## PRESIDENT'S NRA PLAN ENDORSED IN CLARENDON

### Blue Eagle Spreads Wings Over 67 Business Firms Cooperation Assured

Blue eagles are flying in Clarendon today and cooperation with President Franklin D. Roosevelt's program were increasingly in evidence as the temporary "blanket code" went into effect August 1st.

Firms which had mailed their agreements and conformed to the stipulations therein could by signing a certificate of compliance and presenting it at the post office, obtain stickers, large window posters and two heavy window cards, all bearing the blue eagle, the NRA initials, and the words "WE DO OUR PART." Sixty-seven Clarendon business firms had obtained their insignia by nine o'clock this (Thursday) morning from the post office.

A local committee of men agreed to give freely of their time to the cause. Mr. Bill Ray, president of the Chamber of Commerce, appointed Mr. J. R. Porter, chairman; Mr. James Trent, and Mr. Joe Goldston as the head committee of Clarendon which will work with the chairmen of the various business organizations in conforming their organizations to their respective national codes.

Temporary set-ups went into effect Tuesday, and will last until permanent codes are received. Business men are on their honor to obey the spirit as well as the letter of the blanket code until their respective trade codes are drawn up and approved. The trade codes will be much more specific and adjusted to the specific needs of each business. Self-government of business and industry is the goal, but the government is ready to enforce provisions wherever necessary.

Monday afternoon a meeting was held in the City Hall with all of the civic organizations represented. Mr. O. C. Watson was the principal speaker, giving out as much information as he could at the time. The National Recovery Act was heartily endorsed by the civic leaders.

Monday night a mass meeting of business men and other interested parties was held at the court house. Mr. O. C. Watson was the main speaker. Questions were asked by different men and discussions followed. Meetings were called at different places for each kind of business. Some were held Monday night, and others Tuesday.

The main object of the meeting was to acquaint business men with the general idea of the NRA and to bring together heads of the various firms so that they might set up a temporary code to go by until a permanent code was received. Some of these codes will not be completed and approved until the last of the month.

Mr. E. F. Bryan of Amarillo visited relatives over the weekend.

Mr. and Mrs. Clifford Whitmore of Pampa announce the birth of a baby boy, Sunday July 30. Mrs. Whitmore is better known here as Miss Fanny Florence Sims. Her mother, Mrs. Sims is visiting her this week.

## Camp Fire Girls Enjoy Outing This Week

Some 40 girls pitched camp at the Camp Fire Girls' camp near the country club Monday. The camp had been cleaned up by RFC workers; so there was not much to do but start having a big week of Camp Fire activities.

The Life Guards from Amarillo, Misses Dorothy Peak and Marjorie Allen are working with the girls. As the girls pass certain parts of the course they are given ribbons. Some of the girls will be ready for the complete life saving test by the end of the week's training.

Tonight, (Thursday) will be the big ceremonial night. The public is invited to attend the services in which some 2400 beads will be given to the girls as rewards for Camp Fire Service. Each bead represents some special activity of the girl.

## METHODIST HOLD LEAD IN SOFT BALL LEAGUE

### Sunday School Teams Gain Support of More Players During Past Week

Keener competition and faster ball games were in evidence this past week in the Sunday school soft ball league. Some of the teams have added more new players to strengthen their weak spots which is making the teams become almost equal as far as players are concerned. Now it is a question of which team gets the breaks and does the most hustling.

"A man who wants to play should be interested enough to come to Sunday School," says the rules committee. "Players are supposed to go to Sunday school or to church without missing two Sundays or they are put on the bench. This is an opportunity for the participating churches to build up their classes of young men. Ball playing is good exercise, and going to church or Sunday school never hurt anyone."

At this time the Methodist team has six victories and one loss. The Baptist and Presbyterians are tied for second place with three wins and four losses. The Christians are still in the cellar with five losses and two wins.

Results of this past week games are: Friday—Methodists 10, Christians 8; Thursday—Presbyterians 15, Baptist 11; Monday—Christians 10, Baptist 9; Tuesday—Methodist 9, Presbyterians 8.

The remaining schedule is as follows:

August 3rd—Bap. vs. Meth.  
August 4th—Pres. vs. Chris.  
August 7th—Bap. vs. Pres.  
August 8th—Chris. vs. Meth.  
August 10th—Bap. vs. Chris.  
August 11th—Pres. vs. Meth.  
August 14th—Bap. vs. Meth.  
August 15th—Pres. vs. Chris.  
August 17th—Bap. vs. Pres.  
August 18th—Chris. vs. Meth.

## Home Bakery Purchases New International Truck

Mr. C. Huffman of the Home Bakery has purchased a new half-ton International truck in anticipation of increased business. "There is not a big increase at this time," said Mr. Huffman, "but there is a general increase that looks mighty good to me."

Products of the Home Bakery are delivered daily to several of the near by towns by Mr. Huffman.

## Naylor School Begins New Term August 14th

Announcement is being made at this time that the trustees of the Naylor school district have decided to begin the current school year August 14th. Trustees of this district are Mr. Carl Naylor, K. C. Reed and Tom Bain. Mr. E. H. Estlack and Miss Lucille Pickering will again conduct the school.

This school begins early every year due to the fact that there is an intermission in the term for cotton picking.

## Church of Christ Revival Begins Friday Night

Evangelist G. K. Wallace of Wichita, Kansas will begin a revival on the vacant lot west of the Church of Christ. This change of meeting place is being made as an announcement was run last week stating that the meeting would be held south of the Clarendon Hotel.

Arrangements are being made to make this open-air meeting the best that has ever been held by this Church.

Everyone is cordially invited to come out and enjoy hearing Evangelist Wallace.

Mr. and Mrs. W. A. Clark and Mr. and Mrs. Chas. Trent left for Chicago Wednesday. They went in their car and will visit the World Fair while there.

Mr. Oliver R. McElya, manager of the Tech Matador Band and interested in the publications at Tech, came in Friday to renew an acquaintance made back in high school days with the Leader force.

## NRA APPLIED TO YOU

(Editorial by Phifer Ira Estlack)

Your country and my country; your code and my code.

We do not fully understand all about President Roosevelt's N R A code, but we do know that something is being done for the people of the united States that has never been done before. Thousands have volunteered; thousands will be drafted into the greatest peace-time army that the world has ever known. We are fighting a battle under the Blue Eagle to determine whether the American people can come back or not. Success is assured if you will face the problem squarely, and put patriotism before selfish desires.

A word of caution should be spoken to those who would take advantage of it to get the jump on their competitor or to unfairly damage some business firm. Remember, this is a proposition that must be worked out, and it can not be done in one day.

Men are unselfishly giving their time and brains to help work this problem out for YOU. Don't be a slacker at a time when our country is calling for "great men with firm hearts and steady hands." Be a soldier with honor on your shoulder and faith in your heart for your fellow man.

Mr. Consumer, give the business man a chance to adjust himself to the new conditions, and then demand that he fall in step with that vast army under the NRA Blue Eagle.

"WE DO OUR PART"

## ROTARIANS HEAR DENZEL DAVIS REPORT MEETING

### Parent-Teachers' Cooperation Asked On Child Physical Examination Project

The program of the weekly Rotary luncheon Wednesday consisted of a talk or report by Secretary Denzel Davis on the Annual Rotary Convention which was held Monday and Tuesday of last week at Wichita Falls.

Mr. Davis' talk hit the high spots of the convention. The main object of this annual convention is to acquaint the in-coming presidents and secretaries of the local clubs of the 41st District with the functions and their duties toward the four major Rotary committees. Mr. O. B. Sellers of Ft. Worth, president of the 41st District presided over the convention. The past four presidents were present as is the custom, and made talks on various subjects. One of the most beneficial parts of the whole program, according to Mr. Davis, was the talk made by Dr. Knapp, president of Texas Tech at Lubbock. He talked on our present educational system and how Rotarians could help to perfect the system to a higher degree.

Another interesting feature of the meeting was the singing led by "Shep" Shepherd. Mr. Shepherd also made a talk on the value of music in Rotary. He was such a success with the music that he was invited to lead the singing at the next convention which will be held next year at Abilene.

In the business meeting discussions were held on different phases of the NRA program. The Club voted to heartily endorse the President's recovery program.

The Parent-Teacher Associations were notified that their cooperation was asked in the child physical examination project which the Rotary Club is sponsoring in Clarendon. Parents should make appointments with their family physician to have their children examined before school starts.

Cleo Woods made a horse trade in Giles Monday.

## Billie LaVerne Ramps Home From Dallas Hospital

Miss Billie LaVerne Ramp, 14 year old daughter of Mr. and Mrs. T. J. Rampey of the Chamberlain community, returned this (Thursday) morning with her mother from Dallas where she underwent an operation Monday for spinal meningitis at the Scottish Rites Masonic Hospital.

Friends of Billie LaVerne will be glad to know that the doctors think she will be able to enter her first year in high school after Christmas. She has studied at home and kept up with her school work.

## Annual Chicken Barbecue At Timber Lake Held

Some fifty people gathered Sunday at Timber Lake on the Don Grady ranch for the annual chicken barbecue. This barbecue which was started several years ago is sponsored by a group of ranchers and includes all of the JA force and the surrounding ranchers and their invited guests.

The families of Don Grady, Ralph Grady, Bob Baird, Keith Steagall, Richard Bell, Cy and Charlie Johnson and Joe McMurtry were the sponsors of this event in which thirty chickens were split in half and barbecued on a chicken wire mesh stretched over a pit twelve feet long and eighteen inches wide. Don Grady and Joe McMurtry acted as official barbecuers on this occasion. Each time the chickens were turned they were swabbed with a special sauce made by Mrs. Joe McMurtry. Besides the chickens, the long table was loaded down with all things that go to make a big picnic a huge success.

Music was furnished by Dick Bell on the violin and Mrs. Steve Hunter on the accordion. Other entertainment was the marksmanship of Deputy Guy Wright.

## Required Number Sign For Beer Election August 26th

Information furnished the Leader Wednesday was to the effect that the Commissioners had checked the names on the petitions circulated in Donley county for several weeks, and had found the required number of voters had signed the petition asking the Commissioners' Court to call an election August 26th on the local option Dry law.

This election will be held at the same time that the state election is held and will settle the question for Donley county at the same time that the state question is settled.

## Cotton Measurements Reveals Interesting Facts

Some interesting facts were revealed this week when one of the community committees measured nine tracts of land that had been plowed under according to the Cotton-plowup agreement with the Government.

Out of the nine tracts measured, it was found that six measured short twenty-seven acres. Two measured out correct, but one measured out that the farmer had plowed up six acres more than his agreement called for.

This shows that it is to the advantage of the farmer as well as the committee to have the land measured. These kind of mistakes can be avoided by fully cooperating with the committees.

The County Committee stated today (Thursday) that they had received nothing further except that the National committee was working 24 hours per day in three shifts getting the agreements checked.

## HILLCROFT GOLF TEAM WINS FROM WOLFLIN PLAYERS

### Reinforcements From Hedley And Memphis Aid Locals In Victory Sunday

Aided by efficient reinforcements from Memphis and Hedley, The Hillcroft golfers defeated the Wolflin Park players of Amarillo 25 to 8 in a return match played here Sunday afternoon. The Wolflin team had previously won from Clarendon 13 to 2 at Amarillo.

The feature match of the afternoon was played by G. W. Dodd and W. H. Cooke, ranking players, and was decided on the 19th green when Cooke missed a 12 foot putt.

## Run-Away Team and Wagon In Back Alley Saturday

Saturday afternoon two small children escaped what might have been a terrible fate. Something frightened a team of horses hitched to the wagon in which they had been left. The team ran down the back alley back of the Jitney-Jungle and luckily hit the corner of the Beach building as they swerved out to miss a car parked in the alley. The tongue of the wagon was broken out and the wagon tipped up on its side. Outside of being scared and crying the children were not hurt.

## DEMPESEY TO REFEREE BIG BOUT AMARILLO MON.

### Large Crowd Expected To Attend Gladiatorial Grapple Refereed by Fistic Idol

Amarillo, August 3rd.—An early rush for tickets to the big wrestling match here on August 7 has caused promoters to predict one of the largest crowds ever to attend a sports event in Amarillo will be on hand when Jack Dempsey, the former fistic idol of millions, steps into the ring at the City Auditorium to referee the match.

Dempsey's appearance in Amarillo will be the first time he has shown here in a personal performance, and the flood of requests for tickets indicates he is as popular in the Panhandle as he is elsewhere.

Dutch Mantell, grizzled veteran of the wrestling game, and Sailor Moran, a free-swinging youngster of Arkansas, will vie for gladiatorial honors with Dempsey the third man.

Wilbur C. Hawk booked the performance and Cal Farley made the arrangements.

Out-of-town reservations may be phoned or mailed to Miss Lois Black at the Globe-News.

Prices for the big exhibition are \$2.20 for ringsides, \$1.10 and \$1.65 for downstairs and 85c and 55c for balcony seats. All prices include federal tax.

Besides the appearance of Dempsey, preliminary matches, a personal appearance of "Hannah Williams", Dempsey's bride, an address by the former champion will be included on the program.

Mrs. Dempsey, the former Mrs. Otto Kahn, is a star of Broadway musical comedy and only last year won the title of "the cheerful little earful" of the show world.

## Engine Off Track Causes Excitement Friday

A Ft. Worth and Denver engine pulling a heavy load caused the track to buckle south of the depot last Friday. Everyone in town that did not have anything else to do, and some that did, were down there watching the train crew put the engine back on the track by use of blocks and frogs which means a first aid outfit in the trainmen's language.

## Lions Discuss Scenic Palo Duro Highway

The general topic for discussion at the Lions' regular luncheon Tuesday noon was the scenic highway through the Palo Duro Canyon. Lions Patrick, Porter and Patman were the principal speakers on the subject.

Lion Braswell gave a report on his recent trip to the Lions International Convention.

A report on the Camp Fire Girls' camp was made by Lion Caraway.

Mrs. Hoyte Smith is reported as improving nicely from a serious operation in a Ft. Worth Hospital.

## Rev. C. B. Ingram Makes Report for July

As loyal to the cause as any man that ever lived, in comes Brother C. B. Ingram with his report for July. He needed only one profession to make his 300 by midnight July 31. He hoed weeds until 4 p. m. and then obtained 3 more by sundown.

His record for July shows: Number times preached—19. Number in Sunday school—167. Number at preaching—230. Number of visits—30. Number of professions—18. Amount collected in cash and barter—\$5.50.

Mr. and Mrs. Will Davis of Miami were guests of Mr. and Mrs. Fred Johnson over the week end.

Mr. and Mrs. Joe Cluck and daughter Miss Virginia and Mrs. Reeves are in town from their ranch home near Texline. Miss Virginia is attending the Camp Fire Girls camp.

## BUSINESS HEADS ORGANIZE UNDER VARIOUS CODES

### Price And Hour Agreements Are Made In Effort To Cooperate With NRA

In a mighty effort to do everything possible to help put over President Roosevelt's National Recovery Act, the business men of Clarendon have met and organized their respective businesses. This is just a temporary set-up until they find out more about their code, but it does show that Clarendon's merchants are getting in step with the national movement.

For every line of business there has to be a code to meet its requirements. Some of the organizations have agreed on prices, wages and hours; others have agreed on opening and closing hours. It is the public duty as consumers to help all they can by cooperating with these firms by doing their shopping and buying during the time that they have agreed to be open.

The grocery heads met and organized with Rhea Couch as chairman. They will open at 7 a. m. and close at 7 p. m. on week days and 9:30 on Saturday. Hours and wages of the grocery clerks have been arranged to meet the grocery code.

The cleaners are organized with Carl Parsons as chairman. Opening hours will be from 7:30 til 6 on week days and 8:30 on Saturday. A list of cleaning prices have been agreed upon.

Dry goods firms organized with Earnest Pope as chairman. Their hours will be from 8:30 til 5:30 on week days and 9 on Saturday. Hours and wages of the employees will conform to the national code for their business.

Cafe and Bakeries organized with Arch Dyer as chairman. They on prices and wages to be paid employees.

Hardware and Furniture dealers organized with O. C. Watson as chairman. Their opening hours will be from 7:30 til 5:30 on week days.

Barber shops organized with Bob McGowan as chairman. Prices of barber work were agreed upon and hours will be from 7 a. m. til 6 p. m. on week days and 10 p. m. on Saturday.

Beauty operators are organized with Nadine Tucker as chairman. Opening hours will be from 8:30 til 5:30 and prices of work are uniform.

Drug stores have organized with Ted Williams as chairman. Their hours on week days will be from 7 a. m. til 10 p. m. On Sundays they will be from 7 to 11 a. m. and from 4 to 8 p. m. This makes them closed up during church. This is effective until a Pharmacy code is released.

Mrs. I. N. Hatton and son Carl and daughter visited her sister-in-law, Mr. and Mrs. J. H. Harris over the week-end.

Rev. M. M. Beavers and son Morris who will be joined by his other sons at Hereford will spend their vacation in New Mexico. Mrs. Beavers is visiting her daughter at Hereford while Miss Lovie Beavers is attending the girls camp this week.

## Donley County Old-Settlers Picnic August 18th

Plans are rapidly being completed for Donley County's old Settlers picnic which will be held at the Tate Grove five miles north-east of Hedley August 18th.

This is an advance announcement according to Mr. W. C. Bridges of Hedley so that all the old timers of this county will be making arrangements to attend this annual picnic. If you have lived in the county for twenty years, you should be on hand August 18th.

It was voted at one time to hold the annual picnic at the Tate Grove, but if the crowd keeps in creasing as it has in the past few years, a new place will have to be selected to take care of the old settlers.

More complete details will be given in the next two issues of the Leader. Watch for the articles.

**MAN AND HIS GREATNESS.**

Looking at a mountain at a distance, we fail to fully comprehend its greatness, and its beauty. So it is with the lives of great men. We learn to appreciate them more and more fully appreciate their capacity for doing good as we learn more intimately of their lives; learn more about their objects and intentions. The greatest thought expressed by the President on his industrial recovery program was: "Abolishment of child labor makes me personally happier than any other one thing with which I have been connected since I came to Washington."

The beautiful sentiment expressed in that paragraph is bound with human heart strings. It betokens the divine in the man who has more authority than kings—the president of the United States and the greatest man in all American history to many.

**CRIME AND ITS VICTIMS.**

Capt. N. L. Speer, former warden of the Huntsville state prison under the first administration of Mrs. Ferguson, again entered the walls Tuesday afternoon. This time he returns not as an official or a visitor, but as a member of that body of "forgotten men." Capt. Speer was convicted on a charge of having stolen \$1,000 of state funds as sheriff of Walker county. He is to serve three years with time off for good behavior.

He began as a guard, and during the thirty years of association with convicts, finally became warden, the highest official position of the state prison.

Today he mingles with other convicts over whom he had authority in other years. He will meet and mingle with convicts whom he helped to convict while performing the duties of sheriff of Walker county.

"I am going to be a good convict," was his only comment as he entered the walls to pay his debt to the state which he has served with honor and distinction on other occasions over a period of many years.

Crime never pays. Disgraced by his acts, Capt. Speer is merely known by number. At this time, his wife is sheriff of Walker county, she having been appointed upon his conviction. He has time yet to return to human association outside the walls and be the man that he once was. Society at large owes it to every criminal to help them regain that standing when liberated which was lost when they are convicted. Prisons are supposed to be places designed for meditation, repentance and reform. Crime exacts its toll and is no respecter of person. The weak and helpless become its victims. The strong must perform the service of restoration.

**WAR SPIRIT CAN WIN FOR BLANKET CODE**

Announcement from Washington of the blanket code for all American industry is in some ways the most encouraging thing that has happened in this country in a great many years.

That is not so much because it offers a new chance to wipe out the depression as because it will enable us to unite emotionally in a way that is seldom possible except in war-time.

The drive to get cooperation in this code is to be conducted just as the Liberty loan and draft act drives were conducted during the war. And in that fact there is something extremely heart-warming.

A great many people have remarked on the singular fact that a nation usually is able to focus its effort and its emotions on one point only in time of great danger. Destructive and frightful as war is, it usually is the only thing that can make a people feel truly united the only thing that can make them forget their differences, bury self-interest and work together in a common cause.

It has often been said that if only a people could get together on a peace-time project with the spirit that is displayed in time of war, it could surmount almost any obstacle.

That is the chance that is open

**UNCIVILIZED**

An ancient ape, once on a time, Disliked exceedingly to climb, And so he picked him out a tree And said, "Now this belongs to me. I have a hunch that monkeys are nuts And I can make them gather nuts And bring the bulk of them to me. By claiming title to this tree."

He took a green leaf and a reed And wrote himself a title-deed, Proclaiming pompously and slow: "All monkeys by these present know."

Next morning, when the monkeys came To gather nuts, he made his claim: "All monkeys climbing on this tree Must bring their gathered nuts to me. Cracking the same on equal shares One-half are mine, one-half are theirs."

"But by what right?" they cried, amazed, Thinking the ape was surely crazed.

"By this" he answered, "if you'll read You'll find it is a title-deed, Made in precise and formal shape And sworn before a fellow-ape Exactly on the legal plan Used by that wondrous creature, man, In London, Tokio, New York, Giengarry, Kalamazoo and Cork. Unless my deed is recognized, It proves you quite uncivilized."

"But," said one monkey, "you'll agree It was not you who made this tree?" "Nor," said the ape, serene and bland, "Does any owner make his land, Yet all of its hereditaments Are his and figure in his rents."

The puzzled monkeys sat about; They could not make the question out.

Plainly, by precedent and law, The ape's procedure showed no flaw;

And yet, no matter what he said, The stomach still denied the head. Up spoke one sprightly monkey then:

"Monkeys are monkeys; men are men. This ape should try his legal capers On men who may respect his papers.

We don't know deeds; we do know nuts, And spite of 'ifs' and 'ands' and 'buts,' We know who gathers and unmeats 'em,

By monkey practice also eats 'em. So tell the ape and all his flunkies, No man-tricks can be played on monkeys."

Thus, apes still climb to get their food, Since monkey's minds are crass and crude; The monkeys, all so ill-advised, Still eat their nuts, uncivilized. —Exchange.

**UNEMPLOYMENT RELIEF FACTS**

Austin, Texas, August 1st—Federal funds to feed the destitute of Texas are flowing into the State at an average rate of about \$1,500,000 a month, according to a report issued by Colonel Lawrence Westbrook, State Relief Administrator. The total since March, when the funds became available to the first of August was \$7,380,170. The same report shows that 1,270,000 persons are now being fed wholly by this Federal money, and no other funds for their subsistence are available from any source.

The report shows that in March

**Underweight Children**

**Need More Iron in Their Blood!**

Children who are thin and pale and who lack appetite are usually suffering from a deficiency of iron. When the blood lacks iron it becomes thin and poor and fails to nourish. Then a child loses appetite and becomes still thinner and weaker—and easy prey to disease!

To build up your child, give him Grove's Tasteless Chill Tonic. It contains iron which makes for rich, red blood. It also contains tasteless quinine which tends to purify the blood. These two effects make it an exceptional medicine for young and old. A few days on Grove's Tasteless Chill Tonic will work wonders in your child. It will sharpen his appetite, improve his color and build up his pep and energy and increase his resistance to disease. Grove's Tasteless Chill Tonic is pleasant to take. Children like it and it's absolutely safe for them. Contains nothing harmful. All stores sell Grove's Tasteless Chill Tonic. Get a bottle today and see how your child will benefit from it.

the State received \$1,382,955; April \$1,472,405; May, \$1,626,663; June, \$885,234; July, \$2,042,920.

In May the legislature was hesitant about submitting the proposed amendment authorizing the issue of State bonds for relief and the Federal Relief Administrator immediately suspended payments to Texas. This brought the June disbursements down to about half the normal amount. After the proposed amendment was submitted by the legislature the payments were resumed on the assumption that the amendment will be adopted. Notice has been served on Texas that if the vote is against the amendment the flow of Federal funds will again and permanently be stopped.

At the election on August 26th, the people do not actually vote on the bonds. They merely vote to amend the constitution to give the legislature power during the next two years only to issue bonds to match Federal aid. Under the present constitution the legislature is powerless to appropriate any public funds for relief purposes, regardless of how many people might be starving.

**DEATH FOR KIDNAPER**

Missouri's new law providing the death penalty for the crime of kidnaping received first application at Kansas City the other day when one of the gang charged with abducting Mary McElroy was sentenced to be hanged. Those whose concern has been aroused by the late increase of this most inhuman of crimes hope that the sentence of Walter McGee will have a salutary effect. The rewards of kidnaping may not appear so alluring to hoodlums who have taken it up on a big scale if the hangman's noose is dangled before their eyes.

Kidnaping is a crime which in its extreme forms merits the death penalty as thoroughly as does murder.

der. The burden of anxiety and paralyzing dread which it imposes on the family of the victim demands condign punishment of those guilty. It is a "progressive" crime, also. The kidnaper may have every intention at the start of doing his victim no bodily harm, and yet be driven by consideration of his own safety to the further crime of murder. Indeed murder is a threat inherent in kidnaping, and because of this fact there can be no effective distinction drawn between the "kindly" sort of kidnaper and the brutal gangster who tortures his victim in order to wring the hearts of the relatives from whom ransom is demanded.

The campaign against kidnaping through rigorous penalties has an advantage in the fact that this crime has no aura of romance in the public mind such as that which too often attaches to plain murder. Juries will convict kidnapers and Governors will not be overeager to pardon them. A few more samples of control such as that handed out by the Kansas City jury may put a large crimp in the flourishing "snatching" racket.

**PAYER PRESENTS TEN COMMANDMENTS ANENT "NEW DEAL"**

H. F. Payer the undersecretary of state who looks like a character from Dickens, recently revealed the "ten commandments of the new deal."

In an address before the University club the elderly, rosy faced Payer announced this creed of the Roosevelt administration:

1. Thou shalt not live—my dear country—beyond thy means.
2. Thou shalt not lose confidence in thyself.
3. Thou shalt not make mammon thy god, but neither shalt thou be unmindful of thy monetary system.
4. Thou shalt not forget—my beloved country—that when thy price level is achieved the next layer on the road to prosperity is stabilization.
5. Thou shalt not make gold thy

6. Thou shalt not permit unemployment of thy people.
7. Thou shalt not fail to manage well and rationalize.
8. Thou shalt not suffer the paradox of poverty amid plenty.
9. Thou shalt not indulge the falacy of neglecting thy own domestic economy since thy interests are paramount.
10. Thou shalt not over simplify nor complicate thy problems.

TEMPLE OF TRUTH  
By the Apostle

Well here is another week spent at Mineral Wells down here in Palo Pinto county. This county has its hillbillies just the same as Jack county. That means that we are having a great time. One native claimed to have killed 42 squirrels at one shot out of the same tree. There was some doubt about it until he showed us the tree.

The sandburs are ripening and a lot of them have gone to wearing shoes. The younger ones put gravel in their shoes to make it more natural like going barefoot.

Swim and fish! These folks in the sticks believe in both. Paths lead over every hill to a "still" plant. Home brew is a part of their religion. Some of the women are still knitting helmets for the soldier boys.

Everybody is broke, the country has dried up and nothing to do but hunt and fish. Some times they re-

An old man drove in today and after looking at a bunch of golfers shoot a round wanted to know when the "meeting" started. He thought it was a bunch of Holy-Rollers in a revival.

The 112th Cavalry has been maneuvering around here for two weeks. Only one casualty to date. They lost a brown mare. Since she had on a rope halter, it is believed that most any of the boys can lead her in to headquarters. Besides,

We are supposed to shorten hours of labor, raise salaries and wages and bring on good times. No Moses has arisen to tell us from whence the money is to come with which to pay increased wages or salaries. In talking with a number of men of varied ages, they ask this same question. The answer of the wise men (and women) is, "wait and see." Since there is no other alternative, we are simply waiting. "Simple" is right. We become more "hoodooed" with each succeeding day as more news of the "new deal" comes trickling in by radio and the press.

Reading an advertisement in a modern magazine: "Have you it?" Minnie Mocher says that the boys seldom invited her to their beer parties. In fact they avoided her several hours each day. Some even ran when they saw her coming. THEN she discovered that she was minus B. O. (Bifokal Organus). She took up the use of B. they have advertised for her through the Mineral Wells (daily) Index.  
Under the new deal, workmen in the cities are expecting great things beginning next Monday. Plans are being made and money spent before it arrives. Fully 80 percent of the folks apparently have not profited from the lesson taught by the depression. We look upon the lessons of hardship pretty much as we do politics—we refuse to accept what we don't want even tho it would be to our advantage to do so.

In view of the fact that the Old Settlers' Picnic for Donley county old time residents will be held August 18, we would like for as many of you as would be so kind as to send in something about yourself, where you came from, when and why you stopped in Donley county. We would appreciate it; and it would be of interest to everyone in the county. If you know a good, authentic story on someone else or even yourself, be sure to send it in or come in and tell us about it. We have been looking for the date of the Old Settlers' Picnic, so we could start making arrangements to be on hand again this year. You will hear more about this before August 18. Don't forget to write us or come in.

Again the old Apostle becomes a grandfather. Again he accepts the gift of fate and is content with another granddaughter, announcement about which event was made in the Leader last week. Proud of them? Yes, in unlimited numbers. It has always been our ambition to get as much out of life as possible, and this little one is but another flower along life's pathway. If you saved the poem, "Human Blossoms" as printed in the Leader a short time ago, read it again today. It will do you good after you have read this column.

The young lady of 25 years ago who, when "growing onto 18," stayed "within reaching distance" of her mother, is today the mother of a daughter who proudly disregards all three—growing onto, reaching distance, and her mother.

Upon sighting Mineral Wells, the large Baker hotel building is first to come into view several miles away. Upon nearing the town there stands a magnificent brick of 11 stories with a roof garden for dancing and banquets on top. During these times it reminds one of a tomb wherein is buried the hopes and aspirations of countless investors. When good times return, the Baker will again pay large dividends as she did back in early '29.

Many people are changing their habits or customs. Those who are taking a different view of a vacation, for instance, come to Mineral Wells. Many of them are guest of the famous Milling Sanatorium here where the writer is gathering a fund of knowledge incident to the newer ideas of vacations, and the new methods of restoring health to those who, in many cases have given up hope. The rates at this sanatorium are no more than those of a first class hotel, and that includes treatments. The accommodations are equal to any hotel in the state. The Sanatorium is located two miles east of town on a hill near the Bankhead highway. Views from the campus are great, but the greatest are those leaving in sound health after coming here a few weeks ago on crutches or a cot. Rheumatics are common. Some come hobbling in most every day. The cured are leaving most every day. Next to the rheumatics, those having stomach trouble are apparently next in majority. They too, find a mecca for regaining health. Prostate gland victims also find a ready cure, and they come from many different sections. Donley county has a number of patients afflicted with each of the above who have been restored to health by spending a little time at this Sanatorium. More are coming soon and the institution will continue to grow. They are coming in proportionate numbers from other sections of the state. Several here now from Oklahoma and New Mex. The cures effected are, in some instances, almost unbelievable. The time required to effect a cure is in most instances very short. Whole families come at times for a vacation while some one or two of the family take treatments. The Methodist pastor at Crowell and his family are here this week. The "ailments" treated with success include everything from cancer to blindness with paralysis thrown in. All cases applying for treatment are not accepted. There is no miracle about the treatment—nothing even bordering on the supernatural but it is different. Cases accepted are relieved and in most instances completely cured. The doctors and others connected with the Milling Sanatorium are skilled, courteous and sympathetic. Each patient is accorded every attention necessary. Will have more to say about this

We're getting along all of the time. Down in South Texas eleven filling station dealers were caught selling "blended" gas. This means that they were gypping the customers by selling adulterated gas. It is time that something was being done to protect the unsuspecting public.

"The World's Worst Hick" is heard from! In reply to an inquiry we made some time ago, R. W. Miller, editor of the Moore County News, puts us wise to the whereabouts of the 'Hick'. He is sojourning (nice word) with relatives at Seguin, Texas. He seems to be taking a vacation due to the depression lingering too long in Moore county. The 'Hick' did put Dumas and Moore county on the map. He was on the right track. He directed his letter as follows: Mr. R. W. Miller, publisher, Society Editor, Machinist, Operator, Stereotyper, Ad Mgr., Proof Reader, Make-up-man, Press-man, Job-Printer, Chief Editorial Writer and Janitor of the Moore County News at Dumas, Texas. That tells the whole story. Reminds us of the good old days before we raised our crop of boys. Together with the GW we were the whole force.

Isn't it easy to criticize.

What old maid of today stands before the mirror and gazes disgustedly upon an image of a bony frame upon which hang clothing like a sack on a scarecrow. Well she remembers in her youth of having fallen for "pink pills for pale people" taking them by the score with every advertised assurance that her youth would last forever. Life is like that.

The good sports appeal to every man until he gets ready to marry. Then he selects another kind.

"Who is this fellow NIRA we hear so much about these days?"

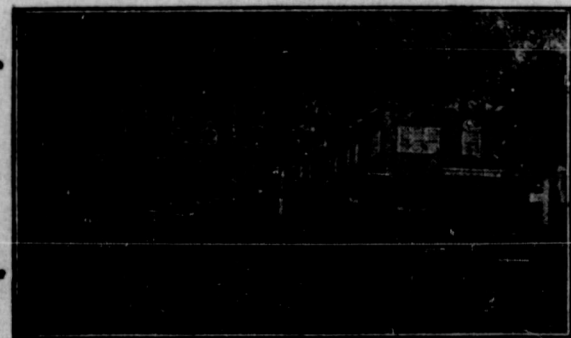

PROSPERITY IS ARISING!!

Eyes that have been looking fondly backward to the last period of prosperity now look forward to a new and even greater prosperity, a prosperity built of stouter stuff. The new prosperity arises out of hard work and courage and enterprise.

TWENTY MILES OF CHINESE ELMS

The Lubbock Station's introduction of the Chinese elm in 1919 and its extensive propagation and distribution of this tree throughout West Texas since that time has resulted in the planting of thousands of trees in this region every year. This past spring, through cooperative efforts between civic leaders in Lubbock, the State Highway Department and the Experiment Station, plans were worked out for planting an avenue of Chinese elms for two miles on each side of the five main highways leading out of

the city. These trees, which were planted on well prepared ground and are cultivated and watered by the Highway Department, are making a nice start this year, according to D. L. Jones, superintendent of the Lubbock Substation. This roadside planting of Chinese elms equal to a single row twenty miles in length required about 4,000 trees, 1,000 of which were furnished by the Station for further trials and demonstration of this tree for roadside planting in West Texas.

# WE DO NOT KNOW ALL

About the NATIONAL RECOVERY ACT as to its applications but we are willing to back the movement and do our part.

The President's idea of bringing back prosperity is a good one; also his idea of fair trade or business policy is equally important.

In our larger centers competition ceased to be fair in a large measure, and its influence has been felt in our smaller cities and towns. When one large firm or company sought to sell below the cost of doing business in order to destroy his competitor, he not only hurt the competitor, but himself as well and most of all he spelled ruin to the producer.

For an example, some large firm or corporation will purchase a car load or several car loads of Concord Grapes at a cost of 21c per basket. In order to deal spite with his competitor, he sells them for 18c per basket. He not only hurts himself and his competitor, but he ruins the market for the farmer who raises the grapes.

No farm commodity has escaped such treatment with the result that every one is hurt.

The firms whose names are mentioned below, believe in the President's policy of fairness to every one. The type of store, whether it be a cash or a service grocery has not been mentioned; no agreement of any nature has been discussed except that we have agreed that unfair business policies should cease throughout our country and for this reason we have decided to observe business hours from 7 a. m. to 7 p. m. and on Saturday - - 9:30 p. m. No Sunday opening at all.

These hours will be changed when we get further instructions.

Brice community was very glad to have Goldston with them at singing last fourth Sunday. The singing was very good and everyone enjoyed it. We wish to invite these folks back with us every time they can come and also anybody else that can be with us. Most folks enjoy a good singing and I am one of them but I am very sorry to say that I had to miss the last one. We are hoping for a large crowd next second Sunday at any rate.

Mr. and Mrs. Tice spent Sunday with Mr. C. J. Holland and family.  
 Mr. Merle Lemons spent Saturday night and Sunday with his mother and father, Mr. and Mrs. W. H. Lemons.  
 Miss Ina Fay Pitman of Martin is spending the week with Mr. M. L. Pitman and family.  
 Mr. D. T. Smallwood and family spent Sunday with Mr. M. L. Pitman and family.

The Baptist church had a large attendance at Sunday school Sunday. We had several visitors. After Sunday school we had a lecture on probation. Mr. Bill Braggs of Memphis lectured on the political side of the matter and Mr. Walter Hightower of Memphis on the spiritual side of the matter.

The Methodist pastor of Memphis will give a lecture on Probation next Sunday afternoon. All who care to hear it are invited.  
 The Baptist Revival starts Sunday. We are hoping to have a good one and have many of the lost brought to Christ.

There is quite a demand, even on farms which during recent years have become almost mechanized, for draft horses. Farmers who are going back to their faithful friend, the horse, will readily admit that on paper it can easily be proved that tractor power is cheaper than horse power, but they will add significantly that the animals eat what is grown on the farm, while engines require oil and gas, and these take something of which the farmer has very little these days—money.

Mr. Zack Salmon and family spent the week-end at Clarendon with her parents, Mr. and Mrs. Churchman.  
 Some of the folks had a nice little shower Sunday night of which they are very proud. They hope to make lots of feed and a good crop of cotton.

Those visiting in Mr. and Mrs. Dan Brazille's home Sunday of last week were Mr. and Mrs. Curley, son and daughter, Paul and Dorothy and Margaret Beverly all of Hudgins.  
 Frances Hott spent Saturday night and Sunday with Jewell Ayres.  
 Mr. Emmitt Hinkle of Amarillo is visiting his mother and father, Mr. and Mrs. Hinkle.

### MORE SAFETY in the tread

● The safest tread is the one that can stop your car the quickest. Goodyears stop quicker than any other tire. 10% quicker than the second best. Up to 77% quicker than others. Tests on wet pavements prove it. Why not buy the safest tire?

### MORE SAFETY in the plies

● Goodyears give you safety in every ply—because every ply is built with patented Super-twist cord—and every ply runs from bead to bead. Ask to see a Super-twist demonstration and see for yourself why it means more safety in every ply.

### MORE MILEAGE

● Bus fleets know mileage. And bus fleets using Goodyear Tires report 97% more mileage than they got five years ago. Goodyears for your car have the same improvements that made this extra mileage possible.

### Our Weekly CHURCH CHAT

W. E. FERRELL  
Minister First Christian Church

**"SEVEN MINDS"**  
The Bible, the text book of the Christian contains advice on many subjects that the true follower of Christ should be acquainted with and put into practice every day. In the work-a-day world we often hear people say, "mind your own business," in the Bible there are several things that we are commanded to "mind."

1. Mind your tongue. Two out of the ten commandments deal with this small member of the human body. We should never allow our tongues to speak hasty, cruel, unkind, or untruthful, or wicked words. The tongue was created for something better.
2. Mind your eyes. Do not permit them to look on obscene pictures, or things that suggest evil. There are many things, the sight of which will be inspirational. Serve God by using the eyes to see good things.
3. Mind your ears. They should never listen to wicked speeches, improper songs, smutty yarns, or unholly words. They were made for hearing the harmonies of truth and the sweet voice of God.
4. Mind your lips. Never let anything befall them, nor strong drink pass them, nor the food of the glutton to pass between them. They are given to us for a better purpose.
5. Mind your hands. They should never steal nor fight, or to be used to write down evil thoughts. Their use is to lift up the fallen, and to hand out blessings to the needy.
6. Mind your feet. They are not to walk in the paths of sin, nor in any of the steps of Satan. They are to carry you on errands of mercy and labors of love.
7. Mind your heart. The love of sin is to be kept out of it, and Satan is not to have any room in

#### THE COLLEGE PROBLEM

College is no "snap." It is a real task. It has its definite problems which challenge the best in every youth. Can you solve them? Here they are:

**Problem One—GOING.** Can I Go? Yes, if you have the money. Many thousand young men and women do not have the money nor can they find a job, thus they will be denied advantages of higher education.

**SOLUTION:** Here is an EASY and effective solution. GET A BUSINESS EDUCATION. Many who are attending our school at this moment are doing so as a means to a six-year professional education. Several of our graduates are now in college successfully earning their board, room, tuition, and in some instances, maintaining

a cash reserve. Not a few of the most successful professional men and women of the Southwest have used our commercial training courses as a means to securing their education. A business education will double the average person's chances to go to college—it will make going EASY.

**Problem Two—STAYING.** Can I Stay? Maybe you can, but the chances are against you. Only ten per cent of those who enter ever graduate. Ninety per cent fall by the wayside—pathetic, expensive! Though you can GO, ask yourself a hundred times, Can I STAY? College values are assured only to the STICKERS.

**SOLUTION:** Train yourself to be ACCURATE. Some students stumble, blotch, blur, and blunder themselves out of college. They are literally knocked out with a red pencil. Many others cut their grades to the minimum passing grade. The Business School furnishes a preparatory disciplinary training in accuracy, which is not only necessary in life's later battles, but which makes the details and technicalities of future college work delightful and EASY.

Many students quit college because they cannot KEEP UP. They never leave college. College leaves them. They lack the double-quick step. They are short in speed. Business Schools specialize in SPEED TRAINING. They prepare one for the college race, as well as for the split-second age. They emphasize speed with the pen, typewriter, figures, speedy decision and execution. They put wings on one's words by the latest shorthand methods, so that every phrase of the class room lecture may be preserved. Several of the most illustrious men have been experts in the use of shorthand and have recommended it to all prospective college students.

Thousands of students do not stay in college because they lack DEFINITE PURPOSE. Upon entering they have no idea of what they can do best, or even wanted to do. Thus, school becomes monotonous, boring, hard, and they quit. They need general orientation, specific direction, a breathing spell, contacts with the great pulsating business world and men of affairs. They must find themselves and have a purpose, or they will be numbered with the ninety per cent who DROP OUT.

**Problem Three—GETTING.** Can I get the Most? Hundreds of thousands of young people will enter college this year. Of those who pursue their courses for a while, some will receive no benefit whatever, many will be moderately helped, but only a few will receive the maximum blessing. The predominant and final question, therefore, of every college should be: How can I get the most out of my course?

**SOLUTION:** Train yourself in business first. Until recently slight emphasis has been placed upon business training as a means to a more adequate preparation for effective college work. Students have been advised to go to college and then take a Business Course. This is but another illustration of "PLACING THE CART BEFORE THE HORSE." College records will show that, other things being equal, the business trained college student makes better grades. Such students are not only able to KEEP UP but to KEEP AHEAD, and this is part of the glory of college life.

College is impossible for some, hard for many, easy for a few. Our specially arranged Business Training Course will make it EASY for you. With it you can go to college, stay in college, and get the most out of your work while there. A few months of intensive training with us will solve your four-year college problem. Write for our

catalog. It tells you how.

Our community was grieved and shocked Thursday afternoon when the sad news went out that Clack Simmons had passed away at the home of his parents, Mr. and Mrs. John A. Simmons near 3 o'clock. Clack was born a Jan. 30th, 1910 in Hill county, Texas and was 23 yrs.

5 months and 27 days of age. He was converted in the summer of 1925, uniting with the Hedley Baptist church. He had lived near Hedley for a number of years and had a host of friends who were deeply grieved at his passing. Clack had a great talent for music which made him popular with both young and old. He was possessed of a lovely disposition, always kind to everybody. Funeral services were held at the First Baptist church at Hedley by Bro. Campbell, pastor of the Windy Valley Baptist church of which the deceased was a member, assisted by Bro. Wells of Hedley. A large number of sorrowing friends gathered there to pay their last tribute to this noble young man. Interment was made in Rowe cemetery. Pall bearers were Van, Willard, Hugh

and Noel Knox, Rob Simmons and Elmer Dishman. Honorary, Pauline and Marie Darnell, Helen McEwen, Johnnie Webb, Virginia Kendall. He is survived by 6 brothers and 2 sisters, all being here when the end came, except one sister who arrived about 2 hours later. We extend our heart-felt sympathy to the bereaved loved ones.

#### POPE-BUCHANNAN

Mr. Jack Pope and Miss Ellen Buchanan surprised their many friends when they motored to Hollis, Okla. Sunday and were married. Jack is the eldest son of Mr. J. D. Pope and had resided in the Windy Valley community for about 10 years. The bride is the daughter of Mr. and Mrs. W. H. Buchanan of the same community and had only resided here about a year and half. She attended C. J.

C. last term. They will reside in Windy Valley which place they have a host of friends who wish them much happiness and success in married life.

Mr. and Mrs. Will Johnson and children, Mable and Billie returned Sunday from a vacation at Christoval, Texas.

Mr. and Mrs. Bill Kesterson and son of Estelline were in Clarendon on business Monday.

Mr. and Mrs. R. W. Morris, son of Mrs. R. M. Morris, from Tucson, Arizona is visiting his mother. It has been nineteen years since Mr. Morris has been in Clarendon. Mr. and Mrs. J. L. McGrael and son Jackie, also of Tucson are with them.

**MAD COYOTES IN PECOS AREA ARE AGAIN NUMEROUS**

Pecos—The epidemic of mad coyotes which terrorized ranches of this section a few months ago, caused considerable losses of stock and brought about a concerted drive by state and federal trappers has flared up again.

W. S. Marshall, Pecos resident, was attacked near his home by a rabid coyote. He managed to beat away the animal and summoned officers.

John Camp, Reeves county rancher, lost 14 head of cattle as a result of rabies recently.

**How All the People Had a Hand In Building Nation's Credit Structure**

**Banker Describes the Way Loans and Securities of Banks Are Based on the Hopes and Plans of All Classes—Values Dependent on Public's Ability to Meet Obligations**

By FRANCIS H. SISSON,  
President American Bankers Association in *The Forum*

CREDIT may be informally described as future hopes, plans and good intentions converted into present purchasing power. The farmer, the manufacturer, the merchant, the home buyer, the purchaser of household goods, the investor and the speculator all borrow at times. They plan to repay with the earnings of their crops, proceeds of the sales of their goods, incomes from their wages and salaries or profits from the resales of their securities at enhanced market values, each as the case may be.

The greater part of these various forms of credit is obtained by the borrowers directly or indirectly through the expansion of the loans and investments of the banks. It is this which creates the notes, securities and mortgages in the portfolios of the banks. The banks are able to extend these loans because people deposit money with them.

Even under the best conditions the plans of a small percentage of borrowers go wrong through mistakes, hard luck or dishonesty, and the judgment of the banker in such cases is proved by the after event to have been at fault. The losses caused under such conditions are ordinarily fully met by funds set aside out of the earnings of the banks for just this purpose and do not affect the depositors' money.

In the vast majority of cases and in the overwhelming volume of business involved the confidence of the bankers in their customers and the confidence of the customers in their own ability to carry out their plans and obligations to successful conclusions are wholly justified. This is the normal economic situation under which credit adds to the welfare and progress of society.

**The Faith of the Banks**

Such was the structure of hopes, good intentions and common confidence in one another that existed among all classes of the nation's community life when the series of economic shocks began to shake the nation's social fabric in 1929. The people had deposited billions of dollars with the banks because they had confidence in them. The banks had loaned large volumes of these deposits on farm and home mortgages and on notes of manufacturers, business men and finance concerns, and had invested in the standard securities of the nation's corporations, state and local governmental units and the national government itself, because they had confidence in the citizenship and the business conditions of the nation.

Their mortgage and other loans to owners of farms aggregated \$6,500,000,000. Loans on urban real estate were \$4,000,000,000. Loans to individuals secured by U. S. Government, municipal and corporate securities totalled \$11,000,000,000. Loans to industrial and commercial enterprises in connection with the production and distribution of the nation's infinite varieties of goods amounted to almost \$19,500,000,000. Investments in Federal, State and municipal bonds were almost \$6,000,000,000, and in corporate securities \$11,000,000,000.

This great credit structure was built while the country was at peace, while the farms and factories were productive, while the nation and the world provided great active markets for their outputs, while the earnings of all kinds of enterprise were large, while the working people of the nation were fully employed, while wages and salaries were steady and generous, while prices of commodities were strong and while the minds of the people were dominated by confidence.

**Great Changes Came to the Nation**

Then suddenly, almost as if the sun itself had lost part of its vitality, everything changed. Our foreign markets failed and disappeared. Industry slackened. A rapid drop in all kinds of commodity values set in. The earnings of business fell. Unemployment developed. Wages and salaries went down. Domestic markets shrank. Fear became general. The securities markets became panic-stricken as the prices of stocks and bonds withered to fractions of their former values. It was the greatest disintegration of human plans, economic conditions and worldly values ever witnessed.

These destructive changes cut right through the qualities and values of the loans and investments, the notes and securities in the banks. Business men and manufacturers could not repay their notes to the banks as due. Many governmental units and corporations defaulted the payments on their bonds. Property underlying real estate mortgages became worth less than the face of the mortgages. The market values of standard securities became less than the banks had paid for them as investments or accepted them as collateral for loans.

This meant, in fine, that the ability of borrowers to carry out the future hopes, plans and good intentions that I have defined above as the basis of credit, had become impaired to a far greater extent than had ever before occurred in the nation's history. The resulting losses could not be absorbed by the banks alone out of the normally ample funds that had been set aside against the expectancy of a certain inevitable percentage of human plans gone wrong.

**Banks Showed All Reasonable Care**

It was in loans and investments whose values thus became so unforeseeably impaired, that the banks, in all confidence, in all good faith, in all humanly reasonable care and good judgment had entrusted the billions of dollars of deposits customers entrusted to them.

Those loans and investments were, under all normal conditions, as good as gold itself. Indeed, if the banks instead had filled their vaults with gold bars, and then some unknown cosmic ray had transmuted them into lead, the results would have been scarcely more startling than the depreciation that was caused in the assets of the banks by the unforeseeable economic forces which permeated and debased them.

The inevitable result was that, when the banks urgently needed the money they had entrusted to those assets, so that they could meet the unreasoning demands of their depositors, they could not get it back.

It was not that our banking system and methods were of themselves weak or reprehensible, apart from the rest of the life of the nation, as has been made to appear.

It was not that our banks were permeated with incompetency or dishonesty or with lower standards of business ethics than were the other forms of human activity with which their own fate and activities were inextricably interwoven, as, it almost seemed at times, there was a concerted national conspiracy to lead our people to believe.

The great fact of American banking is that it shared fully in the plans and hopes and hazards of the American people,—and when those plans went wrong, the banks carried their share of the burden and suffered their share of the misfortune.

**FARM ACCOUNTING CONTEST LAUNCHED**

Bankers Evolve Plan for Stimulating Important Aid to Farm Success

THE Cache county, Utah, bankers recently added a stimulus to banker-farmer cooperative work by launching a farm accounting contest. At a meeting of the Clearing House Association the project was put before the bankers and accepted.

Each bank in the county agreed to enroll a minimum of five farmers in the farm accounting project. The names of the farmers when enrolled will be sent to the Secretary of the Clearing House, and also to the Extension Division of the Utah State Agricultural College. The bankers agree to cooperate and keep in close touch with each farmer they enroll so as to insure the completion of a maximum number. The bank which succeeds at the conclusion of the contest in enrolling the largest number of farmers completing the project will be given a special recognition.

By Sloan Baker  
County Supt. Schools

A number of people have asked if the age limit had been changed. The six year olds are still eligible, there was no legislative change. The Donley County Board has ruled that no children under six can attend school.

Next Thursday August the tenth at 2 p.m. there will be a meeting of the County Board and all School Boards of the County at the District Court Room in Clarendon. Interested patrons of the public schools are invited. Deputy State Superintendent Jesse C. Kellam will explain the new laws and regulations which the last legislature has passed and he also will explain rulings of the State Board of Education.

A number of the Donley County Rural Schools will start this month in order to take advantage of the rural aid law which guarantees eight months school.

The County Superintendents meeting at College Station was well attended. At this meeting it was decided by the County Superintendents to back the New Deal plans of State Superintendent L. A. Woods for the public schools of Texas. One of the features of this New Deal is the division of the State of Texas into twenty-two districts and the placing of a resident Deputy State Superintendent in each district. This Deputy State Superintendent takes care of both

the Independent Schools and the Rural Schools in his district. Donley County with Collingsworth, Hall Childress, Motley, Cottle, Dickens, King, Knox, Kent, Stonewall and Haskell comprise District no. 3 with Deputy State Superintendent Jesse C. Kellam in charge. This plan of supervision will coordinate the work of the separate counties with the plans of the State Department of Education and put our western counties in more direct touch with the State Department. The New Deal when fully realized will do away with a great deal of duplication in administration of public schools in Texas, enabling each child to have a better education with less cost to the tax payer. Dr. L. A. Woods says "The New Deal hinges on a better classification of schools and a transportation system which will take every child to a good school".

House Bill Number 34 provides that there shall be no county institute. County Superintendents may, however, call group meetings of teachers for not more than three Saturdays during the school year. The teachers can not collect for this new type of institute.

Mr. and Mrs. Robert Dillard and baby visited her parents, Mr. and Mrs. Frank Bourland over the week end. Mr. Dillard is attending summer school at Canyon.

Mr. J. W. Martin was in Pampa Tuesday looking after his building which sustained fire and water damage this week.

Frank Simmons who underwent an appendix operation at St. Paul's Hospital in Dallas this past week and was in a serious condition, is reported as improving nicely Wed.

**Third Globe-News Good Will Tour to World's Fair**

Amarillo, August 2nd.—Interest shown in the third Amarillo-Globe-News special to the World's Fair indicates that it will be the tour extraordinary of the year.

Insistent demands on the part of Panhandle citizens has induced Wilbur C. Hawk, general manager of the Globe-News, to again sponsor the train.

It will leave Amarillo August 20 and return the following Sunday.

Despite an increase in Pullman tariff of \$7.10, there will be no increase in the usual fare, \$67.50, which includes all expenses but meals while in Chicago. The special will be made up of all Pullmans and air-cooled dining cars, a recreation car and buffet observation car.

Included among the accommodations offered are staying at the New Palmer House, America's finest hotel, while in Chicago, grand tours of the exposition and of the Windy City, moonlight cruises on Lake Michigan, admission to the fair grounds and the most interesting exhibits, a visit to the huge Ford assembling plant and Pullman and meals there and back.

"A Century of Progress is at its height now," said Mason King, tour manager. "Those who take this jaunt will see the opening of the great rodeo and will be there on Texas Day, August 23, when state officials and thousands of other Texans will be in Chicago."

"If an individual made the trip by himself he could not go there and back and see what will be seen on this journey for less than \$150," said Mr. King.

"We will not be able to sponsor another tour as cheap as this one, for the new tariff on Pullmans will go into effect soon," Mr. Hawk said.

Reservations may be made now by paying \$10.00 down and the balance by August 15. Checks may be mailed to Mr. Hawk at the Globe-News. Places aboard the special may be reserved by writing or calling Miss Lois Black, Mr. Hawk or Mr. King at the Globe-News.

**SPORTS**  
By Hack

There was no ball game scheduled for the past Sunday by the Chamberlain team so they enjoyed a full day of rest.

The local team failing to receive any financial support from the fans and business men of Clarendon have dropped the idea of entering the Amarillo News-Globe tournament.

Claude, (a team twice beaten by the local boys) has entered the Tournament. Of course they have the support of the entire city of Clarendon. Why is it Clarendon will not support Sports other than football? Now with baseball season in its prime the local team is about to disband on account of the support they have received locally.

The National and American Leagues are having a real race this year with the Senators leading in the American and the Giants in the National.

The Senators have an advantage of one game over the Yanks and the Giants are three and one half games ahead of the speeding Pirates.

The mighty Hubbell, pitcher for the Giants continues to mow down the opposition. He has now won sixteen games this year and exactly half that number have been by the goose egg route. He has a total of 40 and one third successive scoreless innings to his credit.

Do you suppose Hubbell has decided to change the records left by the "Big Train" Walter Johnson? From the year 1907 Walter Johnson pitched 113 shut out victories, in 802 games he struck out 3,497 batters and won 414 games while losing 276. His record for strike outs has never been equalled.

"Dizzy" Dean is doing his utmost to better the record though since he equalled a record that has stood for 40 years recently by striking out 17 men in a nine inning game. If the local fans want baseball they should let it be known and then support their team.

**MRS. IONE ELLIS**

Mrs. Ione Ellis was born in Ft. Worth, Texas, December 7, 1900. The family moved to Lelia Lake, Texas when she was 13 years of age. She joined the Methodist Church at Lelia Lake the following year. At the time of her death she was a member of the Clarendon Methodist Church.

On July 3rd, 1916 she was united in marriage with Homer M. Ellis. For several years Mr. Ellis operated a grocery store in Clarendon. Her husband preceded her in death, having passed away on March 1, 1931.

She is survived by her mother, Mrs. H. D. Burris, a half sister, Marjorie Burris, a half brother, Sterling C. Burris, and step-father H. D. Burris.
