

Lack Of Interest Shown In News Campaign

THE SLOWNESS WITH WHICH THE CAMPAIGN IS OPENING SHOULD BE AN INCENTIVE FOR NEW CANDIDATES TO ENTER. THERE ARE MORE PRIZES THAN ACTIVE CANDIDATES. BLIZZARD HAS KEPT FIELD OPEN FOR LATE ENTRANTS.

The announcement in last weeks Clarendon News of a Grand "Everybody Wins" \$4,000.00 Prize Distribution created little or no interest. Two beautiful motor cars and thousands of dollars in cash are to be distributed to the active people of Clarendon and vicinity and as yet there are not as many ACTIVE candidates as there are prizes. Names of the participants were to have been announced this week, but owing to the lack of interest they will have to be published for the first time in next week's issue.

There is a splendid opportunity for live workers to enter the race and make themselves important factors and prize winners. There should be many more candidates entered. It is expected that the next day or two will bring in more. Some who have been anxious to get in but who have held back for some reason or other will no doubt be entered soon. They will come to the conclusion that they can no longer afford to remain out of this wonderful opportunity of making REAL MONEY and will send in their nomination blanks at once.

Is Your Name In? Is your name included in the list of these that are to share in this wonderful gift distribution? If not, then it is only a matter of good business judgment on your part to fill out the nomination blank in this issue and bring or mail it to The Clarendon News office at once. Everyone is starting on exactly the same footing and starting now places no handicap on any one. Spare moments diligently devoted to collecting votes the next few weeks will decide who shall claim the prizes.

Do you realize the GRAND PRIZES in this campaign are brand new Buick valued at \$1,085.00, and a Ford Sedan, valued at \$752.47, respectively representing more money earned in a year, and is more than the average head of the family many people save during a life time. Can you imagine any easier or quicker way to secure an automobile than through the offer this paper is making?

Are you aware that this contest which is just starting is open to YOU and right now is the time for you to enter the race and win one of the magnificent prizes?

Do you realize that if you are an active participant throughout the campaign YOU CANNOT LOSE—that you are guaranteed twenty per cent in cash on every subscription that you turn in?

Impossible for you to win? Not a bit of it. Someone from somewhere must claim all these wonderful awards just a few weeks from now. Someone will be driving their own new Ford Sedan or Buick, and two other will have added \$200.00 to their bank account and two others will be presented with \$100.00 each. Can you afford to stay out any longer? All in the world that is required is ambition, backed by a determination

to win. Send in your nomination blank TODAY—or better yet, call at the News office and get detailed information regarding this big prize distribution.

Remember it costs nothing to try and there is no reason why you cannot win. See that your name appears in the list next week.

Remember there is only one way to make nominations. Candidates must either nominate themselves or be nominated by some friend. The management is not going to place any names in this campaign so if you want to have your name among those from which the owners of the prizes are to be selected, the safest way is to send or bring in your nomination blank yourself.

Office Open Evenings All during the campaign the Clarendon News office will be open every evening till 9 o'clock, to answer inquiries and receive votes, etc.

Bear in mind that it will not take long to win any prize in the entire list—the campaign will be short. At its close the votes will be counted by a committee of prominent business men and they will name the prize winners.

Now Is The Time Now—RIGHT NOW is the time to begin if you want an automobile of your own. A beautiful car with a reputation for reliability and quality. If you want a car of better class and are willing to put forth a little effort there is no reason why you cannot win one.

Nearly every candidate and anyone thinking of entering will say: "Oh, I can try, but I know I can't win it." All will be of the same opinion, but the one who first decides that they can win and has the confidence to do their very best is more than likely to be proclaimed the winner. Make up your mind now to win the cars or one of the big cash prizes. Remember that subscriptions at the beginning count for more votes than later on. This is done in fairness to the ones that get out and haul at the start and will not allow anyone to step in at the last and win.

Hurry And Get In And Win Understand that every active contestant who fails to win one of the big prizes will be paid for their efforts as explained in the announcement of this big event.

The names will appear next week. Signed: E. D. PARK, Campaign Mgr.

FOUR THOUSAND DOLLARS The Clarendon News is announcing its circulation building plan which is called to the attention of the people of Donley and adjoining counties in this issue is departing from the usual custom in such enterprises and is taking the people of Donley county and surrounding territory in as partners, that is, the benefits to be derived are to be

SPRING BUILDING CAMPAIGN IS BEGINNING

REPAIR OF BRICK BUILDING ON NORTH KEARNEY STREET COMMENCES. IS FIRST OF A NUMBER OF RUMORED BUILDING ACTIVITIES.

The first of the building activities for Clarendon this spring opened here this week, when O. W. Latson commenced the repair of a brick building on North Kearney Street, which building is owned by W. A. Newlin of Amarillo. This building is north of the Cash and Carry Grocery, has stood since last April with only one wall in any condition of repair whatever. The repairs that are being done, not only include putting the building in first class shape but a material enlargement. The new structure will be 115 feet long and 25 feet wide, one story in height. The work will be finished within a few weeks.

This work represents an investment of between six and eight thousand dollars here, and is the first of building activities rumored to take place this spring; this is another evidence that 1922 bids fair to be better than was 1921. The fact that there are no vacant business buildings in Clarendon will very probably lead to the construction of some two or three others before the end of the year.

Another value of the new building is the fact that it will lessen the unsightly appearance of the corner on Kearney Street where the several buildings were swept away by fire last April.

shared with them and the plan calls for a distribution of FOUR THOUSAND DOLLARS.

The 44 years successful business of The News gives the publication and the institution it represents a character and standing in the community that only years of faithful service and work can bring and The News in this campaign will live up to that reputation of the absolute square deal and the conduct of the campaign will be on that reputation of the absolutely square deal and the conduct of the campaign will be on that basis and none other. This is a home proposition. The two beautiful automobiles, the last word in automobile perfection, have been bought from home dealers by The News and are to be given to home people, so that every dollar will represent home enterprise.

The object of the subscription campaign is to increase the circulation of The Clarendon News. It is so doing The News as a business institution will prosper; that being so why is it not perfectly logical that those who make the prosperity possible should share in it.

The opportunity that represents itself to those who will enter the contest is one that has never before been presented on anything like the magnitude or the scale with which this is presented. It would have been possible to have offered the contestants rewards for their labor, prizes of less value but that has never been the policy of The News. It is FIRST CLASS and THE BEST or NONE and that is the policy that the campaign will be run on. Every contestant may feel assured that he or she will receive honorable and fair treatment in every particular. The News is going into this campaign with the idea of strengthening the paper, making friends for the paper and business, not enemies, which could not help but result were the campaign conducted in any but the most fair, impartial and open manner.

Another point you are asked to bear in mind and that is no person is being asked to make any effort ample compensation. Every participant who complies with the conditions of the distribution is rewarded in proportion to the effort that they

NEW NON SALARIED OFFICERS FOR C. OF C.

ODOS CARAWAY, PRES. E. T. POPE, V. P., WITH EIGHT NEW DIRECTORS ASSUME POSTS FOR COMING YEAR. PLAN WORK.

Following the election of seven directors to fill seven vacancies on the board of the Chamber of Commerce, the old board met Tuesday morning, canvassed the ballot and found that Mess. E. T. Pope, Fred Story, Matt Bennett, W. M. Patman, Homer Mulkey, M. M. Noble and Jno. T. Sims, Sr., had been duly elected. They were notified of their election and called to meet for organization on Wednesday morning. At this meeting it was found that another vacancy had been created by the resignation of Crockett Taylor and his place was filled by the election of J. W. Martin. The board then voted to create another seat on the board by adding the name of W. C. Stewart. This makes the personnel of the board total thirteen. The board then went into the election of the non-salaried officers for the new year. Odos Caraway was unanimously elected president and E. T. Pope was elected vice-president.

Taking up the matter of budget for the ensuing year it was found that the majority of the membership had agreed to pay their regular monthly assessment and in some cases they had been liberally raised. It was decided to name committees to personally solicit those who had not committed themselves and prospective members for the purpose of adding a large percent increase in the working budget of the organization.

With the new blood on the board and the large program for the new year it is expected that the sum total of accomplishments of the chamber of commerce in 1922 will greatly surpass that done in the past and prove again just how indispensable is the Clarendon Chamber of Commerce.

The old members of the board who retain their seats are Mess. Tom F. Connally, Odos Caraway, E. A. Simpson and R. A. Long.

THIS TERRITORY IS VISITED BY BIG SNOW

Today Donley's prospects for a big crops are up to what they usually are due to the big snow that visited this county Monday night and Tuesday. A small snow fell Monday, but the snow that fell Monday night had completely covered the earth, and the storm continued through Tuesday. There was pretty high wind Tuesday, but not enough to drift the snow that fell in the fields. Little snow fell Tuesday afternoon, and the weather man cleared away the clouds that evening.

Tuesday's trains were several hours late due to the cuts being filled with snow, and it was necessary to run a snow plow from here north. The lowest temperature reported here Tuesday morning was three above, while about as low temperatures were reported yesterday morning.

Mrs. W. L. Richards left Friday for Amarillo, where she visited with her daughter, Mrs. J. C. McCausland.

It would have been a less expensive method for The News to have employed people to take up the matter of circulation, but that would have been a departure from the idea of profit-sharing with those who make The News possible. Instead of employing from outside sources to come to Donley county and vicinity and to have to pay them big commissions for their efforts The News prefers that what benefits and profits there are, go to the people of Clarendon and vicinity.

In making up the list of FOUR THOUSAND DOLLARS in rewards and prizes only the best has been considered and as a final work I wish to pledge my word that the contest will be absolutely, honestly and openly conducted with no room for criticism, other than favorable comment, and on that The News, and I, as owner and editor pledge myself.

Signed: S. M. BRASWELL, Owner and Editor.

KU KLUX VISIT BAPTIST CHURCH SUNDAY EVENING AND MAKE CONTRIBUTION

Without any sort of announcement four members of the Ku Klux Klan walked into the Baptist Church Sunday evening during the services and handed a letter to Rev. J. A. Smith, in the letter enclosing a contribution of fifty dollars to the church. After the klansmen had departed, Rev. Smith declared time and again that the evening was indeed a warm one. Following is the letter which was given Rev. Smith:

Clarendon, Texas, Feb. 25, 1921. To the First Baptist Church, Clarendon, Texas. "Greetings!"

Having watched for the past several weeks with keen interest your activities and efforts in building a Sunday School annex to your church, which we assume and believe is being built to provide more and better facilities to teach the present and future generations the fundamental principals of Christianity as they are revealed in God's Holy Bible.

Therefore we are desirous of expressing to you in this small material way our very high appreciation of your effort and purpose in this work by herewith enclosing \$50.00 to apply on your building fund.

This Book, the Bible to which we refer, the foundation of your faith and hope, which is the compass that directs and the wisdom that inspires you to all your rightful activities, "Likewise is ours." The Cross about which we read so much in this Bible that means so much to a sinful world, that points man to Golgotha where God's own Son paid the supreme price for the sins of all who accept the proffered mercy in His atoning blood that was shed on this cross, "Is sacred to us as it is to you."

And Old Glory, the sacred emblem of your national pride, the joy of your heart and the inspiration to your soul, which floats triumphantly throughout the land sending forth in thundering tones to all who choose to live within the realm of her domain the message of Liberty, Freedom and Honor, "This is our Flag too."

We are not here for selfish purpose, or to abuse or frighten, but rather to help you, and the other churches of the town and country to build better communities, cleaner morals, helpful habits, noble manhood, and virtuous womanhood. We then united in our purpose may go forward with a demonstration that will lift itself up like a granite mountain. Transient clouds of angry criticism may hang around its outskirts and splinter their petty lightnings on its adamant sides, foul aspersion and misrepresentation may spatter their mud and slime around its base, in the caves of its foothills a few skulking wolves of prejudice may make their den and render night hideous by their howling, but the mountain itself stands immovable and serene, no mist gathers about its summit, far above the range and rage of storms, by night the stars silver its crest, and by day its halo of sunlight will be like the smile of God.

TOO COLD FOR KU KLUX PARADE

According to a letter received at The News office today there will be no parade tonight on account of the cold. The letter reads: "The Clarendon News: Please issue the following bulletin: No Parade Tonight. Too cold. Will announce later date. Clarendon Klan No. 165, Knights of the Ku Klux Klan."

REV. HENSON PREACHES HERE TWICE SUNDAY

Rev. J. R. Henson, presiding elder of the Clarendon district, filled the pulpit at the first Methodist Church Sunday morning and evening. This was not the time of Rev. Henson's regular appointment, but he filled the place in the stead of Rev. Griswold, who was ill. Both sermons were among the best that Rev. Henson has ever preached here, and were thoroughly enjoyed by those in attendance.

CHAS. BALDWIN RETURNS FROM MARKET

Charles Baldwin returned Saturday morning from St. Louis where he purchased his spring line of goods. Mr. Baldwin says that he believes that this whole year will be a good one, and he has laid in a big line of goods and will be in shape to offer some fine bargains.

Carl Parsons received a sprained ankle Sunday evening when he jumped from a moving car. He was in Hedley at the time visiting with the Epworth League, there. He was unable to work the first part of this week.

CHAMBER OF COMMERCE ANNUAL BANQUET TRIUMPHS OVER COLD AND SNOW LAST MONDAY NIGHT

ANNUAL BANQUET OF THE LOCAL ORGANIZATION DRAWS ATTENDANCE OF ONE HUNDRED AND FIFTY IN SPITE OF WORST BLIZZARD OF WINTER. POPE AND VERNON OF AMARILLO OUT-OF-TOWN SPEAKERS.

It is possible that had the directors of the Clarendon Chamber of Commerce been able to foretell the weather for Monday night of this week that they would not have set that time for the holding of the annual get-together banquet of the organization. Being neither newcomers nor fools they reckoned not of the weather and Monday night was set as the hard and fast date for the affair, and Monday night it was in spite of the snow and cutting north wind that gripped the Panhandle country.

Of course the attendance was not what would have been present if there had been no blizzard, but the attendance of about one hundred and fifty more than exceeded the expectations of those in charge of the affair, because it proved that many more were vitally interested in the welfare of Clarendon and the organization than some had tried to imply. Those hundred and fifty citizens came to the Christian Church for that banquet because they stand firmly for Clarendon and her welfare, they came because they intend to stand four-square for the organization that is dedicated to the upbuilding of every interest of the city.

A reception committee met the guests as they assembled in the auditorium of the church and after a short social time the orchestra played Suppe's "Poet and Peasant" overture as the opening feature of the program. Secretary McCardell then announced that the tables were spread in the basement and to the majestic notes of "Soldier's Chorus" from Faust, rendered by the orchestra, the assemblage marched down to the basement where the banquet was spread under the supervision of the ladies of the Christian Church. Rev. J. A. Smith, pastor of the Baptist church delivered the invocation, after which the guests seated themselves to a very delightful repast prepared as these ladies can always prepare good things for the table. Secretary McCardell, acting as toastmaster, introduced O. V. Vernon, secretary of the Amarillo Board of City Development, who delivered a very forceful address upon the avenues of helpfulness of the Chamber of Commerce and stressing the importance of properly supporting its work. Mr. Vernon is only a young man but he has had much experience in the work and is regarded as one of the best secretaries in Texas, therefore his speech was especially enjoyed. Following Mr. Vernon, Secretary McCardell introduced Hon. Joe L. Pope, editor of the Amarillo News, who had been designated as speaker of the evening, and who came to Clarendon with a real message on community service and with special reference as to the place of supreme importance now held by such organizations in the life and growth of every live community. Mr. Pope averred with emphasis that the Chamber of Commerce was the biggest business in any city and urged that it be regarded in that light. He said that unless we think big things for our city that we will not do big things for our city. This, he declared, was the reason why insufficient financial support was given many such organizations—people failed to consider the work of the organization in the large way that it should be rated. He stressed the importance of greater thought and effort being

given to rural development, for without proper rural development, not much progress of permanent nature may be secured by Clarendon or any other city.

W. H. Patrick was the next scheduled speaker and as a banker he desired to say that he with others had been remiss in their duty to the Chamber of Commerce. Mr. Patrick declared that while the banks had always supported the organization financially they had failed to give as much time to its work as it deserved, that like many other businesses the past year had been a time when one needed to watch the home base closely, but since business had "turned the corner" for better some months ago, it now behooved every man to give more of his time and support to the projected work of the Chamber of Commerce. He spoke of the rise in value of the English pound and said that higher prices for our farm products was the direct benefit derived from that and other economic improvements. His talk was cheering and stood as a beacon light pointing the city and community on to better living conditions and sounder bases of economy.

At this time the toastmaster called for a number of members and guests for extemporaneous expressions and Mess. Connally, Morris, Cole, Long, Wilder, Smith and Bennett responded in a vein that betokened the full support of the Clarendon Chamber of Commerce and its aspirations.

As there were seven vacancies on the board of directors of the organization, a committee had prepared a list of nineteen names from which the seven vacancies were to be filled. Ballots were passed and all members or new members were asked to cast their vote for the seven men on the list as they deemed best fitted for the duties of the board of directors. After this Secretary McCardell said a graceful "good-night" to the banqueters who called it a pleasant and profitable evening and departed while the orchestra played another cutting from "Faust."

The 1922 annual banquet of the Clarendon Chamber of Commerce is history and will ever be regarded as one of the most pleasing and fruitful since its inception.

SHERIFF CAPTURES BIG STILL SUNDAY

Sheriff Rutherford captured a big still Sunday in this county near Alanreed, and destroyed about one hundred gallons of mash. The location of the still was in a large cave at the head of a canyon, and full instruments with the exception of the coil for making the whiskey were there. The evidences were that the makers had not been gone very long. Two big fifty gallon barrels of mash were working at the time of the capture and several large milk cans for cooking the mixture were left there, as well as a large number of fruit jars and bottles.

This is one of the largest stills ever captured in this county, and the sheriff says that he is on the trail of several others.

Member Clarendon Chamber of Commerce

News expects to be in the front rank when the year wears out and in still better position to serve its patrons. Clarendon is the best city in the Panhandle and The News wants to tell it to more people every week.

There is one outstanding fact connected with most cases of illicit love that comes to light through the courts of the land, and that is that most of the guilty parties in their speech and clandestine letters have called on God to witness their "love" or "fidelity" to their corresponding "soul-mates." The truth of the old statement that sex-sin causes an otherwise honorable person to commit all the sins in the calendar seems to be verified and the sin of blasphemy finds its place among the others. The mystery is that men and women can indulge in the most cursed sin possible to humanity and yet have the double wrath of God by linking His Name with their iniquity through blasphemous implication. "God is not mocked," therefore "be sure your sins will find you out."

Not long ago we heard of someone criticizing the administration of the affairs of the Chamber of Commerce. Well, what of it? Everyday somebody somewhere criticizes the old Democratic administration. Everyday somebody criticizes the Harding administration. Everyday somebody criticizes Pat Neff's administration. Everyday somebody criticizes the administration of the county affairs. It is even rumored that occasionally the city administration of the City of Clarendon is gently criticized. Nearly every business man knows that his methods are subject to criticism, but that doesn't make him take down his sign and go out of business—not by a jugful. Now the point is this—Democrats nor Republicans will cease to go forward on account of the criticism. Pat Neff will not hang his harp on the weeping willow and retire into oblivion because of little criticism. The county administration will not retire without a fight because some one was cruel enough to disagree with their course of procedure. The mayor and commissioners will not step aside just because some of the bright minds of the municipality refuse to believe that theirs is the best policy for Clarendon. And yet we think we all know some ten or a dozen who think that the mountain should come to Mahomet, and that the Clarendon Chamber of Commerce should do things their way, which by way of being translated means doing nothing, and will probably remain sore until the end of time for the same and a like reason. It doesn't amount to a darn, whether certain people approve your methods or not. If you are right, and their "knocks" will fall to the ground of their own weight. If you are right and are willing to "stand on your own bottom" as one speaker has said, with the courage to go forward over obstacles, you'll win—you'll win. There is not enough force or power behind any criticisms that is unjust to keep right from prevailing and progress from coming provided those in the right and those who stand for progress will stand hitched and "drive through."

The Clarendon Chamber of Commerce has seven new directors and a new corps of officers, with the exception of the secretary, who, by the way, is not surpassed in this section of the state, and the organization is going FORWARD for the greater good of Clarendon—and that's a program that no peewee can stop. If you are for Clarendon get on the bandwagon. If everything is not just to your liking, remember that Jonah didn't like his surroundings, but he came out all right. If you are for Clarendon you can work with anybody who wants to work for Clarendon. You may not like him personally, but if you both want to help your city you can enjoy working together for that end and ignoring the "knocks" that come from chronic "knockers."

The Clarendon News is spending a lot of money to increase its already strong list of readers and to advertise Clarendon and this paper. This course is in keeping with our policy to keep fully abreast of the times and to see to it that this city has the best and most efficient newspaper possible under these conditions. It is expensive, but 1922 is the year to make progress and The

Old Man Boreas had one awful wallop left in him after so much warm weather. Fifty odd hours of wind from the north with the mercury playing leap-frog with zero is something to be wondered at after having had so much warm weather. This is still the Panhandle—and that's what makes us all love it. Variety is still the spice of life.

Editor B. O. Brown, formerly of the Vernon Record, is now the manager and editor of the Electra News. As yet we have not seen his paper, but knowing his ability as an editor we are certain that the people of Electra will have no fault to find with their medium of publicity as directed by Mr. Brown. We wish him success in his new location.

Last week we received Vol. 1 No. 1, of Will West's new Lufkin Leader, just launched in the bustling East Texas city of Lufkin. Will West has "come to town" from Livingston and from his new paper's initial appearance it is evident that he has done a mighty good thing for himself, and we may also say that the people of Lufkin will have cause to congratulate themselves on their new paper. Gentry Dugat of Lower Rio Grande Valley fame is the editor and we think Will knew what he was doing when he hooked up with Gentry. Now for this little note we distinctly want it understood that the Leader is never to mail out without having the Clarendon News on its exchange list. Here's luck, boys.

INCOME TAX FACTS

Farmers, rangers, herders, dairymen, truck gardeners, vineyards and orchard owners, and other food producers must compute their net and gross incomes for 1921 and ascertain whether an income tax return, or a tax, or both are due. All gains, profits, and income derived from the sale or exchange of farm products, whether produced on the farm or purchased and resold, must be included in gross income. When a farmer exchanges his products for groceries, clothing, or other merchandise, the fair market value of such goods must be included. Profit received from the sale of farm land, or rent received for the use thereof, must be included.

In determining income, upon which the tax is assessed, the farmer may deduct from gross income all necessary expenses incurred in the operation of his farm during the year 1921. These include cost of cultivation, harvesting, and marketing of his crops, cost of feed and fertilizer used, amount spent in repairs to farm buildings (other than the dwelling) and to fences and machinery. Wages paid to farm hands are deductible, but not wages paid to a domestic servant, which is a personal expense.

As an aid to farmers, the Bureau of Internal Revenue has prepared a special form, 1040F, for recording sales of live stock, produce and a summary which must be attached to the individual return of income and expenses. An unmarried or widowed farmer or one living apart from his wife must file an individual return for 1921 if his net income for 1921 was \$1000 or more, or if his gross income was \$5,000 or more. If married and living with his wife on December 31, 1921, a return must be filed if his net income was \$2,000 or more, or if his gross income was \$5,000 or more.

WE AGREE WITH HIM

"Do I believe in the weekly paper?" asks Prof. Osmond Hooper of the Ohio State University. And then he answered:

"There is no agency so necessary to community progress as the weekly or semi-weekly newspaper. It is to the community what the locomotive is to the train. If the locomotive moves, the train moves. If it is stationary, so is the train. Similarly, a wide-awake, progressive newspaper makes a wide-awake, progressive community; and reasonable program of achievement that it sets and wisely works for, in the interest of all the people, can be realized. But the newspaper cannot achieve single-handed. It must have help, unstinted help of all the good people of the community. It can have no steam if there is no fire, and there can be no fire without fuel. It needs the fuel of subscriptions.

"Every subscription helps to make circulation, and circulation makes advertising a business instead of a charity. Both together make prosperity, and prosperity gives the power to push and pull for the best things in community life. If there is a weak community paper anywhere it is the fault of the persons who ought to take it but don't. Everybody with town or county pride, everybody who believes in neighborliness, ought to be a subscription agent, as well as a subscriber, for the local paper. That is the way out of town and county stagnation. "Give the local paper support, and it will give the community the things it most needs."—Mountainair Independent.

We most heartily agree with Prof. Hooper. It is a fact that all of the good things he says of the local paper of the community, and more are true. The community is more deeply indebted to the newspaper published in its confines than it realizes. Too much cannot be said of the weekly paper, for it is really an institution upon which depends many of the best things available for its territory. May the time be hastened when the appreciation of the country weekly will be increased to the fullest possible measure, for they are developers of extraordinary worth.—Amarillo News.

This is the Stove Polish YOU Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade

Black Silk Stove Polish
 Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers. All we ask is a trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality. Black Silk Stove Polish Works. Stirling, Illinois. Use Black Silk Stove Polish on Enamel or chrome, registers, stove-tops—prevents rusting. Use Black Silk Stove Polish for silver, nickel or brass. It has no equal for use on automobiles. JUST A BOY

"My mother is dead. My father is a carpenter in Kansas City. And I am going to California to pick oranges because there is no work for me at home."

This is the brief but pathetic story told in both Amarillo and Canyon City last week by the 14 year old boy whose mangled body was picked up last Friday morning beside the Santa Fe tracks in Canyon City. No one knew how it happened, no one knew who he was. But he was somebody's boy. Somebody suffered that he might live. Yes, and even though this brave little fellow died motherless and homeless, friendless, penniless and jobless, somebody suffered when his young life was crushed out, for as his body lay in the Griggs Undertaking Chapel, awaiting identification, somebody's mother came into the room, bowed in grief over his pale, cold face, then covered the dead child's form with flowers and left the chapel in silence. Some living mother had evidently lost a boy. She knew the cost of his life and its loss to the world and she tried to ease her own aching heart by doing something for his own dead mother.

But why was this child lying there dead and alone in a strange city and a strange State? Why was he 600 miles away from anyone who might have known him, struggling through life, looking for a job at 14 years of age? Answer—"His mother was dead." And evidently he had no home.

The boy seemed to be an honest little fellow so far as anyone who remembers him can recall. Just out in the world looking for something to do when he should have been in a good school somewhere. And crushed to death in a land of plenty looking for a way to support himself. There were plenty of men in Amarillo and Canyon too, who would gladly have taken care of the boy and given him a home or provided a comfortable place for him to live and work and be honest and safe, if they had only known there was such a boy. But those men had never heard of the homeless child and the child had never heard of those men. Boys do not know yet that anybody is interested in them except their mother. And that is why a boy feels utterly lost and alone in this world when he loses his mother. Most boys believe as long as they have a mother in this world they are sure of at least one friend.

The story of the fate of this boy has brought the tears to many of our eyes. And many of us had scarcely dried our eyes since we heard a few weeks ago of another boy, a Texas boy, who was choked to death in one of our own institutions. But what good do our tears do a boy after he is choked to death or crushed to death stealing a ride looking for a way to earn his living honestly.

Wouldn't it be better, wouldn't it be happier, and wouldn't it be cheaper for us all to get together in spirit some way and plan a way to save such boys no matter what is one of our own institutions. But world, just when that child fell beneath the grinding wheels of the Santa Fe train? There was something worth saying in that boy or he wouldn't have been looking for a job. Think of the nerve it must take for a 14 year old child to get out in the world, without a cent of money, without a friend to help him, without any education at that age to rely upon and try to find work enough to support himself. What would your boy do in the same con-

dition? What would you do yourself? The story said he was fairly well clad and his hands showed signs of toil. But how long would it take to make a criminal of an honest, hard working boy who was motherless, homeless, friendless, penniless and jobless?

True, the tory the boy told before his death may not be true. But this is TRUE: The boy is dead. And his body sleeps in a bed of flowers the gift of the friends of boys as it is held for identification. And unless we all learn some lesson from his life and death it will seem that he lived and died in vain. This is not the only boy that has wandered away from home, as was indicated by the telegrams received in answer to the call through the Associated Press for his parents. Scores of telegrams from all over the country poured in asking all about him. Because somebody else had a wandering boy or in the world somewhere, they knew not where. If this were the only boy it would be sad even then. But last year 650,000 other American boys left home, and their parents do not know where they are. What is the matter? What is wrong? It is the boy, the home, the parent, the community, or what is it? The problem a serious problem. Is it a social problem? Is it a national problem? If it is what are we doing to solve it? If we could save this nation, we must save its boys. Think of the joy that would come into all our lives to take the place of so much sorrow if we could only all work together to save the BOYS. But before we can ever do so very much we must learn to love a live boy with the same tenderness that we love a dead boy. It is the live boy who needs our sympathy, our kindness, our love and our flowers.—Phoebe Warner.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before breakfast if your back hurts or bladder is troubling you

No man or woman who cannot regularly make a mistake brushing the kidneys occasionally, says well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, if trouble, nervousness, dizziness, sleeplessness and many disorders come in sluggish kidneys.

The moment you feel a duce in the kidneys or your back hurt or if the urine is cloudy, offensive, if of sediment, irregular of passage attended by irritation, headaches, if trouble, get about four cups of Jad Salts from any pharmacy take a teaspoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness. Jad Salts is inexpensive and cannot injure; makes a delightful, effervescent lithia-water drink which everyone should take now and then keep the kidneys clean and active at the blood pure, thereby avoiding serious kidney complications.

PARENT-TEACHERS

Thursday, Feb. 16th, the Parent-Teachers of the public schools met in regular session at the High School.

In addition to the regular business of the Association being attended to, a very interesting lesson on "Birds" was enjoyed.

The following boys from the ninth grade took part in the program: Oliver McElyea, "Bird Sanctuaries;" David Allison, "Bird in the Bush Worth Two in the Hand;" Earl Jones, "Captive Wild Birds;" Edward Ratcliff, "Enemies of Birds;" Elmer Palmer, "Farm Help From Birds."

A pleasant social hour followed the program when refreshments were served.

The next meeting will be March 2 at 3:30 at the High School. A good program is being arranged and it is especially urged that all members attend and bring their friends. (Reported too late for last week)

Mr. and Mrs. Whit Carhart, of the J. A. Ranch, were in this city Saturday.

Paul Attberry has been ill this week at his home in the southeast part of this city.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

Hair that is dry, brittle and lustreless, is caused by a lack of sulphur in the hair. Another made up a mixture of Sulphur to keep her hair soft and beautiful, and thousands of women and men who value that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of Ely's Sage and Sulphur Compound which darkens the hair so evenly, that nobody can tell all it has been applied. It loosens a clogged scalp and draws this through, leaving one small strand of hair in the morning the gray hair is about what delights the eye. Ely's Sage and Sulphur Compound that, besides beautifying the hair after a few applications, also brings back the color and gives it an appearance of youthfulness. Ely's Sage and Sulphur Compound is a delightful hair restorative to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Dressed Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoonful at any time during the day or before retiring. It is the most effective way to break a cold and cure a grip, as it opens the pores of the skin, relieving congestions. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil. When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 35 cent bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone. Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica and lame back misery so promptly!

WHAT THE PINK BOLL WORM DOES TO LAGUNA

The Laguna district of Mexico has become the stamping ground of the pink bollworm, if pink bollworms can be said to have stamping grounds. One of the biggest cotton-growing companies in the district reports that since the advent of the pink bollworm the cotton product is worth less in staple, less in fiber strength and less in general appearance and usefulness. To quote from the report made by the management of this company:

The fiber from the damaged seed is shorter and weaker than that produced in the same boll by seed that escapes pink bollworm damage. Therefore, one boll or even one lock will produce cotton of different length of staple. If three samples are pulled from one bale of cotton they may all be different as to length and strength of staple. We only pull a sample from one side of a bale. Should a buyer pull a sample from the other side he is apt to get different results. Besides this, the percentage of stain has greatly increased, and more notes and naps, the former from small pieces of damaged seed, getting between the gin and the latter by the weak fiber twisting in the cleaners. It would be interesting to estimate the total in dollars per bale by crop, staple and class loss. It will be very high.

As pointed out in a recent special article in The Semi-Weekly Farm News, this indicates all too plainly what is in store for Texas if the pink bollworm gets in his work here. Fewer bales to the acre, fewer bolls to the stalk, less fiber and shorter fiber in the locks, irregularities in quality, stains and practically every other ill that cotton is heir to seem

TURN YOUR SPARE TIME INTO PROFIT

Are You Awake or Asleep?

Candidates who have been nominated in The Clarendon News Election are urged to wake up to the vote value of subscriptions these next few weeks. Thus far very few of those nominated have made any effort whatsoever, in the way of securing subscriptions or renewals to The Clarendon News—in fact, more subscribers have come to the News office voluntarily and read up their accounts, giving the votes to some contestant whom they happened to know, than most of the candidates have brought in. Votes accumulate very fast during this part of the campaign when the vote schedule is the highest. Wake up, candidates, don't expect your friends to do it all; make some effort yourself and you will be surprised at how easily and how fast you can pile up a big vote total—and go "over the top" for an automobile. Don't be one of those who will "wish I had" when the election is over and the big prizes distributed—start an active campaign NOW! It is doubtful if you ever will have such an opportunity for making BIG MONEY without investing one cent. If your name is not on the list of participants among whom the gigantic distribution will be made, send in your nomination blank, and get busy. It will pay you bigger in the short period of time than anything you have ever done in your life.

The Plan in Brief

The object of this distribution is twofold—primarily to increase the already large subscription lists of the News, to collect subscription payments from present or old subscribers, and at the same time to afford our friends and readers an unparalleled opportunity to profit, and in a big way, through their spare time, during the next few weeks. So, it is a plan that works both ways and to the ultimate good of all concerned. In order to gain this end quickly and advantageously, the most valuable and attractive list of prizes ever offered by a local newspaper in this section of the country has been made ready for distribution among those who participate most heartily. Ambition and energy are the only requisites for success.

The plan adopted is the fairest and most impartial conceivable. There will be no "double vote" offers, extra votes given or any other inducement whatever inaugurated during this competition. Neither will there be any long-term subscriptions accepted. The plan of the campaign is straightforward and simple and is fully outlined in this announcement. Let it be understood at the very outset that this is no "popularity" contest but a strictly legitimate competitive proposition for enterprising for enterprising men and women, and boys and girls, and one in which no element of chance enters.

HOW TO ENTER THE ELECTION

The first step, in order to become a candidate and compete for a prize, is to clip the nomination coupon appearing in this issue; fill in your name and address and mail or deliver to the campaign department of the News. This coupon entitles you or the person you might wish to nominate, to 5,000 FREE votes. These votes are given you as a starter, and speed you on your way to win. Only one such nomination coupon will be accepted for each candidate.

HOW VOTES ARE SECURED

The next step is to call on or write the campaign department for a free working outfit (consisting of a special receipt book, sample copies of the paper and other information relative to launching an active campaign). This equipped, you have but to go to your friends and neighbors, relatives and acquaintances and have them clip all the free coupons from their papers or pay up a subscription to the News through you. THAT'S ALL THERE IS TO IT. However, you will never win anything unless you make the start; and, while it will not be a very difficult matter to capture one of the big prizes, nevertheless you should start at once. You must plan out your campaign the same as any successful business man plans out his work for a season, and above everything else let no one discourage you, but stick to the finish. Anything worth having is worth striving for. A few short weeks and you may be riding in your own automobile.

It takes votes to win, and votes are secured in two ways: First, by clipping the coupons appearing in each issue of the News. Begin by gathering them now. After a short time these coupons will be reduced to a lesser number of votes. The only restriction placed on coupons is that they must be deposited at the campaign department of the News or before the expiration date printed thereon. Get your friends saving these coupons for you—they all count.

The other, and faster, way to get votes is by securing new and renewal subscriptions to the News. On each subscription turned in a certain number of votes are issued, the number varying according to the amount paid and during which "period" same are received at the campaign department (see schedule of votes elsewhere). So, you see, the more subscriptions you secure the more votes you can get and the better your chances are to capture the grand capital prize.

EARLY START MEANS EASY FINISH

The advantages of an early start are manifold. Not only do you have the full time in which to secure the winning votes, but now and up to and including March 25th, you will receive the maximum schedule of votes on subscriptions, while those who put off entering until a later date will have to take what is left. Don't lose valuable time waiting to "see what the other fellow is going to do" but pitch right in and show the "other fellow" how to do it.

- 3—The winners of the prizes will be decided by their accumulated votes, said votes being represented by ballots used on subscriptions, and by coupons clipped from the papers.
- 4—Candidates are not entitled to their own particular district or community in which he secures votes and subscriptions will be allowed to collect subscriptions and renewals as well as entirely new subscriptions and votes will be issued as he wishes.
- 5—Cash must accompany all orders where votes are desired. There will be no cash prizes in this rule. Candidates will be allowed to collect subscriptions and renewals as well as entirely new subscriptions and votes will be issued as he wishes.
- 6—Votes are free. It costs the subscriber nothing extra to vote for their favorite. Subscribers should not be asked when paying their subscriptions.
- 7—Votes cannot be purchased. Every cent accepted through the election department must represent subscription.
- 8—Votes are not transferable. Candidates cannot withdraw in favor of another candidate. Should a candidate withdraw from the race his or her votes will be canceled. Neither will it be permissible for associates to give or transfer subscriptions to another candidate. Votes on such transferred subscriptions will be subject to disqualification at the discretion of the management.
- 9—Any collusion on the part of candidates to nullify competition, or any other combination or arrangement or effort to the detriment of candidates or his newspaper will not be tolerated. Any candidate or candidate offering into or taking part in such an agreement, arrangement or effort, will forfeit all rights to a prize or commission.
- 10—Any ballots issued on subscriptions may be held in reserve and voted at the expiration of the candidates. The printed coupons appearing from week to week in the paper must be used before the expiration date appearing thereon.
- 11—In the event of a tie for any one of the prizes, a prize identical in value will be given each being contestant through the course of this newspaper, candidates varying from the rules and statements published.
- 12—No statement or promise made by any solicitor, agent, candidate varying from the rules and statements published through the course of this newspaper will be recognized by the publisher.
- 13—In case of typographical or other error, it is understood that neither the publisher nor the campaign manager shall be held responsible, except for the necessary correction upon the same.
- 14—Every candidate is an authorized agent of the News and as such may collect subscription payments from present as well as new subscribers.
- 15—Extensive of subscriptions will receive votes according to the vote schedule in effect when the first subscription was paid.
- 16—It is distinctly understood and agreed that candidates will be responsible for all monies collected and that they will remit such amounts in full at frequent intervals or on demand to the campaign department.
- 17—There will be several big prizes awarded besides a 25 percent cash commission to all ACTIVE non-prize winners of the year's subscriptions to or the will, at the discretion of the management, become disqualified and thereby forfeit all right to a prize or a commission.
- 18—To insure absolute fairness in the awarding of prizes, the race will be brought to a close under "sealed ballot" system, and will be under the personal supervision of two or more judges selected from the Advisory Board. Prizes will be sealed by the judges and sealed—will remain in the hands of a local bank, where candidates and their friends will deposit their final collections and reserve votes. And not until the race has been declared by the campaign manager, can possibly know the voting strength of the contestants, candidates which produces any possible advantage or unfairness to the contestants.
- 19—The News reserves the right to amend or add to the rules of this election if necessary for the protection of the interests of both the candidates and this newspaper. The right is also reserved to increase and add to the list of prizes.
- 20—The News guarantees fair and impartial treatment to all candidates, but should any question arise, the decision of the management will be absolute and final.
- 21—Campaign opened last week, closes April 29.
- 22—Accepting nomination candidates agree to abide by above conditions.

TO THE PUBLIC

The News is giving this mammoth prize election, and the management of this newspaper positively guarantees absolute fair and impartial treatment to all who participate. This is really the most worthy and offering ever made the newspaper reading public of Texas, and especially to secure, without any penny of cost, prizes that would ordinarily take months, even years of self-denial and saving to acquire—and here they are offered to you in exchange for just your spare time and effort the next night but, EVERYBODY WINS in this great prize distribution, and your prize will be just as great as you wish to make it. It is really the best spare-time business proposition ever offered our readers.

ADVISORY BOARD

It is the sincere wish of this newspaper to conduct this election, from start to finish, in a fair, honorable and impartial manner. Every precaution has been taken to safeguard the interests of participants and absolute honesty in all dealings is guaranteed. However, not all wisdom lies with any one man or institution, and for that reason, an Advisory Board has been decided upon, whose functions shall be to decide any question of sufficient moment that might happen to arise during election. The personnel of the board is as follows:

DR. H. L. WILDER, Clarendon	A. A. MAYES, Mgr. Galbraith-Forth Lumber Co., Clarendon.	JOE M. WARREN, Real Estate, Clarendon.

SAMUEL ADAMS AND THE NEW ENGLAND TOWN MEETING

GEORGE WILLIAM CURTIS

The true glory of Concord as of the proudest aristocracy in all New England, was the town-meeting, the agency of American independence. No other practicable human institution has been devised or conceived to secure the just ends of local government so felicitous as the town-meeting. It brought together the rich and the poor, the good and the bad, and gave character, eloquence, and natural leadership free play. It enabled superior experience and sagacity to govern; and virtue and intelligence alone are rulers by divine right.

But one cannot speak of the New England townmeeting without recalling its great genius, the New-Englander in whom the Revolution seemed to be most fully embodied. He was not eloquent like Otis, nor scholarly like Quincy, nor all-fascinating like Warren; yet, bound heart to heart with these great men, he gathered all their separate gifts, and, adding to them his own, fused the whole in the glow of that untiring energy, that unerring perception, that sublime will, which moved before the chosen people of the colonies a pillar of cloud by day, and of fire by night. People of Massachusetts, your proud and grateful hearts outstrip my lips in pronouncing the name of Samuel Adams.

During the ten years from the passage of the Stamp Act to the day of Lexington and Concord, this poor man, in an obscure provincial town beyond the sea, was engaged with the British ministry in one of the mightiest contests that history records. Not a word in Parliament that he did not hear, nor an act in the cabinet that he did not see. With brain and heart and conscience all alive, he opposed every hostile order in council with a British precedent, and arrayed against the government of Great Britain the battery of principles impregnable with the accumulated strength of centuries of British conviction. The cold Grenville, the brilliant Townshend, the obsequious North, the reckless Hillsborough, the crafty Dartmouth, all the armed and coroneted chiefs of

INTERSCHOLASTIC MEET AT CANYON APRIL 21 AND 22.

The dates set for the district contests of the Interscholastic League are April 21st and 22nd at Canyon. Twenty-three counties are represented in this district and one hundred and fifty individual schools. The schools of this county that are members of the League are Smith, Clarendon High, Hedley High, Bray, Windy Valley, Jericho and Leila Lake.

This is fast becoming one of the outstanding features of the state educational program, and renders an invaluable service by encouraging the boys and girls to enter the various contests, which cover enough fields to let everyone give expression to his fighting spirit whether in athletics or debate.

The winners in the district contest get a trip to Austin where they meet at the State University to compete for state wide championship.

LAMONAS, NEW BREED OF CHICKENS DEVELOPED BY THE GOVERNMENT

The Lamons, the new white-egg-laying general-purpose fowl originated and being developed by the United States Department of Agriculture, made its first public appearance at the Madison Square Garden Poultry Show, held in New York from January 25 to 30, where 15 of the birds were shown in the open classes. In addition to the Lamonas, and other Government-bred fowls of standard breeds, the department put on an extensive exhibit consisting of models of poultry houses, a display of feathers of the standard breeds, appliances such as feed hoppers, brood coops, and a fatten battery. A series of panels, made up of photographs, charts, and placards, showed the more important standard breeds, the feeding of hens for egg production, the preparation of birds for exhibition, the advantages of early hatching, the improvement resulting from the use of a high quality sire, capping and castrating, culling the farm flock and the pedigree breeding of poultry.

A number of department representatives took part in the program of the show and gave information to the visitors concerning the educational exhibit. They reported an extraordinary interest on the part of the public and various poultry breeders in the Lamona breed, many persons desiring to obtain breeding birds. The department believes it necessary to perfect them still more as regards certain characteristics, and it is not likely that any will be for sale during the coming year.

EPWORTH LEAGUE HAS INTER- ESTING MISSIONARY PROGRAM

The Epworth League had an interesting missionary program Sunday evening commencing at six-fifteen. The country under study was Japan, and the program which was under the leadership of D. M. Beights, the superintendent of the fourth department, was also very instructive. Special music was furnished by a quartet composed of Messrs. Walker, Thompson, Craig, and Peoples, and a violin solo by Miss Beatrice Story.

WATERMELONS AND SEEDS USED FOR MANY PURPOSES

In its studies of the control of watermelon diseases, the United States Department of Agriculture has found that there are numerous uses for watermelons outside of their consumption as a popular fruit. Housewives have long been familiar with pickles and preserves made from watermelons. In China and other oriental countries watermelon seed is used as a table delicacy. Seedsmen in this country not only ship seed for this purpose, but also find a market for their product in the Chinese districts of New York and San Francisco. This liking for the seed is evidently not restricted to the Orient, for some years ago a well-known explorer reported an African tribe that sharpened the teeth in order to better strip the hulls from watermelon seeds. Within recent years a firm in Alabama has undertaken to manufacture vinegar from the juice and from Russia come reports that during the past few years of hardship concentrated watermelon juice has been used in place of sugar to sweeten coffee.

The production of watermelon seed is an industry by itself. In a single county in Florida approximately 7,000 acres of watermelons are grown annually for seed purposes. This one section supplies a great proportion of the watermelon seed planted in the United States, and on occasion also ships to foreign planters. In recent years shipments of seed for planting have been made to Tarsus, Asia Minor, to China, and other far-distant points.

During past years profits in our Southern watermelon industry have been severely cut, due to the effect of several destructive diseases. Anthracnose, a fungus disease of the foliage and fruit, means reduced yield and pock-marked melons that rot in the field and in the freight car. Stem end rot is a trouble that occurs in transit only, and originates with infection of the melon by the natural organism at the cut stem. Anthracnose is controlled by spraying the vines; stem-end rot by the practice of field sanitation and stem treatment. Plans are being made by the Department of Agriculture to assist growers, distributors, and carriers in the proper application of disease-control measures during the coming season.

LOCAL HOME GUARD COMPANY UNDERGO INSPECTION SOON

Word received here from Gen. John A. Edden states that the local Home Guard Company will soon undergo annual inspection by an army officer. The report made by this office will be to the War Department at Washington, and as well as the manner in which the company conducts itself, will include a statement of how the citizens are co-operating with the officers in the maintenance of the company up to standard. The officers who will make this inspection is an experienced army officer, and will have much to say that is of general and local interest. It is hoped that a number of citizens may also be met in a conference regarding the welfare of the company.

EXTRACTS FROM THE CLARCO

THE PAN BANQUET

The custom of the Panhandle Literary Society from its genesis has been to celebrate George Washington's birthday with a formal banquet. Accordingly at 8 o'clock, Feb. 22, 1922 the dining hall at the young ladies home resounded with cheerful voices, as eighty-six Pan members,—active and honoray, and several visitors marched under the red, white and blue in quest of their respective place at the welcoming table. Immediately after the crowd was quited, a short prayer was offered by Dr. Slover.

Mr. Bagby delighted the banqueters by the many courses served, some foreign, others native, but all agreeable. The ing overhead added flavor to artistically arranged colors wavy the eats and merriment to the occasion.

The first interruption came when D. M. Beights, toastmaster, introduced Miss Bess Pritchard who favored us with a vocal solo. E. L. Craig gave an appropriate toast to the occasion. The faculty members—and we were delighted at having a number of them present—were toasted to by Ella Mae Lyle, who expressed the student's sentiments toward the faculty. John H. Thompson gave a toast to ex-Pans, P. W. Walker to the Pan girls, and Lela Close gave the response. Wesley Upton toasted to the victorious girl debaters, while Katherine Patrick expressed her hopes for the commencement debaters. President Vaughtner had a vision of the societies' future, Slim Sharp remembered the Adds, Pritchard, Carhart, W. Craig and Phillips entertained the most musical with a mixed quartet, and Ina Benson charmed her hearers as she interpreted the "Society" lady.

Hon. E. A. Simpson humorously entertained the audience in his first remarks by predicting a great future for some of the Pan members both from a high view of life and promising fame in the courts (divorce courts.) But when Mr. Simpson began to touch on his subject, "Panhandleism as I know it," we were all enthused by what he said had been done and what he said had been done and what he said had been done.

Mr. Condron, the evening speaker, owing to the lateness of the hour delivered only a part of his address. But in a few remarks on "Hero Worship," he

THE ADD BANQUET

The Adds celebrated George Washington's birthday in a manner becoming to any literary society located between Passo Fundo, Brazil and the Alaskan peninsula. In years past the occasion has been celebrated by receptions and informal banquets, but this occasion was in reality, a formal affair. The occasion formally opened by the announcement of G. Jackson toastmaster, that J. R. Rich would toast to the Purple and White.

A splendid menu was served. Chicken Espangole, a very delicious soup was first served, celery and olives were also plentiful. Roast young turkey, oyster dressing, cream potatoes, French peas, cranberry jelly and white bread comprised the second course. The banqueters were next delighted by having brick ice cream and cakes placed before them. The Menu was concluded with coffee and mints. The banquet was served by the Pastime Confectionery.

The affair was occasionally spiced with a toast. Tom Connally toasted to the Old Adds, Monteith Warren to the Orthodox debaters, Betty Smalley to the Add Athletics, Faye Bennett to success of Commencement Debaters, and Bera Bowdoin to the Faculty.

Jack Cagle honored the pleasure seekers with a violin solo. Miss Mary Tomlinson gave a splendid reading, Miss Virginia Manley played a very charming solo. Both the menu and the program were splendid. Mr. Howard Beville was "Speaker of the evening." His speech was very educational and constructive as well. He gave briefly some of the good qualities of Washington and also something of the high ideals upheld by Adkisonianism.

highly entertained the audience both by the contents of his talk, and his attractive manner of delivery. He very appropriately referred to Geo. Washington as one of our heroes and said that we should regard their principles more.

But twelve o'clock always comes at least two hours too early, and so it did this time. The crowd returned to the girls' parlor, commenting on the wonderful time that had been enjoyed, and soon every one was on his way rejoicing.

ROAD BUILDING GROWN TO BIG NATIONAL INDUSTRY

Road building is one of the Nation's largest industries, according to statistics compiled by the Bureau of Public Roads, United States Department of Agriculture, and surpasses such great industries as the manufacture of steel and iron as well as the production, sale, and repair of automobiles. In December, 1920, less than 600,000 men were employed in the steel and iron industry. It is estimated that last year something like 750,000 men were engaged in making, selling and repairing automobiles. As compared with this an army of approximately 1,000,000 men labored last year throughout the road construction season in building and repairing the country's highways.

Fifty million tons of stone and gravel will be required by the 23,000 miles of Federal-aid roads either completed or under construction in the United States at the end of the present fiscal year, according to the estimates of the Bureau of Public Roads. Some idea of the quantity is given by the fact that it is equal to a million carloads. If the material were piled in one place in place in the form of a cube it would be approximately 1,000 feet in each direction, or nearly twice as high as the Washington Monument.

PAUL B. DUNKLE GOES TO BEEVILLE AS CO. AGENT

Announcement was made last week by Paul B. Dunkle, former Assistant County Agent for Ellis County, that he has accepted the position as County Agent in Bee County. Consider the Door Construction on the Buick

Personally inspect the care with which Buick bodies are built and the attention given to details which contribute so much to ownership comfort.

An important feature on all Buick Closed cars is the SOLID STEEL LUG on the doors.

This device holds the door rigid—prevents its rattling no matter how rough the roads and prevents wear to the door lock. A characteristic occurrence when the door is held only by the lock itself.

Ask your dealer to explain it to you.

DEATH OF AN OLD CITIZEN

B. C. McClelland died here Wednesday morning. He was born Nov. 3 1844, died Feb. 22, 1922. He spent 47 years of his life in Cook county Texas, and was known as a great citizen in his community. He was a man of high power, a noble friend to all who knew him. He will be missed by his friends. There will be a vacant place in his home, but he fills his space in a better world. We are glad to know he made peace with God and was waiting ready to meet his Master who called for him. We are greatly in sympathy with his loved ones. He leaves a wife and daughter to mourn his departure from his earthly home to his home in Heaven. We wish to extend our heart's best wishes and sympathy for all his loved ones and friends. May God ever be with them, guide them in the way that shall be pleasing to God and to be ready to meet him when they are called to pay the debt he has all ready paid. He and his wife have made their home with his daughter and family for the last 6 years, spending this time in Clarendon, having many friends here as well as in his old home in Cook county. We extend our heart's greatest sympathy to one and all. A friend that's known him from childhood days.

WAXABACHIE CITIZEN PRAISES THE NEWS

The News this morning received a letter from Earl Rogers, a citizen of Waxabachie, in which he praised this paper for its contents and general make up. In part he said: "It was my good fortune to receive and read with great pleasure a copy of your delightful paper. Please permit me to say—and I say it without hesitation—that it is the best paper of any town the size of Clarendon, that is to be found anywhere. I am sure the people are, and have a just cause to be, proud of their paper—and of course of their editor also. A friend sent me a copy about a week ago. It has never been my pleasure to visit your grand little city, but I hope I may sometime. I am sure when I do I shall find it to be even a more wonderful place than I have pictured—if possible."

CARD OF THANKS

We wish to thank our many friends and neighbors who manifested so much kindness during the recent illness and death of our dear husband and father, B. C. McClelland. We also wish to express our gratitude for the beautiful floral offerings.
 Mrs. B. C. McClelland.
 Mr. and Mrs. U. T. Dever and family.

Rev. J. T. Griswold was ill the latter part of last week and part of this with a bad cold and threatened with pneumonia. At this time he is able to be up and is doing well.

T. E. L. ENTERTAINED

BY MRS. MULLINS
 Mrs. L. S. Mullins was hostess to the T. E. L. Sunday school class of the Baptist Church Thursday afternoon. A delightful program consisting of a reading by Mrs. Sims, song by Mrs. Rutherford, music by Miss Fay Mullins and Mrs. Cummings, and readings by Mrs. Nelson and Mrs. Massie was rendered following which interesting contests were held in one of which Misses Roberts and Rutherford tied for honors and in the other of which Mrs. Cummings was winner. The afternoon was a most delightful one.

J. J. ALEXANDER ANNOUNCES FOR COUNTY JUDGE

J. J. Alexander this week authorizes the News to announce his candidacy for county judge subject to the action of the Democratic primary in July. Mr. Alexander is thoroughly conversant with the business of this county, having filled the office of county and district clerk very efficiently for several terms, and having been a regular attendant at court. He possesses the natural qualities of a sense of equity and justice that is essential to the judge, and will, no doubt, use this to the best advantage in deciding points that come before him. He promises, if elected, to fill the office to the very best of his ability.

CAMP FIRE GIRLS ORGANIZED HERE

Friday, night, February 17, the first official meeting of the Camp Fire Girls was held at the "Y" building under the supervision of Mrs. George Taylor and Miss Mildred Martin.

The first thing we did was to divide the bunch—those over sixteen years being in one bunch, called the Wah Wah Fay. See meaning "Firefly", those between fourteen and sixteen years in another, called the Gus To Ko Ha Ni, meaning "Girls of the Sky."

Then came the election of officers and the discussion of the year's work. The following were elected officers: Thelma McCauley, President; Ruby Lee Bennett, Secretary and Treasurer; Lummie Joye Lane, Press Reporter.

We are going to stand together, work hard, and have lots of fun. Among numerous other things that we intend to accomplish before another year "rolls 'round" is to build a club house for our meetings, and, also to take a week's camping trip. And we are going to do it too. Can we depend on your help?

What Camp Fire Girls Do

- Camp Fire girls keep healthy. They walk 35 miles a week.
- Camp Fire girls save food in the kitchen.
- Camp Fire girls refrain from candy between meals, sodas, or chewing gum—they save the money.
- Camp Fire girls raise vegetables for family use.
- Camp Fire girls can fruit and vegetables for use.
- Camp Fire girls care for little children.
- Camp Fire girls have a uniform for the same reasons that soldiers have their uniform.
- Camp Fire girls learn what to do in common emergencies.
- Camp Fire girls sing "America," " Dixie," and "The Star-Spangled Banner."
- Camp Fire girls go on hikes each week.
- Camp Fire girls go camping in the summer.

Application for Membership

The applicant must know the object and requirements of the organization, and at the monthly meeting of the Council Fire shall announce her desire to become a Camp Fire girl by repeating: "It is my desire to become a Camp Fire Girl, and to obey the Law of the Camp Fire, which is to Seek Beauty, Give Service, Furnish Knowledge, Be Trustworthy, Hold on to Health, Glorify Work, Be Happy. This Law of the Camp Fire I shall strive to follow." If you want to miss something good, don't ever take this oath.

COLLEGE-PARENT-TEACHERS

The College-Parent-Teachers' Association will meet, Monday afternoon, March 6th at three-thirty o'clock in the girls' parlor with Miss Vaughan and Mrs. Stegman as hostesses.
 Mrs. H. Lott, Sec'y, and Treas.

WEATHER AND BUSINESS

It may seem odd to declare that weather has a great deal to do with business but it does, just the same, whether we have taken the pains to know the facts about it or not.

The business world is dependent to large degree on weather conditions, and incidentally, far more than it thinks on the Weather Bureau of the United States government for the proper dissemination of information concerning them. This is true for the reason that no business lives to itself any longer, just as no community may isolate itself from the remainder of the world; and at the same time retain its relations of importance in the scheme of world affairs. The farmer, and the livestock man are in constant need of the services of the Weather Bureau, for their activities must be governed by the changes in the temperature, the moisture and other details of weather. Through the Weather Bureau, the farmer and the stockman is forewarned, which means that he is forearmed for the troublesome conditions prevalent through and in connection with an approaching storm. Or, if on the other hand and desirable one, he may with impunity go forward with his program on that basis.

What more often than the statistical facts regarding the weather of this territory is demanded from the Amarillo office? It is one of the first questions asked by prospective investors and settlers in this territory. Of course, there is a just about the reliability of the Weather Bureau forecast, just as there is about the mother-in-law, the old maid school teacher, the bachelor and other perfectly essential individuals, but that is merely a part of the game. There is marked educational value to the information that is available through the Weather Bureau for pupils may gather much knowledge of the science of meteorology and the physics of the atmosphere by taking advantage of the records and publications of the Bureau.

To the mariner, this information disseminated through the Weather Bureau is of the utmost importance, for the saving of one vessel freighted with human lives is of greater value than all of the money put into the operation of the entire service. To the aviator this information must be of greatest worth, for no fiercer can afford to hazard the dangers of unfavorable weather conditions against which he may at all times be warned through the service of the Bureau.

Year by year the appreciation of the work being accomplished by the Bureau is being heightened, and any curtailment of the services being rendered must meet with a storm of protest. The United States Weather Bureau is now recognized as one of the important functions of government and it should be increased with the passage of the years, for the people are becoming to depend upon it in a very real and practical way as an aid to their business enterprise regardless of the particular class of the same.—Amarillo News.

DEPARTMENT GIVES LIVING COST FACTS

Washington, Feb. 16. (Capital News Service).—Julius H. Barnes, former wheat director, calling attention to the rise of wheat 12 cents and corn 2 cents in a week's period says: "It is time to quit telling the farmer that he is bankrupt. It is time to quit telling industry that there is no farm market. All farm selling prices are on the up-grade."

The department of labor reports that returns from 1,423 factories, employing more than 500 persons each, indicate an almost 6 per cent gain in employment has been made since the first of the year. Nearly all industries, outside of steel, textiles and railroads, increased their labor forces. In Detroit, center of the automobile industry, the increase was 8.9 per cent; in Sioux City, Iowa, 21 per cent, and in San Francisco, 14.9 percent. Chicago was listed with a 4 percent improvement among 40 cities reporting increases. The bureau of labor statistics reports that in the past 18 months there has been a 19.5 percent cost of living drop. A further fact comes to light through reports of automobile license offices, the purchasing of new cars being justly regarded as a barometer of good times. Maryland reports a 14 percent increase in January tag sales for 1922 over the total of 1921.

PASTIME THEATRE IS SHOWING "HUMORESQUE"

Fannie Hurst's greatest story, "Humoresque," has been adapted to the screen and will be shown at the Pastime Theatre Monday and Tuesday of next week. It is a tale of youthful genius and mother-love, with the scene laid chiefly in New York's Ghettos and Fifth Avenue. Miss Hurst, as is well-known, is right at home in portraying with a realistic touch the characters of New York's humbler inhabitants, and "Humoresque" is said to contain intense heart-appeal. Humor and pathos are deftly mingled in the picture.

Mr. Mulkey is to be congratulated on bringing this splendid picture to Clarendon as new as it is. Many Clarendon people have urged that it be brought here and will thank Mr. Mulkey for his enterprise. (9c)

BOLD THIEVES STEAL CAR YESTERDAY MORNING

Bold thieves stole the car of W. F. Gilchrist from the garage on his farm near Lelia Lake yesterday morning about three o'clock. Mr. Gilchrist had locked the car in the garage but it seems had left the key in the lock. He was awakened by the noise just as the car was leaving, but did not think much about the matter as he could see the garage doors were closed; the thieves had, in fact, locked the doors. Yesterday morning Mr. Gilchrist discovered that his car was gone, and it was then that it was learned that the thieves had cut his telephone wire.

No one suspected of the crime has yet been apprehended.

Byron Alexander and family returned today from England, where they have visited for the past several months. Byron declares that there is no place that suits him like Donley county, Texas in the U. S. A.

Horace Tucker, of Electra spent the week end here with relatives and friends.

E. T. Pope, the hustling manager of the Clarendon Mercantile Company, returned Saturday from market where he laid in a large stock of spring goods. Mr. Pope has confidence in the prospects that 1922 holds forth, and will, no doubt, enjoy a good business year.
