## WHEAT RECEIPTS INCREASE FAST

### 1928 CROP ALREADY EXCEEDS MANY TIMES ANY PRECEDING YEAR

Wheat receipts for Clarendon for the year 1928 have already doubled the receipts of this city for any year in the past. In 1927, seven or eight cars were shipped from here and the entire crop was completed. To date this year, thirteen cars have been shipped from here with about three cars in storage with the Clarendon Grain Company.

The wet days have delayed the harvest in the past two days of this week, but the combines were started in the Brice valley Wednesday afternoon and the flow of grain from Donley County farms will start today if rain does not fall to prevent it. No damage has been reported from rains since the major part has fallen lightly without heavy winds.

Donley County has the distinction of having shipped the first car of 1928 wheat to the market in Amarillo. This car was shipped to the Great West Mill and Elevator Company the latter part of last week by a Clarendon buyer. Other shipments have been made to more far distant points, with a resultant better price over the Panhandle markets.

Predictions for the crop marketed in Clarendon are rising, the last prediction being 80,000 bushels. Almost one-half of this will probably come from the Brice section of Hall County and will be hauled here for market.

## BAPTIST REVIVAL BEGINS JULY 18TH

### STARNES EVANGELISTIC PARTY TO HOLD TWO WEEKS' REVIVAL CAMPAIGN

Announcement is made this week by Rev. S. R. McClung, pastor of the First Baptist Church of Clarendon, of a revival meeting to begin on Wednesday July 18th, continuing to around the first of August. The Starnes party is one of the most efficient and successful known to Southern Baptists and come here with a long record of great meetings in Texas and other sister states.

## TWO DAYS REMAIN TO ENTER CONTEST

### CLOSING DATE FOR 1928 YARD CONTEST DRAWS NEAR WITH MANY ENTRANTS

The Yard Beautiful Contest of the Clarendon Chamber of Commerce for the year 1928 will soon be on the last lap with the gates closed and the entrants grooming their yards to make the best possible showing on August 17th, when the judging will take place. There are a number of entrants in each of the three classes, but it has been said that there are not enough to justify the selection of any great amount of prizes for the event.

It is thought that more people are keeping their yards in fine shape this year than has ever been the custom in the past. A number have entered the contests, but not all those have entered who are keeping their yards in condition to enter the fete.

Two days remain in which the contest may be entered. July first is the last date on which anyone may enter a yard in a conspicuous place that the yard owners and keepers may know what they are working toward.

As soon as the prizes have been selected they will be posted in a conspicuous place that the yard owners and keepers may know what they are working toward.

### CLARENDON GIRL RECEIVES FATHER'S WAR INSURANCE

After nine years of waiting, Miss Dolan Juanita Mae Henderson, fourteen year old granddaughter of Mr. and Mrs. T. E. Meador of this city has been officially recognized and will receive the wartime insurance of her father who was killed in action in France. Tucker Lee Henderson was the father of the young lady and was a member of the Thirty-Sixth Division which saw such a great amount of action in France. The mother of the young lady has been dead for a number of years and the bureau had failed to find any trace of relatives of the dead soldier until recently.

The affair was handled in Clarendon by Judge J. R. Porter and Leon O. Lewis, who gave all the information needed to Captain S. M. Hankins, State Service Officer, at Austin. The claim was validated and the first news of the money received in the daily papers of this week. In addition to the receipt of the \$10,000 insurance, there is a matter of \$20 per month for the past nine years, or since 1919 that is to be received by the girl.

Investigation has been under way in the matter for a year or more, but the actual proof of the legality of the child's claims were not presented until a short time past. Mr. Meador, the present keeper of the child, states that she is quite overcome with the news and as yet fails to understand what it all means. The girl plans to attend school, this being one of her first statements when she heard she was to be paid the insurance. According to her grandparents, she is a hard working girl and has always been ready to do her part. She has attended school in Clarendon at odd times during the past five years, being prevented from a perfect attendance through lack of finances.

### SUMMER SCHOOL STUDENTS ENJOY COUNTRY CLUB TRIP

The last of the week-end trips planned for the students of the summer school in Clarendon College was held last Saturday afternoon when a trip was made to the Country Club for the outing and the picnic supper that followed. Swimming and exploring the place took the greater part of the student's time until the meal was served. Sandwiches and eats of all sorts were found in abundance more, but the students declared this was the best trip they had enjoyed to this time. The planned trip to the McKenzie Battle ground was not held due to the fact that the distance was too far and the trip too strenuous for the students to make in one day. The benefits of these trips will be seen in the next summer school, when these will be a feature for that session.

### CLARENDON BAND PLAYS FOR DENVER OFFICIALS

To show the city's appreciation of the new depot constructed by the Fort Worth & Denver railroad the past year, the Clarendon Municipal Band visited the general offices of the road at Fort Worth last week during the West Texas Chamber of Commerce convention, and played a short program of popular music.

### NEW BOY SCOUT COUNCIL PLANNED

Work is underway on the organization of the Southern Panhandle Boy Scout Council consisting of the towns of Clarendon, Wellington, Shamrock, Memphis and McLean. It is believed by those interested in the work that the organization of this smaller area consisting of five towns will be much more successful than the old organization comprising the entire Texas and Oklahoma Panhandle. The committee in charge of organization work are Claude Wells, chairman, Memphis; Sam Braswell, Clarendon; H. E. Singley, Wellington; W. H. Walker, Shamrock; F. E. Bourland, McLean and C. E. Jameson, Memphis. H. B. Yates, Scout Executive, will work during the summer in organizing new troops, reorganizing old troops and conducting a summer camp. An attempt will be made to organize a troop in the Methodist Church of Clarendon. The troop under Scoutmaster Lusk will be registered with National Headquarters Boy Scouts of America within the next few days. (This troop will take a hike Friday afternoon leaving the City Hall at 6:15.

### CLOTHING CONTEST HELD IN CONNECTION WITH RALLY

One of the greatest meetings that has been held by the members of the Girls' Clubs of this county in the past year was staged last Thursday at Lelia Lake Camp with approximately 75 girls present to take part in the festivities of the day. The occasion was the annual encampment of the girls in which they meet and exchange ideas and plans, thus getting to know each other better. One of the features of the day was the Clothing Contest, an annual affair that attracts members of the clubs from all parts of the county with their entries. Miss Minnie Mae Grubbs of the Extension Department of the A. & M. College of Texas acted in the capacity of judge for the occasion, giving the following as the winners of the event. In the first year class, Miss Nova Cook of Lelia Lake won first prize, Miss Oneta Poovey of Ashtola was awarded third prize, and Miss Geneva Whatley of Lelia Lake was third place winner. The second year class first prize was given to Miss Jewell Smith of Lelia Lake and second was awarded Miss Lavada Wood of Martin.

### CLARENDON DIRECTOR AT HOUSTON CONVENTION

Mr. and Mrs. E. M. Lindsey left Saturday morning for Wellington, where Mrs. Lindsey will visit while Mr. Lindsey makes the trip to the Democratic National Convention with the Memphis band. Mr. Lindsey is the only Clarendon man making the trip to Houston, and is certain to receive information and get an idea of the workings of the Democratic party while he is in that city. He will return the latter part of next week and states that there will be no further band practices next week during his absence.

### NEWS WILL CLOSE ALL DAY FOURTH—ASKS HELP

Complying with the usual custom of the News to give the employees the advantage of National Holidays, the Clarendon News is following the precedent set and will be closed all day next Wednesday, July 4th. In order that we may do this without serious obstacles, we are asking that all merchants, correspondents and all others with copy for the next issue of the News have this matter in our hands not later than Tuesday noon. In this manner we will be enabled to close all day Wednesday with no discomfort to our employees.

### Mr. and Mrs. M. Leo Rippey left Monday for a visit in Dallas with friends and relatives before going on to Memphis, Tennessee, where Rev. Rippey has a church. Mrs. Rippey is the daughter of Mr. and Mrs. G. S. Patterson of this city and has been here for some time while Rev. Rippey has been teaching in a pastor's school.

## CHASE IS NAMED LIONS PRESIDENT

### ANNUAL ELECTION OF OFFICERS HELD TUESDAY. COMMITTEE REPORT HEARD

In the annual election of officers for the Lions Club of Clarendon, the report of the nomination committee was accepted without a hitch in proceedings when the members voted on the recommendations of the committee. Lion A. L. Chase was chosen to head the Lions for the coming year, and will be assisted by C. J. Douglas as First Vice President, G. L. Boykin as Second Vice President and Fred Rathjen as Third Vice President. Odos Caraway was elected as treasurer to take the place vacated in the promotion of Lion Chase. Loyd Stallings will continue in the place of Secretary. L. E. Cooper relieves G. L. Boykin in the office of Tail Twister and J. G. Sherman will take the place vacated by Charles Dean. In the directorate, Homer Mulkey and R. L. Bigger will take the places of the two outgoing directors.

At the close of the luncheon Lion Mulkey asked that all elected officers wear clean shirts at the next luncheon that they might be in the best possible condition when they are placed in their new positions in the club.

Reports were heard on the convention trip to Fort Worth, Lion Douglas scoring a big hit when he stated that the only registered delegates he could find were C. C. Powell and Monty Garrison and that neither of these were in Fort Worth. Lion Boykin stated that he never did see Lions Chase or Mulkey, and was asked what he had to make him go blind so suddenly. Lions Chase and Mulkey each reported on the convention, saying it was very good and that they had seen some of the Clarendon delegation while they were in the convention city. Lion Boykin reported that the Clarendon band worked hard while they were in Fort Worth and that the only reason they were beaten was that two better bands were in the contest with them.

In the attendance contest for the three months ending with the luncheon Tuesday, six Lions were eligible for a prize. In the drawing, which followed, Lion D. O. Stallings was pronounced the prize winner and was presented with a handsome bill fold. The remaining five members of the 100 per centers were not awarded prizes at this time.

Lion Boykin asked the members who are going on their vacations to take a few of the folders of the Chamber of Commerce with them and put them in the best possible places while they are out of the city.

Lion Mulkey reported the organization of Lions Clubs in Miami, Memphis, Turkey, Quitaque, McLean, Quanah, Estelline and Chillicothe in the past few days. At last report the number of clubs organized since last July amounted to more than fifty with the total membership of the clubs of the state running above the 6,000 mark.

Lion Patrick reported on the wheat prospects for this section, stating that there would be probably 75,000 bushels. To date, the product has tested No. 1 dark hard wheat, the best to be found anywhere. Harvest conditions have been propitious, with some loss to be expected from cutting the wheat too green.

The committee named some weeks past on the matter of sending the secretary to the International Convention at Des Moines made their report and passed checks to the Lions asking them to do their part toward sending the delegate with the Boss Lion. First report showed that a little more than \$75.00 was raised with ten other members of the club to be seen before the work was completed.

Adjournment as usual.

### NEW YORK MANUFACTURER COMPLIMENTS CLARENDON

Chas. T. Hvass, manufacturer of New York City, was in Clarendon for a few days last week, visiting in the home of G. W. Antrobus, and with other relatives here. Mrs. Hvass is here for the summer with her parents, Mr. and Mrs. Antrobus. In the past, Mr. Hvass has been complimentary to Clarendon when he visited the city, but this time, he has been more than struck with the appearance of the streets and the condition of the business houses here. The visitor is in a position to know whereof he speaks since he covers the United States in all parts and sees towns of all sorts and kinds. Mr. Hvass said in part, "Clarendon is a town that impresses the visitor, and especially one who travels from coast to coast to coast and from New York to Cuba. The cleanliness of the streets and the general tidiness of the business houses leaves an impression that one carries with him wherever he may go."

### PLUM CROP WILL BE GOOD AS EVIDENCED BY BRANCH

The plum crop for Donley County will be the best ever if the trees of the county bear so well as one on the place of Mrs. F. C. Whipple in the northern part of the city. The tree was so heavily laden that a strong wind broke a branch from the tree. The branch was brought into the News office and the plums were so thickly set on this portion of the tree that it seemed almost solid with the fruit. Although the plums were not counted, it is estimated that nearly one hundred were on the branch that was no more than three feet in length.

Rev. and Mrs. W. M. Murrell have as their guests, Mr. and Mrs. J. C. Boswell and children, Helen and Genevieve of Byers, Texas, Mrs. J. R. Graham of Seymour, and Mrs. Robert Smith of Fayetteville, Arkansas.

### CLARENDON BOY PLAYS IN QUANAH SIX YEAR BAND

A signal honor was conferred on Ross Beville of the Clarendon Municipal Band while that organization was in Fort Worth the fore part of last week. Ross was chosen by the director of the Quanah band as one of the men to play with his six year band in the contest staged during the West Texas Chamber of Commerce Convention. It is said that Ross did very well, and passed credit to the Clarendon organization and to the training he has received in the past.

### POTTER FAMILY ENJOYS REUNION LAST WEDNESDAY

The remaining members of the Potter family enjoyed a short reunion in the home of J. M. Potter of the Pleasant Valley country Wednesday of last week when they were all gathered for a day in that location. Of a large family, only four are yet alive, and these meet at frequent intervals to renew the family ties and to keep alive those things which are sometimes forgotten. Since the Potter home in Donley County is nearly the center of the group, it is here that the greater part of the meetings are held. Those present for the meeting last week were: J. M. Potter of Clarendon, Jeff Potter of Tulla, Texas, Mrs. M. E. Scoggin of Foster, Oklahoma and Mrs. Minnie Wise of Estelline, Texas.

He plans to attend Clarendon College the next session and will attempt to cop other prizes to place alongside the many he has already won.

### RESIGNATION EFFECTIVE JULY FIRST. MISS THOMPSON IS SELECTED

Official announcement of the resignation of Miss Eula Key, Home Demonstrator for Donley County for the past two years was made to the gathering of women and girls last Saturday in the Courthouse when Miss Harvey Thompson of Sweetwater was introduced as her successor in office. Miss Key presented her resignation to the Commissioner's Court early in this month asking that the date be made effective at once. The date agreed upon was July first, after which time Miss Key has other plans.

Miss Harvey Thompson, Home Demonstrator for Nolan County, with her headquarters in Sweetwater, was introduced to the ladies as they came to the courthouse last Saturday in response to a call issued by Miss Key. Miss Thompson will take her place in this county after July 15th, it taking that much additional time for her to complete her work in that county.

Miss Key has been of great assistance to the club work of this county and has done a great work in getting the women and girls organized for the work they can do best. The result of her work were well seen at the Fair here last fall and still further results will be seen in succeeding fairs that are held by the county from year to year.

### FINK FAMILY RETURNS FROM RIO GRANDE VALLEY VISIT

Mr. and Mrs. O. L. Fink and daughter, Miss Florence, son, Kenneth and J. F. Brogden, returned Monday of this week from a three weeks trip into the southern part of the state. They report having seen some very fine country and also report some country that is hardly worth going over. The family was especially struck with the lower Rio Grande valley and they state that they will probably spend the next winter in that part of the state. During their stay in that part of the state they took advantage of the nearness to Old Mexico and took a short pilgrimage into our neighbor country to Matamoros.

### MRS. SANFORD INJURED IN WARNER PARK LAST SUNDAY

Mrs. Buel Sanford was quite painfully injured last Sunday afternoon when she met a playful goat in Warner Park to the South of Claude. Mrs. Sanford was perched carefully on a large rock when the goat saw her and decided there was not room enough on the rock for both of them and playfully pushed Mrs. Sanford off onto another pile of rocks. She was considerably bruised about the arms and body, but was uninjured otherwise. The party consisted of Mr. and Mrs. Buel Sanford and family, Mr. and Mrs. W. A. Land, Mr. and Mrs. Marvin Land and Miss Virginia Gore, the sister of Mrs. Marvin Land.

Mrs. D. O. Stallings returned to her home Wednesday afternoon after a visit of some few days in the home of her mother, Mrs. F. H. Britain in Hereford.

## TOWN TO CLOSE FOR JULY FOURTH

### MERCHANTS TO COMPLY WITH AGREEMENT TO CLOSE ON BIG HOLIDAYS

Complying with the agreement entered into some time past, the merchants of the city of Clarendon will observe the natal date of the nation by closing their doors and allowing their employees the privilege of enjoying this day as they see fit. Cards are being displayed to this effect and it is thought that the greater part of the city will be in on the closing. No plans are being made for a celebration of any sort by the city of Clarendon and it is thought that a great exodus to other parts of the Panhandle will be the order of the day. Amarillo will draw a huge crowd for the celebration of the Tri-State Fair in the Harding Ranch and other nearby towns who are planning celebrations will do the same.

Wheat, cattle, farm and garden truck, cotton, maize and kaffir, feed—all these with good yields this year will prove to the dairy-farmer in Donley County that the Lord helps them who help themselves.

Wheat yields in the Clarendon territory are turning out better than at first thought. It looks now like seventy-five cars will be loaded here in the next three weeks. Business is showing increased activity on account of the ten thousand bushels already marketed here.

Final preliminary details are being worked out this week for Donley County's Agricultural Fair, which will be held early this fall. Chamber of Commerce officials and committeemen are much pleased with the prospects for the best fair our county has ever had, and will continue to put that extra effort into its plans until the fair is a worthwhile reality.

It was a happy thought of someone in the Clarendon delegation down at Fort Worth last week when our band went down to the general offices of the Fort Worth & Denver railroad and serenaded the officials as a token of our community's appreciation of the new depot built here last year. It reflected our community feeling and from reports was pleasing to the road officials.

While Texas will likely be Democratic in state affairs for another century, yet there is a strong likelihood that the crack in the structure of the national party which appeared four years ago will widen into such a breach as to bring on a crash that will destroy it, if the blear-eyed Smith adherents have their way down at Houston. It is entirely possible that there will never be another national Democratic convention.

Those who have voted the Democratic ticket all these years, because we were born in the South and because our fathers and fore-fathers were Democrats, wait with expectancy the outcome of the convention at Houston. Will the Democratic party become the liquor party of the nation? Or will it do the monstrously dishonest thing of presenting a candidate known only by his championship of liquor, while at the same time it declares for the eighteenth amendment?

Clarendon is the oldest town in the Panhandle of today with the exception of Mobeetie, the latter being a few years older. Clarendon is still growing and with modern improvements being made is to become one of the best home cities of the Northwest Texas. It really is a treat for the tourist to drive into Clarendon. The city is attractive, and yet not new and raw. It gives one the thought that here is to be found a frugal, contented and yet enterprising people.—Childress Daily Index.

The papers that attracted most attention at the recent Texarkana press meet were the Clarendon News and the Memphis Democrat, the latter being adjudged the best all-around weekly in Texas. Now we were not surprised about this distinction going to the Democrat was more or less unexpected. Still we believed the honor was well deserved; that paper has not only doubled in size of late but improved in many ways ever since our young friend, Lyman E. Robbins, has become its advertising man.—Quanah Tribune-Chief.

## COUNTY AGENTS VALUE

The fact that Swisher County people have found it advisable to employ a good, sound county agent to aid in pointing their farming program to a sane practice has been of untold value already and will be a value increasingly during the years to come.

It is an instance in proof of the claim that a county agent who really county agents is worth the money, all anti-claims to the contrary notwithstanding.—Floyd County Hesperian.

## CRIME AND CARNIVAL

County authorities did not go far enough in compelling the operatives of gambling and gyp joints at the recent carnival to suspend operations. The violators should have been arrested and prosecuted. It is against the law to gamble, and honest gambling is as far above the kind indulged in out on the Carnival lot as the sky is above the earth.

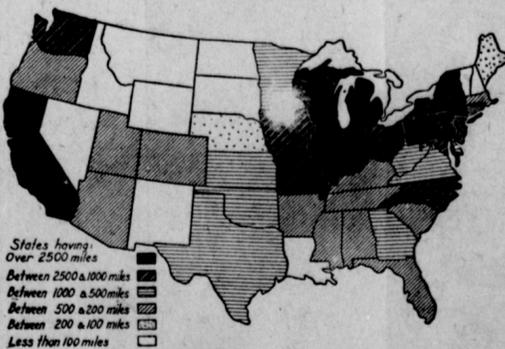

Dollars were wagered in plain sight, if playing one of the "fixed" games constitutes wagering. You could name your bet and the house man would call it. And there was more than one of these stands in operation. County authorities later closed them, but not until they had made a cleaning. The law says the violators should be prosecuted, and tax-paying citizens of Shamrock and Wheeler County expect that.

The same week three stores were entered and a man was knocked in the head for the reason he tried to keep others from stealing from him.

Such a crime wave very often follows in the wake of carnivals and cheap shows. There may be advantages to them but this newspaper cannot think of a single one. Steps should be taken to keep such filthy outfits outside the city and county.—Shamrock Texan.

Did it ever occur to you just how much you and your community owed to the business houses who carry on regular and systematic advertising for their own gain? The casual observer would say that only the individual doing the advertising enjoys the benefits from his effort and investment, but such is not the case. Without question his expenditures for advertising brings him regular and satisfactory returns, but while the merchant is doing that for his own gain, he is making a contribution to his community and town, which can hardly be calculated, but which if withdrawn along with advertising of brother merchants would prove disastrous to the town and community. The individual advertisers in any given community are in direct control of the width and breadth of that town's trade territory, and to them goes the credit for the rolling back of encroachments of other competing towns. This is proven every day in actual business life, and all of us should be willing to accord due credit to those who keep the avenue of trade open to our towns and communities. The regular advertisers cause the volume of trade to double or treble what it would be with no advertising. The regular advertisers make it possible for our people to buy well-known and nationally advertised products in all lines at a saving. The regular advertisers make it possible for investment after investment to be made in local property, for without them there would be no incentive to community building. The regular advertisers make our churches and schools what they are; without them taxes would be so small that schools could hardly run three months in the year, and little interest and support could be had for our churches. The regular advertisers are mainly responsible for modern conveniences in our smaller communities, indeed they are largely responsible for large communities being in existence. Think it over, and render to the regular advertisers of your community their just dues in making life worth living.

## Where Tourists Will Find Concrete Roads

OVER fifty thousand miles of concrete roads await tourists this summer. The motoring vacationist will find hard surfaced pavements from Maine to California, from Washington to Florida. Seven states—Illinois, New York, Pennsylvania, California, Michigan, Wisconsin, and Indiana—have more than 2,500 miles of concrete roads each. Illinois, with 6,064 miles of hard surfaced highways, tops the list. New York, Pennsylvania, and California, each with more than 4,000 miles of this type of pavements, rank next in order, respectively. With this mileage of smooth, dustless highway at his disposal, the automobilist can take long, extended tours without enduring the hardships which were his lot when he tackled the horse-and-buggy roads of yesterday.

## COTTON OFFICE MAY BE OPENED HERE BY WISNER

J. B. White of Memphis, manager of J. N. Wisner of that city, was in Clarendon the fore part of this week looking over the actions of the cotton market receiving machine in the Clarendon Drug Store. While here, Mr. White stated that their company was looking for openings in other cities in the Panhandle for the location of their machines, and that they would probably open an office in Clarendon later in the year. The cotton market machine that is here is one of a chain of machines operated from the receiving station in their offices in Memphis, where a board is maintained and where the operator is stationed to keep in touch with the market at the Cotton Exchange in New Orleans. Mr. White further stated that space had been tentatively secured in the rear of the Clarendon Drug Store for the establishment of a cotton exchange board and other accommodations that go to make an office of this nature. The machines are now in operation in Clarendon, Hedley, Memphis, Shamrock and Elk City, Oklahoma with other sites in prospect.

## AVERAGE HEN LAYS 60 EGGS

According to the census, the average farm hen lays less than 60 eggs a year and most of these from March to June when prices are lowest. If you have a flock of mongrel hens, the chances are good they belong to the 60 egg class. There is only one way to make such a flock profitable and that is to put all of them into the soup bowl. Study of egg prices shows that in April, prices are lowest, they begin to go up in July and August, by September they have gone up in price a great deal and by December, the price is as a rule the highest. Here then there is a great opportunity to increase the egg production of our farm flock, especially fall and winter egg production. The ability to lay is inherited. I believe I am safe in saying that the average flock of White Leghorns will produce better than 120 eggs a year. This is twice as many as the average farm hen. A well bred flock of White Leghorns or any other breed will produce 180 eggs per hen per year. This is three times as many as the mongrel hen. In figuring profit, however the well bred hen laying 180 eggs is at least ten times as profitable as the 60 egg hen. The well bred hen lays many of her eggs at least around 90 to 100 when they are up in price. Well bred hens are profitable investments. Poorly bred hens are money losers.

In a few minutes' time the entire home can be freed of mosquitoes. With an improved FLY-TOX Hand Sprayer, spray FLY-TOX directly toward the ceiling, also on the draperies, in the closets and on the screens. It will not leave a stain on the most delicate of wallpapers, hangings or fabrics. Spray upwards until all parts of the room are filled with the finatomized spray. Within a few minutes all the mosquitoes in the room will be dead, regardless of whether the windows and doors are open or closed. In addition to being stainless, FLY-TOX is fragrant, is absolutely harmless to people but sure death to all household insects. Every bottle guaranteed.—Adv. (26c)

## 5 reasons why STEEL ECLIPSE WINDMILLS run in lightest breeze

Why does the Steel Eclipse run when other mills are motionless? The answer is, scientific design and fine workmanship. Note these five reasons— (1) Wheel is tilted to take advantage of light breeze. (2) All working parts run in oil. (3) All wearing surfaces are made of the right materials and surfaces are machined. (4) Mill starts on two-thirds load—not full load; quick downstroke and slow upstroke means less effort required on the lift or pumping stroke. (5) All bearing surfaces are in line, reducing internal strain and power loss.

Ask us to show you!

Look this mill over at our store, and be your own judge as to its merits.

There is nothing like it in DESIGN or for POWER.

### Stephens-Goldston

Miss Vivian Lucille Goldston, daughter of Mrs. Willie Goldston, was married Monday at 8:30 P. M. at the home of her uncle, Mr. Odos Caraway and Mrs. Caraway to Mr. Jasper E. Stephens, Rev. L. L. Swan officiated.

An improvised arch of fern with large baskets of pink and white carnations and tall lighted white tapers on either side and center completed the altar before which the ring ceremony was read. Miss Mary Frances Caraway at the piano played softly the wedding March from Lohengrin. Miss Lorraine Patrick and Miss Agnes Caraway, bridesmaids, entered first wearing ensembles of orchid georgette, and stood on either side of the altar while Rev. Swan descended the stairway and took his place before the altar.

The bride and groom entered together. She wore an exquisite model of ivory georgette with accessories to match and carried a lovely shower bouquet of pink and white carnations and valley lilies.

An informal reception was held immediately after the ceremony. The dining table was centered with a beautiful wedding cake topped by a miniature bride and bridegroom banked with lace fern and carnations. A large pink tulle bow surrounded the cake which was removed when the cake was cut by the bride and groom and served to the guests with ice cream.

Mr. and Mrs. Stephens departed shortly after the ceremony for a short trip to Amarillo. The bride's traveling suite was tan and brown with accessories to match.

Mrs. Stephens has been reared and educated in Clarendon and is one of the most popular members of the younger social set.

Mr. Stephens is the son of Mrs. Cora E. Cutter of Los Angeles, California, and is well known in Clarendon, having been reared on a ranch near McLean and later attending Clarendon college. He is now employed in Los Angeles where they will be at home after July 10th at 586 Milton Court.

Out of town guests for the ceremony were: Mrs. Cora E. Cutter of Los Angeles, Mrs. Lorraine Harless of Dallas, Mr. and Mrs. Charles Gatlin of McLean, Miss Thelma Gatlin of McLean, Haskin Moreman of Plainview and Dwight Upham of McLean.

**Bride-Elect Honored at Parties**

Society has showered the bride-elect, Miss Lucille Goldston, with some of the loveliest and most elaborate pre-nuptial events ever honoring a Clarendon girl.

Numbering among the list of social functions was the bridge-shower given Friday afternoon by Miss Lorraine Patrick at the home of her parents, Mr. and Mrs. W. H. Patrick, 1204 W. 3rd Street.

The guests, active at three o'clock and spent some time playing bridge in rooms elaborately decorated in the bride's chosen colors, pink and white. Beautiful cut flowers in the shades were used artistically in the entertaining rooms. At the close of the games Misses Obie Crabtree and Leta Verne Martin were given score favors which were presented to the honor guest, who also received a lovely gift together with a dainty handkerchief which had been used by the bride-elect's mother, Mrs. Willie Goldston, at her wedding twenty-three years ago and which has been carried by eight brides.

Miss Lucille was then led to the bedroom where a shower of wonderful gifts awaited her. A delicious two course luncheon was then served with small wedding rings as plate favors to: Misses Agnes Caraway, Jewel Davis, Jessie Burson, Athlyn Taylor, Obie Crabtree, Norma Rhodes, Mary Jo Chamberlain, Leta Verne Martin, Lotta Bourland, Clifflie D. McDowell, Geraldine Kelly, Katherine and Elgin Patrick, Betty Fuller of Panhandle and Thelma Gatlin of McLean.

The bride's chosen colors, pink and white, prevailed in all the decorations. The bride was featured in the lovely place cards, nut cups and even the tallies were miniature brides. Pink and white also predominated in the refreshment course.

The high score favor was won by Miss Goldston and cut by Lotta Bourland who presented same to the honoree.

The gifts which had been selected in another room were then presented to the bride, who opened each package and thanked the donor in a most charming manner.

Those present: Misses Lotta Bourland, Norma Rhodes, Lucy Antrobus, Lorraine Patrick, Evaloe Morrison, Obie Crabtree, Dorothy White and Mary Jo Chamberlain. Mesdames Carl Bennett, Jr., Sam Darden, Richard Bell, Doris Ellis, Clarence Whitlock, Ira Merchant, Eva Rhode, Geo. Reed, Bascom White, W. L. Ball, Fred Mayer, Lenode Goldston, Willie Goldston, Leonard Parker and the honoree, Miss Lucille Goldston.

**Relatives and a few intimate friends were present at the wedding ceremonies, after which Mr. and Mrs. Randel left for Denver, Colorado, to return in two weeks to their home in McLean.**

Out of town guests who attended the wedding ceremony were: Mr. and Mrs. D. F. Randel and Miss Beatrice Randel of Clarendon; Mrs. G. A. Law of Corvallis, Oregon; Miss Lillian Hagins of Jayton, Texas; and Mr. Dawse Brooks of Vernon.—Amarillo Daily News.

Morrison, Athlyn Taylor, Lorraine Patrick, Mary Jo Chamberlain, Lotta Bourland, Betty Fuller of Panhandle and Thelma Gatlin of McLean.

Messrs Billy Taylor, Dwight Stubblefield of Groom, Billy Carroll, Ernest Kent, Jack Merchaut, Mike Corbin, Sherman Carroll, Kelly Chamberlain and Ralph Bourland and Dwight Upham of McLean gave a jolly party for Miss Lucille Goldston, bride-elect and Cappy Stephens, groom-to-be at the Country Club.

Swimming was first enjoyed then supper, then the most fun of all, a booby shower. Peel after peel of laughter followed the opening of each package until the final one, a handsome silver pitcher labeled "from the bunch" was unwrapped. Then each made a dash for their car and home next.

#### LANES OPEN MARKET FOR PANHANDLE GAS

The big gas line to Denver is nearing completion and will soon be supplying the big industries of Colorado with natural gas from the Panhandle field. The line to Kansas City is also expected to be completed by early fall and these two lines will use more gas than one will first imagine. There are many industries in Pueblo and Denver that will use gas in large quantities, then in Kansas City also are found various industries that will use up in the millions of cubic feet of gas daily. All this gas is to be supplied from the Panhandle field. This makes a market for gas and makes valuable many acres of land that heretofore had not been considered worth a great deal as the market for gas had been limited. Both the Denver line and the Kansas City line is coming right into the territory where the Big Coach Oil Company of Canyon is drilling a well, in southwestern Hutchinson County. This territory is known as the BIG GAS territory. Our well is nearing the 1500 foot level and we expect a little gas at about 1575 feet. Our neighbor well, the Golden Eagle, is reported as good for more than 100 million feet of gas per day. We should get a

well equally as good. And too, we expect a oil well that will make as much as 250 bbls., and possibly up to 1,000 barrels per day. You can still get interest in this organization at practically the cost of the lease and the cost of drilling the well. Have you ever before had an opportunity to get stock in a well on a cost basis. Better investigate this proposition before it is too late.

### AUTO JAMS SHOW WIDE ROAD NEED

#### HOLIDAY TRAFFIC CHOKES MAIN ROADS; FOLKS PREFER CROWDS TO BUMPS

Memorial Day, the first great motorists' holiday of 1928, brought record breaking crowds of automobiles out into the country all over the United States. From dawn to midnight hard surfaced highways were crowded with thousands seeking relief from city congestion.

In Cook County, Ill., which includes Chicago, the concrete roads were jammed almost to impassability all day long. Lieut. Lester J. Laird of the Cook County Highway Police, reported that most of the 50,000 new automobiles registered in the county were on the road, as well as the old timers. The highway police were busy throughout the day, attempting to keep traffic moving. Particularly at intersections where long lines of cars piled up.

So intensive was the congestion that Major George A. Quinlan, superintendent of Cook county highways, issued an appeal to Chicago motorists to use the secondary, unpaved and little used side roads. He strengthened his plea with descriptions of the unsuspected scenery and freedom to be found on the side roads.

"On such leisurely excursions from the main road," he said, "the Chicago motorist will find he has the road practically to himself instead of having to halt every few minutes while interminable lines of cars creep forward another few feet along our present narrow strips of concrete."

High way officials agree that use of side roads would help relieve the situation, but few believe that enough motorists will do so to make any material difference. Preference has repeatedly been shown for hard, smooth roads and most drivers will stay on them regardless of traffic.

Much of the congestion is attributed to the fact that main roads are too narrow, the standard width in many places being only 18 feet. Lack of aprons or widen-

ings at intersections is held responsible for much delay and confusion.

Widening of existing hard-surfaced highways, the development of permanent feeder roads and the construction of grade separations at major intersections are seen as immediate necessities in all crowded communities.

In and around Chicago the situation has become so acute that the standard width for county highways has been increased to forty feet and construction bringing existing roads up to this standard is going forward rapidly.

Another of the several plans under consideration in this community is the utilization of "air rights" above railroad tracks; the idea being to build highways over the various lines which radiate from the heart of Chicago. Whatever is done, according to highway officials, the tremendous increase in cars must be met with increased highway facilities. The situation is not unique to Cook County.

#### TWO CLUBS GIVE SUPPER CANDIDATES MAKE SPEECHES

Saturday evening of last week, the consolidated clubs of Boydston and Jericho gave an ice cream supper at the Jericho school house and offered special inducements for all candidates to be present and make their pleas to the voters as they assembled. Ten of those in the race for offices in Donley County were present and made short addresses to the gathering. Those who were in attendance on the meeting state that they did not know which of the ones were most frightened, the speakers or the hearers. Following the sale of the ice cream and its attendant cake, two rugs were sold by the clubs. Funds derived from the sale will be used by the Boydston and Jericho Home Demonstration Clubs for their projects.

Big Lake—Soft water will be turned into the mains of Big Lake in June.

Grape juice makes a delicious hot weather ice or sherbet. Flavor with sugar and lemon to taste and freeze; if a sherbet is wanted, add a beaten egg white when partly frozen and continue turning the dasher until stiff. Remove dasher, cover the can tightly, pack with ice and salt, and set away to ripen for an hour or more.

Nitrogen is the most expensive fertilizer there is, but a crop of sweet clover when plowed under will add without cost a good supply of nitrogen taken from the air. Sweet clover forage is also high in protein, which is an expensive element in livestock feeds. A second season's growth of a biennial sweet clover may be grazed as pasture from early spring until the plants are too woody to be palatable, which is usually about the end of July. There is no other plant that will furnish as much grazing as a stand of sweet clover in its second season. This crop will grow almost anywhere, provided there is sufficient lime in the soil and enough rainfall.

**FEEDING FOR EGGS**  
 By F. W. Kazmeier, Bryan, Texas.

There is no question but that both egg-production and growth is greatly influenced by the ration fed. Many factors and ingredients enter into a well balanced ration. On most farms, the greatest part of the ration consists of grain, mill feeds and by products. Careful poultry feeding research has developed the fact that the use of animal protein, such as meat scraps, fish meal or milk in a ration, consisting only of stable grains, used for many farm flocks, will increase egg production about one half and at the same time greatly decrease the cost of producing eggs. In extensive feeding tests it was found that the flock fed only whole and ground grains, laid only an average of 85 eggs per hen per year and went into an early moult. The other pen fed ordinary grains supplemented with meat scraps produced an average of 150 eggs per hen per year. Here is a difference of about 65 eggs in favor of the pen fed some animal food along with the whole and ground grains. Animal food of some kind seems to be necessary in all good rations for both laying hens and growing chicks.

**WARFARE WITH INDIANS ON THE UPPER NUCES**

That part of the Southwest Texas through which flows the headwaters of the Nueces and Frio

was the home of several warlike tribes back in the sixties and seventies. It was a hunter's paradise. Native streams were beautiful, and teemed with fish, while the hills and valleys afforded wild game life of every description. Naturally the Indian tribes, who had this happy hunting ground for so many years, resented the intrusion of whites, and armed conflicts continually took place between the two races. J. E. Watkins, a pioneer of Southwest Texas, is well acquainted with many of the old Indian fighters of that part of the State. Mr. Watkins repeats some of the stories as told him by these old Indian fighters, in the Clarendon News Monthly Magazine Section, which will be issued July 19th.

## AD PROMOTER HAS TO REFUND MONEY

MAN WHO GYPPEd SHAMROCK MERCHANTS HITS SNAG IN OKLAHOMA

Trice Smith, self-styled advertising promoter who "promoted" Shamrock business men for \$55 two weeks ago as advance payment for advertising that was to appear in a church directory, ran into a snag at Woodward, Oklahoma, when officers at that place compelled Smith to fork over all money he had collected at Shamrock.

The man was arrested after Woodward officers received a postal card from Shamrock merchants, telling of Smith's caper here. Cards had been mailed out, offering \$25 for Smith's arrest.

He could not be compelled to return to Texas for trial on account of not having stolen as much as \$50 from any one person, the state law requiring as much as \$50 be stolen before extradition can be requested.

The man came to Shamrock two weeks ago and secured the consent of a local church to compile and publish a religious directory. He sold advertising, supposedly to pay the printing cost, collecting the money as he went along. Then he disappeared, without making any arrangements to have the directories printed.—Shamrock, Texan.
