YOUR WITHHOLDING TAX

By J. A. WARREN
Income Tax Service,
Clarendon, Texas

We are presenting herewith some helpful suggestions to employers and to employees alike, regarding the Federal withholding tax requirements.

First, the employer should be sure of the correctness of his understanding of the rates of withholding, either the Optional Table or the percentage method, whichever he chooses to use. In calculating the percentage rate, there are two ways it must be figured, so be sure you are correct when you think an employee is not due a tax, for generally speaking, all are.

When a person is employed, he is required to furnish you Form No. W-4, showing his family and dependency status. He should keep the original and the employer the duplicate.

When a worker is terminated at any time during the year, and you will not use him again, then it is your duty under this law to furnish such employee a Form W-2, showing the amount of salary paid him, the time he worked, and the amount of tax withheld, for he

must have this form in making up his income tax report after January 1st. This, too, must be in duplicate, the original to the worker and the copy to the employer.

After Dec. 31, 1943, it will be necessary for employers to issue these W-2 forms to all employees who have not been previously given one.

Then, after the close of this year, all employers must assemble their duplicate copies of V-2's (Victory Tax Statements) and W-2's as above mentioned, attach them to Form W-1, which will be furnished by the Collector of Internal Revenue, and after totaling them and being certain they are correct, forward all copies, together with remittance of all taxes withheld during the last quarter of this year to Office Collector Internal Revenue, Dallas, Texas. So you see the importance of following this to the letter.

In this connection it might be well to say that many persons are having more taxes withheld currently than they will owe when their final figures are computed after January, when all who have filed Estimated Returns during the year, and those who have not filed because of withholding their taxes, must file a final report, as

heretofore, when any differences will be adjusted.

If you have overpaid your taxes during the year, there is just one way to recover this amount, and that is by filing your report after January 1st. Otherwise, you have lost.

It has been our observation, that too many citizens, subject to the Withholding Tax Requirements, do not understand the rates, neglect to get their numbers in time, pass this by as something unnecessary, therefore, having to pay penalties and interest. The best thing to do is to make this matter a vital part of your business, just like it is, and avoid trouble, for that is a certain way to get into trouble. Just neglect this matter, that's all it takes. Keep your Withholding records in order, so that when they are inspected, you will not have any grief. It is not such a difficult matter, but does require your closest attention. Pay your withheld taxes promptly after the end of each quarter. That is the best time, then you won't forget it, nor be too late and be in trouble again.

Milk Delivery Prices Set

Donley County milk producers who wish to receive payments under the Dairy Feed Payment Program should save evidence of milk and butterfat sales for presentation in applying for such payments, according to Mr. Simmons, chairman of the Donley County AAA Committee.

The rate of payment for Donley county dairy producers will be 40c per hundredweight for whole milk deliveries and 5c per pound of butterfat sold in cream and butter. The butterfat test of the milk will not affect the payment for whole milk delivered.

Application for payment on October milk and butterfat deliveries should be made to the County AAA Committee between November 1 and 25.

Applications for payment on November and December deliveries will be made January 1 to 10. The current Dairy Feed Payment Program of the War Food Administration, designed to partially offset increased costs of feed, covers

the period October 1 through December 31, 1943.

To apply for payment, the milk producer has to present proof of his sales in the form of the customary sales slips, receipts, stubs obtained from the milk purchaser, or in some other form acceptable to the County Committee. Evidence of feed purchases will not be required.

After receiving the application with satisfactory evidence of milk deliveries, the County Committee will write a draft on the Commodity Credit Corporation in favor of the producer. This draft can be cashed at any bank.

"Know Your Endorsers" Campaign

The United States Secret Service, which is now conducting a "Know Your Endorsers" campaign in connection with its constant policy of trying to prevent the theft and forgery of government checks, is urging that all Navy personnel ask their dependents to follow certain precautionary procedures in handling government checks.

All Navy officers and men are requested by the Secret Service to advise their dependents to take these precautions:

1. Be at home, or have a member of the family at home, when your Navy check is due to arrive. If you remove it from the mail box immediately it cannot be stolen by a check thief.

2. Be sure you have a deep, strong, mail box, with your name

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION

clearly printed on it. Keep it locked.

3. If possible, arrange with your mail carrier to signal when he delivers your check.

4. Notify your postmaster if you change your address.

5. Cash your check at the same place each month. This will make identification easier. The Secret Service is cautioning merchants to insist upon proper identification.

6. Do not fold, pin or mutilate your allowance or allotment checks. This is very important to you.

The Secret Service reports a steady increase in the number of checks stolen or lost after mail delivery at designated addresses and

feels that if Navy personnel will impress on those at home the importance of properly safeguarding the dependency checks that opportunities for theft and forgery of them will be greatly decreased.

DON'T STOP GIVING UNTIL THEY STOP SUFFERING!

In wartime you can't contribute money once to the cause of Victory and feel you've done your part. After your money is spent, then what? People are still suffering. Be thankful you're comparatively safe and secure in America. Think of the amusements and big dinners and fine clothes you're enjoying. Think of the millions of people who would be grateful for a small fraction of the comforts you have! You should be helping them. You should be giving to the Community War Chest.

Buy a War Bond FOR FREEDOM

For Freedom's Right!

FOURSCORE and seven years ago our fathers brought forth upon this continent a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal."

Fourscore years ago this November, Abraham Lincoln began his immortal Gettysburg Address with those words, in dedicating the National Cemetery at Gettysburg, Pa. Through the years that address has come to be known as one of the greatest documents of the ages, calling every loyal heart to "be here dedicated to the great task remaining before us . . . that these dead shall not have died in vain . . . that this Nation, under God, shall have a new birth of freedom."

FREEDOM . . . that little word that means so MUCH! In this country we see its symbols everywhere. Our churches, our newspapers, our lecture halls, our assemblies, our businesses . . . all represent that one, all-important word. Under the influence of Freedom and what it represents, our country has grown in 150 years from a wilderness to the strongest power on earth. Today it is free people who are saving the world. People who will never allow themselves to be conquered!

FREE ENTERPRISE . . . Another word that creates tangible results. Free Enterprise . . . the force that enables private business-operating companies, like ours, to serve the public in their own zealous individual service-giving manner. From them each of us has earned personal benefits—our community has prospered and our country has become the richest in the world. When those who are fighting the battle of freedom return home to America, they'll expect this ideal to be preserved. It's up to us to do it!

Let us commemorate this, the 80th Anniversary of Lincoln's Gettysburg Address, as "dedication day," an occasion for re-dedicating ourselves "to protect the rights and liberties of American Citizenship and maintain National Honor, Union and Independence."

HOORAY!
Comes now the announcement that the 2-way stretch is coming back synthetically about January 1st. The WPB boys have given the

signal to manufacture synthetic material with the elasticity of rubber, so everything will soon be under control again.

GETTIN' EVEN.
This is an age when the fellow with the dirty job gets better pay

than the white collar fellow does in his job—after the white collar brother pays his laundry bills.

CIVILIAN DEFENSE.
Then there was the patriotic gal on her way home from the civilian defense class who saw a man sprawled on the street. She immediately began her artificial respiration tactics with great vigor. In a few seconds the old boy

turned over and said: "Hey, you! Quit ticklin' me. I'm holding a lantern down this manhole for the workmen and you are making me wobble the light all over the sewer!"

NECESSARY.
A traveling man over near Eureka, Arkansas stopped at a hillside cabin and asked for a drink of water. They didn't have

any water. In order to ease out of the predicament, the traveling man inquired "don't you people find it rather difficult to find the necessities of life on these rocky hillsides?" The old barefoot boy pulled out his lip and threw in another batch of snuff and eyed the traveling man with contempt when he said, "Yep, and when we find it the blamed stuff ain't fit to drink any more!"

LET THERE BE LIGHT.
The OPA is raising the tax on lickers and reducing it on light bulbs. Too many have been wasting too many man hours trying to find the way home—maybe.

OPINIONS.
The average person is said to form opinions by adding a dash of imagination to a small measure of information, stirred up with a large quantity of prejudice, and well shaken with emotion. There was a time when this form of gossip was labeled "hell's broth."

FERTILIZER OUTLOOK
American farmers will have more nitrogen and slightly less potash in the 1944-44 "fertilizer year," than they had in the previous year, according to testimony of WPB officials before a senate sub-committee on agriculture and forestry. Farmers should have four tons of nitrogen for every three they had last year, according to present indications. WPB is endeavoring to make additional quantities of potash available for agriculture in 1944-45.

This club also turned in a quilt made by the above ladies. Mrs. Clyde Bridges took out 27 hot water bottle covers, 24 bedside pockets, and 12 women's bed jackets. These will be made by the ladies of the Hedley community. 12 children's overalls were issued to Mrs. Bob Head and will be made by the ladies of Mrs. Burton's Sunday school class. Mrs. Nova McClure completed one hospital robe. A knitted afagan was received from Mrs. Jim Trent. A check was received this week for the Red Cross from Mrs. J. B. McClelland. Mrs. V. L. Smith gave \$1.00 for the findings of a Soldier Kit. Anyone having new material scraps, would please leave them at the Production Room, as we are having calls every day for something with which to piece quilts. Any club or persons who wish to sew on the hospital garments please call Miss Molesworth, phone No. 365, or leave word at the Production Room. The room is open every afternoon from 3:00 until 5:30 p. m. HOME SERVICE Mrs. C. A. Burton The October number of the Prisoners of War Bulletin has arrived, full of the things we want to know, so full that it is hard to know where to start. Families are still asking if the Red Cross will accept orders for Christmas parcels. The Red Cross has already shipped, on behalf of the Army and Navy and the President's Relief Fund, 10,000 special Christmas parcels so that every American Prisoner of War and civilian internee in Europe should receive one. A cable received from the International Red Cross Committee, Geneva, late in August transmitted new mail regulations by the Japanese government. Letters must not be more than 25 words in length, must be typewritten or printed, the printing to be in capital letters. An endeavor is being made to have the Japanese government liberalize this ruling. From German Prisoner of War camps, each prisoner is allowed to send two letters and three postal cards monthly. But they are not receiving mail from home, say the reports. From Stalag III, B, located near Berlin, a report from the Delegate from International Red Cross gave a list of the weekly rations per prisoner supplied by the German authorities as consisting of bread, meat, vegetables, salt, oleomargarine, potatoes, marmalade, sugar and cheese, 5 pounds of bread, 5 pounds of vegetables, 11 pounds of potatoes and smaller amounts of meat and other articles. These were supplemented by the Red Cross food parcels from Geneva.

There were five American Army cooks working in the kitchens, and labor battalions were in process of formation for work outside this base camp, and 711 Americans in one agricultural detachment were being paid for their labor. Sanitary installations were satisfactory. Letters from the soldiers in the camps in various countries are very interesting. An American gunner captured at Corregidor and now in Philippine Military Prison Camp No. 1, writes, "I am unjined and in fair health. See that all my friends know that I am o.k." A wounded American prisoner wrote from the military hospital at Naples, Italy, "I'm still in the hospital and getting along swell. It won't be long before I will be out playing cards, chess, etc. so the days are flying by. We received a package from the Red Cross which is very nice." Another one writes: "I am fine and keeping pretty busy. If you haven't already sent me a box of clothes, don't, the Red Cross gave me some. I was on four continents and three islands within six weeks, not bad. Hope all are fine. From Stalag Luft III Germany, where the above letter was written by an American aviator, an American Sergeant writes, "Arrived here by parachute. All my crew are safe." The fourth center for packaging food for prisoners of war has been opened in St. Louis with a capacity of 2,250 food packages per hour. The work is done by volunteer organizations of women.

That hits it on the nose!

IN RADIO STUDIOS when the actors see this sign language, finger pointing to nose, it means that the show is running like clockwork and will finish precisely on time.

That's the way you would like your motor to run . . . with split-second accuracy . . . and you certainly want it to keep going until that great day when new cars are again available.

Obviously, good oil can play a very important part in lengthening engine life. So keep these facts always in mind, when deciding which oil to use:

If you want our best oil, you don't have to guess or choose blindly from the many lubricants which Phillips offers, because we frankly point out that Phillips 66 Motor Oil is our finest quality . . . the highest grade and greatest value . . . among all the oils we offer to average motorists.

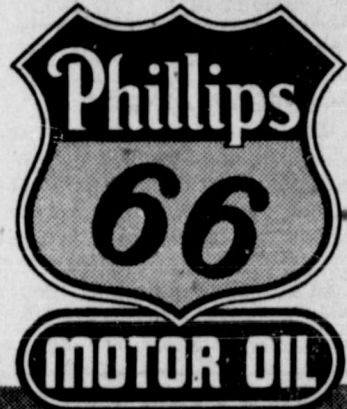

Don't forget to drain summer-thinned lubricant and change to winter quality. And be sure to ask for Phillips 66 Motor Oil.

Many Texans Fail In Drivers' Law Requirements

The fact that over half of the Texas drivers who made application for state drivers' license failed their first test is proof of the vital need for strict enforcement of the Driver's License Law, R. B. Rooper, president of the Texas Safety Association, declared today in commenting on figures released by the Department of Public Safety.

According to the drivers' license division of the Department, 364,478 applicants for licenses were examined in the fiscal year ending September 1, and of these 200,518 failed the initial test, either because of their own shortcomings or because of an unsafe condition

of their vehicles. A large percentage of these people have been driving for years, yet 59 percent of them failed the standard examination of the National Safety Council, Rooper pointed out.

"Since the Texas Safety Association sponsored the present law, we are pleased that the Texas Department of Public Safety is maintaining rigid standards of its examinations, despite the shortage of examiners," he said.

Drivers who failed the first examination were told where the fault was, given a handbook, and asked to come back. In the majority of cases they were issued licenses after their second or third examination.

Mrs. Beulah Morgan of California arrived last week and is visiting her father, J. W. Rowland and other relatives and friends. Mrs. Morgan was principally reared in Donley county, in the Windy Valley community and has many acquaintances and friends in these parts. She will remain here until after the holidays.

R. H. Beverly and Floyd Long, were in town from the J. A. Ranch Tuesday.

Can Vitamins Change GRAY HAIR?

Impartial investigators have found vitamin Calcium Pantothenate of some value in changing gray hair, where a deficiency of this vitamin may have caused gray or graying hair.

For example, one test conducted by Good Housekeeping magazine on a number of people, showed 88% of those tested (all ages were included) had positive evidence of a return of some hair color.

Now thousands use GRAYVITA, which contains 10 mgm. of Calcium Pantothenate (the same amount used in above tests) PLUS 450 U.S.P. units of B₁₂, the vitamin necessary to healthy nerves. Try GRAYVITA. See what a difference it may make in the way you look. 30 day supply, \$1.50; 100 day supply, \$4.00.

Temporary Food Rations For Service Men

To make it possible for service men on leave to get temporary food rations without the forms usually furnished by the armed services, J. Doyle Settle, rationing officer for the Lubbock district Office of Price Administration, today announced that application for ration points may, in an emergency, be made on forms available at local ration boards.

As a rule a service man on leave is expected to apply for his temporary food rations on a form supplied by the armed services, and signed by an authorized officer. He should get this form at the service post when he applies for his leave papers.

However, where a service man does not have this signed form when he applies to his local ration board for points, and cannot get it conveniently, the board now will permit him to use an OPA form instead.

Most service men on leave apply for their ration points at boards situated distantly from their posts, the rationing officer said, and it is frequently impossible for them to get the service forms after they have left the post. Today's order will save both time and trouble.

Rationing Officer Settle pointed out, however, that when the alternative form is used, application must be made by the service man in person. If his host wishes to apply for the ration points, only the service form will be accepted by the board.

"The order comes at a time

Social Security Card Valuable

"The amount of survivors' insurance that a widow and children, dependent parents, or other relatives of deceased employees may receive, and the monthly retirement insurance that elderly, retired wage earners and their wives may be paid under the social security program depends on the wages reported for them by their employers," said Dewey Reed, manager of the Social Security Board office in Amarillo. "Wages must be reported quarterly, by employers, with sufficient identification that each item can be posted to the appropriate social security account," he said.

"When employees fail to make certain their employers have correct records of their social security account numbers and names," Mr. Reed said, "they are failing to protect a very valuable insurance policy. When an employee gives the wrong social security account number and incorrect name to his employers he is jeopardizing his

insurance protection. He may be depriving his widow and children or himself and wife of monthly insurance benefits already paid for. Employees should always show their social security account numbers to employers for whom they work, and they should assure themselves that each employer has made an accurate record of the number and name.

"When employers report the account numbers and names along with the wages of their employees, the posting of each employee's wages to his individual social security account is assured. If the employer fails to list the account number as it appears on the card, the worker's wages cannot be posted to his account. Employees, therefore, must show their ac-

count number cards to each employer for whom they work."

Billie Nell and Ardith Warren saw the parade in Amarillo Thursday, remaining over until Sunday visiting their sisters there.

CORRIDOR COMMENTS

Who gets more out of a trip to Amarillo than Billie Nell—is it because she knows her way around so well?

Billie Jean, Gayle, Claude, and Pat seemed to be having a wonderful time over the weekend!

What seemed to be all the excitement in Memphis Sunday evening? The Hellcats (Kat, Jeanie, Faye) had the "little gray-bug" and seemed to be doing all to the good!

FLASH!! False alarm in C.H.S. Monday about 3:45 and all because of a little block of Red Wood!! They say C.J.C. Freshmen were responsible.

Lois McCrary received a "darling" pin from that certain Seabee last week. Nice work "Sunshine."

Six little girls looked happy this week. Could it be because they received some important mail?

Manly Bryan and Max Keys want Mrs. White to teach them how to play "ditch 'em." Did they get lost last Wednesday night?

Boo and Billy went duck hunting Sunday afternoon and forgot their guns.

Beverly got a traffic ticket for jay-walking. It was on a special kind of paper.

The Beaux Arts girls are making a house-to-house canvass for the War Fund Drive.

The Home Ec. girls are making things for the recreation hall for the soldiers at the internment camp at McLean.

We are expecting great things of our girl football teams. How

about some exciting games? The captains are Jean Porter and Johnny Johnson.

LOST—One pair of red rimmed glasses. Miss Stricklin will gladly pay a reward to the returner. OK, you guys fork over!!

Attention: members of C.H.S., when you see the little red block in the hall, you are supposed to ring the fire gong three times.

Girls! You are supposed to skate on the sidewalk and not in the hall.

AMPHIBIOUS WARFARE

By La Rue Shadle

Amphibious assault is the most daring type of modern warfare. In it, great concentrations of equipment, men, and ships are risked as they lie off a deadly enemy shore. Yet, it was the only way that led to Guadalcanal, North Africa, Sicily and Italy. It is the only road that leads to Berlin and Tokyo and to victory in the Pacific. All future attacks will undoubtedly follow the pattern set up at Sicily, which was the biggest and best organized amphibious assault the world has ever known.

In an amphibious attack, the troops are first thoroughly familiarized with the type of craft they will ride to the shore, and they are trained in orderly debarkation in the dark of night. More than that, our troops study detailed plaster-of-Paris relief maps. They are taught not to dig foxholes, but to take whatever cover nature offers and to advance shooting.

All branches of our forces take part in an amphibious attack, and they work together as perfect teammates. The Navy unloads and sends the cargo ashore in exactly the order that the Army will need it. Months in advance, the Army figures just what it will need, and each item is given an unloading priority.

Communications are set up between ship and shore for ordering reinforcements and for sending the wounded back to the transports which serve as front-line

hospitals. Of course, high casualties are expected in this type of warfare and the ships are converted into hospitals as soon as the troops leave.

When an amphibious convoy is close in shore on the enemy beach, their landing crafts loaded with troops go into the water, and the ship begins about a fifteen minute bombardment of the shore, hitting at the enemy gun emplacements. When the bombardment is over, our troops hit the beach with grenades and bayoneted rifles. By dawn several waves of troops are ashore, and the fight is really on.

To the brave men who fight in this daring type of warfare, America owes thanks for the battles that have already been won, and the experience these battles have given us will pave the way to complete victory.

CHAPEL

Chapel last week was begun by the singing of "The Battle Hymn of the Republic," "Old Black Joe" and some other songs led by Mr. Drennan. This was followed by a talk from Mr. Burton concerning the War Chest of Texas Drive. He told of how several hundred war chest organizations had been dispersed with and combinations made of several until we now have seventeen agencies to care for all these causes. He closed by urging everyone to do his small part in helping such a worthy cause.

Mr. Drennan then gave a brief

resume of his visit to the Internment Camp at McLean. He told of the men's chorus and band that he heard and of the wonderful music that they so ably rendered. In conclusion he said that it would be worth one's while to visit there if the opportunity presented itself.

BRONCHOS END SUCCESSFUL SEASON WITH BANQUET

A banquet was given Armistice evening to celebrate the end of a successful season of football, and to honor Mr. Breedlove, one of the coaches, who is going to the Army. Mr. Breedlove was presented with a present which the boys gave him. Everyone that desired to talk got up and made a speech.

Thirty-two boys came out for football this year, and they all saw action during a game. The team will probably lose five of its powerful first string. These boys are Murl Holland, Billy Williams, Jim Lovell, Bill Mooring and J. R. Morgan. This is not as bad as it could be, although all five of the boys were human dynamos on the field. Some new players will more than likely be added. Capt. Pete Bromley and co-captain Bob Bentley will both be back in there pitching next year. Carlile and Adams will also be back next year.

It looks as if nothing can stop the Bronchos from winning the district next year. They have most of this year's players back and they also have three good coaches: Mr. Burton, Mr. Drennan, and Mr. Gillham. What can stop them?

Miss Clyde Sheppard of Lakeview, who was employed in the J. A. Warren Tax Office last spring, will again be on duty there Dec. 1st.

Dairy Feed Payments

Out of more than a thousand farmers in Donley County, only a few more than one hundred have brought evidence of sales of milk, butter or cream to the county AAA office in order to secure the Dairy Feed Payment.

This payment is made by the County AAA Committee direct to producers presenting satisfactory evidence of sales. Milk statements or sales receipts issued by cooperatives, dairies, creameries, and others showing the amount of whole milk or butterfat purchased, the date of purchase, and the names of the seller and buyer will be considered satisfactory evidence of sales. If a producer is unable to furnish written evidence of sale, his personal certification of the amount sold, number of cows milked, and customers served, will be accepted as sufficient if such certification is consistent with the county committee's knowledge of

the producer's business. Application for payment covering October production and sales must be made during November. Every producer of milk, cream butter and butterfat is urged to bring any evidence of sales to the county office to receive 40 cents per cwt for whole milk, and 5 cents per lb. for butterfat.

It is important that dairy production and especially whole milk production be prevented from lagging, and it is hoped that this new type of program brings about the desired increase in milk production because of the importance of whole milk and dairy products in our nations war time diet.

We urge that you bring your evidence of sales to the county office before the 25th of November.

 interested in the care of the mother and baby. Community health was stressed and each woman who came felt that she had gained a great deal for her family and community.

Donley County was fortunate that Mid-West Red Cross Area sent Miss Frey here. She has been nursing since World War I, doing overseas duty with our American troops at that time. She was very capable, yet very human, and adapted herself very quickly to the needs of each group. Miss Frey leaves Clarendon to go to Vernon to teach there.

Last Indian Scout—United War Chest—

(Continued from Front Page)

—Sioux, Cheyennes and Arapahoes—in the protection of Denver. In company with two Utes, he did scout duty for several years with the Third Regiment under Generals Crook and later Custer.

The most important battles being O'Fallon's Bluff, Alkali Flats, Julesburg and Sand Creek, all in Nebraska. While he removed one bullet from his leg a few years ago, he carried one in his leg to his grave. He advised Gen. Custer against going into the Little Big Horn a few hours before he and his men were killed.

The Indians made war when they found the whites were engaged in a Civil War to the east. The Indians then proceeded to try to put the whites back across the Mississippi river. As usual, the Americans preferred to fight—and won.

He never talked of his exploits. He never attended a reunion. Never would accept a pension. Never was arrested and never paid a fine in his whole career.

In looking over the mining booms of Leadville, Cripple Creek and Silver Cliff, he met Mrs. Calista Magee at Silver Cliff and was married in 1879. To this union nine children were born, four of whom are yet living. They are J. C. of Clarendon; L. J. of Lakewood, N. M.; Mrs. Rose Boyd of Bangs; R. N. of Corpus Christi.

Mrs. Alfred Estlack passed on at Carlsbad, N. M. September 2, 1934, while on a visit with her son and family.

For many years the family resided in Clay County, Texas near Vashti, going from there to New Mexico in 1906.

For the past eleven years, Alfred Estlack had made his home with the family of his son here in Clarendon, as did the mother during her later years.

How beautifully the following poem fits into the history of this old pioneer:

"One more good old timer" left us.
 There's a story 'bout him here,
 Tellin' of the life and passin'
 Of another pioneer.

Makes you think to see that headline—
 Wonder who the next will be
 To hitch up the covered wagon
 Startin' for Eternity?

Pioneers—we were among 'em
 Out here when the West was new.

Now there's hist'ry bein' written
 Round the things we do.

Crossed the plains and built a cabin;
 Worked and raised a family.
 That's the pioneerin' story
 Of plain folks like you and me.

Soon again we must be leavin'
 For a distant Western goal.
 Pioneers—all hitched and ready
 When the Leader calls the roll."

Having requested some years ago that pallbearers be selected from me who, like himself, had seen service in the U. S. army, that request was granted through the kindly Legion members of Aubyn E. Clark Post here. They were Post commander Fred Cook, Nathan Cox, Ernest Hunt, Jerome Stocking, Chas. M. Lowry and Cap B. Morris.

Rev. E. L. Moody, pastor of the Baptist church, conducted the last rites at the Buntin funeral chapel at 3 p. m. Sunday. The choir of the Baptist church graciously sang appropriate hymns.

Interment was made in the Citizens cemetery under the direction of Buntin Funeral Home. A profusion of floral tributes covered the grave as a fitting tribute to the old warrior who had helped so much to make the West a safer place in which to live, and yet never claimed any credit for it.

He died as he had lived—unafraid to go. He longed for years to "pass over the river and rest under the shade," as he termed it. He believed explicitly in the Ute Indian religion. He longed to meet his God—the Great Spirit—face to face. He knew that his body would go back to the Mother—the earth—who gave it. He never discussed his religious beliefs, but lived them. Few men ever lived so long or worried so little as did Alfred Estlack.

Friends of Mrs. C. L. Benson will be glad to hear she is at home. She is still confined to her bed, but is much improved.

Mrs. E. C. Brittan, a former Clarendon resident, is a patient in St. Anthony Hospital, Amarillo, at the present time.

Mrs. W. J. Lewis of Dallas is visiting her son, Mr. and Mrs. W. J. Lewis Jr. this week.

WITH OUR ARMED FORCES

EDITORS NOTE—The following V-Mail letter was received this week by Mr. and Mrs. W. O. Butler from their son Gene Butler, who is in the thick of the battle against the Germans in Italy. Dear Mother & Dad: Have received several letters from the family the past few weeks. I want to thank all of you

for being so good about writing as you have. I am doing just fine. I do hope both of you are in very best of health. I miss you so much and will be more than happy for this to end so I can see you again. Heard from Katie yesterday saying that she had been over to see you. Said you had one of the most beautiful yards in the city. I wish I could see it. Mother, as you know, I have been in plenty of action up to this date. I saw things that I hope never to experience again. I have never been afraid that I know of until I saw action against the

Germans when we came against them here in Italy. Texas should be proud of the boys that are fighting over here in this division. They only know one thing and that is fight, never quit. I will be glad when the day comes when I can write and say more about this war. Don't worry, things are fine with me. Sending all my love. Your son, Gene
