Heavy Showers Insure Donley's Crops

Lelia Lake Boy Winner Of State Grain Judging Meet

RAINS FALLING OVER COUNTY

RAINFALL OF NEAR HALF
INCH IN TOWN IS MORE
IN RURAL SECTIONS.

Rainfall that started with a hard shower accompanied by wind Tuesday evening of this week was followed Wednesday evening by a general rain that ranged from near a half inch in Clarendon to more than double this amount in other sections of the county. The first rain was confined almost entirely to the northeastern section of the county, starting in the Sunnyside community and extending to the river and a little past.

Showing the general trend of the rainfall in the county, Clarendon received .46 of an inch in the two rains that fell. Other communities varied in amount with Goldston and the R. O. Ranch and Van Eaton farms receiving the greatest registered amount of one and one-half inches. Jericho received approximately one inch. Ashtola and Lelia Lake each received from three-quarters to one inch while the Brice section and Bell's Ranch each report approximately one half inch. The Sunnyside section reports vary, some reports indicating a fall of an inch and a half. Some hail is reported near Lelia Lake but in small amounts not sufficient to do a great deal of damage.

The rainfall will be welcomed in all parts of the county although the general condition of the crops is better than it has ever been seen with a sixty day period of no rain ahead of it. The cotton has continued to grow and show no signs of being burned. The heavy rains in the spring put a thorough underground season and the tap roots of the cotton have done the rest to keep this staple product in first class condition.

In some sections the feed was showing some signs of suffering, especially the later planted products. Corn was probably the worst sufferer in this respect although the later crops in this respect were doing nicely and the rains received will insure a fine production in this crop. Farmers who have planted large acreage to watermelons were fearing that they would do little with their crops, but this rain will insure them a fair yield although it may be a little later than is usual with the bulk of this product.

Business men in the city have been hawailing the fact that the dry weather was affecting their receipts and will no longer have this to fear.

Misses Ida and Etta Harned left the fore part of this week for a marketing tour, in which they will purchase their stock for winter months. They are expected to return the fore part of next week.

BAPTISTS PLAN REVIVAL SERIES

SERVICES OF REV. D. H. HEARD OF BIG SPRING ARE SECURED FOR MEET.

Rev. S. R. McClung announced the fore part of this week that there would be a series of Revival Services held in the First Baptist Church of this city, starting with Sunday, August 18th. The meeting is planned to last for two weeks, possibly longer.

Rev. D. H. Heard of Big Spring, pastor of the First Baptist Church of that city has been secured to hold the series of services. Rev. Heard is one of the outstanding young pastors of this section of the state and has the distinction of being Vice President of the Texas Baptist Association. He is held to be one of the strongest and most outspoken and outstanding preachers of his age in the state.

The singing is to be directed by John C. Marshall, director of music at the First Baptist Church in Houston. Mr. Marshall will lead the singing of the congregation and will also render such special selections as may be called for during the series of meetings. He is a brother of Mrs. Fred Ballew of this city.

BURTON SAYS A WRONG IDEA OUT

CLARENDON JUNIOR COLLEGE WILL CONTINUE REGARDLESS OF ELECTION.

Regardless of the fact that there will be no county-wide election on the county junior college proposal for the present, Clarendon Municipal Junior College will continue to operate as in the past, and will open in all departments on Wednesday, Sept. 4th, as announced in the catalog.

Supt. Burton told a News representative this week that there seemed to be a wrong impression out over the county and here in Clarendon to the effect that since the board of education at Austin had failed to order the county-wide election petitioned for, that the Junior College would not be opened this fall. This is positively a mistaken idea.

The Junior College here is still authorized in its present form by the exception put into the state junior college law, and while no special tax may be levied without a duly authorized election, yet the school will be maintained and financed as before—by a tuition charge of one hundred dollars per student per school year.

A note from Supt. Marrs at Austin this week announced that the present state board had refused to authorize the election as prayed for in Donley County to determine whether or not the county should be created a Junior College district, so the leaders in the movement here have decided to await the passing out of the present state board and the installation of the new non-political state board on Oct. 3rd, next, when the petitions and details of the proposed county-wide junior college will be again presented for action.

Accordingly, if you hear anyone say that Clarendon Junior College will not open this fall as usual, just tell them they are in error and if they will be present on the morning of Wednesday, Sept. 4th, they will see the largest student body registered that the school here has ever had, since becoming a secular junior college.

REVIVAL CLOSES SUNDAY EVENING

FINAL DAY DESIGNATED AS FELLOWSHIP DAY. DINNER IN CHURCH.

The final day of the revival services conducted by Rev. John W. Tyndall in the First Christian Church is to be held Sunday, August 11th. The day has been set aside as Fellowship Day and those who attend are asked to bring their baskets and prepare for a big dinner in the basement of the church at the noon hour.

Attendance and interest have continued to grow in the services with the passing of each day. Rev. Tyndall is delivering a splendid series of discourses and his hearers are enthusiastic in their reception. The short discussions and explanations of the Book of Revelations held each evening after the close of the usual sermons are attracting wide attention and a large crowd always remains to hear this part of the service.

The subject for this evening has been announced as "Seven Bible Reasons for Divorce and Rights to Remarriage." This was first set for Wednesday evening, but was postponed until tonight on account of the small crowd on the original evening. Subjects for the remainder of the week have not been announced to date.

Rev. Perry is doing a fine work in leading the songs, his renditions being much enjoyed by all his hearers. The Junior choir is attracting special attention and many are more than pleased with the results obtained.

Morning services are continuing to be held in the church at 10:00 o'clock and the evening services are held in the tent on the Grammar school grounds at 8:15.

Mrs. and Mrs. Joe Cluck and little daughter, Virginia, have returned from a trip to Yellowstone Park.

MEADER FAMILY RETURNS FROM 3,000 MILE TRIP

Mr. and Mrs. J. A. Meaders and family and Misses Virginia and Jane Williams returned last Friday evening from a vacation trip that included a visit in the states of Georgia, Alabama, Tennessee and intermediate points. Mr. Meaders was planning to attend a reunion of his family, but the dates were such that he could not make the visit longer than it did. This was the first trip of the two Misses Williams from the state of Texas and they enjoyed the trip more than did the older members of the party. Mr. Meaders told of climbing the Blue Ridge mountains and of the beautiful scenery encountered on this particular trip. Mr. Meaders visited many of his relatives in Georgia and spent the greater part of his time in and near Atlanta.

Misses Lois and Wylfa Lee Alexander have returned from a visit to a sister in Crowell, Texas.

Miss Cecelia Atterberry and J. L. Bain of Pampa, were Sunday visitors here with relatives and friends.

INITIAL REPORT SAYS 15 MILLION

COTTON MARKET TAKES
DOWN TURN ON FIRST
GOVERNMENT REPORT.

The first government report for the current year of 1929 was received in Clarendon this morning by J. H. Morris over long distance from Memphis, where it was released. The report states that 86,970 bales have been ginned to date of the first report with ginning in full blast in all sections where the crop has progressed to harvest.

The crop condition is high, standing at 69.6 as compared to a normal crop. The yield per acre is reported to be a little higher also, being first estimated at 159.3 pounds.

The market was very active on the opening today, New York quoting 18.50 on October and 18.77 on December cotton. The New Orleans market was a little less with October standing at 18.41 and December at 18.62. Immediately on release of the government figures, the market took a bearish turn and dropped about 40 points on the receipt of the bulletin.

The initial estimate for the year's crop was issued at 15,543,000 bales, which is considerably more than was estimated for the last year's yield. The first report is subject to correction, based on weather and ginning conditions found over the cotton growing belts.

Mrs. J. W. Lyons of this city is in Wheeler for a visit in the home of her daughter, Mrs. Black.

BOY SCOUTS TO CAMP AT WARNER SUNDAY

Boy Scouts of the Southeast Panhandle Area will gather in Camp William Warner for their annual summer outing Sunday, August 11th. The camp period is divided into two groups, the first ending August 21st and the other ends on August 31st. Boys are privileged to attend either or both the periods, with the registration fees of \$7.50 for each of the ten day camps. Scout Executive Jolly states that registrations are coming in splendidly and that there will be a fine attendance of boys at the camp. The following boys will attend from Clarendon:

Kenneth Sherman, Homer and George Wayne Estlack, and Y. E. McAdams.

YARD CONTEST CLOSED TODAY

THIRD ANNUAL EVENT
CLOSES THIS AFTERNOON
WITH JUDGES REPORT.

The third annual yard contest for Clarendon closes this afternoon with the reports of the judges that have been secured through the efforts of the Chamber of Commerce. Twenty-two entries have been placed in the various classes and eight of these will receive appropriate prizes to show for the efforts that have put forth in keeping their yards in first class condition for the summer months.

The judging will be based on a score card having five divisions. Care of the yard comes in for the largest share of the card with 30 points to its credit. Permanence is classed as second with 25 points. General appearance of the yard has 20 points while arrangement has 15 points. The beauty of the yard comes in for the lowest classification with ten points. To score perfect in all of the three points would mean that the score would be one hundred per cent.

Prizes were selected some months past and were prominently displayed for a time in the windows of the H. C. Kerbow & Sons Hardware Store.

The class A group has been set down to receive a lawn mower and grass basket for first place winner; 50 feet of garden hose for second place and a jardiniere for the third place. This includes all front yards previously entered but not winning a prize.

In class B, 2 lawn chairs will be found as the first prize; two jardiniere as second place and a lawn sprinkler as third prize. This includes all front yards not previously entered in a contest of this nature.

The back yards are grouped in a single classification, both new and old entries being thrown together, regardless of whether they had entered a contest before this date or not. Two prizes are to be given in this class, a lawn chair being first and 50 feet of garden hose as the second prize.

A class is entered in the national contest, this being made up of all prize winners in previous contests. These will receive certificates of merit, as will all other entrants into the contest this year.

LOCALS WIN AM- ARILLO TOURNEY

TEAM CUP, ATTENDANCE
CUP, AND TROPHIES ARE
WON BY CLARENDON.

The Hillcroft Golf Club are the proud owners of two beautiful loving cups which were won the past Saturday and Sunday by local golfers at the Panhandle Open Championship Tournament, held on the Hillcroft Golf and Country Club course at Amarillo. Playing on a foreign course which was entirely new to most of the Clarendon players proved to be no hazard at all to the crack team sent from here. While most of the 200 entrants from Oklahoma, New Mexico, and Texas were having trouble with the new course and the wind and rain, the Hillcrofters showed they were masters of the game in all conditions. Led by Al Cooke and John Penel the entrants from here started off with a bang and clinched the team cup with the first day's play. The attendance cup was won after it was found that Clarendon with eleven players registered was the largest number from one club, not including the Amarillo clubs. Six other valuable trophies were awarded players from the local club, and much pride is being exhibited by the winners.

Those from the local golf club and their scores were: Al Cooke 317, John Penel, 323, W. A. Wilson, 329, Bennett Kerbow, withdrew, Sam Braswell, Jr., 350, Kenneth Kerbow, 346, Sam M. Braswell, withdrew, A. N. Wood, 361, R. C. Weatherly, 378, Tom Connolly, 374.

Cooke won a \$75.00 fishing tackle set for his prize, John Penel was awarded a magnificent leather golf bag, W. A. Wilson won a fitted traveling kit, K. W. Kerbow was awarded a pair of golf shoes, A. N. Wood won a combination desk set, and R. C. Weatherly won a gold golf ball.

Much praise was given to the Clarendon players, and hereafter they will be feared more than ever. Had the full strength of the Hillcroft players been there would have been no prizes at all left for the other contestants. Al Cooke was credited with the most remarkable shot of the entire tournament when he played the 13th hole (470 yards, par 5) in two strokes. His second shot was made from a distance of 250 yards from the club, and trickled in for the only "Golden Eagle" of the entire 72 hole play.

PAMPA BUS LINE ADDS NEW BUICK

One of the most comfortable automobiles on the market was placed on the Clarendon to Pampa bus line this morning, when the owner, W. C. Byrd, started the new 1930 Buick sedan on its initial trip to Pampa. Keeping pace with the growth of the bus line patronage, Mr. Byrd has gone to a great deal of expense in giving the passengers that must travel between the cities of Pampa and Clarendon the best in the way of comfortable transportation. This latest addition is the master six, seven passenger sedan and gives the line two new seven passenger Buick automobiles.

W. L. Crain was an Amarillo visitor Wednesday of this week.

WATER RULING IS TO BE ENFORCED

DELINQUENTS TO PAY FOR
CONNECTIONS IF AC-
COUNTS LAPSE.

Announcements issued from the City Water Works Tuesday afternoon of this week would indicate that this department is taking special pains to clear up a considerable list of delinquent water accounts. The letters mailed out were not intended to hit at any particular person or set of persons, but were merely issued to indicate that the ruling which has not been practiced for some months would be enforced following the tenth of this month.

The last month of July has set a new record for water consumption for the city of Clarendon. The water has been maintained at a level that gave an ample surplus at all times to meet the demands of the city and at the same time allow the users to water their grounds as the demand has arisen. The smaller pump that carries a stream of 160 gallons per minute to the mains is run steadily, requiring sixteen hours daily service during the past month. To this, the largest pump in the unit, with a capacity of 600 gallons per minute, has been added for some two to three hours daily to keep a standard level in the standpipe.

The receipts have shown to be the most satisfactory for the entire history of the water section as a separate department in the city's work. This has been done despite the fact that a low rate has been charged water consumers. This rate has enabled the users of water to keep their yards in splendid condition and at the same time keep their water from costing them a too great figure. The rate will remain in effect during August and September, the water used after the meter reading in September being charged out at the old rate.

The two wells of the city have shown no signs of being in their production standing steadily at 475 gallons per minute for both of them at one time. This is quite a bit more than is actually consumed and allows time for the piling up of a surplus for use in case of an emergency or a breakdown.

TROUBLESOME PROVES
FINE BATHING BEACH

When four newcomers to Clarendon visited for their first time the spot known as Troublesome canyon a short time past they were struck with the beauty of the spot and were so nearly overcome with the extreme heat that they thrust all caution to the winds and took their places underneath the cooling waters of the falls a-la-birthday clothes. The four boys failed to realize that others might visit these haunts and were enjoying the waters to the most when three carloads of visitors appeared on the scene and put them to rest. The boys indicate that wet clothes do not fit well at all when one is in a hurry.

Mr. and Mrs. J. D. Brouder and daughters, Josephine, Maud Estelle, Geraldine and Bessie will arrive Thursday evening for a visit with Mrs. Brouder's mother, Mrs. R. A. Chamberlain.

Rev. and Mrs. W. M. Murrell left today for a few weeks' vacation in Colorado. They will go to Colorado Springs as a general headquarters, making trips out from there to other points of interest.

GEORGE LOWE DIES IN STEPHENVILLE

SON OF LOCAL MERCHANT
DEAD FOLLOWING SUDDEN OPERATION.

Word reached Clarendon late Tuesday evening apprising S. W. Lowe of the serious condition of his son, George, who was then on his way from Lipan to Fort Worth for an operation for appendicitis. Mr. Lowe left immediately for that city and had reached Stephenville and the bedside of the boy when his death occurred. George, with his mother and brother, were visiting her parents and other relatives in that section of the state when he was taken ill and they were rushing him to Fort Worth when it was decided that an operation was imperative and the stop was made at Stephenville.

The body, accompanied by the parents of the boy, reached here on the noon train today and plans have been completed to have the funeral services in the Baptist Church tomorrow morning, Friday, August 9th, at 10:00 o'clock. Rev. S. R. McClung will conduct the last rites.

George was born in Clarendon on October 9th, 1921 and has made his life in Clarendon. He was aged 8 years, 8 months and 28 days at the time of his death. He was a bright youngster and was beloved by all who knew him.

He is survived by his parents, Mr. and Mrs. Sam Lowe of this city and one brother, Billie. His grandparents are Mr. and Mrs. W. T. Lowe of this city and Mr. and Mrs. J. W. Aiken of Lipan. Other relatives are Mrs. J. D. Farley, Melrose, New Mexico, Mrs. T. D. Thomason, San Francisco, California, Walter Lowe, Clarendon, Mrs. W. O. Bower and Mrs. Roy Broadway of Port Arthur, Fanny Lowe of Abilene, Oklahoma, Fred Lowe of San Antonio, Jessie Lowe of Claude and Mary Lowe of this city; Lucy Lee Aiken, Elon Aiken, Jim Aiken, Jack Aiken and Hayden Aiken. In addition to these there are many of this city and others who join with the bereaved family in their expressions of sympathy.

MASONS SCHOOL HAS FINE CROWD

LARGE ATTENDANCE HERE
FOR EXAMINATIONS TO
END TODAY.

W. S. Tate of the Committee on Work, from the Grand Lodge at Waco, is here today and worked with a large group of candidates for certificates in Masonic Lodge work. One of the largest groups that has ever been started through the work were heard yesterday and will complete their tasks today. Announcement of the presentation of certificates will be made at a later date.

Last year there was considered to be a large class in the work, but the attendance this year is greater than it has ever been before, both in number of candidates for possible honors and for visitors who are listening in on class. The following towns are represented in the candidate list: Memphis, Groom, Hedley, Turkey, Lamesa, Clarendon, Estelene, McLean, Shamrock, Wheeler, Wellington and Panhandle.

The following is a list of the men up for examination: A. G. Powell, H. B. McLean, N. W. Durham, A. J. Joyce, H. D. Stringer, H. B. Bryan, Jr., John Fraser, J. R. Cowan, W. C. Bridges, J. C. Cason, E. C. Sanders, Cliff Hinson, Elmer Palmer, Bennett Kerbow, A. M. Shelton, James F. Heasley, A. Monroe, Jr., S. N. Hall, I. M. Fulcher, J. M. Strong and O. F. Cannedy.

Visitors were here Wednesday as is shown herewith: H. E. Sherwood and A. E. Watson both from Wellington, D. H. Arnold, Memphis, F. B. Farley, Groom and G. S. Reeves and Jack Beck from Quail. These, with many others from the Clarendon Lodge, were in constant attendance during the sessions Wednesday.

Mr. and Mrs. W. B. Haile and family left Tuesday for a vacation to be spent in California, where they will visit a son and brother.

DONLEY TEAM IS HIGH IN STATE

TAKES EIGHTH PLACE IN
GRAIN AFTER DISQUALIFIED IN LIVESTOCK.

Originally planned to enter the livestock judging contests at the Short Course at A. & M. College, the judging team from Donley was disqualified when it was learned that one of the members of the team, Lowell Davis, had been in a similar event in 1924. The boys were rather crestfallen for a moment, but decided to enter the Grain judging as the only alternative left open to them. For three days prior to the contest, the team spent their spare moments in getting prepared for the event. When the final awards were made, it was learned that the team had scored eighth place in the state with the difference in points being not more than twenty-four between them and the high point winner in the state.

The great surprise came to the boys when they learned that a member of their team, Greer Cottingham of Lelia Lake, had taken first place in the grain judging in the state with a score of 276 points out of a possible 300 for perfect. The team was composed of Lowell Davis and Greer Cottingham with Edward Morton as alternate.

According to records of the Short Courses, this is the first time on record that a boys judging team has ever placed in the state where there was no County Agent to instruct them in the work. All due credit should be given to C. G. Stinson of Collingsworth County for the work done in assisting to prepare the boys for their part in the Short Course. The Donley County team was at first held up and were almost not allowed to enter until Mr. Stinson stepped into the breach and insisted on their being allowed to enter.

All of the boys are out of the Lelia Lake 4-H Club for Boys, this being the only organization of this nature in the county. Lowell Davis is the president of the club and has prepared a letter on the work of the boys at the Short Course. The letter is found in another part of the News.

EARL JONES RETURNED NIGHT FROM WEBSTER CITY, IOWA

Earl Jones returned Sunday night from Webster City, Iowa, where he has been in the employment of the Phillips Petroleum Company. Earl says things are fine in Iowa but he is glad to be back in Clarendon.

Chas. B. Trent left the latter part of last week for Palacios, in company with the Headquarters company of the 142nd Infantry. Mr. Trent will act in the capacity of Adjutant during the fifteen days camp that is now under way by the 36th Division of the Texas National Guard.

MARINE TEST IS COMPLETE TODAY

CONTRACT DEPTH COMPLETED THIS MORNING WITH HARD LIME SHOWING.

Messrs Smith and Downey, contractors on the Marine Oil Test, states late Wednesday evening they will contemplate their well this morning if nothing unforeseen interferes with their plans of the moment. Our statement of last week was in error on this matter and we hasten to state they lacked a margin of less than fifty feet at the time.

Their late string of casing has prevented further caves and the drilling is now proceeding in a hard sandy lime. The formation is of extreme hardness and little progress is being made in the short shifts working.

Future plans for the development of the well below the initial contract depth have not yet been announced although some of the men of the city are interested in extending the well to 4,500 foot depth or to production if such is found before the 4,500 foot level is encountered. Messrs Smith and Downey have not announced their plans following the close of their present contract.

PANHANDLE PRESS ASSOCIATION

Just a few weeks now until vacation time will be over and past, schools will have begun and the country will settle grimly to the harvest business of the fall. The golden Falls of the Panhandle are as cheering and joyous as Spring in other sections. And then, a busy people are always a happy people anyway.

Those citizens of Donley County who have expressed doubt as to the value of the home demonstration work will have ample opportunity to inspect the products of that work at the Donley County Club and Poultry Show which will be held in Clarendon, Sept. 18-19. The honest doubter will be able to convince himself. The others don't count.

Showers over the Panhandle indicate the arrival of the usual general rain about this time of year. Donley County crops are doing fine without the general rain but before many days will need the moisture if we are to have another bumper harvest this fall. Faith and works still go together on the farm as they do in religion and any other kind of business. The rains will come.

A daring editor in the Eastern States has entertained New York City and other centers by appearing on the streets and in hotel dining rooms attired in a suit of colorful silk pajamas. He argues that men are too tied down by custom in their dress and that common sense should have sway during the hot season of the year. Conventional man will be slow to take up appearing in public in his pajamas, which seems to us, a little in the extreme, but, really, there is something to the argument, and before many years we will likely have much lighter and cooler dress for the men. The women, of course, will take care of themselves when it comes to less and lighter clothing.

Occasionally you hear somebody say that the automobile is ruining the country, meaning that people are spending money for cars which should go for necessities of life, business expansion, better homes, etc. Very certain it is that some people act a fool about buying an automobile, like they do about a lot of other things, but the critic or pessimist who shouts about the automobile ruining the country is way off his base. The unprecedented and phenomenal growth and expansion of all lines of business and the country generally in these United States is beholden in a very large measure to the automobile and kindred lines of business. Take your own town, for instance—Eliminate all the automobile agencies, garages, tire and battery service stations, and see just what a hole would be knocked in your town, how many men would be out of a job and how much capital would be idle. No, the automobile is not ruining the country—some fools to the contrary, notwithstanding. The automobile is the greatest aid and ally of progress this nation ever saw.

LACK OF PAVED HIGHWAYS CITED AS POSSIBLE BAR TO COUNTY-WIDE COLLEGE

In a daily column, "Home Town Stuff," written by Editor Ray H. Nichols in the Vernon Daily Record, the denial of the petition of Donley County voters for an election on the county-wide college matter is discussed, and the probability of the lack of paved roads in the county is hinted at as one possible cause of the disapproval of the state board of education.

Be that as it may, we might well consider the transportation matter in conjunction with our future plans concerning the county college proposal, for transportation has become an important item of every activity in our domestic and educational relations. Read what the Record has to say:

"News dispatches from Austin say the State Board of Education had disapproved the proposal of Clarendon citizens to extend their junior college district so as to include all of Donley County. Just why has not been learned, but probably transportation was a factor. The matter of having a junior college supported by the entire county and its facilities available free to all high school graduates of the county has much to commend it. No doubt it will come as a logical development in our system of education.

"Our colleges and universities are over crowded with students. Something must be done about it, and present sentiment with regard to education will not permit a limitation of college privileges. We are committed to an ever-broadening system of education. Obviously, the present colleges can't take care of all who offer as students. So the junior college will doubtless prove a necessity. This arrangement will keep students at home for two years of their college work and will thus relieve the congestion in the institutions of higher learning. The Donley County plan sounds feasible, and there need be no discouragement over the decision of the State Board. Let Donley County build paved roads in order that students may easily reach the county seat, and approval of the proposition will come. This isn't the first time a board has decided against logical development.

These matters must inevitably suggest to the thoughtful citizen of Wilbarger County the possibility of having a junior college in Vernon at some time in the future, with the entire county as the supporting unit. Our road system, now well on its way to completion will remove one of the greatest objections to a county junior college."

LET 'EM SAY YOU'RE CRAZY, WHADDA YOU CARE?

"Since 1902," writes Dwight C. Rose, "savings banks and insurance companies have in the aggregate probably suffered greater loss through unsuccessful speculation on the trend of interest rates than through any other form of investment or speculation." In other words the financial wise-acres were 100 per cent off their trolleys twenty-seven years ago.

Every 15 years or so some new scientific truth appears and upsets half the accepted scientific truths, which drives the scientists cuckoo and gets their goat besides. And ever so often somebody discovers that for two centuries school-teaching has made less progress than tobacco-chewing, and the schoolmarms go wild when you remind them of it.

It just seems that everybody's more or less half-cracked, immature, unbalanced, provincial, one-sided, stupid, stolid, humdrum, prosy, flat and stale, heavy in the head. We all laughed out loud at the old Thorne and Simplex typesetting machines, and in turn at the linotype and monotype. We all used to give advertising the ha-ha. (We were so darned smart ourselves.) Think of pulling a carriage without a horse—ha-ha! Think of a flying machine—hee-hee!

So when somebody tells us we're still crazy, let's be broadminded. Let's answer, "Well, you can't hurt our feelings."—"Spinal Colyums."

The Town Doctor

(The Doctor of Towns)

DO NOT OVERLOOK THE LITTLE THINGS

To one who doesn't know, the little things done or left undone do not make any difference, but there are always those who do know, and they are usually the ones who count most.

It belittles a business, a town, or a person to overlook the little things.

Overlooking little things is one of the main factors that makes a small town small.

It is the little things that often make the difference between profit and loss in business, especially in dull times. With an individual, it is refinement, courtesy, cleanliness; with a store, it is stock arrangement, pleasing, efficient salespeople, tidiness, and atmosphere; with a town, it is clean streets, well kept lawns, traffic regulations and progressiveness of the citizens.

A party of tourists once stopped in a town of some three thousand population and inquired of a pedestrian, "Where is the business district?" The pedestrian was highly insulted and replied, "Straight ahead a mile and a half." He was insulted because it so happened he was in front of his own store which he advertised as "The center of things." A good joke on the tourists thought many who were told of it. But when the tourists got a mile and a half further on, they found nothing but country. It now develops the tourist was just a wee bit more than a mere traveler. The man and his family had decided to locate in a town in that section. Today, that man with a family of six has built a \$16,000, home on a half block purchased from the previous owner.

The most successful merchandising concerns in the country have built their business on courtesy, service and little things. Your town is a business, and courtesy and service extended by you to your neighbor and the potential customer of your community business will also build. Be funny, make wise cracks, fail to sell your community when you have the chance, and you will tear down.

When a merchant, an organization, or your newspaper does anything for your community, tell them about it, write them a letter, call them on the phone, or stop in and see them and express your appreciation. You get as much good out of anything they do for the community as they do. No one can do anything for the town but that you won't benefit. If you don't or won't do anything yourself, the least you can do is to thank those who are doing something through which you will benefit.

It is a little thing to do, but it will pay you a profit.

This Town Doctor article, one of a series of fifty-two, is published by The Clarendon News in co-operation with the Clarendon Lions Club.

MASONS REPORT FINE MEETING AT HEDLEY

When the Certificate Men's Association of the Masonic Lodge met Friday of last week in Hedley, they state that they had one of the best and most enjoyable meetings held this year. The attendance was fine and the interest shown was far above the average for any of the lodge events. The entire work was gone over from beginning to the end of this work and a great amount of good was done in the work. This meeting was especially enjoyed and was well attended due to the proximity to the Masonic School that will be held here this week. Clarendon was represented by W. H. Youngblood, Elmer Palmer and Homer Mulkey. They were joined here by Messrs Farley and Fraser from Groom, all making the trip together.

First Presbyterian Church

Robert S. McKee, Pastor.
Sunday School, 9:45 a. m.
Morning worship, 11 o'clock. The pastor has returned from his vacation. Sermon subject, "The Man by the Way."
Evening worship, 8:15 p. m. Subject of sermon, "Chasing Shadows."

A great meeting of the Elders and Deacons is called for Thursday night at 7:45.
The Circles of the Woman's Auxiliary will meet Wednesday, 3 p. m.

Mr. and Mrs. Roy Broadway of Port Arthur, Texas, announce the arrival of a son, Jerry Roy, on Saturday, August 3rd. Mrs. Broadway was formerly Miss Thelma Lowe.

Would You Sign The Following Agreement?

I guarantee to pay for any injuries that my automobile may cause, whether it be to a person, or to a man's property, real or personal, regardless of whether I am driving it, and regardless of whether I am in the car at the time of the accident.

In this I agree to pay all hospital bills, doctor bills, cost of judicial proceedings, lawyer's fees, and any other cost or expense, as well as any judgment, regardless of amount, that grows out of any injury produced by my car.

As a further guarantee to this contract I pledge as security all my real estate, chattels, and property of any kind which I now own; and I still further guarantee to the performance of this contract, all real estate, personal, chattels, and property of any kind, which I may hereafter acquire, accumulate, or possess.

This is really what you have agreed to do, when you own a car and do not have it insured. A public liability and property damage insurance policy written by us at a very nominal cost would eliminate the obligations imposed by such an agreement.

7,000 Miles Of Federal-Aid Highways Improved Last Year

During the fiscal year 1929, the Federal Government cooperated with the States in the improvement of 7,022 miles of Federal-aid highways, bringing the total mileage of the system improved with Federal aid to 78,096, according to figures of the Bureau of Public Roads of the United States Department of Agriculture. The year's mileage was improved in the 48 States and Hawaii by State highway departments working in cooperation with the Federal bureau. There are approximately 188,000 miles of main interstate and intercity highways in the Federal-aid system, of which the above mileage and approximately an equal mileage built by the States without Federal assistance is now improved.

The 7,022 miles improved include 1,056 miles of graded and drained earth roads, 563 miles of sand-clay, 1,293 miles of gravel roads, 189 miles of waterbound macadam, 728 miles of bituminous concrete pavements, 3,101 miles of Portland cement concrete pavement, and 48 miles paved with vitrified brick. Forty-four miles of bridges and approaches were also constructed.

In addition to the improved mileage, at the end of the year there were under construction with Federal aid 9,526 miles, of which 8,358 were undergoing initial improvement, and 1,168 were being given a higher type of surface than was provided in original construction. The estimated cost of the mileage under construction is \$238,158,495, which includes Federal funds in the sum of \$96,500,347.

At the end of the year there were also approved for initial construction, 1,833 miles of highways and a further 1,065 miles to receive a higher type of surface. The total cost of the approved mileage is estimated at \$61,500,674 to which Federal funds in the sum of \$24,137,546 have been allotted.

LATE LAW REQUIRES PERMIT TO CARRY LIVESTOCK

A recent enactment of the Legislature of the State of Texas has made it imperative that truck drivers and owners have written permits when they transport livestock, whether dead or alive, from one place to another. This action has become imperative due to the wholesale thievery that has become a general practice, resulting in many flocks being stolen and transported to distant points for resale. The law follows:

An act requiring drivers of trucks, automobiles and other vehicles to have and exhibit to peace officers upon demand written permit covering movements of live stock and domestic fowls contained therein or to make written statement in the absence of said permit, and providing penalties for failing to exhibit the same or to make said statement or for making false statement or having false or forged permit, and declaring an emergency.

Section 1. Any person who is the driver of any truck, automobile or other vehicle containing any livestock or domestic fowl which is upon or being driven upon any land of which said driver is not owner, lessee, renter, or tenant, or which is upon or being driven upon any highway, public street or thoroughfare, who fails to have in his possession and exhibit to any person or peace officer upon demand a written permit authorizing said movement, signed by the owner or caretaker of said livestock fowl or from the owner or any person in control of the land from which said driver began said movement shall be fined not less than \$25.00 nor more than \$200.00 for each head of livestock and each domestic fowl in said movement, unless said driver upon demand of any person or peace officer makes signs and delivers to said person or peace officer a written statement containing the information herein required to be included in permits. Said driver shall be fined not less than \$25.00 nor more than \$200.00 for each head of livestock and each domestic fowl in said movement which is not covered by all the following information. Name of place or origin, including names of ranch or other place; point or destination including name of ranch, market center, packing house or other place; number of livestock or fowls with description thereof, including kind, breed, color and also marks and brands if there would be any. Failure or refusal of such driver to exhibit to a person or peace officer said permit or to make said statement, shall constitute probable cause for any peace officer

to search said truck or vehicle to ascertain if it contains any stolen livestock or stolen domestic fowls and to detain said movement a reasonable length of time to ascertain whether any livestock or stolen fowls are contained therein.

Any driver who has in his possession any false or forged permit or who makes false written statement shall be fined not less than \$200.00 nor more than \$500.00 or he shall be imprisoned in the county jail not less than sixty (60) days nor more than six (6) months, or he shall be punished by both such fine and imprisonment. It is further provided that all provisions of this act shall apply to slaughtered livestock and domestic fowls and butchered portions thereof.

Section 2. The fact that there are numerous thefts of livestock and domestic fowls and that the said stolen livestock and fowls are being hauled in trucks, automobiles and other vehicles from ranches, pastures and premises along public roads, thoroughfares and highways and that there is no adequate law regulating movements of livestock by trucks, automobiles and other vehicles whereby such thefts may be prevented and detected creates an emergency, and so imperative public necessity exists that the constitutional rule requiring bill to be read on three several days be suspended, and the same is hereby suspended, and this act shall take effect and be in force as set out in its provisions from and after its passage and it is so enacted.

TOWN GETS RELIGERENT DUE TO HOT WEATHER

The weather is to get the blame for the late group of fisticuffs that have been engaged in here in the past few days. At least, this is what it is to be attributed to for few other causes may be located. Monday, the first of the engagements were noted on the corner of Kearney and First Streets Monday evening in the colored section of the city, one woman severely knifed another. The two men who engaged in the battle on the street were fined and set free. The offender in the colored case was installed in the county jail and will be held pending examination and action of the Grand Jury. The injured woman, although her throat was cut around, suffered only the loss of considerable blood and will probably recover shortly.

REV. SLOAN FEELS IT HIS DUTY TO SPEAK

WANTS OTHERS TO BENEFIT BY HIS EXPERIENCE—SUFFERED TEN YEARS AND ORGATONE RESTORED HIM TO HEALTH, SAYS BORGER EVANGELIST.

Reverend W. S. Sloan, independent evangelist of the Baptist Church, of 1337 E. 13th is still another minister whose deep sense of gratitude and desire to help others will not permit him to remain silent regarding the benefits he has derived from the use of Orgatone.

"Orgatone has not only relieved me of ten years' suffering," said Rev. Sloan, "but it hat built me up wonderfully. My stomach was in a very disordered condition could not eat without suffering great pain. My food felt like lead in my stomach and I would expel gas almost every breath. I was bilious and dizzy, and my head aches constantly. I was worn out all the time, and didn't seem to have any energy to feel like going about my work at all. My liver was inactive, and I was getting in a very serious condition

ADD SHEEP TO RAISE PROFITS

SHORT COURSE VISITORS TOLD OF BENEFITS OF SMALL FLOCK FOR FARM.

College Station, Texas, July 29.—When more farmers in Texas add a few sheep to their farming operations as well as the cow and the hen, Texas will have a more balanced system of farming, Ernest Gibbons, of the animal husbandry department, A. & M. College of Texas, told those in attendance at the beef cattle, sheep and goats section of the Farmers Short Course here. "No farm animal is capable of returning a greater net profit than sheep when given intelligent attention, nor of losing money faster when not properly handled," he said. Mr. Gibbons discussed "Sheep Breeding."

There are two phases of sheep production to be considered, the speaker pointed out in opening his discussion, range production and farm flock. Range production in Texas has changed much in the last twenty years, he went on to point out. "Production of sheep on the ranges of Texas is rapidly going through a transition period from production of a strictly fine wool type of sheep, as was the case some years ago, to the production of good mutton as well as fine fleece."

Touching on the farm flock phase of sheep raising, Mr. Gibbons said that many farms in the lime prairie section of Texas should add sheep to their system of farming. "A small farm flock brings in funds in the spring at a time when most farms have little or nothing to sell," he continued. "No farmer should stock too heavily on sheep, however, but rather should keep just enough to eat his surplus weeds and turn them into money.

and realized that something ought to be done.

"While talking with Mrs. Lawrence of 802 N. Polk Street, one day, she advised me to try Orgatone. It was a lucky day for me I did, as it is certainly a very wonderful medicine. My stomach disorders have been corrected and my gall bladder trouble has been relieved. The bilious and dizzy spells do not bother me any more. The gas formation does not trouble me as it did, and I certainly feel like a different person now. I can eat most anything without the least discomfort afterwards.

"It gives me pleasure to do what I can for my fellow man and as Orgatone has been such a great benefit to me, and to a number of my friends also, I recommend it to everybody. It is beyond me to endorse anything that is not of true value and I most sincerely give Orgatone my endorsement for it has worked remarkable in my case."

Genuine Orgatone is sold in Clarendon by Stocking's Drug Store who are direct laboratory agents.

There are 3,136 cities, towns and villages in Texas, with 92,500 business concerns of all kinds.

CITY SAVES MILLIONS BY EARLY PLANS

THROUGH PROGRESSIVE STREET WIDENING AKRON IS CREATING SPACE.

By E. E. Duffy

Milions of dollars will be saved American cities through the expedient of planning city improvements early. This is evidenced by the experience of Akron, Ohio, which through carefully contemplated and progressive street widening has already saved nearly \$2,000,000.

Ten years ago Akron adopted a street widening plan calling for the eventual widening of nearly 20 miles of streets. To have widened these thoroughfares outright would have been impossible, for the total cost would have been some \$20,000,000. The plan was adopted of establishing new set-back building lines so that as buildings became obsolete and were replaced, the new structures were erected ten feet or more back from the former building line.

The two million dollar saving made by Akron includes money saved through the avoidance of condemnation charges. Having saved this amount in ten years, the city is now going to spend roughly that amount in widening four and a half miles of an important artery.

E. A. Kemmler, chief engineer, bureau of highways, of Akron, points out that the fifty-year plan will be completed at a total cost less than half of the original estimate.

If motoring comfort is ever to be attained, planning must be done early. Motor car needs will certainly be no less ten years from now. The saturation point of

automobile ownership is not yet in sight—and if it were there is not a single town or city in the country that has anything like adequate facilities for the cars now within its gates.

As is shown in the case of Akron, the creation of automobile facilities can be made without straining the community's resources.

Sore Gums—Pyorrhea

Foul breath, loose teeth or sore gums are disgusting to behold, all will agree. Leto's Pyorrhea Remedy is highly recommended by leading dentists and never disappoints. Druggists return money if it fails. Clarendon Drug Store.

Scientists say that flies carry germs of typhoid fever, infantile paralysis, summer disorders and over thirty other diseases. Flies should be killed. REAL OPPORTUNITY FOR CLARENDON WOMEN

\$1250 OFFERED FOR BEST JAR OF CANNED FOOD IN NATIONAL CANNING CONTEST.

Just how good at Canning are Clarendon women and girls?

This question suggested itself today from an announcement in Chicago of a National Canning Contest to find the best jar of canned fruit, vegetables or meat in the country. Twelve hundred and fifty dollars (\$1250) in cold cash awaits the woman or girl in the United States whose entry is selected as the best jar of canned food entered in the contest.

The contest, which is sponsored by the Sears-Roebuck Agricultural Foundation, seeks to acquaint more housewives with the economy and healthfulness of home canned foods. For years the U. S. Department of Agriculture and home demonstration agents throughout the country have worked for increased production of native canned foods. It is to further this excellent idea and at the same time to help absorb the threatened surplus of farm products in many sections, that this canning project was conceived.

Two hundred and twenty-two cash prizes, totalling \$5,825, will be disbursed to the winners in the contest, which has three major divisions: fruit, vegetables and meat. The best entry in each division will be awarded \$250, and one of these will also receive the thousand dollar sweepstakes prize, thus bringing the total cash prize for the best jar of canned food in the contest to \$1,250. Second prize in each of the three divisions will be \$200, third prize \$100, and fourth prize, \$50. There will also be five prizes of \$25 each, ten prizes, \$50. There will also be five prizes of \$25 each, ten prizes of \$10 each and fifty prizes of \$5 each. In addition, a thousand dollars in cash will be awarded to the home demonstration agent whose county sends in the greatest number of entries, \$500 to the agent whose county has the next largest number of entries, and \$100 to the agent whose county sends in the third largest number of entries. A number of lesser merchandise prizes are also offered.

Contest closes October 15. According to the rules, the contest is open to every woman and girl in the United States. There are no restrictions as to the nature of the food sent; any fruit, vegetable or meat, whether home grown or purchased, as acceptable. Contestants may enter one, two or all three divisions. Entries, regardless of when canned, must not be sent in prior to August 15 nor later than October 1, which is the closing date of the contest. No entries will be returned, but instead these will be sent, with the name and address of the contestant, to an orphanage, hospital, infirmary or other charitable institution to be selected by the Foundation.

Specimens of canned fruits and vegetables in the contest will be judged on the basis of clearness, color, pack, neatness, flavor and texture. Meat specimens will be judged in their relation to pack, neatness, texture and flavor. There will be three judges, to be selected by the Foundation from a list of outstanding authorities on home economics, domestic science, and canned food. Their decision will be made known just as soon as possible after October 1.

Gives hints on Canning.

"Any method of canning may be used for this contest," announces Anne Williams, director of the contest. "The use of a steam pressure cooker, however, is highly recommended by canning experts and by the U. S. Department of Agriculture, especially in canning meats. Not only does this method of canning save time and fuel and assure absolute sterility and preservation, but food canned under pressure retains all its natural flavor and texture, which are vital points in any canning contest."

That the judging may be thoroughly impartial and the display of canned samples absolutely uniform, contestants are required to submit their entries in standard glass jars of the quart size. All contestants will be furnished with one Ball mason jar and carton for sending in a canned article, but those making entries in more than

one division are expected to supply their own jars and shipping cartons. The sample jar and prize entry labels for use in submitting entries may be secured without cost by communicating with the headquarters of the National Canning Contest, 925 S. Homan Ave., Chicago, Illinois.

HAD TO REMAIN INDOORS MONTHS

"Stomach trouble and indigestion had me in a terribly nervous run-down condition. I was so weak and worn out I would have to stay in the house for months at a time. Constipation was helping to make my life miserable and there were times when I didn't care whether I lived or died. A good friend of mine told me about Sargon and how much it helped her so I decided to try it.

"What a blessed relief it is to be free of the troubles that worried me for 12 long years. The Sargon treatment has literally made me feel like a new woman. My stomach is now in perfect condition, my appetite is fine and I eat just anything I want, without any ill effects. My nerves are back to normal and I sleep sound and get up feeling just fine. Sargon Soft Mass Pills ended my constipation without ever griping or nauseating me.

"I'm so happy over regaining my health that I'll be glad to tell anyone what Sargon has meant to me. Just have them phone 2-783 if they want to know what I think of this wonderful treatment."—Mrs. W. H. Higgins, 507 W. First St., Fort Worth.

Sargon represents the dawn of a new era in the field of modern medicine. It is turning old-fashioned moss-grown health theories upside down and is restoring countless thousands by methods undreamed of only a few years ago.

Douglas-Golston, Agents.

Cheese factories, requiring smaller volume of milk and having fewer transportation difficulties, can be profitably located in small or isolated communities in which a creamery could not be successfully located, according to H. L. Wilson of the U. S. Bureau of Dairy Industry. A cheese plant can be profitably operated on as little as 500 pounds of cheese a day, he says, which would require the milk from around 400 cows.

"UP IN THE AIR IN TEXAS"

By United Press

Aviation is booming in the town of Snyder, Texas, a town of 5,000 people which has an airport with a landing area of 3,000 acres, a hangar that will house six planes, an electric refueling pump, an administration office, plane supply room and a machine shop. A government license pilot is in charge of the field. A monoplane is used for commercial work, flying school and cross county hops.

Ten ships have already signed up to make the "oodwill" trip from Fort Worth to Sweetwater, Aug. 10, and 11, for the opening of Sweetwater's new airport. Prizes of \$15,000 will be awarded for various contests, races and stunts scheduled for the two day event. The tour which starts from Fort Worth will be made so that the planes will stop at Breckenridge and Stamford. The new Sweetwater field includes 260 acres and one hangar 118 by 100 feet in size. A \$20,000 inn is adjacent to the field.

T. F. (Uncle Tom) Blair, a resident of Alvarado, a pioneer resident of Johnson County is claiming the world's record for airplane flights for a man the age of 82 years. He has been aloft 63 times and delights in doing all the stunts known to the aviators. He is well known and a favorite among the fliers. He is hoping to be in one of the endurance flights or hop off on a voyage across the Atlantic.

The City Commission of San Benito has closed an agreement with L. C. Elliott, airways extension superintendent of the U. S. Department of Commerce whereby land will be furnished near that city for an emergency landing field to be developed, equipped and maintained by the government.

Aviation has a large part in the thoughts of Ranger citizens for

the present and future. It is the intention of the Chamber of Commerce there to continue to improve the airport from time to time to keep pace with aviation; to work in behalf of the designation of Ranger as an air mail stop and to establish here in the near future an aviation training school.

The popularity that aviation is gaining at the present time may be seen in the fact that in one day twenty-six planes, with crews of 28 and carrying 39 passengers arrived and departed at Meacham Field, Fort Worth.

A novel feature has been added to the already complete and thrilling program for the opening of the Sweetwater Municipal airport, Aug. 10 and 11. Earl Aken, one of the foremost glider men in the country will make four daily glider flights. The glider is a motorless plane designed and built by Aikin of Breckenridge, and is the only commercial glider in the state. It was the first glider to be registered by the Department of Commerce. He will attempt to make a new glider record on the 260 airport then.

E. G. "Swede" Rhenstron, operations manager, has recently been made chief of the technical staff and put in charge of all flying activities of the various divisions of the Southern Air Transport, Inc., at Fort Worth.

Rochester is seeing some road work done by the state highway department. Low places on the main thoroughfare which stood in water after every rain have been filled in. It is planned to fix other streets in the near future.

The Texas honey crop of 1928 was 6,000,000 pounds with honey valued at \$480,000 from an investment of \$1,247,430 in the 249,027 colonies of bees.

THE DOINGS OF THE DONLEY TEAM AT THE SHORT COURSE

The following letter was prepared by Lowell Davis, president of the 4-H Boys Club of Lelia Lake and will give the readers of the News some idea as to the great amount of work done by those in attendance on the meeting. The letter:

The judging team of the 4-H Club Boys of Donley County left Clarendon Saturday, July 29, for the Farmers Short Course at College Station. The team was composed of Greer Cottingham, Edward Morton and Lowell Davis, all of Lelia Lake. After arriving at College Station, it was learned that Lowell Davis was not eligible for the Dairy judging contest because of his judging at the Short Course in 1924. This baffled the boys only a few minutes. They were sent to the Short Course to work and were determined to fulfill this mission, so they entered the grain judging contest. The boys went to Judge Dairy Cattle and had not studied grain judging, but it was not too late to begin.

All of the Donley County boys were reported present at every tour made by the Club boys. They heard lectures on feeding hogs; chicken judging, grain judging, and breeding beef cattle and raising sheep. We made tours of dairy farms, beef cattle pastures and farms, hog ranch and sheep ranch and the horse barns. They were shown the best animals and the College farm. These things were highly instructive and very interesting.

Friday, August 2, the judging contests were held. Greer Cottingham and Lowell Davis composed the team with Edward Morton as alternate. Prizes were to be awarded at 5 o'clock Friday afternoon. We were all anxious to know who the winners would be and to our great joy it was awarded that Greer Cottingham of Donley County was first place in the state grain judging con-

test. He scored 276 points out of a possible 300 points. The team from Donley County won 8th place in the state grain judging contest and received honorable mention. Greer Cottingham received a beautiful gold medal on a blue ribbon. We were told after the contest that our team was the first to enter any state judging contest without a County agent to help and instruct its members and that is quite a record.

We want the people of Donley County that helped to send us to feel that they have part in winning that honor. We thank each and every one that helped us.

Yours,
President,
Lowell Davis.

W. C. ROUNTREE, M. D.

Mrs. Katie Carmel Stroud, Box 479, Pittsburg, Texas, whose picture appears here, writes: "In the Spring of 1927, my hands, arms and legs broke out with something and I went to see the doctor and he treated me for some time, but did not do me any good. A friend of mine told me about you and your wonderful treatment. I only took two treatments and haven't been bothered with that sickness any more. I can eat and drink anything I want and it does not hurt me. I wish everybody could know about your wonderful treatments and know what relief they would get after taking them."

A NEW SYMBOL OF A GREATER SERVICE

Two old established oil companies join forces better to serve their millions of customers

A STATEMENT

The consolidation of the Marland Companies and the Continental Oil Company has combined the producing, refining and marketing facilities of these widely known manufacturers and distributors of petroleum products.

The high standards of manufacture which have established and maintained the reputation of the high quality products heretofore sold under the Conoco and Red Triangle brands will be strictly maintained.

The same chemists and engineers, the same refineries and, above all, the same policies, will support the new trade mark "A new symbol of a greater service."

C. J. Marland CHAIRMAN OF THE BOARD
A. J. Moran PRESIDENT

Mr. and Mrs. Alton Meredith of Alanreed were visitors in the G. C. Meredith home of this place Saturday night and Sunday.

Fire of unknown origin destroyed the E. L. Mevis store at this place Saturday night about eleven o'clock. The Post Office was located in the building, also a line of groceries and automobile accessories and filling station. Lyle Beckwith now owner of this property was sleeping up stairs, and very narrowly escaped injury. Nothing was saved. This was one of the first buildings ever built in this little town.

SWEETWATER PLANNING FOR OPENING NEW AIRPORT

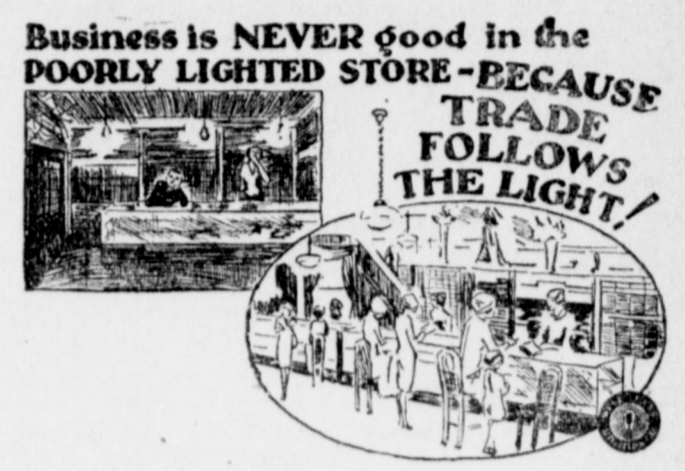

Sweetwater, Texas July 27—(UP)—Thrilling airplane races and stunts in which 200 or more planes will compete for \$1500 in prizes are included in the program of events in the International Openin- of the 260 acre Sweetwater Airport Saturday and Sunday Aug. 10 and 11, and will include nationally famous civilian, U. S. Army and Mexican Government fliers.

Plans are being made for a crowd of 25,000 to 30,000 people. Events for the two days will include contests in dead stick landing, balloon bursting and bombing and several types of races.

Earnest of the permanence of the dairy industry in Texas is seen in the fact that within recent months more than \$2,000,000 has been invested in dairy, milk and cheese plants. A new cheese plant is at the small town of Abernathy, Hale County, with a capacity of 1,000 pounds a day, and Denison, Wichita Falls, Denton, Valley Mills, Round Rock, Taylor and other points with several other Texas towns organizing or preparing to organize companies for cheese making. The Borden Milk plant at Waco, the Carnation plant at Schulenberg (with a second planned for Sulphur Springs) the new milk plants at Tyler, Sherman, Marshall and several other cities are also new factors in the dairy business in Texas.

Fifty important minerals exist in Texas, according to report of Dr. Henry Race Payne of the American Mining Congress. Very few of them have been commercially developed.

Hereford's Chamber of Commerce officials traveled 1200 miles in five days and visited seventeen towns and 15 counties, in securing \$4,500 for the Panhandle Plains, Inc., which will be used to advertise the opportunities that exist in the vast Panhandle Plains area for the farmer, homeseeker and investor.

Business is NEVER good in the POORLY LIGHTED STORE—BECAUSE TRADE FOLLOWS THE LIGHT!

Two stores, side by side... one is dull, dark and dismal, while the other is light, bright, cheerful, and business flourishing. One proprietor is plodding along, wondering why business comes so slowly... the other has increased his business considerably, because he has learned with proper lighting merchandise can be more easily displayed and chosen by those who enter his establishment.

Customers come and go... some may buy and some may not, yet an endless stream of prospective buyers flows into the store which is well lighted... easily and quickly merchandise is selected with the help of pleasant clerks.

Consult our illumination engineer... he will gladly help you solve your lighting problems... then more customers will come into YOUR store, for TRADE FOLLOWS THE LIGHT!

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs—once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs are the greatest of all system purifiers. Get a family package with full directions. Only 35 cts. at drugstores. (Adv.)

THE New BUICK

New FISHER styling in the most colorful and captivating motor car bodies of the year . . .

Reflecting the matchless genius of Fisher's artist-craftsmen, as well as the unparalleled resources of the Buick and Fisher organizations, the magnificent new Buick Bodies by Fisher incorporate beauty and charm obviously superior to any other car in the Buick field.

Longer—lower and more luxurious, these new bodies reveal entirely new harmony of color and grace of line. They are replete with extra features of utility, luxury and convenience, including new Non-Glare Windshield for safe night driving—new and richer upholstery—new fittings and appointments of princely luxury.

In addition, this new Buick embodies other wonderful new elements of value—a new and mightier valve-in-head engine—new Controlled Servo Enclosed Brakes—four new double-acting Lovejoy Duo-draulic Shock Absorbers, and new longer rear springs, new frictionless steering gear and new Steering Shock Eliminator.

And what is more, this new Buick, with all of these vital superiorities, is offered at new low prices—prices that make Buick for 1930 the greatest value Buick has ever offered in 26 years of building extra value into each series of Buick cars!

UNTIE THE KNOT

As so aptly brought out in an advertisement of this community shown on another page of this issue, and sponsored by the leading business men—Credit is the magic word which will untie the knot which ties so many hands, limiting their production and their possibility of pleasures.

Keeping a good credit standing is as well within the reach of the lowest wage earner, as it is within the means of the biggest capitalist. Without credit, few of the mighty activities of the nation could exist. That they do thrive and prosper is due to the fact that they have maintained a good credit rating.

Paying bills promptly is but one essential—keeping your promise, one of the big things. If you owe a man money and cannot pay it when promised, go to him and tell him so. In our own experience we have learned that most every creditor is willing to meet you more than half way. But let us not preach.

For the good of each and everyone in the community, for the good of the community itself, we should use every effort to keep our credit rating gilt edge.

It may prove one of the most valued of our possessions in time of need.

Society

Circle No. 3 of Methodist Missionary Society Entertains

Circle No. 3 of the Methodist Missionary Society entertained the other Circles and ladies of the Church at the home of Mrs. W. A. Sorelle last Thursday afternoon.

A profusion of garden flowers and ferns made a beautiful setting for the occasion, with six members and one visitor present. The small attendance was due to the extreme heat and also to the fact that a number of the members are away on their vacations.

The rooms in which the session was held were made charming with garden flowers.

Home Economics Club

The Home Economics Club met in the home of Mrs. Edgington last Friday afternoon with six members and one visitor present. The small attendance was due to the extreme heat and also to the fact that a number of the members are away on their vacations.

The rooms in which the session was held were made charming with garden flowers.

After the business session a social hour was enjoyed during which delicious ice cream and cake were enjoyed.

Needle Club

Members of the Thursday Needle Club and a few friends were delightfully entertained Thursday afternoon by Mrs. R. A. Chamberlain at her home.

Garden flowers were used in every vantage place and lent a charm to the rooms.

The afternoon was spent in needle work and conversation.

Leaguers Enjoy Picnic

The members of the Senior League of the Methodist Church took themselves to automobiles Monday afternoon of this week and headed toward the McAdams

FISH STORIES ARE TOLD AT LION MEET

RETURNING VACATIONERS HAVE MANY AND VARIED STORIES TO TELL OF FISH

Lions returned from their vacation added much to the spice of the luncheon of the club Tuesday of this week. Their many and varied stories told of the fish that got away added merriment to the occasion. Lions Kemp, Allison, McKee and Noble are those who enjoyed a vacation, Lion Noble stating that he saw it rain while he was out of the city.

Visitors for the occasion included Robert Armstrong of Cleburne, and J. E. Watson of Hobart, Oklahoma. Each of them expressed their pleasure at being with the Lions on this occasion.

The case of M. J. Bonham was reported as progressing nicely. He was returned to his home in Pampa after his last stay in the hospital in Amarillo and the doctors are well pleased with the results they have obtained in getting him fitted with eyes that can fulfill their specified tasks.

Miss Eunice Johnson as the guest of the day rendered a splendid reading that was more than enjoyed by the Lions and their visitors. Miss Eunice read a one-act play and was invited to utilize every opportunity to return and visit the club whenever it was possible.

Lion Mulkey announced the services that are being held by Rev. Tyndall and invited the Lions to attend when they could.

A letter addressed to the club was read by the secretary. The letter was received from Evelyn Patman Price and was to acknowledge the receipt of flowers placed in her room on her arrival in the city. Lion Patman also expressed the appreciation of himself and Mrs. Patman.

Adjournment was had in the usual manner.

tors were then treated to refreshments consisting of iced watermelon and cantelope.

Those enjoying this happy reunion were: W. J. Jones and family, and E. W. Chenault and family of Lelia Lake; J. J. Thurman of Temple, Oklahoma; C. E. Stillwell and family of Memphis; and Mr. and Mrs. F. E. Caraway, B. F. Smith and family, Mr. and Mrs. W. T. Smith and family, Mr. and Mrs. C. E. Lindsey and family and Mr. and Mrs. Allen Townsend of Clarendon. Others were: Mr. and Mrs. Robert Bowman of Chillicothe; Mr. and Mrs. George Stillwell of Bellview; Mr. and Mrs. A. O. Hott, Mr. and Mrs. S. B. Chenault, J. E. Chenault, E. W. Lovelady and family, and T. W. Trusdell.

PORTER RETURNS FROM RESERVE OFFICERS CAMP

J. R. Porter returned Sunday from San Antonio, where he has been stationed since July 21 at the Reserve Officers Training Camp, held at Camp Travis. The training was for the 357th and 358th Regiments of the Infantry, two regiments of the 90th Division. 300 Reserve officers were present at the camp. 358th Regiment was of the 9th Infantry of the 2nd Division and the 357th Regiment was of the 23rd Infantry of the 2nd Division.

The course consisted of offensive and defensive warfare by actual combat on the Camp Travis field. Each reserve officer was given command as though under actual conditions of war. These commands were coached by regular army officers of the same rank and grade. Training was given in general staff work, field staff work, actual command of infantry companies, communication officer work, and instruction was given in machine gun, howitzers, airplane bombing parties, observation, and other sections of modern warfare. All of these places were filled with reserve officers.

Judge Porter was First Lieutenant, Headquarters Company of Third Brigade, with special assignment as Adjutant of the Brigade. He said that this camp was different from any that he has taken part in before in that he always had a horse at his command, and a great deal of the time he was doing observation work from the air. Another interesting experience related by Judge Porter to a News representative, was that of a ride in an army tank. He said that the driver pointed to a ten inch tree on the field and as they neared the object, he braced himself and ducked his head for the impact, but to his surprise there was not the slightest jar, after that the trip was thoroughly enjoyed.

The ride was ended he asked what the dents in the armor were caused from. He was told that they were from machine bullets and other small field guns, and the invitation was given Lieutenant Porter to again board the tank and they would proceed to the range and let the gunners take a few shots at them. At this kind invitation Judge Porter most graciously refused.

Intermediate B. Y. P. U.

The cross or the crescent— which? Silent prayer—For our Missions in Africa. Song—Send the light. Scripture—Psalm 115:1-9—Marie Cauthen.

DONLEY CLUB GIRLS ENJOY SHORT COURSE

Although the Club Girls from Donley County failed to place in the clothing contest staged at the A. & M. Short Course at College Station, much good was derived from the trip and all who were in attendance received a great help. There were over 800 girls in attendance and the meet was run with all the smoothness that was expected. The Donley County girls were housed in West Bizzell Hall and were chaperoned by Minnie Mae Grubbs, district Home Demonstrator.

One of the most enjoyed occasions of the whole course was the inspirational meeting which was had each morning before the day's work was started. Here the boys and girls met and listened to suggestions more than ever since their return to their homes and are even now planning better and more thorough work for the coming year.

Many interesting and instructive talks and lectures were given the visitors on every phase of work entered into by the demonstration clubs. All the members from Donley County are enthusiastic more than ever since their return to their homes and are even now planning better and more thorough work for the coming year.

Mrs. Della Sue and children. (32pd.)

DIRT IS BROKEN FOR NEW BUILDING

EXCAVATION STARTED FOR BASEMENT OF NEW LATHSON BUSINESS HOUSE.

The first work was started the latter part of last week on the basement that is to be under the back portion of the Lathson building at the intersection of Kearney and Second streets. This work is being done as a preliminary to the construction of the building on this site and will not hinder the use of the church building until the new home of the Presbyterians is completed and ready for use.

The two homes being erected by Walter Wilson are showing up in good form, with the foundations already in shape and the framework being raised to allow for the other construction to go forward. The site of the two homes is being raised by the ar-dition of many loads of dirt and will be terraced to prevent any entrance by possible flood waters from the rains that sometimes overflow the site.

The Presbyterian Church is nearing the state that will make it one of the prettiest church buildings in the city. A crew of workmen are busily engaged in getting the interior in shape for final touches of the decorators and the congregation is assured that they will be using this place of worship by the first of September as was originally planned.

Other homes in the city are moving forward and all of them will be ready for occupancy by the opening of the Fall and Winter months. Others are being planned and the peak will probably be seen in the fall months of the year.

In Appreciation

We wish to express our sincere thanks and appreciation to our many friends for their kindness shown us during the illness and death of our father, May God's blessings be with you all forever, is our wish.
Mr. and Mrs. Will Lott,
Mr. and Mrs. J. R. Cole,
Mr. and Mrs. J. W. Cole,
Mr. and Mrs. N. B. Cole,
Mr. and Mrs. Ed Cole.

CLARENDON LEGIONNAIRES ATTEND DISTRICT MEETING

The meeting of the Eighteenth District of the American Legion was held last Sunday in the Hilton Hotel with nine posts represented, covering an area from Childress on the east to Levelland on the west and Lubbock on the South to Pampa on the North. The purpose of the meeting was primarily to discuss the possible division of the district into smaller bodies with the idea in view of creating more interest in the work of the body by more frequent meetings and smaller distances to be traveled. A committee was named at the meeting in June in Amarillo to effect plans for this division and their report was heard at that time. Clarendon was placed in the North district, or Group "A," including all counties of the Panhandle North of the line south Donley County. A committee was named to formulate a constitution and By-Laws for the district and temporary By-Laws committee to work with H. S. Hilburn of Plainview and C. G. Spears of Childress. He was also named chairman of the District "A" to effect a permanent organization of the body.
Ralph Andis and Loyd Stallines made the trip to Plainview and were accompanied by Messrs. Ralph Andis and Mae Womack, and Mae Womack.

Mr. and Mrs. Rhea Couch and Truett McClure left Sunday for a vacation trip that carried them through the Carlsbad Caverns, to Roswell, El Paso and other points of interest.

Mrs. H. E. Westmoreland and children of Amarillo, returned to their home in Amarillo last Thursday after a visit here of some time in the home of Mr. and Mrs. Tom F. Connally. They were taken to Amarillo by Mr. Connally.

Mr. and Mrs. Joe Cannon left Wednesday morning of this week for Vernon, where they will visit in the home of the parents of Mrs. Cannon, later going on to Fort Worth and other points in that section of the state.

Mrs. J. T. Patman and daughter, Mrs. W. H. Price, returned the early part of this week from Dallas, where Mrs. Price has been for the past several weeks in Baylor Hospital. Mrs. Price is reported to be much improved and is rapidly regaining her strength.

Howard Stewart of the First National Bank force is enjoying his vacation on the farm of his father, H. M. Stewart, while his parents and the remainder of the family take a big vacation trip to their old home in Mississippi.

Misses Helen, Rhoda and Julia Wiedman and Mrs. G. W. Hardisty left Monday morning for a three weeks vacation trip to California and points in that direction. They were accompanied by Charles Carlson, who will do the driving of the car on the trip.

Mr. and Mrs. Frank Ferguson and Mr. and Mrs. H. J. Edington returned Wednesday noon from a trip the fore part of the week that included Silverton, Sudan and Canyon. They report having missed all the mud occasioned by the rain which fell here Tuesday night.

GIRLS WARNED OF IMPROPER WAYS

WEARING OF CLOTHES DEPENDS ON BODY BEHIND DRESS. HABITS HELP.

College Station, Texas, July 31—One of the worst enemies to a girl's complexion and beauty is the cigaret and cocktail habit, Mrs. Erichel S. Records, of Fort Worth, declared in discussing the "Foundation of Beauty" before the girls section of the Farmers Short Course at the A. & M. College of Texas.
"A recent magazine of beauty culture, stressing the fact that it was not dealing with the moral phase of it, warned its readers under the heading, 'The Deadly Cocktail,' of the ravages wrought to the most enchanting complexion by the continued use of such poison," the speaker added.

The keynote of modern beauty is naturalness based on the ideal of a sound mind in a sound body, Mrs. Records went on to say. "The expression, 'the picture of health,' is truer than we sometimes realize, for no one can be truly beautiful without a foundation of abounding good health. If we fail to exercise daily, we grow fat, old, stiff, ungraceful and become victims of various organic diseases."

Deep breathing is a very necessary thing, Mrs. Records pointed out, since it purifies the blood, speeds up circulation, soothes the nerves, prevents colds and helps make one immune to infection. "A sigh, indicates that the blood is starving for oxygen."
Water in abundance, plenty of rest, right eating, and plenty of exercise were cited as necessary health builders and in turn beauty builders. "Do not overeat," she advised. "Some one says overeating was the original sin that Eve ate Adam out of house and home."

Messrs Earl Naylor, Elbon Naylor, and Macklin Butler spent last Monday and Tuesday at Stratford and Pampa.

M. T. Howard, who injured his knee a short time past when a horse fell on it, is reported to be improving to some extent in Amarillo, where he went to secure attention to the injured member.

Mr. and Mrs. Durwood Skelton spent the week end at Miami, returning Sunday evening.

Miss Katherine Patrick has recovered to a sufficient extent that she is taking up light duties about the First National Bank. Her regular duties in this connection will not be taken up until the first of September.

Mrs. J. M. Ozier of Temple is here for a visit in the home of her sister, Mrs. Cal Merchant.

Did You Ever Stop to Think?

By Edson R. Waite, Shawnee, Okla.

The development of the shipping business of the port of Los Angeles is amazing to the man who visits Los Angeles only every few years. With the same team work, breadth of vision and enterprise which these people have shown in the building up of their tourist business and the development of their industries, they have brought their port from obscurity to the very front ranks of the ports of the United States in ten years.

The number of tourists visiting Southern California is constantly offering increased attractions in the form of the best facilities for visiting the major points of interest in the West with Los Angeles as the logical center.

As an example of this, six years ago practically annexed the Hawaiian Islands, which are situated 2100 miles out in the mid-Pacific. This last development was made by the Los Angeles Steamship Company, which also owns and operates the very popular coastwise steamships, Yale and Harvard in regular service between the coast ports of San Francisco, Los Angeles and San Diego.

The management of this company claimed that there was much in common between Hawaii and Southern California and that vis-

itors to Southern California would be glad to add the romance and charm of Hawaii to the other attractions of a Southern California trip. Therefore they built up a fleet of ocean liners providing a sailing every week to Honolulu direct from Los Angeles and are now carrying upwards of 10,000 people in each direction each year.

Southern California friends of mine tell me that the great ocean liners, "City of Los Angeles" and "City of Honolulu", which head the Lasso fleet in service between Los Angeles and Hawaii, are recognized as the finest and most luxuriously equipped passenger lines on the Pacific. Some idea of their luxury can perhaps be gathered from the fact that nearly all the staterooms of these ships are outside rooms equipped with beds and that two-thirds of the rooms have baths adjoining—a degree of luxury not even found on big Atlantic liners.

I also learn that the Gods Have Favored Los Angeles in This Ocean Travel Matter as They Have in Many Other Ways. For Mariners Claim That the Southern Route Traveled by Ships From Los Angeles to Hawaii is the Smoothest Lane of Travel in all the Seven Seas, and As a Consequence This Has Become The Preferred Route by Travelers From All Over the United States.

TALES OF BANDITRY ADD COLOR TO RABBIT HUNT

When a group of men from Clarendon started out Monday afternoon of this week toward the river for a rabbit hunt and stopped just this side of the river for the first trial of their sport, they had little idea of what the results would be. Simultaneously with the passing of another car the first bunny was spotted and two of the party let go, completely killing the unmindful hare and frightening the occupants of the passing car into believing they were the victims of bandits of the worst sort. Topping a hill a short distance away they stopped and examined their car for evidences of shots, but could find none. They warned a passing truck and made their way to town and sent sheriff Mosely and his deputy to the scene of the supposed hold up. Adding to the plausibility of the story, another car passed the spot shortly after the two shots and seeing the hunters, stopped to converse with them. The first car saw this and presumed the bandits were doing a wholesale business and made them speed more furiously into the city. The sheriff's department reports that there were no traces of bandits when they arrived on the scene of supposed action.

Mr. and Mrs. H. J. Edington left Monday for Sudan, where they will visit their son.

DON'T suffer headaches, or any of those pains that Bayer Aspirin can end in a hurry! Physicians prescribe it, and approve its free use, for it does not affect the heart. Every druggist has it, but don't fail to ask the druggist for Bayer. And don't take any but the box that says Bayer, with the word *genuine* printed in red:

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

CARE OF MILK AIDS SALE OF PRODUCT

COOLING TO PROPER TEMPERATURE AND CORRECT HANDLING HELPS SALES.

College Station, Texas, Aug. 1.—Increased consumption of dairy products depends very largely on producing a better quality product which the consumer will find more appetizing. Charles N. Sheppardson, head of the husbandry department, A. & M. College of Texas, pointed out in an address before the dairy division of the Farmers Short Course here Thursday. "It is to the producer that we must turn not only to improve the quality of the finished product, but to help eliminate some of the loss that he sustains at present, due to poor grade milk and cream," he said. "Two things are involved in producing clean milk, the speaker pointed out. The first consideration is the equipment. A strong, well-built barn should be provided with a separate room for the handling of the milk. The utensils should be of good quality and free from cracks, seams or other flaws that make them hard to clean. An adequate cooling system is the tubular cooler with circulating

water or brine, or if this is not available the producer will find the conical cooler with ice water in the center a very satisfactory method.

"The best equipment available is not a guarantee of clean milk if the operator is not careful in his methods," Mr. Sheppardson said the four important sources of dirt and contamination of milk to be considered are: The man, the cow, the utensil and the barn and corrals. Negligence in regard to one of these points may be the cause of sour cream and milk and failure in the dairy business. Sterilization may be either by the use of some chemical disinfectant in the rinse water or by heat. A better method is to steam the utensils. In cleansing utensils, dish rags should not be used because of the difficulty of keeping them clean and free from odors. The brush and plenty of good dairy washing powder is suggested as satisfactory method of cutting the film of casein from the utensils.

Milk should be cooled as soon as possible to 50 degrees or lower and if it must be sent out on the road for the milk truck, it can be kept fairly cool by placing it under a shade with wet rags around it.

The 1929 commercial tomato crop of Texas brought an estimated return of \$3,500,000 more than twice the value of the 1928 crop.

Outstanding, by Any Measure of Value

\$855

(Two door Sedan at factory, special equipment extra)

BECAUSE it represents our earnest endeavor to give you more than an average dollar's worth of real value for every dollar invested—we ask you to make a critical inspection of Model 612 before selecting any car in or near its price class.

Lift the hood and see the big 62 horsepower motor with a seven-bearing crankshaft. Not only in the motor, but all through the 612 (which weighs 3,125 pounds, ready for the road) you will find extra size, extra weight, and extra strength. Experience has convinced us that every pound of this greater weight is essential to fine performance, comfort, long life and safety.

The four wheel hydraulic, internal expanding brakes are larger than usual in a car at this price, and fully protected from dirt and water. Service and emergency brakes are entirely separate—to provide the safety to which we believe every motor car buyer is entitled.

Examine the 612, the completeness of its equipment and appointments—then make your own comparisons.

PLACE OF HOME IS GREATLY STRESSED

CITIZENSHIP IS BUILT IN HOMES AND THEY ARE JUDGED BY RESULTS.

College Station, Texas, July 30.—The home, like any other productive enterprise, must be judged by its product—citizenship, according to Miss Bess M. Rowe of The Farmers Wife, national farm women's magazine of St. Paul, Minnesota, who spoke on "The measure of a Home" before the homemaking division at the Farmers Short Course, A. & M. College of Texas, Tuesday. "Any home is successful in just the degree that it produces good citizens," she said. Good citizens she defined as men and women who have the qualities of physical fitness, mental alertness, economic efficiency, social consciousness and spiritual poise.

"We are coming into an age where the standard of health is positive. The most important factors that make for physical well-being are proper food, plenty of rest taken at regular hours, and plenty of sunshine. "The greatest need of the world today is thinking men and women. This is a responsibility that must be shared by the home and the school. Children should learn in the home the value of money, what it means to earn, so that they will realize that money is human life and human effort transmitted into a temporary medium of exchange. "High cost of living has brought on an era of small homes, "the speaker said. "But," she added, "however small the home may be, men and women develop from their share of responsibility in it during childhood—the responsibility that comes with a private possession, social relationship and the peace of spiritual poise. "Children will remember the things you do with them, when they have long forgotten the things you did for them," she concluded.

NAYLOR

Dick Tidrow, a brother to A. E. and niece, Miss Ruby Conely, of Cooper, are visiting Mr. and Mrs. A. E. Tidrow. Mrs. Downing and family and Hatties Scott and family, also Mr. Ford and family are attending the Revival at Hedley. Mrs. Fanny Naylor and daughter, Miss Minnie, are in Amarillo this week visiting relatives. Mr. and Mrs. T. L. Naylor are now enjoying a vacation in the mountains of New Mexico. Mr. and Mrs. W. H. Patrick and niece, Kattie Carrol, were visitors in the home of Mr. and Mrs. Rich Bowlin Sunday. Misses Rachel and Louise Tidrow spent the week end with friends at Memphis. Mr. and Mrs. Arthur Carnes and Mr. and Mrs. A. E. Tidrow were visitors in the home of Mr. and Mrs. Byron Alexander over on White flat. Rhea Bowlin this week is at work on his new house. When finished with will be a nice 5-room brick. Naylor is proud to see such nice homes being built. We are glad to note that Mr. Morrison is at home again, being for the past week in a hospital at Memphis. He is doing nicely and we hope will soon be himself. Mrs. A. O. Hefner and son, Ray, left Tuesday for the mountains of New Mexico.

Those present were: Mary and Jane Williams, Sylvia and Sylvester Cook, Harold and Joe Smith, Gladys, Harlin Jr., Davis, Imogene and Lucille Mayo, Joe Lee, and Billie Louise Humphrey, Ruby Lee Cannon, Roger and Cymantha Hester. Mrs. John Watts and Miss Ola

FORMER CLARENDON MAN BURIED IN CHILLICOTHE

The following is an account of the life and burial of J. B. Lloyd, a former resident of this city. The item is clipped from the Chillicothe Valley News. Funeral services for James Bailey Lloyd, 54, were held at the First Church of Christ last Friday at three-thirty o'clock, Elder A. F. Thurman, officiating. Interment was made in the Chillicothe Cemetery. Mr. Lloyd was one of the pioneers of Hardeman county, while being born in Fannin County April 26th, 1854, coming to this county in 1903. Previous to his coming to Hardeman county, however, he was married to Rebecca Hatcher, December 2nd, 1878 and unto this union fourteen children were born, nine surviving. Upon his moving to Hardeman county Mr. Lloyd entered the real estate business being associated with J. L. Randel, father of Chillicothe's former mayor, for a

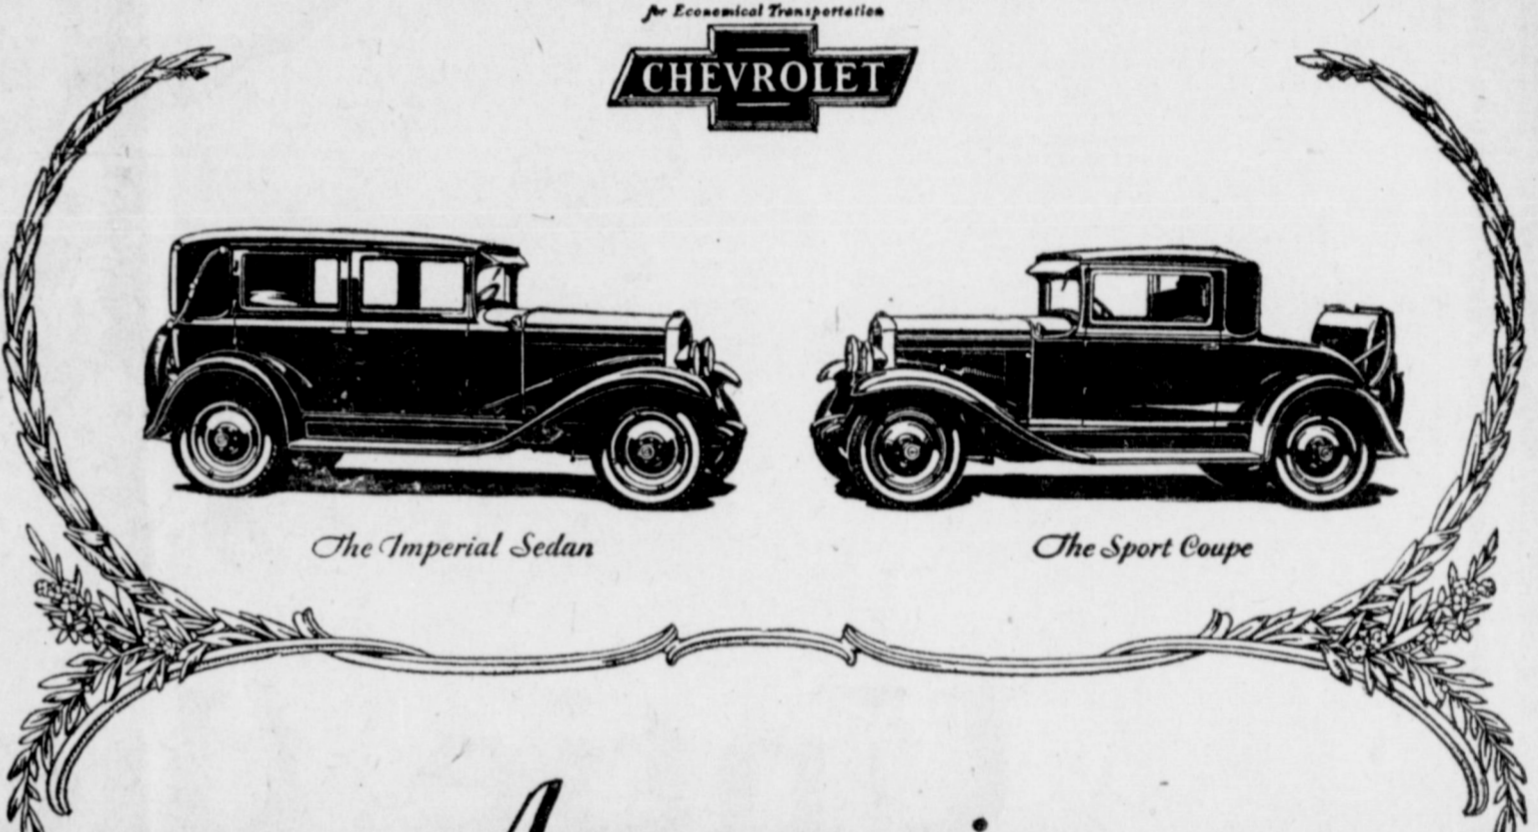

time while a resident here. He was city marshal at one time and served in other capacities as peace officer. His efforts toward the up-building of Chillicothe deserve no little mention. To those pioneers they will doubtless remember him better as "Jim" Lloyd. He is survived by his wife, Rebecca Lloyd of Hastings Okla., seven daughters, Mrs. S. W. Camp of Hastings, Okla., Mrs. J. C. Shield, Clinton, Okla., Mrs. T. W. Welch, Clarendon; Mrs. R. C. Shield Chickasha, Okla.; Mrs. T. G. Pierce, Oklahoma City, Okla.; Mrs. J. K. Wright, Altus, Okla.; Miss Lorena Lloyd, Altus, Okla.; a daughter-in-law, Mrs. Earl Lloyd, Electra. Two sons, Jack and Robert Lloyd of Chickasha, Okla., three brothers, C. L. Lloyd of Childress, Dr. Sam Lloyd, Hugo, Okla.; Jasper Lloyd, Dallas; also one sister, Mrs. A. Plamp, Childress, and leaves to mourn, also twenty grand children and one great granddaughter. Texas continues to lead in new railroad building, which is at a standstill in most of the States. A new project to begin at once and to be completed by Dec. 1, 1930, is an 86-mile extension by the Orient from Alpine to Presidio and a 65-mile extension from San Angelo to Sonora.

Did You Ever Stop to Think?

By Edson R. Waite, Shawnee, Okla.

I am now firmly convinced that every person should be reintroduced to their own home town once in a while. I have been away from home much of the time the past two years and during that time some of the largest old fields in the world have been discovered within a radius of forty miles of the city. I was amazed at the growth of Shawnee; it has nearly doubled in population during the past two years, and in a substantial way. This morning Wade Willard, one of the best known hotel men in the southwest and manager of the Walcott Hotel of Shawnee, drove up to my home in his beautiful Cadillac and said, "Come on, Major, I want to drive you around." I went with him. Mr. Willard drove me for miles through the oil fields of Pottawatomie and Seminole counties, then through every section of Shawnee, and on every hand could be seen evidences of its great growth and prosperity. New homes, business houses, blocks of new paving, new industries and crowded streets and places of business. I asked Mr. Willard if he thought this great development was alone due to oil. He told me of the great shipments of alfalfa and farm products that are shipped from Shawnee; he told me of the manufactured products, and especially of the spirit of its citizens. Mr. Willard told me that the future prosperity is not based upon what everybody is talking about, but is based upon agriculture, manufacturing and oil. After Dark We Stopped at the Country Club. Mr. Willard Said, "The Citizens of Shawnee Do Not Marvel at its Growth Rather That it Shall Become a Greater City is Their Thought." As We Looked Towards the City, and Seeing Thousands and Thousands of Lights Dotting the Whole City and Casting a Halo Against The Clouds, and Looking Towards the East and Seeing the Lights of the Oil Fields in the Distance, I Could Not Help But Agree With Mr. Willard. Wise County farmers around Decatur are planting cucumbers for market with their yield contracted by a Ft. Worth pickling firm. Texas has 5,680 acres sown to cucumbers this year, an increase of 660 acres from 1928.

Announcing Two New Models of the CHEVROLET SIX

Broadening the appeal of a line of cars which has already won over 950,000 buyers since January 1st, Chevrolet presents two distinguished new enclosed models of the Chevrolet Six—the Imperial Sedan and the Sport Coupe. With beautiful new Bodies by Fisher available in a variety of striking color combinations and with numerous advanced convenience features—these new models provide, in abundant measure, those elements of distinction ordinarily associated with more expensive automobiles. When you examine the new Imperial Sedan and Sport Coupe,

you will be impressed by their individuality and completeness. But you cannot fully realize what an achievement they represent until you get behind the wheel and drive! For here are all the qualities of six-cylinder smoothness, power and acceleration which Chevrolet alone provides in the price range of the four—combined with economy of better than twenty miles to the gallon of gasoline! Come in today. Learn for yourself the new standards of quality and luxury that Chevrolet has made available in six-cylinder cars—at prices within the reach of all!

The Roadster, \$525; The Phaeton, \$525; The Coupe, \$595; The Coach, \$595; The Sport Coupe, \$645; The Sedan, \$675; The Imperial Sedan, \$695; The Sedan Delivery, \$595; The Light Delivery Chassis, \$400; The 1 1/2 Ton Chassis, \$545; The 1 1/2 Ton Chassis with Cab, \$650. All prices f. o. b. factory, Flint, Mich. COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's delivered prices include only reasonable charges for delivery and financing.

Texas Service Station WITH OUR MOTTO—Service on the Spot Insures your car the best in Gasoline, Oil and Service. Drive to the East end of paving for your automobile's health and your own satisfaction. Also a full line of groceries for your convenience. TEXAS SERVICE STATION Clarence Whitlock, Prop. Untie the Knot

In this community—in every community—hands are tied, production is limited, pleasures are denied—and all so needlessly.

Credit—the magic word that will untie the knot, awaits our summons.

To enlist the aid of credit—unleash the bonds that are restraining our community from the development that is at hand, we must each and every one make our word our bond.

Then and only then, can we hope to grow and as we grow, to prosper.

Community credit is based upon individual credit. We owe it to our community to keep our credit good.

Our interest in the welfare of this community prompts us to sponsor this message to the people of Clarendon and vicinity.

CHRYSLER MOTORS PRODUCT THE FULL-SIZE PLYMOUTH TWO-DOOR SEDAN, \$675 Another FINE FEATURE.. Plymouth has Oversize Tires YOU will find on Plymouth the largest tires of any car in the low-priced field. Real oversize balloons—4.75—more than ample for this full-size car. That is why the improved Plymouth, with so much else to talk about, devotes an entire advertisement to oversize tires. Larger tires mean riding on more air, which in turn means greater buoyance and comfort. Then, too, larger tires wear longer, add much to appearance and, most important of all, give the car greater traction, a firmer grip on the road which means safety. From tires to roof, from radiator to gasoline tank, Chrysler engineers have endowed the improved Plymouth with qualities and abilities never before available in a car of low price. Make your own comparisons in your own way. Coupe, \$655; Roadster (with rumble seat), \$675; 2-Door Sedan, \$675; Touring, \$695; De Luxe Coupe (with rumble seat), \$695; 4-Door Sedan, \$695. All prices f. o. b. factory. Plymouth dealers extend the convenience of time payments, if desired. 389 PLYMOUTH AMERICA'S LOWEST-PRICED FULL-SIZE CAR WHITE MOTOR COMPANY CLARENDON, TEXAS
