BUGBEE PAINTINGS ATTRACT CROWDS

COUNTY INTEREST IN ART PROVEN BY HEAVY WEEK-END ATTENDANCE

Sponsored by The Clarendon News the Harold D. Bugbee art exhibit at the Womens Club Room Saturday and Sunday afternoons proved of unusual interest at this busy time of the year when around seven hundred Clarendon, Lela Lake, Hedley and Donley County people came to study and admire the unusual array of oil paintings and to congratulate the artist who is making Clarendon famous while he builds a name and reputation for himself.

Members of Les Beaux Arts club of Clarendon very kindly consented to act in the capacity of hostesses for the exhibit and committees of two were on hand the hours the exhibit was open and assisted in explaining points of interest in the pictures and answering questions from those unfamiliar with Mr. Bugbee's work.

One observation made by the ladies on duty was the fact that a large per cent of visitors were men and boys, which proves the great interest in the Western scenes, landscapes and animals painted by Mr. Bugbee, and a rising appreciation of art by men and boys. This feature was noticeable Saturday and Sunday and few ladies came unescorted.

In sponsoring this exhibit, The Clarendon News did so for the sole purpose of acquainting Donley County people with Mr. Bugbee's work, and to aid in the building up of a greater civic and esthetic consciousness among our own people. Many have seen Mr. Bugbee's pictures, but never right here in Clarendon had access to the pictures but never availed themselves of the privilege. This public showing gave the opportunity and the response was most pleasing to those in charge of the exhibit.

Mr. Bugbee expressed himself as being more than pleased with the interest in his work and the large numbers who viewed the exhibit. He is presenting a portion of the time both afternoons and was forced to modestly accept many fulsome congratulations on his achievements with palette and brush.

Clarendon is to be congratulated on having in its midst a young artist like Mr. Bugbee, who is destined, in view of the many, to write his name high in the ranks of those who have made history in the world of art.

Rev. S. E. Allison Writes to Friends

Below is a letter recently received by the News from Rev. S. E. Allison.

Carlsbad, N. M. Dec. 9, 1930.

An Open Letter To The Clarendon News:

I take this means of sending greetings and best wishes to our many friends in Clarendon. We feel sure that we have many dear friends in your little city. We spent three very happy years among the people of Clarendon. We will not forget our sojourn there. We shall ever cherish and keep warm in our hearts the memory of the Clarendon people.

We have been kindly and royally received at Carlsbad. This is a beautiful place. It will be hard to find a more beautiful little city. The Pecos river borders the town on the East and the foot hills of the mountains skirts on the West. The valley is very fertile. Just North of us, a farmer produced more than 1600 lbs of cotton off of 5 acres. "Now laugh." All I know about it, is that it was published in the Daily Carlsbad Argus, a perfectly reliable news paper.

We wish for our friends and the Clarendon folk the very best that there is and when you visit the Carlsbad Caverns, one of the Big Wonders of the world, be sure and give us a ring. Let me remind my friends who enjoy getting among the Finny Tribe that the fishing is good. "The water is fine." "Everything is lovely and the goose haunts high."

Yours very cordially, S. E. Allison.

P. S. We enjoy getting and reading the Clarendon News, the best weekly published in the state of Texas.

SANTA DELIGHTS KIDDIES MONDAY

DONLEY COUNTY LITTLE FOLKS RECEIVE BAG OF CANDY FROM SAINT NICK

Monday afternoon in the Pastime Theatre the kiddies of Donley county, some 600 of them, were greeted by their old friend, Santa Claus, in a manner which will live long in the memory of each child.

Shortly after 1:00 o'clock Santa arrived in the city carrying a loaded bag filled with a gift for every one of his little friends who had gathered in the show house to see him. The kindly old gentleman who keeps a record of all the good little boys and girls was greatly surprised to see so many of his little chums present, and he was certainly glad he had his Eskimo helpers lead in some more gifts just before he left his North Pole workshop.

Santa talked to the little folks for a little while, and then all was ready for him to give away his presents. Santa retreated to the lobby of the Theatre and with the help of a few of the grown-ups each kiddie was presented with a little Christmas bag filled with the best holiday candy as they marched from the building. Every one of the children was given one of the bags and still there was a surplus of these Santa said he thought he would leave the rest here for the churches to distribute in their boxes for the poor on Christmas day.

Teachers To Meet Here for League Work

All the teachers of the county are requested to meet at the Junior High School building in Clarendon, Saturday, January 3rd, at 3:00 p. m. for the purpose of outlining a program for the County Interscholastic League meet. This year's meet will be held in Clarendon, the date to be set at the meeting Saturday week.

Director General, C. W. Howard of Ashola, is anxious for as many of the county teachers as possible to be present for the meeting so that a number of problems may be properly disposed of with the consent of a majority of the school representatives.

At the previous meeting very few of the teachers attended, and consequently there was no final action taken on any of the proposals, and the later meeting was decided upon for the benefit of the entire corps of teachers.

It has been suggested that it might be possible to organize a County Teachers Association during the approaching meeting, and through this it is believed many problems and items of interest to the teachers might be discussed at this time.

The athletic coaches of the county are also requested to be present at this time, so that a satisfactory basketball schedule may be decided upon. The schedule will be made to decide as quickly as possible, in a manner satisfactory to all, the teams which will represent the county in the district contest held later.

Every teacher in Donley County is urged to be present for the meeting.

Mrs. R. L. Bigger is ill at the home of her mother, Mrs. S. E. Atteberry.

Mr. and Mrs. Charles H. Dean, Jr., of Dimmitt, are spending the holidays in the home of the lady's parents, Mr. and Mrs. C. M. Lane.

Miss Mary Becker of Frederick, Oklahoma, is the guest of Miss Florence Fink. Miss Becker will return to her home Wednesday.

Mr. and Mrs. Joe Barnhart and family of Shamrock, were Clarendon visitors last Friday. They visited in the home of Mr. and Mrs. C. C. Powell while here.

Kenneth and Miss Florence Fink arrived Saturday night from Austin, where they have been attending the University of Texas to spend the holidays with their mother, Mrs. O. L. Fink.

City Complimented By Health Officer

T. J. Selman of the State Department of Health was a visitor in the city of Clarendon the latter part of last week, making his semi-annual round of inspection of all those places where food or drinks are on sale. Mr. Selman called the News office late Friday and stated that Clarendon was one of the cleanest and best regulated towns in the entire Panhandle section of the state. Not only is the town clean, but he stated that he found a great measure of co-operation among the merchants he visited while here.

Mr. Selman also wished to make a correction on a false report that was circulated here last spring after he had visited the city. No complaints were filed against any of the merchants or dealers of the city, although this rumor was rather widely circulated immediately after he was in the city.

The inspector also stated that no very radical errors were found here although a number of minor differences were located and must be corrected. The inspections are made at intervals, not regularly spaced and are a part of the work of the State Department of Health.

Miss Pearl Martin, a student in Clarendon Junior College returned home South of Pampa Friday.

Mrs. Odos Caraway and daughters, Misses Betty Jo and Mary Francis, were Amarillo visitors Monday.

STORES BRIGHT WITH DISPLAYS

CLARENDON MERCHANTS DRESS BUSINESSES IN GAY HOLIDAY ATTIRE.

Never before in the history of Clarendon have the merchants of the city taken so much interest in the decorations of their show windows as they have this season, and the business section has benefited to the extent that Clarendon may rightly be called the most beautiful city of the Panhandle during the Christmas season. Not only have the business firms of the city been dressed in the gay dress reflecting the atmosphere of the holiday season, but the Clarendon homes have also been taken with the same spirit. Beautiful colored lights outlining the curvatures of the homes are adorning a multitude of the dwellings in the city's residence district throwing out their friendly atmosphere of good cheer and friendliness.

To describe the business windows and to tell of their beauty would be more than words could convey, but to give the reader who hasn't seen the displays an idea of the marvelous decorations the following paragraphs are written. Starting at the M System store Mr. Windowshopper sees a display which has taken no few hours to place. The right window is a shower of Christmas fruits, with a background of Christmas decorations. The left window has a large Christmas tree which is trimmed in a very charming manner, under which is scattered pot plants, and other Christmas symbols.

Clifford and Ray is next in line with a brilliantly decorated tree in the right window with a grill work of paper in the background. Under the tree is found various grocery gifts in appropriate holiday boxes, candy, nuts and fruit.

Stocking's Drug Store next catches the eye of Mr. Window Shopper who sees in the right window many suitable gifts and artistic Christmas decorations. In the left window a fine display of Christmas jewelry is shown.

Another grocery store greets Mr. Window Shopper with Shelton and Sanford the firm of the minute. In the right window there is a large Christmas tree dressed in its gay holiday decorations within a lattice house made from various strips of colored paper. Fruit, candy, nuts and gift packages adorn the window under the tree.

The next window which catches the eye is The Nook Drug which has many gifts including the nov-

GOODFELLOWS IN ANNUAL OFFERING

RESULTS FALL BELOW EXPECTATION FOR NEEDS OF SEASON.

The annual drive for funds started last Thursday by the Clarendon Goodfellows has met with fair results as the News goes to press today. The committees have been hard at work and a part of them have completed their share in the tasks that have been set out for them to accomplish. Others are retaining their lists and will finish the work set out before them by the first of the year.

Thus far, the sum received will fall a little short of \$500.00, the smallest sum that has been turned to this fund for the past eight years. Receipts are being made daily, however, and will in all probability be over the sum realized from this drive last year by the time every one has his list worked and in the hands of the Captain of the Goodfellows and his corps of workers.

According to J. W. Watts, the captain of the Goodfellows, last Saturday marked the largest single day's contribution to needy folk that he has seen in his four-teen years connection with the work in this city. Calls for necessities were received in larger numbers than has ever been the case before, all of them coming from those who were actually in need of things to keep them alive.

Another side of the work of these folk for this season is that one presented by the steady stream of folk who are asking for clothing at the two depots established for the distribution of clothing to those who have none. One of these is being handled by the ladies and is for women and children. The other is being handled by the men, and has clothing for men and older boys. The committee is asking that those who have not made their contributions will please do so at once, handing them in at any of the banks or to J. W. Watts, captain of the fund.

Visits Relatives

Little Miss Allene Beville, the six year old daughter of Mr. and Mrs. A. M. Beville, Jr., of 2042 Washington Street, Amarillo, Texas, and who is spending part of the holidays here with her grandmother, Mrs. J. B. Baird and grandfather, A. M. Beville, Sr.

Requisition Issued For Assault Suspect

Austin, Dec. 22—Requisition issued by Governor Dan Moody today for the return from Tucumcari, N. M., of Belk (Bill) Brown, wanted in Clarendon on a charge of assault with intent to murder and attempted burglary.

The requisition was issued upon the identification of Tom Naylor, victim of the alleged attempts.

Mr. and Mrs. J. W. Watts returned to their home here Friday of last week from Vernon and Crowell, where they had been to attend the funeral of Mrs. W. L. Watts, who formerly lived here and who died in Vernon the early part of last week. They were accompanied here by Mr. and Mrs. Paul Nash of Dimmitt.

Letter Sweaters Are Given Bronchos Fri.

Last Friday afternoon, as the last event before the students were released for the Christmas holidays, the high school students were called together for the purpose of the presentation of letter sweaters and reserve sweaters to the Broncho football players. Fifteen Maroon and White players received their varsity letter, and the regular squad members also received letters of the reserve type.

Those playing in sufficient games to warrant their eligibility of the varsity awards are Captain Raymond Nichols, Fred Reid, Fred Bourland, Wilford Andis, Carrol Hudson, F. L. Behrens, Lonnie Langford, Loyd Benson, Pete Morris, Everett Johnson, Tony Watson, Bill Wood, Silas Franklin and James Cornelius.

Captain Nichols also presented Miss Joyeta Jackson a letter sweater for her valuable services during the season past, in the capacity of Cheer Leader.

Captain Nichols and Pete Morris also received The Clarendon News trophies for the most valuable service rendered their team. These were in the form of an engraved miniature silver football.

The sweaters are something of a new type of sweater compared to what has been given in the past by the High School. Dark Maroon with a lighter maroon "C" on a white background completes the body of the sweater. The change comes in the fact that the new sweaters have a blouse bottom and blouse sleeves added, making them exceptionally snug around the waist.

CLARENDON NEWS IS COMPLIMENTED

GETS ORDER FOR SEVERAL HUNDRED PAGE CLIPPINGS OF PARK STORY.

The Clarendon News received a letter the past week from Hon. D. E. Colp, chairman of the Texas State Parks Board, complimenting it upon the comprehensive and correctly expressed details of the situation of the Four Major State Parks project, as appearing in its Annual Home Town Edition of Dec. 11th. Mr. Colp ordered enough page clippings of the park story to mail to every state senator and legislator before the convening of the new legislature in 1931. These page clippings will be mailed out by the Panhandle headquarters of the Paloduro Park Association at Amarillo, by Rolla E. Townsend, secretary.

The News also received a nice order for letterheads and envelopes from the Texas Major Parks Association, of which Mr. Colp is president. This association has headquarters in San Antonio and is composed of the four projected state park associations in Texas, which are the Paloduro, the Davis Mountain, the Guadalupe Mountain and the Caddo Lake associations. Sam M. Braswell, president of the Paloduro Park Association is also secretary of the statewide association.

Mrs. W. M. Montgomery and daughter, Edna, drove to Amarillo Monday where Mrs. Montgomery received medical attention.

Slick Naylor and Mary Naylor made a trip to Amarillo Monday. Slick returned Monday evening and Miss Naylor remained with her sister, Mrs. Hagerty.

Mr. and Mrs. Ernest Naylor and son, Alfred, of Quanah, will arrive this evening and will remain during the Christmas holidays in the home of Miss Eula Naylor.

C. M. Doko, wife and daughter, Miss Lucille, of Wichita Falls, visited Sunday with Mr. and Mrs. Homer Mulkey. Mr. Doko is a brother of Mrs. Mulkey.

EX-BRONCOS BEAT SHAMROCK 13-0

SHAMROCK PLAYERS COME FOR GAME AFTER MEMPHIS REFUSES.

After Memphis fell down on their agreement to play a return game here Friday afternoon, the Shamrock citizens - very kindly consented to bring a squad of football players to substitute for the Memphis Cyclones in order that the tickets sold for the contest would not be forfeited.

The Shamrock team put up a beautiful game with many thrills for the benefit of the fair sized crowd. Their splendid play coupled with the finest of sportsmanship won the hearts of the Clarendon fans and also the members of the local team. The Ex-Bronchos won the game 13 to 0, but it was a much harder fought contest than the score indicated.

With the Panhandle's greatest gridiron star, George Close, leading the role in the Shamrock attack the Bronchos had their hands well filled with keeping the fleet footed green streak from getting loose. George still possesses the art of deception in his streaks down the field, and several times brought back memories of the famous Bulldog eleven which rarely suffered defeat. The Bronchos were ordered to watch this flash and so well did they do their job that his gains were held down to the matter of only a few yards.

After receiving the ball the Bronchos marched across the goal line in a very few plays featuring the powerful plunges of Enoch Darnell, H. A. Blaton and Paul Schull. Blanton carried the oval over for the first counter, and the extra point was blocked. The Bronchos again scored in the second period after a series of hard plays. Enoch Darnell made a pretty 15 yard run over the line. A pass to Davis added the extra point. Blanton starred with his fine quarterback play, doing the passing, kicking and punting in a splendid manner. Enoch Darnell, here for the game from Dumas gave the fans a wonderful exhibition of powerful plunges with fine brokenfield work.

The citizens of the city of Clarendon wish to express their appreciation to the city of Shamrock, its citizens and the Shamrock players for their splendid co-operation in getting their team organized in the very short notice after the Memphis citizens and players had so completely fallen down on their promise to play a return game for the contest played in Memphis last week, resulting in the defeat of the Memphis ex-Cyclones by a score of 8 to 0.

Tickets for the Memphis contest had been sold under agreement with the Memphis Legion that their team would appear here for a return game Friday. Thursday afternoon no earlier than 4:30 o'clock word was received from the Memphis Legion officials stating that they could not come without using a part of the high school team of this year. This was agreed to but some other reason became apparent that found the Memphis appearance for the game impossible. This was a disappointment to the football fans in the city because of the late hour in which the local officials were notified, after all preparations had been made for the contest.

A. T. HOLCOMB ACCEPTS POSITION IN NEBRASKA

Word has been received in the city regarding the removal of A. T. Holcomb from Clayton, New Mexico, to McCook, Nebraska. Mr. Holcomb will be remembered by his friends in this community as being at one time connected with the local chamber of commerce in the capacity of secretary. Before accepting the Nebraska position Holcomb was field agent for the Lions International. He is serving the McCook Chamber of Commerce as Executive Secretary.

Mr. Holcomb states that the new field has wonderful opportunities and is the hub of southwestern Nebraska. McCook is a city of some 7000 persons and in comparison is about eight years ahead of what Dalhart is at the present time.

Mr. Holcomb's letter asks that he be remembered to the citizens of the city and he wishes them continued success, good health and happiness.

FORMER CLARENDON BOY IS PASTOR AT ROANOKE

The News is in receipt of a church bulletin from the Methodist Church at Roanoke, Texas, where Wesley Polk is pastor for this year. The bulletin was sent to C. L. Polk his father, and in turn it was passed on to the News. The bulletin carries a story of the removal of Rev. and Mrs. Polk to their new home and a consequent "Pounding" at the hands of the congregation. The bulletin is well made up and carries a great lot of information that will be of interest to the folk who formerly knew this young minister when he was in this city.

Dorr Ellis of Berger, is visiting relatives in Clarendon and Lela Lake, over the week-end.

## A 1931 Resolution

More than likely you've envied the freedom of some of your more fortunate friends who are able to have kitchen and household help. You've wished that you, too, could enjoy their leisure hours for the enjoyment of the better things of life. New Year's Resolutions are usually looked upon as promises easily forgotten or broken—but here's one you should make . . . and keep:

Determine to make a thorough investigation of the many time, labor and money-saving appliances which can be operated economically by electricity. Make up your mind to avail yourself of the many happy hours of freedom you can expect through the application of these appliances to your own problems.

These remarkable "Electrical Servants" are unusually easy to own and to operate. You will find them efficient servants which will not only work without pay—but actually make substantial cash savings for you each month.

## Narrative Report of Year's Activities County Home Demonstrator Reports Issued By County Agent T. R. Broun

ENTIRE PROGRAM OF WORK FOR 1930 IS FOUND IN INTERESTING FORM.

The annual report from the office of the County Agent has been released by the agent, T. R. Broun, for publication in this week's issue of The Clarendon News. The report prepared by County Agent Broun constitutes the entire activity of the local office for the year coming to a close. In spite of the bad year the agent has done a remarkable lot of work, which has been of inestimable value to the farmers and producers of the county.

The program of work as outlined at the beginning of the year called for 10 demonstrations pertaining to corn, 30 demonstrations with grain sorghum, 10 demonstrations with alfalfa and sweetclover, 20 demonstrations with cotton, 20 with fruit, 5,000 acres in terracing, 30 demonstrations with poultry, and 15 in dairying.

The report follows:  
**Corn and Grain Sorghum**

There were twelve farmers furnished pure seed corn for demonstrations on White Dent, Yellow Dent and Reece Deep Rooted White Dent. Then there were a few that planted some June Corn to give it a test as a comparison.

All of the corn was practically a failure. The yield was so small that no results were recorded.

In every place that the Reece Corn was in the test it made some corn and on the average it doubled the yield of any other variety.

**Milo and Kafir**

There were four thousand pounds of Certified Seed distributed between one hundred and twenty farmers. This was planted on two thousand acres, this placed some in each of the thirty communities of the County.

There was no question in the mind of any man that saw the comparison of certified seed with the other kinds of seed. The certified seed had every good quality that was expected, one was that it would not make a record yield in a year that was visited by a National drought, which came in June and was broken in September.

The yield was not shown for two reasons, one was caused by the dry weather not letting the difference be shown and the other was that this small increase could have been easily caused by the time of planting and preparation of the field before planting.

**Cotton**

The cotton work was in co-operation with the gin men of the County. The gin men bought twelve car loads of pure seed and three meetings were held in which a pure seed program was given. The idea was talked with every farmer in the Farmer County Agent conversation.

The results were four hundred and seventy six farmers planted five thousand acres of certified cotton seed.

There were no marked difference in the yield in pounds per acre but the difference was in the quality of the County's crop.

Last year there was three-fourths of the crop that was an extreme short staple. This year the crop was one half a good length that measured fifteen sixteenths or better. This difference demanded a difference of from one half to two cents per pound. The crop would have been more even if this 'Worlds Record Drought' had missed the County.

This fall the ginners went to a considerable trouble to keep the seed pure by cleaning their gins and catching the good seed for the next years planting. It is expected that this will give even a greater increase in quality because of the increase interest that is being shown by the farmers.

**Alfalfa and Sweet Clover**  
The work on alfalfa and sweetclover in Donley County was to get the farmers interested in growing alfalfa and sweetclover for home use and market.

There were twelve farmers that seeded two hundred and forty acres in alfalfa in September. So no results were derived from this year crop.

There were seven men that has sown sweetclover for a pasture, the acreage in clover was sixty. This work was done to start on a Dairying Plan next year. By growing these crops the dairy farmer can cut the cost of production and also increase the quantity at the same time.

In 1931 there will be considerable more interest in these two crops. There will likely be 1000 acres planted in the county.

**Potatoes**  
There was one demonstration on potatoes, this was to increase the yield and quality. There were six acres planted. A part of the plot was treated with ashes from burned cotton burs. There was no cost except the work applying the ash.

The results were an increase of fifteen bushels to the acre. The total yield averaged one, hundred bushels per acre.

**Fruit**  
There were twenty one method demonstrations given care of the orchards and vineyards. This started twenty one farmers with their work caring for the trees and grapes.

The frost and hail storm stopped the crop off short on all but one which was an apple orchard. The work on this one apple orchard was carefully carried through the first part of the year then the high wind almost prevented the use of the spray. Then the results were not what they should have been. The estimated increase in yield was five bushels per acre.

**Prairie Dogs**

The work on the prairie dogs was carried on with the co-operation of the Chamber of Commerce and the Biological Department.

There were nineteen men used the 950 pounds of poison on about 1000 acres of infested land. The majority of these men got a perfect kill on the second time over the work. Others followed the second operation with carbon to get the final results.

**Terracing**

The terracing was worked out by training men to operate the farm level and the terrace graders. There were forty five demonstrations given in training manner and the farmers fell in line reluctantly and it went over 5004 acres in three months from February until planting time.

There were eight farm levels purchased by the farmers which used them in a rapid manner. There were 286 farmers that constructed terraces and the majority were not damaged by a six inch rain that fell on the seventh of September.

The benefit derived from this work was very noticeable on all of the different places. The value was estimated to be from ten per cent to one hundred per cent, in quality and quantity of production.

There is a demand for twenty thousand acres to be terraced this winter and spring, and there will likely be fully that amount done with favorable weather conditions.

**Poultry**  
Forty two demonstrations were started on the work with poultry during the year. There were one or more for each of the communities in the County and there was an increase demand for more information as the months passed by.

There were ten thousand two hundred and seventy five birds that were in this work and the profit that was derived from this year's work was \$1,284.00. The profit was derived by culling and feeding mostly.

One flock of 200 birds with an expense of \$250 for a house and \$509.10 for feed and \$108.30 for baby chicks. Showed a total income of \$1,204.14 making a net profit of \$336.74.

**Dairying**  
The work on dairying was practically all on feeding. This was done by the use of their home grown feed being balanced to get a combination of sweetclover and sudan grass for pasture in

## County Home Demonstrator Reports Year of Womens and Girls Club Work

FINAL REPORT REVEALS GREAT ADVANCEMENT IN CLUB WORK IN COUNTY.

Miss Martha Buttrill, Home Demonstration Agent, in her final report of the year's work, reveals the fact that a splendid organization of 4-H clubs have been functioning smoothly the past year with a wonderful amount of work being accomplished. The report is not entirely complete, according to Miss Buttrill, and a great deal more has been accomplished than is shown in the report.

There are 11 women's clubs in the county with a membership of 204 ladies, with 138 club girls composing the 9 Girl's Clubs of the county. In each of the clubs there has been demonstrations in living room, garden, 4-H pantry, poultry, and some dairy demonstrations.

70 women planted and worked with year-round gardens, 40 women raised new vegetables, 48 women used fertilizer, 20 women constructed hot beds, 27 women planted fruit trees, 20 girls planted fruit trees, 4 women planted shrubs in the yard, 33 girls planted shrubs in their yards.

**Poultry**  
The women cared for 7871 hens this year, with the girl's raising 614 hens. In the production there were 4958 dozen eggs reported and 4643 birds were sold and accounted for with the total income from above reaching \$2,882.00.

Cream receipts netted the dairy producers \$4,659.50, with 6959 pounds of butter being produced. Two Donley County women were interested in home industries, selling \$49.00 worth in Donley County.

**4-H Pantry**

The 4-H Pantry projects brought out some wonderful interest among the club women of the county with Mrs. J. C. Estlack, Mrs. R. W. Fowlkes, and Mrs. W. A. Poovey having the most remarkable reports. Mrs. Estlack canned 383 quarts of vegetables and meat with the valuation of the commodities totaling \$202.60. Mrs. Fowlkes canned 449 quarts of vegetables and meat, dried 26 pounds of fruit, 50 pounds of vegetables, and made 5 quarts of kraut. All this brought in a total value of \$196.46. Mrs. Poovey canned 548 quarts of vegetables and meat with a valuation of \$287.15. The club women of the county have canned a total of 4976 quarts of fruit, 468 quarts dried fruit, 5508 quarts canned vegetables, 316 dried vegetables, 1179 quarts canned meat, 1732 quarts cured meat, 1137 quarts jelly, 1021 quarts preserves, 1526 quarts relish, 697 quarts fruit juice. The total value of the goods canned by the club women in

the maximum production. The summer and spring and rye for winter was the green feed that was used for a year round green feed. Milo or another grain sorghum ground with cotton seed meal was used for the conservation. Some dry hay was used as a filler in connection with the green pasture.

In the twenty one demonstrations there were not one that showed a loss when the account was balanced. There were 186 cows in this test that made a profit of twenty dollars each or a total of \$2,520.00 for the year.

Donley amounts to \$10,228.20.

**Clothing**  
The club women have been very active in the clothing work, making 2599 garments, while the girls have been making 193 garments. This makes a total of 2792 articles of clothing which have been made by club women and girls.

**Home Improvements**  
In the home improvement department of the club work the following improvements have been accounted for in the member's homes, 5 new washing machines, 2 kitchen sinks, 3 cabinets, 3 gas and electric connections, two pressure cookers, 2 sealers, 1 refrigerator and 35 small utensils.

## A One-Man Job Throughout— The Oliver Hart-Parr Row Crop

Of course, the first thing you notice about the Oliver Hart-Parr Row Crop Tractor is those tip-toe wheels. But look closer, and you'll see that the way the tractor is put together is just as new, just as revolutionary, as the wheels.

It's assembled in units. The engine is one unit. The steering mechanism is another. The rear axle and axle carrier is still another. In all there are 8 units and each one can be removed quickly and easily—a one-man job. And they're all combined into the sturdiest most practical general purpose tractor ever built.

The Row Crop doesn't need adjustments often. But when an adjustment is needed, the job can be done quickly and easily by one man.

Come to our store and let us tell you about the revolutionary features of the new Row Crop.
