The size of the crowds in Dallas and Fort Worth this summer was a disappointment and convinced us that to hold a world's fair successfully our state should have had a greater population. After all it's the home people that have to furnish the daily audience, and no show can be very successful when business is only good one or two days in the week. Cery little money was spent with Texas papers in advertising these shows and naturally the newspapers became indifferent and 95 per cent of the free publicity sent them went into the waste basket. Their glorified carnivals caused Dallas a loss of over four million and Fort Worth one million and a quarter. It was expensive fun while it lasted—Quannah Tribune Chief.

Saga of the Cotton Country.

It is the fall of the year in Hall

County that we like best. That's the time of the year that you walk down the streets and not know one in 20 persons you meet. Because itinerant families are drifting through the country earning and spending money through gathering the fleecy staple by which Hall County makes its living.

The most picturesque time of the year in Hall County is the autumn. Not because the blue sage turns and the cottonwood is transformed into beautiful yellowish hues, nor because the blue quail calls and the wild ducks cry. But because it is in the fall that the harvest is laid by.

When cotton is trundled over the country roads to the gins in Hall County, business begins to soar. Not many trips to market are made by the hundreds of farmers until the cotton towns take on an air of riches.

For it is then that the Mexicans, the Indians, the Gypsy clans, the negroes—and honest-to-goodness families of good, clean, white people—descend on the cotton belt to share in the prosperity brought on by hard, honest labor.

The fall is the time of year that the beat of marching feet around the business square is speeded up. For the jingle of money, with the knowledge that more is to come, puts a spring in feet which weeks before had pounded the pavement in a monotonous shuffle.

The fall is the time of the year when storekeepers and clerks harangue with the cotton "hands," and quote prices and count change in broken Spanish to swarthy-skinned Latinos.

The autumn is the period of activity. Football rules the sport realms. The World Series has its day. Used car lots appear. Beggars and peddlers abound. Business houses fill up. Rent houses enjoy better days. White locks of cotton dot the highways and country lanes, and dust and smoke from the mighty gins cast an exciting element in the air. The gins drone, the compresses hiss and steam, and trains and trucks and wagons strain with heavy loads of cotton destined for all parts of the world. The farm folks wed. Tractors pull loads of watermelons into town. Maize is headed. Calico dresses, long anticipated, are bought; and blue serge suits are in vogue. Life is good when there is money in the country - - -

It's the fall of the year that we like best.—Memphis Democrat.

TEMPLE OF TRUTH
 By the Apostle

 In times like this, there are always plenty of patriots who are willing to lay down "your" life for "his" country.

Too Durn Smart.
 Explaining the football losses of the local team, one fellow was heard to remark that our kids are so smart that they graduate from the junior high about the time they kick off the rompers, hence are yet too small to play football even in high school. Another fellow suggested a local prodigy who graduated from Junior College here before he was weaned off the bottle.

It is apparent that brawn and not brains is required to win a football game.

Happened in August.
 "Where's Pa?"
 "Down in the pasture making it rain!"
 The old man with shovel over his shoulder had wandered down into the pasture to dam a dry bed stream. He knew a tank would make it rain because the "government had told him it would."

Durn Them Republicans.
 Republicans of Oklahoma are going to make political lambasters out of the crows next spring. They expect to split their tongues and teach them to cuss the New Deal and head them for Texas.

Internal Trouble.
 Man (to small son of one of his workmen who has met with an accident)—"When will your dad be fit for work again?"
 Boy—"Can't say for certain, but it will be a long time."
 Man—"What makes you think that?"
 Boy—"Cause compensation's set in."—Exchange.

The problem of human suffering has bewildered men of all ages. Why do people have to suffer? The innocent as well as the guilty, the righteous together with the wicked, the just and the unjust, the rich and poor, the learned and illiterate, the privileged and underprivileged all suffer. Why? Something causes it. There is something wrong that needs righting. Wrong rules the land, and waiting justice sleeps, while the world mingles in selfish strife and freedom weeps. There is but one cause for human suffering upon the earth. Sin, is the answer. The presence of sin brings about all sorrow. Sin is an everlasting disturber of the peace. It is back of every tragedy. The grim fact of sin is our trouble. How we do need to unite in our fight against sin.

West Texas College Students Practice Cooperation

CANYON, Oct. 12.—Cooperative living is making it possible for many young women to study at West Texas State College for as little as \$15 per month for room and board.

Two newly launched cooperative boarding houses—Mesquite Lodge and Cactus lodge—house 37 girls this semester. Of these Cactus has the larger number, 23.

Figures compiled by Mrs. Geraldine Green, dean of women, show that costs at Cactus lodge for the first 15 days of operation were \$7.46 for each girl. Of this \$2 was rent for the half-month. Mesquite lodge showed a cost for the period of \$6.98 for each girl, including \$2.50 for rent. Residents of Cactus lodge bought several articles out of their funds.

DANGEROUS DAYS FOR FOOD!
WHY RISK HEALTH WHEN
FRIGIDAIRE WITH THE METER-MISER
PROTECTS YOUR
FOOD AND PAYS FOR ITSELF!

Low Monthly Payments
On Our Special "PAY-AS-YOU-SAVE" PURCHASE PLAN

It is a mistake to believe that cool weather guards food against spoilage. Temperatures too cool for your comfort may be too warm to protect your food. All year 'round, food must be protected at safety-zone temperatures between 32 and 50 degrees Fahrenheit. Above this mark, spoilage is rapid. Below, foods freeze. Nature seldom maintains safety-zone temperatures. So don't depend on makeshift or old-fashioned, unreliable refrigeration methods. Health can be endangered... money can be wasted... when refrigeration is inadequate. There is really no need to be without proper protection. Frigidaire with the Meter-Miser safeguards food day and night, and proves it! Does this while paying for itself and paying a profit besides! Don't be without Frigidaire another day. Let us show you how you can own a Frigidaire without increasing your present household expenses! We'll show you Proof!

BEWARE OF WINTER FOOD SPOILAGE!
The multiplication of bacteria in food causes spoilage. At temperatures above 50° this multiplication is rapid. Guard your food! Even in mid-winter kitchen temperatures are above 50°. And outside temperatures are in the safety-zone only 19 days a year, on an average. You cannot depend on makeshift refrigeration at any time of year!

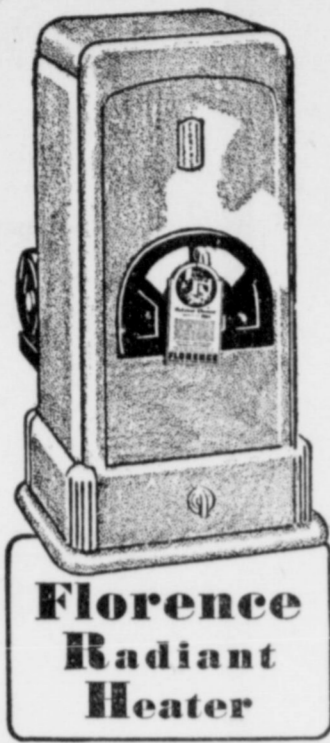

BUY NOW AND YOU CAN
SAVE \$50 this winter
Frigidaire owners report average savings of \$10.98 a month with Frigidaire. They save money by eliminating food losses, by reducing refrigeration costs, and by being able to take advantage of bargain specials and money-saving quantity prices. Such savings pay for a Frigidaire and pay a profit besides!
