

Paved Highways for Donley County

# THE CLARENDON NEWS

A City Auditorium for Clarendon

\$2.00 Per Year. All The Local News—While It Is News. CLARENDON, DONLEY COUNTY, TEXAS, THURSDAY, FEB. 21, 1929. Established in 1878. New Series Vol. 40. No. 8

## Denver Depot May Be New Union Station

### CITY MAY GET UNION STATION

#### UNION PASSENGER DEPOT MEANS TWO FREIGHT HOUSES FOR CITY.

An unofficial rumor has been going the rounds in Clarendon this week to the effect that if the Rock Island-Frisco permit for building the new line from Groom through Clarendon to Seymour is granted by the interstate commerce commission at Washington, the present Clarendon depot of the Fort Worth & Denver will be used as a union passenger station, and each road will build its own freight depot on accessible locations in Clarendon's industrial district.

Since competing public service corporations have long ago found out the benefits of co-operation when the union passenger depot is not an idle dream, and there is general favorable comment from the public at large, a union station would remove the discomfort and inconvenience found in many railroad junction points in Texas, and since the Fort Worth & Denver has given some consideration to the possible building of a freight depot in this city before the new line was proposed, it is likely that they would look with favor on an arrangement which would allow the use of the present commodious depot for union handling of passenger traffic, and proceed at once with the construction of the new freight house.

Since Clarendon has come into the limelight from a railroad objective standpoint, there is another rumor going the rounds that the Katy is contemplating the extension of their line from Wellington to Clarendon with a possible arrangement with the Denver & Rio Grande from this point to Amarillo. The News is not in position to guarantee these rumors, but the Panhandle of Texas is entering an era of vigorous rail-building and it is regarded as likely that the Katy will make an effort to make a connection from the dead-end of their Wellington line.

The coming of the Rock Island-Frisco project means three or four wholesale houses for Clarendon as well as a cotton compress and a cotton oil mill. If the Katy comes, too, these and more will no doubt locate in Clarendon.

### PAMPA PLANNING TO BE HOST TO HUGE LIONS MEET

The Sunday morning issue of the Pampa Daily News carried an item to the effect that March 8th will see the gathering of the largest group of Lions ever seen in the Panhandle section of the state. The plans for the convention call for the presence of Lion John Erhard, District Governor of the Texas Lions and other dignitaries from the state will be in attendance. The Pampa Lions are planning for one of the largest group meetings ever held in this section and are inviting many clubs from over the district to be with them, and assist in welcoming Lion Erhard to this part of the state.

### COLLEGE TAKES AIR SUNDAY EVENING

#### PROGRAM PRESENTED THROUGH COURTESY OF AMARILLO FORUM.

Radio fans of the city who listened in on KGRS, Amarillo, last Sunday evening, were pleased with the program presented through that source by Clarendon College members. The Forum regularly puts on the air organizations that are taking the lead in the work of the Panhandle and the recognition given Clarendon College comes as a compliment to the school and the management of the plan in present operation.

Those of the Clarendon fans who head the program state that it came in splendidly and that they enjoyed all parts of the presentation. The following program was given:

Auditory—Miss Merrell.  
Duet—Julian Ewing.  
Duet—"All the Way"—Misses Cecil Hukel and Hazel Parr.  
Solo—"Calvary"—Willie Mae Stewart.  
Quartet—"The Dreamboat Passes By"—Hukel, Parr, Ewing and Wilder.  
"The Task of Modern Education"—L. B. Cooper.

T. Jones, prominent plant man of the city of Clarendon, recently returned from Glenn Rose, where he had been for a short stay in the interests of his health.

### SCOUT MEET IS CERTAIN FRIDAY

#### LAST CHANCE IS TO BE TAKEN BEFORE JOLLY LEAVES FOR TRAINING.

Announcement is made this week that the Council meeting of the Scouts of the Southeast Panhandle Council will be held Friday evening of this week if the weather is acting up in any way, or if it is clear and a fair day. No matter what may happen, the Scouts will be here and the program will be held as outlined for presentation early this month with the addition of a Washington's Birthday part that is calculated to make the event even more impressive.

Due to a conflict of dates, the Parish House of the Episcopal Church will be used in lieu of the basement of the First Christian Church. Although not quite so well located in the center of the city as the first mentioned place of meeting, there will be plenty of folk to direct the Scouts to the place where the meeting is to be held.

The local committee has matters well in hand and will attend to all the details needed to make the affair one of great success. Scouts will be here from all parts of the Area and a great time is expected.

The date for the next meeting of this nature has been set as April 12th and Wellington has been chosen as the town in which to hold the meeting. Make your plans to attend the Wellington meeting.

### BISHOP MOORE SPEAKS IN M. E. CHURCH SUNDAY

Bishop John M. Moore of Waco, in charge of the state of Texas, filled the pulpit in the First Methodist Church in Clarendon Sunday evening, preaching to a fair sized audience. Rev. Moore was in Amarillo Sunday morning to assist in the dedicatory service in connection with the Tenth Street Church of that city and was asked to visit Clarendon on the evening of the same day. A goodly audience of residents of nearby communities was present and enjoyed the sermon that was delivered.

### FORMER RESIDENT DIES IN SAN ANTONIO HOME

The News was handed a clipping the fore part of this week by Mr. Ozier, who had received the clipping from San Antonio. Mr. Massie was a resident of the city some years past, leaving here for Kings Mill and later going to San Antonio, where he and Mrs. Massie made their home. Mrs. Massie died on January 9th, the following clipping giving more details of the arrangements made for the last rites. The clipping:

Funeral services were to be held Thursday afternoon for Mrs. Margaret Elizabeth Massie, 51, of Pleasant road, who died Wednesday at Bourne. Rev. Wood H. Patrick was to officiate.

Mrs. Massie was a native of Texas and had lived in San Antonio many years. She is survived by her husband, W. W. Massie; two step-daughters, Mrs. Leta Check of Houston and Mrs. Ruth Johnson of San Antonio, and two sons, Hall Massie of Casper, Wyo., and W. T. Massie of Waldo, Ark.

### WHITLOCK INSTALLS NEW LIGHTS AND LINOLEUM

The interior of the Whitlock Barber shop has been greatly improved by the installation of a complete new system of lights and by the renewing of the floor coverings. In placing the linoleum that covers the floor, five old layers of this material were removed, the old floor coverings having been left from time to time as new ones were put down to cover the unsightly places in the room. One interesting item was uncovered in the removal of the papers and other fillings under the floor, that being a newspaper dated June 1st, 1918. In addition to this work, the lighting system of the place was completely changed, a new system of indirect lights being used to replace the old ones that were used in the place. The wiring was placed in conduits to assist in the looks of the place of business. Mr. Whitlock plans to further enhance the appearance of the building by having the ceiling repainted to bring that part of the building to a parity with the new floor and lights.

### KERBOW STORE ARRANGED FOR MORE DISPLAY ROOM

Work was completed the latter part of last week on a complete rearrangement of the interior of the Kerbow hardware and furniture establishment. The hardware side was rearranged and the display tables placed to catch the eye on entering the place of business. The arrangement is one that was worked out to give more room for more merchandise and to better show the smaller articles that are found in the establishment. Bennett and Ralph Kerbow were in Fort Worth and Dallas over the past week-end looking over the furniture that was on display there and state that they made purchase of a considerable stock to be shipped immediately. The new plan of the store is one that is very pleasing to the visitor and makes much of the stock more accessible than it has been in the past.

### LEGION PLANS FOR FIDDLE CONTEST

#### DONLEY COUNTY TO AGAIN HAVE ENTRANT IN PANHANDLE EVENT MAR. 8.

The regular business meeting of the American Legion was held Tuesday evening of this week in the City Hall. At this time the organization decided to again stage a fiddlers contest that Donley County might be represented in the Tri-State event that is to be held in Amarillo on March 8th. Entries must be in the hands of the Amarillo planners for the work on March 1st and Donley County is in line to have a place in this work.

The contest staged in Clarendon last spring resulted in the sending of W. E. Walling to Amarillo, where he took one of the prizes at that time. Mr. Walling has since won a number of contests in the county and will in all probability be one of the men who enter the competition for the laurels this year.

It was the plan of the committee in charge of the event to announce the plans and rules for the contest, but the absence of the guiding hand in Amarillo, the local contest will be regulated by the rules of the Panhandle contest. Details of this will be available in sufficient time for the fiddlers of the county to get themselves ready for the work in hand on the evening of the contest here.

Thursday evening, February 28th, has been the date set for the event. Registrations may be made in the office of the Adjutant of the Legion, G. L. Boykin, or may be mailed or handed in to him during this coming week. It is of vital importance that the registrations be in the hands of the committee as early as possible that plans may be made for caring for the number who will appear on the program of the evening. Those named are Ernest Hunt and Joe Holland are the members of the committee who have the matter in hand.

### DR. HUNEYCUTT IS NEW JEWELER AT STOCKING'S

Dr. S. F. Huneycutt, a graduate optometrist and a jeweler and watchmaker, arrived in the city the fore part of this week and has located in that department at "Stocking's" Drug Store. Dr. Huneycutt comes here from Lubbock, where he has been located for a number of years and where he has given full satisfaction for the work he has done. Dr. Huneycutt is a graduate optometrist and comes here with full equipment to suit the needs of persons whose eyes need attention at any time. The new man will have charge of the jewelry department of the store and will be pleased to meet the many friends of this place of business when they need anything in this line.

### FACULTY TO MEET THE SCHOOL BASKETEERS

A basketball game that is calculated to give the boys something to talk about for many days is scheduled for Thursday evening of this week with the faculty of the College and High Schools of the city on the defensive and the students of the same schools on the opposite side of the game. Forwards for the faculty will be Hutson and Lane. Cooper will act in the capacity of center and Drennan and Stocking will be the guards. Farrow will be used as a utility man. The game offers much from the standpoint of training and work with the boys and the faculty members state that they are planning to give the boys a real tussel for the honors of the evening.

### W. H. Patrick was in Dallas on business the first of the week.

### RIG BUILDING TO START SOON

#### SLUSH PIT IS PREPARED AND CELLAR IS READY. SPUD IN NEAR MARCH 1ST.

The spudding date for the latest oil test in Donley County is nearing with all plans practically ready for early work to be started on the well. The cellar for the well has been completed and workmen have been busy on the slush pit for the past few days. A number of loads of timbers and other materials ordinarily found in use near projects of this nature have been hauled through the city and the work of starting the derrick is to be started as soon as other preparations have been completed.

Interest in the project continues to grow in Clarendon with quite a flow as is evidenced by the fact that some of Clarendon's residents were at the well last Sunday afternoon. The location that has been chosen is in full view from the river bridge although it cannot be seen from the road before the bridge is reached.

Mr. Forster was in the city the fore part of the week, expressing the desire to see the development of the well into something that would prove of benefit to the town and county.

Mr. Hugh Brown, contractor for the cellar and for the slush pit, was in the office late Wednesday afternoon and stated that these two items had been completed, that the cellar had been cased and that the rig crew was on hand. Four additional loads of material for the derrick were expected Wednesday night and this part of the work was to be started this evening. Mr. Brown also stated that interest was growing in the well every day as there were many people from Clarendon visiting the location every day.

### DADDIES PLEASE LIONS TUESDAY

EDINGTON SUGGESTS ORGANIZATION OF CALF CLUBS IN COUNTY.

Since Tuesday had been set aside as the day for the new daddies of the organization, it was met and proper that the roll-call should be answered by the number of children in each family represented. Three Lions were absent from the luncheon and all of them had children but in all, those answering to the roll, there were 74 represented at the luncheon. Two members of the club are unmarried and four have no children. The average to a good number for the others of the membership.

The application of County Judge J. J. Alexander was presented to the club and he will be duly notified and initiated into the organization.

Announcement of the Scout meeting was made with the statement that the event must be held for the reason that Mr. Jolly is to be out of the area for more than a month. All arrangements have been completed and the event is to be held in the parish house of the Episcopal Church if the weather is too bad for it to be held out-of-doors. The weather will have no effect on the meeting.

The Style Show date was officially set as the evening of March 21st, the same being Thursday evening. The date was okayed for the reason that some of the merchants have been inquiring in the matter that they might get their spring merchandise here and have them ready for the appearance of the show.

Mr. Jolly, Scout executive, stated that he wished to hold a series of training schools in Clarendon immediately after his return from headquarters, that each man would be initiated as a tenderfoot scout and that there would be a course of training that would be of vital interest. The meetings are to be held one each week for five weeks and the men are to pass an examination at the end of the time to determine if they deserve to be a Tenderfoot Scout.

Lion H. J. Edington was then introduced by the chairman of the program committee and spoke of the organization of calf clubs and their work in bringing dairy cows into the country. His experiences in eighteen years of living in a dairy country in connection with this work led him to believe that this was the best means of bringing desirable stock into the community. A county agent is almost a necessity and some means of working directly with

### ASHTOLA GIRL IS GIVEN FIRST PLACE

#### ESSAYS ARE JUDGED AND FIRST ONE APPEARS IN ISSUE OF 28TH.

The essay contest held under the auspices of the News for the Short Course that was completed the fore part of last week drew five entries from students who attended this event and who wrote their impressions of the two day affair. It was the plan of the News to carry the original essays in the order they were judged and this will be done, but it is impossible for us to have them ready for this week's issue of the News. The first one will then be placed in the next issue of the paper, that of February 28th.

In the five entries received, that of Miss Vera Johnson of Ashtola received the highest score, grading 95 points. Miss Jessie Swinburn followed closely with a score of 90 points and Margaret Swinburn was third with a record of 89 points. Fourth place winner was Woodrow Millsap of the Chamberlain school. Lu McClellan of the Ashtola school was fifth place winner. The first three place winners are students of the Ashtola school.

The News offered the prizes of \$5.00 for first place, \$3.00 for second and \$1.00 each for the third and fourth place winners in the contest. Checks will be mailed to the winners at the earliest possible date.

All of the entrants in the contest were praised by the judges, that of the first place taking an especial high place for the spelling and the clear handwriting. The essays will be carried in the News in the order they were judged, the first one being found in that issue of the News of February 28th.

### BAND CONCERT SUNDAY NIGHT

#### BAPTIST CHURCH AUDITORIUM IS SET AS PLACE FOR FIRST YEAR'S MEET.

E. M. Lindsey, director of the Clarendon Municipal Band, has made announcement that the organization will present a program open to the public on Sunday evening, February 24th, beginning at 7:15. The program as planned is to be a pleasing presentation of the band and a number of other artists of the city. The Clarendon College Quartet will appear and others from the school will have their places on the program planned for the evening. The following program has been arranged and will be presented at the Baptist Church.

El Captain—March—Souza.  
Naughty Marietta—Selection—Victor Herbert.  
A Dream Boat Passes By—Quartet—Misses Cecil Hukel, Hazel Parr and Messrs. William Willard and Julian Ewing, accompanied by Miss Geneva Merritt.  
Cibibiribin—Waltz—A. Pestalozza.  
Moment Musical—(All) Ongharese—Schubert.  
Reading—Selected—Miss Wilma King.  
The Sky Pilot—Overture—Laurer.  
Sahara—March—Shoemaker.  
Star Spangled Banner.

### MEN OF FIRST CHRISTIAN CHURCH TO MEET FEB. 28

A plan is under way for a meeting of the entire male membership of the First Christian Church on next Thursday evening, February 28th. A banquet is being planned for that occasion and a committee composed of Rev. Henry Taylor, Homer Mulkey and O. D. Leisberg has been named to care for all details and to get all the membership to be in the places at the time the banquet and meeting is to be staged.

### NEW CORRESPONDENT NAMED FOR MARTIN

A correspondent for the News has been secured from the Martin community after a lapse of some months with no news from that section of the county. Mrs. J. L. Hood has accepted the place and will mail her items to the News regularly. The News feels certain that all the items of importance from that section of the county will be given Mrs. Hood and that the Martin community is sure to be one of the best represented in the columns of the News in the entire county.

### RENT HOUSES AND ROOMS SCARCE IN CLARENDON

A situation that has the business men of the city of Clarendon a little puzzled has arisen in Clarendon in the past sixty days, this being the fact that there are no desirable houses to be had in the city for renting and that furnished rooms are not to be found. During the past two weeks, the News has had inquiries from many sources for rooms, both furnished and unfurnished, and for houses of any size, age or condition. Many strange faces are seen in the city and there is little room to be had at any price. Many folk who are desirable renters are being forced to accept places that would not please them under any conditions other than those that now exist. Some of the new comers to Clarendon state that the reputation of the town is wide spread, this being taken as a town with good business conditions and much prosperity in the offing.

### CLARENDON MASONS IN WELLINGTON MEET TODAY

Four of the certificate men of Clarendon left early this morning for the Certificate Men's meeting that is to take place the greater part of the day in Wellington. Doss Palmer, Homer Mulkey, John Blocker and Bennett Kerbow are those who made the trip. It is possible that they will remain in Wellington this evening to attend the Chamber of Commerce banquet their tonight.

Miss Eunice Griggs, teacher of expression in the Whitehead schools, spent the last week-end here in the home of her parents, Mr. and Mrs. C. E. Griggs.

### HILLCROFT GOLF CLUB DELAYED A MONTH

#### EXPANSION VOTED ADDITIONAL THIRTY DAYS.

Old Man Winter won over golf enthusiasts the past four or five weeks and the reorganization and expansion plans of the Hillcroft Golf Club have been so hampered that no definite conclusion could be arrived at on the occasion of the annual meeting of the club Monday evening of this week, which was held at the Queen Theatre.

After deliberation the club voted to allow additional time of thirty days to bring to perfection the plans for raising the membership to a minimum of seventy-five with a limit of one hundred, for the purpose of buying the present golf grounds and building a club house with other inside and outside recreational facilities. Under this new plan stock and membership in the club will cost two hundred and fifty dollars, each, and will be financed by a payment of fifty dollars by March 28th, and ten dollars monthly for a period of twenty months, with eight percent interest on the notes. Monthly dues will not be over four dollars a month as at the present time, and will be set lower if the board of directors find the cost of operation will permit.

By unanimous vote the annual election of officers was postponed until the new membership was secured and will probably be held on or about March 28th when the matter will be started in accordance to the plans of the club.

A general membership committee was named consisting of J. T. Patman, Holman Kennedy and Phillips Gentry, whose duty it will be to conduct the campaign for the enlarged club plans, with every club member under obligations to assist them on any work the committee may call for.

### TERRACING SCHOOL PROGRAM IS VERY COMPLETE

The News is in receipt of a great volume of matter pertaining to the terracing school that is to be held here Friday, March 8th, on the J. W. L. Schull farm west of the city of Clarendon. Mr. M. R. Bentley, Farm Engineer of A. & M. College will be here to assist in the work and A. K. Short of the Federal Land Bank of Houston will have charge of the event. The program will be started in the morning and will be concluded in the afternoon, ordinarily coming to a close about the middle of the afternoon. Further plans of the men in charge of the work will be made public as they are completed.

### TWO PROJECTS ARE AWAITING NAMES

Rev. and Mrs. J. H. Braswell were taken to Amarillo today after a visit of some days here in the home of their son, Sam M. Braswell. They are now making their home at Canyon, where they have lived for the past four years.

### COUNTY AGENT AND HOSPITAL PETITIONS BEING CIRCULATED BY BOOSTERS.

The two items that were presented to the Commissioners' Court a short time past are continuing to attract considerable attention from their supporters. Especially is the group wishing the County Agent active in their work of securing names on the petitions that will later be presented to the Commissioners' Court of the county. The initial hearing indicated that more names of those persons most vitally interested in the work of the County Agent would be required than were on hand at the time the original petitions were handed in. The matter of a hospital for Donley County is also holding its due share of the attention of the Court, with a meeting contingent on an early meeting of the Board of Trustees of the present Hospital Fund. The illness of H. W. Taylor, chairman of the board has prevented this meeting of this body and his speedy recovery will indicate that the matter will be quickly brought to a close with some action taken in the matter.

Petitions on both these projects are being circulated among the qualified voters of the county and it is thought that a great many names will be signed before the work of those most interested has been completed.

NATIONAL EDITORIAL ASSOCIATION — PANHANDLE PRESS ASSOCIATION

Attempt to return race track gambling to Texas under guise of a commission and "contribution" system got its death blow in the house of representatives at Austin this week. Good citizenship demanded its defeat.

Then, too, if we get a fine fruit crop in Donley County this year, it will go a long way to make us forget the sustained and extreme cold of January and February. The luscious flavor of Donley County peaches and cherries would make one forget discomforts if anything could.

For the first time in a number of years all the active churches in Clarendon have resident pastors. There are few cities where the churches are so generally held in highest esteem as in Clarendon and with no thought of flattery The News declares that the local pastors of Clarendon present a team of educated, cultured, high-class Christian gentlemen not to be surpassed in any like community in the Southwest. They are all neighborly, man to man, fellows and are filling their highest niche in the community life as citizens as well as ministers.

Seems to us that the legislature went wrong in refusing to pass Governor Moody's civil service measure for state departmental employees. Appointment on examination and promotion through service and merit make for greater economy and efficiency in the handling of the state's affairs, and we may not expect any curtailment in state expenses so long as we are cursed by the spoils system. Texas people have a right to better methods and corresponding savings in the handling of governmental affairs and The News believes that the legislature registered adversely to the will of the people when it rejected the civil service plan. We hope the bill will be re-submitted from session to session until it becomes a law. The people are for it and will become stronger advocates of the bill's good points as the months come and go.

## Our Nation's Next Step

BY ROGER W. BABSON

Founder of Babson's Statistical Organization, Incorporated

During the next twenty-five years there will be at least twenty-five truly great discoveries and inventions. Instead of trying to list them all, let me speak of one of them in particular. During the coming quarter of a century we shall discover that success can be taught, and we shall invent methods of teaching it. When you study men closely and constantly, you are astonished to find how slight is the difference between the successful and the unsuccessful. We shall learn how to bridge this narrow margin between success and failure.

The question whether you will win or lose depends not upon knowing but upon doing. The differential between victory and defeat is not one of ability but of action. What is this magic gift which we imagine explains the triumph of those who succeed? Upon analysis it proves to be nothing more mysterious than the homely gift of doing what you don't want to do, when you don't want to do it! When you say of a successful man that: He, while others slept, was toiling upward in the night, you have uncovered his secret and disclosed his formula. It is plain dynamic character that puts men on top, not some strange and inimitable superiority.

Since this is so—since success is essentially simple—men and women can be taught to succeed, just as they can be trained to plow, sew, compile statistics, or drive a car. There will be courses in success, the same as we now have courses in arithmetic, English, science, and public speaking. Success involves four elements: physical, mental, spiritual, and economic. Skillfully coach a person to qualify in those four fundamentals and success will follow, like the right answer when you press the proper keys of an adding machine. Those who are inclined to smile at this idea may well look back and recall their skepticism toward aviation, their doubts of radio, and their pessimism over world peace efforts.

The Russian idea of equality seems to be that all shall equally lose. The American idea of equality is that all shall equally win. Here in America there was established a democracy, deeper in degree and broader in scale than anything which the world had ever known. This democracy has been continually strengthening. Our people have learned to vote. At the last election there were record-breaking interest, registration, and vote. We have learned to learn. Per capita attendance at schools and colleges is at new levels. Our people have learned to enjoy themselves. Whole-some diversions, recreations that really re-create, were never so abounding. This progress must continue. Democracy must reach its final flower and fruit,—not only the present equality of opportunity, but equality of achievement. Our nation's next step is to teach success.

(The above is one of a series of editorials by prominent Americans to the Clarendon News, member of the National Editorial Association.)

## The Town Doctor

(The Doctor of Towns)

Says

KNOW YOUR ATMOSPHERE

Two men were driving over a beautiful winding roadway through a rolling wooded country when rounding a curve they suddenly came upon a number of cars at a standstill.

There was no accident, there was no police officer, but no barrier of stoutest iron or electrified steel, no highway's "Road Closed" or "Bridge Out" could have been more effective; cars east-bound and "westward ho" stand still as if cementbound to the pavement, for a other Seganku had chosen this arterial highway for an ostentatious promenade of her progeny.

That mother polecat and a lot of little polecats were going places, and in their going, behemoths of gasoline-driven iron and steel—brothers in creation of odoriferous atmosphere whose path she crossed, became as statues.

With glance neither to right nor left she led her little family across the highway, while a score or more of earthy dwellers looked on with awe and apprehension, and marveled at her boldness, nerve and determination.

There is no doubt but that many of her kind had ventured to cross that road but faltered after starting and had, therefore, been annihilated; others had looked across the highway and wished they were on the other side; others had peered out at the whizzing automobiles and turned back with fear and trembling in their hearts, and many more were content to stay where they were. But this little "kitty" knew the power of her atmosphere, decided to go somewhere, made known her intentions, started, kept on going, and got to where she was going—to the other side of the road.

The moral to communities is this: Recognize the power of YOUR atmosphere (concerted effort—pulling together) decide on what kind of a community you would like yours to be, then start, individually and collectively, thinking and DOING those things that will make it such—looking neither right nor left until you "get where you are going to."

AND REMEMBER, that the town that says, "It can't be done" will lose its trade to the town that does it.

This Town Doctor article, one of a series of fifty-two, is published by The Clarendon News in co-operation with the Clarendon Lions Club.

Note: These articles are written by The Town Doctor, without prejudice or malice and are impersonal. They treat each subject as supplied in general—not to a particular town. Opinions favorable or otherwise on subjects covered are solicited and may be addressed to the paper in which these articles appear, or to The Town Doctor, Suite 356, McCormick Building, Chicago, Illinois. The world still loves a lover and since it happens to be Lindy this time, all the more reason for the world-wide personal interest in the love and coming wedding of its hero.

When we put them on last fall we thought they would last through the usual winter season in this country even if they were to be a little thin along in the early Spring. Now, by heck, looks like they won't last.

Believing most heartily in an intellectual freedom that is neither conceited, intolerant nor controversial, believing also that the work of the University must be carried on in a prompt and orderly fashion, I wish here to maintain that a proper university routine, even if strict and in part unnecessary in the opinion of some, is not a violation of academic freedom in the proper sense of that term. I realize that routine is distasteful to certain types of professors who are extremely valuable to the University, but, as I once told a poetic youth who disliked to go to class and who was leaving the University for over-cutting, it is important to make sure that you possess genius before allowing yourself to exhibit the eccentricities that sometimes go with it. Genius is very valuable, but so, in a different way, is the orderly conduct of every day business.—Pres. H. Y. Benedict, University of Texas.

## SCOUTS ARE ELIGIBLE FOR NATIONAL PRIZES

In an effort to teach young Americans more about their country's flag, the United States Flag Association and the Hearst News-papers are staging a mammoth contest among boys and girls between the ages of fourteen and eighteen who are not graduates of a High School. To be eligible for one of the prizes, the boy or girl must have been born between Flag Day, June 14th, 1911, and Flag Day, June 14th, 1915. No requirements are necessary except that the person must not have graduated from High School. The contest will be divided into two parts, the first being the answering of a questionnaire of 75 questions on the history, symbolism, display and reverence of the Flag of the United States; Federal and State Flag laws; American ideals and institutions for which the flag stands; the progress, physical grandeur and natural resources of the country and other things symbolized by our national emblem. This part will be rated at 200 points. The other part is an essay on "Old Glory's Greatest Glory," of such length that it can be read or delivered in five minutes or less. Prizes will be given in each district but the grand prize is a free trip round the world, an entire traveling wardrobe and \$200.00 in cash for spending money. The matter is being handled locally through the Boy Scouts, but anyone may enter by writing to the San Antonio Light, the Hearst paper in the district composed of Texas, Oklahoma, Arkansas and Louisiana. The contest closes on June 14th, 1929.

## Phone Your Order

We deliver to your door, saving you time and bother and costs no more because it saves our time, too. We know—if you will try our service and groceries, compare them with any other on any basis you, too, will see that it is best to phone for your food.

Fresh fruits and vegetables always on hand. Ask for them.

Coffee, 3 lb. bucket, Banner—\$1.05

Cocoa, 1 lb., Baby Stuart—.25

Pickles, sour, 16 oz. jar, medium—.20

Preserves 1—16 Oz. Apricot  
1—16 Oz. Strawberry  
1—16 Oz. Pear 1.00

Nothing But Pure Fruit and Sugar.

## LUMBER SAYINGS—

A COLUMN OF NEWS AND VIEWS FOR CLARENDON PEOPLE AND OUR FARMER FRIENDS.

George Washington was a great reader of advertisements—but he never read one of our ads—maybe that's why he became president.

How about enclosing your heating plant within incombustible partitions? You will cut down the fire hazard in your home if you do. Sheetrock Fireproof Wallboard is the material to use for this purpose.

"I don't see how a man can put a filthy pipe in his mouth," remarked a lady as she bent down to kiss her pet poodle.

Sheetrock, by the way, is manufactured from gypsum. Gypsum is a rock that can not burn, and that is nailed and sawed with the ease of wood lumber. Sheetrock Fireproof Wallboard is precisely what its name says it is: A sheet of rock.

George laid his hatchet to a tree.

His father said, "That's pretty good;

It surely would be far from me

To spank a boy for chopping wood."

Next time you come into our office, ask to see a sample of Sheetrock. As you examine the sample note the tough fibre covering that encloses the gypsum.

The open fireplace has charm but it took the steam radiator to break the national habit of tobacco chewing.

Sheetrock Fireproof Wallboard can't warp, buckle or sag. It's made of rock, that's why.

Remember This

To those who brag or gossip

This proverb should appeal;

"The steam that blows the whistle

Will never turn a wheel."

# In Lincoln's Time

When Lincoln was splitting rails, prudent folks kept their money in their socks or under the floor; good investments were rare; banks were not recognized as the institutions they are today.

But that was a century ago.

Today prudent people keep their money in a bank—maintain a Bank Account with regular deposits. Today this bank is offering "Safety for Money and Service for Patrons." The Lincolns of tomorrow are saving and investing today!

'COMMUNITIES ARE MADE OF FOLKS' CHARACTERIZATION MADE FEB. 11

NOT YOUR TOWN OR MY TOWN BUT OUR TOWN. SAME IS FOUND TRUE IN RURAL CENTERS WHETHER THERE BE A TOWN OR A GROUP OF STORES FOR CENTER. PRODUCTION AND DISTRIBUTION ARE FACTORS IN THE LIFE OF EVERY TOWN OR COMMUNITY.

The individuality of the town was stressed Monday evening, February 11th in the address made by H. S. Mobley of the Short Course faculty. Portions of his address follow:

Mr. H. S. Mobley, in beginning his talk on "Communities Are Made of Folks" pointed out that this town of ours "is not your town, or my town, but our town."

It is something in common to all of us living in it—a community proposition, and to have a real town we must have a community spirit, not a one-man spirit. "To many of us," he said, "the word 'town' means a group of buildings separated by streets and alleys, containing some stores, some factories, some banks, some residences, a few churches and school houses, but that is not the proper idea of a town. It is in accordance with the dictionary definition of the word, but it is not in accordance with a community idea of a town."

"There are two elements in anything that involves human life under civilized conditions," he explained. "They are production and distribution. Some people must labor to produce; others must labor to buy and sell. The two are essential; either, alone, is a weakness, in fact, impossible."

"The place we usually call a town is merely a business district or trade center. Around it are the farms, or the mines, or the fisheries, where men labor to produce and from where they come to this business district to sell and buy and transact the business end of their labor. I have heard it said that the town and country are separate; that their interests are not mutual. This is a great mistake. Each depends upon the other. Each is as necessary as the other. The country cannot live without the town; neither can the town live without the country, but the town and country, by uniting what they have of production and distribution, can create such a condition of comfort and happiness as will constitute a real community of human beings."

Mr. Mobley declared he was not under-estimating the importance of the physical phases of man's life, but was striving to emphasize the human side.

"Communities are made of folks," he said "and not of houses and farms and factories. The houses, farms, mines, factories, banks and stores are all necessary but the human life and energy and intelligence back of them determine what they are to be. The higher the type of the people, the better the physical plant of the community."

"The difference between this community today, its houses, its factories—all its physical conditions—and the same community when the Indians lived here, is to be traced to the difference between the people who are here now and the people who were here then."

Mr. Mobley suggested that we study our town. In some communities, he said, the people look on their town as though they are not responsible for it and as a result they are dead and their town is dead.

"Too often we have to go away from home to learn the news," he said. "Do you know the things in your town that should be boosted, and the things that should be corrected? We work ourselves into the frame of mind that the things at home are not worth while. There is a life-time study in this community, that is of utmost value to you. Every bit of it is full of practical knowledge. Every bit of it refers to your community."

Some of the things you should know about this community are the home, the school, church and work-a-day life in the community, the government of the community, the health conditions, the division of boys and girls in educational matters. "All these things," he said, "are to be found on the greatest page in history—the open page of everyday life. Without a good, wholesome social life there can be no wholesome school life, church life or home life—no wholesome government."

Mr. Mobley described a town that "moved away" when the mines that supported it, played out. The buildings were still there but the people were gone. The town had been composed of people and two other things—

productive labor and business transactions. When labor quit, business quit and the people had to move away. "Land in this community wouldn't be worth 15 cents an acre if it were not for the human mind," he said. He next told of attending an Old Settlers' Meeting and talking with a man who ran a refreshment stand. He asked the man if he had been required to pay anything for the privilege of running the stand, and the man said he had and told him how much he paid. Mobley then asked him how much he would be willing to pay to run the stand the following day, and the man replied that not only would he not give anything but that they would have to pay him to run it, because the people would all be gone. "So you see," Mr. Mobley said, "everything depends upon the human element."

He declared that the stubborn, selfish, unreasonable person is never of much good to a community, because he never works with anyone else or will let anyone else work with him. "Dr. A. E. Winship," he said, "describes such an individual as being one who goes through life riding backwards, sitting on the rump of progress, pulling on the tail of things and hollering 'Whoa.'"

It makes me think of two women who were traveling on a passenger train. One was seated next the window and the other next the aisle. The steam pipes next the window grew very hot and the air became oppressive. The woman sitting there told the porter he would have to raise the window or she would smother to death. The one sitting next the aisle threw her cloak about her and remarked that if he opened the window she would freeze to death. A traveling man, having heard the contrary orders and seeing the negro's perplexity, asked him if he did not know the right thing to do, and the negro said he did not. The traveling man then said: 'If I were you, I would let the window remain closed until the woman sitting next the window suffocated. I would then open it and let the other woman freeze to death.' Of course this is a joke but I have been in communities where the opinion was quite general that what the town needed most of all was a few funerals."

Mr. Mobley picked up from the pile of literature distributed at the meetings a card containing one sentence. "This one sentence, as simple as it is," he said, "is profound with community. It says: 'Co-operation is living so other people can work with you. Get that point and you will get the spirit of what I am driving at.'"

Mr. Mobley declared that one of the most embarrassing experiences for anyone who has pride in himself is to find that he has been following or acting upon some half truth, or some rumor, based on false logic. "The people of this world," he

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

said, "who stand out above the masses are those who do not act until they are sure they are right. Start something in this community and keep your ears open for statements of radical people, of half truths, of prejudiced propagandists, and you will see clearly what I mean."

"But when you know the truth about anything, you are practically invincible. Everybody listens to you. You are a leader. You are worth while. It is one of the most forceful things in the world, to get the truth about things before you act. But it is difficult. It costs time, money, and a great deal of self-control."

He related an anecdote of some negroes who debated the question: "Resolved that the moon is of more value to the earth than the sun is." Those who favored the sun were about to get the decision when one negro got the floor and won the debate by reminding the judges that the sun shines in the daytime when we do not need any light while the moon gives us light at night when we need light.

"In practically all questions we are called upon to decide," said Mr. Mobley, "we meet the logic of the negro. While sometimes, by the use of logic, we carry our point, we are not victorious. It is worth while to get right on any question."

Mr. Mobley cautioned the community against getting what he called "the disease of somewhere else," and then explained what he meant by saying:

"In one town in a prairie county of Illinois where we held some of these meetings, they opened the evening session with a song which the children had been trained to sing. Their manner showed that great care had been taken in preparing to sing that song and they sang, down there in their flat, level country, resplendent with miles of yellow grain, kissed with the dew of early morn, 'My Heart Is in the Highlands.'"

"That is, somewhere else." "Over in Ohio this winter, a splendid quartette sang with spirit and sympathy, 'Sleep Kentucky Babe,' and when I came on to talk I could not resist being rude enough to say that if I were in their place I should write a lullaby about Ohio babies and let the Kentuckians put their own babies to sleep."

"We went down into Kentucky, made immortal by Stephen C. Foster through his folk songs that will live as long as the heart of man beats true to the impulses of higher emotions, and I expected to hear them sing some of those heart-moving songs, but in Kentucky they sang to me, 'Carry me back to Old Virginny,' and in Virginia, a land of romance and poetry, they sang like they meant it, 'Out Where the West Begins.'"

"And when we went to South Dakota, there is a great school building, they gathered from all

parts of the state and out there, where the West is, where it lies spread out under the heavens and is fastened down by the Black Hills and the Rocky Mountains so that it cannot get away—out there they sang with gusto and with soul-moving pathos, 'I Wish I Was in Dixie.'"

"People, this 'somewhere else' is a wonderful thing but we cannot put our hearts on other places and other people and dream dreams and see visions of things foreign to our home town, and people, and community and, at the same time be and do in this place what we ought to be and do. Some of this 'lover yonder' doctrine is all right, but too many of us have too much of 'somewhere else.'"

Mr. Mobley said that it is a good thing to get acquainted with our neighbors but it is equally important to get acquainted with our community.

"Towns are building manhood and womanhood and exporting them to other communities," he said. "If they had instilled in them appreciation of their own town they would have stayed. According to law a boy is worth \$13,000. Are you capitalizing your boys and your girls?"

Mr. Mobley closed by admonishing his hearers to select something they liked and stay by it and study it and work it. "If you do," he said, "something of great value to you and your community will come out of it."

TECH TO BE ENROLLED IN R. O. T. C. CORPS

Lubbock, Texas, Feb. 18.—The application of Texas Technological College to the federal government for Reserve Officers Trainee Corps aid under section 550 National Defense act has been approved by the War Department, according to a letter received here by Lieutenant H. E. Killin, commandant of the present military corps at the College.

With the enrollment of 300 cadets in the work at the College, a senior R. O. T. C. unit may be secured which will provide full equipment and officers together with regular pay of 70 cents per day to all juniors and seniors taking the work.

STEAM That Has Fourteen LIVES!

WHAT a giant of power is the steam locomotive as it thunders up the grade. Yet the roar of its exhaust tells the tale of tons of living steam that go to waste.

... In the generating stations of the West Texas Utilities Company are power giants of another kind—softly humming turbines with the strength of a thousand locomotives on their shafts.

... Not so much as a wisp of steam escapes. Rather, each jet of steam is made to multiply its power fourteen times. Not until the last ounce of its energy is exhausted is it released, and even then its heat is used to warm the water for the boilers.

... Every detail in the operation of this company is planned to yield the utmost in efficiency and economy. That is why the modern electric motor can pull the load of other engines many times its size at but a fraction of their operating cost.

West Texas Utilities Company

TEXAS WINS SPRING TRIP OF VACATIONING WORKERS

Chicago, Feb. 18.—One hundred Kiwanians of the Illinois-Eastern Iowa Kiwanis district, on a two weeks' tour of Texas and Mexico to enjoy a short vacation for golf and to get away from the February blizzards of the north left Chicago on Saturday, February 16th, Howard T. Webb, chairman of the tourist party, announced.

A special ten-coach train carried the Kiwanians, their wives and families, and newspaper correspondents on the trip.

Kiwanis clubs in the following cities will entertain the visiting members from Illinois and Iowa: Little Rock, Dallas, Waco, Austin, San Antonio, Corpus Christi, Brownsville, Houston, Monroe, and Hot Springs.

There are to be thirteen mornings for golf on the finest courses in the south, a similar number of afternoons for sight-seeing, and eleven entertainments by clubs located throughout the southwest. Because of the difficulty of carrying dress clothes, all dinners and receptions will be strictly informal.

Railroad officials estimate the trip over 4,000 miles in length. This is the initial tour to the southwest. In past years the party has gone to Florida for its winter pleasure trip.

RALLS MASONS BUILDING NEW TWO-STORY HOME

The building of the new modern two-story brick Masonic hall at Ralls is under way, the cornerstone having been laid recently. The building is to cost \$20,000, the upper story to be used exclusively for lodge activities and to include lodge rooms, banquet rooms, kitchenette, and modern conveniences.

TO RELIEVE STOMACH DILATION

Dilation of the stomach usually arises because excess stomach acid causes food to ferment and form sour gases which are responsible for those unpleasant sensations of swelling and fullness, often very painful.

To avoid and relieve stomach dilation take a tablet of "Pape's Diapepsin" after meals or when pain is felt. "Pape's Diapepsin" neutralizes acidity and prevents the formation of wind, heartburn and flatulence, and insures healthy, painless digestion.

Druggists everywhere sell "Pape's Diapepsin" at 60 cents a package—not much to pay for complete freedom from digestive pain and stomach troubles, is it? Better get your package of "Pape's Diapepsin" to-day.

PASTIME THEATRE

Friday, February 22nd  
FAY WRAY and GARY COOPER

THE FIRST KISS  
Everybody loves a lover. Tender and tense romance. The warmth of love. The fire of youth. A boy turned bandit—all for the love of a girl. A thrill for your life.

# AMERICANS ARE URGED TO HELP REBUILD THE FRIGATE CONSTITUTION

## The Famous American Vessel Better Known as "Old Ironsides" Is Now Being Rebuilt at the Navy Yard In Boston, Massachusetts.

Today in the Navy Yard at Boston lies a wooden hulk. Time has furred her sails and shorn her of her masts. The ravages of decay have rendered her timbers unseaworthy. This is no common hulk, but the ship that was once a navy veteran of more than one hundred and thirty-one years of loyal service to her country, she is now the proud possessor of the most brilliant fighting record of any ship in any navy in the world. She is known affectionately as "Old Ironsides"—The U. S. Frigate Constitution.

Although she bears the scars of 42 engagements, her colors have never been dipped in defeat. One of the first three naval vessels built by the United States, she was launched in Hart's Shipyard, Boston, in 1797. Commissioned in 1798, she sailed against the French Privateers, who were preying on our commerce along the Atlantic Coast and in West Indian waters, leaving destruction in their wake.

Her next duty took her into the blue waters of the Mediterranean, where from 1803 to 1805 she bombarded the forts of Tripoli, dictating peace with the Barbary Pirates and forever ending our tribute to them.

During the war of 1812 she won a succession of victories over the British fleet, increasing our prestige abroad and inspiring at home a greater faith in the new Republic. "Old Ironsides" stood invincible against the great English navy and fought for our independence on the sea, as two generations before, the colonists had fought for it on land.

Her remarkable escape from the British squadron off the coast of New Jersey in July of 1812, the destruction of the Guerriere, the capture of the Java, the Cyane and the Levant, make pages of romantic reading in the history of our country. Her conquests not only established our freedom of the seas in 1812 and made of the United States a first-class sea power, they did more. The moral effect of her victories upon the country, serving to unite opposing factions and territories in a feeling of national pride and unity of purpose, cannot be over-estimated. Staunch as her true name, the Constitution was at

### OLD IRONSIDES

Ay, tear her tattered ensign down!

Long has it waved on high, And many an eye has danced to see

That banner in the sky; Beneath it rung the battle shout,

And burst the cannon's roar— The meteor of the ocean air

Shall sweep the clouds no more.

Her deck once red with heroes' blood,

Where knelt the vanquished foe, When winds were hurrying o'er the

reed, And waves were white below, No more shall feel the victor's

triumph;

Or know the conqueror's tread,

The harp of the shore shall pluck

The eagle of the sea!

Oh better that her shattered hulk

Should sink beneath the wave; Her thunders shook the mighty

deep, And there should be her grave; Nail to her mast her holy flag,

Set every threadbare sail, And give her to the god of storms,

The lightning and the gale!

—Oliver Wendell Holmes.

most a navy in herself. Ever invincible, she has served under every President from Washington to Coolidge, and boasts of a record that has never been equalled by any single fighting ship.

Now in the shadow of the Bunker Hill Monument, near the yard that gave her birth, "Old Ironsides" rests in the dry dock she christened. She awaits rebuilding to make her sound, remodelled from truck to keel, exactly as she was in her days of great glory, the history-making days of 1812. No federal appropriation assures her preservation, nor is one desired. Only the generous response of a grateful nation can save her. The National Save "Old Ironsides" Committee, of which Rear Admiral Philip Andrews, U. S. Navy, is chairman, is raising sufficient funds for the work through popular subscription. Over

\$630,000 have already been received; less than \$190,000 are still required.

The Save "Old Ironsides" Fund is being completed principally through the sale of beautifully ten-color lithographs from the original painting by the famous marine artist, Gordon Grant, depicting the famous ship as she looked at the height of her brilliant career. These are reasonably priced at 50 cents each.

There is no relic more worthy of the affections of a Nation than is the Frigate Constitution. On her decks are enshrined the proud traditions for which America stands. She represents the ideals for which our country has always strived, the principles that give to our Nation its prestige among the nations of the world. It is a patriotic privilege to contribute to her restoration as a National Floating Monument. By restoring her, we honor not only "Old Ironsides," but the men, who by their bravery and skill, brought her to such renown and made such glorious history for America.

Every American knows of Independence Hall and would not think of letting it fall into decay. Loud would be the protest from every corner of our country should it be proposed to destroy Mount Vernon or National Shrine. Like these historic relics, the Frigate Constitution belongs to every American. Rebuilt and equipped as she looked in the history-making days of 1812, a picturesque survivor of the bygone days of sail, she will again cruise the seas, with proper escort, visiting the ports of our country and carrying her patriotic message to the people of our country, a lasting inspiration to future generations of Americans.

The people of America owe a debt of gratitude to this champion of our liberties and rights as a nation. This debt can only be repaid by restoration of the Constitution through popular subscription.

Every American is urged to buy a picture of "Old Ironsides" and help make possible the repayment of the debt we owe her. The pictures may be obtained for 50 cents each by writing to "Old Ironsides" Navy Yard, 431, Boston, Massachusetts.

This year farm management, farm shop and other vocational agricultural work will likely be added to the contest.

Texas as a Republic and as a state has had eight capitals—Washington (on the Brazos), Harrisburg, Galveston, Velasco, Quintana, Columbia, Houston, and Austin. Galveston, Velasco and Quintana were the capitals for brief periods during the approach of Santa Ana's army.

the announcement of events with which the contest will not conflict.

A greater interest has been manifested in the event this year than ever before. Additional schools have indicated their desire to compete and additional work will likely be added.

In the past contests, live stock, poultry, and grain judging have been covered in the contest and the Lubbock Chamber of Commerce has awarded loving cups to the winning teams. Last year teams from Floydada, Roby, Sil-

### FOURTH ANNUAL JUDGING CONTEST DRAWS INTEREST

Lubbock, Texas, Feb. 13.—Plans are being made for the fourth annual judging contest for vocational agricultural students in Texas high schools to be held some time this spring at the Texas Technological College.

Dean A. H. Leidigh of the School of Agriculture has placed Ray C. Mowery in charge of all arrangements for the contest again this year. The date of the contest has not been set, pending

## Dairying Proves Successful in South

By M. B. OATES, Agriculture Agent, Fort Worth & Denver City Ry. Co.

### QUICK RESULTS FOLLOW COMPLETION MILK PLANT AT FAYETTEVILLE, TENNESSEE

At Fayette, Tennessee, which is in Lincoln County, located on the southern boundary of middle Tennessee, we found another Borden milk plant which began operation in May, 1927. The first day this plant got 11,000 pounds of milk. Within thirty days the average was 20,000 pounds and the first summer the average was 30,000 pounds daily. The plant was getting 68,000 pounds daily when we were there (August, 1928). The volume of business the first year was \$720,000. This plant has 30 collecting stations and one feeder plant with 262 patrons. In all, the Borden plant has 532 patrons. The cost of the plant was \$400,000.

This plant produces butter and powdered skim milk. The powdered milk plant is the Gray-Jensen powdered process which is exactly like the plant built at Marshall, Texas, last spring. These plants produce a high grade powdered skim milk which is used by bakers, ice cream plants, etc. The Borden Company at Fayetteville, Tenn., owns and operates its own co-opeage plant in conjunction with the milk plant, using the barrels for shipping powdered skim milk.

In addition to the Borden plant at Fayetteville there is a creamery at Petersburg which has been in operation for ten or twelve years and this creamery is now doing more business than before the condensery was built. There are also several cream stations in

the county. So this county now has a pretty large dairy industry. The farmers are well satisfied. They are getting about 200 pounds of butter fat per cow and most of them are producing their own feed. Again we found a large part of the dairying being done by tenants on the 50-50 basis. This has proven both satisfactory and profitable to landlords and tenants alike.

When the Borden plant was established, May, 1927, there were only 6,000 cows in the county. Within fifteen months the number of cows had been increased to 12,000. That took a lot of work and co-operation on the part of the bankers and business men.

Fayetteville surprised us by giving us a luncheon on our arrival and immediately following the luncheon we went into conference with a few of the business men. T. D. Suggs, President of the First National Bank waxed warm in describing conditions before and after dairying started in Lincoln County. He convinced us that he had no doubt about dairy farming being a boon to that town and county. Before the dairy business started the principal business of the town was done on credit. Now all business is cash and business is better than before dairying was started. The Secretary of the Retail Credit Association, W. G. McCowan, said that conditions were better than ever in the history of the town. J. M. Eakin, merchant, said that before the Borden plant

was established only 20 per cent of his business was cash, now all his business is cash, not a dollar has been lost. Said he used to have \$40,000 on his books but these accounts have been reduced to \$3,000. W. M. Smith, another merchant and landlord said he changed from a credit basis to cash on July 1, 1927, which was just two months after the milk plant opened and he has a better business now than before and it's all cash. Four-fifths of his business used to be on a credit basis.

These changes taking place so quickly after the large milk plant was built indicate that farmers were helped almost at once and that business responded immediately to the improved financial conditions of the trade territory.

From 6,000 cows to 12,000 in a little over a year; from a credit business to an all cash business without loss of volume, and a better business condition than ever before in the history of the town, is a whole lot to accomplish within a year and a half or less but it shows how dependable the dairy business is when generally established and consistently followed.

The total volume of water flowing into the Gulf from Texas streams is approximately 26,913,000 acre-feet a year.

Increased demand for books of a serious or practical nature is reported by the Indianapolis (Ind.) Public Library. Important gains were reported in the use of books on sociology, history, literature, fine arts, science, biography and technology. At the central library the use of art and music books was greatly increased, due in large measure to gifts during the year of 13,500 pieces of music. Thirty per cent of the city's population are listed as home readers. Of the 2,230,128 books issued, two-thirds were lent by the branch libraries.—School Life.

## UNDER THE DOME

By United Press

Austin, Texas, Feb. 20.—Hidalgo County's march in the state legislature will not be in vain if it results in a new law for trial of contests over seats in the legislature.

Now, whoever gets the most votes, legal or illegal, has a cinch on the legislative seat.

Present law says the House and Senate alone are the judges of their own membership. This means the courts cannot hear such a contest as they do those over other elections. The Attorney General held that the only place the House or Senate can hear such a contest is at Austin. The House decided it is too expensive to bring witnesses to Austin for a contest here.

Unless the Governor asks for a law to provide some practical way of settling contests over seats in the legislature or some legislator has the urge, the condition will likely continue.

With only three weeks to go, it will take fast work to get a measure enacted at this session. None can be passed at the special session, which will follow, unless the topic is submitted by the Governor.

The Governor already has announced that he will submit a civil service bill to the special session. He admits he is a glutton for punishment on this topic. The fortieth legislature killed a civil service bill in spite of his campaign for it and the forty-first has done so again.

This time Governor Moody even went so far as to call opposing members into his office and urge the bill. After a conference he agreed that the bill should be amended to cut out preference for present employees. As written the bill gave twenty per cent credit for experience. As amended the lists were open to all on even basis.

One of the interesting features about the bill is the way it gets around the negro. Before the civil service board can examine an applicant, the applicant must present the recommendation of the commissioners court of the county in which he resides.

The bill was admittedly for the purpose of keeping competent employees in office regardless of the changes in administrations. This is practically effected for many state employees already. In the departments governed by boards a steady job is assured, ordinarily. Only a minority of the board membership changes at any one time. An efficient employe can count on the old members of the board to hold his job secure.

The State Fish, Oyster and Game Department has just been put under that system. Commissioner Will Tucker was one of the strongest workers for creating a commission to take his place. As it is a department that has the expenditure of its own funds largely in its hands, opportunities to take care of political friends were many in the department.

With a search and Seizure compromise effected, this week promises to see battles over the other two "moral issues"—Anti-evolution and Horse Race betting. What Tennessee has done about evolution has been a contested point before the House of Representatives. Some members were sure Tennessee had abandoned its anti-evolution campaign after the Scopes trial and others were just as sure the Tennessee legislature refused this year to repeal its anti-evolution law.

The horse race betting bill, which promised a stubborn struggle, was downed in the house Monday at noon by a vote of seventy-four to fifty-five. The vote was taken after the measure already had the betting features struck out by the bill's supporters.

So no opportunity to revive the racing bill in any form at this session of the legislature exists. A parliamentary motion to consider and table was adopted. After such a motion the bill cannot come up again so long as a single member objects. Rev. B. J. Forbes of Weatherford, by a motion to strike out the enacting clause, gave the bill its death blow.

The new gasoline tax bill before the House raises the gas tax to four cents (one cent to schools and three to roads). It also reaches out to get tax on much gasoline that now escapes taxation. The present tax is an occupation tax. Under it refiners do not have to pay tax on the gasoline they use themselves, large

operators can buy their gasoline in surrounding states, and the state loses when the refining company fails owing to the tax. In one case \$15,000 was lost by a refinery failure.

The new tax is a sort of excise tax. It levies the tax on use, sale or resale. Strictly it is not an occupation tax and the whole tax could be given to the roads but any attempt to keep the schools out of their fourth would probably kill the measure. Schools get a fourth of all occupation taxes.

Highways and their financing are to vie with prisons and their location as topics for discussion during the remainder of the session. Utilities will occupy what time can be spared.

On all three Governor Moody has taken an active stand. So far he hasn't been successful in getting over any measure he particularly sponsored. The Game Commission bill passed, but the Governor did not have it sufficiently at heart to sign it. He let it become a law without having his name attached to it which is partly significant as he told the Land Investigating Committee that he hadn't signed Land Patents, though the act was purely ministerial as he didn't want his name to appear on them.

Fred W. Davis, in charge of the warehouse division of the Department of Agriculture, has dug up some interesting statistics regarding the relative permanency of elected and appointed officers of the state Governor Moody has advocated appointment instead of election of department heads. Davis thinks the Governor is in error. To support the other view he cites these statistics:

"There has been but one Superintendent of Public Instruction within the last twenty years who was defeated for re-election. There has been but one treasurer within the last twenty years who was defeated for re-election. There has not been an elected Comptroller of the Currency who failed of re-election within the last twenty years. One comptroller was defeated but he was an appointed man.

There has not been an Attorney General within the last twenty years who failed for re-election. There has not been an elected Railroad Commissioner within the last twenty years who failed for re-election. Four have been appointed within that time and three failed of election.

There has not been a Commissioner of Agriculture within the last twenty years who failed for re-election. There have been but three, two voluntarily quit and the other is still serving.

There has been but one Land Commissioner within the last twenty years, under election.

On the other hand, under appointment, there has not been a Board of Control that has survived the political changes in the governor's office.

There has not been a highway commission appointed by one governor that has been retained by the next governor.

There have been, within the last fifteen years, six game commissioners, under appointment.

There have been, within the last twenty years, four presidents of A. & M. College and five Directors of Extension, under appointment.

There have been fourteen Bank-

ing Commissions during the last twenty years.

During the last twelve years there have been nine Chief Engineers in the appointed Highway Commission, while there have been but three chief Engineers within thirty-one years in the elected Railroad Commission.

From 1914 to 1925, at which time the Department of Markets and Warehouses was merged with the Department of Agriculture, six different men served as Commissioners of Markets and Warehouses. This is twice the number, under appointment, in eleven years as Commissioners of Agriculture in twenty years, under election.

Twenty-two years ago the Department of Agriculture was created and made elective. Twenty years ago the Department of Labor was created and made appointive. Within the twenty years, the Labor Department has existed, there have been nine commissioners of Labor under appointment; this, against three Commissioners of Agriculture under election.

Lubbock, Texas, Feb. 20.—The application of Texas Technological College to the Federal government for Reserve Officers Training Corps aid under section 550 National Defense Act has been approved by the War Department, according to a letter received by Lieutenant H. E. Killin, commandant of the present military corps at the College.

With the enrollment of 300 cadets in the work at the College, a Senior R. O. T. C. unit may be secured which will provide full equipment and officers together with regular pay of seventy cents per day to all juniors and seniors taking the work.

## SARGON BROUGHT BACK HIS HEALTH

"Sargon restored my health at a time when I thought nothing would help me," recently stated Frank Bennett, of 905 Macon St.,

FRANK BENNETT

Fort Worth. His full statement follows:

"My troubles started two years

## FORESEE LARGER ROAD PROGRAM

CARS, INCREASING MORE RAPIDLY THAN POPULATION, REQUIRE MORE PAVEMENT.

By E. E. Duffy.

Automobile needs will force this country to spend on the average at least twice as much money for road improvement during the next fifteen years as was spent in 1928.

This is the forecast of T. R. Agg, Professor of Highway Engineering at Iowa State College.

In a recent issue of the Engineering News Record, Professor Agg points out that the inevitable increased highway expenditures must or should come from these sources:

Increased federal aid.

Increased taxes on heavier vehicles.

Increase in the gas tax with five cents per gallon as the maximum, this money to be used entirely for state and interstate roads.

State taxes to supplement local taxes for local roads.

Increase in the use of bonds, these to be retired after the high-

ago when I commenced to suffer with indigestion. I lost my appetite and what little I ate caused me lots of misery. I suffered with gas pains around my heart, and could taste my food for hours. I seldom got a good night's sleep and was so nervous at times that I would shake all over. I felt tired, run down and worn out even before the day was half over. My liver was out of order, I was bilious and my vitality was very low. I took lots of medicines and treatments with no lasting benefit.

"Then I tried Sargon, and I knew almost at once that I had found the right medicine at last. My appetite returned and my strength and energy began to come back with the first bottle. Now, I sleep fine, eat anything I want and everything agrees with me. I am always hungry and enjoy my meals. My nerves are steady as a die, my headaches are gone and I feel like a man made all over again. I have gained nine pounds and just want to be on the go all the time.

"Sargon has built me back up so that I am stronger, and feel better than I have felt in years. I am a well man now, and the Sargon treatment is responsible for it."

Sargon may be obtained in Clarendon from Douglas-Goldston Drug Co.; in Hedley from the Hedley Drug Co.

way systems have reached the stage where new construction will decline.

Use of special assessments and excess condemnation where marked increases in property values will result from improvement projects.

The above suggestions boldly attack one of the greatest problems confronting the United States. Automobile registrations are increasing relatively far more than population. The utility of the bus, truck and passenger car is being extended daily. More and more prosperity is becoming intermingled with both manufacturing of automobiles and their operation.

The automobile is a modern creation and modern means of financing and building highways will make this new road problem, created in turn by the automobile, less arduous and decidedly more favorable to the continuance of present prosperity.

Bond issues are to be of growing importance in highway financing, as is indicated by sentiment in various states. Headed by a proposed issue of \$225,000,000 in Texas, bond issues to be voted in 1929 probably will total a half billion dollars.

Making available such sums as this will enable the public to save in accordance with this axiom by

Thomas H. McDonald, chief of the U. S. Bureau of Public Roads:

"We pay for good roads whether we have them or not; and we pay less if we have them than if we have not."

Lack of enthusiasm in caring for the poultry flock can sometimes be attributed to an inconvenient building. Many poultry houses have roofs that are too low. The poultry house should be of such size and shape that work in it can be done easily. Detailed information on how to build houses is given in a bulletin recently issued by the U. S. Department of Agriculture, Washington, D. C., as Farmers' Bulletin 1554-F called "Poultry Houses and Fixtures."

## HARNED SISTERS MILLINERS

### F. H. Sittou and Miss Mildred Reavis Married

The marriage of F. H. Sittou and Miss Mildred Reavis was solemnized in the home of the parents of the bride on last Saturday evening. Only a few close friends and immediate relatives were present. Rev. S. E. Allison officiated. Immediately following the ceremony, the couple left for Amarillo and other points for a short honeymoon trip, returning to Clarendon Sunday evening, where they will make their home.

The groom, Mr. Sittou, has been in the employ of the Clarendon Motor Company for the past several months in the capacity of parts man. He is one of the most trusted employees of the organization and is popular among the younger set of the city.

Miss Reavis is the youngest daughter of Rev. and Mrs. L. A. Reavis of this city and has lived the greater part of her life in Clarendon. She is a graduate of Clarendon High School and has been among the most popular of the younger women of the city.

The News and the many other friends of the contracting couple wish them a long and happy life.

### Pathfinder Club Hold Most Interesting Meeting

That most interesting subject, "The Little Theatre" was discussed quite fully at the home of Mrs. J. T. Sims Friday afternoon with Mrs. C. A. Burton acting as associate hostess to the members of the Pathfinder club.

Mrs. J. T. Patman, leader for the afternoon, gave the origin of the Little Theatre movement in a most absorbing manner. Mrs. W. H. Patrick discussed "Its Development and Outstanding Theatres."

"What a Little Theatre Can Do For the Community" was interestingly given by Mrs. S. W. Lowe.

A one-act comedy entitled, "They Do Say" by Belle Elliott Palmer, was splendidly presented by the following members: Mrs. Joe Goldston, Mrs. M. M. Noble, Mrs. J. L. McMurtry, Mrs. R. H. Beville, Mrs. O. T. Smith, Mrs. Forest Taylor and Mrs. W. B. Sims.

This was a most enjoyable play and provoked much laughter, not only proving that there is much talent among the membership of the Pathfinder club but showing just what a Little Theatre would mean to Clarendon.

Special guests for the afternoon were: Mrs. S. E. Allison, Mrs. W. M. Murrell, Mrs. W. G. Word, Mrs. Louis B. Merrell, Miss Lottie E. Lane and Miss Mary Howren.

The next meeting, February 22,

## Announcement! Jeweler and Optometrist

Dr. S. F. Huneycutt, jeweler and optometrist, has opened an optical parlor at Stocking's Drug Store.

Dr. Huneycutt is licensed by The Texas State Board of Examiners in Optometry to do expert refracting and eye-glass fitting. Those suffering with poor vision or eye strain are assured of careful examination.

at

STOCKING'S DRUG STORE

Mr. and Mrs. H. T. Burton, Mr. and Mrs. Sam M. Braswell, Mrs. H. B. Kerbow, Mrs. B. G. Smith, Mrs. Eva Rhode, Mrs. R. Wilkerson, Miss Norma Rhode and Miss Mantie Graves.

### Kill Kare Kneedle Klub Spends Pleasant Afternoon

The members of the Kill Kare Kneedle Klub spent a very pleasant afternoon in the home of Mrs. J. G. Sherman Thursday with their needlework.

The pleasant association with those about them and the coziness of the room made the afternoon pass very rapidly for soon the hostess was serving dainty refreshments and it was time to depart for their homes all too soon.

The club members present were Mrs. U. J. Boston, Mrs. R. H. Beville, Mrs. H. C. Brumley, Mrs. Eva Draffen, Mrs. Joe Goldston, Mrs. Joe Cluck, Mrs. H. Mulkey, Mrs. Y. E. McAdams, Mrs. G. G. Kemp and Mrs. W. A. Massie. Special guests were Mrs. W. R. Holder, Mrs. J. H. Hurn and Mrs. W. A. Pierce.

### Friday Bridge Club Meets With Mrs. H. Kennedy

The Friday Bridge Club enjoyed a delightful bridge party Friday afternoon at the home of Mrs. Holman Kennedy.

High score was won by Mrs. Sam Dyer and consolation cut by Mrs. Chas. Trent.

A lovely refreshment course was served to Mrs. M. P. Gentry, Mrs. Selden Bagby, Mrs. Phillip Gentry, Mrs. Sam Dyer, Mrs. Clarence E. Miller, Mrs. Charles Trent, Mrs. Dorr Ellis and Miss Mildred Martin.

### Mrs. G. A. Anderson Is Hostess

Mrs. G. A. Anderson was hostess to the Home Economics Club Friday afternoon at her home where "Fancy Stitches For Children's Clothes" proved an instructive as well as an interesting topic of study.

Mrs. J. C. Estlack gave an instructive talk on "Ways to Finish Boys' Clothing," while Mrs. O. D. Leisburg proved to be quite proficient in discussing the "Ways to Finish Girls' Clothing."

A demonstration was given of the Bermuda Pagaty and Italian hemstitching stitches.

### Ko Jo Koi Club is the Recipient of Two Parties

The youngest set of the city has its joyous times as well as the older ones as is evidenced by the report received the fore part of this week from the reporter of the Ko Jo Koi Club, composed of a number of the young ladies of the city. An entertainment furnished by Miss Aurelia Kelly in the home of her parents was the first event of importance. This report to be a purely social meeting with a small program added to give spice to the day.

The second of these events came when Miss Willie Maud Pratt entertained the same organization. Games and conversation took the afternoon and the day's events were brought to a close by the serving of a splendid two-course luncheon late in the afternoon. Those present were Misses Peggy Word, Jo Ellen Kennedy, Gertrude Reid, Aileen Ballew, Mary Tom Atterberry, Vivian Taylor, Aurelia Kelly.

### MacDowell Club Makes Plans For Spring Concert

Plans for the spring concert were submitted by the program committee Tuesday evening when the club met in the Ladies Club room for their weekly rehearsal. A large group of members were present and Miss Martin was delighted with the amount of work accomplished.

All new music will have arrived by next Tuesday and real earnest work will be started on that evening and it is hoped that all members will be present.

ley, Dorothy Jo Ryan, Eugenia Noland, Geraldine Pratt and the hostess, Willie Maude Pratt.

### 1926 Book Club Holds Meeting

With Miss Maye Lumpkin as hostess the 1926 Book Club held one of the most interesting meetings of this club year.

Miss Fray Stallings had worked out a program based on the American Mercury and many interesting things concerning the life of the editor and some of his ideas were brought to light by Miss Stallings and Mrs. Clyde Alexander.

Miss Maye Lumpkin, Mrs. Elba Ballew and Mrs. B. L. Jenkins, Jr., read and discussed articles taken from this popular magazine which proved entertaining as well as educational.

Much business was attended to during the business session including the revision of the constitution and by-laws of the club.

Mrs. Charlie Bairfield, Miss Elizabeth Stevens, Miss Slover, Miss Hunt and Miss Mary Howren were special guests for the afternoon.

### Episcopal Junior Auxiliary Meets

The lately organized Junior Auxiliary of the Episcopal Church met in the home of Mrs. Selden Bagby Wednesday afternoon with a good attendance, only a very few members being absent and a new name, Mrs. Fred Connally, being added to the roll.

Mrs. Allen Jeffries, president, presided over the business session and many items of interest were discussed and disposed of.

Much interest is being shown in this newly organized society and its success and growth is practically assured.

### Thursday Afternoon Bridge Club is Entertained

The regular meeting of the Thursday Afternoon Bridge Club was held in the home of Mrs. Louie B. Merrell of Ashtola Thursday afternoon.

The delightful drive to her home and the joyous welcome that awaited the guests made this a most enjoyable afternoon and the ladies entered into the playing with much enthusiasm.

A tasty afternoon luncheon was served by the hostess to the following members and invited guests: Mrs. Clyde Price, Mrs. Charles Trent, Mrs. Sam Dyer, Mrs. Selden Bagby, Mrs. Phillips Gentry, Mrs. Earl Alexander, Mrs. Meredith Gentry, Mrs. T. H. Ellis, Mrs. Elba Ballew, Mrs. H. M. Rhoades, Miss Mary Cooke, and Miss Beulah Baird.

### Wait for "The Sky Raider."

T. M. Little, Jr., and A. M. Taylor are here for a few days visit, having driven down Wednesday from Fort Collins, Colorado.

Wait for "The Sky Raider."

Chicken Dinner Sunday. Good meals. Victor Orthophonic music.

A CORDIAL WELCOME

**The Antro Hotel and Coffee Shop** Mr. and Mrs. H. R. Vernon.

**OUR WANT ADS. GET RESULTS**

**Junior Boys' Chorus Continues With Their Work**

The Boys' Chorus is still meeting on Tuesday of each week and much enthusiasm is being shown by those who attend regularly.

Work on the new music for our Easter program will begin next week and it is hoped by the director, Mrs. Wilkerson, that each boy will be present promptly at 3:30 o'clock.

**Ladies Aid Meets in Study**

The Ladies Aid Society, First Christian Church, met in the home of Mrs. John Beverly Wednesday afternoon for their regular weekly study.

Rev. Taylor opened the meeting with a devout prayer and business for the afternoon was entered into, the first item being a letter of resignation from the president, Mrs. W. T. Hayter. As much as the ladies disliked to, the resignation was accepted, as well as that of the vice president, Mrs. E. C. Herd. With Mrs. Beverly in the chair, an election was held to fill these vacancies with the result that Mrs. Shaw is now president, Mrs. Frank White, 1st vice president and Mrs. O. D. Leisberg, 2nd vice president.

Mrs. Shaw led an interesting lesson on the 29th chapter of Matthew and closed the lesson by reading the book, "Resurrection of Christ."

After dainty refreshments were served by the hostess the meeting closed by repeating the Lord's Prayer.

Mrs. Bullock will be hostess to the society next week at her apartment in the C. M. Lane home and Mrs. Beverly will be lesson leader.

**Mrs. Darden Is Hostess**

A truly delightful party of Wednesday afternoon was that given by Mrs. Sam Darden for the members of her bridge club at the home of her mother, Mrs.

**Emma Weatherly, South Kearney Street.**

This was a pink and white party, the rooms being cleverly decorated in pink and white artificial flowers. The tallies, luncheon cloths, china and refreshments carried out the color scheme to the minutest detail.

In the playing Miss Lillian Murphy received high score favor and Mrs. Jim Haile consolation cut.

Those attending were: Mrs. W. L. Ball, Mrs. B. C. Antrobus, Mrs. Bascom White and Mrs. Jim Haile, club members; Mrs. Earl Alexander, Mrs. Lillian Brady, Miss Lillian Murphy and Miss Betty Weatherly, special guests.

Mrs. J. K. Campbell, Mrs. P. W. Hendrix and daughter, Carolyn, of Vernon, are expected Friday to be the guests of Dr. and Mrs. J. G. Sherman over the week-end.

Mrs. F. C. Johnson spent last week-end in Amarillo, returning to her home Monday, accompanied by her friend, Mrs. Mary Hickman, of Amarillo.

Mr. and Mrs. Houston Miller and son, Elton, motored to Amarillo Tuesday, where Mr. Miller received medical attention.

W. A. Riddle spent Thursday in Hedley attending to business affairs.

J. Roy Bartlett and sons, J. R. and James Frederick, of Childress visited over Sunday with friends.

Carl and Homer Parsons were in Quitaque last Thursday and Friday getting their new plant in readiness for an early opening.

J. C. Estlack spent last week in Dallas, returning to his home Monday of this week.

Miss Bernice Rowland was compelled to leave her post of duty as a member of the Claude public school faculty and return to her home here for two weeks when she developed a case of mumps Saturday of last week.

Coming—"The Sky Raider."

### College—High School Activities

Conducted by the students of Clarendon Junior College and Clarendon High School.

#### JUNIOR-SENIOR BANQUET

By Dorothy McCanne

Cupid had quite an effect on the Junior and Senior classes of Clarendon High School. For once, in celebration of the day in which Love reigns supreme, they forgot their enmity and united in one of the most joyful occasions that has ever gone down on the records of our school. The Junior-Senior Banquet (the precedent being established this year) will henceforth be regarded, not as an ordinary banquet, but as the eventful climax of the entire year.

After weeks of preparation, the classes assembled on the wharf at the First Christian Church, February 14, 1929, and embarked to the dining room at eight o'clock and all was well. The weather was clear, not a cloud hovered over the happiness of the two mighty classes. Ship ahoy! The Good Ship Love was reported making good speed, somewhere between the Port of Puppy Love and the Harbor of Matrimony. The ship's crew began to eat, drink and be merry, for they had Ambrosia, roasted dove, heavenly hash, hove, cupid's darts, St. Valentine relish, Hearts Delight, Angel Food, and Nectar.

And as there were no railings to this good ship, everyone fared beautifully as the following program was given, under the captaincy of Billy Dillard:

Toasts: To Compass (faculty), Betty aWker; response from the needle of the compass, Miss Worsham; To the Ship's Officers (Seniors), Elvis French; to the Crew (Juniors), Eunice Johnson; to the Tow Line (Sophs), Billy Jo Terrill; The Ship's Log (Senior Class History), Benton Smith; to the Mates (newly-weds in our class), Pauline Lane.

The program Aft Deck was as follows: Sweetheart Songs—Jane Kilbough and Maurine Wood. Violin Duet—Bonnie Nell Gordon, Marjorie McKillop.

If Cupid Grew to be a Man—Miss Abbott. A Leap Year Leap—Wilma King. Heart Stunts—Alma Mater.

Girls' Forum  
The Girls' Forum had a very interesting program January 30. Those taking part on the program were Adaline Smith, Joyce Link, Marjorie McKillop, Dorothy Headrick, Helen Smith, and Jeanette Parks.

Miss Steagall Talks at Home Economics Club  
The Home Economics Club met Monday, February 18, at the chapel period with Miss Steagall as the principal speaker. She gave a very interesting talk on basketry and art in painting furniture, which proved very instructive as well as entertaining. The life and accomplishments of Thomas A. Edison, given by Lucille Wright, and a number of jokes by Hazel Gilbert completed the program.

Alpha Delta Psi  
The Alpha Delta Psi Literary Society met Wednesday morning. The society songs were followed by a Spanish song by Miss Mansell. Many new ideas as to "How to Improve Our Society" were given by Mr. Farrow. Another feature of the program was a violin solo by Julia Bernard accompanied by Pearl Dubbs.

Fine Arts Department Presents Pupils in Recital Friday  
Misses Helen Martin and Rita Foster presented their pupils in a joint recital Friday evening at the college auditorium. The follow-

ing musical and dramatic program was enjoyed by a number of people:

"Puddles"—Frances Sanford. "The Little Snake Boy"—Mable Johnson. "The Big Bass Singer"—Phillip Gentry. "Encouragement"—Alma Dale McFarling. "Phantoms Passing By"—Nellie Grady. "The Old Wooden Tub"—Rosaly Bass. "At Evening"—Johnnie D. Latson. "Jimmy Crickets"—Roma Ellison. "Silver Sandals"—Lucille Andis. "His Courier"—Marue Trostle. "Scherzo"—Ada Mae Owens. "In the Pantry"—Wilma Dee Smith. "Duo, 'The Meadow Lark'"—Lavonne McMurtry, J. Ellen Kennedy. "The Man Within the Shadow"—Myra Worsham. "Titania's Dance"—Aileen Ballew. "A Model Letter to a Friend"—Aleene Parks. "The Bee and the Clover"—Dorothy Watson. "Girl"—Ozella Hunt. "Dance of the Freaks"—Wilma Dee Smith.

Rev. McKee Speaks in Chapel  
Friday morning Rev. McKee made an interesting talk on "The Life of Abraham Lincoln." He said that we should be proud of the fact that the three world heroes of the past three centuries were Americans. George Washington, Abraham Lincoln and Woodrow Wilson were the three referred to.

Clarendon College People Take Part in Radio Program  
Under the direction of the Amarrillo Forum, Dean L. B. Cooper, Miss Geneva Merrell, and a number of students of Clarendon Junior College participated in a radio program Sunday night broadcast over KGRS. The following program was given:

Auditory—Miss Merrell. Solo—Julian Ewing. Duet, "All the Way"—Misses Cecil Hukel and Hazel Parr. Solo, "Calvary"—Willie Mae Stewart. Quartette, "The Dreamboat Passes By"—Hukel, Parr, Ewing and Wilder.

As the closing number on the program, Mr. Cooper gave a very interesting and instructive talk on "The Task of Modern Education."

HUGE HOTEL ADDITION PLANNED AT BIG SPRING  
Contract for the addition of ten stories to the Crawford Hotel at Big Spring will be let within 40 days, according to the owner, A. J. Crawford. A remodeled lobby, a large mezzanine lounge, private dining rooms, banquet hall with a seating capacity of 300, and a reception room will be added, with 102 guest rooms added to the present 150.

BACKACHE  
If Bladder Weakness, Getting Up Nights, Backache, Burning or Itching Sensation, leg or groin pains make you feel old, tired, peevish, and worn out, why not make the Cystex 48-Hour Test? Don't give up. Get Cystex at The Rexall Drug Store. Put it to a 48-hour test. Money back if you don't soon feel like new, full of pep, sleep well, with pains alleviated. Try Cystex today. Only 60 cents.

DR. CALDWELL'S THREE RULES  
DR. CALDWELL watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation is a mild vegetable compound. It can not harm the most delicate system and is not habit forming. The Doctor never did approve of drastic physics and purges. He did not believe they were good for human beings to put into their system. Use Syrup Pepsin for yourself and members of the family in constipation, biliousness, sour and crampy stomach, bad breath, no appetite, headache, and to break up fevers and colds. Get a bottle today, at any drugstore and observe these three rules of health: Keep the head cool, the feet warm, the bowels open. For a free trial bottle, just write "Syrup Pepsin," Dept. 25, Monticello, Illinois.

Reserve Your Hatching Trays  
For any future date and be assured of space in our machine. Several hundred trays have already been spoken for.

\$1.00 deposit will hold trays open for you.

CLARENDON HATCHERY  
Phone 263 Opposite P. O.

### SECRETARIAL SCREENINGS

Clarendon Chamber of Commerce G. L. BOYKIN, Secretary

Donley County can use a county agent to good advantage. If you are interested in seeing the county get one say something to someone about. There are 15 requests in this office at this time for help in running terrace lines. We will not have time to care for them all. We will do the best we can but cannot care for all of them. Lets get a county agent. The right man can help us.

Looks more so each day like we were to get another railroad. Despite all arguments to the contrary a railroad will help this town we believe. Railroads and highways and soon airways will never hurt any town if they take advantage of its possibilities. Towns no longer just happen, they are built. This age of competition has reached and affected most every line of business. Lets keep our town in the running, and take advantage of our opportunities.

A terracing school is announced for Donley County. Every farmer should attend this school. It will be free and the instruction will be given by experts. "Dad" A. K. Short is the dean of soil conservationists in Texas. The Land Bank knew what they were getting when they employed him. We congratulate Mr. Killough in getting this school for Donley County.

NOTICE  
THE CHICAGO, ROCK ISLAND AND GULF RAILWAY COMPANY hereby gives notice that on January 17, 1929, it filed with the Interstate Commerce Commission at Washington, D. C., its application for a certificate that the present and future public convenience and necessity require (1) the construction and operation by it of a line of railroad beginning at a point of connection with its main line at or near the station of Groom, Carson County, Texas, and continuing in a southeasterly direction to Paducah, Cottle County, a distance of approximately 97 miles; and (2) the operation by it under trackage rights over the Gulf, Texas and Western Railway of a line of railway from Paducah to Jackboro, a distance of approximately 146.6 miles, in Jack County, all in the State of Texas.

THE CHICAGO, ROCK ISLAND AND GULF RAILWAY COMPANY. (8c)

One Block South of Methodist Church. Phone 300.

#### HOME GROUNDS IS SUBJECT OF GREAT INTEREST

A lecture by G. L. Smith of the Short Course faculty Monday afternoon, Feb. 11, dealt with a subject that is becoming of more and more interest to the average farm owner. This had to do with the possibilities of a farm as to its beautification with plants, trees and flowers. Fifty-eight lantern slides, many of them in their natural colors, were used by Mr. Smith to more forcibly bring out points in his address.

These slides illustrated, among other things, the good and bad methods of landscaping. Several of them showed foundation and border planting always used by the best landscape gardeners. Foundation plantings are composed of flowers or shrubbery so placed as to screen the unsightly foundations of buildings. Border plantings, as the name indicates, are plants placed along the borders of walks or driveways.

The slides graphically brought out the beauty of the so-called "prairie method" of placing trees and shrubbery along the edges of the grounds, walks and drives and leaving the lawn open. Open lawns, Mr. Smith explained, appear larger than those that are covered with trees or shrubbery.

Some of the slides illustrated the pyramid planting of plants, that is, with the highest growing plants in the rear, the next tallest immediately in front of them and the smallest or lowest plants in front.

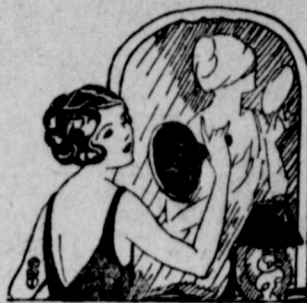

The slides also illustrated the best methods of planting trees, shrubs and flowers on the farm,

especially along driveways and to screen out buildings, feed lots and other unattractive places.

While the slides were being shown, Mr. Smith explained the pictures, pointing out the good features of the method of landscaping illustrated.

There will be no eclipse either of the sun or moon visible in Texas in 1929.

#### Keep That Youthful Look

You look years younger once you have your beauty work done by such experts as you find at

Mitchell's Barber and Beauty Shop

### Fuel system of the new Ford has been designed for reliability and long service

THE practical value of Ford simplicity of design is especially apparent in the fuel system.

The gasoline tank is built integral with the cowl and is unusually sturdy because it is made of heavy sheet steel, tinned to prevent rust or corrosion. An additional factor of strength is the fact that it is composed of only two pieces, instead of three or four, and is electrically welded—not soldered.

Because of the location of the tank, the entire flow of gasoline is an even, natural flow—following the natural law of gravity. This is the simplest and most direct way of supplying gasoline to the carburetor without variations in pressure. The gasoline feed pipe of the new Ford is only 18 inches long and is easily accessible all the way.

The gasoline passes from the tank to the carburetor through a filter or sediment bulb mounted on the steel dash which separates the gasoline tank from the engine.

The carburetor is specially designed and has been built to deliver many thousands of miles of good service.

Since all adjustments are fixed except the needle valve and idler, there is practically nothing to get out of order.

The choke rod on the dash acts as a primer and also as a regulator of your gasoline mixture. The new hot spot manifold insures complete vaporization of the gasoline before it enters the combustion chamber of the engine.

As a matter of fact, the fuel system of the new Ford is so simple in design and so carefully made that it requires very little service attention.

The filter or sediment bulb should be cleaned at regular intervals and the carburetor screen removed and washed in gasoline. Occasionally the drain plug at the bottom of the carburetor should be removed and the carburetor drained for a few seconds.

Have your Ford dealer look after these important little details for you when you have the car oiled and greased. A thorough, periodic checking-up costs little, but it has a great deal to do with long life and continuously good performance.

## TRACTION MAY SAVE YOUR LIFE

Right now—your car has to hold the road in the worst driving months of the year. You need the sharp-edged, deep-grooved, road-biting grip of the greatest safety tire ever built—Firestone Gum-Dipped Balloons! In world-record mountain climbs and endurance runs, this tread has proved its safety and toughness. One look shows you that Firestone has the most gripping edges of any tread you ever saw. It's worth many times the cost of a new set of Firestones to feel the safety of this famous tread beneath you. And they give the greatest mileage ever built into a tire. See us today.

ITEMS OF INTEREST IN DONLEY

ASHTOLA

Sunday school was at the regular hour, but very few were present on account of bad weather.

Miss Helen Parker spent Sunday with Ima Poovey.

Miss Vera Johnson spent Saturday night with Onata Hayter.

Mr. Joe Lewis spent the week-end with W. A. Poovey and family.

Mr. and Mrs. W. A. Poovey and family were at 6:45 Sunday night.

Miss Helen Parker spent Sunday with Ima Poovey.

Mr. and Mrs. R. H. Roberts spent Sunday with Lu McCallan.

Miss Onata Hayter spent Sunday night with Vera Johnson.

Miss Beatrice Randal spent Friday night with Myrtle Armstrong of Clarendon.

Miss Winona Ford spent Monday night with Mary Lois Hayter.

NAYLOR

Miss Lou Naylor of Amarillo spent the week-end with her mother, Mrs. Fanny Naylor.

Rev. Williams filled his regular appointment Sunday, preaching at 11 a. m. and at night.

Mr. Hefner and family were dinner guests of Mr. and Mrs. W. M. Pickering.

Mr. and Mrs. Richard Bowlin spent Sunday with Mr. and Mrs. A. E. Tidrow and in the afternoon all went to Memphis.

Rev. Williams was at dinner with Mr. and Mrs. W. M. Pickering.

Miss Louise Tidrow spent the week-end at Memphis as guest of Miss Lucille Johnson.

Mr. and Mrs. Arthur Carnes and son, Junior, and Mr. and Mrs. J. W. Carnes and daughter, Merle, spent the week-end visiting relatives at Shamrock.

Mr. and Mrs. A. E. Tidrow visited with Mr. and Mrs. Eanes Sunday afternoon late.

Mr. and Mrs. L. R. Bowlin spent Sunday with Wynne Bowlin and family of Hedley.

Mr. and Mrs. Harry Adams and children were Memphis visitors.

Mr. and Mrs. Millard Starks

MARTIN

The Home Demonstration Club met Thursday at the home of Mrs. Patterson.

The sudden death of Mrs. J. L. Reid Friday morning was a surprise to all.

The wedding bells have been ringing at Martin again.

Mr. and Mrs. Virgil Jordan and baby and Mr. Easterling and son, Earl, are in Fordyce, Arkansas, visiting relatives.

Mrs. Roberts of Clarendon spent last Thursday with her mother, Mrs. Hodges.

Miss Mabel Sibley of Glennwood spent the week-end with her parents.

Mr. Jim Baker of Midland has been visiting his mother, Mrs. J. E. Baker.

Mr. and Mrs. Chester Tally and children of Clarendon and Mr. and Mrs. Vester Mosley and children of Lelia Lake spent Sunday in the J. C. Tally home.

Ray Roberts of Amarillo spent the week-end with his parents, Mr. and Mrs. Sam Roberts, and returned to his school Sunday afternoon.

Mr. and Mrs. L. L. Taylor of Clarendon called on Mr. and Mrs. A. M. Lanham a while Sunday night.

Mr. and Mrs. Millard Starks

NEWS' WEEKLY COTTON LETTER

MARKET ADVANCES SLIGHTLY; UNDERTONE BETTER

The cotton market during the period of Feb. 9th to 15th was steady with final quotations up about 1-16 to 1-8 cent compared to those of Feb. 8th.

Domestic demand was rather better than the previous week but foreign demand was reported rather poor.

Domestic demand was said to be centered mostly on middling and strict middling, 15-16 to 1 1-16 inches, with some inquiry for low grades in any staple lengths.

According to the Weather Bureau the past week was unfavorable due to low temperatures, especially for seasonable outside operations.

According to the Bureau of Census January consumption was 668,389 bales compared with 534,352 in December and 586,142 for January, 1928.

Cotton consumed during six months ending Jan. 31st was 3,451,363 bales compared with 3,627,494 for the corresponding period the previous season.

Stocks raw cotton in consuming establishments Jan. 31st was 1,767,742 bales against 1,708,646 the same date last year.

The apparent supply of American cotton in the U. S. Feb. 1st was about 7.9 million bales, compared with about 8.7 million bales on Feb. 1, 1928.

Exports to Feb. 15th this season was 6.0 million bales compared to 5.0 million the corresponding period last season.

Quotations for middling, 7-8 inch, Feb. 15th: Norfolk, 19.18; Augusta, 19.13; Savannah, 19.06; Montgomery, 18.50; New Orleans, 19.02; Memphis, 18.45; Little Rock, 18.36; Dallas, 18.40; Houston, 18.95; Galveston, 19.10.

Average for the ten markets Feb. 15th, 1929, compared to 18.68 per pound a week ago and 17.64 a year ago.

Spot cotton sales in ten markets for the week were 80,456 bales compared with 70,543 the previous week and 53,221 the same week last season.

March future contracts for week at New York advanced 12 points to 19.91, at New Orleans 7 points to 19.27, and at Chicago 7 points to 19.32.

Certified stocks Feb. 15th at New York were 72,531 bales, New Orleans 22,385, Houston 42,535, Galveston 67,300.

MUSEUM SPECIALLY FOR WORKING MEN AND WOMEN

Charts in brilliant colors and models which can be operated by levers or switches are exhibited in the Government Museum of Economics and Social Subjects, recently established in Dusseldorf in the heart of the industrial region of Germany.

The museum is intended to meet the everyday demands for knowledge of working men and women, and the fact that exhibits are portable adds to the flexibility of growth and to the use of the collections.

Exhibits are so placed and charts so colored that the facts presented can be obtained almost at a glance.

In the department of transportation the development of speed from the sailing vessel to the air plane is illustrated by models of the Santa Maria, the Savannah, the Great Western, the Mauretania and the Bremen, which can be propelled at comparative speeds across a miniature Atlantic.—School Life.

LELIA LAKE

Thursday from a visit with her sister, who lives near Santa Anna, California.

Mrs. Carter also visited with J. H. Morrow and family of Corona, California.

Mrs. Oliver Esbie and children spent last week with relatives at Amarillo.

Miss Mary Batson of Memphis spent last week-end with friends here.

R. E. Darnell had business at Amarillo Wednesday.

Friends of Edd Reynolds were surprised Monday when he returned from Hollis, Oklahoma, with his bride, who was Miss Alice Manley before her marriage.

They will make their home in Lelia.

Mrs. J. L. Reid Buried at Lelia Lake Last Saturday

The sudden death of Mrs. J. L. Reid Friday morning was a surprise to all.

The deceased had been in ill health for some time but returned recently from Oklahoma City much improved.

Alice Augusta Bell was born Feb. 20, 1861, at Palo Pinto, Texas, and was married to James L. Reid June 27, 1881, to which union five children were born, four of whom are now living.

Mrs. Reid was converted in childhood and united with the Methodist Church. Mr. and Mrs. Reid moved to Donley County in the year 1887 and settled at the same place where they have resided since.

She is survived by her husband, J. L. Reid, four children, Mrs. Susia McFarland, Los Angeles, California; Mrs. Della Campbell and Mrs. Kate Herwig, Oklahoma City, and Jack Reid of Amarillo.

Six grandchildren, two brothers and two sisters also survive. The last rites were held from the family home Saturday afternoon, the services being conducted by the pastor of the Methodist Church at Lelia Lake.

Palbearers were: Rev. Kennedy, Mark Putman, G. F. Kinch, B. J. and H. K. Leathers. Interment was had in Citizens Cemetery.

The Home Demonstration Club met Tuesday afternoon with Mrs. C. G. Knox as hostess.

Child's Clothing was discussed by the home agent. A demonstration of rebottoming chairs was given by Miss Thompson.

Eleven members and two visitors were present. The next meeting of the club will be held with Mrs. Will Kennedy March 5th.

The value of Texas cotton for 1928 was placed at \$450,625,009.

POSTED NOTICE

This is to notify the public that all of the J. A. Pastures are posted, and hunting, trapping or fishing is not permitted and all trespassers will be prosecuted.

Producers of The Worlds Greatest Rodeo

Come To Cuero FOR THEIR BOOTS

O. D. Dyer, Cuero bootmaker, whose hand made boots are worn by State Ranger Captain Ross Sterling and Walton D. Hood, past commander of the American Legion, won further distinction for his skill and for Cuero, Saturday, when W. T. Johnson, producer of the World's championship rodeo and the National Legion Convention, his son W. T. Jr., and his assistant, W. W. Weatherford of Marfa, drove down from San Antonio to have their measurements taken for four pairs of new boots.

The order totaled \$181.50, Dyer said.

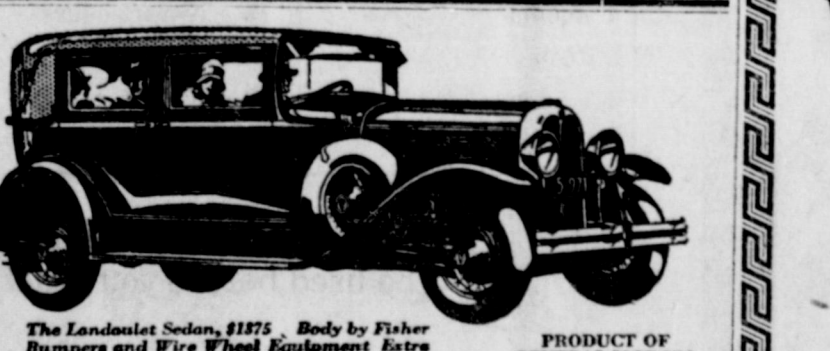

Johnson announced while in Cuero his next great rodeo would be staged next July at Indianapolis, when scores of the world's greatest riders will compete.

His exhibition last October was one of the features of the National Convention of The American Legion in San Antonio—Cuero Record.

Mr. Dyer is formerly of Clarendon, learning the boot business under two of Texas' (West) most noted boot makers, Arlo Hendricks and his father, W. B. Dyer, when the two were in the business here in 1911.

I now have a few samples of Mr. Dyer's boots and can take your measure for them, they must fit or you owe me nothing.

Write O. D. Dyer or Harry Ruddell Cuero, Texas or Clarendon, Texas

### CLUB NOTES

The Martin Home Demonstration Club met in their regular session in the home of Mrs. G. L. Patterson. Eleven members answered to their names when the roll was called, making this one of the best attended meetings of the new year. The demonstration for the day was on home improvement, with the work done being the rebotomming of a chair with uncoiled grass rope. When called upon, each member gave something that could be done to improve the home. In the discussion of the home improvement plans now under way in all the clubs of the county, the items of light, heat, ventilation and sanitation came in for their due share of attention at the hands of the Home Demonstration Agent. These four points are especially essential since they have a direct bearing on the Living Room Contest that has been entered by so many of the women of Donley County.

The Clarendon Home Demonstration Club met for a demonstration of fancy stitches in the home of Mrs. G. A. Anderson with seventeen members present. Child's Clothing was the work of the afternoon, the wearables for a boy from 2 to 5 years and a girl from 2 to 5 and from 6 to 10 years of age. The discussion of the various stitches used in decorating clothing for children of these ages took the greater part of the afternoon and was of great interest to the women who were in the event.

The general requirements of clothing for a child of these ages was discussed for hygienic protection, freedom of movement, economy of material, style and construction and the laundering qualifications and artistic simplicity. The appropriateness of the garment with the age and activities of the wearer was also given its due share of attention during the discussion of the afternoon.

Stitches that were demonstrated and discussed will be found to include: Catch Stitch, Blanket Stitching, Bermuda Fagoting, Roman Border, Cross Stitch, Chain Stitch, Feather Stitch, Smocking, Hemstitching and the many variations of each that are simple and applicable to dresses for youngsters of the age and abilities mentioned.

The place of meeting for the next session was not set, but the club members will be notified of the decisions of the committee in charge of this part of the program.

#### THE FIRST BAPTIST CHURCH

Sunday school, 9:45, S. W. Lowe, Superintendent.  
 Preaching service, 11 a. m.  
 Subject: "For Christ's Sake."  
 Adjournment 11:50.  
 E. Y. P. U. meetings, 6:30 p. m.  
 The Municipal Band will give a sacred concert at the evening service beginning at 7:30.  
 Prayer service Wednesday evening, 7:30.

The News regrets to announce the removal of the W. M. Emmons family from the Chamberlain community, they having left the fore part of this week for their new home six miles south of Plainview. Before leaving, Mr. Emmons came into the office of the News and asked that his paper be sent him in their new home.

#### PASTORS ENTHUSIASTIC DESPITE COLD WEATHER

Thirteen of the nineteen pastors of the Clarendon District were in attendance on the Pastors' meeting Monday of this week despite the fact that the weather was the most severe that has been seen here for some years. Presiding Elder Murrell states that the program of the church was discussed and plans for the remainder of the year were laid. The place for the next meeting of the organization was not set.

#### FIRST CHRISTIAN CHURCH

Henry Taylor, pastor.  
 Sunday school meets in all departments at 9:45.  
 Morning service at 11:00 a. m. on subject, "Launching Out into the Deep."  
 Evening hour subject, "The Sermon that Christ Preached."  
 Special welcome is extended to those who care to come and worship with us in any part of the services.  
 Mid-week services each Wednesday evening. You are invited.

O. V. Vernon of Amarillo spent the past week-end in Clarendon with his parents, Mr. and Mrs. H. R. Vernon, in the Antro Hotel.

Mr. and Mrs. G. L. Boykin and James Lester returned late last Sunday evening from Waco, where they had been called by the death of Mrs. Boykin's father. They were accompanied here by the nephew of Mr. Boykin, Raymond Boykin, of Fort Worth, who will remain here and attend school for the other part of this year.

#### NOTICE FOR BIDS FOR COUNTY DEPOSITORY

Notice is hereby given, by publication in a newspaper and by posting a copy hereof at the door of the Court House in Donley County, Texas, that at the March Term of the Commissioners' Court, A. D. 1929, the same being March 11th, 1929, bids will be received from any and all Banking Corporations, associations, or Individual Bankers, in Donley County, that may desire to be selected as the depository of the funds of Donley County, such bidder shall deliver to the County Judge, on or before the first day of the March Term of the Commissioners' Court, at which the selection of a depository is to be made, a sealed proposal stating the rate of interest offered on the funds of the County, for the term between the date of such bid and the next regular time for the selection of a depository. Said bid shall be accompanied by a certified check for not less than one-half of one per cent of the County revenue for the year 1928, as a guarantee of the good faith on the part of the bidder, and that if his bid is accepted he will enter into bond as required by law. Reserving, however, the right to reject any or all bids.  
 This, 18th day of February, A. D. 1929.  
 J. J. Alexander,  
 County Judge, Donley Co., Texas.

Mr. and Mrs. O. W. Latson and family motored to McLean Sunday for a visit with Mr. and Mrs. Bill Bentley, their daughter. Master Billie Bentley returned to their home here with them and will visit for a while.

# REDUCTION IN ELECTRIC RATE

Lower rates for electricity for domestic and commercial purposes have been made voluntarily by the West Texas Utilities Company. The cost per kilowatt-hour has been reduced and the number of kilowatt-hours in each block before the next lower rate applies has been lessened. Based on the number of rooms in residence the new rate gives the small householder the same advantage of a lowering scale, as consumption increases, that larger users enjoy. The new rate enables consumers to make economical use of the many convenient and labor saving electric appliances.

## The New Rate For Residences

- 13** CENTS net per kilowatt-hour for the first four kilowatt-hours used per room per month.
- 9** CENTS net per kilowatt-hour for the next four kilowatt-hours used per room per month.
- 6** CENTS net per kilowatt-hour for all energy used in excess of the above amount.

Minimum monthly bill \$1.50 per meter.

## Determination Of Number Of Rooms

The room count is based upon the ordinary real estate rating, and in making the count, alcoves, unfurnished attics, bathrooms, cellars, hallways, laundries, closets, pantries, open porches, garages, barns, and outbuildings will not be included. Premises with less than three rooms, real estate rating, will be classed as 3-room premises; those with more than seven rooms will be rated as 7-room premises. **THE NUMBER OF OUTLETS AND APPLIANCES USED DO NOT AFFECT THE RATE.**

Table Showing the New Rate and Number of Kilowatt-hours in Each Step

Size of Residence	First Step	Second Step	Third Step
	13 cents per Kilowatt-hour	9 cents per Kilowatt-hour	The New SIX CENT
3 Rooms or less	12 Kilowatt-hours	12 Kilowatt-hours	For all Kilowatt-hours used each month over total of first and second steps per kilowatt-hours. <b>6c</b>
4 Rooms	16 Kilowatt-hours	16 Kilowatt-hours	
5 Rooms	20 Kilowatt-hours	20 Kilowatt-hours	
6 Rooms	24 Kilowatt-hours	24 Kilowatt-hours	
7 Rooms or more	28 Kilowatt-hours	28 Kilowatt-hours	

You will note how few kilowatt-hours per month need be used before you reach the new low SIX CENT price.

## Commercial Rate

- 13** CENTS net per kilowatt-hour for the first 30 hours of maximum demand.
- 10** CENTS net per kilowatt-hour for the next 60 hours use of maximum demand.
- 5** CENTS net per kilowatt-hour for all energy used in excess of the above amounts.

The new rate makes liberal use of electricity for all purposes in commercial establishments inexpensive. Minimum monthly bill \$1.50 per meter.

Further explanation of the rates will be given gladly upon request.

**THESE RATES EFFECTIVE IN CLARENDON ON THE FIRST DAY OF JANUARY, 1929.**

# West Texas Utilities Company
