IT MAY BE JUST THAT.

Legislators who refer to their loud speakers as the "snorting post" may be correct, but a number never wake up enough to do any snorting—they are too busy with picture puzzles.

Interscholastic League Meet Session Over Two Days Has Record Attendance

Bigger Crowds, More Enthusiasm, More Entrants And More Diversified Winnings in Events By Rural Schools Marks Session

Those who enjoy school work and friendly rivalry, and their elders who are interested in the advancement of school opportunities for the youngsters, enjoyed two full days of real enjoyment here Friday and Saturday.

Proud papas and mammas entered heartily into the general scheme of things and enjoyed the applause given their young folks when exceptional merit was developed in either event. "It was a great day for everybody" was the way one mother expressed her approval after her son had made some exceptionally good points.

Here is a list of the winnings as given the Leader for publication, the names of winners being listed according to places of winners:

Essay—Class A
Pauline Boliver, Hedley; Jo Ella Stewart, Clarendon.

Class B—Cynthia Mae Eller, Lelia Lake; Velma Morgan, Goldston.

TEAMS ACCEPT INVITATIONS FOR TRACK CONTESTS

Thirteen Panhandle Towns Expect to Send Teams Here Saturday

Those sponsoring the movement are especially gratified to know that a large number of Panhandle towns have accepted invitations to the annual Clarendon College track meet here next Saturday.

Towns already accepting invitations to have teams here are: Amarillo, Canyon, Dumas, Hollis, Panhandle, Pampa, Memphis, Shamrock, Wheeler, Kirkland, Quitaque, Lefors and likely several others before the day of contests.

Clarendon's business men have been most generous in contributing cash and merchandise to the long list of prizes that are being offered. A large array of these premiums are on display at Greene drygoods company.

Men on the local teams are showing up in fine form. Entrants will likely be:

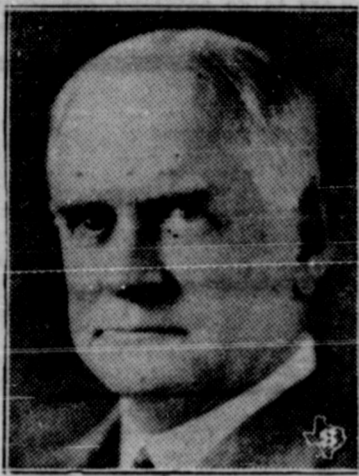

Jumps—Reavis, Martin, Watson, Hudson.

Dashes—F. Holtzclaw, Hudson, Reavis.

Hurdles—Reavis, Martin, Watson, Hudson.

Distance Runs—J. D. and F. Holtzclaw, B. and C. Word, Gattis, Gorman, E. Watson and Johnson.

Medical Chief

A singular honor has come to Texas in that Dr. J. O. McKeynolds of Dallas has been elected president of the Pan-American Medical association—an organization embodying the whole of South and Central America and the United States.

Rev. Jan McMurry Begins Services Sunday

The week's Special Meeting at the Presbyterian Church will begin Sunday. Rev. McKee will preach Sunday morning on "The Church of the Open Door." Rev. Jan A. McMurry will be present Sunday night, at 7:30 o'clock and will speak on, "Does It Do You Any Good to Go to Church?" This is the first of a very unusual series of sermons which he will give each night during the week.

Widely recognized as an active civic leader, a talented singer and a preacher of rare ability, Rev. McMurry is at present, Moderator of Dallas Presbytery. All who heard him last year are anticipating the privilege of another opportunity.

The meetings will last only a week, so come at the beginning.

Two Districts Will Decide Consolidation Soon

April 22nd has been designated as the date upon which the citizens of the Hackberry and Pleasant Valley school districts will decide by vote whether to consolidate or remain as they are now.

J. A. Meaders is presiding officer for the Pleasant Valley election, and John Chamberlain will officiate at Hackberry's election. All indications at this time point to a consolidation.

Lions to Observe Ladies Night Next Week

Next Tuesday night, April 4th will be the occasion for proper observance of Ladies Night of the local Lions club. This is an annual affair.

Each member of the Club is privileged to bring a lady on this night at which time special programs of a varied nature are arranged making it the one big event of the year for that civic club.

Peabody Extortion Case Has Been Set For May 1st

According to information received here this week, witnesses in the C. M. Peabody case have been notified to appear at Austin on Monday, May 1st.

Major E. A. Simpson of Amarillo will defend Peabody when the case comes to trial in the Travis county district court.

Number of Patients Received At Adair Hospital

This has been a busy week for both surgeons and nurses at Adair hospital, several new patients having been received there over the week.

E. A. Sloan, who underwent a major operation last week, is reported as doing nicely at this time.

Havas Warner is showing some improvement since surgeons drained an affected arm that has been growing steadily worse

Magnolia Oil Company Takes Lease on Lott Building

A deal was closed during the week whereby the Magnolia oil company will succeed the Gulf company in operating a filling station in the brick building owned by H. Lott on the main street at the corner of Third and Kearney, formerly operated by Edley Crabtree.

G. F. Keener will have charge of the new Magnolia station where all of the products will be dispensed and a first-class filling station for the retail trade operated. Mr. Keener was identified with the Gulf company as local agent over a long period of time and is well and favorably known to a large auto trade.

Lee Holland has been local wholesale agent for the Magnolia company for more than ten years. He states that it is the intention of his company to operate a filling station in the new location rendering every service to meet the demands of the public.

Large Crowd Attends Picture Show Monday Night

"Smilin' Through" drew a good attendance at the Pastime Monday night at which time the Legion boys put on some special 'skits' just to show what might be done.

Dark face comedians were "Pinkey" Price and Guy Kerbow, the picture. Rayburn Smith and either of whom would make Al Jolson or anyone else back out of Sloan Baker also drew an arm full of encores with their clever acting.

The four men named above represented the Legion which was acting in conjunction with the Pastime in presenting the good picture, and in which they shared the proceeds.

Sunday School And Baptist Training Service

J. M. Sibley will preside at the Sunday school and B. T. S. convention to be held at Amarillo April 4-6 according to a program received Wednesday.

Rev. M. E. Wells, pastor of the Hedley Baptist church will discuss "Foreign Missions" on the afternoon of the first day.

Rev. B. N. Shepherd, pastor of the First Baptist church of Clarendon will preside over a general conference of the B. T. S. on the morning of the second day of the convention.

More trees are wanted for the school grounds, but no locusts.

DONLEY COUNTY RECEIVES RAIN TUESDAY NIGHT

Moisture Falls at Opportune Time For Early Planting Of Variety of Crops

More farmers on the hard land have their land prepared ready for planting at this time than for many years. Those on the more sandier land have little preparation to make since the winds will likely cease following the rain, as is generally the case. The rainfall Tuesday night registered 1.45 inches, and covered the entire county but heavier in some places.

Quite a lot of corn has been planted. More has been planted the past twenty-four hours. Early Wednesday morning listers were seen in a number of fields eagerly planting the first planting of corn. This rainfall means early cow pasture. Sudan will be planted as the favorite in this section. With warm weather, sudan makes a quick growth and furnishes an excellent milk producing quality of feed.

More gardens will be planted this week and next than at any other time of the season if one may judge from the seed being purchased since the rain. It looks like the folks are going to break the canning record again this season.

Range conditions are improving. Stockmen claim that the first weed crop will be up for grazing within fifteen days. Stock has wintered in good shape and early shipping will likely result.

MOTORIST GETS NEW DEAL UNDER GAS REGULATION

Law Requires That Tanks And Trucks be Plainly Marked as to Contents

Governor Miriam A. Ferguson, concurring with both houses of the legislature in the view that tax evasion must stop in order to draw into the coffers of the state every dollar of available revenues, drove the last nail late last week into the coffin of the gasoline-bootlegging industry.

Tuesday she had signed the Metcalfe-Harmon bill, making gas tax evasion a felony, with heavy fines and prison sentences. Thursday she added the final blow against the huge "racket" which has grown up in the peddling of tax-free gasoline, when she signed House Bill 246, amending the Texas Food and Drug Act, and observers at the capitol were saying during the week-end that every-thing possible has been done to recover the \$4,000,000 yearly lost by evasion.

While gasoline is neither a food nor a drug, the new law was deemed necessary in order to curb the blending of kerosene, naptha and other tax-free lower fuels with gasoline, and selling the whole mixture to the motorist, plus the tax. Under this, the commonest method of tax evasion, the car owner often paid money which he believed was tax, but the state didn't get it.

This new law contains several drastic provisions for the protection of the public. First it gives the chemical analysis of gasoline, and forbids the use of the word "gasoline" on any motor fuel falling below that standard. All such fuels must be labeled "Inferior Motor Fuel" on all pumps which contain them.

Another provision is that every truck or carrier of motor fuel must be plainly labeled with the name of the distributor or maker, and every place where such fuel is stored must be marked in the same way. The new law also forbids sale of second-hand or used motor oil except when it is plainly labeled, "Reconditioned Motor Oil."

The law gives every Texas peace officer the right to inspect any vehicle hauling motor fuel, or any place where motor fuel is sold, at any time.

The Texas Good Roads Association, which backed the bill in order to recover some \$2,000,000 of highway funds, as well as \$1,000,000 for schools and an equal sum for the refunding of county bonds, issued a statement Saturday to the effect that the new measure will work with the Metcalfe-Harmon law "like the two jaws of a steel trap."

Citizens Protest Passage Of School Bill

Meetings were held in practically every school district of the county Monday night at which time protests were formulated against Senate Bill No. 387 that has for its object a centralized county board with elective powers in the selection of a superintendent of county schools.

Miss Rhoda Wiedman, president of the club, was the very clever toastmistress. After the invocation by Miss Mae Womack a welcome was extended to bosses and guests by Miss Lottie Lane. A piano solo by Miss Dorothy White was thoroughly enjoyed. Misses Peggy Taylor and Travis Dyer entertained with a dance.

Everyone enjoyed Judge Porter's short but interesting talk. Mrs. Bessie Smith gave a brief review of the history of the B. & P. W.'s club and also gave the men a useful tip about women.

President B. & P. Women Speaks to Rotary

Members of the Rotary club thoroughly enjoyed their 5th monthly program at their regular weekly luncheon period Wednesday as presented by Rotary Ann Rhoda Wiedman.

Miss Wiedman, who is also president of the Business & Professional Women's Club, gave a resume of the history, aims and accomplishments of her Club from its beginning in St. Louis in 1919 down to the present.

Dr. O. L. Jenkins, president of Rotary, spoke interestingly on "the high cost of medical service."

A number of other members entered into a round-table discussion of a number of subjects pertinent to the occasion.

C. C. Powell, chairman of the Club Service committee, will have charge of the program next Wednesday.

Irl Smith of Pampa visited relatives and friends here over Sunday.

City Summer Water Rates To Become Effective Soon

In order to encourage better yards and gardens, the City Commission will authorize the summer water rates to begin with April 1st.

Under this rate, the first 3,000 gallons will cost \$1.50; the next 2,000 gallons 30 cents a thousand. All over that amount will be charged for at the rate of 20 cents a thousand gallons.

It is likely that a premium will be offered for the most beautiful yard of the season, however this idea is yet to be worked out.

Paul Womack, of the Magnolia company, is here for the week.

B. & P. WOMEN OBSERVE ANNUAL BANQUET AFFAIR

President Rhoda Wiedman Is Toastmistress at Gala Affair Tuesday Eve

The Business and Professional Women's Club entertained their "bosses" with a banquet in the Lions' room of Caraway's Cafe Tuesday evening.

As each one found their places at the attractively decorated table the girls sang a welcome song to their guests.

Miss Rhoda Wiedman, president of the club, was the very clever toastmistress. After the invocation by Miss Mae Womack a welcome was extended to bosses and guests by Miss Lottie Lane. A piano solo by Miss Dorothy White was thoroughly enjoyed. Misses Peggy Taylor and Travis Dyer entertained with a dance.

Everyone enjoyed Judge Porter's short but interesting talk. Mrs. Bessie Smith gave a brief review of the history of the B. & P. W.'s club and also gave the men a useful tip about women.

The banquet was enjoyed by sixty-three employers and employees.

M. C. Rampey, who has become popular as a trustee of the Chamberlain school, is being boosted by a number of friends for re-election over his protest. Quite a number the past week have expressed their intention to write in his name on April 1st.

Miss Susan Sheppard, daughter of Senator Morris Sheppard of Arkansas, is the 1933 Queen of the Beauties at Duke university, Durham, N. C. Her portrait will head the beauty section of the yearbook.

"Red-Headed Step Child" Is Big Feature Friday Nite

Friday night at the College Auditorium the Missionary Society of the Methodist church will present the "Red-Headed Step Child," a typical western play that will appeal to those who like a combination of wit, humor and tragedy as pictured in every-day life.

It will be most interesting to see the attempt to make a "Red-Headed Step Child" of Miss Elanor Morris, leading lady in the play. There will be plenty of good music along with the main show.

This being a benefit play, charges of 10 and 15 cents will be made.

B. T. S. Training School At Baptist Church

Miss Jessie Cook has charge of the B. T. S. training course being given at the First Baptist church here this week, the attendance being exceptionally large and consisting mostly of the younger people.

Teachers giving instruction are Miss Cook, Mrs. Ted L. Williams, Mrs. B. N. Shepherd and Rev. Shepherd. The session will close Friday night.

School Trustee Election Is Next Saturday

Trustees in practically every district of the county, and three members of the County Board are to be elected Saturday of this week.

It is the duty of every citizen to share a voice in every selection. The schools of the county need and deserve your support. No matter how you vote, be on hand and vote your sentiments.

Stvenson's Pupils Getting Ready For Music Week

Pupils receiving instruction under the direction of Gus B. Stevenson in both band and orchestra, are planning to present some exceptionally fine musical programs during "Music Week" in May.

Out of town soloists for the occasion will appear on the programs during the week.

City to Continue Working On Streets

Agents for various maintainers have been here this week in an effort to sell the City Dad's a machine for maintaining the caliche work on the streets.

The machine under contemplation is a combined tractor and grader and does excellent work at small cost. It was at first planned to use mules for grader work, but after counting the cost, it was decided that trading in old machinery and partial payments would justify the purchase of the new machine.

The damage suit asking for \$25,000 of Sheriff Guy Pierce of Donley county came up for trial before Judge A. J. Fires here Monday morning, the suit having been filed by G. C. Harney, attorney for Ivey last month.

At the time of filing the suit, it was alleged that Sheriff Pierce humiliated the plaintiff, and further, that he "messed up" a pound of country butter being transported by the plaintiff.

The cause of the suit was based on a request received by Pierce from the sheriff of Hall county to stop a car of a certain description, and hold the occupants who were alleged to have taken part in a filling station hold-up.

In company with his deputy, Guy Wright, Pierce stationed himself near Hedley and stopped the car only after shooting the tires when he said the driver refused to heed a request to stop or the customary whistle of the officer.

After hearing the evidence, Judge Fires is said to have stated that Pierce had a right to stop the car for and upon the request of Sheriff John Alexander of Hall county. And further, that he had a right to fire at the auto casings when the escaping car was about to out-distance the sheriff after refusing to heed any kind of command to stop. The Judge held that the plaintiff was not entitled to any damages.

The plaintiff did not offer in evidence the statement of the other man who occupied the car with him at the time the damage is said to have occurred.

Statements of Sheriff Alexander of Hall county, Deputy Guy Wright and that of himself.

It is said that the plaintiff expects to appeal the case, though no papers had been filed up to Wednesday so far as a reporter of the Leader could ascertain.

Court adjourned Tuesday due to a lack of business and will not convene until Monday of next week. Judge Fires is spending the vacation at his home in Childress.

Ben A. Kyser and L. M. Spier of the Bray country were in town Monday on a matter of business.

Mrs. Bess Rolfe and son Jacl of Little Rock are visiting her parents, Mr. and Mrs. E. A. Sloan.

REV. INGRAM ON SIXTY-FIRST YEAR AS A MINISTER

Has Served Donley County As Itinerant Methodist Minister For 19 Years

A man of 80 years driving a mare aged 24 hitched to an old open top buggy is a familiar sight on the highways, by-roads and trails of this and surrounding counties because he goes places, meets and talks to folks and preaches in places seldom visited by any other minister. That man is the venerable and much loved old preacher better known as Brother Ingram.

Rev. C. B. Ingram began preaching at the age of 19 back in Chepultapec, Alabama. He and Mrs. Ingram came to Texas settling at Waxhachie 37 years ago. Nineteen years ago they moved to Donley county.

Ten children have been born to them, all of whom are living, and all useful men and women. The grandchildren number 41 and the great-grand children 11.

In his ministerial rounds the past three months, his reports show an attendance at Sunday school of 227; preaching, 745; personal visits, 156; professions, 115. During this time he has received \$16.07 and he and the "old gray mare" have traveled 390 miles during March alone, though "she's not what she used to be."

Calamities.

When they transferred our county government down to Austin, and our state affairs up to Washington, it almost floored us. But when we made garages out of our smoke-houses, that finished the job.

Wants to Know.

This editor is in receipt of a letter from a fellow publisher down state who wants to know "what I think about the State Press Association." Well, there ain't any such animal. It appears that there is a corporation owned clique operated for the benefit of about one man claiming to have some connection with the newspaper profession.

Intuition.

Makers of the Frigidaire announce that the company is to spend 60 percent of their advertising appropriation the next twelve months with the newspapers. Along with this announcement comes the statement that a "beer cooler" has been added, the makers having sensed the demand far ahead of the vote.

Grower Lost Out.

Did you know that a ton of wheat costing \$20 can be made into puffed wheat retailing at \$1,400? But the grower did not realize any of this nice profit. The fellows who reap the big end of the profit are no more interested in the people of the Panhandle and our problems than we are interested in a mangy coyote.

Common Sense vs Theory.

Dr. Claudius O. Johnson of the department of political science and history of the State College of Washington state has challenged Will Rogers to a debate. The date is May 13th and place is Seattle. The learned professor chose the subject of "Newspapers versus Books." The Prof. wanted the book end of the deal of course. Will comes right back and says the subject shall be "Ignorance versus Intelligence", with Will holding up the front end of the subject for discussion.

The controversy started nearly two months ago when the Prof. in a public speech referred to Rogers as being ignorant of all public questions. Will wants to prove to the professor that the ignorant are smarter than the intelligent, and he will if the Johnsonized person is foolish enough to meet the witty cow-puncher in debate.

The price of tickets comes high but the ringside seats have all been sold. It is possible that the second round will be held a week later at some other town in that state to accommodate the folks who want to hear Will—not the Professor.

Jones Kicks Out.

There has been some criticism of Congressman Marvin Jones of this district recently because he was the first to kick out of the traces in the general Roosevelt scheme of locating the forgotten man. Jones refused to sponsor the bill proposed, but said he would vote for it out of respect for the administration. It was a bill proposed for farm relief.

Jones evidently hasn't changed much from his ideas all along that the farmer is not a charity subject, or that he should be made a peon. Jones believes that the farmer should be enabled to help himself rather than seek alms of the government along with the big corporations.

Jones believes that the farmer should have his loans extended

over a long period of years with a low interest rate. He thinks the farmer should have a market for his products. He has objected to the idea of plans that appeared "Oh, well, if this doesn't work, we'll try something else."

Jones is right. The farmer needs more market and better prices. Jones is the first man to originate the idea that new avenues of manufactured products should be sought creating more demand for farm products in the making. Jones is chairman of the powerful agricultural committee, and Jones knows.

Medical Advertising.

Just how many medical associations are behind the movement through which the State Department of Health is seeking free advertising space for doctors at this time is not known.

Most every paper in Texas, and especially the weeklies, are supposed to carry a "heart" disease story under date of March 30th.

Since the medical profession is averse to advertising, we know of no reason why medical practitioners should not object to this procedure. It is on the basis of the tramp story where one fellow was too proud to walk up to a door and beg, but he shared in the gifts of the one who did once they met out of sight of the home giving the alms.

If it is undignified or unprofessional to advertise one's qualifications to render service to humanity, is it not just as undignified to attempt to "swipe" space from a newspaper by trickery methods?

Honest physicians are competent, deserve and earn their fees and should be paid promptly. That same class of citizen should protest against the state department being used for political purposes in an attempt to build up good will among members of a profession that includes some real honest, sincere men and women.

Big Profits.

The American Telephone & Telegraph company, central head of the telephone octopus has just issued its annual report showing a net income of \$145,907,000 for 1932. The year 1932 was the depression's worst.

In 1928 next to the last year of the beautiful boom, the A. T. & T. net income was \$143,170,000. In other words, the telephone trust unit actually had a net income higher by nearly \$3,000,000 during the bad year of 1932 than the good year of 1928.

Total revenues of the A. T. & T. in 1932 were \$252,487,000 more than a quarter of a billion dollars, according to their own statement being broadcast over the nation with the evident intent to keep the price of the stock on a high level.

The Bell telephone system is a part of the A. T. & T. Our local system is a part of the Bell system. We are paying a higher rate here right NOW than we were during the orge of high prices during the world war.

Some day, and it may be soon, some one will start a movement to discontinue phones and it will be something pitiful the way our folks will throw them out. We need a half-way decent phone rate in Clarendon and on the rural lines. The only way to accomplish any change is to get busy.

We are ready to discontinue ours any old day—how about you?

SHOOT IN YOUR IDEAS FOR "ODD TEXAS" BOX 109-DALLAS

the Texas Weekly Press Association was born at Austin Saturday. F. B. Russell, publisher of the Belton Journal, is president of the new Association. R. A. Gaines of the Rockwall Success is vice president. Mrs. A. D. Potter of Austin is secretary and treasurer.

It is our understanding that headquarters will be maintained in Austin instead of in the office of a Dallas corporation.

Without being called upon for an expression, the writer is of the opinion that the publishers of the weekly class of papers of Texas will support the new association if the Association will support them, and them alone.

Texas publishers long ago became "regusted" with the idea of a secretary receiving a commission on such free space graft as he was able to foist upon those whom he was supposed to represent.

The better class of weeklies need and want some competent official to represent them in securing busi-

ness from the foreign advertising field. Most any live publisher is competent to take care of his home field without outside suggestions.

The state was divided into eight sections with a director from each section. These directors are: Lon Boynton, Paris; Ellis Campbell, Groveton; Paul Holcomb, El Campo; S. L. Perry, Arlington; Thos. T. Waggoner, Claude; C. G. Curtin, Fabens; Jack Hawkins, Groesbeck. One more from south Texas is yet to be selected.

Living Longer.

Dr. Barker of Baltimore in speaking before the Pan-American Medical Association at Dallas a few days ago, made a wonderful talk. Wonderful because he lived his advice, and had ample proof to show for the suggestions he had to offer.

The learned physician in speaking of "how to grow old without becoming a pest," offered some sage advice. Being a man some

sixty-odd years young, we quote from his talk for the benefit of others:

"Live normal lives so that your old age will be normal, sweet, gentle, kind and valuable to the younger generation. Do not neglect your physical exercise as well as your mental and spiritual.

"There are the arts and music for those who see and hear; church and religion for those still able to believe.

"As age advances, become engaged in some hobby aside from your regular work—hunting, fishing, flowers, music, etc.

Dr. Barker strongly advised against marriages of the May and December type. "Many an old man has died before his time trying to keep pace with a young wife."

Again we read words of wisdom when he says: "Be charitable toward your fellows. Be charitable in forgiving wrongs, and in giving to those who need or appreciate. Visit those afflicted as well as friends. Be a real man in every sense of the word and get more out of life while living an extra twenty or thirty years."

New School Bill.

Senate Bill No. 387 has for its object the changing of school management as affecting the rural schools of the state.

If this bill becomes a law, the administration of the rural schools would become vested in a county board of seven members elected by popular vote of the county, they to serve six years. The county superintendent would be elected by this board.

This county board would exercise the functions now required of the common school trustees. School taxes and bond issues would not be affected.

Those sponsoring the bill claim that "Essentially the measure is one for county unit administration and is intended to co-ordinate and reduce the cost of supervision and administration of the public schools."

This editor sees no merit in the bill. In the first place let it be remembered that there is more local self government vested in your rural schools than any other one thing left you. If this bill becomes a law, the political ring of your

county will "run" your rural schools to the extent that such schools will become the political football of every county in the state.

The board of seven members will select "your" county superintendent. No saving in expense there, except to save "you" the trouble of using your judgment as to who shall be superintendent of your county rural schools.

The only money to be saved is in "firing" your trustees off the job. Every one ought to know that the trustees of the rural schools have been knocking down an immense salary all through these hard times. Do you see any logic in that statement?

If you do not favor this bill, visit Senator C. C. Small and Rep. John E. Puryear today. Address both at Austin, Texas. This bill may be passed this week. If you are to do anything, get busy the

moment you read this. Send letters postals or better than either, send a telegram.

An Industrial Necessity

A dependable and adequate source of electrical energy is not only a vital convenience to your home and business life—but a definite advantage from an industrial standpoint.

Major industries contemplating changes in location (as many now are doing) are looking toward the progressive small city as the ideal factory site. And those cities which are assured an adequate and constant source of electric power—distributed over an interconnected transmission line system from strategically-located main generating stations—will be the choice of industrial engineers.

The West Texas Utilities Company is aiding industrial growth, through the rendering of this dependable and inexpensive power supply, in 161 progressive West Texas cities, towns and communities.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

*** TEMPLE OF TRUTH ***
By the Apostle

Aside from punching the clock every time he sees a star fall, J. A. Kutch is also an authority on the weather. During the recent sandstorms, he tied a log chain to a flag pole. When the chain stood two feet out from the post, the wind was blowing 40 miles an hour according to night marshal Kutch, meteorologist of the Panhandle. And when the blame chain stands straight out without a kink in it, the wind is blowing like it was Saturday—180 miles an hour.

The fellow who sued his wife for a divorce because she grew fat said "he took her for better or worse, but not for thick or thin."

In response to the demand of our dentist, doctor, grocer, mortgage holders and a host of others, we are going to visit Jack county very very soon, and stay at least two months. As Post used to say "There's a Reason."

Speaking of efficiency, how about those Oklahoma officials who went out to look for three escaped lunatics last week, and brought in five.

The seven ages of man are cribbage, savage, scrimmage, mutilage, parsonage, marriage, dotage.

Miss Ethel Harvey has a number of rooted Martha Washington geranium plants which she is offering at a very reasonable price. Those of you who want to get a start of this most beautiful of flowers, should see her at once. She also has the large red variety.

And you folks who happen to be in Groom at meal time, just try the service at Ward's cafe. Mrs.

THE LITTLE JONES BOY DIDN'T HAVE ANY PLAYMATES HIS SIZE, BUT HE HAD A THEORY ALL HIS OWN—IF YOU CAN PLANT LITTLE SEEDS IN THE GROUND & THEY GROW INTO BIG FLOWERS, WHY CAN'T YOU DO THE SAME THING WITH LITTLE GIRLS?

Ward is a real cook and I don't mean maybe. She and Mr. Ward will be glad to extend you every courtesy.

A lady tells me that wounds will not become sore if held in the smoke of burning granulated sugar soon after the wound is made.

Bill Weston tacked up his photo in his barn, also a Sears & Roebuck guarantee on a cream separator, and his chiropractic diploma. He was shearing mules and he wasn't taking any chances on this fool barber law.

Z. Nishikata & Son, nurserymen of 3151 Negishi-Machi, Yokohama, Japan want to buy some cactus from this section according to a recent letter. If you have any, write them.

Well the old Apostle has been talking too much again. For about the 'steenth time he has a run-in with one Ed Bulls, bell-weather, song leader and hound dog champion of old Jack county. Ed is an entertainer if he is anything. Why he will cut his last water melon and hand it to you as freely as he would a drink of water. And what's more, if it does not fill you up, he will steal some more in order to keep you on the good side. He has no enemies because no one

believes anything he says. He does more things and thinks up more stunts to keep his section on the map than all the rest of the hillbillies put together.

As for that sand story in the article following which was clipped from the Bowie paper, we resent the sand part—it was rocks. Big rocks at that. If Ed objects to plain sand or dust, he ought to like our rock showers which we have every day now.

We put him on notice that the last paragraph appeals to us strongly. Our stomach is a bit off though we can eat anything except raw bear grass. Make up an extra batch this spring, Ed, we're comin' down as sure as the Lord made little apples. Here is the article which is nothing more than a dirty dig at west Texas:

Jack County's Publicity
"Jack county craves publicity. They claim to have a well that 'shouts' and have found the bones of a dead man in a cave. If they had found the bones of a live man, it would have created more excitement." — "Apostle," in Donley County Leader.

Yes, and darn your skin, we Jack county folks are getting what we go after too. That "shouting" well story attracted the big oil men and now they have leased up all the land including that which the famous cave is located, and also the "shouting" well of good water and drilling will begin immediately. And that's not all, hundreds of people from every section of the country are flocking to the big cave every day and on one pretty Sunday 300 cars passed through the gate to its entrance and all expressed amazement and wonder at the sights. And who knows but that we will yet find the bones of a "live" man. If "Old Apostle" who so ably edits the "Temple of Truth" pages in the Donley County Leader would only shake himself out from under that bank of sand that keeps rolling up from his section and drifting down this way and come back down and visit the Free State of Jack, the land of his nativity, we could show him lots of things that would interest him. And last but not least by no means we might let him sip some of that good old fashion grape wine made from the juice of the grapes that grow so deliciously down "hereway." It would be good for his stomach's sake.

Grow Superior Pecans on Native Trees

This giant top-worked pecan tree on the Stribling ranch in Llano county is ready for budding to improved thin shelled varieties as soon as suckers grow out from the stubs. Texas has more than 50,000,000 pecan trees. Ten years ago only 10,000 of them were of improved varieties. There are now more than 800,000 improved native trees as a result of demonstrations in improvement engineered by county farm demonstration agents of the Extension Service of Texas A. and M. college.

It Never Rained So Long That The Sun Didn't Shine Again

From the landing of our Pilgrim Fathers—Confidence has been the dominant force in developing this great nation.

In today's readjustment, Confidence in our President, our Government, our Banks, and ourselves will result in sounder thinking and a sane recovery.

We're rich in all the things that make a great Nation and as surely as the sunshine after the rain we will emerge a stronger, healthier, wiser, richer and saner Nation.

Well folks we just emerged from the track meet victorious. When the Chamberlain boys and girls go to do a thing, they finish up right. We won the county basketball meet and now we have won the county track meet.

Junior high gave us a close race but we beat them by one or two points. All the boys have been doing well this year.

The pupils of the Chamberlain school are proud of their basketball and track team. J. E. Duckett was high point man of Chamberlain.

The school is still progressing. The pupils have a bad habit of talking in school for which they pay by staying in at noon.

There was a meeting at the school house Monday night in behalf of the rural schools.

BOWELS need watching

Let Dr. Caldwell help whenever your child is feverish or upset; or has caught cold.

His simple prescription will make that bilious, headachy, cross boy or girl comfortable, happy, well in just a few hours. It soon restores the bowels to healthy regularity. It helps "break-up" a cold by keeping the bowels free from all that sickening mucus waste.

You have a famous doctor's word for this laxative. Dr. Caldwell's record of having attended over 3500 births without loss of one mother or baby is believed unique in American medical history.

Get a bottle of Dr. Caldwell's Syrup Pepsin from your drugstore and have it ready. Then you won't have to worry when any member of your family is headachy, bilious, gassy or constipated. Syrup Pepsin is good for all ages. It sweetens the bowels; increases appetite—makes digestion more complete.

Mrs. A. D. Estlack, No. 3.

Mrs. Jesse Lowe, No. 4.

A very enjoyable and beneficial program was presented to the thirty-five members and visitors. Next Sunday marks the beginning of a new quarter, and the Union extends a cordial welcome to every one to come and enjoy these programs with them. At least fifty are expected to be present. Do not fail to come—You may be the one needed to reach that goal.

YOUNG MATRONS HARMONY CLASS

Mrs. B. C. Kirtley and Mrs. Simmons Powell were hostesses to the Young Matrons Harmony S. S. Class of the Methodist church Tuesday afternoon at the home of Mrs. Kirtley.

After a short business session, games of 42 was played until late in the afternoon when a delicious refreshment was served to Mmes. Paul Shelton, Ben Andis, Baker, W. C. Thornberry, Tom Goldston, Walter Wilson, Blanche Oden, Curtis Galloway, Fred Russell.

OUR CAPTAIN'S BUGLE

The Captain's bugle wakes a better day;

The wearied Nation rises to his voice;

A new-born courage drives all fear away,

And arms the heart to conquer and rejoice.

The wilderness of care now lies behind;

A chastened people quick forgets its pain,

And feels the eager wish of all mankind

To know those happy days are here again.

O God! give him who leads us in this hour

A soul of wisdom—and a flag unfurled—

That we may see him in his kindly power:

The hope and solace of a stricken world.

—Samuel Harden Church.

"Serene, I fold my hands and wait,

Nor care for wind, or tide, or sea

I rave no more 'gainst time or fate

For, lo! my own shall come to me.

"I stay my haste, I make delays,

For what avails this eager pace?

I stand amid the eternal ways,

And what is mine shall know my face.

"Asleep, awake, by night or day,

The friends I seek are seeking me;

No wind can drive my bark astray,

Nor change the tide of destiny.

"What matter if I stand alone?

I wait with joy the coming years

My heart shall reap where it has sown,

And garner up its fruit of tears.

"The stars come nightly to the skies;

The tidal wave unto the sea;

Nor time, nor space, nor deep, nor high,

Can keep my own away from me

COUNTY SCHOOL NEWS

By Sloan Baker
County Supt. Schools

Pleasant Valley and Hackberry School Districts will vote on consolidation April 22nd. The new school building will be placed half way between the two present school houses if the consolidation is voted. Each school is a seven grade, one teacher school. The most important advantage of the consolidation is that the teacher load in grades will be cut in half, thereby enabling the pupil to secure longer recitation periods in each subject. Mr. J. A. Meaders is presiding officer for Pleasant Valley of Pleasant Valley election and Mr. John Chamberlain for Hackberry election. Present indications show that the consolidation will carry almost unanimously in the two districts for consolidation.

Most of the Common School Districts sent in letters, petitions and telegrams protesting the passing of Senate Bill number 387. This bill if passed would lead to centralization of school affairs and would not be democratic.

Donley county schools are not in a depression as far as material for Interscholastic League contests are concerned. Contestants in the literary events were well trained. Large numbers of patrons of the schools showed an interest in the contest by their attendance and appreciative attention. We hope next year to make the county 100 percent in membership in the League. Saturday was a beautiful

day for the athletic events. A large crowd witnessed some good field records made.

Five district meetings of Principals-Trustees-Teachers and Patrons will be held Friday night. Mr. D. P. Smith will be in charge of the meeting at White Fish, Mr. Sid Thomas at Martin, Mr. Clarence Jackson at Windy Valley, Mr. Joe Baker at McKnight, and Mrs. John Naylor at Sunnyview. A lively interest is being shown in these meetings. The president of the County Association, Mr. G. G. Reeves of Chamberlain urges every one to be present at these meetings.

Next Saturday will be election day for trustees both for the County Board and local District boards.

Census takers are urged to bring in their census rolls this week as Saturday is the last day.

Ashtola school has a very efficient science department under the supervision of E. B. Bowen. A very complete laboratory equipment makes it easier to teach this subject. Ashtola has a school exhibit which would do honor to a much larger school.

White Fish school interest was shown in the interscholastic meet by bringing a party of sixteen and staying both Friday and Saturday. This school won high honors in the Spelling contest.

Pauline Maddox, Rhea Virginia Harris, Ruth Knight and Shirley King of Smith school were welcome visitors in the Sloan Baker home Friday and Saturday. Each one entered interscholastic contests.

Mrs. Robert Cook and children from Pampa are here to spend two weeks with her sister, Mrs. Brit Melton and other relatives.

Be sure to turn cheese twice every day, night and morning, for ten days, or until praffined. This is ready to serve in three weeks, but grows better with age. Six weeks is better unless one has a personal taste for fresh cheese.

NOTE: If desired, a piece of cheesecloth may be cut to fit and sewed around cheese just before coating with paraffin.

"Legislative News Service"

(From Wills Point Chronicle of March 7, 1933)

The Texas Press Association has established at Austin a press bureau that is furnishing members for publication matter that is calculated to influence public opinion on tax matters being considered by the state legislature. There is every indication that there will be some radical change in our tax laws. The exemption of homesteads from state taxes and the reduced revenues secured from the ad valorem tax levy makes it necessary to find some new source from which to secure the money to meet the expenses of the state, unless there is a more radical cut in the state's budget than is expected.

This paper does not question the right of newspapers to take an interest in this important subject, but we do think that the Texas Press Association is doing the wrong thing to establish a bureau to send out propaganda from the state capital to influence legislation. The circumstances are such that their motives will be criticized.

There has been much criticism of the management of the Texas Press Association for several years based on its alleged political activity and control by utility interests. Some members have withdrawn from the association on this account and there is a strong sentiment among the country newspapers for the organization of an independent press association that will be more ethical in its operations.

The secretary of the Texas Press Association has built up a gigantic printing business at Richardson that does a large volume of printing for utility companies and advertising carried for the utility companies in the country newspapers of the state provides a considerable proportion of their income at this time, when local advertising is tight on account of depressed business conditions. The public utility companies are vitally interested in proposed tax legislation as well as in measures that regulate rates and otherwise effect their business. Under the circumstances, the activity of the "Legislative news service" at Austin will not only cause criticism of the Texas Press Association but will adversely influence legislation in which the utility companies are interested.

This paper has no prejudice against the utility companies and we voice the sentiments of newspaper men generally when we say that they are entitled to a fair deal in rate regulation and taxation. But we do resent the implication that the Texas Press Association through its secretary is controlling the press of Texas and that editorial support of any reputable country newspaper can be 'bought' with an advertising contract. In our opinion the Texas Press Association should make such change in its management as will free it from any such implication.

THE STATE OF TEXAS

TO THE SHERIFF OR ANY CONSTABLE OF DONLEY COUNTY—GREETING:

Whereas, on the 20th day of March, 1933, C. C. Powell filed in the county court of Donley County, Texas, his final report, and asked that the same be allowed and approved, and that said estate be closed, and that he, as administrator be discharged, and further asking that the balance of cash on hand in his possession be divided among the heirs according to their rights; and whereas, such cause will be heard on Monday, the 24th day of April, 1933, at the courthouse in Donley County, Texas.

NOW THEREFORE these are to require you to notify all persons interested in said estate to be then and there present in said court in Clarendon, in Donley County, Texas, at 10:00 o'clock a. m. on Monday, the 24th day of April, 1933, to contest the closing of said estate and discharge of the administrator if they care so to do.

This writ you will execute by causing the same to be published in such newspaper as the law requires for the length of time and in the manner required by law.

WITNESS MY HAND and seal of office, at office, in Clarendon, Texas, this 20th day of March, 1933.

W. G. Word

If any contract is made the commission intends to issue interest bearing time warrants for all or part payment thereof, in an amount not to exceed \$1800.00, said warrants to bear interest at the rate of 6% per annum, and the full amount of said warrants to mature at a date not later than 1937.

W. P. CAGLE
Mayor, City of Clarendon, Texas.

TO MAKE AMERICAN CHEESE

The following recipe and instructions are being used in the making of American cheese:

Equipment: A small tub, wash boiler or large dishpan; dairy thermometer; lard or homemade press and two clean flour sacks.

Materials: 3 1/2 to 5 gallons whole milk, preferably fresh. Night's milk may be used if cream is well stirred, or night's and morning's milk may be mixed; 1/4 cheese tablet (dissolved in one tablespoonful of cold water); 1/4 rennet tablet

(dissolved in 1 tablespoonful cold water); 1 tablespoonful salt.

Place milk in clean pan and place on stove. With the thermometer held in left hand, stir until the milk has reached 86 degrees. Remove from stove, add cheese coloring tablet that has been well dissolved; then add the rennet tablet which has been dissolved. Allow to stand covered for thirty to forty minutes.

Take a long handled knife and cut the curd into small cubes, backward, forward and crosswise. This causes the whey to rise. Place on stove and heat gradually to 100 degrees. Stir, keeping the curd from settling on bottom of pan. Remove from stove and let stand until you can prepare press. Around the bucket (1 gallon syrup bucket), with holes in it punched from the inside, place one of the sacks. Place this inside of the outer bucket (8 pound lard bucket) and set on lid which has been perforated. Place this then on the board which has the grooves cut in it. Through the outer sack, your curd, allowing the whey to drain from it that will. A separator bowl is very handy for this procedure. While the curd is still in the cloth, add 1 tablespoonful salt and mix well. Place this in your press now and pack down as tight as possible. Allow the top of your cloth to come over the cheese, and place a weight on top of this.

The weight may be made by filling a 3-pound coffee can, one that will fit inside of the one containing the cheese, with sand or rocks. On top of this place two or three smoothing irons or anything equal in weight, so as to have a 20-pound weight. A regular lard press makes a splendid cheese press too.

Leave your cheese in the press all night. In the morning take it out and roll in warm water or melted fresh butter that has not been salted, to keep it from getting dry and cracking. Keep in a cool place where the air can circulate and where it will be cool and dry. Let stand about ten days or two weeks, then coat with melted paraffin. If coated before this time, it will taste a little sour, all the whey not having time to dry out.

DO YOU WANT A GOOD POSITION?

Most high school graduates are interested these days in the kind of advanced training which will enable them to secure a good position as quickly as possible, and at small expense.

All the courses which we teach have practical value in the business world. The knowledge and skill which you get in the Tyler Commercial College and School of Business Administration will help you to secure a starting position in competition with others who lack this ability. Our system of "learning to do by doing" really makes you an experienced office worker when you have graduated.

Then, because we concentrate on practical business training, you can secure training in our school in less time and at less expense.

We'll be glad to discuss with you your plans for the future. Perhaps, through our wide experience with young people and with business executives, we can make suggestions that will help you to realize your ambitions.

Write today to the Tyler Commercial College and School of Business Administration for "Achieving Success in Business," our current catalog. It will be sent free to the ambitious young person who wants to succeed.

Farm Implements & Tractors

John Deere Line

We have an attractive proposition for you on all farm implements and tractors.

Call and let us explain the money saving proposition we have to offer.

CLARENDON GRAIN COMPANY

SINCLAIR MOTOR OILS . . .
From Mid-continent's oldest crude or Pennsylvania's costliest crude . . .

WE don't presume to tell you which motor oil gives you best results—Mid-continent or Pennsylvania. But we can prove to you that in these two classes Sinclair Motor Oils are the finest that Nature and science together have produced.

Sinclair Opaline Motor Oil is refined from crude oils, mellowed and filtered for at least 80 million years; it is a blend of the very oldest Mid-continent crudes, including the famous Cambro-Ordovician crude taken from a mile and a quarter below the surface in Oklahoma.

Sinclair Pennsylvania Motor Oil is a product of the Devonian Age of a hundred million years ago. Sinclair Pennsylvania is refined 100% from Bradford-Allegany crude oil—a crude so rich in lubricating quality that every barrel commands an extra

price. (See crude oil prices in any petroleum journal.)

Both of these splendid motor oils undergo a special treatment in the Sinclair refineries. Sinclair Opaline and Sinclair Pennsylvania are not only de-waxed—they are also freed from heavy, sluggish, non-lubricating petroleum jelly at as low as 60° F. below zero. Containing no petroleum jelly, the lubricating body of Sinclair Motor Oils is absolutely genuine and will not thin out in engine heat.

Experience will tell you quickly why Sinclair Opaline and Sinclair Pennsylvania are the finest in their respective classes. Note how these oils stand up in hard, fast driving. Note especially at draining time how little oil has been used up—positive, visible proof of protection for the last mile as well as the first!

"HEAVEN"

Various figures are employed in the Scriptures to furnish some conception of the kind of eternal home which is being made ready for the righteous.

Heaven is said to be a city, "which hath foundations, whose builder and maker is God" (Heb. 11:10). A building: "In my Father's house are many mansions" (John 14:2). A kingdom: "Come ye blessed of my Father, inherit the kingdom prepared for you from the foundation of the world" (Matt. 25:34). A country: "Now they desire a better country, that is a heavenly" (Heb. 11:16). An inheritance: "Incorruptible, and undefiled, and that fadeth not away" (I. Pet. 1:4).

It is often asserted that heaven is simply a condition: that where righteousness prevails, that is heaven. The figures employed to portray heaven and our Lord's teaching show the incorrectness of this theory. "I go to prepare a place for you, and if I go to prepare again, and will receive you unto myself: that where I am, there ye may be also." (John 14:2,3).

But the realization of heaven will exceed our highest expectations. It is noticeable that John in Revelation, depicts the wealth of heaven, but says nothing concerning the riches of the inhabitants. Possibly no tongue can tell of them no pen can write of them, nor hath it entered into the heart of man an adequate conception of the greatness of the riches of the inheritance of the saints in glory.

DOROTHY DARNIT

By Charles McManus

In heaven, two of our highest aspirations will be attained. We shall see the King in His beauty, and we shall be like Him. "And every one that hath this hope set on him purifieth himself, even as he is pure" (I John 3:2,3).

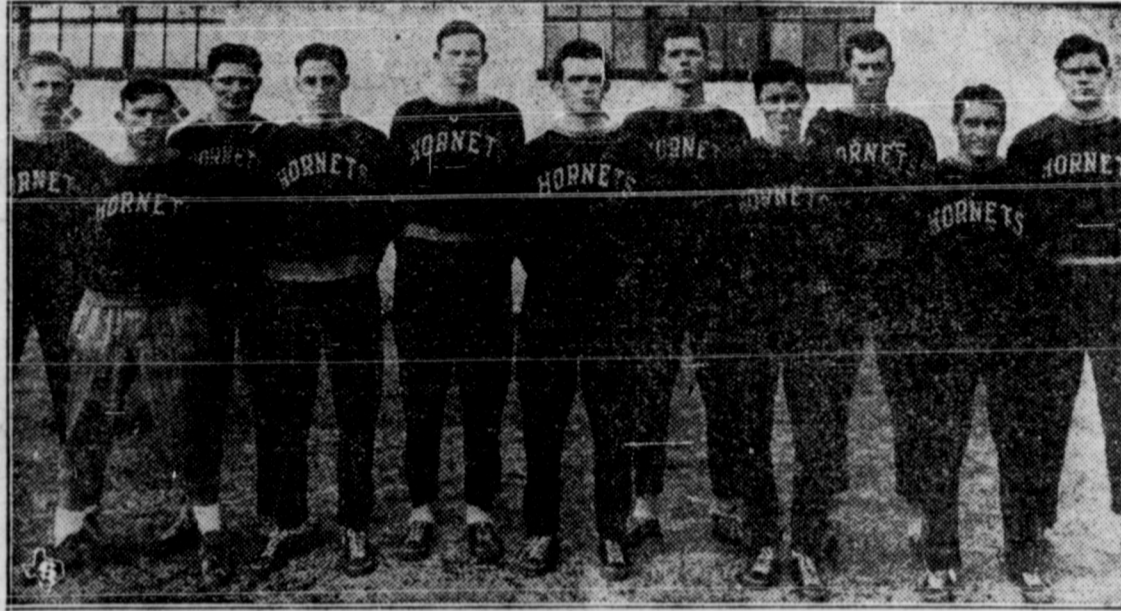

Are you sure of heaven? Have you made arrangements for a home over there? Now is the time for you to get ready to see and enjoy the blessing that God has in store for all who will come to him in faith and obedience.

Sunday morning our subject will be: "Christian Liberties" This lesson shows some blessing we can enjoy here in this life. Sunday night our subject will be: "The Way to Heaven." This lesson will help you find the way to that Home.

Run Railroad Commission From Afar

ERNEST THOMPSON
C. V. TERRELL
 Thompson and Terrell, two of Texas' three railroad commissioners, have announced from Washington, D. C., that they constitute the majority of the commission and what they say goes. Therefore, the ruling to "run East Texas oil wells wide open for two hours and then effect a shutdown" stands, regardless of the statements of Lon A. Smith, the third member of the commission.

Mr. and Mrs. Slick Naylor of Panhandle visited relatives over the week end.
 Mr. and Mrs. Sayre of Mineral Wells are visiting in the John Blocker home.
 Col Jess P. Pool of Hedley was in town Monday.
 Mrs. Bess Rolfe and son Jack of Little Rock, Arkansas came Sat. to be with her father, Mr. E. M. Sloan who is at the Adair hospi- tal.
 Mr. and Mrs. Richardon, Hedley; Hut- ton, Jr. Hi; Green, Clarendon.

"PEP"
 Vigor, vitality, vim and punch—
 That's pep!
 The courage to act on a sudden hunch—
 That's pep!
 The nerve to tackle the hardest thing.
 With feet that climb and hands that cling.
 And a heart that never forgets to sing—
 That's pep!
 Sand and grit in a concrete base—
 That's pep!
 Friendly smile on an honest face—
 That's pep!
 The spirit that helps when another's down.
 That knows how to scatter the blackest frown,
 That loves its neighbor, that loves its town—
 That's pep!
 To say, "I will"—for you know you can—
 That's pep!
 To look for the best in every man—
 That's pep!
 To meet each thundering knockout blow,
 And come back with a laugh, be- cause you know
 You'll get the best of the world below—
 That's pep!
 —Grace Bostwick, in "American Magazine."
 Mrs. Clayton and Mr. and Mrs. Slaton Mahaffey visited in Amarillo Sunday.
 Joe Tom Rorax of Panhandle visited his grandparents, Mr. and Mrs. Smith.

DOUBLE DEVELOPMENT OR MONEY BACK!

WE COULD TELL YOU in many words how chicks live and grow when fed Purina Chick Startena and Purina Chick Growena. We could tell you of their extra size and weight. We could tell you about the big money-making type of pullets they'll be next fall. But in a few short words, this is what we want to say about Purina Chick Startena and Purina Chick Growena:
 The money paid for both Chows will be refunded if baby chicks when fed Purina Chick Startena and Purina Chick Growena according to the Purina 2-7-11 Plan do not develop twice as fast the first five months as when fed straight grain feed.
 That's our guarantee to you if you follow the Purina 2-7-11 plan. You can't lose. So come in and let's get together on this plan that will make money for you this year.

RHEUMATISM
 do this

Get some genuine tablets of Bayer Aspirin and take them freely until you are entirely free from pain.
 The tablets of Bayer manufacture cannot hurt you. They do not depress the heart. And they have been proven twice as effective as salicylates in relief of rheumatic pain at any stage.
 Don't go through another season of suffering from rheumatism, or any neuritic pain. And never suffer needlessly from neuralgia, neuritis, or other conditions which Bayer Aspirin will relieve so surely and so swiftly.
