## COZY THEATRE RAZED BY FIRE WEDNESDAY

The Cozy Theatre was consumed by fire here Wednesday entailing a loss of some eight thousand dollars, with a partial insurance coverage. It was owned by the Mulkey estate and was remodeled in 1935.

Manager Lee Bell stated that the theatre would be rebuilt just as soon as war restrictions permitted.

The fire was discovered by a colored employee of the Clifford & Ray grocery about 10:20 a. m. The fire department arrived a few minutes later and soon found out that the fire had spread to all parts of the building. This fact, with partitions preventing easy ingress, handicapped the fire fighters materially. The fire was finally brought under control with all the fire apparatus on the job about three o'clock in the afternoon.

The regular fire boys were ably assisted by husky volunteers, and when all the fire fighting aid was brought on the scene, soon brought the fire under control.

"Squirrel" Scoggins' cafe next door was emptied of his stock of supplies when it looked like the

### CLARENDON YOUTH SPENDS TENSE HOUR NEAR KRAUT LINES

WITH THE 45th DIVISION OF SEVENTH ARMY IN FRANCE—"In the darkness of the dense woods we became lost and wandered about the Kraut lines for over an hour," explained Pfc. James B. Bolin of Sullivan, Illinois, a 45th Division doughboy now fighting in Alsace.

The doughboy and two buddies, Pvt. Joseph Yuhasz of Hopelawn, New Jersey, and Pfc. Horace B. Hitt of Clarendon, Texas, had volunteered to bring up rations to their squad. They managed to return to the place where their rations were without getting lost but on the return trip they encountered more difficulty.

"We had been walking for over an hour, explained Yuhasz, "when suddenly we heard German voices. It was then we realized we were lost. Quietly we turned back when a voice challenged us, asking, 'Heinrich?' We froze in our tracks and remained like that for several minutes."

"Those rations weren't getting any lighter either," added Hitt. "So as quietly as we could we started walking away from the voice. No one fired on us, and after a hike of another mile we ran into a Yank outpost who directed us back to our squad. It was a tough hike and as close as I want to get to a Jerry without a rifle pointing at him," the Yank concluded.

fire was due to spread to that building. Nothing was removed from the Leader office, second door, as the printing firm had every confidence in the ability of the fighters to control the flames and confine the fire to the one building.

Lee Bell is deeply grateful to the fire department for the excellent work they did under serious handicaps due to the type of building. Other business men are just as thankful that the flames were not permitted to spread to adjoining buildings.

The blaze is presumed to have started from defective wiring, Mr. Bell stated, and was said to have started in the back end of the building.

Joe Landreth of S.M.U., Dallas spent the week end with his parents, Rev. and Mrs. E. D. Landreth.

Mr. and Mrs. Judge Thompson returned to their home at Dumas Sunday afternoon after a week-end visit with her parents, Mr. and Mrs. F. L. Behrens and brother, Truett Behrens.

He is survived by his wife, two sons, Everett of Houston and E. E. of League City; one daughter, Mrs. Willard McAdams of Groom; five brothers and three sisters. Another son, Ebey Clark, preceded him in death Feb. 14, 1944. He was killed while in action with the armed forces.

### WORTH WHILE COMMENTS

BY COUNTY AGENT  
Charles O. Reed

Every farm and ranch in Donley County should have a few trees for home orchard. Cherry trees are the most dependable fruit crop for this area. Records indicate that cherry trees began bearing the second or third year after planting. Cherry trees will produce fruit four years out of five.

Sour cherries budded or grafted to Mohaleb root stock produce the strongest and more resistant to disease trees. This root stock can withstand more dry weather and trees live longer.

Early Richmond is the leading sour cherry. Fruit is ripe in June or early July. Prolific producer, with small light red fruit with good quality.

Montmorency fruit ripens in July. This cherry is very popular and widely grown, but is not quite as vigorous a tree as Early Richmond. The Montmorency Monarch and Montmorency King are improved varieties over the Montmorency. Monarch and King are reported to be doing well on the Plains.

Several families have pooled their small orders and requested the County Agent to order cherry trees for them. I have ordered 100 small trees, and if nursery has trees available the balance will be sold to public at cost.

If you desire cherry trees to plant, contact County Agent at Clarendon.

### T/SGT. T. O. LYLE AWARDED DISTINGUISHED FLYING CROSS

Mr. and Mrs. Frank Lyle received word this week that their son, T/Sgt. T. O. Lyle, Air Corps, has been awarded the Distinguished Flying Cross "for outstanding and meritorious achievement while participating in combat flights over Japanese territory." He is serving with the 20th Air Force consisting of B-29 Superfortresses in the India-China Theatre of War.

### CLARENDON SERGEANT AWARDED CERTIFICATE OF MERIT IN FRANCE

WITH THE U. S. FORCES IN FRANCE—Award of a Certificate of Merit to Sergeant William Johnson, Jr., of Clarendon, has been announced at the Headquarters of the 1308th Engineer General Service Regiment on the Western Front in France. Before entering the Army, he was employed by Gray's Iron Works, Inc., Galveston, Texas.

## RATIONING AT A GLANCE

Phebe Ann Buntin

If the radio tube manufacturing industry is able to recruit 6,000 additional female workers, production can be stepped up, allowing an increase of four million tubes a month for civilian replacements. Otherwise, home radio listeners will continue to receive only half enough receiving tubes to replace those worn out. Military demands for this war-important product have risen from 16 per cent of total production in 1941 to 86 per cent in 1944. The 19 million tubes left for civilians from the 1944 production, however, are enough to maintain at least one radio receiver in operation per household.

Until the new potato crop comes to market in the late spring, the family food purchaser probably will not find very many large potatoes on the market, since late planting and dry weather prevented the fall storage crop from sizing up well. What large potatoes are available are being sent to the armed forces in the Pacific, as they ship and store better than the small ones. However, the small potato has several advantages over the big one: It takes less time and fuel to cook; it can be served whole with easy peeling; and it can be used in a variety of ways. The way to get the most food value from potatoes is to boil them in their jackets. For this use small potatoes are ideal, says the Bureau of Human Nutrition and Home Economics.

## Brock Triplet Is Back In Texas

The Leader is informed that Pvt. Boyd Brock, son of Mr. and Mrs. Roy Brock of near Goldston, is now a patient in McCloskey General Hospital at Temple. He was a rifleman of the 79th Division, 314th Infantry at the time of being wounded by a shattered right arm and shell fragment wound in the shoulder.

Pvt. Brock has not heard from his two brothers since they parted in France November 1, 1944. Upon arrival in France the brothers asked that they be separated so that all three might not be killed at the same time if it came to that. Various stories regarding the Brock triplets has appeared from time to time in your Donley County Leader.

## RED CROSS VOLUNTEER SERVICE

HOME SERVICE  
By Mrs. C. A. Burton

A new War Department ruling announces that a transportation request may be issued to an enlisted man or woman for a furlough before going overseas or a delay enroute on the way to a replacement depot for overseas when the person does not have money for such transportation—the expense to be charged against such person's future pay checks.

A further statement by the War Department is that another close relative of a serviceman besides the person designated by him to be notified in an emergency may be placed on the list of those to be notified. If a man is married and has given his wife's name, then the name of the mother of father may also be listed.

The War Production Board gives a priority rating for new residence service by telephone companies to veterans whose service was discontinued when he entered the service, if he applies within 12 months after discharge. There is also priority for wives of servicemen on duty.

Alarm is being felt at the increase of neurotic cases among discharged servicemen. It is said there are already between 130,000 and 140,000 such cases, and the number is increasing daily. There are today less than 4,000 trained Psychiatrists, all in the service. Congress is considering the matter of training medical men for this service.

The Navy Relief Society authorizes financial assistance to men returning from overseas duty when needed. This must be overseas duty when needed. This must be authorized by the men's commanding officer.

In a recent Red Cross release is found this statement: The Army does not grant furloughs to individual soldiers to work on farms—unless where there is a necessity for workers in the community adjoining a camp, where soldiers may work if this does not interfere with their duties.

Credity toward unemployment compensation for workers who join the armed forces are preserved in all states except New Mexico.

### LIEUT. DELOS CLEEK DIES IN ACTION

Prominent for many years in the Panhandle section is the Cleek family. A son of Mrs. Opal Cleek, and member of the Army Air Corps in France, was Lt. DeLos Cleek who was killed in action there on January 14, 1945.

Lt. Cleek, a pilot on a B-26 Martin Marauder bomber was in the 9th Air Force stationed in France.

Other survivors are his father, H. H. Cleek of Emeryville, Calif., and a brother, Edward Cleek of Dallas.

Memorial services were held at the Methodist church in Panhandle where a large assemblage paid tribute to the memory of one of Panhandle's most illustrious sons.

## RED CROSS DRIVE NOW IN ACTION

### LOCAL BOXING TEAM TO CHALLENGE WELLINGTON FRIDAY NIGHT

Coach J. L. Naylor and Instructor Bill Bentley announced this week that they would accompany their boxing team to Wellington Friday night, March 2, where the boys will meet the Wellington boxing team for a series of anticipated victories. However, they bear in mind that the Wellington team ranks first in other athletics; they are bi-district champions in both football and basketball. Inasmuch as this is true, the local boxing team's determination to defeat them in boxing has been enhanced greatly.

The tie with Memphis a few weeks ago was good; with the improvement the boys have shown since that time in consideration, the forthcoming meeting should be much better.

### Abolish Closed Fishing Season

Gov. Coke R. Stevenson Tuesday signed into law the act of the Legislature abolishing closed fresh water fishing seasons in Texas. The bill becomes effective immediately, and in time to abolish the two-month season which was to have been closed beginning March 1st.

The revolutionary act for Texas anglers reduces the keeper size limit for black and spotted bass from 11 inches to seven. There is no keeper limit for other kinds of fresh water fish.

Catch and possession limits also are fixed by the new law. For black bass in a day not more than 15 may be caught, of which not more than 10 may exceed 11 inches in length.

For crappie or white perch, white bass, blue catfish, channel catfish and yellow catfish, not more than 25 a day may be taken. Possession limit for all kinds of fish is fixed at not more than two days' legal catch.

## AGRICULTURAL PLANS OUTLINED FOR YEAR

### CPL. KENNETH BELL RECEIVES PROMOTION

A NINTH AIR FORCE SERVICE COMMAND BASE—Kenneth Bell, of Clarendon, Texas, was promoted to technician fifth grade.

Corporal Bell, son of Mr. and Mrs. S. C. Bell, of Clarendon, is the shop clerk in a Ninth Air Force Ordnance Supply and Maintenance Company.

Before entering the service, he was employed by the Farmers Exchange, Clarendon. He was graduated from Clarendon High in 1941 where he was active in all sports.

The Ninth Air Force Service Command of which Corporal Bell is a member is a vast ground network which supplies and maintains all Ninth Air Force fighters and bombers which are flying as an aerial spearhead for the Allied Armies.

### PAYMENT ON JANUARY, FEBRUARY AND MARCH DAIRY PRODUCTION

In order to reduce the administrative expense on handling Dairy Production Payments, it has been decided that production for January, February and March will be paid in one payment.

All dairymen are advised that, beginning April 1, all production for January, February and March will be paid at a rate of 10c per lb. on butterfat and 70c per hundred-weight on whole milk. The closing date for this payment period will be May 1st.

Donley county's Red Cross drive began today, and will continue through March 31st, county War Fund chairman Lee Bell stated this morning.

This county's quota is \$6100, or thirty percent above that of last year due to the urgent need of more funds.

Red Cross workers were early at the task of raising the funds today, and were said to be meeting with a prompt response due to the fact that the public is fully aware of the great service the Red Cross has rendered, and is rendering every minute to our men and women in the service.

When your Red Cross worker meets you, remember that this worker speaks for wounded men lying in hospitals; for American boys stagnating in prison camps and who depend entirely on your Red Cross for most of their food and all the comforts that they ever receive, other than a small amount that gets to them from loved ones working as individuals, through the Red Cross.

Through your Red Cross you hear the thanks and heart-touching appreciation of our boys in whom the bright flame of reason, faith and hope might have died if your Red Cross had not been in touch with them. And we all know that the Red Cross must keep on, and keep serving, keep doing night and day the very things that you would like to do but can't.

So we will give more this year than last because we know that the need is greater than ever. Give to the "Greatest Mother on Earth" because that is the only way we can help. We who are not in the service, can be of great service to those who are, when we pay our debts to those who need help more than at any other period in the world's history when point of numbers is considered. There are those whose loved one is today but a sweet memory. Many of them have a sweet memory of those yet alive and who look to us, and us alone, for the few comforts that they get.

Thirteen members of the Clarendon Chamber of Commerce outlined the work of that committee for the year in a regular meeting at the County Agent's office last Saturday afternoon. C. L. Lewis is chairman of the committee and C. O. Reed is secretary. Other members of the committee attending the meeting were Ross Darby, F. G. Crofford, E. S. Ballew, O. D. Lowry, R. E. Drennan, Frank Hermesmeier, Frank Hardin, J. R. Gillham, Lee Bell, D. E. Leath-ers.

Among activities for the year outlined by the committee were final plans for the Fat Stock Show, work to secure measures to prevent damage to cotton in the county by Carbon black, a dairy show and dairy demonstration day, purchase of quantities of grass seed, cherry trees and other suitable fruits and berries, and work with the OPA to allow farmers to sell and ship cotton in quantities of less than 75 bales. The group voted to ask the directors of the chamber of commerce to set up a revolving fund to purchase seeds and trees so they would be available for farmers desiring the same. Another activity discussed at length, but tabled for the time being was the building of a produce shed for truck crop producers in the county.

Ben Hill, former resident and now a merchant of Vega, had business here Wednesday.

Miss Eva Patching of Amarillo spent the week end with her mother, Mrs. E. G. Patching.

**LIBRARY NOTES**

By Mrs. C. A. Burton

The convention of the Texas Library Association for 1945 which was scheduled to meet at Beaumont has been cancelled in concurrence with the ODT request. Plans for regional meetings are being made instead.

News notes, Bulletin of the Texas Library Association, began its twenty-first year of publication with the January issue. It is a quarterly publication for the promotion of Texas libraries. Texas now has only thirty county libraries, and there are 254 counties in Texas.

The American Library Association says more people were read-

ing in 1944 than in any of the war years, but that there has been a sudden nation-wide drop in technical reading. The hundreds of thousands of industrial workers are now trained, and industry has developed its own training methods. But general reading is increasing. People who were too distracted by war to read are now finding the war an incentive to read. Mothers with husbands away are reading to their children because both are lonely. People are reading about the strange lands where our boys are fighting. Boys are realizing that education counts in the service, and are reading to prepare themselves.

Books on the postwar period are getting much attention, and the outstanding book just now is

**A PROCLAMATION**

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

WHEREAS, under the provisions of its Congressional charter, the American National Red Cross, in this fourth year of the war, is fulfilling its obligations to comfort our wounded, to cheer and help our servicemen on every fighting front, and to provide an essential link between these men and their families at home, thereby relieving anxiety and restoring hope to all those who are suffering and in need of aid; and

WHEREAS this organization is helping the people at home to stand firmly behind our fighting men through its collection of blood for our wounded, its shipment of food parcels, medical supplies, and comfort to our prisoners of war in enemy hands, its production of surgical dressings, and its recruitment of nurses for our Army and Navy; and

WHEREAS the American National Red Cross is also carrying on its peacetime activities by assisting the civilian victims of tornado, flood, and other disaster, and by training the people of our Nation to combat sickness and accident and thus to prevent suffering and death; and

WHEREAS, by the very nature of its services and the principles for which it stands, the American National Red Cross is helping to build a world of unity and peace and brotherhood, recognizing no barriers of creed or race; and

WHEREAS this organization, which represents a tangible expression of the desire of the people to reach out to the Nation's fighting men, now far removed from them, and which is entirely dependent on voluntary contributions to carry out its purposes, is issuing to every citizen of this country its 1945 appeal for a minimum War Fund of \$200,000,000;

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, and President of the American National Red Cross, do hereby designate the month of March 1945 as Red Cross Month, confident in the readiness of the people to respond to the utmost of their ability in support of this organization built by their generous contributions in the past and dedicated to their services in this hour of increasing need.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 19th day of January in the year of our Lord nineteen hundred and forty-five, and of the Independence of the United States of America the one hundred and sixty-ninth.

Since there has been quite a bit of public discussion relative to the methods of treatment of the Jap prisoners in our nation, it appears

to be an excellent plan to turn the Jap prisons and detention camps over to some of the folks who have just been liberated in the Philippines. Our folks may have learned a lot about the language and customs of their captors you know. Best of all, they learned how to treat enemy prisoners according to Jap ideas. Why not let our folks practice what they learned from the yellow race

since the yellow monkeys endorsed the plan so heartily.

## Church News

### METHODIST CHURCH

H. W. Hanks, Pastor

Sunday school at 9:45. Preaching at 10:50. This is to be a special service. I feel sure it will be a blessing to each one who enters into it prayerfully. The Intermediates meet at seven. Preaching at 7:45. Subject, "The Value of forming good habits." We are striving to build up the attendance in all our services. So let each regular attendant make a special effort to bring one more. Then you who are members and

are not attending with any degree of regularity, let me suggest to each of you that you are needed and you need the help that comes from church attendance. It has been pointed out that when the world is at its worse, the church should be at its best. We owe it to ourselves, we owe it to our loved ones in the service. We owe it to our God to try hard to make this world a better place in which to live. So let each one face his responsibility and strive to make our church life the spiritual force that it should be.

### FIRST CHRISTIAN CHURCH

L. Guy Ament, Pastor

ing a study course. The subject will be "Successful Sunday School Teaching."

The church is making a special drive for the Sunday school because we believe children brought up in Sunday school are seldom brought up in court.

**This is a call to America's Heart**

**Your Red Cross faces its greatest task!**

This is the most important appeal for funds in the history of the American Red Cross. After three years of war the work of your Red Cross is greater than ever. It must serve millions of our fighting men abroad. Lonely men. Homesick men. Wounded men. The Red Cross, always at their side, helps to bring them cheer and comfort wherever they may be. It lends a helping hand to the thousands of returning service men—sick, wounded—desperately in need of friendly guidance. And remember, YOU... and you alone... keep the Red Cross alive. For without your help there could be no Red Cross. There are no special funds to keep up its great humanitarian work. The money must come, as always, from the heart of America—you!

Our duty is clear... we must keep the Red Cross at the side of our fighting men and our wounded heroes. We must help the Red Cross in its vital job of sending food and medicine to war prisoners... aiding the ill and lonely overseas... collecting life-giving blood plasma. The scope of the Red Cross is almost limitless. Every Red Cross worker is your personal messenger of sympathy and comfort to your man in uniform.

**Doughboys Fight With Legs and Feet Incased In Ice**

EDITOR'S NOTE—The following article was taken from the Army publication "Stars & Stripes" and was sent in by Sgt. Norman N. McCrary, who is with the 84th Infantry Division now pounding away inside Germany. Sgt. McCrary is a son of Mr. and Mrs. C. L. McCrary of this city. Sgt. McCrary's wife, Neva McCrary lives here in Clarendon.

From "Stars and Stripes" for January 12—"KRAUTS YIELD STRONGHOLD IN BELGIUM TO YANKS WITH LEGS ENCASED IN ICE"—With the 84th Division, north of Laroche, January 11 (UP)—Men with their legs incased in ice have taken the village of Marcouray—men who rose up from the attack from the snow-banked foxholes in a freezing hell where the Germans were only half the enemy. The battle ended yesterday afternoon and it only took 40 minutes to get it over with. But that only tells the start of what the men went through to fight it. The night before the attack on Marcouray, the battalion which was assigned to the job had no sleep but had to fight from foxholes as the snow continued to drift down on them. They successfully defended their territory. They had won it the hard way for eleven hours through mines, through woods, and through ice and they fought till 4 a. m. At 4 o'clock the order came up for

Marcouray and up they came, shaking snow from their backs and pulling equipment with frost numbed fingers. And just before they reached the jump-off line, they waded knee-deep through a stream. Half an hour later, their pants legs and shoes were solid blocks of ice.

The battalion commander, Major Roland J. Kolb, sent them in led by companies under Capt. Sam J. Adams of Columbus, Ga., and Capt. Earl L. Jackson of Carbondale, Ill. Before them were 150 Germans, plus tanks, plus machine guns and the Nazi version of the bazooka. The Jerries got a rain of fire from the American artillery for five minutes with every divisional gun, plus the corps batteries, zeroed in on the village. The barrage ended, the companies went in through the pine forests and cut into the windswept, open ground around the village itself and reports came back that the Germans were losing heavily from the gunfire and were ready to get out. Most of them didn't. The village was taken all right and this afternoon with the night ahead and a lowering sky—with mortars and German artillery laying them in—the men of this battalion from the old "Rail-splitter" Division dug in as the snow fell to hold on to what they had taken yesterday."

### GEORGE WASHINGTON'S BIRTHDAY

The students of C.H.S. and C.J.C. were extremely pleased when Mr. Drennan announced that they would receive a holiday Thursday. The "Corner Canteen" was opened at three o'clock Thursday afternoon and remained open until around eleven o'clock that night. There were many games of dominoes, checkers, and ping-pong played. The juke box played continuously so that anyone could "cut a rug" when he felt like it. And believe me, Tuffy Ellis can really "cut a rug"! After everyone had played games and danced until they were exhausted, they all agreed that they were very glad that George Washington was born!

**More Honorable Than The Star and Garter**

The American people are notorious "joiners." Social prestige and business prosperity are sometimes more easily attained by membership in fraternal and civic organizations.

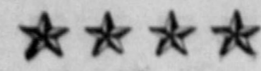

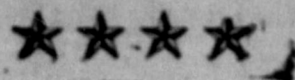

The Red Cross roll call offers none of these advantages—it is an organization whose members have associated themselves together for the sole purpose of lightening human suffering.

Here are but three of the things you are supplying when you join this great organization:

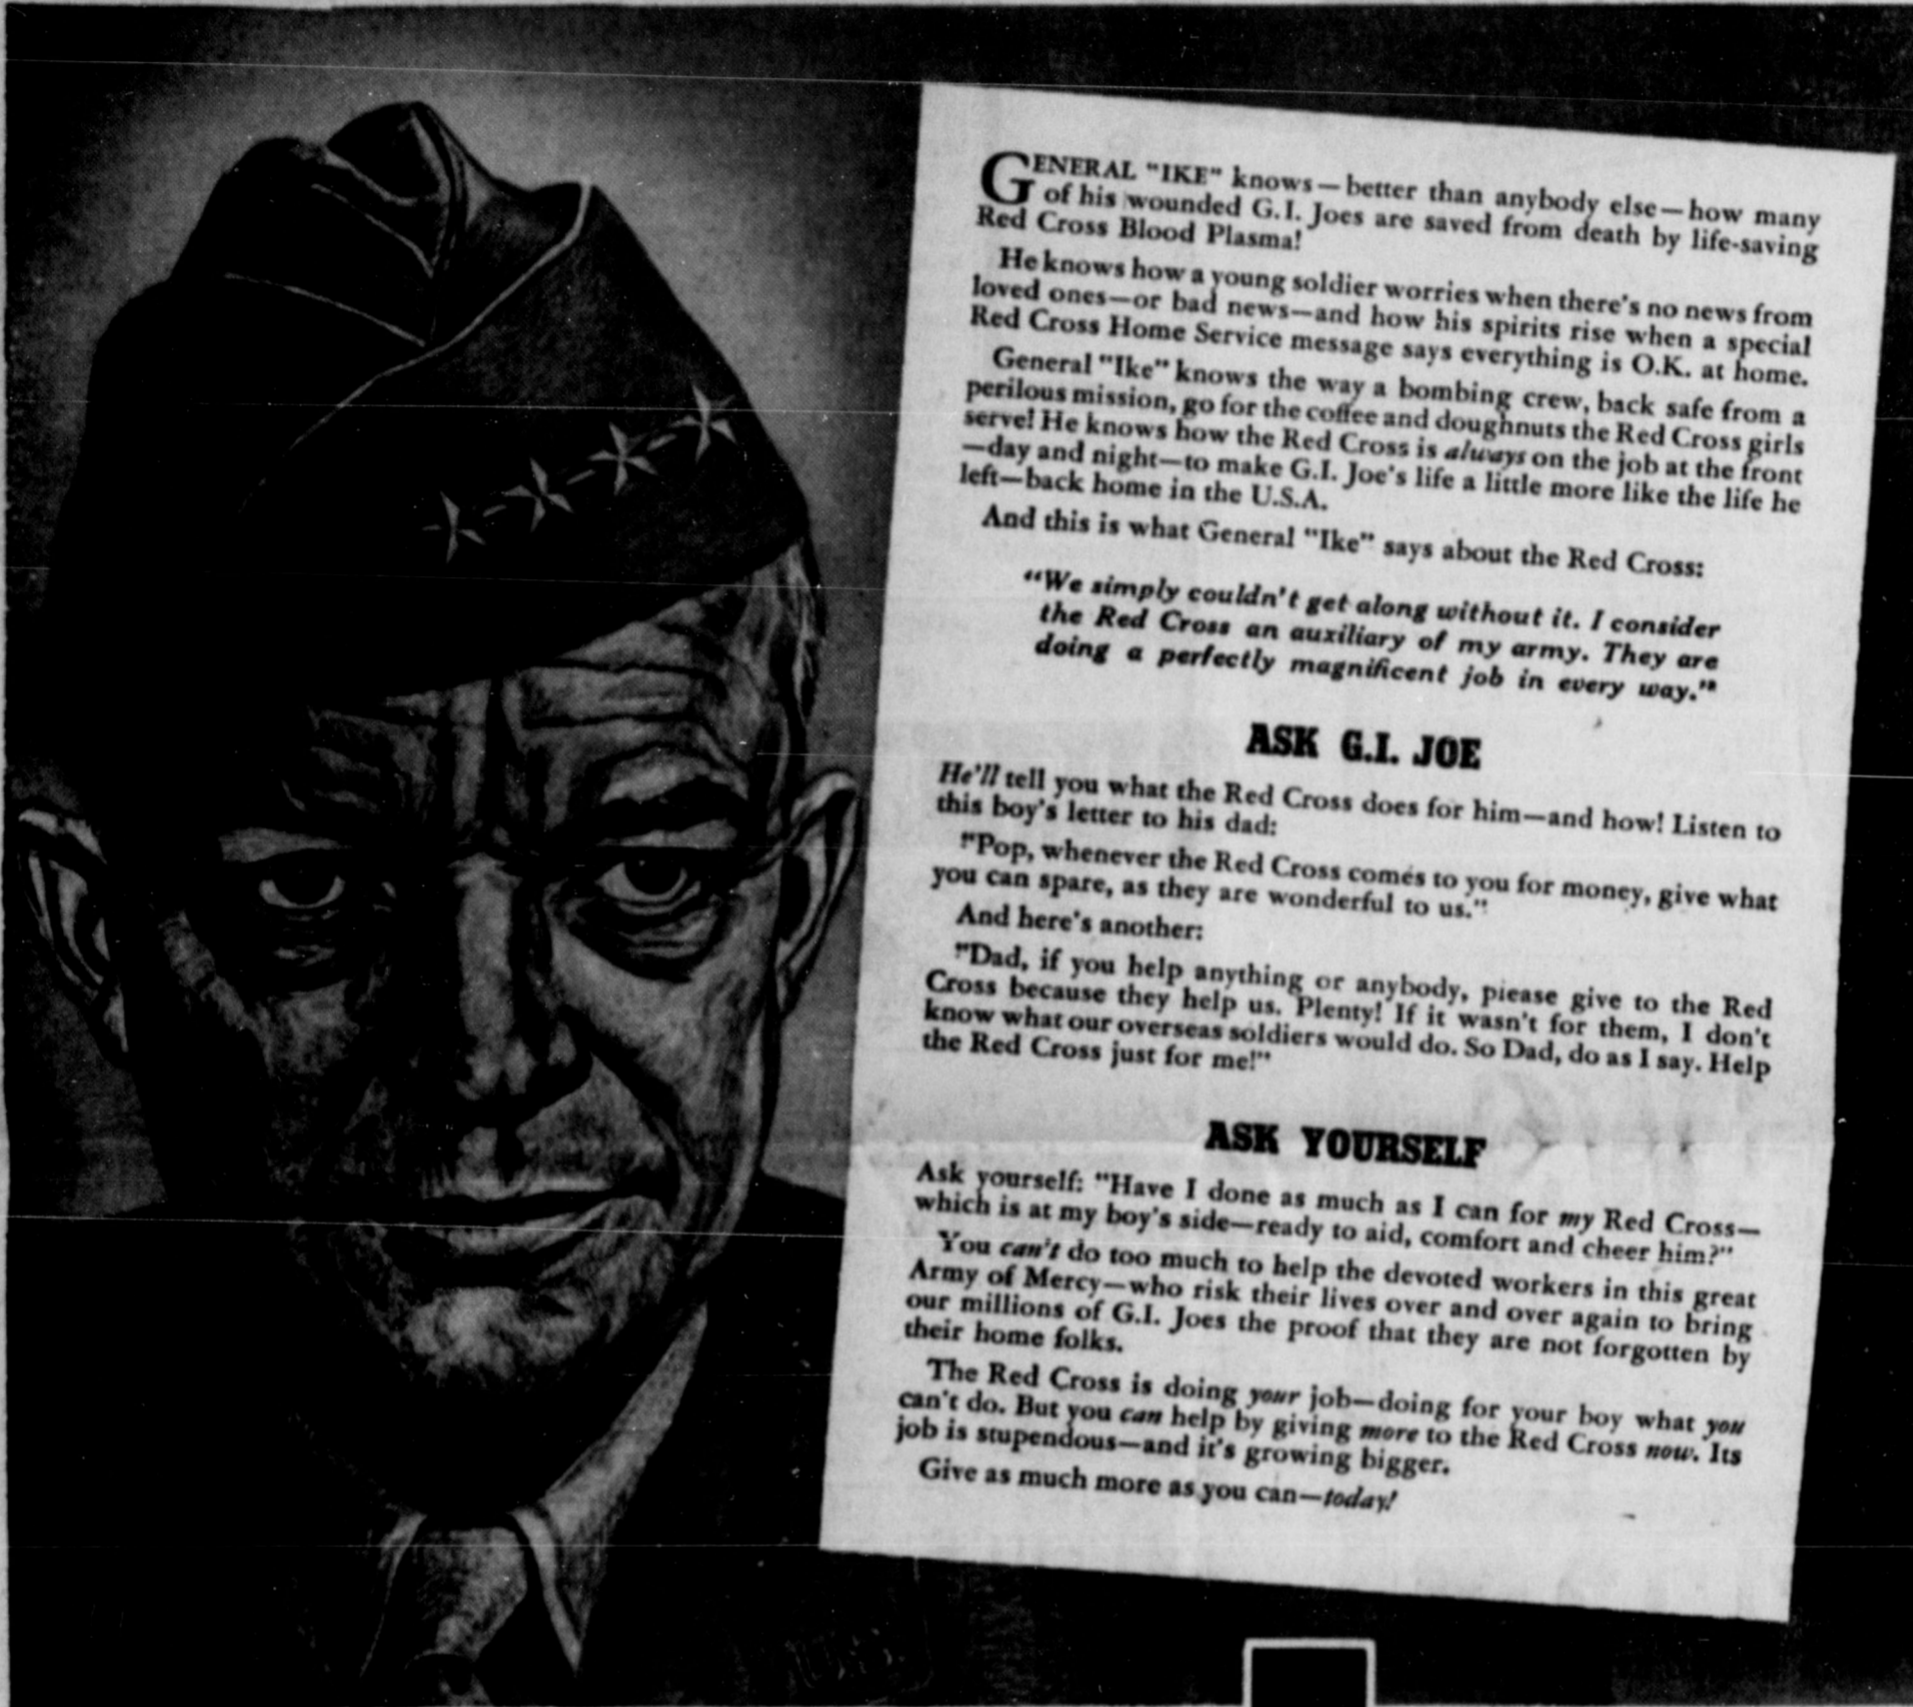

1. Surgical dressings for the wounded.
2. Blood plasma, without which many men could not live.
3. Food, clothing, and recreation to those gaunt men behind barbed wire—our sons, and sons of our friends and neighbors.

Can you envisage any other order half so honorable—half so worthy? Dig deep, folks! In this lifetime, no greater opportunity for loving kindness, mercy, and benevolence will be offered you.

# Ask General Eisenhower what your RED CROSS is doing for our Fighting Men

GENERAL "IKE" knows—better than anybody else—how many of his wounded G.I. Joes are saved from death by life-saving Red Cross Blood Plasma!

He knows how a young soldier worries when there's no news from loved ones—or bad news—and how his spirits rise when a special Red Cross Home Service message says everything is O.K. at home.

General "Ike" knows the way a bombing crew, back safe from a perilous mission, go for the coffee and doughnuts the Red Cross girls serve! He knows how the Red Cross is *always* on the job at the front—day and night—to make G.I. Joe's life a little more like the life he left—back home in the U.S.A.

And this is what General "Ike" says about the Red Cross:

*"We simply couldn't get along without it. I consider the Red Cross an auxiliary of my army. They are doing a perfectly magnificent job in every way."*

### ASK G.I. JOE

He'll tell you what the Red Cross does for him—and how! Listen to this boy's letter to his dad:

"Pop, whenever the Red Cross comes to you for money, give what you can spare, as they are wonderful to us."

And here's another:

"Dad, if you help anything or anybody, please give to the Red Cross because they help us. Plenty! If it wasn't for them, I don't know what our overseas soldiers would do. So Dad, do as I say. Help the Red Cross just for me!"

### ASK YOURSELF

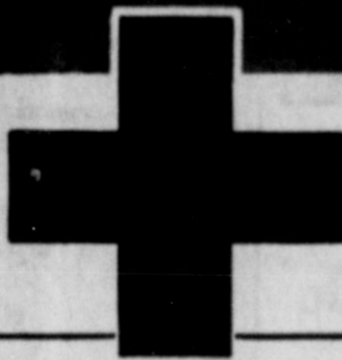

Ask yourself: "Have I done as much as I can for my Red Cross—which is at my boy's side—ready to aid, comfort and cheer him?"

You can't do too much to help the devoted workers in this great Army of Mercy—who risk their lives over and over again to bring our millions of G.I. Joes the proof that they are not forgotten by their home folks.

The Red Cross is doing *your* job—doing for your boy what you can't do. But you can help by giving *more* to the Red Cross now. Its job is stupendous—and it's growing bigger.

Give as much more as you can—*today!*

## The Red Cross At The Rest Camp

WITH THE 36th "TEXAS" DIVISION, 7th ARMY, France—The work done by the American Red Cross at the 36th "Texas" Division Rest Camp cannot be overestimated. Doughboys have proclaimed the camp by far the finest they have ever visited, and not one leaves after his rest without praising Red Cross Field Director William Fine and Red Cross lassies Carmel White and Katherine McDonald.

The Red Cross Corral is the center of the entire camp. It is the gathering spot where the men can find big soft easy chairs in which to relax and listen to the radio and swap stories. In the Corral is the library of popular magazines procured through the Red Cross. There too is the writing room, well stocked with pens and ink and paper. During December, Mr. Fine secured seventy-five thousand sheets of writing paper, thirty thousand envelopes, as well as enough wrapping paper and twine to enable the men to send home souvenirs. He also provided the souvenirs—perfume, pipes, and gaily-decorated wooden shoes.

Adjoining the Corral is the Red Cross Snack Bar, a boon to late risers. Coffee is always available during the morning, and, after the evening movie, it becomes the bustling center of activity. Until the supply gives out, "Candy" White and "Kay" McDonald pass out hot coffee and fancy pastry. This is the gayest hour of the day.

The Red Cross also discovered that the local photographer could take care of all the men providing she could get an adequate supply of hypo-sulphate to develop the negatives. Mr. Fine got it. When the Special Services Officer discovered he needed mess articles, Mr. Fine located them, from three hundred soup bowls and three hundred drinking glasses to a dozen cooking kettles and sixty candles.

But the Red Cross at the rest camp does a lot more than find perfume and buy kettles. The Field Service Office is always open to help the men with their home problems, to write letters for them, purchase special presents at their request. When the Chaplain discovered that certain material would be of considerable value to him, Mr. Fine tracked down a supply and secured it.

All the work done at the rest camp is in addition to the regular Red Cross activity with the Division. Both Miss White and Miss McDonald are on temporary duty with the Rest Camp. In addition to these, four girls are regularly at work with the line units, as well as several Field Directors.

At the dances held twice-weekly, most popular partners on the floor are ex-actress White and ex-model McDonald, when they get on the floor between sessions at the Snack Bar, which is set up at the dance pavillion to supply the dancers with extra energy.

But the compliment one of them treasures more than any was given by a grinning doughboy as he plunked her squarely with a snowball: "Those gals," he said, "Those gals are it."

### CARD OF THANKS

A card of thanks to our friends and neighbors in and around Clarendon.

Gone is the face we loved so dear,

Silent is the voice we loved to hear;

Too far away for sight or speech,

But not too far for thought to reach.

Sweet to remember her who once was here,

And who, though absent, is just as dear.

"Even there shall thy right hand lead me, and thy right hand shall hold me. Psalm 139:10.

We wish to express to our friends and neighbors our heartfelt thanks and appreciation for your kindness and consideration to us during the illness and death of our beloved mother and grandmother. Words are inadequate to express our gratitude to you, but we wish to say your thoughtfulness in our time of sorrow helped to lighten our burden. May God's richest blessings be with you and may you receive the same kindness and thoughtfulness when the shadow of death crosses your threshold.

The children: Mrs. Thursie Mason, Floyd Jones, John Jones, Mrs. Pearl Bailey, Guy Jones and Mrs. Ladelle Evans.

At an air service command station in England he has attended a series of lectures given by veterans of this command which included instructions on chemical warfare defense and pertinent tips on staying healthy in a combat zone.

A soldier on the march felt something in his G.I. shoes. His toe became painful and he was limping badly by the time he got back to camp. He took off his shoe and sock to bathe his blistered foot and found a pellet of paper lodged in the toe of his sock on which was written: "God bless the soldier who wears these socks."

WHERE THE POCKET KNIVES GO

The mystery of where that pocket knife you wanted to buy has gone is cleared up by an announcement this week of WPB. To meet the urgent need of bomber crews, ski troopers, sailors, and other members of the armed forces for pocket knives, employment in the pocket knife industry

must be expanded to point that will permit production in the first half of 1945 of approximately 5,000,000 pocket knives per quarter, WPB states. Each pocket knife is a miniature engineering project. Making the simplest type of knife requires about 40 separate operations, while a more complicated four-bladed knife, containing some 20 pieces, requires about 100 operations.

Authorities emphatically state that counterfeiting, theft and illegal distribution of all types of ration coupons constitutes one of the greatest menaces today.
