4-H And F.F.A. Boys Fall Swine Show Set For September 28th

Representatives of the Donley County Stock Show Association and the Clarendon Chamber of Commerce met at the County agent's office Saturday, August 19th, and laid plans for the annual 4-H and F.F.A. boys' Fall Swine Show. The date for the show was set for September 28th, and C. L. Franz, Turkey, Texas, was selected to serve as judge of the show.

E. S. Ballew, W. B. Mayfield, Dee Lowry, Lee Bell, C. O. Reed, G. W. Estlack, R. E. Drennan, and J. R. Gillham were selected to serve as finance committee to arrange for the auction sale of the prize winning animals. Merchants and individuals will be asked to buy the top 30 to 40 animals in the group at a premium price. They in turn will sell the animals to the packer buyer at market price, and will pay the boys only the difference between the premium price bid and the market price the day of the show.

The Sears-Roebuck sponsored 4-H Club Poland China gilt show will be held in connection with the fat barrow show, and the top gilt of the show will compete in the district show to be held at Amarillo, September 29th.

LOCAL BALL CLUB TO PLAY CHILDRESS THIS SUNDAY

The local ball nine engaged the Amarillo Army Air Field on the local diamond here Sunday and emerged on the short end of a 10-4 score. The Amarillo boys were plenty tough and were out to win regardless.

This Sunday the local club journeys to Childress where they will tangle with the Childress Army Air Field boys. This game promises to be a good one and Clarendon and Donley County fans are planning to be on hand. The locals seem to be an unknown quantity, and you can't tell when they will flare up and beat the Sox off their opponent or take a good drubbing.

BRONCHO FOOTBALL SCHEDULE ANNOUNCED

The Broncos were lucky on the draw this year when the fall football schedule was arranged in such a manner that the games at home and away will alternate throughout the season.

The schedule will be as follows unless some team should drop out or forfeit.

- Sept. 22nd—Lakeview, here.
 - Sept. 29th—Lefors, there.
 - Oct. 6th—Wellington, here.
 - Oct. 13th—Phillips, there.
 - Oct. 20th—McLean, here.
 - Oct. 27th—Wheeler, there.
 - Nov. 3rd—Shamrock, here.
 - Nov. 10th—Memphis, there.
- Clip this schedule and keep it for further reference. Make your plans now to back the boys, both at home and away.

Mrs. Claude Lindsey To Be Supervisor Of Clarendon Canning Center

Mrs. Claude Lindsey, longtime resident of Donley County and a member of the Home Demonstration Club of this county for years, has been named supervisor of the Clarendon Canning Center, according to J. R. Gillham, local vocational agriculture instructor and supervisor of the canning program at Lelia Lake and Clarendon. The Clarendon Canning Center will continue to operate on Tuesday and Thursday of each week.

Mrs. J. C. Christal, who has been supervisor of the plant since its opening in June, will continue to operate the Lelia Lake Center on Monday, Wednesday and Friday, and on other days necessary to care for the needs of the community. She has served as supervisor of both of the plants during the summer months; however

PERFORMANCE REPORTS SHOULD BE BROUGHT TO AAA OFFICE

Reports on the extent of conservation practices carried out in 1944 should be brought in to the AAA office in Clarendon NOW. Those farmers who were not able to attend the local meetings which were held in most parts of the county and those in communities where no meeting was held should bring their information to Clarendon where the office force will be glad to take the reports. In many cases the entire job can be done in a few minutes, especially if each farmer will bring to the office the simple measurements as outlined in the letter that was mailed out some time ago. Where a single practice, for instance contour listing or contour farming, occupies an entire permanent field, no measurement is needed, since the acreages of permanent fields are already figured. Where only part of a field is occupied by a certain practice, measurements of length and width in chains, rods, yards, feet or rows will enable the clerk to make a rapid calculation of the acreage.

Next to the Applications for Payment, the report of performance is the most important part of the 1944 AAA Program.

All School Buses Limited To Use

With the scarcity of large size bus and truck tires becoming a greater transportation problem, N. F. Nelson, of Amarillo, district manager of the Highway Transport Department of the Office of Defense Transportation today called attention to operators of school buses to the limitations on use of such vehicles.

Some operators of school buses apparently have winked at the ODT regulation against their use to transport athletes or others to games or assemblies of various kinds. This regulation, it was pointed out, is even more important now than in the past as every effort must be made to conserve tires and other material and equipment to keep buses and all other motor transportation moving until those things again are available after victory.

Bus operators, in doubt about any proposed trip, are advised to get in touch with the ODT district office.

Mr. and Mrs. R. C. Bingham and Mrs. R. W. Bingham of Vernon met their son, Lt. JG R. W. Bingham at Amarillo Wednesday. R. W. is on leave from the South Pacific.

Second Primary Voting Expected To Be Light

Voting in the second primary (run-off) election to be held Saturday is expected to be very light in Donley county as a whole.

Voters in the east side of the county are expected to be out in full force to elect a county Commissioner for precinct No. 3. The candidates in that race are J. A. Toilett and Rollie Kelley.

The other candidates listed on the ballot are Grover Sellers and Jesse E. Martin for Attorney General and Richard Critz and Gordon Simpson for Associate Justice of Supreme Court.

Sellers and Critz are expected to receive the nod in their respective races as they were the leading candidates and needed only a few votes to give them a majority in the first primary.

Clarendon will hold only one box this time and it will be held at the Court House. Voters in all communities will go to their respective voting places as usual.

Although there is little to attract the voter to the polls, each man and woman should cast their vote for the candidate they want in office.

FARMERS CAN BUY MORE LUMBER

Farmers who buy lumber in Donley county now are entitled to buy small amounts of lumber for essential maintenance and repair of implements and farm service buildings by simply signing an application at the lumber yard, according to Mr. Simmons, Chairman of the Donley County A.C.A.

Any farmer who needs more than 300 board feet of lumber should apply to the County A.A.A. office at Clarendon for a certificate.

Mrs. J. D. Swift and daughter, Anna Moore attended the funeral of Mrs. Foster Mueller at Amarillo Monday afternoon.

Post-War Planning Committee Meets

On Monday night the Donley County Post-War Planning Committee met at the County Agent's Office in Clarendon.

The purpose of this committee is to assist returning veterans in every practical way to work out their post-war problems on individual basis for benefit of veteran and community.

The Committee is working on the basis that many of the returning veterans will be seeking jobs, change of occupation, many will be looking for their first civilian occupation, and there is the possibility that the County will have many new citizens that may want to make Donley County their home. For a program of this type to be practical and effective the cooperation of each individual, group and organization must be obtained. Individual interviews and assistance for veterans present problems of the individual and community from standpoint of psychology, finance, education, social, employment, housing, etc. Therefore your suggestions and ideas are requested.

The County Agent's office in Clarendon will serve as central office for information.

R. E. Drennan is chairman of the Committee. Other members of the committee are:

- Clarendon—G. G. Reeves, Mrs. Harold Bugbee, County Agent.
- Hedley—Clifford Johnson, Dr. D. H. Cox, Leon Reeves, O. F. Messer, E. M. Glass.
- Ashtola—Lu McClellan.
- Lelia Lake—Quin Aten.
- Alanreed—Marvin Hall.

Those present on Monday night were R. E. Drennan, G. G. Reeves, Quin Aten and County Agent Charles Reed.

RATIONING AT A GLANCE

By PEPPY BLOCKER

A graphic description of the difficult job the local War Price and Rationing Board has in rationing tires as a result of the critical tire situation now existing is contained in an article carried several days ago, by the Daily Ardmoreite at Ardmore, Oklahoma. It was titled "It's Not any Fun!"—and I'll bet it isn't either! The article follows—

"Suppose you had just \$148 to spend and that you owed \$753 and had to choose from the six different creditors the ones you proposed to pay the amount you had. . . . It wouldn't be easy, would it, to decide how to apportion out the small amount of money and hope to make any appreciable dent in the accumulating total? In fact, after you had paid out the \$148 you'd still owe \$605 and how can you pay \$605 when you don't have any more money and haven't any chance of getting any more, is a tough problem.

"Well, let's look at the tire panel of the Carter County Rationing Board—three hard-working, well-meaning citizens who get cussed, abused and accused of every crime in the category. And let's see if our humble little illustration has any application to their case.

"And after we have applied our illustration, let's be a little more fair-minded about our criticism. The tire panel met on its regularly scheduled meeting night last week. Piled upon the desk in front of the panel were the applications filed for tires and subject to action at this meeting. There were 753 applications. Keep that total in mind.

"Ninety of these applications came from the Ardmore Army air field; there were 103 from farmers and ranchers, 230 were filed by oil field workers; 36 were from taxicab companies; and the other 294 were miscellaneous—preachers, newspaper men (maybe), mechanics, salesmen—in fact, butchers, bakers and candlestick makers.

"O. K. We have 753 applications (See RATIONING, Page Eight)

CHURCH COUNCIL TO MEET NEXT WEDNESDAY

Members of all churches of Donley County are invited to take part in the Council Meeting next Wednesday, August 30th. This meeting will be held at the Presbyterian Church with Mrs. Millard Word, president, in charge of the program. Executive Board members are asked to convene promptly at 9:45 in order that the general meeting may begin at 10:00. Each member is asked to bring a covered dish and the meeting will be followed by a covered dish luncheon.

DAIRY PRODUCTION PAYMENTS

Payments for the cream or whole milk sold during the months of July and August will be made after September 1st. Payments for this period will be made at the rate of 6¢ per pound on butterfat and 45¢ per hundred weight on whole milk. Records of production and sales should be brought to the county AAA office as in the past.

Major Johnston Awarded Medal

NEW CASTLE ARMY AIR BASE, Wilmington, Del. Aug. 22—Major Henry R. Johnston of Albuquerque, N. M., son of Robert H. Johnston, Naylor Route, Clarendon, was awarded the Air Medal at a formal parade and review at New Castle Army Air Base, Wilmington, Del., recently.

Major Johnston, a member of the Second Ferrying Group since January 1942 and now commanding officer of the Sixth Transport Squadron here, received the medal for ferrying a P-38 over the South Atlantic ATC route in February, 1942. The P-38 flight, made in formation and led by a B-24, was the first ever attempted across the South Atlantic route.

Major Johnston attended West Texas State Teachers' College at Canyon, Texas, and the University of New Mexico. He was employed by the U. S. Forest Service and the National Youth Administration previous to his aviation cadet training at Luke Field in 1941.

The major has been with the 2nd Ferrying Group since December 1942 where he has been engaged in the ferrying of military aircraft and has served as Commanding Officer of both the 4th Ferrying Squadron and the 8th Transport Squadron.

INSTALLATION OF OFFICERS AT PRESBYTERIAN CHURCH

There will be a special Installation Service at the First Presbyterian Church, Sunday, August 27. The newly elected elders and deacons will be ordained and installed in the presence of the congregation. This is an important event in the offices of the Church and all friends of the Church are invited.

Sunday School will be at 9:45. The morning worship at 11:00 and the evening worship at 8:30.

BAPTIST REVIVAL TO BEGIN AT MARTIN THIS SUNDAY

The Martin Baptist Church will begin a revival this Sunday morning with Rev. Hal Upchurch, pastor of the Clarendon Baptist Church, doing the preaching. The revival will begin Sunday and run for one week.

Due to the hot weather, open-air services will be conducted unless inclement weather prevents. A cordial invitation is extended to everyone to attend these services throughout the week.

Clarendon Public Schools To Open Monday, Sept. 4th

PROTEIN FEEDS TO BE INCREASED

Details of a new program to increase the supply of protein pellets for winter feeding of cattle and sheep have been received by Mr. Simmons, Chairman of the Donley County A.C.A.

The new plan in effect calls for a bonus allocation of protein meal to mixed feed manufacturers who will use it during the July-September quarter to produce pellets containing at least 30% protein. Protein meal allocations by the War Food Administrator to mixed feed manufacturers are based upon previous production history.

The new program is expected to help materially in meeting growing demands of feeders for protein pellets and cubes, according to Mr. Simmons. Buying is usually heavy at this time of year as ranchers prepare to stock ranges before the winter closes in.

Dove Season To Open Sept. 1st

Hunters, who are the lucky possessors of shells, are reminded that the dove season will open here September 1st, and runs through October 25th. Shooting hours—one-half hour before sunrise to sunset. Bag limit—not more than 10 per day and not more than 10 in possession.

Doves are reported to be plentiful around old wheat fields and open country. Hunters are reminded to be careful and not shoot from any country road or highway.

SGT. LLOYD J. SKINNER KILLED IN FRANCE

Mrs. May Skinner received word this week from the War Department stating that her husband, S/Sgt. Lloyd J. Skinner was killed in France July 27th while in active battle. Only last week Mrs. Skinner had received word that her husband was missing. Sgt. Skinner was attached to the Infantry, 2nd division and had been in the service for four years.

Mrs. Skinner resides here in Clarendon with her mother, Mrs. N. A. Sims.

Approximately Thirty Boys Expected To Report For Football Training

Coach Loran (Slick) Naylor announced this week that approximately thirty boys were expected to report Friday morning September 1st, to usher in the first training for the fall football season. New suits have been ordered and should arrive in time to be issued on that date.

All eligible boys are requested to be on hand promptly at 9:30 in order to receive their suits and begin practice as two practice sessions will be held both Friday and Saturday. Regular practice will start Monday afternoon with just the one practice time each day.

Practically all of the boys who will report are either new or inexperienced, but according to their showing during the Spring training, promise quite a bit of fine material for the making of a good ball club.

Coach Naylor has very little to say regarding our winning possibilities this year except that the boys will bear watching. One point that he has brought out is the fact that there is enough material to have a very good team if the boys are willing to train and stay in training throughout the entire season.

In order to hold down injuries during practice sessions, new practice suits as well as new suits for regular games have been purchased. The College field is in fair shape and is ready for come what

may. The boys will have three full weeks to whip into shape and learn their plays before the first game with Lakeview on September 22nd.

The first game is to be played on the local field and will give the Broncos that much advantage in their starting game.

One of the strong points regarding a winning football team is the backing the boys get from their homefolks at home. Everyone, little, big, old and young should start making plans now to attend every game possible. If the players know you are backing them, they will try harder to win all their games if possible.

SHOES—Airplane stamps 1 and 2, good indefinitely.

The 1944-45 session of the Clarendon Public Schools and the Clarendon Junior College will open Monday, September 4th with a complete faculty this year, including a band director and an athletic coach.

The new members of the high school faculty are J. L. Naylor, athletic coach; T. Younger, band director and Mrs. Jo Ellen Hess, history and Spanish.

The faculty of the Junior High School is the same as last year, and in the South Ward there is one new member, Mrs. Mary Frances Toland, sixth grade.

The Board of Education has passed a ruling that all first grade students must have a birth certificate when they enroll. This ruling was made to prevent parents from sending their children to school while they were under age. Parents are reminded also, that all students in all schools must show a vaccination certificate or a scar showing that they have been vaccinated for smallpox.

All high school students must pay a dollar library fee when they enroll.

Any College student can talk with Dean R. E. Drennan and get all the particulars concerning the Junior College enrollment, costs, etc. He can easily show the student or his parents the many benefits of attending the Jr. College here at home. All subjects and credits here are accepted by larger Senior Colleges, and as a big saving, the student can get two full years here before going away to finish his college training.

First grade teachers have requested that we mention that all beginners should not bring any supplies until they have been told what they will need. In previous years the beginners have come to school with a number of items which they could not use, therefore spending money needlessly.

School officials hope to have a large beginners band this year, since we now have an instructor, and all pupils who are interested in this work should see the band director at the earliest possible time.

LIBRARY NOTES

By Mrs. C. A. Burton

The preview of forthcoming publications for fall is very, very attractive to book-lovers. There are many war stories, of course, but also many others. As well as war novels, there is a constant stream of war books dealing with every phase of the struggle, many of which will not have permanent value.

Publishing houses are having their troubles as well as other people—paper shortages, scarcity of skilled labor, transportation

difficulties, engraving problems, numerous last-minute changes in non-fiction due to rapidly changing conditions—all these are their "headaches." Despite all these, they are doing a wonderful job.

Nevil Shute will have a new book, "Pastoral," a September Book-of-the-Month selection. This R.A.F. officer won everybody with his "Pied Piper"—and we have several other of his stories on our shelves, all of which are good, and popular with our readers.

Margaret Halsey pleased everybody with her humorous "With Malice Toward Some," and she comes back with what she calls "A Kind of novel" in "Some of

My Best Friends Are Soldiers." Erskine Caldwell goes back to his "Tobacco Road" type of stories in his forthcoming "Tragic Ground," and Howard Spring whose "My Son, My Son" was a best seller, tells the story of a Clergyman's troubled romance in "Hard Facts."

November will bring Dr. A. J. Cronin's new novel, "The Green Years." A Cronin book is always anticipated with pleasure.

Other writers with whom our readers are quite familiar who will have books out this fall are Margaret Widdemer, Kathleen Norris, Ethel Hueston, Mazo de la Roche and Erle Stanley Gardner.

These are just some of the offerings in fiction—there isn't space just now to mention the non-fiction—of which there are many of unquestioned value, including some outstanding biographies.

Goofy, am I?

Go ahead—that's your privilege—thinking I'm just plain hipped on everlastingly keeping this engine's insides OIL-PLATED with Conoco Nth oil. Maybe there is and maybe there isn't sixty other ways that would have kept engine acids from raising Ned with this pre-Pearl Harbor limousine. But one thing I know is this: it's still running swell on nothing but Conoco Nth motor oil. You needn't be a scientist to know that acids from every explosion are forever trying to spoil an engine. Looks like the proper idea is to try blockading those acids by getting your engine OIL-PLATED. I learned there's a modern synthetic in Conoco Nth oil that reminds you of magnetism, because it makes inside surfaces attract a shield of OIL-PLATING. Acids can't so easily tear right into this. Then your OIL-PLATED engine has an extra chance to last you. When new cars arrive, hurrah! But a real advanced improvement right now is to switch to Conoco Nth motor oil, see.

Travel has a tendency to broaden one's mind, and to flatten the pocketbook.

WAR INGENUITY.
A lovely WAC came to a limpid pool surrounded by trees. She saw no one near and decided to 'pull off' and take a swim. As she came

out much refreshed, she was astonished to see a male lieutenant walking toward her. She grabbed her clothing and hurried behind a tree. Just then the lieutenant shouted: "Camouflage company dismissed!" and all of the trees walked away.

MODERNITE.
A paratrooper is a service man who climbs down a tree that he never climbed up.

ANIMATED.
There is nothing quite so busy as idle curiosity.

HALCYON DAYS.
An old timer recalls that men wore handle-bar mustaches and sauced their coffee, wore a watch as big as a full grown turnip which was fastened through a vest button hole with a log chain. He went to a barber shop twice a week for a dime shave and to read the Police Gazette and to look at the galaxy of racy pictures adorning the walls of the barber shop. In those days, as a picture gallery, the barber shop had only one competitor—the livery stable. Great days!!

Ability and Responsibility

WHEN a particularly tough and important job comes along, it usually lands in the lap of someone who is already doing a lot of other jobs well.

People like this—who are used to getting results—aren't too plentiful. They need to have both ability and a sense of responsibility. One alone won't do—for ability can sometimes be misdirected, and a sense of responsibility without ability can lead to troublesome meddling.

It's men with this combination of talents who have been carrying a heavy load on the home front these past few years. On the farm and in industry they've been meeting—and solving—the difficult wartime problems of production.

After the war is won, somebody must shoulder the equally big job of getting this nation back into peacetime production, of laying the groundwork for the better and more prosperous America we all want. This is a challenge, and an opportunity, for the producers of America—for the men and women who have a sense of responsibility and have shown their ability to get things done. Woody L. Spencer Writes Homelinks From Guam

EDITORS NOTE—The following letter was written by Cpl. Woody Spencer to his parents, Mr. and Mrs. W. L. Spencer who live here in Clarendon. Cpl. Spencer is now in Guam, which he and other Marines have just recently retaken from the Japs. Woody has seen plenty of action during the South Pacific campaign and has had some narrow escapes.

Dearest Mother and All,

Will write again to let you know that I am still in good health and that I'm thinking of you all. I'd like to be home with all of you. I

WHY "GET UP" AT NIGHTS?

It's not necessary. Raise the ph. of the fluid in your bladder with CIT-ROS. Stops the desire to urinate. CIT-ROS will do this job safely, relieves back pains quickly, soreness in the back vanishes. \$1.00 at your druggist. For sale by Douglas & Goldston Drug Co.

have a lot of stories I could tell. I'm taking it easy now. That is as easy as I can. It has rained every day that we have been here. Fortunately we are camped on a hill and it isn't as muddy on the hill as it is in the low areas. I never saw so much mud before. It's knee high. I found me a Jap stretcher to sleep on.

I have seen quite a few of the natives. They were the happiest people you ever saw to have us come back. They had been under the Jap rule for almost three years. They all say that they knew Uncle Sam's Marines would come back and free them. Some of these people are Spanish and they enjoy a civilized mode of living. I was surprised at the modern things they had such as automobiles and cook stoves. The Japs took most every thing they had away from them when they came. Some of them had fairly good homes and lived in communities such as the people in the States. That's about all I can think of to tell you about the people.

As for the fighting, there's not much that I'm allowed to write. It was a hard fight and costly. The Japs were well dug in and they had plenty of supplies. I think our regiment, the 22nd Marines, did a dam good job for their part of the

battle. I had quite a few breath-taking experiences and there were moments when I didn't know whether I'd make it or not. There were times when the Japs were dropping their mortar shells close enough to throw sand and dirt on me. One shell hit the top of a coconut tree that I was under. I began to praying then. It just wasn't my time to die and the Lord was protecting me. The nights were bad on our nerves too. The Japs would try to sneak into our lines and we couldn't sleep from fear one of them jumping into the hole with us, and for the rain, mud and mosquitoes. But we've taken the island and I guess that's all that counts. It certainly was a thrill to see Old Glory raised to the top of the flag pole by the old Marine barracks.

I have written all I can think of at this time. I have made quite a mess of this letter and I doubt if you can read it. I suppose you have moved back to Clarendon by now so give my regards to every one. Maybe I'll be coming home soon. Write as often as you can. Bye.

Love to all,
Son

NOTICE TO BIDDERS

Martin Common School District No. 18, of Donley County, Texas, will accept bids for the construction of a one story brick and tile school building for said district. Bids must be received at the office of the County Superintendent of Donley County, Clarendon, Texas, not later than 10:00 o'clock A. M. Saturday, August 26, 1944, at which time bids will be opened. Plans and Specifications may be secured at the office of the County Superintendent and the owner reserves the right to reject any or all bids. (26-2c)

AUSTIN—For the first time since the invasion, Texans on the home-front next Monday will hear the voices of their husbands, sons and friends fighting on the battle-fronts of France, when the United War Chest of Texas presents its state-wide network radio program, "The Texan's Share in the War."

Plans for the unique program were announced today by Wayland D. Towner, UWCT general manager, whose staff arranged the broadcast with cooperation of the British Broadcasting Company and the three Texas radio networks.

The thirty-minute program will consist almost entirely of short-waved interviews with Texas service men abroad, Towner said. From Normandy and other battle-fronts, Texas fighting men will talk by short-wave with the folks back home in a series of informal "chats", the war chest official explained. In addition, Larry Allen, famed Associated Press war correspondent, will tell briefly of his

13 months in a Nazi prisoner-of-war camp.

The broadcast, one of the most unusual staged during the war, will be introduced by Judge Ben H. Powell, state war chest president. Music for the production, which will originate in the studios of the University of Texas Radio House, will be by the Eighth Service Command military band.

The program will be carried by all three Texas radio networks and by independent stations from 9:30 to 10 p. m., Monday, Aug. 28.

Mr. and Mrs. Emmett (Buss) Gill who have been visiting her daughter and family, Mr. and Mrs. Victor Smith, left Sunday afternoon for Wellington where they will visit a few days with her son, Mr. and Mrs. T. D. Nored. They will go from there to Walters, Okla. to visit a daughter.

MOOS OF THE MOMENT

BY UNCLE BOB
of the Kraft Dairy Farm Service

Everyone agrees that the best feed for dairy cows is good pasture land, so if at the end of summer your pasture is beginning to reach a stage where you have to use bloodhounds to find your cows, this is a good time to start work getting it in better shape for the 1945 season.

Strong, healthy growths of thistle, mullen, vervain, ragweed and some of the other pests are not indications of fine soil but are sure proof that your pastures are running out, the extension folks tell us. Start now to build your pasture for next year, by getting rid of these things which take food away from your cows.

Minnesota's Extension Folder 115 discusses pasture renovation and is a good, condensed handbook to keeping pastures in top condition. For this time of year, the folder suggests clipping pastures, testing and fertilizing soil.

Liming and application of superphosphate, if needed, at this time will show solid benefits next season. These pasture foods will help keep weeds down, by giving strength to grass and enable it to crowd out the weeds. I suggest you have your county agent test your soil and determine how much of the chemicals may be needed.

Rye is recommended by the extension services for seeding at this time of year for pasture purposes. It should provide some winter grazing as well as early spring grazing. Alabama points out in Circular 234 and Missouri reports in Circular 193.

You can get these bulletins by writing the extension services at St. Paul, Minnesota, Auburn, Ala. and Columbia, Mo., requesting them by the numbers given above.

Then there was the little calf which walked up to a silo and said "Is my fodder in dere?"

Next year's feed problems can be eased now by ordering fertilizers at this time, the War Food Administration suggests in recent press releases. The WFA points out that feed supplies can be increased considerably by proper use of fertilizers in late summer and early fall.

Prices of fertilizers are reportedly low in relation to prices of most farm products. This is the slack time for fertilizer sales and distribution and you can get supplied more readily if you order now. Also, by ordering now you may be able to get a greater quantity than if you wait until winter or early spring.

The WFA reports that experiments conducted in the west have shown applications of the equivalent of 100 pounds of triple superphosphate to the acre on alfalfa, applied in the fall, brought a net increase of a ton of hay per acre. An average increase of 8.5 bushels of wheat per acre was reported with the use of 200

pounds of medium mixed fertilizer. Such production increases are well worth while.

Farmer Brown saw his neighbor sitting on his front porch playing checkers with a bull. The bull was winning. "Smart bull," said Farmer Brown. "Not so smart," said his neighbor, "I beat him yesterday."

It's a wise child, says the old saw, who knows his father. And the wise dairyman is the one who knows plenty about the sire of the calves in his dairy herd.

Too little attention is paid in many cases to the record of the bull, when the farmer buys a calf, selects a heifer or chooses the sire for his cows. Yet the findings of all the extension services are most emphatic on the importance of the sire in the volume and quality of milk production of the daughter.

Recommended for your serious consideration is Bulletin 179, issued by Purdue which goes to some length in discussing why "better bulls mean better herds and larger profits".

The records of the past are the important things to look into in deciding what sire to use for your herd or which bull to choose, if you are buying a bull for breeding purposes.

If the records show a bull has a long list of daughters producing 400 pounds of butterfat, then this animal is worthy of use in your own herd. Certainly its services are to be preferred to those of a sire whose daughters consistently measure up to only 200 pounds of butterfat.

You can get Purdue Bulletin 179 by writing the Extension Service at Lafayette, Indiana.

Remember how good it felt, after working under a hot sun, to sneak off under that big tree at the side of the field and rest in the shade a while? Your cows feel pretty much the same way about shade, findings of the agricultural colleges show.

If you do not have sufficient shade in your pastures, perhaps your milk production suffered because of that fact this summer. You may have an opportunity now to build a shade shelter for use next summer. It should be at least eight feet high. It will pay a dividend in greater milk volume.

Planting a few trees for future shade would be a good idea in late fall.

H. J. R. No. 8
HOUSE JOINT RESOLUTION
 proposing an amendment to Section 51 of Article 3 of the Constitution of the State of Texas, by adding thereto Sections 51-e and 51-f; Section 51-e providing that cities and towns in this State shall have the power and authority to provide a system of retirement and disability pensions for its employees, provided, however, that no pension system shall be set up in any city until it has been approved at an election by qualified voters entitled to vote at an election on the question of the issuance of tax supported bonds; Section 51-f providing that the Legislature shall have authority to provide a system of retirement and disability pensions for appointive officers and employees of cities and towns to operate State-wide or by districts under such plan or program as the Legislature shall direct and shall provide that participation therein by cities and towns shall be voluntary; provided that the Legislature shall never make an appropriation to pay any of the cost of any system authorized by this Section; providing for an election on the question of the adoption or rejection of such an amendment and making an appropriation therefor; providing for the proclamation and publication therefor and prescribing the form of ballot.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 51 of Article 3 of the Constitution of the State of Texas be amended by adding thereto Sections 51-e and 51-f, which shall read as follows:

"Section 51-e. Each incorporated city and town in this State shall have the power and authority to provide a system of retirement and disability pensions for its appointive officers and employees who have become disabled as a direct and proximate result of the performance of their duties, or have passed their sixty-fifth birthday, or have been employed by such city or town for more than twenty-five (25) years and have passed their sixtieth birthday, when and if, on only when and if, such system has been approved at an election by the qualified voters of such city or town entitled to vote on the question of issuance of tax supported bonds; provided that no city or town shall contribute more than the equivalent of seven and one half (7½) per centum of salaries and wages of the officers and employees entitled to participate in its pension system, and that said officers and employees shall contribute a like amount; and this Amendment shall not reduce the authority nor duty of any city or town otherwise existing.

"Section 51-f. The Legislature of this State shall have the authority to provide for a system of retirement and disability pensions for appointive officers and employees of cities and towns to operate State-wide or by districts under such plan and program as the Legislature shall direct and shall provide that participation therein by cities and towns shall be voluntary; provided that the Legislature shall never make an appropriation to pay any of the cost of any system authorized by this Section; providing for an election on the question of the adoption or rejection of such an amendment and making an appropriation therefor; providing for the proclamation and publication therefor and prescribing the form of ballot.

Section 2. The foregoing Constitutional Amendments shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State in November, 1944, at which all ballots shall have printed thereon, "For the Constitutional Amendment providing that the cities and towns in this State shall have the power and authority to provide a system of pensions for their appointive officers and employees," and "Against the Constitutional Amendment providing that all cities and towns in this State shall have the power and authority to provide a system of pensions for their appointive officers and employees." All ballots at such election shall also have printed thereon, "For the Constitutional Amendment giving authority to the Legislature to provide for a system of retirement and disability pensions for appointive officers and employees of cities and towns," and "Against the Constitutional Amendment giving authority to the Legislature to provide for a system of retirement and disability pensions for appointive officers and employees of cities and towns." Each voter shall scratch out two (2) of said clauses on the ballot, leaving the two (2) expressing his vote on the proposed Amendments.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution for Amendments thereto.

Section 4. The sum of Five Thousand Dollars (\$5,000) is hereby appropriated out of any funds in the Treasury of the State, not otherwise appropriated, to pay the expenses of such publication and election.

Tires Wear Out twice as fast at 90°

WHEN YOU SUFFER with the heat, remember that your tires really *sizzle* on the road... because road-surfaces are usually 25° hotter than air temperatures. This frying-pan heat saps the strength of rubber... produces doubled wear as the thermometer rises from 60° to 90°... and multiplies tire-failure by twenty per cent. Obviously, you and every other patriotic driver, want to get every bit of precious mileage remaining in your present set of tires. That is why we bring you these authoritative suggestions: Avoid hot-road driving as much as you can... Drive at slower speeds... Don't over-inflate tires, but avoid under-inflation as you would a plague... And don't neglect to have your tires cross-switched every 3,000 miles. Your Phillips 66 Service Man is anxious and waiting to help you. Give him the opportunity, at least once a week, to check air pressures... to inspect for nail holes, cuts, and bruises... to examine tires so he can warn you when re-capping is advisable. This is only part of the *Tire-Saving and Car-Saving Service* pledged to you at every Phillips 66 Service Station, to help you "Care For Your Car For Your Country." In the Nation's interest and in your own, be watchful and intelligent about making your car and your tires last longer and go farther. Drive in for help at the Orange and Black 66 Shield, the sign of famous Phillips 66 Gasoline and Phillips 66 Motor Oil.

Rationing—

(Continued from Front page) to consider and pass on. Now let's look at the quota of tires available for issuance. The panel cannot issue any tires beyond that quota. It's just like your \$148—that's all there is, there isn't any more. And that was exactly the number of tires that the panel had to issue—148. These applications, by the way, were all for passenger type cars and not for trucks.

"So the panel gravely waded through the applications. With only 148 tires, it is obviously impossible to fill all the applications. Therefore, the board had to measure the gravity of each applicant's need and select those most worthy (from the showings made)."

"So the panel granted 47 applicants of the 90 from the Ardmore Army air field tires; 94 of the 103 farmers and ranchers were allowed tires; four of the oil field workers get tires; (there were 230 of these, you remember); none of the 36 applications for taxicabs were granted and only 3 of the 294 miscellaneous applications were approved.

"Total tires issued 148; applications held over for lack of tires to fill the demand, 605.

"Maybe you would have allocated the tires available differently. But it doesn't matter. If you had you'd be exactly in the same position as the tire panel on the basis of its own action. You have about 550 of the 605 who applied and did not get tires peeved at you.

"And chances are of the 148 applications granted, some of these folks were aggravated too, because they didn't get everything they asked for. The point of all this is simple enough."

Mrs. Mary Dollarhide left Tuesday night for her home in Dallas after a visit here with her sister, Mrs. Monica Harvey.

DP & L COTTON SEED
Donley County is now eligible to receive the War Food Administration subsidy for planting cotton seed from approved sources.

Delta Pine or DP & L Cotton seed is the variety approved and recommended for this area. Delta pine usually runs 1" staple and production and turnout is good on tighter land.

DP & L Cottonseed purchased from Class A approved sources is eligible for \$2.25 for 100 lbs. cash subsidy for delinted seed and \$2.00 per 100 lbs. cash subsidy for seed not delinted.

Seed purchased from Class B sources receives \$1.25 per 100 lbs. for delinted seed and \$1.15 per 100 lbs. for seed not delinted.

Delta & Pineland Company, Scott, Mississippi or their authorized dealers is the only approved source of Class A Deltapine cottonseed. There are many Class B sources approved. Therefore it is recommended that before you buy DP & L seed for another year, you should consult the list of approved DP & L seed dealers in order that you may be eligible for cotton seed subsidy on DP & L seed.

Donley County DP & L Cotton Improvement Association is composed of Roy Jewell, Quinn Aten, Joe E. Johnston, Alva Simmons, Nolie Simmons, E. S. Ballew, J. B. Masterson.

Applications for DP & L cottonseed subsidy must be in Dallas by September 15, 1944. For further information, consult your County Agent or one of the above directors.

Time To Renew "A, D" Gas Books

District OPA Director Howard R. Gholson announced today that application forms for the renewal of "A" and "D" gasoline books are now available at most filling stations and at the Local War Price and Rationing Boards. Motorists are urged to get them as soon as possible.

"OPA points with pride to the simplicity of handling of renewals this time," Director Gholson said. "There necessarily will be a heavy workload on boards, but cooperation on the part of the motoring public will help eliminate unnecessary hardship on members and clerks." He pointed to these rules which should be followed to speed the renewal job:

1. Applicants must attach the back cover of their present "A" book, properly endorsed on spaces provided for this purpose, to their application forms. (If applicants have lost their "A" book back covers, they must attach their state automobile license receipts to the application in lieu of the cover, which receipts will be returned to applicants by mail with their new books).

2. Applicants should read carefully the instruction on the form and fill it out exactly as required.

3. Applicants should mail their applications to their local boards and not take them there in person because Board workers will be extremely busy.

The District Director said applicants would not be required this time to attach their tire inspection records to their applications.

New gas coupons in the book will become valid September 22. All books will be in the hands of motorists before that time, the official reported.
