CUBAN POSTAL FRAUDS. Other Arrests Have Been Made and Post

Havana, May 15 .- The extent of the postal frauds is far greater than was at first expected. Besides taking in the postal department, the frauds seem to various other offices throughout the island and also to have extended to outside points which have been used for the sale of some of the old stamps that were ordered destroyed.

The result of the investigation at the local postoffice is the suspension of Postmaster Thompson, who was installed in April of last year. He will remain at his own house for the present. Moya and Mascaro, stamp sellers in the main office, have also been arrested and further arrests are expected. As many as six others have been placed under the closest surveillance and they will be arrested as soon as their services can be spared. As a matter of fact, if they were all to be suddenly relieved of duty it would not be possible to carry on the postal department of Havana.

Messrs. Reeves and Reynolds, the auditors of the postal deprement, are still under arrest at their own rooms, in charge of detectives. Special quarters will, however, be prepared in some for-"Will you go back to Kentucky if the tress, where all the prisoners connected decision of the United States supreme with the frauds will be taken as soon as

It appears that the frauds ramified in almost every possible direction, even the rented boxes having been made a source of illegitimate gain.

Every additional revelation increases the amazement of the Americans here. The Cubans seemed to be immensely pleased. They declare that the Americans can no longer boast in Cuba of their superior honesty when in government employ. As yet it is impossible to say how many persons will be implicated.

Edward Thompson, the suspended postmaster at Havana, is one of the best known men in Indianapolis, where he stood high in general estimation. He served for 25 years in the Indianapolis postoffice and was postmaster there under Harrison administration. He was assistant postmaster for some years prior to the Cleveland administration, which retained him in the office in a subordi-
