ATTENTION FARMERS.

Mr. T. G. Marks, lecturer and organizer, representing the State Department of Agriculture, was here Jan. 11th, whose chief object was to locate suitable planting seeds of various kinds to supply the drouth stricken section of the state.

He urges all who have suitable seeds of any character to hold them for planting purposes, and send the amount you have; and kind, with your price to the Commissioner of Agriculture at Austin, Texas.

There will be at least, 100,000 farmers that must be supplied with seeds therefore we don't know of a more patriotic duty that you could perform for the nation or to these unfortunate people than to lend every possible

MRS. TURNER ENTERTAINS.

The Ladies' Aid of the Presbyterian Church met at the home of Mrs. Robt. Turner, Wednesday afternoon, Jan. 16th. Numerous business matters were disposed of and an interesting lesson discussed.

It was decided by the members of the Red Cross Auxilliary at this meeting to purchase yarn with the funds on hand and knit at the future meetings.

Mrs. M. L. McDonald was admitted as a new member of the Aid.

The Aid adjourned to meet next week at the home of Mrs. B. L. Jenkins.

FIRST GRAND JURY OF 1918 IN SESSION

The grand jury for this term of district court has been secured and is now in daily session with the easy duty of looking into the matter of infractions of the law of the land in Donley County. There may be something under cover but all seems quiet along the Potomac as usual and the report of this jury will no doubt be brief with a brevity which is a high recommendation for the citizenship of this county. Following are the personnel of the jury:

- T. J. Cothran, Foreman.
 W. E. Christie,
 E. M. Ozier,
 J. W. Hastings,
 J. A. Pool,
 J. P. Alexander,
 J. A. Johnson,
 Frank Hermesmeyer,
 C. H. ...
 J. W. Lane,
 Beret Ayres,
 J. D. Harvey.
 Bailiffs:—Door, W. T. Clifford; Riders, T. M. Pyle, Jr., R. W. Talley.

LOCAL RED CROSS NEWS

A shipment of 63 knitted articles consisting of 20 sweaters, 35 pairs of socks, 2 helmets, 2 scarfs and 4 pairs of wristlets, was made on Jan. 14, 1918.

The severe weather has interfered with the work in the Red Cross rooms this past week, but we hope to make up for the lost time as soon as possible.

Word was received from Division Headquarters to ship from now and until further orders all knitted articles to Houston, Texas, to be distributed from there to the various cantonments.

The receipts from the Red Cross booth last Saturday amounted to \$23.00, \$19.00 donations and \$4.00 dues.

In reporting the proceeds of the Red Cross booth in last week's News we were only supplied with the amount of the afternoon donations which should have added to it \$14.40 running the total up to \$42.40. Included in this were seven annual and one subscribing membership dues.

The Home Service work of the Red Cross is being developed under a committee consisting of W. D. Van Eaton, Chairman, Frank Bourland, Secretary, Wesley Knorpp, C. W. Bennett, Mrs. J. D. Jeffries, H. W. Taylor and R. H. Minn.

R. H. Beville had business in Memphis Wednesday morning of this week.

CANDIDATES GIRD FOR JULY BATTLE

Since the opening of the New Year county and district candidates are beginning to come from winter quarters and are beginning their campaigns with just as much sagacity and preparation as are the candidates for state offices. From all accounts the campaign of the present year will be the warmest that Donley County has experienced in a number of years. There promises to be some genuine "hoss races" for some of the offices, and if the candidates can stand it the public ought to get some "entertainment and edification" from their antics. The News gives only a short notice of the announcement of candidates for any office and below we take pleasure in commending the names of the following in the order in which they have announced:

H. S. Brumley for Sheriff.
 H. S. (Harry) Brumley, is the first to leave the post in the race for sheriff of Donley County and his name will be found in the proper column. Mr. Brumley is an old resident of this section and enjoys the confidence of many who are predicting his election to this office.

Henry S. Bishop for District Judge.
 Hon. Henry S. Bishop, of Amarillo, authorizes The News to present his name to the voters of Donley County as candidate for District Judge in this, the 47th Judicial District, subject to the Democratic Primary of July 26th. Judge Bishop served fourteen years as district attorney of this district and has long years of legal experience to recommend him for the office to which he aspires. See his name in the announcement column.

Judge Humphries for Re-Election.
 Judge Hugh L. Humphries, present District Judge of this District asks The News to present his name to the voters of this county for re-election to the office he so ably fills. Judge Humphries' qualifications are too well known to warrant further announcement. You will find his name in the proper column.

Ernest (Dusty) Miller Asks Re-Election.
 District Attorney Ernest (Dusty) Miller wants his name placed in our announcement column for another term as District Attorney of the 47th Judicial District. Here The News editor digresses from his usual custom of saying nothing, from a personal standpoint, of the merits of any candidate for local offices. We have known Ernest Miller for over fifteen years—knew him in college, where the predominant virtues and faults of every man comes to the surface, and we are pleased to make a personal recommendation of his candidacy. He is clean, democratic, aggressive and faithful to every trust. With all respect to any man who may run against him, we hope he will be elected by a great majority, and we believe he will.

W. E. Bray for District and County Clerk.
 We are authorized to announce the candidacy for the office of District and County Clerk the name of W. E. Bray, for a long time citizen of Hedley, but recently having bought a farm near Clarendon. Mr. Bray has had experience as a public official and is running for the office on his own merits. Read his name in the announcement column.

WALLS-INGRAM.
 Tuesday night at the residence of J. W. Story, Mr. Tom E. Walls and Miss Kittie Ingram, both of Hall county, were united in marriage, Rev. J. W. Story, officiating.

DOCTORS REA BROTHERS

American Physician Specialists giving Free Medical Services to the Sick

AT HOTEL ATTEBERRY

Saturday, January 19

ONE DAY ONLY

Licensed by the States, visiting the principal cities throughout the United States, demonstrating their system of treating diseases and deformities without surgical operation; will give free treatment (except cost of medicines and appliances) to those who apply on this visit.

Liver, Stomach and Bowel Troubles, Dyspepsia, Indigestion, Constipation, Sick Headache, Dizziness, Enlargement of the Abdomen, Bad Breath.

According to their system, they do not operate for appendicitis, gall stones, bowels and ulcerations, doing away with the knife and much expense in the treatment of these dangerous diseases.

Tuberculosis, Asthma, Bronchitis, Croup, Catarrhal Deafness, Eye Diseases and Lung Diseases treated with a combination of medicine, serums, vaccines, diet, and hygiene.

Kidney and bladder Troubles, pains in the back, weak back, swelling of the limbs, stiffness of the joints, rheumatism, undeveloped children, bed wetting, club feet, curvature of the spine and other deformities.

Blood and Heart Disease, swelling of the limbs, skin diseases, pellagra, old sores, varicose veins, heart palpitation, bad circulation, cold limbs numbness, enlarged glands, goitre and deep-seated chronic diseases.

Nervous Diseases, epilepsy, neuritis, neuralgia, sciatica, paralysis, mental weakness, nervous prostration, sleeplessness, high blood pressure, mental worry, discouragement, and diseases of women.

Piles, fistula, small tumors, and growths of a suspicious nature treated with the hypodermic injection method, an effective plan of treatment without surgical operation.

Drs. Rea Bros. are well known throughout the United States. Their plan is to secure in each community evidence of their good work so as to benefit them in securing more patients. The sick and those interested are invited to call. Married women must come with their husbands, and children with their parents.

Hours: 10 A. M. to 4 P. M.

ACT QUICKLY.

Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger, Doan's Kidney Pills are most effective. Plenty of Clarendon evidence of their worth.

I. W. Carhart, Third and Jefferson streets, Clarendon, says: "I have used Doan's Kidney Pills and have always found them fine for lameness across the loins and other signs of kidney trouble. I heartily recommend Doan's Kidney Pills, procured at McKillop's Drug Store, uric acid in the system, rheumatic pains and bladder trouble."

OVER FOUR YEARS LATER Mr. Carhart said: "I haven't had to use Doan's Kidney Pills since I endorsed them before. I think just as highly of them now as ever."

Price 50 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Carhart had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

GEORGE WASHINGTON'S RULES OF CONDUCT.

Let your discourse with men of business be short and comprehensive.

In visiting the sick do not presently play the physician.

In the presence of others sing not to yourself with a humming note, nor drum with your fingers or feet.

Read no letters, books or papers in company.

Come not near the book or writings of anyone so as to read them, unless desired.

Let your countenance be pleasant, but in serious matters somewhat grave.

Show not yourself glad at the misfortune of another, even though he were your enemy.

Strive not with your superiors in argument, but always submit your judgment to others with modesty.

When a man does all he can, though it succeeds not well, blame not him that did it.

Mock not, nor jest at anything of importance; break no jests that are sharp-biting, and if you deliver anything witty and pleasant, abstain from laughing thereat yourself.

Use no reproachful language against anyone, neither curse nor revile.

Associate yourself with men of good quality, if you esteem your own reputation.

Be not immodest in urging your friend to discover a secret.

Speak not of doleful things in time of mirth, nor at the table.

Break not a jest where none takes pleasure in mirth.

Laugh not aloud, nor at all without occasion.

Treat with men at fit times about business.

Whisper not in the company of others.

Make no comparisons, and if any member of the company be commended for any brave act, commend not another for the same.

Be not curious to know the affairs of others, neither approach to those that speak in private.

Undertake not what you cannot perform, but be careful to keep your promise.

Be not tedious in discourse.

Speak not evil of the absent, for it is unjust.

Let your recreations be manful, not sinful.

TEXAS NATIONAL BANKS LEAD NATION IN DEPOSIT INCREASE.

Texas national banks showed a larger increase in deposits than those of any other State in the Union between Nov. 17, 1916, and Nov. 20, 1917, reserve cities received, by Judge W. F. Ramsey, chairman of the directors of the Federal Reserve Bank of Dallas. The increase was \$83,000,000.

Next to Texas came Oklahoma, with a gain of \$45,000,000. Country banks in New York State showed an increase of \$40,000,000. Other States making notable showings were New Jersey and North Carolina, with \$22,000,000 each, Arkansas \$19,000,000, South Carolina and California \$18,000,000 each, Massachusetts and Pennsylvania \$17,000,000 each.

Resources of the 7,659 national banks according to the report of Nov. 20, 1917, were \$18,553,000,000, an increase of \$3,033,000,000 over the report of Nov. 17, 1916.

Total deposits in national banks on Nov. 20, 1917, were \$14,798,000,000, an increase over Nov. 17, 1916, of \$2,309,000,000. Only five States failed to show an increase in national bank deposits between Sept. 11, 1917, and Nov. 17, 1917. They were Maine, Illinois, Michigan Iowa and Nebraska.

MEDICAL RELIEF COMMITTEE THANKS RED CROSS FOR RELIEF AT HALIFAX.

The following letter was written from Lt.-Col. F. McKelvey Bell, Chairman of the Medical Relief Committee at Halifax, to Mr. John F. Moors, Director of the American Red Cross relief work at Halifax, expressing the appreciation of the Canadian people for the magnificent service rendered there under the Red Cross banner:

Dear Mr. Moors: The Medical Relief Committee learns with considerable regret that you are about to leave us. I need scarcely mention how very much we have appreciated the extreme kindness which has been shown to the citizens of Halifax by your organization and how much we have appreciated the kindly manner in which you have treated everyone concerned. Upon your return to the United States, will you be kind enough to publicly thank the American Red Cross, as well as the citizens of the United States generally for all they have done for us. It is impossible to express in mere words the gratitude which we feel toward your association and to the American public generally. The help which we have received in the way of supplies and donations and the assistance which your social workers, surgeons, nurses, etc., have given us is inestimable and the kindly and generous manner in which everything has been done has left an indelible impression upon the minds of all concerned. Your visit here has been one of international importance and the spontaneous and generous response from our friends and Allies in the United States has helped to cement even more firmly the friendship feeling between the two nations. Sincerely and gratefully, F. McKelvey Bell.

THE WAR IN FIVE WORDS.

One of England's first hundred thousand men spent two years at the front without once writing home. At last his mother wrote to the captain of his company. Tommy himself thought he ought to write and after two days' labor produced the following: Dear Ma—This war is a blinger. Tell auntie. ALF.

HAVE YOUR EYES TESTED.

Stanley at Stocking's Store is doing the work and giving satisfaction every day. Don't trust such work to some expert (?) or "fly up the creek," whose home is not in Clarendon where you will have easy access to him in case the work is not satisfactory. Stanley takes delight in turning out work that is perfectly satisfactory.

PUBLIC ONLY NOW REALIZING WORTH OF THE RED CROSS

BACKS UP THE ARMY AND NAVY.

Success Wife of the Fighting Man and Makes His Own Surroundings as Pleasant as Possible.

The people of the United States only now are beginning to realize the force for good represented by the American Red Cross.

This statement is attested by the fact that 16,000,000 of the citizenry of this country joined the organization in the Christmas membership drive. But few of these, however, realized what the Red Cross is doing to help win the war for the United States and its allies.

The four principal divisions of the Red Cross are Woman's Work, Junior Membership, Civilian Relief and Military Relief.

Woman's work consists of the various activities which result in furnishing sweaters, helmets, wristlets, socks, surgical dressings, etc., for American soldiers who either have gone to France or who are preparing to go. It has been estimated that the work women have done in this department since America entered the war would have cost the Red Cross \$50,000,000, exclusive of material used. Of course all the work has been done gratis.

What Women Have Done.

In the seven months ending Nov. 1, 1917, the Red Cross sent to Europe 13,000,000 separate articles, surgical dressings, hospital supplies and clothing. In addition to these, large quantities of similar supplies have been sent to camps and cantonments in the United States.

The American people will not, of course, permit families to suffer want because their bread-winners are fighting for their country.

The Red Cross chapters can and will provide also the friendly services which may be needed and acceptable because of ill health or other misfortune or because of family conditions which, if neglected, would result in need and suffering or disaster to the home.

The Bureau of Civilian Relief also is doing a great work in France, Enlisting 22,000,000 Children.

Through the Junior Red Cross, which has been created in accordance with a plan credited largely to Dr. H. N. MacCracken, president of Vassar College, it is proposed to give the 22,000,000 school children of the United States an active share in the work of the Red Cross.

The purpose of the Junior Red Cross is largely educational, and its activities will be carried on entirely in the schools, as a part of the school work.

The organization of the Junior Red Cross aims at decentralization and the independence of the local unit. Contact with the Red Cross will be maintained only through the School Committee of the local chapter, the chapter, in turn, receiving its directions and material through the division director of Junior membership.

The dues of each auxiliary are a sum equal to 15 cents for each member. This is required as a pledge of serious purpose, and is to be used by the auxiliaries in the purchase of materials for making supplies.

Military Relief Work.

The American army in France is received in large reception camps on the coast, and after several weeks of preliminary training the men are sent across the country to permanent training camps back of the fighting lines.

Along the route followed by the troops the Red Cross has established infirmaries and rest stations, each in charge of an American trained nurse with an American man to assist her. Each infirmary contains 10 beds, a stock of drugs and other necessities. The seriously sick are cared for at French hospitals in the neighborhood. Daily calls are made upon the American sick in the hospitals by the nurses and attendants, who take with them reading matter, tobacco and other comforts.

Big Work in United States.

Dispensaries have been established in the American army zone to care for civilians and to improve health conditions in the vicinity of the American camps.

When our men reach their French base the Red Cross continues to act as a friendly agency as opportunity may offer to supplement what the army itself does to make the men comfortable. Recuperation camps have been opened at suitable places, and recreation huts provided for the sick and convalescent.

The department of Military Relief likewise does a practical and a humane work in the United States. It supplies deficiencies in camps and cantonments, distributes clothing, etc., when army and navy red tape makes it necessary. This department even has gone to the extent of supplying plumbing for cantonments.

THE ADVERTISED TRADE-MARK GUARANTEE QUALITY.

Have you ever stopped to consider the real significance TO YOU of the trade-mark or brand name on the package or label of the article you buy at the store?

Have you ever stopped to think that the presence of an advertised trade-mark on a can of pork and beans, for example, is a guarantee that these beans are of good quality?

This must be true else the advertising would defeat its own purpose. The trade-mark, being a mark of identification, is as much a means of rejection as of selection.

That is, if the article so identified proves unsatisfactory, you are enabled by the trade-mark to avoid it a second time.

Manifestly, a manufacturer could not afford to put a brand name or trade-mark on an unsatisfactory product. People would not buy it a second time and he would run himself out of business almost immediately.

A manufacturer backs a branded product by his reputation. Therefore, he cannot afford to stake his reputation on any product that is not good.

It is only when he puts on the market a satisfactory product, one which people will like and call for a second time, that he can afford to put the mark of identification upon it.

But when he has such a product, he wants people to know that it is his. Every package he sells then helps to build a reputation for him and his goods.

Advertised, trade-marked goods then are most apt to be GOOD GOODS.

The advertised trade-mark is your guarantee of quality.

TRAINED NURSE

ENDRSSES TANLAC.

Graduate of London England Says She Improved Rapidly After Taking It.

Mrs. Lena Bloomfield, a trained nurse residing at 3900 San Jacinto St. Dallas, Texas, is but one among many in her profession who, after testing the merits of Tanlac, have come forward with unqualified endorsements of the 'Master Medicine.' Mrs. Bloomfield graduated in London, England, and for several years followed her profession in New York, Denver and Dallas. Her statement, coming as it does from one of such wide experience in relieving suffering, will be of interest to hundreds of this section who are seeking relief. In telling of the benefits she has derived from the use of Tanlac Mrs. Bloomfield said:

"Some time ago I had a severe shock that brought on nervous prostration and I suffered from awful headaches all the time. My stomach was out of order and most everything I would eat disagreed with me. I usually have a sunny disposition and try to be cheerful under all circumstances, but I had become so weak and rundown and my trouble weighed on me so much I had gotten to the point where I felt depressed and despondent and had no desire to live or do anything else.

"A friend of mine recommended Tanlac to me and as I was anxious to find something that would relieve me, I got a bottle. My improvement was particularly noticeable when I was on my third bottle, when my appetite picked up and my flesh became much firmer. Those headaches are leaving me and I don't feel so tired as I used to be all the time. My sleep is refreshing, my stomach and nerves are stronger and I feel I owe much to Tanlac for what it has done for me, and will continue to use it for some time because of the good it is doing me."

Tanlac is sold in Clarendon by Stocking's Store, in Hedley by J. F. Tomlinson Drug Co., and in Jericho by O. C. Brown.

POLITICAL ANNOUNCEMENTS

The News is authorized to announce the following as candidates for the office under which their names are listed. The candidacy is subject to the Democratic primary to be held in July, 1918:

Judge, 47th Judicial District:
HENRY S. BISHOP.

Judge H. L. HUMPHRIES.
(For Re-election.)

Sheriff and Tax Collector—
H. C. (HARRY) BRUMLEY

For District and County Clerk:
W. E. BRAY.

For Attorney, 47th Judicial District:
ERNEST (DUSTY) MILLER.
(For Re-election.)

So far we have restrained from nagging the people of Donley County about prompt payment of poll taxes for the coming year, but there only remains twelve days in which the office of the tax collector will be open for the issuance of receipts and it is high time that those of our citizenship who have not already done so, hie themselves to the court house and arm themselves with the badge of citizenship and the privilege of voting during 1918. If you haven't a poll tax, you haven't any right to "argufy."

Last week, for the first time in our twelve years of newspaper work we were late in issuing our weekly edition of our paper. It has been an inflexible rule to print Thursday afternoon or night so that the readers would have their papers Friday morning. To do this we have often worked until the rose-tints of the rising sun hailed the coming of Friday, but last week a number of causes were responsible for our belatement. First, our linotype operator, Mr. Tucker, had left us the Saturday before and the editor was forced to operate the machine, and being some short on practice had the misfortune to get a very valuable thumb of the left hand mangled in the machinery, then the extreme weather slowed us down considerably, and our new operator, Mr. Chas. Baird, didn't arrive from Childress until Thursday afternoon. We issued Friday afternoon and by the hump-backed heifer of Herod, we hope we won't ever get up against it the same way again, although the constant stream of inquiry about the paper somewhat compensated by proving just how much the readers of The News bank on its regularity and miss its coming.

The financial statements of the three banks in our city appear this week and it will be noticed that the combined deposits are over a million dollars.

Our people either didn't believe what the coal dealers said last summer about laying in a supply of coal for the winter or else they were remarkably careless. Unbelief is the great damning sin of the human race and carelessness is a close second. Next summer all of us ought to remember the coal shortage of last winter and be prepared when Old Borgas launches his winter drive next fall.

Folks ought to be friendly under all circumstances. We have heard it said that Clarendon always hurries to the assistance of strangers who happen to misfortunes in her gates. That is better than not showing any feeling at all, but how much better would it be if there were no strangers in Clarendon. We ought to be so hospitable that no one could stay here twenty-four hours without being made to feel that he was at home among friends. Friendliness is right and lightning ought not to strike before it is shown.

The following from the Orlando, (Fla.) Sentinel should cause general relief: "To Those Who Like to Know All—Mrs. and Mr. C. W. Pulis of Concord Park are lawfully married, so kindly mind your own business and not talk about anyone you don't know anything about.—Mrs. C. W. Pulis." —Beaumont Enterprise.

Oh! your town gossip.—Fannin Co. Favorite.

It may have relieved the Pulis couple but we'll bet the town gossips didn't lack for further targets. If they haven't any targets—they make one.

The Banner has no patience with those iconoclast papers that are continually muck raking among the faults of mankind, and it has been our desire to commend more often than we condemn. However, there was an occurrence on our streets one night this week which we cannot pass over without a word of regret, and that was a bunch of girls going down the street with cigarettes in their sweet mouths. Our only consolation is in the belief that the occurrence is a rare one. Of course, there are plenty of women who smoke cigarettes, there are some who drink, and a few who are guilty of even worse conduct; but we had hoped all of our girls were above the faults that might cause us to lower the ideals we have had for them. If our girls do not hold themselves above the reproach the nation is gone, unless perchance long continued world war should shock us into our right senses again.—Baylor County Banner.

Editor Harrison of the Baylor County Banner disagrees with the News man in that he is a professed believer in woman suffrage while we are unalterably opposed to it, yet in the last few lines of the foregoing he is seeing the very things we see that are directly chargeable to women projecting themselves from their regular orbit. There is no more hope of it being done without disaster than to hope for the usual harmony of the universe should the Earth, Jupiter and Saturn leave their Divinely appointed orbits. Bro. Harrison is right—the nation is gone—unless it can be saved from wild-eyed women and weak-kneed, spineless men. It took courage to say what the Banner said, and we refuse to lose hope for a better day.

It must be refreshing for a man like Harry Koch, editor and publisher of the Quannah Tribune—Chief of the nice things said about his paper by his contemporaries and representative men from other professions. Mr. Koch is a native of Holland and is a

real live example of what a foreigner can do in America, who comes here with determination and a vision of what democracy really means. He wasn't burdened with money when he came to this country, but he has built up a splendid business and a competence for himself and family. He understands social conditions in Europe and hammers the kaiser and his gang with all the energy and directness of a man who knows his enemy. We are glad to point out the success of this gentleman from Holland to any wavering individual who thinks there is no chance for a fellow in this country unless he has money and ancestry. In America brains and energy are the open sesame to success.

Bob Johnson of the Motley County News, at Matador complains that a number of newspapers in the Panhandle have swiped and published without credit his "Deed to Hell" in which Lucifer H. Satan conveys the lower regions to his over-apt pupil, William Hohenzollern. The News begs your pardon, Bob. We printed it after seeing it in several papers without credit, supposing it to be one of those numberless effusions that flame across the journalistic horizon for a short time and fade away without any one in particular knowing where it came from. We amend by hereby giving proper credit.

Joe Bailey's long letter to Senator Johnson of the Houston Post condemning the prohibition amendment to the constitution of the United States on the ground of states rights has one fatal fallacy, viz: Mr. Bailey fails to consider the fact that a moral question of such national importance and so vital during the gigantic war transcends all quibbling on any other grounds. Principles of righteousness are greater than mere forms of government. Ordinarily we wouldn't care what kind of government Germany had, but the question of righteousness has entered so completely into the issues of the war that the present form of government of that country is made subservient to the moral questions involved. So it is with our own occasional bindings of democracy when right is in contravention.

The man who says it doesn't pay to advertise is in a class with the one who says it doesn't pay to court a girl; on the theory that she knows him, knows where he keeps himself, knows that he is in the market for a wife, and all she has to do is to hunt him up.—Kingman Journal.

DIGEST OF WAR NEWS.

Applications for Insurance by Fighting Men
New Near \$3,000,000.

Applications for war-risk insurance by men of the Army and Navy have nearly reached the \$3,000,000,000 mark, and continue to come in at a rate of about \$60,000,000 a day. The average amount applied for per man is \$8,630, the average having increased steadily since the act went into effect, October 6.

For persons who joined the colors before October 15, 1917, the last day for applying for Government insurance is February 12, 1918. Intensive efforts are being made by commanding officers to have all their men take insurance before that date.

The maximum amount which may be taken by any man is \$10,000. **War Credits Granted to Allies by United States Total Over \$4,000,000,000.**

War credits extended to foreign Governments since the United States entered the war total \$4,236,400,000. Of this Great Britain received \$2,045,000,000; France, \$1,285,000,000; Italy, \$500,000,000; Russia \$325,000,000; Belgium, \$77,000,400,000; Serbia, \$4,000,000.

Lower Requirements for Admission to Army Nurse Corps

Because of the need for nurses for the Army Nurse Corps certain requirements have been waived for the period of the war emergency. Registered nurses are preferred, but registration may be waived.

Nurses between the ages of 21 and 45 will now be considered, as well as those who are graduated from hospitals of less than 100 beds. Under the temporary revision of rules they are not required to purchase new uniforms. A nurse traveling under orders is

The theaters, and restaurants in Denmark close at 10 p. m. to save lights. To save kerosene, which is sold at a price regulated by the Government at 72 cents a gallon, Greenland whale oil is being tried for lighting. It is estimated 200,000 acetylene lamps are now in process of manufacture.

The distillation of all kinds of alcohol except for industrial uses is prohibited. A large part of the available alcohol will be needed for use in the new incandescent lamps. It is estimated that 2,000 tons of grain will be saved by the new regulations.

Motion Picture Show How Work of Boys Increases Meat Supply

To help increase the pork supply the Department of Agriculture has released to motion picture theaters, through one of the large companies, a film showing the work of the boys' pig clubs which the department is organizing in all parts of the country. The film shows methods of instructing farm boys who have joined the agricultural clubs how to raise better pigs and the methods used by club members in carrying out instructions.

The first pig club was organized in Louisiana in 1910. Now approximately 45,000 members are enrolled throughout the country. Clubs in several States are planning to send carloads of fat hogs to fairs and stock shows, after which they are to be marketed cooperatively.

Other moving pictures being used to show the importance of increased food production show activities in the national forests, important sources of timber and water supply.

Recreative Athletic Work in Army Camps Is Handled by Experienced Men

Athletic work in army camps and cantonments is in the hands of 32 trained organizers and coaches. They are civilian aids on the staffs of commanding officers, and their salaries are paid by the Government.

Particular attention has been given to boxing, as it assists men in bayonet fighting. A committee of best-known boxers worked out plans, and moving pictures to teach boxing have been made. Baseballs, bats, basket balls, and soccer balls, boxing gloves, and other equipment are supplied each company, in part, from a Government appropriation.

German Paper Tells of Hardships of Soldier's Family

The committee on Public Information has made the following translation of a story appearing in the October 15, 1917, issue of the Leipzig Volkszeitung:

"A sample of the fashion after which bloated landlords treat the wives of soldiers has been brought to our attention from Upper Languan in Silesia. One of the hired men of Dr. Muller's agricultural estate has been for a long time at the front. His wife, who had worked alongside her husband before the war after the usual custom, remained in the ranks of the field hands and accordingly retained her farm cottage. October 1 this woman got the following letter:

"The undersigned bailiff of the estate hereby gives you notice as of this date to the field service for January 1, 1918. On that day you are to give up your house. The work which you are doing on the farm does not compensate the farm for the loss which accrues to it through the continued support of your family. Look out for yourself from this farm, your house is needed for other use."

"The woman communicated the notice to her husband with these words: 'I must tell you my distress, soon I shall not be able to see the paper for my tears. What shall I do? Winter is at the door and the cottage is full of little children.'

"Thus the bailiff of the estate of a bloated landlord turns a family with eight children out of doors in mid-winter while the man is at the front. Comment takes care of itself."

Country Boys, Not Physically Superior to Those Living in Cities

According to records of the selective service, country boys do not show much physical superiority over those of the cities. For purpose of comparison selection was made of cities of 40,000 to 500,000 population, and a corresponding set of counties of the same total size. In the physical examinations 28.47 per cent of the city boys were rejected, as against 27.96 per cent of the country boys.

Spring Plowing in France Will Be Done by Tractors from America

To increase France's crops and to lighten the burden of toil on her men, women, and children 1,500 farm tractors will go to that country from the United States. The first hundred are already on the way, and the whole number will be in France by March,

in time for the spring plowing. Deck space was provided for the first shipment on a naval transport. Schools of instruction will be organized.

The acreage sown to crops in the uninvaded portion of France in 1917 was about 10,000,000 acres less than in 1913, or 24.4 per cent. The increased production through the use of tractors this year is expected to greatly improve the food situation.

"Smilage" Books to Be on Sale in Nearly Every City and Town

"Smilage" books, containing coupons good for admission to theaters and entertainment tents at the Army camps, will be on sale in nearly every city and town in the country during the week beginning January 28.

The books, which come in two sizes, to sell at \$1 and \$5, are to be used as presents to men in the camps. The coupons which they contain are good for any theatrical event or entertainment staged under the direction of the War and Navy commission on training-camp activities.

German Alien Enemies in United States Must Register

Among the regulations for the registration of German alien enemies in the United States during the first week of February, are the following:

All German males of the age of 14 years and upward are required to register. Notice of time and place of registration will be given by publication in newspapers.

The affidavit of each registrant must be accompanied by four unmounted photographs, signed across the face so as not to obscure the features, and the finger prints of each registrant shall be taken.

Between 10 and 15 days after registration each alien enemy must again appear before his registration card, which will bear his name and his left thumb print. This card must be carried by the registrant for future identification.

An alien enemy who changes his place of residence to another place within the same registration district must at once report the change to the registration officer. No alien enemy shall move out of the district without a permit. Application for a permit must be made upon a form furnished by the Department of Justice, giving full particulars as to date, reason for change, and intended place of residence.

Equipment for Men Fighting in France Contains Many Articles

It is estimated that 50,000 different articles are needed in modern warfare. The clothing of but one infantryman for service in France includes the following:

Bedsack, three wool blankets, waist belt, two pairs wool breeches, two wool service coats, hat cord, three pairs summer drawers, three pairs winter drawers, pair wool gloves, service hat, extra shoe laces, two pairs canvas leggings, two flannel shirts, two pairs of shoes, five pairs wool stockings, four identification tags, summer undershirts, four winter undershirts, overcoat, five shelter tent pins, shelter tent pole, poncho, shelter tent.

Listed as "eating utensils" the infantryman receives food to be carried in his haversack during field service, canteen and canteen cover, cup, knife fork, spoon, meat can, haversack, pack carrier, first aid kit and pouch.

His "fighting equipment" consists of rifle, bayonet, bayonet scabbard, cartridge belt and 100 cartridges, steel helmet, gas mask, and trench tool.

Food Supply of France and Neutral Countries on the Decline

According to the Food Administration, shortage of wheat in France is becoming more and more alarming each week. The minister of general re victualing indicated recently that a further reduction of 20 per cent in the bread ration would soon become imperative.

Denmark is now looking forward to a reduction of wheat rations. Final figures for the cereal harvest show a total of about 62,000,000 bushels which is 20,000,000 bushels less than in 1916 and about 10,000,000 less than was estimated in the summer, when the populace was put on bread rations. The authorities are already considering a further reduction in the allowed consumption.

The food situation in Switzerland is rapidly falling to the danger line. A ration that is far below the consumption in many of the countries at war has already been ordered. Under the new regulations the Swiss may have only a pound and a half of sugar per person per month. The bread ration has been fixed at about half a pound a day, and the butter ration at one-fifth of a pound a month.

The manufacture and consumption of pastry regarded as a luxury in France has been entirely suspended, except on Sundays and holidays.

Appearing every Monday night, at The Pastime, in "The Fighting Trail."

Boys' and Girls' clubs in northern and western States pledged for war service in gardening, canning, poultry raising and other emergency enterprises have more than 800,000 members.

The winter of 1916-17 was the most disastrous the range stockmen of the West have ever known. The lamb crop for the entire West was 15 to 20 per cent below the average, and the calf crop was considerably below normal.

WELLS PROMISE AN ABUNDANT SUPPLY.

Jack Mann, superintendent of the water service of the F. W. & D. C. Ry., was in Childress, Monday and stated to our reporter that he was more than pleased with the showing made by the city's well near Red river.

Supt. Mann said there was no well in Northwest Texas as good as the one here and that he expects to send a larger pump to Childress, also to place a gasoline engine and another pump at work on the small well, which is only twelve feet away from the well now being pumped.

The cold weather of last week put the pump out of business, but it is being repaired and pumping will be resumed in a few days.

Supt. Mann said: "I am confident that the water troubles at Childress are about at an end. There is plenty of water and the quality will not change. Of course we want to continue the test and will do so just as soon as the weather moderates."

Floyd R. Friend, city councilman, says that he was better pleased than ever with the well and knows Childress will soon have the best water supply of any town in Northwest Texas.—Childress Index.

SECOND TRIP FOR LLOYD LONG.

Lloyd Long has just returned to New York City, after his second trip to France. This message was conveyed in a telegram to his mother, Mrs. H. M. Long. He is quartermaster on an Atlantic steamer.

On December 7, Lloyd wrote his mother that he was docked safely in France, after three days in Southampton and Cowes. The run across the English Channel was made at night.

"Since coming over this time I see more clearly than ever why we should have taken up arms in this war and am much encouraged by the spirit and determination with which our great allies are pushing it. We must help to the utmost. For us who know no defeat there can be but one end, a glorious victory for our arms and the eternal downfall of autocracy."—Vernon Record.

W. M. S. NOTES.

Woman's Missionary Society met Wednesday afternoon to perfect plans for the ensuing year. The committee had a very good report which was adopted and the work for the year, we hope, will be very interesting and helpful. COLLEGE SCHOOL OF MUSIC NOTES.

The first recital of the new term will be given Monday night the 28th students from all teachers being represented.

This recital is number 90 which means that 90 recitals have been given at the college since Mr. Shure has had charge of the music department.

Mrs. Adams is hard at work preparing a cantata which she will give next month for the benefit of the choir. This will be beautifully staged and sung, the costumes will be extraordinary and it is hoped that every one will purchase a ticket since the proceeds will go on defraying the expenses of the Artists who will sing the Creation in the spring.

The title of the cantata is: King Rene's Daughter, by Smart. It will be produced on the night of Feb. 4th and will be an unusual treat. The Young Ladies Choral Club will be at their best but they need no introduction to the Clarendon public as they have been enjoyed many times before.

The dates of the senior recitals follow:—April 22th, March 18th, April 1st and the senior expression recital under the direction of Miss Chism will take place April 29th.

Mr. Shure's composition recital which will be given for the benefit of the Red Cross will take place on Monday night, Feb. 25th and will afford our music lovers an opportunity of hearing his works by the leading talent of Donley County.

The students are getting to the point where they sing the new stanza to America with some real pepper at the morning chapel exercises.

Mr. Business Man

How long has it been since you were photographed? I will wager that it has been a long time. (Now hasn't it?) Your friends and loved ones will appreciate your photograph in after years more than anything that you can leave for them. Don't delay but come now for that sitting. You owe it to those that love you.

REGULAR ADVERTISERS BECOMING MORE NUMEROUS.

Advertising in The Clarendon News has proven itself so successful as a tonic for business and the extension of trade that more of our business men are securing regular contracts for weekly space, thereby proving their sound business sagacity and the determination to increase their business in the new year.

Watson & Antrobus will tell the people of the excellencies of their line of hardware and implements in a quart page space. The City Garage will invite the trade of the auto owners in a regular eight inch space, and tell of the skill of their mechanics. The McDonald Drug Co. has also joined the ranks of those who have a message for the people every week and a regular perusal of their fourteen inch advertisement will save the people money. Mr. J. B. Annis, succeeding J. L. Rutherford, and a new man here appears every week with a seven inch talk about his harness, saddlery and auto top repair business.

Clarendon already had a number of progressive merchants who never let an issue pass without a regular reminder to the people of their wares and these will be glad to see this town building work taken up these contemporaries.

The good year of 1918 is to be the greatest year for advertising the nation has ever experienced and all business men who are students of conditions are putting their brains to the work of pulling for business by methods sure of results. The men who are directing the little business of this nation are just as alive as are the directors of the great establishment who regard advertising as an investment—not an expense.

J. S. Young, Pat Bursey, A. E. Ransone, J. A. Lemmons, Miss Bessie Thaxton and J. D. McCantz, all of Giles were Clarendon visitors Wednesday. Mr. McCantz dined at this sanctum while here.

SUFFRAGE AMENDMENT PASSES LOWER HOUSE.

Those who are interested in the Suffrage Amendment, which has been pending before the House at Congress, note with pleasure that the following Texas Congressmen, supported the measure: Thos. L. Blanton, of Abilene; Tom Connally, of Waco; A. W. Gregg, of Palestine; Daniel E. Garret, Congressman-at-large; Hatton W. Sumner, of Dallas; Marvin Jones, of Amarillo. The women of Texas appreciate the attitude of these representative men toward the movement, which those of the Panhandle portion of the country are justly proud of Mr. Jones, the youngest member of Congress, who while serving his first term of office has so justly represented the people of his portion of the State.

KANSAS CITY STOCK MARKET.

Kansas City Stock Yards, Jan. 14.—Cattle receipts to day were 7,000 head, market steady to 10 and 25 higher. Hogs 3,000 today, market opened 15 to 25 higher closed steady, top \$16.40. Sheep and lambs 5,000 market 10 to 15 higher, top lambs \$16.90.

Beef Cattle. The highest price paid for steers last week was \$13.15, the week before \$13.25. Today the top was \$12.90, which was paid for some 1329 pound steers. Beef steers sold mostly at 10 to 15 higher prices and butcher grades sold 25 higher, a few sales still higher. The supply here today was not quite half as large as last Monday. The extreme cold weather throughout the county interfered with the transportation of live stock and some railroads were unable to haul stock to market, but as the temperature is rising service will be better rest of the week. Heavy cows sold today as high as \$11.00, bulls were higher a good many sales between \$9.00 and \$10.00. Veal calves were steady selling up to \$13.50.

Stockers and Feeders. The demand for stockers and feeders was very keen all last week, but today account poor railroad service and there being but a few cattle of that class here, the feeling was about steady. Best stockers sold for \$10.60 and some 1075 pound feeders brought \$11.65. Stock cows and heifers were scarce and firm.

Hogs. The market opened 15 to 25 higher to shippers and closed steady to packers. Shippers paid \$16.40 for best hogs early which was the top. Packers would only pay \$16.15 for heavy hogs and the bulk of all sales ranged from \$15.95 to \$16.35.

Sheep and Lambs. The market was ten to fifteen higher today some western fed lambs sold for \$16.90 the top and some fed western yearlings brought \$14.85. There were very few killing sheep here. Feeding and breeding stock sold steady, some lambs sold as feeders for \$15.75.

MISS ZURICH WEDS WELL KNOWN COW PUNCHER

A wedding of unusual interest to Clayton people is that of Miss Rosalie Zurich and Mr. Geo. W. Davis, which took place on Tuesday, Jan. 8th, the Rev. Mills officiating.

The bride is the capable and admirable daughter of Mr. and Mrs. Jack Zurich. Her smiling face is known throughout the country and everyone loves Rosalie.

The groom is a prominent cow puncher from the Cimmaron country. He is a straightforward, honorable young man of unusual ability and unquestioned integrity.

The bride was attired in a beautiful hunters green chiffon broadcloth traveling suit, with all accessories to match. The groom wore the conventional suit of black.

This young couple took the noon train for Fort Worth, where they will spend their honeymoon. Both have a host of warm friends, all of whom will join us in the wish that happiness may abide with them and a full share of the good things of life may be their lot.

Mr. and Mrs. Davis will make their home on the Eklund Ranch near Clayton, where Mr. Davis is foreman. —Clayton Citizen.

NOTES FROM THE PARIS OFFICE IN FRANCE

During a recent review of troops near the front, the French general in charge of the ceremonies requested an introduction to the American Red Cross convoyer of the Bureau of Canteens, and complimented him on his work in serving the troops with hot beverages.

An American Red Cross canteen recently served 265 meals in two hours and a half, an average of one meal every thirty-four seconds. At another coffee was served for several hours at the rate of one cup every ten seconds. The canteen workers are reported to be enthusiastic and in good health.

The wide variety of relief supplies that are required is shown by some of the items recently transferred from Paris central warehouses to regional warehouses, for distribution in devastated territory. There was included: 2,000 square meters of roofing paper; three carloads of beds and bedding; 500 kitchen chairs, soap, candles, rat and mouse traps, window glasses, sewing material, wheelbarrows, saws, sweaters, kettles, mittens, mufflers, prunes, condensed milk, tapioca and macaroni.

MUST HAVE LICENSE TO SELL EXPLOSIVES

Under an act of Congress, no firm, corporation or individual is allowed to store, use or sell explosives or ingredients thereof, except ingredients in small quantities not used or intended to be used in the manufacture of explosives and small arms or shot-gun cartridges, without first obtaining a license from the Director of the Bureau of Mines. County Attorney, E. F. Richey, has been appointed Licensing Agent for Donley County, and all persons coming within the provisions of the above law should secure their license at once. A penalty is provided for a violation of the above law.

A WORD OF EXPLANATION.

As Division Manager for the Texas Gas & Electric Co., I feel it my duty to explain to the patrons of the light plant as near as I can the cause of so much bad service in the past few months. To begin with in the year 1916, Mr. A.L. Chase at that time manager for this company could see that our machines would soon be overloaded and asked the company for another machine. The company immediately took this matter up with the manufacturers and was advised by the manufacturer that delivery on a new machine could not be made before March, 1918. We did not believe at that time that it would be possible for us to make it through the fall of 1916. So the company advised that they had at Beeville a producer Gas Engine that was not in use and would ship that to Clarendon if we thought we could use it, a distillate engine. At that time this looked like the best thing to do, so the machine was shipped, but owing to slow transportation the engine was not delivered until about Dec. 31, 1916.

In changing this machine over from producer gas to a distillate engine it was necessary to have some part cut at the foundry and also some new parts ordered from the factory.

The parts were very slow coming in. All this time the load has been getting heavier which made the machines we already had in operation hard to keep up. This however could be done without the people knowing very much about our trouble until it came to a point where we could not get the repairs we ordered. To add more to our grief before we could get the New Machine in operation a coil burned out of our large dynamo that has been our standby for the past eight years. We wired an order immediately for new coils to be shipped by express. This order was given to a Dallas house Dec. 20, and to date the coils have not arrived.

On or about that time to add doubly to our hard luck, we received a car of distillate that contained about seven or eight hundred gallons of fuel oil in with the distillate. This amount of fuel oil was sufficient to make it impossible for us to use it at all and I therefore refused to receive the car. After we had burned all the kerosene we could get we were compelled to unload this car of distillate and make the best of it we could, we are adding about two gallons of kerosene to one of distillate and at that the machines will miss and cause the light to brighten up and then get dim. For all this bad service of course some body is to blame.

Some are blaming the company, as for the Light Company I believe they are doing all they can to have the necessary repairs delivered to keep the machines in repair. Also to keep this plant supplied with a good grade of distillate. Some are blaming the boys at the station. I

wish to say for the boy at the station that they are doing all they can to keep up the service. I do not believe there is a more competent man for the place than Mr. Cyrus Cope, and they have all been as untiring as the sun. Some are blaming the manager as to him you will have to be the judge. I have been with this plant since April 1, 1916, been through all of the service good and bad since that time.

I wish to thank the patrons of the plant on behalf of the company as well as for myself for the splendid patronage you have given the plant and, can promise you good service again as soon as we can get the necessary for keeping this plant in repair, and fuel that our engines will burn.

T. S. Kemp. NOTE—The News is reproducing the foregoing article again this week as we made an error last week in the dates, which made the article more or less misleading. Read the explanation again and give it your careful consideration.

WISH PEACE ONLY WITH VICTORY.

The spirit of the women of France is reflected in the following letter received from a French woman:

"I thank you very much for relieving our distress, but we French women assure you that we wish peace only with complete victory, which your dear soldiers are coming to aid us to gain. We have faith in the triumph of right and of justice over this monstrous cause of so much mourning in the universe.

WHAT THE RED CROSS IS DOING AND WHAT YOU CAN DO

BUREAU OF MILITARY RELIEF.

The following is a brief resume of the Red Cross activities among the seven army encampments located in the Southwestern Division. These activities developed since a trip taken by the Director through camps from October 23rd to November 1st. Approximately 125,000 sweaters from Washington and from the St. Louis Supply Department have been distributed, almost equally among the different camps.

Three aerial squadrons of 250 men each at Camp Hicks, Fort Worth, and three aerial squadrons, also of 250 men each, at Camp Kelly, San Antonio, Tex., have been completely equipped from our St. Louis supply depot with sweaters, blankets, comfort kits and socks. These men are all under orders to sail for France. Five hundred and sixty-eight flight sweaters, socks, etc., were sent to the 13th Field Artillery, Camp Doniphan, Fort Hill, Ok., from St. Louis. This is the former Battery A of St. Louis. Col. Rumbold commanding, who personally made the requisition.

Five hundred suits of pajamas have been distributed at Camp McArthur, Waco, Tex. A number of special donations from individual chapters for particular regiments have been distributed by the Red Cross field directors. These consist of several thousand articles.

Several hundred individual requests from soldiers for warm clothing, primarily sweaters, have been investigated, and when found bona fide, have been supplied.

At Camp Bowie, Fort Worth, a sudden drop in temperature greatly increased the sickness resulting in many cases of pneumonia. Our field director bought 1,100 sweaters and collected from soldiers about 1,000 more, with help of hospital authorities who were able to issue these articles warm. The field director telegraphed for more blankets and telegraphed for more blankets.

Young Banker Who Led Red Cross Hosts Thanks Army of Helpers in Southwest

The following statement was issued by J. L. Johnston, chairman of the Christmas Membership Campaign of the Red Cross in the Southwestern Division. Johnston is president of the German Savings Institution of St. Louis, being the youngest metropolitan bank president in the United States. He is thirty-one years old. The statement follows:

As the chairman for the Southwestern Division in the big Red Cross Xmas Membership Drive, I wish personally to thank every worker of the Red Cross who contributed to the success of the campaign.

As has been said so aptly by Louis LaBeaume, Publicity Director for this Division, we have shown the Kaiser where the Americans live.

Minimum estimates show that the Southwestern Division obtained 3,250,000 new members between December 17th and December 24th inclusive, leading every other Division in the United States. We were asked to get 1,162,000 new members. It will not be surprising if, when all the returns are in, the figures amount to 3,400,000. In other words, we obtained nearly three times the number of members for which we were asked by Red Cross headquarters at Washington.

This tremendous undertaking never could have been accomplished but for the whole-hearted loyalty and support of those who already were members of the Red Cross. To each and everyone of you I wish to express my sincere thanks. It has been not only a pleasure, but a privilege that I esteem highly, to have been chairman of this campaign.

J. L. JOHNSTON,
Chairman Southwestern Division
Christmas Membership Campaign.

PASSING THE BUCK.

(From Lamar Sparks.)
The Colonel tells the Major
When he wants something done,
And the Major tells the Captain
And gets him on the run
The Captain thinks it over,
And to be sure and suit,
He passes buck and baggage
To some shave-tail Second Lieutenant.
The said Lieutenant ponders,
And strikes his downy jaw,
Then calls his trusty Sergeant
And to him lays down the law.
The Sergeant gets a Corporal
To see what he can see,
So the Corporal calls a private.
And that poor darn Private's me.
So you see I run the bizness
Of this here regiment
I sweat an' strain an' work some more
'Till my bloomin' back is bent.
But I don't care—it's all a scheme
To fool old Kaiser bill,
So I'll gladly bust this buck of mine
And sweat and sweat until
We're in Berlin, and the war is won,
And we've et our bellies' fill
Of meat an' butter an' lollypops
Then I'll come home and see my gal,
And maybe she won't care
If I was a first-class Private
Away off over there.
Dedicated to a million more like me—

ADVICE GIVEN ON FIGHTING AUTOMOBILE FIRES.

Premium rates on automobile insurance will have to be advanced if the losses by fire and theft are not sharply decreased, according to an insurance authority who repeats the following suggestion on extinguishing fires:

1. The most important thing to remember in case of a fire of this kind is to keep cool. A few seconds lost in panic at the start may result disastrously.
2. At least one small fire extinguisher should be on every car. It should be placed where it may be readily accessible in any emergency. The small extinguisher is indispensable in handling a gasoline fire and is also useful in fighting any other kind of blaze about the car.
3. In the absence of an extinguisher, sand or dirt can be used, but it should be remembered that if sand is thrown into the carburetor mechanism harm is likely to result.
4. Do not use water in attempting to extinguish a carburetor fire or other gasoline fire. This merely tends to spread the fire.
5. If the engine backfires, use the starter to turn the motor. If this does not draw the flames into the manifold, use the extinguisher. This should put out the fire with little difficulty.
6. If the fire has reached the trip pan, extinguish that first, and then work up to the carburetor.
7. If the fire is caused by ignition of gasoline from hot exhaust, short circuit or other condition about the car, the extinguisher should also be used with equally good effect.
8. Do not invite destruction of your car and probable injury to yourself by lighting a match to see how much gas there is in the tank.

If owners would exercise the same supervision over their automobiles that they do over other moveable property, the theft losses could be cut down materially.
These are matters of importance, for in the long run motorists will pay in higher premiums for all losses, and a reasonable vigilance on the part of all will mean money saved.

ECLIPSE

On a windmill means the same thing as John B. Stetson in a hat, the best production of its kind which money can buy.

The very fact that manufacturers of competitive mills are building mills of the same pattern is an acknowledgement that the ECLIPSE is superior.

We have a complete stock of the New Fairbanks-Morse "Z" Engines in all sizes. The "Fool Proof" Engine with built-in magneto and throttle governor.

We carry a complete line of Pipe, Casing, Fittings, Wood-rod and other well supplies. Let us figure your job, large or small.

DENVER PASSENGERS COMPLAIN OF COLD.

In our story in Friday's paper about the blizzard we made mention of the way the Denver Road officials took care of the passengers on the train that was due in Childress, Thursday evening, but delayed east of Quanah until the next morning.

Passengers on the train called at our office Friday, and informed us that what we said should have been done but was not.

The reporter of The Index met two ladies who spent the night on the train and said they were in the Pullman and did not experience in discomfort. A few moments after talking with them the reporter was in conversation with some railroad men and they told how Messrs. Peyton and Grove had worked during the night.

The passengers who called at our office stated that the train crew did everything in their power to relieve the suffering people, except to provide something to eat or hot drinks. Had this been done the night would have been more agreeable.

A traveling salesman stated: "The conductor and brakeman and the negro porter did everything they could. The conductor made two trips to town through the storm. The brakeman went back to set torpedoes and came back almost frozen, in fact his ears did freeze. The train porter kept the heaters going so long as there was fuel but the stoves were of little value to supply heat."

"One of the dining car negro waiters came up to the front end of the train and feeling the cold suggested to the passengers that they go to the dining car. This negro waiter was

BUGBEE LIVE STOCK & LAND COMPANY HOLDS ANNUAL STOCKHOLDERS MEETING.

At a recent meeting of the stockholders of the Bugbee Live Stock & Land Co., the following officers were elected for the ensuing year:

President—Thos. S. Bugbee.
Vice-President—Jno. S. Bugbee.
Secretary Treas.—Wesley Knorpp.

This concern is one of the oldest cattle and land companies in this section and Clarendon is duly proud of such an organization through whose work so much general progress has been attained. During the year 1917 this company has had a most successful business and enters the new year with flattering prospects.

the life of the crowd and there was no one on the train who did more. The dining car conductor did all he could for us. The cooks on the diner had locked the kitchen and no one could get them to cook anything or make coffee.

"The Pullman car conductor was drunk as was the Pullman porter. They locked the Pullman door and would not allow the women passengers with small children to go into the Pullman. The Pullman passengers were comfortable as there was plenty of blankets. The Pullman car crew are the ones who need to be criticised.

"We learned from the train conductor that the officers of the road at Ft. Worth were trying to give us relief and we certainly appreciated what they did. Warm lunches and hot coffee would have done more good than anything, I have been on several snow-bound trains and in every instance the train was made an open-house affair and the dining and Pullman cars were thrown open to all without cost, save the women and children were served first. Last night we could not get eats or drinks for money."—Childress Index.

SHE ASKED FOR CANDOR.

A woman with a birthday in sight spoke earnestly to three men who were her friends.

"Tomorrow will be another birthday for me," she said. "I know the freshness of my youth has departed, but I should like to know just how old I appear in the eyes of the world. Tell me, my dear friends, if you were looking on me for the first time what would be your impressions?"

Said the first man glibly: "I have known you for several years, and you appear the same as when I first saw you. Your beauty is undimmed; your charm is undiminished. If I did not know otherwise, I should say tomorrow would be your twentieth birthday."

Said the second man more slowly: "I, too, have known you for several years, but it seems to me you have been favored by time. Your beauty has ripened and deepened until now you, who were once a lovely bud, are a lovelier rose in bloom. I should count tomorrow as the beginning of your twenty-ninth year."

"And you," queried the woman of the third man, who had been regarding her clear-eyed frankness.

Between friends there should always be truth," he replied gravely. "I acknowledge your beauty and your charm and both have been wonderfully preserved in semblance of youth. But you ask for candor and you shall have it. Looking at you closely I

should not expect you to see thirty—after tomorrow."

The woman faced the three men who were her friends, and her eyes were gleaming while her cheeks' pink turned crimson. She pointed an accusing finger.

"You have lied," she said tremulously, "and you also. But I will forgive you both because you lied to please me. But you"—she whirled toward the last speaker—"you are a barbaous egotist. You have wounded me in order to maintain your own reputation for veracity. Truth, indeed! Your honesty offends me. We are no longer friends. Go—and go quickly!"

"Whew!" exclaimed the third man as he strode through the outer darkness. "I wonder what would have happened to me if I told her the truth?"—Life.

LELIA LAKE LOCALS

Dr. J. R. Palmer left Tuesday morning for Ft. Worth and Dallas.

Miss Lucile Ellis spent, Saturday and Sunday with homefolks.

Lloyd Black left for Miami Monday night, for a few days visit.

Messrs. Thompson and Cothran were

Clarendon visitors Saturday afternoon.

Mr. and Mrs. John Cook of Camp Bowie, are here on a few days furlough.

Miss Dewey Mitcham and Irene Beaty, of Clarendon, visited friends here, Sunday.

We are sorry to report J. D. Cook suffering with a severe attack of La-Grippe this week.

It is reported that Stanley Robb has a bad case of pneumonia, but is some better at this time.

Miss Gladys Taylor and Geneva Bynum, of Clarendon College, was at home, Saturday and Sunday.

Mrs. A. J. Scott, who has been visiting her daughter at Plainview, returned Tuesday night after about a three months stay.

The Red Cross Social was quite a success, Saturday evening, and I'm sure no one will ever begrudge a cent spent for this splendid cause.

MILK IN WINTER

Why do your cows give less milk in winter than they do in summer? Just because nature does not supply them with grasses and green food. But we have come to the as-

sistance of Dame Nature with B. A. Thomas' Stock Remedy which contains the very ingredients that the green feed supplies in season, only, of course, in a more highly concentrated form. We guarantee that this remedy will make your cows give more milk, and better milk, with the same feed.
