A Common Paper for Common People

## PEOPLE THANKFUL FOR VICTORY IN EUROPE

Victory in Europe came Tuesday May 8, and the people of Clarendon observed it as their President had asked, with quiet sincere thankfulness, without display of celebration.

The official announcement came Tuesday morning at 8 a. m. with President Truman's radio address. Clarendon business firms closed from three to four for a prayer service at the Methodist church and other than this, local men and women went about their work with the realization that this war is just one-half won, as victory will not come until the Japanese surrender unconditionally in the Pacific.

The signing of the unconditional surrender took place in a school house at Reims, France at 7:41 Clarendon time, Sunday.

Col. Gen. Gustaf Jodl, chief of staff of the German army, signed the surrender for that nation, with Lt. Gen. W. B. Smith, representing the United States.

We, as a people, are happy and grateful that the war in Europe is won, and that allied force, steel and determination have brought to his knees a ruthless, brutal aggressor who set the civilized world afire with the flame of war.

However, in this moment of triumph, let us not forget the price which has been paid in human suffering and destruction, and let us not forget that there is a greater price to be paid for final victory.

In reverence to those who have made the supreme sacrifice, let us re-dedicate our efforts to achieving a peace that will endure.

## BAND RATES FIRST DIVISION IN CONTEST FRIDAY AT CANYON

The local high school band was given a first division rating both in playing and in sight-reading Friday in the regional band contest held at Canyon in Class C, of which there were only two entries, Clarendon and Wellington. However, the number of bands to be judged under any one class—which is determined by the number of students enrolled in the high school from which the band comes—has no significance as to the rating any band will receive.

In other words, the contest was not competitive; the various bands were simply graded as to the quality of musicianship that it displayed. With this system, no one band would necessarily have to rate a first division, or on the other hand, all the bands in any one class might get a first division rating. Wellington, which had a larger band and better instrumentation than did the Clarendon band, received either a second or a third; we are not sure which.

The individual entries of solos and baton twirling also were very successful. Claude Hearn received a first division rating in Class I on a trombone solo. Melba Ruth Grady received a first in baton twirling; Klyda Fern Wilson received a second plus.

To sum it all up, the band was very successful and highly rewarded for the splendid work it has been doing under the direction of J. G. Stanley. He has worked very hard to reach this peak, but plans to even surpass this next year.

## Honor The Dead, Serve The Living

Motto of American Legion Auxiliary on Poppy Day

Once again on Poppy Day, May 26th, the members of the American Legion Auxiliary will dedicate their best efforts to the distribution of memorial poppies to the citizens of Clarendon, the Poppy Chairman announced today. It is one of the ways in which they pay tribute to and keep faith with those who died in the nation's service, saying as they fell:

"Take up our quarrel with the foe,  
To you from failing hands we throw  
The torch—be yours to hold it high."

The wearing of the poppy has become a silent pledge, renewed each year, that the people of America have not forgotten the responsibility they have been given by their fighting men of both wars. Many of these men have given their lives or their health for us, and it is with deep gratitude to them that we set aside a day on which to honor them and assure them that we remember our promise.

On Poppy Day the women of the Auxiliary will offer poppies to everyone in Clarendon. There is no fixed price for a poppy—whatever is given is welcome. The little boy's pennies and the business man's dollar are equally acceptable. It is hoped that every citizen will be wearing the crimson badge by nightfall of May 26.

Every cent that is given for a poppy goes toward the rehabilitation of disabled fighting men and to the aid of the children of the dead and disabled. These victims of war's disaster will be glad to see the poppies 'blooming' on laps again this year.

Do you know that in the spring of 1919—amidst complete devastation, the poppies bloomed in abundance on the battle fields of France, where so many of our men had fallen in battle, and that a replica of this poppy has become the memorial flower of the American Legion and the American Legion Auxiliary?

Mrs. Flora Best Boone of Littlefield and Mrs. Ovetra Buzbee of Electra were guests of Mrs. Eva Rhode Sunday and Monday nights.

## CLARENDON'S MEANEST & MOST UNPATRIOTIC PERSON

For several weeks the Clarendon band has been gathering waste paper for two reasons: to help the War Effort, and to get money to help buy their new uniforms. This paper was stacked in the football field.

The person who set this paper on fire Sunday night is the winner of the despicable title of Clarendon's meanest and most unpatriotic person.

A graduate of Lelia Lake High School in 1931, and West Texas State Teachers College in 1937, he was commissioned in February, 1943 and promoted to his present rank in May, 1944.

## RATIONING AT A GLANCE

Phoebe Ann Buntin

We have already announced that a general reduction in sugar rations has to be made because supplies have dropped, requirements for military and other war-time purposes remain high, and civilian consumption has been running ahead of allocations. As the war in Europe draws to a close, the need of sugar for the liberated areas becomes more acute.

World-wide developments now make it necessary for WFA to cut the allocation of sugar for the United States civilians by another 400,000 tons. This means bringing the total civilian allocation for 1945 down to 5,000,000 tons. Consequently OPA must tighten the rationing system to meet the allocation. In order to do this we have put certain specific changes into effect which could be made immediately. Sugar Stamp 36 which became valid May 1 will now be for four months rather than three. This stamp will be worth five pounds and an additional stamp will not be validated prior to September 1st. In terms of per capita consumption this means that civilians will be able to buy at the rate of about 15 pounds a year.

During 1944 Stamp No. 40 was valid for 5 pounds of home canning sugar. This year no such stamp was validated. A limit of 20 pounds per person and 160 pounds per family was set this year as the maximum which could be issued by the local boards. Under the new rationing changes the maximum which can be issued to each person is 15 pounds and per family 120 pounds.

Also sugar allotments for hotels, schools, restaurants and other institutional users are cut considerably and on July 1 when the net allotment for industrial users is made, they also may expect a reduction.

### Germans to Yield Ships, Aircraft

President Truman and Prime Minister Churchill Tuesday proclaimed complete victory in Europe. Hostilities formally ceased at 5:01 p. m. central war time, Tuesday, supreme headquarters announced.

Supreme Allied headquarters in a special communique said "Allied expeditionary forces have been ordered to cease offensive operations, but will maintain their present position until the surrender becomes effective."

Supreme headquarters announced the Germans agreed to: Order all resistance halted; Yield all ships and aircraft unscuttled and undamaged; Insure compliance with all further orders from the Allied supreme commander and the Soviet high command.

The surrender document specified that nothing it contained limited or restricted any terms which might later be imposed on the reich. "In the event of the German high command or any of the forces under their control failing to act in accordance with this act of surrender," it warned, "the supreme commander... and the Soviet high command will take such punitive or other action as they deem appropriate."

J. R. Porter, chairman for the 7th War Loan Drive, announced yesterday that Donley County's quota was \$320,000.00 which is \$10,000 more than the last drive on the over all quota and the E Bond Quota this time is \$145,000.00.

The 7th War Loan starts May 14th. The people of Donley County are taking on their biggest quota of E Bonds in comparison to any drive previous to the present one.

The battle of Europe has ended but the battle of Japan has just begun. It must be backed up, paid for, fought for by a free people, intent on sweeping the Pacific clear of fascist hate—forever.

The war to crush Japan will be bigger, tougher and longer than most Americans expect. The Allied military command has estimated that it will take years, not months.

And then, there are the sick, wounded and disabled that require medical attention and care. Many millions of dollars will be required for mustering out pay and benefits voted by Congress to help our veterans get started again in civilian life.

That's the least we can do in return for what they've done for us and what they will do in the future.

The 7th War Loan Drive starts Monday and that is the time for you to start in and buy all the bonds you can. Let's raise our quota before the drive gets started good and then we can proudly say that we have a little part of what they have done - - - only in a different way - - - a much easier way.

Cpl. William C. Parker of Clarendon is now completing his final stage training as a member of a B-29 crew at Pyote, Texas Army Air Field. Pyote is one of the four Superfortress training fields of the Second Air Force where individual crew members are trained to live and fly as a combat team.

LIBRARY NOTES

By Mrs. C. A. Burton

The Book Club gave us ten dollars this week — and that means more new books. We are continually indebted to the clubs.

Several of the priceless possessions of this country have recently been returned to the Library of Congress from the United States Bullion Depository at Fort Knox: the Constitution of the United States, the Declaration of Independence, the Magna Carta, the Gutenberg Bible, the Articles of Confederation, the Manuscripts of

the Gettysburg Address, and the Manuscript of Lincoln's Second Inaugural were guarded day and night during the period of their absence from Washington.

Plans are now taking shape for library service for the men who must necessarily remain in Europe for many months after the war is over. Many experienced women camp librarians are being, or will be, sent over. Librarians in the Army will be assigned to library work if possible. Hundreds of soldiers are expected to be especially trained as assistants. Books are now available in large numbers—in addition to the paper-bound books—and more are

being assembled and shipped. Requests for this expansion of library facilities and for a large educational program have come from the highest military authorities.

Through the Council on Books in wartime 140,000 copies of the 32 titles published each month are being sent to men overseas and to Army and Navy hospitals in the U. S.

The Rockefeller Foundation has appropriated \$25,000 to A.L.A. for use in sending three librarians to serve as consultants in the reorganization of the National Library at Rio De Janeiro, Brazil and for incidental visits elsewhere, and in bringing librarians and archivists to this country for library visits or to take courses in our universities. Senhor Rome Amarin, a good friend of libraries in the State of Sas Paulo, Brazil, has been visiting libraries and other cultural institutions as a guest of the Department of State. He remarked: "I am greatly impressed by the American libraries, chiefly those of small towns. I hope Brazil can follow the American example."

The Department of State has invited the National librarian at San Jose, Costa Rica, and the National librarian at Montevideo, Uruguay, to visit this country also. Dr. T. L. Yuan, director of

**IT'S ALL IN THE WAY YOU LOOK AT IT!**

MAYBE you won't thank us for reminding you of the H C of L. But it doesn't seem nearly so high when you look at it in the light of your electric bills!

Almost alone among household necessities, the price of electricity has not spiraled upward with war. In fact, official government figures\* show that the average price of electricity has actually dropped 3.2% since 1939!

That's especially good news now, but it continues a long-time trend. Electric prices have been coming down so steadily that the average American family gets about twice as much electricity for its money today as it did 15 years ago.

If your bill is no smaller, it's because you're using more electricity to do more jobs than you did then. But the saving is there.

It has been accomplished by America's light and power companies in spite of rising costs and taxes—on top of huge war demands for service that were met without delay, shortage or rationing.

It was done by efficiency and experience and sound business management—by the same American enterprise which built our nation and on which its future depends.

## BUSY WOMEN S.S. CLASS

The Busy Women S. S. Class met at the home of Mrs. A. L. Thornberry Friday in an all day meeting. Quilting was the work for the day. A lovely covered dish luncheon was served at the noon hour.

## SILVER TEA AT METHODIST CHURCH

The Wesleyan Guild sponsored an exhibit of war souvenirs and a silver tea at the Methodist Church Friday night from 7:00 to 10:00 p. m.

The room was decorated with flags from different nations and the souvenirs were displayed on seven long tables draped with red, white and blue. The exhibit included articles from Africa, Egypt, Italy, Germany, India, China, Japan, The Philippines and many of the islands where our service men have been fighting. The souvenirs ranged from the crude handiwork of the islanders to fragile carvings and modern weapons of warfare.

Piano music was played throughout the evening by Mrs. Simmons Powell, Mrs. O. W. Elliott and Mrs. Rayburn Smith. From a lace covered table, lovely with flowers and crystal, punch was served by Misses Ada Sue Smith, Betty Jean Brown, Dorothy Nell Kemp and Kathleen Grady to more than 100 guests. Plate favors were tiny American flags.

## FRIENDSHIP CLUB

Mrs. J. D. Stockings was hostess to the members of the Club Tuesday afternoon at her home. Mrs. Stocking presided in the absence of the President, Mrs. Lindsey.

The club opened with the Lords prayer—in unison. Mrs. Stocking read the scripture. After a short business meeting the ladies worked on the club quilt.

A lovely plate refreshment was served to Mesdames H. Tyree, J. W. Morrison, Van Eaton, Teal of Amarillo, L. Ballew, J. L. Allison and the hostess, Mrs. Stocking. The Club will meet May 22 at the home of Mrs. J. L. Allison.

## HOME ECONOMICS—MOTHERS LUNCHEON

The foods unit of the first year Homemaking girls was climaxed Friday when a luncheon was served to their mothers.

This unit consists of preparation and service of breakfast and luncheon. Before the foods are prepared in the laboratory a study is made of their value to the body, what foods are necessary to give a balanced diet, advantages of eating all foods rather than just the ones we like, and how we can care for and prepare them to retain more of their nutritious content.

When the study of all classes of foods has been completed an application of the unit is being able to combine all facts in one meal. This includes being a gracious hostess, good table manners, organization of work, marketing, correct preparation to conserve the protective foods, and finally to leave laboratory clean and orderly.

The luncheon was the first attempt this group had made in preparing food for guest, so naturally it was an experience to be remembered.

Each girl escorted her mother in the dining room, where the tables were laid with lace luncheon doilies and centered with vases of tulips. The menu consisted of meat balls, green beans, parsley, potatoes, buttered beets, peach pickles, pear cheese salad, strawberry short cake and ice tea.

Most of the food was canned in the department so very little expense was involved.

We regret that only fifteen mothers could be present for the luncheon.

## HOME ECONOMICS TEA

Thursday afternoon in the Home Economics Department a colorful May tea was given by the Homemaking girls and their sponsor, Miss Mauriee Berry. This occasion was honoring the eighth and ninth grade students and the faculty of Clarendon Schools.

The table was covered with an Irish lace cloth. In the center a large crystal bowl of colorful tulips nestled in multi-colored marbles gave a beautiful reflection in the mirror on which it was sitting. Two white tapers were burning on each of the tables which were balanced by two punch bowls with green mint and cherries frozen in ice floating on yellow punch.

Favors of assorted colored May baskets, dainty green and pink cookies, pyramid mints, pink, green and white lace doilies.

The white tapers and large clear vases of snowballs scattered thru the rooms added much to their attractiveness.

For the program, Margie Nell Crofford and Billie Hodnett furnished the music; Joveda Roberts and Gertrude Calcote gave readings.

The girls assisting with the tea and program added much charm to the occasion by wearing beautiful pastel formals.

Refreshments were served to one hundred twenty guests.

This is one of the various types of socials the Homemaking girls have each year.

## THE STORY OF MY LIFE

By Dick Kennedy

On July 14, 1931 about 9:00 o'clock Dr. Mark Stricklin came out of the house and announced to the neighbors, "It is a boy."

From then on my life has been very boring to me.

My sister was going to school and brought home all the diseases to me. She gave me the measles one day, and that gave me the asthma. I would have had it anyway because I inherited it. That and the pneumonia was all I had then.

My grandpa lived with us and I remember his sitting by me and reading "Peter Rabbit" to me. I would go down town with him. He would buy an all-day sucker

for me, and then I would listen to him talk to people.

He was mayor several years, and Dorothy Anne and I would go to the City Hall to see him a lot. There is an iron railing in the middle of the steps and we would slide down it. We were careful not to go too far up to start sliding down and not to go too fast.

My friends lived all around me. We were a sort of gang. The ones I played with most were Hardy Bourland and Joe Landreth.

When I got to be six years old, I started to school. I don't remember whether I liked it or not. All that I remember is that I had my picture taken. Mrs. Headrick was my first teacher.

Spelling then as now was my hardest subject. I remember that mother thought I never would learn to spell "it."

In March I took the scarlet fever. They took me to St. Anthony's Hospital and I stayed there a long time because I had to have a mastoid operation. My grandpa promised me a dog if I took my medicine well.

The dog I got was a rat terrier. I named him "Tippy Toto." Mother and he weren't very good friends. The laundry was in the wash house and he got in and tore up sheets and shirts and I

don't know what else. He ate chickens and one day he got out and never returned. That was my first tragedy.

The second was not long after that when my grandpa died. I had the pneumonia and did not get to go to the funeral. There were many people at our house for several days but I did not get to see all of them.

The next year I was in the third grade and, Mrs. Prewitt was my teacher. Miss Stevens was my second grade teacher. Nothing much happened that year or the next when Mrs. Hart was my fourth grade teacher.

There were twelve grades now and I got put up a grade. This was the year I took the rheumatic fever. I did not leave my bed the whole month of May and a few weeks more.

We took a trip that summer and went to Colorado. I got to go up Pike's Peak on a train. Three summers before I had gone to Carlsbad Cavern. It was the most beautiful cave I was ever in.

The next year I was in the seventh grade and the next year the eighth.

On July 16 I got another dog. He is a fox terrier, short haired type. I tried to think of a name for him, but finally I gave up and Dorothy named him "Bevo."

That next year I was in the ninth grade. I met a new boy from Virginia. His name is "Van James." He and I are the only ones in the ninth grade who have the same schedule and I guess that's how we got to knowing each other.

I am now taking lessons on the cornet, and I like it a lot. Before I got it, the picture show and Bevo were all the pleasure I got out of life. My bicycle has a flat all the time and the pump I have takes about thirty minutes to pump up a tire, and when I do get it pumped up, the doctor says I can't ride it on account of my heart. Sometimes I ride it anyway.

Well that's about all, but I hope to live to be one hundred years old.

## SOUTH WARD

Donald Wagley has transferred from Perryton to Clarendon. He entered here in the fifth grade.

Billy Ford has returned from Wichita Falls and started back to Clarendon school.

Miss McGowan is back in school after an absence due to her mother's death.

Mrs. Headrick's room has pot plants for each child to take home for his mother.

Hugh Mason and Wanda Leak won tickets for May in Penmanship.

## JUNIOR HIGH

Josephine Speir has returned to school after several days of illness.

Lloyd and Uil were absent Tuesday. We are sorry they were ill and unable to attend school.

Why do some three or four boys insist on staying at the foot of the spelling class? Want to be together, huh?

Where did Tommy Murphy get the name "Stinky"? We might guess.

Everybody has a "wolf license." Do you really need them?

**FRIENDLY THOUGHTS**  
By Womack Funeral Home

The creative ability of children should be developed. Craftsmanship is evidence of the spiritual side of man; it is the individual's attempt to express himself in terms of beauty as well as utility. Happy are the parents who realize that the capacity of their children to learn is the actual measure of budding intelligence.

If the call comes from a distant city we make the necessary arrangements, and you shall know each detail of the moderate cost, in advance.

**RED CROSS**  
**VOLUNTEER SERVICE**  
**HOME SERVICE**  
By Mrs. C. A. Burton

After all my "publicity" through these years, people still often say they do not know to whom to go for help in making various kinds of applications or for various kinds of information. The Red Cross is glad to help.

The Navy Relief Society was incorporated January 23, 1904, under the laws of the District of Columbia. But it is not a government agency. Its funds are raised by voluntary contributions, large-

ly from service personnel, except that the general public contributed in 1942.

A little more accurate information is being secured as to the distribution of prisoners of war and civilian internees still held in the Far East. It is thought these now total about 14,000 of which approximately 1,000 are civilians.

So rapidly are things happening that printed messages and instructions are out of date before they are read. Ages and length of service are coming in for much attention as the question of discharges looms large. Many plans are being formulated for the soldiers who must remain for long months in the European countries. Among them we find

plans for books. It is not probable that there will be the necessity of another big drive like the Victory Book Drive because the government has made so many plans for books.

This may not apply now, but a recent Navy order says no Member of Naval Marine Corps or Coast Guard forces on duty in any foreign country or possessions may marry without the approval of the senior commander of such forces stationed in that country, possessions or area. This does not apply to personnel who marry within the Continental United States including Alaska while on leave or otherwise.

# The Mountain that became a Gold Mine!

**Phillips 66**

**... and the company that has helped build 11,000,000 war-time tires**

This pile of discarded automobile tires (the picture was taken in 1936) is as non-existent today as the Big Rock Candy Mountains—where the cigarettes grew on trees and the springs gushed pure lemonade.

Maybe you remember driving past those junk yards where the homeless jalopies used to rust in the rain, and the pile of tires grew mountain-high.

And then, one day in December, 1941, *the mountain became a gold mine!*

In a few terrible moments, America's access to the raw rubber of the Indies was cut completely. Throughout America, junk yards, garages, and back yards were scoured for every scrap of precious rubber that could be found. We were on a spot—a bad one.

The fact that we got off the spot is due, to a great extent, to companies such as Phillips. For it was Phillips chemical research ability and Phillips production facilities that produced an important share of the vital butadiene which is so essential to the manufacture of synthetic rubber!

Today, we think we have a well-earned right to stick out our chests—because the Phillips Petroleum Company is one of the largest producers of butadiene in the United States!

With today's ever-increasing emphasis on the chemical production of new and better things from petroleum, let the Phillips 66 Shield remind you that Phillips refineries, in addition to producing gasolines, lubricants, and fuel oils... are also gigantic chemical plants pouring out weapons for victory.

**COMBAT POWDERY MILDEW**

Frequent spring rains in many parts of the state have increased damage from powdery mildew on roses and crapemyrtle.

For light cases, Mrs. Florence Low, acting specialist in landscape gardening, suggests using dusting sulphur once a week until the mildew disappears. She offers this warning, however, on the dusting of roses: "Use the sulphur sparingly during hot weather on account of possible leaf injury."

Severe cases should be sprayed with wettable sulphur. In making this solution, use two ounces of sulphur per gallon of water, the specialist advises. The roses should be sprayed thoroughly with this solution until all signs of mildew have disappeared.

Dusting once a week is advised since spores of the disease begin to germinate immediately after a rain, so the foliage should be covered often with a thin film of the dust to prevent germination. During the summer, dusting need not be so frequent.

Best preventive measures for the disease can be taken during the dormant season. The bushes should be pruned and stripped of diseased leaves, so that the disease won't spread to new shoots in the spring.

Mrs. Eva Draffin went with her mother, Mrs. W. B. Sims, to Dallas Saturday. Mrs. Sims will receive medical treatment and also visit her son Arthur Sims.

Rev. P. E. Yarbrough, pastor of the Methodist church at Memphis filled the pulpit at the local church in the absence of Rev. Hanks who held a meeting at Lakewood last week.

Mrs. O. D. Lowry and mother, Mrs. Calvin Jones of Childress attended a piano recital of her niece, Bettie Fay Blair at Amarillo Sunday.

Much benefit was derived in the day's work and by the examinations conducted by the Grand Examiner, many received their certificates of proficiency.

Members of the Eastern Star from more than twenty chapters over this district were in attendance through the day and evening sessions.

A lovely lunch at 12:00 and a dinner at 6:30 were served to the Grand Officers by the City Cafe.

At the evening session the following program was given:

Piano Solo—Mrs. Bettie Elliot. The Registration Committee Chairman, Mrs. Mobynd Andis, gave her report.

Mrs. Maggie Hunt, Chairman of the invitation committee, reported which was followed by the report of the Grand Examiner.

The Grand Officers made short talks and then the Worthy Grand Matron brought a most inspiring message to the members of the Order.

Mrs. Evadna Cox, in a few well chosen words, presented gifts to the Grand Officers.

The School was then closed by Mrs. Flora Best Boone, and each one present felt that the day was very successful in every way.

The following Grand Officers were present in the day's meetings: Mrs. Lillian Barnard, Worthy Grand Matron; Mrs. Alice Mae Stewart, Grand Examiner; Mrs. Flora Best Boone, District Deputy Grand Matron; Mrs. Anne Kennedy, Deputy Grand Matron of Section 5; Mrs. Puline Harvey, Deputy Grand Matron of Section 1; Mrs. Mavis Minter, Deputy
