VICTIMS OF PROFITEERING.

Big business is fully aware that the fangs of the anti-trust laws have been extracted by the NRA. Instance the \$17,000,000 oil suit instituted by Attorney General Allred.

The industrial barons are now out in the open and do not want to see the Blue Eagle jump. It has certain important attributes that they are extremely eager to have retained.

Industrial barons now set the price on the greater part of what the farmer produces, and to a great extent set the price on everything that the consumer has to buy.

JIMMIE ALLRED'S FIRST STATEMENT.

When victory seemed assured, the first statement from Jimmie Allred carried volumes of humility, appreciation, emotion and dedication to the welfare of the people of Texas in the following words:

"To me, this is an hour of great emotion and it is difficult to express in words the tumult of appreciation, of humility and of consecration to the welfare of Texas - - - I shall dedicate myself to the tasks ahead. I approach these problems fully realizing my inability to successfully deal with them without the whole-hearted co-operation of the Legislature and all the people. I crave their confidence and help.

"I want to be a good winner. I hold no ill will against those who opposed me in the past or in this campaign. I hope that, as the nominee of the party, and, I trust, the next Governor of Texas, I shall have their help and co-operation at all times."

PAYING PUBLIC SERVANTS.

Texas has far too many public servants. They are both underworked and underpaid. Especially does this condition apply to the two legislative bodies. Some states have gotten along very well with one "house" of lawmakers.

Our governor never did get his just dues in the matter of salary. It costs too much to be elected to the office in comparison with the salary paid. If we may expect better men for the job, we must pay more. Better salaries generally attract better men.

THAT WHITE ELEPHANT AGAIN.

Ever so often we have a dreamer bob up. Some times it is worth while. The latest idea to receive birth at the hands of the "brain trusters" is for the government to own and operate all the transportation companies.

The government operated the railroads during the World War. Millions were wasted and the experiment cost Uncle Sam's taxpayers billions of dollars to get loose from it.

Only recently we saw another example of government control in the air mail service. It took only about two weeks for us to see twenty-three men killed in trying to perform a service for which they were supposed to have been trained in army service.

As we view it, we need more business in government, and less government in business. We need an equitable governmental regulation of transportation only.

Texas Centennial Will Honor Memory Stephen F. Austin

World is Asked to Celebrate Century of Romance Where Patriotism Never Dies

Corsicana, Texas, August 15.—Although he had a vision of an empire in Texas, Stephen F. Austin, the great colonizer, could not mirror the Texas that is today.

Although his compatriots of the same era of the early 1830's, Green DeWitt, Edwards, and others predicted great things for the undeveloped empire they were founding, they could not foresee the mighty commonwealth of a century later.

With dogged perseverance Stephen F. Austin, "Father of Texas", stood by his purpose, including time in prisons, long sojourns among a strange people in a strange country, distinguished service in civil life, finally to fall a victim of pneumonia just a short time after he had been made Secretary of State in the Texas Republic by Sam Houston.

For three days he had labored in the quaint capitol building at Columbia on the Brazos River. The weather was cold, there was no heat and the fatal disease took hold. His last act was for Texas. His last hours were spent in framing documents for presentation to the United States government which eventually was to result in the annexation of the Republic of Texas.

He lay in State at the capitol for two days and was buried on the estate of a sister near Velasco. It is a far cry from the Texas of the days of Stephen F. Austin and the Texas of today.

It is this century of progress that the State will celebrate with its great Centennial exposition in 1936.

That century of advancement is one of the outstanding events of all history.

Then schools were few, the buildings were of log. The childrer tracked an unmarked wilderness in some cases for miles to reach the little building where one teacher for a period of three and four months taught the rudiments of an education to a mixed assembly of children and of grades.

Then most of the settlers were along the rivers, because there was no method of transportation, save by water, ox wagon or on foot.

Then no oil fields, no gas fields, no coal mines, no mighty manufacturing plants dotted the landscape over the broad expanse of the State.

One of Austin's colonists, in a letter which has been preserved, even writes that a Bible could not be found in the settlement.

From the oppression of a despotic government the colonists rebelled.

They were commanded by the former Governor of Tennessee, the bosom friend of Andrew Jackson, General Sam Houston won the sixteenth decisive battle of world history, this on April 21, of 1836.

But prior to that on March 2 of old Washington-on-the-Brazos a band of Texans had solemnly declared that State to be a free and independent Republic. They realized in the making of that Declaration they were inviting and most certainly would endure a sanguinary conflict with the enemy.

In the conflict intervening bloody battles were fought.

As a result Texas has its sacred shrine of the Alamo. It has its Lexington-Gonzales. It has its Goliad. It has its ancient mission and fortress of Refugio. It has the thrilling events centering around Nacogdoches.

Texans of today have a century of romance, a century marked by valiant deeds of men and women, a century registering the most phenomenal progress ever recorded by a people to celebrate in 1936.

It is in the commemoration of this past, which shall be the outstanding feature of the celebration, that Texas will hold its Centennial of 1936.

While it is paying due and proper homage to the founders of our present civilization, it shall also, in this Centennial, accurately portray the progress of the century along material, spiritual, cultural, educational, social and business lines.

By contrast will be shown the few rude implements of civilization available in 1836, and how heroic has been the struggle to build from that beginning into the present proud empire State.

Native Petrified Wood Will Be Used in Building

Canyon, Texas, August 28.—The men students of West Texas State Teachers College and especially the athletes will have a campus meeting place when a new recreational hall which has just been started is completed.

Native stone and petrified wood will be used in the construction of the building which is to be low,

rambling type such as is commonly used for ranch buildings in the Southwest. Most of the work on the building will be done by college students under the provisions of the Federal Educational Relief Aid.

Even the furniture of the building will be largely home made, constructed of heavy lumber suitable to the general style of the building.

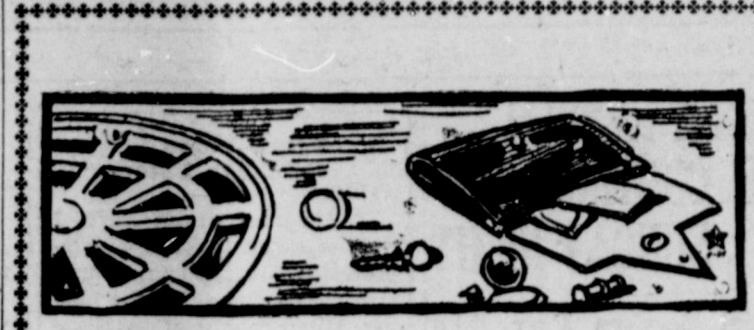

Coach Al Baggett planned the

building with the assistance of a competent architect. In connection with the building a desert garden 122x44' is planned.

Rooms in the completed building will rent for \$5 per month per

man. When this project is complete, it will provide quarters for about 40 men.

TEMPLE OF TRUTH
By the Apostle

Since the rain began Wednesday night of last week breaking up the worst drouth ever to occur in this section, about every other man claims to have predicted the rain. On top of all these claims, some of the Baptists claim the honors because their revival was in progress and the piano got wet. One fellow gave the Arapahoe Indians on the Washita credit because they went in strictly for rain according to their ancient custom and the pow wow lasted until it rained. Just about the time we had made up our minds that there was enough credit to go all-round, an old geyser bobbed up and claimed that it rained in Noah's time because the folks raised too much h - - l. Then we handed him the dog and quit talking.

In every town there is a person not quite insane, but off their nut just enough to write anonymous letters.

The July issue of The Frisco Employees Magazine relates a good one to show how present-day judges have to keep up with the times:

An elderly man of ultra-convivial habits, but withal learned and bookish, was hauled before the bar of justice in a country town. "Ye're charged with bein' drunk and disorderly," snapped the magistrate. "Have ye anything to say why sentence should not be pronounced?" "Man's inhumanity to man makes countless thousands mourn" began the prisoner in a flight of oratory. "I am not so based as Poe, so profligate as Byron, so ungrateful as Keats, so intemperate as Burns, so timid as Tennyson, so vulgar as Shakespeare, so—"

"That'll do. That'll do," interrupted the magistrate. "Ninety days. And officer, take down that list of names he mentioned and round 'em up. I think they're as bad as he is."

Then there is the young lady who stomped the \$2 cuspidor to a wreck while the dentist was pulling her tooth for a dollar.

The modern girl adores spinning wheels, but she wants four and a spare. The College Hill widow says the reason she has been slow in taking a fourth husband is that she has a dog that growls, a parrot that cusses, and a tom cat that stays out all night.

Down in Louisiana lives a man who gets drunk every night on account of the mosquitoes. The first half of the night he is so drunk he does not know the mosquitoes, and the last half the "skeeters are so drunk they don't know him."

A man may be down but never out until he is whipped inside—whipped within himself.

A noted religious fanatic by the name of Voliva up in Illinois announced the end of the world on

September 10th, but he forgot to state the year.

What a marvelous faculty is human reason. A mother dresses her little girl like a "Fejee" islander with tender flesh exposed to the sun all for the 'comfort' of the child.

We have all had our fling and our fun, the primary is over, the sun still shines and, thanks to our heroic ancestors, we still are hopeful of the future. Political quarrels should not last, making best for all of us. Most every voter won and lost.

Jimmie Allred is planning to write a book giving his impressions and 'picklements' in four campaigns. It will require a large book to contain all the humorous incidents, joys and sorrows, disappointments and loyalty encountered over a large state like Texas. Allred can write just such a book and it will be "a best seller" when he does it. He needs something to help regain the money spent in the last race in which he emerges as victor soon to become the next governor of Texas.

The average weekly publisher grabs an exchange, reads the heads, looks at the date, turns to the editorials (if any), tears out something and throws the 'corpse' on the floor. Exchanges worth while should be thoroughly digested to keep us from getting into a rut.

It's peculiar what a difference in a name will make toward getting more business. Until quite recently, an "appendix" operation attracted little or no attention. Now the doctor terms it an "appendectomy" and gets the most of the business. And why not fashionable operations as well as diseases.

So long as the place was known as the "undertaker's", the neighbors came in and buried the victim. When the 'undertaker' dressed up his joint and renamed it a "mortuary" and dubbed himself a "mortician," the neighbors were shunted off the job except to shovel in the dirt in the last act before the final curtain.

Our heartfelt sympathy goes out to a local brother who lost his false teeth election night. Now he doesn't know whether he lost them, mislaid them, or the liquor ate them up. Anyhow, he just 'haint 'em.'

Down at Corpus this summer they had to stop the Hawaiian dance act. It got so dry they could not find enough grass to make a skirt.

Bachelor Bill says: "A woman needs only two things—a hat pin and a hair pin. She can defend her likker with the first, and unlock the door with the second when she gets in too late."

Pomes with rain drop motifs have been coming in lively since the long delayed floods started last week. Oh lordy!

The College Hill Widow says that most grass-widowers are of the crabgrass variety.

The above is a snapshot of Homer Mulkey taken while he was in the miserable act of changing from Tom Hunter to Jimmie Allred the day before election. (With apologies to Dutch Mantell for infringing a face on his copy-right.)

Only a convict likes to be stopped in the middle of a sentence, but the rain has caused us to cut this column short this week. GW bogged up in the garden where you see the garage "wrecker" standing.

Mrs. W. S. Maxwell and children left for their home at Ft. Worth Monday after a two weeks' visit with her sister, Mrs. G. L. Boykin and family.

MIDWAY
(Mrs. John Goldston)

The ladies of the community surprised Mrs. Archie Lewis with a shower Monday afternoon in the home of Mrs. J. A. Meaders and Miss Kattie. After all had gathered, pencils and paper were passed to each guest, and they passed around a table on which were a number of various articles, then each guest recorded all the article she had seen on the table. Mrs. Lewis was then given a big basket of gifts as she won the contest. The gifts were opened and admired by everyone present. Iced drinks were served from the beautiful punch bowl and cups centering a laced laid table in the dining room.

Those present were Mrs. F. O. Naylor, Mrs. T. K. Stone, Mrs. Gus Williams, Mrs. Rosa Seaton, Mrs. W. D. Higgins, Mrs. Glenn Williams, Mrs. Ernest Jones, Mrs. J. T. Jones, Mrs. J. H. Goldston, Mrs. Gene Chamberlain, Misses Mary Ellen, Virginia and Jane

Williams, the hostesses, Mrs. J. A. Meaders and Miss Kattie and the honoree, Mrs. Archie Lewis. Those sending gifts, unable to attend were Mrs. John Chamberlain, Mrs. H. S. Mahaffey, Mrs. W. M. Meaders, Mrs. Thomas and Mrs. Lloyd Moreland.

Mrs. Thomas' sister of California spent the past week with her. They also visited another sister in Oklahoma the first of the week.

Mr. and Mrs. Ernest Davis visited relatives here over the week-end.

Mrs. Bill Meaders visited relatives at Crowell and McLean the past week.

Mr. and Mrs. W. D. Higgins were dinner guests in the Paul Smith home Sunday. They attended the singing at Chamberlain in the afternoon.

School opened Monday morning, with Dennis Smith as principal and Miss Mattie Rhodes as primary teacher. The parents helped clean the school grounds and had dinner at the school house Monday.

Mr. and Mrs. Gene Chamberlain spent the week end in the home of

her parents, Mr. and Mrs. J. H. Goldston. They moved to Spade Flat Monday.

Mr. and Mrs. L. L. Naylor, Mrs. Hefner and Lloyd were dinner guests in the John Chamberlain home Sunday. Mr. and Mrs. Bowl-in called in the afternoon.

Mrs. S. M. Clement of Mineral Wells and a sister of O. S. Anderson, whom he had not seen for 8 years, visited with the Anderson family here over the week end.

Mrs. I. H. Doom of Springdale, Arkansas and for many years a resident of this section and a farm owner in Windy Valley, is here this week visiting her daughter, Mrs. J. N. Riley and family east of town.

Mr. and Mrs. J. H. Stamps of Fort Worth were week end guests of Mrs. J. M. Rolife. They were on their return home after a visit to Carlsbad, Santa Fe and other New Mexico places of interest.

SMITH-STOCKING

Dr. Helen Berenice Smith, geneticist, Carnegie Institute of Genetics at Johns Hopkins University, became the bride of Hobart Ebeby Stocking of this city in a ceremony performed at Knoxville, Tenn. Saturday.

Mrs. Stocking who is a native of St. Paul, Minnesota did her undergraduate work at Penn College where she was the honor graduate. Later she held a fellowship at Bryn Mar College, Pennsylvania and recently received the Ph. D. degree at Johns Hopkins University in the City of Baltimore.

Hobart E. Stocking is the youngest son of Sarah M. Stocking of this city. He is a graduate geologist from the University of Texas and is now a candidate for the Ph. D. degree at Johns Hop-

kins where he is specializing in the field of Economic Geology. As an undergraduate Mr. Stocking was for two years connected with the Harry Sinclair Explorating Company in search of oil in West Africa where he was attached to the staff as chief assistant geologist.

Immediately after the ceremony the couple left on a honeymoon trip to Little Switzerland, North Carolina. After a month in the mountains the couple will make their home in Baltimore, Md. where Mr. Stocking will complete his studies.

B & P WOMEN HAVE PICNIC PARTY

Members of the B & P Women's club gathered at the river Tuesday evening enjoying an outing

and a picnic lunch. A real weiner roast was followed with story telling.

Misses Julia Wiedman and Norma Rhode were hostesses. Guests included Mesdames Bert Smith, Attie Mae Lane of Memphis, Joyce Clark.

Members: Rhoda Wiedman, Opal Pyle, Norma Rhode, Nadine Tucker, Ruth Hartzog, Pearl Ross, Julia Wiedman, Mildred Martin, Helen Wiedman, Mantie Graves, Laura Huffman, Zell Rodgers, Julia Mae Caraway, Lorene Stegall, Lottie E. Lane.

KICUWA CAMP FIRE

About two weeks ago the Kicuwas had a cook book drive in which they attempted to sell the remainder of their cook books. The drive was quite successful in that most of the books were sold.

Last Wednesday afternoon the troop met at the home of Sarah Virginia McGowan. Plans for the meetings after the beginning of school (ah!) were discussed. Various committees were chosen to perfect the plans for a watermelon feast on the morrow. With the coming of delicious, delightful and cool refreshments, the meeting adjourned.

Thursday afternoon the girls again met at Miss McGowan's for the purpose of going on a watermelon feast to the river. Not being in the least discouraged by a few clouds and threatening thunder, the Kicuwas, accompanied by "Bug" Caraway and Mrs. McGowan, departed. Watermelon, wading and more watermelon; At dusk the girls came back to town, reporting one of the best times ever!

Senator Woodul of Houston Next Lieutenant Gov.

A queer quirk in politics developed in the race for the office of lieutenant governor. Senator Joe Moore of Greenville withdrew after the first primary, stating that he did not have sufficient funds to prosecute a second campaign. His friends came to his rescue and Moore got in the second heat polling some 358,828 votes.

Pitted against him was the astute politician, Senator Walter Woodul of Houston, who polled more than a half million votes, the only man in the race to be so honored.

Art Skates and His Orchestra To Furnish Dance Music

Announcement was made Monday that should be of interest to all dance fans with the news that Art Skates and his "Hollywood

Local Girls to Sell Fair Tickets—Want a Job?

Mr. A. H. Baker, manager of the local NRS office, has received information from Mr. A. G. Irwin, District Manager at Amarillo, that Mr. Rowan who is in charge of the Automobile Show of the Tri-State Fair at Amarillo will be in the market to hire ten young ladies to sell tickets in Clarendon next week. These young ladies should be between seventeen and twenty-five years of age, be neat in appearance, and have a good personality. The job will pay twenty percent commission, tickets to be sold for twenty-five cents each.

All applicants for this position will register at the local Relief office with Mr. A. H. Baker and will be notified of the date on which they will be expected to contact Mr. Rowan.

SAFEST TIRES IN THE WORLD! PRICES REMARKABLY LOW!

Here's PROOF OF SAFETY

TWO BREATH-TAKING ENDURANCE RUNS LAST WEEK ON SAME TRACK—A DRAMATIC COMPARISON OF SAFETY! READ BOTH LETTERS!

The Proof of leadership is performance! Many claim it, but Firestone proves it. Never before have tires withstood such severe, continuous, grinding torture, breaking 77 records for 3,000 consecutive miles at 127.2 miles an hour. Not a Gum-Dipped cord loosened, not a tread separated, not one blowout.

Hour after hour, on through the scorching heat of the day and inky blackness of the night, with temperatures as high as 120 degrees—breaking record after record for speed, strength, safety and blowout protection—all in a stupendous demonstration of safety performance for the car owners of America.

This remarkable achievement was made possible by Gum-Dipping, the Firestone patented process which saturates and coats every fiber within the cords with liquid rubber—counteracting friction and heat and preventing the tire from heating up and blowing out.

For your holiday trip have the Firestone Service Dealer or Service Store equip your car with Firestone Tires, Spark Plugs, Battery and Aquapuf Brake Lining. Protect your life and the lives of your family with the safest tire in the world. Buy them this week before prices go higher.

Ab Jenkins praises Firestone tires in toughest endurance run he ever made.

AB JENKINS

Lake Bonneville, Utah Aug. 16th, 1934

Mr. Harvey S. Firestone, Chairman, Firestone Tire & Rubber Company, Akron, Ohio

Dear Mr. Firestone:

Under A.A.A. supervision I have just completed a 3,000 mile endurance run on the hot salt desert at Lake Bonneville, Utah. My car, weighing over 6,000 pounds, traveled the 3,000 miles at an average speed of 127.2 miles per hour, breaking 77 World, International and American Speed Records—all without tire trouble of any kind. Firestone Tires gave an almost unbelievable performance in this run, particularly when you realize that the temperatures were as high as 120 degrees and that the holes in the course had been filled with crushed rock that was as hard as flint and had knife sharp edges.

This endurance run was the severest test to which I have ever subjected any automobile and especially tires. Last year I made a similar run with a car of less power and less speed using tires of another make whose national advertising featured blowout protection. Yet, I had a blowout and made a number of tire changes.

This year I also used Firestone Spark Plugs and a Firestone Extra Power Battery made with your new All-Rubber Separator. Not a spark plug failed and the battery required no service of any kind.

If every car owner knew what my Firestone Tires went through they would appreciate what Gum-Dipping means in strength and heat protection that make Firestone Tires safe from blowouts.

This is the toughest run I have ever made in my twenty-three years of breaking speed records and after a short stay here I am coming East. Hoping to have the pleasure of seeing you then, and with best regards, I remain

Sincerely yours, *Ab Jenkins*

WILBUR SHAW

Wilbur Shaw, using widely advertised competitive tires, had eleven tire failures, preventing him from establishing records worthy of the car he was driving.

Lake Bonneville, Utah Aug. 13th, 1934

Mr. Harvey S. Firestone, Chairman, Firestone Tire & Rubber Company, Akron, Ohio

Dear Mr. Firestone:

I have just finished a 3,000 mile test run on the salt beds at Lake Bonneville, Utah, driving a car equipped with a leading automobile manufacturer's tires which is a nationally known brand. This test run was made in the presence of a large number of "agent testing and performance claims."

With these tires on this run I had eleven tire failures and made two precautionary tire changes. When a right front tire blew out I left the truck for a mile, leaving a trail of rubber and fabric on the salt bed.

After an experience of this kind, I appreciate what you have done in your success during the fourteen years I have used them on my racing and personal cars. Without them I know that I could never have made the many speed records that I have established.

I understand that you expect to be in California soon and if convenient, I would like to see you.

Very truly yours, *Wilbur Shaw*

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL And You'll Jump Out of Bed in the Morning Rarin' to Go

Our Weekly CHURCH CHAT

W. E. FERRELL
Minister First Christian Church

"Conditions of Salvation"
 III. "THE REVEALED WAY"
 From the fall of man in the Garden of Delights until the setting up of the church in Jerusalem men had been looking for "The Way" that had been promised. In the New Testament, "Salvation" or "Christianity" is spoken of as the way. Jesus Christ called it "The way" (Matt. 7:13,14). Paul speaks of it as "The more excellent way" (I. Cor. 12:31), and "the new and living way" (Heb. 10:20). Felix, having "more perfect knowledge of that way" pro-

tested Paul from the Jews, (Acts. 24:22). Apollous, had been imperfectly instructed in the way of the Lord, so Aquila and Priscilla "expounded unto him the way of the Lord more perfectly" (Acts. 18:24-28). The maiden at Philippi cried, "There are the servants of the Most High God, who show us the way of salvation." (Acts. 16:16-18).

The prophets all saw that there would be only one way open up by which men could obtain salvation, read Job. 28:7; Isa. 35:8; Jer. 32:39.

Christ revealed only one way to be saved and often spoke of the oneness of the way. Matt. 18:18; Mark 16:15,16; John 10:1, 16; John 14:6; Matt. 7:13, 14.

The Apostles selected by Christ and inspired by the Holy Spirit preached but one gospel, and had but one doctrine. Gal. 1:8,9; II Tim. 4:3; II John 9,10.

We believe that the prophets,

Christ and the Apostles knew what they were doing and that they revealed the plan of Salvation as God wanted it revealed. We believe the plan was perfected. (Heb. 12:1,2) and if we will follow this plan we will please God and obtain salvation from our sins. We believe we should return to the teachings of the Bible for all of our plans and programs of the church, as the Bible is a safe guide always.

How sad indeed that Salvation has come to be looked upon as systems of philosophy, successions of creeds, or a chaos of dogmas. How sad indeed that men have put "churchnity" above "Christianity" causing sectarianism in the religious world, and rending asunder the body of Christ. How sad indeed that the "way" said to be too plain for error, (Isa. 35:8) has been clouded with dogmas and traditions of men. In these 'Chats' we hope to show you how to return to God's way. Will we follow His teachings? Will we strive to please Him and not men? (Next lesson, "Some Church History and Prophecies.")

CLAIMS vs. FACTS

When you read that a tire is absolutely burst-proof, that it will outwear other tires, that it is the product of an "amazing and revolutionary principle that will astound all motorists," you are being asked to believe a modern fairy story.

Nobody knows that better than F. A. Seiberling, builder of good tires since 1898 and inventor of more major tire improvements than any other man.

That is why Seiberling tires are not "claim" tires. They are built of rubber and cotton and long experience instead of words. They are F. A. Seiberling's idea of the best tire that it is possible to build.

Here at our store you can get the FACTS about Seiberling tires. We feel you will find them more convincing than trick phrases and fairy tales that read well but that fail where tires should not fail—on the wheels of your car.

Good School Grades

No parent is justified in blaming a child for poor grades unless every precaution has been taken to learn if the fault really is that of the child - - - Defective vision quite often is the cause - - - and the child has no way of knowing what is wrong. At the start of every school year, eyes should be tested and proper glasses fitted if needed. Our optometric service charge is very moderate. We do not recommend glasses unless actually needed or to correct faulty vision.

LIMITATIONS

Man in his pride sought to reduce Amount of foods he would produce God in his might sent the drouth To scourge alike the West and South.

Man like a fool accepted the rule Of Science, taught in human school And forgot the wisdom divine, "Precept on precept, line on line."

And now, the grim specter of want Is stalking the land, pale and gaunt. God gave abundance, man denied The thanks due for bounty supplied.

Proven plenty, he counted a curse, Sure scarcity could not be worse. Though hungry children cried for bread, "Less wheat and corn," his leaders said.

In years of plenty, God once taught us To save a part of all He brought us So that when famine at last caught us We would give thanks for what He wrought us.

A wise Comptroller of Supplies, Yet we have listened to the lies Of little men who trust to brain And theories that they can't explain.

In humanity, let us turn To God again and from Him learn. To give the goal for which we yearn And nevermore His teachings spurn.

We know at last that the New Deal Is but an effort to repeal The law of supply and demand, A law that was divinely planned. —Francis J. Meek.

REQUIREMENTS CANNING PLANT IS SET FORTH

Rules For Employees And Scope of Work of Plant Announced

Installation of equipment for operation of a canning plant in Clarendon is nearing completion, and all persons who plan to have canning done in this plant must comply with instructions issued by the Extension Service of A&M College:

No animal purchased by the Federal Government can be processed in local canneries. No animal condemned and ordered killed can be processed. Producers will be asked to furnish an affidavit stating that the animal brought in for processing was not condemned.

Producers will contact Mrs. J. M. Acord, supervisor, and book orders and dates for products to be delivered to the canning plant.

Employees in the plant must follow the following rules and regulations:

1. Each employee must secure food handler's certificate from health officer.
2. No person affected with any contagious or infectious disease shall be permitted to work.
3. Employees shall keep their finger nails clean and short, and wash their hands before commencing work, and after each absence from the room.
4. Only wash clothing must be worn in the canning center.
5. No employee shall sit or lie upon any table, bench, trough or shelf which is intended for use of food.
6. No worker or other person shall use tobacco in any form in the room where the food is prepared or processed.
7. All tables, pails, pans, trays, utensils, conveyors, machines, floors, etc., shall be washed and scalded at the close of each shift and as many other times as is necessary to prevent souring or unsanitary conditions.
8. Water coolers, wagons, boxes, baskets and other receptacles in which food is transported shall be kept clean at all times and free from dust, flies and other contamination.
9. The floors, walls, and ceiling of the room in which the food is prepared and processed must be maintained in a clean, wholesome, and sanitary condition.
10. No litter, waste, refuse, or decomposed products shall be allowed to accumulate in or around the building.

All producers are again instructed that they must contact the supervisor before bringing in meat and vegetables for canning. This plant will be open from ten a. m. Saturday morning until four p. m. Saturday afternoon for inspection.

Riley Family Visits Back East in Dry Belt

"They haven't had rain in some parts of Louisiana since the 5th of May," J. N. Riley said Monday after a trip down that way where he visited his father near Jena.

He was accompanied by Mrs. Riley and their son Jack. They visited his uncle Dave Riley at Bowie, and sisters at Terrel and Quannah.

Mr. Riley says Louisiana's cement roads are the best of all, being wide and flat rather than oval such as Texas has. Rallsplitter hogs would get on the roadbed and were strewn along through the pines pretty much as jack-rabbits are out here.

"The common folks believe in Huey Long, but the big fellows have it in for him," was the opinion of Mr. Riley on political questions of the turbulent state.

Crops were reported spotted all the way being dried up in most places. He found the first rain at Rhome on the return home. The family got back here Saturday after 11 days with the same air in the casings as when they left.

RADICAL TREND IS CONDEMNED BY LEGIONISTS

Ainsworth Elected New State Commander and Dallas Next Meeting Place

The sixteenth annual state convention of the American Legion and Auxiliary held at Mineral Wells Sunday, Monday and Tuesday was largely attended and more notable members high in official life than any other state convention.

Edward A. Hayes, national commander was present including in his remarks a warning against what he termed "radicalism" in the nation.

Bill McCraw, attorney general-elect of Dallas and Legionaire made a talk. Governor-elect James V. Allred spoke on Legion affairs and child welfare work of the Legion in Texas. In his opening remarks he said: "I am not here as governor-elect, but as Jimmie, and a fellow Legionaire and want to be treated as such."

Dallas was selected as meeting place in 1935. H. M. Ainsworth of Luling was elected state commander by acclamation as were the other and lesser officials of the state Legion organization.

Mrs. J. W. Danforth of Fort Worth was elected state president of the Legion Auxiliary. Mrs. Jim Trent was delegate from the local Auxiliary and attended all the sessions.

Others of the local Post to attend the state meeting from here were Cap Morris, Clyde I. Price, Capt. Chas. B. Trent, Gus B. Stephenson. Mr. Stephenson's services had been secured in advance to play in the Colorado City band.

Local Citizens View Many Wonders in Sister State

Returning home Saturday, Mr. Hurn has several interesting sights to discuss seen on a recent visit to New Mexico. The museum at Santa Fe, Cimmaron canyon, old Pecos and her prehistoric ruins and Coronado's church, the ancient Indian village of Taos and a tram railway were all new and interesting to the visitors.

In the party were Mr. and Mrs. J. H. Hurn, Mr. and Mrs. Nathan L. Cox and daughter Mary Laddelle. They had a fine trip without accident or motor trouble returning after the big rain that covered the country from Las Vegas this way.

Mrs. W. T. Link and Miss Joyce Link returned home Tuesday after a pleasant visit of several days with relatives at Throckmorton.
