Plans Progressing For July Celebration

Sammy Baugh To Participate In Rodeo Here

"Slingshot" Sammy Baugh, all American football player with TCU and a star for years with the Washington Redskins in the National football league, will appear in each of the four performances of the Lions Club Rodeo here the 3rd and 4th of July. Baugh is rated by many sport officials as the greatest football player of all time and has no equal in passing and punting. He is now operating a ranch near Rotan, Texas.

Baugh will be matched with Gene Morris, one of the top cowboys on the JA Ranch. Each of the men will rope ten calves during the four performances of the rodeo. This is only one of many features the Lions Club officials are arranging in order to put on the best rodeo ever sponsored in Clarendon and for the best cause - - for the benefit of the community center building fund.

BASEBALL GAME BETWEEN MEMPHIS AND LOCALS THIS SUNDAY

(Barber Bill) Adams announced yesterday that there would be a baseball game here Sunday at 3 p. m. between the local boys and the Memphis team.

"Clarendon has a good football team, boxing team, so why not a good baseball team," he said.

If you like baseball and want to really do the boys a favor, come out to the Jr. High diamond and give the boys a boost. You will enjoy the game and your presence will mean a lot to the players.

Mrs. Rufus White is visiting a week with her parents, Mr. and Mrs. Partain at Waxahachie, then on to San Antonio to spend the summer with her husband, Sgt. Rufus White.

ENSIGN CLYDE DOUGLAS NOW STATIONED AT WASHINGTON, D. C.

Another Clarendon High School graduate doing his bit to defeat the Japs, is Clyde Benton Douglas, son of Mr. and Mrs. Clyde Douglas of this city. Ensign Douglas, after graduating, went to University of Texas at Austin where he was one of the first to enter the V-12 Program when it was instituted at the University. He was inducted at Houston, being the first student examined and passed for Naval training there. After doing work at Austin he was moved to New Orleans, La. at Tulane University where he completed his Pre-Midshipman training. Then he was sent to Fort Schuyler, New York where he completed his training in Midshipman School and was commissioned an Ensign in the U. S. Naval Reserve.

From Fort Schuyler he went to Hollywood, Florida where he served four months in advanced training as a Line Officer. Having graduated from this school he with three other officers were sent to Advanced Ordnance School at Washington, D. C. where he is now training before being assigned overseas duty.

More Gasoline For Civilians In June

Victory in Europe has made possible an increased supply of gasoline for civilian motorists. The value of "A" coupons will be increased from four to six gallons on June 22, when coupon A-16 becomes valid. "B" card ceilings will be raised to 650 miles per month uniformly over the country, on June 11. The increase in the "B" ceiling will not mean more gasoline for all "B"-Users, however, says Chester Bowles, OPA Administrator. Both "B" and "C" rations are based on the individual needs of the car owner. A person who needs only 200 miles a month for home-to-work driving, for example, will continue to receive a "B"-ration of 200 miles. But a person who uses his car in his business and who needs more gasoline than he is now receiving to carry on his business will be able to get an additional gas up to a maximum of 650 miles a month. In both cases they will receive the increase of 50 per cent in the "A" ration.

School Shop And Canning Center Close Today

The Vocational Agriculture Department's farm shop at the south college building will close today as a result of the closing of the shop program throughout the entire nation. The shop has served over two hundred Donley County farmers during the past nine months and has aided very materially in assisting the farmers to repair and build much needed farm equipment during this period. A. P. Thomas, a capable farm shop man of many years experience, has served as supervisor of the shop throughout the period.

The canning center that has been operated during the past nine months under the direction of Mrs. Myrtle Lindsey will also close today. Many thousands of cans of food have been processed under Mrs. Lindsey's supervision. Plans are now underway for the re-opening of the canning center for a short period later in the summer.

Plans are underway for the re-opening of the school shop in the near future. J. R. Gillham, local vocational instructor, said that opening June 11th, the shop would open at least two days per week and that further plans would be announced next week.

LAMESA MAN BUYS THOMAS FEED STORE

Otho Cotton of Lamesa has purchased the Thomas Feed Store and building next door to the Clarendon Food Store from F. B. Thomas and took over the operation of the business last Thursday.

Mr. Cotton has been in the Feed and Seed business for a number of years and has been in this type of business at Lamesa for the past 5 years. He plans to carry on the business in the same manner as in the past with the exception that the grinding mill will not be repaired and operated. It will be remembered that it was mostly destroyed by fire several weeks ago.

Mr. Thomas, who has operated the business for several years, plans to rest up and do some visiting before making any further business engagements.

A number of ranchers and cowboys will be called together next week to select judges, arena director, and other officials for the show.

E Bond Drive Still Short Here In Donley County

LT. R. G. JOHNSON NOW WEARING BLUE RIBBON

AN EIGHTH AIR FORCE FIGHTER STATION, England—Among the men at this Eighth Air Force P-51 Mustang station now wearing the blue ribbon of the presidential unit citation recently awarded the 339th Fighter Group is First Lieut. Raymond G. Johnson, 20-year-old fighter pilot from Clarendon.

Although he had not yet been assigned to England and the 339th when the action for which the citation was awarded occurred, Lt. Johnson has flown on many of the group's bomber escort and strafing missions.

CADET BILLY R. YATES COMPLETES BASIC TRAINING

Aviation Cadet Billy R. Yates has just completed his basic flying training at the Merced Army Air Field, California. He will now proceed to an Army Advanced flying school, where he will take the final steps toward attainment of his silver pilot wings.

He is the son of Mr. Asa O. Yates of Clarendon.

J. R. Porter, War Bond chairman for Donley county, announced yesterday that according to tabulations as of May 25th, only \$42,063.75 has been bought in E Bonds compared with the quota of \$145,000 and an overall total of \$78,346.25 compared with the quota of \$320,000 which was assigned this county.

This means that bond buyers are going to need to really get busy, for the drive is nearly half gone and we're a long ways from the half way mark.

It will be necessary for every individual to make a valiant effort to buy at least an extra bond during this next month, the month of June. The boys in the Pacific are still depending on you to put up the money that will buy the materials they need to pursue the war and the more materials and the faster they receive them, may mean that our boys will have a chance to come home sooner, and can possibly save a countless number of lives that might be lost if the war drags on and on.

Make it an appointment to go by one of the banks or other bond selling agencies tomorrow and buy that extra bond and let's try to have a much better showing by this time next week.

Work Started This Week On Parker-Perkins Store

Work was started this week on repairing and remodeling the building formerly occupied by Thompson Bros. Co., and which will later be occupied by the Parker-Perkins Store.

There will be a complete change throughout the inside of the building and the south side will be closed in again with brick. The plans also call for a complete new modernized front and after the construction is finished, new modernized fixtures will fill the building throughout.

The building belongs to Mr. and Mrs. A. J. Parker and Thomas J. Perkins.

"When the building is completed and the fixtures arrive along with a greater variety of stock, the store will be in line with any of the best variety stores in this entire section," the owners stated.

The entire set-up will cost several thousand dollars and will be a credit to our little city as a business that serves practically every individual in the county.

"It is hoped that the building, fixtures and everything will be in readiness to move into by early fall," the owners stated.

MAILING DATES FIXED FOR FIGHTERS' CHRISTMAS

Mailing dates for Christmas parcels for members of the armed forces again will be Sept. 15 to Oct. 15, Postmaster J. C. Estlack said Monday.

While Navy parcels may be mailed any time without request from the addressee, Estlack said, the Navy has requested that Christmas parcels be mailed in the designated Christmas mailing period. However, for Navy personnel located in spots where parcels are delivered quickly, senders may place them in the mails during the mailing period and designate a date for mailing, Estlack said.

VEGETABLE SUPPORT PRICES WILL BE CONTINUED IN 1945

Prices paid to growers for snap beans, sweet corn, green peas and tomatoes for processing are to be supported in 1945 at the same levels as in 1944, with certain adjustments favoring varieties preferred for processing.

GUESTS IN WARREN HOME

Guests in the J. A. Warren home Sunday were Seaman 1/c Basil Smith of San Francisco, here on leave, visiting his parents, Mr. and Mrs. Victor Smith; S/Sgt. A. T. CONSUMER PROSPECTS ARE BRIGHTER

That new bicycle your child has been wanting will soon be on the market. WPB has authorized production and issued allotments of materials to individual manufacturers within an approved program for 23,000 bicycles a month. New lamps and shades for your home are in the offing. Floor, table and other types of portable electric lamps can now be made to the extent that materials become available, says WPB. Production of hand, gang and power lawn mowers is permitted for civilian use, but few mowers are expected to reach retail stores this year because of continued shortness of materials. Other prospects for consumer goods are domestic ice refrigerators to meet essential civilian requirements and an increase in tire chains for farm tractors in the 1945-46 quotas of civilian tire chains.

CORRECTION

In the list of Donley County youths feeding baby beeves for the 1946 Spring Stock Shows, the name of the young son of Mr. and Mrs. Leon Reeves of Hedley was unintentionally omitted.

LIBRARY NOTES

By Mrs. C. A. Burton

A few new books again. As you will see, most of these are Westerns—and that usually means men readers. They are: "Dead or Alive," Max Brand; "Tenderfoot Bill," Archil Josealyn; "The Czar of Halfaday Creek," James E. Hendryx; "Range Feud," Buck Billings; "Rodeo," B. M. Bower; "Death Rides the Range," Robert Ames Bennett; "Gunman's Gold," Max Brand; "Cowboy Comes A-Fighting," Frank A. Robertson; "Journey Among Warriors," Eve Curie; "The Four Hundred Million—a short history of the Chinese," Mary A. Nourse; "A History of Russia," George Vernadsky; "Karl Marx," Otto Ruhle; "I Saw the Fall of the Philippines," Colonel Carlos P. Romulo.

As will be seen, the last four are not light summer reading—but the summer leisure is often a good time in which to catch up on some really informative reading, such as these.

Eve Curie is known to most readers as the biographer of her mother, Madame Curie. Then came this "Journey Among Warriors" which takes us to Africa, The Near East, Russia, Asia and back to America. The dedication reads like this: "To My Mother, Marie Sklodowska Curie whose birthplace in Poland and whose grave in France lay in lands occupied by the Germans as I made this journey among the soldiers

of our war." Of this History of China, Pearl Buck said, "I do not know of anything better than this in its field. A review of the book says "Interest in China is immense, but that interest needs a background of history if it is to be followed. China is not only important but fascinating. Her history is full of variety and contrast; it is alive with personality."

The author of "A History of Russia" is research associate in History in Yale University. Without bias and with rare knowledge and understanding he traces the tumultuous and paradoxical development of the Russian peoples from their origins more than a thousand years ago to their triumphal march back across the scarred Russian earth from Stalingrad. Russia stands today as the great enigma in the destiny of the world—a mammoth nation of 200,000,000 people, one-sixth of the total land surface and the almost limitless resources of two continents.

Of "Karl Marx" is said his teachings have shaken the world and influenced the course of history more than those of any other modern thinker. I thought others might be interested in knowing about him.

The author of "I Saw the Fall of the Philippines" was personal aide to General MacArthur, a Filipino editor and Pulitzer Prize winner, and last man off Bataan. From this man who is general MacArthur's confidant and friend comes the whole panorama of the

defense of the Philippines. He brought with him only the last letters of the men who were doomed to die there and next to his skin the confidential diary on which this book is based.

Violent exercise after you pass forty is especially harmful if you do it with a knife and fork.

Up in Denver they fined a man of 74 years \$10 for hanging a rat in a tree so that his cats could practice on it. Over in France an alleged army board at a court

martial trial of a GI sentenced him to THREE years of hard labor and dishonorable discharge from the army because he "bopped" four German prisoners of war when they refused to work. The GI was a guard. He served SEVEN months in jail over there before the news got back to his home state of Mass. The Cong. John W. Carmack got up in Congress and aired the scandal. The Congress called on the Secretary of War. That was really getting somewhere. This young GI of 22 years, wounded in action in the invasion of France, was given his army status, the charge against him annulled immediately. Now he is a hero in the sight of all good Americans. What do YOU think of that alleged court of justice? Maybe there are several GIs in hock who do not have contact with the outside world. Maybe it would be a good idea to find out which side that alleged court bunch was on in the fighting. In the language of the old Panhandle pioneer, "hadn't we better pray for a shower of brains?"

MOOS OF THE MOMENT
 BY UNCLE BOB
 of the Kraft Dairy Farm Service

"Make hay while the sun shines" is something we've all been told many times, but it's even more important to make hay before the bloom shines too bright.

Some farmers make hay just to fill their mow, but the good dairy farmer makes hay to fill his cows with the right kind of feed. The time for cutting is most important. Cut hay early. If you want it to have the most possible feed value.

Alfalfa should be cut at one-tenth to one-quarter bloom stage. Sweet clover at half bloom stage, sweet clover when the buds show or earlier and grasses as soon as headed and before they bloom.

Soybeans should be cut when the first pods are filled and before the lower leaves turn yellow. Follow these suggestions and you'll put up really good hay.

Minnesota has a little leaflet which will give you some good ideas on making high quality hay. It is Extension Pamphlet No. 136, Extension Service, University of Minnesota, St. Paul, Minn.*

I've seen bulls which proved to be worth less than their keep, but here's a way to get \$10 out of a good bull pen. The Kraftsman wants pictures of good bull pens and is offering cash for good photos. See the May-June issue for details. The Kraftsman is published for patrons of Kraft Dairy Plants. If you don't receive it regularly let me know, and I'll be glad to send you a copy. Address Uncle Bob, 500 Peshtigo Court, Chicago 90, Ill.

Looks like that Jack-of-all-trades—soybeans—has a chance to do a rescue job this year. This time soybeans can help out on flood relief and can replace freezing losses.

Reports indicate that there was some alfalfa damage during the winter. If your field suffered winter kill or has been hit by flood water, soybeans may be the answer.

The crop grows to cutting stage rapidly and will fill that need for a high protein hay. Your county agent will have a list of the soybean varieties which are recommended for your area.

I imagine that he also can provide you with a booklet which will give you some help in planting, growing and harvesting.

*NOTE: There usually is a 5c charge for pamphlets mailed to non-residents of a state; but possibly your own state has a free pamphlet on the same subject. Ask your county agent.

Clarendon Man Will Wear Insignia of Famed "Flying Tigers" of China

HEADQUARTERS FOURTEENTH AIR FORCE, CHINA—

Symbolic of the contributions to final victory over Japan by Maj. Gen. C. L. Chennault's famed A.V.G. "Flying Tigers", a handsome blue-winged black and gold tiger, rampant from a black enamel 'V', has been approved by Generalissimo Chiang Kai-Shek as the official insignia for all 'Old Tigers.' With approval of the emblem, the Chinese Government added the permission to wear it.

Col. Paul J. Green of Clarendon, a son of Mr. and Mrs. W. J. Greene of this city, will be entitled to wear the insignia of the "Flying Tigers."

When final approval is granted by the United States War Department, "all personnel with the A.V.G. at the time of its deactivation, 4 July 1942, or who received an honorable discharge from the Group, will wear the emblem above the right upper pocket of the service coat, field jacket, or shirt when worn as an outer garment, while on active duty in the armed service of the United States."

The American Volunteer Group was the first successfully to challenge the domination of the Japanese air raiders in China's skies. This small group, including 300 men and two women, was dubbed the "Fei Hu" (Flying Tigers) by

grateful Chinese people shortly after their arrival during the summer of 1941. The title lives on for the present-day Fourteenth Air Force. The affection and esteem of the Chinese people was summed up by Generalissimo Chiang Kai-Shek at a banquet given to the Flying Tigers when the Group was deactivated, 4 July 1942. He said: "General Chennault and his company of air knights will always be remembered by the Chinese people as comrades in arms and as the friendly representatives of a friendly people."

Organized early in 1941, a hundred pilots from the U. S. Army, Navy and Marine Corps were recruited, left the United States and arrived in Asia during the summer of the same year. Japan had not yet made war on the U. S. and Great Britain was still a neutral in the Pacific. As a result Burma was selected as the training ground for the newly arrived fliers. One hundred obsolete P-40's were secured by the Chinese government on Lend Lease and, as the planes began to arrive, the training period began.

The American Volunteer Group during the six months' period, 20 December 1941 to 4 July 1942, officially destroyed 297 enemy planes of all types and actually down twice that number, they

killed more than 1,500 Jap airmen and ground troops and destroyed vast amounts of enemy supplies and material. They cleared the Jap bombers from the north end of the Burma Road. Almost alone, they kept the enemy out of Rangoon for two and a half months and insured the safe delivery of tons of Lend Lease supplies and material to China. The feats of the American Volunteer Group were acclaimed by three governments and medals were awarded by the Chinese and British governments to many of the pilots.

Brothers Meet In Rome, Italy

Following is a letter received by Mrs. W. D. Kidd from Pfc. Earl D. Kidd of Cairo, Egypt.

Rome, Italy
May 10, '45

Dearest Mom and All
Hello folks, well here I am in Italy on a nine day furlough, and am I having the time of my life.

I met big Bud about two hours after I landed at the airport. Mom I wish you could have seen your two big boys meet the way we did; it would probably bring tears to your eyes as they did to ours. Three years away from any of your family is a long time; it was just the next thing to being at home. We could hardly talk—just look at each other, saying Big Bud and Little Bud. I don't think I will ever forget those moments for the rest of my life. It is hard to explain but I think you know what I mean Mom.

I got here about 1600 o'clock Wednesday afternoon, and called him at his camp. He was out playing ball, but soon he was reached, and here he was. Well that is another thing that I can't explain, but maybe Bud can write a letter and tell it better than I can.

He took me out to his camp and to his room. I stayed out with him until this afternoon (Thursday). We talked and looked at pictures until 0100 o'clock a. m. I ate out there in the officers mess. He introduced me to all his Bn. officers, Majors, and the enlisted men of his outfit. He was really walking high telling every body he met that I was his Little Bud. It makes a guy proud to have a brother like I have, and he being an officer in the fighting Inf. I stayed in his office all day and talked every chance I got. He is kept pretty busy with all his duties. He lives in a swell place, big building like the garrisons in the States. The place he lives in was used by the Italians as a camp building. I am staying in Rome at the big rest center that Bud stayed at when he came back from the front. It's orders that I have to stay out here, but Bud got me a pass to stay out with him last night. He will be so busy tomorrow and Sunday, so I won't get to be with him until Sunday night and then he will be off with me until Wednesday, then back to the desert I go.

I am in the Red Cross club now. It is the most beautiful building that I have ever seen. I haven't seen much of the city as yet but Bud will show me around after he gets off duty. I will write and tell you all about every thing

when I get back to my camp, but I just had to write and tell about our meeting.

So long until I get back to Egypt.
Love to all,
Big Bud & Doug

CIVIL SERVICE ANNOUNCEMENT

Care for veterans has been provided generously by Congress which voted a half billion dollars for enlarging and building new hospitals, according to Commander Tyrell Krum, USNR, Washington correspondent of Texas papers.

"The whole Veterans Administration Program at Washington, for veterans' care is seriously endangered by refusal of competent persons to seek and accept employment with the Veterans' Administration," said Colonel C. L. Magruger, of the Veterans' Hospital, Lisbon, south of Dallas.

"Money," the doctor continued, "won't cure a veteran by being slapped on a wound. Money is only good for a sick man when it brings people to run the hospital, give him the service he must have to recover."

"Every American has a vital interest in the welfare of present and prospective veterans and their care in the hospitals. Each competent person available for this work is faced with the question, 'shall I do my part?' in helping veterans recover?"

"If your answer be 'yes' and you are a typist or stenographer," said L. N. Cox, of the Clarendon Post office, "call at this or any other first or second class post office, any U. S. Employment Service or U. S. Civil Service, 210 South Harwood Street, Dallas, for an application and ask for one of these jobs."

Earl Barker and family visited part of last week with his parents, Mr. and Mrs. Carl Barker

and family. Earl is with the U. S. Army and Mrs. Barker and babies live with her mother, Mrs. Howerton of Clarendon.

Mr. and Mrs. O. L. Jacobs and Mr. and Mrs. S. M. Harp visited with Mr. and Mrs. L. O. Christie and family of Martin Sunday.

Ration books have been issued to civilian repatriates from the Philippines at the port of entry, and two current shoe stamps are included in each book.

Figures just released by the War Department show the strength of the Army on the last day of 1944 to have been 8,050,011. On the last day of Oct. 1940 the number was 513,410.

Relief supplies for American and Allied prisoners of war in Europe were valued in 1941 at 1 million dollars; in 1942 at 7 million dollars; in 1943 at 39 million dollars; in 1944 at 81 million dollars; in 1945 for the first three months at 21 million dollars.

The War Department found it difficult to promptly notify all families of prisoners of war of their liberation because of such heavy demands along many lines, so it has been arranged that Red Cross should notify families when requested by the men. These messages have priority. These liberated men also have priority for return, and the War Department notifies families of their arrival. Men may send telegrams from port for thirty-two cents, and may telephone home on arrival.
