THE CLARENDON NEWS

A City Auditorium for Clarendon

HEAVY RAIN IS MUCH BENEFIT

LITTLE DAMAGE DONE BY RAIN FRIDAY NIGHT. WILL BENEFIT WHEAT.

Donley County was fairly well covered by a rain on Friday evening of last week that amounted to 1.60 inches in Clarendon and that fell in varying amounts in almost all parts of the county. Farmers of the county who have planted their wheat are feeling very jubilant over the rainfall since there was a part of their crop that was needing it very badly.

The damage that was done to the cotton crop was negligible, although the picking will be delayed a short time due to the rain. The rainfall was almost without any wind and there will be a very small percent of the crop washed from the open bolls. The damage in this connection will be negligible except for the slight discoloration that will disappear when the sun has been out for a few days.

Cattle men are feeling fine since there will be a new crop of grass for the fall and winter months that will delay the time when feeding will have to be started.

Roads in the county were almost impassable before the rain, but will be in a fine condition after the graders and drags have been at work on them. Travelers stated that the dust was almost unbearable as the grader had piled loose dirt onto the center of the road to have it beaten into a fine dust.

The rain brought all pickers and farmers to town early Saturday and produced one of the busiest days that has been seen in Clarendon for a number of months.

MULKEY GOES TO DALLAS TO REARRANGE PROGRAMS

Homer Mulkey was in Dallas the fore part of this week making some changes in his program for the Pastime Theatre and completing his plans for the opening of the Queen Theatre the latter part of this month. Mr. Mulkey is making changes in the program of the Pastime that should be pleasing to a great many people of this immediate vicinity. A star picture will be used at the Pastime on Saturday instead of the usual western that has been the program in the past. The program at the Queen is to be made up entirely of the western plays that have been shown in the past at the Pastime and will be shown only Saturday afternoon and night. The western program that will be shown at the Pastime will be held there on Friday instead of on Saturday as in the past. Some few special pictures of this nature will be seen there, but for the most part, these will be shown at the Queen. The opening of the Queen has been set for October 27th.

FIRST METHODIST CHURCH

Sam E. Allison, pastor. Announcement for services for Sunday, October 21st.

Sunday school meets in all departments at 9:30 a. m. Judge J. R. Porter, general superintendent. We have classes and departments for all ages. Preaching services conducted by the pastor at 10:45 a. m. and 7 p. m.

Devotional meeting of the Senior Epworth League at 6:15. Good crowds, good music, helpful services and a cordial welcome at the Methodist Church, The Home Like Church.

J. A. RANCH SELLS 1928 CALF CROP

ALMOST QUARTER MILLION DOLLARS INVOLVED IN CATTLE SALE.

The J. A. Ranch calf crop for the year 1928 and all steer yearlings figured in a cattle deal consummated the fore part of this week in Pampa. The calves numbered 2,200 head and the steers took the count at 2,000. This comprises the crops mentioned for the year and will probably stand as one of the largest deals of cattle brought about in this section of the Panhandle this year. The stock was purchased by the Joyce Land & Cattle Company of Pampa.

The price secured for the stock will prove very satisfactory, the calves taking a price of approximately \$50 each while the steers took the high mark of \$69 each. The approximate amount involved in the sale will be \$248,000.

The bulk of the stock will probably be moved to the Joyce ranch to the North of Pampa, while the others will either be sold or placed on the New Mexico ranch of the Joyce Land and Cattle Company.

GRAND JURY TURNS IN REPORT OF WORK

TASKS AT HAND COMPLETED, JURY REPORTS AND ADJOURNS FOR TERM.

The Grand Jury for the Fall term of District Court completed their deliberations Tuesday of this week after they had been in session for a short time. Their report follows in detail:

To the Honorable A. J. Fires, Judge of Said Court:

Comes now the Grand Jury duly impaneled in and for the District Court of Donley County, Texas, October Term, A. D., 1928, and submits this final report: We have examined 27 witnesses in the two days we have been in session and have inquired diligently into all violations and matters that have come to our attention, and return herewith four indictments, all felonies.

We wish to thank the court and all the officers thereof for their valuable assistance during our deliberations.

We find the general conditions of the county as to law violations good, and there has been comparatively few violations brought to our attention.

We have visited the County Jail and find that it needs some janitor work, in other words it is not as clean as it should be kept. We would also advise that the Commissioner's Court, either have the porch removed or repaired as it is now in a dangerous condition. We have finished our labors and ask that we may be finally discharged.

Done at Clarendon, Texas, this 16th day of October, A. D., 1928.

R. E. Mann, Foreman of the Grand Jury.

Miss Beulah Baird accompanied her sister, Mrs. Allen Beville, Jr., to her home in Amarillo Monday afternoon. Mrs. Beville had been visiting in the home of her mother, Mrs. J. B. Baird.

P. T. BENEFIT ALL ROUND SUCCESS

"FLAPPER GRANDMOTHER IS BEST HOME-TALENT PERFORMANCE IN LONG TIME"

Friday night's presentation of the "Flapper Grandmother" was without question the best home-talented performance to be staged in Clarendon in the last several years, and was an unqualified success from every standpoint. Presented under the auspices of the College Parent-Teacher Association, by Miss Mary E. Jurney, directress, and participated in by a local cast of over fifty people, the College auditorium was well-filled even if the weather was threatening and a heavy rain fell during the two hours of mirthful and generous applause from the spectators.

The story of the "Flapper Grandmother" is a satire on modern day follies of old-age and youth and is filled with screaming situations and quaint philosophy as well as the bold doctrines of today. Miss Rita Foster, as the "Flapper Grandmother," Curry Powell as "Andrew," Mrs. McMurry as "Mat," Gwynn Youngblood as "Lena" and Nettie Sims as "Belinda," were perfectly cast for their parts, as well as other members of the cast. The little tots chorus and dance was greeted with thunderous approval by the audience and the directress earned much praise for her ability to utilize so effectively the little ones.

The officers of the College Parent-Teacher are well pleased with the financial returns of the play, having cleared a balance of a few cents over ninety-five dollars after all expenses and the percent of the directress was paid. They desire to express their thanks to every participant and those who patronized the play for whatever contribution was made, as it enabled them to pay off their indebtedness and have a neat cash surplus for this year's demands.

PARSONS INSTALL NEW GAS CLARIFYING SYSTEM

To better provide for the gasoline used in the cleansing of clothing entrusted to their care, Parsons Brothers of this city have recently completed the installation of a gasoline clarifying system that will care for their needs for some months ahead. The system is known as the "Glover System" and makes use of a caustic solution that cleans and clears the gasoline while it is in use, rendering the need for stopping the cleaner to add new gasoline unnecessary. The plant was completed the latter part of last week and has been in full operation since that date.

College Loses and Bronchos Tie Friday

Two hard fought football games were staged last Friday afternoon on the College Park gridiron with the Clarendon Bulldogs and the Wayland Jackrabbits on one game and the Bronchos of the Clarendon High School and the Wellington High School in the other. The games resulted in a loss for the College by a score of 12 to 6 and in a scoreless tie for the Bronchos.

The first half of the Bulldog-Jackrabbit game was played almost entirely on the territory of the visiting delegation. Clarendon's tally was scored in the first half of the game and it at first appeared that the game would end in this manner. Wayland's two scores were made on passes over the center of the line. Goal was not scored in either case. This game was marked with several penalties for one reason and another on the part of both competing teams. Umpire, Gore of Memphis; Referee, McHenry Lane, Clarendon; Head Linesman, Hutton, Clarendon.

Contrary to popular belief, the Clarendon High School Bronchos turned in one of the snappiest and scrappiest games played on the local field this season. Hopelessly outweighed, and seemingly beaten before they started on the field, the Bronchos held the visitors to a scoreless tie when it seemed impossible for them to keep the Wellington team from scoring. Powell for Wellington was the stellar player and made a great part of the gains by his running and handling the team. Joe Noble and Loyd Tucker for the Bronchos took the limelight in this encounter, making many of the best plays for the team. This game was marked with few squabbles and was played clean through to the end with little argument on either side. The Bronchos failed to get the breaks in this game, missing opportunity a number of times when it seemed impossible for them to keep from scoring. Wellington was held for down a number of times when they threatened the goal of Clarendon most seriously. Umpire, Stocking, Clarendon; Referee, Memphis; Head Linesman, Lane, Clarendon.

FORMER CLARENDON MAN BURIED IN MISSOURI

News has been received in Clarendon of the death of Dr. M. W. Wooten at Pierce City, Mo., Oct. 12th.

Dr. Wooten and his family were formerly citizens of Clarendon, having lived here in the early nineties and while here used the home now occupied by Mr. and Mrs. Wm. Spitzer to be erected. Dr. and Mrs. Wooten left here some sixteen years ago and have resided at Pierce City since. Dr. Wooten is remembered by his old neighbors and friends for his many acts of kindness during his residence here. He is survived by six children and a host of friends who will mourn his passing.

Mrs. Carl Foston and small son of Pampa are visiting in the home of her parents, Mr. and Mrs. J. L. Bain, and other relatives.

HENS PAY BORRON ON LOT IN TOWN

FLOCK OF HUNDRED HENS PAY FINE PROFIT IN PULL-LET YEAR.

About the time some man makes the statement that poultry will not pay a man when he keeps them in town, there arises another man with a record showing that it can be done with the proper care and feeding. The latest record to be brought to the attention of the News is that of W. Z. Borron of this town, living in the south part of the city. Mr. Borron keeps hens in his place, and has kept a record of the expense and income from his flock of 107 for the year beginning October 1, 1927, and ending October 1, 1928. His record is interesting reading and is to be found below:

3 1-2 Bu. Corn @ \$1.00	\$ 3.50
19 Bu. 13 lbs. @ 50c	9.50
Hauling Corn	2.00
2,450 Pounds Kaffir and Maize	14.70
Hauling Feed	2.50
Hay for Litter	15.00
Hauling Hay	1.00
2,600 lbs. Laying Mash	95.20
4 Bu. Oats for Sowing	3.00
25 Bu. Wheat	30.00
Oyster Shell	5.75
Medicines and Remedies	13.60
Leg Bands	.65
Total Expense	\$196.50
Income:	
20,774 eggs, or 1,723 dozen @ 30.47c per dozen	\$525.03

By subtracting the expense from the income, it is readily seen that the difference is \$328.53 profit for the year, or almost \$30.00 per month profit from the flock in one year's time. The record was kept in the pullet year of the flock, and by all reasoning that counts, the second year should be far better than the first.

Clarendon Schools Show Fine Growth

Contrary to the belief that the schools of the city have suffered a slump in attendance and that there are fewer students than a year ago, the Clarendon schools show a nice gain over the same period for last year. At the end of September, 1927, the Clarendon schools had 767 students regularly enrolled with a very short number to enter the schools following the close of the cotton picking season. This year there are 787 students in the schools of the city at the close of September.

Some figures in connection with the school will show that many students have moved in here from other places. These come from many states of the Union and have held up the attendance to the figures shown. There are 144 students listed, including 56 transfers. Of this number there are eighty-eight students who have not entered school that were listed on the scholastic census of the district. This number includes a few transfer students who will start to school after the busy fall season. Prediction was made by Superintendent Burton to the News the fore part of this week that enrollment in the schools of the city would more than reach 800 by the time the students were all entered in the schools. These figures do not include the enrollment of the colored school of the city or the enrollment in the college.

City Asks Drivers To Observe Rules

An intensive effort is being made on the part of the city enforcement officers to secure a more complete observation of the rules of the town as concerned with the parking of cars and the cutting of corners. The rules are especially needed at this time of the year when there is little enough room on the main streets of the city at all times. Especial emphasis is being placed on the double parking. Mr. Pyle, City Marshal, asks that all available parking space be used, and should the car be left in the street, that some person be left in the car to let those next to the curb back out if they so desire. Congestion of this nature is noticed more especially near the postoffice and on Saturdays when the streets are filled to the brim with folk from out of the city. Another item of importance in this connection is the habit of cutting corners, especially when turning to the left. This practice is of sufficient danger in itself when there is little traffic, but becomes more dangerous when there is a heavy stream of traffic as is seen here at times.

Clarendon has been singularly free from accidents of all sorts in the past and should continue to be free of the rules and regulations of the town are followed. If one must cross the street, follow the lines that have been placed at either end and in the center of each block. When parking, follow the lines that have been painted on the street and if one must double park for lack of room, leave a responsible person in the car to allow the car next the curb the privilege of getting out if they so desire.

CARAWAY'S RESTAURANT ADDS DELIVERY TRUCK

One of the most recent additions to the equipment of the business of the city of Clarendon is the new General Motors Truck that was purchased and put into commission by the Caraway's Restaurant the latter part of last week. The new delivery wagon is of the latest and most approved type and is of a much larger capacity than has been the truck that has been in use for the past number of months. The increase in the territory of the business has made it necessary to put this truck into service and will add materially to the comfort of the driver and the condition of the bread when delivery is effected.

Miss Edna Naylor of Vernon is now in the ready-to-wear department of Hanna-Pope's.

Two days of work for the District Court of Donley County were attended the fore part of this week and apparently the remainder of the week will be left blank. The Grand Jury was impaneled Monday morning and set four true bills of indictments, all of them felonies. The first two were against Pace for the manufacture of intoxicating liquors and the remaining two were against Bilderback on charges of forgery.

Judge Fires, in opening the first term of court here under his jurisdiction, stated to the News the fore part of this week that he had no statement to make as to policies he chose to pursue. He did state, however, that he was in the seat as judge and that he would do all in his power to mete justice to all concerned without any trace of being prejudiced in any cases that might be brought to his attention.

The second week of the court will possibly be taken with appearance cases, although a jury has been called and will be composed of the following men:

John H. Watters, L. L. Taylor, W. W. Darden, C. D. McDowell, W. M. Montgomery, W. D. Franklin, T. O. Whitwell, J. R. Tucker, W. E. Weston, A. R. Carter, A. L. Wall, Clarence Cannon, Sam Hill, D. E. Stevenson, C. E. Killough, H. C. Huggins, W. C. Alexander, Tom P. Connally, C. O. Cooper, J. R. LaFon, Adrian Davis, L. L. Cornelius, J. Y. Spier, K. K. Boyce, S. S. Dubbs, W. R. Hayden, W. C. Plunk, C. P. Darnell, Earl Alexander, Major B. Hudson, R. L. Bigger, Paul Kirkpatrick, J. I. Spurgeon, W. H. Moffitt, W. A. Hughes, Homer Gorman.

Due to being disqualified to sit on the case coming before the Court on Monday of next week, Judge A. J. Fires will be relieved by Judge Henry Bishop of the adjoining district. Judge Fires will take the place of the visiting Judge at Claude and will probably return here the latter part of next week to conclude the work of the court here. The case to be tried was transferred here from Memphis.

J. R. Tucker was a visitor in Amarillo on Tuesday.

Mrs. Henry Williams returned the fore part of this week from Liberal, Kansas, where she had been called suddenly by the serious illness of a nephew. After the improvement of the youngster, Mrs. Williams visited a sister, Mrs. Holman, of Dalhart, before returning home.

DONLEY PIONEER IS BURIED FRIDAY

RESIDENT OF COUNTY TWENTY YEARS SUCCUMBS TO HEART ATTACK.

Funeral rites for S. Dilli, resident of Donley County for the past twenty years, were held last Friday afternoon from the First Baptist Church of this city. Rev. S. R. McClung officiating. Mr. Dilli is well known to the people of the county and has been identified as one of the most progressive farmers of the Goldston community.

S. Dilli was born in Etteimheim, Germany, on December 22, 1869. At the age of nineteen he came to the United States, locating in Chicago, where he lived until 1908, when he came to Donley County and made his home here since that date. In 1896 he was married to Lena Schwytzer. From this union there were nine children born, six of whom survive their father. Death came suddenly to Mr. Dilli on Tuesday morning, October 9th. He had been in ill health for the past two or three years and death resulted from a heart attack.

Mr. Dilli was a member of the Baptist Church of Clarendon, having united with that body some three years past. He has been active in the work of the church and will be especially missed in the community where he has made his home for a fifth of a century.

Aside from his wife, Mrs. Lena Dilli, the deceased is survived by six children and eleven grandchildren. The children are: Raymond Dilli, Frenola, Kansas; Mrs. T. C. Mott, Amarillo; George Dilli, Allamore and Joseph, Dorothy and Carl, all at home. Out of town visitors for the last rites include: Mr. and Mrs. Joseph Q. Miller, Mrs. J. Latus and Mrs. Harry Neal, all sisters of Mr. Dilli from Chicago and Mr. and Mrs. Frank Schwytzer, a brother, also from Chicago. Two friends of the family from Chicago were also with the visitors from that city.

COURT FINDS FOUR BILLS THIS WEEK

FIRST WEEK OF COURT FINDS LITTLE TO DO; ADJOURNS EARLY.

Two days of work for the District Court of Donley County were attended the fore part of this week and apparently the remainder of the week will be left blank. The Grand Jury was impaneled Monday morning and set four true bills of indictments, all of them felonies. The first two were against Pace for the manufacture of intoxicating liquors and the remaining two were against Bilderback on charges of forgery.

Judge Fires, in opening the first term of court here under his jurisdiction, stated to the News the fore part of this week that he had no statement to make as to policies he chose to pursue. He did state, however, that he was in the seat as judge and that he would do all in his power to mete justice to all concerned without any trace of being prejudiced in any cases that might be brought to his attention.

The second week of the court will possibly be taken with appearance cases, although a jury has been called and will be composed of the following men:

John H. Watters, L. L. Taylor, W. W. Darden, C. D. McDowell, W. M. Montgomery, W. D. Franklin, T. O. Whitwell, J. R. Tucker, W. E. Weston, A. R. Carter, A. L. Wall, Clarence Cannon, Sam Hill, D. E. Stevenson, C. E. Killough, H. C. Huggins, W. C. Alexander, Tom P. Connally, C. O. Cooper, J. R. LaFon, Adrian Davis, L. L. Cornelius, J. Y. Spier, K. K. Boyce, S. S. Dubbs, W. R. Hayden, W. C. Plunk, C. P. Darnell, Earl Alexander, Major B. Hudson, R. L. Bigger, Paul Kirkpatrick, J. I. Spurgeon, W. H. Moffitt, W. A. Hughes, Homer Gorman.

Due to being disqualified to sit on the case coming before the Court on Monday of next week, Judge A. J. Fires will be relieved by Judge Henry Bishop of the adjoining district. Judge Fires will take the place of the visiting Judge at Claude and will probably return here the latter part of next week to conclude the work of the court here. The case to be tried was transferred here from Memphis.

J. R. Tucker was a visitor in Amarillo on Tuesday.

Mrs. Henry Williams returned the fore part of this week from Liberal, Kansas, where she had been called suddenly by the serious illness of a nephew. After the improvement of the youngster, Mrs. Williams visited a sister, Mrs. Holman, of Dalhart, before returning home.

DONLEY KAFFIR FIRST IN STATE

ELBA BALLEW WINS ON KAFFIR SECURED FROM LUBBOCK EXPERIMENT FARM

The News is in receipt of a letter from G. L. Boykin, Secretary-Manager of the Clarendon Chamber of Commerce, in charge of the Donley County exhibit at the Dallas Fair that should be of interest to Donley County producers.

The letter states that Elba Ballew won first prize over the entire state on ten heads of kaffir. Mr. Ballew used seed secured by the Chamber of Commerce from the Lubbock Experiment station last spring. The seed were pure bred. Red milo maize from the Frank Hardin and Elba Ballew place also ranked high in the scoring, but did not get into the high scores.

A watermelon from Donley County, raised by Frank Hardin, won second place in the state, but, according to the letter, should have received the first prize as the first place winner burst open the day following the judging. A number of the judges declared that Donley County's entry should have been given first place. The second place melon was not so large as the first place winner, but was better shaped. The first place winner weighed 126 pounds.

Mr. Boykin stated in his letter that a number of other entries had been made, but that he had not heard from them. He stated further that the exhibits declared that Donley County's entry should have been given first place. The second place melon was not so large as the first place winner, but was better shaped. The first place winner weighed 126 pounds.

Mr. Boykin stated in his letter that a number of other entries had been made, but that he had not heard from them. He stated further that the exhibits declared that Donley County's entry should have been given first place. The second place melon was not so large as the first place winner, but was better shaped. The first place winner weighed 126 pounds.

LYNN HOME DESTROYED BY FIRE TUESDAY NIGHT

Fire of an undetermined origin completely destroyed the home and all possessions of Mr. and Mrs. Earl Lynn early Wednesday morning. The family had a narrow escape from the flames, being forced to leave the home by means of the bathroom window after the remaining exits could be cut off by smoke and flames. Mrs. Lynn and baby escaped with only their nightclothes while Earl managed to secure a few of his clothing as he left the room. The blaze was fanned by the high wind from the north and barely escaped burning the home of Mr. and Mrs. Andrew Jay, which stands on the lot to the east of the burned home. The fire department was called to the scene of the fire a second time shortly before day-break to put out the fire that had been fanned to a blaze by the strong wind. The second blaze completed the destruction started in the first attempt. The loss was partly covered by insurance.

Mr. and Mrs. Ernest Wilson of Muskogee, Oklahoma, left Wednesday morning after a visit of some length here in the home of his parents, Mr. and Mrs. J. T. Wilson. Other friends and relatives were visited during the stay of Mr. and Mrs. Wilson here. Ernest is at present connected with the Federal forces in the department that has to do with internal revenues.

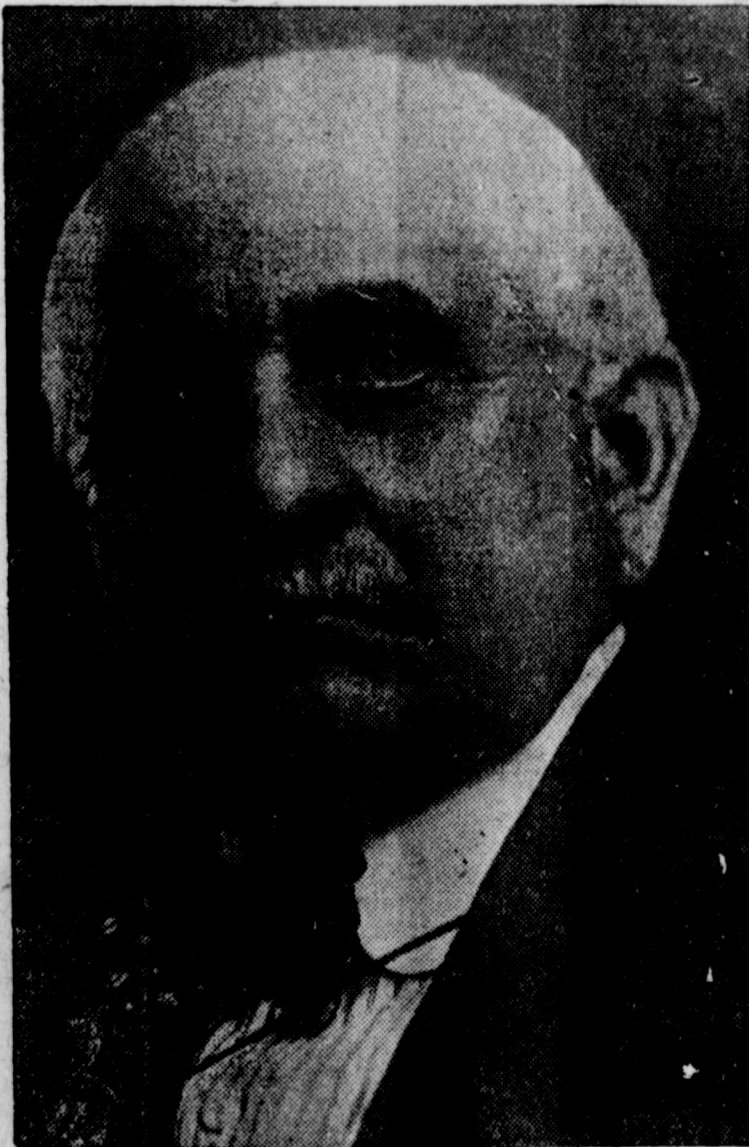

LOCAL LIONS VISIT CLAUDE

CLARENDON LIONS ASSIST CLAUDE CLUB AT FIRST LUNCHEON MONDAY.

On invitation of members of the Claude Lions Club, several Clarendon Lions motored to Claude Monday of this week to attend the first luncheon of the Lions at that point, held at the noon hour in the home economics department of the Claude High School.

Those in attendance from this place were Lion President A. L. Chase, Past Presidents Watson, Mulkey and Braswell, Lions Caraway and Murrell. Lion Mulkey presided at the luncheon and conducted a short program on Lions ethics and practices participated in by those in the Clarendon party.

After a most excellent luncheon furnished by the visitors, the new officers for the Claude club were elected and details of the organization perfected. From the interest and personnel of the club the local men are predicting one of the most active and energetic clubs in the Panhandle in the city of Claude.

Judge A. J. Fires

Opened Court here Monday, succeeding Judge C. C. Small, who resigned following his nomination as State Senator.

NATIONAL EDITORIAL ASSOCIATION — FANHANDLE PRESS ASSOCIATION

SHALL WE FORGET?

Just a little over three weeks until Armistice Day is upon us.

Nov. 11th follows hard on the heels of national election day, which with the rush of fall business, is apt to cause us to approach our Armistice Day without preparation for its proper observance.

The 1928 anniversary of the signing of the armistice falls on Sunday and surely some suitable program can be arranged so that Clarendon people may demonstrate in a public way their appreciation of just what Nov. 11th, 1918, meant to the American people, and to the civilized world as a whole.

In Clarendon we have churches, homes, schools, clubs, etc., all peopled with loyal, patriotic citizens who have deep in their hearts full reverence and respect for the sacrifice of our noble boys who wore the uniform in the World War; who realize the full import of the signing of the armistice; who know why we should celebrate Armistice Day in 1928 and all the years to come.

Let us not forget.

Let us provide an hour, a place of gathering and a program that Clarendon people may do honor to the recurrence of Armistice Day in 1928.

oOo

Kaffir Corn raised in Donley County won first in the individual exhibits at the State Fair at Dallas last week. No better feed is raised in the nation than in Donley County and regardless of the price of feed Donley County farmers can make more money feeding their own products out to dairy cows, hogs, chickens and beef cattle, than by any other process. We have one of the greatest counties in the Southwest for profitable farming on a diversified basis. We believe we have the greatest.

oOo

Late returns in the Literary Digest "straw vote" for president gives Smith a majority in four states and Hoover a majority in all the rest. Smith will win more than four, no doubt, but he is a hopelessly beaten man and the regeneration of the Democratic party is already in process. The next Democratic National Convention will nominate a real Democrat on a platform that he and the nation will respect.

oOo

Everybody is elated over the price and yield of cotton in Donley County this fall, but it is to be hoped that our dairy and poultry industries will not be neglected in the rush of good times. A combination of the dairy and poultry industries and profitable crops of cotton and feed cannot be surpassed in making Donley County the best and most stable sections in the country.

Politics in Texas are as complex as they are comical. Democrats that bolted the ticket a few years ago to vote for Butte, are howling their heads off about the "bolters." Lots of men who led George Peddy to his political execution are breathing out dire threats against those who fail to follow the party leaders. Many Democrats are pawing the air for Tammany and are damning Dan Moody for his lukewarm support of a candidate who violates every principle he stands for. Lots of people want to support the National ticket. Hundreds of others recognize all the perils of Tammany leadership of the party, but swear that they will stay away from the polls and cast no vote at all. Thousands display a disposition to save the Democratic party from being a whiskey party not by staying within its ranks but by voting for a Republican president while voting for the state Democratic nominees. Office holders of known dry beliefs openly espouse Smith's candidacy and declare the New Yorker cannot change the constitution. The party lash is flying about and some seem to heed it and others scorn it. So there you are until November 6th, when the shouting will die away regardless of the outcome. Neighbors will laugh over the comedy of the campaign and goodwill and Southern hospitality will continue to make Texas and the South the greatest place under the sun to live and raise a family. It's a great game.

OUR PRESIDENTS

President Coolidge will retire from office next March. When he retires, if he does not seek some new position, he will have to live on whatever sum he may have been able to save during his occupancy of the White House. Like most of our president, he is not a man of independent means.

And all this calls to mind the following thought; is not this country rich enough to make a practice of paying its former presidents regular, annual salaries? When a man serves us as chief executive he ought never have to worry about finances again. To pay every ex-president some such sum as \$25,000 a year would not swell our federal expenditures greatly; and it would be no more than simple justice.

President Grant died in comparative poverty. President Roosevelt had to devote himself to literature to make a living. President Taft was forced to enter the Yale Law school faculty. Surely, when a man has been our president, he has earned the right to freedom from money troubles for the rest of his life.—Amarillo News.

oOo

The average reader of The News would be surprised to know just how much wild and abusive political matter is submitted for publication by partisans on both sides of the national presidential campaign. Even if some of it were not dangerous and inflammatory matter, The News, nor any other county paper would have space to carry it, and ordinary business economy as well as interest in public welfare forces us to limit ourselves to the publication of local news about the campaign and to whatever editorial paragraphs the editor cares to contribute. As an added feature of the campaign The News is arranging to publish two letters each from local citizens supporting Smith and Hoover in the two issues just preceding election day. These letters will be discussions of the issues of the campaign without abuse and the sincerity and the character of the authors will be guaranty of their value in a sane view of the questions before the American people today. Watch for these letters and read all of them.

oOo

The News cannot believe in the sincerity of Gov. Smith's pledge of enforcement of our national prohibition laws, because of his open lack of support of the eighteenth amendment as governor of the state of New York. The oath of governor pledged him to uphold the constitution of the United States. He has sworn this oath four times. He has ignored the pledge for eight years. A man whose vision is perverted enough to think that lightly of a solemn oath, would think less of the oath of the president, when he has substituted his personal hatred of prohibition for the dry plank of the Democratic platform and set up his provincial opinion of the law as against the wisdom of the nearly unanimous verdict of the states of the Union. The only hope for prohibition and sobriety in this nation is the election of Herbert Hoover—the man who exalts the American Home as of first consideration.

oOo

After a long legal battle in which those who love justice and deplore the arts of those who bring about its delay, William Edward Hickman, the arch-fiend of modern annals of crime, must pay with his life, his over-due debt to society. Friday of this week. American civilization demands a reform in court delays and over-worked sympathy for criminals. This demand means that society must reform her own thinking, for our courts and our justice are but the products of the thinking of our people. We need to tighten down.

oOo

Several hundred Clarendon people witnessed the great need for an adequate auditorium for our city last Friday evening at the benefit performance staged at the College auditorium. The stage was so small that the players were cramped throughout the production, and the lack of dressing rooms was a matter of embarrassment. Then, too, the supporting posts of the balcony were a source of discomfort to a third of the audience who had paid the same money as others to see and enjoy the play. We must have the auditorium. Soon.

oOo

Saturday has been a record-breaker business day for Clarendon stores for the past two weeks, and bids fair to grow larger as the fall progresses. The crush of the Saturday traffic was a serious problem from ten in the morning until midnight and is causing the city officials much worry as they are forced to clamp down harder on traffic rule observance. Life and limb must be kept safe on our streets.

oOo

Donley County watermelons caused a difference of opinion among the judges at the State Fair in Dallas last week and by one vote landed in second place instead of first. The winning melon cracked open the day after it was judged and left the Donley entry the envy of all eyes in the agricultural exhibit building. Our melons are not surpassed on the average in the entire Southwest. We know it and we want the world to know it.

CLARENDON ROY HEADS LIGHT PLANT AT TURKEY

The following story was clipped from the Turkey Enterprise of last week and concerns the promotion of one of Clarendon's boys to a position of trust with the West Texas Utilities Company. Mr. Reavis is the son of Rev. and Mrs. L. A. Reavis of this city and is well known here. His many friends extend congratulations to Mr. Reavis and wish him a great measure of success.

"Ceil Reavis, of Quitaque, has been transferred to Turkey as local manager of the West Texas Utilities Company of this place.

"Mr. Reavis is well known to all of the Turkey people. He has been with the company a number of years. He is thoroughly experienced and acquainted with the policies of the company and the people of this place.

"He will move his family here just as soon as living quarters can be secured. We welcome him and his family to our town and extend to them our best wishes.

"Mr. Jack Seale, who has been in charge of Quitaque and Turkey will now have charge of Quitaque only. We of course regret to lose Jack and are just a little afraid that he will not visit our town near so often. He was here so much of the time that we felt like he was one of the boys and counted him one of our citizens. We hope, however, that he will continue to visit us. We want to serve notice on him now that he and his force will have to go some to equal what Turkey force is going to do.

Mrs. W. H. Condon is in Canyon for the present, caring for Stuart, Junior, while he has the whooping cough and while Mrs. Condon is in Amarillo for medical attention in a sanitarium.

Repair Time

When the cooler days of winter are at hand, then is the time to consider those repairs you have been planning for so many months.

There are a number of places possibly, where a few boards and some nails would do a great deal of good.

We want you to know that we have just the things you need for the repairs you have in mind. The cost of them is slight and the satisfaction secured is worth much more than the cost.

Call on us and see what the cost would be. You will be surprised and greatly pleased.

PANHANDLE MAN BUYS FINE SIRE

GUERNSEY BULL BOUGHT TO HEAD DAIRY HERD OF R. C. O'KEEFE

R. C. O'Keefe of Panhandle has become thoroughly sold on the dairy program being put on in Carson County and has evidenced his faith in diversified farming by selecting one of the best foundation herds of high grade dairy cattle in the County.

On Saturday of last week he secured the help of the Panhandle teacher of vocational agriculture and together they visited several herds in the vicinity of Panhandle and finally topped C. C. West's splendid herd of high grade and pure bred Jersey cows, buying 12 of his very best.

Mr. O'Keefe, like many advanced thinkers along agricultural lines in the Panhandle Plains territory, believes that money can be made from good dairy cow and has the right idea in that he believes one good cow is much better than a half dozen poor ones. Figures show that a good one may be kept at a profit, and asserts that ten or twelve will make a man a good living.

Buys Splendid Bull
Instead of buying ten or twelve good cows and trusting to luck that the heifers from these cows by a common bull will be good producers, Mr. O'Keefe is bringing one of the best bred Langwater bred Guernsey bulls that can be had at anything like reasonable price. He has purchased a Langwater Mixer No. 69371 bred bull out of a Langwater bred cow with a record of 670 pounds of butter fat in a year. The above named bull was sired Mixer Golden Pendant that sold for \$5,500. He also sired Mixer Golden Feather that made a record of 13,500 pounds of milk in a year, and 654 pounds of butterfat, starting her record at two years old. The record of 600 pounds of butterfat as a two-year old is equal to nearly 800 pounds of butterfat at maturity. This shows that Mr. O'Keefe has bought production.

It has not been the policy of the agricultural teacher to recommend that grade Guernsey cows be purchased at a long price and brought into Carson County, but rather that the best Jersey grades that can be had be selected and mated to a high production Guernsey bull to breed our own production Guernseys. This is an absolutely practical method of producing high powered dairy cattle for our county. By using a fine Guernsey male the progeny will cows and if good foundation stock is selected will produce like Guernseys. Each cross of good Guernsey blood will improve the stock until for looks and production the Carson county grades will be equal to registered stock.

Registered Stock Introduced
Enough registered stock is being introduced in the form of Rose heifers so that we will be able to breed our own bulls in the future. Those who invest in good registered bulls will reap a profit in cream checks from Carson county grade Guernseys and those who purchase registered heifers will be repaid in stock and production as well.
Mr. O'Keefe deserves a lot of credit for his far-sighted policy and his work will be watched with a great deal of interest. When he gets his herd going in good shape he intends keeping a record of the production of each cow. This will give him a chance to weed out the boarders, if he has any.

George P. Grout,
Teacher, Vocational Agriculture,
Panhandle, Texas.

A TRAMP'S LECTURE

A tramp asked for a drink in a saloon. The request was granted, and when in the act of drinking the proffered beverage, one of the young men present said: "Make us a speech. It is poor liquor that does not I never, a man's tongue." The tramp hastily swallowed down the drink. As the liquor coursed through his blood, he straightened and stood before them with a grace and dignity that all of his rags could not obscure.

"Gentlemen," he said, "I look tonight at myself, and it seems to me I look upon the picture of my blighted manhood. This bloated face was once as handsome as yours. This shambling figure once walked as proudly as yours, for I was a man in the world of men. I, too, once had a home and friends and position. I had a wife as beautiful as an artist's dream, but I dropped the priceless pearl of her honor and respect into a cup of wine. I had children as sweet and pure as the flowers of spring and saw them fade and die under the blighting curse of a drunken father. I had a home where love lit the flame upon the altar and ministered before it, but I put out the holy fire and darkness and desolation reigned in its stead. I had aspirations and ambitions that soared as high as the morning star, but I broke and bruised their beautiful forms and strangled them that I might hear no more. Today I am a husband without a wife, a father without a child, a tramp without a home, and a man in whom every impulse is dead. All have been swallowed up in the maelstrom of drink."—Houston Chronicle.

TURKEY FARMER NETS A PROFIT

DAIRYING AND POULTRY RAISING ENABLING FARMER TO LIVE AT HOME.

B. T. Smith, a progressive farmer of the Buffalo Flat community, near Turkey, is raising a living first and not depending entirely on cotton this year, even though he is in one of the best cotton producing sections of the northwest part of the state. He says he would not attempt to farm if he had to depend on cotton and feed only.

He is milking seven cows, which nets him around \$60 per month he says. Of course this is some additional work, but he has found that there is work to anything worth while and that he can handle just about as much crop as usual. In addition to his cows he has a nice revenue every week off his poultry. In the early spring he bought 500 White Leghorn baby chicks. He raised 95 per cent, which is exceptionally good. He has culled these and sold off all but 225 of the best pullets, which were five months old the 24th of this month and last Friday 50 of the pullets laid.

Mr. Smith is receiving better than \$1,000 annually off his poultry and cows. This amount will take care of the average family. Then, regardless of whether he makes a crop or not, he has made a living, paying cash for his supplies and will continue to have a good living. Without these industries the average farmer would be in debt some three, four or five hundred dollars for living and expenses of helping make the crop. With a good living made, out of debt, and a good crop is made, then his crop money is all velvet. He can improve his home, give his family the conveniences that they are entitled to, or if he does not own his place, he can make a payment on one and within a few years be a home-owner.

There is no section better adapted to poultry and dairying than the section under the Caprock. Feed can be easily and economically raised; the weather is favorable to both cattle and chickens; either requires little attention compared with that necessary to be given in other states that have successfully raised both.

These industries, while just getting started are proving a wonderful help to the town of Turkey. It is doubtful if the business men, as a whole, realize the importance of these industries—if they really understood and appreciate the good that is being derived from them.

There is approximately \$5,000 being spent here every month for chickens, eggs, cream and other produce, which is in turn spent with the merchants of the town. Take that amount of cash out, have the farmers trade on the crop, and you would notice the difference.—Turkey Enterprise.

CITY SCHOOL BOARD BECOMING STEADILY SMALLER

Material reductions in the size of boards of education in the larger cities of the United States have been made within recent years, as shown by a study of certain practices in city school administration by W. S. Deffenbaugh, chief schools division of the United States Bureau of Education, published as City School Leaflet No. 29. Few authorities on school administration favor a board of education of more than 9 members; the average number is 7.8. Only 14.3 per cent of cities of 100,000 or more population and 13.7 per cent of cities of 30,000 to 100,000 population reporting have boards of education exceeding 9 members.—School Life.

HIGH-TYPE HIGHWAYS INCREASING RAPIDLY

With the cooperation of State highway departments, 8,184 miles of Federal-aid highways were improved in the fiscal year 1927-28, and 2,014 miles that had been previously improved by Federal aid were given surfaces of higher type, according to the Bureau of Public Roads, United States Department of Agriculture. This work was done at a total cost of \$205,043,784, of which the Federal Government paid \$88,056,984, or 43 per cent, and the States paid the balance.

Under supervision of the bureau, 281 miles of National Forest roads were improved, bringing the total improved mileage of these roads to 3,775 miles. The National Forest road system embraces, at present, a total of 13,911 miles.

In the Federal-aid system, there are 187,753 miles of interstate and intercounty highways, of which, only June 30, 71,074 miles had been improved with Federal assistance and 1,285 miles were undergoing stage construction, that is, were being given a higher type of surface than when previously improved with Federal aid.

The 3,184 miles improved in 1928 include 2,182 miles of graded and drained earthen roads; 844 miles of sand-clay; 1,836 miles of gravel; 92 miles of waterbound macadam; 464 miles of bituminous macadam; 135 miles of bituminous concrete; 2,533 miles of Portland cement concrete, and 42 miles paved with vitrified brick. There were 54 miles of bridges and approaches.

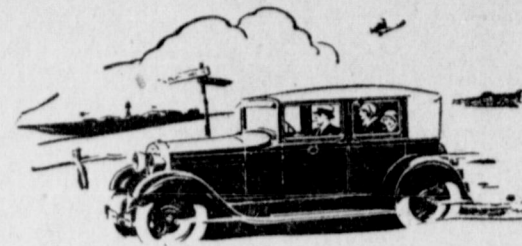

Federal-aid highways are the most heavily traveled in the country. Increased demands of a growing traffic are shown by the greater increases in the types more suitable for heavy traffic. The mileage of high types of pavements built, such as bituminous macadam, bituminous concrete, Portland cement concrete, and vitrified brick, increased 19 per cent in 1928, while the mileage of low types such as waterbound, gravel, sand-clay, and graded and drained, increased about 9 1/2 per cent.

TRADING IN CATTLE IS ACTIVE IN LAMPASAS

Livestock buying and selling is active in Lampasas. W. T. Maxwell shipped four car loads of one and two-year-old fat steers to St. Joseph, Missouri, recently. Three cars of mixed cattle were also shipped by breeders to Fort Worth.

Cook spinach for 10 or 15 minutes only, in just the water that clings to the leaves after washing it through several waters. When it begins to get tender, chop it very fine and season with plenty of butter or cream.

To the 5000 who daily become owners of the new Ford car

THE service obligation of the Ford Motor Company and its dealer organization is now growing at the rate of 5000 cars a day. It is to these new car owners that this message is addressed.

The new Ford is a remarkably fine car for one that costs so little. It is simple in design, constructed of the finest materials, and built to unusually close measurements.

These are the reasons it performs so wonderfully. These are also the reasons its service requirements are so few and the up-keep cost so low.

When you receive your new car, the dealer will explain the simple little things that should be attended to at regular intervals to insure the best performance. He will also tell you something of his own facilities for doing this work promptly and at small cost.

With the purchase of your car, you are entitled to Free Inspection Service by your dealer at 500, 1000 and 1500 miles. This service is due you and we urge you to take full advantage of it. Proper care during this breaking-in period means a great deal to the life of your car.

Included in the Free Inspection Service is a check-up of the battery, the generator charging rate, the distributor, the carburetor adjustment, lights, brakes, shock absorbers, tire inflation and steering gear. The engine oil is also changed and chassis lubricated.

No charge whatever is made for labor or materials incidental to this inspection service, except where repairs are necessary because of accident, neglect, or misuse.

The labor of changing the engine oil and lubricating the chassis is also free, although a charge is made for the new oil.

We believe that when you see the good effects of this inspection you will continue to have it done regularly throughout the life of your car.

Wherever you live, you will find the Ford dealer very helpful in keeping your car in good running order for many thousands of miles at a minimum of trouble and expense.

He operates under close factory supervision and has been trained and equipped to do this work promptly, thoroughly and economically.

RESOURCES

Table with 2 columns: Resource description and amount. Includes Loans and discounts, Government securities, Real estate, etc.

LIABILITIES

Table with 2 columns: Liability description and amount. Includes Capital stock, Undivided profits, Deposits, etc.

STATE OF TEXAS, COUNTY OF DONLEY, as: I, W. W. Taylor, Cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

MOTORISTS GET SPEED IN ITALY

FAST HIGHWAYS WITHOUT INTERSECTIONS BUILT BY PRIVATE CORPORATIONS.

By E. E. Duffy. Well paved roads connecting all principal Italian cities, and without road-level intersections, is the highway future assured motorists in Italy.

Something new in the way of highway financing has been introduced by Italy in constructing the autostrada.

For example, the concrete Bergamo-Milano road was built at a cost of 44,000,000 lira for the 48.8 kilometers.

American motorists who have travelled over the several sections of the autostrada now in service declare that the toll charges are more than vindicated through the comfort and convenience, the safety of driving at high speed and through the lessened strain on the car.

Farmers State Bank

Official Statement of Financial Condition of the Farmers State Bank

At Clarendon, State of Texas, at the close of business on the 3rd day of October, 1928, published in the Clarendon News, a newspaper printed and published at Clarendon, State of Texas, on the 18th day of October, 1928.

RESOURCES

Table with 2 columns: Resource description and amount. Includes Loans and discounts, Real estate, etc.

LIABILITIES

Table with 2 columns: Liability description and amount. Includes Capital Stock, Undivided profits, Deposits, etc.

STATE OF TEXAS, County of Donley, as: We, W. P. Cagle, as President, and J. D. Swift, as Cashier of said bank, each of us do solemnly swear that the above statement is true to the best of our knowledge and belief.

Notary Public, Donley County, Texas. Correct-Attest: W. A. MASSIE, J. W. MORRISON, C. R. SKINNER, Directors.

It is estimated that 5,000,000 persons outside of Texas are engaged in industries directly dependent on or connected with Texas cotton.

INFLUENCE OF FORESTS ON RAINFALL AND RUN-OFF

Two-thirds of the water vapor which is condensed as rainfall over the land is provided by evaporation over the oceans and the remaining third by evaporation and transpiration over the land.

In forests it is estimated that 7 per cent of the rainfall is evaporated from the soil, 15 per cent intercepted and evaporated by the trees and other plants, making a total of 47 per cent.

The changes in run-off is more noticeable. Replacement of the forests by crops would decrease the run-off by about 15 per cent but make it less regular, while replacement of the forest by bare soil would increase the run-off but would make it irregular.

POPULAR TUNER IS USED FOR PIANOS IN CONCERT

O. L. Tolzien, well known piano tuner of this section of the state was recently used to tune the seven pianos used at the Tri-State Fair in Amarillo when the massed piano concert was played before the grandstand as a part of the festivities on the opening Sunday of that event.

IN ALL THE WORLD No Other Low-Priced Six Like This

Study as thoroughly as you please the entire range of automobiles produced today, you must finally conclude that in all the world there is no other low-priced six like Pontiac. For of all the sixes available at as little as \$745 only Pontiac offers bodies by Fisher—a 186-cubic inch engine—the cross-flow radiator—a fuel pump—the famous G-M-R cylinder head.

Johnson-Mahaffey Motor Co. PONTIAC SIX PRODUCT OF GENERAL MOTORS

Have you seen the sensational new DURANT Models Four and '60' now on display?

We offer the following improvements without extra cost on the four cylinder line and at less cost on the six cylinder:

QUIET . . . the most remarkable advance in automobile construction . . . a new method of body-construction worked out by Durant engineers over a period of years . . . for elimination of body noises.

This unequalled feature, coupled with a rubber-mounted motor on the Four and Lanchester damper on the '60', straight line drive, quiet transmission and differential gears, long springs with quiet shackles, and balloon tires, produces the most luxuriously quiet automobile in the history of transportation.

THE MOST COMPLETE LINE OF STANDARD AND DE LUXE BODIES • BEAUTIFUL STYLES AND COLORS • CHROMIUM REPLACING NICKEL ON ALL FITTINGS • COWL LAMPS • NEW TAIL AND STOP LIGHTS • NEW AND MORE EFFECTIVE BUMPERS • NEW MODERN LARGER STEERING WHEEL • NEW INSTRUMENT PANEL IMPROVED IGNITION LOCK • MORE REFINED BODY HARDWARE • LANDAU IRONS ON COACHES

DE LUXE roadster and sedan models are fitted with wire wheels, with two extra wheels mounted in fender wells, full-sized bumper and trunk rack on the rear, and chromium cowl band.

The brilliant new Durant '60' has a longer wheelbase, with all that this implies in finer riding and driving qualities.

And both Fours and Sixes retain these well-known features: The famous Million Dollar Motor, more perfectly balanced—straight line drive assuring remarkable smoothness of operation and freedom from repair. Bendix quiet, positive mechanical 4-wheel brakes, long elliptical springs, balloon tires and the perfect proportion of weight and power that results in unparalleled Durant performance.

GUNS TALK FOR ARMY AS ARMY TRAINS THROUGH SOUND PICTURES

Two scenes from an Army instruction "sound" film, showing a machine gun in action. The "boom" of the gun is represented by the black lines at the left of the film.

Sound pictures especially designed for military instruction purposes are the latest important development in the field of so-called "talking movies." The first of these films has been prepared and privately shown in Washington before a selected group of representatives of the Army, Navy, Coast Guard, National Guard and Army Reserves. It is understood that a number of high officials in the War Department have expressed themselves as favoring the use of such sound pictures for Army training films.

The film shown to the Washington officials was made at the Infantry School at Fort Benning, Ga., through the joint efforts of Electrical Research Products, Inc., subsidiary of the Western Electric Company, and the Fox Case Corporation, producers of Motion picture features, with the co-operation of the War Department. Members of the 29th Infantry, U. S. A., were the participants in the scenes photographed. The picture depicts three training groups. The first group shows the organization of medical and other units, while the second is devoted to an

exposition of the assembly and disassembly of weapons. As each scene is flashed on the screen, the voice of the instructor is heard describing and explaining the action by means of the sound record.

The third group shows an infantry battalion acting on the defense. The instructor first gives a blackboard demonstration of the military problem to be worked out, discussing its various aspects. Troops are then shown in action under simulated war conditions, with machine gun fire, the laying down of a barrage, the operation of scout planes, and all the other activities of the battalion both demonstrated and described, inasmuch as throughout the course of the action the voice of the instructor continues to be heard explaining the movements of the battalion.

The Army was the first to use motion pictures for training purposes, having made a large number of training films during the World War. Many of these are still in use. The Army is now pioneering in this same field with sound pictures.

BEST PAVED AREA HAS MOST AUTOS

CARS IN DETROIT AND VICINITY INDICATE GOOD ROADS STIMULATE CAR BUYING.

By E. E. Duffy.

The best paved area in the world has more automobiles than any other similar population center.

Wayne County, Michigan, in which Detroit is located, has the equivalent of 766 miles of rigid, rural pavements, 18 feet wide, or better still the equivalent of 345 miles of 40-foot pavement, according to the Wayne County road report. Just what effect these good roads have had on automobile purchasers may be judged by the registration figures which show that Detroit and Wayne County together have 422,000 cars, or one car for every four persons.

New York City has one car for every 13 persons, Chicago one for each 9.4 persons, and Philadelphia one automobile for every 9.2 residents. Highway authorities declare, despite the varying masses of poor populations and industrial conditions, that the amount of good roads has the greatest direct bearing upon the buying of cars. It is pointed out that where good roads are prevalent, and the country is easily accessible from the city, the demand for automobiles is greater.

Herein are circumstances that are frequently overlooked. In every large city there are thousands capable of purchasing automobiles who have not done so because of traffic congestion both within the city and on nearby country roads. Taking the country as a whole, there is one car for every 5.2 persons. It is evident, therefore, that where the automobile registration ratio is above that figure there is something wrong, and usually the trouble is that of poor streets and roads.

Through failure to provide adequate highway facilities, the natural motorized growth of the community is stunted. People are denied access to the country. The use of the car in business is curtailed.

On the other hand, wide streets and roads of smooth surfaces, encourage the ownership of automobiles, thereby stimulating not only the basic automobile business, but also most all industries, with the possible exception of Sunday loafing. With the betterment of travel facilities, city, county and state automotive revenues are increased, and through greater funds derived from local taxes, gas and registration fees and this all means that more money will be available for the maintenance, improvement and extension of the highway system.

If all of Detroit's cars were available at once, all the residents of that city could go for a ride simultaneously. When this can be said of a city, the citizens may feel that they are well on the way to solving the traffic problem.

PECOS PAVING SIXTEEN BLOCKS IN TOWN DISTRICT

Paving of 16 downtown blocks is going on at Pecos. Six blocks have been graded and prepared for the paving with gutters and curbs constructed. Laying of the bitulithic pavement has begun. Each block will be opened as it is finished.

LITTLEFIELD FARMER SHIPS IN HOGS FOR FATTENING

G. W. Bittern, who lives three miles northeast of Littlefield, received three carloads of hogs from Benjamin for fattening purposes. On account of the large grain crop it is cheaper to move the hogs to the grain than to ship the grain to the stock.

More than 900 teachers of physical education are employed full or part time in Missouri. The American Legion, Rotary clubs, and other organizations are co-operating in promoting physical education and providing larger areas for indoor and outdoor activities.

NEWS' WEEKLY COTTON LETTER

COTTON PRICES ADVANCE; SPOT SALES LARGE

The cotton market during the week of Oct. 6-12 was fairly steady with quotations on Oct. 11th (Oct. 12th being a holiday) up about 3-8 to 7-16 cents per pound compared with those of Oct. 5th. Reports indicate a continued good demand for cottons in the lengths of 7-8 to 1-1-16 inches in the grades of strict low middling to strict middling. However, cottons of lengths above 1-1-16 inches were reported, again, more or less neglected. The Government Estimate of 13,993,000 bales released Oct. 8th was substantially in line with trade expectations.

According to the Bureau of Census, the ginning prior to Oct. 1 amounted to 4,961,032 bales compared with 5,944,739 bales to the same date last year. Last year's final ginnings amounted to 12,955,000 bales of 500 pounds net. According to the Weather Bureau, the past week was generally favorable for most sections of the cotton belt, with picking and ginning making fair to good progress.

Prices paid for middling cotton, 7-8 inch staple, on Oct. 11th were as follows: Norfolk, 18.81c; Augusta, 18.63c; Savannah, 18.69c; New Orleans, 18.77c; Montgomery, 18.10c; Memphis, 18.18c; Little Rock, 18.22c; Dallas, 18.00c; Galveston, 18.75c. The average price on these ten markets on Oct. 11th was 18.46c compared with 18.06c on Oct. 5th and 20.76 a year ago. Total sales of spot cotton, for the week in these ten markets, were 239,366 bales compared with 193,109 bales the same week last year.

October future contracts for the week at New York, advanced 45 points to 19.30c, at New Orleans 43 points to 18.62c, and at Chicago 37 points to 18.75c. The total stocks in New York were 10,619 bales, in Houston, 609,977 bales; in New Orleans, 183,538 bales and in Galveston 496,205 bales. Exports from August 1st to October 11th were 1,353,922 bales, compared with 1,477,996 bales in the same period last year.

STAMFORD HAS RECEIVED 332 BALES OF COTTON

Three hundred and thirty-two bales of cotton had been weighed in Stamford up to a recent date. Of this number 270 bales were handled by Joe R. Jones, cotton weigher, and 62 bales by the Stamford Compress.

ROBY PUBLIC SCHOOLS SERVE HUNDRED SECTIONS

Roby public schools lay claim to having the unique distinction of serving 100 sections of land. The school has had a phenomenal growth and its scholastic and athletic records draw recognition all over the state.

NEW YORK-PARIS FASHIONS

WELL, well, well, what do think has happened now? Our dear old friend, mother of pearl, is returning to the mode. She comes in in a nautical way, too. I'd have you know. For this season, yachting seems to be the sport that the best people go in for. So we have natty little blue jackets of flannel, hats with anchors embroidered on them and the like, and everybody wears them. If they never so much as go near the water. And with blue jackets nothing will do but simulated pearl buttons, the you can have brass, I believe, if you want them, but who does? In fact everything from hat bands to shoe buckles are now being made of the same material and the result is very chic indeed.

The hat in the sketch is of felt and has one of these new bands around its crown in some sort of pyralin material that resembles pearl and as was to be expected, matches the buttons of the blue flannel coat. The umbrella handle, too, does what it can for fashion, by being made of simulated pearl marked off in nice even spaces with narrow bands of blue shell.

SPLENDID PROGRAM IS PLANNED FOR DEDICATION

Canyon, Oct. 15.—Superintendents, teachers, college presidents and laymen are accepting the invitations of the West Texas State Teachers College to attend the celebration October 19 to 20. At this time the Education Building, just completed at a cost of \$300,000, will be dedicated and the annual Home Coming of ex-students will be celebrated.

President J. A. Hill will have on his campus at this time some of the best known educators in the United States and practically all the presidents of the institutions of higher learning in Texas, as well as teachers, superintendents and principals from hundreds of towns in Texas, New Mexico and Oklahoma.

Names that appear on the program include Dr. Bruce R. Payne, president of Peabody College, Nashville; Dr. W. P. Morgan, president of the American Association of Teachers Colleges, Dr. John W. Withers of New York University and such well known Texas educators as R. B. Cousins of Kingsville, W. L. Hughes of College Station, L. H. Hubbard of C. I. A., J. D. Sanderfer of Simmons, President H. Y. Benedict of Texas University, W. A. McIntosh of Amarillo, and others.

All of the dedication programs are open to the public. Since the West Texas State Teachers College organized the first training school in Texas, people of the region feel a particular interest in the addition to the college plant, which has been the college home of 17,000 West Texas students.

Texas has about 450 incorporated cities and towns.

Texas is the fifth or sixth ranking state in minerals produced. Customarily Texas contributes six or seven percent of the total minerals mined in the United States.

MATADOR ADDS FINE NEW FIRE TRUCK TO SYSTEM

Matador has a new Southern Fire truck with a 500-gallon capacity and enough pressure to extinguish a large fire. The truck will be housed in the Matador Buick Co. building until the completion of the City Hall this month.

NEW METHODIST CHURCH IS OPENED IN AMHERST

A fine new Methodist church building has recently been completed in Amherst and services held by the pastor, Rev. Claude Ledger. The edifice is modern in every point of construction and gives the Methodists a place of worship unequalled in the city.

LAMESA MAKING SURVEY TO FIND DAIRY CATTLE

A survey of the whole of Dawson County to account for every cow in the county is being sponsored by the Lamesa Chamber of Commerce to interest a milk plant there. The milk plant pays 18 cents more per butterfat pound and deliveries are made after the milk.

the nearest rival of the State Fair of Texas in point of attendance. Last year it admitted 443,000 persons, as against the 1,028,317 who passed through the gates of the Texas fair.

Mrs. Manley Ozier Hostesses to 1926 Book Club

So forceful was the lesson on "Interior Decoration" presented to the members of the 1926 Book Club that each one present felt as if they would like to refurbish their homes to conform with the rules laid down by Mrs. Earl Alexander.

During the business session Mrs. Will Bromley was elected to membership.

A most tempting and artistic plate lunch was served by Mrs. Ozier at the conclusion of the afternoon's session.

Society

Arnold-Burson

Miss Gladys Burson and Mr. Arthur Arnold surprised their many friends this week by the announcement of their marriage at Wheeler, Texas, on Oct. 7, 1928.

Both Mr. and Mrs. Arnold are students at the Clarendon schools, Mrs. Arnold being a member of the Senior Class of Clarendon High School and Mr. Arnold a Freshman of Clarendon College.

Mrs. Arnold, daughter of Mr. and Mrs. J. H. Burson, is one of Clarendon's most attractive and popular young ladies.

Mr. Arnold, son of Mrs. A. C. Arnold of the Naylor community, was captain of the Broncho team of 1927, and is a stellar player of the 1928 Bulldog team.

Recent Bride Is Honored

A profusion of flowers and greenery in keeping with the informality of the affair adorned the entire entertaining suite at the home of Mrs. Maggie Whipple Reed Tuesday evening when she entertained with a miscellaneous shower.

The gifts hung from the chandelier in the dining room in a white bag with large bows of pink ribbon tied at each end.

Special guests for the afternoon were Mrs. Sella Gentry as assistant hostess, the members of the Pathfinder's Club and a few invited guests.

Mrs. J. D. Stoecking, a prime favorite with club women, as leader handled the subject of the afternoon in a very instructive and pleasing manner.

Miss Beulah Baird Is Hostess

One of the delightful hospitalities of Thursday was that given by Miss Beulah Baird, complimenting the members of the Thursday Afternoon Bridge Club and a few invited guests with a bridge party.

A variety of lovely garden flowers adorned the rooms in welcome to the guests and a most delightful afternoon was spent in this lovely home.

Mrs. M. H. Rhoades held high score at the close of the games and was given a lovely favor.

Woman's Missionary Society

The Woman's Missionary Society of the Methodist Episcopal Church, South, held its regular business meeting in the ladies parlor of the church Wednesday afternoon, with a splendid attendance.

Reports from the officers of the society were given and a number of items of interest were discussed.

Ladies Bible Society Holds Bible Study

The Ladies Aid Society of the Christian Church was called to order by the first vice-president, Mrs. Frank White, in the home of Mrs. J. A. Thompson, Lelia Lake, Wednesday afternoon.

The study for the afternoon, Matthew 17, was led by Mrs. White in the form of a round-table discussion.

Kongenial Kard Klub With Mr. and Mrs. J. H. Miller

Georgous dahlias lent their gay colors to the pleasant atmosphere of the J. H. Miller home when Mr. and Mrs. Miller were hosts to the Kongenial Kard Klub Tuesday evening.

A daintily appointed two-course dinner was served with the ever favorite game of bridge following with Mr. and Mrs. Clarence Miller being awarded high score at the close.

The guest list included: Mr. and Mrs. Charles Trent, Mr. and Mrs. Clarence E. Miller, Mr. and Mrs. Park Chamberlain, Mr. and Mrs. Richard Bell, Mr. and Mrs. Ira Merchand and Mr. and Mrs. Charlie Bell.

Les Beaux Art Club In Interesting Meeting Friday

A large number of the members of the Les Beaux Art Club gathered at the home of Mrs. L. L. Swann Friday afternoon for a regular meeting.

The subject of the lesson was "Museums," led by Miss Mary Howren with Mrs. W. G. Word giving an interesting discussion.

A lovely afternoon refreshment course was served at the close of the program.

Mrs. Cluck Hostess to Kill Kare Klub

Garden flowers were used to brighten the rooms in which the members of the Kill Kare Kneedle Klub met to pass a pleasant afternoon with needlework and conversation in the home of Mrs. Joe Cluck, Thursday afternoon.

During a short business session Mrs. George McClesky was elected to membership. A lovely salad course was served in the late afternoon to Mesdames H. Mulkey, W. A. Massie, C. E. Killough, J. G. Sherman, Floyd Keener, G. G. Kemp, Buel Sanford, S. M. Lowe, and Eva Rhode, club members.

Anna Moores Swift Celebrates Her Eleventh Birthday

In celebration of her eleventh birthday, Anna Moores Swift was the attractive little hostess to Dorothy Joe Ryan, Virginia Cluck, Joe Ella Kennedy and Dorothy Watson with a dinner party on Sunday, October 14th.

A hallow'en motif was carried out in the table decorations with a basket of yellow flowers marking the center of the table.

Reminiscences of their summer vacation occupied the greater part of the afternoon with an automobile ride in the late afternoon completing a very pleasantly spent day.

Pathfinder Club Enjoys "Peace Program" Friday

At the home of Mrs. Paul Shelton with Mrs. Sella Gentry as assistant hostess, the members of the Pathfinder's Club and a few invited guests enjoyed a "Peace Program" Friday afternoon.

Mrs. J. D. Stoecking, a prime favorite with club women, as leader handled the subject of the afternoon in a very instructive and pleasing manner.

Beautiful autumn flowers adorned the entertaining rooms where a lovely refreshment course was served the guests and members during the social hour which followed the program.

Special guests for the afternoon were Mrs. George Ryan and Mrs. Manley Ozier.

LELIA LAKE

Mrs. John Hessie of Pampa is spending this week with her sister, Mrs. Everett Alexander.

Mr. and Mrs. Clyde Cruise of Turkey visited here with relatives Sunday.

Mrs. E. R. Myers and Mrs. R. E. Darnell were Memphis visitors Tuesday.

Leland Knox, L. L. Rose and Don Tomlinson arrived home Wednesday from a trip into Old Mexico and Carlsbad Cavern.

Luby and Silas Knowles drove to Memphis Wednesday morning for dental work.

Supt. Rex Reeves, Jr., failed to meet his classes Wednesday due to the serious illness of his father.

Mrs. C. H. Ellis, who has been ill for several weeks, was moved to Amarillo Thursday morning.

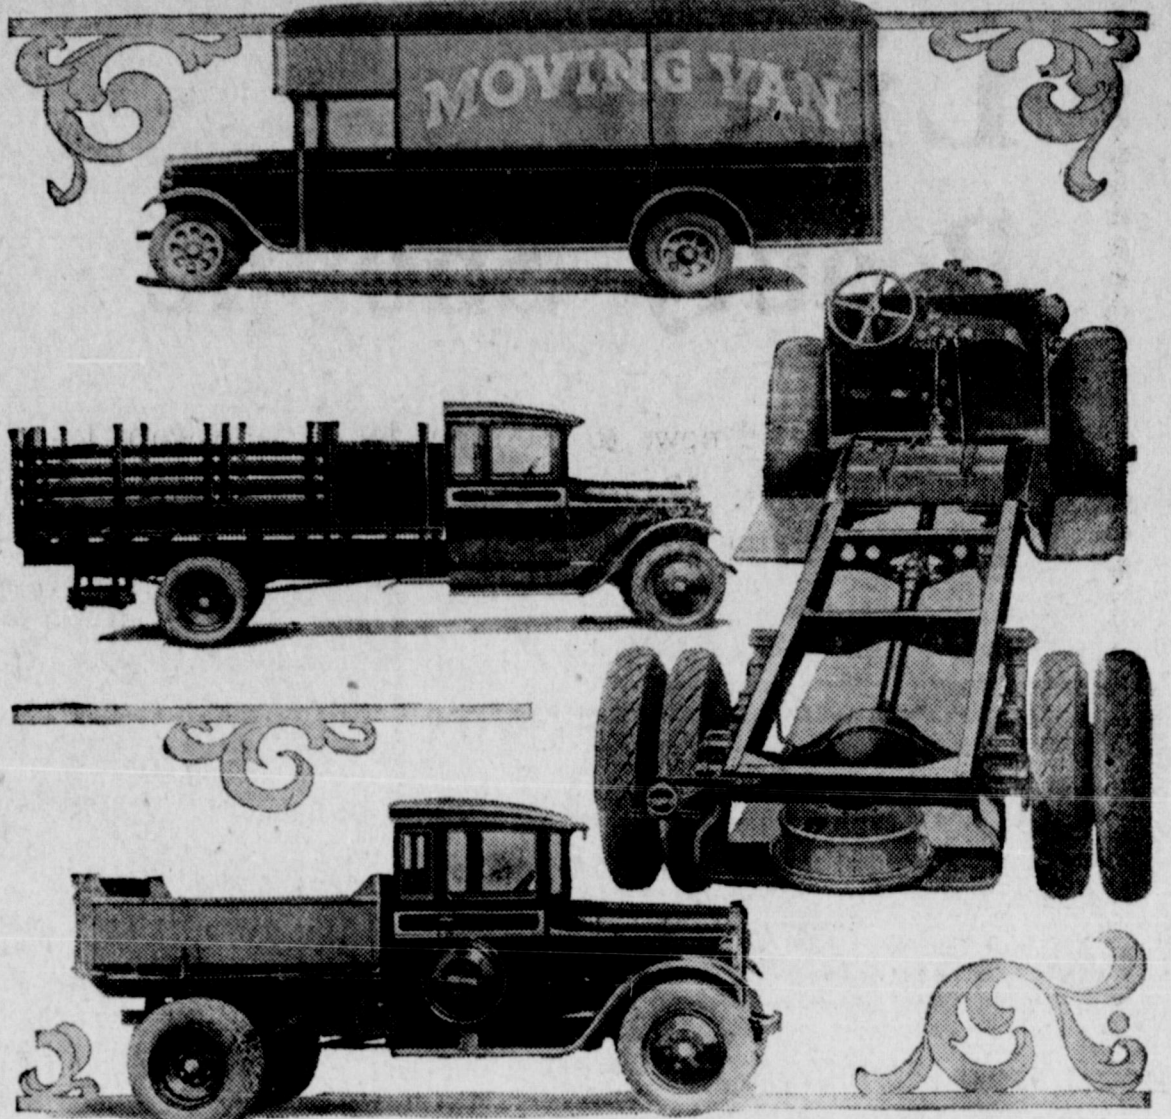

Mr. and Mrs. Everett Alexander announce the arrival of a daughter, Dorothy Joy, Wednesday of last week.

To Win 6 for 1

Mrs. Hugh Unphres of Amarillo, Texas, is a lawyer and a Democrat for Hoover. Her husband is a judge and a Democrat for Al Smith.

Dodge Brothers Offer New 3-Ton Trucks

DODGE BROTHERS have introduced the new 3-ton Graham Brothers Trucks furnished with three wheelbases—the 135-inch for dump bodies, semi-trailers and other heavy duty work; the 165-inch for 12-foot stake bodies, oil tank service and for the hauling of other commodities of moderately compact nature, and the 185-inch for 15-foot bodies suitable for moving vans.

TAKOHA IS TO HAVE A 10,000 EGG HATCHERY

A 10,000-egg capacity electric incubator will be in operation in Takoha by January, and the owners, Prof. Taylor, White and Verner Smith, will be in the market for eggs from certified flocks, after that date.

NEW BAKERY IS IN OPERATION AT BOOKER, TEXAS

The new Bakery recently built has equipment installed and has been baking for a week.

Mrs. G. W. Antrobus and Master George Watson returned Wednesday evening from an extended stay in Dallas for the benefit of George. Mr. and Mrs. Watson report that a great improvement has been effected in that they are well pleased in the outcome.

EAST AND WEST DIVIDE HONORS AT STATE FAIR

Harrison County, East Texas, with Marshall as the county seat, Monday carried off \$500 first prize money and honors as the banner agricultural county in Texas at the State Fair of Texas. Twenty judges of exhibited products scored for three days in order to determine the winners among the contesting counties and until the final half hour it was a nip and tuck contest between at least twelve of these exhibitors.

With a possible 1,000 as the perfect score, Harrison County scored 984.24 points to win first prize money and the blue ribbon. Drew Moore, Marshall, was in charge of the exhibit.

Second prize, \$400, went to Randall County, of which Canyon is county seat, with a score of 979.91. Garza County, the county seat of which is Post, took third prize, \$300, scoring 969.54. Both these counties are in West Texas.

Fourth prize, \$200, was awarded Marion County, East Texas, of which Jefferson is the county seat, scoring 960.35. Eastland County, West Texas, took fifth prize; Hemphill County, West Texas, was given sixth place, scoring 957.38.

It is significant of progress made in Texas Agricultural products' quality in the last six years that Wheeler County, placed sixth in 1922 with 625 points, went into twenty-fourth place this year with 890.43 points. Superintendent J. A. Moore of the agricultural exhibits pointed out.

Exhibits were judged on nine divisions of products, each county having the option to nominate one or more products in each division. The divisions included cotton and wheat, 200 points; oats, barley and sugar cane, 75 points; alfalfa, sweet clover, velvet beans and sweet potatoes, 75 points; peaches and field peas, 50 points; annual forage crops, 50 points; fruits, 75 points; vegetables, 75 points; other crops, 100 points; attractiveness and neatness of the exhibit, 100 points; total, 1,000 points.

Other counties winning prizes, after the first six named, in the order in which they were ranked by the judges, are: Seventh, Ellis, 947.28; eighth, Lamar, 940.63; ninth, Cass, 939.76; tenth, Hartley, 938.41; eleventh, Collin, 934.36; twelfth, Rush, 933.89; thirteenth, Henderson, 933.28; fourteenth, Brown, 923.81; fifteenth, Tarrant, 920.42; sixteenth, Wood, 919.83; seventeenth, Van Zandt, 916.73; eighteenth, Gregg, 915.83; nineteenth, Smith, 908.56; twentieth, Anderson, 905.33; twenty-one, Hunt, 904.03; twenty-two, Collingsworth, 900.16; twenty-three, Donley, 899.58; twenty-four, Wheeler, 890.43; twenty-sixth, Cherokee, 884.21; twenty-seven, Kaufman, 881.36; twenty-eight, Houston, 836.63.

BALLOTS FOR GENERAL ELECTION DELIVERED

Ballots for the general election that is to be held on November 6th were delivered to the County Clerk the fore part of this week. The ballots for this year are of quite large size, having five columns, one each for the Democratic, Republican, Socialist and Communist parties, with a column left blank as required. These also include the amendments to the constitution of the State of Texas that will also be voted upon in the election.

American Education Week falls this year within the period November 5-11. The occasion was instituted in 1920 by the United States Bureau of Education to stimulate enthusiasm for education, and it is now promoted each year by the American Legion, the National Education Association, parent-teacher associations, other organizations, and school authorities. It offers an exceptional opportunity for parents and others to acquaint themselves with the work of the schools, their ideals, achievements, and needs.

At an actual cost of \$62,483 articles valued conservatively at \$121,187 were made by pupils in evening schools of Buffalo, N. Y. last year. The 6,922 persons enrolled turned out 27,599 articles, comprising clothing, dress accessories, embroidery work, woven goods, quilts, basketry, seed work, furniture, and other household furnishings. The evening classes specialized last year in making over old clothing, and hundreds of well-made garments were produced at little cost other than the expenditure of time and effort.

Sixty-seven teachers' clubs for the study of English were in operation in Porto Rico in February, 1928, with a membership of 534 teachers. At the same time 612 pupils' clubs with 32,415 members were functioning. Such clubs have been established in nearly all the schoolrooms in the island. Great improvement in the English spoken in the school is already noticeable. This movement is promoted by the Department of Education of Porto Rico.

Ninety per cent of all the pupils who graduated from the elementary schools of Dallas, Tex., last year entered high schools.

PERSONALS

Joe Burton and Floyd Little motored to Amarillo Sunday.

W. J. Ball of Alarwood was in Clarendon Monday of this week.

A. A. Mayes had business in Hollis, Okla., over the week-end.

SPECIAL NOTICE

Instead of retiring from practice, which has been erroneously reported, I shall resume practice as soon as possible after my return from Baylor Hospital. (45c.) Dr. J. W. Evans.

TWICE A WEEK LINE IS ESTABLISHED DEFINITELY

Announcement was made in the Amarillo Daily News Monday of this week of final changes in the time of leaving of the airplane from Amarillo to Oklahoma City. The Amarillo Airport Corporation is the only one of the several proposed lines from Amarillo that has materialized. Harold W. English, manager of the company, states that he will leave Amarillo at 9 o'clock instead of 8 as has been the plans in the past. The trip takes a little more than two hours to Oklahoma City and will make connection with other lines leaving that city to other points in the United States. Planes will fly over the route on Tuesday and Friday and will be handled only by licensed pilots.

DENVER ADDS TRAIN TO MEET FREIGHT DEMANDS

The increasing use of the railway for the carrying of freight from more distant points has made it necessary for the Denver to change their local schedule daily from the south. This gives excellent service from the central and eastern parts of the state and enables merchants here to order merchandise and secure it at least one day earlier than it could have possibly been received a short time past. The local freight schedule to and from the North is also assisted, giving access to the northern receipts in much the same manner as from the south.

A. L. Moseley left the middle part of last week for his home in Los Angeles, California, after a visit of a few days here with M. W. Moseley, his brother, and with a sister and his mother in Hedley. Mr. Moseley stated to the News that this was the first time he had been visited by his brother in fifteen years.

Mr. F. C. Johnson left Thursday morning for Quitaque where he will be checked in as station agent at that place. His family will probably move to Quitaque later.

Dr. and Mrs. J. W. Evans are in Dallas where Dr. Evans underwent an operation at Baylor Hospital. His many friends will be pleased to learn that he is doing nicely.

Mr. and Mrs. Ernest Wilson and small daughter, Carroll Jean, returned to their home in Muskogee, Okla., Wednesday after a visit with Mr. Wilson's parents, Mr. and Mrs. J. T. Wilson, and other relatives.

Messrs. Wesley Knorpp and Fred Chamberlain attended to business matters in Amarillo Monday of this week.

BRAN and Shorts

We have made a good purchase on Bran and Shorts and will pass it on to our customers:

BRAN, Per Hundred - - - - - \$1.60
GREY SHORTS, Per Hundred - - \$2.00

Full line of Purina Chows, the best on the market. If your chickens don't lay when you feed Purina Chowder, they must be roosters.

CLARENDON GRAIN CO.

ANGELO MAN SENT HERE AS SALESMAN FOR W. T. U.

Mr. and Mrs. W. T. Hunt of San Angelo arrived here the fore part of this week and will make their home here for some time. Mr. Hunt was transferred to Clarendon from the San Angelo office of the West Texas Utilities Company and will serve the local office in the capacity of appliance salesman. Mr. Hunt was placed here for the reason that this part of the business will be much larger during the Fall months and also for the reason that a man of this character is needed to keep up the past record of the Clarendon plant.

LEWIS SHIP'S TRAINLOAD CATTLE TO SPUR RANCH

W. J. Lewis registered the shipment of a full trainload of cattle from Clarendon Tuesday of this week. The herd was made up of cows and calves and will be placed on the Lewis ranch near Spur for winter pasture. The trainload was accompanied by Jephtha Fleming, one of the employees of the RO ranch.

Of 1,797 nurse-training schools in the United States in 1927, statistics for which have been obtained by the Interior Department, Bureau of Education, 1,722 are maintained by general hospitals, and 75 are operated in connection with hospitals for the insane. Schools offering training for nurses are reported in every State, with the exception of Nevada. The figures indicate an increase of 42 nurse-training institutions over the number reported for 1920. Of the 77,768 students in 1926-27, 549 were men.

Robert Weatherly, Jr., spent from Friday to Monday in Dallas enjoying the wonders of the State Fair.

Charles Trent returned Sunday from San Antonio where he attended the National Legion Convention.

Beginning Saturday and lasting all next week we will have special prices on all kinds of Libbys canned fruits. Get our prices per dozen on peaches, pears, pineapple, apricots, etc.

THE FIRST NATIONAL BANK

NEW YORK CHARTER FOR CHILEAN SCHOOL

A provisional charter for the Santiago College for Girls, located at Santiago, Chile, has been granted by the board of regents of the University of the State of New York. The institute was established in 1880 as a school for the education of girls from American and English families, but it now includes among its students many Chilean girls. Courses from kindergarten through high school have been offered, and the curriculum will hereafter include higher studies. This is the second institution in South America which has been chartered by the board of regents the first being Mackenzie

The new poultry building at the State Fair of Texas is much easier to reach than the old one was. It is located to the right of the main avenue leading from the main gates to the grand stand.

College—High School Activities

Conducted by the students of Clarendon Junior College and Clarendon High School.

ALPHA DELTA PSI

Alpha Delta Psi Society enjoyed an unusual program at its last meeting. Members of the program displayed talents which created both wonder and surprise. In order to start the program off with a snap, the members sang the two society songs which were written and put to music by four of its distinguished members, Misses Mansell, Opal Duckett, Susie Spear and Cecil Hukel. Miss Virginia Speed, a whistling artist of no mean ability, entertained the society with two numbers which were very beautifully rendered. Miss Speed is not a member of the society, but she was more than willing to co-operate with the ones putting on the program. Susie Spear gave an unusual reading number which met with the approval of all. The reading was well given, and showed much talent on the part of the speaker. Marue Trostle played a very beautiful piano solo which filled the little society room with many harmonious airs. Mr. Farrow gave an extemporaneous talk on the spirit of the society, and stressed the fact that, progress and be successful a society must have spirit and plenty of it. The outstanding number on the program was the reading

of the society prophecy by Gertrude Witt. The members found out what they would be doing in the year 1934. The manner and ability displayed in writing it well up to her name. The society enjoyed the presence of a visitor, Miss Mary Jo Chamberlain. Alpha Delta Psi is always glad to welcome a visitor, and it is hoped that Mary Jo will come again sometime. Miss Johnnie B. Bandy joined the society as a new member and the society now has twenty-eight members on its roll. Sometimes back indefinite plans were made to buy caps for the society. At the last meeting definite plans were made, and the order was sent off. The caps will be here in a week or two.

ALDERSON DONATES ARM BANDS AND CANES

Earl Alderson, owner of the Alderson Studio, donated several dollars worth of arm bands, penknives, canes and pins to the boosters that were out to the double-header ball game Friday. Mr. Alderson is an old student of Clarendon College and clearly showed that he was still back of the Clarendon schools. We appreciate all that Mr. Alderson has done for us in the past and we feel sure that he will do his part in the future.

WHY NOT HURRY?

The sooner they put elevators in this building the sooner I appreciate my school work.

BULLDOGS LOOSE HARD GAME TO WAYLAND TEAM

The Bulldogs lost their first home game to Wayland Friday. The game was hard fought from the start to finish. The Bulldogs outplayed the Jack Rabbits the first half but the Rabbits came back at the Dogs the last half and outplayed them somewhat. The Bulldogs made five first downs in the first half while the Jack Rabbits only made two. In the last half the Rabbits made four and the Dogs made three. The Bulldogs scored about the middle of the second quarter. Both of the Rabbit's touchdowns were made in the last quarter. The final score was twelve to six in favor of the Wayland Jack Rabbits.

BRONCHOS PLAY WELL—LINGTON SCORELESS TIE

Immediately following the Bulldog game the Bronchos played Wellington High School a hard fought game. The ball was carried all up and down the field by both teams but neither was able to score. The Clarendon team made eight first downs and Wellington made four. Powell of Wellington made the highest yardage for his team. Dillard and Noble were the Broncho stars.

OUR BAND

Mr. Lindsay reports that the band is practicing regularly twice a week. He also states that the band will soon begin to give programs in chapel. The band gave its first public appearance at the football games last Friday. We appreciated the effort that the members of the band put forth to win the games. All indications show that the Junior High School band will be one of the finest Junior bands in this section of the state. The members are interested and ready to work.

MORE TROUBLE

I wish that some nice, handsome, good-lookin' sweet little girl would explain the meaning of one word for me. The other day one of our most beautiful high school Seniors said that I was so "CONSEATED." Now I don't know whether I am or not. It has been worrying me ever since. Just as soon as that girl tells me what that word means I will have my worries over. I also have a dear friend who would appreciate to know what the word "fickle" means. He has been accused of being one of them things.

PARENT-TEACHER RAISE MONEY TO CARRY ON EXTENSIVE PROGRAM

The Clarendon Parent-Teacher Association plans an active and extensive program with the proceeds from a home-talent play, "The Flapper Grandmother," which it has recently sponsored. The association will expend a greater portion of the money in obtaining the services of a state health inspector who will give a physical examination to every child in the school. It has also purchased a set of encyclopedias and installed an electric bell in the college building.

HIGH SCHOOL GIRLS' FORUM

The Girls' Forum met Wednesday, October 10, with Miss Worsham and Miss Abbott as sponsors. It was decided that the new members wear to wear a ribbon tied around their heads and were to sing a song in chapel Friday morning as an initiation. A very interesting program was rendered. Margaret Dillard and Helen Redders facored the club with a "jokelogue." Music and a debate took up the remainder of the period. Colors and a motto are to be selected at the next meeting.

PROPHECY OF "ALPHA DELTA PSI" IN 1934

By Gertrude Witt. First in order comes Delia Barnes. Says she, "Yes, I'm still a schoolmarm." Then there's Maud Bledsoe, a bashful; She has taken to the movies and is in quite a whirl. Bessie Lou Clayton is keeping house— But be sure you keep this as quiet as a mouse. Maud Crawford, a Clarendon student she, Is now a stenographer and as busy as a bee. Elma Davis, our little brunette, Is writing stories for the Gazette. Opal Duckett, the pianist of "Alpha Psi," Has started lecturing on the teach school; There's Gladys Estes, who used to teach school; She has written a novel on "How to Keep Cool." A grim, serious reporter was Alfred Estlack. Who is preaching the gospel to both white and black. But Eugene, his brother, our sergeant-at-arms, Has a tendency to flirt with all school marms. There's Mr. Farrow, who teaches chemistry, if you please; He's very agreeable and a firm believer in degrees. Sylvia Floyd, another student of C. J. C., Will travel on horseback from sea to sea. Betty Grishwold, who intended to teach, Will sell hot tamales for ten cents each. Cecil Hukel, our society yeller, Is following a carnival as fortune teller. Earl Humphrey, the critic in "Alpha Delta Psi," Is majoring in Spanish and we all wonder WHY. Bessie Lee Jackson, who was as dumb as could be, Is now a famous lawyer of highest degree. Miss Mansell so thoughtful and kind, Is a head matron in the home for the blind. "Slick" Naylor, our president, stands on the burning deck, And so far as we can learn He will stand in perfect safety— for— He is too green to burn. In arguing Gladys Noble should hold her skill, For even though vanquished she can argue still. Hazel Parr, our secretary is she, Will be living with a farmer in a Cottage by the sea. Mattie Rhoades, a student of C. J. C., Is building castles in Washington, D. C. Madge Richerson, our basket ball captain was she, Has succeeded in getting her M. A. degree. We had in our society at C. J. C. A giantess, Clyde Shepherd, you'll all readily agree. Glynda, her sister, studies when she can, But has recently succeeded in getting a man. There's Kathryn Smith, another C. J. C. gal, Here's hoping she'll not follow after "AL." And Susie Spear, a reader, you see, Is running a chicken farm for Donley C. Agatha Taylor, as contented as you please, Married a sailor and lives a life on the seas. Oh, yes! there's Marue Trostle, a friend to all; Can you feature her being a star in football? And as for me, a freshman in C. J. C., There's not much telling what I'll be.

MEN'S BIBLE CLASS AWARDS SCHOLARSHIP TO FISH

According to L. B. Cooper, dean of Clarendon Junior College, another full scholarship has been awarded for freshmen students of the College. The Methodist Men's Bible Class, under the direction of L. A. Reavis, is the donor of this scholarship which this year has been awarded to Jonnie Bandy of Clarendon. This makes the second scholarship that has been awarded by Methodist organizations, and other organizations from other churches are planning to offer similar scholarships.

PEP SQUADS DO THEIR PART

The pep squads of the High School and Junior College were on the job Friday and showed some real fighting spirit during the two games. In the past our pep squad would come to the game, and start off with lots of pep, but they would die out before the game was over. The girls did not do this way last Friday. They were making as much noise at the close of the last game as they were at the start of the first one. The High School squad was piloted by Julia Taylor and Elvis French, while the College was managed by Misses Gwyn Youngblood and Lois Alexander. We, the members of the Broncho and Bulldog football teams, wish to express our appreciation for the spirit shown in the student body of our public schools at the games Friday, Oct. 12. Even though we were not able to put over the winning score, you continued to cheer us on to the last whistle.

CLARENDON HIGH TO PLAY CLAUDE FRIDAY

noom. This will probably be one of the best games of the season, and a large crowd from Clarendon will be expected to see the game.

AFFIRMATIVE WINS IN HI-Y DEBATE

The Hi-Y Club rendered a very interesting program in its regular meeting Wednesday morning. A debate, "Resolved, That the Hi-Y Should Meet During School Hours and not at Night," was upheld by Billy Dillard and Phifer Estlack, affirmative; and John Henry Crawford and Benton Smith, the negative. The affirmative won by a 5 to 1 audience decision. The High School boys are showing a great interest in their club. At present the club has twenty-nine members, which make it one of the largest in the school. The objectives of the club are: "Clean Living, Clean Speech, Clean Athletics, and Clean Scholarship."

COLUMBUS DAY IS OBSERVED AT CHAPEL

After the announcements Friday morning in chapel, Mr. Burton devoted the remainder of the chapel period to a Columbus Day discussion, as it was October 12, the day on which Columbus discovered America 430 years ago. Mr. Burton said that if the same progress were made in the next 430 years that had been made in the last 430 years that we would all be flying by that time. He mentioned other possible changes in the scientific field of discoveries also, he said that as medical science progressed people would come to live longer lives and we might get back to the

FEW COLLEGIANS ATTEND RALLY

Few college students attended the rally held at College Field Thursday night, but the high school was well represented, and gave some peppy yells. The Boys Club was present one hundred percent. The Senior pep leaders, Elvis French and Julia Taylor succeeded in putting plenty of pep into the meeting.

NAYLOR

Louis Fields of Amarillo, tired of living alone, came down Saturday night to visit Mrs. Fanny Naylor, returning Sunday, taking Mrs. Fields and son home with him.

Mr. and Mrs. Harkey and daughter, Miss Sybil, of Washburn, were guests of Mr. and Mrs. Tom Bain.

Sunday night Naylor enjoyed the biggest treat for so long in the form of an old time singing in the home of Mr. and Mrs. W. M. Pickering.

Mmmes, Tidrow and Bowlin were Memphis visitors Saturday.

Mr. and Mrs. L. R. Bowlin and Mr. and Mrs. Richmond Bowlin spent Sunday with Mr. and Mrs. Wynne Bowlin at Hedley.

The rain came Saturday night and early morn'g was held up for a bit, but by Monday was in full swing again.

ASHTOLA

Sunday school was held at the regular hour with a good attendance. Preaching service followed by Rev. Lapey.

We are very sorry to say the Gipsy children are very sick with diphtheria. We are hoping they will be up again before long.

Misses Jessie Swinburn and Onata Hayter took dinner with Vera Johnson Sunday.

Mr. Walter Gregg and family of Abilene are here to visit among friends and relatives.

Revs. Laney and L. O. Lewis of Clarendon visited in the W. A. Poovey home Sunday.

Misses Minnie Lee and Myrtle Armstrong of Clarendon spent the week-end with Beatrice Randall.

Miss Grace Slater spent Sunday with Minnie Davis.

Miss Mary Hayter spent Sunday with Athlene Drennan.

Mr. and Mrs. C. B. Harp and family visited with Mr. and Mrs. Lee McClelland Sunday.

Miss Ima Poovey spent Sunday with M. A. Butrel.

Mr. and Mrs. R. L. Mason and family of Lelia Lake visited in the home of S. A. Eddings Sunday.

Mr. Stanley Johnson spent Sunday with Tate Poovey.

Mr. and Mrs. John Dial are here staying with W. A. Poovey while he works at the depot at night.

There will be a box supper at the Ashtola school house Saturday night. Everyone is invited to come and bring a box.

Vance Swinburn who is teaching at Memphis this year, visited over the week-end with his parents, Mr. and Mrs. M. S. Swinburn.

INCREASING EFFICIENCY INTERSCHOLASTIC LEAGUE

More than 5,000 white schools in Texas hold paid-up membership in the interscholastic League of the State. The league was organized in 1911 and is fostered by the University of Texas extension division for the promotion of inter-school educational and athletic contests. Increase over the school year 1926-27 was 518 member schools. Originally the league embraced negro schools as well as the white schools, but in 1921 the Texas Interscholastic League for Colored Schools was established independently.—School Life.

BON TON CONFECTIONERY.

Hurricane Reported

Worse Than in 1926

The West Indies-Florida hurricane is now known to be a major disaster. The complete breakdown in communications to and within the Islands and in the area affected in Florida has seriously handicapped efforts to obtain accurate estimates of the situation and the resulting needs.

The information received to date from Red Cross workers and other sources confirms earlier reports and clearly indicates that the Red Cross must assume an extraordinary responsibility for relief measures.

In Florida, 400 known dead have been reported. It is estimated that the total deaths will greatly exceed this number; estimates of property damage vary from \$20,000,000 to \$100,000,000.

The Chairman of the Palm Beach Chapter of the American Red Cross reports: "Conditions in the stricken area are growing worse every minute. About 8,000 persons in the Lake Region alone are in desperate need of clothing, food and medical aid. There are about 15,000 homeless in the county. The estimated damage in Palm Beach County is \$30,000,000.

9,000 refugees were fed at the Refugee Camp today. Sanitary conditions in the Lake Region are terrible. Refugees have been standing in water for hours and there are a number of cases of double pneumonia. More than 200 persons have already been buried in local cemeteries."

The reports of dead, injured and destruction in Porto Rico and the Virgin Islands are still further limited by the complete lack of communication within the Islands by wire or by road. 737 known dead are reported and it is estimated that more than 1400 are dead following the hurricane. Property damage in the Islands can scarcely be estimated but it is known that crops are almost a total loss; one-half of the villages have been leveled, and houses of the people in the country have been completely destroyed over a large part of the Islands.

It is clearly evident that the destruction of the recent hurricane in all of the areas affected greatly exceeds the destruction reported in the Florida hurricane of 1926.

Henry M. Baker, National Director of Disaster Relief for the Red Cross, with a staff of workers arrived in San Juan at noon Tuesday and the first reports received from Mr. Baker today indicate appalling distress in the Islands. Food, clothing, medical aid, and shelter are urgent necessities. Physicians in the small interior towns have been working two or three days to care for the injured. Efforts at organized relief and the distribution of essential relief supplies have been undertaken in the face of tremendous difficulties caused by the destruction of communication and the conditions of the roads.

President Coolidge has taken extraordinary measures to insure co-operation of governmental agencies with the Red Cross. Senior Surgeon John McMullen of the United States Public Health Service has been assigned to service with the Red Cross in Florida and Surgeon S. D. Grubbs represents the U. S. Public Health Service with the Red Cross in Porto Rico. Secretary of Commerce Wm. Whiting, has assigned Thomas R. Taylor, Assistant Director, Foreign and Domestic Commerce, and Edward Picard to co-operate with the Red Cross in Porto Rico.

Naval vessels have been directed by the President to transport Red Cross supplies and transports en route have been diverted to deposit their cargoes of food for distribution by the Red Cross.

William Butterworth, President of the U. S. Chamber of Commerce, has addressed a communication to all Chambers of Commerce throughout the country urging every member organization to participate in the collection of funds to assure sufficient resources for the Red Cross to complete the task it has undertaken.

The U. S. Chamber of Commerce further requests the aid of local Chambers of Commerce in fund raising.

Relief work in Florida has been expedited by the extraordinary service of the Chapters of Palm Beach, Miami, and smaller places which have profited by their experience in the Florida hurricane two years ago.

President Coolidge's proclamation designating the Red Cross as the official relief agency and appealing for a generous response to the appeal for funds was released to the press Monday, September 17th. The proclamation follows:

"An overwhelming disaster has overtaken our fellow citizens in Porto Rico and the Virgin Islands as the result of a devastating West Indies hurricane. Full extent of the damage is not available but several hundred thousand

and are known to be homeless and in instant need of food, shelter and emergency relief. Governor Towner of Porto Rico has appealed for immediate aid.

All possible assistance will be rendered by the Executive Departments of the Government but because of the wide-spread suffering which calls for not only emergency aid but some form of permanent rehabilitation, I have asked the American Red Cross to assume the task of rendering aid, acting as the agent of the American people.

As President of the United States and as President of the American Red Cross I am, therefore, urging our people to contribute promptly and most generously so that sufficient funds may be received to alleviate the suffering among so many thousands.

All contributions should be forwarded to the nearest local Red Cross Chapter or to the American National Red Cross Headquarters offices at Washington, St. Louis or San Francisco."

I trust that every Chapter in the Midwestern area will adequately present this appeal to its jurisdiction, and that every Chapter will be represented, according to its ability and resources, in the relief fund which the Red Cross will expend to relieve the distress and suffering which thousands of our fellow citizens both in Florida and in the West Indies are now experiencing.

Your Fall SUIT

They have everything—new lines to the coat, new patterns, new double-breasted vest. Choice worsteds, cassimers and twists, in gray, brown and blue—

\$22.50 - \$25.00 - \$30 and \$35.

"INSIDE" INFORMATION

The notion that it is harmful to eat fish and milk together has no foundation in fact. Think of the many excellent creamed fish dishes, and fish chowders made with milk, that have always been eaten without ill effect.

When making jelly it is not necessary to heat the sugar before adding it to the fruit juice. The only reason for heating it, is to shorten the time of boiling the jelly. If the juice is boiling hot when the sugar is put in, the boiling process will only be checked for a minute or two by the addition of the cold sugar. It is then boiled rapidly until the jelly stage is reached, which should be in from 5 to 10 minutes or even less.

Mildew stains on fabrics when very fresh, may sometimes be washed out with soap and water, or bleached in the sun. The growth of mildew is at first on the surface of materials that have been allowed to become damp, but in a short time these molds penetrate the fibre and injure it, and are almost impossible to eradicate. Soaking the stains in sour milk over night and placing in the sun without rinsing, will sometimes help. Slight stains are sometimes removed by moistening them with lemon juice and salt and placing in the sun. Javelle water, used as a bleach, will take out mildew stains on white cotton or linen but should never be used on silk or wool. Other chemicals are also used at times. Mildew on shoes should be wiped off as soon as detected, and the shoes washed with soap and warm water, and well dried. Stuff the shoes with soft crumpled paper or dry oats, and dry in a warm, but not hot, place.

BANKRUPT LIABILITIES ON INCREASE IN SEPTEMBER

Austin, Texas, Oct. 16.—Liabilities of bankrupt companies in Texas increased from \$251,000 in August to \$607,000 in September, according to Bervard Nichols, assistant in charge of index numbers in the Bureau of Business Research at the University of Texas.

"Moreover, the capital involved in these companies was larger," said Mr. Nichols. "Average liabilities per failure in September were \$16,000, against \$9,000 a year ago. The average liabilities per insolvency have shown an increasing tendency during the past few months, whereas the trend was in the opposite direction at this time last year. Competition is becoming exceedingly keen in the commercial field. This situation is likely to facilitate radical changes in the operations of commercial enterprises over the next few years.

"One bank failure with liabilities involving \$3,000,000 reported to the Bureau of Business in September. The relatively few bank failures so far this year reflect the sound financial background, even though the credit conditions are somewhat strained."

METHODISTS LEAD IN U. OF TEXAS REGISTRATIONS

Austin, Texas, Oct. 16.—More Methodists attend the University of Texas than persons of any other religious faith, according to a survey just completed by the University Y. M. C. A.

Approximately 1,635 students in the University belong to the Methodist Church or prefer that denomination. Other denominations represented in the survey are Baptists, 994; Presbyterians, 775; Episcopalians, 384; Christians 313; Catholics, 247; Jews 187; Lutheran, 130; Congregationalists, 112, and the Church of Christ, 101.

Members of the different denominations are listed with the addresses and telephone numbers and typed copies of the lists are sent to the pastors of the various churches by the Y. M. C. A. This information enables the leaders of the religious work in the churches to organize their students within a few days after registration.

LION COMMITTEES REPORT TUESDAY

VISITORS TO CLAUDE REPORT EXCELLENT CLUB IN FORMATION.

Business matters of first one sort and another took the attention of the Clarendon Lions Tuesday of this week when the usual weekly luncheon was held in the club room of the Antro Hotel.

The first item that should be of interest to the people of the city in general was the report of the committee recently named to get the sentiment of the business men of Clarendon who are not members of the Lions Club on the appearance here of tent shows, carnivals and like attractions. The work was undertaken Tuesday morning with an eye to securing the sentiment of the business men without influencing their decision. It was learned that of the 66 men questioned, fifty-six were against the shows coming to town under any rules or regulations, six are willing for any or all of them to come into the city, one was neutral in his stand and three were against carnivals but did not object to the tent shows. The findings of this committee will be handed the City Commission, together with the findings as to ordinances in effect in other cities of this immediate section and their method of handling attractions of this sort.

Lion Patman reported for the scholarship committee, stating that a loan had been made to N. Helton of the college in the amount of \$60, this amount being required for the young man to complete this year's school work. This leaves a balance of \$15.00 in the fund that might be used at a later date.

Lion Braswell was called upon for a report of the Lions luncheon at Claude Monday, at which time six of the members of the Clarendon club met with the new organization and pointed them to a successful life as a Lions club. Lion Homer Muxley acted in the capacity of toastmaster for the new club, later turning their first luncheon to the newly elected president when he had been named. The Claude Lions will meet on Monday of each week and will be served by the Home Economics Department of the Claude High School.

A call was made for the Lions who would attend the District meeting in Memphis Thursday of this week. The Clarendon club will have an attendance of probably ten at this meeting. Lion Douglas reported attending luncheon in Dallas, bringing the regards of Lion Governor Erhard to the Clarendon club and asking that they meet him in Memphis Thursday.

Further announcement was made of the benefit that will be staged in Amarillo on October 23rd for the crippled children's fund of that organization. Lions Caraway, Ryan and Douglas were named a committee to receive any contributions extended from the Clarendon club.

Mrs. Joe Cannon was introduced as the new Lioness. Mrs. Cannon has been officially designated as the pianist for the Clarendon club. Another guest for the day was Miss Johnnie Bandy, until recently the waitress who waited on the Lions at their weekly luncheons. Miss Bandy is now a student in Clarendon College and was present at the luncheon to receive the contents of the fine box as a reward for her services each week.

Frank Houston, versatile member of the Lions Club of Clarendon, who has membership in more organizations in this section of the state than any other man in the Clarendon club, was called to the floor and gave some very interesting remarks for the edification and interest of the assembled Lions. He stated that he made up the work order for the present year. The sheet called for the expenditure of a sum in excess of \$700,000. The district will expect to receive a little more than a half million dollars.

The luncheon closed in the usual manner after Lion Cub L. H. Johnson was called to the floor and given his first taste of the meaning of Lionism. The fine \$2.70 was willed to the crippled children's fund at Amarillo and the committee will be authorized to collect this and remit it directly to Amarillo.

Lion Douglas, head of the attendance committee, made some reports on the number of Lions who have been one hundred per cent in attendance for the entire year. Four Lions have made this record, while eight have been one hundred per cent perfect in the past quarter.

J. W. Martin and Misses Helen and Mildred were in Childress Sunday for the marriage ceremony of Glenn Shoemaker of Amarillo and Miss Maurine Merrick of Childress. Miss Merrick was an especial friend of the Martin family and had visited them here quite often. The ceremony was had in the Methodist Church with Rev. J. T. Griswold as the minister in charge.

J. T. Warren returned Tuesday evening from Amarillo, where he attended to business affairs.

FORMER NEWS EMPLOYEE MARRIES COLEMAN GIRL

The News is in receipt of an announcement from Mr. and Mrs. W. A. Powell of Coleman, Texas, announcing the marriage of their daughter, Winona Young, to Mr. Morton M. Whitsitt. Mr. Whitsitt was at one time an employee of the News, having been away from here about three years. The young couple will make their home at San Angelo, where Mr. Whitsitt is now employed. Mr. Whitsitt has many friends among the business men of the city and they all are joined by the News in wishing the newly married couple the best there is in this life.

SECOND HIGHWAY MEET IN BORGER NEXT TUESDAY

The second meeting of the Panhandle Highway Association will be held in Borger at the Black Hotel Tuesday, October 23rd, at 11 a. m. o'clock.

There will be several speakers of note at this meeting and the by-laws and Constitution will be adopted and officers elected.

A great deal of interest is being manifested in this Association over the entire Panhandle, and leading men over the Panhandle are backing the movement, feeling that this is an opportunity to work up a connected system of highways for the Panhandle. Every city and town in the Panhandle is urged to send a delegation to this meeting.

POISONING RABBITS FOUND PROFITABLE AT MIDLAND

Between 15,000 and 20,000 rabbits have been poisoned in Midland this year with the county furnishing the poison. In counties where the rabbits were not poisoned damage to crops is estimated as high as five per cent.

NOLAN COUNTY MAY GET COUNTY HEALTH UNIT

An effort is being made in Nolan County to get a County Health Unit with financial assistance from the Rockefeller Institute. The county will finance half the project which would insure a full time doctor and four helpers.

KNOW TEXAS

Manufacture of carbon black from natural gas is a growing industry in Texas and now employs about 1,500 people.

Texas has moved into second place in production of natural gas, registering a 45 per cent increase last year.

The Southwestern Bell Telephone Company forecasts that Texas will have 1,270,000 telephones by 1950. It now has about 635,000.

Of the 14,000,000 acres of the original pine forest area in Texas only about 1,100,000 acres remain in virgin timber.

COTTON GINNINGS GAIN IN OCTOBER FIRST REPORT

Cotton ginnings in Texas show a gain of a little more than 100,000 bales up to October first as found in the report issued Monday of this week for ginnings prior to that date. Entire ginnings for the state will amount to 2,421,382 for the present year as against 2,300,530 for 1927. Conditions since that date have been excellent for the completion of the cotton picking and the report for October 15th should show a correspondingly larger gain than the one for October 1st. Briscoe County shows to have ginned 485 bales this year and made no report for 1927. Childress County has fallen behind by less than two hundred bales on the report, they show to have ginned 4,568 bales during this year as against 4,703 bales for the year 1927. Collingsworth County shows a much greater loss with 2,790 bales for 1928 against 3,715 for 1927. Collingsworth has seen some extraordinary conditions for that section of the Panhandle, which will probably explain the shortage of their crop. Donley County shows to have reported 874 bales for the present year with 184 reported for the year 1927. The actual ginnings of the county will run far more than the figures at the present time, but will not be reported until the October 16th report is received. Gray County to the north shows a slight loss with 122 bales ginned in the present year and 127 for 1927. Operations in Armstrong County have been withheld from the reports to this date.

HOCKLEY HATCHERY DOUBLES CAPACITY OF PLANT

T. L. Kimmel, proprietor of the Electric Hatcheries at Hockley, has doubled the capacity of his incubators this year and will handle 15,000 more eggs. This is one instance of the increasing interest in poultry in the town.

Late reports from the bedside of E. R. Reeves of Jericho, at present at Mineral Wells, are not so favorable. Mr. Reeves has been sick for quite a long time, but not until recently was the illness considered serious. Mr. Reeves was carried to Mineral Wells the latter part of last week.

SOUTH BOUND TRAFFIC IS HELD UP BY BRIDGE LOSS

Twenty bents of the Denver bridge over the Canadian River near Tascosa were swept out Monday night of this week, resulting in the delay of all south bound trains originating to the north of Amarillo. Passenger service was especially noticeable in that the early morning train was several hours late after being forced to detour over the Rock Island by way of Tucuman and come in over the Rock Island. Traffic was resumed over the Canadian Tuesday and no further hitch is expected from this direction.

DELIVERY CAR IN ACCIDENT EARLY MONDAY

A delivery truck driven by Elmo Shoffitt was completely wrecked early Monday morning when it collided with the rear end of the Pampa mail truck. The mail car was standing in front of the Caraway Restaurant, ready to start on the early morning trip. Mr. Shoffitt was watching another car back out from the parking space and completely overlooked the mail car, hitting it squarely and completely demolishing the front part of the Ford he was driving. The car stood near the place of wrecking for two days and was removed to allow parking space. The mail car was undamaged.

SANTA CLAUS COMES TO THE STATE FAIR

Through the munificence of a philanthropic Dallas citizen, any child attending the State Fair of Texas on Saturday, Oct. 20, whether accompanied by parent or not, will be passed through the gates for a nickel and will be admitted to the Grand Stand, and to any of the shows or rides on the grounds for a nickel each, up to 6 o'clock p. m., according to Harry Olmsted, president of the State Fair.

Miss Mary Stocking, instructor in Pampa public schools, spent the week-end with her mother, Mrs. J. D. Stocking.

The friends of Miss Lela Mae Kerbow will be glad to learn that she is teaching in the Back School a short distance north of McLean.

REPUBLICANS SEE TEXAS VICTORY

As a result of Democratic revolt against Al Smith and Tammany Hall in Texas, these Republican leaders claim the Lone Star State. In the picture are Orville Bullington, state vice-chairman; R. B. Creager, national committeeman, and Eugene Nolte, state chairman.

ZEPPELIN LANDS MONDAY AFTER BREAKING RECORD

Lakehurst, N. J., Oct. 15.—The German Graf Zeppelin landed on American soil at 5:38 Monday afternoon, after a stormy journey of 111 hours and 46 minutes from Friedrichshafen.

At 5:35 the Zeppelin was over the mooring mast, a couple hundred feet above its lofty peak. A line was dropped to the waiting ground crew and the difficult business of mooring it some times taking hours to accomplish was begun.

What was thought to be an attempt to moor it to the mast, turned out to be a prelude to bringing it directly to the ground. This maneuver was quickly accomplished and the great ship was held steady on the earth by the landing crew of more than 500 men while others hung countless sand bags on the rails.

The dirigible spent more than four days getting here, dodging about over the sea to avoid storms and going far south of its intended course. It crossed the American shore line at Cape Charles, Va., Monday morning and continued here by way of Washington, Baltimore, Philadelphia and New York.

The Graf Zeppelin was the second airship to cross the ocean from Friedrichshafen, the navy dirigible Los Angeles having arrived four years ago today. The Los Angeles was crowded against the hangar's south wall Monday with two non-rigid blimps tucked under her tail, to make room for her big sister.

The Graf Zeppelin carried a crew of 40 men and 20 passengers, including one woman. It also brought a large consignment of mail.

The long, cool evenings are an inducement for reading. All the popular copyrighted at Stocking's Drug Store. (43c.)
