CHURCH OF CHRIST AT LELIA LAKE PAID FOR

Since the first of October of this year Elder W. A. Kercherville has been preaching for and working for the Church of Christ at Lelia Lake and money has been raised to clear the church of debt, and several proposed improvements are now under way. Brother Kercherville says he never worked with a better class of people than the people of Donley county. They work hard and God blesses them, and they in turn praise His great name. To our friends and neighbors we publish the time of our meetings and invite you to come over and help us. Prayer meeting, Friday, 8:15 p. m. Sunday school, 10:00 a. m. Sunday preaching, 11:00 a. m. and 8:15 p. m.

NO UNEASINESS NOW FELT OVER INFLUENZA

At noon Friday there were two cases of Spanish influenza at Camp Mabry, and today there are 100 cases. Camp Mabry has been quarantined, but no apprehension is felt. So far no indications of pneumonia have developed. Major Channing stated that he felt no uneasiness over the outcome of the epidemic at the camp, as the cases developed there are very mild. However, to prevent any possible spread of the disease, no outsiders will be allowed to enter and no soldiers will be allowed to leave the camp until further notice. Editor Bob Downey of the Aberrathy Breeze visited with The News force for a few minutes here Saturday.

BIG LOAN DRIVE TO CLOSE WITH JUBILEE SATURDAY

ORGANIZATION GOING FORWARD ON UNITED WAR WORK

The following important appointments have been made in this district in connection with the United War Work campaign to be conducted November 11-18: S. S. Montgomery, Memphis, district chairman; Mrs. E. R. Biggs, Childress, district leader women's division; S. H. Condron, Clarendon, district executive boys' division; Mrs. Ernest Davis, Childress, district executive girls' division. All these workers are directly under the district chairman. The district chairmen are now organizing their county committees. County workers, to be announced soon, will be under the direction of the county chairman, S. M. Braswell. This district contains the counties of Armstrong, Donley, Collingsworth, Childress, Briscoe, Gray, Wheeler and Hall. These workers have been appointed because of their peculiar fitness for their several tasks, but will have the close co-operation of the regular community Councils of Defense of the various school districts. The United War Work campaign will raise a minimum of \$170,500,000 to be apportioned according to their size and scope of work among the following officially recognized war activities: Young Men's Christian Association, Young Women's Christian Association, Catholic War Council, Jewish Welfare Board, War Camp Community Service, American Library association and Salvation Army.

There will be a mammoth street celebration and sing-song held in Clarendon Saturday night for the purpose of celebrating the successful conclusion of the Fourth Liberty Loan. Every store and every office in Clarendon will be requested to close at 8 p. m. and the whole population of the Clarendon Independent school district is asked to be on hand for the "big doings."

For what has already been done the central committee believes that Donley county will be "over the top" and to spare by 8 o'clock Saturday night, Liberty Day, that is provided some large subscriptions which are strongly counted on are made before that time. The little fellows are doing their part most nobly, now if the rich and well-to-do do theirs, there is no reason why Donley county shall not be one hundred per cent by Saturday night. Cases where men will not do what they are able to do will be handled by the Council of Defense—and handled promptly. Be sure to wear your Fourth Liberty Loan button Saturday and especially Saturday night. The reason for this advice will be apparent to anyone present without one, who is in the buying class. When you buy you are entitled to the button, and it is WISE TO WEAR IT. Clarendon invites the entire citizenship of Donley county to be present at this great celebration. Let every community complete their quotas in the afternoon and come here Saturday night to make their reports and enter into the jollification of patriots who feel the satisfaction of a duty well-performed. Among the citizenship like we have in Donley county, there is no such word as "fail." We are going to buy our quota of \$262,800 of Fourth Liberty Loan Bonds, and then we are going to meet and sing with one another Saturday night. Let us feel happy over our work "over here" while we support the boys "over there."

CLARENDON'S FIRST WAR BRIDE DEAD

The sad news of the death of Mrs. Etta Beville Wright, was received here the first of the week by her father, A. M. Beville. Mrs. Wright died at Manhattan, Kas., Tuesday, and the body will be brought here for burial. The funeral will probably take place Friday afternoon, from the Beville home. Mrs. Wright was well known and much beloved here as Miss Etta Beville, being born here in 1898 and having been reared and educated here. She enjoyed the distinction of being Clarendon's first war bride, having been joined in marriage to Captain Geo. M. Wright, Jr., on July 4, 1917. Captain Wright has been stationed at Fort Leavenworth Kas., Fort Douglas, Utah, and Camp Funston, Kas., near Manhattan, at which place Mrs. Wright died. The sympathy of the community is extended universally to Mr. Beville and the brothers and sisters, who share with the young husband, the deep sorrow of her loss. A. T. Jeffries went to Texline Sunday on business.

There is no known specific serum against Spanish influenza. The serums now being used in army and navy camps are in the nature of experiments as to efficacy against influenza. This information came to the state health department in a telegram from Surgeon General Brastegram of the navy. State Health Officer Collins wired and asked for some form of preventive treatment and the reply was as follows: "Understand army using vaccine made at its laboratory as preventive of pneumonia in camps where disease prevails. No serum treatment for influenza known. Vaccine for prevention has been made by us and being used experimentally. Useless as therapeutic measure."

BOARD OF HEALTH. HIGH SCHOOL NEWS. Clarendon High boys organized an athletic association Monday, and will start work on football at once. The team will be light this year but this deficiency will be overcome by their school spirit and teamwork. W. T. Hayter made a very interesting talk to the students Tuesday morning on Liberty Bonds and War Savings Stamps. \$600 worth of Bonds were sold, and on investigation it was found that 240 of the pupils own War Savings Stamps, and 76 own Liberty Bonds.—Pretty good for "kids."

Cobb Harris and family of Ashtola were shoppers in town Wednesday.

A Good Combination

Most people have a choice in the store at which they buy their groceries, some making the choice upon price, not regarding very much the quality, while others make quality alone the principal consideration. Most people, however, seek the store that gives the best deal on quality and price, and we believe in this combination. We lead all other stores, a belief borne out by growing list of satisfied customers. In the first place, quality is never sacrificed, neither is profit paramount to all other considerations. We serve you with the goods just as good as any, and then make you acash price a little better.

You Should Buy Liberty Bonds

Nothing in the world really matters except the winning of the war. In order to do his full share toward winning the war Uncle Sam must have an unlimited supply of ready money to provide everything that our soldiers and sailors need.

LIBERTY BONDS will provide this money. LIBERTY BONDS are protected by the entire resources and credit of the United States Government and are therefore the best investment in the world.

Subscribe to the limit of your ability and remember that this bank will help you. Ever since the beginning of the war this bank has done everything in its power to co-operate with the United States government in all its financial activities.

THE FIGHTING FOURTH

Has your boy or your neighbor's boy gone to France? Have you done your whole duty in buying bonds?

This is the greatest loan any government in the world has ever raised. America was discovered on October 12. Donley county wants to celebrate that day by raising our full quota by that date.

Hit this loan with your full strength while our boys are hitting the German lines. That's their part of the fight; this is ours.

DONLEY COUNTY EXECUTIVE COMMITTEE,
Fourth Liberty Loan.

Long Years Of Dependability

Our long years of good service in the Insurance business is proof enough for the careful man, who wishes to entrust his affairs to the hands of those who know every angle of the Insurance business. Let us have your business and relieve your mind of any cares in the matter of protection.

A Texas Boy Gave His Life For You Today

He will never see his mother, his wife, his children or his sweetheart again. The longer the war lasts, the greater will be the number of these tragedies. Money will shorten the war and save the lives of millions.

This means your money! Lend it to your government in the

WHY THAT LAME BACK?

That morning laziness—those sharp pains when bending or lifting, make work a burden and rest impossible. Don't be handicapped by a bad back—look to your kidneys. You will make no mistake by following this Amarillo resident's example.

Mrs. J. W. Walter, 505 Monroe street, Amarillo, Texas, says: "I had occasion to use a kidney medicine about five years ago and as I had heard so much about Doan's Kidney Pills, I got some. They proved very satisfactory and I gladly advise anyone troubled by a weak and lame back or any disorder of the kidneys to take Doan's Kidney Pills." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Walter had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

A "TRIUMPH"

The champions of government ownership claim the new national mileage books to have been "impossible under private owned railroads," and they assert that their appearance is a proof that government control of the railroads is a tremendous success. Of course there is an absolute failure to omit reference to the fact that there has been a steady upward curve in railroad charges for freight and passenger service from 30 to 40 per cent. When the railroads were operated under private control their managers agreed to meet every requirement of the government and the public if given an advance of about 15 per cent. It is yet too early to predict the success or failure of government controlled railways.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
TO THE SHERIFF OR ANY CONSTABLE OF DONLEY COUNTY,
GREETINGS:—

You are hereby commanded to summon by causing a copy hereof to be published as the law directs in some newspaper in Donley county Thomas C. Carter to be and appear before the honorable district court in and for said county at the court house in Clarendon on the 13th day of January, 1919, the same being the second Monday in said month, then and there to answer the petition of Helen Carter filed in said court on the 7th day of October, 1918, and being numbered on the docket No. 1015.

Plaintiff sues for divorce upon grounds of six years' abandonment, alleges lawful marriage at Memphis, Texas, July, 1912, and permanent desertion immediately thereafter and asks for divorce and restoration of her maiden name "Allen" and for general relief.

Herein fail not, but have you this writ with your return thereon written before said court at the next term thereof showing how you have executed the same.

Given under my hand and seal of said court in office in Clarendon, Texas, this 7th day of October, 1918.

J. J. ALEXANDER,
Clerk of said court.

NO TRESPASSING.

The public is hereby notified to keep out of the Bugbee pastures under lease to Benson and Singleton, as hunters, trappers, fishermen, picnickers wood haulers and others will be prosecuted according to law.

ITEMS FROM OVER THE PANHANDLE

Samuel Hilburn came in from Hurley, N. M., last Friday and visited until Saturday with his parents, Rev. and Mrs. T. B. Hilburn, when he left for Dallas to enter the Southern Methodist University for military training.—Panhandle Herald.

Rev. R. V. Tooley of Vernon, formerly of Henrietta, has been directed to report to Camp Travis for a course of training in Y. M. C. A. work preparatory to going to France. He will leave for Camp Travis in about two weeks.—Henrietta Independent.

It is stated that a test oil well will be put down in a short time, where Carson, Potter and Hutchinson counties corner. There is considerable interest manifested by oil men in the outcome of the well and authorities state that there are strong indications for oil in that community.—Panhandle Herald.

Lieutenant Leverett and wife came in from El Paso the first of the week to visit Henry Baldwin and wife, parents of Mrs. Leverett. Lieutenant Leverett has just been notified of his promotion from regimental supply sergeant in the 15th ammunition train to second lieutenant of the quartermaster corps for coast duty and notified to report at Newport News, Va. He left for that place Thursday morning. Mrs. Leverett will remain with her parents for a time.—Hall County Herald.

The wells of the oil mill may now be seen from town. The new building is higher than the old one and will provide for considerably more room. In fact, the equipment will be superior all the way around and Manager R. L. George states that we will have the best oil mill in west Texas. C. E. Pratt is here from Dallas installing the Corliss engine, and is accompanied by his wife. They were at the Liberty Loan rally Sunday afternoon and subscribed for \$100 worth of bonds.—Baylor County Banner.

Waples-Platter Grocery Co., have taken a lease on the Norwood building on Noel street, recently vacated by the Ford garage, and are having it put in shape to move into right away. This is a splendid home for a jobbing house for it has a floor space 50x140 feet, cement floor and no posts of any kind. As a result it will give them a maximum of floor space. They were fortunate to secure such a favorable location. They carry a large stock here and this will give them a fine place to do a splendid and satisfactory business. Let us say in this connection that this city now has three very large and well equipped wholesale grocery firms. No city between Wichita Falls and Amarillo has more.—Hall County Herald.

Grandpa Christie Weckesser took dinner in the country September 27, with his son, Boots, and family, celebrated his 95th birthday. Grandpa Weckesser is 95 years young. He walks to town, about a half mile and plays around with the boys until you would not think him half so old. He is the oldest man in our county, so far as we are able to learn, by possibly 10 or 15 years.—Miami Chief.

FIRE DESTROYED RESIDENCE LAST SATURDAY AFTERNOON

A three-room residence some three blocks northwest of the depot caught fire and burned down Thursday afternoon. The house was unoccupied and it is said belonged to J. S. Driskill. The fire truck made a quick run to the fire, but the alarm was not given soon enough for the boys to save the building. The fire boys request all who are not members of the department to stay off the truck, as they are in the way, and by persons being on the truck who had no business there caused G. D. Lee to suffer a badly bruised knee.—Wellington Leader.

PRAIRIE FIRE

Fire was set out in the north river valley on the Parsell ranch yesterday afternoon which did considerable damage. Owing to the shortage of men several cars went out from town. There was about one section of grass destroyed and one stack of oats belonging to Mr. Hill.

The starter of this fire first did his work in the Canadian valley and then went northwest, setting out another blaze. Whoever this gentleman is he ought to be in the front line trenches of the war over the sea.—Canadian Record.

AUTO ACCIDENT

Leon Bagwell happened to the misfortune of turning over his car on the return trip from Amarillo Saturday night. He ran into a horse which caused the trouble. Two young ladies were in the car with him. One of the ladies was thrown clear of the car, while the other and Mr. Bagwell were pinned beneath the car. Mr. Bagwell managed to raise the car high enough to release the young lady after which he extricated himself. All received only minor injuries. They started for a nearby farm house and were overtaken by Dee Wilson who brought them to town. On returning to his car the next day Mr. Bagwell found that three casings had been stolen during the night, this necessitating an expenditure of \$70 for new

casings.—Claude News.

THE FAIR A SUCCESS

Notwithstanding everybody is busy with other things, the Trans-Canadian fair has proven a success and is very gratifying to the management. The exhibits are probably not as large as usual, but make up in quality for any shortage in quantity.

The agricultural caps anything seen here in recent years. No better specimens of farm products have ever been shown at Dalhart fair, and the management appreciates the interest that has been taken by farmers, the more because of the time taken from harvesting their crops to make this showing.

The ladies' department, the poultry show and the live stock exhibits have all been greatly admired as have also the races each day.—Dalhart Texan.

DESERTER ARRESTED

Lawrence Forrest, who was drafted into army service from Wheeler last September and stationed at Camp Travis, deserted in June and his whereabouts were unknown until a few days ago when he was located east of Wheeler near the Oklahoma line. Sheriff M. L. Gunter in company with Tobe and Harry Frye went over Sunday and arrested him and took him to Fort Sill, Okla., and turned him over to the proper authorities.

A \$50 reward was offered for Forrest's arrest which Mr. Gunter claimed.—Wheeler Sun.

IT PAYS TO RAISE REGISTERED STOCK

J. W. Johnson of the noted Peach Grove stock farm was in the city Tuesday and was a pleasant caller at this office. Mr. Johnson says it pays to raise registered cattle. He has just returned from Fort Worth where he shipped a car load of undesirable cows and a few feeder steers and one or two year-old show steers. This steer weighed 1140 and topped the market at 15c, bringing \$171.00. There were two cows in the bunch that weighed 1220 pounds each, bringing \$128.00. The feeder steers brought as high as \$8.50. It doesn't cost any more to raise registered cattle than scrubs, first cost is all. Mr. Johnson states the packers are always glad to pay premiums on good cattle.—Childress Index.

CONFERENCE POSTPONED

Annual conference of the Northwest Texas Conference will be held in Lubbock the week of November 6. This is a week later than was originally fixed. Bishop Cannon will preside. Presiding Elder M. Phelan is glad of the postponement, because it will enable the preachers to more nearly round out their work and get in collections.

Rev. Phelan believes that the Vernon district will come up with its finances equally as well as last year, despite the continuation of extremely dry weather.

During the past week Rev. M. M. Beavers of Chillicothe, Rev. C. O. Davis of Childress Mission, and Rev. M. H. Hudson of Tolbert have been in Vernon consulting with the presiding elder about their work.—Vernon Record.

CANYON POST OFFICE WAS ROBBED SATURDAY NIGHT

The post office in this city was entered Saturday night, probably between 10 o'clock Saturday night and daylight Sunday morning and \$1,750.28 in War Savings Stamps taken. The safe was not entered and the stamps were taken from an unlocked cabinet, so we understand.

The entrance to the post office is never locked and it seems that the wicker fence in the section which is being added at an opening near the ceiling which had not been closed by workmen, and so no obstacles were encountered in securing the stamps. No arrests have yet been made and little evidence has been found which would lead to an arrest.—Randall County News.

FOURTEEN ORPHANS TO HOME AT GOODNIGHT

Dr. R. C. Buckner, president and general manager of Buckner Orphans' Home at Dallas, arrived at Goodnight last Thursday with 14 orphan children and a matron to establish the nucleus of the Panhandle department of the Buckner Orphans' home on property recently deeded to the home by the board of trustees of Goodnight Baptist college. The property of the Panhandle department consists of 140 acres of land on which is located three buildings with a water and light plant.

The opening of this department will provide for the ever increasing demands made on Buckner Orphans' home. There are at the present time 700 children in the home with a property valuation of \$800,000. The property at Goodnight is valued at \$50,000, the building being sufficiently large to accommodate 200 children. This home will be operated as a fully equipped home to serve this part of the state and also the southwest.

Property acquired for the Panhandle Orphans' home was formerly Goodnight Baptist college. It was deeded to the Buckner home after the board of trustees raised \$5,000 to clear it of debt. The trustees are prompted with a desire to have a department of charity and educational work of the Buckner home located at Goodnight.—Claude News.

TIME WILL NOT BE CHANGED BACK TILL SUNDAY, OCT. 27

The time of the United States will not be changed back to the old schedule until Sunday, at 2 a. m., October 27, according to the provisions of the daylight saving bill passed by congress last spring.

There seems to have been much variance of opinion lately as to when the old time will be resumed and a number of different dates have been published in different newspapers. Reference to the files of the date the president signed the new bills shows that the clocks of the country were

to be set forward one hour the last Saturday in March and to be turned back the last Saturday in October. This means the new time will be observed for another month.

On going to bed Saturday night, October 26, time-pieces should be turned back one hour, as the old time goes into effect at 2 a. m.

The Round Oak Square Base Heater Burns Cheapest Fuel— Prevents Clinkers

The powerful improved Round Oak hot blast converts that 38 per cent. of carbon in the smoke into heat units, which are directly radiated into the room. Ordinarily it goes up the chimney. This saving of 38 per cent. in fuel is very important; but when, on account of other and quite as interesting features, the Round Oak saves an additional 12 per cent., it instantly commands your favorable consideration.

Come and see the stove itself. See that absolute control is built into the stove, not simply assured. Discover why the patent cone center grate and double fire pot prevent clinkers, with cheapest fuel. Examine the extra-heavy cold-rolled boiler iron body. See the doorframes riveted on—gas tight for life. Ask the weight. When you see it, you'll know why it's the best buy.

General Pershing's soldiers get enough to eat, enough to wear, and a few dollars to spend for necessities.

In return they are ready to give all that the MASTER gave.

Your quota in the FOURTH LIBERTY LOAN is everything above what you need for bare necessities for yourself and your family or dependents.

Remember the boys in khaki give ALL! Many of them are blotted out of existence in one horrible red flash.

Your dollars can save many American boys by helping to shorten the war.

THE FOURTH LIBERTY LOAN

FOR STRONG, BRAVE MEN ONLY

If you are a mother or a wife, please do not read this. There is no crisis stern enough to justify the narrowing of women's souls. This article is addressed to American men, in the confident belief that it will accomplish the end for which it has been prepared.

HAVE you ever seen an old, sad-faced woman sitting by the roadside, holding out palsied hands for pennies with which to buy scraps of food?

Have you ever thought that she is somebody's mother? That she once held a sweet baby to her breast, and the world looked like heaven to her?

Have you ever thought of the years she spent taking care of that baby, and of her other babies, guarding them, denying herself, giving of her strength and comfort that they might grow into strong, capable men and women?

This is the History of Millions of Mothers.

Not all of whom sit by the roadside with palsied hands, but millions of whom sit with palsied hearts and unspeakably sad eyes, by fireplaces, on vine-veiled verandas, or in darkened rooms, waiting for God to take them home to the realm where the pangs of memory will no longer torture them. These women think of the babies they bore, babies that grew to maturity, and who are now no more on this earth.

In the years to come after this war there will be millions of such mothers—mothers whose sons have gone down to death in the full promise of youthful manhood. It is terrible to picture the desolation of these mothers—a desolation that will be theirs long after many of us have forgotten the horrors of this war.

But though millions of such mothers have already begun the long wait by the side of the unfeeling road, other millions can be saved from like fate.

The United States of America—YOUR COUNTRY—has gone into the war. It has gone in to stop the horrible slaughter of mothers' sons, and to bring an end to the tragic multiplication of human woe.

The manner in which the United States has taken hold means but one thing—the termination of the war as quickly as possible. For every day the war is shortened thousands of

Mothers Will be Spared Years of Agony.

In order that victory and peace may be realized in the shortest possible time it is the eternal duty of every one of us to help to the fullest extent of our capabilities.

The Fourth Liberty Loan presents an opportunity for such help. It gives each one of us a chance to do something definite to bring quick victory and save millions of women from sitting by the side of the road with palsied hands and pitiful eyes.

What is your life worth to you if you remain indifferent to such an opportunity for preventing human misery? Doubtless, if called, you would gladly go over the top and willingly die with a bullet through your heart. Yes, you would do that—and yet, so strange is human nature that millions of men who would willingly give their lives, hold back and hem and haw with their conscience when it comes to giving, or lending, their dollars.

What are dollars? The only use that dollars can be put to is to make this world a better place in which we all can live. Dollars can never weigh in the same scale with human hearts and souls.

One Mother Sitting by the Side of the Road

with palsied hands cannot buy back her dead children with all the dollars on earth. But a few of your dollars loaned to your Government now, can, by shortening the war, buy thousands of children's lives, and preserve them to comfort the old age of thousands of women who are now young and hopeful.

Powder and bullets to slay the Hun are in your purse. The merciful end for the Hun is a quick end. The merciful salvation of humanity demands the death of the thing that slays. It is within your power to hasten that slaying and thus save millions of human lives.

Will you do it?

DON'T BE FOOLED

Some thousands of people are being fooled today by oil and other stock peddlers selling stock which has not the approval of the Capital Issues Committee.

Frequently these people offer to accept Liberty Bonds in exchange for their pieces of worthless paper.

To exchange pledges of citizenship for a false promise of a fortune is the depth of foolishness and lack of patriotism.

When one of these "something for nothing men" comes to you tell him that if his stock is as good as he claims he would not have to peddle it from door to door.

If the oil stock peddler tells you that you are helping the country by buying his stock, because you are aiding in the production of oil, tell him that the big Oil Companies can be relied upon to keep up the country's oil supply while the war lasts—after that the small investor may be justified in entering the field.

Let there be no mistake—oil is being found and worked in Texas, BUT NOT BY THE FAKE COMPANIES THAT WANT LIBERTY BONDS IN EXCHANGE FOR THEIR SCRAPS OF PAPER.

The next time they try the confidence trick on you show the fellow this message. Keep a copy by you.

"I NEED THE MONEY IN MY BUSINESS"

Have you ever said this as you considered a Liberty Bond purchase? You can buy bonds and use the money in your business as well. Liberty Bonds are the finest collateral security in the world.

Buy the Bonds, borrow on them and finance your business with the loan you obtain from the bank.

If it costs you anything—this is the price you pay for being an American citizen. It is worth it.

AN INTERESTING LETTER FROM A SOLDIER BOY

Marion F. Foote, son of our high school principal, writes as follows:

The censor has loosened up a bit, so we can now tell where we are. If you have a detail map of England, you can even find the exact spot where our camp is located. As long as I am non-military, I can talk about anything I choose.

First, I should like to tell you about a little base-ball trip I took last Saturday and Sunday, along with 14 other fellows from camp. We left camp at 5:30 a. m. Saturday and had breakfast in Birmingham. We remained here only a short time, soon reaching Stratford-upon-Avon, where we were received by the town council and the town people quite royally.

The first place we visited, of course, was the old home of Shakespeare. Then we went to the old Trinity church where he is buried and where he is reputed to have attended church. From the church we went to the Memorial theatre where the great paintings of Shakespeare's great poems are hung. Afterwards we played our game of ball, had tea, as they say in England, and went for a boat ride on the Avon. We slept that night in the finest hotel in town, and on the morrow proceeded on our journey.

Next day we arrived at Levington Spa, or Springs, a favorite watering place in the midlands. Here we were met by a great crowd of people and sumptuously fed and much photographed. Indeed we could go nowhere without having a couple of movie machines cranking away at us, during the whole of the trip.

After lunch in the Pump at Levington, presided over by the mayor and his wife, we went on to Warwickshire and Warwick castle. I can't take time to tell you of the wonderful pieces of armor and furniture and pictures we saw there. But I believe most every king and queen from the time of Cromwell, at least, had some token of remembrance there. We had tea in the castle, which castle was also quite a show.

From Warwick we went to Kenilworth, made famous by Scott in his novel of that name. It is only an old ruin now, but there is still a certain air of distinction about it that sets it apart from the ordinary ruins of the past. A bit of the old king maker's spirit still haunts its smoldering turrets and towers. I was in Queen Elizabeth's drawing room which is immediately adjacent to Lord Leicester's room and connected to his by a doorway and passage. The tower of John of Gaunt was pointed out to us and the Grotto where the child in Scott's Tale was imprisoned. We only had a few minutes there, so we went on to Coventry.

Here we were received by the largest crowd we had yet seen on our trip. There must have been two miles of street jammed to the curb with people and a narrow passage that opened and closed as we marched down the street through the crowd. I doubt if the king himself could have received a more enthusiastic welcome than the little band of Sammies as they marched through the streets of that historic city. People crowded about us to shake our hands and every one shouted and cheered. We gave them a few choice Yankee yells and war whoops from time to time which must have reminded the shades of those illustrious departed, of tournaments, triumphs and shouts of victorious armies returning home from war. We received a rousing welcome to which we responded in true Yankee style.

After an address from the Earl and suitable responses from our company we piled onto the trucks and made for camp again. We reached that haven of rest at 3 a. m. Monday after having lost our way six times. We fell out of our trucks more asleep than awake and tumbled into our bunks. The next thing we knew the bugle was sounding reveille.

FACTS ABOUT GERMANY

The German empire, better known as the German vampire, embraces 208,830 square miles, but not a single meal. It comprises four kingdoms, six grand duchies and 3,876,531 grand goosesteps. In outline and inclination it is highly irregular. On the east it hounds Lenin. On the north it is bounded by the Allied fleets and on the west by General Foch.

The principal waterways of Germany are the Rhine and the Kiel canal. The high C's now under its control are confined to the opera house. The Kiel canal is used for exercise by the bottled ships on pleasant Sundays. The seaboard, greatly restricted, like all other kinds of board, is known as the high cost of living. The country is not entirely level. It has, in the interior, a large table land, entirely empty. There are also deep depressions on all parts of the nation.

Berlin, the capital, was established in the 13th century on the Spree river. It has not yet been recovered. The inhabitants are divided into two main classes—junkers and junked. The present fooler is Kaiser Billious II. His principal occupation is looking for a place in the sun. There is something warmer than that in store for him. It sounds something like Heligoland. The crown prince is the barley apparent. The national motto is "Spurlos versenkt."—Brooklyn Eagle.

There is nothing as useful to a soldier as a Radiolite wrist watch. Come see our line. Goldston, the Jeweler.

FROM A FORMER CLARENDON BOY

The following letter was written by Robert T. Williams to his sister, Mrs. Beulah Berkley of this place: Training Co. 5, Camp Johnson, Fla.

Dear Sister,

I will drop you a line today. Just received your letter and sure was glad to hear from you all and to know you was getting along O. K. I am getting along just fine and dandy only I would like to see you all and have a nice little chat with you. I had a letter from brother Fate some time ago. I have written him but haven't heard from him yet. I sure hope he gets along well.

I got the picture all O. K. I also got a letter from sister Pearl. She wrote me a long letter and I answered it the same day I got it. I guess I will hear from her again in a few days. I sure enjoyed your letter. Was awfully glad to hear from you. I like the army fine and I will be glad when I go to France. For I want to get this war over with so I can come back to dear old Texas, but duty will set me free some sweet day after awhile. I want to be one of the boys that gets the kaiser, the boys that didn't go to the army will be called slackers after the war is over and I am glad I am here for I don't want to be a slacker for I love the good old U. S. A. and I am willing to die for old glory. I am not a bit afraid at getting killed, but if I never come back any more and lay in the battle field of France I will die fighting for Old Glory, but I hope I will come back all O. K.

We have all kinds of amusements here. We have lots of shows of all kinds. The girls come out from town and put on plays for the soldier boys and we sure enjoy them. We have lots of picture shows and we get on a steam ship and go way out on the ocean on Sunday and be gone all day and have a nice time and we are right on the Atlantic ocean. We see steam boats come every day, but I will take here for I don't want to be a slacker other land far away on the battle fields of France, but I will still remember my two little sisters that live in the land of the free, and I hope you all stay alive until I come back and see each other again. I think lots of my people. I am willing to fight and die for them any day. Well, I had a birthday today. I was 26 and got a letter from you and Floyd, too, and I think that was a good present. I would rather have those two letters than anything else for I sure like to get a letter from any of you all, they cheer me up and make me feel better; so Beulah, you write to me often. Well, I will close, so answer real soon.

With lots of love to all,
Your loving brother,
ROBERT T. WILLIAMS,

WHAT ARE YOU GOING TO SAY TO THESE BOYS

The 300 of them who have left Donley county. These boys you know, these boys who left your own town, your neighbor's home, maybe, to fight in 'blood and dirt that you might be secure?

What are you going to say to them? And what are you going to say to their mothers and fathers, your friends and neighbors, who have given flesh of their flesh and bone of their bone to stand between you and the German fiends that threaten you? What are you going to say to them?

When the boys heard the call, "Your country needs you," they did not begin to argue about crop or trade conditions; not one of them said, "I can't afford to go." They gave up home, loved ones, income, and wages and went into hard training, braved submarines, lived in the trenches, and when the time came they went against those Germans and overcame themselves with a glory that has added a new lustre to the American name and flag.

They did not do it complainingly, grudgingly, as though they were doing someone a favor. No! They went with a smile, they marched with a song on their lips, they bled with a grin, and some—God rest their souls—died like heroes.

Friends and neighbors! Can't you see that we have to support these boys of Donley county, these boys of OURS, even if we have to starve ourselves to do it? Argument about this Liberty Loan business is out of the question. Our every sense of decency alone compels us to lend to the uttermost dollar.

For us to talk about our dollars as though they were sacred, when the boys of Donley county are giving their flesh and blood, is impossible.

We are to be pitied that we can do so little—let us at least do that little gladly.

Let us lend as the boys of Donley county have given.

THEY'RE WEARING THEM STILL HIGHER IN PARIS

George Foster, of Columbus, O., now on the western battle front, was fortunate enough not long ago to draw a 48-hours' leave for Paris. When he rejoined his outfit the boys crowded around him and deluged him with questions about Paris.

"Well, boys," said George, "I can only say that in Paris they wear 'em higher than they do in Hawaii."

NOTICE—Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will be gladly corrected upon its being brought to the attention of the publisher.

If you have bought a bond in the Fourth Campaign you are entitled to wear a bond owner's button. If you haven't one you had better get it, for it is rumored that it will be very uncomfortable for a person without one in the vicinity of Clarendon on and from Saturday, Liberty Day.

The great war cannot last many more months and then every body in Donley county who has subscribed and worked for the Liberty Loans, the W. S. S., the Red Cross, the Y. M. C. A., and every other war activity will feel the supreme satisfaction of having done their patriotic duty well. May the Fourth Loan be the "Victory Loan."

Every precaution should be taken to prevent the starting and spread of Spanish influenza. The Red Cross has issued some very lucid directions as to how to avoid and control this epidemic, which The News is reproducing in this issue. Let every one read the warning and give careful attention to the protection of the community.

Like the cowardly bully, Germany begins to squeal as the Allied armies approach her borders. It was a fine game so long as Germany held her own, but as the day of retribution arrives, the German yellow-streak shows up and they would love to have peace. The best answer to their whines is another and stronger blow directed by General Foch.

The daily press carried the account of the death of Don Martin, war correspondent for the New York Herald, who died in Paris, France on Monday, October 7. Don Martin was one of the best loved and most vivid writers representing the American press in the western front and his loss will be keenly felt there at home. Martin was born and raised at Silver Creek, N. Y., which is also the home of Mrs. R. Deane Shure of this city, who knew him well.

The soldiers of the Allied armies, whatever their nationality or color, deprecate any sort of peace talk and demand that the war be a fight to a finish. That's the stuff. President Wilson's letter would have more nearly expressed the sentiment of America if his reply to the Hun peace offer would have consisted of only four words—"We demand unconditional surrender." Nothing but force can make its meaning clear to the blockheads of Germany.

Gertrude Lustig, former head nurse at Camp Bowie, was arrested a short time ago for her pro-German sentiments and her complicity with men suspected of being spies. She may be proven a spy, as she is now known to be a German sympathizer. Since these developments it may be possible that the loss of so many pneumonia and meningitis victims at Camp Bowie last winter might be traced to her "intelligent carelessness." Do you know your neighbor?

Those who have traveled back east say the people are much more demonstrative in their patriotic singing and displaying of colors, than we of the southwest, but they freely admit that the people of this section do more real, honest-to-goodness war work and make more sacrifices than do our eastern brothers. Which leads us to say that we are in favor of the bunch who deliver the goods rather than those who make a noise and do less. The record of the people of the southwest will go down in history as a monument to patriots, whose fame time can never dim.

After the close of the great world war, politics in America will take on a very complex phase. The returning officers and soldiers will at once be brought into the forefront of politics and business and few candidates will be able to win over Capt. or Col. So-and-So. Old politicians who have controlled their territory in the old days will see the new order of things and try to select some promising officer to use as a cat-paw, in attempting to continue his control. Every campaign will be rich, rare and racy and those who delight in the great American game will have to sit up nights if they hope to keep pace in the giddy whirl of politicians, captains, majors and soldiers.

From a few of our contemporaries there has been some very untimely criticism of those manly democrats who had convictions and the nerve to stay by them in refusing to be ordered by this man or that man to vote for national woman suffrage. Now, let's look at that thing a moment. If this is a democratic form of government what we claim it to be, then these men are wholly within their right to oppose any measure they think obnoxious. If this is a truly representative form of government then the president nor any other man has the power to override any duly accredited representative's convictions, nor can he be condemned for being unwilling to be led by the nose. If a measure must become a law just because the president favors it, then there is no need for a senate or house and the ten million dollars a year paid senators and congressmen is a wanton waste. No, those men acted with all the more integrity because pressure was brought to bear upon them, and are to be congratulated upon their stand against anything resembling what we are fighting against in Europe. In monarchies man may be condemned to death for failure to act the puppet as directed by higher powers, but not in America. Further, the president overstated the matter when he said that woman suffrage was a war measure and necessary to its conclusion. The absurdity of that statement must be apparent to any balanced mind and many of the great democratic newspapers, who might be termed in favor of the measure have disavowed their belief in such a statement. To hear some people talk one would imagine that this war is the first war in which women ever made sacrifices and that there is some sort of bargain whereby certain political lemons must be handed them for their good work in the war. It's all tommy-rot. History has never given full credit to the immense sacrifice and suffering of the women of Seventy-Six and the Sixties. They toiled and suffered, uncomplaining and to such a degree that women of this later and physically weaker day would find impossible. The work done then was done for the pure love of country and home. Today, when we see so much political conniving and bargaining, there is ample reason to ask whether or not all the work done by a certain set of women is real patriotism, or something entirely foreign. This implied reflection does not in the least degree extend to those hundreds of thousands of modest, home-loving women, who are doing so much for the Red Cross, the Y. W. C. A. and every other war activity, but there should be fairness in all things. No man should be criticised for voting to clear the senate calendar of petty petulency, which is serving the purpose of German agents in clogging up the machinery and wasting the time needed for vital legislation for the support and continuation of the war.

EDITOR MEETS FIRST CLARENDON AGENT

Altogether by chance, the editor of The Clarendon News met the first ticket agent Clarendon ever had when the Denver road was built in here along about 1886 or 1887. While riding over from Dallas to Fort Worth on the interurban the editor engaged an elderly gentleman in conversation and found him to be John F. Lehane, better known in railroad circles as "Jack" Lehane. Mr. Lehane was with the Denver road in its early days of building and as fast as the road would be completed into another town he would check in a new agent and hike to the next point to open the new station. He remembers many of the old timers of this section and remembered especially Dr. J. D. Stocking, and expressed great regret at hearing of his recent and untimely death. Mr. Lehane bought a corner lot near the depot and paid \$500 for it, selling it a year later for \$1,000 profit, receiving in part payment a check for \$100 signed by Sam Lazarus, a great figure in Denver finance at that time. Mr. Lehane says the big trees at the depot were transplanted from the old depot at his instigation and he was mightily pleased to know they were still in rugged vigor. He was succeeded here by Mat Wells as agent and says on the first plot of the town-site there was a street somewhere in southeast Clarendon named "Lehane street" in his memory.

Mr. Lehane is now general freight and passenger agent of the Cotton Belt with his headquarters at Palestine, and is one of the most popular railroad men in Texas. His family lives in Fort Worth and he says all the household still retain pleasant memories of the Panhandle and consider Clarendon as an especially lovely site for a beautiful little city that she is.

The committee in publishing the above list feel that they are only rendering justice to those who have subscribed and it is possible that after the completed list is published next week that another list—a slacker list—will be published of those who refused to buy bonds, when in the judgment of the committee they were able to do so. The News hopes the committee will furnish a list of subscribers to the other issues as well so that it can be seen just how strong every body is behind the war. Talk don't fully satisfy the people. They would like to see the full figures.

SPANISH INFLUENZA PRECAUTIONS

1. Keep in mind that, like most contagious diseases, influenza is spread by contact; that is, by the transfer of the poison from one person to another. It is spread by sneezing, coughing and spitting, at which times the discharges from the nose and throat are scattered in the air.
2. Avoid crowds as much as possible, including moving picture places, theatres and other assembly halls. When feasible, avoid crowded street cars.
3. When sneezing or coughing, place your handkerchief before your nose or mouth.
4. Make sure that you are properly clothed, in accordance with the varying changes in temperature prevalent at this time of the year.
5. Fresh air is always good. Keep your bedroom windows wide open, and secure as much sleep as possible.
6. Keep the digestive organs in good condition.
7. Drink water freely.
8. Avoid common drinking cups, common towels and similar utensils.
9. Wash your hands frequently.
10. Use a mild antiseptic as a nose spray or as a mouth gargle, especially if your throat is sore or there is tendency to sneezing.
11. If you have a "cold" use utensils for your personal use exclusively, or if in contact with one so affected, be careful not to handle utensils used by them.
12. Consult family physician at first onset of symptoms suggestive of influenza.
13. Spread this information as much as possible in newspapers, moving picture shows, school houses, churches, etc.

HAWAIIANS COMING

Miss Marquis of the Lyric theatre has secured the celebrated Hockwald and Pughe troupe of Hawaiians, for two concerts in Clarendon, beginning Wednesday, October 16. This company has never before appeared in this city, and it is said by all critics to be the best Hawaiian act in existence. The soloists are especially fine, and an added attraction is that furnished by Princess Kalani, who will give the interpretative dances of her native isles at each performance.

SPECIAL TEACHERS EXAMINATION

Ex-officio County Superintendent J. H. O'Neill has received notice of a special examination for teachers to be held in Clarendon on Friday and Saturday, October 18 and 19. Those desiring to take the examination will take notice of the dates and be on hand at the proper time.

"Pershing's Boys Aren't Limiting Their Output"

That was said recently in a speech to shipbuilders; it's so much to the point and hits the nail so squarely on the head that it ought to be said to everyone in the country. It gives one a lot to think about—particularly at the crisis of this Fourth Liberty Loan.

Are you going to limit your purchase of Liberty Bonds? You may buy several thousand dollars more than your neighbor; that isn't the point.

Unless you've bought every penny's worth you can afford, unless you've made sacrifices to do it, you're "limiting your output" and you're not living up to those fine, clean-cut, courageous men who are giving their lives to make this country safe for you.

Try to make yourself worthy of their sacrifices; you won't be called on to give your lives, but you are called on to give your heart, soul and money to the cause; and you can do it in the same big spirit as Pershing's boys; nobody can do more.

The Home of Good Clothes for Men and Boys

TEXAS WILL STAND BY HER OWN FLESH AND BLOOD

(By Governor W. P. Hobby)

Approximately 200,000 men have gone from Texas into the various branches of the United States Army and Navy.

These men must be fed and clothed and supplied with the necessary equipment for carrying forward to a successful culmination the task to which they have dedicated themselves their lives and fortunes.

The work of maintaining an army of 200,000 men is a stupendous task, and the cost is in proportion.

As an individual, as private, non-commissioned or commissioned officer, the American soldier costs approximately annually per capita, \$2,000. Of this amount \$430 goes for sustenance; \$280 for personal equipment; \$650 service; \$480 goes for pay (general average); \$80 housing, cantonment, etc.; \$120 for transportation here and abroad.

Of this computation of \$2,000 it will cost Texas \$400,000,000 annually to maintain her army of 200,000 men, not including guns and ammunition. Nothing less is expected of Texas.

In his report to the house appropriations committee, General March said there are now about 3,200,000 men under arms. Sixteen per cent of this number came from the Lone Star state. To the everlasting glory of a big state that does big things, it can be said that Texas did her duty by her country in giving her man power to this big cause for which our country went to war. And her task of meeting the gigantic cost of feeding, clothing and maintaining this huge representation of the greatest commonwealth in the greatest country in the world will be accomplished with the same spirit of readiness with which she raised and sent into training and across the seas her army of

200,000 men, and with which she all big situations.

The message sent back to this country by the boys who are now in the thick of the fight is this: "We can do your fighting to a victorious finish, if the folks back there are willing to 'stand the gaff.'"

Texas is going to "stand the gaff." She has never admitted defeat. Conditions in the western section of the state have been deplorable by reason of an unprecedented drought. The answer to an appeal for relief of the drought sufferers was spontaneous throughout the state. And just as Texas arose to a situation that demanded the immediate financial assistance to citizens within the confines of the state, so will she lend the necessary backing for those boys, 200,000 strong, who have uncomplainingly, cheerfully, and with a smile on their lips shouldered the responsibility of this war, which is your war and my war, as well as theirs.

I appeal to the patriotism and to the honor of Texans. Do your part by these boys who are fighting for you, "Stand the gaff," and back them up to your last dollar, in order that they may soon return to us, having fought a good fight, to a victorious end.

Mrs. M. L. Kelly of Memphis spent last Friday with her daughter, Mrs. F. E. Chamberlain. Little Miss Mary Joe Chamberlain returned to Memphis with her grandmother for a week's visit.

If your eyes trouble you come to see us; we guarantee satisfaction or refund your money. Goldston The Jeweler.

ANSWER THE KAISER

And You'll Have a Part in Conquering the Hun

The kaiser's press agents are telling the people of Germany that America's Fourth Liberty Loan will be a failure. It's up to every individual American to show the Germans that the kaiser is wrong, as usual.

Pretty nearly two million boys in Uncle Sam's uniforms are driving home to the kaiser the fact that his press agents made a poor guess as to how much America would count in this war.

The least we can do to help those boys, if we aren't able to fight side by side with them, is to lend the money that will provide them with plenty of weapons and plenty of food.

Provide the Sinews of War for Them.

Compared with the sacrifice the boys over there are making, the government isn't asking much of us at home.

Our sacrifice when we buy a Liberty Bond, is a temporary one—and we'll directly benefit from it as we always do when we save money and put it out at interest.

VAN ZANDT URGES THE FOURTH LOAN

If the latest peace offensive were allowed to affect the volume of subscriptions to the Liberty Loan it might well be regarded as a German victory. Staggering and blind with blood the German monster is commencing to whine. Surely now is the time to stand solidly behind our government, ready for any eventuality.

RED CROSS CONSERVATION ORDER NO 4

Collection of Tin and Platinum

"The war industries requests that the Red Cross collect platinum and tin because in both of these materials which are essential to the industries of the country, there is a shortage.

The campaign will begin at once and continue until the sources of supply in our community is exhausted. The money these articles bring will be added to the chapter funds—but although considerable financial benefit will accrue to the Red Cross chapter from this source this is not primarily the object of the Red Cross.

The primary object is simply to conserve and render available materials needed by the government and the industries of the country. That is the real reason why the Red Cross has set up a bureau of conservation in response to the request of the war industries board. It is a means of winning the war just as conservation of food has been a means of winning the war—although, of course, the appeal in the case of these materials is not so dramatic as in the case of food.

In general terms it may be stated that tin is one of the most essential metals at the present time. Not only would it be impossible to operate a steamer on the ocean, or to build a railroad car, if we did not have tin—but it may be said that the entire industries of the United States are dependent upon tin in some form or another.

The war industries board has made a careful estimate of the requirements for tin in the immediate future.

After allowing for the development of new sources of supplies and for effecting all possible economies in the use of the metal, and without allowing for anything which may occur to cut down the world's available supply, the war industries board finds a deficit of some 5,000 tons in the amount required to meet our needs.

There are three sources for collection of tin. First: Foil of every kind; tobacco foil, cigarette foil, chewing gum foil, chocolate foil and foil used by florists, are some of the varieties. Every kind is worth collecting.

Second: Collapsible tubes. These are tooth paste, shaving cream, salve, paints, etc. Every kind of collapsible tube is worth collecting as every kind contains a sufficient proportion of tin to be of value.

Third: Pewter articles. A very large percentage of tin is found in pewter articles of every kind, so the collection of pewter articles is very important.

Do Not Collect Tin Cans
Tin cans, so called, contain a small

percentage of tin and because of this and the difficulty of obtaining materials for detinning, are not worth collecting.

Platinum

The supply of platinum in this country is short. The shortage is not yet critical, but may become so in the near future. The exact facts are, that there is sufficient platinum on hand to carry the government through the next several months, but there is not a reserve stock accumulating.

The war industries board state that it is vitally important; indeed a matter of real necessity, that the stock of platinum be built up for the future.

Donations of jewelry in any form in which platinum appears are asked for, such as pins, brooches, rings, mesh bags, cigarette cases, watches, watch chains, purses, vanity cases, cigar cutters, lavallieres, sleeve buttons, chains, studs, key rings, key chains, etc.

Platinum is needed by the government and by the war industries of the country for many vital purposes. Among its industrial uses are the making of contact points for magnets, to be used in tractors, trucks, automobiles, motorcycles and gas engines. The making of contact points for telephone and telegraph systems and wireless plants; x-ray tubes, hypodermic needles, chemical apparatus for laboratories and research work, and scientific instruments.

By way of example, one ounce of platinum will make points for magnets to operate 150 trucks or tractors.

Platinum jewelry is not the sort of thing that all Red Cross members possess, therefore the appeal for platinum must be largely personal.

The Red Cross wishes to make clear to Red Cross members who donate platinum that they are performing double service.

It helps bring into the hands of the government a needed material which money cannot buy in the open market. It helps vitally.

It is a contribution to the Red Cross.

Goldston's Jewelry store will be the place where platinum will be brought by those who desire to donate to the government.

DON'T MISS "MISSING" AT THE PASTIME

We beg to call your attention to the forthcoming presentation at our theatre next Thursday, matinee and night of the superb photoplay, "Missing," a picturization of Mrs. Humphrey Ward's famous novel, produced for Paramount release under the supervision of J. Stuart Blackton, the "master of scenecraft," whose recent picturizations of Sir Gilbert Parker's novels have achieved enduring fame.

This is indeed a master production from every standpoint. The story deals with the fortunes of a British army officer and his bride. He is reported missing, but subsequently regains the British lines, his mind and body wrecked by shock and mental suffering, and ultimately is restored to health when his wife sings a pathetic love song which they had often sung together during their courting days.

That this picture will add to J. Stuart Blackton's fame as a producer of the highest attainments, cannot be doubted. We respectfully urge upon you the necessity of coming early if you desire good seats.

Yours sincerely,
H. MULKY, Manager.

STREET SONG FEST SUCCESS

It has been demonstrated without the remotest reflection of a doubt, that Clarendon enjoys a "Sing-Song." Those who attended on Friday night (and there were more than 1,000 of them) were vociferous in their approval of this method of keeping up the spirit of those of us who are not in France. They sang, and it was especially noticeable that the children in the front ranks, knew, and found a delight in singing the grand old and spirited new songs of America and her Allies.

The next one will occur on Saturday night, the twelfth. This is Liberty Day, as well as Columbus Day, and it will be a fitting close to the successful completion of the Liberty Loan in Donley county. Everybody out. Celebrate, sing, find pleasure in a form of diversion which is altogether satisfying, and inspiring.

The screen will be in better position, a piano will be on hand, and the "Sing," will begin promptly at 8:30, continuing for 30 minutes only, but crowding into that brief space of time, the most spirited singing that has ever been heard in all of the Panhandle. Don't be ahead in this sort of thing any more, which is just another evidence that our county knows nothing about that word "lag."

Much credit is due Mr. Mulkey for his hearty co-operation, and in fact, every one who had anything to do with the affair, worked untiringly,

Music and Your Child

Next to love, good music is the most ennobling influence of the human race. Its effect upon children, its development of their character, the refinement and culture it brings is far more important than many parents realize.

No child is too young to feel its effects. From the cradle to maturity, and particularly through the period of adolescence the youth of our nation never should be without the constant home influence of good music.

It should be to them an essential part of home-life; it should express to them the best that their home represents.

There is only one instrument that RE-CREATES music—that truly is every other instrument in one. It is

CONSERVATORY NOTES

The annual faculty recital will take place on next Monday night at 8:00.

Miss Hohn, the teacher of expression has not been heard in Clarendon before, and a great treat is in store for those who attend. A "Sing-Song," will be held, and the words thrown on the screen. A patriotic number will be used between each offering of the faculty. Mrs. M. B. Adams will sing "The Americans Come," by Fay Foster, and Mr. Shure will play one of his new compositions entitled "French Bells," a splendid imitation of the chimes of that beautiful country. Miss Loeffler will feature the Mendelssohn Concerto in E Minor, for violin. Miss Loeffler has given Clarendon more of the larger works for her instrument than anyone who has ever been in the city. Several concertos each year are contributed to the music loving public, and numberless smaller works. Indeed, her repertoire seems to be well nigh inexhaustible.

The French Band will appear in Fort Worth some time during January, and the French Orchestra, from the Paris Conservatory, will be heard there about the last week in October.

Monday night, the 21st, will occur the first students recital. Another "Sing," will be given, in fact, the evening will be one of these "mood-builders" on every program given at the college this year. All of the necessary equipment is on hand including the lantern, which belongs to Prof. Condron and the slides, as well as the screen. So, why not have a "Sing" every time the folks gather in the auditorium? Certainly, they are inspiring, and help keep up the morale of the folks at home.

Work is progressing nicely on the pageant, and tableaux, which is to be given in the auditorium on the night of October 27. The flags are being made by the young ladies of the two literary societies. There are 28 of them, and all of the nations that are allied with us in the war will be represented. A huge street parade will precede the affair, and will take place at 4 o'clock, forming at the Hotel Denver, and proceeding up Main street. The names of the committees will appear in the Clarendon News, together with the cast of characters, which will include more than 100. The children of the primary department of the college under the direction of Miss Vaughn, will represent Belgium, and the children of the public school, under the direction of Miss Houk will represent America. Only the best of the war posters will be included in the tableaux, and the characters selected to portray them will be selected with the utmost care. A large attendance from out of town is expected, and altogether, this will be one of the gala days in Clarendon's history.

Always your pal, S. T. B.

P. S.—Don't ever let anybody tell you this mule skinner's job is a non-combatant job, Henry. It's everything but that.

SOME LETTER FROM FRANCE

France, July 19, 1918

Hello Henry:

Well Henry, guess you are in the big fight and are still alive. If you are you'll get this letter all right. That rumpus the other day was the beginning of the big fracas sure enough.

But I guess the Germans are kind of sorry they started it, Henry. I am about five kilometers nearer Germany than I was and from the looks of things, Henry, I'll be about 10 more by morning on account of keeping the supplies up to the boys.

But I got a lot of things to tell about, Henry. I always maintained being kind to animals was alright and I still do, but that old Hard-boiled sure did fool me, Henry. He wasn't no common mule though. He was a boche jackass if there ever was one. He's clean across the Rhine and in Germany by this time if he didn't meet a two-ton shell on the road somewhere.

Here's what happened, Henry. Yesterday morning they told me I could hook up and take the chow up to the boys. So along about 5 p. m. I started out with the chow and 2 K. P.'s.

Well, to make the story short, Henry, we got up to where we could see the smoke quite away off and stopped as the K. P. said he would find an M. P. to show us the way through. Pretty soon, Henry, a little shell about the size of a barracks bag came along and hit about 50 feet behind us and, Bingo! We was off to the races, Henry. I kept pulling on the strings and hollering at old Hardboiled but I might as well have talked to the moon or something.

Well, Henry, we had one little grand chariot race for about a mile straight ahead. The only difference was, I guess, is the chariots don't spill out K. P.'s and don't splash stew all over the river. And they don't ever pass machine guns popping like hell and waves of dough boys chasing Germans.

It wouldn't be right to tell all that happened, Henry. We went right across one trench and came so near running over a dough boy colonel that I guess he's got shell shock, maybe. Anyway he was shocked with some kind of shock, I'll bet.

We run over a machine gun that was popping faster than I could count—that is it was until we run over it. There were about 15 Germans in a ditch a little ways on but I didn't see much of them. I guess they thought we'd sprung some kind of a new tank on them the way they beat it.

About the next thing I remember, Henry, we hit another ditch and right there's where I quit old Hardboiled forever and I did not feel I'd lost anything either. The wagon tipped over and the last I saw of it them two crazy jackasses were dragging it to the Rhine. All the chow that didn't slip out on the way over spilled out there on top of me.

Well, Henry, I laid there about an hour kind of stunned and while I was there I bet there was 1,000 boches passed me headed towards Germany. Ordinarily, Henry, they would have stopped and plugged me or run a cotto through me but they didn't have no time for that for pretty soon there was a wave of American doughboys went by after them with their shirt sleeves rolled up and who kept telling the Germans to come back and fight a man's fight and I guess that was one of their main reasons for running.

Well, I felt like fighting some myself by that time, Henry, after having all that stew all over me and everything and besides I was damned mad at Hardboiled. So I copped another fellow's gun who was one of the unlucky ones and away we went.

Well, Henry, it all wound up by me getting a bullet in the leg. I had a nice long ride on one of them ready made cots that you make with two guns and a couple of blouses. I am in the hospital now, Henry.

I know damned well I'll get hell when I get back to that mule skinner's outfit but I'm worrying about as much as if a rich uncle had died or something. I got a boche and the fun I had was worth a dozen mules, especially one like Hardboiled. Write me too, sweet Henry.

Always your pal,

S. T. B.

P. S.—Don't ever let anybody tell you this mule skinner's job is a non-combatant job, Henry. It's everything but that.

Announcement

To My Friends and the Public Generally

I take pleasure in informing all my friends in Donley County and the Panhandle, and all that may be interested, that I have opened a real estate office in the H. B. White building, up stairs, and have also moved the County Treasurers office to the same place until the expiration of my term of office. I do not need to tell you that any and all business that you will give me will be fairly, promptly and honestly attended to.

If you have any land, houses or lots to sell or trade come to me, and we will do business.

CHRISTMAS GIFTS FOR OUR BOYS IN PRISON

The American Red Cross has made it possible for families of American prisoners of war to send special Christmas parcels to them. Following are the regulations for forwarding such parcels:

Packages must not weigh more than 11 pounds and may be sent addressed to the prisoner at the camp where he is confined, as follows: (Private) John Smith (1st Infantry,) American Prisoner of War, Kriegsgefangenenlager, (Name of Camp,) (Name of Province,) Germany (or Austria.)

This parcel should have an outer wrapping addressed as follows: Warehouse, Atlantic Division, American Red Cross 20 East 15th Street, New York City, N. Y.

In the upper left hand corner should be written the name and address of the sender, together with the words, "Christmas package for American Prisoner of War."

These packages must be sent by express or parcel post, prepaid, to arrive before October 15, 1918. They must contain any of the following articles: Belts (not made of leather,) brushes (hair, hand, tooth, shaving and shoe,) buttons, candy (hard,) cigars, cigarettes, comb, crackers or biscuits, knives (pocket,) needles and thread, pencils, pens, penholders, pins, pipes, safety razors and blades, shaving soap, powder or cream, scarfs, shirts, shoe laces (not made of leather,) smoking or chewing tobacco, soap (toilet,) socks, underwear, sweaters, tooth powder (paste or liquid mouth wash,) towels, personal photographs, periodicals published prior to beginning of the war, fruit cake, plum pudding, candied fruit, chocolate, cocoa, chewing gum, dried fruit, desiccated potatoes, cereals such as puffed rice, grape nuts, etc.; fruit tablets, such as lemon or lime drops, etc., knitted helmets, felt slippers, mouth organs and insect powder.

Upon receipt in New York, packages will be forwarded free of charge to the sender, to the American Red Cross commissioner at Berne, Switzerland, and from there distributed to the prisoners.

Only one package may be sent to each prisoner and preference will be given to packages sent by the family of the prisoner. Others desiring to send packages should first consult the family. As the postal regulations permit the sending of but one package a month the families taking advantage of this offer will necessarily omit any package which they intended sending in the month of December, but, of course, are not restricted from sending a package in any other month. It will also be permitted to enclose a simple card of Christmas greeting, or a message such as, "We are all well at home."

In addition to gifts from the family, the American Red Cross has arranged to present each American prisoner with a box of cigars as a Christmas present from the Red Cross.

INTERESTING ITEMS FROM OVER THE PANHANDLE

(Continued from Page 2)

Carter himself seriously injured at 9:30 Monday morning when their automobile was struck by a Fort Worth and Denver freight engine at the Brushby Mound crossing between Bellevue and Bowie.

Lieutenant McCarter was taken to Wichita Falls on the tender of the locomotive and taken first to the Wichita general hospital and later to the hospital at Call Field. He was unconscious most of the way between Bellevue and Wichita Falls, but was conscious on arriving there. He said he did not see the locomotive until it was upon the car.

The body of Mrs. McCarter was taken immediately after the accident to the home of her aunt, Mrs. C. D. Shamburger at Wichita Falls, and later to Vernon.

Lieutenant and Mrs. McCarter were returning from Decatur where they had spent Sunday with Mr. McCarter's relatives. They left Decatur about 6 o'clock.

"For several miles before reaching the crossing the automobile had run just ahead of us," said Mr. Sides, engineer of the train which hit the automobile. "It looked like the car had tried to cross in front of the train. The engine hit the back part of the automobile and knocked it 20 or 30 feet into the ditch. When I got back to the crossing other members of the crew had Lieutenant McCarter sitting up and the body of Mrs. McCarter was lying on a pile of rock about six or eight feet from the car, which was badly wrecked. It seems impossible to me that they did not hear the train."

Lieutenant and Mrs. McCarter were married only a few months ago, Mrs. McCarter was a daughter of Mr. and Mrs. Cecil Story of Vernon.

Lieutenant McCarter has been stationed at Call Field about six months, coming from Fort Sill. He was in charge of the target range at the field. His home is at Decatur.

Lieutenant McCarter apparently sustained no broken bones, but some injury to his back was giving him great pain on his arrival here. It was feared that he had suffered internal injuries.—Henrietta Independent.

BY THE SIDE OF THE ROAD

A party of motorists on the Fort Worth road was recently delayed by a string of nondescript wagons, drawn by broken down, hungry-looking horses and mules. Some of the horses had little colts trotting beside them. In the wagons there were sad-looking men, women and children. Some of the children were babies in arms. Nearly all of the wagons were covered with canvas drawn over barrel-like frames. They resembled the old-fashioned prairie schooner.

"Oh, these eternal gypsies," exclaimed one of the young women in the automobile, "Why don't they keep them off the road?"

"They're an infernal nuisance," agreed the man who was riding beside her. "If I had my way I'd put them all in jail!"

That night—a beautiful moonlight night—I drove along the same road, alone. I came upon one of the wagons by the side of the road. The horses were tethered nearby, eating the dry, dusty grass. The embers of a camp fire glowed under the tree. By the side of an improvised bed near the wagon a mother, with her three children, was kneeling and offering the evening prayer to God—the same God that you and I and the young man and the young woman have.

As I drove into the moonlight I reflected. These human beings by the side of the road were drouth victims from west Texas, wandering over the face of the earth for a new home. Good, hardworking Americans, they had met misfortune through no fault of their own. Yet an American girl and an American man, neither of whom had ever faced real misfortune, had declared them a "nuisance," had called them "gypsies," had said they "ought to be in jail."

Appearances, and lack of knowledge are wretched angles from which to judge others.—Lakeview Promoter.

LUTHERANS BUY BOND

The Lutherans of Clarendon showed their loyalty once more by pledging their wholehearted support to the government. On occasion of their quarterly congregational meeting they decided to buy a Liberty Bond of the Fourth Loan as congregation. The members pledged themselves individually to buy as many bonds as possible, and to practice all economy in their homes.

We have divine services regularly Sunday afternoons at 2 o'clock at the Presbyterian church. Everybody is cordially invited to come and worship with us.

J. H. KOLLMEYER, Lutheran Pastor.

We buy second-hand clothes, shoes, hats, furniture, stoves etc. Also repair your broken furniture. Do your upholstery and mattress work, at reasonable prices. Give us a trial. Phone 400. Williams & Hammer. One block west of First National Bank.

MAIL CARRIER HAS OVERCOME TROUBLE AFTER 3 YEARS

HOPES TO BRING SOME BENEFIT TO OTHERS WHO SUFFER—HE GAINED 25 POUNDS BY TAKING TANLAC.

"Yes, sir, it's a positive fact, I have gained twenty-five pounds in weight and have been benefitted so much that I think it is time for me to talk Tanlac for the benefit of others," said J. W. McBeth, postman for 11 years on Route 5, residing at 2428 Popular street, Oklahoma City, Okla.

"Three years ago I began to weaken from what was said to be impoverished blood and I continued to go down. My appetite was very poor and what I ate gave me no nourishment. I lost weight until I fell off some 30 pounds. I got so nervous and worried and down hearted that I couldn't eat, sleep or work on account of my condition. I was just about out of commission when I decided to try Tanlac.

"I began to build up in a short time after I started on my first bottle. My appetite returned in full force—I can now eat as hearty as anybody and feel stronger and better than I have since my troubles began. When I saw that Tanlac was doing me good, I kept on taking it until now I feel like a new man. I sleep as sound as a baby every night, make my 26-mile trip every day and never feel tired. I am so glad I have regained my health that I want to tell everybody about Tanlac."

Tanlac is sold in Clarendon by Stocking's Store; in Hedley by J. F. Tomlinson Drug Co.; and in Jericho by O. C. Brown.

ATTENDS UNITED WAR WORK MEETING AT DALLAS

Substituting for S. H. Condon, district executive of the Boy's Division of the United War Work Campaign to raise \$170,000,000 for the carrying on of the Y. M. C. A., Knights of Columbus, Jewish Welfare Board, Salvation Army, War Camp Community Service in the American Library Association, The News Editor went to Dallas Friday night to attend a meeting of the representatives from the various districts of Texas to lay plans and make a study of the campaign which begins November 11 and finishes the 18th.

About 50 men and women were present at the morning session held in the English room of the Adolphus hotel and before the work had been gone into very thoroughly everyone present was convinced of its immense importance and the great necessity for its conclusion. At the noon hour a splendid luncheon was given on the roof garden of the Adolphus annex and with little intermission the work of the day was again taken up and held the interests of the delegates until its close at 4:30 p. m. Under the very able and enthusiastic direction of Mr. Homer Hoisington the discussions were made very practical and very much to the point and except for local details nothing was left unexplained. Donley county's quota will be around \$10,000. S. M. Braswell will have direction of the campaign for the county with Miss Mamie McLean in charge of the activities of women as their leader. Donley county will do her part in this work just like she does her part in every call of the government in this great crisis.

CONTEMPORARIES COMPLIMENT THE CLARENDON NEWS

The Clarendon News has installed a new Model 14 Linotype machine, one of the best put out by the Linotype company and is quite a valuable addition to the equipment of the Clarendon News plant.—Lubbock Avian.

Our good friend, Mr. Sam M. Braswell, of the Clarendon News has just installed a model 14 Linotype in place of the old No. 1 he had. We congratulate The News most sincerely, it is the best equipped office west of Fort Worth; but above all do we congratulate the people of Clarendon.—Troy Enterprise.

The Clarendon News has installed the latest in a Linotype having discarded the old model machine. Editor Braswell is giving Clarendon and Donley county a good paper and the merchants are appreciating his efforts by patronizing the paper very wholesomely. It is a pity that the merchants of Lakeview can not realize the worth of The Promoter, for if they did it would be able to install one of these latest type setting machines. Wake up merchants, let the people know that you are in business and that you appreciate their trade by asking for it through the columns of The Promoter.—Lakeview Promoter.

T. J. Connor of the W. B. Sims place near Lelia Lake, brought in some samples of corn, maize, kaffir and cotton raised this year on that place. The products are very fine and show just how wonderful an agricultural exhibit Donley county could put out this year.

Ladies, come in and see our line of toilet articles. Kendall's Drug Store.

THE GIRLS' NATIONAL HONOR GUARD

The National Honor Guard met recently to formulate plans for the winter's work and to hear the financial report of the last six months.

As Miss Lila McClelland, captain, expects soon to go to France on Red Cross work in the hospitals, affairs have been put in charge of the three first lieutenants, Misses Myrtle Hauk, Elizabeth Dyer and Mrs. A. N. McCardell during her absence. The guard has been called on by the national headquarters offices to raise funds to help provide Christmas presents for our boys in hospitals over here. Another call has come, asking for a donation to be sent for the president, Miss Theodora Booth, to use in France when she goes over in the Y. M. C. A. canteen service soon for our boys over there. A recent letter urges the guards every where to assist in every way possible in this Fourth Liberty Loan drive.

If Only You Could Realize It All!

Two million men have whispered sacred words of parting to mother, wife and children.

Millions of hearts have ached, though a song was on the lips.

Two million men, wonderfully like yourself—with the same affections, the same love of life, and with just as much to lose as you have—are fighting, or are going over to struggle in mud and blood, that you may be secure.

Man! If you have a heart under your skin—and you have—haven't you?

Lend to support these men.

Lend until it breaks you.

Lend if you have to go short of bread.

If only you could realize it all.

It Wouldn't Be Necessary to Ask You to

Kansas City Stock Yards, Oct. 7—Cattle receipts today were 38,000 head, about the same number as last Monday, market steady, top around \$17.50. Hog supply was 16,000, market, 10c lower, top, \$19.00. Sheep run today was 15,000, market steady, western lambs, \$15.65, western ewes, \$9.50.

BEEF CATTLE—The steer market today is around 25 cents higher than a week ago. One drove of prime steers brought \$19.00 last week, otherwise few cattle brought more than \$16.50. Scarcely any long fed cattle are in the country at this time, and short fed corn and cake fed steers are selling at \$15.50 to \$17.00. Weighty grass steers, 1100 to 1300 pounds, bring \$13.00 to \$15.50; lighter steers \$9.50 to \$13.50, though some well bred western steers weighing 950 pounds are bringing up to \$14.25 under competition from feeder buyers. Colorado beef steers bring \$12.50 to \$14.00; a few head in the last week up to \$15.50. Cows are 25 cents to 50 cents higher than a week ago; grass cows including Colorados selling at \$8.00 to \$11.50; canner cows \$5.50 to \$6.50; veal calves culled at \$10 to \$12.50.

STOCKERS AND FEEDERS—Shipments out last week were 37,000 head, and more cattle went to Kansas, Nebraska and Colorado than heretofore. Prices are strong as compared with a week ago, except on plain and common stock steers which
