Acreage allotments eliminated

Eldon Koch
County Executive Director Tralnee

The 1977 Food and Agriculture Act which will affect all producers on their crop production for the next four years, is the item in the news where ASCS is concerned. Newsletters and other means have been used to explain the new Act to producers in Donley County. Realizing the fact that not everyone in the County is a farmer, and not on the ASCS mailing list - we therefore summarize the program for the public.

Acreage allotments used in the past are now replaced by Normal Crop Acreage (NCA). This acreage is based upon 1977 plantings of the following 14 crops: Upland cotton, wheat, grain sorghum, corn, barley, oats, rye, rice, soybeans, sunflowers, sugar cane, sugar beets, flax and dry edible beans. Using the acreages of these crops planted in 1977, a preliminary NCA was set for each reporting farm. The County ASCS Committee was given authority to adjust, upon receipt of a request from the producer, these NCA's for: (1) abnormal planting in 77 as indicated by the acres planted in 75 and 76; (2) changes in farming operation to include land plowed for production in 78 prior to January 1, 1978; and (3) a shift in plantings of non-NCA crops to NCA crops.

SET-ASIDE PROVISIONS

At this time the only crops requiring acreage to be set-aside, or idled for '78, are wheat - 20%, grain sorghum - 10%, barley - 10%, and corn - 10%. These percentages will be applied to the acres planted for harvest as grain. The acres designated as set-aside acres must meet these requirements: (1) it must have been tilled for crop production in at least 1 of the last 3 years; (2) it may be the prior year crop stubble or residue, provided it is sufficient to control erosion; (3) it may be seeded to a crop in the fall for harvest in the following year; (4) the acres may be seeded to sudan or sweet sorghum for cover; (5) seeding of small grains is allowed only if the crop is not permitted to mature; and (6) the set-aside acres may be grazed from October 1 through March 31. It is important that the participating producer remember that if he plants a crop requiring set-aside, the acres he intends to harvest, plus the acres required to be set-aside, cannot exceed the NCA acreage set for the farm. If he chose to plant crops not requiring set-aside, he may exceed the NCA even if he plants crops included in the list of NCA crops. The situation becomes more complex if he maintains more than one farm. Owners and/or operators of 2 or more farms will be in compliance on participating farms provided the NCA is not exceeded on the non-participating farm where a crop

Belinda Bryant receives pageant trophy

Miss United Teenager is truly a National Pageant founded on the basis of scholastic and civic achievements, beauty, poise and personality. Ninety-seven girls between the ages of 14 to 18 from all over the state of Texas qualified in this year's State Finals. The girls

put in many hours of practice to present an outstanding pageant. Ninety-seven essays were presented Friday, March 17 on the subject "My Country." The next day was filled with rehearsals, judges' luncheon, meeting with the judges, and the grand finale - THE PAGEANT.

The opening extravaganza with all participating was "You're a Grand Old Flag" with an outstanding flag routine in which every girl wore red, white and blue. The finalists received a standing ovation from some 1,000 people in attendance. Belinda wishes to thank her sponsors James F. Hayes

& Co., Knorpp Insurance Agency, Inc., Chamberlain Motor Co., and Bivens Pharmacy for what she calls "An experience I will have with me for the rest of my life." She further states that the friendships she made and the impression of what they all stood "for" will remain for a lifetime.

Origin of haystack fires a mystery

M.L. Mays watched a 250 ton stack of hay burn to the ground Saturday night on his farm west of Clarendon as firemen tried to contain the flames. There appeared to be no good cause for the fire. Monday just after noon a smaller stack, 75 tons, also burned to the ground. At \$66, a ton Mays suffered a \$21,450 loss in the two fires. Mays' farm is located 3 1/2 miles west and about 1 mile north of Clarendon. This places it some two miles south of Lake Greenbelt.

Several unusual events have led to wide speculation as to the cause of the fire. It started in the top of the stack and was immediately out of control. Debris found after the first stack burned has not been identified as yet but it looks something like ash-grey lava rocks, but is lighter in weight. After the second stack burned, Mays found three more piles of the debris within a 20 foot radius. Channel 7 TV, after interviewing Mays, is contacting military authorities.

Tommy Saye, local Scoutmaster, was camping overnight at Greenbelt lake Saturday with a troop of Scouts. He describes a fiery object he sighted as he prepared to ready his bedroll for the night.

"At first I had the impression of an arrow flying through the air, and then realized it was higher up, larger and going too fast," Saye related. "The front of it was white and the back end was blue. There it was and then it was gone." Saye did not mention it to his Scouts and none of them saw it. When he returned to town Sunday morning he told his wife about the unusual sighting and then learned about the burned haystack. Was it just coincidence that he sighted the flying object at 10:10 and the fire was reported at 10:35? Saye declined an opinion.

Election results to be posted

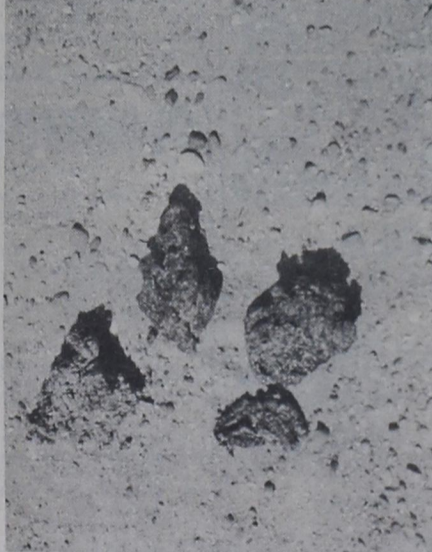

Results of Saturday's election will be posted as always on the large election board, with one change. The board will be posted at the Day Care Center which will be open from 7:30 until the results are in.

Vote Saturday

Voters are invited to come to the center and watch for the results. There will be coffee and donuts for sale for any one who wants them.

If you are planning to vote remember: the Clarendon City Hall is the place to vote for city aldermen. Voters will cast their ballots for Clarendon College board of regents, Donley County Hospital District board of directors and Clarendon Independent School District board of trustees at the administration building, school tax office, at 416 S. Allen in Clarendon.

Avoid penalty for car tag

This year for the first time in Texas car owners will be subject to a 20% penalty for late car registrations. After 30 days past the deadline for new registrations car owners will be penalized unless a statement is signed stating that the vehicle has not been driven on the highway. A stiff fine will be assessed for persons falsifying a state-

ment. The new ruling relating to late registrations begins with the new staggered registration system put into effect this year.

Farm and ranch sales recap for 1977

Texas farmers and ranchers had an estimated sales volume of \$6.87 billion for 1977, up from the 1976 total of \$6.55 billion. However, their net income suffered due to low market prices and soaring production costs.

"With the increase in agricultural sales in Texas, the state is continuing to move toward the goal of becoming Number 1 in the nation in total cash receipts from agricultural products," points out Dr. Carl Ander-

son, marketing economist with the Texas Agricultural Extension Service.

"And, of course, the total agribusiness industry in Texas continues to grow. Currently, every agricultural dollar turns around about three-and-a-half times, generating more than \$25 billion in economic impact within the business community and benefitting the lives of many people. Thus, agricultural growth contributes substantially to the growth of the

Texas economy."

Looking at last year's estimated cash receipts, meat animals led the way, contributing \$2.48 billion. Cotton was the top crop, with cash receipts of more than \$1.45 billion.

Other top contributors in cash receipts were feed crops, \$819 million; food grains, \$485 million; poultry and eggs, \$358 million; dairy products, \$336 million; vegetables, \$231 million; and oil crops, \$197 million. Cash receipts of \$286 million are estimated from agricultural related areas such as farm-based timber, horses, fish farming, hunting leases, farm pond leases and recreation.

The largest gain in cash receipts came from cotton, up \$416,000 from 1976. Cash receipts from meat animals were up \$91,000 from a year ago while oil crop receipts showed an increase of

\$58,000. Substantial gains were also noted in cash receipts from fruits and nuts, vegetables, and agricultural related income. On the other hand, receipts were down for dairy products, poultry and eggs, food grains and feed crops.

Which agricultural commodities had the most economic impact for Texas in 1977?

Anderson lists the top 15 as cotton and cottonseed, beef, fed beef, sorghum, poultry, dairy, other feed grains, rice, wheat, vegetables, wine, sheep and goats, forestry, recreation and soybeans.

Buy garden seed wisely

By Ronald Gooch

When the time comes to plant your garden, avoid spending your hard earned money on bargain seed, cautions Ronald Gooch, county agent with the Texas Agricultural Extension Service.

A prime rule for success in home gardening is to get the best seed you can. You may have to shell out a few extra pennies, but the added cost will pay off in better yields and better spirits at year's end.

Because seed, like used cars, varies in quality from dealer to dealer, Gooch advises buying from a reputable seed dealer. The best dealers offer treated

seed to protect young seedlings from attack from soil borne diseases and insects.

Regardless of where you buy seed, be sure the percentage of germination is marked on each package or seed bin. This tells you what percentage of the seed is viable or capable of living and growing. For best stands, buy seed that is at least 80 percent viable.

Another important thing to look for when buying garden seed is "date of testing." This refers to the age of the seed and if it was carried over from last season. To be on the safe side, buy seed with a recent testing date.

Of course, buying seed of recommended varieties is important for a successful garden. You may want to try new varieties on a small scale, but do not discard an old variety for something new and untried.

Seed left over from last year is probably safe to use, provided it was stored in a cool place in an airtight container. If you are uncertain about the age or variety of seed, throw it away and buy new seed for this

year's garden, suggests Gooch.

Sales of weed killer and fertilizer up

Sales of weed killer and fertilizer are brisk, as reported by local dealers for the pre planting season this year.

After last year's record cotton crop many planters are going with cotton again this year.

It appears, one dealer said, that little grain will be cut in the county for the 1978 season. A wait and see attitude has been taken by some in an effort to evaluate the farm bill.

1926 Book Club has regular meeting

The 1926 Book Club had their regular scheduled meeting, March 21, 1978, at the Patching Clubhouse, at 4:00 p.m. As you walked into the room, you could smell the beautiful hyacinths. Hostesses for the meeting, Mrs. Betsy Ellerbrook and Mrs. Norma Jones, served the members and guests from a table decorated so pretty with the "Easter Bunny" and his colored eggs. Each member was served an individual cake, along with nuts, and delicious punch.

After everyone had finished with their refreshments, President Mary Hazel VanZandt turned the program over to Miss Betty Veach and Mrs. Ethelyn Grady. The program was "Texas School Children"; and today four students from Clarendon High School came to read their selections they will do for UIL Contest on April 7. Three of the students were Mrs. Jean Stavenghagen's speech students and one student was Mrs. Ethelyn Grady's. Mrs. Grady introduced the girls and in turn they introduced their own selection. Kathryn Perdue read "poetry", Mindy Morris was a 9th Grade "prose" reader, Debbie Johnston was a 9th Grade "prose" reader, and Charla Crump was a 7th

Grade Interpretative reader. The students did a fine job reading for the club.

Following their reading, a business meeting was conducted by President Mary Hazel VanZandt. The minutes were read and approved. The meeting that was missed on February 7th because of bad weather was discussed. It was decided to have this meeting on May 2; to have a dinner at Ruby Bromley's with husbands invited. This will be the last meeting for this year.

Belinda Bryant reported on the contest, Miss Teenage, in which she was a contestant over the weekend. Belinda won the "Citizenship" award among the 97 girls in the contest. She thoroughly enjoyed the event.

The club "Collect" was read and the meeting was then adjourned. Attended were: Thelma Bairfield, Dossa Day, Billie Clinton, Carolyn Hamilton, Pauline Heath, Verdine Herrington, Dorothy White, Ethelyn Grady, Kay Hayes, Betty Veach, Mary Thornberry, Mary Hazel VanZandt, Frieda Tucker, Rachael Butler, Oressa Delaney, Gladys Blackburn, Betsy Ellerbrook, Norma Jones, and guests were Belinda Bryant, Kathryn Perdue,

Mindy Morris, Debbie Johnston, Charla Crump.

Wreck closes two highway lanes

Traffic was diverted and two way lanes were confined to the south side of Highway 287 at the east end of Gibson's parking lot after a car broke the standard on the highway sign and shattered a telephone pole early Sunday morning.

City patrolmen Steve Rogers and Danny Hill with county deputy Ralph Hill worked the accident at 12:30 a.m. Only one car and the driver were involved.

A west bound Volkswagen hit the highway sign and the telephone pole and came to rest on its side. There was no injury to the driver but the car was a total loss.

Damage to the utility pole caused the telephone lines to drop and traffic was confined to two way passage only on the south side of the highway for a time. By daylight a telephone truck had been brought to the scene and had the pole clamped in an upright position until workers replaced it about mid-morning.

Mr. and Mrs. M.R. Perdue and Mike of Oklahoma City, spent Easter with his aunt, Mrs. S.M. Harp.

Mrs. Donna Hinton and Byrn of Amarillo visited her granddad, Mr. and Mrs. Jess Wood Monday.

Mr. Johnny Hodel and Mr. Ronnie McCulloch, both of Plainview, served as best man and groomsmen. Mr. ***

Mrs. Don Barker returned her mother, Mrs. Leone Quattlebaum, home Monday afternoon.

CC Ex-students to meet

The Annual Reunion of the Clarendon College Ex-Student's Association will be held April 28, 29, 30, on the campus of Clarendon College.

Activities will begin Friday Evening, April 28, with a Fine Arts Production in the Harned Sisters Auditorium. Registration will be held at 10:00 a.m. Saturday, April 29, at the College Cafeteria. A Tea will be held in the home of Mrs. Ruby Bromley Saturday afternoon and the annual banquet will be held Saturday night in the cafeteria. An Art Exhibit will be on display in the Fine Arts Building on Sunday and a special Church Service will be held for Ex-Students. The reunion will close with a luncheon meeting on Sunday, April 30, at the College Cafeteria.

The Special Feature of the annual banquet will be presented by Mr. and Mrs. Lee Nowlin of Plainview. The classes of 1928 and 1953 will be honored this year.

Clarendon College is unique in one respect. It is the oldest college in the Texas Panhandle, having been established in 1898. It was truly a frontier college, organized nine years before Oklahoma became a state and fourteen years before New Mexico and Arizona became states.

Clarendon College was in operation twelve years before West Texas State Normal of Canyon and Wayland College of Plainview were opened, and twenty-four years before Texas Technological College of Lubbock was established in 1922.

Clarendon College enjoys a rich heritage, and continues in operation as a community college at the present time on a thirty acre campus, with many fine facilities and an excellent staff and student body.

All Ex-Students are cordially invited to attend. Further information may be obtained by writing: Ex-Students, Clarendon College, Clarendon, Texas 79226.

Pathfinder reports for March

The Pathfinder Club held both March meetings at the Patching Club House. The March 10th meeting was presided over by the president, Mrs. C.E. Bairfield. The meeting was opened with the reading of the club collect.

The name of Mrs. Joe Robinson was presented for membership and she was unanimously elected to membership.

A very interesting program was given by Mrs. D. Goodwin Bray on "A Visit to Lesotho," a small independent country in South Africa. Mrs. Bray visited there when her daughter lived in Lesotho. She showed slides and told many interesting facts about the people and the country.

The members present were served lovely refreshments of hot Russian tea, molded fruit salad, and cookies.

The March 24 meeting was brought to order by the president, Mrs. C.E. Bairfield and the club collect was read in unison.

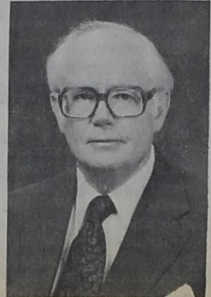

Belinda Bryant, daughter of Mrs. Carol Bryant and granddaughter of club member Mrs. Clarence Hamilton, was introduced to the club. She told of her trip to Dallas to participate in the Miss Texas United Teenage Contest and had with her the large trophy she received for Citizenship.

The program for the afternoon was a review of the book "They Met at Calvary" by W.E. Sangster given by Miss Sarah Brown of Seymour. Sarah filled in for her mother, Mrs. Robert Brown, who is recuperating from a fall. The book details the parts played by the people and groups of people that ultimately led to the crucifixion of Christ.

At the conclusion of the review, she sang the song "Beneath the Cross", accompanied on the piano by Mrs. Joe Wells. The Pathfinder Club deeply appreciates the beautiful and stirring program presented by Sarah.

The hostesses, Mrs. Frank

White, Jr. and Mrs. Clarence Hamilton, served a delicious cherry cream cheese dessert and coffee or tea to four guests, Mrs. L.N. Cox of Hereford, Mrs. Mary K. Blanton of Amarillo, mother of Dorothy White, Mrs. John E. Oakes of Amarillo, sister of Dorothy White, and Mrs. Clyde Wilson, and to the guest speaker, Miss Sarah

Dry Land Farmer

GLENN CONRAD

He drove his tractor over 700 hours last year!

Glenn Conrad has been a full-time farmer all his life except for the time he spent in school and the two years he served in the Peace Corps. He's a farmer's farmer from a family of farmers.

to give Texas agriculture a competitive edge in the marketplace. He will be a positive influence to see that agriculture gets a fair shake in Austin.

While still a little shaver, Glenn was introduced to farming on his dad's John Deere two-cylinder model D tractor. Since then he's been through the good years and bad.

With a degree in Agricultural Economics from Texas Tech and a lifetime of experience in practical farming, Glenn is well qualified to work for the best interests of agriculture and businesses related to agriculture.

He now works about 2,000 acres near Claude, Texas. Part of the land is his, part of it his dad's, and he leases some of it. Last year Glenn planted 700 acres to wheat and 500 acres to maize. The remainder laid out.

He believes that action on the state level can help develop profitable markets for our farm products and pledges to do his dead level best to bring this about.

Hail got about 40% of his wheat crop last year and 20% to 30% of his grain sorghum. And, come harvest, he faced the same low, unfair prices as did every other farmer in the 66th District.

It would, however, be a gross miscarriage of responsibility to neglect other vital state issues with a preoccupation with the national farm program. The representative from this district must also have a thorough knowledge of, and deep concern for, such important issues as taxes, roads, water, energy, and the improvement of our educational system and an equitable plan for funding it. And, he must be concerned with the health care of all people in the 66th District, especially for the welfare of our older citizens. To neglect these vital state issues under the guise of solving the national farm program would be irresponsible.

When elected as your State Representative, Glenn Conrad will continue to farm. But he will be assisted by his brother, so that he can spend all the time needed to represent you properly in the state-house.

Even though the State Legislature cannot write a national farm program, Glenn will use the prestige, authority and influence that the office of State Representative commands toward getting a national farm program that provides some equity between the farmer's cost of production and the price he gets for his crop.

Glenn Conrad is a common-sense kind of fellow who won't promise you the moon. But he's not afraid of work, and you can be sure that he'll be in there pitching to get the things done that you need done in Austin.

Glenn believes that our State Legislature must be careful not to impose unnecessary burdens on farmers. And, that it must do everything possible

Glenn Conrad deserves your vote and whole-hearted support.

LEGAL NOTICE

General Telephone Company of the Southwest has filed tariffs with the Public Utility Commission of Texas to implement the Federal Communications Commission's telephone equipment registration program (FCC Docket 19528). The tariffs have an effective date of April 15, 1978. The proposed changes will reduce rates for extension telephones and 25 foot long cords; will restructure one-time charges for service connection, moves and changes, increasing some and reducing others; and will offer reduced monthly rates for one-party business and residence customers who provide their own primary telephone instrument. The proposed changes in rates, with some increasing and others decreasing, will reduce General's gross revenues from its Texas operations by \$2,565.00.
