DR. SLOVER RESIGNS COLLEGE PRESIDENCY

TRADE TRIP TO ADVERTISE DOLLAR DAY MONDAY IS SUCCESSFUL EVENT

EIGHT TOWNS AND VILLAGES VISITED AND CLARENDON IS ADVERTISED WELL OVER TRADE TERRITORY TO SOUTH. MUNICIPAL BAND MAKES HIT IN ALL TOWNS VISITED ON TRIP. EIGHTY MILES COVERED IN THIS THE FIRST TRIP.

Forty business men of the city of Clarendon, including the Municipal Band were the members of the first Trade Trip for the Dollar Days of the city on Wednesday of this week. The party left the city at 9:30 in the morning and made a trip of approximately eighty miles and covered a wide scope of territory in their round.

The first stop was made at the city of Brice, where the band unlimbered their instruments and played for the people that happened to be in the city and to the school children who were turned out to give the Clarendon delegation a reception.

From Brice, the cavalcade made its way to the settlement of Lesley, where a short stop was made at the stores. A little longer stop was made at the school house, where the band again played for the assembled students in the building. Advertising material was distributed and A. T. Holcomb made the announcement of the affair that is to be held in Clarendon on Monday of next week.

Lakeview was scheduled to be the next stop and was the place set upon by the committee for the meals to be served to the party. Quite a bit of merriment was caused when the restaurant manager stated that the dinner had been prepared for a delegation from Memphis and that it was being consumed by the folk from Clarendon. A later discovery showed that the call had been made from Clarendon through Memphis and relayed to Lakeview. This was the reason given for the thought that the food was prepared for Memphis. Quite a stop was made here and the band was given another opportunity to strut its stuff. The first place stopped at in this city was one of the new buildings that is occupied by the B. Webster Cash Grocery and it was in this place that the instruments were left while the meal was being consumed. The Busy Bee Cafe was the center attraction for a while with Mr. J. P. King as the manager and owner.

En route from Lakeview to Memphis a short stop was made at the Eli School house where Miss Rena Rutherford helped to entertain the visitors with a full attendance of the school children. The city of Memphis was visited for about one hour and the party scattered over the city and helped to make Memphis know that Clarendon was left on the map. The band was called into action here and the Memphis folk were given a treat in the musical line.

Giles was the next stop and the populace was entertained with a short selection by the band and by a few minutes of talking by the members of the party. Hedley was the next scheduled stop and another short program was given. The populace was invited to attend the Dollar Day here next Monday and other advertising propaganda was put in their hands.

Lelia Lake was the last stop on the schedule and only a short time was spent here as the advertising material was exhausted and the party was slightly tired by the trip just finished. The band played their best and the last of the advertising matter was disposed of. The return to home was made in short time and the band was dispersed after they had delivered a short concert on the main street of the city and announcement of the Dollar Day was made on the street.

Nine cars made the trip and not one of them had the least bit of trouble with any part of their mechanism or in their tires. The roads were in fair condition and the day turned to fair after the morning had promised so little in the way of sunshine. Advertising matter of various sorts was distributed in the towns and cities passed through and much was accomplished toward putting the dollar day over for the first time this spring.

Mr. and Mrs. Fred Buntin left Sunday evening for Fort Worth, where Mrs. Buntin was taken for medical treatment. At last account, Mrs. Buntin was resting easily and her condition after the trip was as good as could have been expected.

FARMERS' GIN MEMBERS MEET

ANNUAL MEETING OF MEMBERSHIP IS HELD LAST THURSDAY.

The annual meeting of the Farmers' Co-operative Society was held last Thursday afternoon, April 1st in the City Hall. The meeting was held for the purpose of hearing the annual report of the Board of Directors, for the election of officers for the coming year and for the transaction of such other business as might come to the attention of the membership.

The roll call was the first thing on the schedule for the afternoon, with payment of dues as a requisite necessary for voting. After this was finished, the meeting turned to the election of the board of directors and officers for the coming year. The same board of directors were retained to hold office for the coming year. Messrs C. J. Talley of the Martin Community and E. H. Kennedy of Lelia Lake being elected to hold office for two years. Edwin Baley, Jess Davis and J. E. Baker were re-elected to the other places on the board.

Jess Davis was elected to the position of Secretary of the board for the coming year and J. E. Baker was again placed in the office of president. Their report, made for the year closed was printed in part in a recent issue of the News and was accepted with much acclaim by the members of the society. Nothing more to come to the attention of the society, the membership adjourned to meet again on special call of the board of directors.

CLARENDON IS OFFERED GAS BY FIRM IN CANADA

A. T. Holcomb, Secretary-Manager of the Clarendon Chamber of Commerce received a letter Tuesday evening of this week from one J. W. Howard of the United Development Company of Chatham Ontario. The letter was in regard to the gas franchise in the city of Clarendon and means that Clarendon is securing some favorable publicity. The letter is proof enough that the people in general are interested in the gas situation in Clarendon and opens another avenue to Clarendon for the reception of gas in the near future.

M. E. REVIVAL STARTS SUNDAY

REV. ELLIS TO CONDUCT SERIES OF MEETINGS FOR TWO WEEKS.

In line with the usual custom with the Methodist Church in Clarendon, there will be a two weeks series of revival services held in the Methodist Church beginning with the eleven o'clock hour on Sunday next, which is April 11th.

Rev. T. H. Ellis, Conference Evangelist will conduct the services and it is expected that much good will come to the series of meetings which will be held here. The hours of the morning services have not yet been announced but the evening services will begin at 7:45 as is the custom with the other services in that church for the present time. The hour for the other services will be announced at a later date.

All folk of the city are invited to attend the services and help to make them a great benefit to the community.

Dan Spencer of Texline was a visitor in the Frank Pounds home over the last week end.

"It Won't Be Long, Now."

SPRING TERM IS VERY BUSY TIME

DISTRICT COURT HAS BUSY SESSION AND HAS MORE WORK TO DO.

The usual custom of the District Court in Donley County has been reversed in the spring session this year. One of the heaviest dockets that has ever been seen in the county is before the court for its disposal and the work continues to pile up in an alarming manner.

Next week will see a continuation of the Criminal docket with the jury called for 9:30 on Monday morning. The Grand Jury has been heard at work all this week and are expected to finish their deliberations in a short time and it is possible that their report will be available for the next issue of the News.

A number of cases have been wiped off the docket this week, the majority of the offenders receiving suspended sentences of a comparatively light nature. R. L. Blackman was given a five years suspended sentence for bootlegging. Jimmy Rhoads was given five years suspended sentence for forgery. Goldie Parker and Elmer Busby were each given a two year suspended sentence on a charge of transporting intoxicating liquor. O. Pacheco was given a five year suspended sentence on a charge of forgery. Elmer Waters was given a term of one year in the state prison for the possession of intoxicating liquor. The court was busily engaged as the News was made ready to go to press and will have other activities to report in the next issue of the paper.

The following is the list of Petit Jurors that are called to meet in the court house next Monday morning at 9:30 for a continuation of the work now on hand.

C. W. Bain, W. B. Ayers, W. B. Weston, T. E. Bailey, R. L. Bigger, Matt Bennett, Theo Wood, J. L. Bain, Reagan Bryan O. L. Jacobs, W. R. Middlebrook, Ira Merchant, H. E. Burnam, W. W. James, R. M. Wilson, M. A. Josey, G. W. Kemp, L. A. Kalka, W. Kennedy, W. J. Carnes, F. Kendall, E. H. Kennedy, A. T. Jeffries, R. T. Brown, H. M. Ellis, R. V. Hagler, M. E. Bell, S. C. Bell, J. O. Wood, S. G. Evans, E. L. Speed, W. A. Black, L. N. Cox, W. M. Pickering, N. A. Swartz, George A. McConnell, A. D. Shaver, R. E. Beach, P. L. Chamberlain, J. R. Lafon.

TWO ELECTIONS ARE VERY QUIET

CITY AND SCHOOL ELECTIONS POLL VERY FEW VOTES HERE.

Two elections that have been held here the past week have drawn but little attention from the people of the city. The school election held Saturday afternoon of last week in the Central Ward building and the City Election was held Tuesday in the City Hall. Less than one hundred votes were cast in combined elections.

In the school election, Messrs C. C. Powell, Matt Bennett and Fred Chamberlain were re-elected to their places on the School Board for the coming term. There was no opposition to the candidacy of these three men who were elected to the places on the board. The election was very quiet, having been advertised by the posting of notice and very few voters of the city knew that such an election was even being held in town.

The city election was pretty much the same story re-told with the exception that more votes were cast than in the school election. Messrs J. T. Sims, Sr., and A. L. Chase were re-elected to their places on the commission and will take their offices at once and will continue with their tasks as before.

MISS RUTHERFORD MAKES IMPROVEMENT IN SHOPPE

One of the business houses on the main street of the city that has made some improvements to their place of business is that of Miss Ethel Rutherford. A great improvement has been made in the display window of the place, the window was increased in size and an appropriate background has been added to make it one of the most attractive in the city. The interior has been remodeled to some extent and new draperies have been added to make it one of the most attractive places in the city. The door has been enlarged and the lighting effects in the place have been much bettered. The whole tone of the interior has been helped to a great extent by these improvements.

L. H. Johnson attended to business in Amarillo Tuesday of this week.

BOY SCOUT FUND SHOWS GOOD SUM

EFFORTS OF MEN INTERESTED IN WORK IN CLARENDON SHOW GOOD RESULTS.

The results of the recently finished Boy Scout drive in Clarendon were such as to make the most optimistic person in the city feel that his efforts were of some little avail to say the least. Charles Dean, Chairman of the finance committee for Clarendon was in the News office the fore part of this week and stated that there was sufficient money in the treasurer to pay the first quarter's pledge to the Panhandle Council and leave a fair margin for operating expenses during the next period.

The committee who have this work in hand state that they do not wish to force the issue on any person who is not interested in the movement, but that there are some in the city that have not been seen and that they will be around at some near date in the future to secure the pledges for the new year. The scout year begins with the month of April and this year has seen 1926 open with a great deal of enthusiasm.

The organization of the third troop in Clarendon will mean that there is an opportunity for more boys in the city to secure the benefits from the scout work and that the citizens of the city will be given a chance to see what the Troop training can do to their own boys.

BALL ADDS BOOTHS TO DRUG STORE FURNISHINGS

One of the most timely additions to the furnishings of the drug store of the city is the new set of booths that have been installed in the back part of the Ball Drug Company of this city. Tables have been provided with chairs to match and will make quite an addition to the furnishings of the city. The booths will be furnished in contrasting colors and will be among the most attractive places in the city.

Mr. and Mrs. A. Baldwin of Memphis spent last Sunday in the home of Mr. and Mrs. W. W. Buck in this city.

Misses Essie Patton and Lorene Thornton spent Sunday in Wellington with friends.

VETERAN COLLEGE HEAD ASKS FOR RELEASE ACCOUNT HEALTH

DR. SLOVER WILL SEEK HEALTH AFTER TWO SERIOUS OPERATIONS AND TEN MONTHS' PHYSICAL DEPLETION. CLOSES NINETEEN YEARS OF REMARKABLE ACHIEVEMENTS AS PRESIDENT OF CLARENDON COLLEGE.

LOCAL BANKER SAYS DIVERSIFY

J. D. SWIFT BASES ADVICE ON FIFTEEN YEARS' EXPERIENCE.

"After an experience of fifteen years in the banking business in this section, I believe that this year is one of uncertainty for the farmer and, of course, the rest of us. It looks to me like it is more necessary for a diversity of farm products this year than ever before," is the way Mr. J. D. Swift, cashier of the Farmers State Bank of Clarendon sizes up the situation in 1926, from an agricultural standpoint. Mr. Swift spent the first six years of his banking experience in Hall County, where the conditions are very similar to those here in Donley County, where he has been connected in official capacity with Hedley and Clarendon banks for the past nine years.

When asked if he considered Commissioner Terrell's prediction of twelve cent cotton this fall, too low, Mr. Swift said that if there were no storm or insect scourges in the great cotton belt of the South, he felt sure that Mr. Terrell was about correct in his estimate. Mr. Swift further stated that from his long observation, twelve cent cotton for our local farmers was not a paying crop on account of the price of labor. "If our farmers will practice real diversity this year, there is no reason why 1926 should not be a good year for Donley County," continued Mr. Swift. "A few acres given to sweet corn, peas, beans, canteloupes, melons and the like, by every farmer will net this county something like \$100,000 in cash during the summer months when they are usually forced to borrow a little money, and this sum will enable them to live well during the hot months, giving them their fall crops as a real money crop, whatever they may bring."

Mr. Swift is enthusiastic over the greatly increased market the oil boom is creating in Amarillo, Panhandle and Pampa, and feels that no county is situated so favorably for supplying that market as is Donley County. Some very interesting figures on this market are given in the combined advertising space of the three Clarendon banks on page two of this issue which our bankers feel is a conservative estimate and worthy of consideration.

PRE-EASTER CAMPAIGN CLOSED

SHORT SERIES OF MEETINGS LEAVES GOOD IMPRESSION ON CHURCH.

The weather man played a prank with the pre-easter campaign of the First Christian Church of this city when the cold and wet weather kept the folk of the city from attending the services in the church. Rev. Algie B. Crocker stated that the services held the fore part of the week were not so well attended but that the latter part of the week was more to the purpose.

There were no additions to the church, but the general tone of services in the church work has taken a definite step forward and will be seen to improve as the days pass. At the Sunday services, there were more in attendance than has been the case for practically a year. The Sunday School was especially well attended. The series of meetings concluded with the Pageant given on Sunday evening.

Miss Willis Palmer made the trip in from Alanreed early this past week.

After nineteen years' of successful administration of the affairs of Clarendon College and following a desperate operation and illness, Dr. George S. Slover presented his resignation as president of Clarendon College to the local board of trustees in a meeting held Monday afternoon in the parlors of his home in Clarendon. The resignation cannot be officially accepted until the meeting of the general board of trustees which meets in Clarendon in the next few weeks, but Dr. Slover presented the well-known facts of his physical condition and asked that the local board recommend its acceptance by the governing body.

While Dr. Slover's request for release was not wholly unexpected, nevertheless it came to the attention of the local board as a most momentous crisis in the affairs of the College and in their long relations with its president. Expressions of regret were heard from all the members and a most touching statement was made by H. W. Taylor, the only member who was on the board when Dr. Slover assumed the presidency nineteen years ago. Profound concern is felt among the board membership over the influence on the school Dr. Slover's resignation brings about but there is a deeper feeling of concern over his return to health and vigor through many months rest and recuperation, therefore their acquiescence was mingled with regret over the conditions that brought about the severance of capacity, and desire to cooperate in any way that would assist in his early recovery.

Dr. Slover does not give up the responsibilities at once, but will still give what oversight his strength will permit until the general board can secure a suitable man for the presidency.

When the news of Dr. Slover's retirement was noised about town, on every hand were heard sincere expressions of regret and tribute to his work with Clarendon College. The school was on the verge of being closed when he came to assume the presidency in 1908, the physical equipment was only a small brick administration building, two frame dormitories, and the student body and faculty were few in number. Clarendon rallied to Dr. Slover's coming and funds were provided for the present commodious administration building, so with this addition, the school began a steady growth until it stands today with a valued equipment of near a half-million dollars, and next September becomes a Senior ranking college, with a great future before it.

Few can understand the struggle through which Dr. Slover has passed since his recent return from the hospital in Fort Worth where for days his life was despaired of. It is no passing trifle for a man who has given two decades of the productive years of his life to a loving task such as the building of a college—it is no trifle for that man to see his health swept from him just as his task is about to be crowned with higher success—to settle in the quiet of a convalescent room, that he may go no further with his cherished plans; that he must lay aside the reins of direction into younger and stronger hands. It is a decision worthy of a big man, for little men cannot brook the inevitable. It is the decision of devotion.

Dr. Slover has resigned. A new president will probably be elected. Clarendon College will go on with renewed vigor from its present stable foundation. But no one, anywhere, will watch its progress with more intense interest—no one, anywhere, will pray more earnestly for its success than Dr. Slover, for no one loves Clarendon College as does he.

Mr. and Mrs. Monty Garrison and Cyrus Cope attended the safety meeting in Childress Monday of this week and remained over for the stove demonstration Tuesday.

Mr. and Mrs. P. A. Buntin returned last Saturday from an extended visit in the Rio-Grande Valley and other points in the southern Texas. They report a fine trip but that Clarendon looks better to them than any place they saw.

C. C. Woodson has bought the Quanah Times from his former partner, A. C. Smith. Charley Woodson is a smart young newspaper man and we welcome him back to the Panhandle.

Clarendon bankers are offering some constructive suggestions to Donley County farmers in their combined advertising space in The News, which is worth your while to read. They are offering logical reasons as to why they believe they are right about the matter and we feel that the suggestions will be taken in the right spirit by our producers of this section. In harmony there is great strength and satisfaction.

Press reports say that the Postoffice department of the United States lost \$28,000,000 last year. That's nothing new, nor will it cease until the department quits selling printed stamped envelopes at a loss, while at the same time it is in unfair competition with the printing industry of the nation. It has no more right to sell printed envelopes than it has to sell shoes, or sugar or coffee. Shoot straight with the printers, Uncle.

"Dollar Day" next Monday, April 12th, marks the first of a series of like events to be staged by Clarendon merchants until the fall months. Great effort is being made to entertain a great gathering of visitors from thirty or forty miles around on that day and the main attractions will be the special bargains offered in every establishment in Clarendon for the sum of one dollar for the day only. Come early, bring your neighbors and see just how many of the wonderful dollar bargains you can use on this occasion. "Dollar Day" means savings day for every family in the whole countryside. This is a personal invitation.

Our old friend Denver Chesnut, editor of the Kennedy Advance, has been placed in charge of the newspaper men's golf tournament to be held on the Breckenridge park course at San Antonio during the coming convention of the Texas Press Association, which meets there on June 10-11-12. Now Denver has announced that he may offer two cups to even up the "difference" between the Panhandle golfers who are "snowed in" and can't get any practice, while our South Texas brethren are enjoying the pleasures of daily practice in the balmy ozone of that flower-laden clime. All right, all right—go on and insult us, but it were better to play golf in the snow garbed in track suits than to swelter in that torrid zone a la September Morn. Then another thing, Denver, we want to know if we have got to meet that redoubtable golfer from that region who refuses to abide by the rules enunciated on Mount Sinai, and carries an extra caddy along to furnish the sand for his "tees" in and out of the fairway. If so, it looks like there ought to be three cups offered.

Our statistician explains the coming results in the governor's race as follows: "Ma" will receive her usual 170,000 votes; Lynch Davidson will bring along his 280,000 votes; Dan Moody will have around 215,000 labor and enthusiasts who will stick with him to the last. This will mean Lynch and Dan in the run-off with Lynch getting 70,000 Ferguson votes (non-labor) and Dan getting the 100,000 labor votes who will stick to Ferguson in the first primary, leaving the final count something like this, Davidson 350,000 votes with Moody 285,000.—Richardson Echo.

Houston's mayor has ordered all construction work on Sunday in that city stopped instanter. In giving his orders to the chief of police, His Honor made this statement—"If Houston can't exceed last year's building record without Sunday work, then let the record go." This sentiment is worthy of attention and consideration. Work on Sunday, from a few hours to a full day's schedule, is not confined altogether to the large cities, and the nation is in peril from the increasing use of Sunday as a day of profit making. There is a wide difference of opinion as to how far we may go in the matter of recreation and there are lots of people who want to set themselves up as judge over the sort of recreation their neighbors may take, while holding to their own with all the selfishness that usually characterizes people of that ilk, but what The News would like to bring to your attention, is the fact that even if a person should go to extremes in the matter of recreational activities on the Sabbath, he is far and away above the person who will appropriate the hours of Sunday for the low ends of profit. The Mayor of Houston is right.

A STRIKING EXAMPLE OF BROAD CHRISTIAN APPEAL

Saturday, just before Easter, a group of Kansas City business men ran a full page advertisement addressed to "Flaming Youth" of that city, which is one of the finest examples of an understanding appeal to the young people in the interest of Christianity and the Church ever coming under our notice. It is so free from the customary caustic strictures against the joyousness and carelessness of youth, it is so full of loving understanding of the point of view of our young people, it is so suggestive of the quiet strength of Christ and his busy, intensive life, that we feel it worthy of study by every Christian and every lover of our young people, regardless of age or denomination. Here it is:

"A Thought for Easter Morn"

"The Charleston is great fun. There's no denying that. The wee-hour parties, the joy rides, the wailing saxophone, the mile-a-minute one-step put a kick into life, set the blood surging and lift you above the humdrum, workaday world into a fairyland of laughter and song.

"It may be only a temporary fairyland and somewhat overdone with tinsel and gilt, but it's real while it lasts.

"You have a right to a good time and you are going to claim that right.

"And so your daily and nightly existence becomes one glorious thrill after another. 'What's new?' You ask. The latest song, the snappiest dance, the fastest orchestra, always seeking, always searching, always exploring—hoping for something, striving for something.

"What is that something toward which you are groping?"

"Could it be God?"

"Could it be that these physical pleasures are but the shadow, the mirrored reflection of a capacity for spiritual enjoyment whose depths you have never sounded.

"You say you are after 'big time stuff.' Then why don't you come into the main tent?"

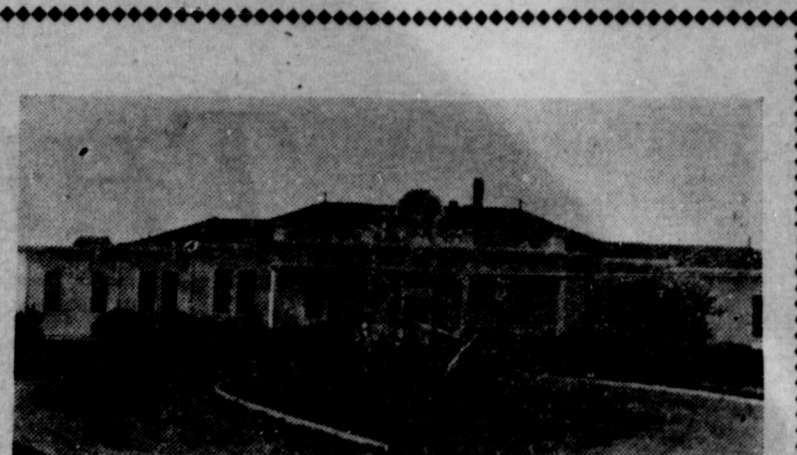

"The real thing is better than any tawdry imitation. There are thrills galore in Christian life, thrills that will last to the grave—and beyond.

"Christ typified youth. He lived intensely. He died a young man. Maybe he knows your problems.

"Be a sport and give Him a chance. He will not take the fun out of life. He will add to it. He is a builder."

NEW DESK AND STORAGE RACK IS MADE AT HOME

One of the neatest pieces of office furniture that has been installed in Clarendon for the past few weeks was that placed in the News office the latter part of last week. This piece of furniture is a desk, made for a standing position. The front of the fixture is paneled while the back is cut into various compartments to care for the stationery, books, files, etc., required in the office of the News. One end is made to hold the safe, the center section consists of a series of shelves while the remainder is given to drawers of various depths to meet the needs of the moment. The whole was constructed in the Clarendon Planing Mill by E. A. Taylor and his helpers and is an addition that has long been needed in the office of the News. The fixture is finished in natural colors with a coat of varnish and is quite pleasing to the eye.

THE ADAIR HOSPITAL
CLARENDON, TEXAS

Visiting hours:

9:30 to 11:30 A. M. 3:00 to 5:00 P. M. 7:00 to 9:00 P. M.

LAKEVIEW DIRECTORY TO BE PRINTED BY THE NEWS

Copy was received the fore part of this week for the Lakeview, Texas Telephone Directory for the year just ahead. The book will be about thirty pages and is to be

completed at the earliest possible date to allow leeway for the printing of the other work that is now in the office of the News. The News printed this directory for the Lakeview exchange two years ago.

CO-OPERATION WILL ACCOMPLISH ANYTHING

The growth of Texas is shown in statistics of the increase in demand for the service of electricity during the past year.

This service is an essential service. It is public service. Its success can best be measured by the success of the community and the people who use it. The community can not go forward socially, industrially or in a business way without electrical service that is always dependable and as good as it is possible to make it.

This company is supplying good service to the people of this community. It is preparing all the time to be ready to supply more service as rapidly as the growth of the community shall call for it.

The best interests of this community and this company are tied up together. Our success depends upon each other. Cooperation will accomplish anything. Our chief purpose is to cooperate with our customers and our aim, as near 100 per cent service as it is humanly possible to give.

TEXAS CENTRAL POWER CO.

PHONE 100 MONTY R. GARRISON, Mgr.

Another Suggestion That Might BE Worth Over \$100,000.00

Conservative, reliable people estimate that there are now 28,000 people in Amarillo and that there will be over 10,000 people in the Panhandle oil fields before July 1st.

If these 38,000 people each buy \$1.00 worth of roasting ears during JULY and AUGUST it would mean.....	\$38,000.00
If they each bought \$1.00 worth of Sweet Potatoes.....	38,000.00
If they each bought \$1.00 worth of Spring Chickens.....	38,000.00
If they each bought \$1.00 worth of Eggs.....	38,000.00
If they each bought 50c worth of Water Melons.....	19,500.00
If they each bought 50c worth of Cantelopes.....	19,500.00
If they each bought 50c worth of Tomatoes.....	19,500.00
If they each bought 50c worth of Beans and Peas.....	19,500.00
If they each bought 25c worth of Onions.....	7,750.00
TOTAL.....	\$237,750.00

If Donley County farmers could sell but half of the above it would mean over \$100,000.00 which would go a long way toward cutting down loans against possibly cheap cotton this fall, live better at home and pay living expenses in cash and free us from a possible calamity on cheap feed and cotton. We think our estimate is conservative and that we will have the market. Is the proposition not worth serious consideration?

NOTICE OF DISSOLUTION OF PARTNERSHIP WITH CONTINUANCE AS A CORPORATION

As contemplated by Article 1807 of the P. C. S. of Texas 1925, Notice is hereby given that the partnership between H. T. Wallace, Jas. W. Cannon, Geo. M. Reed, John Beverly and J. H. Harris known as WALLACE & COMPANY and doing business as a mercantile establishment with its office and principal place of business at Clarendon, Donley County, Texas; intends to dissolve said partnership relation and to become incorporated under the laws of the State of Texas regulating private corporations and continue in the same line of business as heretofore done, with its principal office and place of business at Clarendon, Donley County, Texas, without changing its firm name.

WALLACE & COMPANY,
By H. T. Wallace. (14c)

NOTICE TO CONTRACTORS

THE STATE OF TEXAS
COUNTY OF DONLEY, ss.

Sealed bids will be received by the Commissioners Court of Donley County, Texas, at the County Court House in the city of Clarendon, Texas, until 2:00 o'clock p. m., on the 20th day of April, 1926, for the construction of paving, involving the following approximate quantities:

300 lineal feet curb and gutter; 50 lineal feet concrete header; 510 cubic yards earth excavation; 15 cubic yards old concrete to remove.

Plans and specifications may be seen at the office of the County Judge at the County Court House or at the office of the Consulting Engineer, The Devlin Engineering Company, Biting Building, Wichita Kansas, or Central Building, Amarillo, Texas. Contractors desiring plans and specifications for their individual use may secure same from the Consulting Engineer for a deposit of \$10.00, \$5.00 of which will be refunded upon the return of the plans and specifications.

A certified check in the amount of five (5) per cent of the amount bid must accompany each bid.

The Commissioners Court reserves the right to reject any or all bids.

J. R. PORTER,
(15c) County Judge.

NOTICE TO CONTRACTORS

Sealed bids will be received by Mrs. Maude Clark Nelson, City Secretary, of the City of Clarendon, Texas until 2 o'clock p. m., on the 20th day of April, 1926, for the construction of paving in the City of Clarendon, Texas, involving the following approximate quantities:

37,409 square yards 3 inch V F Brick on 4 inch Concrete base.

37,400 square yards 2 1-2 inch V

CLARENDON FOLK BUSY AT WORK IN DALLAS HOMES

The News is in receipt of two clippings this week, taken from papers in Dallas, concerning the activities to a slight extent of the former residents of Clarendon in Dallas. Miss Carolyn Shawver, daughter of Mr. and Mrs. John A. Shawver was one of the leading lights in a play, "Old Louisiana", given in the Highland Park High School Auditorium. Another item which has to do with the W. R. Silvey family was also enclosed and is as follows:

Miss Kate Wilson whose engagement to Dr. J. P. Meyers of the theology department of Southern Methodist University, was recently announced was the honoree at a Japanese tea given by Circle No. 10 of the Woman's Missionary Society of Highland Park Methodist church, at the home of Mrs. A. C. Cason, 4006 Shenandoah Street, Thursday afternoon. The members of the circle presented Miss Wilson with a chest of silver.

"A Japanese Wedding," a one-act play, was presented in costume by Misses Ruth Silvey, Margaret Boren, Opal Wallace, Caroline Shawver, Melva Brown and Alice McLarty.

The house was appropriately decorated with spring blossoms and Japanese baskets.

Mrs. W. S. Silvey is chairman of Circle No. 10. Besides the circle members the following guests were present: Mes. Rose Nelson Hughes, J. R. Nelson, J. A. Gillan, E. D. Upshaw and J. J. Morgan.

The wedding of Dr. Meyers and Miss Wilson will be solemnized March 31, and they will make their home in Japan.

POSTED NOTICE

This is to notify the public that all of the J. A. pastures are posted and hunting, trapping or fishing is not permitted and all trespassers will be prosecuted.

J. W. Kent, Supt.

F Brick on 4 inch Concrete base. 37,409 square yards 3 inch V F Brick on natural base.

37,409 square yards 6 inch plain concrete pavement.

16,113 Lin. feet Curb and Gutter. 418 Lin. Feet Straight Curb.

1,322 Lin. Feet Concrete Header. 14,975 Cubic Yards Earth Excavation.

130 Cubic Yards old concrete to remove.

1-26 feet span reinforced Concrete Bridge.

Plans and specifications may be seen at the office of the City Secretary or at the office of the Consulting Engineer, The Devlin Engineering Company, Biting Building, Wichita, Kansas, or Central Building, Amarillo, Texas. Contractors desiring plans and specifications for their individual use may secure same from the Consulting Engineer for a deposit of \$10.00, \$5.00 of which will be refunded upon the return of the plans and specifications.

A certified check in the amount of \$5,000.00 must accompany each bid. The Mayor and City Commissioners reserve the right to reject any and all bids.

H. W. TAYLOR, Mayor.

ATTEST: Maude Clark Nelson, City Secretary. (15c)

NEW GROUNDS ARE READY FOR PLAY

THE HILLCROFT GOLF CLUB GROUNDS IN GOOD CONDITION. PLAYERS ACTIVE.

The recent rains have made the preparation of the Hillcroft Golf Club grounds an easy matter and at the present time, they are in better shape than the old course was ever in. All the fairways were scraped some time ago and are as level as they can possibly be without special preparation. A ground keeper has been secured who will be on the course at all times.

Rules governing play on the course are practically the same as last year, but will be more strictly enforced. Rigid rules as to the use of the grounds by non-members will be enforced at all times, each player being asked to carry his card with him and be in a position to show it to the ground keeper should he ask for it. The caddies will be allowed to play only by special permission and non members will not be allowed on the ground at any time.

In addition to the use of the grounds by the members, the club has caused a posted notice to be published and the course is posted according to law, all trespassers will be prosecuted to the full extent of the law and everyone is requested to watch that they are not caught by this rule of the club.

Score cards were completed the fore part of this week and may be secured at five places in the city. They are to be found at the Rexali Store, at Kerbow's Hardware store, at the Bon Ton Confectionery, at Taylor & Sons Hardware store and at the Pastime Confectionery. Membership cards have been printed and are in the hands of secretary Holman Kennedy and may be secured by calling on him for them at his place of business. Cards will be issued to members and to their members and to their families. Those in the city who have more than one member in the same family but who are all self-supporting will require separate memberships and therefore will need separate cards.

For the first few weeks, the ground keeper will call for cards at the entrance and it has been suggested that the member carry his card in his golf bag that it might be handy when asked for. This is one rule that will be rigidly enforced and carried out to the limit.

DEAN HUBBARD TO APPEAR IN HIGH SCHOOL EXERCISES

Dean L. H. Hubbard of the University of Texas has been secured by the management of the Clarendon Public Schools to appear here during the commencement exercises of the Clarendon High Schools and allied schools. Dean Hubbard has been dean of the University of Texas for the past two years and is president of C. I. A. at Denton and will take his place there at the beginning of the summer session. His date of appearance in Clarendon has been set at May 21st, which is Friday evening. The subject of his address has not yet been announced.

L. C. Parker and daughter were visitors in Memphis last Sunday.

CLARENDON PLAY GIVEN AT SCHOOL AUDITORIUM SATURDAY

An Indian play was given by Clarendon people, under the auspices of the Clarendon Chamber of Commerce, at the McLean high school auditorium Saturday night.

This operetta was directed by Mrs. Roscoe Stapp of Clarendon and was a very colorful play, portraying a beautiful Indian custom in their annual feast of the red corn.

As it was not generally known that the play was to be given here until last Friday, and bad weather prevailing Saturday night, the attendance was not all that could have been desired.

Proceeds of the play went toward buying uniforms for the Clarendon band. The band accompanied the players and rendered several selections during the evening.—McLean News.

BAPTISTS READY, GREAT ADVANCE

April Ingathering For Co-operative Program Is Feature of Forward Move.

PLAN FOR BIG CONVENTION

Special Emphasis is Laid On Spiritual Preparation for Gathering of Forces at Houston May 12-18

Conditions favor a distinct advance on the part of Southern Baptists in 1926 along many lines, according to information received by the headquarters of the Co-operative Program Commission of Southern Baptists.

This body, charged by the Southern Baptist Convention and various state conventions with providing adequate support for foreign missions, home missions, ministerial relief and Baptist schools, hospitals and orphanages, is seeking to so increase and stabilize the income of the de-

DR. F. F. BROWN, KNOXVILLE, TENN. PREACHING CONVENTION SERMON.

nomination as to provide adequately for all these enterprises through a regular budget. In this connection the Commission is seeking to enlist as nearly as possible every member of every church in making regular weekly and monthly offerings to this general budget which is distributed among these seven causes on percentages proportionate to their various needs.

Approximately \$9,200,000 for these objects was received during 1925, it is announced, but inasmuch as only \$4,698,000 of this amount was in distributable funds some of the objects suffered for lack of sufficient cash. Under the leadership of the Commission a definite effort is being made to secure as much or more money as was contributed in 1925, but in undesignated amounts so that each cause will get its proportionate share.

Receipts By States

The receipts for 1925 through the various state offices were as follows: Alabama, \$352,308.67; Arkansas, \$239,333.66; District of Columbia, \$48,000; Florida, \$223,665.83; Georgia, \$480,868.54; Illinois, \$1,051,117; Kentucky, \$514,300.01; Louisiana, \$312,499.79; Maryland, \$91,200.00; Mississippi, \$580,736.76; Missouri, \$230,344.13; New Mexico, \$38,981.84; North Carolina, \$691,713.44; Oklahoma, \$137,369.01; South Carolina, \$434,584.70; Tennessee, \$390,287.44; Texas, \$573,407.95; and Virginia, \$946,065.05. The remainder of the \$9,200,000 received in 1925 consisted largely of special gifts to foreign missions and the building fund of the Southern Baptist Theological Seminary.

An outstanding feature of this effort of the Commission is a special cash ingathering for the month of April, when every one of the nearly 4,000,000 white Baptists of the South will be asked to make as generous an offering as possible to the whole Co-operative Program, this money to be distributed proportionately among the seven general causes embraced therein.

Convention Prospects Good

In the event this April ingathering attains the goal set for it, it will make it possible for the various Southwide Baptist enterprises to report great relief in their financial situation to the Southern Baptist Convention at its session in Houston, Texas, May 12-16.

The committee on program for this year's convention, in the hope of giving that session the largest possible spiritual emphasis, has arranged for a special season of prayer and worship in the Convention auditorium at Houston for Tuesday evening, May 11th, preceding the opening of the Convention on Wednesday morning. At this preliminary service J. Fred Scholfield of Birmingham, Ala., will lead the song service; Dr. W. A. McComb of Gulfport, Miss., will lead the prayer meeting and Dr. H. R. Holcomb of Mansfield, La., will preach a brief sermon. Another innovation in this year's Convention program calls for the closing of each morning and evening session with a brief sermon by a representative pastor. Dr. Fred F. Brown, Knoxville, Tenn., will deliver the main Convention sermon on Wednesday morning.

MUSEUM INAUGURATES SERIES OF COURSES

To acquaint laymen with its extensive scientific collections, the Cleveland (Ohio) Museum of Natural History has inaugurated a series of courses for adults. Two have been projected, one on the birds of the world and one on fossil fishes of the Cleveland region. A fee of \$2 is charged for each course of four weeks. Sessions will be held once a week at the museum, and each class will comprise about 10 persons. Members of the museum staff will be the instructors. The museum's collection of approximately 10,000 birds and its excellent collection of fossil fishes will be utilized.

SCHOOL BOYS SENT TO BRITISH COLONIES

Under the British "Big Brother" movement, 150 boys from the public, secondary, and elementary schools sailed from England last fall for Australia. Most of them went direct on the land where they will be trained in various occupations, including fruit farming. Some of them will go for preliminary instruction to the Dreadnought Training College in New South Wales. Other recent colonizing parties included 28 boys destined for Australia under agricultural training scholarships provided by the Fellowship of the British Empire Exposition. Another party of 22 was sent to Alberta, Canada.—School Life.

JOYOUS DEMONSTRATIONS AT PACIFIC COLLEGE

Recognition by the Oregon State Department of Education of Pacific College, Newberg, Oregon, as a "standard college" was made the occasion of an enthusiastic demonstration. The students paraded the streets with noise makers in great variety and gave every evidence of joy. A formal official celebration was held later.

In accordance with an act of the Oregon Legislature the Bureau of Education of the Department of the Interior was requested to classify the higher educational institutions of the State and it was in pursuance of this act that Pacific University was recently rated as "standard."

CZECHS IN MARVELOUS GYMNASIUM MASS DRILLS

"Sokol," Czechoslovakia's great organization for physical education, will hold its eighth Slet, or national sexennial meet at Prague in June, 1926. The gymnastic mass drills which are the feature of these meets are marvels of alignment and exactness, writes Emanuel V. Lippert in School Life, a periodical published by the Interior Department, Bureau of Education. In the coming displays about 29,121 men will appear in a combined drill in the great arena at Brevnov, and later about 16,793 women will participate simultaneously in their own drills. It is expected that thousands of foreign visitors will witness the exhibitions, and that practically the entire population of Prague and the vicinity will attend.

A bonus of \$50 to teachers in schools of Coldwater, Mich., who, though already possessing minimum scholastic requirements, attended summer school last year, has been given on recommendation of the superintendent.

Spring Suits

More beautiful and more of them. We said the same thing last year—you bet we did—and we'll say it again next—for when we can't shout progress we won't shout at all. We have more suits and more styles to offer you this spring. Going ahead—that's our idea of being alive—and when we have to stand still we'll call for flowers.

Every model that's new and newer is here for you—and nothing else. Come in and spend a pleasant hour of seeing in 15 minutes of time.

THE MENS STORE

To Those Who Judge Quality by Price

The quality of Ford cars cannot be judged by the prices at which they are sold—because Ford prices are made possible by conditions that are absolutely unique in the automotive industry.

From mine to market the Ford car is the work of a single organization. The Company owns and operates the mines and forests that furnish the raw materials for its products. This material is carried over Ford transportation routes, fabricated in Ford mills, manufactured in Ford plants—and the finished product is sold to the public through Ford dealers.

The following statement, previously made in an advertising message, is repeated because of its significance to the public:

"If any other manufacturer endeavored to produce a car similar to the Ford, according to the high standards of quality in material and workmanship used by the Ford Motor Company and with the same tried and proved design, it would be impossible to offer it at anything like Ford prices. And it is well to note that even with less costly design they have not met Ford prices."

Original Ford Features that Today Make for Greatest Simplicity-Durability-Reliability

DOLLAR DAY ISN'T AN ALTOGETHER UNSELFISH DAY WITH CLARENDON MERCHANTS. THEY DON'T EXPECT TO PROFIT MUCH ON THE INDIVIDUAL DOLLAR SALE, BUT THEY DO EXPECT TO ATTRACT MORE PEOPLE TO THE ADVANTAGES OF TRADING IN CLARENDON AND TO FORM ACQUAINTANCES WHICH WILL LEAD TO FUTURE PLEASANT AND PROFITABLE RELATIONS. WE EXPECT TO LIKE YOU WHEN WE KNOW YOU AND WE BELIEVE YOU WILL LIKE US WHEN YOU LEARN TO KNOW US. CO-OPERATION IS THE WATCHWORD OF SUCCESS IN ANY COMMUNITY. WHEN YOU PROFIT, WE PROFIT. WHEN YOU DIVERSIFY YOUR CROP PRODUCTION AS CLARENDON BANKERS ARE SUGGESTING, YOU'LL PROFIT AND SO WILL WE. THAT'S TRUE CO-OPERATION AND WE ARE GOING TO START IT OFF ANEW ON DOLLAR DAY.

DON'T FORGET THE DAY—EACH SECOND MONDAY

COME!

THE APPENDIX

WESLEY PEACOCK, PH. B. Dr. Dorland of the Grogas Memorial Institute has discovered a man without an appendix. The instance is rare, and is said to have bearing upon the scientific question whether the appendix has any function in the body. If it has a job at all, no one knows what it is. Surely, people get along as well or better after its removal. Nature practices economy in her provisions for the life of all creatures, making one heart as better than two, and two cars as better than one, always "gathering up the fragments that nothing may be lost."

A score of years ago every man's dress shirt contained in front a lapel and button hole; but, now that it is known to be useless, tailors have discontinued the appendix. The long tail gentleman's coat of one hundred years ago contained two buttons behind, made to fit two button holes at the end of the flaps when the owner sat a saddle with saddle bags. Now, that men no longer ride horse back these buttons are useless appendages, remaining by courtesy only, perhaps to scratch parlor furniture. Ties hang over or throw back, is called vestigial, or atavistic.

Thus the appendix is said to be what is left of the past history of the race, occasionally left out of the body entirely, just as it is already left out of dogs and cats, which have troubles enough without it. In their economy some dogs and cats are born without their caudal appendages, being good only for bad boys to step on.

The appendix if it has any job, does not attend to its own business. If a person has a pus pocket at the base of a tooth, some of the germs may be found in the appendix. If a person has pyorrhea, the germs may be found also in the appendix. The germs finding lodgment in diseased tonsils and adenoids may be star boarders also in the appendix. Life is too short for us to carry in our bodies and in our minds a lot of useless junk to remind us of the sorrows of the past. If the appendix offend thee, cut it off. Archaic portraits should be taken from the walls and stored in the basement.

MORE CHICKS SHOULD BE RAISED THIS YEAR

Every time you bury a dead chick you are burying fifty cents or more. If the average poultry raiser would pay more attention to scientific care and feeding of chicks during the first six weeks after hatching there would be more plump broilers this summer and many more layers next winter.

A simple and yet scientific explanation of how to raise over 90 percent of your chicks is published by the Purina Mills of St. Louis, Mo. in their 1924 Purina Poultry Book. Through the courtesy of the Clarendon Grain Co., this valuable book is mailed free of charge to any poultry raiser who requests it from them.

Jas. W. Cannon and H. T. Wallace of the firm of Wallace & Company transacted business in Childress Monday of this week.

DON'T GO HOG-WILD ON COTTON

Imperial Texas has been weighed in the balances and found wanting in ability to measure up to the demands of a successful agricultural standard. No state or country ever prospered when agriculture languished.

We must take our latitude and longitude and consult the compass of common sense which points us straight to peace and plenty as the need to the pole, and take our bearing and steer the ship of agriculture into the port of permanent prosperity.

It is evident that present agricultural practices are impoverishing the producer. A long chain of abuses have crept into our agricultural practices and weakened the basic structure of farming.

Soil Building

The soil is our capital and must be restored to its virgin productivity if agriculture is to be made permanently prosperous. This can be done by terracing the rolling lands, rotating the crops, planting legumes, and fertilizing the lands that respond to fertilization. This is the first step towards a safe system of farming that will insure a reasonable return on the labor and capital invested. Our soils are rapidly deteriorating and production per acre getting less and less each year, and it is absolutely necessary to begin to save our soils in order to avert the impending agricultural crisis which is the inevitable result of improvident methods of farming.

Make the Farm Self-Supporting

The only way to make farming pay is to raise enough food and feed crops on the farm to supply the farm and make cotton the surplus money crop. This will give an opportunity to rotate crops and build the soil, and keep the cotton money at home to buy the comforts of life, instead of spending the money for the necessities of life which should be produced at home. This can be done and is being done by some farmers who are always prosperous. There are some kinds of feed crops that grow well in every part of the State and farmers should plant the feed crops adapted to their own locality. There are some parts of the State adapted to the successful growing of fruits and vegetables for the market, and these should be planted and lessen the cotton crop in those sections.

We Should Make Texas Feed Herself

Texas is spending more than two hundred million dollars a year for feed, dairy products, pork, and canned goods. This enormous amount is taken from the cotton money and sent out of the State for things that can be grown as well here as any where else and must be grown here in the future if Texas is to prosper.

It is evident to the casual observer that if Texas raised her feed and food supplies on the farm, this would reduce the amount of cotton and raise the price to where it would be profitable to grow it, and this applies with equal force to all the cotton growing states. We hold the key to the situation in our own hands, and can make cotton bring a profitable price if we will use common sense and produce our living at home and reduce the amount of cotton grown to actual consumption of the mills. A great English commander, when starting into a decisive battle, exclaimed: "England expects every man to do his duty." The charge was made and the battle won. Texas expects every man to do his duty in this crisis to save agriculture from utter ruin. Every man must determine that he will reduce his cotton acreage and plant more feed and food crops, regardless of what any body else does, and this is the spirit that will win and save the situation.

Raise Less Cotton and Better Cotton

"Too many cooks spoil the broth" and too much low grade cotton breaks the price. The South planted 46,000,000 acres of cotton last year, and Texas planted 18,000,000 acres, and the total production was 15,500,000 bales and had it not been for the extensive drought in Central and Southwest Texas and the early freeze in the Plains we would have

made 16,500,000 bales and reduced the price below 15 cents and paralyzed the purchasing power of the South.

We must not act the fool again and depend upon nature and the boll weevil to save us from our folly. If we will plant 36,000,000 acres of good staple cotton in the South and 15,000,000 acres in Texas, we will produce under normal conditions 12,000,000 bales or 13,000,000 bales and get 30 cents per pound or at least \$500,000,000 more than we could get for a 16,000,000 bale crop. This is just common horse sense and the farmers should use that kind of sense this year and make their living at home and make their cotton strictly a money crop and make the mills pay a profitable price for it. Indications now point to increased acreage of wheat, oats, and other food and food crops which will automatically reduce the acreage of cotton and start us on the road to prosperity.

Reduce the Cost of Production

Texas stands the lowest in the scale of acre production of any Southern State—her average being 117 pounds of lint per acre in 1925 and 138 pounds in 1924, or about one fourth of a bale per acre. North Carolina averaged 258 pounds per acre in 1925; Mississippi, 264; and Louisiana 227 pounds per acre, or about one-half bale per acre. It cost Texas 25 cents per pound to make and gather this cotton, and it was sold for much less than that price. If we will increase the production per acre and reduce the total production, we will receive more money for the total cotton crop and more profit for each bale produced. The Dallas News "More Cotton on Fewer Acres" contest has certainly demonstrated the splendid yields of cotton per acre by fertilizing and applying better cultural methods, and I would like to see this contest applied to corn, oats and other feed crops.

If we do not reduce the cost of production and the price remains above 20 cents per pound, the production in foreign countries will be greatly increased, which will reduce the price below where we can grow cotton at a profit. It has been stated many times that we have a monopoly on cotton growing and that the world could not compete with us in growing cotton. This has been true in the past and the many efforts of England to grow her own supply of cotton in Egypt and India failed, because we were growing cotton in this country cheaper at that time than England could produce it, but conditions have changed as England now has as large an area of lands in the Soudan of Africa adapted to cotton growing as we have in the United States, and she is growing cotton successfully and profitably at the present price and that country is being rapidly developed in cotton growing, and if the price remains above 20 cents, she will continue to develop that country, and in the course of ten years will be able to grow her own cotton supply and greatly reduce the demands for American cotton as she is now our largest consumer. These are facts we must face in the future and the sooner we prepare to meet them by improving our soils and methods of production to meet this competition, the sooner we will stop England from increasing her supply of cotton and enable us to hold our supremacy in cotton production.

Our efficient methods of farming have caused some agricultural writers to advocate corporation farming on a large scale with hired labor with business managers, as large industrial enterprises are now conducted. This might secure more efficient and cheaper methods of production and show a profit to the corporation but it will be a sad day for Texas and the Nation when individual ownership and direction of farms are supplanted by a system of serfs with no financial interest in the farms and little interest in our government and its institutions.

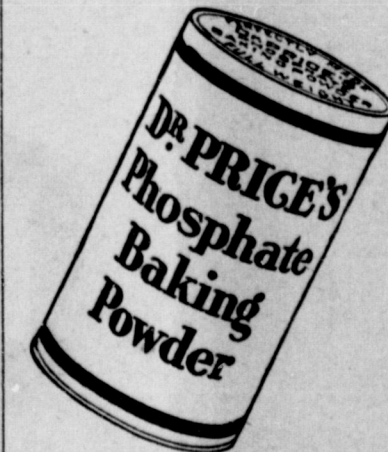

The individual farmers are the pillars of this country. They produce its wealth, pay the taxes, build its homes, schools, and churches and stand as a bulwark against Socialistic and Bolshevistic tendencies. Home ownership should be encouraged for the safety of our country as against the present tendencies of absentee land-lordism.—George B. Terrell Commissioner of Agriculture.

To meet the demand for teachers of Esperanto, an examination in that language was conducted recently in Vienna under the auspices of the Austrian Government.

How She Gained 10 Pounds in 22 Days SKINNY MEN CAN DO THE SAME

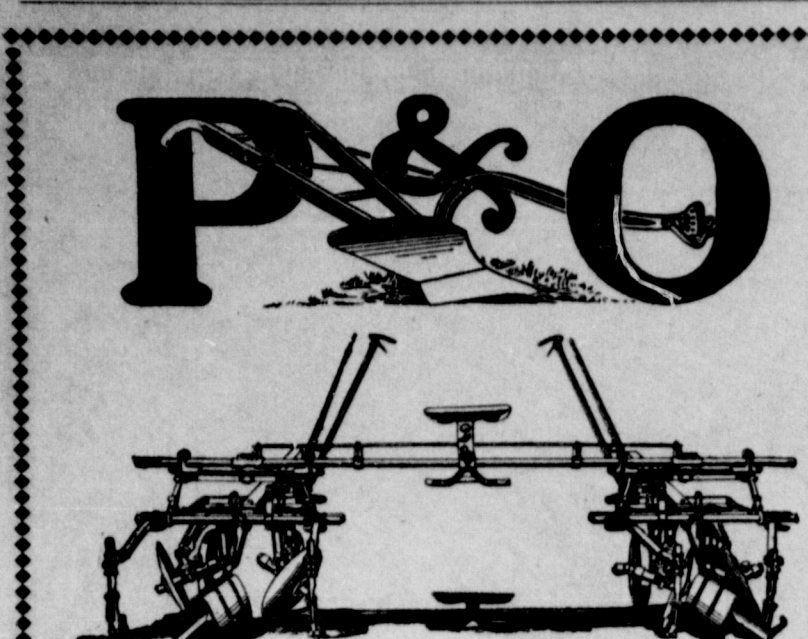

That's going some—but skinny men, women and children just can't help putting on good, healthy flesh when they take McCoy's Cod Liver Oil Compound Tablets.

As chock full of vitamins as the nasty fishy-tasting cod-liver oil itself, but these sugar-coated, tasteless tablets are as easy to take as candy, and won't upset the stomach. One woman gained ten pounds in twenty-two days. 60 tablets, 60 cents. Ask Ball Drug Co., or any good druggist for McCoy's Cod Liver Oil Compound Tablets and if you don't gain at least 5 pounds in 30 days your druggist is authorized to hand you back the money you paid for them. "Get McCoy's, the original and genuine and avoid imitations."

A baking powder economy you should not overlook!

Contains no alum—leaves no bitter taste

Why Not Double Your Working Capacity?

In these days of labor shortage and the consequent high wages demanded by the available farm help, every mechanical device that saves time and labor and money appeals to the progressive farmer.

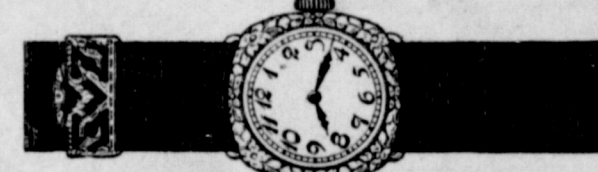

When one man can operate a P&O Two-Row Lister Cultivator and double his own working capacity, saving the time of one man, there is no answer against the argument that he should possess one of these machines.

One of the appealing features on the P&O is the wide range of adjustments for first and second cultivation, and the ease and facility with which they can be made.

Works as Easily as a Single-Row Cultivator

WATSON & ANTROBUS CLARENDON

EXPERT WATCH REPAIRING

Watches repaired at Stocking's Drug Store are turned out with the skill of a factory expert. Every pivot is polished, every plate is trued, every pinion is perfectly adjusted and the balanced wheel is timed just as it was when leaving the factory. Hugh E. Skiles, formerly a railroad watch inspector does the work in such a manner that the watch owner may rely on his timepiece.

STOCKING'S DRUG STORE Let us inspect and regulate your watch free.

THE BIGNESS OF GOLF

Golf has become the biggest game in America. Billiards, an indoor game, rivals it in number of players, and basket ball is rapidly approaching golf numerically. But for actual players, far expense and importance (to the players), golf is the big game.

Attempts have been made to estimate the amount of money expended on golf and no accurate estimate can be reached. But the figures show that enough is spent on golf each year to pay interest on all war debts.

The United States Golf Association experts estimate that there are now about 4,780 organized golf clubs in America. A survey of the field shows that approximately 1,422,014 acres are used for golf. This would make a state almost as large as Delaware.

There are, according to estimates, 2,150,000 golfers, of whom 1,150,000 are classed as regulars and members of recognized clubs.

On the 4,780 golf courses and links there are 81,180 holes, this being figured on the number of eighteen-hole and nine-hole courses in the country.

The average yardage of these holes, if placed end to end, would cover 17,824 miles, so a golfer could tee off in New York and play around the world as far as Meshed, Persia, if he drove westward.

The number of golf balls used in the United States each season is now estimated at sixty-two million, including the remades.

CO-EDS PUBLISH ISSUE OF CLARCO TUESDAY

One of the most popular editions of the College paper, the Clarco was published Tuesday of this week by the co-eds of the school. The advertising soliciting was secured by the young ladies, the paper was edited by them and the entire bit of work was done by the young ladies of the school. The paper was larger than any others that has been published this year and will be the first edition that will receive wide circulation over the Panhandle. Miss Grayce Pirtle was editor and Miss Julia Dean was business manager of the paper.

NOTE OF APPRECIATION

To express our sincere and deepest thanks to everyone of our friends in the city of Clarendon who have so kindly and considerately done all in their power to make the late illness and death of our wife and mother as easy to bear as possible. Accept our thanks for all that has been done, with especial reference to the kindness at the last hours. The floral offerings were most appreciated. J. A. McKillop, Neil and Marjorie McKillop.

Our Trade-in Plan is going big

We make you an allowance for the unused mileage in your old tires and you can start off with Generals without sacrifice. Let us inspect your old tires.

LIONS ARE TO FEED SENIORS

SECOND AFFAIR BY LIONS TO BE HELD NEXT TUESDAY EVENING.

Attendance on the Lions Club Tuesday of this week was very good, almost all of the Lions having recovered from their illness and are able to be back in their places again. Boss Lion Porter was again back at his regular place at the head of the club.

Lion Holcomb reported for the help to the postoffice force and stated that the merchants of the city could help them to a great extent by getting their mail into the office at the earliest possible moment. Mail for the routes of the city should be tied in separate bunches and labeled to facilitate handling. The same could be said of mail consigned to other near by towns and cities.

Lion Morris again announced the May Fete at the College early in the month of May and asked the club to take its place as a patron of the event. After the discussion, it was passed that the members should do this as individuals, but that the club should take no other action in the matter.

Lion Morgan reported for the High School Senior entertainment committee and stated that the program was ready and all that was needed at this time was the meal and other necessities for the occasion. He also announced the showing of the picture, "The Vanishing American" and asked the Lions to attend if at all possible.

Announcement of the first trade trip for Wednesday of this week was made by Lion Holcomb. The attendance of as many Lions as possible was urged by Lion Holcomb.

Nothing more coming to the attention of the club, the introduction of visitors was the next in order. Judge A. T. Cole of this city, Judge R. L. Templeton of the 100th Judicial District, Dr. Scott A. Burman of this city and Lion Carl O. Hamilton of the city of Childress were all introduced and were asked to make a few remarks. All of them responded and were well received by the Lions.

All through the meal the fun flew from one end of the table to the other and it was with much difficulty that the Boss Lion was able to keep the Lions steadied down to attend to what business that came to the attention of the club for the day.

Adjournment as usual.

CHAS. M. LOWRY
FOR COUNTY CLERK

In the regular announcement column this week will be found the name of Chas. M. Lowry, who announces for the office of County Clerk of Donley County. Mr. Lowry has been a resident of Clarendon for the past twelve years and this is the first time he has ever asked for public office at the hands of Donley County people. He is a young man identified with the business life of Clarendon, is a graduate of Clarendon College and Southern Methodist University, is married and has a family. He feels that he is able to handle the affairs of the office to the complete satisfaction of the voters and is making the race strictly on his merits promising to perform the duties with promptness and fairness to all, should he be elected. He solicits your vote and influence.

A. M. PEABODY ASKS FOR
WEIGHER IN PREC. TWO

The News is authorized to announce the candidacy of A. M. Peabody, farmer of the Martin community for the office of Public Weigher of Precinct Two. Mr. Peabody has been a resident of Donley County for the past twelve years and states that he feels capable and competent to fill the office asked for. He has never before asked for the office of weigher and solicits the votes of the people of the precincts on the platform that he will give the best of his ability to the folk of the weigher's precinct. He solicits the vote and support of everyone in the Democratic Primaries in July and August.

COMPANY "H" TO ENTER
142ND TOURNAMENT

One of the new features to be added to the regular training schedule of the members of the Texas National Guard is a Boxing Tournament that is to be held in Amarillo on June 17, 18 and 19 of this year. The matter is being sponsored by the headquarters company of this section of the state and will make up one of the largest affairs ever held in this part of the Panhandle. Clint Tinkle, John Lane and Orgie Behrens are expected to represent Company "H" in the tournament with possible others who will take their places in the lighter weights.

CLARENDON TEACHER
ENJOYS READING NEWS

Miss Thompson, teacher in the Clarendon school, who visited here with Miss Lillian Abbott last week end, stated that she enjoys reading The McLean News each week, and especially the jokes we print.

Misses Abbott and Thompson were in the play given at the high school auditorium Saturday night, and Miss Thompson sang a solo at the First Baptist church Sunday morning that was greatly enjoyed.—McLean News.

OUR SEC. SAYS

The idea of a dollar day for the benefit of the customers and business people of Clarendon is one that has been a success in many towns no larger than this one.

The booster trip made Wednesday to Brice, Lesley, Lakeview, Memphis, Giles, Hedley and Lelia Lake with several stops at the schools along the route met with a hearty welcome from the places. The secretary takes this method of thanking the teachers who excused the band members from lessons and the towns people for their time and co-operation in making the trip.

The merchants who responded so well in the makeup of the circular material that was used in advertising the dollar day for next Monday are also to be commended for their co-operation.

Dollar day can and will be a success for a town of this size if every merchant will take a part in the offering of bargains for the day. If such a thing is done, then every visitor to Clarendon during next Monday will find a dollar day bargain, no matter what place the visitor may enter.

The bad weather has prevented the trips of the boosters from extending to other parts of the trade territory but every place will have been visited just as soon as time and the weather will permit. It is hoped that the places that have not been visited will take advantage of the event and come to Clarendon next Monday anyway.

Don't forget the date—Monday, April 12th, the place Clarendon. Dollar Day bargain events each second Monday in the month.

CHARLESTON EXHIBITION
IS SPLENDID AFFAIR

One of the most thoroughly enjoyed programs of the past year was held on last Friday evening in the Pastime Theater by the students of Miss Mary Cooke. The latest steps of the Charleston were demonstrated to a full audience and were thoroughly enjoyed by everyone. Those of the younger set were in great evidence on the program and some very "in" tots were to be found among those exponents of the latest dance steps. Billie Cooke showed that grown folk were not the only people who could do the steps in question and received great applause when he had finished his part of the program.

Marriage License was issued this week to Willis Allen and Josephine Jones, colored citizens of this city.

COLLEGE DAY PROGRAM IS ENJOYED

AFFAIR HELD IN CHURCH LAST SUNDAY TELLS OF COLLEGE WORK.

To release speakers from Clarendon that they might carry the message of Clarendon College to other cities of this section of the state, the Clarendon College Day program of the Clarendon Methodist Church was held last Sunday evening in the church here. These days have been inaugurated throughout this section of the Northwest Texas Conference and in all other churches will be held on April 18th.

The program given on last Sunday evening told some of the many things that are now being done in Clarendon College and showed in an effective manner the sort of work that is being done here. Plans for the school after the fourth year work has been added were also discussed and the securing of a larger student body was also another of the subjects under discussion.

The problem of student self government was also discussed with the special bearing as is now in effect in the boys' hall of the col-

WESLEY LEAGUE HOLDS MEETING OUT OF DOORS

To commemorate the Easter day and to take in all the sunshine and fresh air possible the member of the Wesley Epworth League of the Methodist Church of this city held their last Sunday's meeting on the steps on the north side of the Church in Clarendon. It will be the policy of the membership of this body to hold as many of the meetings outside in the near future and in this manner increase the attendance and at the same time take an increased interest in the programs that are rendered. The membership of this organization has grown since its organization and is expected to continue to grow. The presence of every young person in the city will be appreciated at any or all of the services of this body.

Mr. and Mrs. W. J. Ball of McLean spent the last week-end here with their daughter, Miss Lane, a student of Clarendon College and their son, W. L. Ball.

lege was told. The musical numbers were especially enjoyed by the audience.

Further plans will be made public in a short time as to the work that will be done to increase the student body of the college and to tell the folk of this section of the state of the advantages presented here.

BOY SCOUT CORNER

S. H. CONDRON, Conductor

On April 19th the second contest for the Scouts ends. The subject is "What the Boy Scouts' Organization Means to Me." The prize in this case will be a fine Boy Scout Camp ax with leather sheath, presented by Kerbow & Sons. It is on display in their store window now. Following this contest, the next topic will be, "What Kind of a Man I am Going to be." The prize of this one is to be a year's subscription to a Boy Magazine, given by the Pastime Confectionery.

It might not be out of order to call attention in this paper for a minute or so to this thought: "What does the Boy Scouts Organization Mean to Clarendon?"

1. It provides an organization in which boys can express themselves at work, play, study and citizenship.
2. It offers an opportunity where the boy can learn to co-operate. This is especially true where there is but one child in the family and craves companionship.
3. It takes care of the boy when school is out by offering him a field of study in earning merit badges, and also gives him a chance to utilize in a fine way his leisure time.
4. It offers wholesome outdoor recreation—not only camping out week ends, but a special ten day period at a well equipped camp.
5. It offers a field of training where the boy can develop leadership.
6. It holds up to the boy the ideals of citizenship, business and religion.
7. It gives the boys a chance to size up the men of Clarendon as to who is willing to help them along in their work. (What does the active boy think of a "Business Man" who turns down the proposition to finance the years work?).
8. It gives the boys a chance to practice civic activities and we know how readily they respond to such appeals.

This paper next week will deal

with the proposition—"Why not have a Boy Scout Park near Clarendon?" I mean by this, provide a place a mile or two from Clarendon on some creek that can be developed into a real park. The Boys will take care of it—plant trees, etc. This will give them many many thrills for overnight camps and hikes and evening campfire meetings. The writer would be glad to have opinions from any one in town on this subject by Monday of next week.

SUNRISE MEETING HAS SPLENDID ATTENDANCE

The Union Sunrise Prayer Meeting that was held on last Sunday morning in the First Christian Church of this city was a splendid affair. More than one hundred folk attended the meeting and all of them state that they received a great deal of benefit from the program as rendered. The program was sponsored by the Ladies of the Christian Church and included many of the members of other churches in the city.

PRESBYTERIAN CHURCH

The usual morning services will be held at the Presbyterian Church next Sabbath. There will be no evening service.

It is expected that Rev. S. L. Morris D. D. of Atlanta, Georgia, will preach at the morning service. Dr. Morris is at the head of the Home Missionary work of the Southern Presbyterian Church.

You will be cordially welcomed at any of our services.

FIRST CHRISTIAN CHURCH

Sunday School, superintended by J. R. Tucker, opens sharply at 9:45. Forty-five minutes given for class study. Classes for all ages. Communion and preaching at 11:00. Sermon, "Predestination." Come out and see how this predestination works.

Christian Endeavor meets at 7:00, preaching at 8:00. Sermon, "Bad Marriages."

Personal Evangelism class meets every Wednesday night. Booster class with Emanuel Dubbs as leader meets with Mr. and Mrs. A. B. Crocker next Monday night.

Office supplies at the News office.

HIGH SCHOOL NOTES

The girls choral club sang Tuesday evening at the Pastime Theatre. Rev. Hamblen conducted our chapel exercise. He urged that each student read the Proverbs and model his life according to the precepts given in that part of the Bible.

The girls choral club will enter the music contest at Amarillo Friday morning.

The boys and girls Glee Clubs were to have competed with other Glee Clubs of this county in Hedley Friday evening.

The girls choral club will start working Monday on the music for the annual style show.

Miss Temple Harris' Latin Club will enter the Latin contest in Amarillo Friday.

Coach Boykin and his agriculture team will be in Canyon Friday and Saturday for the District Meet. The team will be made up of the five men who hold highest grades in agriculture.

The Agriculture Club is presenting a three act comedy in which old and new methods of farming are contrasted. The High School classes are in a bitter contest in selling tickets for this play. The winning class gets to elect a sponsor for the base ball team and also a boy to go to A. & M. with the agriculture team.

The basketball boys were presented with letter sweaters Monday morning in chapel by Coach Burton from Clarendon College. The boys who received letters were Leonard Harris, Walter Mark, Emmons, George Echle, Paul Montgomery and Gilbert Johnson. Coach Burton also complimented Coach Boykin on his success in athletics since he has been in Clarendon.

The High School nine started the season off with lots of stuff by defeating Claude 13-4 at Claude Tuesday. Jones and Smith worked nicely on the mound for the High School. Emmons starred with two home runs. Back the High School nine.

Notice has been given that all tuition pupils must pay their tuition by the end of this week.

The Lions Club has extended an invitation to the Senior Class to banquet with the Lions next Tuesday evening. The class is most enthusiastic in its acceptance of this courtesy.

Supt. Morgan's call for volunteers to help in the work of improving the High School grounds has met with the ready response characteristic of the student body. Grading of the grounds, improvement of the roads leading to the building and a fence around the athletic field will work a needed transformation. In this way the High School fosters civic pride.

The Hi-Y Club did not meet this week. The regular meeting being cancelled in order that the members might participate in other worthy events.

Interest in Boy Scout work continues to run high among the younger high school boys and their leaders.

The Girls Glee Club sang by invitation at the College Wednesday morning.

Written consent of the parents or guardians of the High School students who wish to attend the contest in Amarillo Friday is required by Supt. Morgan.

Senior Class members are at present actively concerned with details incident to their graduation.

The entire student body and particularly our contestants, are greatly disappointed by the fact that the Donley County Scholastic Meet that was to have been held Friday and Saturday of this week in Hedley has been called off by order of Dr. Jenkins, our local health officer. We had looked forward to this meet with much interest, confident in the belief that Clarendon High School would capture her full share of the honor of the meet.

COUNTY MEET IS TO BE THIS WEEK

WEATHER CONDITIONS DEMAND POSTPONEMENT OF LEAGUE MEET.

The News carried a story last week on the meeting of the County Interscholastic Leaguers of Hedley. The meeting was first scheduled to meet in Hedley on Friday and Saturday of last week, but due to the coldness of the weather and to the condition of the track and other outdoor places in Hedley the matter was postponed until the same dates the latter part of this week.

The folk of the city of Hedley are planning for a royal reception for the Clarendon teams and other representatives of schools who will be in that city for the two days in question. A big barbecue has been planned for the visiting teams on Saturday with similar festivities for the remaining part of the week.

The meet will start Friday night with the debates and will continue through Saturday afternoon and will close in sufficient time to allow all the contestants to return to their homes before too late in the evening. Clarendon plans to send sufficient representatives to the meet to carry off all the prizes if possible.

Office supplies at the News office.

A NEW HIGHWAY FOR CLARENDON

POSSIBILITY FOR INTERNATIONAL HIGHWAY THROUGH HERE.

One of the latest developments in Highway matters has been brought to the attention of the people of this city in the past few days, being that of the designation of an International Highway that will run from Regina, Canada to Monterey, Mexico. The upper end of the Highway through to Nebraska from Canada has been designated and the officials of the road are now at work on the lower end of the road that will run through the state of Texas.

It has been pretty well settled that Amarillo will receive the road as the center of the Panhandle section of the state and that from Amarillo, the routing of the travel will be along the Colorado to Gulf Highway which runs through this city.

The C. to G. Highway is already a federal recognized road in Texas as far south as Waco, and it is thought that the new international military roads running north and south through the United States. A meeting was held in Amarillo Wednesday of last week and a number of the road lovers of the Panhandle were present to talk over the plans and attempt to secure the correct designation of the road through this section of the state.

CLARENDON BOY IS ELECTED SUPT. AT DODSONVILLE

The News is glad to state that another of the Clarendon boys has gone out from his home town and has made himself a name in school circles. Frank White, Jr., son of Mr. and Mrs. Frank White of this city has recently been elected to the position of superintendent of the Dodsonville High School and has stated that he will accept the position. Frank has taught in Collingsworth County for the past year and has made quite an enviable record in the work done there. Out of the several applicants for the place, Frank was the youngest and also had the necessary qualifications for the office. It is possible that he is the youngest superintendent of a tenth grade High School in the Panhandle of Texas.

CLARENDON TEMPLARS AT EASTER SERVICE

Quite a number of the Clarendon Knights Templars and their ladies were present at the Easter sermon preached at Memphis by C. E. Jamerson, pastor of the Methodist at Church. Those from Clarendon that attended were: Henry Youngblood and wife, John Blocker and wife, B. W. Moreman and wife, Monty Garrison and wife, G. E. Darden and wife, Bill Massey and wife, James Swift and wife, G. A. Anderson, J. H. Rutherford, Ethel Rutherford, W. P. Carle and Mrs. Jim Hendrick.

Hanna-Pope & Co.

One Price That's Fair To Every One

Mrs. A. H. Baker, Mrs. W. W. Buck and Miss Essie Patton were visitors in Memphis Monday of this week.

Editor and Mrs. Ed Bolivar and children of the city of Hedley were Clarendon visitors the fore part of this week.

KEARNEY STREET PICK-UPS

"Mr. Little must have meant he had rather give up electricity than to do without gas, speaking with the winter weather in mind. Gas is a great convenience all right, but we don't know how much we would miss electricity since we are using it for so many different purposes, if we really had to do without it."—Monte Garrison. Well, what we rises to say is this—we jes' as well have both of 'em.

Supt. Morgan: "The public school faculty are all all-right. I would be glad to have them all again next year, just as they are." A neat compliment set in a plain statement—that.

Houston Miller—"Most of my troubles never happened." Housey is just like the rest of us—except some of us don't recognize it like he does.

Elmo Shoffit: "I don't know just who I'm working for, but I'm here on the job anyhow." Elmo was talking about the leasing of Lott's Garage, where he works. The boys up there knew it was leased on the first of April, but didn't know who their new boss was but they kept the place open and the business running just the same. Look in our news column to find out who is the new boss.

John McKillop: "Yes, I'm glad to be able to get down town again. No, I am not going away to recuperate from my long illness. There is no better place to gain strength than right here in Clarendon. One Spring I spent several months in Mineral Wells and the cold, damp climate down there hurt me much worse than the cold does out here." Pickups knows that last statement is absolutely true. There is no finer climate in the world than right here in Clarendon, under the caprock, where the sun shines ninety-some-odd percent of the time.

J. T. L. Warner: "Don't think there is any chance for the fruit. When it freezes in the house, it's

mighty cold, and it would be almost a miracle if the fruit stood it." The argument still rages and we still don't know whether or not we will have home-made preserves and pies this summer.

We heard a woman say the other day that she had been buying dressed chickens from a certain poultry raiser for a long time and that something must be wrong with the kind of chickens that woman was raising. No dressed chicken had ever had a liver. 'Safunny chicken.

Miss Mantie Graves: "Just keep my name out of that Pickup column, will you? If you don't you'll probably get shot." Ouch—all right, all right.

F. L. Behrens: "No, I don't know whether or not my fruit is killed, but even if it isn't, I know it won't taste good after a freeze like we had." Not much encouragement for Pickups' appetite, there, is there?

O. T. Smith: "Old Henry Barrett reminds me of Moses. Why? Well, every time he opens L's mouth he bull rushes." Listen here, that's your fellows' trap. We ain't in on it, none.

Nat Perrine and company from up the street have been putting on a little degree work the past week. Yes! we took the degree all right. No, we ain't sore, cause we saw some other guys get it, too. Nat ought to be ashamed.

A. Clarendon Gump says he finally got to vote in the school election Saturday. He ain't a deteactive found the place and voted.

S. H. Condron: "The building of the community auditorium will greatly facilitate the work of Clarendon College as a Senior institution. We need the auditorium in which to stage our artist courses, which are a necessity if we would have a real Senior institution." That's another big argument for the auditorium.

RECENT ADDITIONS TO HIGH SCHOOL LIBRARY

The following books have just been purchased for the High School Library:

Historic Girlhoods, Rupert S. Holland; The Crossing, Booth Tarkington; Mary Cary, Kate Langley

Bosher; A Dreamer's Tales, Lord Dunsany; Roads of Destiny No. 1, O. Henry; A Man for the Ages, Bachelier; Four Million, O. Henry; Red Rock, Nelson Page; Last Days of Pompeii, Lytton; Eben Holden, Bachelier; Plain Tales from the Hills, Kipling; Signs and Seasons, Furrough; Prophet of Great Smoky Mountains, Craddock; The Blue Bird, Maeterlinck; The Story of the Other Wise Man, Van Dyke; Friendship Village, Gale; Typhoon, Conrad; Trail of the Lonesome Pine, Fox; Bent Twig, Canfield; New Arabian Knights Stevenson; Ninety-three, Hugo; Fifty-four Forty or

Fight, Hough; Why Go to College, Palmer; Prisoners of Zenda, Hope; Story of My Life, Helen Keller; Men of Iron, Pyie; Ramona, Jackson; Jeanne D'Arc, Mackaye; Squirrels and Other Fur Bearers, Burroughs; How the Other Half Lives, Riis; Enemy of the People (and others), Iben; Passing of the Third Floor Back, Jerome; Jane Eyre, Bronte; Egyptian Princess, Ebers; Why Go to College, Cooper.

This is only part of the list that has been ordered. All of the above books are on the approved list sent out by the State Department at self unsponsored from the world.—Austin to be read by high school

students. There were a very few of the books in the group on fiction that were available as the library was formerly supplied. This list is practically a new one sent out, and an attempt is made to comply with the requirements as far as our means will permit. The present plan is to add to the supply as time and demand go on.

PURE RELIGION and undefiled before God and the Father is this, To visit the fatherless and widows in their affliction, and to keep himself unspotted from the world.—James 1:27.

"Hold The Wire"

This is what you may expect to hear the next time you call any of the nearby towns in the Panhandle such as Amarillo, Memphis, Chidress and some others that are not so very far away.

New System On Handling Long Distance Calls

Beginning with long distance calls at once, a new system will be inaugurated that will mean a great saving to the folk on either end of the toll line.

When you call a nearby station, the Long Distance operator will ask you to hold the line if there is an available line open to any of the towns called. You can hear her call the operator on the opposite end of the line and you can save time by staying at the phone until the call is completed.

This system has been worked with great success between some of the cities of the state for the past number of years and will mean more than a saving to the folk of Clarendon.

If there is no line open, the calls will be handled as before, the local operator calling you to the phone after connection is made.

Please help us with this service.
