he has appeared as leader of band at West Brighton Beach, Coney Island. Mr. Arbuckle was recognized as one of the best cornet players in the world. His death will be generally mourned by the musical profession.

The attention of the country is being drawn more decidedly to the great growth of divorces. Many reasons are being assigned for it. Too early, too thoughtless, too poorly-provided marriages, come in for the major share of the blame. The romantic expectations formed before marriage and disappointed after it do not receive enough credit as factors in the problem. When a girl dreams, from sixteen to twenty, of knights who dance attendance on their lady-loves—of husbands whose adoration is blind to such earthly ills as cold dinners and neglected children; of honeymoons which last forever and allow no thought of business to interrupt them—when such a girl marries, her dreams are doomed to disappointment, and she must either submit to a divorce from her ideal or from her real husband. A little patience, a little common sense, a little less nonsense of romance, would cut down the divorce lists one-half.—[Illustrated World.

Hints on Sleep.

The question of chief importance to most people in these overwork, wakeful days and nights is how to get good sleep enough. Dr. Corning drops a few simple hints which may be of value. In the first place, people should have a regular time for going to sleep, and it should be as soon as can well be after sunset. People who sleep at any time, according to convenience, get less benefit from their sleep than others; getting sleep becomes more difficult; there is a tendency to nervous excitability and derangement; the repair of the system does not equal the waste. The more finely organized people are, the greater the difficulty and the danger from this cause. The first thing in order to sleep well is to go to bed at a regular hour, and make it as early as possible. The next thing is to exclude all worry and exciting subjects of thought from the mind some time before retiring. The body and mind must be let down from the high pressure strain before going to bed, so that nature can assert her rightful supremacy afterward. Another point is, never thwart the drowsy impulse when it comes at the regular time by special efforts to keep awake, for this drowsiness is the advance guard of healthy, restorative sleep. Sleep is a boon which must not be tampered with and put off, for if compelled to

wait, it is never so perfect and restful as if taken in its own natural time and way. The right side is the best to sleep on, except in special cases of disease, and the position should be nearly horizontal. Finally, the evening meal should be composed of food most easily digested and assimilated, so that the stomach will have little hard work to do. A heavy, rich dinner taken in the evening is one of the things that murder sleep. Late suppers with exciting foods and stimulating drinks make really restorative sleep next to impossible. Narcotics are to be avoided, save as used in cases of disease by competent physicians. The proper time, according to Dr. Corning, to treat sleeplessness is in the day-time, and it must be treated by a wise and temperate method of living rather than by medicines. This is good common sense, says the New York Star, from which paper we copy, and doubtless a vast deal of the debility, nervous derangement, and the insanity of our time would be prevented by more good, restful natural sleep.

Labor and Food.

The human body never ceases to work. Even in the most profound slumber some of the the functions of life are going on, as, for instance, breathing, the circulation of the blood digestion, when there is food in the stomach; and it follows that some part of the nervous system is therefore awake and attending to business all the day and night long. In the act of living, some of the substance of the body is being constantly consumed. The amount of work done by the heart in one day in propelling the blood is now estimated as equal to the work of a steam engine in raising 125 tons one foot high, or one ton 12 1/2 feet high. We lose in weight by working. Weigh a man after several hours' hard labor, and he will be found two or three, and, in extreme cases, several pounds lighter. If we do not wish to become bankrupt, we must replace by food the amount we have lost by labor. Hunger and thirst are the instincts which prompt us to do this. They are like automatic alarm clocks, which stop the engine at various points to take on fuel and water. In a healthy man as much is taken in as is required to maintain the weight of the body against loss. Nature keeps the account. On one side is so much food spent in work; on the other, so much received into the stomach for digestion. They should balance like the accounts of an honest book keeper. In an unhealthy person the instinct of hunger becomes disordered and does not sound the alarm, and so the person goes on working without eating until he becomes pauperized; or the instinct works too frequently, and he eats too much and clogs the vital machinery. A calculation of the business done in the body reveals the fact that for a hard working person about 8 1/2 pounds of food and drink are used up daily; some bodies use more and some less, but this is the average. The profit which the body gets on this transaction has been calculated, and may interest our readers. The energy stored up in the 8 1/2 pounds of food ought to raise 3,400 tons one foot high. Most of this energy, however, is expended in keeping the body warm and its functions active. About one-tenth can be spent in our bodily movements or in work. The profit, then, on the process is about ten per cent. This is enough to raise 340 tons one foot high each day. A profit which is quite enough for earning a good living if rightly expended, and it is probably more than most make; but all ought to strive to reach this point if possible.—[Scientific American.

Branding Cattle.

Certain parties at the North who have visited Texas and looked over the country (mostly on maps at hotels) are writing up their observations on cattle branding, for northern news papers.

A considerable fine sentiment is wasted, as usual, on cattle branding. The statements made show the utter ignorance of the writers of the subject they write about.

One writer claims, for example that, the brand must be burned through the skin, to the raw flesh in order to be effective. This statement shows ignorance of the facts and of the philosophy of the thing. The object of the brand is to produce another and different crop of hair where the iron touch, which may be clearly distinguishable from the other hair about it. This is effectually done by burning the outer cuticle of the skin. To burn deep does not improve the brand in the least. The iron should be heated to a dark cherry red and quickly applied, when the burn is almost instantaneous, giving but an instantaneous sting, when the pain ceases, as has been a thousand times proven by the actual cautery to the human subject.

If a half-heated iron is held to the skin a long time, it cooks through the skin and makes an ugly sore, which subsequently gives the animal great pain. It is true that there is a good deal of this sort of inhuman branding done. It is inhuman and injures the hide of the animal for purposes of leather.

It is also true that a burn on the outer cuticle will ultimately show through the entire thickness of the skin, owing to the changes that take place in the skin in consequence of the cicatrix on the surface.

Leather is tougher, firmer and more durable where brands have been applied than where they have not. The only drawback is, it will not finish smoothly over the brands. In other words, the more a side of leather has been properly branded the better it is for wear.

As to the suggestion to brand on the feet and legs; it shows about as much sense as was exhibited by the minister who proposed to apply the Ten Commandments to a bull's horns to prevent his goring people.

An item on the outside of this paper announces the death of Bishop Jesse T. Peck, who, it is said, gave all his property to Syracuse University, having an ambition to die without any property.

It was the pleasure of the writer of this to know Bishop Peck intimately the acquaintance extending over a series of years.

He was a large man, physically, with active and vigorous brain and a generous and manly nature. As a writer he was clear, forcible and voluminous; as a preacher he was often powerful. He was, in many respects, a model Bishop. He was clear-headed, and kind-hearted in his work in the Cabinet and the Conference room.

He belonged to the old-time stamp of Methodist preachers, and lacked vain ambition of some of the younger Bishops who have damaged, beyond repair, the Church that promoted them.

The Church is now rich and has many positions of power and money, and unholy ambition seizes men to occupy such places. Such is the nature of the government of the church that "rings" can carry almost any point, if they are sufficiently organized; and a "ring" with a Bishop or two at its head can accomplish untold mischief.

In view of this state of things, it is an irreparable loss when such man as Bishop Peck dies.

"BUCURPAIDA"

Quick, complete cure, all annoying kidney, Bladder and Urmay Disease Druggists.

Mr. George P. Miller, Hamilton, says: "I used Brown's Iron Bitters with good result for dyspepsia, nervousness and sleepless ness."

We have received from the Atch-

inson, Topeka & Santa Fe Railroad a beautiful Prospectus of the approaching Encampment of the Grand Army of the Republic, which takes place at Denver, Colorado, July 23-27.

The Encampment was held last year at Baltimore, one of the oldest cities of the Union. This year it is to be held in one of the youngest. Ample preparations are being made at Denver for the entertainment of guests, and the Atchinson, Topeka & Santa Fe R. R. will do its best in the transportation of passengers. For further particulars, address W. F. White, Gen. Pass. and Ticket Agent Topeka, Kan.

Splendid pecans at the drug store, at 20 cents a pound. They are pronounced the best ever offered in town.

"ROUGH ON RATS."

Clears out rats, mice, roaches, fleas guats, bed-bugs, skunks, chipmunks gophers. 15c. Druggists.

On Monday next, the 2nd day of July, there will be quite a change in the mail routes affecting Clarendon.

The first mail direct from here to Wichita Falls, will leave on Monday evening, July 2, at seven o'clock. It is to be a tri-weekly mail.

The line from here to Mobeetie is discontinued as a separate route, and is merged into the Clarendon and Wichita Falls route.

After July 2nd the mails from here to Mobeetie will leave Tuesdays, Thursdays and Saturdays. They will leave Mobeetie for Clarendon, Mondays, Wednesdays and Fridays. They will leave here for Wichita Falls on the evenings of the same days immediately on the arrival of the mails from Mobeetie.

We do not propose to change our publication day, for the present, as the News mailed here on Friday morning, as usual and sent South will reach the rail road about two days sooner than if mailed Saturday morning and sent North.

SKINNY MEN.

"Wells' Health Renewer" restores health and vigor, cures Dyspepsia, Impotence, Sexual Debility. \$1.

Cheering Words from Mexico.

The Rev. W. D. Powell, missionary of the Southern Baptist Convention at Saitillo, Mexico, in making application to the American Bible Society for a grant of books, says:

I baptized an entire family, who were brought to Christ through the instrumentality of a Bible given to the head of the family by a co-purporteur of the American Bible Society fifteen years ago. They were the first to unite with us after I located in Mexico.

The Rev. James D. Eaton, missionary of the American Board, says in a recent letter, to the American Bible Society:

On Saturday last I found a Mexican woman who possesses a Spanish and English New Testament published by your Society, which she some how got hold of long ago. She goes no more to mass or confession, and is practically a New Testament Christian.

NOTICE.

The pasture near town is now fully occupied by a breeding herd and all general stock should be excluded. All interested please note.

L. H. C.

A few hundred pounds of the best brands of flour can be had at the Drug Store at \$6.50 per hundred.

Bedroom Set.

Black walnut, heavy bedstead, bureau and mirror and wash stand, marble top, with curled hair mattress, bed sofa and ten foot, oak, extension table, with pillows, featherbed and bedding for sale at a bargain. Enquire at the News office.

Pensions for Soldiers' Widows, Parents, Children. Any disease; wound, injury or death entitles. Increase bounties, back pay; discharges procured. Desertion removed. All dues paid. New Laws. Fees 10 dollars. Send stamp for instructions. N. W. FITZGERALD & CO., Pension Attorneys, Washington, D. C.

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

Brown's Iron Bitters will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is positively not injurious.

Saved his Child.

17 N. Eutaw St., Baltimore, Md. Feb. 22, 1880. Gentl—Upon the recommendation of a friend I used Brown's Iron Bitters as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loath to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's Iron Bitters, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required," and when informed that the elder sister was taking Brown's Iron Bitters, responded "that is a good tonic, take it."

Brown's Iron Bitters effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

Uncle Sam's Nerve and Bone Liniment is most efficient in Rheumatism Bruises, Burns, Scalds and many other ills incident to man and beast.

Pure blood makes good health. Ackers' Blood Elixir, endorsed by eminent physicians. At druggists.

The Reverend W. A. Allan has sued the Case Cattle Company for seven head of yearlings which he claims they branded in July, 1882.

The case will probably be tried at the next term of court.

Mr. Joseph Dyer, Mt. Calm, says: "Brown's Iron Bitters has done me good service for intermittent fever and loss of appetite."

E. C. and M. T. Case left for home via Mobeetie and Dodge City on Sunday afternoon.

They express themselves as highly gratified with their trip to the Pan Handle.

An old nurse says: Dr. Ackers English Remedy is best for cough croup or diphtheria. At druggists.

The North American Review for July is received and as usual, is full of matter of interest and importance. Either of the articles it contains is worth the subscription price; but particularly the article on "Church Attendance"—the question whether the churches are growing to be less a power for good now than in former times. Published at 30 Lafayette Place, N. Y.

Feathers, ribbons, velvet can all be colored to match that new hat by using the Diamond Dyes. 10

cents for any color.

If any of the readers of this paper are growing deaf, let them get at once a bottle of John-on's Anodyne liniment. Rub well behind the ear and put a little into the ear with a feather.

What is a house without a baby? Well comparatively quiet.—Exchange.

It would seem that the commonest kind of common sense ought to prevent a man from buying trash, simply because he can get a big pack for 25 cents. Sheridan's Cavalry Condition Powders are strictly pure, and are worth a barrel of such stuff.

Leach's Ranch, June 23, 1883. Editor Clarendon News,

Dear Sir:—Had a general wind-up yesterday. Everybody turned their faces homeward this morning. The round-up broke up satisfactorily to everybody—with the exception of Bill Odem's "little con." George Washington, he had the blues, caused by a quiting, Bill gave him.

C. S. Itching Piles—Symptoms and Cure.

The symptoms are moisture like perspiration, intense itching, particularly at night after getting warm in bed seems as if pin worms were crawling in and about the rectum; the private parts are often affected. Swayne's Ointment is a pleasant, sure cure. Also for all skin diseases.

Alex Craig returned yesterday (Wednesday) with the team of horses belonging to the Case Cattle Company, which strayed about two months ago. They had Ikard's brand on them, and they had been shamefully worked and abused until they were nearly ruined. They had evidently been home collars, until their sholders were raw. Their backs were sore from the saddle.

It is a shame that stock men have no more regard for each others stray stock. It ought to be the pride of stock men to try and return stray animals to their rightful owners. Instead of that, whenever a horse or mule strays, it seems the ambition of ever man into whose hands he happens to fall, to abuse and kill him up as fast as possible. A number of instances of this kind have lately come under our notice. This is a matter for the Stock Associations to look into.

"\*\*Keep to your place and your place will keep you." But you cannot expect to keep your place without health, the foundation of all success. For instance, a railroad engineer in the employ of the C. M. & St. Paul R. R. had been grievously affected with diabetes for six years. He took four boxes of Kidney Wort and now writes that he is entirely cured and working regularly.

Leon Dikes, of the mill-iron range while cutting a beef steer at the round-up in Coleman & Dyer's range on Friday last, sustained severe injury in the form of concussion of the brain by being thrown to the ground, striking on his head.

The horse stepped into a dog hole while running very fast, and fell, turning a complete summersault, falling across Dikes' abdomen.

He was brought to Clarendon on Saturday, in an unconscious condition and placed under care of Dr. Carhart. At this writing he is steadily improving.

An Important Piece of Advice.

Few readers can be aware until they have had occasion to test the fact how much pain and expense is often saved by an early attention to any slight bodily affliction. In this connection it would be well to explain by way of illustration that any irritation of the skin or symptoms of Piles should command immediate attention and an immediate application of Swayne's Ointment otherwise it might develop into something more than superficial.

Great Excitement!!

CLARENDON = COMMOTION!!

A large, well-selected and splendid stock of goods; embracing Ladies' and Children's wear and COW MEN'S GOODS, of every description, is just received from New York, and is now displayed and for sale at the

Drug Store,

IN

CLARENDON

at the marvelous and gratifying reduction of one third from ordinary prices. It is our purpose to sell this stock of goods in the shortest time possible, and at the lowest prices that goods were ever offered for in the Panhandle. BUTTONS of every description will be sold at New York prices. We invite all to examine goods and get prices.

Wool! Wool!

KIDNEY WORT IS A SURE CURE for all diseases of the Kidneys and LIVER. This specification on this most important organ, enabling it to throw off torpidity and infection, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, securing its regular discharge.

\$100 Reward.

Will pay the above reward for the arrest of Ed. Norwood who escaped from the Oldham county jail at Tascosa, Texas on the night of June 6th, 1883. Norwood was charged with murder of John Maley. Is about 24 years old, fair complexion, light brown hair, and very little beard, has greyish-blue eyes, is about 5 feet 11 inches high, and weighs 160 pounds.

When last seen was riding a dark brown horse and armed with Colts 45 six-shooter and a Winchester rifle. Tascosa, June 10th, 1883. Jas. H. East. Sheriff Oldham Co, Texas.

PATENTS Procured or No Pay. Also Trade Marks, etc. Send model and sketch will examine and report if patentable. Many years practice. Pamphlets free. N. W. FITZGERALD & CO., Patent Attorneys Washington, D. C.

Total: \$1,919.50

NOW IS YOUR CHANCE TO SECURE TWO PAPERS FOR THE PRICE OF ONE. THE "CLARENDON NEWS" PRICE \$3.00 AND THE ARKANSAW TRAVELER PRICE \$2 PER YEAR.

After contributing your support to your home paper, your next duty is to secure for your household that publication from which you can gain the most information—a paper which instructs while it entertains, and amuses while it imparts knowledge.

No paper in the United States more nearly meets the requirements of a first-class family paper than THE ARKANSAW TRAVELER, a large forty-eight column weekly, replete with the best literature and the choicest and most original humor.

THE ARKANSAW TRAVELER is under the editorial control of MR. OPIE P. READ (late of the Little Rock Gazette), who has a reputation throughout the whole country as a writer of pure original humor.

Texas fittings says: "We have no doubt THE ARKANSAW TRAVELER will be a success; for as a humorist and satirical writer Opie Read has no superior."

The Little Rock Gazette says: "To say that THE ARKANSAW TRAVELER meets public expectation, complimentary as is the assertion, is doing scant justice. It has not only met, but exceeded the anticipations of the most zealous friends of the enterprise, and the initial number went forth to thousands, stamped 'success.' Send 5 cents for sample copy. Four copies 18 cents. Address READ & BENHAM Little Rock, Ark.

MEDICAL WOMEN'S INSTITUTE

LADIES' REGULATING TONIC THE GREAT FEMALE REMEDY.

THE FAVORITE PRESCRIPTION OF THE WOMEN'S MEDICAL INSTITUTE, NUNDA, N. Y., U. S. A. (FORMERLY BUFFALO, N. Y.)

For Protrusion Uteri or Falling of the Womb, Inflammation and Ulceration of the Womb and all displacements, Leucorrhoea or Whites, Irregular or Painful Menstruation, Flooding, Sick and Nervous Headache, Indigestion, Dyspepsia, Heartburn, Weakness in Back and Stomach, Scrophulous Pains in Side, Discharges, Biliary Complaints, Excesses, Nervous Prostration, Depression of Spirits, For Change of Life, or the General Debility of Women,

"LADIES' REGULATING TONIC" has no equal in the world. If you have tried other remedies without success, do not be discouraged, but give "LADIES' REGULATING TONIC" a single trial. It never fails to give quick and permanent relief. If you are troubled with any weakness or complaint common to our sex, let us send the doctor's prescription for once, and try "LADIES' REGULATING TONIC," which we guarantee will positively cure you.

\$5.00 will be given for any case of Female Weakness or Debility which "LADIES' REGULATING TONIC" will not cure. This is a bona fide offer, made by responsible parties, who know from experience what "LADIES' REGULATING TONIC" can do. The great success that this remedy has secured has induced several unscrupulous parties to endeavor to imitate its name and style of wrapper. Care should therefore be taken to see that the word "REGULATING" is on wrapper in red ink, and that our name (Women's Medical Institute, Nunda, N. Y.) is printed on each box.

We will give \$5.00 for information and conviction of any one manufacturing, selling, having, or in any way handling a preparation which is not our "Ladies' Regulating Tonic," with intention of deceiving and depriving the public into the belief that it is our preparation. Sold by Druggists. Price, \$1.00 per Bottle, or 6 Bottles for \$5.00. If your druggist cannot furnish or deliver, order it of his wholesaler or house for you. It will be sent direct from our INSTITUTE upon receipt of price. Do not let him induce you to accept any other, patent stuff he has laid out to sell for a longer time, or any of the unreliable imitations which he induces a larger profit on than our genuine Female Remedy. There is scarcely a town in the United States where we cannot refer to some lady who has been restored to health by using our remedy. It does not cure you, so you will not find the money.

We stock our reputation as wives and mothers, and that of our Medical Institute, on this special prescription for women. Leucorrhoea or Whites. An infection which is a positive cure for all Discharges, Singing, Stinging, and Itching Sensations of the Vagina. It occurs in from two to five days. Sold by druggists. Price, 25 cents, or sent by mail, postpaid, for 25 cents in 10-cent stamps. Ladies' Regulating Tonic. A good improvement over all other porous plasters. Respectfully directed to the female system. Sold by druggists. Price, 25 cents, or sent by mail, postpaid, for 25 cents in 10-cent stamps.

THE WOMEN'S MEDICAL INSTITUTE is the association of Lady Physicians, who have successfully treated the diseases common to the female system. Treatment given to ladies suffering from any disease, either by visit or correspondence. Wives, Mothers and Daughters can obtain advice concerning their health and diseases by mail, free, by sending symptoms and description of disease. If we can be of any service to you or any of your friends who are suffering from disease, we trust you will write us. If you need a copy, send us a stamp or a letter will cure you. Enclose two stamps for our pamphlet to women. Please mention this paper, faithfully yours, WOMEN'S MEDICAL INSTITUTE, NUNDA, N. Y.

REPORT OF THE CONDITION OF THE GAINESVILLE NATIONAL BANK, AT GAINESVILLE, IN THE STATE OF TEXAS, AT THE CLOSE OF BUSINESS, MARCH 19, 1883.

Table with 2 columns: Resources and Liabilities. Pensions For Soldiers, any Title. For \$10. Increase pensions, bounty, back pay and honoraria discharges, proceed. NEW LAW. Send stamp for instructions. E. H. BELSTON & CO., Attorneys, Box 73, Washington, D. C.

Patents. No continue to act as solicitors for patents, caveats, trade-marks, copyrights, etc. for the United States, and to obtain patents in Canada, England, France, Germany, and all other countries. Thirty-six years' practice. No charge for examination of models or drawings. Advice by mail free. Patents obtained through us are noticed in the SCIENTIFIC AMERICAN, which has the largest circulation, and is the most influential newspaper of its kind, published in the world. The advantages of such a notice every patentee understands. This large and splendidly illustrated news paper is published WEEKLY at \$3.20 a year, and is admitted to be the best paper devoted to science, mechanics, inventions, engineering works, and other departments of industrial progress, published in any country. Single copies by mail, 10 cents. Sold by all news dealers. Address: Munn & Co., publishers of Scientific American, 231 Broadway, New York. Handbook about patents mailed free.

**Stock Notes.**  
The next annual meeting of the State Wool Growers' Association will be at Taylor, Williamson county. Mr. A. Symes promises the body a cordial reception, and thinks this rotary system will be most beneficial.—[Wool Grower.]

The wool market seems to be badly broken up and sheep men are in hot water.

A good many Texas ranchmen who used to swear by Spanish bulls are converted.—[Live Stock Journal.]

The above item may be true as to some localities of Texas, but so far as the PanHandle portion is concerned, we have not heard of the conversion of a ranch man, nor have we known any of them to "swear by Spanish bulls." Some of them are addicted to grosser profanity than that; and they have their imitators in imported "dudes" and high-toned officials. I would be more creditable to them if they would "swear by Spanish bulls."

San Antonio just at the present seems to be a place prolific in news concerning cattle and horse thieves. We have a dispatch from there June 5th which says: John House, three of the Trammell brothers and one White have been arrested in Gonzales county for stealing cattle. Nineteen head of the cattle stolen were recovered yesterday, and sixty head more were driven into Gonzales to-day to be claimed. There is great excitement and the news arrives this evening that one Mexican was hanged by a mob of stockmen on the Eclote in Gonzales county. It is feared the indignant people who have so long suffered from thieves will resort to violence and shoot or hang those confined in jail in several counties. Capt. Sheely of the rangers has all his men in the field with passes, making arrests and reclaiming stock on which the brands have been blotched. About thirty arrests have been made the past week and the rangers say the work has only commenced. Praises are loud for Sheely and his brave boys.—[Live Stock Journal.]

The patents on barbed fence wire are overthrown by a late decision of Judge Treat, made in the United States Circuit Court, St. Louis, Mo., on June 4. What effect this decision will have in reducing the cost of barbed wire remains to be seen. The probabilities are that prices will come down, as the chief monopolists in this department of manufacture have made about \$5,000,000 in the last few years out of this commodity.

Texas now presents the spectacle of paying half a score of professors of the state university \$3,000 apiece salary per annum, without any university building to put the professors in, and without any students for them to teach. But there is a cash balance to spend.—[Cleburne Chronicle.]

Certainly the person who penned the above paragraph never looks into the papers. If so, he would have known that the west wing of the university is now nearly completed, and that it will be ready for its uses by the 15th of September, when the first session of the university will begin. The pay of professors will begin then, when their labors begin. The salary of one professor has been voted from the 15th of May, and he has already devoted considerable time to preliminaries, and will be employed during the summer, in selecting and having arranged for the opening apparatus that are necessary for the proper conduct of the institution.

Trade knows no religion. England supplies thousands of little glass gods to Burmah. They are made at Birmingham, and cost one shilling and sixpence, but retail in India at prices very much higher.

**For Sale.**

**THE NEWS**  
DAILY and WEEKLY.  
ESTABLISHED 1842. INCORPORATED 1881.

The Galveston News commences the year 1888 by offering its Double Sheet Weekly at the reduced price of \$1.50 per annum. This edition will be made up and carefully edited, with a view to supplying in the fullest measure and the most convenient and acceptable form the newspaper wants of country readers, farmers, husbandmen, ranchmen and others, who by circumstances of residence and occupation are deprived of regular access to any daily paper. In such a publication subscribers will have one of the largest and cheapest weeklies in America, and one which replete with intelligence especially interesting, and in a sense absolutely indispensable, to the classes for whom it is more particularly intended.

As for the Daily News, as a daily visitor and silent though tireless converser, it can speak for itself. It is deemed needless to couple the entrance of such a journal upon another year with promises and assurances. As was said when it entered upon the preceding year, its record in the past may be pointed to as furnishing the most authentic and most telling prospects for the future.

The motto of The Galveston News, Daily and Weekly, will be heretofore, as heretofore, **EXCELLENCE.**  
**TERMS OF SUBSCRIPTION.**  
DAILY—Per annum, \$1.00; six months, \$5.50, with sent by mail per month, \$1.  
DOUBLE SHEET WEEKLY—Per year, \$1.50 fifty copies, one year, \$2.50.  
Favorable to us. Free of postage to all parts of the United States and Canada.  
Remit by draft on Galveston, post-office money order, or registered letter.  
**A. H. BELO & CO.,**  
GALVESTON, TEXAS.  
Specimen copies sent free on application.

**City Property.**  
Lots and building sites in the village of Clarendon, may be secured for the ensuing ninety days at special rates. The property is exempt from all tax for a period of over 20 years. Location water, society, school and church privileges, stage and mail facilities and prospective early railway connection, all that can be desired.  
Address—**L. H. Carhart**  
Clarendon, Texas
