NEW YEAR BRINGS BRIGHTER HOPES OVER NATION

A noted financier states that if we were to work and save during prosperous times as we do when we are desperate, we should reach a utopian form of society. At any rate the struggles, hopes and aspirations and appointments of the year 1920 are a thing of the past. Judging from the statements of financiers and the way matters are being whirled into shape even this early in the game, we may look forward to the achievements of 1921 with confidence. The future belongs to the man of confidence as it always has done. The country made rapid progress during December in meeting the obligations suddenly confronted due to changed conditions. Financial institutions like the individual, waited and bided their time to see what effect the change would bring before releasing funds for active constructive building. Confidence is the conqueror of all things, the dissolver of all problems, the smasher of all barriers, the promoter of progress and prosperity and has never met with defeat in any country inhabited by any race. It is the only salve that has the wounds of commerce, makes the machinery of progress, makes cities out of villages, spans the continent with strips of steel, subdues the wilderness. In short, it is the latent spark buried deep in the breast of every successful man or woman of this or any other age.

Business must move together. It is just as necessary for the farmer to prosper as it is for the business man or laborer who works for a daily wage. We are now on the retreat, back to the bed-rock days of a saner existence. Some have attempted to get into the retreat, but it will not work. Every citizen will be made to share his equal burden in the readjustment.

The period that made lounge lizards out of a large number of our young men and semi-made men out of a large number of our young women is a matter of history. They too, were smashed up against the stone wall of economic want, which will result in great good, not only to themselves, but to all who have increased in economic might. Today we are experiencing a readjustment world-wide in its scope. That the American business men will be equal to the occasion, goes without saying. It has ever been thus. Right at this time the silver lining appears to be playing hide-and-seek with us right around the corner. Already the spirit of good will, loyal co-operation and divine sense of assistance to the unfortunate peoples of the earth is finding expression. The Christmas joy is more than anything else—it was the best useful gift giving Christmas for many years.

Luxury factories are tied up. Well they may be for the buying public. There is no longer indulgence in useless buying. Factories manufacturing actual necessities are running full blast and will keep right at it.

Texas enters the new year on as sound a business basis as ever in her history, according to reports of the Texas Chamber of Commerce of Dallas. This report is given out after careful study and research and is not intended in any sense to mislead or pull the wool over the eyes of any one.

Farmers and business men alike over the state have suffered from the precipitate decline in prices. Farmers in the southern part of the state marketed their cotton before the market dropped very low and are therefore in good shape. Merchants of the same district likewise prospered since the whole business structure rests upon the prosperity of the producer.

Texas the past year produced nearly one billion dollars worth of agricultural products, a half billion in live stock, a third of a billion in oil and a half a billion in manufactured products. This wealth was added in one year and the estimate is based on present prices. The total wealth produced in fifteen percent above that of the preceding year. The hog is said to be a scarce article and yet over two hundred million dollars worth were marketed in his state during the past year.

Texas banks have a deposit surplus to check that totals up the enormous sum of over seven hundred million dollars. The per capita wealth of Texas ranks among the first in the nation.

Bringing the matter right down to the farmer some county, we have the four crops for 1920 ever produced in our history. Quite a bit has been sold but the bulk is being held for higher prices. Very little sacrifice has been made and conditions do not warrant any sacrifice. The banks are taking care of their burdens. Taking all-around, the country is in good shape to weather the storm with every prospect of a prosperous year ahead.

TURKEY BANKER WRITES LETTER FROM MILWAUKEE

Declares His Intention to End Life and Fury Troubles in Lake. Denies Guilt.

In a letter to his wife, written on stationery of the Gilpatrick hotel at Milwaukee, John H. Fry, the absconding cashier of the Turkey State Bank, declared his intention to end all by jumping into the lake. He declared his innocence of wrong doing, except in making false entries to cover the losses sustained by the bank on cotton being held.

A telegram received this morning by Sheriff Pressley from Chief of Police Jansson of Milwaukee, states that Fry did not register at the Gilpatrick hotel; but that he did use the hotel's stationery to write the letter. The telegram further stated that inquiry at the city morgue and at the hospitals had been without result.

The books of the bank have not been examined and the condition of that institution will not be known until a State examiner comes. It is stated, however, that two sets of books were kept by Fry, one for inspection of the bank examiner and the other, probably, showing the actual transactions of the bank; and that notes renewed have been put up for security for borrowed money, the originals of which had been used for the same purpose, thus securing money twice on the same notes. This was done in one instance at least, by giving the maker a copy of the note and a promise to return the original.

Fry was cashier of the Lakeview bank at one time and had been connected with the Turkey bank for eight or nine years. He was identified with local church work and a member of several fraternal orders, being a Mason and a Knights Templar.—Memphis Democrat.

BOTH HOUSES UPHOLD FINANCE RESOLUTION

Washington, Jan. 4.—Over President Wilson's veto the House today passed the resolution reviving the War Finance Corporation.

The vote of the House gave the necessary two-third majority to override the President by a safe margin.

The War Finance Corporation resolution was designed to prevent agricultural depression by aiding farmers to export supplies which are now on their hands because of low prices.

The vote on the measure was 250 to 66. There was no debate. When the vote was announced members applauded.

In the senate vote both Texas senators voted to overrule Wilson's veto.

SILVEY-MARTIN

One of the most beautiful and impressive wedding ceremonies of the season and one of extreme social interest to Pampa, Texas, was solemnized last Thursday evening at the home of the bride, uniting in marriage Miss Floy Gwynne Silvey and Mr. John Bela Martin.

The impressive double-ring ceremony was performed by Rev. C. H. Booth, pastor of the First Methodist church, of Corsicana, Texas, beneath a large white wedding bell, festooned with the graceful tendrils of smilax and baby-breath, while behind the bridal couple a profusion of palms and feathery ferns brought about a garden effect, completed the picturesque scene of youth lighting its torch before the altar of love.

CAPT. SIMPSON RETURNS—JUDGE COLE RETIRES.

Capt. E. A. Simpson, who has been connected with a leading firm of Amarillo attorneys in the practice of law since his discharge from the army in May 1919, closed a trade here this week whereby he acquires the office, library and good will of Hon. A. T. Cole. He has taken charge of the office and is already picking up the loose strands of a very substantial legal practice which he relinquished in 1917 when he volunteered his services to the state and raised the Clarendon company which he served with distinction.

Under the terms of the trade, Judge Cole will not resume the practice of law in Donley county within a period of one year, but will close up whatever legal business he has now in hand.

Judge Cole's health has become so impaired he has felt the necessity of a rest and change of location and he plans to go to a resort in Missouri just as soon as he can close his interests here. As his physicians have indicated that the altitude here is too high for his depleted health, he plans to go finally to Southwest Texas, possibly Mission. He regrets very much to sever his friendships and connections here and The News joins his friends in wishing him the very best of health and success in his move.

Capt. Simpson and his estimable family are like home-folks to Clarendon people and their return here is hailed with pleasure at every stage. He says he comes because he loves Clarendon and Donley county and that he will be allied with every forward move for the public good.

MEMPHIS AERO COMPANY EXHIBITS HERE SATURDAY.

A representative passenger carrying plane of the Memphis Aero company will be here Saturday. Field superintendent R. O. McQueen and Lieut. Carl Eaton will be in charge of the plane. The sister city has a company of this kind which will come as a surprise to many but we have gotten to the point where we may expect that enterprising people to start most any thing in the way of development. Edw. C. Johnson, of that city is general manager of the new company.

THE WOMAN'S MISSIONARY SOCIETY.

A large number of ladies met at the Methodist parsonage and had a most delightful social meeting last Friday afternoon. The affair was given in honor of Mrs. Flora White, who was formerly Recording Secretary of the Missionary Society.

CHURCH OF CHRIST.

Preaching first and third Sundays at 11:00 a. m. and 6:30 p. m. Bible teaching by splendid teachers every Lord's day 10:00 a. m.; 2nd and 4th Sundays at Lela Lake Bible training class every Wednesday night, taught by the Minister; everything done in the name of the Lord and planned and purposed to increase our spiritual voltage. Come over and help us. You are welcome.

DONLEY COUNTY TAKES ANOTHER STEP FORWARD

The final decision in the county agent matter came to a conclusion at a meeting of the Board of County Commissioners held here Monday. Petitions both for and against the appointment were presented to the Board but it was found that the majority petition not only carried the most names, but represented about two thirds of the taxable valuation of the county as well.

This matter came before the Board for consideration in December but was deferred until a later date that the members of the Board might have petitions from both sides.

In view of the actions of the commissioners of Monday, John R. Edmonds, district manager of the Panhandle county agent work under the direction of the extension department of the A. & M. college, came here Wednesday to confer with local officials relative to the selection of a man for the place. Mr. Edmonds stated that he will have a county agent at work in Donley county by the 15th of this month. That being the case, we will arrive just in time to help along with the pig club work that seems to be receiving no little attention at this time. This pig club work and exhibits at fairs in a number of places, has been looked after so far as possible the last year by Roy B. McFord, secretary of the local Chamber of Commerce and Mrs. Ida Chiswood, county demonstrator of home economics. This was made necessary since the resignation of Mr. Bennett, something like a year ago.

The action of the Board in this matter is to be commended and means much to the prosperity of Donley county. There were a number of things passed up during the year 1920 that meant a direct loss to farmers of this section simply because there was no one to take the matter in charge. Since this matter has become public, there is great rejoicing among the pig club and corn club boys over the county who, in the past, learned to take their troubles to the county agent when Mr. Bennett had the work in charge.

PUBLIC HEALTH NURSE FOR YOUR BENEFIT

The war has given a mighty forward stimulus to the public health movement. Yet the question is now confronting us as to how when and where it shall best be taught to the people. Not to assume that to the people, but to the fields which have never been trod and give them the first fruits of public health, which is health and happiness, plus success.

Some say start with the grandfather, some the mother. But I see no better place to start than with the child. Teach him habits of cleanliness, of right living and proper care of the body. We have passed the days of the witch doctor, the quack cur-all and the old fashioned ills, and he (or she) will out grow it. And when he will start on the milestone of engaging a doctor to cure his ills, but rather we will employ the man who has caught the vision and is willing to prevent rather than to cure.

Public Health measures have existed from the early days. And from some of our so-called heathen countries comes the great principles of prevention where the doctors' fees are not paid if the individual becomes ill. Most movements are developments, not creations. In the past, skill, as we understand it now, was often lacking because the requisite knowledge to produce the skill did not exist. But the spirit was the motive power and unless that spirit remains the public health movement with all its knowledge and all its skill will have lost more than it will have gained.

During the war, while all was at stake, people were preoccupied with war. They thought of little else. They labored for little else.

CHRISTIAN CHURCH.

Bible School 9:45 a. m. J. R. Tucker, Superintendent. Teaching 10:50 a. m. Subject: "Ideal Church." Preaching 6 p. m. "Prayer Meeting in Hell." Everybody welcome at every service. Strangers made to feel perfectly at home. The pastor has given much thought to these two subjects. Every member of the church expected to be present.

Miss Muffett Sims returned Sunday night to assume her school work at Kid-Key.

Miss Cassandra Sims attended the wedding of Miss Floy Silvey at Pampa Thursday.

ODD FELLOWS LODGE SHOWS STEADY GROWTH.

The local lodge of Odd Fellows shows a steady gain for the year just past, the increase amounting to 35 new members. Deducting from those moving away and deceased members, the roll now carries a total of 110 names. One of the most interesting sessions of the lodge will hold a joint installation with the Rebekahs on the night of the 17th. The elective officers for the next six months are: R. W. Rath, N. G.; Frank Smith, V. G.; Secretary, J. C. Finley; Treasurer, Roy Clappet.

Paving and other bills amounting to several hundred dollars have been paid off during the past year and the lodge is in a thrifty condition financially.

BAGBY-HAYS

On December 28, 1920 in Clarksville, Texas, occurred the marriage of Miss Ann Cameron Hays, daughter of Mr. and Mrs. E. L. Hays and Mr. William Selden Bagby of Clarendon, Texas.

The groom arrived in Clarksville on the 10:45 train and was met by the bride and her brother, W. W. Hays, two friends, the Misses Carol Strong, and Helen Spear. The party proceeded to the home of the Baptist minister where the wedding ceremony was performed by Rev. Nemmy.

Immediately after the ceremony the party was entertained by the bride's aunt, Mrs. J. K. Cooper, with a high noon luncheon, and in the evening with a buffet supper. The bride and groom arrived in Clarendon December 31, where they will make their home.

KHIVA RING SEEKERS ARE GROWING ACTIVE.

Activities among prospective novices for the spring ceremonial of Khiva Temple Temple began this week with the announcement of A. B. Brown of Lockney as a candidate for the Shrine ring. Mr. Brown is the president of the First National Bank of Lockney and has been assured the unqualified support of his constituents, Shriners, and a large number of other South Plains nobles, it is said.

The next ceremonial of Khiva will be held in Amarillo during the latter days of April or the early part of May preceding the meeting of the Imperial Council at Savannah, Ga. It is the purpose of Khiva Temple to present its year's record to the Imperial Council and be regularly chartered.

FIFTEENTH STOCK SHOW OPENS ITS DOORS JAN. 15

It took something more than stock shows to cause such a marvelous advancement in agriculture and live stock production as the Rocky Mountain region has shown in fifteen years, but no single movement has done more to bring it about than these exhibitions. The fifteenth annual event is to be held at Denver, January 15 to 22, and it is the best chance ever presented to study pure bred production, marketing and facts concerning the growing industry generally. It will be a special chance to get possession of some fine stock at reasonable rates.

Entries closed December 20 and 1,711 different individual things had been made. This includes cattle, horses, sheep and swine. Two hundred and four carlots of breeding cattle are entered for auction. In addition there are entries of 1,200 birds in the poultry show, and a vast exposition of farm machinery and equipment is being installed. A corn show is a new feature this year, run by a Colorado Farm and Bureau office, and the management has had \$20,000. That is the way the show grows from year to year, and those who would keep abreast of the times cannot afford to miss one.

In the horse show arena nine different performances will be given in which the most beautiful and highly trained horses in the United States are to be shown during their paces. Four \$1,000 purses are hung up this year for gaited and jumping horses, attracting to this show the strings of Lela Long Combs, Mrs. O. H. Schmann of Chicago, Belle Beach of New York and others. Every program is different. Each night two types of all 1921 automobile models will be paraded in the ring.

HALL COUNTY C. OF C. FORMS PROGRAM FOR COMING YEAR

Program for Betterment of Public Interests, Better Seed and Live-at-Home Movement.

The Hall County Chamber of Commerce Directors held their regular monthly meeting Tuesday afternoon.

A full and extended discussion of work for the new year was held and several important steps were taken. An energetic program was outlined for the public welfare of agricultural interests. This campaign will be for a better seed-stock and live-at-home program. It will involve the use of a stereopticon with a wide variety of views and will be put on in every school house by speakers and helpful literature.

Messrs. Sager, Read, L. M. Thompson, Ewing and the Secretary were appointed committee to put on the program.

Mr. Edgar Ewing announced that a corn mill would be provided within 30 days for the convenience of all who want to grind their own meal, since such parties now have to go to Childress or Hedley to get this service.

A sweet potato curing plant was discussed and it was shown that we should have one. Ewing, Edwin Thompson, Kesterson and Sam Harrison were appointed to investigate and plan to get the acreage of sweet potatoes planted for such industry. Such a plan is now in operation at Wellington.

A committee composed of Edwin Thompson, George Sager, J. M. McKelvey and W. P. Dial was appointed to provide a "Winter Day" banquet some time in January. This is planned to be a pace setting event and Mr. Porter Whaley, of Stamford, and other representative speakers will be secured.

Reports showed that a fine movement for the improved cotton seed campaign was under way a large number of orders have already been made for the latest long staple seed. L. M. Thompson and Edgar are handling this work. One man has already arranged to plant three large plots of different varieties by side near town to try out the advantages of the different varieties. This will be a special feature that really means an experiment station on this line for Hall county, as the cultivation will be made for that end. The Hall County Fair premium list is about ready and a number of special premiums are to be offered. The Fair management will make an extensive campaign along with the workers of the better seed-stock, live-at-home movement.

The spirit of the meeting was very helpful and all were fully determined to turn the new year a purpose of help and fellowship, that always wins. It was the feeling that the crisis has been passed and would soon see much safe and satisfactory movements along all lines.

CHAMBER OF COMMERCE—MERCE-GRAMS.

Pig Clubs. Two years ago Lonnie Ballard of Lela Lake bought a pure-bred Big Bone Poland China sow and paid \$73.00 for her at the same time he joined the local Pig Club. Since that time he has sold enough pigs from this time to pay expenses and clear him a nice little roll of over \$400.00 and he has a herd of nineteen (19) hogs including the original sow left. Is it a wonder that Lonnie has a nice little bank account?

We will soon start a campaign to organize a pig club in each school in the county. We would like to help at least 100 boys to do just what Lonnie has done. You will find our plan fully outlined in last week's paper and you will see that if a boy hasn't the money we will help him get his hog anyway.

The demand for more hogs is being heard throughout our entire country. This can be accomplished through careful selection and breeding by proper methods of feed and care. Boys and girls can do much to bring this about by entering the Pig Clubs. They will not only find the work profitable but they will become interested in animal life. Starting with one registered sow and assuming the financial risk they enter the business of selecting, breeding and proper care and feeding methods by actual experience. Each member would receive aid each month from the state leaders and Extension experts along this line. In order to be eligible for a member's use the sow or gilt must be registered in the boy's or girl's own name, and where there has been any question that it may be John's pig but dad's hog, dad will have to sign a statement with the club leader that after the sow and feed have been paid for the proceeds are entirely John's or Mary's.

The big object of club work is to keep the boys and girls on the farm. There has never been a time in our history when this has been so vital as at the present, when so many of our farm boys are being drawn to the city by higher wages and shorter hours. Give a boy a really good sow and a spare deal and he will become interested in the business of the pig and the attraction that the city offers will lose a part of its splendor. A runt or a scrub doesn't go with a live, wide awake boy or girl.

PANHANDLE WILL DEMAND JUSTICE NEXT SESSION

Hon. Lee Satterwhite, Panhandle, representing this legislative district in the incoming session of the Texas legislature, spent Saturday night and Sunday in Amarillo. One of the matters most deeply interested in the Panhandle is the redistricting of the Plains country. He tentatively plan agreed upon in part, details H. E. Hill of Wheeling, and himself, the new districts should be made up as follows:

One district from ten counties of the North Plains area; another should be composed of Potter, Oldham, Deaf Smith, Randall and Armstrong counties; still another district will contain Wheeler, Gray, Donley and Collingsworth counties; Hall, Childress, Motley and Cottle counties are designed to be embraced in another district, while the last in order to be considered in connection with the redistricting scheme will be Brown, Sutherland, Castro, Parmer, Bailey, Lamb, Hale and Floyd counties.

According to Mr. Satterwhite, whose work in behalf of the great Plains area of Texas, in the legislature has attracted much attention, there will be no opposition to the re-establishment of boundaries and increasing the number of districts from four to five as at present contemplated.

Another matter, while seemingly trivial within itself, is at least of considerable importance. At present, under a provision of the constitution, notary publics may be appointed only during a session of the legislature. The names are recommended by the legislature and appointment is made by the governor. Mr. Satterwhite states that the constitution should be so amended as to permit the commissioners court of the various counties to receive applications for notary public commissions, the same to be forwarded to the governor at any time, for approval and appointment. This change in the judgment of Mr. Satterwhite would greatly facilitate matters, and help numerous communities, past and present, that under the prevailing system, cannot be aided.

The visitor expects a busy session, opening with an interesting and perhaps heated campaign for the speakership of the house. He has his share fully outlined, as well as many other matters destined to demand attention in the earlier as well as the later stages of the session. The minor details of tax payment may be prominently among the items considered toward the middle of the session. The close of the session, seems to be a marked probability. Mr. Satterwhite states:

"Service for the Plains country of Texas first and after that, the entire state, shall be my watchword and constant desire." Mr. Satterwhite. He indicated a keen interest in connection with expending the educational facilities for this section of the state and unquestionably, all such topics will receive his constant attention.

It is a friend to educational institutions of the state, and will show an added interest during the session just ahead, when this general theme—the subject for consideration—Amarillo News.

NOTES FROM THE CHURCH OF CHRIST.

"A little foolishness now and then, is relished by the best of men." To keep the tune of happiness to the above verse, Bob McGowan, and the writer motored down to our sister town, Lela Lake, last evening to enjoy a little program of fun, frolic and foolishness interspersed by some splendid music, songs, solos, etc. The purpose generally understood was to get better acquainted in every way, but especially intended in honor of Prof. Virgil Teddie and his new wife. They were taken completely by surprise. When they sit down by a table on the stair landing of the school building, they were at sea to know what was going to take place. Soon the stream of admiring friends throwing their gifts on the table turned on the pastor.

After the song and music, the writer made an assault with intent to speak. The whole occasion was an enjoyable affair. Prof. Teddie insisted it be repeated frequently. Prof. Drennon was Toastmaster, Kingmaster, and general manager. At the close Prof. Teddie was asked to make an address. He said: "I asked my wife to talk, but she said, 'I've talked too much already. I'll speak, a good income in our history when this has been so vital as at the present, when so many of our farm boys are being drawn to the city by higher wages and shorter hours. Give a boy a really good sow and a spare deal and he will become interested in the business of the pig and the attraction that the city offers will lose a part of its splendor. A runt or a scrub doesn't go with a live, wide awake boy or girl."

Mrs. June Taylor and son spent Sunday in Clarendon.

Mr. Wendlehall had business in Clarendon Wednesday.

BAPTIST CHURCH.

The first Lord's day of the new year was, in many respects, a great day for us. We had one of the largest congregations we have had since coming to Clarendon. The S. S. reached the high water mark. The people came with their hearts set on reconsecrating their lives to God. One could read it in their faces. God was with us. He made His power felt. It was a great hour. A man for whom the pastor and others prayed earnestly, surrendered to God. The joy of the Eternal World, was seen on the faces of the people as they came to welcome him into our membership. Let us continue to pray that this may be the best year religiously, in the history of Clarendon.

Mrs. Kirk Dasher of Gladstone, New Mexico returned home the last of the week having been called here on the death of her father.

To All Ford Dealers

Several inquiries have recently come to us concerning the likelihood of another reduction in the price of our cars, and as these inquiries no doubt emanate from prospective purchasers, we want to state again with greater emphasis that Ford cars are already being sold at a figure actually below cost and for an indefinite period another reduction or change in design is entirely out of the question and not at all contemplated.

We believe the public will be fair enough to fully appreciate the frankness of the above when they consider the extent of our recent price cut which was in fact the equivalent of several reductions in one, in our desire to contribute toward satisfying their demands for lower living costs notwithstanding our sacrifice in marketing our cars at a loss until we are able to materially reduce present costs through lower material prices and greater manufacturing efficiency. While we have of course made some progress in bringing down operating costs, we still have a long way to go before any thought can be given to further reductions in present car prices, so we have no hesitancy in making these open statements to acquaint you with the true situation.

You can therefore give assurance to prospective purchasers of Ford cars that now is their real opportunity to buy below cost and obtain delivery. Everyone is familiar with the heavy demand for Ford cars in the Spring and this year will be no exception, as in spite of conditions, business is already rapidly accumulating, so that many who desire Ford cars will be obliged to wait perhaps until mid summer for delivery causing considerable inconvenience and possibly financial loss, particularly to commercial customers.

We expect you to protect the interests of prospective buyers in your community by placing these facts before them.

Yours Very Truly,

FORD MOTOR COMPANY.

You will understand from above that in order to be sure of getting a Ford car this summer, that you should obtain same now. We have a few in stock. See us at once.

The Birds Fly Southward

—To avoid the cold, and well before the coming of snow, the thrifty squirrel lays by a store of nuts, the bee remembers the flowers will fade. All Nature seems to sense the coming need. Man alone of all the things seems content to live Today as if Tomorrow's sun would never rise.

—We defy the laws of Nature when we fail to provide for the future. Start an account today and save for the tomorrow. We welcome you within our doors.

Had You Ever Thought About It.

On June 22nd, the sun rises at 4:36 a. m. and sets at 7:27 p. m. Sun Time.

Each month later in the year the nights get longer, and the days get shorter

UNTIL DECEMBER 22—THE SUN RISES AT 7:15 A. M. AND SETS AT 4:42 P. M. SUN-TIME

In the warmer months we get up and dress, cook and eat our breakfast after daylight. We eat our supper while it is still daylight. Often we sit out on our porches or go driving, and so use very little light.

In the fall, winter and spring, when the weather is cold, we stay by the fire. If some members of the family do happen to go to church, prayer meeting, the picture show or some other place of gathering, there is usually some one left at home who is reading or studying.

When children are going to school and study at night, the lights are burned later than if such was not the case. Not only this but we have to have a light to cook and eat our breakfast by in the mornings, and to cook and eat our supper by at night.

We used to consider Electric Irons, Toasters, Vacuum Cleaners, Electric Washing Machines, etc., a luxury, and indeed they were, and they are today, but they are more than this—they are almost a necessity. They don't only save time and labor for the house wife, but it is real economy to use them. When you think about how much the price of coal has advanced within the last few years, then think about the small advance in the price of electricity, you can readily see that there is a greater economy in using these devices than there was one year ago, or ever has been before.

All these devices use current and the meter will register all the current that was used. It costs money to use these devices. But if you use them you get value received for all the money you spend.

When you think about your light bill, remember how much you have used all these devices. When you turn on your light tonight look at the clock and remember that a few months ago at that same hour the sun was still shining.

SHERIFF'S ORDER OF SALE

THE STATE OF TEXAS,
COUNTY OF DONLEY

In the District Court of Potter County, Texas, J. H. Pritchard, Plaintiff vs. E. W. Carver & al, defendants.

WHEREAS, by virtue of an order of sale issued out of the District Court of Potter County, Texas, on November 20, 1920, on a judgment

rendered in said court on the 18th day of October, A. D. 1920, in favor of the said J. H. Pritchard and against the said E. W. Carver, for the sum of Five Thousand Three Hundred Seven and 37/100 Dollars, with interest thereon from the date of said judgment at the rate of ten per cent per annum, and costs of suit, with a foreclosure of a deed of trust lien on the property hereinafter described as it existed on the

14th day of June, 1918, No. 3108 on the docket of said court, I did, on the 20th day of December, 1920 at 10 o'clock, a. m., levy upon the following described tract or parcel of land, situated in Donley County, Texas, and described as follows, to-wit: All the right, title, and interest of E. W. Carver, the same being an undivided six-thirty-fifths (6-35) interest, in and to the North one-half (1-2) of Section No. 21, in Block C-2, Certificate 1-167, issued to G. C. & S. F. Ry. Co., situated in Donley County, Texas and containing 320 acres of land, more or less; and belonging to the said defendant E. W. Carver; and on the first day of February, A. D. 1921, being the first Tuesday of said month, between the hours of 10 o'clock, a. m. and four o'clock, p. m., on said day, at the Court House door of said Donley County, I will offer for sale and sell at public auction, to the highest bidder, for cash, all the right, title and interest of the said E. W. Carver, the same being an undivided six-thirty-fifths (6-35) interest, in and to said described property.

Dated at Clarendon, Texas, this 20th day of December, A. D. 1920.
