CLARENDON, DONLEY COUNTY, TEXAS, NOVEMBER 11, 1943

A Common Paper for Common People

Bentley Musical Trio To Be Here Tuesday Night, November 16th

The Musical Bentleys have an international reputation. They have appeared throughout the United States, Canada, Mexico, Hawaiian Islands, Fiji Islands, and have made three tours to Australia. This famous trio will appear at the College Auditorium Tuesday night, November 16 at 8:30 o'clock. Admission will be 25c for adults and 15c for school children.

They feature their cathedral marimba-xylophone, the largest instrument of its kind in the world. The Bentleys use ten and twelve mallets on many of their selections, which gives a combination of tone equal to an orchestra. These fascinating instrumentalists and entertainers are costumed in gay, colorful Spanish costumes of beautiful design. The Bentleys bring a new program of music, costumes and dances to their audiences this season.

Their previous repertoire included such favorite classical and semi-classical numbers as Poet and Peasant, La Paloma, Bells of St. Mary's, The Glow Worm, Ciri-Biri-Bin, Ah! Sweet Mystery of Life, When Day is Done, Indian Love Call, and Just A Wearyin' For You. On request they play current popular selections.

Miss Bentley offers several characteristic dance specialties in costume. She presents the Mexican Hat Dance or Jarabe Tapatio, using a genuine Mexican hat; the George Primrose Soft Shoe Essence, A Spanish Heel Dance, an Irish Folk Dance, and an imitation of Pat Rooney in his famous Waltz Clog. This charming young lady is a graceful and polished artist.

Ben Bentley has a lot of fun with odd musical novelties and strange instruments, such as a one string Chinese Fiddle, Musical Bottles, and a Tubaphone.

These three favorites on the marimba-xylophone are well established stars on the radio, having been featured artists of the weekly broadcasts of national advertisers over both the Columbia and National Broadcasting nationwide hook-ups.

The Bentleys score as a high ranking musical organization that appeals to those who prefer skillful musicians. This is the best program of its kind — an excellent musical attraction.

Mrs. Earl Lea and Mrs. C. D. McDowell are home from a weeks visit with Mrs. Florence Brittain and family at Ironton, Texas.

Mrs. Essie Rush who has been visiting her mother, Mrs. A. H. Baker, has returned to her home at San Antonio.

Replacement Parts Expected to Start Ailing Vehicles Back In Operation

Effective November 1, a change of method in the aid given motor vehicle operators in obtaining automotive replacement parts is expected to put vehicles laid up for want of parts back on the roads with less time lost. N. F. Nelson, District Manager of the Office of Defense Transportation stated today. It will also aid in the accumulation of data needed to forestall widespread parts shortages.

Under the new procedure, ODT Maintenance Specialists are to be responsible for searching out from parts distributors on down the line of sources, parts to fill operators' orders being "Certificate for Emergency Order" certification.

In addition to the requests received directly at ODT district offices, all such authenticated requests received by the War Production Board automotive specialists are to be referred to the nearest ODT representative for handling. If a canvass of the ODT region in which the shortage is reported fails to turn up the part, the ODT regional office is to refer the case to the WPB regional automotive specialist in order that

BUSINESS FIRMS CLOSE TODAY

Clarendon business firms have all closed their doors today in observance of Armistice. Many a thought today will be turned toward the last Armistice and a hope of a second Armistice in the near future.

BENTLEY MUSICAL TRIO

V-MAIL CHRISTMAS PRESENTS

Relatives and friends still have time to send men and women overseas V-Mail notices of war bond gifts for Christmas. The Army Postal Service has assured delivery by December 25 of all V-Mail notices sent before December 1. War bonds as Christmas gifts will help to hold down inflationary buying of scarce merchandise, and will be a financial cushion for the service man or woman upon return to civilian life, the Treasury Department added.

Clarendon Clinic Hospital Notes

New Arrivals:

Mrs. Earl Barker, a boy, of Clarendon; Mrs. Maudie Blaylock, a boy, of Hedley.

Surgical:

Mrs. Ethel Ernest, Mrs. Alton Webb, Margaret Wadsworth, of Clarendon; Joe Beth Mason, Hedley; Marvin Smith, Chickasha, Okla.; Mrs. Flora Madlock, Dalhart.

Medical:

Josephine Fulton, Mrs. Thelma Longan, Clarendon; Mr. King, Hedley; Mrs. E. L. Faver, Alanreed.

PLENTY OF TURKEYS FOR THANKSGIVING

The civilian turkey supply, just starting to come on the market, will be almost as large as last year, according to the Department of Agriculture. However, this year's demand will probably be much larger and shoppers will be wise to put in orders early. Men and women on duty in the American armed forces, at home and abroad, will be served a pound of turkey at dinner Thanksgiving Day and will have all the traditional "fixin's".

RATIONING AT A GLANCE

By PEPPY BLOCKER

In answer to many queries about the shoe exchange for school children, no definite plans will be attempted until after the first of the year for this exchange. Announcement of any plans worked out will be made through this column.

War Rationing Book No. II will have entirely served its purpose on Nov. 20 when blue stamps X, Y and Z, now good for processed foods, will expire. A, B and C in Book IV now good, expire Dec. 20. Stamp No. 29 in Book IV is now good for five pounds of sugar; expires Jan. 15.

Meat stamps G, H and J in Book III now good, expire Dec. 4. K becomes valid Nov. 15.

Shoe stamp No. 18 in War Book I will not be cancelled without warning. Any just and necessary applications for additional shoes for young children will be considered by the local Board.

Canning Plant At Lelia Opened November 9th

The processing plant at the Lelia Lake School opened again November 9th under the direction of Mrs. J. C. Christal. The plant operated from late June to late August earlier in the year.

People desiring to can any type of food will have use of pressure cookers, place to work, and all utilities free of charge, and Mrs. Christal will serve as supervisor and instructor for the work. Mrs. Christal reports that a large number are taking advantage of the facilities offered and she is asking that those who possibly can make appointments in advance. The plant is operating Tuesday, Wednesday and Thursday of each week from 10 a. m. to 6 p. m.

The Clarendon plant will be opened within the next week for the canning of meats, etc., but according to supervisor J. R. Gillham will only operate two days a week.

Frank Collinson Taken by Death

Rites honoring the memory of Frank Collinson, 88 years old, who died in his El Paso home Wednesday, Nov. 3 after a long illness, were held here in Clarendon, Sunday, Nov. 7th.

Rev. Frank H. Hutchins, Episcopal rector, conducted the services at the Buntin Funeral Home. Barry Hagedorn was in charge of funeral arrangements. The body was accompanied here by his son, Wilfred Collinson.

Mr. Collinson was a pioneer cattleman, buffalo hunter and Indian fighter who immigrated to America from Hull, England, in 1856. He was married to Jessie Brenner, a relative of Andrew Carnegie, in 1887. His wife also had immigrated to America from Aberdeen, Scotland.

As a young man, Mr. Collinson came to the Texas Panhandle about 1870 and hunted buffalo from the Canadian River to the Concho and trailed longhorn cattle from the Mexican border to Milk River, Mont.

As the first manager of the Texas Tongue River Ranch, he tallied 8,000 head of Jingle Bob cattle, purchased from the John Chisum Ranch in New Mexico, and staked off the trail over which the cattle were delivered.

On a trip to the Chisum Ranch, he met Billy the Kid, then a cowboy on the famous old ranch.

At 80 years of age, Frank Collinson became a prolific writer and produced many thrilling ranch stories for the Warner Publishing Company of New York. He lived in Clarendon from 1892 until 1919, when he settled in El Paso, where he became a cattle broker.

Surviving is his wife, three sons, Wilfred and Vincent Collinson, of El Paso; and Ralph Collinson, who lives in California; five daughters, including Mrs. A. T. Jefferies, of Clarendon.

Pallbearers were Bill Carroll, John Bugbee, Tom Bugbee, Harold Bugbee, Jack Molesworth and Jerome Stocking.

REPORTED ILL

Mrs. C. L. Benson who has been visiting an aunt at Sulphur Springs, Texas is very ill there. Her mother, Mrs. Mattie Hudson, who has been with her, returned home Sunday with her sons Clyde and Neely who came down there to drive home for them.

EXTENSIVE FEEDING PROGRAM UNDERWAY BY F.F.A. YOUTHS

H. M. BREEDLOVE

H. M. Breedlove, county agent for Donley county, was granted a leave of absence this week so that he could enter Uncle Sam's Armed forces.

Breedlove has served the people of this county as county agent for the past 12 years, and has been a strong promoter of the farmers' interests in every way possible.

His many friends will note his absence, but wish him the best of luck in this new venture. He is to leave Friday of this week for his examination. The name of his successor as County Agent has not been revealed at this time, but is due to be here the latter part of this week.

VISIT PARENTS HERE

Mr. and Mrs. J. A. Warren Jr. and Barbara of Berger spent Sunday here with their parents, Mr. and Mrs. J. A. Warren and family. Mrs. Warren who had been visiting there, returned home with them.

DONLEY COUNTY \$1,850 SHORT IN WAR CHEST FUND QUOTA

TO ENTER COLUMBIA UNIVERSITY

J. Lowell LaFon, son of Mr. and Mrs. J. R. LaFon of Canyon, left Saturday for New York City to enter Columbia University for V-7 training in the U.S.N.R. He has been working the past few years in the Labor Department of the U. S. government in the Wage and Hour division with offices in Dallas, Houston and Little Rock, Ark., but had been transferred to Amarillo early this year to open an office in that city. He was working for War Labor Board also. He is a graduate of Clarendon High School and Clarendon Junior College.

REPORTED IMPROVING

Mrs. Weldon Warren of Vernon, who has been quite ill recently, is reported this week to relatives here as being improved, and it is hoped now, will soon be completely recovered.

Bronchos Close Season With 12-0 Win

The Clarendon Bronchos unfurled their might against the Groom Tigers last Thursday afternoon to close their season with a 12-0 win.

The game was hotly contested all the way through with the Groom boys showing a much stronger team than when they played the Bronchos three weeks before.

The Bronchos came through the season with one loss, one tie and four victories. This is a pretty good record for a bunch of boys who had had no experience at all.

School officials did all they could to match a game for today, but all the prospects were either scheduled to play a game or a little bit leary about tackling the Bronchos.

One of the most extensive feeding programs ever undertaken by club youths in this county is now under way according to J. R. Gillham, local vocational agriculture instructor and F.F.A. Adviser, who stated that over three hundred head of pigs were now on feed by the local youths. These pigs will be fed to a top market weight by spring and the top pigs will be shown at the local and regional stock shows.

Each of the major six breeds of hogs are well represented in the feeding program with Durocs and Chester Whites proving to be the most popular breeds with the youngsters. Jiggs Mann, Gene Harrison, J. B. Knight, Buddy Barker, Vernon Goldston, Marvin Jordan, Billy Jack Jordan, and Gene White are feeding durocs. Joe and Mike Smith, Billy Joe Marshall, Bernal Gene Spier, Gene White, Francher Davis, Jim Lovell, Junior and Gene Bulman, and Joe Wayne Dilli are feeding chester whites.

Max Mays, Fred Bandy, William Jacobs, Harold McDonald, Duane Hearne, Jr. Bulman, John Miller-Morris, Don Thornberry, and Ray Morris are feeding Poland Chinas. Berkshires are on feed by Charlie Sullivan, Joe Lovell, Cecil Woods, Joe Carroll Smith, and Royce Morris. Earle Hay, Tommie Ringwall, W. B. Siddle, and J. L. Williams are feeding Spotted Polands. Don Thornberry, Wayne Hedrick, Mike Smith, Bobby Parker, Nelson Christie, Billie Joe Christie, Naylor, and Jack Ballew are feeding hampshires.

The feeding operations promise a well-balanced show and the production of many pounds of needed pork for our fighting men. Gillham stated that a number of other youths were being contacted and would probably be added to the list of youths already feeding.

Walter (Bud) Knorpp, local chairman announced today that plans were being completed to make a complete canvass of the entire county in order to raise our quota of \$2,300 in the War Fund Drive.

Up to date only \$450 has been donated by those who have dropped by the local banks and left their money. No soliciting has been done up to the present time, but there are a large number of you who would be glad to donate if someone came by.

You are asked to give liberally. Seventeen different agencies are going to benefit from this drive, so that others here and over there may benefit from it as a whole. Of the money raised, about \$87,000,000 or more than half the national goal will go directly to the benefit of our own fighting men through the medium of U.S.O. United Seamen's Service and War Prisoners Aid. The remainder will go to aid the stricken peoples of many nations.

The Texas War Chest slogan as most of you have already heard is: "Sure, I'll Take a Texan's Share." We don't want that slogan to fall down here in Donley county, for no better Texans can be found anywhere than right here in our own locality. We are proud to be Americans; we are proud to be Texans; we are proud to be a people who can get behind our boys and say that we are really doing our job here at home and more than appreciate what they are doing for our benefit.

Don't wait for someone to come around and ask you to donate - - - Take your money to either of the three local banks or the bank at Hedley and give with a free feeling.

Otis Speer was here from Dalhart Tuesday, where he has been employed. He advised that he would likely go to work at Pan-tex Ordnance Plant. His family has resided in Amarillo for the past several months.

Can you remember peacetime? Can you remember the noisy joy-filled throngs that celebrated the Armistice Day that ended World War I? We're celebrating that Armistice today—embroidered in World War II. And this is a different war: a peoples war in which every civilian wages a fight. This war is going to be a fight to the finish of totalitarian, fascist power-lusting. This war is going to end with a more glorious Armistice than the last—because when this war ends, liberty's torch will be flaming brightly, and she'll hold her head high—forever. When this war ends, those responsible for war shall have learned their lesson, and paid a heavy price for it. They won't want another war—ever. That's the kind of victory to which we pledge ourselves this Armistice Day in tribute to all who fight—and ever fought for freedom!

Army And Navy Need 7,000 More Doctors

The Army and Navy lack an adequate supply of civilian physicians, and assert they require an additional 7,000 medical doctors and 800 dentists "to insure even minimal care of the wounded" through December 31, 1943, the Office of War Information reported recently on the basis of information from the Army, the Navy, and the War Manpower Commission's Procurement and Assignment Service.

Major General Norman Kirk, Army Surgeon General, is making all efforts to hold the Army's requirements to an absolute minimum, but asserts that adequate preparation must be made for all battle emergencies. About 26,000 civilian doctors had been commissioned as of August 15. But commissioning of doctors into the armed reserve is falling behind the monthly quotas assigned. The average doctor probably faces a more severe financial adjustment than many other civilians entering the armed services. On an average, he is confronted with a reduction of more than 50 percent in income.

The Army and Navy, because of differing needs, use separate processes for civilian doctors com-

Norwegians Boycott Nazi Sports Event

SMUGGLED TO THE U. S. by the Norwegian underground, this photo of a Nazi-sponsored track meet at Oslo's famed Bislet stadium speaks for itself. This August track meet—the World Series to Americans—was this year a scene for an effective, silent demonstration of resistance to German occupation—as the handful of spectators in German uniforms testify. The stadium seats 30,000 persons. For three years the 300,000 members of the Norwegian Athletic Union have flatly refused to take part in Nazi-staged events. Many of them, including the world's champion ski-jumper Birger Ruud, are in concentration camps as a result.

missioned into the reserve. In the Navy, many newly commissioned medical officers are given a nine-week indoctrination course in tropical and naval medicine, subjects not adequately covered in civilian medical institutions. The course includes chemical warfare, atmospheric hygiene (submarine and aviation), tropical diseases—particularly malaria, filariasis, the dysenteries, all worm infections, plague, cholera—and those diseases which are seldom seen in epidemic form in temperate zones. Consideration also is given to the diseases common in war areas, such as typhus, relapsing fever, and nutritional disorders. The course in surgery is restricted to those casualties seen in combat and aboard ship; burns, compound fractures, gunshot and shell wounds.

After completion of this course, doctors are assigned general duty or may volunteer for work in aviation or submarines or with paratroopers. Those who volunteer for paratroop detail go through the jumping training with other troops. These are all volunteer services, and special physical qualifications are set up.

Those doctors who enter the Army also, on a voluntary basis, train to accompany paratroops; to go with airborne infantry in transports and gliders; to land with troops in combined operations on hostile shores. Many tales of heroism are told of this group. One paratroop doctor broke the small bone of his leg in a landing behind enemy lines, but insisted on remaining on duty. He was in the midst of a very active front and performed surgical operations for two days and a night before he would allow his own injuries to be treated.

However, the bulk of the commissioned Army doctors receive

only the training at Carlisle Barracks, Pa., where they spend six weeks on courses designed chiefly to orient them to Army life, and to acquaint them with the responsibilities and duties of Army doctors.

The course at Carlisle Barracks is divided into the following departments—military art, military training, sanitation, administration, logistics, field medicine and surgery, and chemical warfare. There are also courses in field dentistry and in the duties of veterinarians.

Army doctors find it necessary to handle considerable administrative work which in the Navy falls upon the Hospital Corps. Corpsmen also have their schools and special training. The skill and versatility of corpsmen is illustrated by the pharmacist's mate, who, on a submarine, performed an emergency appendectomy. Work of this kind is by no means within the line of their duty, but the case is cited as a sample of the caliber of the corpsmen in the Navy.

REDUCE OCTANE IN GAS

Premium gasoline used by civilians will be reduced from 78 and 80-Octane to 76-octane to conserve tetraethyl lead and volatile gasoline fractions, both of which are required in the manufacture of high-octane military gasoline. More than 50 million gallons of gasoline, fuel oils, lubricants, and other petroleum products are going directly to the fighting forces every day, the Petroleum Administration for War disclosed. One-third of all gasoline produced in the U. S. is now required for military purposes.

THE STATE OF TEXAS

TO H. B. PORTER, Defendant, Greeting:

You are hereby commanded to appear before the Honorable 100th District Court of Donley County at the Court House thereof, in Clarendon, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 20th day of December A. D. 1943, then and there to answer Plaintiff's Petition filed in said Court, on the 1st day of November A. D. 1943, in this cause, numbered 2221 on the docket of said court and styled Cleo Snodgrass Porter Plaintiff, vs. H. B. Porter Defendant.

A brief statement of the nature of this suit is as follows, to wit: Suit for divorce because of cruel treatment and restoration of maiden name of Cleo Snodgrass as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Clarendon, Texas this 1st day of November A. D. 1943.

Overweight Motor Oil Proved Non-Essential

See how safe and economical a surprisingly Light grade can be with your engine Winter OIL-PLATED

A motorist who kept a record for a month averaged only 2.7 miles between stops. Maybe you average twice that. Yet the "coupon shortage" means short runs—lots of stopping and starting. That's extra bad for your oil. The first hardships of Winter will find it unfit. This year, of all years, the height of economy is to change your oil promptly.

The lightest suitable oil you can use is best for your engine—your battery—your gasoline economy...best for lengthening your car's future! You needn't risk any overweight grade...not when you have your engine OIL-PLATED for Winter by changing to economical Conoco Nth motor oil.

The "magnetic attraction" that seems set up by a certain synthetic in Conoco Nth oil—patented—enables it to OIL-PLATE. All good plating forms a staunch protective surface, and that gives you the idea of OIL-PLATING. Now think of any OIL-PLATED part in your engine facing another OIL-PLATED part...double OIL-PLATING in between—plus Conoco Nth oil's regular-type liquid film that's extra strong! You can't get more protection than that, while with

overweight oil you'd only invite needless drag and dangerous "absentee" lubrication in starting cold. Don't risk it. Consult Your Conoco Mileage Merchant for your lightest grade of Nth, and face Winter fully confident, with your engine OIL-PLATED. Continental Oil Co.

CONOCO Nth MOTOR OIL

Broad Engine Acid is Fought by OIL-PLATING

Normal combustion always leaves acids inside of your engine when it stops.

Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to out acid.

But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine OIL-PLATED.

THE TEMPLE OF TRUTH
By the Apostle

"Was he surprised when you said you wanted to marry his daughter?"
"Surprised! I should say so. The gun nearly fell out of his hands."

Long time ago, a school marm used to prate about the value of "a bird in the hand, etc." She never stopped to think that a bird in the hand is considered bad table manners in some places.

She's not as pretty as she is painted. Her beauty is only skin dope.

No one wastes meat these days,

and it will be a long time before you will again see gravy smeared on the vest, either.

The little girl of 6 going on 7 is now 52 going on 35.

A young man applying at the recruiting station was asked: "I presume that you want to go in for a commission?" The old boy thought it over a bit and then said,

"Nawsur, I want a straight salary all the way through. I ain't been much on shootin'."

OLD SCOTCH.

This is a late one. At a recruiting drive in Los Angeles, Bing Crosby sang "Anchors Aweigh" and ten lads immediately joined the navy. He next sang "The Caissons Go Rolling Along" and twenty lads signed up for the field

artillery. Bing's last effort was to sing "There's a Gold Mine in the Sky" and one hundred and thirty Scotch rushed in to join the Air Corps.

BRIGHT PATHWAY.

A local negro appeared to be so happy that a white friend stopped and asked him how he was getting along. "Fine," he cackled. "De good Lawd's leaden' me, and the Guvmint's feedin' me!"

RED FACES.

A much-roughed woman was on trial on a charge of disturbing the peace. "Are you innocent?" the judge inquired. She looked at him for a moment and shifted the synthetic chewing gum to the other side of her mouth and replied: "No judgey, are you?"

It is said that everything will be rationed in Texas next year except political mud slinging.

Forty years ago when the preachers discussed the topic of hell so much in their sermons, might have been unhappily married. There is less and less of that in this day. That's another compliment to the ladies.

What has become of that old gal from America who, two years ago, prated so much about being a guest of Hitler while she was touring Europe?

Sit down strikes the past two months are said to have cost this nation enough to build a battleship. I used to work a three-horse team to a Cassidy sulky plow, but never did have either of the animals want to back up and sit on the seat.

So long as a man is alive, we are slow to say it has been a success. He might go on and spoil it. The human animal is most accurate about gossip and condemnation in general.

The reason that a long residency in the Panhandle is considered news, is that the game is a sort of endurance contest with the elements—mostly wind.

HELP! HELP!

I want a hog jowl or two to smear up my collards, folks. Who will sell me a jowl. I wouldn't be so "hoggish" as to ask you to sell me a real ham. I mean by real ham, one that is put up by skill rather than medicine. None of the patent dopes ever got within a mile of the good old home spun method.

MIDWAY
Mrs. John Goldston

Mrs. Roberta Woods, Miss Vada Waldron and the Naylor twins are spending the week in Pampa. Mr. and Mrs. Porter Arnold and children visited from Plainview the past week. DOROTHEA WATSON BECOMES BRIDE OF CPL. E. R. MAYVILLE

Miss Dorothea Watson became the bride of Cpl. E. R. Mayville in a double ring ceremony at 7:00 Saturday evening, Nov. 6th in the First Presbyterian Church of Ballinger, Texas. Rev. W. R. Shipp, pastor of the Ballinger Methodist Church, read the marriage vows in the presence of approximately fifty friends and relatives of the couple.

The bride, daughter of Mr. and Mrs. O. C. Watson, Sr., of Clarendon, was given in marriage by her father. She chose for the occasion a powder blue wool dress with black suede accessories, and carried a white prayer book, topped by white gardenias and a spray of white ribbons. For "something old" she carried her mother's wedding handkerchief.

Mrs. Robert Owen, of Fort Worth, was the maid of honor, and wore a gold crepe dress with brown alligator accessories and a corsage of bronze mums.

Mrs. Janie Barnett sang "Always", accompanied by Miss Tommie Mansell at the organ. Mrs. Barnett wore a royal blue velvet dress with matching blue accessories. Her corsage was of white rose-buds.

Pfc. Robert L. Fridell attended

Dr. Keith S. Lowell
GENERAL PRACTICE
AND SURGERY

Offices in Goldston Bldg.
Office Phone 126
Residence Phone 174

Cpl. Mayville as best man, and the ushers were Pfc. William Cobb and T/Sgt. Eugene S. Doxsee. Pfc. Cobb lit the tapers in the candle-labra on the altar at the start of the ceremony.

Following the wedding, an informal reception was given at the home of Mrs. Janie Barnett. The center-piece of the dining table was a tiered arrangement of white mums, surrounding a tiered wedding cake topped with a miniature bride and groom. Miss Wilma Seipp presided at the wedding cake, and Mrs. Robert Owen was at the punch bowl. Misses Mary Jo Webb, Helen Speer, Dell White, and Jane Branton assisted in the serving. Mrs. John Longinette presided at the bride's book.

Among the out-of-town guests at the wedding and reception were the bride's parents, her brother, George Watson, and her grand mother, Mrs. Lena Antrobus, all of Clarendon. Other guests included Lt. and Mrs. Yale B. Griffis, Lt. and Mrs. Wendell T. Siebert, Lt. Ralph E. Bernfeld, M/Sgt. W. Williams, Sgt. and Mrs. J. R. Arnold, Sgt. and Mrs. Ross Causey, Mr. and Mrs. Fred Harman, and Mr. and Mrs. Bill May.

The bride is a graduate of Clarendon High School and Junior College, and attended West Texas State College. The groom, son of Mrs. Hazel Mayville and the late Mr. Mayville, of Flint, Michigan, attended Flint Northern High School and Flint Junior College, and is presently stationed at Bruce Field, Ballinger, as an instructor in the instrument flying training section there.

Cpl. and Mrs. Mayville will make their home in Ballinger.

Mrs. Marian Cox has returned home to Panhandle after a visit with her mother, Mrs. A. H. Baker and sister, Mrs. Rush.

MOTHERS CLUB

The Mothers Study Club met in a call meeting at the home of Mrs. Alfred Estlack with Mrs. Dale Hill as hostess. After roll call and the minutes of the last meeting were read, members present planned the year book for the present year.

Refreshments were served to Mesdames Arlie Woods, R. Y. King, G. W. Estlack, A. D. Estlack, and the hostess, Mrs. Dale Hill.

CLARENDON H. D. CLUB

The Clarendon H. D. Club will meet in the home of Mrs. Grover Heath Friday, Nov. 19 at 3 p. m. Mrs. Ed Speed and Miss Ida Harneid will be assisting hostesses.

CHOIR PRACTICE

The Young People's Choir met in the W. D. Kidd home Monday evening for their regular weekly practice.

We want to urge all our old members and any new ones that might want to, to come to our practice.

It was also revealed that this choir plans to put on a program around Christmas. This will be a special Christmas program in which will be featured the new music that the choir is working on now.

We call to your special attention this fact. Our practice hereafter will be at 7:30 on Monday evening instead of at 8:00 as it has been formerly.

We urge all our members to be there next Monday evening. We want to really begin work for our Christmas program right away.

—Reporter.

HARMONY S. S. CLASS

Mrs. Fannie Wilson and Miss Carrie Davis entertained the Harmony S. S. Class of the Methodist Church with a lovely party Friday afternoon at the home of Mrs. Wilson. Games and contests were enjoyed.

Lovely refreshment plates were served to guest, Mrs. McCarty, and class members, Mesdames Watson, Phelan, Nathan Cox, W. E. Ray, Clyde Hudson, Mike Thornberry, Wilson and Miss Davis.

REMEMBER PEARL HARBOR - BUY DEFENSE BONDS.

PATHFINDER CLUB

The Pathfinder Club will meet Friday at 4:30 p. m. at the home of Mrs. J. T. Patman with Mrs. Fred Buntin and Mrs. C. A. Burton as hostesses.

SARAH SKINNER CIRCLE

This missionary circle of the Baptist Church met at the home of Mrs. R. R. Dawkins Wednesday afternoon. Mrs. H. C. Brumley, the president, presided over the business meeting.

Mrs. W. B. Sims led the opening prayer and Mrs. C. W. Taylor discussed the Bible lesson.

The gathering was closed with prayer, Mrs. A. W. Simpson leading.

Mrs. Dawkins as hostess served a light refreshment to Mesdames W. B. Sims, Eva Draffin, H. C. Brumley, J. L. Allison, M. E. Thornton, Cap Lane, G. C. Heath, Major Hudson, C. W. Taylor, M. C. Reed.

JR. LES BEAUX ARTS CLUB

The Jr. Les Beaux Arts Club met in the home of Mary Nell Keys, Thursday, November 4th at 5 p. m.

Program: Sara Lowry gave talk on "How Etchings Are Made". Exhibit of Etching by Annie Ree Porter.

Lovely refreshments were served to Charline Knox, Annie Ree Porter, Dorothy Kennedy, Helen Porter, Lavoise Armstrong, LaRue Shadle, Sara Lowry, Joline Etter, Frankie Hommel, and sponsors Miss Howren and Mrs. James Ross, and hostesses Mary Nell Keys and Leona McCraw.

Mr. and Mrs. Chas. Spier and daughter and Mr. and Mrs. Charley Fields of Groom visited Mr. and Mrs. J. H. Helton Sunday.

J. T. and Mrs. Hoy were over from Pampa Sunday visiting friends and counting their hail loss on their greenhouse.

Sunday, November 14th
The twenty-first Sunday after Trinity.

11:00 a. m. — Morning Prayer and Sermon—Mr. Knorpp.

FIRST CHRISTIAN CHURCH

L. Guy Ament, Pastor

We have services at 11 a. m. and if you are a member of the church it is your duty to be in attendance. Forsake not the assembling of yourself with the body. Come for worship and spiritual uplift.

Our Sunday evening services will be at the Vesper hour, 6 o'clock. Our service will be for one hour or about. Meet with us for this service.

Our Wednesday night Bible study and prayer service will be at 8 o'clock. All are invited. All who come enjoy the service.

We need men in our Men's class. Always more men are wanted. Man power is short, but you can fill the gap in the lines. Come on.

Monday night is choir practice; why not you help out in this needed department.

Misses Mattie and Irene Rhodes and Marvin Jones were in Amarillo Tuesday.

Ernest Hunt and daughter Louva and John Hunt visited their mother, Mrs. Mary J. Hunt at Sunray Sunday and also attended to farm business.

IN HOSPITAL

Word has come to relatives here that Wayburn Mace, son of Mr. and Mrs. A. L. Mace, well known in this vicinity, is in a Naval hospital for an operation in San Diego, Cal., where he recently volunteered into the Naval Service. Particulars are not known, but it is understood he will be confined for several weeks.

Mrs. P. C. Messer, who is at present residing at Plainview with her parents while P. C. is in military service, visited the Messers at McKnight over the weekend.

CARD OF THANKS

When death took our dear husband, father and grandfather from our home, we wish to thank his many friends for the kindness shown him during his illness and the beautiful flowers sent him.
Mrs. R. A. Brame and Family.

Joe Bain sold the Farmers' Cafe this week to C. T. Swinney. Mr. Bain made no announcements as to his future plans in business.

Mrs. Lalar Wilkerson visited friends here Saturday.

Some used clothing was given this week by Mrs. Frank Hutchins.

Two cash donations were received this month from Mrs. S. T. Sayre.

HOME SERVICE

Mrs. C. A. Burton
Public Law No. 174 signed by the President on October 26th, makes a number of important changes in the Servicemen's Dependents Allowance Act of 1942.

Family allowances are now payable to the dependents of all seven grades of enlisted men. They were formerly payable only to those of men in four grades.

Provision is made for an initial family allowance payment for the month in which the man enters active service in a pay status. The full amount of this initial payment is borne by the government.

The new bill provides for three classes of dependents, A, B, and B-1, instead of two classes as formerly. The new Class B-1, consists of parents, brothers, sisters, dependent upon the enlisted man for chief support. Class B dependents consist of parents, brothers and sisters who are dependent on the enlisted man for a substantial portion of their support. Grandchildren are no longer included. Class A dependents remain the same, a wife or child.

Substantial increases are provided for children, for the first child instead of \$12, it is now \$30 for each other child instead of \$10.

To class B-1 dependents, where the serviceman is the chief support, the amount to one parent is \$50, to two is \$68, to one parent and one brother or sister is \$68, and for each additional brother or sister is \$11. The serviceman's contribution remains \$22 or \$27. The initial family allowance is payable if a man makes application within fifteen days after his entry on a pay status. These laws apply to dependents of women in the service as same as to men.

New forms to determine the status of all class B dependents are being mailed out. These should be returned promptly.

R. A. Brame Rites Held Sunday

Funeral services were held Sunday afternoon at the First Baptist Church for R. A. Brame, 71, with Rev. E. L. Moody, officiating.

Mr. Brame passed away at the Clarendon Clinic November 6th after a lengthy illness at the age of 71 years. He was a retired farmer and had resided in this section some 22 years.

He is survived by his wife, four daughters and five sons. The children are: Mrs. W. R. Morgan and Mrs. Sam Dale of Clarendon; Mrs. Thos. Clayton, Memphis; Mrs. Bill Gibson, Dallas; the sons: Vernon of Hartley; Herman, San Bernardino, Calif.; Pfc. Leroy Brame U. S. Army; Pvt. R. A. Brame, Jr. of U. S. Army in Australia; Gordon of Baton Rouge, La.

His only brother is Gordon Brame, Memphis, Tenn. The two sisters are Mrs. Marian Lucas, Baton Rouge, La., and Mrs. Kate Smith who resides in Miss. Ten grandchildren also survive.

Attending the casket were Alvin Landers, Otis Naylor, W. C. Slater, Vada Carpenter, Dale Hill and F. L. Behrens. In charge of flowers were Mrs. W. C. Lackey, Mrs. Dale Hill, Mrs. Vada Carpenter, Mrs. John Wood and Mrs. Otis Naylor.

Womack Funeral Home had charge of arrangements.

Clarence May, employed at Pantex, spent the weekend here with his family.

Mrs. Will Johnson and Mrs. Victor Smith spent the week end with Mable Johnson at Amarillo.

Ardis Patman of Canyon visited homefolks the week end.

Mrs. Pete Messer and Mrs. Opal Messer were here from McKnight Monday.

Mrs. Spurgeon is visiting her daughter, Mrs. Hopkins at Okla. City.

A Trip Through A California Defense Plant

By Charles Smith
(Excerpt from a letter to Mrs. M. C. Goodner)

As I write this letter, I am sitting in the template group of the Engineering Department, just above the experimental laboratory. I can hear the riveting guns banging, metal clanging, motors roaring, and all of the other sounds that go with a group of busy men. Just to the right of me, there is a long "U" turn of B-25's. Also, there is a line of mustang fighters that curves out to the flight ramp. This is the final assembly line. To my left, which is south, there is a huge flat room that contains all of the drafting department. Below it, is the personnel department.

To the east, the main assembly building towers up with a majestic look over the other buildings. Here are assembled the main parts of the planes. Long lines of presses, drop hammers, jigs, supplies, electrical equipment, trolleys, conveyors, partly assembled planes,

and thousands of men and women working greet the eye as one walks along the main aisle. It is like an army assembled in a small space to do a compact job; and it is, for it is an army of civilians, united by skill and destination of victory, to build the best planes in the world.

Continuing up some stairs, a person may pause, as I often do, look out upon what seems like an ocean of planes, painted a greenish-purple by a strong, fluorescent light suspended to the ceiling. Under this light, no distinct progress can be marked, but the activity seems to blend into a steady train of planes that roll off the line all the time.

Far to my right is the flight ramp. Here are long lines of B-25's, Mustang P-51's, and Douglas dive bombers, besides Liberators, AT 6's, and other small planes. This is Metropolitan Air Field. Here is where the Mitchell Bombers first took to the air when Doolittle was preparing for his raid on Tokyo. To the right of the ramp, is the machine gun range where machine guns are aligned in the planes. Also, here the planes get a final checking for imperfections. To my far left, is the jig department where jigs are made for assembly. On the left of the jig department, Douglas Aircraft's El Segundo Plant is located.

This will give the Clarendon people a faint idea of the activity that goes on in a California defense plant.

Sgt. Roy Bulls, who has been visiting his parents, Mr. and Mrs. J. R. Bulls for the past week, returned to Salt Lake City, Utah Saturday night.

KEEP YOUR LAND FLOWING WITH MILK AND HONEY

Keep up the steady flow of MILK to market by increasing POWER on the farm. Feed your baby calves Security Calf Food and spare your milk. The difference in cost will amaze you. Dairymen have used Security for 40 years. A 25 lb. pail takes care of four calves for six weeks. Come in for a pail!

FEED YOUR BABY CALVES SECURITY CALF FOOD

Canadian Axes Help Bomb the Axis

CANADIAN woodsmen are working long hours to cut down forests of Sitka spruce, the result of which is having such a telling effect on the bombing of Germany.

Now that it has been proved in actual combat that plywood can replace steel in the building of such speedy and deadly aircraft as the Mosquito, and now that Canada is turning out such warplanes, the de-

mand for aircraft quality Sitka spruce has greatly increased, not only for her own use, but for that of the United States and other United Nations.

Sitka spruce is found only on the Pacific Coast. Trees of a size suitable for aircraft production, ranging from six to fourteen feet in diameter, take several hundred years to grow, and are not plentiful. To conserve the supply, the logs are

policed through the mills, so that no piece of aero lumber may be lost. In addition, inspectors are employed in aircraft factories to guard against wastage during processing. The photographs show lumbermen running the logs down a British Columbia river, a giant Sitka before being felled and the finished product, one of the many Mosquitos which are now stinging Germany.

Lieut. John Jay of Colorado Springs, Colorado spent the week end with his parents, Mr. and Mrs. Andrew Jay.

Mrs. P. C. Messer and son of Plainview are visiting relatives and friends here this week.

WOMEN URGED TO JOIN WACS

South Plains women who are not in essential work now have the opportunity to aid their country in a vital and at present vacant job, a job which will materially help shorten the war.

An urgent appeal to women of the area to join the Womens Army Corps for service with the Army Air Forces in jobs of their choice and qualification has been issued. Assurances have been given that women joining the WACS now will see service with the Army Air Forces.

The need for additional women to fill vacant jobs created by the manpower shortage is great, officials have emphasized.

Sixty-five percent of the world international communication telegraph traffic is handled by cable, and 35 percent, by radio.

"DEAR SON"

(Taken from an Electra Paper)
I wish I had the power to write
The thoughts wedged in my heart
tonight,
As I sit watching that small star—
And wondering how and where
you are.

You know, Son, it's a funny thing
How close a war can always bring
A family, who for years with
pride
Have kept emotion deep inside.

I'm sorry that when you were
small
I let reserve build up the wall.
I told you real men never cried—
And it was Mom who always
dried

Your tears, and smothered the hurt
away
So that you soon went back to
play.

Now suddenly I find my Son
A full grown man with childhood
done.

Tonight you're far across the sea
Waging war for men like me.

Well, somehow, pride and what is
right
Just doesn't seem to go tonight,
I find my eyes won't stay quite
dry

I find that sometimes men, do
cry—
And if we stood here face to face
I'm afraid we'd find men do embrace.

Son, all Dads are a funny lot
And if I've failed you in some spot
It's not because I love you less
It's just this cussed manliness.

But if I had the power to write
The thoughts wedged in my heart
tonight
The words would ring out loud
and true
I'm proud, my boy, yes, proud of
you.

—Author unknown.

SANTA CLAUS WITH AN AMERICAN ACCENT

Members of the Eighth Army Air Force in England have opened a hobby shop. Here the boys spend their spare time making toys for English children—model tanks, fire trucks, cradles, tommy guns, little wooden locomotives, racing automobiles, with real windshields. The boys go to the schools in poorer districts and ask the teacher which children need things and what they like the most. The boys set a goal of 2,400 toys to be made and stuffed with candy and gum from their weekly rations.

Simmons Powell left Tuesday for a visit at Henrietta, Dallas and Blooming Grove.

Pvt. Ernest Eudy and Cpl. Leroy Winchester of Sheppard Field were here over the week end visiting relatives and friends.

Var Brawley visited relatives and friends in McLean Sunday.

Mr. and Mrs. Clyde Hudson are moving to Mrs. Ray's place near Goodnight where they have leased the place.

Home Slaughter Simplified

H. M. Breedlove announced that he has information from WFA and OPA concerning a simplified procedure under which farmers and other producers may determine whether or not they are eligible to slaughter without a license or permit and to consume meat without giving up ration points.

OPA has changed its meat rationing regulation, Mr. Breedlove said, to simplify requirements covering point-free home consumption of meat by livestock producers. WFA has authorized an individual to slaughter for home consumption without a license or permit if he is entitled under OPA regulations to consume meat point-free.

Under the OPA revision, according to Mr. Breedlove, a person may consume meat without giving up ration points only if he raised the livestock from birth, or for a period of 60 days immediately before slaughter, or the weight has increased 35 percent between the time he acquired the livestock and the time of slaughter.

In addition, to be considered eligible to slaughter and consume meat point-free, a person must have resided more than six months of each year on a farm which he operates, or must have visited the farm for the purpose of giving personal attention and supervision to the raising of livestock on his premises for at least a third of the time during the period on which he bases his claim to the right to consume the meat point-free.

THE NEXT STOP WAS NAPLES

The Army engineers were on the job at Pesto, Italy, near Salerno, when Lieut. Gen. Mark W. Clark's invaders landed on Hitler's Fortress Europa. Here you see a pontoon dock, where one of our big landing craft is unloading, laid right to the beach. Some idea of the size of these new landing boats built for invasions such as that of Italy can be made by comparing it with the trucks that have been swarming out of its giant maw. Your War Bond purchases helped to build such landing craft and those trucks.

Ben Talley spent Saturday nite with Bill Perdue.

Mr. and Mrs. L. C. Tims and Clyde spent Sunday with Mrs. Lucy Tims of Hedley.

Dan Tims, Bill Perdue, Ben Tal-

ley, Haskel Foster, Velma Tims, Nell Perdue, were among those to take dinner in the Otto Elliott home Sunday.

N. M. McGlone spent Sunday with S. M. Harp.

Grandpa and Grandma Perdue spent the week end in the Edgar Talley home.

T. E. Perdue of Amarillo called in this community Sunday.

To Cut Down Unnecessary Traveling

Joseph B. Eastman, director of the Office of Defense Transportation, has requested all government agencies and all private employers to refrain from granting vacation leave or time off to employees where travel would be involved from December 17 through January 10, the ODT announced today.

Mr. Eastman also asked government and business to make special efforts to curtail business travel during this period, wherever such travel could be deferred without impairment of the war effort. He likewise urged government agencies to refuse all requests for government speakers at conventions or similar group meetings held between December 17 and January 10th.

In letters transmitting the foregoing requests, the ODT director recalled that earlier this year he had asked government agencies and private industry to schedule employee vacations throughout the year and in such a way as to avoid holiday periods. Maximum curtailment of all civilian travel that could be abandoned or deferred during the coming holiday period was necessary, he said, to prevent interference with the orderly movement on trains and intercity buses of the present huge volume of military and essential civilian passenger traffic.

Mrs. Margaret Frey of Wichita Falls visited her parents, Mr. and Mrs. Leck Goldston the week end.

A Common Paper for Common People

Christmas Mailings Should Be Made In November To Reach Destination

Delivery of the annual flood of Christmas gifts and cards on time, always a serious problem, "will be more than a problem this year—it will be an impossibility—unless Christmas mailings are made largely in November," Postmaster General Frank C. Walker warned today.

"Transportation facilities are burdened to the limit with war materials and personnel, and the Postal Service has sent more than thirty-one thousand experienced employees into the Army and Navy," Mr. Walker said. "The only solution to the Christmas problem is: MAIL IN NOVEMBER. Mark your parcels, 'DO NOT OPEN UNTIL CHRISTMAS.' That is the only way to avoid disappointment on Christmas Day not only for many civilians but also for millions of members of the armed forces who are still in this country."

"It is also the only way to avoid the possibility of a Christmas emergency in the transportation and postal services. If the public will cooperate by mailing their Christmas parcels during November, we can handle a small volume of light, last-minute mailings, such as cards, up to December 10—but we can do that and avoid an emergency only if November is really 'Christmas Mailing Month.' Postal officials pointed out that the volume of mail now is far above any previous records, that railway cars by the hundreds have been diverted to war service and that the air lines have only about half as many planes as they once operated.

More than two hundred thousand extra temporary employees normally are employed to help with the holiday postal rush. This year, the extra employees will be largely women and high school boys and girls who are unable to work the long hours usually required and whose work will be relatively slow.

To deliver the Christmas mails on time, therefore, it is necessary that mailings be spread out over a longer period so that available transportation equipment and postal personnel can be used during more weeks. It will be utterly impossible to make the deliveries by Christmas if mailers wait until the last three weeks before the holiday, as in normal years.

There is another reason for shopping and mailing earlier than ever before. Retail stores are short-handed. Purchasers can avoid shopping in crowded stores, long waits for service, and other inconveniences of late shopping if they buy now. They will also doubtless have a better choice of merchandise than will be available later.

Postmaster General Walker observed that his warning is not an attempt to tell the public what to do; it is only an advance notification of what will happen if they mail late. He feels that the public is entitled to the facts, and that when they know them, they will decide to MAIL IN NOVEMBER.

DANES BLOW UP GERMANS

When the Danish Admiral Vedel had given his order that the fleet was to be either scuttled or sailed to Sweden, a detachment of German marines succeeded in getting on board the Danish naval ship "Ingolf". The German commander demanded 10 hostages as guarantee that the ship would not be blown up nor scuttled. The captain of the "Ingolf" said, "I can't prevent you from taking the hostages but I must call your attention to the fact that the sea-cocks are already open." The Germans put their ten hostages in a row on the deck, when suddenly a signal sounded, the whole Danish crew, hostages and all, jumped overboard, and deafening explosions shook the ship. Many of the Germans were killed or wounded, but all the Danes escaped. This report came from the Stockholm newspaper, Dagens Nyheter.

19,000 REFUGEES NOW IN SWEDEN

Nineteen thousand Norwegian refugees are now in Sweden and 7,000 of them are earning their own way by working "in forest, agriculture, industry and road construction", according to an article in the Swedish newspaper, Dagens Nyheter. "The refugees offer a possibility for personal contact and a foundation for friendly Swedish-Norwegian relations that may be far more decisive for the future than theoretical political plans," the article commented.

GERMANS KILL ITALIAN MULES

An American division in the Italian mountains became the envy of others when it received 300 large mules to pack supplies and ammunition. As soon as the Germans realized that American infantrymen were using the animals, they began a systematic slaughter of all the Italian mules they could find.

TESTIFIES TO ACTIVITY OF FRENCH PATRIOTS

"There is growing proof of the faith, number and strength, and the activity of (French) patriots," said the Commissioner of the Interior of the French National Liberation Committee, in an interview upon his return to London. "Although winter is coming on, positions in the mountains are being held. There are nearly 80,000 men organized in hideouts at lower altitudes than during the summer. Thanks to the tremendous efforts which have been made to provide them with clothing, provisions, and means of heating, we are hoping that they will get through the bad season in conditions which are more or less bearable."

WFA RELEASES CANNED FOODS

Approximately 2,790,000 cases of canned peaches, peas, and tomato catsup were released to consumers recently by the War Food Administration. The canned goods probably will not reach retail shelves for several weeks. These foods were a portion of the reserves owned and held by canners to meet possible emergency requirements of the government.

Teen Aged Boys Wanted In Air Corps

Another appeal to 17-year-old South Plains youths who soon will be entering the service to enlist now in the Air Corps Reserve has been sounded by officials at South Plains Army Air Field at Lubbock, Texas.

Especially for those young men still in high school and who want to complete their education is the appeal directed. Youths enlisting in the Air Corps Reserve will not be called until they have reached their eighteenth birthday and then will be permitted to complete the semester in which they are studying.

For most South Plains youths this will mean an opportunity to complete their high school education and perhaps start their college studies.

This is an opportunity for youths of the area to choose the Army Air Forces to serve with and to become pilots, bombardiers and navigators in the greatest aerial armada in the world, a chance to help bomb Tokyo and Berlin, an opportunity to prepare

RAISE HAMBURGER POINT VALUE

The ration point value of hamburger has been increased from seven to eight points per pound. OPA has also broadened its definition of hamburger to include additional meatier cuts of the lower grades of beef.

RATION-FREE CHILDREN'S SHOES

Some relief from the shortage of youngsters' shoes will be provided about the first of the year by a new supply of children's non-leather shoes for general wear, to be sold ration-free, OPA has announced. In general, children up to about eight years of age will benefit. The shoes will have canvas uppers and soles made from remnants and heavy woven fabric, reinforced with vulcanized rubber. Shoes of this type larger than misses' and youths' size three will be rationed.

for a place in aviation in peacetime.

Youths of the area who are interested should contact the Public Relations Office at SPAAF immediately.

HIGH FEED COSTS TO BOOST CULLING OF POULTRY FLOCKS

56 PRISONER OF WAR CAMPS

More than 140,000 prisoners of war are now held in 56 permanent camps in the U. S., the War Department has reported. The ratio of Germans to Italians is approximately three to one. In addition to the permanent camps, there are many temporary ones set up to house prisoners in areas with labor shortages. Agricultural work done by prisoners includes harvesting fruit, tomatoes, potatoes, peanuts, cotton, sugar beets and corn. Only a few prisoners have escaped and every one of them has been recaptured in a few hours.

HOSEY PRICES INCREASED

Higher ceiling prices for some of the finer gauges of women's full fashioned rayon hosiery have been established by OPA. Prices for 54 and 57 gauge hose have been increased from \$1.18 to \$1.41 per pair. Sixty gauge and higher have been increased from \$1.31 to \$1.69.

One of the surest ways poultry producers can make the best use of available feed supplies is to cull all non-layers and low producers from their flocks, says J. R. Gillham, agriculture teacher.

"With feed supplies short, rigid culling of the flock is more important than ever before," he said. "By removing the low producing and unprofitable birds, the owner will have relatively more feed for the higher producing hens and in this way can get more eggs from his feed supply."

To get rid of poor layers, first remove all birds that are sick or otherwise unsound. A cripple or weak hen will not pay, and eventually will come down with disease. It is important, therefore, to remove birds that are sick or lame, decidedly undersized or underweight, or that have deformities or weaknesses of their backs, legs, breast or wings.

Good culling also calls for removing all mature hens that are yellow-legged and fat. Vigorous birds with red combs and wattles, bleached beak and legs, and a thin, pliable abdomen, are usually in production.

In culling, cautioned Gillham, consideration should be given to whether the birds have had a fair chance to lay. Low production may be caused by improper feeding, crowded and unsanitary conditions, lice, mites, or intestinal worms.

Ability to cull is easily acquired, but is best learned through actual handling of birds under experienced guidance. Poultry owners who cannot cull satisfactorily should call upon some neighbor or other experienced person to help them get the needed skill.

Farmers Urged To Improve Soil Fertility

Because soil defense is a vital part of national defense, B. F. Vance, Texas State AAA administrative officer, is urging every farmer in Texas to take full advantage of the AAA farm program to build soil fertility and increase farm production.

"Congress has provided financial assistance to farmers in the form of conservative payments for carrying out production practices on their farms," Vance said. "Improvement of soil fertility has always been an important part of any sound farming program. Now with the Nation needing every pound of good food that can be produced, enrichment of the soil is more important than ever."

"Probably the biggest and most important single task facing the farmers of Texas is the protection of their more fertile soils against the inroads of erosion, and the restoration of soil fertility on depleted areas. Farmers who cultivate poor soil cannot hope to make a large contribution to the war food production program," Vance said.

Fortunately, farmers can improve soil fertility and increase farm production by carrying out approved production practices such as terracing, growing and turning under green manure and cover crops of winter and summer legumes, applying phosphate, seeding and fertilizing old pastures, and establishing new improved pastures.

Conservation payments are made to farmers for carrying out these and other practices. Every farmer who builds terraces, grows legumes, improves pastures, applies phosphate, and otherwise improves the productivity of his soil is helping to win the war and is improving his own situation at the same time, Vance said.

The United States sends about 4,000 short-wave programs of news, propaganda, and entertainment a week to various parts of the world.

—On Pay Day, Buy Bonds—

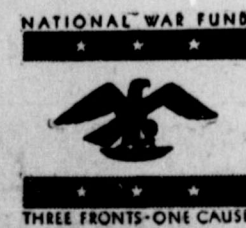

Sure, I'll take a Texan's Share

"... For Your and My Liberty and Democracy"

Gov. Coke Stevenson says: "The United War Chest of Texas offers the kind of investment that affords a comfort to that boy of yours who is out there fighting for your and my liberty and democracy."

The Governor has expressed his feelings the Texas way... from the heart. And the success of the campaign in our state to raise \$4,885,781.00 for the 17 agencies of the National War Fund will be

determined the Texas Way. One generous gift to The County War Fund will not only help our own armed forces through USO, War Prisoners Aid and United Seaman's Service, but will do much to keep China, Russia and our other allies fighting to speed the day of victory... that great day when our millions of fighting men can have their one most fervent wish—TO COME HOME.

THE 17 PARTICIPATING AGENCIES ARE:

- * USO
- * United Seaman's Service
- * War Prisoners Aid
- * Belgian War Relief Society
- * British War Relief Society
- * Dutch Relief Fund (Queen Wilhelmina Fund)
- * French Relief Fund
- * Friends of Luxembourg
- * Greek War Relief Association

ARMISTICE DAY

1918

25th ANNIVERSARY

1943

As we reach the twenty-fifth anniversary of Armistice Day our thoughts turn to the Unknown Soldier in Arlington Cemetery and the sacrifice he and thousands of other Americans of our generation made to beat back hordes of Germany making their bid for world domination under kaiserism.

Today, our sons are engaged in the business of meeting in the breach a new generation of that same ruthless foe, again seeking to bend to their will the freedom-loving nations of the world. The gangsters of Berlin and Tokyo would set the clock back a thousand years and condemn our children and our children's children to a servitude which would be unbelievable did not the peoples of Poland, Czecho-Slovakia, Manchuria and the Philippines, and other nations under the Axis heel provide the most heart-rending of testimony.

Against this ruthless totalitarianism we of the United Nations have mustered the might of decent people everywhere in a grim determination to smash once and for all the recurring threat to all we have and are.—WARREN H. ATHERTON, National Commander.

These Armistice Day pages sponsored by Aubyn E. Clark Post 126 American Legion. Our Post has always sponsored everything that is good for Community, State and Nation.—B. C. ANTROBUS, Adj.

For obvious reasons, this illustration is merely an artist's imaginative composition of the many thousands of pipes, valves, and gauges, in the 90,000,000 pound Butadiene Plant operated by Phillips Petroleum Company

1943 RUBBER TREE

CARE FOR YOUR CAR—FOR YOUR COUNTRY

YESTERDAY'S RUBBER TREES were 10,000 miles away in Far Eastern plantations. Today's rubber trees are right in our own front yard.

Only a punctuation mark here separates the two simple sentences above. Actually between them are more than a decade of intensive research, hundreds of millions of dollars, and an almost unbelievable plant-construction program to meet our relentless wartime needs for rubber.

Because Phillips and other American scientists devoted themselves to the problem, the Nation is today, in its hour of need, harvesting a multi-million-ton crop of home-grown rubber!

The butadiene (basic ingredient of synthetic rubber) which Phillips produces is a synthetic chemical. So likewise is Phillips 100-octane gasoline. From petroleum chemicals, too, come explosives; plastics; medicines and anesthetics. The list is almost endless because petroleum and petroleum gases are an overflowing storehouse of hydrocarbons, the chemical raw materials for making an almost limitless number of products.

That is why we say: Every time you see the Phillips 66 Shield, let it remind you that Phillips refineries in addition to producing gasoline, lubricants, and fuel oils, are also gigantic chemical plants, pouring out weapons for victory.

Flyer's Wife Urges Housewives To Save Food And Prevent Waste

In a message to American housewives urging the conservation of food, Mrs. James H. Doolittle, wife of the famous flyer, said nothing should be, or need be, wasted in kitchens today. "For even two spoonful of peas may be used to advantage."

Mrs. Doolittle has a personal interest in seeing that "food fights for freedom", for the war has scattered the Doolittle family far and wide. When last heard from, Major General Doolittle was in Africa. Son Jimmy, a lieutenant in the Air Force, has recently returned to the United States from the South Pacific. The other Doolittle boy is a cadet at West Point. "Food is the number one essen-

tial on the home front," Mrs. Doolittle said. "The amount of food we have is not nearly as important as the use we make of it. Most of us in America have been too lax in the preparation of food and have given too little thought to the serving of food and providing balanced meals. Today we are learning that we can conserve food and at the same time be better fed."

Mrs. Doolittle, who loves to cook and boasts she has never had a cook, says one of the best ways to see that food is not wasted is to "use imagination. Don't be afraid to substitute beans for peas, stale bread for cracker crumbs. Even

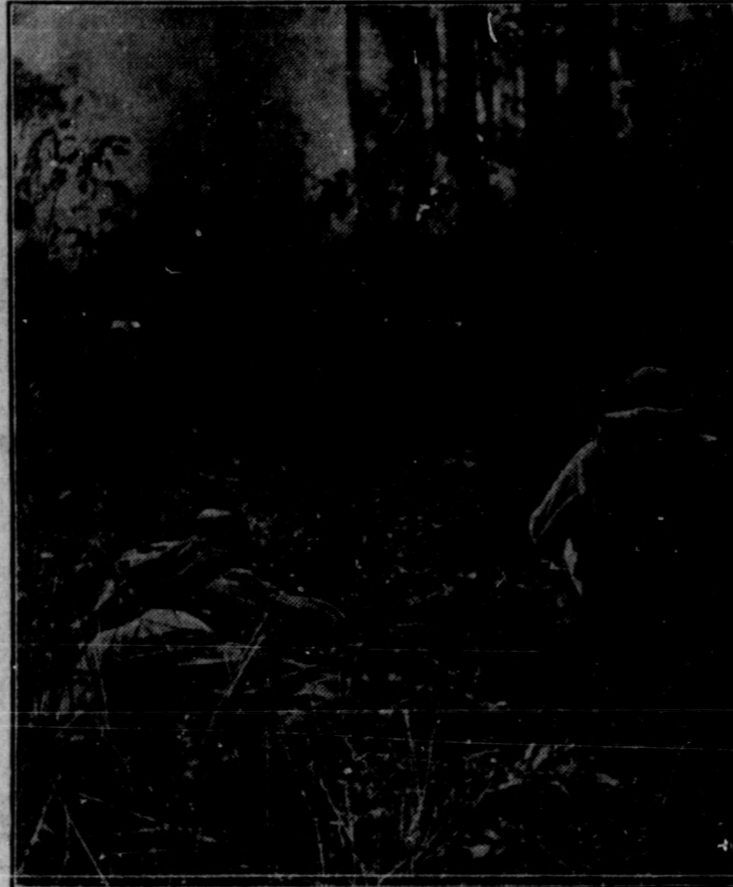

cold mashed potatoes may be served again if prepared with imagination." Mrs. Doolittle adds milk or egg to them, if necessary, and uses them in a casserole.

Emphasizing that food should be seasoned well and served attractively, Mrs. Doolittle said leftovers can be delicious if the cook uses ingenuity. She is noted for her "out-of-the-icebox" dishes which may serve twenty people when there seems to be only enough food for two or three.

About 2,200,000 long-distance telephone calls are being made in this country per day, at an average connection-speed of 3.7 min.

During the fiscal year 1942, over 30 billion pieces of U. S. mail, weighing over 3 million tons, were received, transported and delivered.

Preparing for Big Push"

Yankee infantrymen in Australia are being put through intense maneuvers in preparation for action against the Japs. These men, like the famous Australian Ninth Division, heroes of the rout of Boomtel in Egypt and Libya and recent victors over the Japs at Finschaven in Northern New Guinea, are learning all the tricks of jungle warfare before being turned loose against the wily Nipponese.

PREDICT AMPLE COFFEE FOR DURATION

"Coffee supplies in the U. S. should remain ample for the duration," according to George C. Thierbach, President of the National Coffee Association. Imports into the U. S. this year were in excess of any pre-war year except 1941. Recently Chester Bowles, General Manager of OPA, said "There is not the slightest idea of rationing coffee again." Coffee stamps in Ration Book Four were designed and sent to the printer months ago when coffee was still being rationed.

Supplies have been increased by the removal or reduction of government set-aside orders. Present conditions indicate there will be enough dry beans to provide about 10.4 pounds per capita for civilian consumption in the 1943-44 marketing season, compared to 8.6 pounds in 1942-43.

FOOD SHORTAGE IN MARSEILLES

The French Mediterranean coast city of Marseilles is undergoing a food shortage so acute that people in "modest circumstances literally die of hunger," the Marseilles correspondent of the Swiss newspaper Le Democrite said in a dispatch reported recently to the Office of War Information. "In the poorer Marseilles districts," the Swiss correspondent said, "People sell their last pieces of furniture sheets, blankets and even wedding rings to buy food."

INCREASE CIVILIAN FOOD SUPPLY

More peas, beans, rice, and cheddar cheese are going to be available for civilian consumption.

Nazis Persecute Faiths of People In Occupied Nations

All the countries which have suffered occupation by the Axis powers and their satellites have experienced in varying degrees a carefully planned, progressive attack on their Christian churches and religious organizations.

In statements made by Nazi officials, in Nazi textbooks, and by Hitler himself, it would seem that the National Socialists are attempting to subjugate religion to Hitler's will by setting up their own religion, according to a report issued by the Inter-Allied Information committee of London.

In the German periodical "Der Deutsche Bueroangestellte" with half a million circulation, these words have appeared from time to time: "God has revealed himself to the German nation in the shape of Adolf Hitler."

To preach the sovereignty of God above the nation, above the race, and above the State is regarded as high treason in Nazi-occupied countries, the Inter-Allied report says, and may be punished as an offense against the Third Reich. The swastika is held up as the symbol of Anti-Christian paganism. Christian religion is despised as a world outlook, fitting only for slaves, and Christianity is treated with contempt by those who regard themselves as a race of masters.

Methods used to obliterate all forms of belief and worship vary from suppression of Church publications to the murder of priests, according to the Inter-Allied report. Authenticated reports of de-liberate and calculated atrocity

are numerous. Churches and other devotional buildings have been destroyed or converted to different purposes, such as the stabling of horses and the giving of cinema shows. Shrines and altars have been desecrated and befouled, sacred vessels and ornaments have been looted, and church dignitaries have been taken as hostages, deported, sent to concentration camps, and tortured to death.

In Belgium the Nazis have been more "subtle" in their attempts to mould the church into conformity with Nazi political requirements. The Belgian clergy are not attacked as "priests" or "Catholics" but as "valets of Churchill," "followers of the Jewish-British gospel," "shameless allies of Freemasonry," "highwaymen in cassocks," and other such designations.

The report estimates that about 500 priests and ministers of Czechoslovakia are held in concentration camps. The same kind of persecution has affected such institutions as the YMCA and the YWCA; they are not merely prohibited throughout the country, but a number of members have disappeared from their homes and have never returned. In Yugoslavia, Protopresbyter Branko Dobrosavljevic, from Veljun, had to dig a grave for his son, a student who had been tortured and killed in the presence of his father. The father was murdered while trying to read the burial service.

Similar stories from Greece, France, Poland, and other occupied countries have been compiled in the main from official Axis announcements in the press and over the wireless, from articles and news items appearing in Axis-controlled newspapers, and from the personal experiences of people who have escaped from Axis-occupied territory.

Who Else Will Help Them If You Don't?

If you're like most people, you're waiting around to "let George do it." Sure, you've contributed something, but you've got the idea in the back of your mind that there are millions of other people all over the United States who are contributing, too.

The thing you've got to remember is that those millions of other people are pretty much like yourself. They're expecting the other fellow to carry on the work, which adds up to a handful of folks to give all they've got and a multitude of once-or-twice contributors.

Men don't go to the battlefield once or twice. Women and children don't experience the wartime starvation and illness once or twice. The job we've got ahead of us—the job of winning this war—calls for the kind of people who give all they've got! Not once or twice. Get the habit of including the war in your budget. Be thankful you don't suffer the horrors, the realities of war right in this country. Be thankful that all you're asked to do is give.

Have a Coca-Cola = What's the good word?

...or how to get along with folks

Your American soldier carries the keys to comradeship wherever he goes. Have a "Coke", says he to the eager youngsters at home, and it's like saying, What's the good word? It's a phrase that's understood in New Zealand or Newport, at home or in far-off places. Around the world Coca-Cola stands for the pause that refreshes,—has become the gesture of good will, saying Let's be friends.

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY

MEMPHIS COCA-COLA BOTTLING COMPANY

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".
