BOSS LION DAVIDSON [I] presents Mark Nixon, Clarendon College Athletic Di-

rector, a \$120.00 scholarship from the Clarendon Lions Club to the CC Athletic

Library needs your help

The Burton Memorial Library needs your help. The extensive remodeling job on our library is coming along on schedule. The building bought, the roof repaired, the walls up, the plumbing done, the floors ready to carpet, and the heating and cooling system now being installed. But these improvements have taken a big bite out of the \$50,000.00 donated to the library by an anonymous patron.

Now, the Library Board finds it necessary to ask you, the patrons and friends of the library to help in completing the job.

Locating our library on Main Street offers a big plus for everyone. It will be convenient, beautiful and adequate in space to accommodate many new programs for children and adults alike. The new facilities will provide room for story hours, film showings, civic meetings, art displays, puppet shows, drama groups, book reviews, historical displays, reading room, and workspace for research.

Wayne Riggs, building chairman says the remodeling of the outside at \$10,000 carpet at \$5,000, ceiling at \$6,000 are the large items that remain to be paid for.

Wayne Riggs and Lawrence Neece have put in countless hours of work and planning to choose building supplies of good quality at the best price. They have also, overseen all the work that has been done.

Several fund raising projects are underway at this time, however it is unrealistic to expect these affairs to raise enough money to complete the work. Many people have expressed an interest in giving funds to the library as a memorial or otherwise. Now is the time to make those donations. It will be an investment in adequate library facilities for many years to come.

Funds given by you at this time will be greatly appreciated by our hard working Library Board and Building

Compiled by Tommie Saye-Cooperative Observer for National Weather Service, Clarendon.

Bronchos-Wellington in crucial game Friday

Wayne Riggs: Building Chairman; Nancy Shelton: TPLS Lay Representative; Jack or Shirley Clifford: Funding; and Patty Craft: Friends of the Library; Treasurer.

Committee. All donations are tax deductible. Checks may be made to the Burton Memorial Library and mailed or given to the following people: Dianne Chamberlain: Board Chairman;

Treasurer.

The Clarendon Bronchos for the fourth straight week have a critical game. With the Broncho's win over Canadian they have the inside track to the District 2-AA Championship. But there is still another hurdle. The Wellington Skyrockets. The Bronchos host the Skyrockets at 7:30 Friday night.

The Skyrockets are still very much in the District race having only one loss. That to Wheeler (6-7). A loss to the Bronchos would virtually eliminate them. But a win would throw the District race into a mess. As for the Broncho's District aspirations: 1) A win would clinch a tie for the Championship (with either Canadian or Wheeler) and the Bronchos getting the play-off berth because of their wins over those two. (Wheeler and Canadian play this week) 2) A loss would throw it into a 3-way tie-Bronchos, Wellington, Canadian or Wheeler. Then the race would not be decided until the final week.

Coach Allen's comments on Wellington:

The District Championship will be ours only if the Wellington Skyrockets are beaten by us. This is by far the toughest football game we will play this year. We must be more mentally, emotionally and physically prepared than anytime this year. Wellington must win to even have a tie for the crown. They will have nothing but a win on their minds.

The Skyrockets are physical as usual. They will use a multiple set offense and try to get the ball outside to their speed-Tim Anderson (sr.

At 4:50 on Friday afternoon a "Win District Rally"

will be held in the parking lot of Bronco Fieldhouse. All fans are invited to participate. Support the Broncs as they steadily drive toward a District Championship.

Bonfire will be Thursday

Beat Wellington bonfire Thursday night at the vacant lot by the baseball park. Bring your friends and "Fire-up" the Broncs at 7:30 p.m. Thursday.

Rape prevention seminar slated

Saturday, November 8, 1980 is the date for the Rape Prevention Seminar to be held in the Clarendon College Auditorium at 3 p.m.

Speakers for the seminar will include Rhonda Brogdon, of Dallas, Rev. Bill Hodges, of the Clarendon Police Department and a speaker from Rape Crisis in Amarillo.

All age groups are invited to attend this seminar.

Response to water improvement meeting poor

City residents representation was less than impressive as poor attendance at the town meeting evidenced on Tuesday, October 28, at the Clarendon College Auditorium. The meeting was called to discuss water improvement as proposed by a recent study at a cost of \$500,000 to construct and put into usage.

This step had been taken because to correct the water supply problem will cost the water used of Clarendon a considerable amount of money besides his yearly taxes. Mayor, Leonard Selvige said, "It would be easy for us (the board of Aldermen) to sit and discuss and make decisions for the entire city, if we chose. However we feel that the residents should have a chance to make their views known about a project which will cost \$500,000."

The cost of the project, the proposed steps to be taken to correct volume and pressure were published with the notice of the meeting. Action to be taken by the Aldermen and the Mayor will be determined by the response, negative or positive, for an election to vote revenue bonds for the \$500,000.

The big question still is DO THE TAXPAYERS AND WATER USERS WANT THESE WATER IMPROVEMENTS?

The meeting was opened by Leonard Selvige, Mayor who explained the purpose of the meeting. He further explained that the 75%/25% grant which the city had applied for, still was not available and no definite word on its availability had been received. A study of the water system has been made by Merriman & Barber was introduced by the Mayor and he explained the system, answered questions and gave some approximate cost figures of increases to the average water user of Clarendon.

To repay the \$500,000 at 5% interest charged by the FmHA for a 40 year loan, the yearly payments would run \$29,000 to \$30,000 per year. To raise the money for this amount \$2-\$3 per month could be added to each water meter for the amount. This added cost would be in effect for 40 years. Each water user had and still has a chance to make his wishes known on this issue.

Mr. Barber stated that he present system is outdated and worn out, giving an inadequate supply of water to Clarendon. As funds and personnel become available the city has been replacing lines. Some of these replacements are where residents get so little water. In some instances the replacement has been made after a rupture to a water main or line and where the existing line had so deteriorated that a repair could not be made without replacement.

Mayor Selvige, explained that the work of replacing lines and upgrading the existing system will continue as funds allow whether or not there is a bond election.

Another advantage of the new system will be the lowering of the pumping cost to Greenbelt Water Authority. To keep the water coming to the townsites of Clarendon

the pumps run most of the daytime hours. The improved system will provide for additional storage facilities and cut the pumping time and cost.

A diagram of the proposed new system and the large line around the city was shown on a screen and explained by Mr. Barber.

Of particular importance to everyone concerned is the time limit on this issue. A decision on whether or not to call a bond election for \$500,000 must be made in 3-5 weeks.

If a present bill which will be introduced before Congress when it convenes in January is passed the interest rate will go up 1/4%. Over a period of 40 years this additional percentage would amount to an additional \$100,000 over the 40 year period.

The cost of the project, the proposed steps to be taken to correct volume and pressure were published with the notice of the meeting. Action to be taken by the Aldermen and the Mayor will be determined by the response, negative or positive, for an election to vote revenue bonds for the \$500,000.

The big question still is DO THE TAXPAYERS AND WATER USERS WANT THESE WATER IMPROVEMENTS?

The meeting was opened by Leonard Selvige, Mayor who explained the purpose of the meeting. He further explained that the 75%/25% grant which the city had applied for, still was not available and no definite word on its availability had been received. A study of the water system has been made by Merriman & Barber was introduced by the Mayor and he explained the system, answered questions and gave some approximate cost figures of increases to the average water user of Clarendon.

Mr. Barber stated that he present system is outdated and worn out, giving an inadequate supply of water to Clarendon. As funds and personnel become available the city has been replacing lines. Some of these replacements are where residents get so little water. In some instances the replacement has been made after a rupture to a water main or line and where the existing line had so deteriorated that a repair could not be made without replacement.

Mayor Selvige, explained that the work of replacing lines and upgrading the existing system will continue as funds allow whether or not there is a bond election.

Another advantage of the new system will be the lowering of the pumping cost to Greenbelt Water Authority. To keep the water coming to the townsites of Clarendon

Citizens need to consider the advantage of adequate pressure and supply, which includes better fire protection for increased costs of water; or wait for an indefinite time to see if the grant and 75%-25% funding comes to the city, while replacing of lines to ease the problem of insufficient volume continues at a pace present funds and personnel can manage.

Your individual views are asked on this issue and the Mayor and Aldermen, who are the governing body of the city, would like for you to tell any one of them how you feel about calling a bond election.

An election is expensive and the money used is the taxpayers. They want you to tell them how you would like it used.

If a present bill which will be introduced before Congress when it convenes in January is passed the interest rate will go up 1/4%. Over a period of 40 years this additional percentage would amount to an additional \$100,000 over the 40 year period.

The cost of the project, the proposed steps to be taken to correct volume and pressure were published with the notice of the meeting. Action to be taken by the Aldermen and the Mayor will be determined by the response, negative or positive, for an election to vote revenue bonds for the \$500,000.

Another advantage of the new system will be the lowering of the pumping cost to Greenbelt Water Authority. To keep the water coming to the townsites of Clarendon

JOHN HALL,

**John Hall
nominated for
highest FFA
degree**

John R. Hall of Clarendon has been nominated to receive the American Farmer Degree, highest degree presented by the National Future Farmers of America (FFA) Organization. John was nominated for the degree by the Texas FFA Association.

If approved, John will receive the degree in a special ceremony on Thursday, November 13, pending a final vote of 121 student delegates representing nearly half a million FFA members.

Travel awards will be presented to American Farmer Degree recipients to offset their travel expenses to the National FFA Convention in Kansas City. At the convention each American Farmer Degree recipient will be presented a gold key and certificate by the National FFA Organization.

The nomination was approved at a recent meeting of the National FFA Board of Directors in Alexandria, Virginia, virtually assuring the awarding of the degree. One of 782 FFA members nominated for the American Farmer Degree, John will receive the degree in a special ceremony on Thursday, November 13, pending a final vote of 121 student delegates representing nearly half a million FFA members.

Travel awards will be presented to American Farmer Degree recipients to offset their travel expenses to the National FFA Convention in Kansas City. At the convention each American Farmer Degree recipient will be presented a gold key and certificate by the National FFA Organization.

The awards will be presented through the National FFA Foundation by Amoco Oil Co. of Chicago, Illinois; J I Case Co. of Racine, Wisconsin; the Federal Land Banks of USA of Denver, Colorado; the Chevrolet Division, General Motors Corporation of Warren, Michigan; Pioneer Hi-Bred International, Inc., of Des Moines, Iowa, and the Production Credit Associations throughout the United States of Denver, Colorado.

The American Farmer Degree is much sought after because it is only presented to approximately one member in 700 of the 481,676 member organization. It is presented only by the National FFA Organization to members who have demonstrated exceptional agricultural and leadership achievements.

John is the son of Mr. and Mrs. Truett E. Hall of Clarendon and is currently engaged in farming with his father 16 miles N.E. of Clarendon.

John R. Hall received the following awards to qualify him for the American Farmer Degree: Area Star Greenhand; Area Star Chapter Farmer; Area Star American Farmer; he went to state 4 years in production awards and farm skills programs; president of his class 2 years; president of FFA Chapter senior year; president of Civic Clubs high school senior year; president of local and district Future Teachers Assn.; lettered in

football 4 years; basketball 3 years and track 4 years at Clarendon high; made all conference defensive end at McPherson College, McPherson Kansas his freshman year; made all conference in track at McPherson College, McPherson, Kansas; is buying 160 acres of land and associated with his father in farming.

John's high school vocational agriculture instructor and FFA advisor is Milton Mann of Clarendon, Texas.

To qualify for the American Farmer Degree, FFA members must have advanced through a system of degrees unique to the FFA organization. FFA members begin as Greenhands and after one year of membership may be advanced by the local chapter to the Degree of "Chapter Farmer". The third degree, that of "State Farmer", is presented by the State FFA Association to two percent of the State's FFA membership in any one year. Only students who have earned the State Farmer Degree are eligible for the American Farmer Degree.

The National FFA Convention is an annual event of the Future Farmers of America and is carried out in cooperation with the U.S. Department of Education. This year over 20,000 FFA members, vocational agriculture teachers, parents, and guests are expected to take part in the 53rd National FFA Convention.

The convention is conducted entirely by student members between the ages of 14 and 21. Six National FFA Officers take charge of all business sessions and 121 official delegates represent the membership in voting on all issues of business.

In addition to the American Farmer Degree, many other FFA awards are presented during the convention. Contests are held in dairy, livestock, poultry, meats, milk quality and dairy foods, agricultural mechanics, floriculture, nursery/landscape, farm business management and public speaking. Several guest speakers of national prominence address the convention audience and entertainment is interspersed with the business. The convention is the largest annual youth convention in the nation. It closes on Friday evening with the installation of six new National FFA Officers.

**Edie Robertson
elected Artist
Studio
president**

In the first meeting of the current club year, members of the Artist Studio Club elected officers for the coming club year.

Serving as president for the coming year will be Edie Robertson. 1st v-pres. is Mary Martin, 2nd v-pres. is Robbie Hill, sec.-treas. is Virginia James and reporter is Jeanice Weatherly.

Plans and programs as well as projects for the club year were discussed during the meeting.

The next meeting will be Monday, November 10 at 7 p.m. at

Cub Scout attended pushmobile derby

Clarendon's Pack 437 Cub Scouts sent three eight men teams to the Adobe Walls Council Pushmobile Derby in Pampa on November 2.

Team members for Den 1 were Danny Smith, Steven Hicks, Chris O'Neal, Che Shadle, Jeremy Todd, James Lampier, Rudd McCullough, and Robert Skinner.

Den 2 team members were: Shawn Dodd, Wayne Mays, Tully Lefevre, Clemmon Weatherton, Jason Slavin, Micheal Moore, David Wood, and Randy Gaines.

Members of the Den 3 team were: Jeffrey Henson, Nuggett Bland, Brad Harg-

ness, Dale Phillips, Jason Green, Jason Klinnert, Roger Estlack, and Matt Erdmann.

Den 1 placed third in their heat while Dens 2 and 3 placed second in their heats. The Cub Scouts would like

to thank the Church of Christ for providing transportation for most of the boys to and from Pampa.

SBA declaration 1900 amended

The U.S. Small Business Administration (SBA) has amended Disaster Declaration #1900 for the State of Texas to include "extreme hot weather" as being cause for disaster loan eligibility.

The SBA makes available disaster recovery loans to farmers, ranchers and agriculture-related businesses who suffered hardship due to adverse weather in counties

declared a disaster area, as well as in all bordering counties within the state. The loans are low-interest and terms of the loans are based on the borrower's repayment ability. Texas producers who lost crops because of the drought or extreme hot weather may receive program and eligibility information by calling (806) 762-7481.

Physical disaster loan applications filed under declaration #1900 must be received by February 12, 1981. The deadline for economic injury disaster loan applications is May 12, 1981.

Public Aoudad hunt announced

The Texas Parks and Wildlife Department is planning a public aoudad sheep hunt at Caprock Canyons State Park January 3-18, subject to approval by the Parks and Wildlife Commission which meets in Austin

November 6.

The park is located three miles north of Quitaque off State Highway 86 in Briscoe County.

Applications are being accepted for a maximum of 42 permits which will be determined by public drawing. Each hunter who draws successfully will be allowed to take one aoudad, either sex, during a two-day hunt. The application deadline is 5 p.m. November 26. The public drawing will be held in Austin at 10 a.m. December 1.

State park officials say the purpose of the hunt is to reduce the size of the herd in order to eliminate some of the competition between the introduced aoudad sheep and native mule deer.

We were delighted to learn Mrs. Carmen Wright was able to come home Friday. Mrs. Helton, Mrs. Luz Taylor and Mrs. Chaney had dinner prepared for Carmen and Bud when they arrived home.

Clayton Wayne Ferris visited in Amarillo last week with Lloyd Virgil Risley.

Mr. and Mrs. Charles Blackburn, Tommy Taylor and Peggy Watts spent last week in Dallas, attending the Grand Chapter of Eastern Star.

Mr. and Mrs. Glenn Reeves and Steven of Amarillo visited Mr. and Mrs. Otto Elliott Saturday.

Mr. Alford Ivey was a guest of Travis and Shirley Ivey Thursday night.

Mrs. Uada Morrison visited Ruth and Nell Corbin Thursday afternoon.

Neal and Jan and Adam Neal Carter of Elkhart, Kansas spent the weekend with Mrs. Clara Mae Carter.

Amy Koontz spent Friday night with her grandparents Mr. and Mrs. Delmar Koontz.

Mr. and Mrs. Ernest Barbee, Ewayne, Janice and little Beth visited Mr. and Mrs. Tom Barbee of Quitaque Saturday evening.

Dennis Knowles took Mrs. Richard Cannon to the Maranatha party in the home of Billy Ray Johnston. Mrs. Cannon and Mr. P.C. Messer were judges in the dress contest.

Mr. and Mrs. Otto Elliott visited Dood and Wanda Cornell Sunday afternoon.

Mr. and Mrs. Dean Chaney of Amarillo visited Mr. and Mrs. W.R. Chaney Sunday.

Mr. and Mrs. Olace Hicks, Mr. and Mrs. A.J. Hicks and Mrs. Jewel Phares of Rockwall, Tx. visited Dennis and Loretta Harrison and Anna Sunday afternoon.

Jerry Koontz and Roy Lee Helms were dinner guests of Mr. and Mrs. D.R. Koontz Monday.

Carlene Hollar and Kathy May visited Mrs. Richard Cannon Monday.

Mr. and Mrs. Frank Thomason attended funeral services for Mr. Gene Jenkins of Wellington Monday.

Mr. and Mrs. W.R. Chaney visited Mrs. Carmen Wright Sunday night.

We were delighted to learn that we have a doctor in Clarendon who will make house calls in an emergency. Dr. Carl S. Hudson came and took care of Mr. Roy Ferris, and he is doing fine now. Dennis and Loretta Harrison helped them get Dr. Hudson as Clayton Wayne was in Amarillo.

Mrs. Clara Mae Carter visited Ruth and Nell Corbin Monday afternoon.

Hudgins Quilting Club met Tuesday with Mrs. Frankie McAnear.

January 3-18 with a bag limit of one animal by special permit from the landowner.

Since the park was acquired in 1975, the animals have not been hunted and park officials feel that some trophy animals could be taken during the hunts.

Hunters await goose season

Two sure signs of fall are frosty northers and the honks of wild geese winging their way southward. We have had the northers and will be sure to hear the honks soon.

This year it appears there will be ample flights of all goose species for a good hunting season, and the birds should find fairly good habitat conditions when they arrive in Texas, according to Charles Stutzenbaker, waterfowl project leader for the Texas Parks and Wildlife Department.

The season up here in the Panhandle opens October 28 through January 18, 1981.

While a wet prairie is good for the geese, Stutzenbaker said a dry season provides better hunting on the prairie because it concentrates the geese around areas with water. We qualify for a dry prairie alright, but the concentrations of water may be scarce.

The High Plains goose situation is different from the rest of the state, says Bob West, Department wildlife regional director in San Angelo. "Seldom do we get any geese in the High Plains area before the middle of November."

Geese wintering in the Panhandle are a separate group which nests in the short grass prairies of the Western Arctic. When migration starts, these geese are only lightly hunted until they reach Southeastern Colorado where they are subjected to only moderate hunting pressure. Probably due to the fact that Texans are in Colorado after elk and deer at that time and are not interested in a measly little goose.

Heavy snows and a harsh cold spell in Southeastern Colorado will drive the geese to the Texas Panhandle, West said. If the Colorado weather warms up the Texas Panhandle geese will return to Colorado greatly increasing the winter migration of Texans into that state. The Texas population could fluctuate several times during the season, both in geese and

in hunters.

Species densities in the Panhandle are different than those in the rest of the state, West says. The Panhandle flocks are primarily small Canada geese during

most of the season. White-fronted or speckle-belly geese will stay in the area until the first freeze then they migrate south, some stopping off at Lake Casa Blanca near Laredo before

going on into Mexico. There are small numbers of snow geese and blue geese in the Panhandle, but these numbers usually are not significant, West said.

Clarendon Colts defeat Canadian 30-0

By LYNN ALDERSON

The Canadian Kittens came to Clarendon last Thursday. In the first quarter the Kittens and the Clarendon Colts were at a stand still.

In the second quarter the Colts got on the scoreboard first when Rodney Smith broke for a 30 yard touchdown.

The Colts went in at halftime with a 6-0 lead. In the third quarter Rodney Smith broke 25 yards for another touchdown. Darrell McCowan took it for the 2 point conversion. The Colts recovered a fumble on the Kittens 25 yard line. Stanley Gardner ran 25 yards for the second touchdown of the third quarter. Darrell McCowan took it in for the 2 point conversion. Rodney Smith broke for a 60 yard

Texans have seen hotter temperatures

COLLEGE STATION —

This summer was the hottest on record for most of the state's major metropolitan centers, but not enough to topple Texas' 44-year-old record for the hottest day.

That mark of 120 degrees — set in Seymour on Aug. 12, 1936 — was shaken but not unseated by neighboring Wichita Falls which recorded 117 degrees on June 29 for the highest temperature to yet come out of the Texas heat wave.

Unofficial figures from the State Climatologist's Office at Texas A&M University reveal that Wichita Falls had the worst of it this summer, with 70 days of 100-degree temperatures by the first week of September and rainfall so sparse a local newspaper called it drier than the Dust Bowl days

touchdown. Stanley Gardner took it in for the 2 point conversion.

They recovered 4 fumbles and intercepted 1 pass. The

Colts won the game 30-0. They are now tied for the district lead.

Next game is at Wellington November 7.

Jog-A-Thon November

20 at C C

Clarendon College has announced plans for the first annual CC Jog-A-Thon set for Thursday, November 20, on the Clarendon College track.

The Jog-A-Thon is open to all Clarendon College students, faculty and staff members, plus any community service groups or individuals interested in jogging or walking.

The primary purpose of the Jog-A-Thon is to raise money for the different clubs and organizations on campus as well as for the athletic program.

One of the highlights of the "Jog" is that five trips to Cozumel, Mexico will be given away to individuals with the highest point totals in four different categories. Also such prizes as gift certificates to local businesses and T-shirts will be awarded.

"We would really like to get 300 participants in the Jog-A-Thon," said director of the Jog-A-Thon, Mark Nixon, who is the athletic director of Clarendon College. "We feel like this could be one of the most helpful projects the college has ever encountered."

The Jog-A-Thon is also set up to help community service clubs and organizations raise money.

"First of all we think this is going to be a fun thing for everyone involved. It is easy to enter and everyone who enters wins a prize," said Nixon. "We would like to see not only students and faculty members involved but also the hundreds of people in the community who I see jogging every day on the track."

The Jog-A-Thon is set up for participants to walk, jog or run as many laps as they can in a one hour time period.

Jog-A-Thons have become popular fund raising projects all across the nation as the number of people who walk or jog regularly for physical fitness purposes have increased drastically in the last eight to ten years.

The Clarendon College Jog-A-Thon office has been set up in the college gymnasium and will be open from 1:00-5:00 p.m. daily. Anyone interested in participating as an individual or any service group or organization interested in raising funds for itself should visit the Jog-A-Thon office or call 874-2293.

Sir Winston Churchill of England was made an honorary U.S. citizen by an Act of Congress in April, 1963.

Madalyn O'Hair is back in the news

Madalyn Murray O'Hair, who has fought religion in public schools and religion in general and has had more than her fair share of publicity, is in the news again. The following is quoted from Town Crier, by Orlin Brewer, in Sunday's edition of The Vernon Daily Record:

"Mrs. Ramona Gerald telephoned the other day, then brought to the office an item received through her church.

"I believe people should be made aware of this issue," Mrs. Gerald says.

Mrs. Gerald's item appeals for one million letters opposing the latest thrust of Madalyn O'Hair. It states:

"Madalyn Murray O'Hair, an atheist, whose efforts successfully eliminated the use of Bible reading and prayer from all public schools 15 years ago, has now been granted a federal hearing in Washington, D.C., on the subject of religion and the airways by the Federal Communications Commission (FCC). The petition (R.M. 2493) would ultimately pave the way to stop the reading of the gospel on the airways of America. She took her petition with 27,000 signatures to back her stand.

"If her attempt is successful, all Sunday worship services being broadcast either by radio or television will stop. Many elderly people and shut-ins, as well as those recuperating from hospitalization or illness.

depend on radio and television to fulfill their worship needs every week.

"Madalyn is also campaigning to remove all Christmas programs and Christmas songs and carols from the public schools.

To whom it may concern: I personally appreciate and wholeheartedly support the Sunday worship services, plus many other religious

programs that are broadcast over radio and television. Many sick and elderly shut-ins depend on radio and television to fulfill their worship needs. I urge you to see that such programming continues.

What are we doing to stop this woman? You can help this time. We need 1 million signed letters. This should defeat Mrs. O'Hair and show that there are still many Christians alive and well and concerned in our great country. This petition (the O'Hair Petition) is No. 2493. Be sure to put petition number on the outside of envelope when mailing your letter.

No new flu strain is expected this year

COLLEGE STATION — Flu season may come early this year, but the viruses that infect Americans should be familiar types that have been around a few years, says a Texas A&M University microbiologist.

Dr. John Quarles said the Center for Disease Control in Atlanta is telling physicians and researchers not to expect anything dramatically new, but to be prepared for A-Texas varieties or perhaps Russian flu.

Quarles said several isolated influenza cases have already been confirmed this summer and that usually means an early season. Normally, the peak time for Americans is January through March.

II Chronicles 7:14

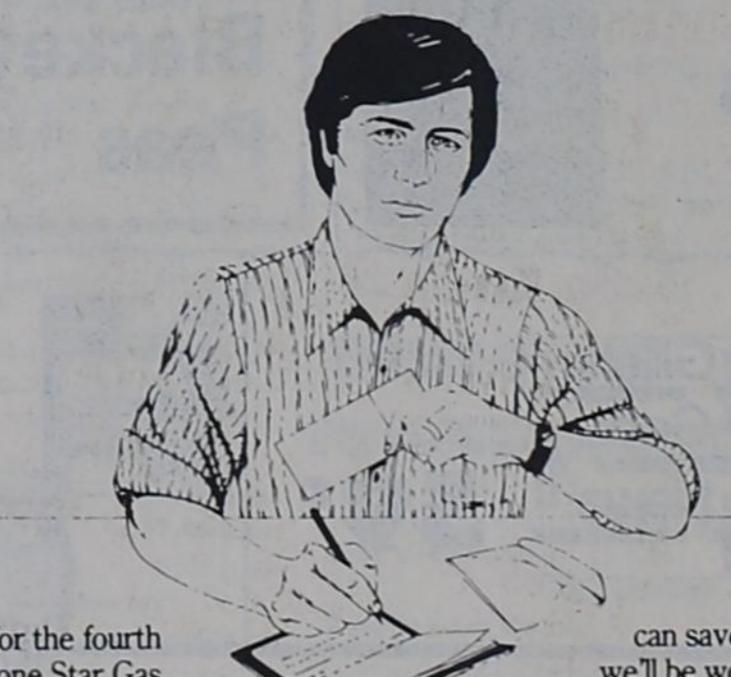

If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land.

HOW WE'RE HELPING YOU HOLD DOWN YOUR UTILITY BILLS.

Again in 1979, for the fourth straight year, Lone Star Gas did a better job of controlling distribution expenses than any of the other major intrastate gas utilities in Texas.* These expenses include maintenance and repairs, leases on offices and facilities, supplies and many other items.

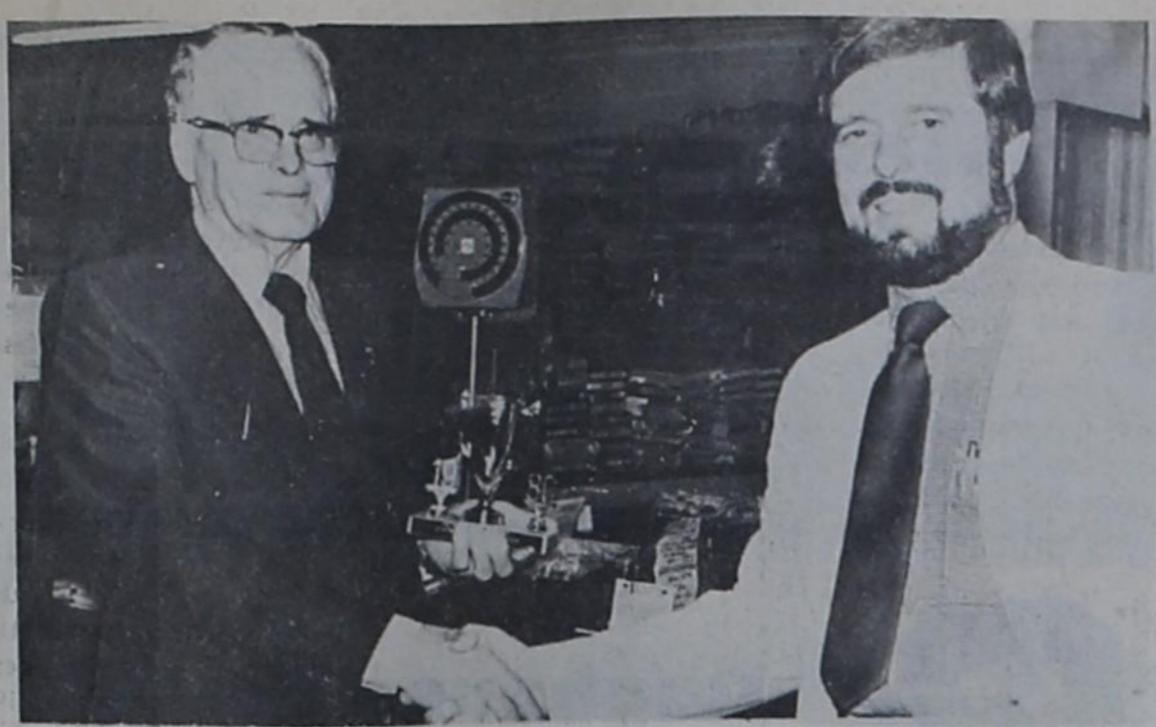

Controlling our expenses is one way we

can save you money. And we'll be working just as hard in 1980 to hold down the price you pay for natural gas service.

*Annual reports filed with the Texas Railroad Commission, 1976-1977-1978-1979, based on the operating expenses of the total Texas distribution system.

Clarendon, Canadian eye critical matchup

Taken from the Friday, October 31, 1980 issue of Amarillo Daily News by Tom Klein Globe-Sports Writer.

Last spring's UIL football realignment established the possibility of interesting would-be grid races around the Panhandle, but none more intriguing than in District 2-2A.

After all, Class B state champion Wheeler was moving up a class and thus would become a 2-2A entry in the UIL's new five-classification system.

Meanwhile, Canadian, a strong contender in Class 2A a year ago, was dropping a notch, thus remaining a 2A team in the new format. The Wildcats also would join 2-2A.

Prognosticators immediately trained their telescopes on November 7, when the teams would meet at Canadian, and rubbed their hands with glee at the critical matchup.

Then Clarendon intervened.

The Bronchos, potentially explosive but a bit of an imponderable before the season began, realized their potential a week ago, exploding

ing to a 34-11 victory over Wheeler that halted the Mustangs' 19-game winning streak.

And so, the critical encounter comes a bit early as the Bronchos and Wildcats meet tonight in Canadian in a contest that could say quite a bit about the 2-2A race.

Both squads enter with unbeaten (2-0) loop records. Canadian is 5-2 overall, while Clarendon is 4-2-1.

Clarendon, a six-point favorite according to the Harris Rating System, could move into solid position with a win tonight, having beaten the loop's two preseason favorites on successive weeks. A Canadian victory, meanwhile, would set the Wildcats up for their anticipated showdown next week against Wheeler.

The contest stands as the best area attraction tonight, although the Follett-Booker contest at Follett brings together two of the favorites in District 1-1A and should

Hosea Hearn and Bobby Weatherston.

Weatherston has rushed for 820 yards thus far, while Hearn has ground out 680 yards, including 213 on only 18 carries last week against Wheeler.

"Their two backs are both good and their quarterback (Lance Thornberry) does a good job also," says Canadian mentor Charlie Russell.

"They're just real well balanced. Their two running backs are real important to their offense. It's hard to key on two instead of just one. I can't tell which one is fastest."

Broncs skin Wildcats

By Spencer Hayes

The Clarendon Broncs followed the second-half rushing of junior fullback Hosea Hearn as they came back from a 13-3 halftime deficit to knock off the Canadian Wildcats on their home turf 24-13 last Friday.

Hearn rolled up 197 yards on just 16 carries for the night, 192 came in the second half. It was his third consecutive game in which he has rushed for 100 yards or more, following a 216-yard performance against Wheeler.

But at halftime, it didn't seem as though the Broncs were on the way to a Championship.

On the opening kickoff, Bobby Weatherston stumbled, sending the ball only four yards. Canadian calmly used fullback Craig Young to pound away at the Bronco defense, and he capped a 44-yard drive with a three-yard TD plunge. After Young's PAT, the score was a 7-0. On Clarendon's first possession, it seemed sluggish, and immediately coughed up the football. Canadian recovered and once again used big Young to carry the ball in on a dive of one yard. The extra point attempt failed, but the 'cats held a 13-0 margin. The offense could not seem to move the ball in the first quarter as the Canadian defense keyed on the Broncs' great tandem of running backs: Hearn and Bobby Weatherston. The Broncs were outplayed in the first quarter in statistics, also. After the completion of the first stanza, Canadian had seven first downs and 85 total yards to Clarendon's one and 16.

But the Broncs started coming around a little in the second period. The defense held off a Wildcat scoring threat and then the offense started clicking. When the backs were being keyed, quarterback Lance Thornberry would roll up good yardage. Then Thornberry hit senior tight end Randy White for 24 yards. A late hit gave the Broncs 15 extra yards and excellent field position late in the half. But the offense could not move any further, so Weatherston came on and booted a 30-yard field goal to trim the lead to 13-3, the halftime score.

After the intermission, the Broncs took the ball deep in their own territory and moved slowly out, until Hearn broke clear for a 73-yard touchdown scamper, his second of three for the night. On the 'cats' next possession, Drew Thornberry intercepted a halfback pass and Hearn scored from 23 yards to make the score an amazing 24-13. The defense snubbed any idea of a comeback, and the offense let time run out.

The Broncs cut down on their mental mistakes in the second half and showed unmatched enthusiasm. The victory put them atop the district 2-2A race, ahead of Wheeler, Canadian, and this week's arch-rival for Wellington, who each hold one loss. Wellington has lost in district only to Wheeler, and could tie the Broncs for the lead with a win. On the other hand, Clarendon could wrap up the district championship with a win. The game is slated for 7:30 tomorrow night at Bronco Stadium.

AN ANCIENT DISEASE

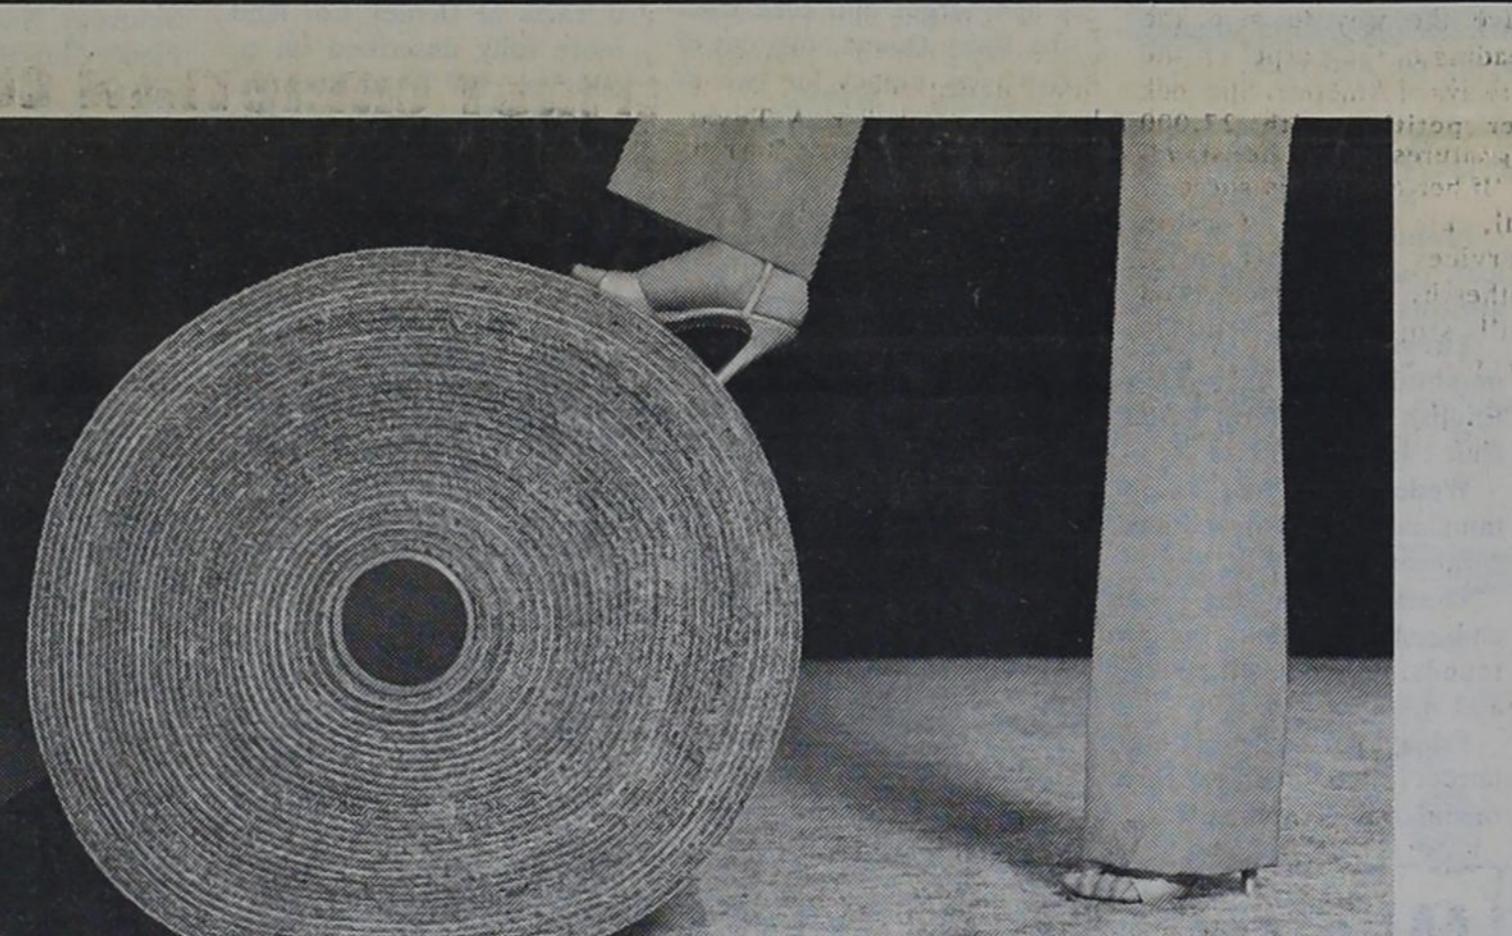

Psoriasis has been described throughout history and has often been confused with both leprosy and syphilis. It is estimated that 2 to 3 percent of our population are affected with this skin disease.

Normally, it takes about 27 days for the skin to form in the deep layers of the body's protective cover and to come to the surface and be scraped off. This is such a slow process that we usually are unaware that "fresh" skin is continually forming.

With psoriasis, however, the time for this process to occur is reduced to about 3 to 4 days. Skin does not have time to fully develop and becomes patchy, thick, and scaled. Certain body parts are affected more than are other parts.

Although we do not know the cause of this unusual skin problem, we do know much about its control. Both prescription and nonprescription medicines are useful. Coal tar creams and bath additives are used extensively. Anthralin and mercury salts are often of value. Steroids similar to cortisone are sometimes applied to the skin or injected under thick areas.

Psoriasis is an ancient disease for which there is no known "cure". It can be controlled to a great extent through use of medicines.

Save fuel with conservation tillage

If you are serious about saving fuel, give conservation tillage a closer look. Farmers who have switched from conventional tillage have reduced their fuel use as much as 80 percent by using no-till, the most fuel-efficient type of conservation tillage.

Conservation tillage saves fuel mainly because fewer trips are made over the field, horsepower requirements are lower, and less equipment is needed to plant a crop.

With no-till, in which all the residue is left on the surface, soil loss can be reduced as much as 90 percent. On steep slopes or highly erodible soils, other conservation practices may also be needed.

Conservation tillage increases the amount of organic matter in the soil, causes less soil compaction than conventional tillage, and allows better infiltration of moisture and nutrients. Through conservation tillage and good management, you can use less fuel, get the same or better yields, save time and labor, conserve water, and control erosion.

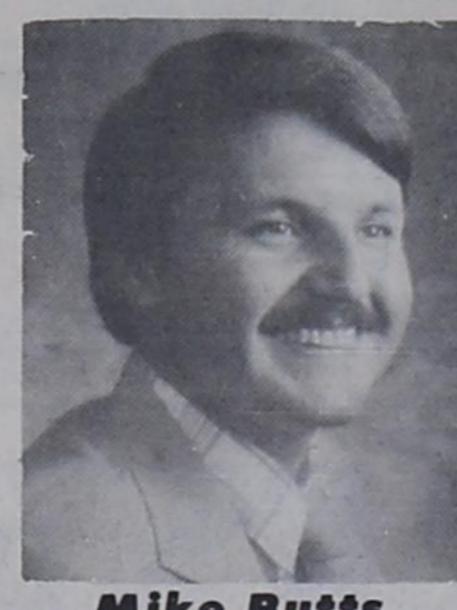

For help in planning a conservation tillage system that is right for your farm, call or visit the local office of your conservation district or the Soil Conservation Service.

Postal Employee retires

T.J. (Buster) Campbell, was honored on the occasion of his retirement from the United States Postal Service as a mail truck driver with a dinner party Wednesday, October 29, 1980. The party was held at Allie's Cafe and his retirement became effective October 31, after 14 years service with the Post Office.

Post Office employees hosted the dinner party which was complete with a clever cake depicting a U.S. Mail Truck, made by Brenda Ward.

Campbell began his duties with the Post Office Department in 1966 and in the recent years carried the mail between Clarendon and Childress.

The Lions Tale

The Clarendon Lions Club met in their regular meeting in the Lions Den, with 24 Lions present and three visitors.

After a delightful meal, the Boss Lion David Davidson called the club to order. Lion Messer introduced the guests; District Governor Lynn Cherry from Amarillo, Lion R.B. Pike guest of District Governor Lynn Cherry, and Doreen Miley, District Executive of Adobe Walls Scout Council, Pampa.

Boss Lion Davidson welcomed the guests after which District Governor Cherry gave a very interesting report and talk on Lions. A pin was presented to Lion Bob McCombs for 1 year perfect attendance and a pin to Mike Sanders for 10 years membership. The club was then duly adjourned.

THANK YOU SO MUCH

To all our neighbors and friends who have expressed your love and concern, in so many ways, at the time of my accident and now during my recuperation. In whatever way you showed that you cared, and every kindness shown to both of us.

We thank you,
Bill and Marie Moore 45-1pc

OWN YOUR OWN BUSINESS

If you qualify you will own two related businesses. First, you will distribute name brands of merchandise such as Kodak, Polaroid, GE, Westinghouse, Sylvania, Ray-O-Vac or Eveready. There is no selling involved. You need only service retail accounts established for you by the company. Second, you will own a related mail order film processing business. Minimum investment \$9975. Call opr. 38 at 1-800-633-4588 or write Namco, 2121 Montevallo Road, S.W., Birmingham, Alabama 35211.

YOU CAN HAVE a pleasant and profitable career selling custommade lubricants to industrial, commercial and farm accounts in your area.

Previous sales experience not required. Knowledge of equipment and mechanical background helpful.

In our company paid training program, we teach salesmanship and product application. You will learn sales techniques used by Hydrotex salesmen who regularly are in the top income bracket each year.

No investment or overnight travel required.

Call collect today - 1-214-638-7400, Ext. 263. 45-1tp

FOR RENT: Very clean, 3 bedroom, two bath, nice yard, storage building, corner lots, excellent location in west end addition. Call 874-3893 for appointment. 45-1tp

HEAT'S ON

By KATIE DVORAK

Many times a good cook gets into the middle of a project and discovers that someone has used the last of some ingredient she needs for the recipe and it's too late to go to the store. What to do? Here is a list of quick substitutes for various ingredients.

Milk

1 C sweet Milk=1 C sour milk or buttermilk plus 1/2 tsp baking soda or 1/2 C nonfat milk plus 2 1/2 tsp oleo or 1/2 C evaporated milk plus 1C of water.
1 C skim milk=4 TBS nonfat dry milk plus 1 C of water
1 C sour or buttermilk=1 C of sweet milk combined with 1 TBS of vinegar or 1 TBS lemon juice
1 C cream, sour, heavy=1/2 C oleo and 1/2 C milk
1 C cream, sour, thin=3 TBS oleo and 1/4 C milk
1 C whipping cream=2 C whipped dessert topping

Eggs

1 whole egg=2 egg yolks plus 1 TBS water
1 large egg=yolk from 2 small eggs and white from one

Sweeteners

1 C honey=1/4 C sugar plus 1/4 C liquid

1 C molasses=1 C honey
1 C karo=1 C maple syrup
1 sq. unsweetened chocolate (1 oz)=3 TBS cocoa plus 1 TBS shortening=1 envelope pre-melted unsweet cocoa
1 pkg chocolate chips=1/4 lb bag M&M or a pkg of any other flavored chips such as butterscotch

Flour and Thickeners

1 C cake flour=7/8 C all purpose flour or 1 C flour minus 2 TBS
1 C all purpose flour for bread=1/2 C bran, whole wheat flour or cornmeal mixed with enough flour to fill 1 C

1 TBS cornstarch=2 TBS flour or 4 tsp quick cooking tapioca

1 tsp baking powder=1/4 tsp baking soda plus 1/2 tsp cream of tartar

1 TBS flour for thickening=1/2 TBS cornstarch, potato starch or rice starch

Flavorings

1 clove garlic=1/4 tsp garlic powder or instant minced garlic

1 small onion=1 tsp onion powder or 1 TBS instant minced onion hydrated

1 TBS fresh snipped herbs=1 tsp dried herbs

1 C catsup or chili sauce=1 C tomato sauce plus 1/2 C sugar and 2 TBS vinegar

1 C canned tomatoes=1 1/2 C cut-up fresh tomatoes, simmered 10 min.

1 small can tomato paste=1 small can tomato sauce simmered with 2 TBS cornstarch until thick

Meat

1 lb cubed, stew or strips of beef, or ground pork=1 lb

Regional conference on aging slated Nov. 12-14

Thirty-three delegates will represent rural Texas senior citizens during a regional conference on aging slated for November 12-14 in Oklahoma City, Oklahoma.

"Rural America, Coming of Age" is the theme for the conference convened by Green Thumb Inc., an employment program for rural older Americans. Delegates will address issues and concerns of the rural elderly in preparation for the 1981 White House Conference on Aging which will be conducted in Washington D.C. November 30-December 4, 1981.

According to Texas Green Thumb State Director Diane Parrish, Texas is one of several states to be represented.

Delegates at the Oklahoma conference. "Our delegates will meet with delegates from New Mexico, Louisiana, Missouri, Arkansas, Oklahoma and Kansas," she said.

Non-delegates representing individuals and organizations concerned with problems of rural older persons will also have the opportunity to attend.

The resolutions that will be adopted from this conference will have effective input on the issues to be discussed next year in Washington. The Oklahoma conference is one of six rural mini-conferences being conducted around the nation. Green Thumb is sponsored by National Farmers Union and is funded by the U.S.

committee to convene the rural meetings with participation and financial assistance from several federal agencies. These include the U.S. Department of Agriculture, U.S. Department of Labor, U.S. Department of Housing and Urban Development, U.S. Department of Health and Human Services, U.S. Department of Transportation and the Appalachian Regional Commission.

Green Thumb, Inc. is an employment program for men and women age 55 and older to work in non-profit organizations to carry out community betterment and conservation programs. Green Thumb is sponsored by National Farmers Union and is funded by the U.S.

Department of Labor and local project sponsors.

In Texas there are presently 952 Green Thumb workers in 107 counties. The workers acquire a new sense of dignity and self-esteem when they are allowed to use their skills and experience in helping their community. Many workers feel the program has added years to their lives through the rehabilitative effects of becoming active again. Green Thumb is an equal opportunity employer.

For more information about the regional mini-conference on aging, contact: Texas Green Thumb, P.O. Box 7898, Waco, Texas 76710. Phone: 817-776-4700.

- 2nd - 1 case Trop Artic
- 3rd - 2 gallons Anti Freeze

WEST TEXAS GAS, INC.

Clinton Holiman, Mgr.

CARL KLINNERT* Texas Saddlery maintenance man.

1981 Upland Cotton Program

The Secretary of Agriculture proposes to make the following determination with respect to the 1981 crop of upland cotton:

1. National Program acreage

2. Program allocation factor

3. Voluntary reduction percentage

4. Whether there should be a set-aside requirement and if so, the extent of such requirement

5. If a set-aside is required, whether there should be a limitation on planted acre-

age and if so, the extent of such limitation

6. Whether there should be a voluntary diversion program and if so, the extent of such diversion and the payment therefor.

7. Whether to require compliance with the Normal Crop Acreage (NCA) as a condition of eligibility for program benefits

8. Established target price

Comments on the 1981 Upland Cotton Program must be received by or before December 2, 1980. Address comments to Mr. Jeffress A. Wells, Director, Production Adjustment Division, ASCS-USDA, Room 3830, South Building, P.O. Box 2415, Washington, D.C. 20003.

Normal Crop Acreage

1981 NCA notices were mailed to you on October 28. You have 15 days from the date of the notice to appeal the normal crop acreage established for your farm.

Cotton Yields

You have been mailed ASCS-503, cards for reporting 1980 cotton production. These need to be completed and returned to us as soon as possible so that 1981 yields can be determined.

County Committee Election

Ballots for voting in the county committee election will be mailed to all known eligible voters on November 21, 1980. The voted ballots must be postmarked or delivered to the county office by December 1, 1980. Watch the mail for your ballot and be sure to vote for the farmer of your choice.

Low Yields

Remember, you must request a low yield payment within 15 days from completion of harvest on each farm.

Wool Program

Wool producers are reminded to file applications for incentive payments by bringing in their sales documents to the county office. January 31, 1981, is the final date.

Holidays

This office will be closed November 11th and 27th in observance of legal holidays.

Texas Saddlery Employee of the Week

Carl Klinnert, has been employed at Texas Saddlery for about a year and a half as maintenance personnel and his hours are different from the other employees since he works from 7 a.m. until 12 noon.

Klinnert helped with some of the work when Texas Saddlery began the business in Clarendon by working on the construction of cutting tables and shelving for storage.

In addition to his maintenance work Carl works with the clickers sometimes.

A three year resident of Clarendon, Carl Klinnert describes himself as a transplanted Oklahoma City, Oklahoman. His qualifications for maintenance personnel are partly due to the 12 years he spent as metal maintenance man at Tinker Air Base and the four years on the west coast working for Consolidated Aircraft. Having had a desire as a child to build airplanes, this job held a special fascination for Klinnert who says quite frankly he had rather build than fly in them.

Carl likes his work at Texas Saddlery. He finds the variety interesting and likes the other staff members. He needs to stay busy and since he rises at 4 a.m. there is a lot of time in a day to do things. After his days work at Texas Saddlery from 7-12 a.m., he enjoys the work in his bicycle shop in the afternoons. His shop is in his sons business location on Hwy 70 South. The bike shop is a repeat of the bicycle work he did for the kids he enjoys so much, that started when he was at Tinker Airforce Base.

Carl Klinnert has two children a daughter Cheryl Gibson, of Borger with grandchildren Amy and April. His son, Roddy and wife Leveta are 12 year residents of Clarendon and they have three children Angela, Jason and Shane.

Carl is a member of the First Baptist Church, is a veteran of WW II and likes working with and for children.

His own household includes Ben and King who are much more than dogs to Klinnert. Ben is a retriever and King a police type dog. They are great company for him and love to play and roughhouse with each other.

Klinnert has done a good job at Texas Saddlery and one of the obvious benefits of his work is the lawn and general outside appearance which he keeps neat and tidy. Texas Saddlery is

pleased to have responsible personnel, such Klinnert in their organization.

COLLEGE STATION —

Information on all local, state, regional and national parks — current fees, facilities and even new types of outdoor recreation that have evolved during the last 20 years — will soon be available to vacationers.

The information will help park officials across the country better determine visitation trends over the last two decades and will provide park planners data for determining future park use, says the author of the study.

The Texas A&M University Department of Recreation and Parks is documenting the information for agencies that plan and determine growth patterns of not only the larger national parks, but also the smaller local, state and regional parks.

Low Yields

Remember, you must request a low yield payment within 15 days from completion of harvest on each farm.

Wool Program

Wool producers are reminded to file applications for incentive payments by bringing in their sales documents to the county office. January 31, 1981, is the final date.

Colts Corral

By KIM FORMWAY

Hello, Colts! The news in Colt action for the last two weeks covers a lot of territory. After winning the Spirit Key in a short pep rally on October 23, the 8th grade Colts traveled to Wheeler to play the Wheeler Colts for the second time. The score was Clarendon 32, Wheeler 6. This brought the 8th grade 6 wins and 1 loss.

Thursday, October 30, both Colt teams were given a great pep rally. Bret Harbert spoke for the 7th, Lynn Alderson spoke for the 8th and Mr. Guinn spoke for the Colts in general. Then the Colts met the Canadian Kittens for the second time. The 7th grade score was Colts 8, Kittens 36. The 8th grade went into action with a very positive attitude and gained a score of 13 to 0 at the halftime. During the 3rd and 4th quarters, points were racked up and totaled 30 to 0 at the end. The Colts played a great ball game. Keep up the good work, and we'll win District.

The Colts play Wellington this week.

Last Friday the junior high students celebrated Hobo Day. I've never seen so many poor looking folks in one place. It was super, thanks to Mr. Guinn and the teachers.

Here's the gossip:
Darrell M. and Shawn S.: Who were you running from?
Tim C.: Mustard?
Wendy M.: Slim??
Amy H.: Why were you saying, "Help"?
Shea G.: Perfume?
Annette W.: Owee?
Shanna C.: 1, 2, 3...
Gina S.: Ark, Ark.
Craig W.: Brushing Teeth?

We have your Money Makers

These Pioneer® brand cotton varieties do well in our area.

Certified Lockett 77* — We saw this variety stand up to conditions that saw other varieties deliver disappointing performances in 1980.

From emergence through fruiting and on into harvest, Lockett 77 showed its strength throughout the season. It demonstrated its resistance to bacterial blight and the fusarium wilt-nematoide complex.

And it proved itself in a variety of management programs on both irrigated and non-irrigated land. Fiber quality has been good, too.

Certified PR80* — Seed for this variety is hard to come by, so many of our customers will have to wait for PR80 until next season. But we encourage you to keep an eye on this powerful new variety from Pioneer. You'll like its early maturity. And its yields will make you think twice about planting anything else. Along with resistance to many common cotton diseases, PR80 shows good fiber qualities and high ginn turnout. We really like the looks of this one! You will, too!

Activities of the Greenbelt

Division LVNA

A reception was held on October 15th at the Calvary Baptist Church from 3:00 to 5:00 in the afternoon honoring the LVN students and their instructor Helen Rogers. Special guests were Onita Thomas and Mrs. Sullivan.

A play was performed with Sue Leeper, Marie McCracken and Gwen Hill. Punch and refreshments were served with Sharon Morrow as hostess.

Following the reception a business meeting was held to discuss future activities of the LVNA.

Our regular meeting will be held this Thursday night at 7:30 p.m. in the Medical

Center.

Also other activities for the month will be a Crystal party, a mini-seminar on I.V. Therapy, and a bake sale.

White Caps

thank LVNA

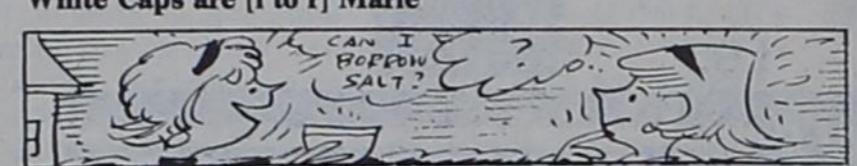

Members of the White Caps, Clarendon College Nursing class wish to thank the LVNA for the reception they gave for the White Caps following graduation.

The time and effort put forth for the reception and the other activities in their behalf is greatly appreciated by the organization.

White Caps of Clarendon College

SOCIALIZING AT THE LVNA reception for the White Caps are [l to r] Marie McCracken, Sue Leeper and Gwen Hill.

Some consider it bad luck to lend salt.

Letter to the Editor

The reason I am writing this letter is in the hope that it might stimulate some interest in the Chamber of Commerce project that is underway. I just wonder if other people are as proud of our little city as I am. We are very fortunate to live in a rural city such as Clarendon.

Many people in large cities would gladly trade places with us.

The Chamber of Commerce is sponsoring a Bar-B-Q dinner on December 20, 1980 for the purpose of raising money to beautify our downtown area. Many suggestions have been made at our director meetings such as, knocking down the high curbs along main street, placing awnings on all the businesses to give a shopping mall effect, and placing leisure benches at different locations. What ever is done to improve the looks of our town will benefit all businesses and make it a more enjoyable place to shop.

Civic pride is the responsibility of all citizens regardless of where you are in business or not. Clarendon has been

blessed with a College, a lake and I believe we have the most potential of any little city in the Panhandle.

The Chamber of

Commerce stands to profit somewhere in the neighborhood \$9000.00 from the dinner we have planned.

Other prizes will be given away in addition to the 1981 Cadillac.

There are many people in Donley County who could afford to buy Ten (10) tickets and give them to their friends. We have many

people who pay five (\$5)

figure income tax each year to the IRS so they can use the money to fix up large cities.

Why not make a donation to your local Chamber of Commerce and keep the money at home. Your contribution is tax deductible.

You may contact John Sarich, Jack Daniel, Allen Estlack, Trey Chamberlain, Delbert Robertson, Jim Simmons, Troy Skinner, Jim Hayes, or Walt Knorp for tickets to the dinner and a chance to win a fabulous door prize.

Mrs. Jettie Prickett is

home from the hospital, and is doing real good. But it will be some time before she is up and around much on that

broken hip.

The Lion's Club had their annual cabinet meeting at Girls Town Saturday. Those from Howardwick attending were Governor Lynn Cherry, wife Jeannie, Troy and Willie Moore, and Carl Ferguson. There were Lions from 2P1, 2P2, and 2S3 present. The men were served a barbecue dinner. The ladies ate in town and went sight seeing, visited the museum, visited a half dugout that was the home of an early settler. It still had the furniture that was first moved into it which consisted of bed, dresser and wash stand all with marble tops and old rocker. They saw a quilt that was over 100 years old, it was a double wedding ring. They completed their day by going shopping and reported a very good day for everyone.

Lola Bartel and Willie Moore were in Amarillo shopping Monday.

Howardwick partyline

By NORMA CORGILL

Hey! Did everyone know

that Howardwick is getting a new water well dug and will have a new water tower? Up near Mr. Rippetoe's place. That means we will have better water pressure and more water if we have another year like this one was.

Jim and Thelma Corgill, flew south with the birds Wednesday morning going where it is warm and where they can fish all winter maybe they will bring us back some fish.

Visiting with Norma Corgill over the weekend, a daughter Sue Strange, Karen, Connie and Bryan of Claude another granddaughter Rieta Garvin who is here going to college.

Mrs. Jettie Prickett is

home from the hospital, and is doing real good. But it will be some time before she is up and around much on that

New nursing program initiated at Texas Tech HSC

variety of reasons, have not entered practice again, even after completion of refresher programs.

For a nurse who has not practiced for even a few years, reentry into the field requires several adjustments. New techniques and technologies have been developed and must be learned. New medications and therapies must be learned. The basic adjustments of going to work in a hospital setting after working at home or in an eight to five job requires an adjustment of schedules and lifestyle for the individual nurse and for the nurse's family.

Coping with the pressures of readjustment, learning new skills and changing responsibilities is a key element of the new program at Tech.

The program includes the traditional reviews of human development, pathology, concepts of nursing practice, nursing intervention, management responsibilities and updates on medications at Tech.

This country was founded on the fight put up by the oppressed to win freedom to act on their own initiative.

There were no guarantees of free material things in the freedom they sought, only

common to most refresher courses.

While these critical areas are developing, the program also fosters abilities in communication skills and decision making skills which can help the individual adjust to new routines and responsibilities.

A new look at an old problem may help provide some relief to the nursing shortage in West Texas by helping inactive registered nurses get back into practice. Surveys of hospitals in the 15 counties surrounding Lubbock (HSA II) show that 22 percent of the budgeted positions for registered

The final two weeks of the 8-week course are spent in the hospital setting. Adjustment to the hospital environment as part of the course helps complete the transition from non-practice activities to class room to work environment.

The approach of the course can help the non-practicing nurse come back into active practice and it can help nurses working in highly specialized areas to become "generalized" so that they may move from one area of nursing to another.

The new program will begin in January and continue through early March. The enrollment will be limited to 15 individuals currently not in practice but holding current licenses to practice as registered nurses.

Participants in the program earn 22 Continuing Education Units. The CNE program at TTUHSC is accredited by the Western Regional Accrediting Committee of the American Nurses' Association as a provider of continuing nursing education. The program is the first of kind in Texas to be accredited.

Program information is available through the Office of Continuing Nursing Education, Texas Tech University Health Sciences Center, Lubbock, Texas 79430; phone (743-2734).
