## Coast Guardsman C. M. Peabody Jr. Welcomed By Leyte Natives

ABOARD COAST GUARD ASSAULT TRANSPORT IN PHILIPPINES, October 22 (Delayed)—"It was worth a year's pay to watch those tired, happy little people come down out of the hills at Leyte, most of them in tattered rags, with salutes and smiles for their American liberators," crewmen of this Coast Guard-manned assault transport agreed today.

A member of this crew was Coast Guardsman C. M. Peabody of Clarendon. During the invasion he served aboard a landing boat. He is the son of Mr. and Mrs. C. M. Peabody of this city.

"They kept saying 'Happy to see Americans!' in their school room English, the first they had spoken after nearly three years of

Japanese oppression," the men said. "We were treated like visiting royalty. In the joy of these Filipinos, we began to see in a very personal sense what we were fighting for."

"They had suffered cruelly under Jap rule. They received starvation wages and rations, lost most of their valuables and were subjected to unspeakable humiliations. Most of them looked very thin and poorly clothed. But the Army soon had them housed and fed. All of us gave them food, tobacco and candy."

The Coast Guardsmen described how Filipino guerrillas came down to the beaches with the civilians to exchange old rifles for modern carbines. Then they disappeared up the mountain trails, some of them packing hand grenades. The battle, for them, had just begun.

The Coast Guardsmen related some of the experiences told by the liberated nationals:

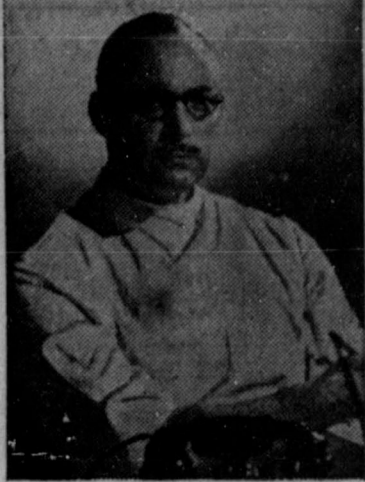

"A Filipino merchant related that the Japanese paid such low wages, and charged so much for even such staples as rice, that most of the people were able to afford only one meal a day. A former Filipino officer, passenger in a small American naval vessel that had been sunk near Leyte at the start of the war, described how he managed to escape detection by staying in the water behind a raft. Then he swam ashore and joined the guerrillas."

The Filipinos told their liberators how the Japs used to taunt them by saying the Americans had "deserted" them. But the happy throng that welcomed the American troops and sailors said the "fatalistic" Nipponese defenders—some of them among the troops that seized Bataan—fled in terror at the approach of the invasion fleet October 20.

They said the history of their own transport symbolized the speed and force with which the Americans returned to the Philippines.

A year ago this month she was finishing trial runs. Extensive maneuvers followed and on February 1 of this year she participated in her first invasion, in the

Marshalls. Operations in the Bismarck Sea, at Saipan and Palau, brought her to the Philippines at the same time that General MacArthur's forces moved up from the southwest. She had crossed the Pacific in less than 10 months! During each invasion, they said, dozens of new ships joined the fleet.

"By the time we got here," they commented, "we had so many ships one couldn't have fired a gun across San Pedro Bay without hitting a half dozen of them. Our battleships and planes made certain there weren't any Jap guns left in those hills to do that!"

Freddie Don Shelly was bitten badly by a dog down in town Thursday and is receiving medical treatment.

War forced closest attention to every motoring detail. And this fine habit of thoughtfulness has grown on car owners.

You'd only be testing human kindness by changing to a half-flat spare and setting out for the next air hose. Where a forgetful man actually tries it, a good Samaritan generally drives up alongside, pointing a helpful warning. America has become as thoughtful as all that toward her indispensable cars. And of all the examples of car-care the greatest single one you can follow is to have your engine OIL-PLATED. In that way—by changing to Conoco N<sup>th</sup> motor oil for Winter—by changing to this patented oil that OIL-PLATES—you'll give your engine's insides the nth degree of protection from acid corrosion.

All engine combustion creates corrosive acids. They're bad enough even when "exhaled" fairly well, but from now on they won't be! Winter's extra-low mileage and cool operation mean acids at their worst. Patented Conoco N<sup>th</sup> oil, however—thanks to costly pioneer research—brings the special ingredient whose magnet-like effect OIL-PLATES your engine's fine inner finish, to cope with corrosion. Attached as closely as protective chrome plating could be, the internal OIL-PLATING keeps up its steadiest possible hindrance to direct contact between acids and engine parts... Then down go the chances of corrosion, just as soon as you change to popular-priced N<sup>th</sup> oil for Winter, at Your Mileage Merchant's Conoco station. Continental Oil Company

### THE TEMPLE OF TRUTH

By the Apostle

**GRATITUDE.**  
Every Saturday a large box of beautiful flowers is delivered to a kindly old pioneer mother of this city, coming from a daughter. How blessed is the privilege of the giver, and how wonderfully blessed is a mother with a daughter like that.

**GIFT PERIOD.**  
May the old Apostle suggest something along the gift idea just at this time, if you have any trouble making up your mind as to what to give, just give a war bond. You will feel better for having done a noble deed, and it will help most where help is needed most.

**TIMES CHANGES E...**  
Yep, time has changed some more things. For instance the gal who used to go out for a good time, now demands a good time and a half.

**DOGGONE IT!**  
Living within one's income may be difficult at times, but it is simple as compared to living without it.

**EMBRYONIC SAGACITY.**  
Recently a local teacher of one of the lower grade rooms wrote a motto on the black board. It read: "Don't play with matches. Remember the Chicago fire." Imagine her surprise when she came back into her room after the noon hour and found some keen wit had suggested: "Don't spit on the floor. Remember the Galveston flood."

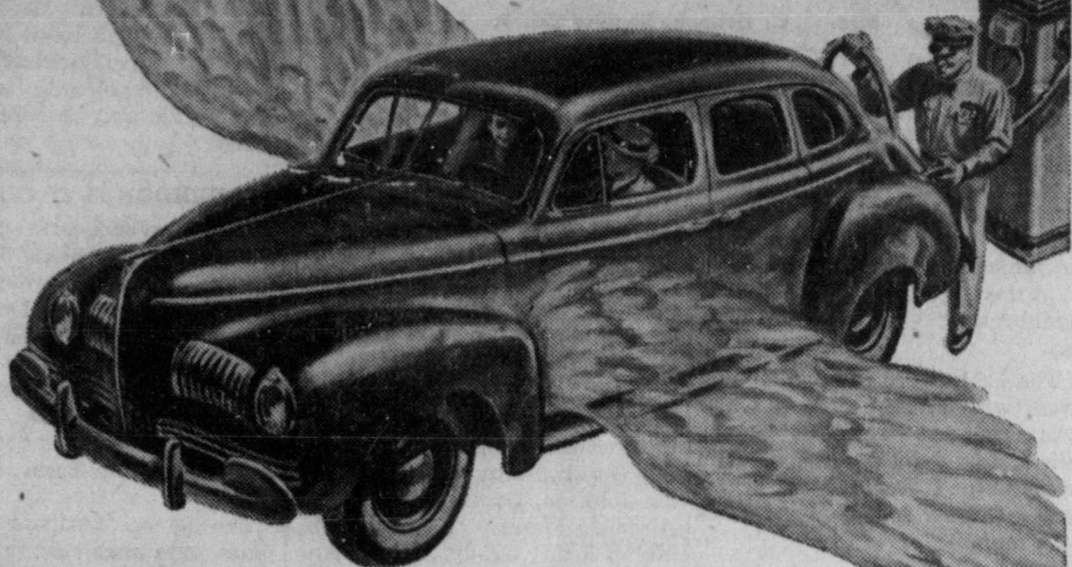

**PSYCHONALYSIS—MAYBE.**  
It isn't your position that makes you happy; it's your disposition.

**VOCALIZING.**  
Conversations of today usually include beefing about "gas", or gassing about "beef."

**PAPER SHORTAGE.**  
Had you noticed how skinny the usually big dailies look certain days of the week with the Dallas News carrying no advertising. Well that is occasioned by what is said to be a paper shortage. That's why your Donley County Leader

## 100 OCTANE GASOLINE won't grow wings on a car

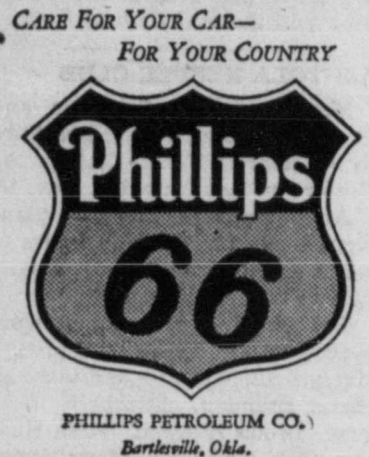

**EXPECT NO MIRACLES** from your present car if the tank were filled with 100-octane gasoline. Its motor was engineered specifically for the gasolines which were available at the time you bought your car. To secure the benefits of very high octane fuels, post-war motors will have much higher compression ratios, will be smaller and lighter, and will deliver greatly increased power and extraordinary mileage.

All this will be possible because of the super gasolines to be made available for motorists in the post-war period. And you have every reason to expect that Phillips will be among the first to offer these vastly improved motor fuels soon after victory.

Why? Because Phillips is today one of the nation's five largest producers of 100-octane aviation gasoline. Phillips is also one of the leaders in the war production of butadiene for synthetic rubber.

These achievements are a direct result of Phillips long years of peacetime research to extend the frontiers of knowledge concerning hydrocarbon chemistry. Other accomplishments, which cannot now be told for security reasons, flow from Phillips wartime exploration of the limitless possibilities of chemical production of new and better things from petroleum gases as well as from petroleum.

This is why we say: Every time you see the Phillips 66 Shield, let it remind you that Phillips refineries, in addition to producing gasolines, lubricants, and fuel oils ... are also *gigantic chemical plants* pouring out weapons for victory.

## Electrical Servants WORK SO CHEAPLY!

Electricity hasn't gone high hat! In these days of expensive help, you still have one servant in your own home who is on the job day and night, and who is working the same long hours at the same low pre-war wages. Today, the average American family receives about twice as much electricity for its money as it did fifteen years ago. For the price of a three cent stamp, your electric servant will wash your clothes, make your coffee and start your ironing—electricity spreads the penny out.

**Land Boom Periled Rural America**

By Claude R. Wickard  
Secretary of Agriculture

History is threatening to repeat itself in the farm land market. Another farm land "boom", closely paralleling the one that ended so disastrously after the last war, is building up in this country. Both the price of farm land and the number of farm sales in many areas have been rising at about the same rate as in the last war. If this trend continues, rural America had better watch out.

One encouraging sign is that actual land prices haven't yet reached the high level of 1919-20. But still we can't say now how much higher these prices are likely to go because, in the world war I period, the high point in the land market was not reached until more than a year after the fighting stopped.

It would be sad indeed if the nation should witness another seige of Farm land foreclosures, bankruptcies, and forced sales such as hundreds of thousands of rural families experienced after the bottom fell out of the land boom that accompanied the World War I period. For 13 hazardous years after 1920, land prices were on the downhill trail. And that statistical fact doesn't begin to tell the full story of human tragedy and misery. Because when a wave of bankruptcies hits a community, everybody suffers - - lender and borrower, business and professional people alike.

It will be particularly unfair for returning veterans, who want to buy land, if they have to compete in an inflated land market. For them, or farmers either for that matter, to go heavily in debt on land prices bid up far beyond

longtime earning capacity is an invitation to disaster.

So my advice is - - Don't buy land at inflated prices. Put your war-time income into sound investments, such as war bonds, so that you can benefit from that money in the years ahead.

**FASHIONS**

Betty Jean Brown has a beautiful brown, yellow, and blue plaid skirt, with which she wears a brown pull-over sweater.

An olive green jumper with a long sleeved maize blouse is being fashioned by Melba Ruth Grady.

Max Keys and Arvis Davis both have brown checked trousers that are admired by all the girls.

Someone can knit. Ruth Patman has a "swanky" white sleeveless sweater.

Elizabeth Talley has some stunning shoes. They are light tan with brown boxed toes and heels. Manly Bryan has a very becoming blue and tan plaid shirt.

A black velvet jumper has been worn by Billy Jean Knox. It brings out those flashing eyes of hers.

Dorothy Nell Kemp has a variety of plaid socks that are a novelty.

Jiggs has a new stetson hat that can be seen for miles.

A lot of the boys have been wearing "T" shirts from West Texas State College.

**CORRIDOR COMMENTS**

Why did Sue Smith bump into the flag-pole Wednesday morning? Could it be she was looking at J. B.?

What's this we hear about Richard Maxey having to push a Model "T" out of the sand by himself? Could it be he had a date and was scared to stand her up?

What was a certain car load of girls doing in Lelia Lake, Sunday morning when they were sup-

posedly at church? Did Wynell have a good time at the football game (at Memphis) Friday night? Two timin' won't do.

We noticed that Bert Barns rode back on the truck from Memphis; we wonder why? Have a good time, Bert?

Whose mirror has some lipstick marks on it? Do all of them leave their name?

What was Wanda Rose so thrilled about Wednesday morning? Could it have been the weather? I thought it only happened in spring. Ain't it grand?

Billy Chilton, what did you tell Wanda Tuesday night to make her flit about like a sparrow Wednesday morning?

Douglas Lowe seems very happy lately; could it be L. U. has finally seen the light?

Have Darby & Kemp come to "feudin'" terms?

What happened to Ada Sue's arm? Hope it gets better.

Who was it that hit Wanda Saturday night? Could it have been a Jr. High student?

It surely has quieted down since a certain small girl changed her typing period from the fifth to the third.

Why was Bert Barns ready to murder Barbara Bell last Friday? We can guess after reading the Broncho Range in the paper (on the ninth of November).

**READING FOR PASTIME**

By Sue Marie Smith

The reading of books is like opening a door upon all the treasures of time. The modern fiction

which is so very popular develops the imagination and entertains the reader as well as indicating a trend in our way of living. Mystery stories make most interesting reading if one's imagination fails to solve the plot from character to character and chapter to chapter. The western stories are full of color and action, not very true to life, but probably typical of what people would like to be and rarely are. Romance has a substantial place in the life of most people, it lifts them to heights of living. Short stories are more convenient to read because the plot is quickly revealed.

My favorite authors are Lloyd C. Douglas, Carolyn Keene, and Helen Dore Byston. Lloyd Douglas writes fiction embracing religion and a higher type of living. Carolyn Keene writes mystery stories especially for girls. Helen Dore Byston writes stories true to the life of a nurse.

The "Robe" is a most interesting and beautifully written book by Lloyd C. Douglas dealing with characters of ancient Bible history. "The Sue Barton Series" by Helen Dore Byston tell of the life of an everyday nurse struggling to attain her ambition and make most interesting reading for teen-age girls. "Nancy Drew" mystery books tell of one girl who seems to be an amateur detective and has a knack for solving mysteries of all size and descriptions.

**WHAT DO YOU THINK ABOUT GOING STEADY?**

Betty Rhodes: It's not so bad!  
Billie Jean Knox: Evidently, I have a favorable opinion.

Helen Rhoades: It's o. k. with me.

Jean Porter: I wouldn't know!!  
Elise Norwood: It would be fun if it was with the right person.

Gene Harrison: It's swell—it doesn't complicate matters.  
W. S. Carlile: Try it for three years and find out.

Coach Naylor: I think it's a monopoly, and monopolies are against the Federal law!

Robert Naylor: Sometimes it's silly, but sometimes it is alright!  
Marilyn Maher: It's all right for some people—but not for me.

Lee Shelly: Hot dog!  
Donald Beard: It's O.K.

Bobby Parker: How would I know—I have never been a victim.

Cora Lee Muse: It is alright if you really like him!

Edith McCrary: That all depends??

Peggy Weidman: It's wonderful if you have a guy like Billy Moreland.

J. R. Morgan: It's O.K.

Bob Bently: It has its assets and also its defects.

Raymond Adams: I like it!!

Edna Lou Lamberson: It's alright, I guess.

Betty Jean Brown: It's fun!!

Max Keys: It's a good idea if you can find anyone to go steady with!!

## FOR OUR HERITAGE OF FREEDOM

WE HAVE much to be thankful for—even in this year of war and sacrifice. We can be thankful that our cities and towns have remained unharmed . . . that we are on the road to Victory . . . that through it all we have upheld the ideals we have been fighting for . . . that we have kept our heritage of Freedom.

On this Thanksgiving Day, " . . . let us thank the Eternal Power; convinced that Heaven but tries our virtue by affliction—that oft the cloud which wraps the present hour serves but to brighten all our future days."

## BACK THE 6<sup>TH</sup> WAR LOAN . . . Help Defeat Japan!

REMEMBER the gaping holds of ships sunk without warning at Pearl Harbor? Remember, too, the men killed during the infamous sneak attack? This is the fight that Japan started . . . the fight that we're out to finish!

Don't fool yourself—the Japs are tough. It will take long, bitter, costly fighting to blast them out. It will take new and specialized equipment, B-29 Superfortresses . . . amphibious tanks . . . airplane carriers . . . P-47 Thunderbolts and new secret weapons. And a veritable Niagara of oil and gasoline! Your War Bonds helped train and

feed and equip the American armies that smashed through at St. Lo . . . Nancy . . . Sedan. Yes . . . your War Bonds are helping to win the Battle of Europe. But now how about the Battle of Japan?

The job is big—so dig!

It costs billions of dollars a month to fight the Battle of Japan. The money must come from every patriotic American. It's an investment in America—your future. That's why you are asked once again—in this great battle for final Victory—to buy your extra \$100 Bond today.

And here are 6 more reasons for buying at least an extra \$100 WAR BOND in the 6th!

1. War Bonds are the best, the safest investment in the world!
2. War Bonds return you \$4 for every \$3 at maturity.
3. War Bonds are as convenient as cash—and increase in value to boot!
4. War Bonds mean education for your children, security for you.
5. War Bonds help keep down the cost-of-living.
6. War Bonds will help win the Peace by increasing postwar purchasing power.

### Larger Quarters For School Farm Repair Shop

The floor space of the farm repair shop in the vocational agriculture department of the Clarendon High School has been almost tripled this week. This move was made in order to provide additional room for farmers desiring to make use of the facilities of the farm shop. Over twenty farmers have made use of these facilities this week with jobs ranging all the way from tractor overhaul jobs to building trailers and trailer hitches. The additional floor space in a warm, tight building will provide a warm comfortable place this winter and early next spring for farmers to recondition and repair their farming equipment.

Over \$2,500 worth of shop

equipment has been placed at the farm shop for the use of farmers in Donley County. A. P. Thomason, an experienced welder and shop man is foreman of the shop, and helps farmers when needed free of charge. There is no charge for the use of the equipment or the services of the shop foreman.

The shop is open Mondays, Tuesdays, Wednesdays, Thursdays, Fridays, and Saturdays, each day from ten A. M. until five P. M.

Power wood saws, electric drills, tap and die sets, pipe cutting and threading sets, forge, electric and acetylene welding, sockets, straight end, and box end wrenches, and many more tools and pieces of equipment are available for use of farmers desiring to use them. A fifty pound hammer will be added to the equipment at an early date to enable farmers to fit their plowing equipment for the spring work.

THE DONLEY COUNTY LEADER, \$2.00 PER YEAR.

### WORTH WHILE COMMENTS

BY COUNTY AGENT  
Charles O. Reed

#### RESEEDING PASTURES

There are many acres in Donley County that have been in fields in past years, but have been turned back to pasture. Many years are usually required for these old fields to become covered with good grasses. Weeds and the undesirable grasses come in first and since stock do not readily eat weeds and undesirable grass they spread faster. This chokes out or keeps down the more desirable grasses.

Experiment stations and farm demonstrations have proved that good native grass seed can be planted on abandoned fields or overgrazed pastures. Good pastures can be obtained within 3 or 4 years under normal rainfall conditions and good pasture management practices, such as not overgrazing, mowing weeds during June or July and permitting grass to reseed.

Experiment station records indicate that a variety of native grasses produces more beef than a good stand of one variety grass. With variety of grass in pasture you have more green grass over longer period of year. The young tender sappy grass contains more protein and minerals than dry or cured grasses.

On sandy soil for pastures used for summer grazing blue grama, side oats grama, sand drop seed, sand bluestem, and sand love grass are recommended. Weeping love grass imported from Africa shows good results in this area, as summer grass. To provide grat-

ing during fall and winter, western wheat grass, Canada wild rye and crested wheat grass are recommended. A mixture of 10 to 12 lbs. of the above grasses are planted per acre. On tighter land blue grass, buffalo grass, and sand drop seed are recommended for summer grazing, also weeping love grass can be used.

To provide fall, winter and spring grazing, Canada wild rye, crested wheat grass, and western wheat grass seed should be added to mixture. About 10-12 lbs. of this mixture are required per acre.

It is recommended that these grasses be planted in spring and not covered over 1/2 inch deep. Pasture grass seed are scarce and should be ordered now.

The AAA program has payment for pasture reseeding.

If you have land that needs reseeding to grass, please contact the County Agent for list of seed dealers, prices and additional information.

#### KILLING FROST RECEIVED HERE SUNDAY NIGHT

That white stuff seen on the ground Monday morning was just a heavy frost although in some places it looked like a light snow.

This was the first real killing frost of the season and was welcomed by farmers who wanted to see the cotton leaves shed in order to make the pulling faster.

The official weather station at the Municipal Airport reported a low of 30.8 on Sunday night. A fair thickness of ice was visible in most low places where water was standing.

Mrs. Will Dubbs of Amarillo visited Mrs. W. T. Hayter the week end.

#### VACATION TRAVEL CAN COST GAS COUPONS

Motorists who use gasoline illegally to travel to winter resorts face the loss of their mileage rations, the Office of Price Administration warns. Chester Bowles OPA Administrator said: "The millions of patriotic drivers throughout the Country who are abiding by the mileage regulations and getting along on tight rations so that all may share fairly the scarce civilian supplies have a right to expect OPA to shut down hard on those who obtain gasoline unfairly for non-essential trips. We intend to do just that." The agency has ruled that persons who are planning a seasonal trip for a definite period of time are not making a bona fide change of residence and that special rations may not be granted for such trips.

#### LIONS CLUB PROGRAM LEADERS ANNOUNCED

Rev. H. W. Hanks, chairman of the Lions Club program committee, announces the following men will have charge of programs on the respective dates listed.

Nov. 21—O. C. Watson  
Nov. 28—Rev. John S. Ellis.

#### CIGARETTES TO GO UNRATIONED

The shortage of cigarettes experienced throughout the country reflects the bad distribution due to war time conditions and the fact that the armed forces are now smoking a fourth of the country's total production, but no rationing of them is contemplated, the Office of Price Administration states. The War Food Administration

reports that the number of cigarettes being manufactured for civilian and soldier consumption is the greatest in the history of the tobacco industry. Only a negligible amount of tax-free cigarettes is sent abroad for consumption other than by our armed forces. Black market operations and hoarding are also believed to be the factors contributing to the spotty distribution and civilian shortages.

## You can't wipe this out with your tears!

**BUT BONDS WILL HELP YOUR BOYS DO IT!**

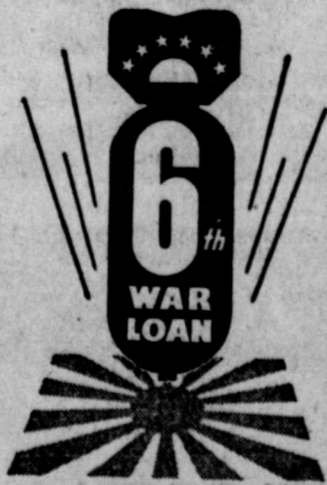

Your fighting men are paying back the Japs for Pearl Harbor, that "deed that will live in infamy." But it's a long way yet to Tokyo—where the final installment will be collected.

We, at home, can't fight shoulder to shoulder with our boys. Yet we can help today by getting behind the 6th War Loan Drive with every dollar we can scrape together. This is every American's war. Buy an extra \$100 Bond—and don't wait till you're asked. For we've a tough job ahead.

Your Bonds prove that you

haven't forgotten Pearl Harbor, Bataan and the thousands of other crimes against humanity by the Jap hordes. Your Bond is an installment on what it's going to cost us to crush the Japs in the long sea lanes of the Pacific—it's going to take more superfortresses at \$600,000 each, more P-47 Thunderbolts at \$50,000 each—more of every type of materiel.

And remember, when you buy Bonds you are saving for your future and the future of your country. Don't put it off—buy that extra Bond today.

**BUY AT LEAST AN EXTRA \$100 WAR BOND TODAY!**
