Mail Foreign Christmas Packages Beginning September 15th

The Christmas shopping season is here—even though the weather is still warm.

Mailing of gifts for Army and Navy personnel overseas must begin by September 15, if many of the men and women in our armed services are not to be disappointed and September 15 is less than a half month away.

Christmas gifts may be mailed by parcel post to Army men and women overseas only between September 15 and October 15. After the latter date, such parcels may not be mailed unless a written request from the soldier for the article is presented with each parcel. No soldier should have to ASK for a Christmas gift; so gifts must be mailed on time. The Navy also urges that gifts be mailed between September 15 and Oct. 15.

Reasons for the early mailing dates are: The vast distances that the parcels must travel to reach our men at war fronts and stations the world over; frequent transfers of thousands of men from one location to another, which means forwarding of the mail and consumes additional time; the necessity for giving preference to reinforcements, arms, munitions, medicine and food in allotment of shipping space, which often means that the shipments of gifts must wait. And it is most urgent that gifts be delivered to the men IN TIME FOR CHRISTMAS, to keep their spirit high.

The only way to insure against disappointment for the fighting men is to buy at once and mail

early—mail your gifts as soon as possible after the September 15 starting date.

Those who have relatives or friends in the service should remember that we have fighting men in Alaska, Greenland, Iceland, England, Sicily, far-separated regions of Africa, the Near Eastern countries, Australia, many of the South Pacific islands, India, China, South America, and other areas.

Weeks are required for a ship to reach many of these stations. There can be no assurance, of course, that the first ship sailing for any of these locations will have space available to carry Christmas parcels. Gifts may have to wait until vitally needed supplies and equipment have been shipped, to assure victory and to save the lives of our men. If the parcels are not mailed early, that delay may prove to be just enough to prevent their arrival by Christmas day, with consequent disappointment to the men who are offering their lives for their country and ours.

Mail of all kinds is vital to the spirit of fighting men. Every officer who has inspected our Army and Navy postal facilities overseas has reported that thousands of fighting men disregard mess call when it conflicts with mail call, and get their letters first. Officers at our large military and naval stations report that the spirit and efficiency of their men receive a distinct lift when mail is distributed, and that a delay in mail service caused a decided decline in spirit with a consequent letdown in efficiency.

A disconsolate soldier or sailor who thinks he has been forgotten at Christmas obviously is not at his best. So the gifts MUST be mailed on time so that they can arrive on time.

Rules for Christmas mailings to the fighting forces overseas were made public in June for the guidance of early shoppers. They include:

The parcel must not exceed five pounds, and must not be more than 15 inches in length or 36 inches in length and girth combined. It should be marked "Christmas parcel" so that it may be given special attention to assure its arrival before December 25.

Not more than one parcel may be mailed in any one week to the same member of the armed forces by or in behalf of the same mailer.

The parcel must be well and strongly packed, in a container of metal, wood, strong fiber board, or similar material, then wrapped in strong paper and tied with twine. The cover should be such that it can be opened readily for censorship. The contents should be packed tightly.

Perishable goods, such as fruits that may spoil, are prohibited. Intoxicants, inflammable materials such as matches or lighter fluids, poisons, and anything that

may damage other mail also are prohibited. Gifts enclosed in glass should be substantially packed to avoid breakage. Sharp instruments, such as razors and knives, must have their edges and points protected so that they cannot cut through the coverings and injure postal personnel or damage other packages.

Since the armed forces are being plentifully supplied with food and clothing, the Army and Navy recommend against these as gifts.

Addresses must be written clearly and completely. In addition to the return address of the sender, a parcel for an Army man should show the name, rank, Army serial number, branch of service, organization, Army post office number, and name of post office through which the parcel is routed. A typical address for an Army man:

Pvt. John R. Doe (Army serial No. Company F, 167th Infantry A.P.O. 810, % Postmaster New York, N. Y.

The address on a parcel for a Navy man should include the name and rank or rating of the addressee, the Naval unit to which he is assigned and the Navy number assigned thereto, or the name of his ship, and the fleet post office through which the parcel is routed. A typical Navy address: John M. Jones, S/1c, U. S. Navy Naval Air Station Navy 199 (one nine nine) % Fleet Post Office San Francisco, Calif.

or: Lieut. Roger W. Doe, U. S. Navy U. S. S. Minnesota % Fleet Post Office San Francisco, Calif.

SMALL ENGINES TO FARMERS Distribution of about 37,000 air and liquid-cooled internal combustion engines of 20-horsepower and under will be controlled by county farm rationing committees. Preference rating certificates will be issued to farmers or operators of farm machinery for hire, based on the need for the engine in essential production of crops, livestock and livestock products, poultry and eggs, and bees. When the farmer receives such a preference rating certificate, he can take it to his local dealer and buy the engine.

THE DRAFT OF DADS

In the pro and con argument about the draft of pre-Pearl Harbor fathers we haven't heard mentioned a proposal that Collier's magazine made several weeks ago and which to us seemed sound.

We have checked the matter with local health authorities and find they also believe it sound.

Collier's suggested that if more men are needed by the armed forces why not take the 680,000 who were turned down because of venereal disease. It pointed out that under modern methods this can be rather easily and speedily cured.

Local health authorities agree. They say isolation probably would not be necessary except in a comparatively few cases, and then only for a short while. The disease can be cured, they say, if the patient will submit regularly to hypodermic administrations. In civilian life he doesn't have to, and often does not.

Besides, venereal disease has in recent years become a national menace and even disregarding the matter of fighting men, it does seem the Army could render no greater service to the country than to cure these men and not release them on a more or less unsuspecting public.—Dalhart Texan.

Tin encases the emergency sulpho ointments which protect the wounded soldier from infection.

CIVIL SERVICE ANNOUNCEMENT

Open competitive examinations have been announced for several positions in the Price Division, Lubbock District Office, Office of Price Administration, according to Ernest L. Hunt of local civil service board. These positions include Price Specialist, \$3800 per annum, Associate Price Specialist (Textiles or Foods), \$3200, and Assistant Price Specialist, \$2600.

For the position of Price Specialist, persons with five years of progressively responsible executive, analytical, or policy-making experience are desired. The Associate Price Specialist requires at least four years of accounting or auditing experience, two years of which must have been in the field of textiles or foods. Three years of progressively responsible full-time paid experience in business or industry including at least two years in a responsible accounting or auditing capacity is qualifying for the position of Assistant Price Specialist. All positions require ability to meet and deal satisfactorily with the general public.

Applications and further information may be secured from the local civil service secretary at any first or second-class post office in which this notice is posted. Applications should be filed by or before the close of business, September 3, 1943, with the Director, Tenth Civil Service Region, 210 S. Harwood St., Dallas, 1, Texas.

A LABOR DAY SALUTE

TO OUR WAR PRODUCERS

As the Nation pauses to honor War workers on Sept. 6th, we offer three cheers for the farmers in our territory who have worked so hard and patriotically this Summer to produce more food for Uncle Sam and our fighting Allies.

For food is just as important as bullets in maintaining today's accelerated march toward Victory. All honor then to our War producers - - - in field, in factory everywhere.

Have a "Coke" = Cead Mile Failte

(A HUNDRED THOUSAND WELCOMES)

...or how Americans make friends in Ireland

Cead Mile Failte—a hundred thousand welcomes—says the kindly Irishman when he meets a stranger. The American soldier says it another way. Have a "Coke", says he, and in three words he has said Greetings, pal. It's a phrase that works as well in Belfast as in Boston. Around the globe Coca-Cola stands for the pause that refreshes—has become the high-sign between friendly-minded people.

## George Washington called it a "BURNING SPRING"

Today, it becomes 100 Octane Aviation Gasoline!

CARE FOR YOUR CAR—FOR YOUR COUNTRY

NATURAL GAS, seeping up through rock and earth and water, fed the strange flame which Washington described as a "burning spring."  
Today, natural gas flows from controlled wells to feed a gigantic maze of pipes, tanks, and towers. In these it is transformed into an astonishing variety of essential wartime chemicals.  
These petroleum chemicals are basic materials for 100 octane aviation gasoline . . . synthetic rubber . . . explosives . . . plastics . . . medicines and anesthetics. The list is almost endless because natural gas is an overflowing storehouse of hydrocarbons (carbon-

hydrogen compounds). When split, these become the chemical building blocks for constructing an almost limitless number of products.  
It is easy to understand, therefore, the importance of two Phillips facts: 1. Phillips Petroleum Company has, we believe, the world's largest proven natural gas reserves. 2. Phillips has for many years been a leader in extending the frontiers of knowledge concerning hydrocarbon chemistry.  
From now on, every time you see the Phillips 66 Shield, let it remind you that Phillips refineries in addition to producing gasolines, lubricants, and fuel oils, are also gigantic chemical plants pouring out weapons for victory.  
PHILLIPS PETROLEUM COMPANY  
Bartlesville, Okla.

## FOR VICTORY... Buy U. S. War Bonds and Stamps

the folks to think more about hell and no water." Never heard that one before did you?

**METEOROLOGICAL.**  
What is so rare as a day in August. RAIN!!!

**INGENUITY.**  
Necessity being the Ma of invention helped a girl, armed with a stove poker, to free herself and her lover from the Harrisonville, Mo. jail Friday. Nope, they can't buy hairpins any more.

**INFORMATION.**  
Beginning about 1800, read your European history and you won't wonder at all about Russia keeping her plans to herself. If you are really interested in the war, read history. You get a far better outlook on the present situation.

**CHOICY.**  
"If death comes upon me suddenly," old Hastoon Yazzie stated Monday, "I hope I am found in the middle of my Victory garden."

**TO CHECK MALARIA IN 7 DAYS take 666**  
Liquid for Malarial Symptoms.

I'd hate like the dickens for the newspaper to say that my body was identified only by a sear and two old letters."

**NOTORIETY.**  
In the church is the only place where the late comer has to take a front seat on collection day.

**FRIZZLA-FRAZZLE.**  
How's your Victory garden? Strange as it might seem, mine is doing nicely, thank you. Both okras and the one pepper stalk are staying right in there to date. Plenty of time yet to sow turnips and other green stuff for winter use. That's the only bright side left.

**FARM CASH INCOME SHOWS INCREASE**  
War time's steady gain in farm cash income was continued in Texas during July, as agricultural income during the month totaled \$74,000,000 as compared with \$57,000,000 during the same month of 1942, the University of Texas Bureau of Business Research has announced.  
Higher prices for farm products rather than increased production accounted for most of the gain, Dr. F. A. Buechel, assistant director of the Bureau, pointed out. Farm

cash income so far in 1943 has reached the figure of \$464,000,000, or 38 per cent more than that for a corresponding period of last year, Dr. Buechel revealed.

"For the remainder of this year, the farmer's cash income will closely approximate that of 1942," Dr. Buechel predicted. "Earlier maturing of cotton and the slightly higher level of cotton prices may bring small increases, however."

### FARM HELP FROM LATIN AMERICA

A total of 57,489 workers from Mexico, Jamaica, and the Bahama Islands have come to this country for agricultural employment. Marvin Jones, War Food Administrator, recently praised the ability of these workers and described their efforts as being of utmost importance to the production of food and fiber for war needs. Mexican Nationals have been employed in agriculture in 12 western states. Jamaicans and Bahamians have been employed largely in east coast states and in the middle west. The workers have come into this country to relieve farm labor shortages in critical areas. When the need for their services has passed, they will be returned to their home countries.

Mr. and Mrs. Dee Lowry went to Skellytown Friday to bring their household effects down.

**Record Voice On Hair-Like Wire**

Sixty-six minutes of continuous speech can be recorded on 11,500 feet of hair-like steel wire on a spool no larger than the ordinary doughnut, in a new type of wire sound recorder being built by General Electric Company.

Operating under a license of the Armour Research Foundation in Chicago, engineers in General Electric's laboratory are now engaged in redesigning the apparatus so that it can be manufactured in mass production to meet the demands of both the Army and Navy.

The recorder, itself, is contained in a small box, weighing about 9 pounds. It has many wartime uses, but perhaps none more important than in observation planes. Instead of the customary pad and pencil now used by pilots in making notes of what they see on scouting trips, they can dictate into a small microphone just as the busy office executive now uses a dictaphone. Instead of the observer's words being recorded on a wax cylinder they are recorded magnetically on wire which is but four one-thousandths of an inch in diameter.

Unlike the wax cylinder which is breakable, there is no apparent wearout to the wire. In fact, 100,000 reproductions have failed to alter its quality in any respect.

When there is no longer any use for the recordings, the speech can be readily "wiped off" magnetically, and the wire is as good as new for future recordings.

Magnetic steel wire recording is not a new idea. As early as 1898 Valdamar Poulsen, a Danish scientist, introduced the method and used it to record high-speed arc radio signals. However, suitable amplifiers were not available at that time and the quality was poor. With the new method developed by Marvin Camras, assistant physicist of the Armour Institute, many changes have been made and the quality improved so as to compare favorably with the ordinary phonograph records.

A recent report from England stated that the sound recorded is now being used in the war zones and that "a fight talk of a Flying Fortress crew, attacking Nazi airfields in France, was recorded on a small spool of wire."

This was brought back to England, and according to Major H. L. Nussbaum, "All the conversation of the crew inside the Fortress as well as the sounds of battle were brought back as an oral record of the 66-minute flight."

**TODAY'S ARMY IS FAR BETTER EDUCATED THAN IN PAST**

Today's citizens' army is far better educated than that of World War I, a Navy liaison officer, addressing a teachers conference at the University of Texas, has declared.

Lt. H. C. Benedict, of the Texas Selective Service Headquarters, revealed that 25 per cent of today's fighters are high school graduates, as compared with 4 per cent in the last war.

Greatest contribution of American education to post-war reconstructions will be the clarification of political, economic and military issues in the minds of the people, Lt. Benedict said.

"Education is playing a great role now in training manpower for war activities and civilian defense activities," he said, "but its biggest contribution is in the continued process of turning out the finest group of boys and girls America has ever seen."

**Most of Food Waste Occurs In the Home**

One-fifth of the food civilians buy is thrown into the garbage can. Analytical studies of garbage collected in 247 cities show that it contains an average of 300 pounds of food per person per year—an average waste of more than 3/4 pound of food for each individual everyday. Most of this country's food waste occurs in the home. Food is cooked away, drained down the sink, left on plates, and dumped into garbage pails.

The food supply can be increased simply by not throwing it away. Last year the people of the United States wasted more food than is needed by both the armed forces and the lend-lease requirements of the Allies.

Immense quantities of food went to waste on farms; more of it was lost in transit; it was dropped by the wayside at wholesal-

With all Labor united in the all-out effort to keep the production lines rolling with trucks, guns, planes, ships and other war material, Labor Day 1943 is significant in the life of our Democracy. For only here and in other Democracies is Labor free and we are fighting to win this war to keep it free—and to free all people from the yoke of tyrannical dictators. U. S. Treasury Department

ers. Much of the food wasted, year; and America's Allies are re-rebriused and spoiled, was swept out the back door of retail stores. And staggering amounts of food were scraped off unfinished plates in restaurants and public eating places.

Small quantities of food wasted in the home add up to an astounding total for the whole country. What one average American family does in conserving food does not seem very dramatic, but what every average American family can do together to save food will materially increase the supply.

The home front is getting 75 percent of the food supply; the armed forces need 13 percent this

**PRICE SUPPORT FOR SWEET POTATOES**

To encourage farmers to cure and store as much as possible of this year's expected crop of 81 million bushels of sweet potatoes, farmers will be assured a minimum of \$1.50 per bushel for U. S. No. 1 or better grade cured sweet potatoes properly packed in bushel crates, baskets or hampers and offered during January, and \$1.65 per bushel beginning February 1, 1944. Prices of U. S. sweet potatoes containing not less than 75 percent No. 1 quality will be 15 cents per bushel less than the above prices. Farmers desiring information concerning the handling of sweet potatoes are requested to get in touch with their state or county agricultural war boards.

**Johnnie Bates**

FIRST CLASS SHINE AND SHOE DYE JOBS at Whitlock's Barber Shop

Starts Thursday SEPTEMBER 9TH

**3RD WAR LOAN DRIVE FOR INVASION**

Put a circle around the date—Thursday, September 9th. For that's the day the 3rd War Loan Drive starts.

On that day, you will be asked to go the limit to back our valiant fighting men. You will be asked to do your share in the greatest invasion the world has ever seen. Answer your country's roll call!

Your part is to back this invasion by investing in at least one EXTRA \$100 War Bond in September. That's in addition to your regular War Bond purchases. Invest more than \$100—a lot more—if you possibly can.

The job is big. Everyone must do his full share if we are to put this drive over the top.

War Bonds are the safest investment in the world. For your own sake, for your Country's sake, put every spare dime and dollar in War Bonds during the 3rd War Loan Drive.

BACK THE ATTACK—WITH WAR BONDS YOUR DONLEY COUNTY LEADER

It's up to YOU to put it over- 3rd WAR LOAN

**GOLDSTON**

Beatrice Smith

The Union Revival meeting closed Sunday night with a good attendance all week. Rev. Quatlebaum, pastor of the Methodist Church in Clarendon, held services the first of the week and Rev. Buren Higdon, pastor of the Baptist Church in Channing, held services the remainder of the week.

Mr. and Mrs. Clyde Hudson of Logan, N. Mex. spent last Wednesday with his brother and family, Mr. and Mrs. Neely Hudson.

Miss Betty Fern Higdon returned home Thursday after spending a few weeks with her brother and family, Rev. and Mrs. Buren Higdon of Channing.

Joe De Berry of Memphis spent Sunday evening with H. C. Smith.

The teachers of Goldston school are Miss Margaret White of Lelia Lake and Miss Wilma Watkins of Ashtola.

Mr. and Mrs. George Gray, Florence Stearning and Mr. and Mrs. H. F. Johnson spent Sunday afternoon in the home of Mr. and Mrs. Fred Johnson of Clarendon.

Mr. and Mrs. Carl Tucker and Rev. Buren Higdon visited awhile Sunday evening in the homes of Mr. and Mrs. Odell McBrayer and Mr. and Mrs. Edd Mooring.

Pvt. Edward Dishman who has been home on a two weeks furlough visiting his parents, returned to camp Wednesday. His brother Earl received a medical discharge from the army.

Mr. and Mrs. Nath Helton and daughter spent Sunday with her parents, Mr. and Mrs. H. M. Stewart.

Mr. and Mrs. Lloyd Brock of Groom spent the week end with his parents, Mr. and Mrs. Roy Brock.

Mr. and Mrs. H. C. Smith and John and Beatrice visited with Mr. and Mrs. Lester Shields' awhile Sunday evening.

Collier Brock returned home last week after spending a few

weeks with relatives in Arkansas. Ishamel Pelton has been visiting in the home of Mr. and Mrs. Hubert Johnson and family.

Mildred Haynes spent a few days in the home of Mr. and Mrs. J. E. Haynes and family last week.

Dorothy and Jimmie Haynes spent two weeks visiting friends and relatives in Amarillo.

Mr. and Mrs. Hubert Johnson spent Friday night in the home of Mr. and Mrs. J. C. Longan and family.

Miss Fern Haynes and Mr. Ivan Gee were married in Boise City, Okla., August 15. The bride is the daughter of Mr. and Mrs. J. E. Haynes of this community and is a graduate of Amarillo Senior High. The groom is employed at Morrison Supply Co. They are at home at 101 Bonita Ave., Amarillo.

Mr. and Mrs. Louie Morris and sons of Ashtola spent Sunday in the John Stewart home.

Miss Bonnie Rowe and Mr. Earl Watson were married last week. Billie Smith spent Sunday in the McBrayer home.

Pharm. Mate Ralph Stewart who has been home on a few days leave visiting his parents left the first of the week for camp.

Rev. Buren Higdon was a dinner guest in the Carl Tucker home Sunday.

Mr. and Mrs. Roy Roberson and family spent Sunday with his mother and sister, Mrs. M. F. Roberson and Minnie.

Owen Schwytzer of Illinois, a cousin of Joe Dilli, is spending a few weeks in the Dilli home.

Mr. and Mrs. Bill Higdon and family and Wilma Smith spent Sunday in the Edd Mooring home.

Mr. and Mrs. Tom Mooring and sons moved to Hudgins where he will be the bus driver the coming year.

Mrs. Murphy Brock left last week for Arkansas where she will spend a few weeks with relatives.

**ARMY SALVAGES FATS**

It is estimated that enough waste fats are salvaged in army camps within the continental U. S. to make 1,500,000 pounds of dynamite each month and still leave a residue of rendered grease from which 5,000,000 pounds of soap stock may be made.

**He's Sure to get V...-MAIL**  
Safest Overseas Mail  
U. S. ARMY POSTAL SERVICE

Bureau of Public Relations U. S. War Department  
**V-MAIL ROUND THE WORLD**—With V-Mail now in operation to and from all overseas scenes of military action, the War Department is intensifying its efforts to bring about a greater use of this safest of all overseas postal facilities. By holding the original letter at the port of embarkation until the microfilmed copy has arrived safely at its destination, it is possible in the case of V-Mail to insure overseas arrival of every individual letter. Already well over 100,000,000 V-Mail letters have been handled by the Army Postal Service without a single loss. V-Mail received the highest overseas mail priority and always is carried by air.

**Home Front Pledge By Housewives Helps Nation's War Effort**

1. I pay no more than top legal prices.  
2. I will accept no rationed goods without giving up ration stamps.

The above statements are the Home Front Pledge which housewives all over the country are being asked to make and keep.

To help the shopper, specific top dollars and cents prices are being issued for the most important foods that go into the Nation's market basket. Newspapers will publish the maximum prices that can be charged in each community and the housewife should cut out the list and take it with her when she goes shopping.

**Consumer Benefits**

The housewife who "buys by price" and never pays more than these new visible legal prices will cut down the cost of essential foods.

She will contribute to the stamping out of black markets.

She will help keep the lid on the cost of living.

She will have more money for war bonds and savings.

When the housewife knows that her retailer's selling price exceeds the top legal price for that commodity, she should call it to his attention. Most grocers and dealers are honest and patriotic. They are operating short-handed and are burdened by extra work due to wartime conditions. When mistakes are called to their attention, they usually try to correct them.

**Report Violations**

However, if a retailer will not correct an obvious mistake, or if the housewife knows that he constantly and willfully violates price regulations, she should refuse to buy from him and should write to the price Panel of her local War Price and Rationing Board. In her letter she should include as many facts as possible about the violation, giving a description of the item and the illegal price asked for it by the retailer. She should sign her name and address, which will not be made public without her permission.

**CIVIL SERVICE ANNOUNCEMENT**

The assistant board operations officer, \$2600 a year plus overtime, in the Lubbock district OPA office will be filled from a list of eligibles obtained as a result of the current civil service examination for that position, according to Elmer G. Hayes, local civil service secretary.

Applicants must have had four years of administrative experience including the planning and directing of large operational programs, the training of employees, and the interpreting of regulations.

Application forms may be secured at any first or second class post office and must be filed before September 11, 1943, with the Director, Tenth Civil Service Region, 210 S. Harwood St., Dallas 1, Texas.

Donley County Leader, \$2 a year.

**CIVIL SERVICE ANNOUNCEMENT**

Statewide competition began today for the civil service examination announced for filling the \$4600 a year position of general salvage executive with the War Production Board at Austin, Texas, according to Elmer G. Hayes, local civil service secretary, from whom the necessary application forms may be secured.

Applicants must have had six years of experience involving the supervision of employees and the planning, organizing, directing, and coordination of their work.

"The salvage executive organizes and directs state-wide programs for the collection and disposition of waste and scrap metals," Mr. Hayes said.

It is his job to aid and stimulate county and city defense councils in the formation of salvage committees, advising them in the setting up and operation of a volunteer salvage organization in each locality that will tap effectively every household for general scrap.

Applications must be on file with the director, Tenth Civil Service Region, 210 S. Harwood St., Dallas, Texas on or before September 6, 1943.

**HERSHEY SHOWS ORDER OF INDUCTION**

"The selection of men needed for the armed forces and the deferment of men required for agriculture, war production and war supporting activities are much more difficult than in the days when we had ample men from which to choose," said Major General Lewis B. Hershey, Director of Selective Service, in a recent letter to local boards. He said, "Available men will be called for induction in the following order: (1) single men without dependents, (2) single men with collateral dependents, (3) married men without children, (4) men with children (nondeferable activities and occupations), (5) men with children."

**AMAZING WORM MEDICINE**  
PHENOTHIAZINE is called the "wonder drug" because it is effective in treating more kinds of livestock for more kinds of parasites than any other drug known up to now. Treatment is simple—in many cases it can be given with feed. Cost is but a few cents a head. Livestock is too valuable today to take a chance. If you have worm infested CALVES, CATTLE, SHEEP, GOATS, HORSES, MULES, SWINE or CHICKENS and TURKEYS, try treating them with this amazing new preparation. Complete directions on bottle label.

### Mrs. Clyde Bridges Pays Tribute To Donley Boys and Girls In Service

**EDITORS NOTE**—Recently at the Hedley Old Settlers' Picnic held north of Hedley at Tate Grove, Mrs. Clyde Bridges of Hedley was asked to pay tribute to the boys and girls of Donley County who are now serving their Country in time of war. We believe the sentiment expressed in her talk speaks the thought of every red blooded American.

Mr. Chairman,  
Pioneers and Friends—  
I feel that I have indeed been

honored—having been asked to pay tribute to our Donley County boys and girls in the Service.

My heart beats with pride as I think of our boys and girls. I say our because my only son is one of them.

We, the Pioneers of Donley County, honor you. We are proud of each boy and girl Donley County has serving in this great conflict.

Our boys and girls are giving their all, their life if necessary—each doing their best for our America.

But friends, what are you and I doing here on the home front. Remember all battles are not fought on a fighting battle field.

You and I must fight to keep our Land of the Free and Home of the Brave—a better place for our boys and girls to return to. They have every right to expect this of us; and if we do not try to have a better Donley County for our boys and girls, we have failed in our duty to them.

I know of no finer tribute to pay

our brave lads than serve well the Great Commander, who is able to give victory and everlasting peace.

May God bless each boy and girl and keep them from harm is our prayer.

May each of us do our part and not cause one disappointment when Victory is won and they return home.

I have been requested to bring a poem which expresses their feeling toward one who does not do his part.

**THANK GOD WE DON'T NEED YOUR KID!**  
(To Whom It May Concern)

You say he can't stand the army  
The life is too rough for him  
Do you think he is better  
Than some other Mother's Tom or Jim?

You raised him up like a girl  
He doesn't smoke or drink is your brag  
If all the boys were like him  
What would become of our Flag?

You say let the roughnecks do the fighting  
They are used to the beans and the stew

I am glad that I am classed with the roughnecks  
Who would fight for the Red, White and Blue.

You say his girl couldn't stand it  
To send him off with the rest  
Don't you think she would be glad when she  
Feels a German's breath on her breast.

Think of the women of Belgium  
Of the cruelties they had to bear  
Do you want the same thing to happen

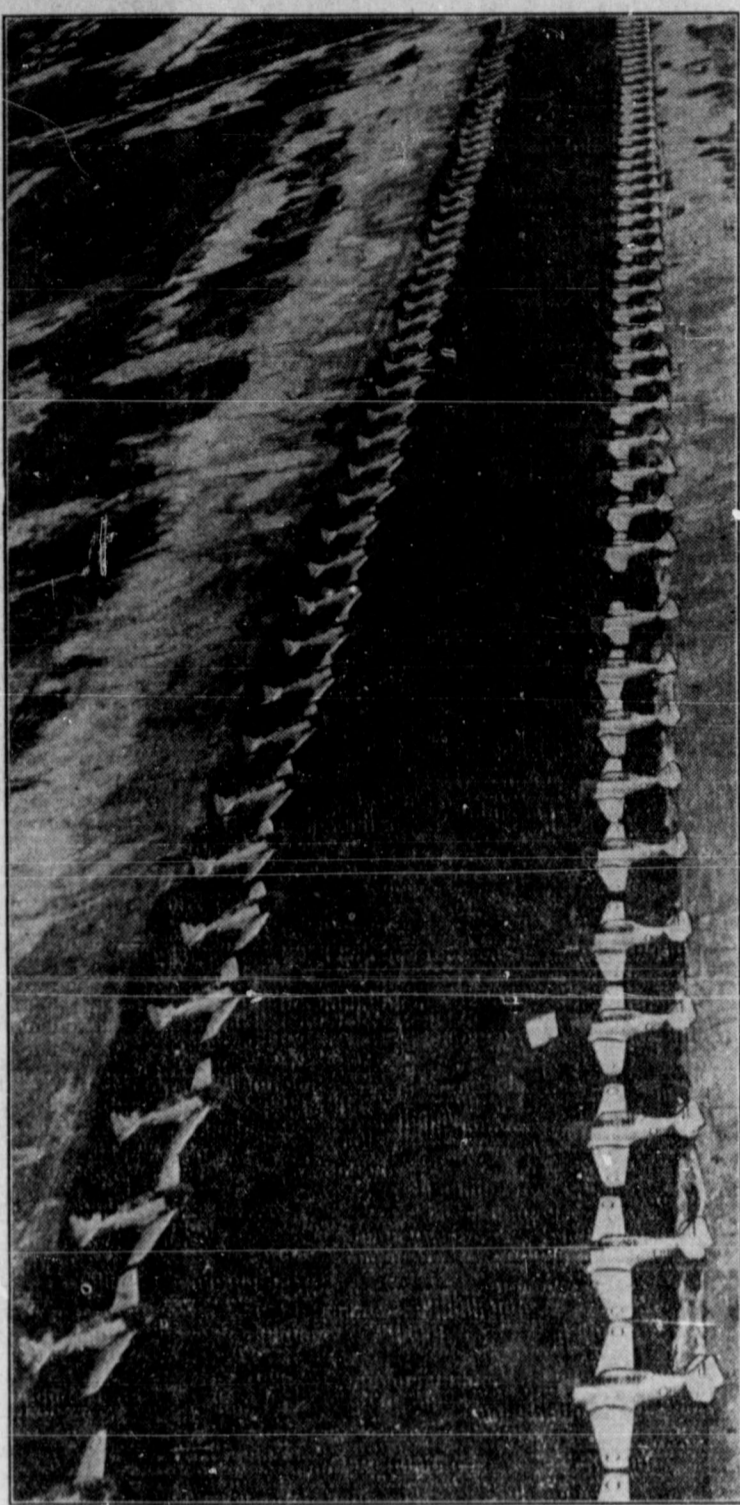

To your innocent Daughter so fair?

You can thank God that the Stars in Old Glory  
Are not blurred with that kind of stain

Because there are ten millions of the roughnecks  
That have red blood in their veins.

They go to drill in the bad weather  
And come with a grin on their face  
While your darling sets in the parlor

### Canada Keeps Them Flying

MORE than 100 Harvard advanced trainers—built in Canada—await "fly away" on the plant airfield of one of the Dominion's largest aircraft factories where 8,000 men and women are employed. Canadian aircraft program is now concentrated on four types of service planes, and four types of training planes, as well as a general utility and transport aircraft, the Norseman, of Canadian design, which is being manufactured in the same plant as the Harvard for both Canada and the United States.

Prior to the war Canada's aircraft industry made about 40 planes a year. Today production has been increased to several hundred a month. Canada employs more than 97,000 men and women in its aircraft plants.

### Battle Trucks

Thousands of United States Ordnance Department trucks played an important role in the smashing Russian victories at Orel, Belgorod, Kharkov and Bryansk, according to reports received today by Lt. Colonel R. M. Bacher, commanding Pantex Ordnance Plant, near Amarillo.

The extent to which modern armies are relying on motorization, Col. Bacher said, is graphically illustrated by the fact that, in one day, the Ordnance Department, Army Service Forces, placed an order for 880,000 vehicles. The result has been that the 400,000 horsepower of today's American infantry division is 125 times the 3,200 horsepower of the infantry division in World War I.

The enemy also knows the value of motorization. Col. Bacher stated that Field Marshal Rommel used 50,000 trucks in his advance on El Alamein alone.

More than 25 American automotive companies are building military vehicles for United States soldiers in 70 theatres of war, as well as for our fighting Allies.

In global war, different trucks are built to compensate for the peculiarities of specific battle areas. Army Ordnance trucks which are used on the Russian front, for example, must stand up and operate dependably under sub-zero temperatures, but they must be equally battle-worthy in desert or tropical heat.

That the going in Australia is tough on trucks and men is indicated by the fact that, on certain runs, drivers must wear respirators because of the dust kicked up by the convoy and wind.

Then there is the problem presented in the Southwest Pacific area and in India, by tropical drizzle or torrential rain—with axle-hugging mud to ooze into brake drums, leaving, when the sun finally does come out, a metal-chewing pumice, or silt-like shale, that taxes the patience of automotive engineers.

No American worker knows when a truck leaves the assembly line today just where it will finally end up. Everything has to be anticipated. Nothing can be neglected or overlooked.

Out of the demand for an all-purpose vehicle for total war emerged Army Ordnance's basic military truck—the 2½ ton, "six-by-six." This powerful truck has six wheels, four in back and two in front, and all of them drive—hence the term "six-by-six." This vehicle will climb a 65 per cent grade. It will go wherever the troops go, across country, swamps, shelled areas, anywhere—to move

men, guns, supplies and ammunition wherever combat forces, American, Russian or United Nations, may be located.

Donley County Leader, \$2 a year.

**CALL YOUR REPAIRMAN!**

Your repairman, if you stop to think, is one of the most essential workers around any industry today. You see, since the manufacture of appliances has stopped, the dealers' shelves are getting mighty empty. And that's where the repairman and you come in! The new ones that would normally be coming off the lines have gone to war. So, it's up to us to make the ones we have on hand last for the duration.

Electric appliances were made to last for many years—and they will if given proper care and servicing. By keeping your refrigerator, range, food mixer, iron, etc. in tiptop working conditions—by keeping them clean, shining, and fit—you can help win the victory on the home front.

And don't forget to call your repairman, when repairs are necessary. He's a busy man—in fact, he is already working overtime, but he'll be glad to help you, because he knows that it's up to you and him to KEEP 'EM WORKING!!

**INVEST IN AMERICA!**

**AVIATION CADET TRAINING WORLD'S BEST CAPTAIN SAYS**

"The finest flight training in the world is given the young men of America who qualify as Aviation Cadets in the United States Army," Captain J. C. Flynt, Assistant Recruiting and Induction Officer of the West Texas Recruiting and Induction District, said today.

"The people of West Texas see the skies of this area filled with classrooms of the air. West Texas is dotted with army airfields, many planes are piloted by West Texas' young men. Practically every West Texas town, regardless of size, has a number of young men flying for Uncle Sam. Many flying West Texans have their names on the list of the Nation's heroes.

"The flying heroes we read about today are young men who originally, received the same training as the Aviation Cadets who are now in training," Captain Flynt added.

"Aviation cadets learn every phase of aviation, from airplane mechanics to the theory of flight. They learn all phases in order that once in the air they will have confidence and complete control of the plane; they fly."

### Rayburn L. Smith Attends Meeting Farm Loan Ass'n

Rayburn L. Smith, Secretary-Treasurer of the Clarendon-Hedley National Farm Loan Association, attended a conference of secretary-treasurers of national farm loan associations at Amarillo, August 30th. In addition to secretary-treasurers from associations in the Amarillo area representatives of The Federal Land Bank of Houston were in attendance at the conference. Subjects of mutual interest were discussed and included collections, loan servicing, and the responsibilities of the local associations in connection with the program of consolidation of associations and decentralization of work to them.

Some striking figures on land bank and Land Bank Commission loans were furnished for the entire United States, according to Mr. Smith. They indicate that for the system as a whole delinquencies and extensions are the lowest in 14 years. Delinquencies on loans serviced by the Clarendon-Hedley Association are considerable less than half as much as last year, Mr. Smith said, and will practically all be paid within a short time. The association services about 500 loans amounting to \$200,000. The directors are C. H. Bugbee, C. B. Morris, R. W. Moore, J. B. Masterson, and Alva T. Simmons.

Mr. and Mrs. R. O. Shannon of the McKnight community were Clarendon visitors Wednesday.

### Services For Bill Patching Held Tues.

Funeral services for William Ira Patching of Tulla and former resident of Clarendon were held Wednesday afternoon at the home of his parents, Mr. and Mrs. F. G. Patching, with Rev. J. O. Quattlebaum Jr., officiating.

Mr. Patching died Monday night from a heart attack while he was irrigating some feed on his farm near Tulla. It was 11 o'clock Tuesday morning before his body was found.

Mr. Patching came to Clarendon with his parents in 1909. He attended the Clarendon schools and was a graduate of Clarendon College. He moved to Swisher county after finishing school and has made his home there since.

He is survived by his widow and a daughter, Mrs. Dorothy Jo Wirt of Amarillo; his parents, Mr. and Mrs. F. G. Patching; two brothers, F. G. Jr. of Goodnight and E. T. of Happy; three sisters, Eva Patching of Clarendon, Mrs. Ruth Craig of Perryton, Mrs. John Harris of Claude and one grandchild.

Pallbearers were Ralph Porter, Wyatt Heisler, Charley Pott, Charley Spears, Kirk Hulsey and Rondo Denwiddle.

Burial was in Citizens cemetery with Buntin Funeral Home in charge of the services.

Mr. and Mrs. Jno. W. Butler, Claude's genial show operators, were down Clarendon way Monday, visiting relatives and transacting business.

### Prospective Cotton Pickers Being Sought

According to county agent H. M. Breedlove, several farmers have called at his office for prospective cotton pickers. They reported that they would start picking cotton next week and would like for as many hands as possible to report to them. Breedlove is urging that all persons who wish to work in the cotton harvest this fall to report to his office at once and sign up so that they can be referred to farmers.

The cotton harvest is going to be unusually early this year the county agent stated because of the weather conditions.

"The county office will act as a placement bureau for farm labor and if all persons wanting work will register at the office, we can place them at once on farms for cotton harvest and other farm work," Breedlove said. "This is very important and we urge that all persons wishing this labor to give it their immediate attention."

### Federal Taxline Date Near

According to reports to us from J. A. Warren, local income tax accountant, taxpayers are coming in rather slowly, considering that there remains only about two weeks now before their reports must be in Dallas, except farmers, who have until Dec. 15th, in order to avoid the provided penalty.

These reports, while it is true they are Estimated Declarations, are not nearly so simple as that term implies, according to Mr. Warren. It takes a lot of careful work, calculations, estimations by the tax payer and the accountant, to get all these angles, rates, income and Victory incomes, credits for taxes withheld from wages, and amounts paid on 1942 taxes, all in their proper place and correctly submitted on this report, so if most of us wait until the last few days, or last day, it is going to be quite a rush.

Mrs. J. A. Warren left Wednesday for a few days visit with her daughters in Amarillo.

Donley County Leader, \$2 a year.

### Smoke a Lifesaver In Sicily Invasion

The army's new smoke generator, the principle of which was developed in General Electric's research laboratory by Dr. Irving Langmuir and his assistant, Vincent Schaefer, proved a lifesaver in the invasion of Sicily, according to a statement by Major General William N. Porter, chief of the Army Chemical Warfare service.

"Smoke is our greatest protective weapon," General Porter said. "It is the greatest lifesaver of our troops and was responsible for the small number of casualties in Sicily where it was used."

This is the second time that commendation has been given by the army to the smoke generator. When the American forces landed in North Africa, they were protected by a pall of dense white smoke that poured out of these wheeled machines, completely concealing their movement, yet of no discomfort to the troops.

In the early days of the war when the Chemical Warfare ser-

vice called on the National Defense Research Committee for a smoke generator, the problem was brought to the attention of Dr. Langmuir. It was not long before a smoke box was developed in General Electric's laboratory. Then the Standard Oil Development Company was asked to build a mobile unit, using the Langmuir-Schaefer principle. It was the successful tests of this unit in the Schoharie Valley that led the army to adopting it as an essential protective machine for its troops.

### Ben F. Folley, 90 Buried at Turkey

TURKEY, Aug. 31—Last rites were held Sunday afternoon for Ben F. Folley, 90 years old, one of the community's oldest citizens, who died early Saturday morning in the Matador Sanitarium.

Mr. Folley was born March 25, 1853, in Limestone County, Texas. He came to this territory in 1900, settling on the Pease River south of Turkey, where he has since resided and been engaged in farming and livestock raising.

Surviving are his widow; six daughters, Mrs. J. R. Nall, Mrs. Leon Nall, Mrs. Ollie Nall, all of Turkey, Mrs. Marie Lyles, Morton, Mrs. Lela Baird of Clarendon, and Mrs. Emma Piercy of Channing; and two sons, John of Channing, and George of Lelia Lake; 27 grandchildren and 18 great grandchildren.

Elder Alva Johnson, minister of the Church of Christ, conducted the service, assisted by Rev. W. M. Culwell, pastor of the Methodist Church.

### WAC Recruiting Swings Upward

Recruiting for the Women's Army Corps has taken a decided swing upward, according to Lieut. Jessie Gardner, officer in charge of WAC recruiting for the West Texas Recruiting and Induction District.

"Age requirements for enlistment in the Women's Army Corps have been changed to include women from 20 to 50 years of age, inclusive. Many twenty-year old women are now enlisting," Lieut. Gardner said.

Applicants must present birth certificate (or affidavit in lieu thereof) and pass the Army physical examination. There are no educational requirements for the WAC other than passing the mental alertness test. Twenty-year old women must have the consent of their parents.

"Now that the Women's Army Corps is a definite part of the Army of the United States, its members are accorded free mailing privileges and are eligible for Gov. Life Insurance. Ranks in the new Corps are equal to those in the Army," the Lieutenant concluded.

Women desiring full information concerning enlistment are invited to talk with recruiting officers at the nearest U. S. Army Recruiting Station or contact the U. S. Army Recruiting Office at 1114 Tenth Street in Lubbock.

### DROPS BOMBS—GATHERS CORN

When the B-24 Liberator Bomber, "Lemon Drop," of the U. S. Army Ninth Air Force came back from its mission of bombing Rumanian oil refineries at Ploesti, corn stalks were clinging to its bomb bay doors. The bombardier, Captain Herbert Light, Ames, Iowa, observed, "Why, back in Iowa you'd have to fly 25 feet off the ground to get above the corn tops. No risks involved in that. But when you're heading for a target in the Rumanian oil and corn country, you've got to tear along about six feet off the ground to skim the corn tops."

Donley County Leader, \$2 a year.
