Four Armed Men on the Illinois Central Railway

HAVE THINGS ALL THEIR WAY.

Killed an Engineer Who Was on His Way to Take Charge of a Locomotive and Ordered Engine Cut Loose.

Memphis, Tenn., Dec. 31.—Four white men killed J. M. Rhea, an innocent passenger on train No. 6 of the Yazoo and Mississippi Valley branch of the Illinois Central railroad, at an early hour Monday morning, near Leland, Miss., cut the locomotive from the train and forced the engineer to run to Cleveland. All four men were arrested. One is in jail at Leland and three are locked up at Shelby.

The four men are: Ashley Cooke, a prominent business man of Cleveland; A. M. Phipps, postmaster at Shelby; Thomas Lauderdale, said to be a relative of Phipps, and a man named Blackman, residence unknown.

The men went from Shelby to Leland early Sunday night. At Leland, it is said, they spent several hours drinking and carousing. At 3 a. m. the men boarded the northbound train to return to Shelby.

J. M. Rhea, an engineer, was on his way to Tutwiler under orders to take out a locomotive there. He was sleeping on a seat in the smoker when the passenger train pulled out from Leland. At this point Cooke and Blackman had Winchester. Phipps was not armed.

Walking up the aisle, Phipps was in advance of the party when he came in contact with Rhea's legs, which were extended out into the aisle as he slept. Rhea was awakened and inquired what was the matter. The members of the party stood there and discussed the situation angrily for a while and then the quartet went to the platform.

Very soon they returned and going up to Rhea told him that they could not all stay in the same car; that he would have to get out of the car. Rhea remarked that in order to prevent trouble he would have to do as they told him. Thereupon he started out of the car. He had just reached the door when it is claimed the men opened fire upon him. He fell where he stood.

Conductor George McLaughlin ordered the train back to Leland, there to leave the corpse. As soon as Leland was reached the conductor went a search of the sheriff and peace officers.

In the meantime the quartet had not been idle. They had driven everybody out of the smoker and the adjacent car during the run back to Leland, and when they arrived at that place they went to the locomotive, board of which was Engineer DeLaney. They covered him with guns and told him if he did not obey their commands they would kill him. He was compelled to uncouple his engine, and when the men mounted into the cab he was ordered to open the throttle and send the engine down the track toward Shelby.

In the excitement of the moment Phipps became separated from his companions and did not get away from Leland. When the sheriff arrived at the railroad he arrested Phipps.

The others were carried on to Shelby. Arriving there they made no effort to conceal themselves, but still carrying their weapons, they waited for the next train, on which they traveled to Cleveland, where they were arrested without trouble. They were taken to Shelby and placed in jail.

GAINING GROUND.

The Insurrection in Venezuela is Gradually Growing.

EVOLTS ALL OVER REPUBLIC.

The Impression Seems to be that Active Warfare Will Begin in a Short Time in that Country.

Willem's Island of Curacao, Dec. 30.—Advice, received here from Caracas, Venezuela, says the revolution against President Castro is gaining ground daily. Nearly the whole of the public is in revolt, and bands of men are scouring the country. Coro, in the state of Falcon, and Barquisimeto, in the state of Lara, particularly, are in possession of the revolutionists.

Cable communication between Curacao, Carupano and Barcelona is interrupted and the government is without news from the state of Bermudez, in which the troops are located, which leads to the belief that it has also been induced to revolt by Gen. Domingo Monagua.

Gen. Lucien Mendez (the president-elect of the state of Carabobo, who rebelled against President Castro, marched on La Victoria and was reported to have been defeated), has escaped from the pursuit of the government troops and is now in San Juan los Moros. Antonio Fernandez and thirty chiefs of the state of Carabobo were not willing to engage the government forces before the revolution was quite ripe.

Venezuela is said to be on the verge of even more serious complications. Telegraph lines in the interior of the country have all been cut.

The arrival in Venezuela of Senor Matos, the reputed head of the revolutionary movement, with the steamer Baergh loaded with munitions of war, is awaited daily. A decisive conflict will soon take place. The Venezuelan government believes that the Baergh is in the vicinity of the Island of Margarita (an island in the Caribbean Sea, belonging to Venezuela), where the Venezuelan fleet has contracted.

NOT ALARMED. United States Will See that Germany is Kept Within Legal Limits.

Washington, Dec. 30.—The administration is not alarmed or worried over the situation which has developed in connection with Venezuela. Germany certainly has a right to collect lawful claims in Venezuela and the United States will not interfere. The United States recognizes the right of any European government to collect its just claims against any of the South American countries. It permitted England to do so in Central America and is certainly will not question Germany's right to do so in Venezuela. Of course, however, Germany must confine her efforts to claim-collecting and not broadcast into land grabbing.

There is a disposition among officials of the capital to hope that the revolution which seems pending in Venezuela will come to a head and there would be little regret if the Castro government was overthrown. The Castro government is not in sympathy with that of the United States, and undoubtedly will oppose the payment of the claims of Germany in the hope that the United States will become involved in some way.

Mulberry Flat.

Things are moving on nicely on the Flat. Christmas has come and gone again. We had a nice time Christmas eve. The school children entertained us royally with their beautiful selections of speeches and dialogues, all of which had a tendency to lift us higher mentally and morally. Then the beautiful tree with all of the nice presents to gladden the hearts of the children.

Our Sunday School has went into winter quarters. We have had a very successful Sunday school for nine months.

Sister Grant's father and mother are here from Stephens county and are thinking of locating in this beautiful Panhandle country.

Mrs. Cook from Silvertown is visiting her sister, Mrs. W. C. Grant.

The young people of the Flat are having a nice time. A nice party at Mrs. Graham's. As we look upon the past year, with all its troubles and blessings, we see the goodness of God in it all. As we start out upon the new year let us put forth every effort to be better, do more for the betterment of humanity and building up the cause of Christ this coming year than we have ever done.

A serious wreck occurred on the Colorado Southern at Barcla Station last Friday morning caused by a broken rail. The engineer felt the jolt of the break and applied the air, but the day coach, coffee car, and sleeper went in the ditch and caught fire from a Baker heater. Twelve people were injured, but none seriously. Conductor Harrington was in a closet of the coffee car at the time and as the car overturned the door became locked and it was with difficulty he got out, being the last man to get out, and was thought to have been killed, but his injuries were slight.

The worst after effects of influenza arise from deranged functions of the liver. Clear the blood at once with Herbine, for it will strengthen the liver to withdraw from circulation the biliary poisons. Price, 50 cts. at Ramsey's Drug Store.

Gray County. From a delayed letter by our correspondent at Northfork we glean the following: The people are all pretty well supplied with feed.

The R. R. contractors have bought several hundred tons of hay, making it somewhat more of an object than it would have been otherwise. The track was laid into Texas some time ago and we can imagine we hear the trains whistling already.

There is a petition already on the round to organize Gray county and I think there will be three sites for county seat. One is in the center of county 13 miles from any railroad.

It looks foolish for men to locate a county seat anywhere only on a railroad, it is only a matter of time until it will be moved, and then the county is thrown into double cost, and worse yet, if there are enough commissioners elected that are in favor of an inland town they will blow the county in for a fine courthouse and jail in order to hold the county seat; where a person went to court he could get lumber or coal or anything they would want. The Choctaw comes out of a coal district and it is reasonable to believe that all of these can be gotten at a reasonable price. From what I can learn the town site company on the Choctaw road is giving very poor encouragement towards getting the county seat.

School is progressing nicely on Paterson Creek with an enrollment of 50 pupils.

Brother Harris preaches every second Sunday and there is prayer meeting occasionally. Sunday school closed some time ago.

There is dances and parties mixed in so times are getting pretty lively up here.

Mr. Gardinere says he is kept busy handling prospectors around and that isn't all he sells to them too.

Mr. Gray is still picking cotton. How is that for Gray County?

The Pyron outfit is gathering some of the poorest cattle to put on feed.

Howard Simpkins says he is going to buy some farm there and sell it what next?

That some old corn fodder sold with the Marshall and other Mission account and towns at 87 per ton. Think it will be manufacturers, or time section.

Bart's Cure is not a medicine. It does cure Itch, Ringworm, Tetter and all similar eruptions. A wonderful cure. Write for particulars. Del. W. HARRISON.

Whitefish Locals.

Christmas week passed off very quietly, as usual. We had a Christmas tree and a real nice jollification for young people. The day following quite a number of Whitefish and Skillet people were entertained at the home of Mr. and Mrs. F. R. McCracken and a nice turkey dinner was furnished. Everyone present seemed to enjoy themselves; if they did not, we can't see why!

Miss Elta Watkins spent a few days at home last week.

Miss Ivy C. Eppler visited on Whitefish a few days last week.

Mr. Frank Kendall of Burton creek was calling in our country Christmas day.

Giles Gossip. Burnett Teal returned to Giles Sunday after spending Xmas with the same folks at Henrietta.

Mr. Will Johnson of Greenville, Tex., came in the 26th and visited his brothers, Messrs Penn and Gus Johnson. And returned home Sunday.

Mr. and Mrs. T. A. Curtis came up from Henrietta Friday and went out to Diamond Tail Ranch, where they will make their home for the winter.

Mr. and Mrs. Reed and Hugh Craine came in the 27th from Campbell, Tex. They will visit Mr. and Mrs. Geo. Craine, parents of Mrs. Reed.

The Christmas tree and social supper at Giles School House Xmas Eve was a very enjoyable affair. Plenty of presents and plenty of good things to eat.

Mr. Charles Crow met with a very bad accident. He was cutting posts on the Diamond Tail Ranch, when the axe caught in a limb, glanced off and cut his foot very badly.

Messrs. Stone and Curtis went to Henrietta on business Saturday, and returned Sunday.

Mr. G. G. Willingham and a friend were down on a hunting trip Christmas day.

Mr. and Mrs. J. M. Shelton gave a New Year dinner, the occasion of a family reunion.

Mr. Henry Reed spent Monday in town.

The drought was pretty severe this year in Missouri and the Missouri World says, "Another drought in the states stricken this year and what will happen to the people in them? Even though the other states have good crops, we believe that more than half of the people in the drought section would be on charity or have to sacrifice their homes. Not a very prosperous people when a test is applied."

The Gold Basis. Secretary of the Treasury Gage says: "It is a strange anomaly that, while in nearly every other department of life improvement is the indispensable rule, in the great field of banking, finance and exchange we go on with an indifferent regard to the handicap impressed by defective methods and dismiss with little consideration suggestions which, if adopted, would advance society and business affairs in the great economic field of improvement in all other departments of life are manifest on every hand. Old machinery is thrown away."

A Benton county, Ark., correspondent says of the situation there: "Here are some of the prices the people have to pay for food for themselves and stock: Bran, 20 dollars per ton; corn 80 cents to one dollar per bu.; corn meal, \$1.50 per 100 lb.; flour, \$2 to \$2.20 per 100. The great prosperity has not advanced wages here, the poor man still working for 50 cts. per day."

Help the National Committee. In order to assist in raising funds for the immediate use of the National Committee in pushing the work of organization and the Louisville Convention, I have arranged with the Southern Art Company of this city to furnish us a beautiful, indestructible and durable of the late Ignatius Donnelly, and of other prominent leaders of the reform movement, at such a price as to send free as a premium to any populist worker who will collect and forward to this office one dollar for the national campaign fund.

Your Committee is in dire need of immediate financial aid, as the work to be done prior to the Louisville Convention is of the most important nature. Hence I appeal to every true populist who reads this to take this matter in hand in his locality and do what he can to raise a small fund for the committee. The Committee has also published a series of educational tracts, which should be distributed widely. The following tracts are ready for distribution and others are in preparation: No. 1, Direct Legislation, by Elwood Pomeroy.

No. 2, Imperialism at the Ballot-Box by J. A. Parker.

No. 3, Duty of Bryan Democrats, by Dr. Jos. E. Chambers.

No. 4, The Futurity of Fusion, by J. H. Cook.

No. 5, The Crowning Curse of Monopoly, by Milford W. Howard.

These tracts will be mailed to any address for 25 cents per hundred, or sent by express for \$2.00 per thousand. This is a very cheap method of spreading our principles.

The Committee also has on hand a few copies of each of the following well-known reform books which we would be glad to dispose of for the benefit of the Committee: "Ten Men of Money Island," by Col. Norton, 25 cent edition.

"Little Statesman," by K. L. Armstrong.

"The Science of Legal Robbery," "Voter's X-Ray"

These are all 25 cent books, but any one will be sent post-paid, for 15 cents, or any two for 25 cents. A complete set, including a copy of "Condition of the American Farmer," by the late H. E. Taubeneck, will be mailed to any address for fifty cents.

You are urged to send in your order for tracts, books, etc., as early as possible, as assistance is needed by the Committee at once.

Respectfully, J. A. PARKER, Chairman Populist National Committee, Louisville, Ky.
