Two run for constable job in Hedley

Joe W. Smith, of Hedley, is a qualified write-in candidate for the position of constable for that city and asks residents of Precinct 3 to support him in his effort to provide law enforcement for the citizens.

Smith was definite in his statement that those who were responsible for the break-ins, theft, petty mischief and other acts breaking the law must be stopped, regardless of who did the deeds. "No town should have to put up with the situation as it exists here," Smith said.

Smith has been a resident of Hedley since January and has the Phillips 66 service station in Hedley. He feels his qualifications for the position of constable are good. He spent time

in the armed services in both the Army and Navy where he was a radioman. He has another four years in radio broadcasting with the news media. For three years he served as an ambulance driver and attendant working with law enforcement personnel.

Joe Smith is married and he and his wife Linda have two children at home. He has a

married daughter, and her husband Henry and Sherry Ballijo, who with their little daughter Angela Marie, also live in Hedley.

Smith feels he can serve the people of Hedley well as their constable and asks for your support on his behalf.

Explorer Scouts to hold annual Halloween Carnival Saturday, Oct. 28

Explorer Scout Post 433 will be holding its annual Halloween Carnival on Saturday, October 28, 1978 from 7:00 until 10:00 p.m. in the old Goodman Building on Main Street.

Featured at this year's carnival will be the ever popular Spook House, the cake walk, the ring toss, a concession stand with lots of goodies, and several other games and surprises.

There will be no admission charge, however each booth or event will require tickets which may be purchased at the door for a small charge. Anyone who wishes to come and watch the fun and games may do so at no charge. All the ghosts and goblins are invited to come participate.

This event has been a regular fund raising event for the

programs which Post 433 participates in each year. It has grown bigger and better each year. Post 433 invites the public to come out between 7:00 and 10:00 p.m. on Saturday night and watch the spooks come out.

Post 433 is comprised of approximately 16 Explorers and 6 advisors. It is open for membership to all young men and women between the ages of 14 and 21. Anyone desiring to join or who would like more

information on Exploring, may contact any Explorer or any advisor.

We sincerely appreciate the support the public has shown us in the past on this and all our other projects. Thank you.

Absentee voting still possible

There are only nine more days to vote absentee for this year's general election and for those who plan to ballot absentee the hours are from 8:30 a.m. - 5 p.m. at the County Clerk's office through November 3, 1978.

For Donley County approximately 2,490 registered voters may cast their ballots in the general election. If the national trend is followed voter apathy will keep many of them away from the polls. Donley County has a name for being independent and perhaps the trend will not follow the national trend.

Don't forget time change

Following the often used words "Fall back for the winter time change" most residents of

Some persons suffer temporary confusion at the time change with clocks reset the wrong way, forgotten alarms and stomachs that fail to accept the added hour suddenly thrust upon them.

Bronchos shutout Shamrock Irish 21-0

The Clarendon Bronchos opened District 2-A competition Friday night with a hard fought victory over the Shamrock Irish 21-0. The Bronchos scored on their second possession of the night as Billy Gardner electrified the home crowd with an exciting 90 yd. TD run down the sideline. Then the two defenses went to work as the game turned into a defensive struggle. The Bronchos finally put the clinching TD on the score board with 5:13 left in the game. This coming on a 51 yd. TD run by Billy Gardner. On the previous possession he has a 25 yd. TD called back due to a clipping penalty. The final TD came on a 6 yd. run by Gary McClellan with 3 minutes left in the game. The Broncho defense played an outstanding defensive game allowing the Irish only 153 total

yardage (0 yds. passing), intercepting 3 passes, and recovering 3 fumbles. Late in the game, the Bronchos got some clutch punting from Ronnie Davis substituting for Lynn Thompson who had been injured earlier.

The Bronchos received the opening kick-off and Billy Gardner returned it to the 30 yd. line. Gary McClellan immediately picked up 16 yds. and looked as if they were off to the races. But two plays later Lynn Thompson's pass was intercepted by #5 Bence Close at the 50 yd. line. However, the Broncho defense held on 3 downs and Shamrock had to punt.

The Irish put the Bronchos in the hole at the 4 yd. line with an excellent punt. Lynn Thompson at QB moved it out to the 10 yd. line and set the stage for Billy Gardner's 90 yd. TD. Lynn added the extra point and the Bronchos led 7-0 with 8:52 left in the 1st Quarter.

From this point on into the 4th Quarter neither team could get their offenses going for any consistent drives. The Broncho defense did a fine job in controlling the Irish attack. They allowed some yardage at times, but the Irish were never allowed to penetrate the Broncho 35 yd. line. The Broncho secondary did not allow a pass completion as they intercepted 3, knocked down 4, and the other 4 attempts were overthrown.

The Broncho offense took advantage of fumble recoveries by Kelly Choate and Terry Cole to set up their 4th Quarter TD's. The Bronchos' second TD came halfway into the 4th Quarter. Kelly Choate made a tremendous hit on #30 Stacy Prather, knocked the ball loose, and then recovered it. On the 1st play of the series, Billy Gardner set sail on a 51 yd. TD run. Lynn kicked the extra point and the Bronchos were a little more comfortable with a 14-0 lead.

Then in the next 2 minutes the Bronchos again were to find the end zone. This possession was set up by a fumble recovery by Terry Cole. The Bronchos immediately went to the air to try and pick up 6 points. #5 Bence Close was called for pass interference on Tim Brown at the 4 yd. line and suddenly the Bronchos had a 1st and goal. It took the Bronchos 2 plays as Gary McClellan took it in from the 6 yd. line. Lynn Thompson made his 3rd extra point attempt and the Bronchos had their first district win 21-0.

It was an exciting game for the Bronchos in picking up their first district win. The defense played well in getting their first

The Bronchos will host White Deer Friday

The Clarendon Bronchos are at home for the second week against the White Deer Bucks. The Bucks come into the game at 1-5. Their only win came in the third week against Claude. They have been handed losses by Vega, Groom, Stinnett, Phillips, and dropped their district opener to Memphis 13-3. Kick-off is 7:30 p.m. Coach Allen's rundown on

White Deer:

The Bucks return seven offensive regulars and nine regulars to their defensive unit. On offense #12 Mike Pettit is a good runner and aggressive blocker. Their QB #14 Ralph Gallett is a good passer, good runner, and also does have some speed. They will run from the "I" formation with a slot. We have seen this formation

before. #88 Mike Cofer is a big, tall Tight End who has good hands (6'2" 174 lbs.), #84 Doug Warminski at Split End runs his pass patterns well.

On defense, they use the 27. The Middle Linebacker #64 Wes Rogers is aggressive and a good tackler. #25 Marty Carrol seems to be their best defensive Back. He covers his area well. The

Bucks will be using 8 players both ways.

We are looking forward to playing White Deer. They seem to have a better team than their record shows. We were somewhat sluggish offensively against Shamrock until the 4th Quarter. We want to get it together a lot earlier this week.

The 1926 Book Club of Clarendon met Tuesday afternoon, October 17, 1978 at the Patching Club House at 4:00 p.m.

Mrs. Oressa Delaney, vice-president, presided over the meeting in the absence of our club president, Mrs. Clarence Hamilton.

Everyone was reminded by Mrs. Mary Thornberry to get their \$10.00 membership dues paid by November 1.

There was no old or new business to take care of. The next meeting will be the election of officers and the Clarendon Centennial program led by Mrs. Bill Todd.

The 15 members present

repeated the beautiful "Collect" in union.

The program was turned over to Mrs. C.E. Bairfield. She gave a most interesting review of the "Memorial Volume dedicated to Wint & Lena (Scoggins) Bairfield by Charles E. and Thelma (Alexander) Bairfield. This is a book presented by the Ranch Heritage Center of Lubbock, Texas. Mrs. Bairfield presented her family's part of the book. It concerns the family of Wint and Lena Bairfield, their early life on the J.A. Ranch; the living conditions of cowboys on the range - Ranch life around 1885 to early 1900's; being part of the crew of Johnny Grady; and working for Colonel Goodnight;

man McAfee made an amendment to the motion stating that Walt Knorpp maintain all lines outside of the city limits; that the city will install meters at each house at Twin Elms only at the property line of said houses, at the expense to the property owner. Motion and amendment carried.

A motion was made by Alderman Kidd and seconded by Alderman McCord to connect Walter B. Knorpp to the sewer lines of the City of Clarendon at the city limits, only if the lines can be made by gravity flow. Motion carried.

No other city business to be transacted at this called meeting adjournment was made by motion and second.

of when Wint and Lena Bairfield moved to Donley County. Mrs. C.E. Bairfield talked of the moving of the little Bairfield school house to the Ranch Heritage Center at Lubbock, Texas, and how everyone could see it on display.

The program was enjoyed and appreciated by all present.

The hostesses, Mrs. Carl Morris and Mrs. Harvey Jones, served the 15 members present delicious chocolate cake, tea, coffee, and nuts from a table decorated in fall colors with a beautiful arrangement of a fall bouquet.

Members present were Mary Hazel VanZandt, Nora Parker

Myers, Rachael Butler, Billie Clinton, Mildred Ritter, Dessa Day, Verdie Herrington, Claudine Todd, Betty Veach, Frieda Tucker, Mary Thornberry, Thelma Bairfield, Oressa Delaney, Mrs. Carl Morris and Mrs. Harvey Jones.

Next meeting is November 7, 1978.

How long can you depend on Lone Star for natural gas service?

- 10 Years
- 20 Years
- 50 Years
- More Than 50 Years

"Natural" is the key word in question. Unless regulatory price limitations make the development of new gas fields unprofitable for this area's producers, it will be many years before natural gas supplies run short for our million-plus priority customers.

The good news, however, is that these "natural" reserves can be supplemented with enough synthetic gas to keep Lone Star in the gas business for the next 50 years. And beyond.

Lone Star has weathered too many storms in the last 69 years to shy away from the challenge of the energy future. We know what must be done to meet that challenge, and we'll meet it.

The groundwork is done.

There are excellent reasons for optimism. Foremost of these is the fact that 50% of the known onshore gas reserves in the United States are in areas where Lone Star already has pipeline systems in operation.

The energy outlook becomes even more promising when you consider the enormous, long-term potential of the gas fields under development in Texas' Gulf Coast waters. Lone Star is already buying some offshore gas. And we intend to buy enough of it to satisfy our customers' demand as it becomes available in volumes large enough to be gathered efficiently and economically.

Lone Star's ability to take delivery of new natural gas reserves as they are developed gives us an outstanding opportunity to buy our

area's fair share—enough gas to last our customers for many years.

Whether we can take advantage of this opportunity depends mostly on whether we'll be allowed to recover our actual costs on a timely basis.

Without the ability to pay our gas bill, earn a reasonable rate of return on our investments and recover our operating expenses, we will be unable to continue an aggressive supply program in time for it to be really effective.

There is no shortage of natural gas.

There's only a shortage of the low-priced, easily accessible gas that nearly everyone took for granted in years past.

If gas producers are given incentives to continue their risks in exploring for deeper, more inaccessible reserves, there is little reason for our high-priority customers to face natural gas shortages until we're deep into the 21st century.

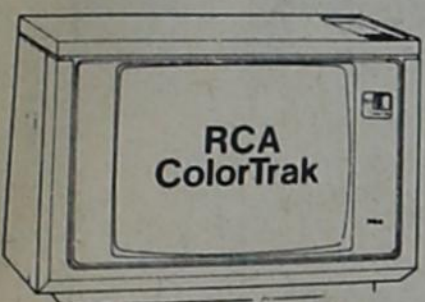

After that, the future for gas energy still looks good. The technology for gasifying coal is a fact, not some fantasy of the future. And our nation has enormous coal deposits.

Converting it into gas makes sense. Because gas burns clean and doesn't pollute. It also makes economic sense, because this gas can be distributed through the pipeline system we have, and the families who have gas appliances can keep right on using them.

How long can you depend on Lone Star for gas service? We intend to make sure your children's grandchildren can depend on us.

John Hill calls for state tax freeze

"Our state taxes in Texas are among the lowest in the nation, and I want to keep them there. As I've said many times, I'll veto a tax increase before the ink dries on the bill."

As Attorney General, John Hill proved he could increase the efficiency of his office without any unnecessary budget increases. He absorbed a three-fold increase in his office caseload by hiring top legal talent capable of higher productivity. The result: his staff lawyers doubled their average workload, and the increased court judgments and enforcement of civil penalty laws returned \$25 for every \$1 of state funds spent on his office.

As Governor, John Hill will insist on this same type of increased productivity for all state agencies. He will institute new controls over federal funds, demand that we follow our "pay-as-you-go" budget policy, and use zero-base budgeting to eliminate unneeded programs before any new programs are added. And he'll block any state tax increase — there won't be any new taxes under John Hill.

Missionary to Japan visits in Clarendon

Members of the congregations of the Clarendon and Memphis Presbyterian Churches were honored to have Rev. Louis Grier talk with them Sunday evening, Oct. 22 following a Family Night Supper. Rev. Grier is a missionary in Japan where he and his family have lived for 30 years in Wakayama City, a city of 300,000 people.

Bringing us to date on current Japanese lifestyles and developments, Rev. Grier focused attention on the works of Christian Churches in Japan. The Presbyterian Church is one of 30 denominations which comprise the United Church of Japan - Japan's largest church. Japan is a nation where 1 out of 100 people is a Christian.

Since family bonds are central to Japan's lifestyle, to become a Christian is a difficult struggle for an individual since one fears separation from family or fears isolation within the community. However, Rev. Grier is optimistic about the Church's future since many more young people are displaying an interest in Christianity.

The Reverend's current mission is to break down the barriers which exist between the "eta" (social outcasts due totally to the geographical location of one's home) and the rest of Japanese society. Hopefully, the Church can provide the key solution to this problem which affects 3 million Japanese who live in 6,000 various communities throughout the country.

By bringing Christianity into their lives, Rev. Grier feels that the "oneness in faith around table should pervade the entire life of the Christian Church," and hopefully this oneness within the Church will work to dissolve this social barrier.

Jerry Henderson, Administrative Director of Coffee Memorial Blood Center, explains their position in this article.

The following comments are in no way a rebuttal to the article in the Clarendon Press, September 28, 1978 regarding

"Blood Program". They are offered as a further explanation of your community blood bank, Coffee Memorial Blood Center.

Coffee Memorial Blood Center is a non-profit organization operated under the direction of a board of directors appointed by the Potter-Randall County Medical Society.

Our objective and goal is to provide the safest and cheapest unit or component of blood to our patients.

Coffee Memorial Blood Center presently furnishes all blood and blood components to the five hospitals in Amarillo and thirteen area hospitals: Shamrock, Memphis on the east... Friona, Hereford, Dimmitt to the west and to most of the hospitals in the northern panhandle.

We, like the Red Cross, furnish free blood. Let us examine that statement..... Free blood means that the patient is not charged for the blood, but regardless of where the blood comes from.... the patient is charged a processing fee. Currently the Red Cross from Wichita Falls charges \$26.00 for a unit of packed cells (Red Cells). Regardless of how many donors gave in Donley County the patient would pay \$26.00 for every unit received.

The processing fee is the blood centers cost of recruiting the donor, drawing the blood, testing the unit, storage and delivery. Coffee Memorial Blood Center has a \$30.00 processing charge on packed cells. However, we do go one step further.... for each donation made in a patient's name, the processing fee is reduced \$10.00...i.e. three donations to a patient that used one unit and there is no charge from the blood center.

For Coffee Memorial Blood Center to accept a unit of blood from the Red Cross, we must pay their processing fee (\$26.00). Then we must re-type the ABO and Rh Factor and re-label the unit with our identification. This additional work would cost approximately \$7.00 and this would total

\$33.00 for the unit and we only charge the patient \$30.00. This type of operation could only lead to higher price for our patients.

While the donors of Donley County were donating to the Red Cross, each and every donation was being returned to Wichita Falls, Texas, where it was processed and placed in the hospitals in their service area. Patients from Donley County were using the hospitals in Coffee Memorial Blood Center service area and the blood was being donated by other than Donley County donors.

I would like to take this opportunity to express my appreciation to all the blood donors in Donley County.... if you didn't donate to Coffee Memorial Blood Center.... I am

so glad you did donate, as the entire United States is experiencing a blood shortage. During the month of September, 1978 Coffee Memorial was forced to make a public appeal through the news media for donors to meet our patients blood needs. Three of our patients that used blood in September were from Clarendon.

Coffee Memorial Blood Center needs the blood donors of Donley County to assist in meeting our patient needs. Will an organization or individuals volunteer to work with us in establishing a scheduled blood mobile in Clarendon! Please contact Jerry Henderson or John Mitchell for more information.

Town Hall meeting at CC

To help students gain a better understanding of the business world, the Texas Association of Business (TAB) sponsored a College Town Hall program recently at Clarendon College. Established in 1954, College Town Hall is a question-and-answer panel program which provides students with the opportunity to discuss economics, finance, marketing, labor management relations and government regulations with business executives of proven experience.

Coordinated by the Phi Beta Lambda chapter of the college, four area businessmen appeared on the panel. They were Luther Robinson of the First National Bank of Pampa; Bob Harris of Cabot Corporation of Pampa; John Drummond of the Amarillo Board of City Development, and Gary Key of Owens-Corning in Amarillo. Gene Steel of Celanese Corporation of America of Pampa was the moderator.

Candid and informal, College Town Hall programs are scheduled during both Fall and Spring semesters on college and university campuses throughout Texas.

TAB is a statewide association composed of more than 6,700 executives representing member-firms and is dedicated to building a better climate for business and industry in Texas.

The Key Notes will appear as planned and advertised at the First Christian Church on Sunday, October 29, 6:00 p.m.

Everyone is invited to bring a covered dish and be a part of the get-acquainted salad supper to be held at 5 p.m. at the First Christian Church before the concert.

John Hill is attacking State Budget waste . . .

"I've already started my search for waste in the state budget. I want to be ready to tackle overspending the minute I take office as Governor in January. My budget office already is paring down big state agency budget requests, to keep spending within available revenues. We'll have to live within our means, because I'll veto any new taxes."

. . . because he knows our taxpayers need relief from inflation.

Health hints for today

By R.L. Gilkey, M.D., A.B.F.P.

FEVER—Fever is an abnormally elevated temperature. Normal for most of us varies from 97.6 to 99.6 F. on the thermometer. It is usually lowest early in the morning and highest late in the evening. Thin people tend to have lower normal temperatures because of an inefficient metabolic system. Stocky persons, on the other hand, tend to have a higher normal temperature. Temperature becomes a fever when it is above our personal

normal. Fever isn't always bad. It is Mother Nature's method of combating disease. In other words, fever is necessary to kill the germs causing the illness. It becomes a problem when it is too high. Temperature of 101 or 102 is not dangerous, 103 or 104 indicate a serious infection, and 105 or above is dangerous. Mild fever, as with a cold, can usually be controlled with aspirin or Tylenol. Higher temperatures won't come down to normal with aspirin, but

should bring it down a degree or two. Serious fevers won't come down much with aspirin, and are frequently associated with severe chills and dehydration. If you develop high fever and chills, drink large quantities of cold liquids as well as simply taking aspirin. Aspirin alone is not enough.

For children with fever, the same holds true. If aspirin brings it down, it's probably not too serious. If aspirin and cold liquids don't bring it down, it is serious. A simple effective way to control the fever in children with a temp. of 104 or 105 is a cool tub bath. Be sure to give them aspirin before you put them in the tub. How much aspirin? A good rule of thumb is one baby aspirin (1/4 grains) for each year of age.

For adults the correct dosage is two adult aspirin (10 grains). This can be repeated as often as every four hours in both children and adults. I've used the word aspirin,

you can use Bayer, St. Joseph Bufferin, Anacin, etc. Or you can use Tylenol, Datril, Nebs or any of the acetomeniphens. Quite frankly the acetomeniphens group is not as good at

reducing fever or pain and aching as the aspirin group. And generic aspirin is the cheapest and just as effective as the "high priced Brand Name." I hope that this will help you

better understand fever and how to treat it. Just a word of caution. Fever is a symptom of an illness. If it is minor, treat it. If it is serious or persistent, see your doctor.

BRONCHO BUSTER

By Karlen Cantrell

Its that time of the year again when most of the summer clothes get pushed back deep inside the closet, and the big bulky sweaters come out of the moth balls. In spite of the cold weather the Mighty Broncos stomped Shamrock clean off the map! This week the Broncos will

steer their attack toward the White Deer Bucks.

Our J.V. Team has been doing an outstanding job this year and last week they beat the Shamrock J.V. 29 to 12! I hope everyone will continue supporting the Broncos and the Broncos will continue winning!

Farm Bureau comments on tax relief amendment

"Nearly everyone would benefit from the proposed state tax relief amendment," according to Hubert Rhoades, president of the Donley County Farm Bureau.

"Passage of this amendment on November 7 would also send a message to Austin that Texans are concerned about state and local taxes," Rhoades said.

Farm Bureau on both the

state and county levels supports the amendment and urges all concerned citizens to vote "yes" on the amendment, the farm leader said.

Rhoades listed the following ways Texans would benefit:

- (1) Homeowners--The \$5,000 homestead exemption would reduce school taxes paid by homeowners.
- (2) Elderly--The Legislature can exempt up to \$10,000 of the school tax value of homesteads of persons over 65 whose taxes may be stabilized.
- (3) Disabled--Persons on fixed or reduced incomes may be given an exemption up to \$10,000 based on economic need.
- (4) Farmers and ranchers--Valuation of agricultural land for tax purposes would be limited to productivity.
- (5) City Dwellers--They would receive an unlimited exemption on household goods and personal effects.
- (6) School systems--The Leg-

islature has appropriated \$450 million to reimburse school districts losing revenue because of the homestead and agricultural-use reduction.

(7) All property taxpayers--The appraisal of property would be left up to local districts where market values can be better established.

Rhoades said there would be no reduction in public services if the amendment passes.

He said that future state spending and tax increase would be based on the growth of the state's general economy and that more land would be retained in agricultural production, resulting in lower food prices.

State revenue for school districts would ease the burden of local property taxes, Rhoades commented.

Failure to pass the proposed amendment, Rhoades noted, would have adverse effect in many instances. He listed these possible results:

(1) Some families would have difficulties owning a home.

(2) Some elderly persons would be forced to sell their homesteads.

(3) Present tax policy would continue to be a burden on the disabled.

(4) Some farmers and ranchers would continue to bear unfair tax burdens, forcing many to sell out.

(5) Local control of property tax valuations could be lost to statewide appraisal in Austin.

(6) Citizen taxpayers might not be alerted to all types of tax increases by public notices and hearings.

"A negative vote would indicate that the people of Texas are not concerned and have no desire to limit taxes or state spending," president Rhoades said.

"That's why we're urging a 'yes' vote on Tuesday, November 7, for the proposed tax relief amendment. Texans are long overdue for a tax break."

A TAXPAYER'S BILL OF RIGHTS IS PAST DUE

Bill Clements believes we still have a chance to preserve our future by establishing constitutional protection against excessive taxation and runaway government spending.

Bill Clements believes the people of Texas should have the power necessary to ratify or reject tax policies made by legislators.

To establish this power (of the people), Bill Clements will introduce an amendment to the Texas Constitution that would give the people of Texas this right.

Bill Clements' "Taxpayers' Bill of Rights" would:

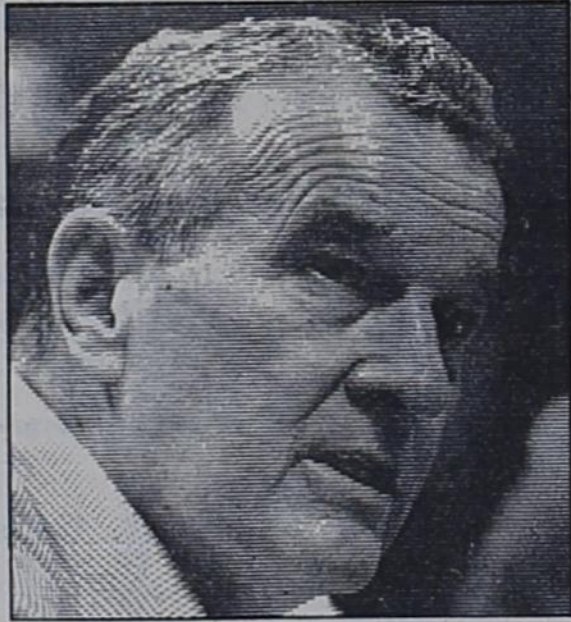

- Give Texans the right of initiative and referendum, a phrase that means we, the people, have a right to vote on the taxes to be levied on us.
- Place a ban on corporate or personal income tax in Texas.
- Require a two-thirds record vote of both houses of the legislature to pass a tax bill.
- Allow local taxpayers to call an election to ratify or reject a tax increase created by a local governmental unit.

Bill Clements believes in Texas and the people of Texas.

Bill Clements thinks that elected officials must work for the people and represent them properly.

As governor of Texas, Bill Clements will work for and with the people of Texas.

It's about time someone recalled that our form of government was conceived to be a servant of the

people and provide the means to insure that principle endures.

BILL CLEMENTS, A GREAT GOVERNOR FOR TEXAS.

Broncho Booster news

Booster Club met Tuesday in the High School Cafeteria. Refreshments of cookies and coffee were served to members as they watched the film of last weeks game.

Thanks to everyone who bought tickets for the ham, and to Bylows for taking care of the ham until the winner, Mr. J.W. Hatley of Brice, could get the ham.

Most everyone that came to the Broncho-Shamrock game noticed that the Booster Club had some more caps! These caps are going pretty fast again so if you haven't purchased a cap and would like one, contact a Booster Club member and get yourself one. These maroon and

white caps must surely show up great from across the field.

The Booster Club is a way of helping the Broncos with moral support and financial support in some way. This year the Booster Club has voted to purchase a 20 x 20 ft. mat. Coach Allen said this mat would be of great help during the off season. We will be telling you more about the mat in a later news writing.

I hope that your name was printed in the paper if you are a Broncho Booster Club member. These names appeared in 4 different issues.

It is not too late to be a member or be a supporter of Broncho Booster Club. We need your support!

\$190,232 monthly SS paid to county residents

Social Security benefits were being paid to residents of Donley County at the rate of \$190,232 a month at the start of 1978, Jim Talbot, Social Security manager in Amarillo said today.

Social Security benefits can be paid to retired persons age 62 and over, to workers who become severely disabled before age 65, and to survivors of deceased workers.

Monthly Social Security checks are also paid to certain dependents of a worker who has retired, become disabled or died.

Of the 1044 Social Security beneficiaries living in Donley County, 590 are retired workers and 63 are disabled workers. Another 155 persons are receiving benefits as the wives or husbands of retired or disabled workers. Widows, widowers and dependent parents of deceased workers number 160.

In Donley County, 247 people under age 65 and 797 people age 65 and older are receiving monthly Social Security benefits. Of total beneficiaries, 429 are men, 539 are women and 76 are children.

Cecil and Pauline Thomas, of Grants Pass, Oregon, visited this past week with Alta and Glen Adkins and with U.Z. and Marie Patterson of Carthage.
