Cash Basis the Best.

The nearer to a cash basis this country gets the better for its whole people. Debt is a dangerous thing and hard to shake off. It grows while you sleep, and while in debt you are not sure of anything as your own. When credit is done away with every man will live within his income and there will be no business failures. You will get what you pay for and not have to make good to the merchant what some other fellow owes him. The cash system is the safest, surest and best way to transact business, and once put into practice will be easy to all. Welcome the day when the credit system dies.—Quannah Tribune.

Rev. Carlisle F. B. Martin, LL. D. Waverly, Texas, writes: "Of a morning, when first rising, I often find a troublesome collection of phlegm, which produces a cough, and is very hard to dislodge; but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons needing a medicine for throat or lung troubles." Price 25c, 50c and \$1 a bottle at H. D. Ramsey's.

J. E. Stanley has contracted for the building of thirty-five miles of fence on his Wheeler county ranch. Mr. Stanley is preparing to put up several wind mills, build several tanks and make other extensive improvements on his ranch.—Chief.

Wild Game Protection.

The Secretary of the Interior is anxious that action be taken by congress to provide for the protection of game in the west. The department, under provisions of an act passed at the last session of congress, has taken steps to enlarge the buffalo herd in the Yellowstone National park and from the progress that has already been made it is expected that within ten years the herd of pure buffalo will be large enough to be drawn upon for supplies for all of the big zoological gardens of the country.

The greatest danger to the big game of the west and northwest, according to officials of the Interior department, lies in the fact that there is no provision, under the federal laws, for the protection of the big game in the states where local game laws allow open seasons. Under present conditions, the state game laws are applicable to forest reserves, and thousands of elk, deer, antelope and mountain sheep move from the national park into the Teton forest reserve, in Wyoming, every winter, and are killed in large numbers by hunters. The Secretary of the Interior has recommended to congress that a bill be passed adding the Teton forest reserve to the Yellowstone National park and making it a game preserve.

The department has recently purchased four additional buffalo from Howard Eaton of Montana, and have added them to the herd now in Yellowstone park. This makes a total of twenty buffalo purchased by the government and added to the twenty-five wild buffalo already in the park. The buffalo have been placed in a corral, near the Mammoth hot springs, and an effort will be made to get the young from the original herd into this corral.

The Midwinter Carnival opens at El Paso January 12 and closes January 17, 1903. This is the third successive Carnival in the southwest and promises to eclipse any previous effort. \$2,000 have been appropriated for the World's Championship Mice's Rock Drilling Contest. \$2,000 have been given to the Roping and Tying Tournament of which \$1,000 will be given as the first prize and \$500 as the second, etc. A \$1,000 Championship Gun Shoot, a big civic, military, and fraternal parade, the Gaskill-Mundy Carnival Company with 30 combined shows, five bands of music, 25 pieces each, consolidated, fifteen free attractions daily, Bull Fights on Mexican soil, etc., are some of the features offering six days of sport, pastime, revelry and fun.

Thousands of incandescent lights and six-mile search lights will be used for illumination, \$5,000 having been appropriated to the decoration committee for that purpose.

\$20,000 will be expended for the entertainment of visitors.

The Texas & Pacific Railway Co. will make rate of one fare for the round trip not to exceed \$15 from any point west of Terrell or Sherman, tickets on sale January 10-11-12 and 14, good for return leaving El Paso as late as January 19, 1903.

For further information see any ticket agent or write E. P. Turner, General Passenger & Ticket Agent, T. & P. Ry. Co., Dallas, Texas.

The salvation of the Panhandle country and its settlement depends on whether or not the large land holders of unoccupied lands will sell them to homeseekers. It is the duty of the county commissioners of the several counties in this section of Texas to have this land assessed at its market value. Some of the land syndicates are making a show as if they intended to sell to homeseekers in order to keep down public feeling and to prevent the commissioners from assessing it at a fair cash valuation.—Vernon Call.

THE SOUTHERN PACIFIC.
How It Has Simplified the Matter of Travel.

Nowhere is the evolution of travel more manifest than on the line of the Houston and Texas Central and Southern Pacific in the states of Texas and Louisiana. The fact that the trains operated by these companies are pulled by oil burning locomotives, and the consequent absence of cinders and smoke, is in itself a recommendation to the traveling public. Add to this, the magnificent wide vestibule day coaches, chair cars, and sleepers with which the trains are equipped, and the traveler finds the combination difficult to excel. Millions of dollars have recently been spent to bring the equipment and roadbed to a perfect condition of efficiency. Eighty pound rails are being laid, and solid rock and gravel ballast mark every foot of the Southern Pacific and Houston and Texas Central lines. Service to all prominent points in Texas and Louisiana; through sleeping cars to eastern cities, to New Orleans, and to California and Mexican points, with a fast and liberal train service creates conditions in which travel is made easy and delightful. The Houston & Texas Central touches every city of any importance in Texas, while in conjunction with the Southern Pacific the opportunities for rapid transit are without parallel. Taking everything into consideration, the two lines mentioned above represent the very top notch of railroad excellence, and this fact should be considered by every man, woman and child who purchase a railroad ticket.

For information concerning low rates etc., apply to any agent of either lines, or to

Last Chance to Secure Cheap Homes in Texas.

Do you need a home? Do you wish to secure a good and cheap home? IF YOU WILL ACT AT ONCE, you can secure one section of agricultural and three sections of grazing lands, the balance in forty years, interest at only three per cent per annum. Do you know how to do this? Secure promptly copies of Texas Home-seeker's Annual for 1902, and Texas Home-seeker's Wall Map of Texas, the two containing

- 1—New School Land Law of Texas, approved April 19, 1901, in full.
- 2—Opinion of Attorney General of Texas construing the law.
- 3—The fullest, most accurate and up-to-date facts in regard to these school lands based on the rulings of the Commissioners of the General Land Office and the opinions of the Appellate Courts of Texas, being everything you need to enable you to know the law and the facts as to the lands.
- 4—List of all the School Lands in the counties of Borden, Coke, Dawson, Garza, Glasscock, Howard, Irion, Kent, Kimble, Lynn, Martin, Mason, Menard, Mitchell, Schleicher, Scurry, Sterling and Tom Green—all excellent stock-farming counties—showing the names of the lessees, dates when every lease shall expire, and precisely the other information needed to enable you to find, settle on and purchase the lands you desire to own. You can take the list and at your own home select the sections you prefer; and you can start for and reach them without any trouble at exactly the proper time to settle and file on them as they shall be on the market. You need not pay \$200, or \$100, or \$50 to land agents to locate you—you can locate yourself.
