CLARENDON, DONLEY COUNTY, TEXAS, JULY 13, 1944

A Common Paper for Common People

Donley County Goes Over Fifth War Loan Quota

Again, Donley county people have done a mighty fine job of bond selling and bond buying. Our quota of \$330,000 was attained with \$31,314.15 to spare, giving a total of \$361,314.15.

In the E Bond sales, Donley county was the first of 47 counties in this district to report over the top, and had a total sale of \$85,525.65 which gave us \$1,525.65 over the quota. Motley county was the only other county besides Donley reporting over on the E bond sales at the end of the week. Although the majority of counties have not raised their E bond quotas, they will have the remainder of this month to help get them over.

J. R. Porter, county chairman, stated this week that he was very proud of the way everyone worked and bought bonds through this drive and expressed his desire to thank all Lions club captains and other community workers who were really in there doing their best all the way through to put the drive over.

Our boys on the battle fronts can see and will know that their folks back here in Donley county were behind them, and will always be behind them here on the home front, doing whatever is necessary in our part of the job to beat the enemy.

Everyone must not stop buying bonds just because this drive is over, for we have a monthly quota each month that should be met and in addition, everyone buying bonds should keep the bonds they have bought and not cash them in unless in case of great necessity.

We don't want to forget those fine folks down at Hedley. The Lions club took over the drive there and really pushed the bond sales in that section, making a better showing than any previous time.

RECENT CONTRIBUTORS TO LOCAL BALL CLUB

Recent contributors to the baseball equipment fund (which has all but reached its goal) are as follows: Clarendon Furniture Store, "Dusty" Taylor, Fred Buntin, Geo. Bagby, Haskell Kemp, Frank White, Forrest McCrary, Parker, Jerome Stocking, Carl Bennett, Carpenter's Garage, Shamburger Lumber Co., Rhodes and Roach, Pastime Drug, Sanford Grocery.

The donations have been most generous to date, and one and all are heartily thanked, for this year will mark the beginning of a new era in Clarendon baseball. Most of the necessary equipment has now been purchased, "and it is with some pride," stated Doc Watson, "that we state that all but one of the firms and individuals solicited have contributed—and gladly."

CLARENDON FURNITURE STORE ASKS OWNERS TO GET PICTURES

S. C. Bell of the Clarendon Furniture Store has asked that we make the following request:

"Within the next few days, pick up your picture at the Clarendon Furniture Store. We have enjoyed having our boys and girls' pictures displayed again and feel that this has been a great help in helping put Donley county over the top in its 5th Bond drive."

RATIONING AT A GLANCE

By PEPPY BLOCKER

The reason why all tire tubes now are on the ration-free list has been outlined briefly by the Washington office. Since December 1942 certificates for new tubes have been issued for practically all vehicles and equipment upon proof of need. For the last two months no quotas have been placed on the issuance of these certificates and the demand has been running at the rate of 1,500,000 tubes per month. Present inventories and production are adequate to meet the demand, officials say. "Unrationing of tubes eliminates the necessity of persons needing them applying to their local board. It also aids in the conservation of tires, it is pointed out, since a good tube properly inflated prolongs the life of a tire."

Rumors are being circulated that coffee will be returned to rationing. These are completely unfounded, according to the Washington office.

When even good Americans read about the gasoline black market, about arrests of persons charged with counterfeiting and selling ration coupons, the offenses may not appear too heinous. It is only when cheating on gasoline is appraised against a war's vast needs for gasoline that the blackness of black marketing becomes truly apparent. When good Americans read about our troops' successes on the fighting fronts, they should realize that for every ton of bombs dropped on Berlin or Yawata, 353 gallons of gasoline are required; that every 100 miles of travel by a tank division requires 25,000 gallons of gasoline. We must realize that modern war is fought and won or lost, on oil and its products—on gasoline, not just in some abstract gallons, but the precise gallons that black-market buyers and sellers, through greed and selfishness, steal from the war fronts.

Second allotments of canning sugar are now being issued to those persons who need it for canning purposes. Permits will be issued through December so it is requested that you do not make application for your permit until you really need it.

Become a price panel assistant—volunteer at your local Board, and help keep prices down.

Vacation close to home! This will help save gasoline for essential driving. This will help relieve overcrowded trains and buses. This will make space for the men in our armed services—they come first!

U. S. Saipan Casualties Were 15,053

American casualties in the conquest of Saipan, principal island of the Western Pacific Marianas group, totaled 15,053 men, including 2,359 killed, 11,481 wounded and 1,213 missing, Navy Secretary Forrestal reported Wednesday.

At the same time Forrestal said that in the period ending Monday, Japanese dead buried by American troops numbered 11,948.

He added an estimate that "probably 95 per cent" of the Japanese

The only casualty mentioned so far from Donley County is Jarvis Brock, son of Mr. and Mrs. C. H. Brock who live on the Joe Goldston farm near Goldston. No particulars were learned, except that he was wounded during the battle for Saipan.

anese garrison which probably numbered "in excess of 20,000" died "in futile defense" of the island.

His figures came shortly after Admiral Nimitz, Pacific fleet Commander in Chief, reported in a communique that on Monday about 1,000 Japanese soldiers had been taken prisoner and about 9,000 civilians on the island had been interned. This was a record for enemy captures in any one operation in the Pacific.

Favors Campaigns in Donley County

Representative Ennis Favors, an ex-soldier himself with an honorable discharge, stated that he hoped to conduct his campaign on a merit basis and not a patriotic basis, and that he was proud of his achievement in getting the State Aid raised from \$20.00 to \$50.00 for the Clarendon Junior College. When asked how he stood on old age pensions, he said the old people knew this time who their friends were in the Legislature, and despite the work of the special interest, they would be re-elected.

Information For War Veterans

The War Veterans Relief Association, 912 1/2 Main Street, Dallas, Texas has prepared a Complete Envelope Military Medical and Employment File which contains information about all Government Benefits for Veterans of both World Wars and their dependents and 12 Affidavit forms needed to corroborate a Veterans Claim for Service Connected Compensation. It was pointed out that many Veterans after returning from World War I, neglected to keep a history of the wounds they received—the Hospitals they were in—the Officer Doctors who treated them—the kind of sickness or Disability they had in the Service and above all their exact physical condition just after they came out of the Service and ten years after this War this information will be very valuable to the Veteran and his dependents after his health breaks down. At present writing on April 30, 1944 there were 338,413 Veterans of World War I were drawing Service Connected Compensation and 154,056 Veterans of World War II were drawing compensation.

For information and service write War Veterans Relief Assn. Veterans Hall, 912 1/2 Main St., Dallas, Texas.

Entire County Receives Rain

The rain which moved in early Wednesday morning brought as much as four inches of rainfall to some parts of the county and a good rain was reported over the entire county. The airport four miles west of town reported .80 of an inch and some estimated one and a half inches here in town. A four inch downpour damaged crops along the west side of the county and washed out a small strip of railroad bed on the Ft. Worth and Denver track near Ashtola.

Jericho reported three inches and the Goldston section received two and one half inches, overflowing the country club lake again.

In general, the rain was most welcome, for it was getting rather dry in most places and will aid young cotton and feed to a great extent.

FATHER OF LOCAL RESIDENTS DIES IN CALIFORNIA

Word was received here yesterday of the death of W. Y. Howze, father of J. H. Howze and Mrs. W. L. Landers, at Los Angeles, California Wednesday.

Daniel Webster Mitchell, aged 24, of Matador, was charged with rape here this morning before Justice of the Peace R. C. Weatherly following his arrest at Memphis Wednesday evening.

The victim, Mrs. Harriett Johnston, age over 70, who lives in the first house east of the Johnson lake, walked to the home of a neighbor after the assault, and they in turn notified her son Joe Johnston at Lelia Lake and he notified Sheriff Guy Wright.

The crime was committed about 6 p. m. Wednesday afternoon at the home of Mrs. Johnston. She was alone, having been staying by herself during the day and a granddaughter staying with her at night. The crime was committed by force and a doctor's examination verified Mrs. Johnston's statements.

The assaulter was picked up at Memphis about 8:30 last evening by Deputy sheriff Bud Godfrey and was drunk at the time he was apprehended.

Working swiftly, sheriff Wright and deputy Truett Behrens, took plaster casts of boot and truck tracks at the Johnston home which were identical with that belonging to the man. Mrs. Johnston also gave a complete description of the man and the clothes he was wearing, all of which was just as she had related, when the man was picked-up. She also identified the man this morning.

Mitchell is being held in an unknown jail, and has been denied bond awaiting action of the grand jury. This is a statutory offense and carries the death penalty if convicted.

Mitchell has made no other statements other than that he was drunk and didn't remember anything he had done. He claims to have a wife living at Matador. The truck which he was driving belonged to Arch Boggan of Claude who had lent the truck to Mitchell not knowing that he was leaving town with it.

Why the Luftwaffe Wasn't There

The pile of empty shell cases is mute testimony of why Gorgous Goering's much touted Luftwaffe was not effective in France. This 90 mm. gun crew has been busy splitting hot metal into the skies. The Germans know now that we mean business. Back the invaders with extra War Bonds.

ADVISES BUYING EXTRA EGGS NOW

If every housewife will buy an extra dozen eggs now and store them in her refrigerator she can solve a big storage problem now facing the War Food Administration. At present, WFA says, there are 1,400 carloads of eggs for which no gold storage space can be found. By using their refrigerators, housewives can make it possible to save 25 million dozen eggs. Egg production has begun to decline seasonally, and it will soon be possible to handle all supplies in the usual manner.

COUNCIL OF CHURCH WOMEN

Executive Board members of the Council of Church Women of Clarendon met in called session at the home of Mrs. Frank Phelan, Council Secretary, on Wednesday evening. The Constitution and By-laws of the State Council were read and approved and the Board voted to send reports and dues required for State membership. It was also voted to include a ten dollar offering for China Relief in this report.

The Board voted to have a Council Historian and elected Mrs. Fred Chamberlain to fill this office.

After thorough discussion, it was decided that the Council should become a County-wide organization, rather than a local group, and the Vice-President and Chairman of the Membership Committee, Mrs. Pete Kuntz, was instructed to issue invitations to all churches of Donley County to participate in all general meetings. The next general meeting of the Council will be held on August 30th, place of meeting to be announced at a later date.

Mrs. Millard Word, President, reported the receipt of State and National material, and discussion was held concerning what part the local Council would take in these groups. Plans were made for completion of local projects now under way.

This called meeting of the Executive Board took the place of the one missed last month. Announcement of next Board meeting will be made together with announcement of place of regular meeting as soon as the place of meeting is determined.

To Whom This May Come—
Just a few words in haste as I am passing by and before I forget it. We are in a terrible bad war and must buy Bonds in the fifth series of the drive to win the war as soon as possible, and that is just one thing we must do, but we can provide for the returning soldiers many of whom will be permanently crippled and unable to work on account of having lost an arm, leg and what not. If Congress has any humanity left in them they will pass the Townsend National Recovery plan H.R. 1649 that will give all soldiers a monthly annuity of \$75.00 or more per month and that will turnover at least 60 times during the year and increase the nations business \$4,500.00 during the year, and it is not charity, but a remembrance due every soldier crippled or otherwise.

But when you take 12 million old people and widows with dependent children and crippled soldiers making at least 16 million and give them each \$75.00 annuity per month that they must spend monthly, it will increase the nation's business by \$72,000,004,500 annually in addition to the nations other income and that is not charity—just human justice.

Any Congressman that is too dumb to see that this will mean prosperity to the nation with the other added business, should not receive a single vote in the coming election.

May God open the ears of the deaf, open the eyes of the blind and the minds of the dumb that they may take advantage of the opportunity while they can.

These are my candid sentiments left in passing?
F. W. Zimmerman

TEXAS EGG SHIPMENTS CONTINUE TO SOAR
Texas egg shipments continue to soar, as 1,600 carloads—on a shell egg equivalent—went to market in April, according to the University of Texas Bureau of Business Research.

This figure compared with 1,046 cars in April a year ago.

Forty cars of poultry—23 of them to out-of-state points—were shipped in April, compared to only three cars in April, 1943.

"GOING TO TOWN" IN BOND DRIVE
That rural sections of the United States are "Going to Town" in the Fifth War Loan Drive is suggested by scattered early reports received by the Agricultural Section, War Finance Division, Treasury Department. In Carroll County, Georgia, agriculture's \$100,000 share of the county quota was over-sold by \$80,000 on June 6, six days before the drive opened. In Alabama, where county farm quotas are broken down into "Beats," roughly equivalent to townships in other states, several beats had surpassed their quotas. Gregory County, South Dakota,

World's Greatest Customer!

G. I. Joe

EVERY HOME FRONT SHORTAGE stems from the needs of our Armed Forces . . . now in action or ready to fight in 65 different countries or islands around the world.

Symbol of our millions under arms, G. I. Joe is the world's greatest, most-deserving, high-priority customer.

As evidence of his tremendous consuming capacity, consider the fact that every day, 60,000,000 gallons of petroleum products go to our Armed Forces.

Let the figures sink in: 60,000,000 gallons a day! No wonder there is concern not only about current supply, but also about the nation's petroleum reserves.

With the same initiative and energy which prompted its long peacetime research for new and better things from petroleum gases as well as from petroleum, Phillips is now actively engaged in speeding up production and discovering new sources of crude supply.

At every well, in every refinery, in every production unit, the spirit is: "Leave nothing undone which might contribute to an earlier victory." Twenty-four hours a day, Phillips best efforts are devoted to the production of petroleum products for the war effort: gasoline, lubricants, fuel oils, 100-octane, butadiene, and other synthetic chemicals.

That is why we say, every time you see the Phillips 66 Shield, let it remind you that Phillips great refineries are gigantic chemical plants pouring out weapons for victory.

The cost of living has gone up like this —

But the price of electricity has come down like this!

Nobody needs to tell you that the cost of living has been soaring toward high C.

But maybe you do need a reminder that the cost of electricity has been sliding down.

If yours is an average household, you're getting about *twice* as much electricity for your money today as you did 15 years ago. And 1944 government figures show that the average price has continued to ease off a little —*even since war began*. That fact ought to be music to your ears!

Getting prices down and keeping them down is one of the electric industry's greatest achievements.

It took a lot of planning, perspiration and practical business management to do this job in wartime. All our people helped.

THIS ADVERTISEMENT, ONE OF A SERIES TO HELP ACQUAINT THE GENERAL PUBLIC WITH THE DAIRY FARMER'S CONTRIBUTION TO THE WAR EFFORT, appears in full-page size in The Saturday Evening Post July 1st and in Collier's July 15th issue

Heroines... U.S.A.

Always, on our dairy farms, women and girls have had plenty of chores to do... morning... night... seven days a week. But what they are doing now would amaze you.

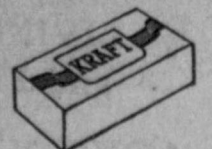

Food is essential to the winning of the war, and among the most vital of foods are milk and the products of milk. In cheese, for example, important nutrients of milk are concentrated in flavorful form for shipment to our fighting men and fighting allies around the world.

So the Government's requirement of cheese this year is now set at nearly 450 million pounds. (More

than the whole nation produced in 1918 when the last war ended!) And over 500 million more pounds of cheese are needed for you and other civilians to share.

From America's dairy farms, into the Armed Forces, have gone many sons, brothers, fathers. Still there is the daily job of caring for the cows, the task of harvesting feed to store against the winter's need.

It means work, hard work over long hours... and calluses on the hands. Our hats are off to these heroines who unflinchingly fight on the United Nations' food front!

Because of the tremendous demand, both military and civilian, you may not be able to get as much Kraft Cheese as you would like, or get your favorite varieties—Kraft American, "Old English", "Philadelphia" Brand Cream Cheese, Velveeta, and so on. But you may be sure, as always, that any cheese or cheese food which bears the Kraft name represents the very highest standard of quality.

Though there is nothing I can do
Till this troubled world is peaceful

And I am home again with you,
I can't even send you flowers
To express my love in part
But a carload full of flowers
Couldn't ease an aching heart.
Now darling you keep smiling
And at times if you feel blue
Remember other boys are fighting
And their sweethearts miss them
too.

So you girls stick together
Please don't worry about us men
And before you even know it
We'll be coming home again.

WORTH WHILE COMMENTS
BY COUNTY AGENT
Charles O. Reed

New and Approved Varieties.

Corn: Hybrid 8 corn made the best yields during 1943 at Lubbock experiment station. Hybrid corn produces about 20% more than native corn. Hybrid seed corn does not reproduce satisfactorily the second year, and new planting seed must be obtained direct from breeders each spring. About 3000 acres of hybrid corn for seed purposes will be harvested in 1944. Texas can use 30,000 acres to furnish hybrid seed to all corn producers.

If you intend to plant hybrid seed corn in 1945, you should place your orders in the near future, with reliable breeder for seed corn.

Hybrid corn 18 and 9W are new crosses and seed should be available after 1945 crop is harvested.

Grain Sorghum: One of the best combine varieties of grain sorghum for Donley County is Plainsman. Second recommendation is Martin Milo. Caprock and Bonita have made good production records near Donley County.

Sudan: Sweet Sudan has been proved by feeding demonstrations to be more desirable to livestock than ordinary sudan. To conserve seed it is recommended that only one or two pounds be planted in rows per acre.

Wheat: Comanche wheat is recommended for this area. This new variety has proved to be a better producer and to possess better milling and baking qualities than Ten Marq, Chieftan and Red Chief.

Another new wheat variety that is more desirable than present varieties is called Westar.

Barley: Some new varieties of hardy Fall or Spring Barley are Wards, Reno, and Wintex.
Oats: New oats varieties are Wintex and Ten-Tex for fall seeding, as they are very hardy and resistant to freezing. Improved Nortex is still recommended for spring planting.

In Hospital at Longview

Mrs. H. L. Riley has received word from her son H. L. Riley Jr. that he is now in the Army hospital at Longview, Texas. H. L. was wounded while fighting in Italy and has been in the States only a short time.

WACS Needed For Skilled Work

A drive to recruit Wacs to serve as medical, surgical, dental, x-ray and laboratory technicians was launched in the Fort Sill WAC Recruiting District this week with the visit of 1st Lt. Sylvia Nearman, who is visiting posts and stations in this area in the interest of the drive.

The Eighth Service Command needs 21 medical technicians and 10 surgical technicians before July 21, when basic training will be started at Fort Oglethorpe, Ga. Lt. Nearman, Public Relations Officer of Camp Robinson, Ark., served as an enlisted woman in the old WAAC at Fort Sill until going to Officer Candidate School in April, 1943. Formerly a school teacher, her home is in Waterbury, Conn.

A high school education in addition to a liking and aptitude for the work is required of Wacs enlisting as technicians in these fields. If the Officer of Procurement Service or a representative certifies them, they definitely will be assigned to the proper school following basic training. The technicians' training is given at the General Hospital, Camp Atterbury, Ind., and lasts for from three to four months.

Some recruits with sufficient actual experience or education in their fields will be assigned as technicians immediately following basic training without the need of attending a special school, according to Lieutenant Nearman.

Further information on the new drive may be obtained at the recruiting district's sub-stations at Oklahoma City, Enid and Lawton, Okla., and Amarillo.

Battle Weary Americans

These tired American infantrymen pause for a rest in the milk house of a French farm from which they have only recently chased out Nazi snipers. One man is taking a drink from his canteen and another is lying under an old comforter he has salvaged from someplace. Are you supporting the Invasion with the purchase of War Bonds?
