## SECOND WAR LOAN DRIVE WILL BEGIN MONDAY, APRIL 12th

### Red Cross War Fund Drive Exceeds Set Quota of \$2,700

According to information released today by Lee Bell, Donley County chairman for the Red Cross War Fund Drive, the people of Donley County have done their job well and surpassed the set quota of \$2,700 by \$339.00, making a total of \$3,039.00, and some community check-ups are still incomplete.

This amount has been divided with two-thirds of the amount going to the American Red Cross and one-third retained for the local chapter.

The rural sections of the county and the small community centers in the county accounted for \$1,040 of this total and Hedley \$365.00, while Lelia Lake is still incomplete.

The City of Clarendon has come through with a little over \$1,500, and of this amount the schools are due a lot of credit for their 100% contributions. Junior High contributed \$111.00, Senior High and College \$75 and the colored school contributed 100%.

Mr. Bell and the host of good workers along with the contributors are to be commended for raising this quota which amounts to approximately twice as much as any previous quota for Donley County.

#### REV. M. M. MILLER TO LEAVE CLARENDON

Rev. M. M. Miller, pastor of the Presbyterian church, will leave this coming Monday for Baton Rouge, La., where he has accepted pastorage of the West Baton Rouge Presbyterian Church.

Rev. Miller, with his family, has resided here for the past four years and their many friends regret their leaving, even though he has been called to serve in a larger capacity.

Sunday will be his last day here and the regular worship service is scheduled for Sunday morning, and Sunday evening at 8:30, a communion service will be held.

#### ANNUAL FLOWER EXCHANGE TO BE HELD SATURDAY

The Sr. Beaux Art Club will hold their annual flower and shrub exchange as usual this year and everyone wishing to exchange these items is urged to bring them down. The location which was announced last week has been changed, and the exchange will take place on the vacant lot directly behind the First National Bank.

### Local F.F.A. Youths Win Dist. Contests

Members of the Clarendon FFA Chapter almost made a clean sweep of top honors in the annual Memphis FFA District Contests held at Memphis, Saturday, April 3rd. Local entrants ranked first in the one-act demonstration contests and public speaking and second in the FFA newswriting contest. Other schools competing in the events were Estelline, Memphis, Lakeview, Turkey and Quitaque.

James Clerk, Joe Smith and J. R. Morgan presented a demonstration on testing cows for contagious abortion and won the praise of the farmer judges. Jack Ballew won the public speaking event and Harry Blair finished second in the newswriting event. Joe Smith and Jack Ballew, both are district officers.

#### RED CROSS VOLUNTEER SERVICE

We believe that kindness and mercy and understanding will grow, must grow, that this planet may be a place for children and their children's children to live in peace and security.

**Sewing**  
All garments must be in by May 15th. There are still 50 men's shirts to be made.

Mrs. H. C. Brumley turned in 12 night shirts made by the following ladies of the Kill Kare Needle Klub: Mrs. Frank White, Sr., Mrs. Eugene Noland, Mrs. J. R. Bartlett, Mrs. G. C. Heath, Mrs. R. Dawkins, and Mrs. Eva Draffen.

Mrs. Clyde Bridges has turned in the following made by the (See RED CROSS, page Four)

#### LU McCLELLAN, JR. RECEIVES HONOR

Mr. and Mrs. LuMcClellan received word this week that their son, Lu McClellan Jr. had been named as second outstanding enlisted man on the base at San Clemente Island.

Out of approximately 10,000 Naval men he received this mention which is quite an honor.

#### NO RESTRICTIONS ON FOOD IN LOCKERS

Food in frozen food lockers may be used by farmers and other consumers without rationing restrictions, OPA has stated. The total amount of perishable food stored in lockers in private homes, on farms and in commercial plants is considered too small to justify the inconvenience it would cause all consumers either to have this food declared, or to place any legal restrictions on its use.

### Rain Breaks Drouth For War Gardens

**RETURN TO DUMAS**  
Chas. Speed and Mrs. Speed returned to Dumas Cactus Plant Saturday after some days in Clarendon where Mr. Speed was brought with an appendicitis attack. He advises that he felt sufficiently recovered to take up his duties there this week.

#### NICHOLS BOYS VISIT WITH PARENTS

The past week was made a happy one for Mr. and Mrs. S. T. Nichols when their boys came home to spend a few days with them. Those here are Mr. and Mrs. Robert Nichols, Mr. and Mrs. Dick Nichols, Mr. and Mrs. Ruel Nichols, Mr. and Mrs. Ralph Nichols and family, Mr. and Mrs. Gene Baxter of Amarillo.

Robert has been overseas since August, 1942. Dick is from West Coast. Robert will leave for New York Saturday and Dick will leave Friday for West Coast.

#### TO DALLAS

L. E. Thompson left Wednesday afternoon for Dallas where he will receive medical treatment.

#### A JOB THAT MUST BE DONE (An Editorial)

We on the home front face one of the most personal challenges of this war to date. That challenge is whether or not we are willing to sacrifice to a sufficient extent to lend our government thirteen billion dollars within the next few weeks.

To do the job, you and I, and everyone we know, are going to have to dig down in our sock—to dig out some of those dollars we have salted away for a rainy day—as well as to take a good hunk out of this month's pay check.

This is a job that has to be done. Sure, we on the home front are feeling the pinch of war. We have gasoline rationing, food rationing, higher taxes and a lot of other little discomforts. But they are nothing compared with the agonies faced daily by our men—men from this community among them—out there on the fighting fronts of the world.

Yes, we know that this constant demand for more money out of our pockets and out of our paychecks—an increasing amount each month—is monotonous. But so is sitting in a fox-hole or lying in a slit-trench day after day, slogging through the hell of a humid jungle or that of Sahara sand.

Our sons, friends, brothers, husbands and others we know are doing that for us. They are facing something more terrible than cutting down on a few things that we once thought were essentials to the American standard of living in order to do it, too. As Secretary Morgenthau has said: "Shall we be more tender with our dollars than with the lives of our sons?"

The Second War Loan is an order to the home front to go on a new offensive. Your dollars are the weapons in this attack. They will make possible the passing of the ammunition to those boys up there in the front lines. To win this war is going to cost more and more money—and more and more lives. But the price of freedom is high. We can not; we dare not let our fighting men down.

You can't let George do this for you. You must pitch in with your dollars. Just keep in mind those boys in the front lines. They give their lives—you lend your money! Don't wait for someone to come around and ask you to do it. Do it today—and do it until you feel worthy of them.

#### WALTER CLIFFORD TAKEN TO WICHITA HOSPITAL

Walter Clifford, local groceryman here, who has been confined to his home through illness for the past week, was taken to a Wichita Falls hospital Wednesday afternoon where he will receive medical treatment.

Mrs. Clifford and W. E. Ray accompanied him there, Mr. Ray returning home Wednesday night.

Mr. Clifford's condition was reported as about the same.

#### TO THE PRODUCERS OF DONLEY COUNTY:

Walter J. Flynt, Secretary Donley County ACA

Saturday, April 10, has been set aside as Cotton Crop Insurance Day. This day will be used by our community committee for the purpose of explaining the cotton crop insurance program to all who will come to the places set out below.

This is the last day that crop insurance will be available at any place in the county except the County Office. You may come to the County AAA Office at any time up to and including next Thursday the 15th of this month, which is the closing date for accepting insurance applications.

Your committee will have all information necessary to show you what you can insure on each farm, and what your total premium will be in pounds of cotton. I sincerely hope that you will take advantage of this opportunity to contact your committee regarding this matter.

The following is a list of committees (See PRODUCERS, page Eight)

#### DEPUTY STATE SCHOOL Supt. JOINS NAVY

Carl G. Clift, Deputy State School Supt., who has been serving this district, has joined the Navy and has been commissioned a 1st Lt. Mr. Clift is well known by teachers and school patrons around Clarendon. He resided at Amarillo before joining the Navy. Herman Ford, Grade School Principal of Skellytown, has assumed the duties of Mr. Clift and will serve this district.

#### CPL. LOYD JOHNSON ASSIGNED TO DUTY

Cpl. Loyd Johnson of Clarendon has been assigned to duty with the U. S. Army Air Forces following his graduation last week from the Camp Curtissair Training School, Buffalo, N. Y. Cpl. Johnson is a son of Mr. and Mrs. Charley Johnson of this city.

#### ATTEND CONFERENCE

Those to attend the annual conference of the Womens Society of Christian Service were Mmes. Lee Holland, M. R. Allensworth, Lena Antrobus.

### Donley County Quota Raised To \$208,000 Over Week-End

#### RATION NEWS

By Mrs. Harold D. Bugbee

"We are sending food to our allies because they are helping us to win the war - - - Because they are fighting, our job is that much easier. If the British people had not held out single-handed in the summer and fall of 1940, we might by this time be trying to keep the Germans out of New England or the West Indies, instead of trying to throw them out of Tunis."—Elmer Davis, Director of War Information.

If a black-market pocketbook-patriot tries to sell you rationed food, it is your patriotic duty and responsibility as a citizen to report it to your War Price and Rationing Board or to the nearest OPA Office.

Anyone who operates a black-market in these critical times is a criminal. He is doing as much harm to our country as a saboteur or fifth-columnist and should be reported to the proper authorities. Don't help him—help stop him! (See RATION NEWS, page Eight)

#### GRANDSON GETS APPOINTMENT

Jay Taylor of Amarillo has selected Bill Flenniken, Jr. as his chief deputy. Taylor, oil man and rancher, was recently selected to head a bureau in Washington.

Bill Flenniken, Jr. is a grandson of Mrs. F. H. Hardie here. His mother is the former Myrtle Blake who grew to womanhood in Clarendon. Old timers will recall the Blake girls, all of them taking an active interest in school work here at a time when their parents published the Chronicle and Industrial West.

The Second War Loan Drive is the largest war financing campaign in the world's history. It will start April 12th, and will run for approximately three weeks. The goal is 13 billion dollars. During the drive a complete assortment of seven Government securities will be sold. So great is the war loan that the quota for Donley County has been hiked from \$142,500 to \$208,000. To be successful our effort must reach into every home in the county, because money must come primarily from individual Americans. We of Donley County must meet our quota through the help of each individual.

#### ALVIN LANDERS NAMED NEW SCHOOL TRUSTEE

In the City school election held last Saturday, Alvin Landers was elected to fill the vacancy created when O. C. Watson announced that he would not place his name on the ballot this year. C. J. Douglas was re-elected to succeed himself.

Complete returns of the county have not been released at this time and will be announced next week.

#### VISIT PARENTS

Mr. and Mrs. Ralph Summers and children of Amarillo visited their parents, Mr. and Mrs. McClellan and his mother, Mrs. R. A. Summers the week end.

#### Lane Speaks To F.F.A. Members

H. M. Lane, Clarendon Junior High School Principal, was the principal speaker at the regular monthly meeting of the Clarendon F.F.A. Chapter Tuesday night. Lane emphasized the importance of the youths placing the proper value on the more important things of life despite the unsettled world and economic conditions.

Plans were also laid for the annual Father and Son banquet to be held in May and for the annual spring picnic to be held April 16th. J. F. White and Joe Tom Lovell also gave reports on the Houston and Amarillo Fat Stock Shows.

We on the home front have a task to do, and we must do it to keep faith with our loved ones and friends who are fighting in the battle front. Billions of dollars worth of fighting equipment must be made and shipped overseas to our fighting men. In order to do this the Government is asking the people to buy bonds and more bonds to take care of this enormous expense which is very necessary if we are to be victorious over our enemy.

With a second front not too far off in the future, the demand for ships, tanks and guns grows more obvious as the time approaches. Naval and military men tell us that this needed equipment must be on hand at the crucial period or our combined Allied offensive might meet with disastrous results. Every American citizen must reach into his pocket and help guarantee that the fighting materials will be at hand whenever our fighting forces deem it necessary and important to forge ahead.

From now on, the United States must be on the offensive and to stay that way, there must always be an abundance of planes, tanks and guns as well as ammunition, food and clothing. To make this possible will cost billions of dollars, and it is for this reason that the Government is calling upon the public for a 13 billion dollar war loan. When you buy bonds and stamps you are helping to guarantee your own freedom.

During the current war loan drive, every American citizen will have a chance to share in this history making epoch. The balance of power is swinging in our favor for the time being, and the Government needs dollars and more dollars to keep it that way. The boys are giving their lives at the front - - - let's give our money - - - and gladly.

The success or failure of the Second War Loan will, of course, be watched closely throughout the world, especially by our enemies. Our allies, too, will be interested in the manner in which (See WAR LOAN, page Eight)

#### Mileage Rationing

**GASOLINE**—Value of each coupon in A, B, and C books is 4 gallons. Coupons No. 5 in A book are good until midnight May 21. Those who think they are eligible for supplemental rations should see their local ration board.

**TIRE INSPECTION**—"A" book holders every 90 days; "B" book holders every 60 days; "C" book holders every 45 days; "T" book holders every 60 days or every 5,000 miles, whichever occurs first.

**TIRES**—If official tire inspector recommends a tire replacement, apply to local ration board for tire ration certificate. Tires will be rationed to all on the basis of tire inspections and county quotas available with most essential mileage to come first. Recaps can now be secured without rationing certificates.

#### Other Rationing

Eligible purchasers needing new automobiles, bicycles, typewriters, rubber foot-wear, and other commodities on which sales might be restricted should see their local ration board.

### Trailers Need Certificates

County agent H. M. Breedlove stated this morning that farmers and ranchers and all other persons who own trucks or pickups and pull a trailer back of the truck or pickup will fill out an application for certificate of war necessity on the trailer. This only applies if you pull a trailer back of the truck or pickup. The purpose of filling out an application for certificate of war necessity on the trailer is so that you can get tires and parts for the trailer if they are available. This does not apply to trailers that are pulled back of passenger cars.

Breedlove stated that this order was issued by the Office of Defense Transportation.

"These applications can be filled out in my office," the county agent stated, "and we will be glad to assist any farmers on ranchers in filling out his application. If this applies to you, please drop by the office the first time that you are in town and fill out your application."

**THE HOME FRONT MUST DO A BIG JOB.**

It's needed fast - - - On April 12th the Second War Loan drive begins - - - the biggest undertaking of its kind in the history of the world. And, a three weeks goal has been set to raise this enormous amount. Yes, Thirteen Billion Dollars must come from the pockets and pocketbooks of America. This drive cannot fail any more than our men at arms can fail.

Today our forces are on the attack and we must support this offensive with our dollars. We must become a working part of the combat teams that face Rommel's hordes in Africa - - - the Japanese in the South Pacific. We must arm our men throughout the world with machines of war that can't be stopped.

Every citizen must join the attack by participating in the Second War Loan drive. We must buy bonds. Not just one bond but an extra bond, and an extra bond each week until we've bought \$13,000,000,000 worth of support for our attacking forces. Many millions of patriotic people are investing money in War Bonds every single pay day. They should be proud of their accomplishments—but even more proud when they buy an extra bond during each week of the Second War Loan drive.

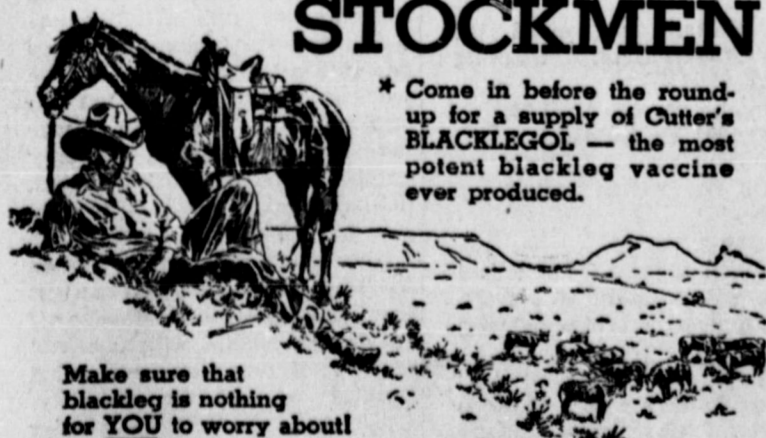

We on the home front have a big job to do, but we should not become hysterical nor should we be indifferent. Every man, woman and child in the country must know that he has to join our attacking men with fighting dollars and buy bonds no matter if it means a real sacrifice.

Don't forget what this means, we must buy more bonds - - - new bonds. We have bought them in the past in millions and billions and these bonds have given us an Army and a Navy. And, we are still buying bonds through payroll deductions and other regular purchases. But today our armies and our fleets are moving on the enemy - - - we're on the attack and it takes more millions and billions to take the attack to the enemy.

We here in Donley County must meet our quota which has been set at \$208,000, and we must do it in the next three weeks. Every county and state in the nation must meet its quota and then some or the purpose will have failed: short of the objective. We must turn our idle dollars into fighting dollars and make possible the fighting equipment which is needed at the battle front. We must not lag now and leave our fighting men empty handed. They are willing to sacrifice their lives, but they are looking toward the people back home to keep them supplied with the necessary fighting equipment.

We cannot be more tender with our dollars than with the lives of our fighting men. Remember, our armies are made up of our sons and brothers and husbands and friends. Now, more than ever, they need our fighting dollars, for they are going to strike, and strike hard at our enemies. We cannot let them down. We must keep faith with those men and boys by buying bonds and more bonds. The challenge is at hand, and the time is short. We must not - - - we dare not fail the objective.

**THE LEGISLATIVE GRAPEVINE**

By Grady Hazlewood

Many members of the Senate will long remember the filibuster which began last Monday at about 2:30 p. m. and continued until 4:22 a. m. the following morning. At least, the writer will never forget it. The bill under consideration was referred to by newspapers as a Loan Shark Bill. The entire substance of the bill may be stated in one sentence—it permits the attorney general or any prosecuting attorney to file an injunction suit against anyone charging in excess of the lawful rate of interest. There is nothing more to the bill. Small town banks all over Texas that make service charges of \$1.00 along with a loan bearing 10% interest could be subject to injunction suits.

Several members of the Senate are in the army, and because members are frequently called outside the Senate Chamber by out of town constituents it is sometimes difficult to maintain the necessary quorum. When the bill was brought up, Senator Jesse Martin of Fort Worth sent up an amendment which he said would more rigidly control the real loan sharks. About that time a roll call was had on the amendment and it developed there was no quorum. A call of the Senate was made, seconded, and passed, which, in technical terms, placed "a call on the Senate". The lawful procedure then was for the Sergeant at Arms to immediately summon a sufficient number of the members of the Senate to constitute a quorum and lock all doors and exits. No member was permitted to leave the Senate for any purpose—not even to eat. Senator Martin was compelled to remain in one standing position until he finished. He was not permitted to go to a wash room or get a drink of water outside. Had he sat down or left his position on the floor for any purpose at any time, he would have lost the floor and the right to speak. Thus he stood in one position for almost fourteen continuous hours. Occasionally some member would raise a point of order that he was leaning on his desk and immediately he would straighten up. During the time fifty four different motions to adjourn were made and voted down. Incidentally, motions to adjourn cannot be made one after the other—a reasonable length of time must elapse between motions.

Senators had to depend upon their wives and friends to smuggle in sandwiches, mated milks and coca colas. Some went to sleep at their desks and had to be aroused whenever a roll call was made. One member laid down on the floor. Now, to those of you who have read about filibusters, this is the way they actually work under parliamentary rules and procedure, and the writer of this article sincerely hopes he will never be compelled to endure another ordeal like that. It will be so long remembered by the present members it is doubtful if any member can ever again muster enough promises from the membership to prevent adjournment. It certainly accomplished nothing.

The writer happened to be in the House of Representatives when the resolution was introduced inviting Senator O'Daniel to speak. Pandemonium broke loose and there was a deafening chorus of noes and boos. But when the vote came and the membership started placing their names on record there was an overwhelming vote inviting the Senator to speak before a joint session.

**PRICE OF FEED WHEAT IS ANNOUNCED**

Feed wheat in Texas from the 1000,000,000-bushel appropriation made by Congress several days ago will be \$1.04 in Texas during April, the state AAA office announced this week.

Operating under the same principles as last year's program in which 125,000,000 bushels of Government-owned wheat were released for feeding purposes, the new appropriation now is available and should help materially to ease feed shortages developing in many parts of the nation. The last of the 125,000,000 bushel allocation, of which Texas received 2,800,000 bushels, was sold the early part of March.

To provide equitable distribution of the wheat, feeders, feed mixers, and dealers are limited as to the amount they can have on hand during a specific period.

**Farmers Urged To Plant More Feed Grains**

Texas farmers were asked this week to plan for maximum production of all feed grain crops during 1943.

Citing increases in cattle, sheep, hogs and chickens throughout the state for 1943, B. F. Vance, chairman, Texas USDA War Board, declared this week that it would take maximum production of all grain crops to see them through this year and provide a backlog of feed for 1944.

According to state statistics, producers had a total of 7,518,000 head of cattle on hand Jan. 1, 1943, compared to 7,444,000 head at the same time in 1942 while the ten year average from 1932-41 indicates only 7,272,000 head. "We now have 812,000 more cattle, hogs and sheep and over five million more chickens than we had during 1942 and for these reasons we are going to need enormous amounts of feed grains this year," he said.

**TIRES AND FARM EQUIPMENT**

Tire dealers or persons selling or servicing farm equipment are now entitled to keep on hand a maximum of six rear-wheel tractor tires. Dealers who have the replenishment portions (part B) of rationing certificates calling for truck tires may restock with tires suitable for farm equipment instead.

**NEW QUOTAS WILL SOON BE ANNOUNCED FOR WAAC RECRUITING**

Mrs. E. R. Andis, County Chairman for WAAC Recruiting, and The Donley County Leader were praised today by Lieut. Col. Marvin B. Durette, commanding officer of the West Texas Recruiting and Induction District, for work done during the past three months in recruiting for the Women's Army Auxiliary Corps.

"Without the splendid help of our County Chairmen, Newspapers, and other civilian workers, the WAAC Recruiting Drive for the quarter just concluded, would have been a dismal failure," Col. Durette stated.

New quotas are soon to be announced for the months of April, May, and June, Col. Durette said, and it has already been indicated that hundreds more capable women are needed from this district for the Women's Army Auxiliary Corps. Women interested in joining the WAAC were asked to contact either their County Chairmen, nearest U.S. Army Sub-Station, or visit the Headquarters Office of the West Texas Recruiting and Induction District in Lubbock.

Col. Durette reminded West Texans that the Women's Army Auxiliary Corps is open to all women between the ages of twenty-one and forty-four, inclusive, who are citizens of the United States by birth or naturalization, and have no dependents or children under 14 years of age.

**GET YOUR CHICKS NOW**

This is going to be a real year to raise chicks. Prices are good and there's a big demand for eggs and poultry meat. Get off to a good start this year by buying GOOD chicks, and be sure to order them EARLY. We have a supply of our Quality Chix on hand. They are bred for high production, built to live and grow. Come in and see them.

- Three Things To Do in '43**
1. BUY GOOD CHIX. Our Quality Chix are hatched right, from high-producing, blood-tested flocks. They have what it takes to grow big and quick.
  2. FEED PURINA STARTENA. Good chicks demand good feed. That's why we urge you to give your chicks the right start on Startena. It's TOPS for livability and growth.
  3. PROTECT CHICKS FROM DISEASE. Take home a bottle of CHEK-R-TABS with your Startena. One tablet to a quart of water kills germs. Also acts as a fungicide and bowel astringent.

"Not all will be able to pay for cruisers or battleships, but all can buy implements of war according to their abilities, from the great battleship down to the humble but mighty useful jeep. All of these are tools of freedom. So are dollars tools of freedom. The dollars you save and turn over to the use of your government today are fighting dollars - - - We have a job to do and we are all called for service to our country. Our dollars are called to service, too. Let us ask ourselves, shall we be more tender with our dollars than with the lives of our sons?" —Secretary Morgenthau.

**BIOLOGICAL.**  
The "meatleggers" of today under meat rationing are as persistent as the renowned "eyeleggers" of the sandy beaches where bath-

ing is rampant. All of which is describing conditions without limit. Profit and pleasure in the same paragraph—as it were.

**CYCLONE DAVIS.**  
Ain't it funny how things will live in the mind of a kid. When I was a mere lad of about 12 years, I heard the renowned "prohi" speaker, Cyclone Davis, during a red hot prohibition campaign.

Among the things he said: "It's hard to keep your dignity when you try to preserve it in alcohol." That saying has lived with me all these years.

**HISTORY.**  
The oldest history of a riddle that I have ever found is described in the 14th chapter of Judges, verses 14-18. Do you know of an older one?

**WEAKLING.**  
A man who quits the ration board to join the commandos is generally regarded as a sissy. We infer from that idea that our ration boards meet up with tough stuff occasionally.

Miss Nancy Stidham spent Tuesday with Mrs. Hefner.

The Fairview Sunday school had 31 present Sunday. Next Sunday, new officers will be elected. Everyone is invited to attend. Loyd Hefner is the very capable Supt. of this Sunday school. He is to be commended for his good work.

**MAXIMUM PRICES FOR MEATS**  
Maximum prices for all retail cuts of pork went into effect throughout the U.S. April 1, and the OPA will issue, in the immediate future, similar schedules of maximum retail prices for beef, lamb, mutton, and veal. Price Administrator Brown regards the action as a major blow against the black market in meats and a step toward simplifying retail food pricing.

Due to urgent invitations and a strong inclination, the writer will attend at least a part of the sessions of the Panhandle Press meet in Amarillo Friday and Saturday. The military officials will entertain the Press folks with a dinner (at noon) on Friday, I'm told. Having served them as secretary, director and president at different times, and knowing all of them through the years, there is no public function that I would get more joy out of than the sessions of the Panhandle Press. (P. S. Throw a few bottles in the bath tub, boys!!!)

My Victory Garden is certainly tooting 'em up. Peas, beans, etc., are really going places. The old Apostle has to beat all Donley county with a garden this season, and that won't be any boy's job either.

## MISS BERKELEY RYAN and LAWRENCE NEECE MARRIED SUNDAY

In a double ring ceremony, Miss Berkeley Gentry Ryan, daughter of Mr. and Mrs. George A. Ryan, became the bride of Ensign Lawrence C. Neece, son of the late Mr. and Mrs. J. G. Neece. Rev. Frank Hutchins performed the ceremony in St. John Baptist Episcopal Church at four o'clock Sunday, April 4th.

The Church was decorated with white gladioli, carnations and candles in tall candelabras.

Mrs. Millard Word played the wedding music. Ushers were Mr. Alfred McMurtry and Mr. Walter Knorpp.

The bride, given in marriage by her father, wore a dress of ivory satin that was the wedding dress of a great aunt in 1867. Her veil of hand-made lace was attached to a tiara of seed pearls. This veil was made in Belgium for a bride of the family and was first worn in 1849. Many brides have worn it since.

After the reception, held in the home of the bride's parents, the couple left for Virginia where Ensign Neece will be stationed.

### HOME SERVICE

Mrs. C. A. Burton  
The book program for prisoners of war has recently been revised. Individuals in the U. S. and its possessions may send new books only to officially identified prisoners or internees in enemy or enemy-occupied countries. Such books must be ordered from a publisher or bookseller who must wrap, address, and mail the parcel. The sender may in no instance mark or handle the book although his name and address may appear on the shipping label. One 5-pound book package will be permitted to go forward each month to each prisoner or internee. These parcels are postage free, but there must be no books written by or including material of Jewish authors, emigrants from enemy or enemy-occupied countries and certain other authors may be sent.

Then books containing a long list of items are prohibited including anything relating to navigation, ports, harbors, or waterways, geography, or maps, radio or wireless, a long, long list of things prohibited.

Newspapers and periodicals are acceptable under treaty provisions, but they are closely censored and confiscated if they contain any objectionable matter. Most current magazines have articles or pictures concerning the war or war production, which would cause confiscation. Consequently, no printed matter may be included in regular gift parcels, and no newspapers or magazines can be sent by individuals to prisoners or internees identified by name.

The War Department has announced that all military personnel who may become prisoners of war are prohibited from making announcements, transmitting messages, or otherwise making use of enemy wireless or broadcasting facilities. Such broadcasts are used by the enemy for propaganda purposes and are unreliable and inaccurate.

Thirteen hospitals for rapid treatment and rehabilitation of women who have become carriers of venereal diseases to the armed forces are now in operation. Aside from medical cures, the hospitals provide some vocational guidance, and assists in obtaining employment. This program has been developed by the U.S. Public Health Service; cooperating are the Social Protection Section of the Office of Defense Health and Welfare Services, the Federal Works Agency, the War Manpower Commission, and State and local health departments. Funds are largely provided by the Lanham Act. Several of these hospitals are housed in abandoned CCC Camps. Twenty-one additional centers have been approved.

The postal censorship unit emphasizes that V-mail cannot be used for prisoners of war mail. The Army is no longer using the "arrival card". Instead embarkation cards are being used to inform relatives and friends of departures for overseas. These cards are released by the commanding officer of the port of embarkation at the expiration of 5 to 30 days,

depending on the distance of destination.

Mrs. David Gates returned from California where she had been with her husband a year. She is now with her parents, Mr. and Mrs. W. W. Crawford.

Mr. and Mrs. Guy O. Wright and daughters have returned from Stephenville, Texas where they attended the funeral of Mrs. Wright's father, E. S. Howell.

Dan Roy of Oxford, Miss. is visiting Mr. and Mrs. R. W. Boston and Mr. and Mrs. William Lewis Jr. this week. He will return to Mississippi Saturday with Mr. and Mrs. Boston.

Mrs. Simmons Powell took her mother to Dallas Monday. She was also accompanied by Mrs. L. E. Thompson and Miss Anna Moores.

Mrs. C. L. Benson Sr. and Mrs. Lloyd Benson were in Amarillo Wednesday.

**SPAFS TO FURNISH PROGRAM FOR DAIRY SHOW**

The program for the annual Panhandle Plains Dairy Show to be held at Plainview April 13, will be furnished by South Plains Army Flying School and the WAAC recruiting office.

The program, which will highlight the women's corps recruiting drive in the Plains area in recent weeks, will be climaxed by the crowning of a WAAC, as yet unchosen, as queen of the show. She will be crowned by Col. Marvin B. Durette, recruiting officer.

The show will have representatives from the entire South Plains area and the program will be broadcast over the entire Texas State Network, including more than 20 radio stations.

Donley County Leader, \$2 a year.

**ADVANCE PAYMENT OF POINTS**

Payment of points "in advance" for home deliveries of butter and cheese by dairymen or salesmen operating mobile conveyances over a regular delivery route has been authorized by OPA. For example, the housewife who on Monday wants a pound of butter left at her home the following Thursday, can give the delivery man eight currently valid stamps to cover the later delivery.

# TO HASTEN VICTORY

No American wants this war to go one minute beyond the time we can bring it to a victorious end. To hasten that victory --- to save possibly the lives of millions of our boys on our far flung fronts --- it is imperative that every American do his part in the second War Loan.

There is an investment to fit every purse.

The most you can do is little enough compared with the sacrifice offered by our Loys in service. They give their lives--- you lend your money.

**The world price of rubber** was 22½ cents a pound before the treacherous Japs seized the East Indies and obtained control of the rich rubber supplies of the Far East.

Today they are offering the rubber for ½ of a cent to 1 cent a pound . . . with no takers, even by Nippon's Axis partners, because the United Nations blockade has cut off shipping from Singapore.

As an American whose driving has been coupon-rationed . . . not because of lack of gasoline . . . but by a serious shortage of rubber . . . be thankful for the blockade which has made the Jap bargain sale of rubber a flop. Be thankful too that there is no U.S. blockade on research.

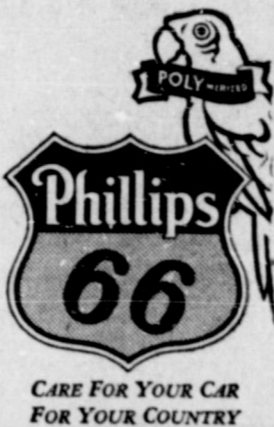

Long before the war, the Phillips research laboratories, always engaged in seeking new and better things from

petroleum, was learning the secrets of synthetic rubber and 100 octane aviation motor fuel.

This knowledge and Phillips great resources of raw materials are now teamed in the war effort.

Our part in winning the war is to expand enormously the production of synthetic rubber and 100 octane aviation motor fuel. Your part is to reduce driving and thus conserve rubber, until midsummer 1944 . . . the date on which Rubber Director William H. Jeffers predicts that with your help . . . the American people will be over the hump of the rubber problem."

When victory comes, when you can again PHILL-UP with PHILLIPS to your heart's content, we confidently promise you that today's concentration on petroleum research will bring you almost undreamed of improvement in Phillips 66 Gasoline.

### How To Stretch Meat Allowance Under Rationing

Despite rationing, you can still have plenty of meat on your table these days if you are willing to mix some of the less desirable cuts with those which are more choice and use all left-overs.

The cheaper grades and cuts of meat, though not so tender, if prepared right are just as full of food value and every bit as tasty as the higher-priced steaks and roasts. The chief difference is that they take more time in cooking and more skill in seasoning.

Here are a few tips for getting the most from your meat allowance:

#### Plan Your Purchases

Plan meals well ahead of time. If you have a cold place for left-overs, you save time and fuel by cooking a larger piece of meat than is needed for one meal. Cooked meat is excellent sliced cold, and every tidbit can go into tasty dishes, hot or cold.

You can cut down fuel costs by selecting meat that can be cooked on top of the stove.

#### Save Trimmings and Bones

Preparing a cut of meat for the pan may call for a certain amount of trimming. Save any well-flavored lean tidbits to make stew or to grind for meat patties.

Save the fat trimmings. If they have a good flavor, melt them down at low heat, strain the drippings, store in a covered container in a dry, cold place, and use the fat for cooking. Return any surplus fat to your fat collection depot. If this is not practicable, you may use any fat not suitable for food to make soap.

The bones, of course, should be used for making soup.

#### Vary the Seasoning

Try new flavors in meat dishes. Many a homely dish has been given added zest at little cost by garden herbs and other seasonings.

### Wheat Ready For Feed Purposes

For the purpose of aiding the production of livestock and poultry production and for helping to relieve the grain storage situation, the Armstrong County AAA Committee will, until further notice, sell good sound merchantable CCC feed wheat.

Feeders must state the quantity of feed on hand and their estimated monthly requirements. Orders will be accepted for a quantity which together with the quantity on hand will not exceed a three month's supply.

The April price for feed wheat is \$1.06 per bushel. The following dealers will handle the feed wheat for the AAA Committee: Nelson Grain Co. and Weeks & Bagwell at Claude, Texas, and H. E. White Grain Co. at Washburn, Texas.

Mr. and Mrs. J. A. Warren and Ardith attended the marriage of their daughter and sister, Miss Wilma Jean, in Amarillo Saturday.

On an average, he needs twice as many calories and twice as much protein for the strength and endurance required of a top fighting man.

He needs fighting foods—meats, cheeses, fats, oils, vegetables, fruits, as well as eggs and milk.

Berries and coconuts could not give our marines and soldiers the endurance they need to wipe the Japs out of Guadalcanal and New Guinea.

American troops could not hold North Africa on a diet of figs and dates.

Submarine crews hunting down Japs in the Pacific could not do their job on a diet of beans.

Our fighting men in Alaska, our Air Corps pilots in England, our soldiers, sailors and marines on every front must have the strength, the endurance that comes from the fighting foods we are shipping them.

We must share with our fighters.

Mr. and Mrs. Henry Massingill who have been in Arizona for some time are back in Clarendon, and Mr. Massingill advised that he will be inducted into Uncle Sam's forces sometime this month.

Tom Maxey was down from Amarillo Monday, visiting home-folks.

### We Must Share With Our Fighters & Fighting Allies

The United States is the greatest food-producing country in the world. And we are in the best geographical position to ship meat, cheese, fats, oils and processed foods to United Nations as well as to the fighting fronts.

We do not rely mainly on food imports as Great Britain does.

We have not lost our most fer-

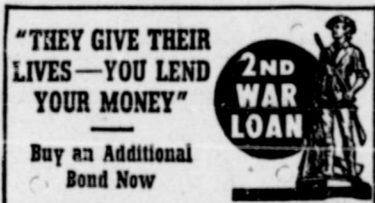

tile food-raising and grazing land as Russia has.

Our allies are giving up lives and land in our common battle to stop Nazis. We must supply our fighting allies with food to help them beat back the Axis.

Our allies also are supplying food and helping feed our soldiers.

Australian and New Zealand meats and other foods are helping feed American forces in the South Pacific. Wheat, meat, cheese and eggs from Canada are being shipped to Britain.

A soldier needs about 5½ lbs. of food a day—about 25 percent more food than he did in civilian

### Sign-up Campaign Draws to Close

Sign-up of Texas' 418,000 ranchmen and farmers under the 1943 Food for Freedom program began tapering off this week as counties started filing final reports in the state AAA office.

According to the Texas USDA War Board approximately 90 percent of all farms and ranches already have signed for maximum production under agriculture's war program, which calls for increases in nearly all commodities.

Counties which have not completed their campaign were notified this week by B. F. Vance, chairman of the board, to complete plan sheets immediately and transmit county figures for state tabulations.

Purpose of early tabulations is to ascertain whether all goals have been pledged or whether adjustments are necessary in some counties.

If goals have not been pledged in all counties, other localities in the state will be given an opportunity to increase their pledges to make up the differences. Through this manner of adjusting, the State USDA War Board expects all goals to be pledged.

# The 2<sup>nd</sup> War Loan Starts April 12

## 13 billion dollars must be raised!

**T**HE GOVERNMENT of the United States is asking us to lend it 13 billion dollars in the next few weeks. We can do it. And we *must* do it. Every American must realize the truth:

In this, our toughest war, we've made a good start. We've trained a lot of men—made a lot of weapons—built a lot of ships.

But it's only a start. No man or woman among us would contend for a single instant that we're doing enough *now* to win this war!

### We've Got to Build More!

We broke all records building 8 million tons of shipping last year. But grim-faced Army and Navy men will tell you that the 18 MILLION tons we're building this year *still* won't be enough!

### We've Got to Fight More!

From now till this war is won, America must be on the offensive. In ever-increasing numbers, your sons, brothers, husbands must go into actual battle. Our losses have already begun to mount—and they will not grow less.

### And We've Got to Buy More War Bonds!

Sure we're all buying War Bonds now. But we've got to help pay for our increased fighting and building . . . We've got to match, as best we can, the sacrifice of those Americans who are toiling and sweating on a dozen battlefronts—with the bloodiest yet to come. The blunt fact is this: to keep our war machine going, we've got to dig up 13 billion *extra* dollars this month. 13 billion dollars over and above our regular War Bond buying!

In the next few weeks you may be visited by one of the thousands of volunteers who are contributing their time and effort to this Drive. But don't wait for him. Make up your mind now that before this drive is over, you're going to march right down to your nearest bank, Post Office, or place where they sell War Bonds, and do your duty. And don't ever for-

get this: in doing your duty, you're doing yourself one of the biggest favors of your life!

For United States War Bonds are the greatest investment in the world—bar none. They're investments tailored to fit your particular situation. And they give you the chance of a lifetime to order and *get* the kind of world you want to live in after this war. Every cent you put in War Bonds now will help to guarantee plenty of peacetime jobs making peace-living for every one of us.

For your Country's sake—for your *own* sake—invest *all you can!*

### There Are 7 Different Types of U. S. Government Securities— Choose The Ones Best Suited For You:

### Pampa Soldier Tells Of Action With Hospital Ship In Pacific Area

Among the many men returning home for a much needed rest after seeing service, is M/Sgt. Lewis K. Colvin who is stationed with the medical corps at the army air base at Spokane, Wash. He visited recently with his home folks at Belva, Okla. He is a native Texan and claims Pampa as his home. He enlisted in the regular army in Sept. of 1940 and is 25 years of age. He is a nephew of Charley and Ed Speed of this city. His father was section foreman at Lelia Lake for a number of years. Sgt. Colvin was a member of the first medical convoy to reach Honolulu after the Japs' sneak attack on Pearl Harbor.

After witnessing the heart-touching results of the human destruction and wreckage caused by the Jap's cowardly stab at the United States on December 7, 1941, Master Sergeant Colvin carries a personal grudge against the Jap which he is eager to avenge.

Sergeant Colvin does not tell a story of fighting, for the Japs had already completed their brutal job. Instead, his story is an account of the noble courage and unwavering will-power of injured soldiers, whose bodies were werked forever by bombs or bullets as they battled against desperate odds for the cause of freedom and democracy. He told of disabled soldiers who smiled in the face of the fact that they would never walk again, or perhaps see again. These same soldiers were only a few days before strong, able-bodied Americans, imbued with the feeling of good health and well-being.

"Although they had either lost legs, arms or eyes, or suffered other injuries of equal seriousness, none of them complained about their misfortune, but displayed a spirit of endurance and fortitude throughout the journey home," Sgt. Colvin said.

The sergeant told of two lads who joked about their injuries, after one of them lost a right foot and the other a left foot when Hickam Field was bombed. "They

didn't complain about their injuries," the sergeant said. "Instead they turned their misfortunes into jokes—jokes that often brought lumps into the throats of those who listened. 'We'll save money when we buy shoes, now,' they said. 'Since we have only a right foot and left foot between us, one pair of shoes will do us both.'"

(Continued from Front page)

#### 8 Golden Rules of Food Rationing

1. Share your food with our fighting men.
  2. Shop early in the week and earlier in the day, and only once a week if possible.
  3. Make up a shopping list and add up the points before you shop.
  4. Plan your family's diet carefully—see that everyone gets enough nourishment. Make up menus for the week.
  5. "Pay" with 8 and 5 point stamps first when you can. Save 2 and 1 point stamps to make the count come out even. Your grocer only can give you "change" in one point red stamps.
  6. Include macaroni, spaghetti, cereals, and other unrationed food extenders when you can.
  7. Plant a Victory Garden. Do all the home canning possible.
  8. Don't blame your grocer for wartime inconveniences.
- Don't encourage or take any part yourself in violations of rationing regulations. Not only will you suffer legal penalties for such violations—you will also be obstructing your country's war effort.

#### HERE WITH MOTHER

Mr. and Mrs. Earl Lovell and son Bobby of Lubbock and Rev. and Mrs. Clark Russell of McKinney are here with their mother, Mrs. S. H. Lovell who is seriously ill.

David Johnson of Amarillo spent the week end visiting at home.

### Producers—

Crop Insurance is your protection against weather, insects, labor shortage, and other unavoidable hazards. It is also protection from the time it is planted until it is weighed in at the gin.

I can think of Crop Insurance in no other way except on a long term basis. I urge you to go into this program fully before passing it by.

The 1943 Compliance Program will be quite a bit different from heretofore, as we are instructed to have producers measure their own farms this year.

Arrangements will be made to have some of the office force to come out to convenient points to help you to plan your crops on aerial maps. We can measure off on the map what it will take to plant the acreage of crops that you intend to plant, and give you a tracing of this aerial map. Then when crops are planted, producers will be requested to make measurements and bring them in to be checked with our measurements made on aerial maps.

This program has not been worked out completely for this county, but I probably can give you full plans in next week's article.

### War Loan—

(Continued from Front page) we support the brave men who are fighting our battles on a score of fronts. By buying an extra bond we will show them that we are in the fight, too.

The following men have taken the responsibility of seeing that the Second War Loan drive in Donley County goes over the top: J. R. Porter is general chairman, and Walter Knorpp is co-chairman. The executive committee is composed of J. R. Porter, general chairman, Walter Knorpp, C. L. Johnson, W. W. Taylor, Allen J. Bryan and Ted Glass.

G. W. Estlack, Dick Cooke and Ed Boliver make up the publicity committee. The committee of speakers are W. T. Link, Bob Jenkins, R. Y. King, J. O. Quattlebaum, Tom F. Connally and John Knorpp.

Walter Knorpp will have charge of the War Bond Division and C. L. Johnson the Victory Fund Division. Captains will be Allen J. Bryan, C. L. Johnson and Ted Glass. C. M. Lowry and C. L. Johnson will form the non-resident committee.

### West Texas Will Soon Have Only Glider School In Nation

West Texas will soon have the only glider school in the nation it became known this week.

South Plains Army Flying School, known over the entire country as the "Home of the Winged Commandos," has been designated to continue the training of men in Uncle Sam's giant cargo and troop-carrying gliders. Already the program at SPAFS is being geared up to meet the extra demands brought about by the change.

Less than a year old, the school has been recognized as the leading glider pilot training center in the nation. Five times within a month recently towpilots and glider students broke the flying record at the school.

Challenged to prove that the glider did have a vital role in military operations of the United Nations, officers, instructors and the students themselves have pitched in as a team to overcome problems which naturally occurred as the program got under way and to push the training to the point where it gained the attention of a nation at war.

#### ANNOUNCEMENT

Born to Mr. and Mrs. C. F. Garman, Saturday, April 3, a girl, named Oveta Gail, weight 6 lbs. Mother and babe doing nicely.

#### SERVICES CONDUCTED FOR E. W. MILLER

Rites in tribute to the memory of E. W. Miller were held Tuesday afternoon in the Polk Street Methodist Church, Amarillo. Dr. Earl G. Hamlet conducted the services.

Mr. Miller, who was 71 years old, was a pioneer Panhandle real estate and investment dealer. He died early Monday morning, following a long illness, in the home of his daughter, Mrs. J. M. McCasland at 1322 Taylor Street.

Mr. Miller was a former resident and real estate dealer of Clarendon and will be remembered by many of the old timers here.

Mrs. Ray Wilson returned home Tuesday night after a visit with her husband Ray Wilson who is in the service at EIPaso.

In a special effort to aid a greater number of rural families, the American Red Cross has provided \$100,000 from its national budget to supplement chapter funds for use in employing instructors in Red Cross Home Nursing. Emphasis will be placed on reaching those farm women who live in the open country, cut off from all medical help. The need for home nursing knowledge grows with wartime danger of epidemics.

The reason for providing the funds is two-fold: one being that it is difficult to find nurses available to teach in the remote rural areas, and the other that the small chapters in many of these areas have very little funds of their own. As a further reason the Red Cross wishes to extend the service to those communities that have been depleted of doctors and nurses, and where hospitals are limited. Facilities for providing health protection have by no means increased in proportion to the population in defense areas.

The plan is to procure a sufficient number of nurses, then assign them to the states as the needs are indicated. The service may be for two, three and occasionally for four months, if the need seems great.

Mrs. Earl Lea is in the Clarendon Clinical Hospital for treatment.

Lon Rundell visited his brother, J. W. Rundell at Wichita Falls the week end.
