COMMISSIONERS PASSED UP ROAD MATTER MONDAY

Bills Are Allowed And Routine Matters Get Consideration

Several small accounts against the county were approved Monday and reports of L. A. Stroud, Justice of the Peace at Hedley, and Leon O. Lewis, Justice of the Peace at Clarendon were approved. Relative to the disposal of bodies at public expense, the Commissioners agreed to a charge of \$45 for adults and \$20 for children for burial expenses consisting of hearse hire, grave digging and other expenses incident to proper burial.

Gas connections at the Courthouse were ordered discontinued with the exception of the jail where fuel is necessary in preparing meals for the prisoners and the jailer and family.

The caretaker of the Courthouse and lawn was instructed to refrain from further lawn sprinkling until further ordered by the Court.

"On the matter of Highway 5, there was no settlement offered in Court. Matter passed." This is the only reference to action on the highway matter that has been pending for some time, and which has occasioned quite a bit of discussion.

The next meeting will be held on May 23rd according to the minutes.

Donley County Jail Has No Prisoners

For the first time in years, the Donley county jail is empty. Some have even said it looked haunted and had the appearance of a prison with a broken heart.

Sheriff Guy Pierce and Doss Palmer took three white and one colored prisoners to Quanah Tuesday where they were to be picked up Monday by Bud Russell who was to convey them to the state prison at Huntsville.

The prisoners taken were James E. Aston convicted and given 20 years on a charge of complicity in the Donley County bank robbery in June of 1930; H. J. Secrist and Crump Parks each given two years on a charge of burglarizing the Tims grocery at Ashtola; Ocie Lee Lewis, colored, given 2 years on a charge of burglarizing the Heath tailor shop.

H. B. HILL IS SEEKING PLACE AS REPRESENTATIVE

Was Author of Valuable Laws While Serving From 1919 to 1923

H. B. Hill, well known attorney making his home in Shamrock for a number of years, was in Clarendon Tuesday in the interests of his candidacy in seeking election again as a legislative representative from this district.

While serving the district back in 1919 to 1923, Mr. Hill became familiar with state government and was the author of a number of important bills designed for the protection of the farmers. He was just as diligent in helping to prevent the passage of what he believed to be detrimental laws.

The Shamrock attorney believes it is time to inject more business methods into state government and stop useless waste. He believes that unnecessary bureaus and departments have been created to the expense of the taxpayers. He believes that expenses must be cut in all branches of state government.

In speaking of state government expenses, Mr. Hill said: "The state government is now collecting and spending money at the rate of \$112,000,000 annually whereas in 1920 the yearly expenditure was only \$30,000,000. This enormous and increasing expense can and must be stopped. No other method will lift the tax burden from the backs of the people."

YOUNG MAN IS KILLED IN AUTO WRECK SUNDAY

Meets Death Suddenly When Car is Struck by Truck Near Panhandle

Claude J. (Bill) Davis, aged 26, was instantly killed about 5 p. m. Sunday at an intersection on the Panhandle highway when a truck struck the rear fender of the Davis car being driven by the deceased.

The truck was going west and the Davis car south when the accident occurred. The Davis car is said to have passed the crossing of Highways 117 and 33 just south of Panhandle and was off the pavement several feet when struck.

Other occupants of the Davis car were Mr. and Mrs. W. A. Davis, parents of the deceased, and Mrs. Ernest W. Adams, all residents of Clarendon. Mr. Davis and Mrs. Adams escaped with minor bruises. Mrs. Davis was badly bruised and suffered a broken right arm just above the wrist. She was brought to Adair hospital Monday where she is slowly recovering from the injury and shock.

C. N. Howard, driver of the truck, rendered aid in taking the injured back to Panhandle. He was arrested but later released and permitted to return to Amarillo. The disposition of his case is yet to be determined.

The Davis car was overturned and then righted itself, almost turned around. Claude was thrown out when the door came open, his head striking the ground when it is believed his neck was broken causing instant death. The other occupants remained in the car. They had spent Mother's Day with relatives in the S. L. Bruce home at Panhandle.

Funeral services were conducted at Claude Tuesday afternoon by Rev. E. B. Bowen, pastor of the First Methodist church of Clarendon. Those attending the casket were Clarence Whitlock, Billy Joe Terrell, Frank Robinson, Johnnie and Richard Tucker, Merl Lynn, all of whom were close friends and former associates of the deceased. Claude J. Davis was born Nov. 23, 1906 at Claude where he resided until the family home was moved to Clarendon in September of 1916.

Surviving him are his parents, Mr. and Mrs. W. A. Davis, and five sisters. The sisters are Mrs. Lee Curry, Summerfield, Texas; Mrs. John Black, Clarendon; Mrs. C. E. Pracher, Walsh, Colorado; Mrs. D. L. O'Connor, Denver, Colorado; Mrs. R. A. Baker, Claude, Texas.

A large number of friends of the family here and from other points in the Panhandle were present for the funeral service attesting the high esteem in which the deceased was held. The Davis family history is closely linked with the pioneer settlement of Armstrong county, and these old neighbors and hundreds of friends in the Panhandle deeply sympathize with the bereaved in their misfortune.

Mrs. H. G. Horn is Buried At Hedley Monday

Mrs. Horn passed away at the family home in Wellington Sunday night. Funeral services were conducted by her pastor, Rev. Clyde Riley of the Christian church of Wellington, at Hedley Monday afternoon.

She had resided at Clarendon and at Hedley where she enjoyed a large number of friends. She is survived by her mother, Mrs. Martha Muncie of Wellington and the daughters, the daughters are Willie Muri, Lola Dell, Wanda Hazel.

Her sisters are Mrs. J. R. Bain of Clarendon, Mrs. C. E. Killingsworth and Mrs. Bill Tarter of Wellington. Her only brother is H. T. Muncie of Wellington.

Those attending the services at Hedley from here were Mrs. John Bass, Mrs. T. D. Nored, Mrs. Will Johnson, Mrs. Fred Russell, Mrs. M. W. Mosley, Also Mr. and Mrs. W. M. Patman, Mrs. Clyde Gilbert and daughter, Miss Hazel Gilbert.

Baptist Evangelist Meeting Draws Large Crowds

Beginning with a small number of the faithful, Evangelist B. B. Crimm, cowboy minister, has constantly drawn larger numbers to his tented tabernacle near the old Gramar school building until at present he faces a capacity congregation at each of his services. Every one says he is different and he is that. He differs in appearance, manner of delivery, plan of action and emphasis and drives home with a telling effect truths and facts that apparently explode in the faces of his hearers.

He preaches at a galloping speed lassos his unsuspecting sinning victim, rounds him or her into the corral of salvation, imprints the brand of repentance and gets them ready for the Great Brand inspector that they may be permitted to pass through the pearly gates into the everlasting pasture of the final judgment.

He can do us no harm, and the chances are that he can do us a lot of good. Hear him in both services he preaches each day. Good preaching and good music.

Maybe Misfit.

Will Rogers says that everything that God made seems able to get along alright except humans

The Reason.

The big objection to a consolidation of the army and navy to curtail useless expense is that it might eliminate one football team.

Invention.

The 1932 model autos are swell lookers, but what we need most is a model that will stop and count 100 before hitting a telephone pole.

Handwriting.

Some politicians do not change their tactics or methods as soon as they see it on the wall; they must also see it on the ceiling, the floor, the wall, garage and the furniture, to say nothing of the auto.

Breaking Records.

The fact that two prisoners sawed out of the brand new jail atop of the new Amarillo court house recently, merely goes to show what some men will do just to break a record.

Radio Music.

A well known musician says that "the radio depersonalizes music; the delicacies distinguishing one orchestra, one musician, from another, are lost." In fact everything is lost except the rasping racket if we know anything about it.

Encouraging.

Having produced more than he could sell at a profit last season, the farmer is again promised a government dole loan to enable him to do the same thing over again.

Heathens.

What further proof do we need that they are not civilized when we come to think that neither Chinese nor Japanese claim that their recent war was a war to end war. Only the more enlightened nations have decided to fight in peace.

Tax Free Securities.

Will some kindly explain why there should be tax free securities? Why should a ten thousand dollar investment bond be tax free while a ten thousand dollar farm is taxed to the limit. It is said that the bonds are made tax free so that a buyer will have a better investment. Why would the same line of logic not apply to the farm?

Crooning.

For the benefit of those who dislike the 'crooning' method of singing, if it may be classed as singing, we call their attention to the statement that crooning is said to be the gutteral offspring of adenoids. The larger the adenoids the more proficient the crooner. This is merely another instance wherein some are capitalizing on a physical handicap.

Economical.

Announcement is made that the high school pupils of Martin, Tennessee are to do their graduating dressed in overalls and gingham. We have no comment to make except that west Texas schools could have done the same thing and limited the apparel to overalls for both sexes since overalls are worn to that extent in the "wide open spaces."

Restrictive.

When it comes to robbing the individual of his personal liberty, we cite you to the passing of an ordinance recently whereby the city of Donaldsville, Georgia seeks to prevent the citizens playing checkers on the sidewalks. The players should at least keep the weeds from growing. Could it be possible that the Goober Grabb-

lers prefer to find their way thru a forest of weeds rather than climb over a bunch of checker artists?

Lee Satterwhite.

Having served this part of the Panhandle in the Legislature, and having been honored as Speaker of the House a part of that time, Lee Satterwhite is known to have discharged his duties faithfully.

He is seeking the office of Railroad Commissioner. There is no reason why a man of the liberal views of Satterwhite should not serve the entire state with satisfaction. On the other hand, if there is any reason at all to return C. V. Terrell to the same job, we don't happen to know what it is up to this time.

Prophecy.

There will likely come a time, and perhaps right here in Donley county, when the assessor's office and the tax collector's office will be one and the same. The county clerk will perhaps also be a county treasurer and district clerk as well. The county judge will likely be judge and superintendent of schools.

That time may come if it is necessary to cut the expenses of county government to the point where all our taxpayers can catch up with their county indebtedness. This is not an idea originating with the writer—not at all. It is being talked all over the county, and the folks are getting more interested. It likely could not happen for some two years, but it may come to that over a greater portion of the state and especially West Texas.

Taxpayers' Leagues.

Wellington is the latest Panhandle town to organize a taxpayers' league the organization having been perfected at a mass meeting in that hustling town last Saturday.

During the same week a similar organization held a meeting at Albany adopted a motion endorsing the proposed constitutional amendment that is to be submitted to the voters at the fall election proposing the consolidation of the offices of county tax assessor and collector.

In the same meeting, the Shackelford citizens asked the board of

Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castoria! Harmless as the recipe on the wrapper; mild and bland as it tastes. But its gentle action soothes a youngster more surely than a more powerful medicine.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as it is needed. In cases of colic, diarrhea or similar disturbance, it is invaluable. A coated tongue calls for just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed.

Sub-Irrigation Develops Gardening

Here is shown a sub-irrigation installation in Grayson county, Texas, by B. F. Gray on the Hart farm. Sub-irrigating gardens using lath tile costing about one cent a foot is one of the big developments in gardening in Texas. The move is so strong this year that many are making cheap concrete tiles at home for the purpose.

county commissioners to be privileged to hear a reading of the yearly budget relative to the plans of the county board regarding the expending of tax money.

This merely leads one to conclude that the taxpayers are getting interested in governmental affairs, and especially county affairs. We shall hear and see more of this during the year and we may expect wholesome results so far as the taxpayer is concerned.

No Santa Claus.

Old Santa never did come in the summer time, or at least not in Donley county. We have no one to depend upon but ourselves. We can never snap out of this mess until we take more interest in county and town government and cut expenses. In other words, quit spending money where it is not needed.

When our farmers are not making anything, and most of them

barely able to make ends meet, they should be spared any extra increase in taxes. The merchants and bankers are in the same 'picklement' and no mistake.

When public officers spend unnecessary funds it works a hardship on their neighbors. Only about sixty percent of the taxes were paid for 1931 and it will be a long time before a payment is made if the present tax rate is kept in force.

When our people's income has been cut in half or more, and some of them down to practically nothing, how in thunder will they ever pay? If a man is unable to earn money by the operation of a farm, he begins to think "well what am I paying taxes for anyhow." It is a sad predicament and it is up to every red-blooded citizen to use every effort in cutting down all expenses of county government that are not absolutely necessary.

Fooling The Folks.

Our national lawmakers put in a lot of time at the expense of the taxpayers attempting to devise new means and methods of taxing an already over-taxed citizenship. While we are hearing so much howl about "balancing the budget," we hear very little about economy in government. All other prices have gone down the past two years except the price of government.

Ultimately, of course, the only relief from taxation is relief from government spending.

Our government absorbed 8 percent of the national income before the war, 15 percent during the recent boom years, and now takes more than 20 percent of the shrunken total.

The National Industrial Conference Board has calculated that the average American in 1929 spent \$39.98 for local government, \$11.84 for state government and \$23.39 for national government.

Federal expenditures were expanded many fold by the war and its aftermaths of debt, though this does not account for all the increase. State outlays were expanded by post-war demands for highways, institutional building and other improvements. And municipalities seem to have outdone themselves not only in spending current revenues, but also in bonding themselves for the future, so that while the nation has paid off billions of its war debt, the increase of local and state debt has more than offset the reduction.

TEMPLE OF TRUTH
By the Apostle

Here's the old Apostle headed for headquarters to report to the GW the arrival of that good cheese that Mrs. Lena Dilli brought in Saturday. Was it good and how? She must have taken a lot of pains to make it just right with the right kind of a punch and wallop. Thank you, Mrs. Dilli, thank you.

Chevrolet built 55,432 cars and trucks in April, W. S. Knudsen, president and general manager, announced today.

This compares with 38,890 built in March and is the highest month's output so far into 1932, Mr. Knudsen said.

Total production of the new 1932 line of Chevrolet sixes since its introduction last winter is now in excess of 260,000 units, the Chevrolet head announced.

He stated that the April schedule was stepped up several times during the month, as commitments for cars were increased over the original estimates, and that Chevrolet dealers reported the sale at retail of 89.2 per cent more cars during the first twenty days of April than in the corresponding days of March.

What Is Worth Saving?

It is not a matter to boast about, that 120,000,000 people, owners of the world's greatest storehouses of agricultural and mineral products, gold and commodities

of every kind and nature, throw it all to the winds and grab for the currency only; preferring to hoard the medium of exchange instead of owning the property and commodities upon which such medium is in the last analysis based.

No nation can prosper sitting on top of a stack of currency; it is nonproductive and does not render the service for which it was intended.—Christian J. Golee, "Real Estate" (Chicago).

MELLOWED

SINCLAIR MOTOR OILS...
From Mid-continent's oldest crude or Pennsylvania's costliest crude...

WE don't presume to tell you which motor oil gives you best results—Mid-continent or Pennsylvania. But we can prove to you that in these two classes Sinclair Motor Oils are the finest that Nature and science together have produced.

Sinclair Opaline Motor Oil is refined from crude oils, mellowed and filtered for at least 80 million years; it is a blend of the very oldest Mid-continent crudes, including the famous Cambro-Ordovician crude taken from a mile and a quarter below the surface in Oklahoma.

Sinclair Pennsylvania Motor Oil is a product of the Devonian Age of a hundred million years ago. Sinclair Pennsylvania is refined 100% from Bradford-Allegany crude oil—a crude so rich in lubricating quality that every barrel commands an extra

price. (See crude oil prices in any petroleum journal.)

Both of these splendid motor oils undergo a special treatment in the Sinclair refineries. Sinclair Opaline and Sinclair Pennsylvania are not only de-waxed—they are also freed from heavy, sluggish, non-lubricating petroleum jelly at as low as 60° F. below zero. Containing no petroleum jelly, the lubricating body of Sinclair Motor Oils is absolutely genuine and will not thin out in engine heat.

Experience will tell you quickly why Sinclair Opaline and Sinclair Pennsylvania are the finest in their respective classes. Note how these oils stand up in hard, fast driving. Note especially at draining time how little oil has been used up—positive, visible proof of protection for the last mile as well as the first!

In Memory of Mrs. J. H. Reeves

Dear mother Reeves has passed away,
We missed her on this Mother's Day,
Last year she was the oldest in our town,
And received a bouquet for that renown.

She filled her place each Sabbath morn,
With a sweet smile and hand-clasp warm.
She loved the rich, she loved the poor,
None e'er went hungry from her door.

Her influence will sure tell,
Both in the town and church as well.
And where we see her vacant seat,
We know she is sitting at her Savior's feet,
So now dear class, lets all press on
And meet her in that Heavenly home

Musical Picture Program At Methodist Church Sunday

The musical picture program in honor of Mother's Day given at the Methodist church Sunday evening under the direction of Mrs. U. J. Boston was most beautiful and impressive.

Mrs. Elba Ballew was reader introducing the program with some beautiful thoughts concerning Motherhood, and continued throughout the program by giving lines explaining the different pictures shown to represent the memories of a mother, as she turned the leaves of an album and lived over the experiences of her childhood marriage and the rearing of her own children.

Songs appropriate to each picture were sung by the choir which was seated in the rear balcony.

Margaret and Lalar Bell Wilkerson acted the part of furies drawing the curtain of fancy displaying the many pictures as they came to the mind of the Mother, the role of whom was played by Mrs. M. M. Beavers.

The reader followed up the scene of the pictures with appropriate lines and closed the program with an impressive prayer for old-fashioned mothers, the laughing young mothers and all other mothers throughout the World.

CARD OF APPRECIATION

May we, through this means in a measure as best we can, express to our good friends and neighbors our sincere thanks for the many deeds of kindness and expressions of sympathy in the passing of our loved one.

Through this dark hour, you have meant much to us, have relieved us of a portion of that sadness that comes to us all at some hour, and we only pray that it will be your good fortune to be placed among such friends when similar sad misfortune comes to each of you.

Cheese Making is Taking On Added Interest

In view of the fact that Miss Buttrill, county H. D. agent, has been able to give proper instruction in cream cheese making, and this fact has been demonstrated to the satisfaction of a large number of ladies through the demonstration clubs of the county, cheese making is coming to be considered a necessity in their homes.

Monday, Miss Buttrill and Mrs. H. W. Lovell and Mrs. Graham manufactured twenty pounds of cream cheese at the Love! home near Ashtola. With a little more practice and a better equipment in some instances, a number of homemakers believe that it is possible to provide this nourishing delicacy in the homes at small cost. In fact Miss Buttrill states that this cheese may be made at home at a cost of one cent a pound or even less.

Graduates

The Personnel of the Lelia Lake Graduates

LEROY LEATHERS

Leroy is the president of the class. He was the only boy in the class until this year. He will have to add that he is the class musician too. Leroy is noticeable anywhere because he is always moving about. He is above an average as a student and in athletics he made the basket ball team this year. He won as our extemporaneous speaker here. Everyone at Lelia Lake knows Leroy so it is not necessary to tell about him.

ISABELL KNOX

Isabell is our class salutatorian this year. She gave Gladys strong competition for class honors. Her unassuming and friendly ways makes her liked by all. Isabell has served her class as secretary and treasury through high school. She won first place in essay writing this year. This girl is another of our native products and of course we think that she could not be improve upon.

OLETA CAMP

Oleta is an average student and is well liked by all. She represented Lelia Lake in tennis singles this year. She is always willing to take part in any event especially if it is of a social nature. Of course she always enjoys herself better if each one is allowed to invite a guest. Oleta has a high ambition and we expect great things of this young girl.

EFFIE DEAN BULLARD

Dean as she is usually called has a very lovable disposition as

well as a pretty face. She is a good student, a good athlete, and a god sport in general. She has helped out in all the plays given this year. She has been yell leader and she represented our school in tennis doubles this year. One of her biggest jobs has been the editing of the school paper. She has also learned much to benefit herself. She has a good character portrayal. All the school will miss her when she is no longer one of us.

PAULINE DARNELL

Polly, as she is called, is a real nice person although she is a little loud when she gets excited. She was our senior declaimer this year and in spite of her not placing, we are proud of her. She is a moderately good athlete and she represented our school in tennis doubles this year. She has also helped in several of the plays given this year. She is a good sport and has brought many laughs to the class and those around her by her "funny sayings".

ATHALEE DODSON

Athalee is an excellent student in the languages, but not so good in mathematics. We have known Athalee for many years and we have found her agreeable in all worthy undertakings. She has made a host of friends since she came here.

C. A. THOMASSON

C. A. has just been with us this year. He came from Anson. We are glad to acquire him. He acts as a support for Leroy and helps in various other ways. He is a very good athlete and has taken part in all the plays presented during the year. As "Obediah" in the last play given he will be well remembered. Perhaps we will not lose him entirely because he seems to be interested in the Junior class list now.

GLADYS HUMBERD

Gladys is our honor student. She is our class valedictorian. Gladys is a student in the truest sense of the word. She won first place in senior spelling this year. Although she has just been with us two years, we have learned to love her.

Selections by Cynthia Mae Eller

Profecy of the Seniors of '32

Oleta Camp

Immediately after my second year of college work, I became a school teacher. I taught in an elementary school at Adilas for ten years. During these years I met the dear old seniors of '32 several times. I met them in many different ways.

One day while I was teaching, an orchestra leader came to our school and wanted to entertain the pupils that night. I talked with him a long time and permitted him to have the night. He asked me to listen to some of his music.

After gaining my consent, he went to his car. When he came back who was with him but my jolly little classmate, Athlee Dodson. She acted as if she didn't know me and she was very dignified. In spite of her dignity I kissed her. Then she thought she might as well be friendly and began to talk about her dear husband. From that moment until the end of the night her talk was of him only. She gave me no time to talk of my future. Since I didn't like her conversation, I was very glad when she left.

Several days after that incident a new pupil—a handsome child—entered school. When I asked him his name he told me "B. A. Thomasson—that's my uncle's name too"

he boasted. He then said "My daddy's name is Mr. C. A. Thomasson, and you never saw a finer man." This boastful chap was just like the old C. A. Thomasson who finished school when I did. I met C. A. several days after that, and I found that he was just as interested in his son as Athlee was in her husband.

While looking in the library one day I came to a book of poems and on the first page I recognized a picture of Gladys Humberd. Had Gladys really become a poet? I read a short history of her life and learned she was married and she and her husband were considered the greatest lovers in the world. They were equal to the Brownings. When I read her poems I found her worse. I wondered if my amazement could be greater.

I advertised for a maid and who answered the advertisement but Effie Dean Bullard. I asked her if that was the profession she had chosen for life. To my surprise, she began to cry, and this is what she told me. "Old pal, you know how I used to tell you what to do—well I never knew it would bring me sorrow. Two weeks ago the only husband I ever had left me because I advised him too much." Then she began to sob louder and ask me what to do. I told her he would come back and sure enough the next day they reunited. Dean still advised her husband because she couldn't live without advising someone.

Now where do you think I heard of Leroy? It was at the county meet of our town. I heard the same declamation Pauline Darnell had given at Clarendon. In the list of famous men there was a new man and who could it be but Leroy

Leathers. I learned that he was richer than Rockefeller and he was like George Washington in body—but not in mind—

Now Pauline Darnell was the next senior I met. I saw her coming down the street in the most dignified manner I ever saw a person walk. She would not have seen me without the accident which caused me to bump into her. We recognized each other and began to talk. Before many questions were asked, I asked her if she were married. "Of course I am married" she said sternly. This made me feel queer and immediately I made a big excuse to leave. A few days after that I read in a newspaper of her marriage. I wondered if she married every few days or if she was dreaming when she told she was married. She had a bad habit of dreaming when we went to school together.

Until this day Isabel Knox and I have been corresponding through letters. She can write better letters than essays. Imagine that! Her letters are good, but all they are about is flowers and dresses. Every letter tells the same story, so you see I get a weekly "Workcraft" After all Isabel became a fine woman. She is the best housekeeper in the world. I intend to take lessons from her some day.

Now before I forget, I must tell you that I also met Miss Hill about two years ago. She was a very good sponsor in high school, but she seemed changed. Do you wonder why? She had been teaching school all of this time and she decided she want a rest. I didn't blame her. She intends to come to see me soon and she promised to be in a different mood. I am looking forward to her visit.

After all this class has been wonderful. Don't forget to notice that there has been no crimes committed and we have all turned out to be useful citizens of the world.

How Old?

He doesn't look a day over fifty. And feels like forty. At the age of 62. That's the happy state of health and pep a man enjoys when he gives his vital organs a little stimulant! When your system is stagnant and you feel sluggish, headachy, half-alive—don't waste money on "tonics" or "regulators" or similar patent medicines. Stimulate the liver and bowels. Use a famous physician's prescription every drug store keeps. Just ask them for Dr. Caldwell's syrup pepsin. This appetizing syrup is made from fresh laxative herbs, active senna, and pure pepsin. One dose will clear up almost any case of headache, biliousness, constipation. But if you want to keep in fine shape, feel fit the year 'round, take a spoonful of Dr. Caldwell's syrup pepsin every few days. You'll eat better, sleep better and feel better. You will never need another laxative. Give the children a little of this delicious syrup two or three times a week. A gentle, natural stimulant that makes them eat and keeps the bowels from clogging. And saves them from so many sick spells and colds. Have a sound stomach, active liver and strong bowel muscles that expel every bit of waste and poison every day! Just keep a bottle of Dr. Caldwell's syrup pepsin on hand; take a stimulating spoonful every now and then. See if you don't feel new vigor in every way.

Pastor Christian Church Makes Announcement

Everybody who is normal is interested keenly in the lives of people who have been succeeded. We would know all that we may about them, about their beginnings, their struggles, their habits, and their view points of life. The Apostle Paul was and is the greatest single credential that Christ's gospel has ever produced. The secret of his marvelous life will be revealed in our morning message, "Paul's I Am's."

"Divine Justice" will be our evening subject. In this message, we will try to show that God is not willing that any one should perish, and that He will mete out justice to the righteous and uprighteous, on "that day" when all people shall meet Him face to face.

Mrs. Castleberry Dies Sunday Afternoon

The death of Mrs. Jennie Castleberry wife of Olin Castleberry, Sunday afternoon came as shock to her friends and occasioned much sadness among those who had known her here and those who were associated with her in church work.

Services were conducted at the family home here by her Sunday school class, after which the remains were conveyed to Alanreed where the last rites were conducted by Revs. King and Shepherd Monday.

She leaves a husband and infant babe, Dorothy Ann and her mother Mrs. J. W. Sherrod of this city. Her brothers are E. R. Sherrod of Alanreed, Wilmoth Sherrod of Altus, Person Sherrod of Plainview. Her sisters are Mrs. J. A. Rosellus of Noble, Okla., and Mrs. J. C. Todd of Norman, Okla., Mrs. Carl Greenwood of Wichita Falls, Mrs. Leland Wilkins and Mrs. J. H. Steger, both of Amarillo.

Mother's Day is Observed At Bogard Home

The children and other relatives of Mr. and Mrs. C. F. Bogard very appropriately observed Mother's Day Sunday by gathering at the Bogard home in this city bringing with them plentiful supplies of a big variety of food stuff.

Mr. Bogard jokingly stated Tuesday that enough was left over to last him and his good wife several days, and that he was strictly in favor of the idea of celebration, and especially when plenty of good "grub" was brought in.

Those present were the honorees Mr. and Mrs. C. F. Bogard and the following sons and daughters with their families: Mr. and Mrs. Tom Bogard and children and Mr. and Mrs. J. B. Pettit and children and Mr. and Mrs. Clay Peabody and daughter, all of or near McLean. Mr. and Mrs. Harve Smith and Mr. and Mrs. Roy Blackman of Clarendon.

Pioneer Lady is Buried At Groom Today

Mrs. Shafer, mother of Eph and Ed Shafer, and one of the earliest settlers of that section, died near Jericho Wednesday.

Funeral services are being held at Groom this afternoon. The Shafer family has long been numbered among the highly respected German settlers of the plains country and their many friends will regret to learn of this good woman's passing. Mr. and Mrs. W. H. Corbin, old friends of the family, attended the funeral service.

John E. Puryear

The above photo is a good likeness of the Collingsworth county farmer who is making the race to succeed Dewey Young in the Legislature.

Mr. Puryear favors leaving the gasoline tax in the county to apply on road bonds, and where no bonds have been voted, to be spent for highway work. City school privileges for every rural child, economy in government, tax reductions and homestead exemption from state ad valorem tax are among other things he would approve.

He says he is against bureaus in all forms, state bond issues, and especially opposed to class legislation and anything that will make the poor poorer and the rich richer.

Rotarians Hear Discourse On Physicians

Dr. B. L. Jenkins, as principal speaker on the program at the Rotary luncheon hour Friday noon spoke on the subject of "Safety First."

He traced the vicissitudes of the physicians beginning with Hippocrates, father of medicine dating back to the year 460, down through the ages to the present time. This historical sketch of facts was most interesting because of the scholarly manner in which it was presented.

Rev. W. E. Ferrell, pastor of the First Christian church, was present for the first time in several months due to a sojourn in the east. He also added somewhat to the interest of the occasion by relating experiences with the depression in North Carolina.

The minister stated that men formerly drawing wages of four to five dollars a day were now glad to get three dollars per week. Common wages were thirty-cents a day and scarce at that. Soup kitchens were now in operation and had been through the winter in the larger cities, and especially the factory district. Men, women and children were being cared for by charitable organizations.

THOUSANDS SEEK TEXAS TRIBUTES

The ton and a half of mail shown above represents one day's mailing of copies of the Tribune to Texas which was recently broadcast to the nation on the "Parade of the States" program dedicated to the Lone Star State. Since the tribute was broadcast more than 22,000 copies have been mailed in response to requests received from all parts of the country, many of them from schools, colleges and Chambers of Commerce. Bruce Barton, author of "The Man Nobody Knows," who wrote the tribute is shown standing in front of the mail with Alfred P. Sloan, president of the General Motors Corporation which sponsored the program designed to focus national attention on the state's industries and culture and to attract visitors to its beauty spots. The tremendous demand for Texas tributes is indicative of the widespread national interest in the Lone Star State.

Mrs. W. H. Grounds Falls Monday Breaking Hip

The many friends of Mrs. W. H. Grounds will learn with much regret her misfortune of Monday afternoon when she fell and broke her left hip at the joint.

She was walking in the yard at the time and stepped into a small hole with her right foot when the accident occurred.

She is a patient at Adair hospital where she was taken immediately after the accident. Mrs. Grounds is 73 years of age. Her brother, Mr. John Dodson of Amarillo, suffered a similar accident a few years ago.

J. C. Estlack Announces For County Judge

Those of you who will read this are pretty familiar with my line of action. Some of you will approve it and some condemn it. No man could please everyone all the time or even a part of the time.

I am asking the support of the voters in my race for the office of County Judge. Those of you who can give me your support, I assure you that it will be appreciated. Possibly there will be more said about this race from time to time in these columns.
