Man Narrowly Escapes Death by Freezing Sat.

Man of 52 Years Battles Against Blizzard For Six Miles Saturday and Lands in Hospital With Badly Frozen Face and Hands Next Day.

Many were the tragedies enacted on the high plains of West Texas because of blizzard conditions in the long ago when our population was sparse.

Another near-tragedy was enacted here Saturday as William E. "Bill" Ramsey aged 52, left town about 9 a. m. to walk to the R. L. Mason farm some six miles west of here. The thermometer registered four below early that morning.

With the bright sun shining and a strong urge to visit his old friend of many years, Ramsey set out on foot west on Highway 5. He had not covered half the distance before he realized that he had misjudged the weather.

Cars and trucks whizzed past him. Dust blinded him, but he knew that stopping to rest or to seek temporary shelter was inadvisable. He simply kept plodding along.

He stuck his left hand gloved inside the front of his overcoat and saved that member harm. Swinging his right arm to balance in walking as best he could, the glove became lost and he did not know it, he said. The right hand and lower arm are a mass of clear blisters as if burned. Except for frozen toes, walking saved his feet from freezing.

With little or no protection to his face, the ears are badly frozen and places on the face. A gash above the left eye would indicate that he ran into something, but he does not remember it.

"I recall realizing that I was lost in the Mason field, and that I fell down once," Mr. Ramsey stated Monday, but he could recall little else of the latter end of his perilous journey.

Finally reaching the Mason home about 12:30, he was given first aid treatment, and later brought to Adair hospital by Mr. Mason and his son. It will be some time before he can be released, it is said.

Mr. Ramsey has lived in this section for about 8 years. He farmed one or two years with Mr. Mason. At one time he farmed on the Barney Conner ranch near Claude some years ago. He has no family and no relatives in this section. Those in authority to know state that it is only through sheer grit and dogged perseverance that Mr. Ramsey is alive today.

Grandmother of 86 Breaks Hip in Peculiar Manner

Stooping to pick up a babe Saturday morning resulted in a painful experience for Mrs. A. J. Bullock, aged 86, who makes her home with a nephew, W. A. Pierce, in the Chamberlain community.

Mrs. Bullock fell as she attempted to stoop. An examination by a surgeon disclosed a broken left hip. She was brought immediately to Adair hospital where she is receiving the interested attention of both nurses and friends.

WM. GREEN HURT IN AUTO WRECK

William Green, son of Mr. and Mrs. Geo. L. Green of this city, was painfully injured late Friday evening in an auto collision near Malakoff. He was taken to a hospital in Malakoff. Mrs. Green and son Robert left here at 4 a. m. Saturday to be with William, and have since reported that he suffered no serious injury as was at first thought.

The wreck occurred as Green approached the top of a hill. The Henderson county sheriff came from behind a truck and struck Green's car with great force head-on.

Sheriff Sweeten, wife and daughter were painfully injured. Elni Moore, riding with Green received painful injuries.

Farmers to Receive AAA Checks Soon

President Roosevelt signed a deficiency appropriation bill Tuesday which provides for the payment of AAA contracts up to January 6th, when the plan was halted by a supreme court decision.

Farm Administration officials, announce that checks will begin flowing into the cotton belt within the next few days.

The bill makes an appropriation of \$296,185,000, and is said to be sufficient to cover all contracts made prior to January 6th, 1936.

P. PIERCE BROOKS

Former Dallas real estate man is candidate for the office of Governor of Texas. His main plank is "free license plates for passenger autos."

Ladies of Alanreed Visit Here Tuesday

Mrs. J. T. Wilson and daughter, Mrs. Fannie Rector of Alanreed were here Tuesday.

They were accompanied by Mrs. H. B. Catlett. Mrs. Wilson and Mrs. Catlett first became friends more than thirty years ago over in old Greer county.

Mrs. Wilson will remain here for several days under treatment. Mrs. Catlett will look after the household duties of her friend at Alanreed. "Mrs. Catlett has been a second mother to me through the years," Mrs. Wilson stated to the Leader man while talking over old times Tuesday.

Baptist Workers Conference At Brice Next Tuesday

The program of the Panhandle Baptist Association in a workers conference will begin at 10 a. m. under the supervision of the pastor of the Brice church, Rev. Chas. M. Brister.

A number of laymen will be heard on important topics. Among the pastors who will speak are Rev. J. Perry King of Clarendon; Rev. D. D. Sumrall of Wellington; Rev. O. K. Webb of Memphis; Rev. C. B. Stovall, Goodnight.

Veterans Papers Prepared In Superintendent's Office

Veterans of the World War may secure applications for making claims for baby bonds of Nathan L. Cox, Post Adjutant here.

These papers are being prepared in the office of Sloan Baker, county superintendent of schools at the courthouse, where facilities for taking finger prints have been provided.

This service is rendered free of any charge for any World War Veteran no matter where his place of residence.

Man Shortage Holds Up Highway 88 Work

Correspondence between county commissioner G. G. Reeves and R. W. Willis, supervisor of operations under the WPA in this district, discloses the fact that work on Highway 88 south from Clarendon is being held up because the division headquarters is of the opinion that sufficient man power cannot be had here to make the matter worth while.

Mr. Willis, in a letter to Mr. Reeves Tuesday, stated that it might be possible to marshal enough man power to begin the work about March 15th.

At present, men formerly on relief or now on relief jobs, are not permitted on this work, it is said. Men available for highway work, and who need jobs, are not here in sufficient numbers to begin highway improvement, according to the way the supervisor sums up the matter.

An effort is being made to correct the false impression, and it is believed that work will begin on 88 within a short time.

H. BEACH DIES HERE WEDNESDAY

Burial is Made at Old Home in Burkburnett Today

Mr. Beach passed away here at 5:15 Wednesday morning at the home of his son Cecil Beach. He died on his 68th birthday. The body was taken to the family burial plot in Burkburnett and buried beside his wife today. Mrs. Beach passed away here April 11, 1930.

Surviving are six sons and one daughter. They are Roy Beach of Wichita Falls; Jesse Beach of Brownwood; Cecil and Otto Beach of Clarendon; Homer Beach of Amarillo; O. L. Beach of Plainview and Mrs. Nels Robinson of near Clarendon.

His brothers are W. B. Beach of Wichita Falls; Toombs Beach of Plainview; E. Beach of Odell. His only sister is Mrs. Nannie West of Mr. Beach moved to Donley from Elmer, Oklahoma. Burkburnett in 1930 and engaged in farming in the Midway community. For the past three years he has been in poor health and spent most of his time in search of some medical aid that would give him relief. His death was due to acute Bright's disease which developed within the past few days.

In the height of his career, Mr. Beach was a leading citizen and a philanthropist of note. His benefactions were many. He took an active interest in public affairs worth while and bore a wide reputation as one of North Texas' best loved characters.

Charley Risley to Have Big Auction Sale 20th

One of the biggest auction sales to be held in this section for a number of years will be held Thursday, February 20th at the Risley farm, 10 miles north of Clarendon and one mile east of the Goldston school.

About sixty head of Jersey, Durham and Holstein milk stock will be sold to the highest bidder. "This is young stock and many of them are already proven milkers," Mr. Risley states.

"I'm selling off my mixed stock and will restock with registered Herefords is my reason for selling these good cows," the owner announces. I. S. Jamison of Pampa will cry the sale. Dinner will be served at the sale which begins at 10 a. m.

Tucker Liberated After Near Year Spent in Jail

Convicted on a "still" charge here almost a year ago, W. R. Tucker was jailed pending an appeal. Recently the appeals court directed that his case be dismissed.

Tucker lacked sixteen days of spending a year in the local jail. He was residing north of Hedley at the time of his arrest, and where the still was allegedly located by local officers.

WILBUR C. HAWK

Just above is the likeness of a man who looked at life with understanding, and lived it with sympathy. He saw life in its shirt sleeves, and in full dress; in its coat of mail, and its sheers gossamers. He felt the slimy weighty crawl of it; he felt its tenderness, and caught the music of its soaring wings. He knew its ugliness—its loveliness. He saw behind the masks of it and recognized the beauty and the beast. He knew the joys of it, its agonies; its hopes, and aspirations. And always he met his fellow man with sympathy and understanding that made him great. Great in the Panhandle among those who knew him best.

When the weight of the depression lay crushing upon his people—his friends—its fangs were imbedded deeply in his great and sympathetic heart. His advice and counsel were sought by individuals and communities alike. He always had a plan commensurate with the demands of existing conditions. He gave freely of his time, talents and means. The shallow littleness of life never affected him. He was a big man by nature, and did big things in a big way.

In his passing Wednesday in the early morn, when nature betokens the awakening; when all life awed and silenced by the shadows of night, feels the impulse and hope suggestive of the coming of day, the brave and noble spirit of Wilbur C. Hawk was released from the transitory darkness of mortality, into the light of the everlasting.

Fischer is District Pension Agent Over Donley

J. S. Fischer of Amarillo is district manager of the old age pension law as applied under the new law. He will maintain offices in Amarillo.

The new law becomes effective tomorrow, the 14th. Blanks will be here for distribution at that time. The first pension payments are to begin July 1st under the provisions of the law.

Application blanks may be had at the office of the county clerk in Clarendon.

H. Guy Kerbow Has Charge Business Census Here

Mr. Kerbow has been appointed by the Department of Commerce to take a census of the business firms in Donley county, and has entered into his work.

A previous census was taken in 1929, and again in 1933. The census department of the government has functioned for more than 150 years. All information in respect to the personal financial affairs of the individual are held in strictest confidence.

First Cotton Grown In Donley County

It was away back in the early 90's that Henry W. Taylor's folks received some fancy hatching eggs from a Ft. Worth poultry fancier. The eggs were packed in what the Taylor children—June, Walter and Crockett—termed "wooly beans."

These wooly beans were planted and from them grew the first cotton in Donley county so far as is known.

Murder Warrants Served Here Tues.

Murder Committed Three Years Ago in Eastland County

Some three years ago the skeleton of a man was found hanging from a tree near Eastland. His neck was connected with a limb by means of baling wire. Though the location was near a highway, no odor had been detected by passers over the highway. It is said that the man was evidently poisoned, buried for some time, and later taken up and hanged from a tree to direct suspicion from the guilty parties. The identity of the murdered party was established.

Officers investigated for weeks and nothing came of it. Recently some parties came under suspicion after official investigation that extended over a wide territory, and into several counties.

Sheriff Frank Mills of Coleman county took a leading part in unraveling the mystery. He came here Monday accompanied by Rangers Thompson and Barr. Mr. and Mrs. M. E. "Sandy" Tyler were arrested near Lella Lake on murder charges and brought to Clarendon Tuesday.

The accused parties were closely questioned practically all day. Just what disclosures were made, no one seems to know here since the visiting officers did the questioning in private at the courthouse.

The accused parties were taken to Eastland county by the officers Wednesday.

WILBUR C. HAWK FUNERAL FRIDAY

Amarillo Publisher And Fair President Dies of Heart Attack Wednesday

Funeral services for Wilbur C. Hawk will be conducted at the Central Presbyterian church by Dr. R. Thomsen at 3 o'clock Friday, the 14th.

Mr. Hawk had been in falling health for some time. He was stricken with a heart attack and expired almost suddenly at his home at 6:15 shortly after he had arisen from his bed. He had spent a part of the preceding day in his office at the News-Globe.

He was 55 years of age and Mrs. Hawk whom he married in 1929, is the only surviving member of his family.

Born on an Ohio farm in 1881, and spent most of his life near Effingham, Kansas until he entered the state university at the age of 19. He came to Amarillo in 1926. He was president and general manager of the News-Globe publishing company for the past ten years.

His biggest civic job was as president of the Tri-State Fair. Through his keen business foresight, he built up the fair until it was the biggest of the kind in the southwest outside of Dallas in seven years.

He was connected with many lines of business and civic projects. In his passing, the Panhandle has lost its most valuable citizen.

Father of Local Women Is Seriously Ill at Lipan

Judge and Mrs. Lowe were accompanied to Lipan, Texas Friday by Miss Elton Aiken where they were called due to the serious illness of the father of the two ladies. Judge and Mrs. Lowe returned Monday.

Mr. Aiken has been ill for a number of months, but this illness did not take a critical turn until recently, it is said. He is reported as slowly improving at this time.

Lelia High School Pupils To Sponsor Play

The senior class of the Lelia Lake high school will sponsor the play "Whittlin'" which will be presented there by Mrs. Maurine Lackey's dramatic club of the adult school on the evening of Friday the 14th.

Her class will present the same play on Wednesday, February 18th at the Goldston school.

Colored Youth's Instructions Land Him in Hoosgow Sat.

It was Saturday afternoon while a crowd of white folks were crowded around a stove in the Piggly Wiggly that Hezekiah Jones, colored boy of 21 crowded into the midst "making room for one more."

Lawrence Minard failed to appreciate being shoved away from the fire by the boy of dusky color. It might have been because Lawrence was there first, and intended to remain indefinitely.

The black boy stepped back and began whittling a match. Minard asked him to close the knife, which he did, but at the same time he invited the white youth outside for a fight, it is said.

The two went outside and walked down the sidewalk. Hezekiah dived Lawrence on the jaw about in front of the Norwood Pharmacy, bystanders state. Lawrence went down for the count though attempting to rise. He finally got his bearings and pursued the dusky lad who suddenly remembered unfinished business toward the depot. The race was on until near the

depot when Lawrence landed on Hezekiah's dome and laid him flat. A negro's head is something akin to concrete, and Hezekiah bounded away again apparently unharmed to the north pursued by a large crowd.

Sheriff Pierce arrived just in time to remove the negro from an infuriated bunch of young white men who were evidently bent on establishing white supremacy on the spot de facto if not epluribus-unicum.

Taken before Judge Lowe, the colored boy pled guilty to an affray that might have been classed as "inciting a riot." He was given a penalty of a fine of \$50 and costs which he will lay out in jail.

The darky is singing "I'm in the Jail House Now," where he will likely spend twenty days to mitigate the amount of the fine. Hezekiah never hesitated because he had learned to fight in the CCC camps of Arizona and Texas during the months of absence from Clarendon where he is well known.

BRAY PIONEER BURIED TUESDAY

Prominent Citizen Settled In Bray Community More Than 30 Years Ago

Funeral services were conducted at Hedley Tuesday for A. G. Davis of near Bray who died early Monday morning. Mr. Davis had been making his home with Mr. and Mrs. Joe Crawford since the death of his wife a few years ago.

Surviving him are three daughters. They are Mrs. Thava Crawford with whom he resided on his farm, and Mrs. Minnie Hollingsworth of Farmersville, Mrs. Ruth Hollingsworth of Amarillo.

The sons are Robert, Frank, Ralph, Vernon and Adrian Davis, all of whom reside in or near the Bray community. Another son, Joe Davis, resides at Loveland, Colorado.

TEER IS ELECTED C-C HEAD FRIDAY

Joe Holland Vice President And Hill Secretary For Second Term

At a meeting of the board of directors of the Clarendon Chamber of Commerce Friday evening, J. E. Teer was elected president of the organization for the coming year. Joe Holland was named vice president for the same period.

Both the old and new directors were present at this meeting. Frank White Jr. was elected to the board in place of A. L. Chase who was unable to serve this year. J. M. Hill was reelected as secretary for another year.

The present board is made up of the following directors: J. E. Teer, Joe Holland, Oscar Castleberry, Odos Caraway, Chas. Lowry, L. E. Thompson, Fred Williams, and Frank White Jr.

The directors going off the board are W. E. Ray, J. T. Patman, and J. D. Swift.

Lions Hear Varied Program At Tuesday Luncheon

Appearing on the program of the Lions Club at their regular weekly luncheon Tuesday was little Miss Margaret Ann Jenkins who favored with vocal solos in a most pleasing manner.

Other numbers were Texas songs sung by Mrs. E. D. Landreth. Songs that appeal to true Texans, and appropriate this Centennial year.

Piano numbers of Bob Leathers displayed an unusual amount of skill on the part of this youth who never fails to please.

Judge Link interspersed the program with pertinent and important remarks and jokes which were applied to innocent victims not on the program.

Isham Gives Leader More Backbone

As proof that there are real neighbors, the Leader calls attention to the receipt of about 40 pounds of fresh hog backbones Wednesday, a gift from Mr. and Mrs. C. T. Isham of the Chamberlain community.

There is nothing better than hog backbones properly cooked. Along with them as trimmings will be cornbread, buttermilk, fresh turnip greens from the Rio Grande valley, and home made relish.

Backbones are best boiled and then allowed to cool thoroughly. This is not a premonition. Neither is it intuition. It is a howling fact that may be proven by a multitude of folks who know good eats.

Best of all, is the thought that our good friends remembered us. For this we are most thankful.

NEWSPAPERS WIN POINT IN HIGH COURT.

The Supreme Court has declared the Louisiana law unconstitutional that would tax advertising two percent in newspapers having a circulation of twenty thousand or more.

The Court said:

"A free press stands as one of the great interpreters between the government and the people. To allow it to be fettered is to fetter ourselves."

FARMER WONDERS WHY.

A one-time successful farmer approached the writer recently with an air of mystery about his wistful glance as he held a paper in his hands. The paper bore the inscription of "Better Housing Act." He naturally had a question to ask, and asked it.

"The better housing business helped the building trust more than it did the workmen. Prices of materials went up out of proportion to the advance in the price of labor. The Act was never questioned so far as I know. It still is constitutional. It seems to me that every act is constitutional except some act designed to help the farmer. Why and how does this happen to be?" he asked.

The only explanation that he got was that the producer has always carried the load. It will continue that way until he is so organized and regulated by governmental control, just like any of the numerous large corporations. But present conditions do look one-sided, don't they?

IS WAR INEVITABLE?

On Monday of this week Congress suggested \$388,782,232 be spent for war preparations, mostly on the west coast. Perhaps the leaders had in mind Japan, since no other menacing alibi could call for such expenditures for war material.

Millions are to be spent for battleships, forts and a few dirigibles. Private corporations supply battleships in the main, the dirigible ships and most of the fort building material. Every dirigible made for this government has come to an untimely end. Germany alone is successful with the big balloon affairs.

Since other nations are building fast airplanes by the hundred, perhaps Uncle Sam has more need of such equipment than obsolete battleships. Japan has ships that fly two thousand miles and back and leave several bombs of destruction on the round trip. Japan is preparing an airplane base near the Aleutian islands, a mere 750 miles from the Alaskan coast.

Such ships will instantly become a menace to the northwestern section of the nation as far south as California. Only airplanes could combat the plan of the wily Japs. Those who think clearly will no doubt feel that we need thousands of airplanes. "Preparedness is the price of safety." But the nation's interests should come before the big corporation.

study of school law, and the different duties of the County Superintendent's office. I consider that with my experience and knowledge of the School Law and State Aid that I can be of greater service to the schools of Donley County, should you see fit to re-elect me for a second term.

I attribute my success in the office to the splendid co-operation that I have received from the County Board, School District Trustees, Patrons, and the School Teachers of the county. We have all worked together to raise the standards of Donley County Schools.

I consider that a public office is a public trust. Should the people of this county re-elect me to this important office, I promise to continue to give courteous, efficient service, and work for better educational advantages for all the children of Donley County.

Respectfully submitted,

Find Out
From Your Doctor if the "Pain" Remedy You Take Is Safe.

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin.

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: Genuine Bayer Aspirin is rated among the fastest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly.

You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.

Beware The Cough That Hangs On
From a common cold

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Creomulsion not only contains the soothing elements common to many remedies; such as, Syrup of White Pine Compound with Tar, fluid extract of Licorice Root, fluid extract of Wild Cherry and Menthol, but also has fluid extract of Ipecac for its powerful phlegm-loosening effect, fluid extract of Cascara for its mild laxative effect and, most important of all, Beechwood Creosote is perfectly blended with all of these to reach the source of the trouble from the inside. Creomulsion can be taken frequently and continuously by adults and children with remarkable results.

Thousands of doctors use Creomulsion in their own families as well as in their practice knowing how Creomulsion aids nature to soothe the inflamed membranes and

heal the irritated tissues as the germ-laden phlegm is loosened and expelled. Druggists also know the effectiveness of Beechwood Creosote and they rank Creomulsion top for coughs because you get a real dose of Creosote in Creomulsion, emulsified so that it is palatable, digestible and potent for going to the very seat of the trouble. Creomulsion is guaranteed satisfactory in the treatment of coughs, chest colds and bronchial irritations and especially those stubborn ones that start with a common cold and hang on for dreadful days and nights thereafter. Even if other remedies have failed, your druggist is authorized to guarantee Creomulsion and to refund every cent of your money if you are not satisfied with results from the very first bottle. Don't worry through another sleepless night—phone or go get a bottle of Creomulsion right now. (Adv.)

Women's Worries WORST . . .

It has been said that the common every day worries of the housewife are the worst because they are most constant. Among these worries, may be classed "clothing" worries as the biggest offenders.

Often the housewife dresses on a budget plan. Her clothing purchases are often curtailed that others might have their wishes. Her pride naturally causes her to want to look her best with what she has.

Dresses properly cleaned and pressed add much to the appearance. In addition to the skill exercised in this respect, we also use the Dri-Sheen process that restores that newness so desired.

We only ask that you give us a trial.

TO THE PEOPLE OF DONLEY COUNTY:
I wish to announce my candidacy for re-election to the office of County School Superintendent of Donley County.
Having enjoyed serving the people of Donley County as County Superintendent for the past three years, I do not feel that I am imposing upon the electorate of this county in asking for a second term.
I have done my best to improve the schools, and to increase the educational opportunities of all the school children of Donley County. I have tried to use good business methods in the administration of the schools, and as a result the length of the term of the rural schools has been increased. In the management of the schools, the buildings and equipment have been put in excellent condition. Good teachers have been employed for the schools of Donley County, because I realize that it takes well trained teachers to make an efficient school system. I believe Donley County people can truthfully say that we have as good teachers as will be found in any county in Texas.
I have tried to make a close

TEMPLE OF TRUTH
 By the Apostle

There are 25,000 types of creatures with backbone enough to get along and only one bunch forced on relief at this writing.

Gov. Hoffman claims that he is conducting a personal investigation of the baby murder just to satisfy his own conscience. Maybe his conscience isn't just silver-plated.

At his birth they pity his mother. At his marriage, they pity the bride. At his death they pity the widow. Just when does a man get a break, anyhow?

Silence, like a poultice, comes to

I'M SOLD
 It always works

Just do what hospitals do, and the doctors insist on. Use a liquid laxative, and you can bring yourself to stoollike regularity without strain or ill effect.
 A liquid can always be taken in gradually reduced doses. *Reduced dosage is the secret of any real relief from constipation.*
 Ask a doctor about this. Ask your druggist how very popular Dr. Caldwell's Syrup Pepsin has become. It gives the right kind of help, and right amount of help. Taking a little less each time, gives the bowels a chance to act of their own accord, until they are moving regularly and thoroughly without any help at all.
 "Dr. Caldwell's Syrup Pepsin contains senna and cascara—both natural laxatives that form no habit. The action is gentle, but sure. It will relieve any sluggishness or bilious condition due to constipation without upset.

Remember that Old Song—
 You're the cream in my coffee.
 You're the beans in my mystow.
 You will always be my necessity—I'd be lost without you.
 You're the sail on my love-boat;
 You're the captain of my crew.
 You will always be my necessity; I'd be lost without you.

Like many other "perfect" ventures into the world of rhythm, it left the high seas of hope, and now is tied up with other obsolete tug boats at the wharf of destiny.

Leap Year—
 "Breathes there a maid with soul so dead,
 Who never to herself hath said:
 This is my last, my only chance,
 To win for myself a man in pants.
 Venus—the Goddess of love—I'm sure
 Proclaimed leap year that I might lure
 To my side, a person of masculine gender,
 And ask him for life to be my defender."

A child of three never regards you as being in the game unless you are seated on the floor.

An old farmer friend today referred to the Supreme Court as the "Junk yard." He said all the farmers' hopes had been wrecked in there.

A customer returned the bottle to Doc Norwood and said: "All the directions on this bottle is for adults, and I ain't never had any."

There ought to be a "survey" made of such bottles!

"Believe it or not," the best "trade at home" article ever handed me was written by a local merchant on a letterhead printed in Ft. Worth. What's more, he could have bought letterheads of the same quality for less money right at home.

Breedlove—Bull Calves—Boys
 Fine combination to get together here March 7th. County agent Breedlove is doing a wonderful lot of good work in old Donley, and I'm proud of that boy. He is the mainspring in the movement and the folks believe in him so strongly that they are putting up actual money for prizes. Most, most liberally, too.

It isn't like being hemmed up by a long-winded speaker at a banquet affair. If you don't like this column, don't read it. I'd do as much for you any time, then keep my mouth shut as a mark of good breeding.

Wanted to rent small spaghetti farm, close in. Will pay cash, or part crop. Reference, the first man you meet. Address W. R. Tucker, general delivery, Memphis, Texas.

This relief business reminds me of the bears in Yellowstone Park. Once the bears hustled for themselves until some foolish tourist fed one. That "fed" bear told the other bears until now the whole bear family expects to be fed at every turn, and have become a menace to the peace of all those who visit the Park.

Friends—In Variety
 A real friend is said to be one who knows your every fault, then loves you just the same. But there is a variety of friends. Thusly—
 Neighbor Friends: Those you can't afford to ignore because you might want to borrow something from them some time.
 Highway: Highway friends are obsolete. Vehicles no longer stop on the highway as in the good old wagon days. It's positively getting so that thumb-jerkers have no highway friends. Auto friends were hijacked by thumb-jerking friends until the business went into bankruptcy.

Undying: Practically extinct. The undying class would come to your rescue the darkest hour that came. That class actually considered it a privilege to lend you money any time you needed it. There is said to be one of the species only left, and he is an outcast near Winslow, Ariz.

Animal: Mostly dogs, a few horses, and cats when hungry. Dogs care less about a man's reputation than any other animal—even the human animal.

Fairweather: The fellow who wrote "Rock of Ages" is said to have fallen a victim of fairweather friends. This class is great when you are thrifty, but let the 'storms of life' roll up on you, and you instantly become lonesome.

Conjugal: The quality that has been classified as the "spice of life." Often leads to matrimony.
 Platonic: Look it up in your dictionary. You have as much time as I have. Found in most abundance in Colorado and California. Said to thrive spasmodically. Few cases known to exist indefinitely.

Poetic Thought
 Old Mother Hubbard went to the cupboard
 To get her poor daughter a dress;
 When she got there—
 The cupboard was bare—
 And so was her daughter—I guess.

Historical
 Once upon a time Mae West was at the South Pole and Santa Claus was at the North Pole. They both started on a race for the equator. Mae on her pony and Santa driving his reindeer. Who beat? Mae did, of course because there just ain't any Santa Claus.

The Week's Worst Wit

1936 Model Platform
 In announcing his platform, the Sandhill Sage said:
 If I am elected I will allow, (in fact I will demand) that every voter be allowed to sleep all day and eat all night (after election) or viceversa as the voter chooses.

To those who are fossilized, I will demand a pie for every home; a horse and buggy for every garage; a pig and a hen for every pen; a cow for every pasture, and a 5c cigar for every pasture, and a 5c cigar that can be used for something besides fumigating a hen-house invested with mites.

Rhythm—Oh Where!
 I've heard jazz slowed up. I've heard slow tunes jazzed up. I've heard music mangled and torn apart, but I've never heard anything like this blues singing before in all my born days. There ought to be a law—

Who would have ever expected to live to see the day that can openers would be found in the pocket of every individual at a dutch lunch? I'm askin' you!

Moral: Take a bath any time you can get it. The pipes may freeze up again just any old time.

One of the meanest digs I ever heard was from a local man who was discussing a Texas woman appointed to an office. Here is what my informant said: "A woman's intestines necessary to land a political job always goes to hip after she lands it." Now is that nice?

ANNOUNCEMENT

In the first place I wish to thank the voters of Precinct No. 1, for their support in the election of 1934, and I also wish to thank all those who assisted me in any way during the campaign of 1934. I further wish to express my appreciation for the cooperation given me during my first year as a county commissioner.

Since taking office it has been my policy to safeguard the interest of the taxpayers, by practicing economy in office, consonant with good business principles. If elected again as your representative in the Commissioners' Court of Donley County, I will at all times work for the best interests of the taxpayers and citizens of the county. I feel the experience gained in office will enable me to serve you more efficiently. Your vote and influence will be appreciated.

FOR YOUR CONSIDERATION

In March 1934, we announced our candidacy for City Commissioners with a definite statement of what we hoped to accomplish. We promised to reduce the tax rate; the water rate and the expenses of the City Administration. The tax rate has been reduced from \$1.50 to \$1.20, a saving of 30c per hundred dollars valuation, and we hope to make still further reductions. The water rate has been reduced from \$1.50 to \$1.00 minimum per month for the summer months, with the excess scaled down as low as 12½c per thousand gallons. In order to make these savings, heavy reductions have been made in the operating expenses of the City. The system of retarding dams being built above the city should be completed by mid-summer. Engineers assure us flood waters will be controlled. The splendid co-operation of the Citizens of Clarendon has enabled us to make these reductions and improvements, and if you approve of our efforts and re-elect us, we will continue to give you our very best service.

H. C. Brumley,
Tom F. Connally.

Maytag Sales Reach Peak During 1935

Maytag Southwestern Company, distributors of Maytag Washers in Texas, reports that 1935 was the record year in its existence, having sold washers in retail value of close to one million and a half dollars. Also January sales for 1935 were 332 units ahead of January 1934. As indicative that Texans are

interested in quality merchandise Walter Rogers, President of Maytag Southwestern Company, points out that 87% of the sales in 1935 were the aluminum or best washer, and only 13% were the lower priced models. Texas is the leading state in the country in this respect.

"We Serve to Serve Again"

DONLEY COUNTY PIONEER HISTORY

(Continued From Last Week)

The first permanent settlement by white men was by Chas. Goodnight and his employees who in 1870, moved a herd of cattle from the state of Colorado to the Paloduro canyon, whose range took in extensive boundaries of a large part of Donley County. He and other stockmen following were the pioneer settlers. They not only employed large numbers of men, but others who had drifted into the country. Whatever their occupation might be, depended largely on them for work. Under the condition then existing, a livelihood could not have been made, neither could the settlers have withstood

the danger lurking about them. The stockmen and their cowboys with their readiness to fight over-awed the hostile Indians.

The summary manner in which marauders was dealt with convinced this class that their personal safety depended on their absence, hence without officers of the law, good order was maintained, and the very few widely scattered settlers pursued their occupation in safety.

In the year of 1878, L. H. Carhart made an expensive effort to settle a colony of farmers in Donley County. Under his advice and recommendation a small number of people, mostly from the North, were induced to try the experiment and a town was located on Carroll creek near its junction with Salt Fork of Red River, named Clarendon, but later known as Christian Colony, also sarcastically called the Saints Roost.

The first building erected from lumber (this being hauled from Dodge City Kansas a distance of 250 miles) was a school house which was used for a school and church. The foundation of this building was laid from native rock. All town property was sold with the proviso that no intoxicating liquor of any kind should ever be sold on the premises. So this Colony started with the lofty ideal that the school, the church, and

temperance, were first requisites in making their enterprise a success.

But coming from the north and older states where farming conditions were so different, and lacking adaptability, most of these colonists became discouraged and abandoned the country.

In the Spring of 1882 the Colony Was Reorganized.

Its newly elected officers were sworn in on the 11th day of April of that year by Emanuel Dubbs the County Judge of Wheeler county to which Donley County was attached for Judicial purposes. It may be an interesting reminder to old timers to recall that its first County officers were G. A. Brown, County Judge; B. H. White, County Clerk; J. D. Wilson, Sheriff; W. D. Kimball, Treasurer; J. T. Otey, Tax Assessor; J. H. Parks, Surveyor; T. W. Morrison, Chas. Goodnight, L. R. Dyer and S. B. Nall, County Commissioners.

At this time the country was but a cattle range. It was claimed that no other industry could thrive and to plow up and destroy the grass was defying providence. The feeble efforts of those who had tried farming intensified that idea.

Being prosperous as a cow ranch, little or no progress was made towards settlement until the advent of the Railroad in 1887. With its coming, emigrants seeking homes, the more desirable school land was taken up. Many of these settlers, however, like the influx of 1878, tried to make a living by farming in the manner they had been accustomed to in their old homes not fully realizing the difference in the conditions.

Crop failures frightened and discouraged them and the financial crisis (Depression) of 1893 swept over the country and being unable to pay 5% interest on their land, it was forfeited and a general feeling of unrest and insecurity prevailed.

The Legislature however, rose to the occasion, and reduced the price of school land from \$3.00 per acre to \$1.00 per acre at 3% interest and giving a preference right to the original purchaser to repurchase. Stimulated by these liberal terms, settlers renewed their courage and repurchased. Those who weathered the stress of financial storm, and the many other discouragements and clung to their homes, gained a decided victory.

The range stock industry had been successful from the beginning. The experience of a quarter of a century has settled the question beyond dispute. However, this branch of industry (ranching) needs but few men, many cattle and a large range or territory. To this extent it was and is antagonistic to settlement and was an extravagant use of land and confining the benefits to the few while the many are homeless. At the beginning of the settlement it was perhaps necessary but the system has been gradually changing and what is left is being displaced by small stock farming.

Owners of farms from one to four sections of land stocked with sufficient stock for that area carrying his stock through the winters with crops grown during the summer, is assured of a good living and independence.

Stock farming has been the second step in the evolution of the country from the Indians and buffalo.

The farmer who is willing and able to work, who can modify his pre-conceived notions to the different requirements in soil and climate can readily and intelligently adapt himself to changes in conditions and will exercise for a few years proper economy will make for himself a comfortable home.

He only assumes the burden that is being imposed on all settlers in a new country with good habits and perseverance has the same chance for a certainty success.

The question has been repeatedly asked can farming alone be made successful? It is answered in the last few years in the affirmative, for it is a proven fact that it is a good farming country, and one can make a living not only on from one to four sections, but can live comfortably on from 80 to 160 acres of land and at this time it is subdivided into small farms.

Chevrolet Buys Old Autos That Are Unsafe

The spectacular success of Chevrolet's million-dollar used car disposal plan as an aid to dealers, and the widespread public endorsement of it as a contributor to traffic safety, have led to its extension through the month of February, W. E. Holler, vice president and general sales manager of the Chevrolet Motor Company, announced today.

The plan was originally announced for the month of January only.

Under its provisions, Chevrolet is paying its dealers for every unsafe old car taken in trade and scrapped. Besides helping to clear the streets and highways of the traffic hazard which such vehicles represent, the program is making for a more wholesome car merchandising situation, Mr. Holler asserted. This is being reflected in Chevrolet's sales records.

"With the million-dollar used car disposal program in operation from coast to coast," said Mr. Holler, "Chevrolet has established an all-time record for January in its used car sales. Eighty-two thousand and fifty-five units were sold in the first 20 days of January, our latest figures show, setting a new record of 315,806 for the period that has elapsed since Chevrolet's new car announcement in November.

"There will also be a record-breaking total of new and used car sales for the first quarter following the announcement, inasmuch as the activity in used cars has kept the decks cleared for new business.

"All in all, the enthusiasm of the

dealer organization, over the factory assistance provided in January, has been such that we feel no hesitancy about continuing the same program, with an equally fine achievement in February as our goal."

THOSE WE LOVE

They say the world is round, and yet I often think it square. So many little hurts we get From the corners here and there However, there's one truth in life I've found While journeying north, south, east and west, The only folks we really wound Are those we love the best. We flatter those we scarcely know, We please the fleeting guest, And deal dull many a thoughtless blow To those we love the best.

THE GREAT CONTROVERSY

W. Wallace Layton, Minister

Identity of the N. T. Church Article VI

As God's perfect man degenerated and fell in Eden, so also did God's perfect church degenerate under the supervision of Bishops of the second century. Man is not the author of the Christian religion, he has corrupted it and caused the present divided state of so-called

Christendom. This corruption was all the way from very slight departures in faith and in practice to a denial of the inspiration of the Bible, and a total rejection of parts of its teaching. Since the year 1520 a new sect has arisen with almost every variation, so that today the religious condition is bewildering to one who has not been a student of history as well as of the Bible. (It is our desire to know which of the many differing bodies which exist today is the one we read about in the Bible). But this corruption and degeneration or apostasy of God's perfect church is foretold in the Scriptures.

"I know that after my departure grievous wolves shall enter in among you not sparing the flock; and from among your own selves shall men arise speaking perverse things, to draw away the disciples after them." (Acts 20:29,30) read also (2 Pet.2:1; 1 Tim.4:3; 2 Tim.

4:1-3; 2 Thess.2:3,4).

This apostasy is recorded in profane history. It is from the pages of such history that we have to learn the origin of every man made religious institution of today; but from the Bible we learn of the origin of the one body or church which Jesus built. So as a matter of clearing up the field, we invite your attention to the rise of Romanism and the birth of denominationalism.

According to history, the Catholic church with its two branches, "Greek Catholic" and "Roman Catholic," came into being as a result of this afore-mentioned apostasy of the Church of the New Testament. It was a gradual affair, and was active in three phases; one pertaining to CREED, another to GOVERNMENT, and the other to DOCTRINE and PRACTICE. Of these we study separately in order.

(To be continued)

MIDWAY
(Mrs. John Goldston)

On account of the severe cold and so much sickness in the community there were only ten present for Sunday school Sunday. Let's all make an extra effort and come out to Sunday school if possible. The more we learn of the word of God the more capable we are of living a christian life. The more love of God we have in our hearts the more love we have for our fellow man, and the more love we have for each other the better community we have.

Mrs. Pat Longan, Mrs. Bill Gathers and Mrs. Cecil Beach visited with "Aunt Add" of Memphis, Tuesday.

This grand old lady is known by all as "Aunt Add". She is ninety three years old and has been, until she took her bed lately, as hail and hearty as most of us at forty. She is a pioneer of the Panhandle, and has a host of friends all over the

state who will be wishing for her an early recovery. She gave as a reason of her good health and long life, that she never drank coffee or a drop of any thing intoxicating. She was postmistress of a postoffice near Wellington in the early day of the Panhandle and there are people scattered all over the state whom she has in some way helped, as she has that love for humanity in her heart that to know her is to love her.

Kennedy Davis returned Friday from Dallas hospital where he was taken for examination. The Drs. did not think an operation advisable.

W. K. Davis accompanied his son Arthur to Amarillo Sunday for examination and treatment of his ear. This being his second trip, his ear having been bothering him some time.

Arthur Seaton and brother Mr. Seaton were called to Okla. Friday to the bed side of their mother who was very ill. Mrs. Arthur Seaton accompanied them.

A telegram received Saturday stated the mother was better. They returned Monday.

John Bass and Don and Harlen spent Sunday with the Longan boys.

Mr. and Mrs. Bill Gathers attended the show in Amarillo Friday.

Mr. and Mrs. Longan were guest of Mr. and Mrs. Neils Robinson Sunday.

Mrs. Bill Meaders and Gene visited Mrs. Longan Thursday. Neils Robinson and Cecil Beach returned from a business trip to the south plains Saturday.

Mrs. Jenny Stone and two of the children have been confined to their beds this week with colds.

Friends here were sorry to hear of Frank Taylor Mahaffey who moved to Ashtola from Midway lately, getting his hands burned painfully, in the school laboratory there.

WHEN EARTH'S LAST PICTURE IS PAINTED

Written by Rudyard Kipling in 1892.

When Earth's last picture is painted and the tubes are twisted and dried,
When the oldest colors have faded, and the youngest critic has died,
We shall rest, and, faith, we shall need it—lie down for an aeon or two,
Till the Master of All Good Workmen shall put us to work anew.

And those that were good shall be happy; they shall sit in a golden chair;
They shall splash at a ten-league canvas with brushes of comet's hair.
They shall find real saints to draw from—Magdalene, Peter and Paul;
They shall work for an age at a sitting and never be tired at all!

And only The Master shall praise us, and only The Master shall blame;
And no one shall work for money, and no one shall work for fame,
But each for the joy of the working, and each, in his separate star,
Shall draw the Things as he sees It for the God of Things as They Are!

GOLDSTON SCHOOL NEWS

We are proud of our boys because they won another game, Friday. Martin boys came over to play and our team seemed to have luck on their side. The visitors played a good game, however, and were very good sports. We want them to come back sometime.

We thank Ashtola for the invitation to their school and the permission to observe the work they are doing. We know we shall enjoy the game, also the ball game.

The first and second grades are decorating for Valentine's Day. They are going to have a Valentine's Party Friday afternoon. The third, fourth and fifth grades are starting work for the Interscholastic League.

Miss Wisdom has taken the sixth, seventh, eighth, and ninth grade history classes. We are going to study Texas History. We are making cities, covered wagons, maps and other work for the centennial.

We are sponsoring a 2-act play Friday night week, February 21, entitled "Doughnuts." It is a good play with lots of comedy. Come on over folks and enjoy yourselves. The play will not be all of the pro-

gram and we'd like to have a house full that night.

What Would Happen If:

Sibyl Ratton could catch that black headed boy she's after?
Cora Lee Jordan could quit eating out of Junior's hand?
Alverne Robinson had come to this school sooner?
Helen Speir would like Goldston as well as she did Martin?
Leroy Hendrix would learn his Algebra?

Mary Lou Clemmons couldn't have been captain of the junior basketball team?

Herman Mooring would learn who Benjamin Franklin was?
Odell Davis would quit using his movie-star eyes so much?

James McAnear couldn't have gone to Oklahoma last week end?
We wish Viola Clemmons would

quit flirting. She is making all of the girls jealous.

If we girls don't get to go to Groom tonight, we don't know what will happen.

Watch Your Kidneys!

Be Sure They Properly Cleanse the Blood

YOUR kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that poison the system when retained.

Then you may suffer nagging backache, dizziness, scanty or too frequent urination, getting up at night, puffiness under the eyes, feel nervous, miserable—all upset.

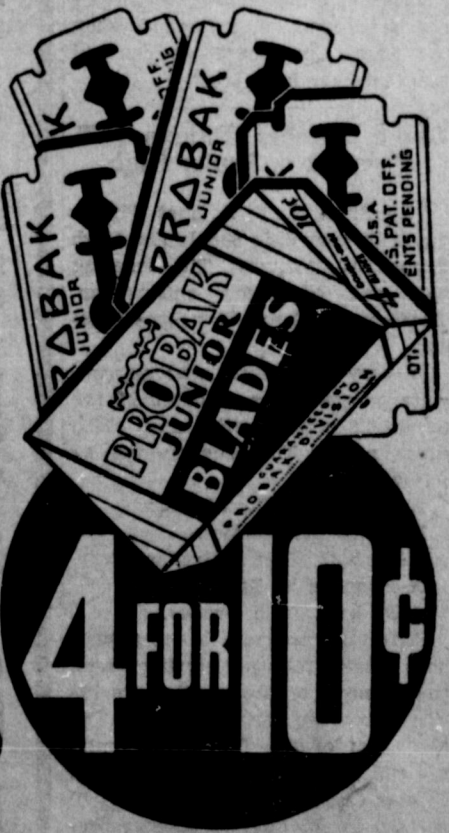

Don't delay? Use Doan's Pills. Doan's are especially for poorly functioning kidneys. They are recommended by grateful users the country over. Get them from any druggist.

School Board Asks Taxpayers Out For Frank Discussion

Financial Status Becomes More Acute As Teachers Dread Warrant Issues

For some two years teachers of the Clarendon schools were forced to accept warrants for their services. This became necessary because of a failure to collect sufficient money to operate the schools on a normal basis as was done prior to the depression period.

The school board is attempting to avoid warrant payments by asking a number of taxpayers to meet with the board in a frank discussion of the problem. A different group of delinquent taxpayers are being asked to meet with the board each night this week.

The board members are explaining the status of the financial condition, and hopes, with the assistance of the invited citizens, to work out some method by which money can be collected to maintain the school for the full nine months.

A few of the teachers are said to be contemplating resignation. One, and possibly two, have already resigned. Others may do the same thing a little later. Other and better positions are being offered them, it is said, with assurance of prompt salary payments.

On the other hand, those who have paid their taxes in full, are demanding a full term of school.

Members of the board, and citizens vitally interested in the schools of the city, are devoutly hoping that those able to pay taxes will pay at this time that a critical condition will be overcome. The situation is serious. It is possible that the schools may be closed within the next month, it is stated by those in authority to know.

Visitor Taking Food Did Not Close Door

Just because the party eating the food left on the table Friday night in the Karl Adams home did not close the outer door, flowers were frozen and pipes cracked from the cold blast.

Mr. and Mrs. Adams left Friday for New Mexico. When they returned Saturday, the front door stood ajar and food left on the table was missing. An attempt to thaw the pipes resulted in flooded floors. "We don't mind them eating, but we certainly wish they would close the door," Mrs. Adams says.

Panhandle Book To Tell Whole Story

The guide book of this section of the state being prepared under the Federal Writers' Project will not be based on historical facts alone as some surmise.

The book will deal with ancient habitations of prehistoric man; customs through the ages down to the present and names of pioneers and locations of early settlements.

Plant life, animal life and peculiar weather conditions will all come in for a share of attention.

The area supervisor, Miss Laura V. Hammer, whose offices are 430 Amarillo Building, Amarillo announces that "we want to know not only Who's Who in the Panhandle; but also What's What and Where's Where.

If you have any information that you think will be of value, you are urged to write Miss Hammer.

AT THE FIRST BAPTIST CHURCH

J. Perry King, Pastor

There is Always Worship Fellowship :: Service

Church membership is not an elevator into heaven, but it is a stabilizer in the life of the individual that has no substitute.

The church is the states hope of stability. The church is the Christians hope of a great Christian life. One never heard of a great Christian who was not identified with some church. If you are seeking a church home, end that search next Lord's Day by identifying yourself with the church where you can feel at home and worship God according to the dictates of your own conscience. Every place of worship should be a house of friendship.

Here friends of the Master meet him whom they love and others who love him. True friendship is expressed in service. Service is the yard-stick by which Christ himself measured true greatness. He came not to be ministered unto but to minister. He said that the greatest in the kingdom of heaven should be servant of all. He also said, forsake not the assembling of yourselves together, as the manner of some is. So if you would be obedient to Christ who is the head of the church you will be in your place at your church next Sunday for her services.

The First Baptist Church always feels honored with the presence of visitors in her services. If you sorrow and need comfort, if you are sin sick and seek a savior, if you feel friendless and long for fellowship, we bid you come and worship with us.

Frigid Atmosphere Wreaks Vengeance on Autos

The discovery of a burst auto block or head is anything but consoling to a shivering motorist. When the water in the jacket around the motor on the inside of that intricate piece of machinery freezes, expansion makes cracks in the main transmission housing.

Often one is mistaken in the amount of anti-freeze in the radiator. Whatever the cause, Judge Lowe lost heavily when his new Plymouth block cracked a few nights ago.

Others to have the same experience were Fontaine Elmore and John Howard Gilbert.

Pipes in many homes were frozen. Bathrooms were flooded when the thawing process was begun and plumbers are kept busy.

Large Number Enjoys P. T. Program at Junior High

The Sims P. T. A. met Thursday February 6, in the Junior High School Auditorium. The meeting was one of much enthusiasm. There were about 75 people present.

A very interesting and appropriate program was rendered by the pupils in both fourth and fifth grade rooms. The program was as follows:

A History of Washington. Lincoln's Nicknames. By both Fourth Grades. A Pageant of Texas. By both Fifth Grades.

After the program a short business session followed, during which the minutes of the previous meeting were read, and approved. The chairman of the finance committee and the Treasurer gave reports.

Miss Clark's room won the \$1.00 reward for having the most representatives present.

The P. T. A. adjourned to meet again the first Thursday in March.

John Deaver is Candidate For Re-Election District Atty.

In announcing for re-election to the office of district attorney, I want first, to thank the electorate of the 100th. Judicial Dist. for the privilege of having served the district in which I was born, as one of the officers charged with the enforcement of the law. I wish to thank the citizens who have served on the Petit and Grand Juries, the officers and clerks all for the splendid cooperation at all times had.

In asking for the privilege of serving you, I can only offer a continuation of the record already made in the office, with my working tools possibly sharpened by such additional knowledge as experience has given me. I have given my best efforts at all times, to discharge the duties of the office in an honest, efficient, fair and economical manner. Any record made for efficiency is written on the Minutes of the District Courts in the various counties of the district and the percentage of convictions there shown. Any record for honesty, fairness and economy, must of necessity be written in the hearts of those I have served and served with. To both of the above sources and to any other investigation you may desire to make, I refer you and the information you there receive, I know, will and should control the casting of your vote.

It is my desire to see every citizen of the district before the July Primary, but should the size of the district and the duties of the office render this impossible, I take this opportunity of requesting your consideration.

Respectfully submitted, John Deaver.

King Announces For Office County Attorney

I take this occasion to make my announcement (subject to the democratic primary), as candidate for re-election to the office of county attorney.

There is no need for explanation other than the improvement due to experience, but I will if elected, conduct the office in the future the same as I have in the past, which

is to serve the county with fairness to all alike and to use my best judgment in dealing with each case.

I would greatly appreciate your support at the polls next July. R. Y. King.
