Clarendon College to expand

An ambitious plan Thursday to expand Clarendon College will include a Pampa facility, Clarendon College Pampa Center, after several months of planning with Clarendon College personnel, Pampa ISD, and Pampa Chamber of Commerce, those present at the regular meeting of the Pampa School Board and representatives of the city's two largest industries, Calor and Calorase, were present to witness the announcement that the higher education goals sought by Pampa for several years were a reality.

Possession of the Pampa Center at the Houston Elementary School will be effective Nov. 1 with classes to begin there for the Spring semester. Lloyd Waters has been named Dean of the Pampa campus and will spend his time developing and coordinating activities there. No additional personnel will be added to the program, with the exception of a secretary in Pampa to assist Waters.

Kenneth Vaughn, president of Clarendon College, Frank Phelan, president of the college board of regents, Bob Riley, dean of Clarendon College, and Lloyd Waters, dean of the Pampa campus, were present for the announcement of the new facility. A spokesman said this move was indicative of the quality and scope of the educational benefits coming from Clarendon College to the area and invited to add a second campus to the college.

This will add to the already recognized stature of Clarendon College.

CHS Twirlers going to state

Clarendon High School twirlers are going to State Contest for the third year in a row. In the recently held Regional Contest at Canyon, all four twirlers received a Division I rating for their line routine. Consequently, the twirlers brought home five medals and won the right to advance to the State Contest which will be held in Austin right after school is out in the Spring.

Head twirler for the 1978-79 school year is Dee Ann Cook, daughter of Mrs. Mary Cook. Dee Ann has been a high school twirler for four years and is serving her second year as head twirler. Dee Ann, a senior, went to State Contest with her solo and with the line her sophomore

year and with the line her junior year. There are two junior twirlers, Lisa McAnear and Sherilyn Walker. Lisa is the daughter of Mr. and Mrs. James A. McAnear, Jr. and she has competed on the state level with a solo and with the line her freshman year and with the line her sophomore year. Sherilyn Walker, the daughter of Mr.

Billy Gardner was named player of the week for his performance in the Stinnett-Clarendon game by the Globe.

Bronchos play Wellington

Wellington is the most experienced team that we have played this year. On offense they will start 10 seniors and on defense they have 8 seniors, 2 juniors, and a sophomore. Carl Taylor is a two year regular at QB. Ricky Jones and James Thomas are veteran running backs. Up front, second team all-state tackle Richard Garcia, a 6-1, 190 pounder, is a very aggressive football player. Wing back David Baumgardner is a fine athlete. They will use seven players both ways. They are a lot like Childress in that they have a lot of individual talent.

Bronchos defeat Bucks 27-14

The Clarendon Bronchos for the second straight week rallied in the second half to record their second District 2-A victory. The Bronchos trailed White Deer 14-7 at the half and fought back to tie the score at the end of the third quarter on a 6 yd. run by Gary McClellan. Then in the fourth quarter the Broncho offense really went to work rushing for over 200 yards and 2 touchdowns while the defense held the Bucks to only 4 yards rushing. The running of Billy Gardner and Gary McClellan accounted for 451 yards of the Bronchos 515 total rushing yardage. Gary had an exciting night rushing 16 times for an amazing 287 yards. He also hit 4 of 9 passes for 59 yards. Billy Gardner added to his season total with 164 yards on 20 carries. This effort put Billy at 1,070 yards for the year. He also intercepted a pass.

The Broncho defense shut out the Buck offense off the scoreboard the second half. They allowed only 131 total yardage for the night with 90 of that coming in the first half.

White Deer received the opening kick-off and could manage only three plays and had to punt to the Bronchos. The Bronchos first offensive series began from their own 8 yd. line. The Bronchos made 10 yards before relinquishing the ball on a fumble by Gary McClellan. The Bucks could not capitalize on this opportunity and Terry Cole blocked the field goal try at the 30 yd. line. The Bucks tried another field goal in the first quarter that fell short. That field position had been set up by #25 Monty Carroll's interception of a Gary McClellan pass.

The Bronchos lite up the scoreboard first in the first quarter. Gary McClellan set up the touchdown with a 58 yd. run from his tailback position on a perfect pitchout from QB Lynn Thompson. Gary carried it all the way to the 4 yd. line - finally being hauled down by #12 Mike Pettit. It took the Bronchos two plays with Lynn Thompson carrying it in for the touchdown. He added the extra point and with 1:12 left in the first quarter the Bronchos were on top 7-0.

The Bucks got their first score about three minutes later. The Bronchos failed on a fourth down pass from punter Ronnie Davis to Dean Hawkins that gave the ball to White Deer on the Broncho 38 yard line. The Bucks immediately responded with a 38 yard touchdown run by #12 Mike Pettit. Billy Strader kicked the extra point and White Deer had a tie 7-7 with 9:52 left in the second quarter.

White Deer surprised the Bronchos a minute and half later with another touchdown. The Bronchos had failed to move the ball and Lynn Thompson's punt slid off the side of his foot and the Bucks were once again in business at the Bronco 25 yd. line. The Bronco defense stiffened and put the Bucks in a 3rd down situation. The Buck offense successfully executed a screen pass just over the outstretched arms of Gary Thomas that turned into a touchdown by #25 Monty Carroll. Billy Strader added his second extra point and with 8:10 left in the half, the Bucks were on top 14-7.

The Bronchos came out in the third quarter really moving the ball on the ground. The second possession of the half the Con't on p. 2

We want to invite all the persons in Clarendon to come and worship with us during this time.

Nazarene to have revival

The First Presbyterian Church of Clarendon will hold its Eighteenth Annual Memorial Service this Sunday, November 5, at 9:00 a.m. in the Sanctuary of the church.

At this service, memorials received during 1978 will be presented for dedication. A special presentation will mark the celebrating of the 80th anniversary of the church.

We must execute our offense like we did in the second half against White Deer. We must tackle like we have never before. We will have to play 4 quarters of aggressive, alert football. We will have to block their interior four to be able to move the ball.

BRONCHOS can't fm p. 1
Bronchos moved the ball 58 yards (all on the ground) only to have it end on an unsuccessful 4th down play. But this set the tempo for the Broncho offense the rest of the night. They got the ball back three plays later and immediately began another long drive. A big chunk of this came on a fine 58 yd. QB keep by Lynn Thompson. It took the Bronchos seven plays to go the final 40 yds. for the score. McClellan and Gardner made all the yardage in the drive with Gary carrying the final 6 yds. for the touchdown. Thompson kicked the point and the Bronchos were finally evened again 14-14 with 52 seconds left in the third quarter.

The Broncho defense again held on three downs and after the punt the Bronchos started from their own 30 yd. line. The offense sputtered and faced 4th down and eight. Gary McClellan and Tim Brown again successfully executed the 4th down pass play for a 35 yd. gain. This

gamble was to pay off as the Bronchos were to put more points on the board. Mark Jack picked up 13 on a pichout from Gary McClellan and one play later Billy Gardner took it the final 25 yds. for the touchdown. Thompson made good his third extra point attempt and the Bronchos again had the lead 21-14 with 7:52 left in the 4th quarter.

Two offensive possessions later the Bronchos were to score again - this time on an exciting 68 yd. run by Gary McClellan as he cut back across the field to get in the clear. Thompson's fourth extra point attempt was wide but the Bronchos had sealed their second district win 27-14.

Coach Allen comments on the game: "We were ready to play earlier in the week - but somewhere between Wednesday and Friday night we had lost our mental edge. But we showed some character as we got back with it in the second half. We executed our outside game as well as we ever have. We really moved the ball well the 4th quarter. Defensively, Terry Cole, Mickey McGuire, Gary Thomas, and Alvin Reese had good games. Obviously on offense Gary and Billy had outstanding games. Gary was still wanting to play when the game was over. He really made some exciting runs. That is what we wanted, those two moving the ball like that."

earlier in the season. The J.V. at 7-0 will be tested again. They defeated the Rockets 20-0 in the first contest. Games are 4:30, 6:00, and 7:30. Back the Colts and the Broncho J.V.

The Bronchos fell behind for the first time of the year but came out of their shell to score 29 points in the 2nd half to beat Shamrock Thursday night, 29 to 12.

Clarendon took the opening kick-off and Bobby Weatherton broke loose to the Irish 20. A rash of penalties fell on the Bronchos and ended up trying a fake punt but a Brad Thompson pass was intercepted at the Broncho 35 yard line to end the Bronchos threat.

Shamrock got their first points on the board when Greg Biggers busted through the middle on fourth down and was never touched. The extra point attempt failed and the Irish led 6 to 0.

A Clarendon fumble on the next series gave Shamrock a good field position for their second touchdown. A touchdown pass with one minute to play sent the Bronchos to the locker room trailing twelve to nothing.

From that point, the roof fell in on the Irish as the aroused Bronchos came on to shut down the Shamrock attack and played the whole second half in the Irish end of the field.

The Broncho offensive line of Brian Murray, Scott Lewis, Chris Ford, Van Choate, and Mark White totally controlled the line of scrimmage as Clarendon marched toward their first points of the ball game.

The big play of the drive came when Lance Thornberry cut around right end and broke numerous tackles at the line on a fantastic 30-yard scramble

yards for the second T.D. of the third quarter. Lane kicked his second extra point and the Bronchos led 14 to 12.

Exceptional defensive plays by Barry Hasteley and Jay Lindley forced Shamrock to punt but Rick Hayes broke clean to block it and give the Bronchos possession at the Irish 25 yd. line.

From there, Jeff Topper latched onto a perfectly thrown Lance Thornberry pass for a 25-yard touchdown pass. Tommy Lane split the uprights for the third consecutive time to make the score 21-12.

A Lane field goal attempt was blocked to stall a Clarendon drive but Mark White recovered a fumble on the Shamrock 15. Terry Putman carried the ball twice, scoring on the last and then caught a pass from Brad Thompson for the extra point to complete the scoring.

The victory was Clarendon's sixth in as many outings and will try to stretch the hot streak to seven when they travel to White Deer.

the big blocks of Van Choate and Mark White. Clarendon was suddenly in position for Lance Thornberry to sneak over from the one to give the Bronchos an early 6 to 0 lead. Tommy Lane missed the extra point.

White Deer took the lead early in the second quarter with the help of a big pass interference call on a fake punt to hand them the ball at the Bronco 27 yard line. On 3rd down following the interference call, White Deer scored on a 23 yd. touchdown pass. The two-point conversion was good and the bucks led 8 to 6 at half time.

Midway through third quarter, White Deer stretched their lead to 14 - 6 on a powerful drive on which they controlled the line most of the time.

Early in the 4th quarter, the Bronchos tied it up with a 65 yd. drive which was fueled by a 30 yard completion from Thornberry to Topper and climaxed when Bobby Weatherton scooted eight yards and just got into the corner of the end zone. Brad Thompson hit Terry Putman in

the back of the end zone to tie the score at fourteen apiece. With a 1:26 remaining on the clock, the Bronchos moved the ball seventy-two yards with the big play being a 40-yd. T.D. pass from Thornberry to Topper. The extra point attempt failed.

On the game winning drive, Thornberry was continually given huge amounts of time to

pick out his receiver. White Deer got the ball back with 16 seconds remaining but Scott Lewis intercepted a screen pass to put the game on ice with the final score Clarendon 20, White Deer 14.

PRPC awarded \$175,000. grant

The Panhandle Regional Planning Commission has been awarded a grant in the amount of \$175,000 from the Department of Health, Education, and Welfare, Bureau of Community Services, for the purpose of assisting rural communities with their health care services.

The program will be under the direction of the Panhandle Rural Health Corporation. Serving on the Board of Directors from Donkey County are Billy

Ray Johnston, Delbert W. Robertson and Mrs. Molly Rimer.

The purpose of the funds is to develop a health care system that will initially serve Armstrong, Briscoe, Donley, Hall, and Swisher counties of the Texas Panhandle, by providing personnel and services not presently available. Application has also been made for professional staffing through the National Health Service Corps.

It is anticipated that the sharing of health care resources among the rural areas will ultimately result in services that could not be provided by individual efforts.

The Board of Directors will be sponsoring meetings to discuss services that are wanted in the community. Citizens are invited to contact the Board and to participate in their business meetings.

BRONCHO BUSTER

By Karlen Cantrell

Hello, from Broncho Land. All the Broncos are doing just great. I haven't seen so many smiling faces around here in a long time! Since the Tuff-'N-Mighty Broncos stomped White Deer last week everyone has something to smile about. The varsity beat the Bucks 27-14! They plan to send the Wellington Sky-rockets to the moon there Friday night; 7:30 will be the starting time for the blastoff!

Junior Varsity played an outstanding game against White Deer and beat them 20-14! They are going to send Wellington's J.V. to the moon tonight here at 7:30.

The Freshman team ended their season last week with a 2-2 record. They beat White Deer 20-8. The first touchdown was a 65-yard run by Drew Thornberry, who recently recovered from a broken arm. They failed the extra points. Spencer Hayes made a 5-yard run for the second touchdown, the extra points were made by Lloyd Weatherton. The third and last touchdown was a 45-yard pass play from Drew Thornberry to Keenan Shields. Two more outstanding players were Scott Newland who managed to block 3 punts and Kyle Hill who caught 6 passes for 120 yards. Everyone on this team did a real fine job and we are proud of all of them.

The cheer leaders are having a bonfire tonight at 8:00. The Seniors and Sophomores vs Juniors and Freshman. Everyone needs to get all their boxes gathered up for the bonfire, and let's hear and see some spirit! The Seniors started selling mums Monday. The small ones are \$3.00 and the large ones are

(From Left) KARLETTE, Freshman at Texas A&M University; WAYNE, Senior finance major at Texas A&M; and CHRISTIE, High School English Teacher, Bryan Public Schools.

There is no way I could have effectively campaigned for State Representative without the valuable and indispensable help of my wife, who has been with me all the way--doing the typing, driving, door to door campaigning and the hundreds of chores connected with a "shoe leather" campaign. She will also be with me in Austin helping me serve the 66th Legislative District.

Lois and I have turned down and returned hundreds of dollars of unsolicited campaign funds from the Austin and down state special interest groups. We are proud of our children, and want to set a proper example for them. We want no shadows cast on a reputation it takes a lifetime to build.

We've tried hard to meet every citizen possible in this big 10-county district during this campaign. We are sorry if we missed you but hope to meet you in the near future.

JACK HIGHTOWER

An independent Congressman in the tradition of Texas leadership

Jack Hightower promised the voters of the 13th District when they sent him to Congress four years ago that he would represent all of them fairly and honestly. He promised to provide an independent voice in Washington. He promised to work full-time at the job. HE HAS KEPT THOSE PROMISES.

Here is what those who know Jack Hightower's record say about his effectiveness:

"... in two terms Hightower has established himself as a member of the Agriculture Committee and the Government Operations Committee whose voice must be reckoned with in arriving at solutions to two of the nation's most pressing domestic issues - problems confronting today's farmer, and inflation..."
Amarillo Daily News, May 1, 1978

"... Jack Hightower from Texas is one of the newer class and, in fact, Bob Poague and I like to think he's the kind of refreshing leader of the newer members coming to Washington in a recent session or so, and Jack is a former state senator and has been a tremendously effective lawmaker..."
Congressman Charles Thone of Nebraska

"... Hightower is serious about his business in Washington. He is just as serious about trying to maintain a normal lifestyle in a city where normal is often viewed as abnormal..."
Jim Craig, Houston Post, October 8, 1978

"... I want you to know that we as farmers are truly grateful to have a representative in Washington who does such a fine job of telling our story... thank you for all that you have done for America's farmers..."
Mrs. Georgia Holt, Spearman, Texas

"... I want to express our thanks for your hard work to benefit Texas wheat farmers in the House Committee on agriculture... I know that some of your votes and stands on the issues took real courage for a Democrat, and I want you to know how much I personally appreciate them..."
Winston Wilson, Farmer, Quanah, Texas

"... Hightower has shown a willingness to listen to the needs of his constituents and the ability to legislate on their behalf..."
Amarillo Daily News, May 1, 1978

"... Almost everyone on the Hill knows about Jack Hightower... the Congressman who votes his conscience, represents his district by organic instinct, but is capable of rising above parochial considerations when national interests are at stake. The same qualities that made him an influential state senator for 10 years - scrupulous honesty and an appetite for hard work - have served him well in Washington, but these alone do not explain the high regard in which he is held. In a town overpopulated by small people with large egos, it is a relief to find one for whom the reverse is true..."
Texas Monthly, May, 1976

That's the kind of Congressman Jack Hightower has been since he took his oath in January, 1975. It's why he has earned the respect of his colleagues and the confidence of people throughout this district... from both political parties. Jack Hightower, Democrat, has earned another term. Vote November 7.

Two Skinner employees learn saddle making

RICKEY PIERCE - Just getting started.

SANDRA LONGAN - half way through.

An outstanding example of manual skills is the saddle handcrafted by Sandra Longan and Rickey Pierce, employees of Skinner Enterprises Inc., of Clarendon, and apprentices of the trade.

Although they have only been working at this leather work for six to eight months, as a team, Sandra Longan and Rickey Pierce have constructed between 20 and 30 saddles. In this manner much is learned in a comparatively short time. By rote is a very successful method of learning and quickly improving performance in the process. The same instruction in a conventional class for leather crafting would take much longer with probably three saddles constructed per year.

Aptitude has a great deal to do with handcrafting and in the case of saddles it takes experience and patience for a complex job.

All leather workers, employees at Skinners are apprentices. There are many steps in the making of a saddle beginning with the selection of the leather to be used.

It takes one whole hide, two sides, for a saddle and the choice of hides must be made carefully so the weight of the hide is balanced and the heavy part placed correctly. Not all hides can be used and those which have been branded are avoided because of damage to the hide.

One person spends all his time selecting, planning and cutting the leather pieces for use on the saddles. After the parts have been cut out pre-assembly is done with careful attention given to the placement for weight upon the saddle tree. This saddle tree is often made of hard yellow pine and is covered with rawhide. It is the frame for the leather covering. Some saddle trees for Skinners are purchased from McElroy Saddle Trees, a firm in El Paso. McElroy is the son-in-law of Gerald Mathews of the J.A. Ranch.

The first step in the application of the fitted leather parts

is to install the horn cover, an extremely tedious operation which must be correct. Then comes the gullet and front cover (or swells) and the ground work, or basic pieces. Following this is the installation of the riggings. The most important parts will not be visible in the completed saddle.

In order, come the preparation and installation of the seat and cantle binding. This requires fitting and padding and handling numerous times for that perfect fit. The next step is the installation of the skirts, the lower part of the saddle which goes next to the horse. This portion of the saddle is lined with wool skin.

The back housing, or back portion of the saddle is covered next and with the installation of the fenders and stirrup leathers the saddle is built and ready for the trigger work. This involves cinches, stirrups, latigos etc.

With the construction complete the saddle is ready for the finishing department and cleaning and oiling of the leather.

Easy though it is to list the steps in assembling a saddle, the actual work is a painstaking job as individual as the person who does the construction. The cutter selects the type of leather for roughout, tooled or smooth leather job. If the saddle is to be tooled the work is done after the pre-assembly.

Leather must be handled quite differently from synthetic materials and some of it must be wet to soften it for working. To ease leather is to wet it; (just the right amount) put it in a plastic bag and let the moisture spread evenly throughout. All tooling is done on moist leather.

Rickey Pierce and Sandra Longan are learning to tool leather and there appears to be a growing interest in leather tooling.

Other apprentices showing great promise are Jo Hardin, Vida O'Neal, Linda Pierce, Wanda Holman and Raelle Shadle.

Program to Clarendon College and particularly to the persons who worked hard to get it going. Deserving this praise are Beryl Clinton, former dean of the college, Kenneth Vaughn, president of the college and present college dean, Dr. Bob Riley. This program has benefited the college and Skinner Enterprises wishes to extend their thanks to Clarendon College and the persons involved.

EARTHWORMS are just one of hundreds of kinds of animals that burrow through the earth in a ceaseless search for food. They create a maze of passages that allow air and water to pass freely through the soil.
Cellulose insulation, which is made of paper, must be chemically treated to be fire retardant. Boric acid, the preferred chemical, is in short supply, and substitutes may be used. In any case, Underwriters Laboratories says that treated cellulose "will continue, under unfavorable conditions, to smolder and glow."
The National Bureau of Standards says urea formaldehyde foam is combustible but presents no excessive risk of fire.
The Federal Trade Commission considers that improper installation of cellulose-and cellular plastics insulations "poses substantial safety hazards that must be disclosed in the marketing of the product."

The Pathfinder Club news

Mrs. Goodwin Bray gave an interesting account of their trip to the country of Lesotho for the Pathfinder club's guest day October the 27th at the Patching Club House. The Brays went to the small country in South Africa in December 1976 to welcome their fourth grandchild. At that time their son-in-law was a teacher in The National Teacher Training College.

The small country of Lesotho was formerly called Basutoland while under British rule; it gained its independence twelve years ago. In 1833 their king, King Moshesh, invited Anglican Missionaries to come in and shortly afterward asked Catholic missionaries also. The present king is Moshesh II, a descendent.

Mrs. Bray showed many beautiful slides... of the people, their homes, the lofty mountains, animals indigenous to that area... such as the baboon, the rhinoceros, the zebra and the graceful impala and springbok. The houses are round, made of mud or stone with thatched roofs and only one window... the people weave attractive blankets and wear them even in the hot summertime. Their country and crops are similar to our panhandle... the chief crops being corn, maize and wheat. The cattle are stocky good stuff resembling our Angus, only red in color. Mr. and Mrs. Bray attended a

beautiful wedding; the bride and groom both college graduates. The young man has been detained in South Africa and his whereabouts are unknown at this time.

The Catholics have a fine hospital facility manned by three Swiss doctors.

Mrs. Bray and her sister, Mrs. Cobb-Jones, modeled attractive clothing Mrs. Bray had brought back. Mrs. Bray's skirt was made to commemorate the country's tenth anniversary and Mrs. Cobb-Jones wore a pretty one called a seshoeshoe. Mrs. Bray had many handsome things she had brought on display - a deerskin handbag, clay beads, a handwoven multi-colored rug and many others.

The hostesses served refreshments of pumpkin cake roll, and mints in the dining room with Miss Mabel Mongole and Mrs.

MRS. T.M. CALDWELL, president of Donley Co. unit of the American Cancer Society, gets Dr. R.L. Gilkey to sign up and abstain from smoking on Nov. 16.

Horace Green presiding at the attractively appointed table. Flowers from the garden of Mrs. Verdine Herrington were used throughout the house... beautiful pink roses and various chrysanthemums. Hostesses were Mesdames Horace Green, C.J. VanZandt, Joe Wells, Verdine Herrington and Cecil Matthews. Approximately twenty five women were in attendance.

John Hill is attacking State Budget waste . . .

"I've already started my search for waste in the state budget; I want to be ready to tackle overspending the minute I take office as Governor in January. My budget office already is paring down big state agency budget requests, to keep spending within available revenues. We'll have to live within our means, because I'll veto any new taxes."

... because he knows our taxpayers need relief from inflation.

FOSTER WHALEY SPEAKER OF THE HOUSE BILL CLAYTON
DEMOCRAT FOR STATE REPRESENTATIVE

HOW TO STAND FOR TEXAS WITH TOWER.

Issues	Sen. Tower's Vote	Krueger's Vote	Issues	Sen. Tower's Vote	Krueger's Vote
Food Stamps — requiring food stamp recipients to pay for a portion of their food stamp allotment.	Voted yes 5/24/77.	Voted no 7/27/77.	National Defense — utilizing \$3.8 billion for military construction projects and defense readiness systems.	Voted for 7/13/78.	Did not bother to vote 6/16/78.
Funding to Communist Countries — allowing \$6.8 billion of our tax dollars to be "loaned" to seven countries (Angola, Uganda, Mozambique, Laos, Vietnam, Cuba, Cambodia) with high incidence of human rights violations.	Voted no 10/19/77.	Voted yes 10/18/77.	National Debt Increase — increasing the limit on the federal debt to allow for more government spending.	Voted against in 1975 (11/13), against in 1976 (6/30) and against in 1977 (9/30).	Voted for in 1975 (11/13), was absent for the vote in 1976 (6/14) and voted for in 1977 (9/28).
HEW-Labor Spending — allowing the HEW and Labor Departments to spend in excess of \$56 billion during fiscal 1977.	Voted no 6/30/76.	Voted yes 8/10/76	Hatch Act Reform — allowing government employees to campaign in spite of their affiliation with federal agencies or offices.	Tower and other conservatives threatened to filibuster this bill in the Senate and it was withdrawn.	Voted for 5/8/77.
Minimum Wage Increases — forcing up the minimum wage by almost 50% over a three-year period.	Voted no 10/6/77.	Voted yes 9/15/77.	1977 Farm Bill — providing immediate assistance to farmers in order to meet their desire for a more fair market price for their foods.	Voted for 9/9/77.	Did not bother to vote 9/16/77.
D. C. Representation — designed to give a city of 700,000 two senators and congressman (in effect, cancelling out the votes of our two Texas Senators on matters vital to Texas.)	Voted no 8/22/78.	Voted yes 3/2/78.	Agriculture Appropriations — pending with the Senate Appropriations Committee.	Tower supports increased funding for agricultural programs and operations.	Did not bother to show up for vote 6/22/78.
Wild and Scenic Rivers — designating the Rio Grande Canyon area as a "wild and scenic river" area, thus protecting it from outside developers and environmental damage.	Tower co-sponsored this bill in 1973 and continues to support it.	Krueger opposed this bill from 1974-77, but reversed his position in June, 1978 because of overwhelming public opposition.	Outer Continental Shelf — imposing restrictions on the development of oil leases in continental waters.	Voted against 7/15/77.	Did not bother to vote 2/4/77.
<p>John Tower is 52 years old. Young by Senate standards. Despite his youth, he has been rated by <i>U.S. News & World Report</i> as one of the five most powerful Senators in the United States Senate. And for good reason. He ranks sixth in seniority among G.O.P. Senators. And seniority in Congress means leadership. When it's put to work. John Tower of Texas is doing just that. As the Ranking Republican on the Armed Services Committee. Senior on the Senate Banking, Housing and Urban Affairs Committee. Chairman of his party's policy committee. And as a member of both the Senate Ethics Committee and the Joint Committee on Defense Production.</p>		<p>All powerful positions that John Tower uses to push through legislation important to the future of Texas. Your future. But most important, he serves as a powerful watchdog. Stopping or refining legislation not in the best interests of Texas. Something we're going to see more and more of as the growing anti-Texas bias in Washington is fed and fed upon by the Frostbelt states of the Northeast. It's a job that has and will continue to be done when we send John Tower back to the U.S. Senate. A man who will start from strength. Not from scratch. A man who stands for Texas. Always has. Always will.</p>	Defense Spending — enhancing military preparedness and extending U.S. defense budget authority.	As Ranking G.O.P. Member of Senate Armed Forces Committee, Tower has supported all defense-spending bills.	Did not show up for all three votes 5/5/78.
			B-1 Bomber — requesting that production of the B-1 bomber be cancelled.	Voted no 2/1/78.	Did not bother to vote 12/1/77.
			Davis-Bacon Act — permitting the government to set a "super minimum wage" for employees on federal construction projects at an estimated extra cost of \$2.3 billion.	Tower has always opposed Davis-Bacon legislation that applies urban wage rates to rural or suburban areas, thus making the cost of federal construction projects even higher.	Voted for 6/6/77 and 8/2/77.
				Alaska Lands Act — imposing new restrictions on the exploration and extraction of minerals from conservation lands in Alaska.	Did not show for vote 5/19/78.
Tax Relief — cut Federal taxes 33% over 3 years.	Voted yes 4/29/77.	Voted no 3/8/77.		OSHA Regulation — to require OSHA to consult with employers.	Not yet considered in the Senate, but Tower is opposed.
Social Security Taxes — tripling Social Security taxes over the next decade.	Voted no 12/15/77.	Voted yes 10/27/77.	Government Bureaucracy — making OSHA prepare an economic impact statement for all regulations issued.	Voted for 6/29/77.	Voted no 6/19/78.
Labor Law Reform — aiding union organizing and collective bargaining, thus giving more power to the anti-"right-to-work" unions.	Voted no 6/14/78.	Voted yes 10/6/77.		Voted for 6/28/77.	Voted no 6/19/78.

The Clarendon High School Seniors from the Classes of 1928 and 1929 celebrated their 50th anniversary with a meeting in the Clarendon College cafeteria Saturday and Sunday, October 28th and 29th, 1978. Fifty-four persons registered at the registration held at 9:00 a.m. on Saturday - 31 of those registering were school class mates. Coffee and donuts were served to those in attendance, and lots

of visiting and reminiscing went on until noon, when the group then enjoyed lunch at the cafeteria. After lunch, the group adjourned to go their separate ways for further visiting, sight-seeing, etc., and met again at 7 p.m. at the cafeteria for the banquet dinner.

Bill Dillard served as Master of Ceremonies. Rev. L.A. Reavis, Jr. gave the invocation. Terry and Jennifer Scoggins

entertained the group by singing "Memories" and a medley of other songs popular during the 1928-29 years.

Bill Dillard drew numbers and presented one of his original paintings to each of the lucky winners. Ross Harwood Beville and his wife Edna LaFon Beville received a painting for having traveled the farthest to attend the reunion.

Ross Beville congratulated and thanked the committee of Bill Dillard, Jane Bowns, Wilma Batson, Mary Mann and Pauline Polk for their successful

reunion. Sunday morning from 9 a.m. to 11 a.m. was spent in last minute visiting and fond farewells.

The committee regrets the fact that they could not obtain names and addresses of some of their classmates and wish that all of the 1928 and 1929 seniors could have been present. It was a wonderful experience and reunion.

Most newspapers pick Hill over Clements

"John Hill may be the best candidate for governor in decades. Judging from his record, he should win easily over his Republican opponent, whose chief qualification is money. Unlike his opponent, Hill is not given to outrageous promises, intemperate personal attack or underhanded tactics. He will work hard for the best interests of the state and its people."

— Austin American Statesman

"The more Mr. Clements has explained his blunt viewpoints — even those views we could agree with — the more he has raised doubt as to how effective a bulldozer could be in Texas government. Conversely, John Hill has grown in our evaluation as a man who not only is the best state attorney general in recent history, but also is a man with the intelligence, savvy and ability to serve Texas well as governor."

— Abilene Reporter-News

"We believe Hill will bring vitality and leadership to state government. Hill is not an advocate of big government. Nor is he a free spender. He has pledged that no new taxes will be levied if he is elected. His anti-inflation program is the kind of fiscal conservatism Texans can accept gleefully."

FIRST BALE OF cotton ginned in Clarendon was grown by Jerry Green, left, on the Peabody place. Becky Phillips with cotton bale, L.A. Watson, president of Donley County Farmers Cooperative Assoc. and Barry Phillips, gin manager.

Donley County Farmers Co-operative Assn.

Donley County Farmers Co-operative Association was formed and the contract signed on May 5, 1978 after a group of county farmers chose to form a co-operative and made plans for the first season's cotton crop at the gin plant east of Clarendon.

On the board of directors are L.A. Watson, president; Truett Hall, v-president; David McAnear, secretary-treas.; Bobby Cole and Jimmy Lee Butler who are members of the board.

The board of directors employed Barry Phillips, as manager and he and his wife Becky, who is the bookkeeper, moved to Clarendon from Memphis for the position.

A co-operative is a non profit organization. At the end of the year, by law, 20% of the profits are paid back and the remaining profit is issued in stock to be paid back at a later date.

Major repairs have been made to the plant this year including upping the ginning capacity to approximately ten bales per hour to serve the farmer well and quickly.

When growers use the facilities of the co-operative gin to process their cotton they automatically become members with voting privileges as voting member of the co-op. The co-operative is designed so that each succeeding year will mean increased profits for the members.

Considerable activity is evident as ginning season gets underway with full production still some time off. The determining factor for full cotton harvest activity is a good hard frost which acts as a defoliant.

Although the cotton crop is down over last year's record

Crop and livestock reports needed

From mid-November to early January, thousands of Texas farmers and ranchers will receive a crop or livestock questionnaire from the Texas Crop and Livestock Reporting Service or will be personally interviewed by the Service's field staff. The information gathered through the questionnaires and interviews provides the basis for determining the final acreage, yield, and production of crops and end-of-the-year livestock and poultry numbers for the state of Texas and for each county.

Reliable information on what is produced, how much, and where is important to farmers, ranchers, and others in making production and marketing decisions and in providing an unbiased picture of Texas agriculture. These are also essential to farm organizations and legislators in promotion, planning, and enacting wise legislation and are used in establishing acreages and payment levels to producers under the various

commodity programs. The collection and publication of agricultural statistics are a cooperative effort between the Texas Department of Agriculture and USDA. This cooperation avoids duplication of effort, promotes economies, and increases the effectiveness of statistical reports. All individual farm and ranch information is kept confidential, and only state and county summaries become part of the final published estimate.

County statistics for 1977 and January 1, 1978, are available on Livestock, Poultry, Dairy, Field Crops, Small Grains, Cotton, Vegetables, Fruits and Pecans, and Cash Receipts from the Sale of Texas Farm Commodities. Bulletins can be obtained from the Texas Crop and Livestock Reporting Service, P.O. Box 70, Austin, Texas 78767, or by writing Reagan V. Brown, Commissioner of Agriculture, P.O. Box 12847, Capitol Station, Austin, Texas 78711.

Country Club news

Joan McAfee now has the club house facilities. She urges everyone to come out. She plans to have noon buffets and will have happy hour on Wednesday evenings. Also, after home football games she will stay later so that everyone can come over for an after-the-game get together. Other days (except Tuesday of course) she will be there from 11:00 a.m. - 9:00 p.m. For any special functions please call her.

Family night this month will be Nov. 14 with the buffet

starting at 7:00 p.m. Also, subject to sufficient reservations, she will have a Thanksgiving noon buffet and Sunday buffets. She will have to know ahead of time.

Ladies Golf luncheon is this Thursday, Nov. 2. The meeting will start at 11:00 with a film, and we'll play golf after the luncheon.

Do take advantage of this beautiful weather and come to the golf course; and, let's hope for a warm winter.

Just 'hoping for the best' could be very costly. Farm Bureau insurance prepares you for fire, windstorm, accident or other liability, with protection that's built around your way of life...covering the things that make your operation go.

Call your Farm Bureau Insurance Agent and ask about plans that cover your operation from the ground up, including life, disability, auto, fire, and liability coverages...and enjoy that good feeling of security.

Ever since we opened a high interest savings account at FIRST FEDERAL our dollars have been accumulating like crazy. In fact, we've just been raking them in. And the best thing is, we don't have to lift a finger to help our interest along.

Clarendon Lions club celebrate 56th anniversary

The Clarendon Lions Club celebrated its 56th anniversary with a Ladies Night Banquet on Tuesday October 24, 1978, at 7:30 p.m. at the Lions Den. There were twenty-three members and thirty-three guests present. The meeting was called to order by Boss Lion McGarity who was Master of Ceremonies. Lion Drennan led the singing and following the Pledge of Allegiance, Lion Brown gave the invocation. Next we enjoyed a turkey dinner with all the trimmings. Lion Tamer Messer handled the introduction of guests including District Governor Al Trembel and his wife Modene. Mrs. Bert Smith, the widow of Lion Bert Smith, was recognized as a special guest of the club. Next, perfect attendance pins were awarded to the following: Owen McGarity and P.C. Messer- 1 year, R.E. Drennan- 7 years, Allen Estlack- 12 years, Homer Estlack- 32 years, Carl Allmond- 34 years.

Lion Homer Estlack presented a Certificate of Appreciation for special service to Lion Carl Allmond to honor him for the many years of faithful service to Lionism and in particular to the Clarendon Lions Club. Lion Allmond has held every office in the local club except secretary. Through the years, his gentle words of advice have helped to keep our club on the right track. Our speaker was Past International Director Ed Flood. This past year, Lion Flood served as chairman of the Budget and Operations Committee of Lions International which was in charge of a \$17,000,000 budget. He was the first International Director to visit all the district conventions on the continent of Africa. Some of these places he visited included Uganda, Ethiopia, Kenya, Tanzania, Johannesburg & Capetown. He also visited Rhodesia where he met

Premier Ion Smith who asked him only to tell the truth about what he saw there. This was the first time in seven years an International Director had visited that part of Africa. The political situation was so tense there that many times the people who escorted Lion Flood and his wife from their motel to the convention meeting place would carry sub machine guns. Lion Flood stressed to us that due to its tremendous natural resources, Africa will play a very important role in the future of the world.

With the proper clothing, a man can stand the extreme cold as low as 50 degrees below zero Fahrenheit.

BERYL CLINTON, left to right, Mrs. Clinton, Mrs. Owen McGarity, Rev. McGarity, speaker Ed Flood, Mrs. Trembel and Dist. Gov. Al Trembel.

The Lions Tale

By Gene Alderson

The Clarendon Lions Club held its regular meeting on Tuesday at noon in the Lions Hall with 22 members and 5 guests present. Luther Butler was the guest of Lion Hancock and Bill Todd was the guest of Lion Kent. It was announced that our club will have a Chili-Bean Supper on Thursday, November 9th from 5:30 to 8:00 p.m. at the Lions Hall with the proceeds to go to charitable projects which the club helps with. Adult tickets will be \$1.75. We had two programs today. The first was brought by Diane Mooring and it was in regard to a no smoking program sponsored by the American Cancer Society. November 16th is set as "No Smoking Day". It will be promoted in various ways. The Youth Against Cancer will have "Ciggy Banks" located around town on that day and smokers are urged to drop in the money that they would normally spend for cigarettes on that day. The college cheerleaders will sponsor a kissing booth to reward those signing a pledge card not to smoke on that day. Diane then showed us a very humorous movie featuring the T.V. stars who play the Mom and Dad on "Happy Days". Our second program was presented by Will Leslie of Memphis on a trip he had made to Alaska. It started with a 1st time ever trio consisting of Mr. Leslie, Owen McGarity, and Paul Hancock who sang an Alaskan version of Home on the Range. Mr. Leslie told us several interesting facts about Alaska such as one family in four owns an airplane and in Anchorage many people fly to work and "park" their pontoon planes on the bay. The program closed with some very beautiful slides of Alaska and Victoria Island.
