School Principals, Trustees And Patrons In First Associational Meeting New Year

President G. G. Reeves of County Association Presides At This Meeting Held at Chamberlain School Friday Evening With Good Program

The teachers and trustees and a number of patrons of Donley county assembled for the first meeting of the new school year in the new school building at Chamberlain. Mr. Reeves, the president of the organization, took the teachers and trustees through their new building. Everyone seemed pleased to see such a splendid building so conveniently arranged, and it seems the people at Chamberlain could hardly help having a good school. Quite likely many of the teachers almost envy the teachers that are working there this year.

Mr. Gordon Gatewood, and perhaps others on the program being absent, the program began with a talk by Miss Rogers, who teaches at Bairfield. Miss Rogers spoke on "Cooperation in School Work" among teachers, parents and pupils. She related how, although the depression had made it difficult to carry out cooperation, it was nevertheless possible for the resourceful teacher to carry out such a program. An example of how a teacher could be of practical help to both parents and pupils by availing himself of the benefit of state loan libraries was cited. She explained how that the expense could be cared for by putting on plays, thus allowing the pupils and parents to help both pupils and teachers. Tax-payers were also urged to pay their taxes, a very desirable way to co-operate.

Mr. Robert Dillard followed with a speech on "Why Pay Taxes." The history of taxes as a form of revenue for the government in the time of the ancient Greeks, the early Germans of Prussia, and of imperial England was cited and how that it had always brought resentment and friction, culminating in the case of England in the loss of her most valuable possessions. He explained how that taxes had so mounted that we now spoke of our "billion dollar Congress." But Mr. Dillard then showed that taxes were a necessity if one is to live in a complex civilization as we now have. He reminded one of the many privileges he now enjoys of the protection one is assured, and that for these we must pay taxes for their maintenance; that we had a part in the making of the very institutions in which we participate, and that it is our contribution to civilization. He placed the responsibility for the continuation of all these desirable features of civilization on the teachers, the patrons, and the students.

The next to speak was C. W. Howard on "How I Teach History." It was brought to the attention that not many students really know how to study, and that a good way to begin was by having students to prepare in writing the answers to direct questions. This is followed by having the pupils prepare a brief outline; at first with the teacher's help, and then have the students write a summary of the division. This may be followed by full informational outlines prepared by the students. It was suggested that each of these should be supplemented by lists of dates and their importance, lists of characters, etc. Attention was directed to the study plans as suggested in the adopted seventh grade U. S. history.

Mr. Dennis Smith of Midway spoke on cooperation between the teacher and the board. He mentioned the fact that too many boards and teachers left each to his own course; that is, possibly thinking it enough not to criticize but offering no help. Some, he states were at the opposite extreme. He suggested a middle ground as being more desirable. He suggested, instead of trustees letting teachers provide needed equipment as best they can, that they sit down together and work out things. He urged actual cooperation instead of only talking it.

Mr. Jackson was called upon to make a report on rural League work plans. He stated that most of the plans were to be worked out later, but he urged school heads to

Senators' Offices Arouse Ire Among Members of House

Lower Body Wants Higher To Refrain From Spending More Money

Austin, Texas, Sept. 23.—The Senate was asked in a House simple resolution Friday to "refrain from installing further expensive office equipment in the offices of the State Senate and to refrain from the installing of private elevators for the thirty-one persons composing the Senate." It bore the signatures of Lon E. Alsop, Will H. Scott, Traylor Russell, Cecil Lotief, John N. Thomas and Joe A. Merritt.

The resolution directs the speaker of the House to set apart for the use of State departments now housed in privately owned office buildings any rooms that may be available in the House of Representatives.

Alsop said the State Barber Board was paying \$40 a month rent and the Tax Commission \$95.

"I assume," Alsop said, "that the money spent in providing private offices for the Senate was spent out of the contingent expenses of the House and Senate. Linoleum for the offices cost \$1,031, the window shades \$189, the partitions \$1,529 and \$600 was spent for labor.

"An estimate of \$15,000 or more has been made for installing an elevator and that it will require \$3,300 to equip the offices. The Senate passed a resolution near the close of the regular session, asking the Board of Control to spend money for private offices that was appropriated for the grounds surrounding the Capitol."

Sidney Latham asked if the House had not been compelled to do without stamps at the beginning of the special session because the contingent expense account had been exhausted.

"Yes," said Alsop. "The Senate kept one man on all summer, ninety days, at \$10 a day. The Senate does not publish a list of its contingent expenses, and you must get the information from other sources. I want the Senate to know we do not approve of its action."

C. R. Gamblin Opening His New Station Saturday

In speaking of opening for business Saturday. Mr. Gamblin said, "we won't have everything just like we want it, or like we expect to have it a little later, but we can and will service cars beginning Saturday morning."

This new drive-in station is located in the Brumley building at the corner of First and Gorst. Mr. Gamblin is general agent for the Panhandle Refining company's products here, and invites his friends and patrons to call around at the new headquarters Saturday.

Lelia Lake school is closing this week for the cotton picking period. Opening date will be announced through the Leader.

adopt a set of rules and abide by them.

Mr. Baker responded to a request to speak on the rural aid law. He mentioned several schools that would be disqualified for aid under the new law, but stated that several would get even more than before. The new library aid plan was explained briefly. If a school will deposit \$10 toward a library, the state will match it with the same amount. He explained that two requirements would be rigidly enforced; the salary schedule and the 70% minimum attendance.

The next meeting was not definitely determined, but it was suggested that a meeting be held probably in January. The president will call the meeting and notify the principals.

PUBLICITY MAN EXPOUNDS "NRA" CHURCH GOING

Secretary Ministerial Group Appeals to Public For Closer Cooperation

Next Sunday is the first Sabbath included in the series of "Go-to-Church" movements that will include the months of October and November. In addition to personal appeals, the Leader will carry weekly advertisements as well as special articles prepared by the ministers and their secretary.

The appeal this week in the opening of the campaign follows:

"There are some people who GO TO CHURCH only of special day, such as Easter, Christmas or New Year's. They have not lost their religious faith; they still want to be considered as Christians. BUT they will stay away from Church Sunday after Sunday. They are not lacking in faith, but they are careless. Their religion is not exactly dead, but it does need awakening.

The "GO TO CHURCH" movement particularly appeals to these people. They have been wavering in their support of the house of God. They need a reminder, so the Churches of Clarendon are putting on this Go to Church campaign primarily to get up enthusiasm among the church people of the city.

People should do more than go to church on the great feast-day or on special occasions. They should go to church every Sunday. The Church does not ask for much of their time. Can we not spare two hours out of every week of one hundred and sixty eight hours in the house of God, studying His will and Word? God asks this much of you, will you let Him ask in vain? You will feel better about it if you will attend services next Lord's Day. So will your wife, mothers, husband, father, children and friends. The whole town is joining together in this "GO TO CHURCH" movement. You should help it along. Go to Church next Sunday.

Delays are always dangerous, but never more so than when one delays making his peace with God. Don't wait until you have to face God in the Judgment, meet Him Sunday at the church services, get acquainted with Him now so that you will not be a stranger on that great day.

God has always had a divinely appointed meeting place with the human family. First around the family altar of the Patrichal Dispensation, then the tent of meeting in the wilderness, next the tabernacle, and temple. But in

MULKEY'S FOOT IS IN HOSPITAL FOLLOWING GAME

Donkey Ball Game Between Clarendon And Memphis Played at Fair

Associated press wires over the nation are red hot with the details of the donkey ball game between Shriners here and a similar number from Memphis. The game was farced before a record crowd at the Tri-State Exposition at Amarillo Wednesday night. The score is alleged to be 4 to 3 favoring Memphis.

The gate receipts went over \$600. The biggest crowd of the three donkey games was on hand to see this one—the most exciting. Ball players rode donkeys—part of the time. Milt Shaver was thrown against a post. He landed on his shoulder and broke the post.

Fred Buntin was used for a wrestling mat a part of the time and the beauty doctors are picking donkey tracks out of or off of his back today.

Homer Mulkey is in an Amarillo hospital today recovering from a broken ankle bone. While it is a fact that the bone is broken, it is not known whether he kicked the donkey, or the donkey kicked him.

Bennett Kerbow pitched from the equine form of a burro with an assinine disposition and a canine characteristic. He claimed it bit, threw and stomped him all at the one time.

The line up: Fred Buntin c, Bennett Kerbow p, T. D. Nord 3b, C. J. Douglas s, T. M. Shaver 2b, C. Johnson 1b, C. W. Galloway cf, H. Mulkey rf, Elmer Palmer lf.

CHILLICOTHE PLAYS CLARENDON TODAY

The football game will be called at 3:30 at College Park. Be there. The visitors are considered one of the "Big Three" of their district. Get out and back the Bronchos to win.

The Bronchos beat Cordell college last week 9 to 0. They will expect to beat that record this afternoon. Be there!

Mrs. Floyd Keener and children Mrs. E. F. Brayan and Mrs. Harry Gueberon and daughter Paula Joe all of Amarillo spent week end visiting relatives in Clarendon.

these latter days He meets with us in the Church, it is the place where He promises to meet us, it's the place of His appointments, so let's not disappoint Him any longer. Go to Church Next Lord's Day."

LISTING NAMES FOR PUBLIC WORK TO BEGIN SOON

Highway Construction Will Be Biggest Project In Donley County

Odos Caraway, chairman of the Relief Committee, is in receipt of information from the state committee stating that blanks are being sent him for the purpose of registering names of those who expect to seek employment on highway work in Donley county.

In addition to making a list of the names of individuals, it is expected that a list of trucks and teams will also be made here as has been done in the upper Panhandle, all at the request of the State Rehabilitation Committee of which Lawrence Westbrook of Austin is chairman.

Registering for highway employment is not restricted alone to those who came under the RFC classification previous to this time, but names of any of those who wish to secure employment under the NRA code may have their names enrolled. This is not a charity proposition in any sense, employment to all able bodied men in but is a movement to give em their home counties to relieve, in part, the unemployment scourage of the nation so far as possible.

Mr. Caraway has also been notified that five vacancies exist in the Forest Army quota from Donley county. Boys wishing to enroll in the so-called forest army or FCC, should see Mr. Caraway for further information.

Wagons Traveling Highway Must Provide Reflectors On

Farmers who have paid taxes until they can't own an automobile and who venture out on the fine public highways in their wagons, must now take further precautions besides driving over in the ditch all the time.

The state is going to make them put tail lights on the wagons.

Not lights, but red and white reflectors, all that are required on trucks.

The highway patrol has been instructed to "enforce" the law requiring the farmer to put a white reflector in the left and a red one on the right side of the rear of his wagon. Whether enforcement will mean arrest and fine for a farmer, or merely instructions to equip the horsedrawn vehicles apparently was within the discretion of the enforcement officers.

Mr. Cal Merchant is in a hospital at Amarillo.

COTTON CHECKS ENLIVEN MATTERS OVER THE WEEK

Plow-Up Checks Will Amount To Over a Quarter Million Dollars in Donley

Cotton plow-up checks to the amount of \$28,893 were received by county agent T. R. Brown Saturday. The third batch was received Tuesday and amounted to a total of \$19,006. The total amount received in Donley county to date is \$74,389. The total amount due is approximately \$266,000.

While the delay in receiving these cotton checks was a distinct disappointment, business in general has picked up the past week. The checks expected from the middle of July to the first of August did not arrive until the last of September.

During the waiting period, purchases of necessities were made on time knowing the certainty of check receipts within a reasonable time. Merchants cooperated with the cotton producers and gladly extended credit.

Since the receipt of the checks, payments of bills began in earnest. It is said that many old bills—some two years past due—have been paid the past week. There is a general air of restored confidence.

Some cotton growers have paid their debts with the cotton plow-up checks and will have their regular crop in the clear. One man was heard to remark here Wednesday that since he had his debts paid, "he would put the remainder of his crop money into good Jerseys and market his feed through the cream can this winter."

Bank collections are good for the time of year. Bankers have been fair and lenient where conditions are said to have justified such actions in the matter, and those who could not pay all their indebtedness at the bank paid a part and bought necessities with the remainder. There is said to be a general cooperative understanding among Donley county folks in which direct benefits are daily pulling them back to normalcy.

Attendance is Increasing At Baptist Revival Here

Having given his attention to reviving his membership the first days of his campaign, Rev. Douglas Carver has been preaching soul-winning sermons the past few days and nights that are said to have a far-reaching effect upon his hearers.

Services are being held twice daily. The morning service begins at 10 and the evening service begins at 7:40 with a prayer service.

Rev. Carver has a convincing delivery of a clear presentation of facts. He also leads in the song service with Mrs. Carver at the piano. Many complimentary remarks are heard relative to the excellent team work of this beloved couple from Whitewater where he is pastor of the Baptist church.

Mr. Fred Johnson was called to Oklahoma to see his brother who is seriously sick, the latter part of last week.

Mr. O. C. Watson and daughter Dortha attended the funeral of his sister-in-law, Mrs. Watson at Hobart, Friday.

Lions Chalk Up One Hundred Percent Attendance

At the regular luncheon hour Tuesday noon, a hundred percent attendance record was scored with thirty-five present.

Postmaster Chas. H. Bugbee spoke on "The Postal System" explaining the many intricacies of his line of work, the whole of which interested and amused.

Other speakers were Ralph Andis, Joe Goldston, Joe Holland, C. C. Powell and Mayor Cagle, each speaking on the subject of "Why I wanted to join the Lions club."

Rev. Carver of White Deer, accompanied by Mrs. Carver, entertained with two solos. Rev. Carver is conducting a revival at the First Baptist church.

MRS. TRENT IS ELECTED TO HEAD THE AUXILIARY

American Legion Auxiliary Will Erect Memorial To Fallen Heroes

At a recent meeting of the Auxiliary, Mrs. James Trent was elected president of that body for the coming year to succeed Mrs. B. C. Antrobus. The ladies feel greatly encouraged because of the progress made the past year, having responded to every call of the Department of Texas for child welfare and rehabilitation needs.

Back in 1928 the Auxiliary ladies planned the erection of a memorial in memory of the Donley county boys who lost their lives in the World War. A fund was started at that time and has been supplemented with further funds since that date. These funds are being kept intact by investment in approved securities.

The officials to assume office early in October are: president, Mrs. James Trent; vice president, Mrs. V. A. Kent; 2nd vice president, Mrs. O. L. Fink; secretary-treasurer, Mrs. L. L. Swan; chaplain, Mrs. John H. Clark; historian, Mrs. L. S. Bagby; sergeant-at-arms, Mrs. R. Y. King, Mrs. B. C. Antrobus, Mrs. C. J. Douglas and Mrs. C. G. Stricklin were elected Board members.

BUGBEE SHOWS NEW PICTURES TO ARNO CLUB

Cowboy Artist of Clarendon Interests Pampans With Western Skill

Harold D. Bugbee of Clarendon, Panhandle artist who is well known for his paintings of western life, was the guest speaker when the Arno Art club opened its season Friday afternoon at the city club rooms.

He brought with him a collection of 21 paintings which have never been publicly exhibited, and which he plans to take to New York this fall for a showing.

The artists informal and instructive talk on art was a program feature, and he also discussed his pictures with members and club guests at the close of the meeting.

Pictures Show West

All western themes, the paintings were characteristic of Bugbee's work. Most attractive to the spectators were a large study of a cowboy against a background of sand, sage-brush and blue sky, his face lighted by the flare of a match; two small pictures of deer in the painter's favorite gray, green and blue tones; and in contrast, a large painting of an Indian buffalo hunter in warm reds and browns.

Animals and western landscapes were prominent. The only portrait was a small study of a Mexican girl.

Local Cobbler Builds His Shoe Shop on Wheels

Space conservation coupled with convenience and comfort were the prime factors he had in mind when J. A. Pierce constructed his model shoe shop that sets in wheels on the vacant lot south of the Piggy Wiggly grocery.

The materials of clear pine and fir were fashioned to fit snugly as a safe-guard against cold weather. The machinery, as complete as could be found in any first-class shop, is conveniently located with plenty of space for the operator. Seats for those waiting are neatly arranged conveniently by the door. Windows afford light and ventilation. If need be, this 'wagon' could be emptied of its contents and used as a touring trailer since it is strongly built of light materials. The house on wheels attracts many as they pass along the sidewalk.

Cecil Howard and Isabell Brooks of Lakeview were married at the courthouse Sunday, Judge Sam W. Lowe officiating.

PROCLAMATION

FIRE PREVENTION WEEK

Whereas the destruction of property by fire in America has steadily increased until the annual loss now is approximately 500 million dollars.

These hundreds of millions of dollars have gone beyond reclaim; the money has been worse than wasted.

But far more serious than the burning of property values is the toll of human life and personal injuries by fire that amount to several thousand each year.

Nearly all of this could be avoided if greater care were taken in constructing buildings, if litter and rubbish were removed from homes and places of business and premises in connection therewith, if children and grown people were thoroughly educated in handling fire and taught the importance of extreme carefulness.

NOW THEREFORE, I, W. P. Cagle, Mayor of the city of Clarendon, in cooperation with the nation-wide movement for the elimination of preventable fire waste, do hereby designate October 8th to 14th, 1933, as Fire Prevention Week in this City.

On those days let our civic and commercial organizations, school officers and teachers, and our people as a whole, arrange meetings and exercises for the study of our fire problems, as well as to impress the seriousness of the wastage caused by fire, and the need for utmost care for the protection of life and property. During Fire Prevention Week let a complete inspection be conducted of the entire city for the purpose of locating and removing fire dangers, and let us thereafter, individually and collectively, make the prevention of fire a part of our daily routine.

W. P. CAGLE, Mayor.

TEACHING THE FARMER HIGH FINANCE.

Uncle Sam does a lot of things which the ordinary man cannot understand. Being a very ordinary human being, Uncle Sam has not the time to explain to him all the particulars in connection with high finance.

For instance Texas voted twenty millions of dollars, to be matched by a similar sum by Uncle Sam, to feed the needy of this state. Good and well, the big majority of unselfish voters got right on the job and put it over.

At about the same time, the voters of the state were busy plowing up cotton, curtailing wheat production, and shipping in hogs that were to be in a large measure made into tankage and dumped into rivers.

Now if there was an overproduction of food and clothing material, why not buy it up and pass it on to the needy instead of voting bonds upon which we are to pay interest? There is every indication that the needy of the nation, and that included ninety percent of the inhabitants, could consume all of the surplus that we now have on hand, and much more besides.

There is hardly a family in Donley county right now that does not need bed clothing and plain clothing that is made from cotton. This is true of the nation. The farmer is getting very little bit more for what he has to sell. He is paying from 40 to 500 percent more for what he has to buy.

Farmers of this section cannot understand Uncle Sam's method of high finance, and they know as much about it as any one else. The government paid for the destruction of cotton to raise the price. The cotton gamblers set the price without consulting the government. It looks like the old Uncle is handicapped to the point to where he will have to dispense with his gambling element of children before he can hope to have peace in his household, regardless of how much he asks his other children to waste.

SMALL'S SOFT-SCENTED SNIFFLES.

As watchdog of the state bureaus, Senator Clint C. Small of this district is acquiring quite a reputation. At the very time he was making so much noise about what might have been expended needlessly by the State Relief Committee, the lower House prepared a simple resolution asking the Senate of which Small is a member to "refrain from installing further expensive office equipment in the offices of the State Senate and to refrain from the installing of private elevators for the thirty-one persons composing the Senate."

In other words, when a senator wishes to go up, he wants a private elevator so that his upward passage will not be impeded by drunks, lobbyists, office seekers or what-have-you. These elevators are expected to cost "only" \$15,000 these hard times when the taxpayers are hard pressed.

In providing each of the senators with a private office, the cost of the linoleum was "only" a small matter of \$1,031, the window shades \$189, the partitions \$1,529 and the laborers got \$600 for doing the job up just right.

That senators back in the "corn starch" age did not think of these improvements so necessary in the "talcum" period, is no reflection upon their intelligence. It merely means that our senators of today are equipping to render a real service. Senator Small could no doubt explain it all since he evolved the plan of passing a law that would require our farmers of his district to pay a license before they could peddle peas to the folks on the plains. This law was changed before it hardly had time to take effect, all of which goes to show that Small knew less about peas than he does about elevators and partitions.

BRAY SCHOOL NEWS

By Euva Duckworth
We are sorry that school is closing for an indefinite period so that the children may help their parents gather their crops, but it seems the only thing that could well be done for a great part of the children have already withdrawn.

We are glad to say that we have enjoyed our first two months of school and we hope that we will enjoy the rest of the term as much as we have these two months. It seems that every one has taken a great interest in school this year and one good point is that the pupils have come to school willing to work.

The Bray Civic Club met in regular session Wednesday 20th. and

voted to hold a social for its members on Thursday evening September 21st. and accordingly all members of the club met at the school house and had a general good time. There were several new members to be initiated. The initiation consisted of four degrees. And what a laugh it caused. After the initiation the club members assembled out in the moonlight and played a few games. After the games were played there was a watermelon feast. Then what should happen but it said to be bed time. Every one went home saying they had never had a better time. We invite every one over twelve years of age to come and join our club. Just come down and the initiation committee will fix you up.

After the crops are gathered, We hope for a larger attendance. We urge all of the children in the school age to attend so we can get our

State-Aid so we may have a better school.

DOES IT PAY TO EDUCATE A BOY?

George Horace Larimer in Letters From a Self-made Merchant to His Son, asks the question, "Does it pay to educate a boy?" Then, he proceeds to answer it.

Does it pay to feed scraps of pork worth six cents a pound into a hopper, and take nice, cunning little pig sausages worth thirty cents a pound out of the other end?

Or, does it pay to work a pound of steel worth two dollars into a pound of hair springs worth two thousand dollars?

You bet, it pays to educate a boy. Anything that will teach a boy to get the answer before the other fellow gets through biting his pencil pays. A business education will increase the earning capacity of a boy from six hundred dollars to twenty-four hundred dollars a year. That pays, doesn't it?

There never was a day when a dollar, taken by itself, stood for so little, and when a man taken by himself, stood for so much, as at the present time. Which is simply another way of saying that anything that will make a boy grow up into a worth-while man pays.

A business education gives a boy the power to think. It gives him the ability to reason. It teaches him how to handle property. It gives him an equal chance with others. It takes him out of the low-plain class and puts him on the mountain top. Thus, any way you figure it, an education pays. There are many kinds of educa-

tion, and the education should be made to fit the individual. Not everybody can use a University course of study, but everybody—farmer, manufacturer, preacher, doctor, banker, and professional men—needs and can use a business education.

No matter what other type of education a boy may have, business training is essential to his success, because the average boy is definitely business-minded and no matter what his other vocation may be, he will find use for a business training.

We undertake to instruct our students in the fundamentals of business building—in organization, in management, and in finances—in advertising, in selling, and in business promotion.

The courses we offer will change raw human material into the brain and brawn out of which the nation's great business structure is made.

We invite forward-looking young men and women to write for our annual, which is yours for the asking.

TEMPLE OF TRUTH
 By the Apostle

Huey Long is said to have been disgusted with Niagra Falls when he took a close-up view of it. His principal objections was that it made more noise than he could. He never did like the Mississippi river for the reason that it had a bigger mouth than he has. There are a lot of Huey Longs in the world, though.

When a woman gets \$10 a week she's a waitress. When she gets nothing, she's a wife.

Remember way back when lodges were fashionable and about every man belonged to one of some kind? Remember how the "old man" strutted when he got dressed up for the picnic parade? He looked like a cross between a strutting gobbler and the display window of a jewelry store. Lodges went the way of the quilting parties. Folks just got to the point where they didn't have time for either.

If a man digs up a fresh bone, he's a grave robber. If it's an old bone, he's a scientist. We dig into Indian graves and think nothing of it, but let that bunch pull a stunt on our tribe and see what happens. It's a funny old world!

Speaking in defense of Jack county, O. S. (Dad) Anderson says it is the only county in the state that maintains a "traveling" jail for the convenience of their customers. It is built on a truck and when they want to "jug" a victim, they hunt him up, and when his time is out, they deliver him pretty much like they used to deliver groceries long time ago.

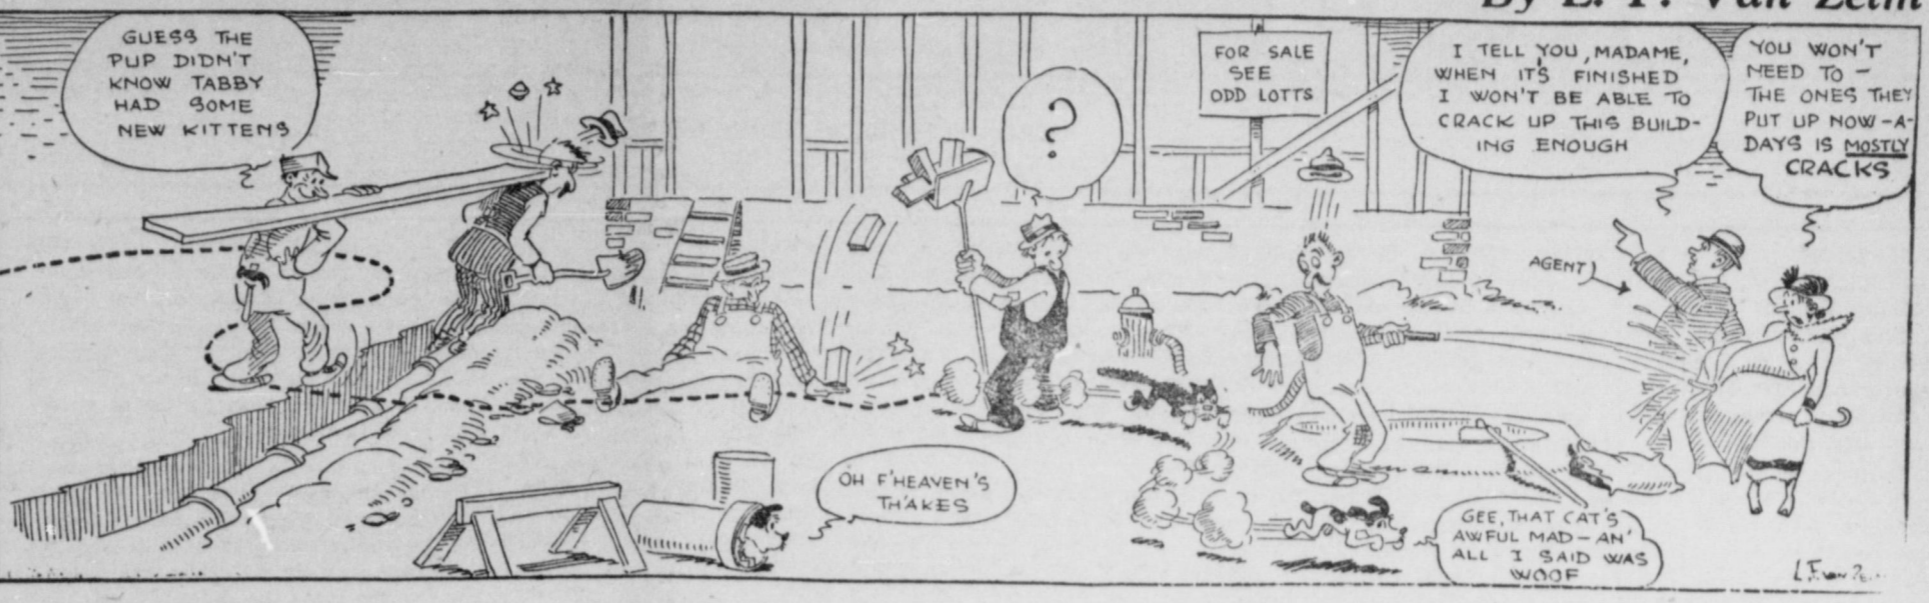

Gangway! Gangway, gangway! Three women have been in to see the old Apostle and along with them came a request to allow the women to write letters for publication that would give them a chance to air their views on most anything, and not have their names printed. It looks like trouble ahead, but if they want to start something here's luck to them. We may break out with a new department any minute, and the Apostle may break

out of the county next. "What do you want to tell the folks?" was the first question asked the lady spokesman for the bunch. "By hokey, I want to tell this town that if they can't keep the horses, mules, cows and dogs out of my flower beds, I can," she said, with plenty of explosive punch to her words and sparks flying. Any woman who would object to a little thing like that is looking for trouble. Conditions like that have been going on here for so long, and the women have been having such a hard time trying to make pretty yards among the animals and dry weather, that any change would be an innovation. The women have been faithful, but what have the men been? Come on with the letters, sisters, we might as well start something here now as later on. Please don't get too personal.

If there is anything to be located it can be found through this column. Last week a request went out for soy beans. Saturday Mrs. W. D. Van Eaton brought in a generous sample of some which she had grown in her back yard. She said they had not been watered, and after all, they were looking like a success just the same. (P. S. She has her yard fenced. Otherwise she could not have those beautiful blue morning glories and an abundance of roses every year, besides many other flowers that go toward making a house a home.)

Bill Barker, that four-square farmer of the Martin community brought us a fine batch of cantaloupes and paid his subscription all the same day. No, he paid the hard cash for the paper. Friend Barker is a real friend and real neighbor. Nothing pleases us more than to know that the neighbors over the county appreciate us. Without them, this job would be a

failure--yes and life a failure as well.

A man may be guilty of overlooking the small things about the home, but the old boy never fails to find the gap in a razor.

Some are bringing in hogs in the outer edges of town. When the Mayor was asked about the matter he said: "Hog pens don't comply with the pure food law, is the reason they have been barred from the corporate limits." Not that we want to start an argument at all, but we want to remind him that we have known some folks to have a hog pen up against the house they lived in for 10 years, and never had a sick hog the whole time.

Please forgive us, but we have a wonderful collection of poetry on hand, and that is the reason we have a standing notice under the "Masthead" of a charge of one cent a word for publishing it. We would be only too glad to publish these contributions, but in order not to show partiality, we have to draw the line on all of them. Words that rhyme do not make poetry. When we print a real poem, it must have sufficient merit to meet with some degree of appreciation. Most of it sent in would be appreciated only by a very few, and that is another reason we have to omit it. We are glad to print any news items, but it is impossible to print any "home made poetry" or much of the best that can be found owing to our limited space.

A lot of people in this section will be glad to know that C. J. Talley of the Martin community, who is a patient in the Milling Sanatorium at Mineral Wells, is improving right along.

Now this is what the Apostle would like to get over to him when he reads this. We like you alright, but we don't want to see you back up here until you are pronounced well by competent doctors there. You are not needed here but you do "need" the help that you can get there. You owe it to yourself to stay until you get well. You owe it to your family, your friends, and to the reputation of the institution that is giving you a new lease on life to stay there until you are o. k. This is being written just as if you were thinking of coming home. It is taken for granted that you are no different to the hundreds of others who go there. The hardest and most difficult cases they have are those affected with "nostalgia." To save you the trouble of looking up that ethical word, it means just plain "homesickness" and nothing else. Most every one wants to beat it home just as they begin to improve. It's unfair to everybody and everything. Stay down there Col. Talley until they run you off. They won't keep you a moment longer than is necessary. They need your influence as a well man far more than they need your money as a sick man, and will appreciate it more.

Don't you ever attend a place of worship?

A fellow walking the street Tuesday looked worried. When asked about his troubles he said:

Can there be any stronger recommendation for a car than this

These figures are based on the latest retail registration figures from R. L. Polk & Company (all states for six full months). Since January first, Chevrolet has sold an excess of 425,000 passenger cars and trucks.

America can't be fooled when it comes to spotting the best "buy" in any field. America knows too much about motor cars for that. So when one certain car wins almost as many buyers as the next two put together, you know the answer: IT MUST BE BETTER. And that's what the new Chevrolet Six most certainly is.

Better looking—it has long, sleek, aer-streamed lines—Fisher's smartest styling. Chevrolet has better bodies—they're built not just of steel alone, but of steel reinforced by a sturdy hardwood frame. Chevrolet has a better engine—six cylinders for lowest gas and oil consumption, cushion balancing for killing vibration. And Chevrolet gives better value—a long line-up of features, including the Starterator, Syncro-Mesh gear-shift, Free Wheeling, which no other low-priced car can match.

Now, in September, is the time to start thinking about a new car for winter! And when you do so, think of the way Chevrolet is leading all other cars in sales. What more could you possibly ask as a recommendation for a car than that?

BIRTHDAY SURPRISE

On Friday, Sept. 23rd Mrs. John Clark was invited to dinner at the home of her daughter, Mrs. Ella Kent. At about 20 minutes to 12 Mrs. Ella Thought of something at her mothers home that she must have and invited her mother to go along. When they entered the home Mrs. Clark was happily surprised when she was greeted with the song Happy Birthday to You sung by the C. H. D. club ladies and her large dining table laden with a lovely birthday dinner. The table was centered with a large bowl of beautiful asters and two large birthday cakes, an angel food and pound cake on each end. The dinner consisted of fried chicken, loaf meat, salads and pies and other dishes to make the real dinner.

After the ladies had enjoyed the good eats they became very busy piecing quilts. At about 3 p. m., Mrs. Fink presented Mrs. Clark with a large basket of lovely and useful gifts from the guests.

Those who enjoyed this happy occasion were club members, honoree, Mrs. Clark, Mesdames A. H. Baker, A. L. Chase, G. A. Anderson, C. D. McDowell, O. L. Fink, N. M. Lawler, W. D. Van Eaton, M. W. YOUR OPPORTUNITY IS IN RADIO

We wish it were possible to portray in cold type the opportunities offered in the field of Radio. Someone has very approximately said it is the second largest industry in the world, being excluded only by the automobile industry.

To the mechanically inclined youngster, to the youngster who has the desire to "tinker" with electricity, will find in radio the ideal type of work and a most interesting study.

Colonel Lindberg has said many times that the shortest route to aviation is through the radio class room. Radio likewise offers so many avenues for a young person until we do not hesitate to encourage a young person to enter into this work.

Our school of Radio is adequately equipped to give one the very best training in this field. Ours is the only radio school which has a broadcasting station in connection, which gives the radio student an added opportunity not obtainable in any other radio school in the South.

To learn more about this most interesting subject, fill in the coupon below and ask for Radio Booklet "R-6." It will come to you by quick mail absolutely free.

We will discontinue our school paper after this week for a month, as school is going to turn out for cotton picking.

Editorial
 This year we are going to try very hard to do better in every line of work. In all of our studies we are striving to make better grades and have a better record.

In our English clubs we are trying to give more variety to the programs. Every member is doing his best when he is assigned a part.

In athletics all of the players are going to be greater and better players after another year's hard practice.

All of us must remember that "if at once we do not succeed, try, try again." And also if anything is worth doing it is worth doing well. Those who did not pass last year are going to try to "buck up and pass the test."

The tenth and eleventh grades have been studying versification. In writing limericks, below are some of our wonderful results. One particular young gentleman called walker

Was a very persistent talker,
 But, oh! To his dismay
 He found one who could say
 Ten words to his one—poor Walker
 There was a boy named Jeff,
 He loved a girl, Bun Self,
 Her daddy met him by a chance,
 And proceeded to kick his pants,
 So now he eats his meals on a shelf.

There was a nice young man named Pete,
 But, oh! Such crooked toes and large feet,
 His greatest fame
 Was hunting wild game
 Which he liked very much to eat.

Chapel Program
 The Seniors and Juniors had charge of the Chapel program Friday afternoon. The first number was "Miss Popularity." Beatrice Hardin played that part well. She certainly got a rush from our Junior and Senior boys.

Next was a song by the Junior and Senior class.

The funniest part on program was "Calope." You should have heard the funny noises some of the Junior and Senior boys and girls made when Ruth Davis tapped them on the head.

Virginia Williams gave a reading entitled Pa's Skating.

There was another song by the class. Then Mr. Thomasson introduced, Pablo Ramon Navvaris, a famous bull fighter from Mexico—Morris Finch, and he certainly didn't deceive his looks.

Folks, if you don't have anything to do on Friday afternoon come out to our chapel programs. They are always free of charge and you will certainly get your moneys worth.

Wonder Why?

Wonder why Radell Sanders walks home with LaNelle Lewis every afternoon.

Wonder why Miss Hill signed so much Algebra Friday? (maybe it was the horseback ride)

Wonder why Pauline Reeves doesn't study?

Wonder why Elbert Bain doesn't clean the "dog house" any more?

Wonder why E. J. Myers brings candy and chewing gum to school?

Wonder why Tommie Allen brot up his Algebra Monday?

Wonder why Rubye Jones didn't have her lessons up Monday?

Wonder why the basketball girls like to practice ball at "night."

Wonder why Vernelle Leathers doesn't say something cute.

Wonder why Margaret Gerner is so blue?

Wonder why Aileen Reid has strait hair?

Wonder why Juanita Jones wears so much lip stick?

Wonder why Frances Johnston has such little lips?

Wonder why Morris Finch didn't put on some more lip stick Friday.

Wonder why Bernice Self didn't go to school at Clarendon this year instead of at Lelia Lake.

Wonder why Winston Nippert can't wait until he got home to eat a watermelon Friday afternoon

Wonder why Mack gets to school so late and goes home in such a hurry? (wonder who the boy friend is)

Wonder why Pauline Reeves did not come to school for three days? (she seems awful blue)

Wonder why Tommie Allen is so happy? (who is she)

Wonder why Dot Holland didn't show up at the picnic Friday nite?

Wonder why Fern Martin doesn't spill some more ink?

Wonder why William Hardin sells all of his cantaloupes.

Wonder who E. J. Myers was with in their truck Sunday? (dark woman beware!)

Wonder why I don't stop? (Believe I will)

Sophomores

Who said the Sophomore class was not going to have an interesting school year during the year of 1933-34. However I do not believe they really thought they possessed such a quality of sociability; yet, on Monday Sept. 18 when Miss Loree Hamm, the soph sponsor called a class meeting, the long faced expressions immediately vanished after the announcement of a party was made.

Wednesday evening when the hands of the clock pointed 7:30 on its dear old face, the home of Mr. and Mrs. Joe E. Johnston was cordially inviting us Sophomores and their invited guests to "come in". The bells of joy were in full "ding dong" by eight o'clock. Interesting games were played that would have made the old folks gay, had they been there.

The most important event of all, I was forgetting to recall. I will give you just one guess, but I know it will be a miss. The refreshments.

Those who enjoyed the entertainment were Morris Finch, Winston Nippert, Tommy Allen; Misses Vernelle Leathers, La Nell Lewis, Francis Johnston, who are members of the Sophomore class. The invited guests were Misses Rubye Jewell and Juanita Jones, Mary Jo Johnston; Messrs. E. J. Myers, Radell Sanders, Archie Crites, James Bullard, and Monroe Sanders.

Does Monroe like lemonade?

Well, we will let you ask Vernell.

"Sticky Juniors"

Perhaps you wonder why the Juniors are called sticky. Here is why, the Juniors had a marshmallow toast last Friday night. When the marshmallows were toasted and pulled off the sticks, we got our hands sticky. That is why we were called sticky Juniors.

The Juniors all met at the school house Friday night with Miss Hill as sponsor. From the school house we walked to Cottingham's Camp ground where we had our marshmallow toast. The first thing we heard when we arrived was "when do we eat?" After building a fire and getting our sticks to toast marshmallows on we began to eat.

While we were playing games, several of the Juniors said "those 'skeeters' or mosquitoes sure do bite well to night." After thinking about it we think the 'skeeters' gave some of us a contagious laughing disease.

After playing games until a late hour they decided by the time they walked back to the school house it would be time for the Juniors to retire. All reported a nice time. Those present were Rubye Jewell and Juanita Jones, Margaret Gerner, Mood, Aten, Francis Johnston, Lattye Mae Holland, Ruth Davis, Inez Wood, Margaretta Cruse, Lorene Brown, Ora Johnson and Stella Reed. Messrs. Archie Crites, Greer Cottingham, John McCauley, James Bullard, Andy Davis, Mutt Warren, Billie Floyd, E. J. Myers, Morris Finch and James Reynolds.

CHURCH

Webster says "It is a building for Christian worship." "The Lords house." The Saviour told a disciple that "upon, this rock will I build my Church." Surely he did not mean a building of wood or stone, rather an Organization.

It appears that the Organizations found on earth by the Saviour, on His arrival were far from satisfactory, and that he did not affiliate with them, but did on occasion severely criticize, the leaders of the organizations for desecration of the Temple, or church house.

Many people of good will, and honest intention, believe that the present Organization, divided and subdivided, with various forms, and doctrines is a part and parcel, and a continuation of the Original Organization, mentioned by the Saviour.

All down the ages Satan, has deceived mankind, is a "Liar and the father of it" Jn 8-44.

As the sons of Aaron offered "strange fire" to the Lord, so has the devil prevailed upon the so-called "Christian world" to do likewise.

He has influenced the "Wise and Great" of this world to join some Association, called religious or Christian, deceiving the common people there by. When you were a

child, you have heard the remark, "Why that big man would not take daddy's farm for debt. He belongs to our Church". Yet countless thousands mour.

Be it noted that the writer has not an atom of criticism for any "Minister of religion" nor of the laity of any church organization.

The Bible says that "Darkness covers the earth and gross darkness the people."

Meeting a man who has an impaired eyesight, you would not indulge in scoffing nor attempt to hinder his progress.

St. Paul said "to his own master a man stands or falls". Other Scriptures authorize you to "give a reason for your faith."

"Let God be true tho all men are found liars."

The Saviour said he would build his church, and we do know that He will do it.

In humility and reverence, and with the prayer that it is not an abomination, to ask "Would that glorified, saviour of mankind, the man Christ Jesus, who suffered the most ignominious death extant in all history that He might redeem all mankind from death, and now having all in heaven and earth, subject only to THE FATHER.

Would he appeal to any secular, political, material or earthly organization to help HIM build His church??"

Could He countenance the traitors, among the "Wise and great" of the present "Christian Organization," who cast reflection on His glorious birth, when HE became the man Christ Jesus??"

Would any part or parcel of his Organization adhere to the blasphemous doctrine of Evolution??"

When He had a part in the creation of ALL things, in the Aeon of time before the creation of man.

"IN THE BEGINNING GOD CREATED." What or when was the beginning HE has not chosen to reveal.

God said "Let US make man in our own image. In the image of God made he them." "And God formed man of the dust of the earth, and BREATHED into his nostrils the breath of life and man became a living soul." A perfect human being with dominion over all formerly created life, of the lower order. All the works of God are perfect." The man would live forever if he should obey his creator. The man maliciously disobeyed, and his sentence was DEATH—EXTINCTION.

Would the Saviour build a church, that is not altogether in harmony with the plan of revivification and redemption of all mankind from death. Teaching that The Highest Court in the Universe reversed itself, in an amendment to the sentence of death, to a continuation of life under painful conditions for the disobedient.

He being the "Light of the World" the members of his organization, "shall not walk in darkness, but shall have the light of life". No confusion, divisions nor subdivisions, no strife between different divisions as to whether a member of a division shall or shall not have political preference because of his affiliations, with a certain branch of the organization.

The completion of His church shall bring, harmony, peace prosperity and happiness, an opportunity for all to hear, understand and obey.

"An highway shall be there, called holiness." "The wayfaring men though fools shall not err therein."

"No lion (Big Business grafters) shall be there, nor any ravenous Beast (Political Traitor) shall be found there." Isa. - - -

The Saviours Church comes from above—in its completion, then there shall be no more death, neither sorrow nor crying" for the "Tabernacle (Church) of God is with men and God shall wipe away all tears from their eyes." Rev. 21.

"And upon this Rock (Truth and vindication of Gods holy name) will I build my church and the gates of hell (death) shall not prevail against it."

Respectfully submitted.
 F. E. Harrington.

"ACTS OF THE APOSTLES," Part I.

The Book of Acts, could probably be called the most neglected book of the entire New Testament. Its plain, positive precepts and examples have long been overlooked by the religious world.

The Book of Acts, bridges the chasm between the old and the new institutions. Jesus had fulfilled the old and laid the foundation for the new by His death, burial and resurrection. Pentecost is the high eminence from which we look back to the dawn of creation, and the very beginning of the unfolding of God's eternal purpose (Gen. 3:15; Eph.3:8-12); or forward to the ultimate victory of the church over all enemies. The book of Acts, occupies an important place in the story of God's plan for the salvation and redemption of man and the setting up of the church.

There are five fundamental lines of thought brought out by the apostles throughout the entire book, to which all others are secondary.

1. That Jesus is the long-expected Messiah, which fact is proven by His fulfillment of Old Testament expectation and prophecies.
2. That the Holy Spirit, who came on Pentecost, was the immediate source of revelation, under whose direct and divine guidance the apostles preached and acted, and the church was established.
3. That the entire Jewish econ-

omy was fulfilled in the death of Christ; and superseded by the law of the Spirit on the day of Pentecost.

4. That salvation through Christ is to be obtained by a spiritual process known as conversion, in which there is a change of mind, a change of life, and a change of relationship on the part of the sinner, all of which are necessary to spiritual regeneration, or the new birth into the kingdom of God. All who came into the church under the ministry of the Apostles, came in only by one way, by compliance with the specific law of restoration, which changed the old man of sin into a new creature in Jesus Christ.

5. That the promises of the gospel—viz., remissions of sins, gift of the Holy Spirit and Eternal Life, are for all of those who will comply with the terms of pardon. (Continued to next week's 'Chat') Sunday morning our subject will be, "The Acts of The Apostles," Sunday night, "The Origin of the Church". Come study with us these great questions.

COUNTY SCHOOL NEWS

By Sloan Baker
County Supt. Schools

I LOVE TO TEACH
I do not know that I could make entirely clear to an outsider the pleasure I have in teaching. I had rather earn my living by teaching than in any other way. In my mind, teaching is not merely a life work, a profession, an occupation, a struggle; it is a passion. I love to teach.

I love to teach as a painter loves to paint, as a musician loves to play, as a singer to sing, as a strong man rejoices to run a race. Teaching is an art—an art so great and so difficult to master that a man or woman can spend a long life at it without realizing much more than his limitations and mistakes, and his distance from the ideal.

But the main aim of my happy days has been to become a good teacher, just as every architect wishes to be a good architect and every professional poet strives toward perfection.—William Lyon Phelps.

Donley County Teachers will not meet until all the schools are in session as this is the provision of the new anti-institute law.

Rural Teachers-Trustees met at Chamberlain last Friday night. The first Friday night in December will be the time of the five district meetings. Districts one will meet with Skillet, Whitefish, Watkins, Glenwood are invited to this district meeting. Principal Joe Baten of Skillet will arrange the program for this meeting. District two will meet with Goldston, Jricho, Ashtola and Martin Districts are member schools of this district. Principal Gordon Gatewood will arrange for this program. Principal Bob Dillard will arrange for the program at Windy Valley for Hudgins Chamberlain and Bairfield. Principal Dorothy Elliot of Smith will entertain the Trustees-Teachers of Giles, McKnight, and Bray at Smith School. Midway Consolidated will arrange the program for Fairview, and Sunnyview. Principal Dennis Smith will prepare this program. It has been suggested that every district have its own practice meets for the Interscholastic League Events. In this manner we can develop more finished

products for the Rural Meet. There is no reason why our Rural Schools should not develop Debaters, who could win in both District and Regional Contests. Our material for declaimers, essay writers and other literary events is as good as can be found, if we will only start early enough to develop them. Let's make our Interscholastic League meet this year a success. If we can have early school contests in the county, then district contests, our entries will have had enough practice to give them a wider experience for the county meet. The Rural Committee for outlining this work will meet some time soon.

A number of the schools of the county have finished their short term and turned out for cotton picking.

A Print-a-Primer set is available to the intermediate and primary teachers of Donley county. Much extra seat work can be prepared with this set for use in geography, arithmetic, history and English. You may borrow this from the County Superintendent.

State Aid Applications should be mailed in to the State Rural Aid Department as soon as possible. The first half of the Aid will be advanced as soon as Deputy State Supt. John Olsen approves the application.

The Donley County Board of Trustees will meet in the County Superintendents office at 2 p. m. Saturday October 7th. This is a regular meeting of the board.

Midway community organized a Sunday school Sunday afternoon. This is another manner in which the district school serves the people of the community.

Under the New State Aid Law, aid for the school is figured differently than formerly under the old law. Bray School will get \$515.78 Rural Aid this year. Here is the

way it is figured. Divide the valuation of Bray district \$86,640 by the census 82, which gives \$1057 per capita, subtract \$1075 from \$300 (the amount per capita above which no school can receive aid) leaves \$1943, (divide) \$1943 by 100 and multiply by .375 (or by .50 if there is a 100% tax payment) which gives \$6.29 per pupil. Multiply \$6.29 by 82 which gives Bray \$515.78 aid this year. Of course Bray will be required to have 70% of census in attendance and pay the salary schedule.

THE STATE OF TEXAS

To the Sheriff or any Constable of Donley County, Greeting:

You are hereby commanded to summon G. J. Heitman by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Donley County, to be held at the Court House thereof, in Clarendon, on the third Monday in October, A. D. 1933, the same being the 15th day of October, A. D. 1933, then and there to answer a petition filed in said Court on the third day of February, A. D. 1933, in a suit, numbered on the docket of said Court as No. 1782, wherein Mrs. Nellie Kuteman Heitman is Plaintiff, and G. J. Heitman is Defendant, and said petition alleging that plaintiff is and has been for more than one year an actual bona fide resident and inhabitant of Donley County, Texas; that defendant's residence is unknown; that plaintiff and defendant were lawfully married at Claude Texas, May 15th 1926; that they lived together until about July 15th 1932, when they were separated because of defendant's cruel treatment of plaintiff; that defendant was guilty of such excesses, outrages and cruel treatment toward plaintiff as to render their further living together insupportable; that defendant was fussy and high tempered and that he frequently cursed and abused plaintiff and that his conduct became worse during the last year they lived together; and praying for divorce and restoration of her former name of Nellie Kuteman; and that plaintiff was always good to defendant.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return hereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at office in Clarendon this 6th day of September A. D. 1933.

Walker Lane Clerk,
District Court, Donley County.

SUNNYVIEW SCHOOL NEWS

By Irma Faye Moreland

Pauline Riley

* * * * *

Our school is progressing very nicely. Each one is beginning to assume his duties for advantage in school. Most of the students are eager to be in school every day. Thus, far, our school has been a pleasure rather than drudgery. School will close in two more weeks for cotton picking. Some of the cotton is being picked now the wheel off of the windmill.

The hard winds Sunday blew Our reporters, Clarence Daves and Dorothea Riley are absent to-day (Monday.)

Jack and Willie Nell Lamberson spent part of Sunday morning with their sister, Mrs. Hal Riley.

Lara Jean Meaders, of Midway spent a few hours Saturday night, with Robbie Zoe Moreland.

We had a program Friday evening, which all enjoyed. More especially the songs of the lower grades. In fact, the primary students sing better than the other students.

Friday there were three of our best schoolmates, Joe, Mary Cecell and Lois Ault withdrew from school. Irma Faye Moreland spent Saturday night with Pauline Riley.

Junior Brame visited one of his old pals, Sunday, Darrel Bailey of Martin.

Darrel Meaders and Joe Williams spent a few hours with Billie Moreland, Saturday night.

Bob Taylor attended church at Lelia Lake Sunday night.

Billy Moreland spent Sunday evening with Jack Riley. Dollie Hall spent the week-end with her cousins of Quail. Junior Davis is still Mr. Waldron's bell ringer.

REGARDLESS OF THE PRICE

The man who has plenty of feed coming on this fall finds it greatly to his advantage to find some way to get the better price for it besides selling it on the open market.

A weekly cream check is a handy thing to have around. Poultry and cows both require feed, and usually enables the grower to get more out of it.

Jitney Jungle Will Change Location And Name

Speaking of making a clean sweep, Ed I. Fox, owner of the Jitney Jungle grocery, expects to do that very thing. We will have the stock moved Saturday night to the Benson building four doors north of the Postoffice.

Along with the change in location, he will also change the name. After Saturday night, the name will be City Grocery & Market. Workmen are remodeling the building this week with every prospect of having it far enough along to permit the transfer.

Mr. and Mrs. Jiggs Mosley and children of Borger visited relatives here over the week end.

BRONCHOS WIN FIRST GAME OF SEASON FRI. 9-0

Torrid Temperature of Day Given As Main Reason For Sluggishness of Teams

Clarendon presented its first contest of the gridiron here last Friday afternoon when the Clarendon Bronchos won a 9-0 victory over a Cordell College team from Oklahoma. The game was played under a sweltering sun which threw both teams into a state of sluggishness, killing the thrill of the game almost entirely.

Both teams showed lack of cooperation and experience in working together. The Bronchos performed well on the defensive but the Cordell boys stopped all actions of strategy on the offensive. From all indications both teams will whip more into form as the season advances. Several of the boys were given a chance in action to show what they could do. Coach Hutton is anxious to place the boys where they can benefit the team most.

The game started off slowly with both teams fighting back the heat. During the first few minutes of play, the Bronchos scored a safety when a Cordell man was tackled behind his own goal line. Up until the last minute of the game, both teams fought on even terms. As slow as the game was played, it is hard to tell just who might have been just a little better than the others. Time will answer that question with the succeeding games.

With but a minute or so to play, O. C. Watson of the Bronchos caught a pass thrown to him as he cut out from right end and dashed to the Clarendon five yard line. It took four hard smashing plays before the ball was finally carried over with "Red" McCreary making the final plunge. O. C. Watson was good for the extra point when he caught a well directed pass over the goal line.

Both teams received several penalties with Cordell the recipient of the more lengthy ones. The Cordell boys made three first downs to four for the Bronchos.

The Bronchos are working hard and expect to click like a machine before the next game. You football fans all come out to the next game and show the Bronchos that you are behind them and cheer them on to victory.

Rev. Ingram to Celebrate His 81st Birthday

Next Sunday will be the occasion for his annual observance of a birthday for Rev. C. B. Ingram, revered itinerant Methodist minister who makes his home in Clarendon and serves the outlying communities of four counties.

Mr and Mrs. Guy Beasley of Dozier will be among the guest speakers on this occasion at the Methodist church here next Sunday afternoon at 3 o'clock.

A number of local people, both men and women, made talks last year on a similar program of observing the minister's birthday. Rev. Ingram asks all his friends and others interested to be present.

Remodeling Two Business Houses This Week

Carpenters have worked over and repaired the Rhodes building opposite the Postoffice this week, D. W. and R. L. Clempitt doing the work. The bowling alley will be moved to this building from the Benson building which is to be occupied by the City Grocery & Market after this week.

The Eddington building formerly occupied by the Whitlock barber shop is to be remodeled within the next week. While the information is not definite at this time, it is understood that a variety store will occupy the building within the near future.

Bradley, produce dealer of Levelland, is alleged to have fired at Latimer as he crossed the street unarmed. Tom Latimer was a brother of Dan Latimer of Hedley.

Railroader of Thirty-Five Years Writes on Church

In this issue of the Leader on page six appears a letter written by F. E. (Dad) Harrington who is responding to the invitation to write on church affairs. In fact his letter subject is "Church." You may not agree with this kindly old railroad man who 'conducted' on the Denver for some thirty-five years, but you will have to at least give him credit for being competent to express his views like a gentleman.

More Leader Readers Being Added Each Week

More new and renewal subscriptions are coming in each week. Each one of these are prospective customers of our advertising merchants. The most of them naturally look over the advertisements to see what they can get the most of for their money, just as they should.

A large number of subscribers keep up with the grocery lists each week through the Leader. In this day of rising prices, they want to know what they are expected to pay for the many things that must be bought at this time of the year.

Here is the list of new and renewals coming in recently:

- Major Hudson
- Mrs. J. B. Baird
- F. A. White
- Glenn White
- Pa Hinkle
- Leslie Skinner
- R. E. Drennon
- Z. D. Davis

Why Liquid Laxatives are Back in Favor

The public is fast returning to the use of liquid laxatives. People have learned that the properly prepared liquid laxative will bring a perfect movement without any discomfort at the time, or after.

The dose of a liquid laxative can be varied to suit the needs of the individual. The action can thus be regulated. A child is easily given the right dose. And mild liquid laxatives do not irritate the kidneys.

Doctors are generally agreed that senna is the best laxative for everybody. Senna is a natural laxative. It does not drain the system like the cathartics that leave you so thirsty. Dr. Caldwell's Syrup Pepsin is a liquid laxative which relies on senna for its laxative action. It has the average person's bowels as regular as clockwork in a few weeks' time.

You can always get Dr. Caldwell's Syrup Pepsin at any drugstore, ready for use. Member N. R. A.
