It is well known by every well informed person that the trusts and corporations give their support to the party that best serves their interests, whether it be republican or democratic. Recognizing this, the Santa Fe New Mexican says: "It may be the firm of Morgan-Cleveland and the trusts against president Roosevelt and the republican party in 1904. If so, the issue will be squarely met and the result is bound to be in favor of the republican party and its candidate for president."

EASTERN papers may scowl at the people of the west for being uncouth, but the following taken from a Maryland paper, where the country has been settled several hundred years, tells something of their high state of civilization: "Yesterday John Kindle, the 'ward of the north,' was brought to our village to cure the 'go-backs' in an infant. After having the infant disrobed he went through with his harangue and then went out. After the child was again dressed he told the father that the infant had a very bad case of 'the go-backs' and that it had been bewitched by some old woman of the community."

A NUMBER of the editors who were caught by the "Johnson" letter are still writhing under the humiliating exposure and in each effort to explain only makes it worse. The trap was only laid for a few hundred publishers, 168 of whom were caught, while those who bit for a promised consideration proposed to deceive all their readers, and we suppose their claimed circulation will average 1,000, making 268,000 people whom they proposed to deceive with "regular reading matter without advertising marks of any kind." They are certainly very inconsistent in denouncing The Voice for doing a thing that they themselves proposed to attempt on a far larger scale.

The Vernon Sun is deceased. The plant was shipped to South McAllister Wednesday. Preston Morrow, the editor, went to Houston to visit his father.—Hornet.

The Sun, like many other papers of its class, boasted of its circulation, its big advertising patronage and its tastily set ads., but boasting did not furnish the sinews of existence. It looks as though the newspaper business is one in which the experience of others all go for naught when one wants to go into it to drive some one else out. They cut prices on ads, fill up on taffy and put everybody in the country on their list and run until their means and credit are exhausted then have to quit the field. And all the satisfaction they get out of it is that they have somewhat demoralized the business in the town. A short while ago Vernon had four papers; now two. Memphis had four, now two; both places about weeded out to a healthy stand.

One of the Childrens papers is now loaded down with notices of delinquent tax suits, a number of which are in the famous Crisler addition, where such fortunes were made to the owners because of the location of the shops.

Every cart load of hard coal intended for the White house is escorted from the railway depot to the president's residence by a detail of mounted police for fear that it will be stolen on the way.

The Cotton Belt has failed to dissolve an injunction restraining it from moving offices from Tyler to Texarkana. This is the second time this move on the part of the company has been blocked.

Three different applications for injunctions against the enforcement of prohibition have been denied the saloon men of Denton.

The INDUSTRIAL WEST office has this week turned out the 12th number of the Panhandle Baptist and 500 copies of the minutes of the Paloduro Canyon Baptist association.

This office has ordered 100 pounds more of type and some other material. It is intended to keep it the best equipped office in the Panhandle.

Dr. W. A. Adams, a well known doctor of Fort Worth, died suddenly Wednesday of fatty degeneration of the heart.

The Coal Strike.

Nothing has so stirred up the east as the coal strike. It has been the main effort of the operators to break up the miners' union.

The anthracite coal mines are owned by various individuals, but are leased and operated by several railroads, namely, the Reading, the Lehigh Valley, the Delaware, Lackawanna and Western and the New York, Ontario and Western. The miners and laborers employed number some 145,000 and the mining population is not far from 750,000. The great strike began more than five months ago and since that time very little coal has been mined. The stock on hand at that time was, it is estimated, something like 20,000,000 tons, but as no one at the beginning anticipated that the strike would last so long, it was consumed at gradually rising prices until now the verge of winter finds the anthracite-consuming cities practically without coal stock, and prices for what little there is and for what little is being produced something beyond the \$20 a ton mark, meaning, of course, that only the rich are being supplied.

The public generally may not be advised why the 150,000 miners in the Pennsylvania coal region are on a strike. We give their reasons and what they ask, as stated by the president of the Mine Workers' Union:

1. An increase in wages for men employed on piece work. (Their present wages are \$7.05 per week, and they are compelled to buy their supplies from the corporation stores at high prices.)

2. A reduction in the hours of labor for men employed by the day. (They now work 12 hours a day, and they ask for 8 hours.)

3. Payment for a legal ton of coal. (They are required to furnish 2,300 pounds for a ton, yet are paid for only 2,000.)

4. That the coal they mine shall be honestly weighed and correctly recorded. (The weighers cheat in the weights as well as keeping the account of the miners. The miners only ask that they be allowed to have a man to check the weights when made, and see that no error is made.)

5. They favor incorporating in the form of an agreement, the wages that shall be paid, and the conditions of employment that shall obtain for a specific period.

To all of which the mine owners unqualifiedly refuse to submit. Mitchell has managed the strike masterfully. He has not only held the union together for six months, but has prevented the operation of the mines. It is no small task to keep 150,000 poor laborers organized throughout such a long period of idleness, but Mitchell has done it, and more than that the strikers and their families have been fed and so well taken care of that there is little real suffering among them.

The correspondent of the Dallas News says:

"It is said here that the present strike has done more to advance socialism in Pennsylvania than anything which has happened in the state, and no doubt this is true. There is a general opinion in Wilkesbarre that it would be best for all concerned for the government, federal or state, to own the mines. Why? This is a city larger than Dallas and its commerce depends largely upon the operation of the coal mines; so do its industries, and in essential respects its very prosperity and existence. For six months the merchants have been doing little business and the town has been practically dead, all because of this strike. There have been many strikes here before and there may be many to follow. A strike in this region is like a blighting drouth in Texas. It knocks the whole business into a cocked hat. And there is no telling when one will happen."

"The government, so far as it has gone into business, has managed to avoid strikes and other labor disturbances. The government is a reliable and steady worker and business men want things to move along regularly. Constant activity is the slogan of commercial and industrial success, and the government seems to be the only machine that never quits for a drouth and never has a strike."

Notwithstanding there are 10,000 soldiers on the ground, the News man says: "With few exceptional cases of violence, which would happen among so many idle people anywhere, there is not a more peaceable region on the face of the earth."

In Wilkesbarre one can observe almost the peace of a cemetery. From the viewpoint of what is happening, what has happened or what may happen, there was no reason why a single regiment should have been called out. But the operators have told the president and the world that if the government would discharge its duty and furnish them with protection from lawlessness they would furnish the country with all the coal it needed. Whether this was a bluff or not remains to be seen. The soldiers are here and the miners are not going to work. They have declared unanimously that they will stand out to a finish."

Texas Fruit and Vegetables.

AUSTIN, Tex., Oct. 11.—The great growth of the fruit and vegetable industry in Texas is shown by the records of the different railroads of the state of the shipments handled during the past year. These shipments were consigned for the most part to St. Louis, Kansas City and Chicago, while scattering carloads went to New York city and distant markets in the north and east. Five years ago less than fifty cars of fruit and vegetables were shipped from Texas to outside markets. The shipments for the season just closed amounted to 5,657 cars, according to the data furnished the state department of agriculture by the railroads. The shipments were classified as follows: Peaches, 1,280 cars; berries, 171 cars; tomatoes, 1,159 cars; watermelons, 917 cars; cantaloupes, 161 cars; potatoes, 1,406 cars; cabbage, 226 cars; onions, 34 cars; pears, 11 cars; cucumbers, 25 cars; beans, 34 cars; plums, 6 cars; apples, 3 cars; mixed cars, 221.

End of the Coal Strike.

Another conference Wednesday between the president and Mr. Mitchell, in which the proposition of the operators was modified, resulted in president Mitchell calling a meeting of the executive board members of the three anthracite districts of the Union Mine Workers. The joint conference is made up of thirty-seven persons: Mr. Mitchell, Secretary-Treasurer W. B. Wilson, the three anthracite members of the executive board, the president, vice-president, secretary-treasurer of each district, the board members from each of the upper and lower districts and the six board members of the middle district.

It is understood that President Roosevelt's appointees as the members of the strike settlement commission are Brig. Gen. John M. Wilson, E. W. Parker of Washington, D. C., connected with the geological survey; Judge George Gray of Delaware, E. E. Clark of Cedar Rapids, Iowa; Thomas H. Watkins of Scranton, Pa.; Bishop John L. Spalding of Peoria and Carroll D. Wright.

Yesterday Mitchell formally accepted the terms and tomorrow the miners will meet in a ratification meeting and go to work Monday.

Voters Read.

I want your vote for County Judge. It would be a great satisfaction to me if I could see each voter in Donley county at his home and have a friendly chat with each of you. But owing to the fact that I am alone in my office and when I leave must lock up and neglect business, it may be impossible for me to see each one at his home. I am a poor man with six in family to feed and clothe and four to keep in school. So you can see that it would be a great loss to me to have to leave my office for any length of time and loose business. However I shall try to see all of you some way and ask that, in case I fail to see you, you take the wish for the deed and consider my claim before casting your vote. My platform is "Equal rights to all, special privileges to none." Very Truly,
J. H. O'NEALE.

Can You See the Difference.

One hundred and fifty thousand miners and their families are starving in the coal fields; they are striking for the right to live as men and women; for five long months they have tried to hold out against their masters, and their condition has called aloud for aid. Their aid has come from their fellow workers, but the government is indifferent to their fate. It does not hear the voice of the starving children, the sob of the broken-hearted mother or the heavy moan of the determined father. None of these things penetrate the walls of government, and the government is silent in the face of want.

One hundred and fifty bankers in Wall street start a flurry in stocks and cry for "more money" to enable them to carry on their jobbing; their call is heeded instantly. Secretary of the treasury Shaw at once issues over a hundred million dollars from the United States treasury, everstepping the law in such cases, but satisfying the desire of the capitalists who make a profit on such deals.

What is the difference in these cases, you say? The simplest thing in the world. The interest of workmen are at stake in the first instance, while capitalists interests hang in the balance in the second; the government is controlled by the capitalists, and they naturally look after their own interests. Things would be different if the workers would use their ballots in controlling the government for their own purpose.—St. Louis Laborer.

Packers' Trust a Certainty.

CHICAGO, Ill., Oct. 15.—The great packers combine will be launched December 1, if the money market is easy, says the Chronicle, by Kuehn, Loeb & Co., the New York bankers and financiers, who head the underwriting syndicate. Where there are several agencies of packers in a city or town they will be abolished and only one general agency will be established. Among the firms in the combination are Armour & Co., Swift & Co., Nelson, Morris & Co. and Schwarzschild & Sulzburger.

The insurance companies seem disposed to "do" Wichita Falls, even now that she has new water works. The Times says: "There is much dissatisfaction at the new rating by some citizens who were assured both before and after the city had paid the Waterworks Company \$18,500 in advance for twenty years rental on fifty-five water-plugs, bought \$1,000 worth of two inch hose, and invested a whole lot of other good money in equipping their fire department with the result that they are not only not to have a reduction in insurance rates, but on the contrary are to pay a higher rate. The action of the rate makers for this city is nothing more or less than an outrage."

The dry weather greatly shortened our cotton crop. It is the opinion of those who are buying cotton and who are in the best position to make inquiries, that there will not be more than 300 or 350 bales ginned here this season. Had there not been such a lack of rain at the critical time, the probability is there would have been a thousand and bales ginned at Wichita Falls this year. We will make up our losses next year perhaps.—Herald.

Hip Pocket Reform in the South.

The long delayed crusade against the cowards and desperadoes who make armories of their hip pockets appears to have broken out simultaneously all over the South. The people who stand for law and order have reason to be glad of the fact. Our civilization has been cursed altogether too long by the prevalence of the idiotic, semi-civilized custom of men going about every day loaded down with concealed deadly weapons and ready to do murder on the simplest provocation.

Over in Memphis the other day one of the swiftest young roysters in the village was arraigned before the Police Judge for being found with a pistol hid under his coat tails. All sorts of pleas were made in his behalf, but without avail, and the Judge popped the stiffest sort of a fine on the fellow. The newspapers are authority that the case has resulted in a wholesale unloading of hip pockets in that community.

Out in Texas for some years past the courts have been dealing with increasing severity with the pistol carrying crowd and the result has been a noticeable decrease in the number of shooting affrays and street duels to the death.

It has never been to our credit in these southern communities that public sentiment for so long tolerated the exaggerated idea of honor that only blood and perhaps the taking of a life could satisfy insult and assault. The notion that a man must be a coward because he would not get a gun and go after the life of one who had called him a vile name or threatened "to push in his face" has dominated our street chivalry.

It is a sign of distinct progress when our criminal court judges from Virginia to Texas, as by common purpose, carry on this fresh crusade against the pistol toters. No matter who they may be—whether high in office, rich in purse, eminent in social station, or poor and unimportant—every man caught armed with deadly concealed weapons should be given the limit of the law in such cases made and provided.—Atlanta Constitution.

From the arrogance of the coal barons we suspect that the next thing that they will claim is that they planted the ferns previous to the carboniferous period which they afterwards turned into coal by their mighty genius and foresight. That would not be a particule more ridiculous than the claim that they have already made that God put them in charge of the property.—Ex.

Becomes a Great Financier.

Secretary Shaw announced to the papers a coup'e of weeks ago that he did not intend to turn over any of the government's funds to Wall street to help it out of the financial difficulties of its own making. The next day the entire street was giving Shaw fits. James R. Keene, the biggest gambler of them all, said that it was just as he knew it would be when Shaw was appointed treasurer, that he knew nothing of finance, and concluded with—"but what can you expect from a country banker." Three days later Shaw tumbled into Wall street something less than a hundred million dollars of government money. Query: Is Shaw still a "country banker" or a great financier.—Ft. Worth Telegram.

CONFESSES CRIME

Jim Buchanan, Murderer of Hicks Family, Captured.

SHRIMPED AWAY TO SHREVEPORT

The Negro Tells the Particulars of His Atrocious Work and Wants to Be Known as a Bad Man.

Shreveport, La., Oct. 15.—Sheriff Spradley, with Deputies Matthews and Borders, arrived here Tuesday morning over the Houston East and West Texas railway, having in custody James Buchanan, the negro who, it is charged, murdered the Hicks family in Attova, Nacogdoches county, Texas, All day Tuesday the jail was visited by citizens, but few were allowed to see the negro. He is a boy 19 years of age, and apparently the most un-

concerned actor of all. He calmly smoked a cigarette and confessed that he murdered Hicks, his wife and daughter, but declares he committed no criminal assault upon the daughter. He gave no sign of fear as men crowded about the jail and prepara-

tions were made to take his photo-

graph. Buchanan says he knows death

awaits him, but he wanted to be a

all sorts of stratagems, and during

their journey to this city two of them

compelled a mob of twenty-five to lay

down their arms. Buchanan was cap-

tured in a swamp near Nacogdoches.

He fled to the swamp and lay there all

night. Sheriff Spradley ran upon the

negro accidentally, and pointing his

shotgun at him, ordered him to throw

down his weapons. This the negro

promptly did.

Buchanan confessed to the murder

of the Hicks family. He denies it to

no one. He tells the story of his ter-

rrible deed with apparent unconcern,

and says he knows that his punish-

ment will be death. There is only one

part of the awful charge that he de-

nie. He maintains stoutly that he

never outraged Miss Hicks, either be-

fore or after striking her with the rifle

barrel.

"I know I am going to die, and if I

had done it I would say so," he said.

"That part of it I did not do. I went

to the Hicks home about sundown to

talk with Mr. Hicks about picking cot-

ton. I had a shotgun, a breech-loader,

and he came out on the gallery and

we began to talk. He brought his rifle

out to talk about swapping it for my

gun. He made a remark about my

race that I didn't like. It was about

a white doctor boarding with a negro.

When he did this I shot him. The old

woman came running out then and

began hollering and I picked up the

old man's gun and shot her. Then I

went into the house and the young

woman began screaming. She started

across the bed and I knocked her down

with the rifle barrel. She fell on the

floor. By this time the old woman be-

gan screaming and hollering again and

I shot her again. I then followed the

young woman, as she began to run,

and knocked her in the head. I killed

them because I knew they would go

and tell on me."

THE PIUS FUND.

By Unanimous Vote Mexico Must Pay United States.

The Hague. The arbitration court in

the Pius fund case, by unanimous

vote, has condemned Mexico to pay

the United States \$1,420,682.67 in Mex-

ican currency. The tribunal finds:

1. That the claim of the United States in behalf of the archbishop of San Francisco is governed by the principles of res judicata in view of the arbitration decision pronounced by Sir Edward Thornton, Nov. 11, 1875, and amended by Sir Edward Thornton, Oct. 24, 1876.

2. That in conformity with the decision of the government of the United States of Mexico should pay the government of the United States \$1,420,682.67 in money of the legal currency of Mexico within the period fixed by article 19 of the protocol of Washington. This sum will recover the total payment of annuities due from and unpaid by the government of the Mexican republic namely, the annual payment of \$43,650.99 in Mexican currency from Feb. 2, 1859, to Feb. 2, 1893.

3. The government of the United States of Mexico will pay to the government of the United States Feb. 2, 1903, and every following year for the same date forever an annual payment of \$43,650.99 of money of the legal currency of Mexico.

British Ambassador Herbert was presented to the president Monday.

HATCHET SUBSTITUTE.

Mrs. Nation Has Discarded that War-like Implement.

Denison. Mrs. Carrie Nation of Kansas passed through Denison Tuesday en route from Ada, L. T., to Austin. A few curious people were at the Frisco depot to see the noted woman. Asked where she came and whither she was going, she said:

"I came from Ada, L. T., where I lectured Monday night. I am now en route to Austin, where I am billed to lecture. I will visit other Texas towns and will probably be in Denison for a date."

"Will you bring the famous hatchet?" "No; I have a substitute," and reaching in her little satchel, she brought out a Bible, which she showed much use and constant handling. "This is my guide, my assistance and my arms."

The train started and the interview ended.

LAI D TO REST.

Texarkana Suspended Business During the Sheppard Funeral.

Texarkana, Tex.: The funeral of Congressman John L. Sheppard took place at 3 o'clock Tuesday afternoon. The day was almost perfect and practically the entire town turned out to pay the last honors to the dead statesman, the attendance being the largest ever witnessed on a similar occasion in this quarter of the country.

At an early hour that morning the body was taken to the city hall, which had been heavily draped in heavy folds of black, and there laid in state from 9 o'clock a. m. until 10 p. m.

During this time it is estimated 3000 people passed the bier and took a last look at the dead congressman. At 1 o'clock the body was taken back to the family residence, where a service of prayer was held, all the Protestant pastors of the city participating. It was then borne to the First Baptist church, where the funeral services were held, under guidance of Rev. D. F. C. Timmons of the State Line Methodist church, of which deceased was a member.

After a eulogy by Rev. Mr. Timmons, who spoke eloquently of the many noble qualities of his dead parishioner, Col. Lanham was introduced. He said in part:

"My departed friend made a magnificent fight with death. Death overtook him, but only took the outer works. The inner fortress, the eternal citadel of the soul, remains intact, preserving the highest and noblest elements of human life."

Congressman Cooper referred to the fact that he and Judge Sheppard occupied adjoining seats in congress.

Congressman Randell and Henry also paid tribute to the dead.

During the funeral services all business in the city was suspended, every business house having remained closed. The schools were also dismissed and it is no exaggeration to say that fully one-half of Texarkana's white population was at the cemetery or its immediate vicinity when the interment took place.

The floral tributes were unusually fine and elaborate. Notable among them was a magnificent floral offering from head camp, jurisdiction C. Woodmen of the World, comprising the state of Texas, Arizona and New Mexico. Another from the city council, one from the local bar and every one from the Ladies' Aid society of the Christian church.

Six Stores Robbed.

Beckville, Tex.: Burglars made a great haul on Beckville Monday night, breaking into six stores, the postoffice and the depot. There were no safes broken open, but at each place the cash drawers were looted. The robbers were evidently after money or its equivalent, and finding but little money, they took watches and jewelry to the value of several hundred dollars.

Officers are at work on the case and the citizens are making up a reward.

Declined to Consider.

Greenville, Tex.: In the district court here Monday Judge Connor was presented with an application for an injunction against local option in Titus county, but the judge declined to consider the petition or to make any order in regard to same.

This was the same application that was refused by Judge Butler at Tyler on last Saturday.

Cleveland says Democrats should make tariff main issue.

Investigating a Claim.

Eagle Pass, Tex.: Gov. Miguel Cardenas of the state of Coahuila, Mex., arrived in C. P. Diaz, Mex. A banquet was indered the governor Tuesday afternoon at the International hotel, which was attended by many prominent citizens of this city, among them Collector Robt. W. Dowe, Judge Kelson, Sheriff Luke Dowe and Mexican Consul V. Villasan.

Gov. Cardenas was called here to investigate a claim of the citizens of Jiminez, thirty miles below.

Sent Back Home.

New York: R. O. Leeds, the young son of W. H. Leeds, president of the Chicago, Rock Island and Pacific railroad, arrived from Panama, where he had been seized by the American consul, acting under instructions. While at a military academy he conceived the idea of running away to Colombia where there is real war. He is 16 years of age. The boy went from the steamer's pier to the family residence, where his mother lay ill on account of his disappearance.

Substitute Voted Down.

Chicago. The substitute proposition for low one-way colonist rates has been voted down by Western Passenger association roads. The Santa Fe and Rock Island have, however, given notice of their intention to take independent action, putting the rates into effect to points in the southwest.

Found Five Corpses.

Indianapolis, Ind.: Five dead bodies were found in boxes in South Meridian street. It is supposed goods who have recently been pursued by authorities became frightened and took this method of escaping detection.

The Central Texas fair at Brenham was a success.

CASTRO DEFEATED.

The Troops of the Venezuelan Government Were Repulsed.

Willemstad, Island of Curacao: The troops of the Venezuelan government have been repulsed while attempting to occupy Coro, capital of the state of Falcon, and sustained heavy losses. A schooner with sixty men on board was sunk.

An engagement was fought at Guyaba, three hours from Caracas, Saturday. The government force have almost entirely Caracas.

The British cruiser Indefatigable arrived at LaGuayra Sunday. Other British vessels are to follow.

The United States gunboat Marietta has returned to LaGuayra from Curacao.

Interesting events are predicted for this week.

FOR ARBITRATION

J. P. Morgan Calls Upon the Chief Executive on Monday

AND SAYS OPERATORS DESIRE TO SETTLE THEIR DIFFERENCES WITH MEN ON STRIKE THROUGH THE MEDIUM OF A COMMISSIONER TO BE CHOSEN.

Washington, Oct. 14.—Secretary Cortelyou, by authority of those present at the White House gives the public an authorized statement in part as follows:

"The coal companies realize that the urgent public need of coal and the apprehension of an inadequate supply for the approaching winter calls for an earnest effort to reach a practical conclusion which will result in an increased supply, and the presidents of the companies desire to make every preparation to that end which does not jeopardize the interests committed to their care and of the men who are working and seeking to work in their mines. This responsibility they must meet as best they can.

"They therefore restate their position: That they are not discriminating against the United Mine Workers, but they insist that the miners' union shall not discriminate against or refuse to work with non-union men; that there shall be no restriction or deterioration in quantity or quality of work and that owing to the varying physical conditions of the anthracite mines each colliery is a problem by itself.

"We suggest a commission to be appointed by the president of the United States (if he is willing to perform that public service) to whom shall be referred all questions at issue between the respective companies and their own employees, whether they belong to a union or not, and that the decision of the commission shall be accepted by us.

"The commission is to be constituted as follows:

"1. An officer in the engineer corps of either the military or naval service of the United States.

"2. An expert mining engineer, experienced in mining of coal and other minerals, and not in any way connected with coal mining properties, either anthracite or bituminous.

"3. One of the judges of the United States courts of the Eastern district of Pennsylvania.

"4. A man of prominence, eminent as a sociologist.

"5. A man who by active participation in mining and selling coal is familiar with property scale and commercial features of the business. It being the understanding that immediately upon the constitution of such commission in order that idleness and non-production may cease instantly, the miners will return to work and cease all interference with or the persecution of any non-union men who are working or shall hereafter work. The findings of this commission shall fix the date when the same shall be effective, and shall govern the conditions of employment between the respective companies and their employees for a term of at least three years.

Estate of late Dr. G. A. Foote of McKinney is valued at \$221,480.12.

Small Infant.

New York: What is said by physicians at the Bellevue and New York Post Graduate hospitals to be the smallest living child ever born has been placed in an incubator.

The child, a boy, weighs one pound seven ounces, it is fourteen inches in length. It was taken to Bellevue by John Clark, a carpenter. He carried it in a paper bag filled with cotton and stated that his wife was too ill to care for the child.

Led by Former Governor.

Santo Domingo: A former governor, named Navarro, has revolted and taken possession of Monte Cristi, on the north coast of Santo Domingo, near the Haitian border. The government is taking prompt measures to restore order.

Newspaper Man Chosen.

Washington: The president has appointed Henry L. West to be commissioner of the District of Columbia to succeed the late John W. Ross. Mr. West is a well-known newspaper man of this city. For many years he has been connected with the Washington Post.

Indictment Dismissed.

San Antonio: W. H. Smith, the Milneria (Tex.) merchant who was convicted and sent to the penitentiary from Bee county for forgery aggregating several thousand dollars, was brought here from the state prison to answer another charge of forgery for \$2000, which developed after his conviction. He was brought into court, but on account of a defect in the indictment was dismissed on motion of the district attorney.

Express Train Wrecked.

Altoona, Pa.: An express train ran into a wrecked freight train near Barre, three miles west of Petersburg. The passenger engineer and the freight brakeman were instantly killed and the passenger fireman was probably fatally injured.

Judge Appointed.

Austin, Tex.: Gov. Sayers has appointed N. A. Rector of Austin judge of the Fifty-third judicial district, Travis county, to succeed Judge Frank Morris, resigned. The appointment was made upon the unanimous recommendation of the bar of Austin.

Washery Coal Shipped.

Reading, Pa.: Four trains of washery and mixed coal, consisting of 225 cars, equal to 6750 tons, passed down the Reading road Saturday night. The fuel is intended for sale to the company's employees and for use in the locomotives. This was the heaviest shipment since last May.

Stable Disinfection.

The disinfection of stables after a period of constant use should be a part of routine practice. Ordinary stables in particular should be disinfected twice a year and often if the conditions demand it. It is not possible to give many stables that thorough disinfection that is possible in houses, because their construction will not admit of it, but it is possible to do very much and at little expense.
