TERMS FOR ADVERTISING.

Table with columns: SPACE, 1 w., 2 w., 1 m., 3 m., 6 m., 1 y. and rows for 1 square, 2 squares, 3 squares, 1 column, 2 columns, 3 columns.

One inch in space constitutes a square. Business Cards, five lines or less, \$5 a year. All bills for advertising are collected quarterly.

The Temperance Question Now.

Chicago Advance. A short time ago we sent out cards to representative men all over the country asking them to answer the following questions:

- 1. What ought to be done in regard to the Temperance question now? 2. What ought to be attempted?

The following answers have been received:

- 1. (a) Agitate, agitate, agitate. (b) Avoid all side issues, e. g., woman suffrage; whether drinking is a sin per se; whether two kinds of wine, etc. (c) Stick to total prohibition of the saloon nuisance. 2. The seating men in the next Legislature who will take their seats pledged to vote for the submission of the question of constitutional prohibition to the people. 3. Third party candidates only where neither the Democrat nor the Republican candidates will pledge himself to vote as above.

Chicago. Herrick Johnson.

1. Every good citizen and Christian especially should redouble his energy and enlist for the war against alcoholic beverages.

2. More than we may be confident can be done speedily. High standards draw after them noble improvements.

3. Not a "third party," but a new party, to be drawn out from the two dominant and dreadfully debased present parties for the next great battle for human and social welfare in his world. J. L. Withrow, Boston.

Let there be no abatement of legislative effort, but do two things now neglected: 1. Punish the drinker instead of petting him. 2. Scientifically educate the children to temperance principles.

I would not have a Temperance Party any quicker than an Anti-Tariff Party, or a Monogamy Party. My hope is, since the feudalism of the Republican Party has burst its hoops here may some organization arise under leaders clean and honest enough to deal wisely with all reforms. Mansfield, Ohio. Frank Russell.

I believe the aim should be the absolute prohibition of the liquor traffic. If the times are not ripe for the immediate accomplishment of this let us come as near it as we can. An effort to rigidly enforce existing laws is a step in this direction, revealing as it does the utter impotence of license laws to restrain the evil, and the determination of liquor men that it shall not be restrained. I have no confidence in a third party for this purpose; I have never seen any permanent good thus accomplished. St. Louis. Geo. C. Adams.

1. The "Temperance question" ought to be pushed to the front and kept there, as an issue of the utmost practical importance. It ought to be discussed by pulpit and press, and "kept before the people" by means of temperance organizations of different kinds, and by popular literature, tracts, lectures, debates, and the right kind of text books in the common schools, creating a public sentiment, which will enforce prohibitory legislation.

2. A constitutional Prohibitory Amendment should be secured as early as possible in every State, or in lieu of that the most stringent prohibitory laws.

3. Wherever existing parties will not adopt and enforce the principles of true temperance--so as to allow the advocates of temperance to work through them--they should be ignored and a new party formed. There is no other issue of equal importance before the American people. Northfield, Minn. Jas. W. Strong

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious. Brown's Iron Bitters will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is positively not injurious.

Saved his Child.

17 N. Eutaw St., Baltimore, Md. Feb. 12, 1880. Gents: Upon the recommendation of a friend I tried Brown's Iron Bitters as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's Iron Bitters, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said, "Tonics were required, and when informed that the elder sister was taking Brown's Iron Bitters, responded "that is a good tonic, take it."

ADORAM PHELPS.

BROWN'S IRON BITTERS effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

Advertisement for Swaynes Pills, featuring a portrait of Dr. Swaynes and the text 'SWAYNES PILLS PURIFY THE BLOOD ACT AS A HEART CORRECTOR'.

Advertisement for The Miller Cutlery Co., Meriden Conn. U.S.A., featuring an illustration of a pocket knife and the text 'FINE POCKET CUTLERY, Ladles' Scissors and Ink Erasers, STEEL PENS.'

Advertisement for Quill Action, Reservoir Pen, 'THE ACME', featuring an illustration of the pen and the text 'THIS PEN FITS ANY HOLDER. Our whole line of Pens will be sold by the trade. Price Lists furnished to dealers on application.'

Houston S. Among the claims filed for services rendered President Garfield during his illness, is said to be one for \$200, filed by a woman who did nothing but feed on rice and milk. An exchange says that this suit is quite as worthy of consideration as that of Mrs. Edson for \$10,000 for nursing the deceased President through his last illness, and that it should be allowed.

Texas Sitings.

A New York paper is in favor of giving every Indian "a chunk of land". We think that this must be a typographical error. It should have read that the editor was in favor of giving every Indian "a chunk of lead." The compositor forgot to lead the article properly. Giving each Indian a chunk of lead would be the saving of a great amount of gold to the American people. On the other hand, it would perhaps be a little severe on the Indian agents, army contractors, and the members of the Indian ring at Washington city. A cold winter is approaching, and it seems cruel to cut down a member of the Indian ring to one diamond breast-plate, but we are nevertheless, in favor of each and every Indian having a liberal chunk of lead. As the Indian has no vote, we think we reflect the sentiment of the wealth and intelligence of the people on this question.

Fort Worth Gazette.

"You had better pay more for your whiskey and less for your coat," said ex-Governor Dorsemer, congressman-elect in New York, in a recent speech. Let every man put the philosophy of the remark in his pipe and smoke it till the next election. Many think the demand for the repeal of the internal revenue laws comes from the people directly interested--the brewers, the distillers, the dealers and the tobacco manufacturers, or the people who drink the liquor and chew and smoke. But not so, the advocates of free liquor and free tobacco are the protectionists--the class who are interested in the present high protective duties and in keeping up or increasing the rates. They know that the abolition of the internal revenue system will reduce the revenues \$140,000,000 annually, and establish the necessity for the continuance of the present high tariff rates.

Massacre by Mexican Indians.

N. Y. World. Denver, Col., December 5.--Particulars have been received here of the wholesale slaughter of Americans and Mexicans by Juh and his band, near the town of Casas Grandes, in the Arayo de Encinallas, in the State of Chihuahua, Mexico. Juh and his band have been committing various depredations for some time past, and the Politico of Galliano, and Don Juan of Caraduo, and other citizens gathered a band of about thirty men and started after the Indians. They came upon them unexpectedly and were immediately surrounded by the Indians in the Arayo. The Politico at once despatched one of his men for assistance, and the man reached Galliano safely, got together a relieving party of seventy men and started out for the scene of the trouble. Juh sent out a party who engaged them in a fight and prevented them from joining the Politico, and they saw their friends slaughtered without being able to do anything for them. Every one of the Politico party, with the exception of the man who went for succor, was butchered by the savages. The Indians then retreated to the Sierra Madre. When the friends of the victims went to bury the dead they found the bodies of five Americans who had also been killed by the Indians. Two of the Americans were from Grant County, New Mexico. Their names were James Biggs and W. McDow-

all. They had been in Chihuahua for some time purchasing cattle and were then on their way home. It was Juh and his band who some time ago murdered several citizens of Chihuahua.

The Mississippi.

Scientific American. Some interesting and extraordinary data have just been compiled respecting the Mississippi. It appears that it boasts no fewer than 55 tributary streams, with a total length of navigation of 16,577 miles, or about two-thirds of the distance round the world. Even this, however, represents but a small amount of the navigation which will follow when the Federal Government has made the contemplated improvements in the Upper Mississippi, in the Minnesota, Wisconsin, and other rivers, in which it is now engaged. But while the Mississippi has 16,571 miles navigable to steamboats, it has 20,221 miles navigable to barges. This navigation is divided between 22 States and Territories in the following proportions: Louisiana, 2,500 miles; Arkansas, 2,100; Mississippi, 1,380; Montana, 1,310; Dakota, 1,280; Illinois 1,270; Tennessee, 1,260; Kentucky, 1,260; Indiana, 840; Iowa, 820; Indian Territory, 720; Minnesota, 660; Wisconsin, 460; Ohio, 550; Nebraska, 400; West Virginia, 390; Pennsylvania, 380; Kansas, 240; Alabama, 200; and New York, 70. Nearly all sections of these States and Territories can be reached with ease. Louisiana, Arkansas, Mississippi, Montana, Dakota, and the Indian Territory possess more miles of navigable stream than miles of railroad, all of which are open to everybody who wishes to engage in commerce.

INDIGENOUS POTATOES IN ARIZONA.--At a meeting of the California Academy of Sciences, November 6, Mr. John G. Lemmon reported the results of a summer's tour of botanical exploration among the mountain ranges along the Mexican frontier of Arizona. Among his discoveries were two or three varieties of indigenous potatoes, found growing abundantly in high mountain meadows surrounded by peaks attaining a height of 10,000 feet above sea level. The tubers were about the size of walnuts. Mr. Lemmon brought home a supply which will be carefully cultivated.

This interesting discovery goes far to settle the long vexed question of the origin of the potato.

THE SAND INDUSTRY.--A large amount of capital is invested in the north side of Long Island in the sand trade, and the industry is fast assuming large proportions and is constantly growing. Four years ago there were but eight firms in the business, with a capital of not over \$80,000. To-day it is estimated that over \$2,000,000 are invested in the island. From recent estimates, it is safe to say that 4,500 tons of sand are taken from the north shore of the island daily. Vessels are loading night and day, and the sand is delivered at all points for building purposes. The revenue from the industry is estimated at over \$100,000 yearly to Port Washington alone.

The Business Outlook.

New York Commercial Bulletin. General business throughout the country is active, though probably less profitable than a year ago, and in some respects it is either suffering from a natural reaction or accommodating itself to new conditions. There are also certain other unfavorable circumstances, affecting the situation, such as the backwardness of the winter season, the stringency of money, the depression of the iron trade, which, however, has been much exaggerated--and the violent outbreak of speculation in stocks, oil, etc. Yet it would be unreasonable to expect

[From Our Regular Correspondent.]

Washington, December 11, 1882. The activity of Congress during the first week of the session is a matter of universal comment. Two appropriation bills, the Indian, and the Consular and Diplomatic, have been passed. The House Committee on appropriations has shown remarkable industry. The Post-office bill will probably be taken up to-day and the Pension bill before the close of the week and it is thought they will both be passed without protracted debate. The West Point Academy bill, the Fortification and holiday recess. The Naval bill will be ready to be reported next week, and it too may be passed before Christmas. There will remain only the legislative, executive, sundry civil, and deficiency bills to be passed after January the 1st. The civil service reform bill is a part of the legislative bill, and it is thought that it may be passed, though not without much debate and amendment. The desire to reform the civil service is so great, that the session will hardly close without the passage of some measure for that purpose.

The river and harbor subject was opened anew in the House on Saturday. There was an animated debate between the friends and foes of the scheme. Chairman Page, of the commerce committee, submitted a resolution in which Secretary Lincoln was asked to state whether any of the money appropriated in the last river and harbor bill was not for the benefit of commerce and navigation; whether any of the money had been withheld, and if so for what cause; and the amount likely to be on hand at the end of the current fiscal year.

It is still early to speculate on the next presidential race, but the vice-presidential campaign is rapidly looming up. Senator David David's term expires on the 4th of next March, and unless the senate is called in extra session and a presiding officer chosen the republic will again be without a vice president. The entire range of perplexing question relative to the presidential succession and the methods of elections and returns ought to be vigorously grappled by the present congress, and settled definitely and finally. Business, as well as political interests, are jeopardized by the present uncertain status.

It has been the uniform practise for many years to adjourn over from Friday (or more frequently from Thursday) until the following Monday until the sessions have been well advanced, and the fact that no motion was made last week in either house for any such purpose is regarded as a significant indication that the present session is to be devoted to steady work. It is said by the oldest employes at the capitol that Saturday's session of the house and senate was the first that has ever, within the period of their recollection, been held on a Saturday in the first week of a session of congress.

Mr. J. V. Sampson, Oak Ridge Tenn., says: "Brown's Iron Bitters cured me of a case of chills that defied other remedies."

Considerable excitement is just at present being created over the late revelations alleged to have been made by the late Thurlow Weed deceased concerning his connection with the Morgan mystery.

An old nurse says: Dr. Acker's English Remedy is best for coughs croup or diphtheria. At druggists.

It is reported that the State capitol lands are to be fenced and rented to stock growers. If so numbers of cattlemen can find range for large herds provided water in sufficient quantities can be found.

"Rough on Rats."

Clears out rats, mice, r coches, fleas, ants, bed bugs, skunks, chipmunks gophers. 15c. Druggists.

EXCURSION

An excursion to the "Palo Duro" Canyon and contiguous points of interest, is one of the probable events of the coming early summer. Twenty to fifty persons, well chosen and equipped for a ramble of two to four weeks commencing about the first of June, is embraced in the out-line of present thought. Those who have read the description of Palo Duro by District Attorney Houston, in a recent number of the "News," will gather a glimpse of its extent and beauty. Our party might linger in and about this unique valley of the "Red" for a week or more, thence across an arm of the Llano Estacado, to "Running Water," calling on our friends the Morrison Bros. and get a possible glimpse of the wild buffalo on his native tramping ground. Thence north and west to the Gunter and Munson ranch and the fine scenery about there. Thence to Tascosa, and by a gentle swing touch the Canadian, North Fork, and Sweet-water, at sundry good watering and camping grounds not omitting McClellan creek, and Glenwood, and other points not remote from Clarendon. We would want the party drawn together by kindred motives, rest, recreation, pleasure, and sight-seeing. And would want easy and comfortable conveyances, with all things needed for comfort, tents, cots, mattresses, blankets, books, field-glasses, music implements for hunting and fishing. And would expect to have an experienced cook to cater to the whole crowd, and provide his "mess wagon" with all thinkable or obtainable luxuries. The party would be relieved of all worry and work. And would try and make easy drives under an experienced guide. Studying comfort rather than speed and despatch. And would tolerate press correspondants for the "Harpers," "Herald," "World" and "News," and if possible take views on the spot exact and life-like for illustration, or future use. And would try and have an expert in Geology, Mineralogy, and Botany, to note all facts and secure specimens for our Seminary Museum at C. Our Sportsman would keep our table well supplied with savory meats, our poets could effuse to the last extent, and our ladies could practice in the use of the revolver, rifle, and the rod, or in horseman-ship at their own sweet-will and study the art of keeping in perfect fashion with one change a week and withal, and better than all, grow brown, stout, and robust! All chronic grumblers would be left at home and each endeavor to make himself happy in the increased comfort of others. We would especially try to leave all care, anxiety, and work, behind, and go in for a royal sea-side recreation along the frontier shore of these endless oceans of land! We would see the wild animals and game among their native haunts and with but little fear of man. Our course would be among the vast herds of cattle and over the grazing grounds of many of our princely stockmen. Cap. Charles Goodnight, whose herd of 35,000 head and range of more than 50 miles square borders us on the south west, has proffered all possible aid and co-operation through his borders and elsewhere, we shall have a chance to see the thousands of "Cow-boys" and stock men are gentlemen. Perhaps we can strike a "roud up" and see "how they do it" on the plains. Seats could occasionally be exchanged for saddles and a wild free gallop over meadows as perfect as eden and as old as the flood. Each could arrange transportation individually or in little groups. Hacks and buggies with seats of the accommodation for from two to six persons would be best and easiest. No jobs nor extra costs! Our party would probably be at least half made up at Clarendon and Mobeetie, with quite a number from abroad whose summer vacation would favor, who have long desired a relief from conventionalities, in a "camping out" ramble of this nature. The air is so pure and bracing and the health of the country so perfect that men or women of even so delicate health can take this trip safely and to profit. A special post-boy would keep us promptly up with our mail. The party penciling this easily realised outline trip has no personal ends to subservise, but is simply planning for himself and others a month of interest and pleasure. Will be glad to hear an echo from home and abroad. Address the "Clarendon News" at Clarendon Tex. or L. H. Carhart, 456 Washington Ave, Brooklyn N. Y.

N. Y. World. THERE IS TO BE A MAGNIFICENT new Pension office at Washington 400 feet long, 200 feet deep and at the main cornice 75 feet high. It will have 166,000 square feet of flooring and space for 1,500 clerks. Dividing 166,000 by 1,500 we find that each clerk will have an allowance of 110 2/3 square feet of floor space. Through the gymnastic exercise necessary to relieve the monotony of his office hours. It is pleasant to reflect that when the pension list is raised to \$150,000,000, as we are promised by Republican papers, that it shall be during this short session of Congress, the country will have not only a very handsome building, but one handsome clerk for every \$100,000 to show for its money. It might be objected that no allowance has been made in the dimensions of the building for a steady increase in the number of clerks to correspond with the prospective growth of the pension list beyond \$150,000,000; but the Republicans, with not less humanity than forethought, and designed that their time for stretching things was nearly up, allotted the space and the clerks necessary to deal with the extreme limit of appropriations for pensions. So nice was the calculation that the "fractional part" of a square foot to each clerk is the only superfluous space in the building, and even this may be utilized for cigar-ashes.

KIDNEY WORT HAS BEEN PROVED THE SUREST CURE FOR KIDNEY DISEASES. Do not take back or disordered urine indicate that you are a victim? THEN DO NOT HESITATE, use Kidney-Wort at once, druggists recommend it and it will speedily overcome the disease and restore healthy action. Ladies. For complaints peculiar to your sex, such as pain and weakness, Kidney-Wort is unsurpassed. It will act promptly and safely. It cures Neuritis, Incontinence, retention of urine, betak dust or rocky deposits, and dull dragging pains, all speedily yield to its curative power. A. SOLD BY ALL DRUGGISTS. Price \$1.

HOME NEWS

Albert Dyer is in from the ranch.

McClelland took a flying trip to Mobeetie, Wednesday.

Charley Beverly returned from Mobeetie Tuesday.

One of Mr. J. C. White's little girls has been dangerously sick for the past few days.

No clue has yet been found to the man who was lost near Mobeetie on the night of the 6th.

Charley Ford was in from the breaks in the fore part of the week, he soon starts south for his home near Gainesville.

Mr. J. F. Evans left his ranch on Monday last for Sherman. Judge Brown left at the same time for Kosse, Tex.

Mr. C. H. Kimball left Monday morning for Mobeetie. He has been busily engaged at Van Horn's store during the past week.

It will be of interest to our people to state the fact that H. B. Hawkins, formerly a resident of Clarendon, has gone to New Mexico.

Mr. and Mrs. C. Goodnight left early this week for Austin, Sherman, and Hot Springs Ark. They expect to be absent about two months.

Miss Jesse Brewer arrived on the stage Monday night from Mobeetie. She comes to visit with her sister Mrs. E. K. Carhart during the holidays.

We gladly welcome the reappearance of the Mobeetie Panhandle and hope hereafter to see it come in at its usual time and with its usual amount of interesting news.

A. Bartlett having secured passengers for his trip to Wichita Falls has started out ahead of the time appointed. He takes Mr. and Mrs. Goodnight to the Falls.

Through the kindness of Messrs Hartman and Thompson several parties were treated to a ride Sunday evening, said parties extend thanks to the above named gentlemen.

We are in receipt of the Spectator published at Galveston. After careful inspection of its columns we have found it to be a clean carefully edited sheet and we gladly welcome it as an exchange.

D. W. Van Horn & Co. will close out all summer goods at cost from their at ores at Fort Elliott, Mobeetie and Clarendon—to make room for a large fall and winter stock.

Mr. Adams who has been running the hay press for Forest and McClelland, brought in the press Sunday evening from the Jack Rush camp where he finished up his last job of pressing.

Ho! for Holiday Goods at the Drug Store.

A large and splendid assortment of jewelry and other goods, specially adapted to the Holiday Trade, has just been received. Every article is warranted to be just as represented.

Call early and have first choice.

The importance and value of Johnson's Anodyne Liniment to a family cannot be estimated in dollars and cents. It is both for internal and external use and will prevent and cure diphtheria and all dangerous throat and lung troubles.

Mr. O. H. Nelson Jr. of Burlington Kas. Mr. J. R. Price of Williamson Ill. and Mr. S. R. Taylor of Emporia, Kas. passed through town to the Hall range on the 10th. and returned Thursday last. Messrs. Price and Taylor are down through this country for the first time. They are contemplating making extensive purchases in this section.

Now that we have received our new stock of printing material we can rest easier. We are now prepared to fill orders for Job work of almost any description with dispatch and at reasonable rates. Call and see us.

Mr. C. M. Hinsdale book-keeper for Goodnight left on the stage, Wednesday morning, to visit relatives and friends in Pueblo Col. where he expects to spend the Holidays. We wish him a pleasant time and extend to him the compliments of the season.

Mr. Frank Sheik, of Mobeetie was in town Monday and was busy while here in securing beef we acknowledge a pleasant visit from him in company with Mr. Parks at our office, he reports everything in a prosperous condition at Mobeetie.

Mr. Phink and Johnny Clark gave us a pleasant call on Tuesday afternoon, Johnny said he was doing his part for the Christmas festivities, he has been looking up a Tree and reports that he has succeeded in finding one which he thinks will answer the purpose exactly.

Remember the little ones next Monday night and make them glad by contributing to the Christmas Tree. The ladies of the committee are doing their part giving time and labor in selecting gifts to be placed on the tree and in training the children for their part of the programme.

Mr. S. P. Reed busied himself on Wednesday last in canvassing the News office overhead, and he executed the job nicely, and did not as we expected pi things for us, he got of very easily considering that while the foreman was innocently gazing up at him he pried the hammer into the foreman's eye.

Now that Christmas is approaching the demand for cards will be large and to meet the demand we have on hand a large assortment of Christmas and New Year cards ready to be printed on receipt of order.

Faded articles of all kinds restored to their original beauty by Diamond Dyes. Perfect and simple. 10 cents, at all druggists.

A communication from J. W. Carhart, is to the effect that he is at present uncertain as to his immediate return to Clarendon. He has been visiting with his brother H. S. Carhart at Evanston Ill., and he is now in Chicago. He says that he is greatly improved in health but longs to breathe the Texas air again, and will make due effort to reach here.

A one cent revenue stamp is about all the value there is to the large packs of horse and cattle powders now sold. If you want a strictly pure article get Sheridans. They are immensely valuable.

Mary Jackson, Union City, Tenn., says: "I used Brown's Iron Bitters for nervousness and it helped me very much."

The largest bar of gold ever cast in the United States weighed 450 pounds. An invitation to walk up to the bar would have been accepted by almost any man.—Detroit Free Press.

Dr. Jaques' German Worm Cake stand unrivaled as a worm medicine Give them a trial. Sold by all Druggists.

The Alamo House at Denison Texas burned on the night of the 20th. The fire originated in the kitchen.

An Unwritten Point Of History.— Truth is indeed stranger than fiction. It is interesting to note how some of the most illustrious historical characters died. Richard Coeur du Lion like the animal from which his heart was named fell by the arrow of an archer, George IV passed away a victim of gluttony and dissipation. Henry VII, died of carbuncles and scurvy, because to those days there was no Swayne's Ointment for skin diseases to cure the afflictions in the beginning.

The transit of Venus, despite the predictions of the people who express doubt in regard to any enterprise was a success. Nothing occurred to mar the pleasure of the entertainment.—Arkansas Traveler.

H. L. Wright was among us again on Monday. He drove in from the Falls loaded with corn for the Carroll Creek ranch and other freight for the White House and News office. He was accompanied by six other freighters who were loaded with corn bacon flour and other supplies for the Goodnight and Gunter ranches.

We had the pleasure of accepting an invitation to dine in company with several friends, with Mr. and Mrs. J. H. Parks. We regret our inability to describe sufficiently the sumptuous repast, and also the efforts of Mr. Parks and lady in making the occasion as pleasant as possible.

William Ross accompanied by Al Whitley and Dave Maxwell arrived here, Tuesday, from the vicinity of Running water where they have been engaged hauling posts out of the breaks for Goodnight. They will remain in town until after Christmas.

All persons indebted to D. W. Van Horn & Co. at Fort Elliott, Mobeetie or Clarendon, are requested to call and settle accounts.

We wish to purchase a heavy stock of goods this fall and need our funds for this purpose.

D. W. Van Horn & Co.

"Little thanks are due to him who only gives away what is of no use to himself" The thanks of invalids the world over are being showered on the inventor of Kidney-Wort, for it is giving health to all. Kidney-Wort moves the bowels regularly, cleanses the blood, and radically cures kidney disease, gravel, piles, bilious headache and pains which are caused by disordered liver and kidneys. Thousands have been cured why should you not try it.

It is with regret that we report the death of Sheriff Musick of Vernon while faithfully performing his duty. The following taken from the Seymour Crassell, describes the affair in particular:

"We have been informed that on the 8th inst, in a saloon, in Vernon, Willbarger county, there was an altercation between George Cranmer and other gentlemen which was about to cause bloodshed, when sheriff Musick stepped in between the parties to quiet them. Cranmer shoved his pistol into his coat pocket when it accidentally went off and the ball struck sheriff Musick in the side ranging downwards, and caused his death in two hours. We regret to hear of the death of Mr Musick; he was a good citizen and an efficient officer and his loss will be deeply felt at Vernon and his place not easily filled.

THE LIFE-SAVING SERVICE ON LONG ISLAND.—The Government committee have concluded their examination of the Life-Saving Service on the Long Island Coast. They dismissed several members of the crews as incapable and appointed new men in their places. The stations were found generally in good condition and better equipped than in former years.

WASHINGTON, December 10.— Captain Davis, of the Fourth Infantry, the engineer in charge of the Washington Monument, has decided to add four more courses of granite and marble to that structure before roofing it over for the winter. The courses will add eight feet to the height of the column, which is now 334 feet.

How To Win Back A Recreant Lover.—Claudia.—No, Claudia, we cannot recommend any sure way of winning back your recreant lover unless you confide in the secret of your separation. You intimate that he was about to propose marriage, but there you stop. Tell us all. Perhaps the sight of those horrid pimples on your face disheartened him. If so all is not yet lost for Swayne's Ointment for skin diseases will speedily restore your beauty and with it your lost lover.

Business is reported improving in the East. The cold weather and heavy snow has created a demand for seasonable goods, and a great deal of produce is being shipped from the West. The railroads are now having all they can do, and are said to be earning full rates.—Dodge City Times

PARSONS' PURGATIVE PILLS MAKE NEW RICH BLOOD. And will completely change the blood in the entire system in three months. Any person who will take 1 Pill each night from 1 to 12 weeks, may be restored to sound health, if such a thing be possible. For curing Female Complaints these Pills have no equal. Physicians use them in their practice. Sold everywhere, or sent by mail for eight letter-stamps. Send for circular. I. S. JOHNSON & CO., BOSTON, MASS.

DIPHTHERIA CROUP, ASTHMA, BRONCHITIS. JOHNSON'S ANODYNE LINIMENT (For Internal and External Use). CURES Neuralgia, Influenza, Sore Throat, Bleeding at the Lungs, Chronic Hoarseness, Hacking Cough, Whooping Cough, Chronic Rheumatism, Cholera Diarrhoea, Cholera Morbus, Kidney Troubles, Disinfects the Spine and Lame Back. Sold everywhere. Send for pamphlet to I. S. JOHNSON & CO., BOSTON, MASS.

MAKE HENS LAY. Longfellow's study remains just as he left it. Not a book nor a piece of furniture has been moved. The gates to the grounds of his old home are always open to the visitor, but within the house the bereaved family are secure from intrusion, and their life goes on as it did before his death, save for the great void that never can be filled.

Dyspepsia and Indigestion. Elgin, Bastrop Co. Tex. Dr. Clarke Johnson:— I was afflicted with Dyspepsia for two years and was unable to keep food on my stomach. The use of your reliable INDIAN BLOOD SYRUP cured me. W. F. McDAVID

WILLIAMSPORT, Dec. 7.—The post office at Lewisburg was broken into last night and robbed of between eight hundred and a thousand dollars cash and postage stamps. The postmaster has no clue to the robbers as yet.—Phil. Inquirer.

"Buchupaiba" Quick, complete cure, all annoying Kidney, Bladder and Urinary Disease \$1. Druggists.

Stock Notes.

Dressed Beef.

Cleveland Leader.
The railroads need borrow no trouble about live stock giving way to dressed beef shipments. They can box up the stock cars, and as double as many carcasses as live animals can be carried, of course shippers can afford to pay more for the transportation of dressed than for live animals. This dressed meat business has advantages in its favor that cannot be lightly considered. A train of dressed beef going from Chicago to New York can travel as rapidly, with the use of air brakes, as an express train; it does not have to stop at feed and watering places, and the load improves in quality every hour. By the use of patent palace stock cars equally good running time can be made with a train of live stock, but with the best care that can be given the load must deteriorate every hour from Chicago. Perhaps, after all the refrigerator men have better solved the problem of how to ship stock most humanely than have the thousand and one inventors who have busied themselves with planning palace stock cars. Nevertheless there will always be need of live stock transportation and the palace stock cars will serve their purpose as the refrigerators are serving theirs. But the latter are surely destined to fill the most urgent want.

Price Current.
The Shortborn sales for the year are now over, and a summary of them show that the past season has been far from unprofitable. There was a modification in prices paid at many sales, especially during the fall series—a result of the greatly increased offerings this year over previous ones—rather than a loss of appreciation. All good, straight pedigree cattle by known breeders of reputation sold well. One of the most conspicuous features of the Kentucky sales was the lowering of the fancy prices paid for Rose of Sharon. While these cattle sold well and high, they brought much less than the two previous years. Speculation centering rather in the Kirklevingtons and Duchesses. The Chicago Breeder's Gazette furnishes the following summary of sales for the year up to December 1st: In Illinois, 26 sales, aggregating 1,178 cattle, sold for \$270,337, average of \$229.58; Kentucky, 16 sales and 1,001 cattle for \$218,248, an average of \$218.03; Missouri, 5 sales and 338 cattle for \$48,177, an average of \$142; Kansas 5 sales and 168 cattle for \$23,240, an average of \$132; and Iowa, 7 sales and 455 cattle for \$49,980, an average of \$100.

Fort Worth Stock Journal.
Texas should have a competent man or more than one if necessary, to investigate contagious diseases among domestic animals of the state, and it should provide a fund for protecting stockmen against the ravages of such diseases. These stockmen have been very modest in their demands in past years, but now they recognize the necessity for this thing, and demand it.

Farmers Review.
At the meeting of the American Hereford Breeders' Association, during the week of the Fat Stock Show in Chicago, a handsome and deserved testimonial was paid to W. H. Sotham, Esq., for his services in the Hereford cause. Mr. Sotham was the first importer of this leading breed of cattle, and has championed their cause for over forty years. At the age of 82, he lives to see his favorite breed stand in the front rank of the beef cattle of America.

It is announced that freight rates to all points on Gould's South-west system of railroads in Texas will be reduced after Dec. 5th an average of 25 per cent.
