A Common Paper for Common People

## Bond Quota Drive Falling Behind

According to figures released by county chairman J. R. Porter, the total bond sales for Donley county at the last tally date which was last Friday, only \$66,655 had been bought.

Our quota of \$460,500 seems to have frightened a great majority of people. "We just can't possibly raise that much" has been the common talk over the county. This same number of people seem to think that it is such a task that their \$25 or \$100 bond wouldn't help much, so they just haven't bought.

At this time, 65% of the national quota has been raised. Texas has raised only 45% of her quota, and Donley county has hardly made a showing.

Everyone must buckle down to the job and bring our total as near our quota as possible. We raised \$212,000 in the 2nd War Loan Drive and it seems that we should be able to raise this much or more this time.

How many persons in your family are working? In the pre-war period, chances are that your family lived on one income. Those extra war jobs mean doubled, and in many instances, tripled family income.

Don't think of your neighbor with that certain look and say to your wife: "Boy! They must be rolling in money." How about yourself? Make every excess dollar count in this war. Some member of your family or a close friend in uniform is perhaps right up front where the stake is life or death. Your excess money may mean a new life-saving helmet may help to pay for an extra tank or an extra plane.

It's your money that's in the fight. Without it, this invasion might end in disaster. Your relatives and friends can't fight this kind of war with their hands.

Chairman Porter passed out a large number of cards to Lions Club members at the Tuesday luncheon. Your name is possibly on one of these cards and when these men come around, make every effort to pledge and to buy the most in war bonds that you can. If we don't meet our quota, we want to at least be able to say that we did what we could and are still swinging. Our own boys are not giving up. What are you going to do?

### ISADORE MELLINGER NOW LIEUTENANT

Among those who recently received commissions as second lieutenants in the Medical Administrative Corps at the Camp Berkeley Officer Candidate school graduation was Isadore Mellinger, 28, formerly of Clarendon and a merchant in the dry goods business. Mellinger is also a former director of the Clarendon Lions Club and Chamber of Commerce.

Mr. and Mrs. James K. Morton and son Jerry Don and Mrs. J. K. Morton visited with Mr. and Mrs. Wilton Grounds and Mr. and Mrs. Claude Morton at Amarillo Wed.

## Red Cross Home Nursing Course Revised For County Classes

Miss Irene Thompson, Red Cross Consultant from the Midwest Area, St. Louis, Mo., and the Donley County Nursing Course Committee with Miss Dolores Frey, R. N., who is to teach the course, has been forced to rearrange some of the days scheduled for the classes.

Classes now are as follows: Clarendon—Monday and Friday from 7:30 p. m. to 9:30 p. m. Wednesday and Friday from 9:00 a. m. to 11:00 a. m.

Ashtola—Tuesday and Thursday from 7:30 p. m. to 9:30 p. m. Lelia Lake—Monday and Wednesday from 3:00 p. m. to 5:00 p. m.

### BIG VICTORY EDITION NEARS COMPLETION

To date the Victory Edition is more than half printed, and should be completed by October 9th. However, the edition in the paper will come out the week of October 14th.

Due to the fact that the picture plates arrived behind schedule, work on the edition was delayed more than two weeks. Furthermore, the progress of the book was handicapped due to a shortage of skilled labor. At the present time the Leader force consists of a personnel of only two skilled workmen, whereas the usual complement of workers in the average weekly newspaper plant is from four to six capable workmen.

## William F. Dubbs Buried Here

Funeral services for William F. Dubbs were held Wednesday afternoon at 2:30 o'clock in Amarillo at the First Christian Church. Dr. Roy C. Snodgrass, pastor, officiated.

Pallbearers were men who worked with Mr. Dubbs at Blackburn Brothers.

After the service in Amarillo, the body was brought to the Christian church in Clarendon at 5 p. m. Wednesday where services were conducted by the pastor Rev. L. Guy Ament, and Rev. R. C. Snodgrass, pastor of the First Christian church of Amarillo, of which church Mr. Dubbs was a member at his passing. Thus in the church on the same location of the old church was held the last service where Mr. Dubbs was baptized into the church of his choice, and where he was married in 1904.

Active pallbearers were G. A. Anderson, Wesley Knorrp, J. C. Estlack, Carl Saye, Frank White, Odos Caraway and Henry Williams. The casket was of quarter-sawn oak, massive and extremely heavy.

Interment was in Citizens Cemetery under the direction of Buntin Funeral Home.

Mr. Dubbs, resident of the Panhandle for 63 years, died Monday at his home, 711 Alabama Street in Amarillo. He was born in 1880 at Mobeetie, the son of Rev. Emanuel Dubbs, buffalo hunter and pioneer of Wheeler County.

Mr. Dubbs was an active member of the First Christian Church, and was a resident of Clarendon for a long number of years before moving to Amarillo.

Surviving him are his wife, a son, a daughter, a granddaughter and three brothers.

Mr. and Mrs. M. Hughes, old residents of the Chamberlain community and now of Pampa, visited his sister and family, Mr. and Mrs. L. L. Wood over the week end.

## To Offer Special Premiums For Local Show

The Hampshire, Duroc, and Poland China Swine Associations are offering special awards to winners in the Donley County Club boys Swine Show to be held October 1st.

Special premium of \$15 for grand champion barrow, \$10 for grand champion pen or litter will be paid by Hampshire Swine Association if the champions in any of these classes are out of registered Hampshire breeding stock.

\$5.00 special premiums are being offered by the Duroc and Poland China Associations for the champion animals if they are from registered animals of their respective breeds.

## Youth Nabbed In Hotel Robbery

The Sheriff's department picked up Robbie Olan Craig, 11-year-old boy of Amarillo, late Wednesday afternoon, who admitted the robbery of the Antro Hotel Wednesday morning.

The youth took around \$25 in currency and a large ring of keys. The boy was picked up at the depot and the keys were found under the loading platform. Only five dollars of the money was recovered as he had spent the rest on a pair of boots and for a ring. The robbery took place while the management of the hotel was in the back of the building for only a few minutes.

He is being held at the county jail and will probably be tried before Judge R. Y. King some time today.

## Hedley Lions To Feature Free Show And Bond Rally Friday Night

Rev. C. R. LeMond, member of the Hedley Lions Club and a visitor in Clarendon Tuesday, announced that their club was sponsoring a Free Show and Bond Rally at the Hedley High School Auditorium Friday night, Sept. 24 at 8:30 p. m.

There will be music, songs and other entertainment along with the auctioning off of many prizes to the highest bond bidders.

The Hedley Club has a membership of 73 and they say that they are going to put over the bond quota in their end of the county, and according to their past accomplishment, we join in saying that they can do the job if anyone possibly can.

If you are in the market for some clean wholesome fun - and War Bond or two - just get you a bunch together and drive down to Hedley Friday night.

Mr. and Mrs. Frank White Sr. and small grandson, Bernie Benson, visited their son Rufus White at Denver the week end, returning home Monday. Rufus is stationed at Fitzsimmons Hospital.

### LEAVES FOR SEA DUTY

Marshall B. Morris, son of Mrs. R. M. Morris who has been home on a 30-day furlough visiting his mother and other relatives, left Tuesday for Oakland, Calif.

## Local Club Show to Receive High Premiums

The sales committee of the Club Boys Fall Pig Show to be held October 1st, have announced that a very satisfactory sale of all prize winning animals has been promised by the merchants and individuals of Clarendon. The committee is composed of Burt Mayfield, chairman, E. S. Ballew, R. E. Drennan, Lee Bell, and Bill Weatherly.

Local merchants are proud of the outstanding records compiled by the local club youths and are always ready to support the local youths if at all possible.

## Fall Swine Show Date Changed To Friday, October First

### FARM SECURITY OFFICE TO BE CLOSED MONDAY AND TUESDAY

It has been announced this week that the Farm Security office will be closed all day Monday and Tuesday of next week.

Office personnel are scheduled to attend a district meeting at Amarillo during that period.

## J. L. Hall Services To Be Held Friday

Funeral services are to be held Friday afternoon at 3:30 at the Church of Christ for Johnnie Lee Hall, with M. F. Manchester, local pastor, officiating.

Mr. Hall, a long time resident and prominent farmer of Donley county, and a resident of Amarillo for the past year, passed away at his home there Tuesday, Sept. 21, at the age of 46.

Survivors include his wife, two sons, Sgt. David F. Hall of Geneva, Neb., and Wayne Hall of Amarillo; five daughters, Mrs. Carl Weller, Mrs. Lloyd Marshall, Mrs. Jack Doegen and Miss Dorothy Nell Hall, all of Amarillo, and Mrs. Floyd Wardlow of Marfa; his parents, Mr. and Mrs. D. L. Hall of Alameda; five sisters, Mrs. Thelma Phillips of Amarillo, Mrs. J. R. Bryant of Alameda, Mrs. John Clemmons of Compton, Cal., Mrs. Bernice Shiemwell of San Antonio and Mrs. Howard Bronner of Lefors; six brothers, Marvin and Everitt Hall of Alameda, Frank, Donley and Houston Hall of San Antonio and Fred Hall of Compton, Cal.

Pallbearers will be R. E. Drennan, Bill Adams, R. O. Thomas, F. B. Thomas, W. B. Mayfield and C. L. Knight.

Interment will be in Citizens cemetery under the direction of Womack Funeral Home.

### OIL NEWS ALONG MAIN STREET

Street talk has quieted down considerably this week regarding the oil well south of town. We must not have a well yet as there seems to be no shouting.

Rumors have it that there is oil in the hole but on the other hand, it has been talked around that the rotary equipment is to be moved today to a new location on the Broome Ranch in the east end of the county and further talk that standard equipment will be placed on the hole and that operations will continue. The writer still hopes that we get a producing well but I guess we will just have to wait and see what the future has to offer.

### GRAND JURY NAMED FOR NEW OCTOBER TERM OF DISTRICT COURT

Those that have been named to appear at the district court room on October 4th at 10 a. m. are:

W. L. Clappitt, Ralph Grady, J. M. Graham, Edwin Baley, J. A. Stewart, E. L. Lamb, D. M. Cook, G. C. Brinson, C. A. Crow, W. H. Clay, C. E. Bairfield, C. D. Walker, R. O. Thomas, O. C. Watson, J. B. Masterson and W. O. Hommel.

Wilma Dee Smith, teacher in the Dumas school system, was home over the week end visiting her parents, Mr. and Mrs. D. Smith.

## Farmers Asked To Keep Record of Cotton Production

Farmers are asked to keep records of their 1943 cotton production, and it is highly important that these records be kept accurately, according to Mr. Simmons, Chairman of the Donley County AAA Committee.

Mr. Simmons explained that in past years, ginners have cooperated with the AAA by furnishing detailed records of cotton production for each farm, but that this year these records will not be obtained from ginners, due to the suspension of marketing quotas.

In the past, the records of production have served as a basis for determining the yields used in marketing quota programs, crop insurance programs and in determining AAA payments.

"It is a farmer's best interest that an accurate record of his 1943 cotton production be kept because this record may be needed in future AAA programs," Mr. Simmons said. He said that each farmer should keep each gin ticket, bale receipt, or sales ticket for baled cotton and for lots of seed cotton sold. The AAA has offered to keep these records for any farmer who wishes to deliver or mail them to the county office.

County Agent H. M. Breedlove announced this morning that the Donley County Show Board met in his office Sept. 20th and decided to set the date of the fall pig show on the first of October instead of the Eighth as first set. The change of the date from the Eighth to the First of October was necessary in order to facilitate the marketing of the hogs.

The show will be held in the Bert Mayfield hog pens near the Consumers Cooperative at the edge of town on the Memphis road. The hogs will be sold at auction after the show.

This is an annual event for the FFA and 4-H club boys of Donley county. There are two shows held annually in Donley county—the fall pig show and the Donley County Fat Stock Show in March of each year. These shows give the club boys a chance to show how they are progressing with their feeding demonstrations as well as supplying beef and pork for the armed forces.

Everyone is invited to come to the show and look over the swine demonstrations on feeding to be held October 1st. The premium list was not complete at the writing of this article but all of the money donated by the people and business men of Donley County will go as premiums on the sale of the hogs.

"The hogs will be sold in the order that they place in the show," Breedlove stated, "so it is to the interest of each boy to have his animal in the best possible shape so that it will have a good sale number. Let's all come out on the first of October at nine o'clock in the morning and see the show open and the judging start."

The judge for the occasion will be Leon Ranson, County agent of Armstrong County.

### REMOSE BENEFITS SCHOOL FUND

Supt. H. T. Burton of the local schools was more than astounded Wednesday morning when he opened a letter bearing a Lubbock mailing date. The thing that astounded Mr. Burton was the fact that the letter contained \$10.

In the explanation, the remitter stated that he stole the weights off the scales in the school science department while a student here in 1929. "I am sending you this ten dollars hoping that it will pay for the new weights you had to buy, and am sending the weights I took away under separate mail." This young man is in the service at this time. A boyish prank corrected as he grew older—as it were.

Mrs. Berney who has been with her sister, Mrs. A. A. Mayes, for several months was accompanied by Mrs. Mayes and left for her home Thursday in Burlington, Alabama by way of Nashville, Tenn., where they will visit a while. Mrs. Mayes intends to be away most of the winter.

## FFA Youths To Present Outstanding Swine Show Here October 1st

A well balanced show of outstanding pigs will be presented by members of the Clarendon F.F.A. Chapter on October 1st, according to J. R. Gillham, local F.F.A. Adviser. The number of pigs will be slightly smaller than last fall due to the less favorable feed-hog price ratio, but the quality of the animals will be on the same high plane as in the past.

Jack Ballew, J. B. Knight, Charlie Sullivan, Herman Moore, Joe and Mike Smith, Billy Jack and Marvin Jordan, Billy Joe Christie, and James Vick will exhibit hampshires, Marvin Jordan, Gene and Jr. Bulman, H. A. Harri-

son, Max Mays, Gene White, and Joe Tom Lovell will show Poland Chinas. Durocs will be on display by Gene Harrison, F. G. Crofford, Harold Darby, and J. B. Knight, and Joe and Jim Lovell. Don Thornberry, Max Mays, and Jim Lovell will exhibit spots. Joe and Mike Smith, Billie Joe Marshall, Marvin Jordan and Spier will exhibit chester whites. Berkshires and crossbred pigs will be shown by Joe Carroll Smith, Joe Lovell, Don Thornberry, and Nelson and Drew Christie.

The show will be held at the hog buying pens of Burt Mayfield in the east part of Clarendon.

Public Should See That Sanitation Is Carried Out

"Texas health officials are making every effort to improve the sanitary conditions of public eating places, and in addition schools are conducted to instruct food-handlers. Moreover there are laws, rules, and regulations requiring the use of approved equipment and methods in such establishments. Nevertheless, one of the most forceful influences for sanitation is not being used and that is the public's unfavorable reaction toward dirty and insanitary places," states Dr. Geo. W. Cox, State Health Officer.

"The public cannot do the job entirely, nor can health departments bring about desirable and essential practices without the help of the public. As for hygienic practices, persons serving food and drink should be clean; should not cough and sneeze over the utensils and material served; should keep their hands away from their mouth and nose, hair and face; should handle all utensils by the outside instead of putting their fingers on the inside of service utensils. These are conditions a person can see, and unless these safeguards are practiced, disease may result."

Also milk served can be appraised by the patron. Texas law requires that a milk bottle cap state grade of milk and whether it is raw or pasteurized. However, if milk is brought to a patron in a

glass, he cannot know whether it is from a graded supply or whether it is raw or pasteurized, but if served properly in its original container, with covered cap and legal label, the patron can secure from the label the information he should have before ever being willing to drink strange milk.

The patron should note sanitation conditions in food establishments. Are the floors, walls, ceiling clean? Are tables and counters clean? Are pies and other ready-to-serve foods protected from dust, dirt, and flies? Are flies prevalent?

"Be assured that what can be seen as a patron at the table or counter usually will be many times better, cleaner, and safer than conditions in the kitchen and other places out of sight of the patron," Dr. Cox warns.

Texas Women Replace Men In Service

Texas women wearing the uniform of their country have replaced nearly 5,000 men for combat duty. Included in this number are members of the WAC, WAVES, SPARS, Marines, and WAFFS.

Of this number of Texas women in uniform, 3,441 are members of the Women's Army Corps. Overall strength of the WAC now reaches 65,000. The Eighth Service Command, which includes Texas, ranks third in the nation in the procurement of recruits for the Women's Army Corps.

MAIL

OVERSEAS XMAS PACKAGES SEPT. 15 to OCT. 15

RULES FOR MAILING CHRISTMAS PACKAGES TO SOLDIERS OVERSEAS

TIME OF MAILING—Gift packages may be mailed to American soldiers overseas without presentation of a request from the soldier during the period from September 15 to October 15.

SIZE AND WEIGHT—Packages must not exceed five pounds in weight, 15 inches in length and 36 inches in length and girth combined.

LIMITATIONS—Only one such package will be accepted for mailing by or on behalf of the same person or concern to the same addressee during any one week. It should be indorsed "Christmas Gift Parcel". Perishable matter will not be accepted.

ADDRESSING—Write legibly and give full name, Army serial number, service organization and unit, APO number of addressee and the post office through which parcels are to be routed.

PREPARATION—It is absolutely necessary that articles be packed in substantial boxes or containers and that various gifts in a combination be securely fitted. Pointed or sharp-edged instruments should be protected. Candies in thin pasteboard boxes should be enclosed in wood, metal or corrugated pasteboard.

POSTAGE—The rate on parcels of fourth class matter (exceeding eight ounces) is the zone rate applicable from post offices where mailed to the post office in care of which parcel is addressed. The third class rate of one and one-half cents for each two ounces applies to package not exceeding eight ounces. Parcels containing only books are acceptable at the special rate of three cents a pound. Inscriptions such as "Merry Christmas" or "Don't Open Until Christmas" may be placed on the covering but should not interfere with the address.

The West Texas Recruiting and Induction District under the command of Lt. Colonel Marvin B. Durette, has furnished well over 500 recruits for the Women's Army Corps.

An extensive recruiting campaign will soon be underway. General George C. Marshall has asked the governors of the 48 states to head as many recruiting campaigns for the Women's Army Corps. The Chief of Staff asserted WACs are needed to replace soldiers now performing jobs which women can do, and urged the governors to recruit women volunteers "to equal the total battle casualties of the Army to date"—more than 70,000.

In a statement from one army official urging women to heed the recruiting call, it was said that "the casualties resulting from the heavy fighting in Italy and in the Pacific emphasize the need at this time."

Bigger Crops From Liquid Fertilizer

A conservative estimate is that "changing from dry to liquid fertilizer would increase the nation's annual production of tomatoes by 200 to 500 thousand tons," Wallace S. Moreland, of New Brunswick, N. J., assistant to the president of Rutgers University, declared in a General Electric Science Forum address.

Mr. Moreland, former New Jersey Extension Service editor, said that two scientists who pioneered in liquid fertilizer research, Dr. Victor A. Tiedjens and Professor Lyman G. Schermerhorn of the New Jersey Agricultural Experiment Station at Rutgers, also believe "liquid fertilizer would increase our sweet potato crop by 10 to 20 million bushels."

"They are of the opinion that equally significant increases could be obtained with many another vegetable crop," Mr. Moreland said. "This method of fertilization is one that can be utilized with equal facility by the commercial vegetable grower and the victory gardener. For each, liquid fertilizer is the key to more food from the same crop area at lower cost."

"You take any chemical fertilizer that we are accustomed to ap-

ply to the soil in the dry state, mix it with water, and you have liquid fertilizer," he explained. He said there is "less plant injury from fertilizer," because the roots are not burned, and "bigger crops from the same area, and less fertilizer is required to make the bigger crop." Experiments have proved this, he said.

VICTORY GARDENERS SET RECORD

Twenty million Victory Gardens—two million more than the goal set last spring—were grown this year, Claude R. Wickard, Secretary of Agriculture, said in a recent radio address. The Secretary said the Victory Gardens total about four million acres and will produce eight million tons of food. In speaking of the goal of 22 million gardens for next year, Wickard said, "Last year at this time we were concerned over the possibility that we would not have enough garden seed and fertilizer for all who wanted to grow gardens—our best information is that we shall have an ample supply of both next year. We are expecting a better supply of garden tools and equipment for spraying and dusting. Victory Garden production should set another new record in 1944."

One hundred tin cans will provide the steel used in a 100 lb. bomb.

**TRAGEDIES.**  
Some fellows mellow with age. Others become a public nuisance by trying to find something to criticize in the lives of others.

**UNTRUTH.**  
Some folks say "more people rust out than wear out." I know a man who has lost four good wives in the last twenty years by hard work.

**DIRTY SPOON CAFE.**  
"Aren't these eggs a bit stale, miss?"  
"Don't ask me," replied the waiter. "I just laid the table."

**COLORED STUFF.**

Any way, we don't see any speeding any more. Another thing! Several hundred people in Texas are living today instead of being swept off the highway a corpse.

**DEFINED.**  
All the world may be a stage to some folks. But to many of us, it is merely a work bench.

**HOPE.**  
Having read so much about civilization, it might be a good idea. Why doesn't some one start it?

**BATTLE FRONT.**  
The second battle front opened in Texas last week when Attorney General Gerald Mann opened his guns on the loan sharks who have apparently refused to obey the loan shark law passed by the last legislature. Many a short loan has become a hoary-headed old rascal before the loan shark lost track of the victim. Many of the loans were never paid in full according to the lender. The more the borrower paid, the farther he was in debt. Go to 'em Gerry!

**TOWNSEND PLAN.**  
Old Doc Townsend lost his alsy when he proposed a \$200 a month pension. He lost because the old folks could hang around a war plant and draw \$300 a month for doing nothing. Where is old Doc now, anyway?

## 1926 BOOK CLUB

In the home of Mrs. John Knorpp, with Mrs. Bill Bromley co-hostess, the 1926 Book Club met in regular session Tuesday afternoon. Mrs. W. E. Ray, president, presided over the business meeting and led the program which was on the short story.

A paper giving the development of the short story had been prepared by Mrs. B. G. Watson, but in her absence, was read by Mrs. C. M. Lowry. "The Devil and Daniel Webster," a story by Stephen Vincent Benet was given by Mrs. Stewart. "A Rose for Emily" by Henry Faulker was given by Mrs. Phelan. Both stories proved to be outstanding in interest and were remarkably well received.

The hostesses served refreshments from the lace-covered dining table, centered with fall flowers to the following guests and members:

Mrs. John Blocker Jr., Mrs. Ted Hess, and Mrs. Carroll Knorpp, guests.

Mesdames W. E. Ray, Phelan, Gordon Stewart, Bill Thornberry, C. M. Lowry, John Gillham, E. S. Ballew, Alfred McMurtry, C. B. Morris, Delene Bagby, Rayburn Smith, C. E. Bairfield, Ralph Porter, L. T. Shelton, Don Grady, L. N. Cox, and Miss Lucile Polk.

Our meeting closed with Bro. Leet and the last day, last Sunday, we had a splendid day. The crusade emphasizing Stewardship ended with thirty-five signers to the covenant to pay ten per cent into the Lord's work and missionary activities. Our work goes on with a new emphasis. So we will expect the record number to be in evidence next Sunday. Do not lose the effect of your resolution, you made to the Lord.

The church school will meet at 10 a. m. Be there and with a smile of helpfulness. Church services at 11 a. m. and evening services at 8:30. It will be a mighty help to the pastor and the church in general. You do not need an invitation, you are one with us.

## Marines Again Enlisting Youths 17 Years Old

The U. S. Marine Corps Recruiting Officers at Lubbock, Texas inform us that word has been received from their headquarters at El Paso that enlistments for 17 year old young men will be resumed until further notice. Any young man who is physically fit, can obtain their parents consent and furnish a birth certificate may make application through the Lubbock office of the Marine Corps. If accepted at Lubbock all men will be sent to El Paso for further examination and then on to San Diego, California for training. Upon completion of "Boot" training they will be assigned to one of the many duties and stations of the Marines throughout the world. Apply now at Room 217, Post Office Building, Lubbock, Texas or write for questionnaire which will be mailed you immediately.

Women from 20 to 36 years of age are also being accepted to replace "Leathernecks" for active duty. Many positions are open to women with exceptionally good pay and everything furnished. Those interested may write the U. S. Marine Corps Recruiting Office at Lubbock for more information. One thousand applications are anticipated for the West Texas area. Women this is your big chance to help win this war by freeing a fighting "Leatherneck" to fight.

Mrs. A. L. Chase is visiting with her daughter and family, Mr. and Mrs. Keith Stegall at Kings Mill this week.

**MORE GOODS FOR CIVILIANS**

Civilians will soon get more cooking utensils, lamps, lanterns, bed springs, innerspring mattresses, non-electric razors, razor blades, plated silverware, brushes, nails, tacks, boilers, radiators, furnaces, screen cloth and other kitchen and household articles as a result of a recent WPB directive, which reserved a portion of the production of approximately 30 types of products for civilian use. The directive prohibits government agencies from buying goods set aside for civilians.

WASHINGTON — NAVY CONGRATULATIONS TO GENERAL MOTORS are voiced by Rear Admiral Ralph E. Davison, Acting Chief of the Bureau of Aeronautics, for the company's "splendid record of achievement" during the last year in turning out "many hundreds" of warplanes which have contributed much to Naval aviation's victories.

the latter described by the Navy as the finest torpedo bombers in the world — as it produced in a week only a few months ago. Production in the last six months is nearly 1,000 per cent greater than it was during the previous six months, while its original contract has been boosted 130 per cent. **Big Farm Income Points to Large War Bond Sales**

With their cash income for 1943 estimated to be approximately 20 percent more than in 1942 and more than twice as much as the five-year average, 1935-39, farmers have a War Bond quota this year of 1½ billion dollars in the 15 billion dollar Third War Loan drive, which began September 9 and will continue through the month.

During the campaign canvassers plan to call upon at least 3,600,000 of the nation's 6 million farm homes and leave either with an order for Third War Loan bonds or a definite schedule of bond purchases.

Farmers' income figures point to big bond subscriptions. Farmers' estimated cash income of 19 billion dollars from marketings this year shows big increases over the approximately 15½ billion dollars they reached in 1942 or the five-year annual average for 1935-39 of slightly less than 8 billion dollars.

The Third War Loan comes at an appropriate time for farmers. More than 40 percent of their cash income is received during the last four months of the year. The 1935-39 average percentage of farmers' annual cash income received during September, October, November, and December, was nearly 42 percent, according to the Bureau of Agricultural Economics. In the last four months of 1942 farmers received 45 percent of the year's cash income. "Farmers have the money and they are convinced of the wisdom of investing their surplus in government securities," declared Lloyd E. Partain, associate field director in charge of the agricultural section, War Finance Division, U. S. Treasury. "The task of county war loan committee chairmen should be easy."

"Agricultural income has increased and indebtedness has decreased since 1940, the last 'normal' year," Partain pointed out. "Country banks are bursting with idle money, with demand deposits in the neighborhood of 4 billion dollars."

Partain said that "world demand for food and fiber will continue for at least two years after the war" but that a decline may then be anticipated. In the period that follows, War Bonds will prove of inestimable value.

"Our present pressure for maximum production is taking heavy toll of soil fertility, equipment, and buildings which must eventually be replaced. War bonds can furnish the funds to make these replacements."

"A second powerful argument for the farmer investing in War Bonds," Partain said, "is to insure the satisfaction of his family's needs. A surprisingly small percentage of the nation's farm homes are equipped with electricity, running water, bathrooms, and various other conveniences. The farmer feels that his wife is entitled to an electric washing machine, an ironer, and a refrigerator. He will want a new car and a late model radio—all of which may be bought by laying away war bonds now to pay for these things when such products again are available."

A third reason the farmer is sold on War Bonds, Partain pointed out, is that they provide insurance against the "hazard years." "The farmer knows that he can stake the labor and capital investment of a year and lose it all in a single ice storm or dry spell or to any one of a score of bugs and blights which plague him. Bonds offer a protection against such adversity."

"Finally, the farmer wants to insure a good education and start in life for his children and a comfortable retirement for himself and his wife, and War Bonds he regards as endowment policies backed by the limitless resources of the United States government."

## Housewives And Children Entering Employment Faster Than Ever

"Housewives and school children comprise the largest percentage of the workers who have lately entered into employment covered by the Social Security Act," according to Dewey Reed, manager of the Amarillo field office of the Social Security Board. In a survey made recently it was indicated that these two groups jointly represent 70 percent of all workers who are entering "covered" employment for the first time. Almost 88 percent of the male applicants for social security account numbers under age 20 were school children and about 70 per cent of the female applicants were also of school age.

"These figures would indicate that America is all out for victory. We realize that in many instances workers who are becoming employed for the first time do not know that a social security number is necessary. Therefore, if an employer does not request to see a worker's card, the worker should ask the employer whether he pays social security tax and whether or not a card is necessary. Most industrial and commercial work is covered employment. The local office of the Board will be glad to assist any worker in determining whether or not he needs a card and to issue one if necessary."

Workers from non-covered employment, Reed explained, have contributed considerably to the increase in employees covered by the Act; 29 per cent of the new workers have been from this group, which consists of government employment and non-profit organizations, domestic service and agricultural employment. The remaining 1 per cent are retired workers who have now returned to work.

Workers are urged to obtain cards if working in covered employment so that they may have all wages properly credited to their accounts.

## Farmers Get More Copper Wire

Allotment of an additional 75,000 pounds of copper wire for farmstead wiring in Texas was announced this week by the State USDA War Board.

Already being distributed to farmers through county USDA war boards is the initial allotment of 59,000 pounds allotted for July, August and September. The new allotment represents the third quarterly installment which is distributed for agricultural purposes.

Bureau of Public Relations U. S. War Department  
**BRINGING THE STARS AND STRIPES TO MUNDA**—When General Douglas MacArthur on August 6 announced the occupation of Munda 38 days after the Americans invaded the Central Solomons, he referred to the operation of a "splendid performance and complete victory." Members of units of three famous fighting divisions of the Army shared in the glory. They were the soldiers from Maine, Connecticut, Rhode Island and Vermont, composing the 43d Division; seasoned troops from Ohio in 37th (Buckeye) Division, and boys from nearly every state in the Union who are serving in the 25th Division. tributed for agricultural purposes.

Explaining the copper wire program, the state board said that approval for farmstead wiring will be given only for essential needs which will add to the Food for Freedom program, or save labor on the farm. All applications are made through the 254 county USDA war boards.

New users of electricity must qualify for power line extensions before they will be eligible for copper wire under the new distribution program. To be eligible for power line extensions, applicants must have a specified number of animal units and be within reasonable distance from a power line.

Old users of electricity who wish to extend electrical service on their farms are required to meet the same standards as new users, the board pointed out.

### SUMMER'S GOING

The wind brings loneliness to-day, For it's September and summer has gone away.

The leaves on trees are yellow And the grass is turning sear. The farewells to summer are already here.

The birds do not sing quite so much, Nor the water in the brook flow with a rush.

The sun does not shine quite so warm, And the season has past for the sudden storms.

Fruits and vegetables are being gathered in; The grain is garnered and stored in the bin;

The squirrels are moving in their store of nuts; The beavers are building their winter's huts;

The swimming hole will soon become cool; The young folks will soon be playing bridge and pool.

The pumpkins are yellow and ready to slice; And the housewife will soon refuse to take ice.

Seamstress are busy plying their needles and thread, Making warm shirts for Willie and Ned.

Then, "Farewell sweet summer as you're going away, We will soon be welcoming October first day."

—Mrs. L. F. Bones, Clarendon, Texas

Army Ordnance troops in India must load the bomb racks of B-25 Mitchell medium bombers in the morning. During the day it gets as hot as 160 degrees. In the evening, the planes are too hot to handle. (In combat, the Japs think so too).

By next January the United States will have built in two years the equivalent of more than a third of all the blue water merchant marine tonnage in the world before the war began.

### CIVIL SERVICE ANNOUNCEMENT

With the weather becoming more and more a weapon of war, Uncle Sam needs additional junior observers in meteorology to record, compute and chart weather observations, Elmer G. Hayes, local civil service secretary, said today, announcing a civil service examination for this federal job.

"Applicants must have graduated from a standard four year high school or they will be required to take a general test in addition to the junior observer in meteorology aptitude examination," Mr. Hayes, said.

Persons who pass the examination will be considered for employment with Weather Bureau Stations in Arkansas, Louisiana, Oklahoma, Texas and New Mexico.

The minimum age limit for this position is 17 years. There is no maximum.

"Appointees will be given instruction in weather observing, weather coding, and the plotting

of weather data on maps during their training period with a starting salary of \$1440 a year plus overtime," Mr. Hayes, explained. "Rapid advancement to \$1620 a year plus overtime is offered to those who successfully complete the training course."

Persons interested in this federal employment should secure an application at any first or second class post office and file it immediately with the director, 10th civil service region, 210 S. Harwood St., Dallas, 1, Texas.

### ESQUIRE GETS IN HOT WATER

The publisher of Esquire has been ordered to show cause why the magazine's second class mailing permit should not be suspended for printing what the post office department terms "obscene, lewd and lascivious" matter.

The department objects to certain drawings in the magazine and to an article captioned "Those Star and Garter Blues". A hearing has been scheduled for Sept. 28.

**"A LUNCH-BOX FULL Isn't Enough!"**  
for a **DEFENSE WORKER**

» » It might satisfy—but just any hastily packed box of food won't give the strength that defense workers need and must have!

» » It's those invisible little particles called "Vitamins" which have to be in that lunch box if I'm to have the "Fighting Food" that's necessary these days.

» » Those precious food elements grow in fresh fruits and vegetables; they put the goodness into meats; but they have to be protected.

» » The food in my lunch box is cooked on an electric range and stored with electric refrigeration before be-

ing combined tastefully and correctly into well-planned lunches.

» » The electric industry, under business management, anticipated the needs of defense workers years ago—in advance of the present emergency. They went to work to build—in order to supply the power for appliances which make possible the preparation and preservation of food—so necessary on both the fighting and home fronts.

### Coast Guard Wants 17 Year Old Youths

You've paused in front of the posters—you've seen yourself in the picture in that glorious blue of the Coast Guard. And your chin lifted a little, just thinking about it. For you want to serve your country. With all your heart you want to serve—to be in this war—not a bystander. It's pride. It's patriotism. It's something that breathing the free air of democracy has put into you.

**Check Your Qualifications**  
Citizenship—You must be a native born American. Or you or your parents must have naturalization papers.  
Age—Between your seventeenth birthday and eighteenth birthday. You must have the written consent of your parent or guardian. Write a letter stating your age, parents full three names, your date and place of birth, and your home address and these will be sent to you. You must also have a birth certificate.  
Physical—You must pass a Coast Guard physical examination to show that you are in sound health.  
If you can meet these requirements there is a place waiting for

you in the United States Coast Guard. Write or come in to the United States Coast Guard Recruiting Office, Room 215, P. O. Box 1142, Lubbock, Texas. A free booklet about the Coast Guard will be sent to you on request.

### Farmers Get Small Engines

Texas' 254 county farm rationing committees now are assisting farmers in obtaining small engines needed in essential food production.

Issued through preference ratings instead of rationing certificates, the air and liquid cooled internal combustion engines of 20-horsepower and under will be distributed for maximum production of essential crops, livestock, livestock products, poultry and eggs. Since production of small engines is estimated to be sufficient to meet all essential needs, state and county quotas will not be established, B. F. Vance, chairman, Texas USDA war board, said. The only control distribution, he added, will be made by county rationing committees, which will issue AA-2 preference rating certificates for purchase of machines by farmers. Dealers will use the certificates to replenish stocks.

The new and simplified program which removes small engines from rationing procedure also applies to replacements for farm machinery and equipment. Included in the eligible uses are engines used on farms for feed grinding, and mixing, hay chopping, elevating, silo filling, baling, harvesting, threshing, corn shelling, potato digging, spraying, dusting, water pumping and dairy operation.

### NOTIFICATION OF "NEXT OF KIN"

Notification of "next of kin" of Naval personnel killed, missing, wounded or captured—except where death occurs within the continental limits—is generally a telegram giving such available information as may be divulged. In case of death this telegram is confirmed by a letter from the Secretary of the Navy, conveying condolences and giving any additional details. Next of kin are also furnished data as to rights and benefits to which they are entitled. In

the case of a "missing" person, the next of kin receives a letter about the continuance of allotments for insurance premiums and for dependents. If the Navy receives further details of the casualty, next of kin are promptly notified.

To transport overseas the approximately 3,700 vehicles and the equipment of one armored division takes 15 Liberty ships, in addition to troopships.

The United States contributed eight million tons in new ships during its first year at war.

# They're Counting on a Victorious Peace, Too!

In training camps at home and at far away battle fronts, they are talking it over, dreaming of fulfilling unrealized ambitions in a peace-restored world where opportunity and individual enterprise are given free reign.

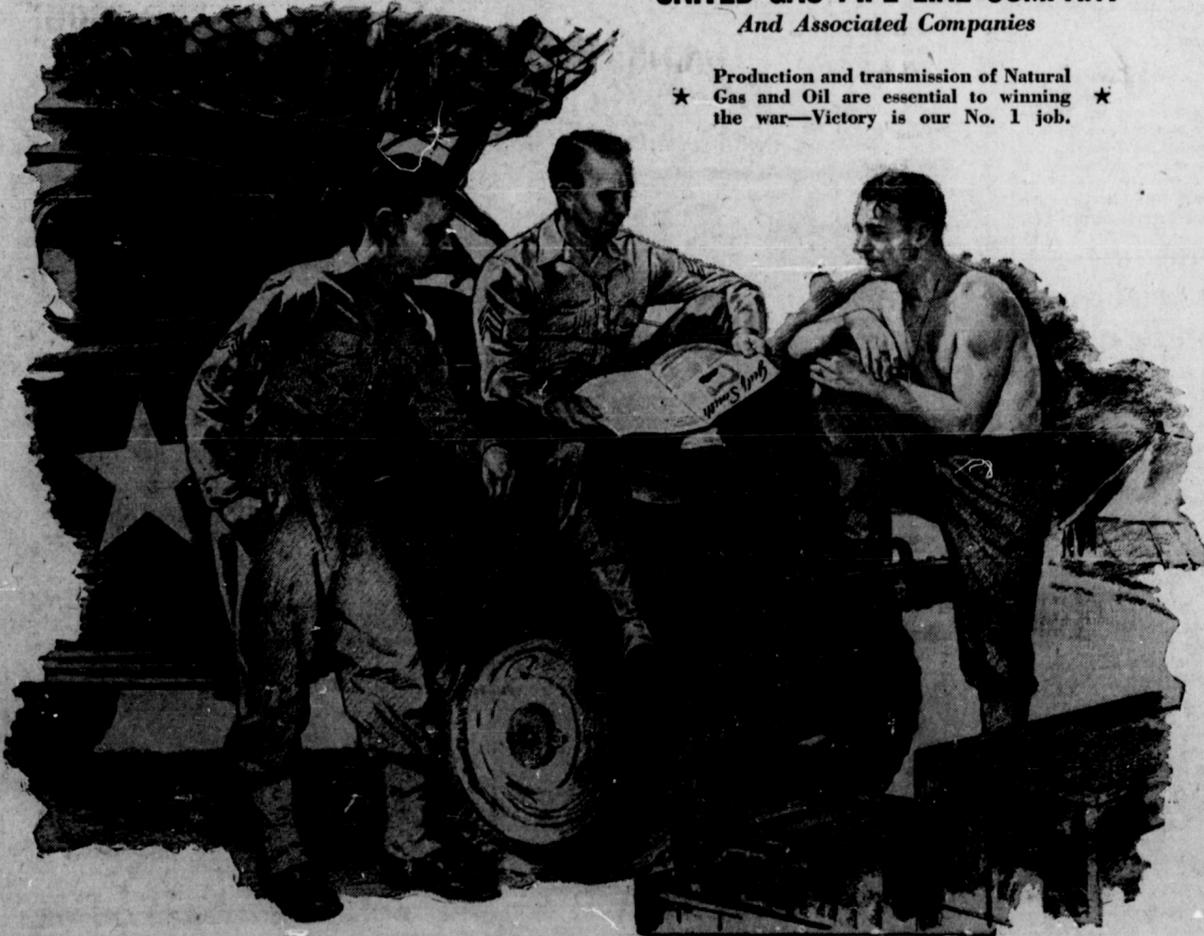

They know that their future depends on the future of America. They have confidence in that future. They believe that free enterprise . . . will make the America of tomorrow even greater. These are the thoughts that are giving them comfort and assurance . . . the courage and determination to fight for Victory in a way that soldiers of dictator nations can never understand.

Our organization, like our fighting men, is all out for Victory today. But we are planning now, with all the resources at our command, to be ready for Victory when it comes. We will welcome back our more than 800 fighting men to their old jobs, and will look forward to working shoulder to shoulder with them in preserving and extending the free enterprise system that made America great.

### Save Money Or Lives?

Making soap on the farm, long considered an act of thrift, is contrary to the patriotic spirit of the times. The question is, whether to save money or lives.

From the economical standpoint, it is cheaper to make a good quality of soap at home, explains Louise Bryant, specialist in home management for the A&M College Extension Service. But in making soap on the farm, all the glycerin which is badly needed for war purposes is lost. All glycerin, except about one per cent, is extracted from commercially made soap. That is why soap is of poorer quality than during peace time.

Valuing waste fat at about four cents a pound, Miss Bryant says home-made soap costs only about half that much, but the appeal now is for glycerin to save lives rather than to save money.

During the month of July, Texas collected less than 40 per cent of its waste fat allotment. This is one of the few war-time programs in which Texans are falling behind, and this failure is reducing the output of explosives.

Many rural families believe they do not waste any fat, but they should check themselves carefully, the specialist suggests. It is easy to let a teaspoon of fat remain in a skillet and go down the drain or into the garbage. The first principle of the government's fat salvage program is to use kitchen fats as long as they are suitable for food. But as soon as they become old, they should be turned into a fat collection center before they become rancid. The glycerin content is reduced when fats are rancid.

## Harley Sadler To Present Famous Picture Of "Ravaged Earth"

This Saturday, September 25, Harley Sadler will present at his own tent south of main street, "Ravaged Earth," a great picture from beginning to end.

Wherever "Ravaged Earth" has been shown, it has received the unanimous acclaim of press, public and pulpit. Without exception, the leading citizens of the community have endorsed it one hundred per cent, as the one picture that every red-blooded American should see.

This is the picture that tells the actual truth about what happened to our valiant allies, the Chinese, when the bestial barbarians, the Japanese, invaded this peaceful

HARLEY SADLER

country, and attempted to destroy it, body and soul. For the first time, it shows the uncensored atrocities perpetrated upon this defenseless people.

It was filmed on 16 mm film by Mark L. Moody, an American business man, who had lived in Shanghai for 23 years. Enjoying the confidences of both the Chinese and the Japs, he was able to photograph scenes which are so atrocious, they stagger the imagination. "Ravaged Earth" is definitely not entertainment—but it is the pictorial record of what actu-

## Farmers And Ranchers To Get Ammunition

Donley County farmers and ranchers may purchase during any calendar quarter 100 rounds of .22 caliber long rifle cartridges or other rim fire cartridges; 40 rounds of center fire cartridges such as .30-30 caliber and 25 rounds of any gauge shotgun shells by executing Certificate No. 4 of L-286 according to Mr. Simmons, Chairman of Donley County USDA War Board. The War Food Administration has been concerned for some time about the shortage of ammunition for use by farmers in controlling predatory animals and birds, Mr. Simmons said. The amount available for the past year has been so inadequate that many farmers have been unable to obtain the small quota permitted under War Production Board Limitation Order L-286.

A program has been adopted under which approximately 100 million shotgun shells, 12 million center fire rifle cartridges and 100 million .22 caliber rim fire cartridges will be available for distribution.

Farmers and ranchers who need ammunition should execute Certificate No. 4 which can be obtained from their dealer or from the Donley County USDA War Board. Those needing a larger amount of ammunition than can be secured by using Certificate No. 4 may purchase a special quota (50 rounds of .22 caliber long rifle cartridges, 20 center fire rifle cartridges, and 25 shotgun shells) by using certificate No. 5, provided they secure these amounts prior to October 1 or their written orders are in the hands of the dealer by that date. If a farmer or rancher needs a larger amount of ammunition than can be secured by using Certificate No. 4 and 5, he may apply to the Government Division, War Production Board, Washington, D. C., using Form PD-860.

## ATTENTION: ALL DRIVERS

The renewal period for the new type operator's license is beginning. After October 1st, some of these licenses will expire every day. It is the duty and responsibility of each driver to keep his license valid. For your assistance in this matter look on your driver's license, on the green or colored section of the license is a date stamped in red ink. For the expiration date of an operator's license, add two years to this date, one year for commercial operator's and chauffeur's.

Any person who permits his license to expire, regardless of the type license, or the circumstances, will be required to pass the standard examination for renewal.

The Driver's License Examiner will be in the County Judge's Office in the Donley County Courthouse on the Second and Fourth Tuesday of each month and will be glad to furnish any information and assistance desired in connection with the Driver's License Program.

## Test Anti-Freeze Before Re-using

Owners and operators of all types of motor vehicles who plan to use again this winter anti-freeze saved over from last winter are urged by the Office of Defense Transportation to have the liquid tested before putting it into the radiator to make certain that it is not of a harmful oil or salt (corrosive) type, that its anti-freeze strength is not impaired, and that it contains sufficient acid and rust inhibitor.

W. J. Cummings, Chief of the Vehicle Maintenance Division of ODT's Division of Motor Transport, points out that anti-freezes of the deleterious salt or oil type should not be used or re-used; if saved over from last winter they should be discarded.

With the addition of acid and rust inhibitor as needed, permanent type anti-freeze (the ethylene-glycol type) can be re-used safely as long as they have the required anti-freeze strength. They can be easily tested with a standard tester and if found weak in active anti-freeze, ethylene-glycol to give the required anti-freeze strength should be added.

Mrs. J. W. DeVlaming visited her husband at Pampa the week end.

Now that the winter is coming on, we will have many calls for used clothing. Donations were given last week by Mrs. Tom Murphy, Mrs. Joe Horn and Mrs. Jack Molesworth.

A quilt top was given by Mrs. Frank Elmore. A cash donation was received from Mrs. Charles Bugbee.

Anyone having pocket editions or this year's Reader's Digests in good condition, please call Miss

Molesworth or leave them at the library, as we need a great quantity of these magazines for our Soldier's Kits.

## DISCHARGED MEN RETURN UNIFORMS

Many honorably discharged enlisted men of the army are voluntarily returning their issued clothing to the army, thereby saving clothing stocks, according to the War Department. Former soldiers desiring to return their uniforms should address a package to the Commanding Officer of the army installation nearest their homes. The box should be marked "Attention; Quartermaster, Clothing and Equipment Classification Officer." Those who do not desire to pay the cost of transportation may return the clothing by turning over any properly addressed package, not over 30 pounds, to the nearest Railway Express Agency office for collect shipment at government expense.

Mr. and Mrs. Seldon Bagby are visiting at Dallas this week.

Mrs. Mattie Taylor of Seymour is visiting her niece, Mrs. Geo. Bagby.
